Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to
ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutical insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that
such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does!

In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not structurally/paradigmatically/mentatatively contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatc-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology)

stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification of prospective human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint, as the dimensionality-of-sUBLImating—

This has developed in our present age of intellectual-muddlement—(blurring/undermining-of-prospective-totalising-entailing,—as-to—entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-deficient—reflexivity of our <amplituding/formative>wooden-language—(imbued—temporal—mere—

As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not
to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-ontological-performance-<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> inclinations that poorly appreciate existence-potency,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness implications of transcendence-and-sublimity/sublimation/supererogatory>~de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence<-in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory>~de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> whether by mystifications-outside-existential-contextualising-

This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious structural/paradigmatic/de-mentative consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought, in supererogatory—epistemic-conflicatedness or the critical analysis of such knowledge-reification but in the face of criticism rather consciously substitutes strategies of institutional ascendancy as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an
interlocutor insists on $2 + 2$ as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist $3 + 3$ as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of relative-ontological-incompleteness/relative-ontological-completeness-

We can appreciate that while many a subject-matter will often seem to
imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-

drivenness--equalisation mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that
knowledge is as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supercerogatory~epistemic-confliedness consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory~de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did
medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its structural/paradigmatic/de-mentative ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective deprocripticism reference-of-thought structural/paradigmatic/de-mentative ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-
explicating-ontological-contiguity in conflatedness’ herein implied as ontological-primemovers-totalititative-framework involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’ as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination’), and we can better understand as such why underlying confliction arises with all registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-mentativity because these involve human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendental/transvaluating conception is universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs by the underlying fact that these are the very same human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educed–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>; as inevitably the apparently innocuous Copernican, Galilean, Cartesian, Newtonian, etc. conception of the material world in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the universalising but non-positivism–medievalism preclusive-consciousness’ have constructive implications about corresponding
requisite prospective social-values in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of the social-construct as of the universalising but non-positivism–medievalism preclusive-consciousness’, and the possibility for the further advancement of such material sciences arises from the effectively enabling social-values like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so over our present procrypticism or disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as such reflects the successively induced originariness-parrhesia,—as—spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of ontological-performance-<including-virtue-as-ontology>’ so-construed as of notional—protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness)
prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation elicits the requisite human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) (involving prospective knowledge-reification and/or deferential-formalisation-transference) for prospective secondnatured institutionalisation as of renewed prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

blurriness

blurriness speaks to 'lack of intellectual lucidity/clarity with respect to supposed knowledge articulation as of existential-reality' wherein a given human-subpotency registry-worldview/dimension

‘closed-minded unilateral-conceptualisation-of-knowledge’ (thus lacking the positivistic projective-insights as of apriorising/axiomatising/referencing–psychologism) will only end up ‘complexifying the mechanical outcome of positivism meaningfulness-and-teleology on the basis of its non-positivism as animism or as mediavalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as implied in an animistic God of plane type of articulation and this applies likewise with our positivism–procrysticism with respect to prospective deprocrysticism, as this is exactly what explains the disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> of all registry-worldviews/dimensions as to the fact that successive registry-worldviews/dimensions involve successive renewing of reproducibility—mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation as of relative-ontological-completeness in reflection of human limited-mentation-capacity-deepening— (<amplituding/formatative>epistemic-totalisingly,—as—to-existence—as—sublimating-withdrawal,—eliciting-of-prospective-supererogation) grasp of existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness at their destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>,¶ blurriness at the destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> is what brings up the is—ought problem (which had hitherto traditionally been wrongly framed rather in presencing—absolutising-identititive-constitutedness terms as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation—outside-existential-contextualising-contiguity, because going by ecstatic-existence as it reflects human historiality/ontological-eventfulness/ontological-aesthetic-tracing becoming in existential-contextualising-contiguity, human ‘ontological/knowledge uncertainty’ inherently implies human sovereign choices and options are then necessarily of ‘ought indeterminacy’ as of prior relative-ontological-incompleteness but prospective relative-ontological-completeness with respect to prospective knowledge implications provides the ‘ontological/knowledge certainty’ to turn such prior ‘ought indeterminacy’ into ‘is determinacy’ whether this prospective ‘is determinacy’ transformation carries with it the given prospective knowledge acceptance, rejection or any other qualified attribution associated with the prior ‘ought indeterminacy’) given that the prior registry-worldview/dimension reproducibility—mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation specific elaboration-as—mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity reaches its ‘is determinacy’ limits of analysis from whence its ‘ought indeterminacy’ arises at its destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological—
performance—<including-virtue-as-ontology>, speaking of an issue of relative-ontological-incompleteness that is only resolvable by the very fact that prospective relative-ontological-completeness changes the prior ‘ought indeterminacy’ as of prior normativities/conventions/practices into the prospective registry-worldview/dimension ontologically-veridical ‘is determinacy’ as reflected in renewed normativities/conventions/practices as to prospective institutionalisation, and in this regard we can appreciate how medieval-scholasticism non-positivism reference-of-thought-level pedantic dogmatism ‘ought indeterminacy’ emphasis gave way to the positivism/rational-empiricism scientific cause-and-effect ‘is determinacy’ emphasis or how ancient sophists non-universalising ‘ought indeterminacy’ gave way to the universalising-idealisation ‘is determinacy’ of Socratic philosophers or how notions like cannibalism, various practices of slavery and serfdom, etc. in human history as of ‘ought indeterminacy’ of their practices in relative-ontological-incompleteness gave way to the present ‘is determinacy’ of their rejection as of relative-ontological-completeness on the basis of human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation;

blurriness as of disparateness-of-conceptualisation—<unforegrounding-disentailment—failing-to-reflect—immanent-ontological-contiguity⟩ highlights that the destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology⟩ of all registry-worldviews/dimensions are deadend of meaningfulness-and-teleology with the implication that without originariness-parrhesia,—as—spontaneity-of-aestheticisation renewing of reproduciability—mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation there is basically no chance for non-universalising ancient sophists ever getting to universalising-idealisation, medieval-scholastics pedantic dogmatism ever getting to positivism/rational-empiricism, and just as well with our positivism—procrysticism ever getting to prospective deprocrysticism, and in all these instances as ‘foregrounding—entailment—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-constructivistic-supererogation in reflecting ‘immanent-ontological-contiguity’)—as—operative-notional—deprocrysticism as of construction-of-the-Self’, as involving the respectively implied base-institutionalisation, universalisation, positivism/rational-empiricism and prospectively deprocrysticism (‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism encultured/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—as-to-underlying-ontological-commitment’)

at a highly cogent scientific account of astronomical phenomena, in the medical domain because of the critical nature of any developments to human health and preservation of life even the most flimsy statistics are often portrayed as of relevance however the possibility for pseudo-analysis or later retraction, and generally in this respect science at its ‘breakthrough-level of scientific accounts’ is rather of relatively high inexactitude/tolerances as nascent scientific conceptions even within say the physics domain are contested, with the critical notion of science-in-practice rather being about ultimate aspiration to continually converge towards more and more exactifying/precisioning—of-sublimation—scientific accounts); but then human limited-mentation-capacity-deepening—epistemic-totalisingly, as-to-existence—sublimating-withdrawal, eliciting-of-prospective-supererogation) as to aestheticisation—and—aestheticisation-towards-ontology necessarily priorly conforms to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-of-conceptualisation (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation—and—aestheticisation-towards-ontology notion of overall human knowledge’ (as to any such non-Western social dynamics very own originariness-parrhesia, as—spontaneity-of-aestheticisation inducing of prior reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation as outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating—as-institutional-manifestation) and furthermore such a misnomer as to its metaphysics-of-presence seem to supersede the more fundamental notion of human underlying ontological-commitment (as instigatively driving the human out of animality) as to the more pivotal/critical human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency, disclosed-from-prospective-epistemic-digression-as-of-epistemic-totalising—renewing-realisation/re-perception/re-thought, in supererogatory—epistemic-conflicatedness (as reflecting the ontological-contiguity—of-the-human-institutionalisation-process beyond any identitive conception as Western or non-Western or even differentiation internal to any such Western conception or non-Western conception), thus overlooking the dynamic underlying human constructive and cultural diffusionary process critically leading to various social-setups dynamics of relative-ontological-completeness in renewing of human meaningfulness-and-teleology’; human limited-mentation-capacity-deepening—epistemic-totalisingly, as-to-existence—sublimating-withdrawal, eliciting-of-prospective-supererogation) thus implies that ultimately the actual knowledge attitude is that of the creative generation, elucidation and
thought experiments and the involved in methods referencing/registering/decisioning reference Newtonian physics for conceptualisation within the artistic framing, philosophical framing or scientific/ontological framing as to their respective aporeticism need for aestheticisation (generativity potential) and/or aestheticisation-towards-ontology (ontological-performance–including-virtue-ontology) potential, and so as we can appreciate that even the artistic as to aestheticisation is much more than just mere patterning but ‘a projection of aestheticising depth’ that speaks of its specific generative, elucidative and exactifying/precisioning–of-sublimation–as-entailing-theoretical,conceptual-and-operant-implications aspects to specific human perception of artistic sublimation; and in this regards human limited-mentation-capacity-deepening–amplifying/formative–epistemic-totalisingly–as-to-existence–as-sublimating-withdrawal–eliciting-of-prospective-supererogation) needs to factor in that much of the institutional confusion associated with the artistic, philosophical and scientific speaks more of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness–as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition–conscious and unconscious institutional politics of self-preservation whether from ‘institutionalised philosophy’ or ‘institutionalised science’ as to the overall politicisation of knowledge given that human limited-mentation-capacity warrants human institutional specialisations as subdividing the overall human knowledge aestheticisation–and–aestheticisation-towards-ontology (while factoring that existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori–conceptualisation is not beholden to any such human-subpotency institutionalising) implying that scientific achievements are de facto philosophical achievements as inherent to the practice of science is notionally/epistemically ‘implied philosophy’ whether the scientist is explicitly conscious or not of this such that faced with scientific dilemma some of the most novel philosophies are implicitly articulated in scientific works in need for their philosophical explicitation (as herein explicated as to the fact that nascent-particular/incipient-and-material/technical-sublimations–blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving) actually point to an overall reference-of-thought/grandest-axiomatic-construct–as-to-referencing/registering/decisioning sublimation as for instance with Newtonian physics pointing to an overall positivism/rational-empiricism reference-of-thought/grandest-axiomatic-construct–as-to-referencing/registering/decisioning), and likewise the scientific methods/methodologies/approaches were developed by philosophers involved in natural philosophy knowledge-reification—gesturing firstly as thought experiments and thereafter articulating effective practical methodologies not because they gave up on natural philosophy but
because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to ‘exactifying/precisioning-of-sublimation-as-to-entailing-theoretical,-conceptual-and-operant-implications’ framework of controlled experiences involving control methods ‘as extension of their normal living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but rather extension of philosophising into methodologically framed and controlled experiences known as experiments (with the naive perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument—for—conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest—subpotency—as-in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence—pertinence to which any such scientific methods/methodologies/approaches are rather subjected); \| human limited-mentation-capacity-deepening—\langle amplifying/formative\rangle epistemic-totalisingly,—as-to-existence—as-sublimating-withdraw,—eliciting-of-prospective-supererogation) as reflecting both overall knowledge-reification orientation associated with the overall philosophical and exactifying/precisioning—of-sublimation—\langle as-to-entailing-theoretical,-conceptual-and-operant-implications\rangle orientation associated with science rather fundamentally speaks to the pre-eminence of their aetiologisation/ontological-escalation purpose so-reflected in the succession of ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—as-to-underlying-ontological-commitment’ as narrowing-down selectivity of the intemporal-disposition as of ontological-pertinence for prospectively secondnatured institutionalisation (as from recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, our positivism—procryptic/disjointedness-as-of-reference-of-thought and prospectively depencrypticism or preempting—disjointedness-as-of-reference-of-thought) and is thus primarily concerned about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and thereof the derived prospective living-development—as-to-personality-development and institutional-development—as-to-social-function-development, so-speaking to a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension epistemic attitude, such that the philosophical nor the scientific cannot be construed as a self-serving conception (as can be so-construed in modern
day psychology individual augmentation/enhancement notion in-existential-extrication-as-of-existential-unthought) but rather ‘a self-development conception structurally/paradigmatically/de-mentatively construed in association with the development of a better world as to the selfless notional—asceticism implied’ (with a confusion as of individual augmentation/enhancement rather arising from a misconstrual of the Socratic philosophers and their successors like stoics and cynics emphasis on self-development as to the fact that their universalising-idealisation as to their given epoch implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporeticism associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporeticisms concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific aporeticisms reflection of human historicality/ontological-eventfulness/ontological-aesthetic-tracing while avoiding an epistemically-flawed complex of presencing—absolutising-identitive-constitutedness—along the same lines human limited-mentation-capacity-deepening- <amplituding/formative>epistem-totallyising,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-suprerogeration) as reflecting both overall knowledge-reification orientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-suprerogeration as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human in,competence/incapacity arising from disparateness-of-conceptualisation—<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> cannot be transformed and construed as structural/paradigmatic/mentative issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical (failing to attend to prospective existential aporeticisms while construing the framework of human agreeability and agreeing as knowledge rather than the construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-suprerogeration as the more fundamental purpose of the intellectual enterprise as to the reality of the fact that true knowledge has ever always been about superseding human limited-mentation-capacity and not defining it as a point of reference however disagreeable the exercise), and in many ways this drawback is reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual way and academic practice of going about knowledge-reification that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity as to the proliferation of
isms—conceptualisations without any ‘relative-ontological-completeness entailment—as-to-totalising-contiguousof-coherence—factuality-of-variability reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing’ as well as mere conceptual-patternning with no contiguous knowledge-reification—gesturing as to when for instance such notions as humanism and antihumanism, enlightenment and counter-enlightenment, etc. seem to imply that the latter conceptualisations are against humanity or enlightenment rather than being more profound conceptions of humanity and enlightenment over the former as shallow conceptions thus inducing blurriness of thought and in a further twisted relic/artifactual approach the very notion of postmodernism as of ‘postmodern-thought elucidation of ontologically-flawed desublimating historicity-tracing—in-presencing—hyperrealisation/ hyperreal-transposition’ is paradoxically construed as postmodern condition as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought (as to an academically induced confusion equating postmodern-thought with the analytical criticism of modern society’s metanaratives so-articulated by postmodern-thought more like qualifying budding-positivists critiques of the non-positivising medieval-world/medievalism as the modern condition) with all this contradictory intellectual-muddling arising because of the precedence of institutional self-preservation over existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation as we can easily appreciate that the lack of blurriness in many a natural science as to an untenable constraining of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—entailing—epistemic-totalising—in-relative-ontological-completeness) will avert any such relic/artifactual approach to knowledge (say for instance construing modern genetics as a deeper conception of hereditary anti-hereditary or say quantum physics as a deeper conception of physics as anti-physics along the lines of equating/leveling-down everything across space and time as of naïve absolutilising conceptual-patternning and isms—conceptualisations because of institutional pre-eminence over relative-ontological-completeness conception as of existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation), thus speaking of the requisite underlying ontological-good-faith/authenticity and ontological-bad-faith/inauthenticity insight (manifested beyond-the-consciousness-awareness-teleology—in-existential-extrication—of-existential-unthought) when going about knowledge-reification in domains-of-study subject to blurriness, and critically human knowledge-reification as to organic-knowledge is inherently of existential implications (as to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human—amplituding/define’ epistemic-totalising—purview-of—construal to which the sublimating relative-ontological-completeness has to be epistemically affirmed while the desublimating relative-ontological-incompleteness has to be epistemically unaffirmed and so with regards to the constraining implications as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation with no naïve notion of neutrality/goodnaturedness that wrongly leads to equating/leveling-down

implications and equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms—conceptualisations providing the ubiquitous framework for a poorly accounted for media-driven pop-intellectualism subject to marionetting subterfuges of dominance/vested-interest actors as to a circular interest holding down the profound emancipative potential of the humanities and social sciences as of their inherent sublimating nature (and likewise it is critical to grasp that human sublimation as induced from nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving equally requires corresponding institutional sublimation that doesn’t just assume a relative-ontological-incompleteness—presublimation-construct—of-meaningfulness-and-teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as we can appreciate for instance that such modern developments like nuclear science, general technical progress and even the Internet today require corresponding human referencing/registering/decisioning social and institutional sublimation that cannot simply be assumed by ‘default of institutional status/pre-eminence’ without profound questioning and reflection for corresponding prospective sublimation); and in this regards as to human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalising—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) as being ever always about the very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—human<amplituding/formative>epistemic-totalising—purview-of—construal (structuring/paradigming/de-mentating the veracity of knowledge necessarily as being in ontological-contiguity), knowledge-reification construed as of interpretation of say a given historical figure’s theory/philosophy/thought is ever always ‘priorly about the interpreter’ relative-ontological-completeness constructive construal as to the starting reference which is the very-same-immanent-existence/intrinsic-reality’ such that in reality ‘the ontological-veracity of interpretation is never truly about a relic/artifactual notion of interpretation of any given historical figure’s theory/philosophy/thought without involving any relative-ontological-completeness conception as to the very-same-immanent-existence/intrinsic-reality’ but rather any such a given historical figure
articulate their theory/philosophy/thought as of the projected ontological-veracity they make of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, with existence being exactly the ‘starting/instigative concern (as to relative-ontological-completeness construal) of the interpreter’ and thereof deriving the historiality/ontological-eventfulness/ontological-aesthetic-tracing implications (as to aesthetisisation and aestheticisation-towards-ontology) with respect to the given historical figure’s theory/philosophy/thought as to relative-ontological-completeness ontological-veracity (and we can appreciate in this regards for instance that as to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, ‘as-to-human’<amplituding/formative>epistemic-totalising—pursview-of—construal there was no better interpretation of say the prior foregoing physics as to when say Einsteinian physics was introduced as rather providing the more profound epistemic-projection perspective for appreciating the historiality/ontological-eventfulness/ontological-aesthetic-tracing implications of such prior foregoing physics like Newtonian mechanics and other subsequent prior physics conceptions like Lorentz transformation, Maxwell’s equations, etc. without adopting any relic/artifactual notion of their interpretation as to equate/level-down everything across space and time as to an improbable poor sense of relative-ontological-completeness underlying/organising their comprehensive conceptualisation), and this insight is very much implicated in the Derridean and Foucauldian conceptions of interpretation as to the implicit grasping of projective-insights in deconstruction and genealogy knowledge-reification—gesturings respectively (which by their underlying/organising implicated ‘projective-insights’/epistemic-projection-in-conflatedness’ of apriorising/axiomatising/referencing as to human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as—sublimating-withdrawal—eliciting-of-prospective-supererogation) as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as so-explicated herein, stand-out particularly as to their re-originary—as-unenframed/unbeheldening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—‘projective-insights’/epistemic-projection-in-conflatedness’—of—notional—deprocrypticism—prospective—sublimation) of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality and thus structurally/paradigmatically/de-mentatively effectively enabling the construal of sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing implications of relative-ontological-completeness just as it is so-explicated in the natural sciences unlike many a presencing—absolutising-identitive-constitutedness knowledge-reification posturing which are structurally/paradigmatically/de-mentatively bogged down in desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as to their relic/artifactual postures equating/leveling-down everything across space and time as of naive absolutising conceptual-patternning and isms—conceptualisations with a poor sense of the projective-insights/epistemic-projection-in-conflatedness of apriorising/axiomatising/referencing as to

when expressed specifically herein universal/universalised/universalising-
<as-to-universalisation> refers to the specific universalisation registry-

<amplituding/formative>epistemic-totalising meaningfulness-and-
teleology’ while when expressed herein in a general sense
universal/universalised/universalising actually and precisely refers to
‘totalising-entailing of implied knowledge-reification–gesturing’ for
instance in the sense that mathematics is universal means mathematics is
totalisingly-entailing (with this general sense applying with regards to any
given registry-worldview/dimension as to its given ‘entailing-
<amplituding/formative>epistemic-totalising–in-relative-ontological-
completeness apriorising/axiomatising/referencing–rules’ and as further
reflecting the implication that registry-worldviews/dimensions of relative-
ontological-completeness are of more profound ontologically totalising-
entailment apriorising/axiomatising/referencing–rules as so implied as
from ‘non-rules totalising-entailing, rulemaking-over-non-rules totalising-

their respective foregrounding—entailment–(narrowing-down–sublimation
as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-
sublimation, entailing as so implied as ‘immanent-ontological-contiguity’),–as-
operative-notional–deprocrypticism’), and this regards we can appreciate
how the very implications of say universal human rights supererogatorily
becomes more and more profound as from say the Socratic philosophers
(even as slavery, class and female-discrimination was prevalent), budding-
positivists (even as in many ways the practices of serfdom/slavery, class-
criminalization and female-discrimination were equally prevalent) and
todays supposedly universal conception of human rights (even as it is
marked by collateralisation of other peoples, cultures and nations);¶
actually the specific sense and general sense are thus linked on the basis
that both imply totalising-entailing with the specific sense speaking of
totalising-entailing as to the specific universalisation registry-
worldview/dimension ‘when mankind initially consciously cognised that
the profoundness of meaningfulness-and-teleology should be totalising-
entailing but without necessarily differentiating such a conception of
totalising-entailing between mythological and empirical totalising-
entailing with both construed as universal meaningfulness-and-teleology’,
while the general sense of universal implicitly captures and
exactifies/precises the conception of totalising-entailing in terms of
‘entailing-<amplituding/formative>epistemic-totalising–in-relative-
ontological-completeness’ as reflecting the implication of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process’ (along the same lines as notional–deprocrypticism) thus amplificatorily rendering the conception of totalising-entailing (as to notionally–universal) as more ‘profoundly construed as from perspective relative-ontological-completeness as of the ontological-normalcy/postconvergence of existence/intrinsic-reality’

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ as of prelogism or prelogism-as-of-conviction-as-to-profound-supererogation-(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission).

In other words, the psychopath manifests postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-
teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’, i.e. meaning-as-form or pathologically/compulsively hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism-as-of-conviction-as-to-profound-supererogation minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation, whether thereafter the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is rightly or wrongly assumed). Hence prelogism or prelogism-as-of-conviction-as-to-profound-supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of perversion-of-reference-of-thought-<as-effectively-apriorising-in-
completeness) of apriorising–reference-of-thought-elements/apriorising–registry-elements is not-available/obscured as of lack of insight on existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
thought-devolving-as-of-instantiative-context; with the result that with respect to the reference-of-thought, postlogism ‘induces as of ontological-normalcy/postconvergence epistemic/notional–projective-perspective, a teleologically-degraded-as-preconverging-or-
dementing–apriorising-psychologism differentiation of existential meaningfulness-and-
teleology’ unlike prelogism which ‘induces as of ontological-normalcy perspective, an elevated-as-sound-thinking differentiation of existential meaningfulness-and-teleology’. The postlogic disposition is associated pathologically with the psychopathic character as a faulty-
mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-
confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism/preconverging-or-dementing-integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-

Insightfully, such a candidity/candour-capacity deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology construed as most ontologically-veridical human psychical representation and so over our present positivism–procrypticism psychical representation, is effectively grounded on the notion that placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is ‘by itself inherently an utterly discreet and arbitrary construct’ but for the fact that every registry-worldview’s/dimension’s reference-of-thought has been habituated to its own as of its existentialism/full-depth-of-existential-implications meaningfulness-and-teleology and considers its own by reflex to be sanctimonious. But then the fact is the true sanctimony lies with intrinsic-reality/ontological-veridicality construed as of prospective relative-ontological-completeness-of-reference-of-thought as it so defines the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology veracity/ontological-pertinence as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, as implied with the notion of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’. Underlying such graduated conceptualisation of human consciousness as of notional~conflicatedness, is the fact that as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, such human consciousness conflatedness ultimately behind the successive institutionalisation-cumulations/institutional-recomposes in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is grounded on its least common human temporality/shortness-to-intemporality/longness denominator which is the ‘constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness}); and while the ‘complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ is aspirational as inducing the dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition behind the ‘inventing’ of prospective institutionalisation, it is effectively occurs spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness conflatedness as this inevitably leads to temporal concatenation to intemporality, rather its import lies solely as
of solipsistic intemporal projection drive given that ontological-faith-notion-ontological-fideism—imbued-underdetermination-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the possibility of its secondnated institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional–conflatedness of notional–deprocrypticism can be reinterpreted operantly as of ‘notional–referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating—as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the deprocrypticism referentialism—ontologically-uncompromised-mediating-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘deprocrypticism referentialism—ontologically-uncompromised-mediating-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing–apriorising-psychologism’ thus
generating as of their ‘pseudo-referentialism’ mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness-of-reference-of-thought of meaningfulness-and-teleology’. Neuterising thus refers to human attribution of meaningfulness-and-teleology as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/structural/paradigmatic/de-mentative—ontological-performance-&lt;including-virtue-as-ontology&gt; is relatively ontologically-incomplete/of-ontologically-compromised-mediating, as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional—deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion-of-reference-of-thought—&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation&gt;, that is secondnatured as of its prior relative-ontological-incompleteness-of-reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance—&lt;including-virtue-as-ontology&gt;. For instance, as of their relative-ontological-incompleteness-of-reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness-of-reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘abject and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary
tales’ in shoring up that posture, speaking of its threshold-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism. This is a most elaborate articulation of
neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’
say between positivism–procrypticism and deprocrypticism with the latter underlying the
disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the
case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in
the various illustrations highlighted herein and particularly as more obviously revealed with
childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-
referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein
recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of

mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’

stranding-or-attributive-dialectics) on ‘decentering/pivoting around the uninstitutionalised-threshold rule’ as a remaking of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument involving the resetting of the placeholder/setup/mental-devising-representation/mentation/consciousness-awareness-teleology, pointing out that the prior apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument has been superseded as of its revealed perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation> and so as of the uninstitutionalised-threshold rule. This explains why at uninstitutionalised-thresholds which are subject to ‘meaningfulness-and-teleology neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency-(transparency-of-totalising-entailing, as-to-entailing-as-amplituding-formative>epistemic-totalising-in-relative-ontological-completeness) that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation without temporal/shortness-of-register-of-meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation>; as it is naïve to think that while being at an
uninstitutionalised-threshold like universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness <amplituding/formative>wooden-language–{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>} in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure cross-generational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninsitutionalisation meaningfulness-and-teleology neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism/disjointedness-as-of-reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional~referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in

Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness-of-reference-of-thought, so-construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same
physics intrinsic-reality, we cannot simply by constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of ‘traditional classical mechanics axiomatic-construct’ given its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness-of-reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising~renewing-realisation/re-perception/re-thought as of maximalising-recomposuring-for-relative-ontological-completeness; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-
reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating–of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory/de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening-

worldview’s/dimension’s reference-of-thought ‘abstract teleological-structuring/paradigming/de-mentating/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidious-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness which is non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-structuring/paradigming/de-mentating/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance-<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-

Such a construal equally applies to our positivism–procrypticism associated manifestation of disjointedness-as-of-reference-of-thought associated with a postlogism-slantedness, conjugated-postlogism or any other temporal mental-disposition instigation wherein our underlying procrypticism/disjointedness-as-of-reference-of-thought mental-disposition is a notional-contiguity/epistemic-contiguity-

This explains why it is structurally/paradigmatically/de-mentatatively impossible for either such a non-positivistic social-setup or our procrypticism social-setup to resolve the vices-and-impediments associated with the corresponding reference-of-thought centered-

<amplituding/formative>epistem-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, as it is in circular <amplituding/formative>epistem-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument centered–epistemic-totalisation grounding; thus explaining the endemisation and enculturation of the associated vices-and-impediments. Rather than a difference-in-kind/difference-in-aposteriorising-or-logicising implied as of ‘notional-contiguity/epistemic-contiguity-

same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments cross-generationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construed there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-
schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a deprocrypticism perspective with regards to a procrypticism/disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism/disjointedness-as-of-reference-of-thought arises in the first place is in circular <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in seconndnaturin such a prospective institutionalisation ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from the notional~deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating–of-meaningfulness’ grasp of intrinsic-

 non-rules—apriorising/axiomatising/referencing–psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of temporal-to-intemporal-dispositions, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its (given consciousness’s neuterising-induced-or-referentialism-induced) as reference-of-thought—

in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective construal of non-positivism/medievalism reference-of-thought in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought show the latter to be decentered and preconverging-or-dementing–apriorising-psychologism. As a further elaboration, the circularity and amplituding/formative epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument is fundamentally grounded on its teleological-structuring/paradigming/dementating/teleological-possibilities established as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. It is only a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-structuring/paradigming/dementating/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. This explains as of metaphysics-of-absence why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-
disposition in degeneration of the human existential tale; as all presencing—absolutising-identitive-constitutedness by mental-reflex keep on representing their uninstitutionalised-threshold as institutionalised, that is as ‘centered and postconverging-or-dialectical-thinking—apriorising-psychologism’, as a ‘delusion of an always institutionalised presencing—absolutising-identitive-constitutedness as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’ rather than being veridically ‘decentered and preconverging-or-dementing—apriorising-psychologism’ at the uninstitutionalised-threshold as of ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, as logical-dueness doesn’t even arise in the very first place given perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of unsoundness-or-inauthenticity-of-reference-of-thought. We can get a projected sense of this as of metaphysics-of-absence in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness-of-reference-of-thought, and falling back to construe/conceptualise meaningfulness-and-teleology in non-positivistic animistic or medieval terms–as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of unsoundness-or-inauthenticity-of-reference-of-thought. As broadly speaking, a registry-worldview’s/dimension’s reference-of-thought is as of ‘the existential individuations possibilities as to reference-of-thought–prelogism-as-of-conviction-as-to-profound-

This is clearly made obvious when ‘the very same motif of reasoning’ is construed as of metaphysics-of-absence implications (as to ontological-normalcy/postconvergence) say with respect to an animistic or medieval non-positivistic registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness construed from a succession of ‘amplituding/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ so implied by an ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ enabling successive prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy with respect to human notional deepening limited-mentation-capacity as of institutional-cumulation; such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-structuring/paradigming/de-mentating/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological conflatedness’, and this is important ‘to avoid unduly considering our whole psychical-
nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-presence’, but rather grasp that there are teleological-structuring/paradigming/de-mentating/teleological-possibilities/teleological-potency of our mental-projection and mental-disposition as of deprocryptism or preempting—disjointedness-as-of-reference-of-thought ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating

This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ as of the prospective relative-ontological-completeness-of-reference-of-thought of the (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness—
while on the other hand the grounded uninstitutionalised-threshold recurrently overrides as of constitutedness beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> any notion of its ontologically deficient ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded meaningfullness-and-teleology, and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, and explaining why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity fully occurs as of a cross-generational habituation process. Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulations is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-
relative-ontological-completeness as the process enabling prospective relative-ontological-completeness-of-reference-of-thought of same <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness but presences in their <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} consider maximalising-recomposuring-for-relative-ontological-completeness as of exceptional-askance and unordinary due to their <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing–apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleologyal engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human meaningfulness-and-teleology is ‘often actually imbued with active and passive
structurally/paradigmatically/de-mentatively as of the relationship between non-positivism and positivism as well as our procrypticism/disjointedness-as-of-reference-of-thought and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. This underlying notion of ‘notional–conflatedness/constitutedness-to-conflatedness construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primemovers-totalitative-framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces relatively poor ontological-performance—<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-
veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the structuring/paradigming/de-mentating of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the structuring/paradigming/de-mentating of human reference-of-thought; with the consequence that it is not ‘notionally structured/paradigmed/de-mentated’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as
if an epistemic-totalising–devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is
then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our deepening limited-mentation-capacity enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding-formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/superrogatory-de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/superrogatory-de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrogatory-de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional-deprocrypticism-prospective-sublimation)) originary/event-of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-
reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, it emphasises mere structural patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suberogatedy-de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/structural/paradigmatic/de-mentative relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere structural conceptualisation in constitutedness rather than striving to expand the transcendental-enabling/sublimating/suberogatedy-de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/suberogatedy-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier
notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposing-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework renewal of a same epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given
intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in order to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a deprocrypticism (protensive-consciousness referentialism-induced)-reference-of-thought—devolving-teleological-structuring/paradigmimg/de-mentating—of-meaningfulness analysis as of its prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; consciousness defined as of ‘notional
the ontological-contiguity—of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation imbricatedness/threadedness/recomposuring ’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-thresholds. Thus, the ontological-veracity as prospective relative-ontological-completeness-of-reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation imbricatedness/threadedness/recomposuring ’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation and as of its implied superseding—oneness-of-ontology, since existence is structurally/paradigmatically/de-mentatively precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of...
existence’s imbricatedness/threadedness/recomposuring; and any such pretense of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness-of-reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, this points out that existence inherent superseding—oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology is effectively as of a natural transcendental-enabling/sublimating/supererogatory-de-mentativity existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness ‘in wait’ to be elucidated however imbricated/threaded/recompusured such an exercise, explaining why our knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of a given <amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in conflatedness need to be as of a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating/supererogatory-de-mentativity existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness. For all the above elucidations highlighting the ontological-veracity implications of constitutedness and conflatedness, it should be noted that emphasis is rather on the deficiency of limited-

in effect the natural sciences are actually for-human-studies/for-human-constructs whose

are actually for-human-studies/for-human-constructs whose specific ambit of human-

the fundamental issue is how human limited-mentation-capacity effectively construes

well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-

This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating, as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating, as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as deepening limited-mentation-capacity that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology-and-longness-of-register-of-meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of deprocrypticism ‘referentialism—ontologically-uncompromised-mediating, as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional—deprocrypticism ‘referentialism—ontologically-uncompromised-mediating, as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-

Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional–confoundedness of notional–deprocrypticism construct, wherein its

highlights human potential to transcend towards grasping existence/existential-possibilities;
with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—
positivism–procrypticism reference-of-thought but for the former transcendental instigation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; such that all that is left of permanence determination about existence is its transcendental construct as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation).

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness-of-reference-of-thought as of ontological-performance-<including-virtue-as-ontology> arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of deprocrypticism as preemption—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence’ what is existence/existential-possibilities not factoring Being conflatedness <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought

Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulately grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance—including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness-of-reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought—categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-
prospective metaphoricity as of its implied prospective existential reference. transcendence-

towards attaining successive prospective relative-ontological-completeness-of-reference-of-thought as the institutionalisations’. This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered—epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-
<including-virtue-as-ontology>’ since such a criticism is based on assuming only a same registry-worldview’s/dimension’s reference-of-thought, and so-construed mainly because such a Derridean conception construes of centered—epistemic-totalisation as only within one registry-worldview’s/dimension’s reference-of-thought-as-of—
Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance-<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening-

(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating- withdrawal,-eliciting-of-prospective-supererogation) for successive prospective relative-ontological-completeness-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered-

(<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> in reflecting the ontological-contiguity—of-the-human-institutionalisation-process or notional~deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of the very same

(<amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-
things with the latter axiomatic-construct more-profound/grander meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance-<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating–of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay
différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything.

Inherent to futural différance is the notion of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought/structural/paradigmatic/de-mentative implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling cross-generational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate cross-generational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} as of prospective relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-
constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema> in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same <amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) induces structurally/paradigmatically/de-mentatively grander human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating~of-meaningfulness’ as of the very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as-to-‘human<amplituding/formative>epistemic-totalising~purview-of-construal’.
It should be noted thus that an axiomatic-construct is as of an implied correspondence with
the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative>epistemic-totalising~purview-of-construal’ or <amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of
logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct
construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given
explicated axiomatic-construct in the same way that insight/intuition is reflected rather with
regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an
idea or a concept or a notion or a theory being any conception as of meaningfulness-and-
teleology of supposed existential-implications correspondence. That is the traditional
knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate
articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the
axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity
supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation for human-subpotency possibilities for devolving meaningfulness-and-
teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, with increasing ontological-
performance～<including-virtue-as-ontology> as of human transcendence; even though such a
conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a
technical practicality akin to say the scaffolding of a building! In other words as the ‘inner
working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-
nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-
mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-
existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-<postconverging-or-dialectical-thinking-apriorising-psychologism> as of maximalising-recomposing-for-relative-ontological-completeness. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–damentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–damentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory–damentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering,
other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-

hand why the mere introduction of mathematics, statistics and data in domains requiring
‘human corresponding—sublimation-inducing,—profound—and—creative

apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument—for—

mathematics, statistics and data are rather ‘distracting—from and not—contributing—to’ the

conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarès, Schrodinger,
Bohns had to elicit the transcendental-enabling/sublimating/supererogatory—de—mentativity of
the physics <amplituding/formative> epistemic—totalising—devolved—purview/domain—of—
construal—as—intrinsic—reality/ontological—veridicality/existential—reality created axiomatic
constructs with mathematics being accessory to the transcendental—
enabling/sublimating/supererogatory—de—mentativity. They didn’t just start to develop
‘patterns of mathematical equations’ without the prior insight about the physics domain—of—
study and what to strive for, and actually from that ‘physics reality precedence perspective’
got the insight to further develop their relevant branches of mathematics. Nor do even pure
mathematicians just go about constructing ‘mathematical patterns’ as of formalisation
without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. The naïvety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—

‘human-amplituding/formative>epistemic-totalising–purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocripticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional—deprocripticism psychoanalytic-unshackling metaphysics-of-absence and conflatedness, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism—procripticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–

Being as of its implied notional–deprocrypticism’s conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague \textless \textit{amplituding/formative}\textgreater{} epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of \textless \textit{amplituding/formative}\textgreater{} epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-
together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory-de-mentativity implications as of human limited-mentation-capacity-deepening-<amplituding/formative>epistemic-totalisingly—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation), whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the ‘maximising-recomposuring-for-relative-ontological-completeness
construing/conceptualising in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Such that human phenomenological <amplituding/formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>)s) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity implications construed from notional−deprocrypticism perspective as historiality/ontological-eventfulness/ontological-aesthetic-tracing, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,-in-supererogatory—epistemic-conflatedness, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation selectivity inherent in
existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality-to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of maximalising-recomposing-for-relative-ontological-completeness existentially supersede abstract/imagined/misconstrued/virtual constitutedness possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness as of successive opened-constructs-of-meaningfulness-and-teleology superseding <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology exercise we can’t as of soundness-or-authenticity exculpate ourselves to then pretend ours is the registry-worldview/dimension reference-of-thought that
as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of-meaningfulness-and-teleology on as of ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory-de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say 19th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> on the basis of a naive conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-
mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory–de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation} as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ or <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory–de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a
change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, as of the very same <amplituding/formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existence; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-
continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-
discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-
qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity.
Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-
the-full-potency-of-existence problem but rather a problem of human-subpotency as of its
limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-
capacity as of de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness-of-reference-of-thought is a structural/paradigmatic/de-mentative deficiency inducing the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness-of-reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a cross-generational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given
centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but cross-generationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is structurally/paradigmatically/de-mentatively a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential
possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative>epistemic-totalising–self-referencing-syncretising’ of meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a structural/paradigmatic/de-mentative ‘self-referencing and syncretising-effecting construed as <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why cross-generational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly
nature as of longness-of-register-of-meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-prime-movers-totalitative-framework validation as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness, as re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/’epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation), that are most likely to be syncretised cross-generationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal
ontological implications for social-functioning-and-accordance—as-of-social-stake-
contention-or-confliction, every social-setup as a conventional-construct can only be held
together in the long-term as of its requisite given registry-worldview’s/dimension’s
institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-
adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-
imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and
social existential-possibilities expectations. It may thus seem from within just one human
generation perspective that the underlying human metaphoricity for transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is rather marginal especially when not
associated with any external cultural diffusion. However, human metaphoricity as of cultural
transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the
relative universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) about
such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,—as–
reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that
individuals in a social-setup are already involved internally however restricted in its very own
reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-
contention-or-confliction striving to draw in various ways the optimum as of perceived
existential possibilities and is thus of a minimal opening/overture/receptivity to internal and
external metaphoricity, also critically speaks to the fact that any social-setup is only able to
hold together because of supposedly coherent ontological-commitment that is subject to
existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-
in-supererogatory–epistemic-conflatedness validatory ontological-primemovers-totalitative-
framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such
supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology’ allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in order to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency,-disclosed-

However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its <amplituding/$formative$>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) means that it doesn’t necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its <amplituding/$formative$>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

institutionalisation rather occurs as of the superseding of <amplituding/formative>epistemic-

untransvaluated~temporal-intemporality. Ultimately, prospective metaphoricity in a reflection
of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies
that it is rather fundamentally a question of grasping the mechanism that tips the balance
towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus

human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness-of-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-of-reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism/disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of conflatedness actually construes

can appreciate the metaphysics-of-absence insight about such a deneuterising storied-
construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or
animistic social-setup is ‘not committed in a <amplituding/formative>epistemic-

positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences
and incidents best explained and dealt with by such positivistic meaningfulness as of the
latter’s prospective relative-ontological-completeness-of-reference-of-thought. As such non-

This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its \textless\textit{amplituding}/formative\textgreater epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness as of notional–deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology-\textless in-existential-extrication-as-of-existential-unthought\textgreater . It is most critical because at any registry-worldview/dimension, human self-consciousness is a \textless\textit{amplituding}/formative\textgreater epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a-meaningfulness-and-teleology-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold-and-its-assorted-and-conjugated-temporal-meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/\text{supererogatory}~de-mentativity is always perceived as unnatural when \textless\textit{amplituding}/formative\textgreater epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-
This operantly defines procrysticism/disjointedness-as-of-reference-of-thought as beyond just the construal of new supposedly intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prospective institutionalisation to preempt the temporally denaturing reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather the deneuterising construal of the very ‘limited-mentation-capacity as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> constraining dynamism’ behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place; conceptualised henceforth as the very reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the Deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional–deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology’ over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion
underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation and temporal/shortness-of-register-of-meaningfulness-and-teleology individuations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s. Ultimately, the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> given its psychoanalytic-unshackling as of prospective deprocryticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness of Being as implied as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation that is behind organic-knowledge. Human <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of-meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic
preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturizing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ is in a state of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure transforming of the non-positivism/medievalism mindset/reference-of-thought into a

positivistic mindset(reference-of-thought) that is onologically-speaking to be construed as the structural/paradigmatic/de-mentative resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism worldview). We can appreciate such metaphysics-of-absence insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporality/longness behind the ‘inventing of the base-institutionalisation culturally diffused knowledge’ for an optimum accrual of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology of recurrent-utter-uninstitutionalisation; that is, based on base-institutionalisation’s ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’ enabling the superseding of recurrent-utter-uninstitutionalisation vices-and-impediments as of its ‘non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition’. Such conceptualisation extends to all registry-worldviews/dimensions prospective institutionalisation including our positivism–procrypticism prospective transcendental emancipation to deprocrypticism. Underlying Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is the construal of knowledge in both its ‘immediate, cause-
is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory-de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory-de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor wherein institutionalising reference-of-thought—categorical-imperatives/axioms/registry-teleology are always subject at uninstitutionalised-thresholds to their denaturing as of their <amplituding/formative>wooden-language-{imbued—temporal—mere-
form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology), as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Hence Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein the abstract intemporal/longness-of-register-of-meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturizing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’)’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-
teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩ as improper and unqualified. This was to avoid a circularity of <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩}

This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-prime movers-totalitative-framework-overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance-<including-virtue-as-
ontology>–implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency–{transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness}’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative>epistemic-totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency–{transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness}’ thus enabling ‘intemporal ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of various pertinent social manifestations: – wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory~de-mentativity in formal institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; – wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade
knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory-de-mentativity as to existence-potency-disclosed-from-prospective-epistemic-digression-as-of-

<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness; – the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; – ultimately the very paradox of human <amplituding/formative>epistemic-totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing meaningfulness-and-teleology value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness to presence, rather than as of <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. However despite this knowledge and sovereignty dilemma associated with Being-
<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness)}’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory–dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting the ontological-contiguity—of-the-human-
institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness)’. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative>epistemic-totalising–purview-of-construal’. Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective ontological-contiguity is more than just a reification gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> but extends to encompass a de-assertion/preconverging-or-dementing–apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-
constructs as of the very same <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism/disjointedness-as-reference-of-thought implies a transcending reification gesturing that not only affirms deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at uninstitutionalised-thresholds that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation
ontological-completeness as of <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought implied as of prospective institutionalisation’s deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which is ‘ontologically flawed and wanting’ but rather is as of a maximalising-recomposuring-for-relative-ontological-completeness intemporal-projection transcendental-enabling/sublimating/supererogatory–dementativity for prospective institutionalisation relative to such <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism/disjointedness-as-of-reference-of-thought reasoning’ is not admissible to prospective ‘deprocrypticism or preempting—disjointedness-as-of-reference-of-thought reasoning’ and so from the moment of the event-construed-as-the-prospective-ontology-
origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event-construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity-
<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-

Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the structural/paradigmatic/dementative lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–dementativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology-
<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing,
so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought relative to our positivism—procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism—procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme as otherwise such knowledge will be teleologically-degraded in circular positivism—procrypticism disjointedness-as-of-reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our <amplituding/formative>epistemic-totalising—self-referencing-syncretising/illusion-of-the-
present/present-consciousness/mirage as metaphysics-of-presence blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as of our *amplituding*/*formative* epistemic-totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness structuring/paradigming/de-mentating and not temporal extricatory structuring/paradigming/de-mentating. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s
of-affirmative-and-unaaffirmative,-disambiguated-apriorising/axiomatising/referencing’ inducing a given specific nonpresencing-<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaaffirmative,-disambiguated-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perpectivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-
construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care— and—episteme as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising—behavioral-instinct—protohumanity’—to—‘attain—sublimating—humanity’—as—to—existence—potency,—disclosed—from—prospective—epistemic—digression—as—of—<amplituding/formative>epistemic—totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness to supersede human temporality/shortness <amplituding/formative>wooden—language—(imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—and—teleology—as—of—‘nondescript/ignoreable—void’—with—regards—to—prospective—apriorising—implications>)) to be able to achieve transcendence—and—sublimity/sublimation/supererogatory—de—mentativity’, and so as of intemporality. With regards to living—as—of—human—personality—developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental—disposition/care— and—episteme that it has a poor dispensing—with—immediacy—for—relative—ontological—completeness—by—reification/contemplative—distension as of its more direct focus on instant—sensations—and—carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing—with—immediacy—for—relative—ontological—completeness—by—reification/contemplative—distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing—with—immediacy—for—relative—ontological—completeness—by—reification/contemplative—distension as for instance the notion of pleasure is increasingly substituted with that of work—and—pleasure, etc. Such living—development—as—to—personality—development as dispensing—with—immediacy—for—relative—ontological—completeness—by—
not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–
and–episteme can pertinently be defined as the ‘assumed-and-unflinching transversality-of-
affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ inducing
a given specific nonpresencing-<perspective–ontological-normalcy/postconvergence>
outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-
reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality,
and establishing-and-upholding the underlying framework of meaningfulness-and-teleology
associated with that attitude/mental-disposition/care–and–episteme. It can be construed with
regards to prospective transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity as a structural/paradigmatic/de-mentative adjunctive-metaphorocity-signification
inducing-and-upholding a prospective ‘underlying <amplituding/formative>epistemic-
totalising/circumscribing/delineating signifying-construct as <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-
thought-devolving’. In other words, a registry-worldview’s/dimension’s reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly
apprehended decisively by its given attitude/mental-disposition/care–and–episteme as of the
‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing’. This insight is critical as for instance with appreciating
what is implied by futural Being-development/ontological-framework-expansion–as-to-
deepth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of
prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme by its given specific nonpresencing-<perspective–ontological-
normalcy/postconvergence> outcome; as we simply have to project/anticipate its ‘assumed-
and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-
orientations and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, ‘the human toddling potential’ or the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme, can only arise by notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema> induced psychoanalytic-unshackling as of relative-ontologically-veridical attitude/mental-disposition/care–and–episteme ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ over relative-ontologically-flawed attitude/mental-disposition/care–and–episteme, with the latter necessarily having to ascend to the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme for the former’s implied meaningfulness-and-teleology as of its ontological-performance-<including-virtue-as-ontology> to avail, and so in reflecting the ‘incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation’; as we can appreciate this with regards to existence’s relative validation of the positivism/rational-empiricism ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’ interpretation over recurrent-utter-uninstitutionalisation’s ‘bad omen’ interpretation. Such an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other
infrastructure-of-meaningfulness-and-teleology’, and thus the latter cannot unlike the former be the framework for aetiology/ontological-escalation as of universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as intemporal/longness or eliciting of <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}>’

This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose
there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness structuring/paradigming/de-mentating to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied knowledge given that the old/prior/ superseded as of its beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness-of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing<-<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-thresholds are necessarily ‘structurally/paradigmatically/de-mentatively conflicted’, with prospective transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos,
Diderots, etc. as of ‘budding positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are structurally/paradigmatically/de-mentatively fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is structurally/paradigmatically/de-mentatively superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative,–disambiguated-apriorising/axiomatising/referencing; as so reflected in their mutually beyond-the-consciousness-awareness-teleology.<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness attitude/mental-disposition/care–and–episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallowminded to the notion of a prospectively undermining prospective nonpresencing–<perspective–

disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments
and ‘lack of perceived constraining framework of logical-congruence of dialogical-

What is then the manifestation of such intellectual undermining which must necessarily be
understood as of knowledge-notionalisation required as of the notional~conflatedness of
deprocrypticism or preempting—disjointedness-as-of-reference-of-thought protensive-
consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally
involves the undermining at any human uninstitutionalised-threshold of the possibility of
intellectually induced social universal-transparency—{transparency-of-totalising—entailing—as-
to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-

untransvaluated–temporal-intemporality social-chainism, on the conation of upholding
ontological-bad-faith/inauthenticity contentions; by its deflating of the conception of
ontologically-veridical meaningfulness-and-teleology as of human mortals contentions in

deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as
new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or
agreeableness’. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect
undermines, as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-
as-of-existential-unthought>, the articulation of meaningfulness-and-teleology as of
prospective maximalising-recomposing-for-relative-ontological-completeness that could
jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-
relative-ontological-incompleteness as of prior reasoning-from-results/afterthought in
overlooking concurrent ontological-prime movers-totalitative-framework strife to uphold-and-
promote the ‘superior party’ which is the nonpresencing-<perspective-ontological-
normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such
intellectual-bad-faih rather advancing such an incrementalism-in-relative-ontological-
incompleteness accommodating framework for strategically cultivating pre-established
temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness is a
simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine
intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship
with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness that in many ways could just as well validate "amplituding/formative" wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic pedantry/mandarinism that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension intemoral detachment/backstep for transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemoral dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. As such ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive constitutedness are of the same notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> kind that bathe in the <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} and untransvaluated–temporal-intemorality social-chainism that implied as much about extolling

Essentially and constructively, all intellectualism as of their intemporal job description as emancipative is to relay in uninhibited/decomplexified terms–as-of-axiomatic-construct the blunt reality of the social as this is the very attitude/mental-disposition/care—and—episteme that empowers prospective social emancipation however socially unconvenient it may sound; and so beyond habituated <amplitudin/for-mative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness structuring/paradigming/de-mentating, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of-meaningfulness-and-teleology denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. As a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, the ever present reality of human uninstitutionalised-threshold as reflected successively with recurrent-utter-uninstitutionalisation,

The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality is rather about a ‘seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’, but that reasoning-through/messianic-reasoning
reasoning-from-results/afterthought now in prior relative-ontological-incompleteness-of-reference-of-thought at such uninstitutionalised-thresholds; and so, in a renewing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument instigation as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme implicitation for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, which is construed as more fully articulating the notion of authenticity. This practical conceptualisation of authenticity as of its method is further critical because however well elicited, even reasoning-from-results/afterthought constructs still need their good ontological-performance-<including-virtue-as-ontology> in practice, and given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, there is always room for human denaturing temporal ontological-performance-<including-virtue-as-ontology> of such reasoning-from-results/afterthought constructs induced by reasoning-through/messianic-reasoning; pointing to the fact that ultimately the underlying ‘sanctity of knowledge’ arises from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of such authenticity based intemporal organic-knowledge that is wary of the denaturing that can arise as of temporal mechanical-knowledge that ‘dispenses with the originary/as-of-event spirit of reasoning-through/messianic-reasoning’ and adopts a mere pedantic relating with the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Finally as a further analysis, Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology is by a rather surreptitious manner undermined by what this author qualifies as ‘subterfuges of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology’ which are rather as of ideology; ideology in the sense that these are ‘commitments’ ready to ‘forego the pre-eminence of knowledge construed as of its ontological-veracity’ which is the only assurance of optimum construct of knowledge for human emancipation. Ideology as such takes the form of either ‘ideology denaturing of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology’ or ‘reactive fear of ideology denaturing of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology’. In both instances what is lost is Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology itself, such that besides temporal/shortness-of-register-of-meaningfulness-and-teleology interests undermining natural Being-development/ontological-framework-

The latter as deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as of its ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneutering—referentialism that breaks-down the various neutering to their basic human limited-enchantment-capacity dynamics implications.

