The Collapse of the Liemann Empire (Chapter II-2)

Repeat zeta, the imaginary value goes to 0

Toshiro Takami
mmm82889@yahoo.co.jp

Abstract

 repeat zeta, the imaginary value goes to 0.
This is considered to be one piece of evidence that the analytic connection is a monster.

We must get out of the brainwashing of analytic connection monsters as soon as possible.

Introduction

zeta[-1.13886 - 0.0736640 i]= -0.0620637+ 0.00985572... i

postscript

The cold when I found the first one is still continuing now and this may be my last post. I may have discovered another by surging my energy and it may not be counter example.

It may be written as a will.

I am writing this at the limit of power.

I write this with spitting blood.

I will post it in a hurry, as long as I have not done it before I die.

☃～☃～☃～☃～☃～

I am a psychiatrist now and also a doctor of brain surgery before.

Currently 57 years old
Born on November 26, 1961
 （**I am very poor of English. Almost all document are google-translation.**）
When converted to English by Google translation, it becomes cryptic to me.
But, I read letter by google translation.
In my case, if you translate it into English by google translation, I do not know what is written in my paper. For me, foreign languages such as English (actually not good at Japanese) is a demon.

As soon as it is translated into English, it turns into a cipher for me.
