

The Pulga Constellation

By [Ricardo.gil@sbcglobal.net](mailto:Ricardo.gil@sbcglobal.net)

06/04/2017

Judge Abascal said to never speak ill of my ex, but that woman is nothing to me. The constellation.

The constellation is the freckles on her face, the mole on her left thigh and the mole below here belly button and the scar across her belly. The mole on her back she removed because when we had sex it reminded me of a large tick. She removed the tick for me. That's what she did for me. At Del mar she could not get a degree plan so I talked to her professor. She may be big and bad now, but there was a time when she was Valerie in the Martin short movie where she slept walked and bad things would happen to her.