It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the

Thus for the protensive-consciousness as apriorising/axiomatising/referencing—re-originariness/re-origination as of referentialism–circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality ‘existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology’ implied say as of post-structuralism factoring in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery’; as of deprocrypticism is as of deneuterising—referentialism. This analysis conveys the reality of human cross-generational institutional-cumulation/institutional-recomposure due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of meaningfulness-and-teleology as of ‘their relative neuterising’. Likewise the ultimate possibility of human cross-generational institutional-cumulation/institutional-recomposure as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional–deprocrypticism/<amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human meaningfulness-and-teleology construed as of historiality/ontological-eventfulness/ontological-aesthetic-tracing; as of the possibility of deneuterising. In the bigger scheme of things, as of the notional–conflatedness of notional–deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différence/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-
point-of-departure handle as of the notional–conflatedness of notional–deprocrypticism
deneuterising—referentialism’ reflected by metaphysics-of-absence in the conception of
meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>
which is as of the transcendental implications in reflecting the ontological-contiguity—of
the-human-institutionalisation-process. The further insight here is that, such a most
ontologically-complete profoundness/depth of ‘phenomenological transcendental-point-of-
departure handle in-its-overcoming-of-neuterisation’ reflected by metaphysics-of-absence for
the construal of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue points to a fundamental epistemic-break.epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic
commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-
same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising~purview-of-construal’” as of the
variance of uninstitutionalised-threshold prior relative-ontological-incompleteness-of-
reference-of-thought and prospective institutionalisation relative-ontological-completeness-
of-reference-of-thought. For instance, such epistemic-break.epistemic-resetting associated
with the overall ontological-contiguity—of-the-human-institutionalisation-process
necessarily explains the ‘mutually transversality-of-affirmative-and-unaffirmative,-
disambiguated-apriorising/axiomatising/referencing unintelligibility’ of the Galileos,
Newtons, Diderots episteme articulating prospective positivising/rational-empiricism
meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic
episteme. The implication here is that the articulation of transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as of reference-of-thought is by itself
tied up to a prospective epistemic disruption, construed as of soundness-or-authenticity-of-
reference-of-thought, beyond just grounded knowledge as of the prior episteme which is
rather construed as of unsoundness-or-inauthenticity-of-reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/inter solipsistic-intercessory-notions/notional–referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative)epistemic-totalising–in-relative-ontological-completeness, an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–human<amplituding/formative>epistemic-totalising–purview-of-construal’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–human<amplituding/formative>epistemic-totalising–purview-of-construal’ with respect to social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–
<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness); and so more than just as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative>epistemic-totalising-self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, antinihilism and transcendent-enabling/sublimating/supererogatory–de-mentativity
knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme structurally/paradigmatically/de-mentatively loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually structurally/paradigmatically/de-mentatively beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness structuring/paradigmging/de-mentating. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness
as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) that can render it untenable for procrypticism temporal mental-dispositions to elicit procrypticism/disjointedness-as-of-reference-of-thought implied temporality. Thus aetiologisation/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness-of-reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory-de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness mental-dispositions in their intemporality/longness or longness-of-register-of-meaningfulness-and-teleology are as of a projected-or-anticipated conflatedness of social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) for institutional and formal deferential-formalisation-transference as of percolation-channelling. That is at the uninstitutionalised-

437
threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating—

<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal deferential-formalisation-transference percolation-channelling to attain social approbation. It is such a ‘conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling to attain social approbation’ that holds together in social universal-transparency—{transparency-of-totalising-entailing-,as-to-entailing-

<amplituding/formative> epistemic-totalising—in-relative-ontological-completeness) temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation—ununiversalisation, positivism/rational-empiricism in universalisation—non-positivism/medievalism, and prospectively deprocrypticism in positivism—procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a
registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness mental-disposition on the basis of its prior relative-ontological-incompleteness-of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness mental-disposition on the basis of the prospective relative-ontological-completeness-of-reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its $\langle$amplituding/formative$>$wooden-language-$\langle$imbued—averaging-of-thought-$\langle$as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications$\rangle$ in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious $\langle$amplituding/formative$>$wooden-language-$\langle$imbued—averaging-of-thought-$\langle$as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications$\rangle$ in the non-positivism social-setup. Ultimately, such a profound phenomenological $\langle$amplituding/formative$>$epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance-$\langle$including-virtue-as-ontology$\rangle$ construal faced with the inherent dogmatic and psychological biases of human $\langle$amplituding/formative$>$epistemic-totalising-thrownness-in-existence (I exist therefore
existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional—deprocrypticism as preemting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative>epistemic-
totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory~de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory~de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory~de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory~de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimes presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative>epistemic-totalising~in-relative-
ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive structural/paradigmatic/de-mentative determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplitudes/formative>epistemic-totalising-thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of
them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. transcendence-and-sublimity/sublimation/suppererogatory–de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating–of-meaningfulness’ which is the
‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human-<amplituding/formative>epistemic-totalising-purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening-({<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) arising in further conflatedness as of human maximalising-recomposing-for-relative-ontological-completeness in an exercise of <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought

Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a conflatedness and so construed from the perspective of <amplituding/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing’ actually ended up inducing constitutedness in striving to construe meaningfulness-and-teleology vaguely from phenomenal-abstractiveness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness. Rather existence—as-the-absolute-a-priori-of-conceptualisation is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–

‘human<amplituding/formative>epistemic-totalising–purview-of-construal’, rather than a
flawed attempt at grounding as with say a transcendental ego basis of construal of
meaningfulness-and-teleology, unsuspectedly grounding as of our positivism–procrypticism
prior relative-ontological-incompleteness-of-reference-of-thought; as such a role is simply
undertaken by conflatedness as of prospective relative-ontological-completeness-of-
reference-of-thought and is rather construed then as of such prospective underlying
‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-
now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the conflatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness of existence as of prospective relative-ontological-completeness-of-reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing-with-the-latter-only-a-bi-manifestation-of-the-reccurence,-as-psychically-recurrent as of human shallow to deepening limited-mentation-capacity due to inherent human temporality/shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus <amplituding/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance-<including-virtue-as-ontology>, so-derived as it solipsistically constructs-and-reconstructs underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-
primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and developing meaningfulness-and-teleology as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the conflatedness of existential-instantiations successions as it construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicited and implicated/intuited as of a living-being <amplituding/formative>epistemic-totalising~conflated-meaningfulness-and-teleology in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscore the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as of language development which is the ‘signifying mirroring’ of human meaningfulness-and-teleology. The implication here is that meaningfulness-and-teleology as of ‘existential self-referencing’ and ‘existential syncretising-effecting’ construed as <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag corresponds to language as of its ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct’ and its ‘metaphoricity’; in reflecting how human social-stake-contention-or-confliction induces human transcendence-as-of-full-transcendental-potential underlying knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. Consciousness, and as reflected by the signifying mirroring of meaningfulness-and-teleology that is language, is thus a point-of-focusing axiomatic/reference-of-thought devolving-construal disposition for meaningfulness-
and-teleology as of the ‘human species sublimation-inducing—
textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-
of-existence as of existential-stakes migration enabled by human limited-mentation-capacity-
deepening-\langle<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation\rangle\rangle’ that speaks of ‘meaningfulness-and-
teleology accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as
the human species consciousness-différance’, reflected by notional-deprocripticism
conceptualised historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the
conflatedness of the successive human consciousnesses ‘reference-of-thought—devolving-
teleological-structuring/paradigming/de-mentating—of-meaningfulness’. Thus consciousness
by its full development as of Being-development/ontological-framework-expansion—as-to-
speaks fundamentally of the entire narrative possibilities of the human species as of human
sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-
interpretation/axiomatisation-of-existence. Such ‘consciousness conflatedness of
meaningfulness-and-teleology’ is reflected by the signifying mirroring of meaningfulness-
and-teleology that is language as of its metaphoricity. Metaphoricity can thus be construed as
the signification of articulated meaningfulness-and-teleology as of reference to existential-
instantiation contexts adjunctively and not as naturally devolving into the ‘underlying
\langle<amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct
of language\rangle’ as signification of reference-of-thought, such that metaphoricity is rather an
‘adjunctive incorporation’ to the ‘underlying \langle<amplituding/formative>epistemic-
totalising/circumscribing/delineating signifying-construct of language\rangle’. The ‘underlying
\langle<amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct
of language\rangle’ as of its self-referencing meaningfulness-and-teleology is always susceptible to
the further deepening of human limited-mentation-capacity as of <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying’ <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always <amplituding/formative>epistemic-totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’. Such centered-<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology construed as reference-of-thought, and its signification as implied by an ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-teleology is as of a ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight—as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-prime-movers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-
explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising–purview-of-construal’; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) adhocly produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness-of-reference-of-thought when conceptualising about such an ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity-signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding positivism/rational-empiricism in medieval society, may turn out in-due-course/cross-generationally to be of an even greater meaningfulness-and-teleology <amplituding/formative>epistemic-totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some
significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <amplituding/formative>epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing of cross-generational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz,
Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-confoundedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ différance’, with regards to ‘human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration’, and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-

ˈunderlying <amplituding/formative>epistemic-totalising/circumscribing/delineating
signifying-construct of languages’. In another respect with regards to language acquisition as
mirroring a child’s existential integration into the dynamics of social-construct existential
situations/instances, stakes, institutions and processes, a new born child existential integration
into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-
significations in ‘significations accreting-substitutive-subsumption-as-futural-diff\\'rance-
freeplay construed here as the phenomenology of human language acquisition diff\\'rance’ that
fundamentally mirror the child’s developing existential social relationships as an ordered
process of social existential overtures constraining-and-cohering the child’s adoption-
of/integration-with the supposedly ‘underlying <amplituding/formative>epistemic-
totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar,
intuitive and dynamic developing metaphoricity where ‘both the child and members of the
overall social-construct existentially adjust to each other as of spurious meaningful utterances
like mutual babbling and baby-talk’ while implicitly converging towards the child’s
adoption/integration at various stages of its existential development of the ‘underlying
epistemic-totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the

<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge
implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall conflatedness <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of full consciousness development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology as of their peculiarity/differentiation to the entire textual/hermeneutical rhetorical-stylistic-semantic delivery, and as such metaphoricity induces <amplituding/formative>epistemic-totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay, ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-
mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism or preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historicity/ontological-eventfulness/ontological-aesthetic-tracing. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historicity/ontological-
eventfulness/ontological-aesthetic-tracing as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’” as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historality/ontological-eventfulness/ontological-aesthetic-tracing of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional~knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporal-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporal-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically
as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.

Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards

Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional—conflicatedness of notional—deprocrypticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflictedness that ‘undermines the privileging of <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to structural/paradigmatic/de-mentative ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflictedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project.
which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-
interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-
transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-
teleology imply by default a given perspective/framing/reference/horizon, such that as of a
<amplituding/formative>epistemic-totalising~self-referencing-
syneretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is
then already compromising nonpresencing—or—withdrawal—or—metaphysics-of-absence—or—
transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-
teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay
différence’ is fundamentally incomplete as of comparison with the implied conflatedness of
accreting-substitutive-subsumption-as-futural-différence-freeplay which is truly
transcendental. The former fails to factor in that human limited-mentation-capacity has to
establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to
meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-
constitutedness from nonpresencing--<perspective–ontological-normalcy/postconvergence>
by their respective supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that
unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather
represents the presencing—absolutising-identitive-constitutedness as the common
perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-
kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-
constitutedness and nonpresencing--<perspective–ontological-normalcy/postconvergence>
(rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so
contradictorily as if both are of the presencing
scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity-<shallow-suprerogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> between the two as of their distinct supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which points to a prospective relative-ontological-completeness/ontological-contiguity as of the very same
epistemic-totalising–devolved–purview–as-domain-of-construal–as-
intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural
différance transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. It
equally explains such a Derridean conclusion that human sublimation is an always evasive
notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-
axiomatising as of the transcendentental implications of prospective nonpresencing-
perspective–ontological-normalcy/postconvergence in inducing sublimation, with such a
difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-

as-so-being-as-of-existential-reality ‘promise of correspondence between human-subpotency

It is interesting again to note that the so-renewed ‘underlying epistemic-totalising/circumscribing/delineating of physics’ as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is not arbitrarily arising from any human-subpotency presencing—absolutising-identitive-constitutedness but is rather divulged-as-of-relative-ontological-contiguity from existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness by the fact of ‘human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality led projection/anticipation’ ultimate validation by ontological-primemovers-totalitative-framework. This meaningfulness-and-teleology centered—epistemic-totalisation-inducing-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity metaphoricity thus perfectly satisfies the ‘foreboding concern for ontological-veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-priori-of-conceptualisation that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so implying human limited-mentation-capacity-deepening—epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation); and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the full conflatedness reflecting existence—as-the-absolute-a-priori-of-conceptualisation in its nonpresencing-<perspective—ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay différance which is
then in constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory-dementativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation. So because at the point of transcendence-and-sublimity/sublimation/supererogatory-dementativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency.-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness as validatable by ontological-prime-movers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-
engaged with in an incrementalism-in-relative-ontological-incompleteness reflex as of elaboration-as-merely-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. The question can thus be asked is there more profound meaningfulness-and-teleology beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation? It is herein that we get into the realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, under sufficient constraint of existence/existential-reality-itself given its absolute a priori status, as reflected by ontological-primemovers-totalitative-framework/contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag established existential–epistemic-totalisation-of-meaningfulness-and-teleology’ as of a reconstrual of reference-of-thought and devolving-axiomatic-constructs implications, and so as of maximalising-recomposing-for-relative-ontological-completeness. This insight about ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality further reveals that prospective nonpresencing<-perspective–ontological-normalcy/postconvergence> implies prospective renewal of attitude/mental-disposition/care–and–episteme, as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or–
attributive-dialectics) which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposing-for-relative-ontological-completeness articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an
attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather cross-generationally as of human beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>]. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance–<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance–<including-virtue-as-ontology>s). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th
and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocripticism or preempts—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as
drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of-meaningfulness-and-teleology’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supercroatory–epistemic-conflatedness is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing-<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise
conflatedness than any other prior non-constructed meaningfulness-and-teleology simply because of the profoundness of its phenomenological depth of projection/anticipation in the quest for ontological-pristemovers-totalitative-framework validation, which ordinary <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-

recomposuring-constructivism-towards-singularisation insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-
together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness-of-reference-of-thought. sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-＜amplituding/formative＞epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening-＜amplituding/formative＞epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) for human emancipation. Thus implying existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-＜amplituding/formative＞epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-＜amplituding/formative＞epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness/intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-
capacity-deepening-\(<\text{amplituding/formative}\text{-epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}\)> bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening-\(<\text{amplituding/formative}\text{-epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}\)>. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal \(<\text{amplituding/formative}\text{-epistemic-totalising—self-referencing-}\)
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human structuring/paradigming/de-mentating for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation limited-mentation-capacity-deepening- (<amplituding/formative> epistemic-totalisingly, -as-to-existence— as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance-<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-
relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-of-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing–apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness-of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking–apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing–apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-
complete objectivity of meaning as of prospective relative-ontological-completeness-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness’, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking—‘projective-insights’/’epistemic-projection-in-conflatedness’-of-notional—deprocrypticism-prospective-sublimation} appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ thus implying rather a deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation parameterisation/reparameterisation-{reflecting-a-supererogatory—decisionality-of-socioinstitutional-conceptions-as-to—‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality—numbing-traction-desublimation’}-as-so-operationalising—‘scalarisation-as-to-rescalarisation-as—re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care—and—
episteme’ as of its procrpticism/disjointedness-as-of-reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ which prospectively represents the modern as preconverging-or-dementing—apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking—apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation—(supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-
and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩. Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative⟩epistemic-totalising—in-relative-ontological-completeness} as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intellibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ to articulate its full-fledged discourse as of universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative⟩epistemic-totalising—in-relative-ontological-completeness} as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective structural/paradigmatic/de-mentative
transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency-{transparency-of-totalising-entailing, as-to-entailing}<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any structural/paradigmatic/de-mentative transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Corpernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness-of-reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-
thought-devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-untought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-verticality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-
and-teleology of its \(<\text{amplituding}/\text{formative}>\text{epistemic-totalising/circumscribing/delineating reference-of-thought-devolving}'\), which should and cannot be ignored by any proponent of prospective structural/paradigmatic/de-mentative transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a structural/paradigmatic/de-mentative transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-conflectedness’-of-notional~deprocrypticism-prospective-sublimation)) originary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating—\(<\text{amplituding}/\text{formative}>\text{supererogatory-de-mentativeness/epistemic-growth-or-conflectedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as inclination to adhere to prospective structural/paradigmatic/de-mentative transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-
framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective structural/paradigmatic/de-mentative transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-thresholds do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ structuring/paradigming/de-mentating of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’, as of successive prospective relative-ontological-completeness-of-reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and
not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective structural/paradigmatic/de-mentative transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness-of-reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective structural/paradigmatic/de-mentative transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness-of-reference-of-thought supersedes the prior relative-ontological-incompleteness-of-reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance-<including-virtue-as-ontology> of any ‘reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-
episteme true meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>. Where beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness-of-reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness-of-reference-of-thought, this induces constitutedness ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ cross-generational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness-of-reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very
own ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procryptism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholding/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation} appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ thus implying rather a deprocryptism institutionalisation ‘unenframed/unbeholding/bechancing–supererogation parameterisation/reparameterisation-{reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-
mentation-capacity-deepening-(‘amplituding/formative’epistemic-totalisingly,-as-to-

We can garner insight about how we tend to misconstrue any attitude/mental-disposition/care—and—episteme that is different from our own ‘present attitude/mental-disposition/care—and—episteme’, whether it is a ‘prior/old/superseded attitude/mental-disposition/care—and—episteme’ or a ‘prospective/new/superseding attitude/mental-disposition/care—and—episteme’.

‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-
effect-conceptualisation’, and only ‘adhocly-and-scantily identifies’ the ‘recurrent-utter-
uninstitutionalisation attitude/mental-disposition/care–and–episteme’ as it is wholly immersed-and-engrossed in its ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme for the construal of meaningfulness-and-teleology’; which it ‘skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human-amplituding/formative>epistemic-totalising~purview-of-construal’, in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-
and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism or

beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness-of-reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care-and-episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology posture in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for
prospective transcendence-and-sublimity/sublimation/supercratory-de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising~purview-of-construal’, the ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective structural/paradigmatic/de-mentative prospective relative-ontological-completeness-of-reference-of-thought; and so beyond just <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is structurally/paradigmatically/de-mentatively disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <amplituding/formative>epistemic-totalising~self-referencing-

Such prospective change as of de-mentation- (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme. formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don’t get involve in exercise to resolve the technical problem. This outlook is actually ‘seeded’ within the dimensionality-of-sublimating—supererogatory—d-mentativity/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory—d-mentativity is ‘appropriate prospective institutionalisation seconndnaturine metaphoricity’. Consider in this regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding positivism/rational-empiricism is structurally/paradigmatically/d-mentatively ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantry as of its reasoning-from-results/afterthought logocentric constitutedness. Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of
‘the very same physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing-<perspective–ontological-normalcy/postconvergence>; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–‘notionally–collateralising-beholding-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confiliatedness to supersede human temporality/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}) with respect to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-

teleology arises as of aestheticisation before converging towards ontologisation, just as
rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness
(as is often naively implied with Nietzschean thought) since aestheticisation convergence
towards ontologisation leads to grander ontological-performance-<including-virtue-as-
ontology>. In this regards, we can appreciate that while from our vantage modern perspective
the ontological-veracity of the Egyptian cultural system aestheticisation behind the
construction of the pyramids will seem inherently impertinent, but that specific human
aestheticisation induced technical, scientific and mathematical innovations were of lateral
civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the
ontological-veracity of religion is unproven, however various specific religions human
aestheticisation in many ways relayed laterally the ontological-veracity of universalising-
idealisation thinkers as of the relatively conducive social conditions allowing for the arrival
of medieval thinkers who then instigated the possibility for modern day science
ontologisation; and besides, it can equally perfectly be claimed that even our modern day
positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can
appreciate the reality of the human aestheticisation of many modern activities (even those
associated with technological development) held as of higher interest/worth which

ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}); pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> and the more salient point is in instigating their more profound ontologisation/ontological-veracity/aestheticisation-towards-ontology as of relative-ontological-incompleteness/relative-ontological-completeness—{sublimating—referencing/registering/decisioning,—as—self-becoming/self-conflatedness/formative—supererogating—<in-projective/reprojective— aestheticising-re-motif—re-apriorising/re-axiomatising/re-referencing>)}

whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistische activities distortive of budding positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as<amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism underlying the human construction-of-the-Self’ and on the other hand
‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘structural/paradigmatic/de-mentative marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the structural/paradigmatic/de-mentative reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively
reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent structural/paradigmatic/demmentative implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while
excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. The occlusiveness of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism or preempting—disjointedness—as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and excluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the
human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically/de-mentatively potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘deconstructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> dynamics of temporal-to-intemporal-dispositions’ ). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation inducing its deficient ontological-performance-<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is critically of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency,-disclosed-from-

Thus human limited-mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social\textendash;value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup universal-transparency\textendash;\langle\textit{transparency-of-totalising-entailing,\textendash;as-to-entailing\textendash;amplituding/}formative\textit{-epistemic-totalising\textendash;in-relative-ontological-completeness\rangle\textendash;of supposedly coherent ontological-commitment with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such universal-transparency\textendash;\langle\textit{transparency-of-totalising-entailing,\textendash;as-to-entailing\textendash;amplituding/}formative\textit{-epistemic-totalising\textendash;in-relative-ontological-completeness\rangle\textendash;is muted and where such universal-transparency\textendash;\langle\textit{transparency-of-totalising-entailing,\textendash;as-to-entailing\textendash;amplituding/}formative\textit{-epistemic-totalising\textendash;in-relative-ontological-completeness\rangle\textendash;is unmuted rather infused with ‘expected equity of all individuals for social\textendash;value-construction’ narrative(s). Basically, thus the reality of prospective social\textendash;value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism\textendash;imbued-underdetermination-of-apriorising/axiomatising/referencing\textendash;as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originalarness-parrhesia,\textendash;as\textendash;spontaneity-of-

Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism lies with the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications=<as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

Likewise implied social–value-construction dilemmas in our positivism–procrypticism are ontologically deflated as of foregrounding—entailment{narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},–as-operative-notional–deprocrypticism with the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications<as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness ontologically-flawed structuring/paradigming/de-mentating’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation so-reflecteds of <amplituding/formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-
totalising–renewing–realisation–re-perception–re-thought,–in–supererogatory–epistemic–conflatedness, so-construed as ‘human-subpotency ontological-performance–<including-virtue-as-ontology> within the full-potency-of-existence-as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering–reflexivity-of-ecstatic-existence–as–panintelligibility–<imbued-and-hermeneutically–educated–human-subpotency–epistemic–perspective–of–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re–axiomatising/re-referencing–conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation structurally/paradigmatically/de-mentatively induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is structurally/paradigmatically/de-mentatively conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative>epistemic-totalising–thrownness-in-existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as–panintelligibility–<imbued-and-hermeneutically–educated–human–subpotency–epistemic–perspective–of–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re–axiomatising/re-referencing–conceptualisation>’; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within
existence as this defines human ontological-performance-<including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}-of-ontological-performance-<including-virtue-as-ontology>. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative>epistemic-totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance-<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}-of-ontological-performance-<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ and then ‘the individual dimensionality-of-sublimating—
<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation reflected in <amplituding/formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity implications upon human sovereignty and free-will’). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historiality/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—supererogatory—epistemic-conflatedness/existence—as-the-absolute-a-priori-of-conceptualisation, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity successiveness of registry-worldviews/dimensions. The point here is that, ‘the individual
dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-
mentativeness/epistemic-growth-or-conflatedness/transvalutive-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-
disposition and expression’ driving the deferential-formalisation-transference knowledge-
reification and empowerment from the knowledge-reification as of historiality/ontological-
eventfulness/ontological-aesthetic-tracing, even as of poor ontological-performance-
<including-virtue-as-ontology> of social–value-construction so-construed as destructuring-
threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}—of-
ontological-performance-{<including-virtue-as-ontology>}, can only achieve social-
functioning-and-accordance by a claim to be as of supposedly coherent ontological-
commitment, whether relatively real or surreptitious; and it is this preceding broader human
sovereignty and free-willing disposedness for claiming social–value-construction for social-
functioning-and-accordance as of supposedly coherent ontological-commitment that gives the
teleological orientation of human meaningfulness-and-teleology in reflecting the ontological-
contiguity—of-the-human-institutionalisation-process, as it then exposes human
meaningfulness-and-teleology as of human limited-mentation-capacity-deepening-
{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation) to the prospective constraint to be as

to its effective human limited-mentation-capacity-deepening-
{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

regards to social–value-construction for social-functioning-and-accordance as of human
sovereignty and free-will implications speaks to relative-ontological-completeness as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-confaltedness/transvalutatve-rationalising/transepistemicty/anamnestic-residuality/spirit-drivenness—equalisation as to difference-confaltedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity in reflecting both destructuring-threshold—{uninstitutionalised-threshold/presublimating—desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology> as of prior relative-ontological-incompleteness implied preconverging/dementing—qualia-schema and constructiveness-of-ontological-performance—<including-virtue-as-ontology> as of prospective relative-ontological-completeness implied postconverging/dialectical-thinking—qualia-schema as elucidation of ontological-primemovers-totalitative-framework. Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s^2 rather than the existence-potency,-disclosed-from-prospective-epistemic-digression-as—<amplituding/formative>epistemic-totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-confaltedness manifestation of 9.8 m/s^2 and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere

high ontological-contiguity explaining the cross-generational relative intelligibility of
philosophical meaningfulness-and-teleology (for instance the questions and

natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’).

