

## Lucifer, Humanity's Warden

sgm, 2018/JUN/22

*Truth is stranger than fiction.*

Sci-fi authors don't have a **freakin' clue** what's out there.

The title is the cosmos' *most highly guarded secret*.

**That** is why I'm nobody; that is why you ignore me.

So I always asked most of my life: "if the Bible is *mostly* poetry and stories, what about Jesus?". What about Paul?

Paul was the **last** thing I personally figured out. In his time, Jesus **always** referred to himself as the "son of man", **never** God, blah blah. So for many years, I **assumed** Paul was Wrong. "Lies within lies" was one of the most famous quotes from the Dune series. Connect the dots, it all boils down to a question of faith. Yes or no; do we *believe*?

But our existence is **NOT** about faith!

Those two concepts *tied together* are **the** *enigma* of our species existence.

**WE** are the cosmic wild-card; **WE** are **the** Ghanima!

We are God's *safety-net*; we are the **core** boot-strap species of the cosmos; it .. is .. **all** .. down .. to .. **us**.

So in a sense, the ancient geocentric "outdated" homo-centric, Earth is the center of creation blah blah, is the *most accurate view* we could **ever** have.

To continue with the Dune analogy, **WE** are *the spice*!

## Part 2:

What about Kennedy? What about Virgin Galactic? What about SpaceX? .. The *top of Kennedy's head was blown off* because he had a vision for humanity, **not** America. Virgin Galactic's financial demise and likely eventual corporate failure is a **ruse**: so **we don't believe in Musk's SpaceX**.

But I keep telling my daughter: **one step at a time**.

Chemical propulsion, possibly nuclear (we tested it), fusion electrical generation, fusion propulsion,.. the rest is future history, **NOT** science-fiction!

I've studied physics for a *very long time*. To me, warp-drive, FTL, worm-holes, folding space, blah blah is **all physically impossible**, period. But what is something we as Christians **know** in our *souls*? **Anything** good is possible with the Holy Spirit. Which means we **can** break off this prison planet.

If we just believe .. in ourselves.
