Author’s Picture:
One can note from author’s [1], [2] and [3] that for any Aspect Primality of concern, say \{S1\}, we can always find it’s Quantum Converse Dual Primality \{S1\}' (found as any of the Converse Types detailed in [2], [3]) and can also find* this Primality as itself or/ and it’s Universe(s) In Parallel (found to Exhaustion at all Levels of Complements) in the Aspect Primality \{S1\} itself, while taking care of the Evolution Potential Annulling Prime Metric Algebra appropriately over the Space-Time Span Bounds of \{S1\}. This can be considered as a ‘Universal Natural Hole’ of \{S1\} in \{S1\} which can also be referred to as the Natural Redundancy of \{S1\}. (*Also, this can be achieved by significantly Evolving \{S1\} if we cannot find so initially). Furthermore, one can also note that one can always Slate the ‘Universal Quantization Operator’ of concern (using which we wish to Quantize the Aspect Primality \{S1\} of concern) in the Basis of this Natural Hole Primality, i.e., \{S1\}'. One can also Evolve this Hole Primality \{S1\}' sufficiently enough that the Aspect Primality \{S1\} is Naturally Windowable using the thusly Slated and Evolved Or/ And thusly Evolved and Slated ‘Universal Quantization Operator’. Conversely, any Unjustified ‘Universal Quantization Operator’ s Action can also be Negated using the Redundancy^ (inclusive of the act of unjustified Quantization) of the same. Usually, whatever is the Primary Object of the Aspect Primality is, the Hole Primality is the Primality of the Objective Totally Contrary to such aforementioned Primary Objective of the Aspect Primality \{S1\}.

Acknowledgements

The author would like to express his deepest gratitude to all the members of his Loving Family (especially my wife Radha Boddepalli, sisters Vimala Chandrika Bagadi, Vasantha Lakshmi Bagadi, mother Damayanthi Paila and Father Ananda Rao Bagadi), Respectable Teachers, En-Dear-Able Friends, Inspiring Social Figures, Highly Esteemed Professors, Reverence Deserving Deities that have deeply contributed in the formation of the necessary scientific temperament and the social and personal outlook of the author that has resulted in the conception, preparation and authoring of this research manuscript document.

Tribute

The author pays his sincere tribute to all those dedicated and sincere folk of academia, industry and elsewhere who have sacrificed a lot of their structured leisure time and have painstakingly authored treatises on Science, Engineering, Mathematics, Art and Philosophy covering all the developments from time immemorial until then, in their supreme works. It is standing on such treasure of foundation of knowledge, aided with an iota of personal god-gifted creativity that the author bases his foray of wild excursions into the understanding of natural phenomenon and forms new premises and scientifically surmises plausible laws. The author strongly reiterates his sense of gratitude and infinite
indebtedness to all such ‘Philosophical Statesmen’ that are evergreen personal librarians of Science, Art, Mathematics and Philosophy.
