

Gravity and electromagnetic forces. The hierarchy problem.

This document is correct below.

viXra1603.0008

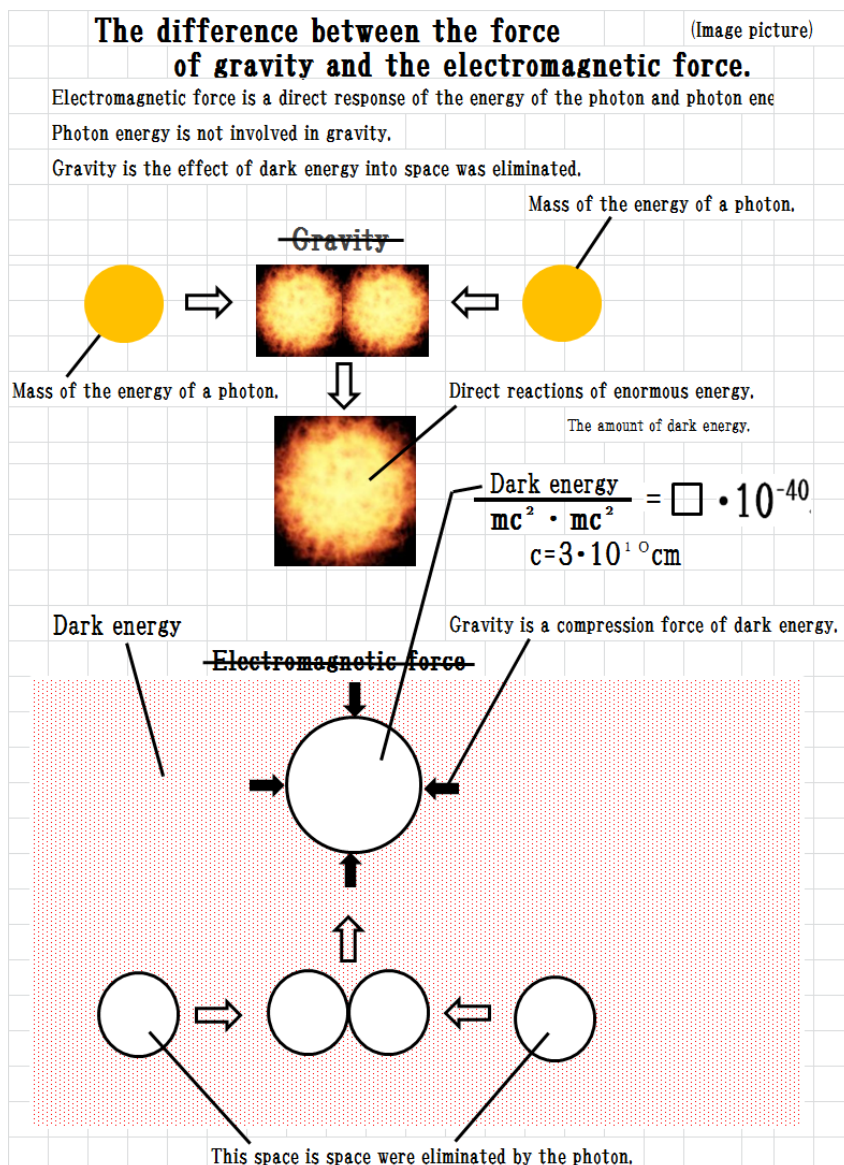

Terubumi Honjou

The unification of gravity and electromagnetism.

(The physics of dark energy.)

The 9 chapter.

Incorrect figure.

Correct figure.

The difference between the force of gravity and the electromagnetic force.

(Image picture)

Electromagnetic force is a direct response of the energy of the photon and photon ene

Photon energy is not involved in gravity.

Gravity is the effect of dark energy into space was eliminated.
