

Electromagnetic Bullet

[Ricardo.gil@sbcglobal.net](mailto:Ricardo.gil@sbcglobal.net)

01/07/2018

The objective of this paper is to suggest that bullet with a watch battery on it (superglue them on) will have reduced mass and travel more efficiently. Place them in a conventional revolver and in a conventional shot gun. (single or double barrel)

I.

Hollow Point with watch battery

II.

Shot gun slug or buck shoot with watch batteries