It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—to-existence-potency,—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative>epistemic-

This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness as of human <amplituding/formative>epistemic-totalising–thrownness-in-existence revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency,—disclosed-from-prospective-epistemic-digression-as-of—\<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,—in-supererogatory–epistemic-conflatedness to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together
with human limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being structurally/paradigmatically/de-mentatively both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their
inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being structurally/paradigmatically/de-mentatively both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather structural/paradigmatic/de-mentative to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for
direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness/relative-ontological-completeness—{(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative–supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>)}

<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism–procrypticism occlusiveness, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has
increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are structured/paradigmed/de-mentated to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern
day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening-(<amplituding/ formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as to the relative-ontological-incompleteness/relative-ontological-completeness-(sublimating~referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative—supererogating-<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>) implications for knowledge-reification underlying sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educated—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing~conceptualisation>; as the fact is the conception of human sovereignty and free-will effectively varied in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as from the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educated—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing~conceptualisation>...
axiomatising/re-referencing~conceptualisation> of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our positivism–procrysticism and will equally vary with prospective deprocrysticism or preempting—disjointedness-as-of-reference-of-thought as of human limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘structural/paradigmatic/de-mentative implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’, reflecting a human-causative-construction conception in conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional~projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for relative-ontological-incompleteness:relative-ontological-completeness-
{sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating,<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>} implications that effectively and
empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations
about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of relative-ontological-incompleteness:relative-ontological-completeness-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating<-in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) implications as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the
presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-
construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuring/instrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘structural/paradigmatic/de-mentative implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of relative-ontological-incompleteness/relative-ontological-completeness-
(sublimating-referencing/registering/decisioning,—as-self-becoming/self-conflicatedness/formative–supererogating–<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) implications may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity–<discreetely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable/measuring/instrument-invalidating-measuring–<preconverging-or-dementing–apriorising/psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity–<discreetely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-
ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (with the latter involving ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’ as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination’). Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘structural/paradigmatic/de-mentative implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’ and this is the very legitimation for any intellectualism purporting knowledge-reification. Ultimately, the very possibility for prospective knowledge-reification as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound to be undermined, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, in the interplay of human presencing—absolutising-identitive-constitutedness inclinations for vested postures and interests poorly appreciating relative-ontological-incompleteness/relative-ontological-completeness–{sublimating–referencing/registering/decisioning–as-self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-

that ends up ‘reconstruing any implied originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation in its very own terms as to the effectively manifest dynamics of institutional and social relations, constraints and performances’ that as of varying implicated stakes are not ‘necessarily absolutely tied-down’ to the abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation even as such framework-for-idealising/transcending/sublimating is clearly or abstrusely the reference of social and institutional deferential-formalisation-transference. Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory theoretical-and-practicable-projected-outcome in many ways is naïve and incomplete as to when it is ‘wrongly predicated on a conception of the social and institutional as merely a passive framework of exquisite integration of abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ failing to factor in the dynamics of social-and-institutional-dissipative-integration of any such abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as to a ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance-<including-virtue-as-ontology>s-including-virtue-as-ontology at the destructuring-threshold-{uninstitutionalised-threshold/presublimating—desublimating-decisionality}—of-ontological-performance-<including-virtue-as-ontology>’. Ultimately, with respect to social-stake-contention-or-confliction the effectively practised meaningfulness-and-its-institutionalisation while guided/constraint/structured by such originariness/reifying/intellectualising—
ontology>s-including-virtue-as-ontology at the destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance-<including-virtue-as-ontology>’ speaks to the susceptibility of the destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance-<including-virtue-as-ontology> (addressed as of originariness-parrhesia,–as–spontaneity-of-aestheticisation) to teleologically-degraded ontological-performance-<including-virtue-as-ontology> and more profoundly so specifically with enculturated/endemised postlogism and conjugated-postlogism social and institutional manifestations, and with regards to many social-stake-contention-or-confliction circumstances of poor social and institutional accountability. Basically, the bigger point here is that however the socially transformative implications as of prior originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation and beyond the elicited positive-opportunism underlying deferential-formalisation-transference, there is much more involved in overall social and institutional meaningfulness-and-teleology as to the ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance-<including-virtue-as-ontology>s at destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance-<including-virtue-as-ontology>’. This may be overlooked in critical ways as to the critical fact that prior secondnatured-institutionalisation—existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supercerogatory-epistemic-confalatedness–epistemically-induced/constrained–reproducibility-motif-of-meaningfulness-and-teleology idealising/transcending/sublimating doesn’t necessarily speak of an outright/absolute prospective inclination for human dispensing-with-immediacy-for-relative-
teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of—
conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation, as so-reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence-potency—disclosed—prospective-epistemic-digression—as-of—amplituding/formative—epistemic-totalising—renewing—realisation/re-perception/re-thought—in—supererogatory—epistemic-conflatedness (so underlied as of the parrhesiastic seeding—promise—of—human-subpotency—ontological-performance—<including—virtue—as—ontology>—correspondence—with—the—full—potency—of—existence—as—of—its—coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing—with—immediacy—for—relative—ontological—completeness—by—reification/contemplative—distension in its construction—of—the—Self with respect to prospective human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness—and—teleology but rather as of the specific human-subpotency as to overall reifying—and—empowering—reflexivity—of—ecstatic—existence—as—panintelligibility—<imbued—and—hermeneutically—educated—human—subpotency—epistemic—perspective—of—projective/reprojective—aestheticising—re—motif—and—re—apriorising/re—axiomatising/re—referencing—conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full—potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting the ontological—contiguity—of—the—human—institutionalisation—process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges—us/puts—us—to—question as of prospective implications of living—development—as—to—personality—development, institutional—development—as—to—social—function—development and Being—development/ontological—framework—expansion—as—to—depth—of—ontologising—
development-as-infrastructure-of-meaningfulness-and-teleology. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating—<amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, with such human dimensionality-of-sublimating—<amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of—

to the reality of human-subpotency–aporia/undecidability/dilemma/ought-

investment as to the requisite human limited-mentation-capacity-deepening-
(‘amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-
consciousness (going by the eventual outcomes of such falsehoods) given that in the very first
place the issue has nothing to do with inherent and genuine
originariness/reifying/intellectualising—idealising/transcending/sublimating–
meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal
egos as the very target for surreptitiously inducing our moral and intellectual
disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its
underlying social-vestedness/normativity-<discretely-implied-functionalism> undermining of
human dispensing-with-immediacy-for-relative-ontological-completeness-by-
reification/contemplative-distension is effectively about discouraging the possibility for
prospective humanity to manifest. But then this intellectualism and sophistry conundrum
underlying knowledge-notionalisation (as of prospective human living-development–as-to-
personality-development, institutional-development–as-to-social-function-development and
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology),
structurally/paradigmatically/de-mentatively marks all human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to
‘the uninstitutionalised-threshold attendant framework of lack of social universal-
transparency-{transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness)-or-
understanding-of-ontological-primemovers-totalitative-framework-of-underlying-
phenomena’. This very fact is defining as without the latter there wouldn’t be any human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint in the very first place; and this very much
explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor, as to the possibility for genuine human reification
and emancipation to broaden-the-latitude-of-human-collective-consciousness or
disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation
between human-subpotency and existence-potency,-disclosed-from-prospective-epistemic-
digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-
perception/re-thought,-in-supererogatory-epistemic-conflicatedness) is effectively what
underlies human institutional paralysis and social-vestedness/normativity-<discretely-
implied-functionalism> as well as the possibility for prospective human construction-of-the-
Self in the face of increasingly technically aloof/remote and racing technological,
organisational and social transformation; such that the requisite human thoughtfulness that
can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly
out of the loop as humankind in the modern positivism age has increasingly become rather a
self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human
consciousness sublimation increasingly passivised and blanked to vested social-and-
institutional-frameworks-of—referencing/registering/decisioning actions. But then
humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology
capable of reinventing/recreating and keeping the human at the driver seat rather than an
object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiciality/ontological-eventfulness/ontological-aesthetic-tracing relevant to deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the
(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Such social and institutional social-vestedness/normativity-<discretely-implied-functionalism> for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory—epistemic-conflatedness) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance-<including-virtue-as-ontology> in a renewing originariness-parrhesia,—as—spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) rather invokes prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation for re-originariness/re-origination (and as ever always such destructuring-threshold-(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance-<including-virtue-as-ontology> across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-
development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooefness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now structurally/paradigmatically/de-mentatively determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism or
preempting—disjointedness-as-of-reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and
proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiciality/ontological-eventfulness/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of-meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ presencing—absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness of apriorising/axiomatising/referencing—conceptualisation as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative>epistemic-totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-vestedness/normativity—<discretely-implied-functionalism>’; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness manifestation of human presencing—absolutising-identitive-constitutedness/constitutedness (as to historicity-tracing—in-presencing—

disambiguation of ontological-contiguity—of-the-human-institutionalisation-process
‘dynamically-convergent-rationalising-frameworks of meaningfulness-and-teleology of
differing ontological-performance-<including-virtue-as-ontology> implications’ speaks to the
fact that, as from the ontological-normalcy/postconvergence epistemic/notional—projective-
perspective, the ontological-performance-<including-virtue-as-ontology> of human temporal-
to-intemporal-dispositions (rather operantly construable as temporal-to-intemporal
individuations) reflect a ‘formative underlying human decoherencing-structure—of-
meaningfulness-and-teleology-for-institutionalisation’ in reflecting the ontological-
contiguity—of-the-human-institutionalisation-process. The ‘imaginary of deprocrypticism or
teleology-for-institutionalisation (as construed from the prospective deprocrypticism ontological-normalcy/postconvergence epistemic/notional-projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-trACING—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historicality/ontological-eventfulness/ontological-aesthetic-tracing purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing (which structurally/paradigmatically/de-mentatively seems to be entrapped/stifled in human taxingness-of-originariness). Effectively, human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). The idea of superseding the human registry-worldview’s/dimension’s institutionalisation decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as to ‘abstractly projected finality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’) for prospective sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing, patently makes obvious
its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation induced historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition (beyond the implications of taxingness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation); such that the deprocrypticism potential is ‘a wholly other of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ as to the implications of its re-originariness/re-origination for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing beyond foregone aestheticisation—and—aestheticisation-towards-ontology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (in truly reflecting the ‘full human-subpotency potentiation’ as to the most profound human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension).

Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated

hyperrealisation/hyperreal-transposition as of its implied contrastive apriorising/axiomatising/referencing–psychologism of (relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>) and apriorising/axiomatising/referencing–psychologism of (relative-ontological-completeness in prospective notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>), can be reflected historically with respect to say ‘an engrained traditional non-positivism/medievalism conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care–and–episteme implied by Galileo and further conceptually articulated by Descartes’ thinking proposition as to its mathesis universalis implications, such that it is as of a cross-generational transformation/supererogatory–de-mentativeness that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) to grasp the full structural/paradigmatic/de-mentative implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with regards to the prospect of positivism/rational-empiricism aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology. Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic philosophers as to its

In this regards, this author construes such gimmicky pretences of intellection in our present day rather ‘intimating of existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective’ with regards to otherwise structural/paradigmatic/dementative human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint issues (requiring the ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought), which articulation and constructive addressing should actually be the very conceptualisation of intellection. In this regards, we can appreciate that the Socratic philosophers and budding-positivists actually addressed and resolved the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-

In the bigger scheme of things the dimensionality-of-sublimating—<amplitudring/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants that the prospective projection of any human meaningfulness-and-teleology as transcendental-enabling/sublimating/supererogatory-de-mentativity should be articulated in such a way as to imply that all human meaningfulness-and-teleology should assume the same disposition as to the possibility of enabling the sublimation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; such that ‘supposed reifying’ meaningfulness-and-teleology in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective effectively comes out as epistemically-decadent and in ontological-bad-faith/inauthenticity, as to the fact that in the face of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, if no human minds projected not of nonextricatory-existential-preempting-of-existential-unthought (eliciting the possibility for the ontological-contiguity—of-the-human-institutionalisation-

In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-

We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) induced constraining reifying-and-empowering reflexivity undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the defining ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism in elucidating ontological-contiguity<-as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’ as to the lack or poor predicative-effectivity–sublimation-(as-to-underlying-
ontological-commitment) induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity-<discreetly-implied-functionalism> reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educated–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation> to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflatedness. Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to relative-ontological-incompleteness/relative-

Incidentally, the ‘supposedly positivism/rational-empiricism formulaic/mechanical

conflatedness. More than just about abstract knowledge-reification the implications of
science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of
the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing’ was developed and enculturated/constructed as scientific practices by these budding positivists with their medieval societies previously knowing nothing of such as to their scholastic pedantry (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening-〈amplituding/formative〉epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation〉 as of relative-ontological-incompleteness to relative-ontological-incompleteness/relative-ontological-completeness-〈sublimating~registering/decisioning,-as-self-becoming/self-conflatedness/formative–supererogating-〈in-projective/reprojective—aestheticising-re-motif—re-apriorising/re-axiomatising/re-referencing〉〉 implications as to 〈amplituding/formative〉epistemic-causality-as-to-projective-totalitative–implications,-for-

Thus it is such an ideological conception of science and knowledge-reification on the latter
basis (as of prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>) that ultimately translates into the ‘methodological, epistemic,
institutional and social sagging of human knowledge-reification’ reflected abstractly in crises
of methodology, epistemicity and scholarship as well as derived human institutional and
social crises as to underlying meaningfulness-and-teleology infrastructure; and critically so

requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-

dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-
dementativeness/epistemic-growth-or-conflicatedness/transvaluative-
rationalisng/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants
that the conception of veridical human knowledge and emancipation is not beholden on the
mere eliciting of a basic positive-opportunism, as ‘the very abstract value-reference
commitment for dispensing-with-immediacy-for-relative-ontological-completeness-by-
reification/contemplative-distension’ that brings about sublimation needs to be construed as
to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism elicits parallel competing meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of the dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension inducing sublimation as of the secondnaturing institutionalisation exercise. In many ways the underpinning–suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning–suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with the dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning–suprasocial-construct framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is

Ultimately, the deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming the dimensionality-of-desublimating-lack-of—<amplituding/formative>superoagotary–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation effectively projects the possibility of boundless human aestheticisation—and–aestheticisation-towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and-teleology, as in many ways the reality of our past and present aestheticisation—and–aestheticisation-towards-ontology as
meaningfulness-and-teleology has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—disinhibited-mental-aestheticising as of originariness-parrhesia,—as—spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity—of-the-human-institutionalisation-process possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation capacity ‘to project in disseminative—selectivity-of-ontological-good-faith/authenticity—over— deselectivity-of-ontological-bad-faith/inauthenticity’ (as to the underlying human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity). It is important to grasp here that such a construal of deprocrypticism
or preemting—disjointedness-as-of-reference-of-thought highlighting the prospective implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educed–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> (as to underlying human construction-of-the-Self) is not ‘a metaphysical/ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any ‘metaphysical/ideological advocacy’, but rather just as modern day science such a conception speaks to ‘the inherent ontological implications as to human knowledge-reification and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a deprocrypticism conceptualisation of ‘boundless human aestheticisation—and—aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other
induced presencing—absolutising-identitive-constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising / sublimating-thoughtfulness / historiality-or-ontological-eventfulness-or-ontological-aesthetic-tracing / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold of lack-of:<amplituding/formative>epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-

But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity potentiation’ when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-＜imbued-and-hermeneutically-educated–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–apriorising/re-axiomatising/re-referencing–conceptualisation＞ (underlying human construction-of-the-Self) the human prospective capacity to serenely come to terms with ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ as so induced by the latter’s existentially constraining implications of ontological-veracity, is not necessarily forever bound to be as of the ‘human consciousness
the basis of human supposedly coherent ontological-commitment’ (as of the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’), and so with regards to the overall ontological-contiguity—of-the-human-institutionalisation-process induced construction-of-the-Self. Effectively the ontological-contiguity—of-the-human-institutionalisation-process possibility of successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is a reflection of the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ as to its ‘transitorily implied successive notional-contiguity/epistemic-contiguity—<profound-supererogation-of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> as from successive human consciousness forward-facedness postures in presencing—absolutising-identitive-constitutedness’, but which from the ontological-normalcy/postconvergence epistemic perspective in ontological-contiguity rather speaks of their successive notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema>. Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual-function itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing-of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-and-indirect-sponsorship-distortive-influence, blatant-intellectual-misanalyses-and-sophistry, public-influence-and-lobbying-overtaking-inherent-intellectual-veracity, politicised-institutional-stakes-overtaking-inherently-objective-social-knowledge-production-in-higher-

This existential-extrication-as-of-existential-unthought as to the dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with the dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation.

Similarly with respect to the ‘requisite human dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation’ dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason
for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human temporal-to-intemporal-dispositions accordionning-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>) at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity/sublimation/supererogatory-de-mentativity possibilities critically lies in appreciating the enabling ‘prospective predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) constraining that prospectively transforms human ontological-performance-<including-virtue-as-ontology> capacity’ as of
uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought (so-construed as of ‘supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence’ in their presencing—absolutising-identitive-constitutedness) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preemtping—disjointedness-as-of-reference-of-thought respectively. This insight points to the fundamental deficiency of all frameworks supposedly involved in articulating human prospective transcendence-and-sublimating meaningfulness-and-teleology whereas there are as of presencing—absolutising-identitive-constitutedness prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis>; as to the fact that with regards to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory—epistemic-conflicatedness, the ‘supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence’ (as reflected by its given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation) is prospectively underdetermined for articulating prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology. It is interesting to appreciate that given the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-

Interestingly as well, we can appreciate the more or less socially enculturated disposition in our positivism/rational-empiricism registry-worldview/dimension (with regards to the ‘profoundly sublimating natural sciences’) of human appreciation of the ‘messianic-structure of intemporality’ and its derived deferential-formalisation-transference secondnaturing, with regards to such sciences foregrounding—entailment-{narrowing-down—sublimation as to existence—as-sublimating—

However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing’ is either indirectly or directly undermined with social-vestedness/normativity-<discretely-implied-functionalism> ideas which ‘structurally/paradigmatically/de-mentatively speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology)) over existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in supererogatory~epistemic-conflatedness. This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically
reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding—entailment-(narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional~deprocrypticism imbed sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s foregrounding—entailment-(narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional~deprocrypticism; and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest~subpotencies-<in-transitive-conflatedness~reflexivity,-in-the-full-potency-of-existence>) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies-<in-transitive-conflatedness~reflexivity,-in-the-full-potency-of-existence>’.

In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest~subpotencies-<in-transitive-conflatedness~reflexivity,-in-the-full-potency-of-existence>’ with the ‘supposedly profound phenomenal/manifest~subpotencies-<in-transitive-conflatedness~reflexivity,-in-the-full-potency-of-existence>’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-
vestedness/normativity-, <discretely-implied-functionalism> disparities-of-
conceptualisation-, <unforegrounding-disentailment, -failing-to-reflect-, ‘immanent-ontological-

hardly contemplated and recognised as so-projected herein as to the ontological-contiguity—
of-the-human-institutionalisation-process. But then such reductionism actually fails the
‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the
sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies-
in-transitive-conflictedness–reflexivity,-in-the-full-potency-of-existence> to then ‘utilise the
cloot to falsely imply substitutive/reductionist sublimation over the social and socio-
psychological phenomenal/manifest-subpotencies<in-transitive-conflictedness–reflexivity,-
in-the-full-potency-of-existence>’ (as so-reflected with practices of science-ideology
associated with biological/neurological and evolutionary substitutive/reductionist
interpretations of the social and socio-psychological). But then the giveaway of such a flawed
conception of science/ontology lies in the fact that such approaches do not project any
‘<amplituding/formative> epistemic-totalising/circumscribing/delineating necessitation
frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and
aspire to (consider in this regards the ‘<amplituding/formative> epistemic-
totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of
physics, chemistry, biological, genetic theories as to the ontological-contiguity imbued
foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) work paradoxically only by impliciting the reality of the ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation circle–of–ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest-subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame–of–ontological-contiguity, and so as of vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>. Such flawed and surreptitious representation that biological/neurological and evolutionary substitutive/reductionist interpretations are the ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of the social and socio-psychological (rather than the truly inherent social and socio-psychological
epistemic/notional~projective-perspective>”), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’> as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, and thus in many ways further undermine/distract-from the social ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception
of veracity/truth as from the latitude of ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreement-ing/convincing-among-mortals (rather than a detour to existence-potency,—disclosed-from-prospective-epistemic-digression-as-of—epistemic-totalising—renewing—realisation/re-perception/re-thought,—in-supercerogatory—epistemic-conflicatedness) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening—(epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supercerogation)’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening—(epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supercerogation)’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress

regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness and structurally/paradigmatically/de-mentatively so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness are vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with intellectual-muddlement-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought, in supererogatory-epistemic-conflatedness; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. important to articulate such prospective sublimating meaningfulness-and-teleology while

philosophers and budding positivists it is always the case that the sophistic/pedantic
dispositions will fathom that in relation to prospectively sublimating base-institutionalisation,
universalisation, positivism and deprocrypticism the effective ‘world that exists to the

uninstitutionalisation, ununiversalisation, non-positivism/medievalism and
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procripticism/disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preemptionng—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance
and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) as to an epistemically-decadent <amplituding/formative>wooden-language-(imbued—temporal—mere-

and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-
ontological-completeness-by-reification/contemplative-distension out of concern about
human prospective Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology ‘is the most
important human and humanity-producing enterprise’ notwithstanding the paradox that the
prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism
and procrypticism/disjointedness-as-of-reference-of-thought respectively are intellectually-
and-morally undeveloped to be the framework for appraising value-construction as of
prospective base-institutionalisation, universalisation, positivism/rational-empiricism and
deprocrypticism or preempting—disjointedness-as-of-reference-of-thought respectively in
many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving cross-generational psychoanalytic-
unshackling/memetic-reordering/institutional-recomposure. This affirmation is not articulated
idly as to the fact that part and parcel of human knowledge-reification is not to allow
desublimating thought to occupy the ground of sublimating thought (as the latter has to
include a challenge to the knowledge-destroying desublimating thought arrogance and
wretchedness), however the subterfuges available to such desublimation whether as of
sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more than <amplituding/formative>epistemic-totalising~renewing-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has structural/paradigmatic/de-mentative implications with regards to human meaningfulness-and-teleology as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human
preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-
<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-
for-the-later-ontologisation>’ prospective desublimating historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-
veracity. This insightful grasp of the implications of human limited-mentation-capacity-
deepening-({<amplituding/formative>epistemic-totalisingly-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation}) (construed as from ontological-
normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an
ontologically deficient grounding’ of relative human limited-mentation-capacity (however
‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness),
emphasises the necessity for the bifurcation of the construal of prospective human
ontological-performance-<including-virtue-as-ontology> (associated with prospective human
sublicination) into: ‘a scalability/immanency perspective (as to a scalability/immanency that will
arise if the human had absolute-mentation-capacity so-construed as ontological-
normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-
tracing’ and ‘a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-
structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ perspective
(with regards to residual human ontological-deficiency implications as to relative human
limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of
historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-
immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension
doesn’t achieve absolute ‘scalality/immanency of existence’s ontological-
normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-
completeness-by-reification/contemplative-distension rather reflects the epistemic
mentation-capacity-deepening-(amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/behavioralization-as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) is rather relatively amenable to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing as of ‘scalality/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual-function arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in
desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence>; and so as to the relative impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) (reflecting ‘scality/immanency of existence’s ontological-normalcy/postconvergence’). In this regards, the structural/paradigmatic/de-mentative implications of ‘human temporal-to-intemporal-dispositions accordionning-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redouding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>) at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’, reflect the fact that the originariness-

registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for
sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness). What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as critically enabling prospective sublimation’ so-implied as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness. The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing–psychologism encultured/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism encultured/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ to structurally/paradigmatically/de-mentatively undermine respectively the
possibility for both Socratic philosophers universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology by eliciting presencing—absolutising-identitive-constitutedness sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimitiy as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is
especially so-directed at muddling promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

human historiality/ontological-eventfulness/ontological-aesthetic-tracing, effectively reveals its non-scientific nature notwithstanding the confusion of vague academicism proceduralism with true sublimating science/ontology. All the knowledge-reification that effectively can be is of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation having to do with human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as enabling human-subpotency epistemic-projection towards the full-potency of existence so-construed as intemporality, and not a presencing—absolutising-identitive-constitutedness human-subpotency epistemic-projection in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag so-construed as temporality. But then the inclination to assume an ontologically-flawed sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy is ever always associated across all registry-worldviews/dimensions with blurriness of meaningfulness-and-teleology as to meaningfulness-and-teleology rather unconstrained to predicative-effectivity–sublimation- (as-to-underlying-ontological-commitment) as to lack of ‘relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’. Consider in this regards, the structural/paradigmatic/de-mentative possibility of such an abstract human sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy exercise with regards to say Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs if there was ‘no positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation- (as-to-underlying-ontological-commitment)’ (as produced by the efforts of budding-

The point here is to highlight that across all registry-worldviews/dimensions blurriness of meaningfulness-and-teleology at uninstitutionalised-threshold as to lack of ‘relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism encultured/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment)’ inherently induces sophistic/pedantic dispositions (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) with regards to social-stake-contention-or-confliction as to the social lack of universal-transparency–(transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative>epistemic-totalising—<in-relative-ontological-completeness) in the face of its prospective human-

This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective structural/paradigmatic/de-mentative sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-
results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-thresholds’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional–asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism structural/paradigmatic/de-mentative sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.).

