## Abstract

**It is shown that the intention of Dabbatonmenalarz in Koran or Dajjal, which had been to appear near the Akherozzaman, is the same computer and internet.**

It seems that the purpose of casting دجال and, in Koran, also دابه من الارض is pointing to internet and computer. The description about دجال presented in Christianity and afterwards in Islam (like cases about several eyes (including ones behind head) and glass and crystal (maybe in pointing to the glass of monitors) and ... and scintillation of light and slogan and ... and bigness and ...) shows similarities to internet and computer. In Christianity, in the book 66, Satan attributes the number 666 to دجال. Meanwhile, in three other places in Torah this number has been attributed to the gift the Queen of سبا gave سليمان (and this has been endorsed by Koran) ie to a gift from a laic civilization (the Queen of سبا) to an inward civilization (سليمان). Internet and computer are in fact like gifts from a laic civilization (the West) to Islam (an inward civilization).

If we substitute the digits of 666 with their gematrical value we obtain ووو which its latin equivalent is www. And also if we write 666 in latin we'll have 666 which after rotatiting it within 180 degrees we'll have 999 which is similar to the same set of three letters ووو which its latin equivalent is www. For 999666, which according to what said can be said that is the same wwwووو, we have  $999666 = 19 \times (47 \times 1134 - 684)$  in which 1134 is the gematrical value of دابه من الارض and  $684 (= 19 \times 36)$  is the gematrical value of كومبيوتر. For this expression we have also  $999666 = 19 \times 19 \times 666 \times 4 + 19 \times 666 \times 3$  in which maybe 3 is pointing to the three letters of www.

٢٧:٨٢ و (٦) اذا (٧٠٢) وقع (١٧٦) القول (١٦٧) عليهم (١٥٥) اخرجنا (٨٥٥) لهم (٧٥) دابه (١٢) من (٩٠) الارض (١٠٣٢) تكلمهم (٥٣٥) ان (٥١) الناس (١٤٢) كانوا (٧٨) بءايتنا (٤٦٥) لا يوقنون (٢٥٣)

This verse points to a creature, created from the earth, that appears and has role in speech with the people. Some people believe that this creature is computer which through internet speaks with people. In all the other verses of Koran in which both of the words دابه and ارض have come always the speech is about دابه فى الارض which means a creature in the earth. Since we are living in the earth's atmosphere which is really a part of the earth, we are in fact living فى الارض or in the earth. But in ٢٧:٨٢ the speech is about a creature from the earth ie probably a creature made from the materials of the earth like the silicon which is the necessary basic element for making computer and is rampant in the earth. Numerical miracles of Koran were discovered through computer and were disseminated through internet speech. For the verse ٢٧:٨٢ we have  $2+7+8+2=19$  and if we write the digits of the two numbers of ٢٧:٨٢ conversely, we are guided to ٧٢:٢٨ which is a verse saying that God has control over everything and has accounted the numbers of everything: ... و احاط بما لديهم و احصى كل شىء عددا

Gematrical value of ٢٧:٨٢ is ٤٧٩٤. Gematrical value of the first part or the first seven words of the verse (و اذا وقع القول عليهم اخرجنا لهم) is ٢١٣٦. Gematrical value of the last part or the last six words of the verse (تكلمهم ان الناس كانوا بءايتنا لا يوقنون) is ١٥٢٤. For ٩٩٩٦٦٦ we have also

$٩٩٩٦٦٦ = ٣٨ \times ٧ \times (٢٧ + ٢١٣٦ + ١٥٢٤ + ٨٢) - ٣٨ \times ٣٨ \times ٢$  in which  $٣٨ (= ١٩ \times ٢)$  is the gematrical value of دجال and ٢٧ is the number of the سورة and ٨٢ is the number of the verse and ٢١٣٦ and ١٥٢٤ are in turn the gematrical values of the first and last parts of the verse.

