will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-
construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such
individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will
tend to advance, however dubious, a rationale that is meant to be socially functional.
Basically, the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-
threshold-of-shallow-supererogation mindset threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism arises out of its temporal individuation’s
surreptitiousness (‘lack of constraining social universal-transparency–{transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-
ontological-completeness} such that it can induce threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism rule) as of marginal social instigation
(consider the targeted nature of the adult psychopath’s
maturation/indirectness/spatialisation/credulity/craftiness within the scope of social
functionality) while socially enabled circularly (due to the underlying prior relative-
ontological-incompleteness-of-reference-of-thought as social procrypticism/disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogisms derived threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

mentating/structuring/paradigming, and not by ontological-veridicality insight as of de-
mentative/structural/paradigmatic <amplituding/formative>epistemic-causality-as-to-
projective-totalitative-implications,-for-explicating-ontological-contiguity with respect to
vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency-
(transparency-of-totalising-entailing,-as-to-entailing.<amplituding/formative>epistemic-
totalising~in-relative-ontological-completeness) is de-
mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-
construct functioning. (But then this can rather be achieved in the medium to long term as of
a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
import and hardly so in the short-run, given that in the short-run the issue of the registry-
worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a
drawback in this respect. As the framework of generalised social referencing of
meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated
predicative-insights for meaningfulness-and-teleology based on the relative-ontological-
incompleteness-of-reference-of-thought of the registry-worldview/dimension as prior (despite
the relative-ontological-incompleteness-of-reference-of-thought induced distractive-
alignment-to-reference-of-thought and override any such sense of relative pure-ontology
conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought
conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-
insights about the prospective registry-worldview/dimension predicative-insights of
meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-
reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of
habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua
Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes
meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which
had the same inclination as his as of prior relative-ontological-incompleteness-of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness-of-reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness
<amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness
<amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a
implications) that hardly entertains its own transcendability/dementability, and why transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-thresholds, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought.
‘higher-level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for

difficulty is that ‘no given

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

(and it is only the long run crossgenerational habituation construed as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing–apriorising-psychologism as of distractive-alignment-to-reference-of-thought, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition
doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the

fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being
construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought perspective as in disjointedness-as-of-reference-of-thought and rather in distractive-alignment-to-reference-of-thought! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of-
meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought/logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly direct deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology just as a deprocrypticism analysis will not engage us on the basis of our procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procrypticism/disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of
plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative>epistemic-totalising-self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procripticism uninstitutionalisation as procripticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the deprocripticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procripticism as preconverging-or-dementing–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procripticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-
utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather render such notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} failing/not-upholding intemporal-preservation-entropy-or-contiguity—or-ontological-
as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation-⟨supерerogotory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩. Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness–of-reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion-of-reference-of-thought-⟨as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social ←amplituding/formative⟩epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the
representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-reference-of-thought’, we are rather less apt to concur going by our <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrypticism relative-ontological-incompleteness-of-reference-of-thought’ and thus wrongly implying our undementability hence our untranscendability for a de-mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of-meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-
Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence construed as postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a preconverging-or-dementing-and-decentered-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought by the latter as a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness-of-reference-of-thought with respect to its prior relative-ontological-incompleteness-of-reference-of-thought. But since we have been
habituated as of our existential formation within our <amplituding/formative>wooden-language—imbued—averaging-of-thought—<as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a deprocripticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a undementability posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a dementative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for dementability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic <amplituding/formative>epistemic-causality-as-to-
projective-totalitative–implications,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}> start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-
in’/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism/disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and not yet by social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-
epistemic-totalising-in-relative-ontological-completeness), just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-thresholds reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework and percolation-channelling involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for deprocrypticism ‘without in the very least entertaining’ the <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-

Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness-of-reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative>epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought by ‘continuous habituation going by the latter’s ontological-prime movers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and initiating the appropriate prospective social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-
at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and preconverging-or-dementing–apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. (As implied by this author the nature of human individuations accounts respectively for human intemporality/longness and human temporality/shortness as the ‘more fundamentally ontological-primemovers-totalitative-framework analysable operant agency of the human condition as of human knowledge-and-virtue or vices-and-impediments respectively as such individuations then accrue in varying degrees in individuals as of varying circumstances’; and so-construed respectively as of intemporal individuation conflatedness which enables prospective institutionalisations or temporal individuations distractive-alignment-to-reference-of-thought that induce uninstitutionalised-thresholds at all the institutionalisations uninstitutionalised-threshold.) explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness) of a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of conflation that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the social at uninstitutionalised-threshold involves a totalising-entailing/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor but we fail to do this due to our <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag metaphysics-of-presence disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnatured institutionalisation which while inconsequential within the ambits institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence as its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The implication is that postlogism/psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human

nature whereas the conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by conflatedness to establish the uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an
explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and without social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a
specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness-of-reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level
uninstitutionalised-threshold with respect to the childhood psychopathy, a new deprocrysticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) by formality dynamics; with the implication of lack of social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) as the manifestation is beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> at this uninstitutionalised-threshold, together with the inherent human complex of non-
transcendability and hence undementability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of-reference-of-thought’—as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence and can only arise as of a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. (Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the ‘lived social’ as of the aforementioned implied deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construing a storied-construct/ontologically-valid-narration driven by such postlogism/psychopathic associated vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging maturation/indirectness/spatialisation/credulity/craftiness induced narration-construed-as-
instantiative-moulting involving childhood psychopathy to adulthood psychopathy development, and corresponding evolving of social relations as of dynamic-cumulative-aftereffect ‘disjointedness-as-of-reference-of-thought’-misappropriated-meaningfulness-and-teleology involving compelling-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as of psychopathic/postlogism-categorical-imperatives/axioms/registry-teleology-as-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology-as-prelogism-as-of-conviction-as-to-profound-supererogation thus leading to caricaturing-hollow-staging-and-performance; and so construed as of ‘themes-driven underlying-agency-or-sous-agencement dynamics for narration-construed-as-instantiative-moulting’). However, we can still get a sense of such de-mentative/structural/paradigmatic <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness-of-reference-of-thought perspective but it is more difficult to grasp from a deprocrypticism prospective perspective of analysis where we will rather be unpalatabley represented as decentered and preconverging-or-dementing-apriorising-psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing
about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This new positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will more likely be taken-up-fully/habituated only cross generationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, highlighting that a post logism like psychopathy in our positivism–procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ and ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-}<amplituding/formative>epistemic-totalising-in-relative-
ontological-completeness); such that implying that our prior positivism–procrpticism, as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a deprocrpticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will be difficult to countenance but for a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect>. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity epistemic-contiguity<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>–with superstitious claims in its meaningfulness-and-teleology. An explainer to the visiting stranger
transcendability and thus dementability, and keep on relapsing into their respective non-positivism and procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in lieu of the respective prospective positivism and deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This insight equally explains the pertinence of understanding postlogism/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing disruptive nature on human meaningfulness-and-teleology’ and with the de-mentating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-afteffect/afteffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought as undermining conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism-as-of-conviction-as-to-profound-supererogation-of-reference-of-thought’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought

The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-confalatedness as existential/ontological transcendental-enabling/sublimating/supererogatory de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic-as-prelogism-as-of-conviction-as-to-profound-supererogation, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather reflected-as-of-soundness-or-authenticity-of-reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the

realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness more than just as of a virtue conceptualisation is more profoundly/all-embracingly an echoness of the implication of human limited-mentation-capacity for ontological-construal/ontological-conceptualisation, and so with little temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction and is equally relevant with regards to innocuous knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as it subsumes virtue-as-inherent-ontology; with dynamic-cumulative-aftereffect/aftereffect implications at the individuation-level and registry-worldview/dimension-level of analysis as of metaphysics-of-absence. In this regard, metaphysics-of-absence as articulated herein by this author is rather about, ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence/Doppler-thinking as it disambiguates human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor meaningfulness-and-teleology <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’, as of historiality/ontological-eventfulness/ontological-aesthetic-tracing. For instance, the immediacy of intrinsic-reality/ontological-verbatimness transcendental enabling in the natural sciences which is implicated in those fields by their ‘relatively high results-constraining-effectiveness nature’ provides metaphysics-of-absence insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction bound to disrupt thought and analysis in the social as of its ‘relatively low results-constraining-effectiveness nature’. Along the same argument and with regards to the high temporal-to-
intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism/psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring behind the inspired/insight-for-the social construction supposedly coherent ontological-commitment as of aetiologisation/ontological-escalation for universal retrospective to prospective understanding of postlogism/psychopathy and human social dynamics implications. In other words such a social construction supposedly coherent ontological-commitment is inherently the more expansive, universal, decisive, objective and easier basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment as of the possibilities of easily transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective social contexts of analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment rather on the basis of any such specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring as of its relatively poorly objectifiable-as-desubjectifiable/subjectified incidental
social context for analysis. Consider similarly that an epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree thus inspiring/providing-insight-for his laws of motion supposedly coherent ontological-commitment for explaining mechanical phenomena. Certainly, the inherently more expansive, universal, decisive, objective and easy basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of his laws of motion supposedly coherent ontological-commitment is the possibilities of easily transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective mechanical phenomena for analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the laws of motion supposedly coherent ontological-commitment on the basis of the specific epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree as of the latter relatively poorly objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-
perceived-social-stake-contention-or-confliction nature of many a natural sciences <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-hesat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment is wrong, such an insight about the supposedly coherent ontological-commitment being wholly construed as of its ‘very own veracity/ontological-pertinence as of any of its objectificable contexts’ can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction that permeates the study of the social as of its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction, and so as of a knowledge-notionalisation exercise. In other words metaphysics-of-absence refers to any such projections, as of human imaginative capacity derived from our underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework       <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion
of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency; thus enabling human limited-mentation-capacity-deepening-\(\langle amplituding/formative\rangle\) epistemic-totalisingly, as-to-existence— as sublimating-withdrawal, eliciting of prospective supererogation insights as apriorising/axiomatising/referencing/intelligibilitysetup/ measuringinstrument-for-operant-or-incidenting-predicative-insights. We can further get a sense with respect to the implications of what is meant by reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, relative to the construal/conceptualisation from the middle of the last century in the biological domain as of its specific uninstitutionalised-threshold then over which the DNA-based genetics reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology was developed which induced an altogether new dramatically different but ontologically-veridical imagery/picture of the nature of biology at that uninstitutionalised-threshold that then became a new specific institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology thereafter amenable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity such that the prior non DNA-based construal/conceptualisation (as of reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology) with respect to that now DNA-based genetics specific institutionalised <amplituding/formative> epistemic-totalising—devolved—purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality of biology cannot longer be upheld, and this is so in
the bigger picture as a contributory conflatedness within the same positivism registry-
worldview institutionalisation. (In fact, the institutional-cumulation/institutional-
recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> are
the conjoined effect of all specific uninstitutionalised-threshold institutionalisation

for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology
construed conjointly as of the prospective registry-worldview/dimension institutionalisation.)
In this case, however the ‘emotional involvement’ in conflatedness within the same
positivism registry-worldview of appraisal is way low compared to the high ‘emotional
involvement’ in making the same construct as of a contrastive transcending/superseding of a
prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely
new/prospective registry-worldview/dimension institutionalisation reference-of-thought like
between non-positivism and positivism or prospectively between our positivism–
procrypticism and deprocrypticism as in this latter instance such a construal/conceptualisation
is comprehensively redefining of the human psyche and tend to elicit the highest levels of
‘emotional involvement’ thus requiring rather a crossgenerational adjustment as
conflatedness over the prior distractive-alignment-to-reference-of-thought. In conclusion,
such a construal/conceptualisation as of deprocrypticism reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology
over our positivism–procrypticism reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of
our ‘lived social’ uninstitutionalised-threshold with respect to psychopathy and social
completeness). The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime movers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology-<inexistential-extrication-as-of-existential-unthought> meaningfulness-and-teleology and the prior ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,-<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness)), and then imbibes the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology conflatedness for prospective relative-ontological-completeness-of-reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) wanes as the reality of human temporal-to-intemporal-dispositions nature sets in as it is related to at the uninstitutionalised-threshold by the registry-
worldview’s/dimension’s least common denominator as <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold that is a drawback-to/undermines prospective-knowledge-and-institutional deferential-formalisation-transference as of prospective relative-ontological-completeness-of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework, and is rather oriented to sovereign extrication over knowledge-reification at this uninstitutionalised-threshold as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since reference-of-thought–categorical-imperatives/axioms/registry-teleology are only ‘mechanistically’ constraining, lacking the organic-spirit or ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of the emanant-kind that had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of-meaningfulness-and-teleology. Thus such implied
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism with respect to its postlogic-

