Summary

The Universe is limited and ordered (1). Galaxies have resulted from galactic disintegration of the Universe (2).

Initially in the center of galaxies there was a White hole,

Formation and evolution of galaxies it is caused by process of transformation of the White hole in the Black hole! The horizon of events of the Black hole is a power cover of the White hole!

In fig. 1, 2 stage-by-stage process of the termination of existence of the rest of the White hole which "has escaped from captivity" the Black hole that is evident confirmation of this hypothesis is visually represented!