Since the relative-ontological-completeness logical-basis/logic<-as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> is in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing with the relative-ontological-incompleteness logical-

In other words, genuinely projected knowledge as of ontological-good-faith/authenticity—structuring/paradigming/de-mentating—seeding/incipient—profound-supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity—structuring/paradigming/de-mentating—seeding/incipient—profound-supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ as of veridical existential relationship/signature as organic-knowledge. In this respect with regards to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as of our positivism/rational-empiricism registry—
worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity-structuring/paradigming/development-directing-seeding/incipient–profound-supererogation,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema’ existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity-structuring/paradigming/development-directing-seeding/incipient–profound-supererogation,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> beyond-and-above the desublimating ontological-good-faith/authenticity-structuring/paradigming/development-directing-seeding/incipient–profound-supererogation,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> of ordinary meaningfulness-and-teleology. requisite ‘ontological-good-faith/authenticity existential-condescension-<of-

explicited with regards to the blurriness of meaningfulness-and-teleology associated with

In this regards, as to ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>’, the requisite ‘ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ for organic-knowledge ‘speaks to an intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for its elucidation and appropriate second-natured institutionalisation that is not dissociated from the very construction-of-the-Self’, and knowledge cannot thus be construed as ‘a minor and side thing of mere influencing and stature’ that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-often implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human living-
development–as-to-personality-development and institutional-development–as-to-social-function-development the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as to a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> which pedantry and sophistry thrives on this lack of universal-transparency-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness>) with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underlying the social intellectual-function. Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation of ontology as metaphysics-of-presence’; and it is here that the social intellectual-function comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involting-or-guilding-or-amplifying–scalarisation-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>, and the social intellectual-function as such is not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The social intellectual-function means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation-profundity—structuring/paradigming/de-mentating requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly structured/paradigmed/de-mentated to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the social intellectual-function is to
undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology-
<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-
development—as-to-personality-development and institutional-development—as-to-social-
function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-
immediacy prospective sublimating value and ontological-veracity disposition’. In this
regards historically, without individuals making choices not to optimally pursue ‘immediacy
supposed absolute sublimating value and ontological-veracity disposition’ as to their given
presencing—absolutising-identitive-constitutedness ‘immediacy supposed absolute
sublimating value and ontological-veracity disposition’ but instead optimising their effort for
‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the
possibility will not arise for the very backbone of human value and ontological-veracity
sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-
veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and
ontological-veracity disposition’ is grounded. History knows that the ‘contorted human
presencing—absolutising-identitive-constitutedness mentality of registry-
worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and
ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kant,
Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose
meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute
sublimating value and ontological-veracity disposition’ arise and outlandishly skew human
meaningfulness-and-teleology (and so not only with human Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulneess-and-teleology but is equally reflected in a poor-spirited bland conception of
human living-development—as-to-personality-development and institutional-development—as-
to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and structured/paradigmed/de-mentated ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-thresholds of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness—<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of social-vestedness/normativity—<discretely-implied-functionalism> and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historiality/ontological-eventfulness/ontological-aesthetic-tracing) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite structural/paradigmatic/de-mentative sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ disposition of
‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> subontologising palliative terms that as to their specifically defined ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ are very much integrative of collateral aspects as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by dulling the social-construct’s conscience in this way rather distracts from the realisation and contemplation of the full possibilities for profound structural/paradigmatic/de-mentative transformation of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. The subtle manifestation of the social implications of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development—as-to-personality-development and institutional-development—as-to-social-function-development) with regards to our positivism–procryclicism registry-worldview/dimension can be appreciated in present day sycophantic-sophistry and intellectual-muddlement—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness), media-driven disenfranchising narrative existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> and dominance/vested-interest diffused institutional influence in many ways and occasions rendering formal and official languages of institutions

The underlying insight here is that unlike the flawed mental-reflex associated with presencing—absolutising-identitive-constitutedness \( \text{amplituding/formative}\text{-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) that structurally/paradigmatically/dementatively projects of a ‘neutrally/objectively sound human ontological-performance-\( \text{including-virtue-as-ontology} \) state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given \( \text{amplituding/formative}\text{-epistemic-totalising–thrownness-in-existence} \), human \( \text{amplituding/formative}\text{-epistemic-totalising–thrownness-in-existence} \) as to human limited-mentation-capacity veridically implies that ‘existence is not beholding to that human thrownness and the critical human teleological as to ontological-performance-\( \text{including-virtue-as-ontology} \) issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence’. The implication here is that the ‘ontological-good-faith/authenticity~structuring/paradigming/de-mentating–\<seeding/incipient–profound-
supererogation, as mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existing-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity which is only possible as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-of-conceptualisation with regards to human formativeness—<as-to-intersolipsism-of-premeaningfulness/preframing-imbued—mediativity-and-deferentialism>—of-meaningfulness-and-teleology. Thus it is only the possibility of ‘ontological-good-faith/authenticity—structuring/paradigming/de-mentating—<seeding/incipient—profound-supererogation, as mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existing-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ that can thus allow human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance—<including-virtue-as-ontology> cannot be neutrally be separated from human <amplituding/formative>epistemic-totalising—thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance—<including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity—structuring/paradigming/de-mentating—
seeding/incipient–profound-supererogation,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> existential-condescension-of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance-including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given amplituding/formative>epistemic-totalising–thrownness-in-existence’ but together with the extraterrestrials is rather structurally/paradigmatically/de-mentatively in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing–apriorising-psychologism and not postconverging-or-dialectical-thinking–apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-
sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating—

wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative>epistemic-totalising—thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance-<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that structurally/paradigmatically/de-mentatively directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative>epistemic-totalising—thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular
and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflecting with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening.\(<\text{amplituding}/\text{formative}>\text{epistemic-totalisingly,}-\text{as-to-existence—as-sublimating-withdrawal,}-\text{eliciting-of-prospective-supererogation}\)). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence as to presencing—absolutising-identitive-constitutedness \(<\text{amplituding}/\text{formative}>\text{epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) on the one hand and on the other hand difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to relative-ontological-completeness \(<\text{amplituding}/\text{formative}>\text{epistemic-causality-as-to-projective-totalitative–implications,}-\text{for-explicating-ontological-contiguity,}\) is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting \(<\text{amplituding}/\text{formative}>\text{disposedness—(as-to-orientation/value-construct/valuation—and–derived-parameterising)\text{ and }<\text{amplituding}/\text{formative}>\text{entailment—(as-to-totalising-contiguous/coherent–factuality-of-variability)})\)’ (as reflecting the implications of human limited-mentation-capacity-deepening.\(<\text{amplituding}/\text{formative}>\text{epistemic-totalisingly,}-\text{as-to-existence—as-sublimating-withdrawal,}-\text{eliciting-of-prospective-supererogation}\) underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-

eliciting-of-prospective-supererogation’ is rather ‘beholdening wrongly upon the overall

teleology’ such that a contrasting assessment rather highlights the ‘entangling/enmeshing of effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing> and overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology induced desublimating of the effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing>’ as to the concreteness/concretism/existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>—of-human-ontological-performance-<including-virtue-as-ontology> of overall prospective sublimation. Human sublimation as such in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is existentially suspicently instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall structuring/paradigming/de-mentating of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux,
Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness−presublimation-construct−of-meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the ‘noble savage’ and nature as speaking to an aporeticism that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn’t imply just killing animals at whim); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking−apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness−presublimation-construct−of-meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing−psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity−sublimation-(as-to-underlying-ontological-commitment)’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-
incompleteness–presublimation-construct–of-meaningfulness-and-teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound social intellectual-function as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology; as prospective material/technical sublimation is associated
with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving’ that goes on as of presencing—absolutising-identititive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—including-virtue-as-ontology reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the <amplituding/formative>wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications> displayed in the public domain {caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the present day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to
elicit old and relatively aporetically irrelevant beholding narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholding narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’).

Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpary mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases
poorly reflects upon effective scientific practices and craft as it poorly appreciates the
dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation–
and–aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-
human-institutionalisation-process, so-reflected from such science-ideology poor
appreciation of the implications of the historiality/ontological-eventfulness/ontological-

Along the same line of intellectual appreciation of prospective sublimation implications as to the fact that nascent-particular/incipient-and-

In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency—in-transitive-conflatedness-reflexivity,—in-the-full-potency-of-existence (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—
discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>’. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness/ontological-aesthetic-tracing rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identititve-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and social intellectual-function indifference
or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflect in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ to usher in the possibility of their very own secondnatures institutionalisation unclouded knowledge-reification—gesturing, the ultimate possibility for our positivism—procrypticism overcoming its intellectual-muddlement—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness) lies with the prospective ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ imbuend foregrounding—entailment—(narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism (enabling the true and profound attainment of ontological-contiguity in the social domain beyond the present practices of disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—

Critically thus the veracity of human sublimation is rather as to the originariness/origination-

completeness–presublimation-construct–of-meaningfulness-and-teleology’. This projected
deprocrypticism ontological-normalcy/postconvergence perspective points out that human
sublimation in existence actually reflects the overall ontological-contiguity as of the
devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–

ontology/meaningfulness-and-teleology can be understood in the sense that just as we can
appreciate that if supposedly we are found in say an exclusively animistic social-setup with
supposedly no possibility to rejoin a positivistic social-setup, while at the very least we
appreciate that the material/technical capacity of a positivistic social-setup overall
meaningfulness-and-teleology will enhance such an animistic social-setup as to existence—
as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the fact remains that our
thrownness in the animistic social-setup requires at least a basic engagement tolerable to its
meaningfulness-and-teleology before any pretense to a projection of positivistic
meaningfulness-and-teleology (as can so be appreciated with the cultural diffusion encounters
throughout human history). In this regards as to a decisively globalising world we can’t
conceive that ours will be the human generation bereft of ‘profound diffusionary/non-
parameterisation/reparameterisation—(reflecting-a-supererogatory—decisionality-of-
socioinstitutional-conceptions-as-to—‘their-nascent-sublimations-dynamic-preempting-of-

‘scalarisation—as-to-rescalarisation—as—re-ontologisation’ in optimising human ontological-
performance—<including-virtue-as-ontology> (and our positivism—procrypticism registry-
worldview/dimension cannot be overlooked in this regards notwithstanding the fact that it is 
at the backend of the institutional-cumulation/institutional-recomposure). But then just like 
with all prior registry-worldviews/dimensions, our positivism—procrypticism presencing—
absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-
historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> effectively 
projects a hurdle to any such structural/paradigmatic/de-mentative depcrypticism 
conception of re-ontologisation as to its inherent <amplituding/formative>epistemic-
totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag poorly 
amenable to profound alternative institutional aestheticising contemplation ‘given its 
calamitous conception and relation to the possibility for prospective re-ontologisation from 
its subontologisation’ such that any such profound alternative institutional aestheticising 
contemplation are traditionally bound to arise as disruptive institutional transformations 
whether or not involving power-showdown as associated with sudden/revolutionary 
transformations with ‘their drawback of having to think on their feet inducing deficient 
onological-performance—<including-virtue-as-ontology> as well as generalised social 
apprehension which is then enigmatically held against them’ (however the merits of their 
underlying case) very much unlike ‘the latitude for articulating conceptualisations available 
for presencing—absolutising-identitive-constitutedness existentialising—
enframing/imprintedness—<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>’ (however their structural/paradigmatic/de-
mentative flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. Such a beholding presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> skews the fundamental ontology question by its inherent <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity-<discretely-implied-functionalism>. This latter issue is the ultimate challenge to prospective depro crypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-

decisiveness/criticality of cultural diffusion imbued originariness-parrhesia—as-spontaneity-

cumulation/institutional-recomposure as can be appreciated throughout human history). This
is explained by the fact that the human can relatively easily appreciate the ontological-
pertinence of new practices arising as from outside cultural diffusion but it is very much
difficult to reconstrue of such practices as from the taxingness-of-originariness involved in
surpassing an internalised <amplituding/formative>epistemic-totalising—self-referencing-

The further implication is that ours cannot pretend to be the human generation that shuts-off from prospective knowledge-reification the analysis and criticism of its methodologising/mutualising/organising/institutionalising as of its presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-

This is necessary for fundamental ontology speaking of notional~deprocrypticism enabled fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ for inducing prospective human historiality/ontological-eventfulness/ontological-aesthetic-tracing. Basically, notional~asceticism is ever always associated with the successive relative-ontological-completeness registry-worldviews/dimensions possibility for prospective transcendence-and-sublimity/sublimation/superrorogatory—de-mentativity to arise (as to the notional~asceticism instigating originariness-parrhesia,—as—spontaneity-of-aestheticisation superrorogatory—acuity/perspicacity/astuteness/edginess/incisiveness projection of prospective methods/methodologies/approaches as from prospective sublimation induced methodologising/mutualising/organising/institutionalising), and so because all the ‘existential and contemplative internal adequation’ available for any given relative-ontological-incompleteness registry-worldview/dimension is as of its inherent apriorising/axiomatising/referencing—psychologism imbued logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-

But then with such notional–asceticism associated with deprocrypticism factoring in that the projective-insights ‘out of thin air’ (as of reasoning-through/messianic-reasoning) that go on to contemplate of prospective relative-ontological-completeness sublimation is potentially a universal human capacity as of discretionary human disposition (as to when relative-ontological-completeness avails) for opting for sublimating ontological-good-faith/authenticity~structuring/paradigming/de-mentating-<seeding/incipient–profound-supererogation,-as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> or opting for desublimating ontological-bad-faith/inauthenticity~structuring/paradigming/de-mentating-<seeding/incipient–shallow-supererogation,-as-mentally-aestheticised–preconverging/dementing–qualia-schema>, and that (as speaking to human-
articulation but subverts’ non-positivising medieval-scholasticism and prospectively why postmodern-thought and herein deprocrypticism is not a ‘disengaged articulation but subverts’ present-day disjointing/disparateness/disentailing intellectual-muddlement-
(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of thought; and so further reflected as to the fact that base-institutionalisation, universalisation, positivism and prospectively deprocrypticism (as of their respective prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) are respectively subversions of the aporeticisms of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism. The veracity of human knowledge as ever always a ‘non-disengaging epistemic articulation as to the totalising oneness of existence manifest sublimations’ lies with the very immanent–ontological-contiguity of existence that epistemically speaks to the ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as so divulging/disclosing existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation; such that human knowledge-reification is effectively in reality about addressing and superseding human aporeticisms (human-subpotency–aporia/undecidability/dilemma/ought-

The implication here is that human ‘epistemic-constructs of sublimation-over-desublimation’ are not-and-never optional/discretionary representations about existence (but for when ‘deliberately of mere aestheticisation as mere motif implications’ with no relative reference to any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with regards to human epistemic aestheticisation–and–aestheticisation-towards-ontology of immanent existence; reflected in the fact that all such epistemic-constructs as knowledge-reification (as referencing any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) speak to an underlying human ontological-commitment as to the possibility for prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-authenticity with respect to social-stake-contention-or-confliction underlying human ontological-commitment). In this regards, we can appreciate that the successive human registry-worldviews/dimensions speak to successive human aporeticisms of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising~purview-of-construal’, with the implication that human epistemic limits arising due to human limited-mentation-capacity at the uninstitutionalised-thresholds respectively of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism as to their presencing—absolutising-

manifestation of postlogism and social-postlogism (arising from conjugated-postlogism
induced meaningfulness-and-teleology) across the successive registry-

Such that the manifested postlogism-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) is directly related to the presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning <amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising) to be cognisant-and-integrative in prelogism-as-of-conviction-as-to-profound-supererogation (construed as if of postconverging-or-dialectical-thinking—apriorising-psychologism) of the same meaningfulness-and-teleology articulated as of postlogism manifestation (articulated rather as preconverging-or-dementing—apriorising-psychologism) thus inducing the conjugated-postlogism; and so as to the fact that for instance a postlogism manifestation grounded in a social-setup as of say an animistic social-setup cognisant-and-integrative of notions-and-accusations-of-sorcery in prelogism-as-of-conviction-as-to-profound-supererogation (as if of postconverging-or-dialectical-thinking—apriorising-psychologism) is susceptible to the postlogism of notions-and-accusations-of-sorcery meaningfulness-and-teleology (articulated rather as preconverging-or-dementing—apriorising-psychologism) which will be structurally/paradigmatically/de-mentatively impossible to manifest in a non-superstitious positivistic registry-worldview/dimension. Thus the idea of ‘prelogism-as-of-conviction-as-to-profound-supererogation cognisance-and-

‘relic/artifactual–beholdening-constitutedness historicity-tracing—in-presencing–

Inherently the requisite originariness-parrhesia,—as–spontaneity-of-aestheticisation for human reframing given human limited-mentation-capacity is rather more forthcoming with directly graspable contextually restricted frameworks-of-conceptualisation with human reframing capacity increasingly of apriorising/axiomatising/referencing—re-originariness/re-origination impotence with frameworks-of-conceptualisation of overwhelming scale inducing increasing ‘sovereign-deference with lack of universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–amplituding/formative>epistemic-totalising–in-relative-ontological-completeness)’ and leading to direct/indirect dominance/vested-interest—drivenness structural/paradigmatic/de-mentative domination/pre-eminence over social-stake-contention-or-confliction. The grander issue in this regards (as to optimal human reframing capacity with regards to the equanimity/balance of human theoretical-conceptual-operant institutionalised-conceptualisations) as of the present thus has to do with ‘generalised-and-representative human appreciation of its reifying and empowering reflexivity potential giving the perplexing/passivising modern day scale of organisationally and institutionally structured/paradigmed/de-mentated meaningfulness-and-teleology’ as to the fact that modern day organisational and institutional structure and purposes (by their social-stakes-contention-or-confliction) in critical ways render the sovereign human increasingly more of a mere cog within systems that as of their technical, bureaucratic and socially-defining presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-

regards to sublimating–nascence teleological-inflection-(as-to-more-profound-

We can for instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of cross-generational appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-

that genuine knowledge-reification cannot cross-it/has-to-bow-to-it (for one reason or another), and in that regards the more profound knowledge-reification as to the structural/paradigmatic/de-mentative upholding at all instances of the possibility for prospective genuine knowledge-reification inducing sublimation/emancipation as to sublimating–nascence is more than just the specific knowledge-reification–gesturing for sublimation but rather more critically overt articulation of the ‘veridical structural/paradigmatic/de-mentative intellectual underdevelopment underlying any such a mortal claim’ as to the fact that no human can claim that 2 + 2 is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in prospective construction-of-the-Self) so-reflected in the fact that the underlying existentialising–frame of knowledge is the very requisite condition for eliciting the true meaningfulness-and-teleology of any given specific knowledge-reification–gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising–decisionality specific knowledge-reification–gesturing for sublimating–nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> where the underlying registry-worldview/dimension existentialising–frame of knowledge is of non-positivistic desublimating–existentialising–decisionality and is not addressed/dealt-with as the Galileos, Descartes, etc. understood with respect to non-positivising medieval-scholasticism desublimating–existentialising–decisionality or the universalising-idealisation Socratic-philosophers sublimating–existentialising–decisionality understood with respect to non-universalising ancient-sophists desublimating–existentialising–decisionality and in both instances as of their prospective registry-worldviews/dimensions implied incipient/seeding thrownness-in-existence,-imbued-arbitrariness/waywardness-(as-to-the-human–projective/reprojective—

knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’ rather than veridically ‘knowledge-reification as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so-reflected when mere methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Overall the social-construct itself is reflexive of this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as of its very underlying social-and-institutional-frameworks-of—referencing/registering/decisioning as to social-stake-contention-or-confliction wherein the ‘implicated sublimating–existentialising–decisionality’ underlying the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ associated with nascent-particular/incipient-and-material/technical-sublimations--<blinded-to-their-relative-

This lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ as arising at destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> is the very element particularly acted upon by social and intellectual pedantry as to
incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation (as it can be appreciated for instance that the lack of ‘distantiation of contemplative existentialising-frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ in a non-positivistic social-setup between prospective positivistic knowledge and prior non-positivistic knowledge is exactly what can enable pedantic dispositions to cultivate non-positivistic meaningfulness-and-teleology in such a social-setup), and critically in this regards it principally involves intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) as undermining the social-construct’s intellectually potent reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educated–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>. Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily muddling when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency-<transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) as to a structural/paradigmatic/de-mentative implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of meaningfulness-and-teleology’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human temporal-to-intemporal-dispositions as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of intellectual-
muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) as part
and parcel of prospective knowledge-reification as to knowledge-notionalisation, and
especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-
knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur
then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-
without-knowledge constructs out-of and implicitly obviating the veracity of the universal-
transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of
knowledge-reification’ (and so as to self-serving social-vestedness/normativity-<discretely-
implied-functionalism>) and this must effectively be contested. Such lousiness and as
broadly reflected in poor media editorialising in many ways increasingly turns media
accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of
contemplation and knowledge-reification for sublimation but rather about gimmicky-and-
flashy threads of mere communication performance’ with many such interlocutors openly
admitting-and-manifesting their critical lack of relevant intellectual thematic competence as
popularity then supposedly becomes the driving force of thought; the fact though remains
(however the seemingly trivialising concern about such media driven pop-intellectualism as
rather unimportant in some milieus of more profound intellectual contemplation) that
unfortunately in many ways directly or indirectly (as to the social-and-institutional-
frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in
existentialising-decisionality’ and as encouraged by dominance/vested-interest actors) such
pop-intellectualism end up being elevated as the summum of intellection in the social while
overlooking the requisite depth of sublimating universal-transparency-(transparency-of-
totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-
ontological-completeness) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating~existentialising—decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating~existentialising~decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence, speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating~existentialising~decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning—of-sublimation—<as-to-entailing-theoretical,—conceptual—and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-
involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of human temporal-to-intemporal-dispositions) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relating-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> conception of the ‘overall possibility of human existentialising—decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising—decisionality of prospective knowledge-reification, and this reality given human temporal-to-intemporal-dispositions is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments
(which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendancy. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnaturedness and derived secondnaturedness positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as—to—existence-potency,—disclosed—from—prospective-epistemic-digression—as—of—<amplituding/formative>epistemic-totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness; as to the fact that all human sublimation is instigated as of re—originary—as—unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical—thinking—‘projective-insights’/‘epistemic-projection-in—conflatedness’—of—notional—deprocriptism—prospective—sublimation) before secondnaturung positive-opportunism institutionalisation, as so—reflecting Derridean messianicity wherein even when the messiah comes they still have to come (inevitably—so given prospective human temporal—to—intemporal—dispositions to whatever induced supererogation/messianicity of originariness—parrhesia,—as—spontaneity—of—aestheticisation so—associated with human dimensionality—of—desublimating—lack—of—<amplituding/formative>supererogatory—de—

It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
desublimating–existentialising–decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating–existentialising–decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,-eliciting-of-prospective-suprerogation and the positive-opportunism arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kant, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-
implications) and in that regards the triteness of human pedantry in incrementalism-in-
relative-ontological-incompleteness enframed-conceptualisation and
<amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-
leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-
‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>}
patently doesn’t count (given the latter associated temporal desublimating—existentialising—
decisionality in existential-extrication-as-of-existing-unthought that fails
aetiology/ontological-escalation); and this is the case fundamentally since such
intemporal disposition projected prospective sublimating—nascence engages human
ontological-commitment as to prospective sublimation-over-desublimation (so-implied with
the self-assuredness-of-authenticity with respect to social-stake-contention-or-confliction
underlying human ontological-commitment). The fact is the intellectual exercise is more
acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the
very first place in order to then effectively relate to what is of prospective profound
sublimating intellectualism and so over desublimating pedantry vague proceduralism
(beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existing-
unthought>) as to the simple fact that human prospective destructuring-threshold-
(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-
performance—<including-virtue-as-ontology> means that human meaningfulness-and-
teleology is ever always caught up prospectively between intellectualism
sublimating—existentialising—decisionality and pedantry desublimating—existentialising—
decisionality. This is the case given the requisite condition for the very basic human
sublimating—existentialising—decisionality as so-underlied by existence—as-the-absolute-a-
priori-of-conceptualisation and existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation (reflecting the ever always present challenge for intellectualism over pedantry); so-underscored by the ever always present challenge for human dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to requisite epistemic-conflatedness implied projective/reprojective—aestheticising-re-motif— and—re-apriorising/re-axiomatising/re-referencing induced ‘projective-insights for predicative-insight’. In this respect, intellectual-muddlement—{blurring/undermining-of-prospective-totalising-entailing, as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness) poor appreciation of ‘distantiation of contemplative existentialising-frame as to transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing’ (with regards to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implications), is reflected in the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersedes prospective sublimating knowledge-reification (on the basis of desublimating prior apriorising/axiomatising/referencing—psychologism in epistemic-abnormalcy/preconvergence) failing to grasp the underlying dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation of the said prospective sublimating knowledge-reification; as to imply that (say with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) it is supposedly possible to understand the veracity of any specific positivistic meaningfullness-
and-teleology while remaining of non-positivistic mindset, which inevitably induces a relative-ontological-incompleteness-presublimation-construct—of-meaningfulness-and-teleology desublimating—existentialising—decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development—as-to-personality-development and institutional-development—as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating—
supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicated exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>) about substituting a different and desublimating–existentialising–decisionality (whether of pedantic incrementalism-in-relative-ontological-incompleteness-enframed-conceptualisation or <amplituding/formative>wooden-language-{imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of–‘nondescript/ignorable-void’–with-regards-to-prospective-apriorising-implications>}) and particularly so in relatively blurry domains-of-study/domains-of-interest (as we can appreciate that such a ‘technically wrong presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness–<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> deficient notion of genius’ in spheres of inherently sublimating–nascence as to nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> is practically of ‘insignificant import though technical ontological-impertinence’ and so ‘as to their very knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’ since the immediate/direct potency as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation will be highly challenging to any incompetent mind pretending to be technically/scientifically apt/of-sublimating-existentialising–decisionality in lieu of the truly apt/of-sublimating-existentialising–decisionality technician/scientist, and so unlike desublimating–existentialising–decisionality taking precedence over prospective knowledge-reification arising relatively in blurry domains-of-study/domains-of-interest where such

As we can appreciate that more critically than any individual persons punctual existential ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. the vices-and-impediments manifested in any registry-worldview/dimension are more decisively explained by the given registry-worldview’s/dimension’s ‘destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance-<including-virtue-as-ontology> dynamics of temporal-to-intemporal-dispositions’ (with the grandest deeds of ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. rather reflected in the transcendence-and-sublimity/sublimation/supererogatory–dementativity of any such destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance-<including-virtue-as-ontology> as to prospective human ‘sublimating~referencing/registering/decisioning self-becoming/self-confledness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>’ rather than any nombrilistic presencing—absolutising-identitive-confledness conceptual naivities of ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. wrongly construed as of human structural/paradigmatic/de-mentative flawed ‘desublimating~referenced/registered/decisioned self-presence/self-confledness’) All the more profound and truer notion of ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. rather lies with prospective dimensionality-of-sublimating—

Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising—
subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification), and specifically such an overcoming/superseding is rather cross-generational when it comes to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (given the more profound ‘germinative intensification—amplituding of aestheticisation—beholding-out-of-bechancing’ / ‘taxingness-of-originariness,-imbued–sublimating-by-desublimating–amplituding as to the backdrop-of-inherent-immanent-existence’s–sublimation-structure-<of-‘unrealistic-as-real’–ontological-normalcy’>’); and as so-reflected with human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’. This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—structuring/paradigming/de-menting–<seeding/incipient–shallow-supererogation,-as-mentally-aestheticised–preconverging/dementing–qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-
aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality proned to presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification—gesturing as determining sublimating—existentialising—decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-hermeneutically-educed—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>) can thus structurally/paradigmatically/de-mentatively be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility—effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation. Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-
sublimating~structuring/paradigming/de-mentating or existence-desublimating~structuring/paradigming/de-mentating elicitable respectively as from human ontological-good-faith/authenticity~structuring/paradigming/de-mentating.<seeding/incipient–profound-supererogation, as-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> or ontological-bad-faith/inauthenticity~structuring/paradigming/de-mentating.<seeding/incipient–shallow-supererogation, as-mentally-aestheticised~preconverging/dementing–qualia-schema>. It is thereafter (in the wake of ontological-good-faith/authenticity~structuring/paradigming/de-mentating.<seeding/incipient–profound-supererogation, as-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>) that the veridical prospect of critical pure-ontology then arises. Critically, human existence-desublimating~structuring/paradigming/de-mentating by—existence-sublimating~structuring/paradigming/de-mentating (as of relative-ontological-incompleteness/relative-ontological-completeness-

Such a veridical ontology (in relegating/doing-away-with/superseding the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is critically all about ‘a coherent totalising-entailing knowledge-reification–gesturing’ exposed to existence—as-the-absolute-a-priori-of-conceptualisation and existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation; with such a coherent totalising-entailing knowledge-reification–gesturing accounting for overall knowledge historiality/ontological-eventfulness/ontological-aesthetic-tracing as to human limited-mentation-capacity-deepening-\(<\text{amplituding/formative}\>\text{epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}\) imbibed conceptivity/epistemic-reflexivity (so-reflected in the ‘momentousness-driven coherence of knowledge-reification–gesturing as to entailing-\(<\text{amplituding/formative}\>\text{epistemic-totalising~in-relative-ontological-completeness’ so-associated with human limited-mentation-capacity-deepening-}\(<\text{amplituding/formative}\>\text{epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}\)). It is important to note in this regards that ‘knowledge-reification–gesturing historiality/ontological-eventfulness/ontological-aesthetic-tracing’ is the more profound conception of ontology and science (as to human dimensionality-of-sublimating—\(<\text{amplituding/formative}\>\text{supererogatory~de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation}, and so as of the ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ driving ontology and science across their punctual developments from past to present and into the future (underlined by human
This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition, as reproducbility-of-aestheticisation that poorly appreciates the profound-suprerogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-suprerogation’ in a soulless ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification)’, with this shallow—suprerogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating—referenced/registered/decisioned self-presence/self-constitutedness (without or poorly appreciating the profound—suprerogation involved in true science and ontology as to ‘sublimating—referencing/registering/decisioning self-becoming/self-conflatedness/formative—supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>’) leads to dominance/vested-interest prodded social-stake-contention-or-confliction determination of knowledge as of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such
development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as muddling of genuine knowledge, in ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification)’. It is herein contended that in many ways as to human ontological-good-faith/authenticity–structuring/paradigming/de-mentating–structURING/PARAnDigaMiNg/DE-MenTaTiNg–seeding/incipient–profound-supererogation, as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>, it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation and existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation), as to the fact that ontology is absolutely bound to its course come-what-may ‘with such contrivances rather notionally integrated as herein into ontological-veracity as part-and-parcel of ontological-elucidation’ that allows no room for any pedantic ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ and not even when it elicits <amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology as of shortsighted social power play. Such ‘fraudulent conception of knowledge’ thrive not only as to punctual thematic issues like climate change science and disenfranchisement/swindling/corruption/dispossession implications but even worst carry ideological dehumanising implications as to covertly/implicitly putting in question the
humanity of other peoples/nations/cultures/races. It is herein contended that any pretense of a conception of humanity along those lines is nothing but mirrored-fascism as to the mere-token that all the human others are capable of ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>’ (as to inherent cultural growth and cultural diffusion capacity) thus rendering any lousy exclusionary conception of humanity along the lines of Western, non-Western, Oriental, Chinese, Arab, African, Russian, etc. of vague presencing—absolutising-identitive-constitutedness social-stake-contention-or-confliction beholding-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhhibited-mental-aestheticising (speaking of shallow ‘germinative intensification—amplituding of aestheticisation—beholding-out-of-bechancing’ / ‘taxingness-of-originariness,-imbued–sublimating-by-desublimating–amplituding as to the backdrop-of-inherent-immanent-existence’s–sublimation-structure-<of–‘unsurrealistic-as-real’–ontological-normalcy>’). In many ways this latterly identified manifestation of ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’, wherein political purpose supposedly supersedes human intellective potency is the very crème-de-la-crème structural/paradigmatic/de-mentative and defining basis for social-and-institutional-frameworks-of—referencing/registering/decisioning of desublimating–existentialising–decisionality as to ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’; so-reflected with dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholding-<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,–as-to-structuring/paradigming/de-mentating—social–

This latter conceptualisation goes well beyond a point of just mere technical ontological-pertinence as to the fact that it operantly captures in a nutshell the prospectively requisite human aporeticism overcoming/unovercoming in upcoming years and decades, as to the capacity for the human to redefine humanity in the light of the societal and technological transformations of the past few decades and the resultant/developing geopolitical context. It is herein contended that the incapacity for such a collective reconstrual of humanity (as to ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence implied as to the very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’) following the social and industrial transformation occurring by the end of the 19th century very much underlies the ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification)’ which could only end up in the human-made calamities of the 20th centuries so-critically attributable to dominion/statal–logic-{in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,–as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>}. In many ways, this highlights the subjection of the social intellectual-function by dominion/statal–logic-{in-shallow-supererogation-of-specific–collateralising-beholdening–
<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>) (reflected as to the underpinning–suprasocial-construct enclosing/hemming-in religiosity inculcated as defining the very notional/epistemic framework of human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so consciously/unconsciously as supposedly superseding pure-ontology); and so across all the various registry-worldviews/dimensions whether so manifested in say the recurrent religio-political induced instability in Ancient Egypt despite its advanced technical and organisational development, Ancient Athenian political decadence associated with the Socratic philosophers aspiration for enlightening-renewal of the political process or the medieval establishment politico-religious excesses underlying the reformation and renaissance and its prolongation into the enlightenment social intellectual-function strive for science, universal human rights and enlightened society and governance. Such a varying relation between the possibility for profound-supererogation inducible as from genuine social intellectual-function and dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>) in many ways across human history is intimately tied to ‘perceived urgency in social mood’ whether as to a mood of enlightening-renewal or hegemonic-ascendancy. It is no wonder that periods following
heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a social intellectual-function obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very social intellectual-function (as to its abstract notional/epistemic possibilities for prospective sublimation/emancipation so-undermined by dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,–as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>)) tend to be paradoxically re-construed (on the basis of dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,–as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>)) presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) as at best subject to the dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,–as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) and at worst of relative irrelevance to prospective social sublimation/emancipation (especially as to when it ambitions a criticism of profound social emancipation), and so as to muddlement induced
subversion of such social intellectual-function marked by the overt and covert cultivating of pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation and a conception of the social intellectual-function as remote and directly irrelevant to social aporeticism overcoming/unovercoming. This flawed conception of the social intellectual-function is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating-existentialising-decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness basis for such supposedly ontological insight so-critically provided by the veridical social intellectual-function. Critically, such dominion/statal–logic-{in-shallow-supererogation-of-specific–collateralising-beholdening–as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity<-discretely-implied-functionalism>} carry a ‘bogus reflex of attributing-and-blaming their socially cultivated <amplituding/formative>wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} as well as pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation’ rather to the veridical social intellectual-function, and so in a Machiavellian perpetuation of dominion/statal–logic-{in-shallow-supererogation-of-specific–collateralising-beholdening–as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-

The fact remains that the social intellectual-function (even as to when it is undermined with punctual pedantry desublimatingly pandering to the powers of the day) remains the only human conduit to sublimating ontological-veracity that cannot be substituted but rather supererogated as to undermining such pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a structural/paradigmatic/de-mentative issue of intellectual irrelevance no less than punctual technical or scientific incompetence can be transformed into a structural/paradigmatic/de-mentative issue of technical or scientific irrelevance but rather requisite profound–supererogation over say pseudoscience and/or ‘distorted institutional science’ (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification tends to be notionally/epistemically caught up between a sublimation and desublimation/gimmickiness structuring/paradigming/de-mentating’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.); and
in many ways dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) pursuit of such vague argumentations for subverting the genuine social intellectual-function is rather all about the ruthless adoption of a perambulatory course for institutional and political ascendency rather than a question of genuine preoccupation as to the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension associated with veridically profound social intellectual-function and its sublimating implications of ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality)’. In our modern day context, the very essential ‘public-sovereignty–giving function as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously reconstrued as the very cornerstone for dominion/statal–logic–(in-shallow-supererogation-of-specific–collateralising-beholdening–<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) subverting the sublimating–existentialising–decisionality of the social intellectual-function; and so as to the fact that the democratic process ‘public-sovereignty–giving function as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual-function. In many ways the very idea of the ‘democratic public-
debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning— suprasocial-construct existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological outlet rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual-function as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In many ways, we can appreciate that the modern day social intellectual-function as to its relatively genuine sublimating–existentialising–decisionality critically ‘operates mostly in the wake of the social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating–existentialising–decisionality of dominion/statal–logic-(in-shallow-supererogation-of-specific–collateralising-beholding-<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>); as to the fact that the critical aftereffects of political, economic, social and mediatic strategic policy orientations reflected in socio-econo-political and legal decision-making associated with various crises whether decadal economic crises, media and information crises, political accountability, etc. are effectively related by the social intellectual-function but very much after the facts (often decades after the social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating–existentialising–decisionality of dominion/statal–logic-(in-shallow-supererogation-of-specific–collateralising-beholding-<as-preconvergently–trepidatious-or-warped-or-preclusive-or-occlusive,-as-to-structuring/paradigming/de-mentating—social-expectations/anticipations>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>)), and so as to the sublimating impotence of such social intellectual-function. Critically in this respect the very artifice available to present day democracy dominion/statal–logic-(in-

Such a Machiavellianism riding-the-wave of the underpinning–suprasocial-construct existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> of the sovereign public thrives on social and intellectual pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation with the cultivation of disingenuous analysis as to strategies of misanalysis (so-reflected by the ‘propounding and enframing in ad-hocness and false-orthodoxy of policy issues so-underlied with catchphrases like deficit, public spending, etc. as to an aversion to consistent and long-term analysis pointing out the underlying inconsistency’ highlighting effectively that the political
disenfranchisement/swindling/corruption/dispossession purpose of such argumentations precede their ‘very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’ purpose as to Machiavellian instigated false public debates) to which sovereign publics gullibly get caught up in or which ultimately discourages public interest and participation or lead to protest votes; with such misanalysis typically characterised by false bothsidesism existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> reflex (bandied about as supposedly the very summum of democratic impartiality) relation to any sublimating meaningfulness-and-teleology. Misanalysis as such speaks fundamentally of an issue of ontological-bad-faith/inauthenticity (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—structuring/paradigming/de-mentating—<seeding/incipient—shallow—supererogation,—as-mentally-aestheticised—preconverging/dementing—qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory—shallowness or supererogatory—profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of—aestheticisation). This ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising—decisionality of underpinning—suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising—realness of such abstract notions as to their nondisjointing tends to be <amplifying/formative>epistemic-totalisingly absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning—suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism>’ that-drives/is-behind such subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism>’ manifest themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of social-

Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>) is structurally/paradigmatically/de-mentatively closed-off, and there is ‘supposedly no sublimating/emancipating existentialising–decisionality meaningfulness-and-teleology’ that can arise outside the underpinning–suprasocial-construct existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> as putting into question the very ontological-veracity of the subontologisation/ideology-over-ontology ‘catchmenting-by-rejection

In this respect, the possibility of critical pure-ontology is rather underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-painintelligibility--<imbued-and-hermeneutically-educed–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> as to the fact

Thus beneath any supposedly underpinning—suprasocial-construct (reflected in the modern-day underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a more fundamental ‘nonpresencing—<perspective—ontological-normalcy/postconvergence> notion of supererogatory—progressivity’ (however the ‘shallow-supererogation of supererogatory—progressivity’) accounting for the possibility for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as in effect creatively permeating all such ‘underpinning—suprasocial-construct of presencing—absolutising—identitive-constitutedness existentialising—entailing’; and so (especially potent when such
‘nonpresencing–<perspective–ontological-normalcy/postconvergence> notion of supererogatory–progressivity’ is manifested as of profound–supererogation entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness as to dimensionality-of-sublimating–<amplituding/formative>supererogatory–de-

originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising (and thus reflecting the sublimating possibility for prospective ‘bechancing-backdrop of nonpresencing–<perspective–ontological-normalcy/postconvergence>’ as to ‘bechancing-

confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which
waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflectected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a structural/paradigmatic/de-mentative parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence
surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while structurally/paradigmatically/de-mentatively hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical structural/paradigmatic/de-mentative international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational
economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confiction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can structurally/paradigmatically/de-mentatively address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and
so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation of supererogatory–progressivity’ as so-associated with debt servitude and structural adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of
any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow–supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omni-potentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities
cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied by a basic level of supererogatory–progressivity. Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and
Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is at least a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is structured/paradigmed/de-mentated to induce skewed ‘shallow-supererogation of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that structurally/paradigmatically/de-mentatively the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond

human descalarisation is already caught up in the human aspiration for scalarisation re-originariness/re-origination as to the underlying sublimating-by-desublimating &lt;amplituding/formative&gt;epistemic-totalising/circumscribing/delineating manifestation of aestheticisation–and–aestheticisation-towards-ontology as to relative-ontological-incompleteness/relative-ontological-completeness–

the corresponding possibility for sophistic/pedantic moral and intellectual

other words, the notion of ‘the other’ as aetiology/ontological-escalation is much more
than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled
commitment to the notion of the other’ by the other as enabling the completeness of universal
responsibility. Paradoxically, viewed from this angle as of the possibility of inducing
prospective notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-
aestheticised~postconverging/dialectical-thinking–qualia-schema> for ontologically-veridical
virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, a different
interpretation can be made about the posture of a thinker like Heidegger during the troubled
years of the 1930s; as effectively, the implication of Heidegger’s analysis of the situation
which he associated with Being-development/ontological-framework-expansion–as-to-depth-
of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the structural/paradigmatic/decemtative consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity–<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 1930s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-
institutionalisation attitude/mental-disposition/care—and—episteme over the uninstitutionalised-threshold attitude/mental-disposition/care—and—episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimation—<amplitudinal/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—

mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) which philosophically precedes his secondary thinking-proposition as reasoning-from-results/afterthought; such that budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> why intending to be of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is actually of an epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag aposteriorising/logicising/deriving/intelligising/measuring with prior positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, even though in its attempt it effectively elicits many insights for the prospect of ontologically-veridical prospective postmodern apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with its corresponding postmodern deprocripticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme. In other words philosophical thought is all incipiently/seedingly about dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-
disposition/care—and—episteme, and so just as searing with ‘structural/paradigmatic/de-
mentative disseminative implications’ was the mathesis universalis metaphoricity extended
development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and
others that ultimately reflected an underlying reality of prospective reference-of-thought de-
mentation—(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In
effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I
think therefore I am’ is not the idea that Descartes contemplates that he is the first person to
be self-conscious about his thinking; rather his underlying reasoning is ‘more than just
speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-
positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-
transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’

aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any
existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism
pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought
‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his
novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and structuring/paradigming/decrypting the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in—supererogatory—epistemic-conflectedness relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocripticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, we may be forgiven to confuse-and-dismiss their schema as-to-structural/paradigmatic/de-mentative—disemnativ-implactions as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate
rather about a ‘seeding promise of human-subpotency ontological-performance—equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ that comes out short and which ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ induces the successive prospective relative-ontological-completeness-of-reference-of-thought as to the ‘ontological-contiguity—of-the-human-institutionalisation-process as of reference-of-thought différance/internal-dialectics/difference-deferral’. The appropriate contemplative perspective for the appreciation of their schema as-to-structural/paradigmatic/de-mentative—disseminative-implications is effectively cross-generational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory de-mentativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> analysis, implied as of prospective relative-ontological-completeness-of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness-of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp
that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supерerogatory-epistemic-conflatedness; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness-of-reference-of-thought/relative-ontological-completeness-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation-(supерerogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supерerogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness in resetting-our-psychoanalytic-disposition/prospective-grounding as of <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought in conflatedness, such that this leads to constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation-(supерerogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that our human
as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
is instilled as of de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-
mentation—stranding-or-attributive-dialectics) wherein the prospective reference-of-thought
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-
disposition/care—and—episteme is intemporally induced as deneuterising ‘exteriorisation
attitude/mental-disposition/care—and—episteme’ of meaningfulness-and-teleology
superseding/overriding the prior reference-of-thought temporally neuterising ‘interiorisation
attitude/mental-disposition/care—and—episteme’ of meaningfulness-and-teleology. The
‘exteriorisation attitude/mental-disposition/care—and—episteme’ implies meaningfulness-and-
teleology as not referenced/registered/decisioned—as-ascribed/neuterised as of a prior
reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology,
that is, not as of the prior reference-of-thought ‘interiorisation attitude/mental-
disposition/care—and—episteme’, but rather referenced/registered/decisioned—as-
deascribed/deneuterised as of the prospective reference-of-thought—categorical-
imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology;
with the latter construed as postconverging—or-dialectical-thinking—apriorising-psychologism
and the former construed as preconverging—or-dementing—apriorising-psychologism. Thus a
registry-worldview/dimension institutionalisation reference-of-thought always operates as if
it is the absolute framework of meaningfulness-and-teleology, that is, by its ‘interiorisation
attitude/mental-disposition/care—and—episteme’, notwithstanding the ontological-veridicality
of its prior relative-ontological-incompleteness-of-reference-of-thought at its
uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension
institutionalisation reference-of-thought in an ‘exteriorisation attitude/mental-
When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective structural/paradigmatic/de-mentative disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normaley/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing), as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. In this regard, singularisation/epistemic-immanence/veridical-epistemic-determinism retrospectively and prospectively reflects the notional–conflatedness/conflatedness implied as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality but with the latter as a ‘seeding promise of human-subpotency ontological-performance–<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-
veridicality/existential-reality’, with potentially divergent meaningfulness-and-teleology implications as of underlying relative-ontological-incompleteness/relative-ontological-completeness-(sublimating-referencing-registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) arising from human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-elicitng-of-prospective-supererogation); with relative completeness increasingly attained, by way of ‘reinvigorating as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existent-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning. Thus singularisation/epistemic-immanence/veridical-epistemic-determinism by its implied notional–conflatedness highlights that ‘axiomatic-constructs as of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting of ‘human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence in its coherence/contiguity’ as of implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, is effectively as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to singularisation/epistemic-immanence/veridical-epistemic-determinism. That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative>epistemic-totalising/circumscribing/delineating
reference-of-thought-devolving’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening-\(<\text{amplituding}/\text{formative}>\text{epistemic-totalisingly,-as-to-existence—as-sublimating-}
\text{withdrawal,-eliciting-of-prospective-supererogation}\) of ‘axiomatic-constructs as of
\(<\text{amplituding}/\text{formative}>\text{epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’}. singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing, points out that dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance-\(<\text{including-virtue-as-ontology}>\) correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance-\(<\text{including-virtue-as-ontology}>\) correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance-\(<\text{including-virtue-as-ontology}>\) equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—\text{so—being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening-}\(<\text{amplituding}/\text{formative}>\text{epistemic-totalisingly,-as-to-existence—as-sublimating-}
\text{withdrawal,-eliciting-of-prospective-supererogation}\) of ‘axiomatic-constructs as of
amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. This reality of the need to construe of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a structuring/paradigming/dementating singularisation/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by
any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation’. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-
practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional–conflatedness singularisation/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation/epistemic-immanence/veridical-epistemic-determinism of human-subpotency  ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more often than not geared to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that tend to be absolutised in constitutedness of prior reasoning-from-results/afterthought mental-reflexes of <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology), and so failing to grasp that the very principle of human institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-
ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-
singularisation/epistemic-immanence/veridical-epistemic-determinism’. This insight about
ontological-performance-<including-virtue-as-ontology> as of prospective relative-
ontological-completeness of human-subpotency can be garnered with respect to any
axiomatic-construct as the meaningfulness-and-teleology representation of human-
subpotency ontological-performance-<including-virtue-as-ontology> correspondence with
the full-potency-of-existence-as-of-its-coherence/contiguity or a purview/domain of
existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the
reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that
at uninstitutionalised-thresholds, human cognition which is rather in ‘excogitative-blanking
of prospective institutionalisation existential-contextualising-contiguity-in-reification’
suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-

singularisation/epistemic-immanence/veridical-epistemic-determinism’; since this potential
for such singularisation/epistemic-immanence/veridical-epistemic-determinism is denaturing

flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought at its
uninstitutionalised-threshold. We can appreciate that with regards to ‘the very same ill-health
<amplituding/formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human-
subpotency ontological-performance-<including-virtue-as-ontology> of prior perceptivities
narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology),
human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought structural/paradigmatic/de-mentative ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional–procrpticism/notional–disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing–apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–
narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing–apriorising-psychologism representation as temporal denaturing ontological-performance-<including-virtue-as-ontology>s of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-thresholds but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that surpersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that
existence/intrinsic-reality/ontological-veridicality will adjust to it, however our

and-teleology is certainly required, but as of transcendence-and-

constraining of the existential-contextualising-contiguity knowledge-reification framework as of ontological-primemovers-totalitative-framework. The constraining implications of existential-contextualising-contiguity knowledge-reification as of human epistemically-totalising-thrownness-in-existence (I exist therefore existence is transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-including-virtue-as-ontology)s) means that it is wrong to construe the ontological-contiguity—of-the-human-institutionalisation-process as of a human temporal dimensionality-of-sublimating—epistemically-totalisingly-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), and so as of prospective intemporal secondnatured institutionalisation induced universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing—epistemically-totalising—in-relative-ontological-completeness), deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness-of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to
register such implications as of their intemporal/longness-of-register-of-meaningfulness-and-teleology pertinence; as the notion of cross-generational de-mentation- (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the construal of meaningfulness-and-teleology as teleologically-elevated or

The basis for this ‘human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification’, is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance-<including-virtue-as-ontology> given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold’ as of ‘no positive-opportunism for prospective institutionalisation’ is a threshold at which there is a structural/paradigmatic/dementative lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of uninstitutionalised-threshold dereification threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. denaturing of the prior institutionalisation reference-of-thought–categorical-
imperatives/axioms/registry-teleology at its uninstitutionalised-threshold in ‘notional-
discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’. However, this ‘ontologically-veridical reification of value reference as of prospective relative-ontological-completeness’ and the ‘ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness’ is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold-(uninstitutionalised-threshold/presublimating-desublimating-decisionality)~of-ontological-performance-(including-virtue-as-ontology). As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness). With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications) advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and
organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter wasn’t meant/structured/paradigmed/de-mentated to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it cross-generationally overrode scholastic pedantry. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual
emancipation, and so rather as of structural institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness-of-reference-of-thought with the latter’s <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness-of-reference-of-thought naïve non-transcendental <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-thresholds transcending has ever always been conflicted
as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘structurally/paradigmatically/de-mentatively associated with the denaturing of the <amplituding/formative>epistemic-totalising~devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplitudating/formative>epistemic-totalising~self-referencing-syneretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism-slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology’ as-of-prospective-relative-ontological-completeness-postconverging-or-dialectical-thinking—apriorising-psychologism and as-of-prior-relative-ontological-incompleteness-preconverging-or-dementing—apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from the projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness-postconverging-or-dialectical-thinking—apriorising-psychologism recognising this ‘preconverging-or-dementing—apriorising-psychologism and postconverging-or-dialectical-thinking—apriorising-psychologism variance/discrepancy of meaningfulness-
and-teleology’ that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity as implied by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of reifying intemporal/valid/postconverging-or-dialectical-thinking apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness apriorising-teleological-elevation-in-ontological-contiguity and as of dereifying temporal-as-psychopathic-and-social-psychopathic/invalid/preconverging-or-dementing–apriorising-psychologism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments in prior relative-ontological-incompleteness-apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> (psychopathic and social psychopathic), and so before aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology can even be then articulated as ontologically-veridical exclusively as of the intemporal/valid/postconverging-or-dialectical-thinking apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument perspective or attitude/mental-disposition/care–and–episteme. Such a difference-conflatedness-as-of-epistemic-totality is equally what reflects in the bigger scheme of things, at the reference-of-thought-level, the reality of humankind as of the successive registry-worldviews/dimensions humans psychological dispositions as per their corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments. In this regard, the ontological-contiguity—of-the-human-institutionalisation-process can be construed as human limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reification as ‘apriorising-teleological resetting of <amplituding/formative>epistemic-

Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘structurally/paradigmatically/de-mentatively associated with the denaturing of the \textless \text{amplituding/formative}\textgreater \text{epistemictotalising}–\text{devolved}

or attitude/mental-disposition/care–and–episteme over our positivism–procrypticism, so-implied as of their disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications. But then just as the reflex mental state and attitude/mental-disposition/care–and–episteme in a universalisation–non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care–and–episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) reflex mental state and attitude/mental-disposition/care–and–episteme in our positivism–procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care–and–episteme of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical-dementation of our positivism–procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe existential-contextualising-contiguity–in-reification/dereification by adopting the positivism–procrypticism dereifying perspective or attitude/mental-disposition/care–and–episteme in its prior relative-ontological-incompleteness in an exercise of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of
interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification arise as of their temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this author that more critically manifestations of postlogism-slantedness across all the registry-worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-incompleteness-of-reference-of-thought, with transcendental implications that goes well beyond the ad-hoc conception of manifestations of postlogism-slantedness but more broadly conceive as of the destructuring/aetiologisation/ontological-escalation implications arising from underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought with regards to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development

the above analysis, as postmodern-thought portends to be non-ideology-driven, non-

much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human

tendencies do not address structurally/paradigmatically/de-mentatively defining issues of a
registry-worldview/dimension as of its vices-and-impediments like the comprehensive
implications of disjointedness-as-of-reference-of-thought/procrypticism with regards to our
positivism–procrypticism or say the comprehensive implications of non-positivism in a
medieval or animistic social-setup. Prospective notional-contiguity/epistemic-contiguity-
<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–

transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought but paradoxically now defining the conception of virtue. The fact is our pretences and arguments of practice, as not critically pinned down to their ontological-veracity as of prospective relative-ontological-completeness, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview’s/dimension’s reference-of-thought practices, and thus conceptualising virtue by <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag while circumventing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> the vices-and-impediments of each registry-worldview/dimension in want of its ‘pure-ontology’ virtue resolution as of aetiologisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying structural/paradigmatic/de-mentative ontological implications about our ‘modern take attitude/mental-disposition/care—and–episteme’ reflected by the ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought
hyperrealisation/hyperreal-transposition> frameworks and temporal mandarinism/pedantry frameworks as reflected from ‘positivism/rational-empriricism attitude/mental-disposition/care—and—episteme’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-

Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon’ constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and
conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional–conflicatedness of notional–deprocrysticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Such a postmodern-suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism to such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as–of-existential-unthought relation with it. More concretely, consider the practice of serfdom in
Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main
societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness}. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity–<shallow-
supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-
disposition/care–and–episteme event-or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative>epistemic-totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as authenticity and veracity is more fundamentally about
the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking,‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of erudite ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as
the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—)<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness⟩’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of-meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its cross-generational transcendental implications and as reflected from the insight in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-
projection/re-anticipation’ about ‘the very same physics <amp|amplitude\text{-}formative>\text{-}epistemic\text{-}totalising\text{-}devolved\text{-}purview\text{-}domain\text{-}of\text{-}construal\text{-}as\text{-}intrinsic\text{-}reality\text{/}ontological\text{-}veridicality\text{/}existential\text{-}reality’ which was then validated as of ontological\text{-}primemovers\text{-}totalitative-framework, and so divulged by existence\text{-}potency\text{-}disclosed\text{-}from\text{-}prospective\text{-}epistemic\text{-}digression\text{-}as\text{-}of\text{-}<amp|amplitude\text{-}formative>\text{-}epistemic\text{-}totalising\text{-}renewing\text{-}realisation\text{-}re\text{-}perception\text{-}re\text{-}thought\text{-}in\text{-}supererogatory\text{-}epistemic\text{-}confledness; as prior human presencing\text{-}absolutising\text{-}identitive\text{-}constitutedness experience wouldn’t have thought about space\text{-}time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental\text{-}signifier’ as of the prior classical\text{-}mechanics\text{-}axiomatic\text{-}constructs construed as presencing\text{-}absolutising\text{-}identitive\text{-}constitutedness enabling the obtention of any such conclusions from the given classical\text{-}mechanics\text{-}axiomatic\text{-}constructs constitutedness, but rather it is by conflatedness with regards to ‘the very same physics <amp|amplitude\text{-}formative>\text{-}epistemic\text{-}totalising\text{-}devolved\text{-}purview\text{-}domain\text{-}of\text{-}construal\text{-}as\text{-}intrinsic\text{-}reality\text{/}ontological\text{-}veridicality\text{/}existential\text{-}reality’ that the prospective theory\text{-}of\text{-}relativity\text{-}together\text{-}with\text{-}quantum\text{-}mechanics\text{-}axiomatic\text{-}constructs was construed as of nonpresencing\text{-}<\text{perspective\text{-}ontological\text{-}normalcy\text{/}postconvergence}>. Interestingly, as of the underlying phenomenology\text{-}driven ontology, it is rather more pertinent with respect to transcendence\text{-}and\text{-}sublimity\text{/}sublimation\text{-}supererogatory\text{-}de\text{-}mentativity to grasp that such ultimate decidability is construed as of human intemporal\text{-}longness\text{-}of\text{-}register\text{-}of\text{-}meaningfulness\text{-}and\text{-}teleology individuation mental\text{-}disposition in ‘a tendential\text{-}deliberation\text{-}of\text{-}decidability as enabled by ontological\text{-}primemovers\text{-}totalitative-framework tendential validation as to existence\text{-}potency\text{-}disclosed\text{-}from\text{-}prospective\text{-}epistemic\text{-}digression\text{-}as\text{-}of\text{-}<amp|amplitude\text{-}formative>\text{-}epistemic\text{-}totalising\text{-}renewing\text{-}realisation\text{-}re\text{-}perception\text{-}re\text{-}thought\text{-}in\text{-}supererogatory\text{-}epistemic\text{-}confledness. Such a construal of human transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising as of deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional—deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) process.
Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as 'a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity'; and différance as of such 'existential-reality concreteness dynamics' is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening-
(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of.<amplituding/formative>epistemic-totalising~renewing~realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-forgiven-outcomes. Organic-knowledge as such implies priorly a supplanting~conviction-as-to-profound-supererogation—postconverging/dialectical-thinking~apriorising-psychologism deference to the prescience of existence-potency,-disclosed-from-prospective-epistemic-
digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought–in-supererogatory–epistemic-conflatedness over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the structuring/paradigming/de-mentating of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness-of-reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness-of-reference-of-thought, and so by maximaliing-recomposuring <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential structuring/paradigming/de-mentating of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of
such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness)’.
But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative>epistemic-
totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of
knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness/notional-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–deprocrypticism mindset perspective/framing/reference/horizon’ to grasp deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘deprocrypticism mindset
As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness}’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-

as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-

ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituing/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/suberogatory—de-mentativity of nonpresencing-<perspective—ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituing/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising mental-disposition as of
presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct
of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing-<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-thresholds as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism possibilities relation to reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we
entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant
is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-
transference as of institutional percolation-channelling are necessarily construed as of a
double-gesture reification that supersedes the ordinariness/banality of day to day social
existence analysis as of <amplitudining/formative>-wooden-language-(imbued—averaging-of-
thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

that as of the history of such critiques it will be naïve not to factor in the reality of
ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine
intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance
peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such
ontological-bad-faith/inauthenticity critiques, as structurally/paradigmatically/de-mentatively
that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-
relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-
thinking–apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-
ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing–
apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the
fact that the former is a nonextricatory/intemporal/ontological relationship with
meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-
ontological relationship with meaningfulness-and-teleology, in the sense that it is the former
intemporal-as-ontological individuation mental-disposition that is responsible for bringing
about human Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the
ontological-contiguity—of-the-human-institutionalisation-process retrospectively and
prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality’ is
rather existentially extricatory and oblivious to Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness-of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogacy-de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness)’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the
social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive

‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immune from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-\(<\text{-in-dimensionality-of—}\text{desublimating-lack-of—}\text{supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative—rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation}>\)

subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge
is much more completely and potently notional knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness structuring/paradigming/de-mentating, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a \(<\text{amplituding/formative}>\)epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-
thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresenting-<perspective–ontological-normaley/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting-as-of-conflicatedness as of aetiologisation/ontological-escalation. Basically thus, the overall
The postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of the dimensionality-of-sublimating—amplituding/formative—supererogatory—dementativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality of our supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern structuring/paradigming/de-mentating with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’.

Anecdotally, the shallowmindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—\langle\text{amplituding/formative}\rangle\text{epistemic-totalising—}\text{in-relative-ontological-completeness})’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-structuring/paradigming/de-mentating—of-
meaningfulness’ was structurally/paradigmatically/de-mentatively a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness-of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and structural structuring/paradigming/de-mentating of academic institutional setups are not dissociated from the effective possibility for transcendental-

institutionalisation such that prospective social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-
Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology notion’ for which ‘ontologically-compromised-mediating-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms—as-of-axiomatic-construct of ‘neuterising as of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, and so elucidated from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of deprocrypticism ‘referentialism—ontologically-uncompromised-mediating-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology as of notional-deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising—referentialism, in lieu of neuterising. Thus this notion of human limited-mentation-capacity as the basis of differance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human <amplituding/formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) has always involved a disparateness-of-ontologically-construed-social-reality as of on the one hand a dichotomy of ‘intemporal-projection transcendental-
conceptualisation perspectives’ as of their neuterising: wherein recurrent-utter-uninstitutionalisation has the deepest reference-of-thought/structural/paradigmatic/de-mentative as ‘impulsive—ontologically-compromised-mediating,—as-of-its-specific-constitutedness consciousness flawed conceptualisation perspective’ neuterising by its trepidatious-consciousness, while on the other extreme in contrast deprocrypticism rather has a reference-of-thought/structural/paradigmatic/de-mentative deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,—as-of-conflatedness protensive-consciousness sound conceptualisation perspective’ that by its ‘reference-of-thought-devolving—différance/internal-dialectics/difference-deferral’ grasp the ontologically-veridical ‘underlying human limited-mentation-capacity dynamics of epistemic-totalising/circumscribing/delineating reference-of-thought-devolving, and so without being subject to any neuterising’ as is the case with all ‘ontologically-compromised-mediating,—as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’. Thus by its deneuterising—referentialism construed as of historiality/ontological-eventfulness/ontological-aesthetic-tracing, deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, and so superseding a naïve metaphysics-of-presence affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is
achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by
deneuterising—referentialism, which is equinominal/equivalent to nonpresencing-
<perspective–ontological-normalcy/postconvergence>. In other words the historical
implications of human limited-mentation-capacity-deepening-
(<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-
withdrawal,—eliciting-of-prospective-supererogation) is that ‘as of a less and less
ontologically-flawed meaningfulness-and-teleology towards ontological-
normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive
registry-worldviews/dimensions
<amplituding/formative>epistemic-
totalising/circumscribing/delineating reference-of-thought-devolving’ as of their given
neuterisation, construed as equinominal/equivalent with their successively given neuterising.
From the above insight, transcendence-and-sublimity/sublimation/supererogatory-
dementativity, is attainable as of deneuterising, construed as equinominal/equivalent with
deneuterising—referentialism as the notional–conflatedness of notional–deprocrypticism that
produces the ontologically-veridical historiality/ontological-eventfulness/ontological-
aesthetic-tracing. Ultimately, this sociohistorial disparateness-of-ontologically-construed-
social-reality dynamism comes down to the limited/incomplete association of human
‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying
mental-disposition as of Being-development/ontological-framework-expansion—as-to-depth-
defectively as of mechanical-knowledge construal in existential instantiations’, inducing
prospective neuterising. This disparateness is increasingly closed-down all along in reflecting
the ontological-contiguity—of-the-human-institutionalisation-process from recurrent-utter-
uninstitutionalisation to positivism–procrypticism, with the underlying tenet for achieving
futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

transcendental-enabling/sublimating/supererogatory-de-mentativity thus undermining the more decisive element of futural différance as based on ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality driven organic-knowledge as setting up the successive registry-worldviews/dimensions institutionalisations reference-of-thought in their respective all-
remote/isolated non-positivistic animist/base-institutionalisation society for instance which
by some token has sustainable-and-learned access to basic but greatly enhancing productive
techniques from travellers of a positivistic culture but without a substantial corresponding
organisational and institutional diffusion associated with such greatly enhancing productive
techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will
structurally/paradigmatically/de-mentatively have degenerative effect on such an animistic
social organisation wherein this isn’t enhancing of the society’s social organisation and
relations and will be possibly disruptive. This example isn’t that farfetched as anthropological
evidence of such cases abounds with many native societies so disrupted by culturally
alienating positivistic material diffusion. Human material/technical development and

corresponding mentality as of Being-development/ontological-framework-expansion—as-to-
depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology are
inextricable and critical in reflecting the ontological-contiguity—of-the-human-
institutionalisation-process including our positivism–procypticism registry-worldview/dimension. Inevitably the disparity of being thrown in the midst of technical
development associated with ‘the underdevelopment of Being construed herein as of
individuation-level and registry-worldview/dimension-level disjointedness-as-of-reference-
of-thought with respect to our positivism–procypticism registry-worldview/dimension’ is by
itself a structural/paradigmatic/de-mentative basis for human vices-and-impediments whether
at a micro-level interactional or macro-level social and political structuring/paradigming/de-
mentating basis, notwithstanding our inclination for <amplituding/formative>epistemic-

to Being underdevelopment across the successive registry-worldviews/dimensions also
speaks to how intrinsic-reality/ontological-veridicality transcendent-al-
enabling/sublimating/supererogatory—de-mentativity behind the ontological-contiguity—of-
the-human-institutionalisation-process can and is often usurped by eruditic establishments by
a nombrilistic elicitation of temporal mental-dispositions as to the commonsense/social-

Prelogism even when ontologically-flawed can be compared to the defect arising using a ‘correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ (appropriateness-of-reference-of-thought-as-of-conflatedness) for aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (to derive meaningfulness-and-teleology) but in doing so aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements wrongly (construed as using the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ wrongly) which specifically speaks of the possibility of reusing the ‘same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ as same appropriateness-of-reference-of-thought-as-of-conflatedness (notwithstanding the specifically flawed

revealed so by the prospective/transcending/superseding registry-worldview.) This
technically highlights two issues, the inherent perversion-of-reference-of-thought-<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

structural/paradigmatic/de-mentative ontological resolution given its ontological-
completeness-of-reference-of-thought. This notion of human growing/developing prospective
relative-ontological-completeness-of-reference-of-thought as of diminishing—human-

deepening—(<amplituding/formative>epistemic-totalisingly—,as-to-existence—as-sublimating-
withdrawal,—eliciting—of-prospective-supererogation), can effectively be construed as a
maximalising-recomposuring—for-relative-ontological-completeness ‘successive shifting in
the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought of human
meaningfulness-and-teleology’ (rather than a naïve construal based on incrementalism-in-
relative-ontological-incompleteness as successive additions which will wrongly imply an
thought), the historical transformation of meaningfulness-and-teleology associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology} as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing–apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/reference-of-thought that doesn’t register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing–apriorising-psychologism by its positivism–procrysticism reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal, eliciting-of-prospective-supерerogation} conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal, eliciting-of-prospective-supерerogation} virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-recomposuring-for-relative-ontological-completeness. Correspondingly, from the vantage position of our present
positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

universalisation and positivism eliciting respectively the uninstitutionalised-thresholds of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional~projective-perspective, it is ‘preconverging-or-dementing–apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory~de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-

Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating meaningfulness-and-teleology from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, and so by maximalising-recomposuring-for-relative-ontological-completeness. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-
outside-existential-contextualising-contiguity since the latter is only appropriate in the instance of prospective relative-ontological-completeness-of-reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness-induced-

‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology (‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality construed as of increasing human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’) with respect to the base-institutionalisation (animistic) registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<-as-Being-or-ontological-or-existential–defect>. Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our
present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing–apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of-meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-thresholds from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of-meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing confliction’ resolved intemporally by prospective ontological-prime movers-totalitative-framework and secondnaturering. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of-meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of-
meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sUBLimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and structuring meaningfulness-and-teleology in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), as institutionalising ontological-primemovers-totalitative-framework successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness.  (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework of meaningfulness-and-teleology going by their limited-mentation-capacity-deepening-
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation))’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-inducing—-textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific
referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory-de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory-de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e., human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-verdicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when
they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as secondnaturing institutionalisation percolation-channelling to elicit the necessary positive-opportunism for prospective institutionalisation as skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (and so as of ‘circular-complexification’/perpetual-reinstitutionalisation as a result of the same human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions across all the successive ontological-contiguity—of-the-human-institutionalisation-process
registry-worldviews/dimensions). In the bigger scheme of things, as of the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatededness of notional–deprocrypticism deneuterising—referentialism’ reflected by metaphysics-of-absence in the conception of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> as of the transcendental implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supercratory–de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in
amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought with regards to our positivism—procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence for the conception of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> naively construed <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-
ontology as herein implied that structurally/paradigmatically/de-mentatively supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflicatedness’-of-notional–deprocrypticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>)’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/subliming/supererogatory-de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of-meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the Deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and
not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of
sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of the psychopath’s mental-disposition of postlogism-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)), and while construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not
disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness-of-reference-of-thought, as it leads to ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness), associated with the successive uninstitutionalised-threshold states, the notion of ‘human beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-⟨as-Being-or-ontological-or-existential–defect⟩’ inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments as of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-⟨as-Being-or-ontological-or-existential–defect⟩’ as beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ of the registry-worldview/dimension uninstitutionalised-threshold; as social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) is a strong inherent deterrent of human temporality/shortness and enabler of human intemporality/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold of such knowledge-as-virtue arises the temporal-dispositions denaturing its reference-of-thought–categorical-imperatives/axioms/registry-teleology for
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This nature of ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect>’ as induced beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> as of registry-worldview/dimension uninstitutionalised-threshold explains why fundamentally issues of reference-of-thought defect or perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> point more decisively/fundamentally as to their resolution as aetiologystion/ontological-escalation towards the need for ontological-completeness-of-reference-of-thought as to the successive registry-worldviews/dimensions institutionalisations-in-superseding-their-corresponding-uninstitutionalisation with regards to base-institutionalisation-superseding-recurrent-utter-uninstitutionalisation, universalisation-superseding-ununiversalisation, positivism-superseding-non-positivism/medievalism and prospectively deprocrypticism-superseding-procrypticism. Thus structurally/paradigmatically/de-mentatively, this is the supratransversality—apriorising/axiomatising/referencing associated with intemporality/longness and construed as ‘intemporality-asymmetric-subsumption-of-temporality’ since it is ‘not equable’ with the relative shallowness as temporal/shortness-of-register-of-meaningfulness-and-teleology in intradimensional construal of meaningfulness-and-teleology but projects directly in grasping fundamentally the issue of relative-ontological-incompleteness-of-reference-of-thought and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/structurally/paradigmatically/de-mentatively as of aetiologystion/ontological-escalation a question of their relative-ontological-incompleteness-of-reference-of-thought as it endemises/enculturates such notions as its vices-and-impediments and the same approach applies to our state of positivism–

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/epistemic-projection-in-conflatedness'-of-notional-deprocrypticism-prospective-sublimation) transcendental notions of intemporalty/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding-formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its
transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituating/formative>epistemic-totalising–self-referencing–syneretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. <amplituating/formative>epistemic-totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure, which may wrongly imply being out of
the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) transcendental ideas (transcendental in terms–as-of-axiomatic-construct of putting in question the prior <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which makes it unsurprising that even socially <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is a necessary process for the ultimate
acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant-(as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to cross-generational import (prospective-institutionalisation<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling{(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recompose). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of cross-generational purposefulness (whether beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-

apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this
doesn’t void logically re-engaging with A with respect to other sums in terms of
aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained.measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5 + 2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect-of-logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential—defect, i.e., the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential—defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential—defect’ as
well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism-as-of-conviction-as-to-profound-supererogation re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (persion-and-derived-persion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of— apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B’s postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and C, D, E and F relative-ontological-incompleteness-induced,- ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologism’ that is ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology to enable their conjugated-postlogism, where it is socially-functional-and-accordant to do so. It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised
and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing<-amplitudating/formative>epistemic-totalising~in-relative-ontological-completeness) of perversion-and-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how prelogism-as-of-conviction-as-to-profound-supererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and its protraction into conjugated-postlogism/social-psychopathy, postlogism
and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (even when other prelogism-as-of-conviction-as-to-profound-supererogation minds do lack a social universal-transparency–(transparency-of-totalising-entailing, as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of the veridical postlogism/psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism-as-of-conviction-as-to-profound-supererogation minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such
experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vivious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency–(transparency-of-
combination with ‘compensating directed pseudo-virtue acts-and/or-narratives’ directed to relevant significant others will enable the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ as of an association between the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’, and ‘compensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, wherein that compensating is not a trite equivalence but rather involves ‘high-proportionality of overcompensating directed pseudo-virtue acts-and/or-narratives’ relative to ‘specific or given postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ in order to enable the postlogism/psychopathic manifestation achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and subsequent sense of social allegiance with relevant significant others and then corresponding ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, whether relevant individuals and/or relevant social network, as overall ‘social investment’ that should allow its instigated ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in
compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism-as-of-conviction-as-to-profound-supererogation come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (which are actually outside existential-contextualising-contiguity’s-

This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the }\langle\text{amplituding/formative}\rangle\text{ wooden-language-}

Rather than the idea of resetting relations anew and overlooking, a true intellectual-and-moral elevation is instead achieved by a prospective institutionalisation secondnaturing process construing the inherent reality and derived-implications of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation for its superseding, which effectiveness skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity) to the veritable intemporal/longness-of-register-of-meaningfulness-and-teleology in deferential-formalisation-transference as of aetiologisation/ontological-escalation, as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct; and so construed suprastructurally as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existent-unthought-of-the-prior/transcended/superseded. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ of ‘<amplituding-formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an elaboration well within the psychical framework established by the dimensionality-of-sublimating—<amplituding-formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that

amplituding/formative>epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—(as ‘conflatedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument); and wherein the successive mindsets/references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness of its limited-mentation-capacity-deepening—

amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation). It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow to deeper limited-mentation-capacity-deepening—

amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation). (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very—
ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory—dementativity). But then it is more the case that from an epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-
worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-
teleology as absolute, then prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-
awareness–teleology–<in-existential-extrication-as-of-existential-unthought> notion. Besides,
Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
(transcendental idealism) and subsequent philosophical development of the notion is one
relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-
abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as
of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights’ transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a
construal of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as
implied herein as of deepening limited-mentation-capacity with respect to the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ as superseding–
oneness-of-ontology as an all-encompassing <amplituding/formative>epistemic-
totalising–renewing-realisation/re-perception/re-thought of human psychical and
institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally
enabled by developing human phenomenal-abstractiveness of presence as of
<amplituding/formative>epistemic-totalising–random-as-impulsive-phenomenal-
abstractiveness-of-presencing-in–‘trepidatious-consciousness’ with recurrent-utter-

phenomenal-abstractiveness-of-presencing-in–‘warped-consciousness’ with base-
institutionalisation–ununiversalisation, <amplituding/formative>epistemic-totalising–ordinal-
‘occlusive-consciousness’ with positivism–procrypticism, and <amplituding/formative>epistemic-totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’ with deprocrypticism. Basically, Kant lacked a notion of metaphysics-of-absence (to overcome <amplituding/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation} in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-enabling/sublimating/supererogatory–de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental
apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory-de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating/supererogatory-de-mentativity for new prospective relative-ontological-completeness-of-reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow to deeper limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-
mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening-\langle \text{amplituding/formative} \rangle \text{epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal, elicitng-of-prospective-supererogation} \rangle, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psyche as ‘\langle \text{amplituding/formative} \rangle \text{epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling—by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology}\rangle’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory-de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to
ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was structurally not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home.
Such a construct as basic constitutedness is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology conflatedness as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger ‘transcendental-enabling/sublimating/supererogatory-de-mentativity positivism psyche-and-thereof-philosophy’ (construed rather as of an organic depth of ontological coherence/contiguity that is structurally/paradigmatically/de-mentatively transcendental-enabling/sublimating/supererogatory-de-mentativity contiguously as from the deeper apriorising/axiomatising/referencing of ‘transcendental-enabling/sublimating/supererogatory-de-mentativity positivism psyche-and-thereof-philosophy’ and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualised/construed relations), and so as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism when the implications of such notions are examined as of metaphysics-of-absence not only in terms of one registry-worldview’s/dimension’s meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their ‘supposed ontological status’ turn out to be ridiculous <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, exposing their true nature as rather palliative constructs and conceptual patterning. In the bigger framework can notions construed/conceptualised as of ‘human subjectivity so-construed as ineffectively transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism’ be given the label ontology, or rather is ontology exactly not about effective transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism? And what is fundamentally involved in developing that transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism for ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory~de-mentativity is the increasing psychical-transformation/psychical-detachment with corresponding institutional-recomposures as from non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition transcendentally-enabling-level-of-

It is this author’s contention that the ‘transcendental-enabling/sublimating/supererogatory–de-mentativity deprocrypticism psyche-and-thereof-philosophy’ as so transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism provides the requisite ontologically-veridical background referencing as of its conflatedness (in the same vein as the prior positivism–procrypticism registry-worldview/dimension bigger ‘transcendental-enabling/sublimating/supererogatory–de-mentativity positivism psyche-and-thereof-philosophy’ with regards to non-positivism/medievalism) as of the prospective-and-more-profound deprocrypticism registry-worldview/dimension bigger ‘transcendental-enabling/sublimating/supererogatory–de-mentativity deprocrypticism psyche-and-thereof-philosophy’ as herein implied by this hermeneutic psychology suprastructuralism insight construed as of metaphysics-of-absence as ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, not only with regards to the social sciences but also when it comes to the many instances of poor scientific studies thus enabling the decisive superseding of palliative construals and conceptual-patterning that can hardly be qualified as ontological. The underlying contention of both such a present ‘transcendental-enabling/sublimating/supererogatory–de-mentativity

distractive-alignment-to-reference-of-thought in reflecting the
prospective/transcending/superseding registry-worldview reference-of-thought
suprastructuration as the ‘new ontologically-veridical becoming-or-present-of-reference-of-
thought’ since there ‘cannot be two different becoming-or-present-of-reference-of-thought’
but rather that the prospective/transcending/superseding suprastructuration is by its
prospective relative-ontological-completeness-of-reference-of-thought the becoming-or-
present-of-reference-of-thought. However, in all the de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) implied successive institutional-cumulation/institutional-recomposure,
such a ‘confusion of relative ontologically-veridical becoming-or-present-of-reference-of-
thought’ induces an underlying ‘paradox of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity’ involved in all such transcendence-
and-sublimity/sublimation/supererogatory–de-mentativity wherein mental-dispositions as of
reference-of-thought are caught between the prospective/transcending/superseding registry-
worldview prospective relative-ontological-completeness-of-reference-of-thought and the
prior/transcended/superseded registry-worldview prior relative-ontological-incompleteness-
of-reference-of-thought, with respect to meaningfulness-and-teleology referencing. Consider
in this case the human condition of transience of reference-of-thought as experienced by
Okonkwo returning from banishment to Umuofia village in Chinua Achebe’s Things Fall
Apart. That is, basically and by reflex, mental-dispositions as of the formation of ‘recurrent-

as-impulsive-or-accidented-or-random-mental-disposition reference-of-thought–categorical-

uninstitutionalised-threshold that ‘base-institutionalisation–ununiversalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism reference-of-thought–categorical-imperatives/axioms/registry-teleology is the relative ontologically-veridical reference-of-thought (as explained further below with respect to ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed

This is because a registry-worldview/dimension is a ‘circular-pervasiveness

ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-

generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that progressively rids the prior conventional constructs of their essence as of 
<amplituding/formative>epistemic-totalising~self-referencing-

successive registry-worldviews including ours as positivism–procrypticism as the relative pure-ontology conflatedness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality implying such a construct as the deprocrypticism institutionalisation suprastructuration (preempting—disjointedness-as-of-reference-of-thought, -as-to-

incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness notion as of prospective relative-ontological-completeness-of-reference-of-thought and implying rather a prospective transcendental depth-of-thought/reference-of-thought. This equally explains why the implied supratransversality—apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existent-unthought>’; such that, structurally/paradigmatically/de-mentatively/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existent-unthought>’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor – Patient, Parent – Child, Server – Customer, Teacher – Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-
teleology-<in-existential-extrication-as-of-existentital-unthought> to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought will certainly grasp the pertinence of intemporal-asyymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting—as-of-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing—psychologism of transcendently-enabling-level—of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion—or-ontological-fideism—imbued-underdetermination—of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existentital-unthought> they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness), that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘<amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging—or-dementing—narratives—of-the-reference-of-thought—

in such a social setting, and equally similar issues faced today in many a traditional society like female

meaningfulness-and-teleology in such social-setup that is a question of a beyond-the-
consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>
notion with respect to recasting of gender rights in a prospective meaningfulness-and-teleology. Likewise, it could be asked whether such an aetiology/ontological-escalation notion as deprocriptism institutionalisation implied suprastructuration over our positivism–procriptism is rather not a beyond-the-consciousness-awareness-teleology<<in-existential-extrication-as-of-existential-unthought>> notion as of the present <amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

The fact is that registry-worldviews/dimensions operate meaningfulness-and-teleology as of their ontological representation of reality within the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideism induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as prospective registry-worldview/dimension suprastructuration requires new projective-insights/postdication/deconstruction to establish more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology as new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’; but then, such ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ of each registry-worldview/dimension suprastructuration comes with a fundamental mentation-reflex
imbued-temporal-to-intemporal-dispositions–existentialism-form-factor issues arise with respect to the possibility of our prospective transcendence-and-sublimity/sublimation/supernery-de-mentativity to deprocrypticism, as we perceive our ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ as absolute failing to construe the all-encompassing redefining implications of projective-insights/postdication/deconstruction with respect to the possibility of an altogether new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ (as preempting—disjointedness-as-of-reference-of-thought,-as-to-

decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-

structurally/paradigmatically/de-mentatively a registry-worldview/dimension prior relative-

more decisive/salient notion as to human ‘objectively construed/analysed virtuous-

to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments arising’; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is structurally/paradigmatically/de-mentatively susceptibility as a state of ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology for the vices-and-impediments so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology-<in-existentia-extrication-as-of-existentia-unthought>. This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibility-setup/measuring-instruments to supersede the state of beyond-the-consciousness-awareness-teleology-<in-existentia-extrication-as-of-existentia-unthought> as of human limited-mentation-capacity-deepening-{(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This equally explicates the empirical reality associated with the occurrence of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cross-generationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension
preconverging/dementing-apriorising-psychologism is associated with relative ‘temporal-mental-dispositions’-construed-as-surreptitiously-or-palpably-committed-to-extrinsic-attribute-or-its-perpetuating-upon-other-mental-dispositions-as-supposedly-superseding-intrinsic-reality/ontological-veridicality as so-mentally-invested with regards to perceived social-stake-contention-or-confliction’ notwithstanding subsequent apprehension of ontologically-veridical meaningfulness-and-teleology, that speaks of ‘ad-hoc social-commitment-thresholds for foregoing the upholding of intrinsic-reality/ontological-veridicality’ and assuming denaturing as of ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
associated with uninstitutionalised-thresholds.) This thus conveys the individuation-level of analysis ontological-primemovers-totalitative-framework as well as differentiated intemporal-conflatedness-as-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology-or-temporal-constitutedness-as-effecting-parsimony-of-meaningfulness-and-teleology (so implied by metaphysics-of-absence as of our procrypticism uninstitutionalised-threshold as disjointedness-as-of-reference-of-thought). By mental-reflex a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation stand is a ‘mental-shortcut’ that is fundamentally perverted as it perceives meaning as ‘deterministic of others behaviours by its empty-form’ while a prelogism-as-of-conviction-as-to-profound-supererogation stand is one that relates to meaning on the basis of its assumed existential validity, or at worst involves omissions or exaggerations relative to such fundamental existential validity, but doesn’t countenance by
mental-reflex the projection of empty-form of meaningfulness which is ‘existentially invalid’ in the very first place. Consequently, where there is ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) at the uninstitutionalised-threshold due to relative-ontological-incompleteness-of-reference-of-thought, postlogism-as-of-compulsing–nonconviction/madeupness(bottomlining-as-to-threshold-of-shallow-supererogation implied meaningfulness-and-teleology will tend to be incidentally conjugated with prelogism-as-of-conviction-as-to-profound-supererogation dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. This is the case beyond just any such specific instances and such specific postlogism-as-of-compulsing–nonconviction/madeupness(bottomlining-as-to-threshold-of-shallow-supererogation character(s) and specific conjugated-postlogism character(s) but rather as of dynamic-cumulative-aftereffect/aftereffect, and thus defining together with the registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought at its ‘uninstitutionalised-threshold the threshold-of–nonconviction/madeupness(bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as a preconverging-or-dementing–apriorising-psychologism enculturation’. Though metaphorically in the mortal’s temporal/shortness-of-register-of-meaningfulness-and-teleology terms, that ‘low-life’ of universal import may be utterly oblivious to the practicalities of B, C, D, E and F so engrossed in a world of ‘high-life’ of temporality/extraction as the ‘fullness of meaningfulness-and-teleology’ over the appreciation of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness structuring/paradigming/de-mentating, be it that the latter disposition as philosophically intemporal is what creates-and-enables the being in civilisation/institutionalised-being-and-craft in the first place, as the metaphorically ‘high-life’ of temporality/extraction cannot count on an overall principle of temporality/extraction for its existential sustainability (as B, C, D, E and F needs that the Donor grants the rewards by not factoring in the deceit, thus their existential principle doesn’t sustain the ‘civilisation/institutionalised-being-and-craft setup’ in which they are living in, hence qualified as extricatory/temporal/parasitising/co-opting as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’) but unavowedly and paradoxically rather on the parasitising/co-opting of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness structuring/paradigming/de-mentating enabling the ontological-contiguity—of-the-human-institutionalisation-process; and besides, it is because the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory—de-mentativity as prospective ontologising (as undertaken by Z) can supersede denaturing postlogic-backtracking towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-
highlights the universal issue across all registry-worldviews/dimensions underlying the notion of temporality/shortness and intemporality. Wherein reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for the intemporal mental-disposition individuation are meant to uphold intemporality/longness incontrovertibly and where such is blurred or undermined given relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
ontological-incompleteness-induced,’‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ arises (as uninstitutionalised-threshold); i.e., from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism and prospectively to deprocrypticism. While for the temporal mental-disposition individuations the form-and-perception or derived-form-and-perception of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously, expediently or consciously) is a sufficient basis so long as it is socially-functional-and-accordant such that the possibility of blurring or undermining existential-reality by ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposing-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ is just as valid, hence a failure to abstractly recognise intemporality/longness as of-existential-reality with the implication thereof as perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to the registry-worldview’s/dimension’s vices-and-impediments implied by its implied relative-ontological-incompleteness-induced,’‘threshold-of–nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’. Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be structurally/paradigmatically/de-mentatively/ontologically resolved within it as there is need for prospective ontological-completeness-of-reference-of-thought structured to inherently supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocripticism superseding positivism–procripticism/disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/supererogatory–de-mentativity over any temporal extricatory structuring/paradigming/de-mentating, however, the enculturation and mass thinking behind temporal extricatory structuring/paradigming/de-mentating. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of-meaningfulness-and-teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendental/transdimensional/interdimension/maximising-recomposuring-for-relative-ontological-completeness analysis as metaphysics-of-absence/postdication). Finally, thus it is critical to note that the existential contextualisation above as ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-

Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning – as ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposing-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ – will rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-unthought in his asceticism the prospective intemporal over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature should warrant like actively pursuing for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human
condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the structural/paradigmatic/de-mentative possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality/longness needed for maximalising-recomposing-for-relative-ontological-completeness out of the ordinariness/averageness of any institutionalised-being-and-craft setup. Hence such intemporality/longness as maximalising-recomposing-for-relative-ontological-completeness need its <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations/the-ontological-contiguity—of-the-human-institutionalisation-process is ‘not a human dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation transformation exercise as of temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturing to supersede the uninstitutionalised-threshold divulged by relative-ontological-incompleteness-induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’’. The implication is that acting as-of-a-secondnatured nature is not enough for articulating prospective institutionalisation requiring ‘intemporal projection <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought’ for the requisite prospective maximalising-recomposing-for-relative-ontological-completeness, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not intemporal as of-
universal-and-abstractive nature but is in ‘amplituding/formative>epistemic-totalising-self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Thus a registry-worldview’s/dimension’s institutionalisation secondnaturfulness is challenged by its very own level of relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively ‘re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation} driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturung such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure that had tended to fundamentally put into question their present with new structuring/paradigming/de-mentating shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, for instance psychopathy in
positivism–procripticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as deprocripticism or positivism, it is in de-mentation–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology), given that this fundamental relative-ontological-incompleteness-induced,-

ontologically-same-existential-reality’ means it is structurally bound to enculturate/endemise
its given postlogism. Obviously we can appreciate that without a positivistic
outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-
worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is
bound to arise as of human threshold-of–nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation—preconverging/dementing–apriorising-psychologism in non-
positivism/medievalism where the mindset/reference-of-thought is not rationally-
empirical/positivising. Likewise the procripticism/disjointedness-as-of-reference-of-thought
wherein the perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> from a psychopathic
character is contextually likely to be engaged with (as ‘prelogism-as-of-conviction-as-to-
profound-supererogation re-engaging reflex’) and even exploited (whether unconsciously,
expeditiously or consciously), implies a comprehensive structural/paradigmatic/de-mentative
undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism which is effectively the structural/paradigmatic/de-mentative resolution of psychopathy and social psychopathy (besides palliative conceptualisations that can hardly make a dent on the comprehensively defined structural/paradigmatic/de-mentative phenomenon in terms—as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the structural/paradigmatic/de-mentative ontological resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct structural/paradigmatic/de-mentative endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively <amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of
its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ and accessorily its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrysticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ of our procrysticism and accessorily its enculturating/endemising of psychopathy and social psychopathy. Thus suprastructurally (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existing-unthought>) and as of the ontological-normalcy/postconvergence ontological-completeness-of-reference-of-thought perspective, ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument), and deprocrypticism or preempting—disjointedness-as-of-reference-of-thought with such notion of rules speaking in terms—as-of-axiomatic-construct of both the developing capacity of human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in its construing/conceptualising of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as defining the given registry-worldview/dimension-level specific ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, as well as developing institutionalisation capacity as meaningfulness-and-teleology differentiations; and so as human <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. As explained, the reason for the successive institutional-cumulation/institutional-recomposure underlying the ontological-contiguity—of-the-human-institutionalisation-process has to do with human limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly,–as-to-existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation) inducing successive recomposuring from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity construed as diminishing–human-epistemic-abnormalcy/diminishing–preconvergence towards ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Hence notionally speaking if humans had completed-mentation-capacity there will only be deprocrypticism institutionalisation and not the subsuming-succession of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation,

Such perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-devising-representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to
accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does.

One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction-as-to-profound-supererogation (‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context.

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising.
That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism-as-of-conviction-as-to-profound-supererogation mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing-integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory–de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-
compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation and the notion of a lie which is prelogism-as-of-conviction-as-to-profound-
supererogation (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—
postconverging/dialectical-thinking–apriorising-psychologism’) as with a lie the implied-
logical-dueness (with the corresponding implied-reference-of-thought/implied-registry
elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration
or omission or inappropriate accounting of circumstantiality and/or factuality but as of
‘effectively due’ logical-processing-or-logical-implication—supposedly-apriorising-in-
conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-
narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an
overall coherence implying deception-but-as-of-successively-cohering-narratives. This is
because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s)
ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the
ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where
such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not
be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation.
This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a
collapse arises out of the truth/ontological-veridicality resolution of the contextual-
ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on
the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-
or-urge associated with postlogism-as-of-compulsing–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with
respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced
as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of
purposeful enculturation/endemisation of the slanting habit where it is viewed by some
interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), with respect to construing meaningfulness as prelogism-as-of-conviction-as-to-profound-supererogation, but instead construes meaningfulness as postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells
a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction-as-to-profound-suprerogation mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism/preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cingle-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction-as-to-profound-suprerogation alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic
developmental failure to relate to meaningfulness as of prelogism-as-of-conviction-as-to-profound-supererogation with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism alignment to its postlogic compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism/preconverging-or-dementing-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing–apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an
exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing—apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-authenticity-of-reference-of-thought. Insightfully, it points out as well that the basis of the postlogism/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism-as-of-conviction-as-to-profound-supererogation interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation’ as it will ‘normally do’ with other prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism minds to a postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind, and then wrongly validates that the postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind is in prelogism-as-of-conviction-as-to-profound-supererogation. In order words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on prelogism-as-of-conviction-as-to-profound-supererogation but rather as based on postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with its personality development into adulthood on this basis, paradoxically leads to the prelogism-as-of-conviction-as-to-profound-supererogation mind’s deception since the latter operates on the basis that everyone must be supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (be
it ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ at worst) and the notion of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation doesn’t register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance-<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-
supererogation—postconverging/dialectical-thinking–apriorising-psychologism manifestation of the interlocutor by compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation manifestation of the psychopath cross-perception effect’ wherein the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutor reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity, while the psychopath view of the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–<amplitudizing/formative>epistemic-totalising—in-relative-ontological-completeness) of its acts, at adulthood psychopathy the lack of such universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–<amplitudizing/formative>epistemic-totalising—in-relative-ontological-completeness) of the postlogism-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to
the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirted but rather falsely implied existential-contextualising-contiguity’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing, as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

[This is more profoundly exposed in the conceptualisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as it induces ‘socially-functional-and-accordant reference-of-thought as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; that can be
uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively (as applicable with the construal of psychopathy and social psychopathy postlogism) procrypticism; wherein the habitual intradimensional placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology ‘nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) scheduling or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <amplitude/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, at uninstitutionalised-threshold (reflecting uninstitutionalised-threshold), is now substituted (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective of the prospective registry-worldview/dimension institutionalisation reference-of-thought) by its ‘decentering and dialectical-dementation of its reference-of-thought’; which we can effectively acquiesce to as of the uninstitutionalised-thresholds but will rather have a mental complex when this is implied prospectively to imply our uninstitutionalised-threshold as procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-authenticity-of-reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recompose peculiar psychologisms/psychologism-
constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutonalisation-ununiversalisation psychologism, universalisation-non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening-
metaphysics-of-absence points out that ontological analysis should rather be from the prospectively implied ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’, and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect,<--as-Being-or-ontological-or-existential–defect>, so construed in order to supersedes its structural/paradigmatic/de-mentative vices-and-impediments. Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening--(<amplituding/formative>epistemic-totalisingly,--as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-
reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well
as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) that actually is behind all threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of structural/paradigmatic/de-mentative social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence and metaphysics-of-absence
ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about
recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable temporal-to-intemporal-dispositions nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding<-as-of-apriorising/axiomatising/referencing—rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-{as ‘first-level presencing—

institutionalisation mental-disposition’ in this reference-of-thought is of quasi-intemporal
disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) required for ‘human registry-worldview’s/dimension’s-institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental structural disposition for human temporalities-drives to adhere to the <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing-narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) (failing/not-upholding-<as-of-

Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that structurally/paradigmatically/de-mentatively ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. [We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of
social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-thresholds are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity—<profound-supererogation-of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-
emotional-involvement/subjectification/epistemic-totalising-self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as an otherness from any emotional-involvement/subjectification/notional-amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘temporal-to-intemporal-dispositions individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an

Such construal of temporal individuations threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at uninstitutionalised-threshold is critical because then and in effect, the mental-reflex to ontologically validate these as of reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation
this succinctly reflecting the reality of temporal-dispositions as to threshold-of
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism as of such non-positivism reference-of-
thought uninstitutionalised-threshold. Such that it is not a logical exercise (logical-
processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-
supererogation) that is in order which will rather be circular as fundamentally operating on
false non-positivism registry-worldview’s/dimension’s institutionalisation reference-of-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism as this reflects postlogism denaturing
and conjugated-postlogism derived-perversion-of-reference-of-thought—<as-effectively-

 as
deconstruction of ontological-veridicality in implying and projecting about the prospective
institutionalisation as of positivism meaningfulness-and-teleology reference-of-thought–
categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-
contiguity—or—ontological-preservation (rather than a naïve operation of logic as is further
highlighted below). The fact is with or without postlogism and derived conjugated-
postlogism, human reference-of-thought–prelogism-as-of-conviction-as-to-profound-
supererogation tends to be relative. That is, even within a registry-worldview’s/dimension’s
institutionalisation basis we don’t necessarily function socially absolutely on the basis of
veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-
teleology—<in-existential-extrication-as-of-existential-unthought>) given our relative-
ontological-incompleteness-of-reference-of-thought and secondly by arbitrariness in the
choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this
regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal structuring/paradigming/de-mentating and further so with respect to increasing informality as in the extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of all human institutions, and particularly where social universal-transparency–(transparency-of-totalising-entailing, -as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as of ontologically-sound mental-disposition. This
manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> de-convergence as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) individuations nature as implicitly recognised in the structuring of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism mental-
preconverging/dementing–apriorising-psychologism) with regards to reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness-of-reference-of-thought. This imbu ed potency in social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-
threshold-of-shallow-supererogation mindset threshold-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism arises out of its temporal individuation’s
surreptitiousness (‘lack of constraining social universal-transparency–(transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-
ontological-completeness) such that it can induce threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism rule) as of marginal social instigation
(consider the targeted nature of the adult psychopath’s
maturation/indirectness/spatialisation/credulity/craftiness within the scope of social
functionality) while socially enabled circularly (due to the underlying prior relative-
tonological-incompleteness-of-reference-of-thought as social procrpticism/disjointedness-
as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic
registry-worldview/dimension social superstition is itself an enabler for its corresponding
postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-
dispositions conjugated-postlogisms derived threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism, and so overall, on the flawed mental-
reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation—preconverging/dementing–apriorising-psychologism is supposedly
reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation (as to the
lack of constraining social universal-transparency–(transparency-of-totalising-entailing,-as-to-
entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-
completeness)). Such conditions as highlighted above (surreptitiousness, marginality and
circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism
as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism doesn’t socially take hold then, as such childhood postlogism perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> hasn’t superseded the social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) in further inducing temporal-dispositions derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory structuring/paradigmating/de-mentating, and not by ontological-veridicality insight as of structural/paradigmatic/de-mentative <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) is structurally/paradigmatically/de-mentatively inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a cross-generational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness-of-reference-
of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness-of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness-of-reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness <amplituding/formative>wooden-language{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness <amplituding/formative>wooden-language{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) when the foreign cultural diffusion arrived before superseding it cross-generationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative
contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a \(<\text{amplituding}/\text{formative}>\) wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>} that hardly entertains its own transcendability/dementability, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather cross-generational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective as of ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for cross-generational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-thresholds, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation validity’ but rather such a demonstration is more structurally/paradigmatically/de-mentatively, together with all other such demonstrations of the prospective <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-
thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-inincidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation) as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so
the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights of the former as more ontologically profound, given its ‘circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run cross-generational habituation construed as of de-mentation- (supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing–apriorising-psychologism as of distractive-alignment-to-reference-of-thought, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition.
doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procrypticism/disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is cross-generationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative>epistemic-totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation).

Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing
to grasp the deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or-dementing–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-
preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-

distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-

supererogation) retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed structurally/paradigmatically/de-mentatively as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory ~de-mentativity within the framework in reflecting the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly, -as-to-
existence— as-sublimating-withdrawal, -eliciting-of-prospective-supererogation). In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental structural/paradigmatic/de-mentative issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> naïve perpetuation in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments with both uninstitutionalised-thresholds, thus explaining the fundamental dilemma of all institutional Establishments in their <amplituding/formative>wooden-
recomposure’, and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of-meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of structural/paradigmatic/de-mentative nature of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence construed as postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a preconverging-or-dementing-and-decentered-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation’s-
categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought by the latter as a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness-of-reference-of-thought with respect to its prior relative-ontological-incompleteness-of-reference-of-thought. But since we have been habituated as of our existential formation within our <amplitudizing/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a deprocripticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a undementability posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-
imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a structural/paradigmatic/de-mentative reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology for cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ allowing for dementability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such structural/paradigmatic/de-mentative <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-
confliction. The fact is such an articulation is not idle but rather the requisite fervor associated with many an enlightening thought, however qualified as impropriety, as a wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from deprocrypticism apriorising/axiomatising/referencing/intelligibility-setup/measuring-instrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism
demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive amplitundformativeepistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism/disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and not yet by social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-amplitundformativeepistemic-totalising-in-relative-ontological-completeness}, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-thresholds reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework and percolation-channelling involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for deprocrypticism ‘without in the very least entertaining’ the <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>) mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure that has always been a drawback as of temporal extricatory structuring/paradigming/de-mentating and parasitising/co-opting inclination subpar to the warranted ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting the ontological-contiguity—of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness-of-reference-of-thought will not be convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-
incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiological/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as intemporalidad-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run cross-generational resolution construed as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and initiating the appropriate prospective social universal-transparency-(transparency-of-totalising-entailing,-
as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) that will structurally/paradigmatically/de-mentatively harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the cross-generational resolution of our positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism or disjointedness-as-of-reference-of-thought from apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-teleology of our positivism–procrypticism that is the structural/paradigmatic/de-mentative resolution as of prospective relative-ontological-completeness-of-reference-of-thought that can structurally/paradigmatically/de-mentatively harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-reference-of-thought’ and the enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, and hence overlooking the structural/paradigmatic/de-mentative ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising
given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as
disjointedness-as-of-reference-of-thought. This explains how and why re-originary—as-
unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-

function better by social universal-transparency—(transparency-of-totalising-entailing—as-to-

at a cross-generational depth of analysis, and equally explains human historical suspicions of
new ideas just in case their social universal-transparency—(transparency-of-totalising-

prior and vested and contingent interests. It should be grasped that the

preconverging/dementing—apriorising-psychologism (as an operant construal) at its

institutionalisation perspective while that of its reference-of-thought—prologism-as-of-
conviction-as-to-profound-supererogation (as an operant construal) of its institutionalisation
is what defines it as prior institutionalisation. (As implied by this author the nature of human
individuations accounts respectively for human intemporality/longness and human
temporality/shortness as the ‘more fundamentally ontological-primemovers-totalitative-
framework analysable operant agency of the human condition as of human knowledge-and-
virtue or vices-and-impediments respectively as such individuations then accrue in varying
degrees in individuals as of varying circumstances'; and so-construed respectively as of intemporal individuation conflatedness which enables prospective institutionalisations or temporal individuations distractive-alignment-to-reference-of-thought that induce uninstitutionalised-thresholds at all the institutionalisations uninstitutionalised-threshold.)

institutionalisation which while inconsequential within the ambiots institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence as its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The implication is that postlogism/psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by conflatedness to establish the uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-
teleology-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness} level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology-{in-existential-extrication-as-of-existential-unthought} and without social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness} of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated-meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness-of-reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated-meaningfulness-and-teleology from the childhood psychopathy slantedness.

At this individuation-level, the fact is that in order to be certain to avoid a similar deception
again in its relation with the childhood psychopathy the visitor will now construe of deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aperteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjoinedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aperteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aperteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aperteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} by formality dynamics; with the implication of lack of social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} as the manifestation is beyond-the-consciousness-awareness-teleology-{in-existential-extrication-as-of-existential-unthought} at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence undementability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger structural/paradigmatic/de-mentative picture of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence and can only arise as of a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. (Such an insight can be further elucidated in a storied-construct/ontologically-

perspective like postlogism in a non-positivistic social-setup as of our prospective relative-
ontological-completeness-of-reference-of-thought perspective but it is more difficult to grasp 
from a deprocrypticism prospective perspective of analysis where we will rather be 
unpalatably represented as decentered and preconverging-or-dementing–apriorising-
psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the cross-generational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of <amplitudating-formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This new positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will more likely be taken-up-fully/habituated only cross-generationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,
highlighting that a postlogism like psychopathy in our positivism–procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ and ‘lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative⟩epistemic-totalising- in-relative-ontological-completeness⟩; such that implying that our prior positivism–procrypticism, as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will be difficult to countenance but for a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-⟨as-Being-or-ontological-or-existential–defect⟩. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-
derived-denaturing which as of dynamic-cumulative-aftereffect/aftereffect at registry-worldview/dimension-level of analysis is the very ontologically-central notion of every registry-worldview/dimension uninstitutionalised-threshold which should thus be always construed as being in distractive-alignment-to-reference-of-thought with respect to its prospective institutionalisation. It is effectively derived-denaturing that induces threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as of uninstitutionalised-thresholds, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology are in effect ontologically-speaking threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism-as-of-conviction-as-to-profound-supererogation conflatedness as of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’ with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, as the non-positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension is a
<_amplituding/formative>_wooden-language-{imbued—averaging-of-thought-_as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and a conventioning positivism–procripticism as procripticism in lieu of an ontologically-veridical deprocripticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought as undermining conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding-formative>epistemic-totalising–self-referencing-syncetising/circularity/interiorising/akrasiotic-drag that may induced its inclination for
desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism-as-of-conviction-as-to-profound-supererogation-of-reference-of-thought’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-of-reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-inauthenticity-of-reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-authenticity-of-reference-of-thought prior to the notion of logical-dueness arising once soundness-or-authenticity-of-reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prospective relative-ontological-completeness-of-reference-of-thought in contrast to the visitor’s ‘supposed reference-of-thought/axiomatic-construct’ which is non-existential/non-ontological as not-of-existent/contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-
decentering’ as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), as the idea of value-reference if wrongfully ontologically construed as determined by the ‘<amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignoreable-void’-with-regards-to-prospective-apriorising-implications>) as respectively non-positivism reference-of-thought’ or as procrypticism reference-of-thought’, then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism-and-its-social-integration as of our procrypticism/disjoinedness-as-of-reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating/supererogatory-de-mentativity veracity. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supererogatory-de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic-as-prelogism-as-of-conviction-as-to-profound-supererogation, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather reflected-as-