conscious-awareness-teleology, which when perceived as uncontested by the psychopath
(likely to arise where the concerned party lacks insight of its underlying faulty-mentation-
procedure-deception and as it seem socially-function) will ultimately lead to its slanting-
deception (or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or
deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or

supererogation—preconverging/dementing–apriorising-psychologism and its consequent
derivation as conjugated-postlogism or social psychopathy threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism. This process is mirrored with the
various conjugated-postlogisms conscious or unconscious aligning to the
psychopathic/postlogic postlogism-as-of-compulsing–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vague-
rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-

compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation process is rather very simplistic, and the deception arises actually from the
prelogism-as-of-conviction-as-to-profound-supererogation mental-states to be by mental-
reflex in prelogism-as-of-conviction-as-to-profound-supererogation thus inducing wrongful
teleological elevation of the postlogism/psychopathic meaningfulness-and-teleology, which
wouldn’t occur at childhood psychopathy. Finally, as of dynamic-cumulative-aftereffect and

The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability” is circumstantially relevant even in our positivistic registry-worldview wherein ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) induces a ‘human temporal uninstitutionalised-threshold mental-disposition’ temporality/shortness or shortness-of-register-of-meaningfulness-and-teleology drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold with respect to perceived-social-stake-contention-or-confliction constraints as of human limited-
mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), truly reflect the inherent nature of 'human temporal uninstitutionalised-threshold mental-disposition'; and the deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism–procrypticism registry-
worldview/dimensions vices-and-impediments (just as with all previous transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity of ‘intemporal ontological-faith-notion-

