following research manuscript is authored solely by the author  
Ramesh Chandra Bagadi, i.e., the Sole Consciousness of himself in Primaryness and all else in  
appropriate Polynaryness called for by the Causality Flow of Time considered in Universality. One  
can note that All Causal Constructs (either in Evolved Or Devolved Forms of the research concepts  
stated by the author herein) of this author’s Original ResearchWork shall only be considered by the  
author in Secondaryness Or/ And Polynaryness, only following the author as the necessary and  
socially advantageous and useful Retinue. The aforementioned Causal Constructs imply to the case of  
Time Tense Flow in either Directions, i.e., Present to the Past and also Past (Or/ And Present) to the  
Future.
Firstly, we consider a given Aspect Primality Set $S_{\subset}$ denoted by $\left\{ \frac{2}{P_j} \right\}_{j=1 \text{ to } n}$ wherein all the elements of $S_{\subset}$ are the Prime Metric Basis Elements starting from 1 and running up to $n$ of the Universal Sequence Of Primes of Positive Integer 2. Note that from author’s [1], [2], we can render Any Aspect Primality of concern in this State. We now consider another Aspect Primality Set $S_{\subset}^{-1}$ given by considering the Reciprocal Elements [3] of the Set $S_{\subset}$. That is, $S_{\subset}$ is given by $\left\{ \frac{1}{2P_j} \right\}_{j=1 \text{ to } n}$. Using some Scalar $\alpha_S$ which is actually the Least Common Multiple of the Elements $\left\{ \frac{2}{P_j} \right\}_{j=1 \text{ to } n}$, we construct another Set $S_{\supset} = \alpha_S \left\{ S_{\subset}^{-1} \right\}$.

**Lemma 1**

**NOTICE OF IMPORTANCE**

The author reiterates that the following research manuscript is authored solely by the author **Ramesh Chandra Bagadi**, i.e., the Sole Consciousness of himself in Primaryness and all else in appropriate Polynaryness called for by the Causality Flow of Time considered in Universality. The aforementioned Causal Constructs imply to the case of Time Tense Flow in either Directions, i.e., Present to the Past and also Past (Or/ And Present) to the Future.
We can now note that $S_{\supset}=\alpha_S\{S^{-1}\}=\alpha_S\{2p_j\}_{j=1}^{n}$ can be gotten by considering the First $n$ Prime Metric Basis Elements (considered in Increasing Order) of the Universal Sequence Of Primes of Order $n$.

**Lemma 2**

Furthermore, one can even note that one can actually create all Possible Distinct $(n-1)$ Factor Products of the Set $S_\subset$ and can arrange them in Increasing Order and can select the First $n$ Terms to form the Set $S_{\supset}$.

**Lemma 3**

Naturally and Technically, therefore, we can consider $S_{\supset}$ to be the Super Set First Order Converse (Or Contrary Set) Of the given Aspect Primality Set $S_\subset$. Therefore, we can specifically denote it by $S_{\supset_1}$.

**Lemma 4**

Similarly, we can find the First Order Converse (Or Contrary Set) Of the Aspect Primality Set $S_{\supset_1}$ and can call it $S_{\supset_2}$. Therefore, in this fashion, we can find

the Any Positive Integer Order \( R^{th} \) Order Converse (Or Contrary Set) Of the given Aspect Primality Set \( S \subseteq \) which can be denoted by \( S \subseteq R \).

**Lemma 5**

Therefore, one can note that for the given Aspect Primality Set \( S \subseteq \), the Number of Elements in it denote the Maximal Order Of Recursion Intelligence of the Aspect Primality of concern.

**Lemma 6**

Now since, Prime Metric Basis Elements of any Higher Order Sequence Of Primes can be decomposed again as Products of Elements of Second Order Sequence Of Primes, we can Naturally Implement the aforesaid and can find the Any Positive Integer Order \( R^{th} \) Order Converse (Or Contrary Set) Of the given Aspect Hyper Primality Set \( SH \subseteq \) which can be denoted by \( SH \subseteq R \).

**Lemma 7**

We can also note that if any given Aspect Hyper Primality Set, wherein its Elements Span Various Orders of Universal Sequence Of Primes’s Corresponding Prime Metric Basis Elements, we can Slate them all in the Basis of the Universal Sequence Of Primes Of Order Two and can perform the

Lemma 8
Since, this concept of author takes any Set to its Contrary Ness, existing as a Higher Order(s) Recursion Intelligence Set, we can note that this Scheme of the author is also a Transform Form Or Transform Variant of author’s Universal Wave Equation Of The Universe and its Manifestation Type. [4].

Lemma 9
Instead of just Reciprocal considered in the First Paragraph of this research manuscript, one can consider various Other types of Reciprocals, i.e., Converses detailed in author’s [3].

Lemma 10
One can even note that in this Fashion, one can find the Transitions Transition Transform Paths Scheme between any Two Different Aspect Primality of concern, of course via the appropriate Path. Hence, this Scheme of author can be also considered as the Aspect Continuity Transform already detailed by the author in [5], [6].

Example: One can find the Aspect Primality Transition Transform Paths connecting the Primality of Time, Space, Wave, Photon, Mass, Light, Energy.
Black-Hole, Gravity, Perception, Uncertainty, Any Real Order Rate Of Change of Centroid, Dark Matter, Dark Energy.

Tribute

The author pays his sincere tribute to all those dedicated and sincere folk of academia, industry and elsewhere who have sacrificed a lot of their structured leisure time and have painstakingly authored treatises on Science, Engineering, Mathematics, Art and Philosophy covering all the developments from time immemorial until then, in their supreme works. It is standing on such treasure of foundation of knowledge, aided with an iota of personal god-gifted creativity that the author bases his foray of wild excursions into the understanding of natural phenomenon and forms new premises and scientifically surmises plausible laws. The author strongly reiterates his sense of gratitude and infinite indebtedness to all such ‘Philosophical Statesmen’ that are evergreen personal librarians of Science, Art, Mathematics and Philosophy.
