## Abstract

In this research manuscript, the *Author* has *Enlightened Some Useful Aspects* regarding '*Optimal Business Varietization*'.

## Theory

### *Optimal Business Varietization*

By *Optimal Business Varietization*, we mean *Optimally Stationing the Business Type(s)* of concern and the *Frequencies of the Same and the Magnitudes Of Operation of the Same in Specific Locations* of concern for *Complete Social Harmony* through *Business*.

For achieving *Optimal Business Varietization*, one should first find the following:

1. All the *Types of Businesses* currently prevailing, the *Frequency of the Same, the Magnitudes of the Operation of the Same, the Locations {Latitude(s) and Longitude(s)}* of the same.
2. The *Business Demand at the Corresponding Locations* mentioned in 1.
3. The *Business Capital(s)* involved, the *Frequency of Sales, the Profits gotten, Losses incurred at the Corresponding Locations* mentioned in 1.
4. The *Service Index(es) of the Business Servic(es) at the Corresponding Locations* mentioned in 1.
5. The *Efficiency {Precision of 'Pi' Value and/ or its Higher Order Equivalent's Value}* of the *Complete Recursive Set Nature* of the *Business Types* with respect to *Class Levels and Corresponding Population Frequency of Consumers Belongingness to the Class Levels and the Needs of the Same. This helps us Fill in the Blanks* of any type of *Business* that *Needs to be Present in Excess and/ or Reduced Levels* with respect to *Class Levels and Corresponding Population Frequency of Consumers Belongingness to the Class Levels and the Needs of the Same, Optimally. Also, it helps us Decide the Frequencies and Magnitudes of Operation of the Same, Optimally. {see author's Research Literature on The Theory Of Complete Recursive Set (inclusive of those in Orthogonal Lateral Spaces,*

found to *Exhaustion*), see [7], [68]} This also helps us *Fill* in the *Blanks* of any type of *New Business(es)* that *Needs* to be *Present* in *Certain Specific Locations* of concern.

6. **The Efficiency** {*Precision of ‘Pi’ Value* and/ or its *Higher Order Equivalent’s Value*, see [38]} of the *Complete Recursive Set Nature* of *Allthe Aspects* mentioned in 1, 2, 3 and 4. **This helps us** *Fill* in the *Blanks* of any type of *Business Aspect* that needs to be *Present* in *Excess* and/ or *Reduced Levels* with respect to *Class Levels* and *Corresponding Population Frequency of Consumers Belongingness* to the *Class Levels* and the *Needs* of the *Same*. **Also, it helps us** *Decide* the *Frequencies* and *Magnitudes* of *Operation* of the *Same*. **This also helps us** *Fill* in the *Blanks* of any type of *New Business Aspect(s)* that *Needs* to be *Present* in *Certain Specific Locations* of concern.
7. **Also,** *Average Business Life Span* of any and/ or *Each Business* (of concern) details must also be *Probabilistically Computed* and these should also conform to *The Efficiency* {*Precision of ‘Pi’ Value* and/ or its *Higher Order Equivalent’s Value*} of the *Complete Recursive Set Nature* of the *Average Business Life Span* of any and/ or *Each Business* (of concern).

*All Problems Frequently and Critically Associated with Each Business Type* must also be *Documented* and *Efforts* should be made to *Annul* such *Barriers* in *Business*.

**One can note that Using author’s Research Literature on The Theory Of Complete Recursive Set** (inclusive of those in *Orthogonal Lateral Spaces*, found to *Exhaustion*), [5], [7], [68] and also using author’s **Research Literature on ‘Pi’,** i.e.,  $\pi$  i.e.,  $\pi(2)$  *Value And/ Or Its Higher Order Equivalents* i.e.,  $\pi(N)$  *Precision Increase Based Refinement Of Any Primality And/ Or Any Recursion Scheme Of Any Aspect Of Concern*, [38] one can Design, **‘Optimal Business Varietization’.**

## **Conclusion**

**One can note that the afore-detailed Optimal Business Varietization concept has great potential to foster Business Harmony in Completeness.**

## **Moral**

*The Law of Probability tells that there will be atleast One Demon who lives in the Sky.*

(Submitted on 20 Sep 2010)

### *Acknowledgements*

*The author would like to express his deepest gratitude to all the members of his loving family, respectable teachers, en-dear-able friends, inspiring Social Figures, highly esteemed Professors, reverence deserving Deities that have deeply contributed in the formation of the necessary scientific temperament and the social and personal outlook of the author that has resulted in the conception, preparation and authoring of this research manuscript document.*

### *Tribute*

*The author pays his sincere tribute to all those dedicated and sincere folk of academia, industry and elsewhere who have sacrificed a lot of their structured leisure time and have painstakingly authored treatises on Science, Engineering, Mathematics, Art and Philosophy covering all the developments from time immemorial until then, in their supreme works. It is standing on such treasure of foundation of knowledge, aided with an iota of personal god-gifted creativity that the author bases his foray of wild excursions into the understanding of natural phenomenon and forms new premises and scientifically surmises plausible laws. The author strongly reiterates his sense of gratitude and infinite indebtedness to all such 'Philosophical Statesmen' that are evergreen personal librarians of Science, Art, Mathematics and Philosophy.*
