

PHYSICAL BASES OF DIVINE CREATION OF THE UNIVERSE

Nikitin V. N., Nikitin I.V., Nikitina N. N.

The description of process of creation of the first day of the world and the list of exclusive hypotheses in the field of the cosmology and astrophysics concerning the Divine Universe

PHYSICAL BASES OF DIVINE CREATION OF THE UNIVERSE

Here results of long-term researches in the field of cosmology and astrophysics are provided, in particular, origins and structures of the Universe which have been systematized according to the God's doctrine, and are a key to mutual understanding and possible cooperation in basic scientific researches.
