S. Virgin Mary Assumption into Heaven  
On 27<sup>th</sup> January 2018  
Written in Cairo – Egypt

### I- Double Slit Experiment

- We know from the double Slit Experiment (Young Experiment), that 2 light beams may get coherence together, and the result will be bright and dark fringes
- that tells us there are 2 different types of light beams, the original light and the bright fringe
- The bright fringes thickness decreases regularly from the middle one to both sides (i.e. the bright fringe greatest thickness in the middle one-figure No. 2)

### II- The Main Hypothesis

#### The Matter Is The Bright Fringe Produced By Light Beams Coherence

This hypothesis I explained its mechanism in my paper "The Earth moves with light velocity relative to the sun" (<http://vixra.org/abs/1709.0331>)

### III- The Theory

If The matter is the Bright Fringe we would conclude the following:

- The Matter should be changing with time because the matter (bright fringe) is produced based on light coherence process, which is interactive changing process continuously (so this hypothesis explains the observed matter change feature)
- The Matter is the Bright Fringe means our bodies are also the Bright fringes, means our bodies are produced from light beams coherence, that explains the continuous change
- Our bodies are made based on specific light beams coherence, that means we can't discover any other kind of light beams because our body is connected only with this specific light
- So we can't realize the original light beams because our bodies made of the bright fringes

- That means for us the maximum light velocity is C because we can't realize the light higher velocity, where our body connected us just with the bright fringes (Bright fringe is a Light Beam with C velocity)
- The previous explanation tells us why we can't understand the solar system Geometry clearly, because **Not all data is available before us** where many data is absent from us because we are limited to the bright fringe from which our bodies are created. so we can't reach the whole system easily because parts of this system are higher than our capacities of observation (higher than the 5 senses)

#### **IV- The Theory Proves**

- **The Solar Planets Distribution corresponds to The Bright Fringes**
  - o Jupiter the Most Great Planet (Fringe) is found in the Middle
  - o Both Ends have the smallest planets (Mercury and Pluto)
  - o The Planets volumes and Masses decrease regularly at both sides from Jupiter
    - Saturn / Mars (exceptional)
    - Uranus / Earth
    - Neptune / Venus
    - Pluto / Mercury
    - Only One Exception is Mars

**Mars Discussion** is in my Paper (Solar Planets Order disproves the Gravity Theory) <http://vixra.org/abs/1801.0114>

#### **V- The Theory Results**

- The previous theory explains why the particle behaves as particle and wave (Duality of nature), as following
  - o There are more than 2 frames in the solar group, one frame moves with c velocity difference with my velocity and the other moves with my velocity ... So, when the particle moves in the first frame I'll see it as a wave (light) but when he moves in the second frame I'll see it as matter, so this theory explains the duality of nature The details in my paper  
Particle Double Nature Reason  
<http://vixra.org/abs/1712.0398>

#### **So... Why The Light Velocity Is The Highest In The Universe?**

Because our bodies (Matters = Bright Fringes) are created from the Light beams coherence, So our bodies are connected with this specific light beams from which were created, so any other light beams (for example the original light beam) we can't discover it by our 5 senses because we connected to the bright fringes only

So,

**Even if there's light higher velocity, we can't discover it**

The next question is

What's the velocity of the original light Beam? If the bright fringe velocity is C!

This question should be answered with the Earth motion in the next paper...

This Paper is a summary of

**Special Relativity Hypothesis Reason (Matter Creation Theory)**