دابه plays a basic role in ٢٧:٨٢ which apparently has a direct relation with computer or كومبيوتر having separated gematrical value as ك (٢٠) و (٦) م (٤٠) ب (٢) and the following relations, with 12 as the gematrical value of دابه and 684 as the gematrical value of كومبيوتر and 3 probably for pointing to the number of the letters in www, probably are pointing to this matter:  $٢٧ \ ١٢ \ ٨٢ = ١٩ \times ١٤٢٧٨$  and  $٦٨٤ = ١٩ \times ١٢ \times ٣$  and  $٢٠٠ \ ٤٠٠ \ ٦ \ ١٠ \ ٢ \ ٤٠ \ ٦ \ ٢٠ = ١٩ \times ١٢ \times \dots$

Does really دابه من الارض intend اينترنت? It seems that the following relation states that in ٢٧:٨٢, دابه من الارض (١١٣٤) intends اينترنت (١١١١):

$27 \ 1134 \ 1111 \ 82 = 19 \times 793$ . It is interesting that the sum of the digits of 793 is 19, and in principle 793 is equal to  $666 + 127$  in which as we saw 666 is probably the sign of دجال and 127 is the real number of the 9<sup>th</sup> سورة. 793 also appears in the separated expression of دجال, ل(٣) ا(١) ل(٣٠), د:  $30 \ 1 \ 3 \ 4 = 38 \times 793 = 38 \times (666 + 127) = 38 \times (27 + 666 + 82) + 19 \times 19 \times 2 - 19 \times 2 = 38 \times (27 + 684 + 82)$

In which 38 is the gematrical value of دجال and 684 is the gematrical value of كومبيوتر. Also if we write the separated expression of دجال conversely we'll have  $4 \ 3 \ 1 \ 30 = 38 \times 1134 + 38 = 82 \times 684 - 19 \times 684 + 38$  in which 1134 is the gematrical value of دابه من الارض and 82 is the number of the verse,

In principle considering that if really the number of the verses of the 9<sup>th</sup> سورة is 127 this fact has been proven in this era using computer (or  $19 \times 9 \times 4 = 684 =$  كومبيوتر) and has been publicized via internet, the expression  $666 = 27 + 82 + 684 - 127$  will gain more meaning for www.

That probably (1032) الارض من (90) دابه in 27:82 is the same internet دجال is also reinforced with  $27 \ 12 \ 90 \ 1032 \ 38 \ 1111 \ 82 = 19 \times \dots$ . And that substituting the expression (1032) الارض من (90) دابه in the verse with (684) كومبيوتر and writing the gematrical values of the words of the verse from left to right as  $6 \ 702 \ 176 \ 167 \ 155 \ 855 \ 75 \ 684 \ 535 \ 51 \ 142 \ 78 \ 465 \ 253$  yields a multiple of 19, and that also both substituting this expression with 684, gematrical value of كومبيوتر, and writing the gematrical values of the words of the verse from right to left with the number of the سورة at the left ( $27 \ 253 \ 465 \ 78 \ 142 \ 51 \ 535 \ 684 \ 75 \ 855 \ 155 \ 167 \ 176 \ 702 \ 6$ ) and substituting this expression with 666, referring to www, and writing the gematrical values of the words of the verse from right to left with the number of the verse at the left ( $82 \ 253 \ 465 \ 78 \ 142 \ 51 \ 535 \ 666 \ 75 \ 855 \ 155 \ 167 \ 176 \ 702 \ 6$ ) yield two multiples of 19, probably endorse the matter.

We divided this unique verse in 27<sup>th</sup> سورة into three parts of «و اذا وقع القول» with the gematrical value of 2136 and «دابه من الارض» with the gematrical value of 1134 and «تكلّمهم ان الناس كانوا بءايتنا لايوقنون» with the gematrical value of 1524. Probably this division is endorsed considering that  $27 \ 1524 \ 1134 \ 2136$  (like  $82 \ 1524 \ 1134 \ 2136 \ 27$ ) is a multiple of 19. In this state substituting 1134 with 666 (and also 684) in the form of

$27 \overline{2136} \overline{666} \overline{1524} 82$  (and  $82 \overline{1524} \overline{666} \overline{2136} 27$  and  $82 \overline{1524} \overline{684} \overline{2136}$ ) yields yet multiple of 19.