The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness leading to prospective
institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold-facet, so-construed by metaphysics-of-absence, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. Insightfully, it is the case that our present-day positivistic institutionalisation seconddnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-
positivism/medievalism registry-worldview/dimension, we can definitely fathom that the
enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times
would have certainly been circumspect with regards to any such notion of preceding social
approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-
mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-
scientific disposition, as beyond-the-consciousness-awareness-teleology—<in-existential-
extrication-as-of-existent-unthought>. This points to an altogether different social relation
with the notion of scientific practice construed as of relative intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory de-
mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-
derandomization-of-apriorising/axiomatising/referencing—as-so-being-as-of-existent-
reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the
uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were
institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot,
such construal is grounded on a more basic and potent construct of ontological-primemovers-
totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian
power relations which it turns out is actually in the medium to long term a social-granting-of-
power-exercise with respect to the virtue of true knowledge, as of the social percolation-
channelling possibilities enabling promising ideas, however institutionally-outlying or
institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-
mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as
veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent,
and rather further secondnaturin prospective institutionalisation of scientific practice as of
its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and
more to formal constructs while increasingly reducing the sphere of the extended-informality-
(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-
meaningfulness-and-teleology) as of its free-for-all nature. The bigger point being that even
in our positivism–procrpticism registry-worldview/dimension with relatively strong ‘social
consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativility by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so,
more than just about broad subject matter areas and broad spheres of other formal constructs
including officialdoms, but rather and critically the specifically relatively undeveloped
knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially
related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis
of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory–de-mentativility by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-
all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and
simplistic contending mental-dispositions on the basis of the determining or non-determining
need for ‘social consensus as of social-aggregation-enabling by human temporal
<amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-
leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications}> mental-
dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative
intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativility by human intemporal mental-
dispositions and projections’. This contrasts with those domains that are more pertinently and
decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiology/ontological-escalation), and not ‘human temporal <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications-) mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfurence-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-
implications>) in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normaley/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximising-recomposuring-for-relative-ontological-completeness for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnaturized-construct
positivistic community, whether base-institutionalisation/animistic or medieval, facing a
disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of
an infection with the idea that a certain root or leaf in the nearby forest can be used as cure,
however, the community rather believe that the forest is an evil forest and this will just make
things worse for them overall. Obviously, as of its positivism prospective relative-
ontological-completeness-of-reference-of-thought, by ‘Intemporal-prioritisation-of-reference-
of-thought’–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to
unleash its maximalising-recomposuring-for-relative-ontological-completeness
intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-
imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with
the positivistic one that the root or leaf in the forest brings about cure by walking over the
supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate
that positivistic thinking over animistic or medieval thinking will go a long way in improving
the community’s existence. It is interesting to grasp the difference in the dereifying and
reifying construal of existential-contextualising-contiguity here between the non-positivists
mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and
relative-ontological-completeness reference-of-thought and respectively as of their divergent
non-positivists dereification perspective and positivist reification perspective; as seeing the
positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for
members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-
disposition. It can be noted here that seeing the positivist walking into the evil forest will be
branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-
evil-disposition going by their supernatural conception of existential-contextualising-
contiguity–in-reification/dereification as of their prior relative-ontological-incompleteness-
of-reference-of-thought, contrasted with the positivist naturalist conception of existential-
contextualising-contiguity-in-reification as-seeking-a-cure as of its prospective relative-ontological-completeness-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrusticism registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing of the prior relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective relative-ontological-completeness-of-reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness-of-reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness-of-reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness-of-reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness-of-reference-of-thought full meaningfulness-and-teleology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness-of-reference-of-thought”; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental
inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness-of-reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness-towards-ontological-completenessss-of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-
it-neuterises’-the-dynamics-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s thus failing to reflect existential wholeness/nested-congruence of meaningfulness-and-teleology and undermining existential-contextualising-contiguity knowledge-reification’ at a given reference-of-thought de-mentative/structural/paradigmatic nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) threshold as of its prior relative-ontological-incompleteness construed as uninstitutionalised-threshold, while falsely implying the given reference-of-thought mere identitive conceptualisations/‘candid existential expressiveness’ are existentially veridical; and it is important to grasp that every registry-worldview/dimension is of a reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument that by its reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation falsely implies that its meaningfulness-and-teleology is necessarily as of ‘identitive <amplituding/formative>epistemic-totalising/circumscribing/delineating postconverging-or-dialectical-thinking—apriorising-psychologism’ even at its uninstitutionalised-threshold where it is effectively preconverging-or-dementing—apriorising-psychologism as its reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation fails to induce an ontologically-veridical reifying trace/ontological-aesthetic-tracing of existential-contextualising-contiguity. We can imagine as of a non-positivistic social-setup reference-of-thought identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism <amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold, much like as from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism perspective we can imagine the ‘candid existential expressiveness’ in our positivism–procrypticism that ‘integrates procrypticism/disjointedness-as-of-reference-of-thought as-thinking’ as of its uninstitutionalised-threshold; and in both cases the ‘trace/ontological-aesthetic-tracing of ontological wholeness/nested-congruence’ as of existential-contextualising-contiguity knowledge-reification breaks down at the uninstitutionalised-threshold thus assuming a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism representation of the breakdown and going on in both cases to ‘overlook effectively as-if-thinking respectively’ the ontologically-veridical reality of ‘preconverging-or-dementing–apriorising-psychologism superstition’ and ‘preconverging-or-dementing–apriorising-psychologism procrypticism/disjointedness-as-of-reference-of-thought’. It is singularisation/epistemic-immanence/veridical-epistemic-determinism in preempting any such de-mentative/structural/paradigmatic threshold construed as uninstitutionalised-threshold as implied by notional–deprocrypticism that reflects ‘ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ as factoring in prior registry-worldviews/dimensions reference-of-thought prior relative-ontological-incompleteness as of the ontologically-flawed threshold of its reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation from the perspective of prospective registry-worldview/dimension reference-of-thought prospective relative-ontological-completeness to construe historiality/ontological-eventfulness/ontological-aesthetic-tracing as of notionally-full existential-contextualising-contiguity knowledge-reification. In other words, existential-contextualising-contiguity as reflecting existence—as-the-absolute-a-priori-of-conceptualisation isn’t halted at any given
mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation for reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and scholasticism-like pedantry construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism but not yet as of rational-empiricism’; with such budding positivism rather a metaphoricity instigation of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic soul-searching for the psychoanalytic-unshackling of the human subject as of a de-mentative/structural/paradigmatic Lacanian displacement/decentering of the human subject from its prior ‘epistemic-totality/reference-of-thought/epistemic-totalising—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as of non-positivism/medievalism’ to a prospective ‘epistemic-totality/reference-of-thought/epistemic-
procreticism human subject superegoic vices-and-impediments’. It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. In this regard, we can construe that even the ⟨amplituding/formative⟩wooden-language-(imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩) mental-disposition in a non-positivism/medievalism social-setup has a sense of human knowledge development and emancipation but with a mental-reflex that such a conception is necessarily by way of the non-positivism/medievalism social-setup reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. The idea that ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ articulation of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation in prospective relative-ontological-completeness as of positivism reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring is
the route for ontologically-veridical human knowledge transformation and emancipation as of prospective positivism is very much alien to the non-positivism/medievalism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-
totality/reference-of-thought/epistemic-totalising–self-referencing-syncretising/circularity conception of meaningfulness-and-teleology’ which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. determinism as if in a fully-attained state of singularisation/epistemic-immanence/veridical-
epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the

disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-verbatim point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-
practice-of-psychology and just as various mystical-and-mythical-practices of prior non-
positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-
normalisation-and-practice-of-psychology as of their own times, the notion of a
psychological science as reinforcing/propping-up human psychology in any prior relative-
ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology state is
downright ontologically ridiculous and the manifestation of an epistemic-totalising–self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety. We can appreciate
that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-
thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as
if a given reference-of-thought in prior relative-ontological-incompleteness as of
dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has its very own
complete transformative and emancipative potential as if of fully-attained
singularisation/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-
verbatim psychology rather warrants implying the human subject displacement/decentering as
the de-mentative/structural/paradigmatic possibility of the human subject emancipation with
regards to the successive prior relative-ontological-incompleteness registry-
worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-
dialectical-thinking–apriorising-psychologism reasoning-from-results/afterthought
reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identititive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of-meaningfulness-and-teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema>; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation in its ecstatic singularity, on the same token that a natural scientist is in a transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s² on earth if any given human subject isn’t
accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not $9.8 \text{ m/s}^2$ but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology’/reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing—apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory—de-mentative constraint’ to prospective
institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of the possibility of prospective relative-ontological-completeness-of-reference-of-thought.

Human supererogatory-de-mentative constraint is fundamentally associated with poor universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) with respect to social-stake-contention-or-confliction at uninstitutionalised-thresholds. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) as of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness-of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory-de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied by a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation-supererogatory—ontological–de-mentation-or-dialectical–
of-thought’ to a more profound appreciation of the underlying possibility for human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming. In this regard as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is the human temporal inclination to decontortion construed as a disposition to undermine ‘intemporal ontological-veracity as of universal existential import’ for the sake of ‘temporal narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory universal meaningfulness-and-teleology’, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag incrementalism-in-relative-ontological-incompleteness is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness-of-reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing of reifying existential-contextualising-contiguity, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness)’. Such a human disposition to decontortion at uninstitutionalised-thresholds arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation/epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as
can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing–apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag and vague untransvaluated–temporal-intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency-(transparency-of-totalising-entailing, as-to-entailing-epistemic-totalising–in-relative-ontological-completeness).

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-
as-flawed-epistemic-determinism as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance-<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and
psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care—and—episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding/superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness—(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative—supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>) with respect to temporal-to-intemporal ontological-performance—<including-virtue-as-ontology> which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for
instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supernatural-de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity posture that is as of ecstatic-totalising-entailing/nested-congruence as with the latter. Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>’ as of its reifying conflatedness
referencing-and-their-devolved-referencing-imbued-ontological-performance-＜including-virtue-as-ontology＞ ontological-performance-＜including-virtue-as-ontology＞s-including-virtue-as-ontology of narratives’ as of the social epistemic-totality of meaningfulness-and-teleology. This totalising-entailing insight is reflected in the Derridean deconstruction orientation with its obvious narratology implications pertinence to literary studies as of its conflatedness with existential-contextualising-contiguity in contrast to such a notion like language games when construed rather in constitutedness. This difference of conceptualising comes down to the atomising/taking-to-pieces flaw reflex of constituting-towards-epistemic-totality implied as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as against the ecstatic-totalising-entailing/nested-congruence disposition for reifying-epistemic-totality-for-completeness implied as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism; wherein the conflatedness mental-reflex is involved in construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination for completeness as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism/postdication projected conflatedness (as of singularisation/epistemic-immanence/veridical-epistemic-determinism and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism ＜amplituding/formative＞epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of ‘supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with regards to human limited-mentation-capacity-deepening-＜amplituding/formative＞epistemic-

