Which empire will dominate the world in 2030, two thousand years after the resurrection? If it is not China, India, Russia or the USA, then what country will dominate the world? The answer is stunning: Greece-Macedonia. Yes... In 2019 Greece is at intensive care that was caused by an endless heap of austerities. But the Bible tells us that Greece will rise from the ashes.

In Daniel 8:5, 21 the future rise of Alexander the Great was foretold. He liberated the Jews from the Persians. In Daniel 7:6 and Revelation 13:2 we read about a leopardess. This leopardess is the second rise of Greece-Macedonia. There will be another Alexander who is very likely the antichrist. The first Alexander destroyed Tyrus in a way that looked similar to the downfall of Plato's Atlantis. The downfall of Tyrus was foretold in Ezekiel 26-28. Tyrus and Babylon were interconnected. Both cities were corrupt. In the Temple of Tyrus stood a statue of Melqart who was the blueprint for the Greek hero Heracles. In Babylon was the temple of Marduk. Alexander the Great made Babylon his headquarters. So will the second Alexander or Socrates do the same. If Greece conquers Babylon we have a better understanding of the war between Athens and Atlantis in Plato's story (Critias 108; Timaeus 25). Only time and direction differ from each other. Greece was the home port of the Atlantis story. We are not surprised to find Atlantis back in the End times if the story was mirrored in time and place. In that case Athens is a part of the Atlantis – Jerusalem – Babylon triangle. Anno 2019 we can almost not believe that Greece will be the next world empire. But the Bible says so.

The name Seir in *Genesis* 32:3 is the root of the name Scheria, the island of the Phaeacians in the *Odyssey*. They were the Philistines from Crete. Seir means "desert" (Fatuhi, 2012, p. 208). Another meaning of Seir is "hair". Ezaú was hairy. King Atlas of Atlantis was hairy. We will find Atlantis in the desert, not in the sea.