This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking—apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as
of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of supposedly coherent ontological-commitment implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, ‘speech activity’ discourse speaks of an supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of this articulated ontological-as-existential-commitment having to do with such social contextualisation’. Likewise the underlying notion of ontological-performance-<including-virtue-as-ontology> as herein articulated by this author is as difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as from existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’; articulating knowledge as ontologically-veridical meaningfulness-and-teleology as of the existential-contextualising-contiguity knowledge-reification <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of human underlying relative-ontological-

This underlying notion of ontological-performance—including-virtue-as-ontology> speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity. Whereas the analytic tradition posture as with ‘speech act’ gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) geared towards identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent ontological-commitment in want of existential-contextualising-contiguity knowledge-
reification for knowledge as ontologically-veridical meaningfulness-and-teleology, as can be validated and falsified by ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendancy of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and goes on to naively deploy outside existential-contextualising-contiguity knowledge-reification such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment for knowledge elucidating/reifying which validation and falsifiability is rather a matter of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications, -for-explicating-ontological-contiguity. With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning, it can be naively implied that similar
conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is falsifiable by ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose.
Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative> epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicated/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-
construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a
question of ‘expanded onticising construal of existence as of
<amplitudin/formative>epistemic-totalising~devolved purviews of existence so-construed

as of supervening-conflatedness. Knowledge as meaningfulness-and-teleology, whether of
underlying ontological-construal or ontical-construal, is epistemically validated as of
supposedly coherent ontological-commitment as reflected by ontological-primemovers-
totalitative-framework. Inherently, because human-subpotency supposedly coherent
ontological-commitment is very much intimately linked with the ontological-performance-
<including-virtue-as-ontology> of human as of prospective relative-ontological-completeness
appraisal, it is always ever the case that as of human <amplitudin/formative>epistemic-
totalising~thrownness-in-existence the validation of knowledge as meaningfulness-and-
teleology as of supposedly coherent ontological-commitment is equally as of the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality, as to-
‘human<amplitudin/formative>epistemic-totalising–purview-of-construal’ or
<amplitudin/formative>epistemic-totalising~devolved–purviews-as-domains-of-construal-
as-intrinsic-reality-or-ontological-veridicality constructs; which construal is necessarily as of
conflatedness with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as to ‘human <amplituding/formative> epistemic-totalising purview of construal’ or <amplituding/formative> epistemic-totalising devolved purviews as domains of construal as intrinsic reality or ontological veridicality and relative ontological completeness as of human limited mentation capacity deepening (<amplituding/formative> epistemic-totalisingly, as to existence— as sublimating withdrawal, eliciting of prospective supererogation), thus invalidating the epistemic veracity of constitutedness of knowledge. The implication here is that the epistemic veracity of knowledge as meaningfulness and teleology is rather as of the ‘<amplituding/formative> epistemic-totalising circumscribing delineating construal as of existence’ with <amplituding/formative> epistemic-totalising devolved purview as domain of construal as intrinsic reality ontological veridicality rather narrowing construals of their specifically implied human subpotency as to overall reifying and empowering reflexivity of ecstatic existence as panintelligibility <imbued and ‘hermeneutically reprojectively educating’— human subpotency— epistemic perspective of projective reprojective— aestheticising re motif and re apriorising re axiomatising re referencing conceptualisation>, and hence of nested congruence with existence’. This further points out that the traditional explicited constitutedness conception of the notion of cause and effect so implied herein as ontological primemovers totalitative framework is actually epistemically impertinent and flawed; as this traditional conception tends beyond the consciousness awareness teleology <in existential extrication as of existential unthought> to imply unconnectedness with not in nested congruence with the very same immanent existence intrinsic reality ontological veridicality, as to ‘human <amplituding/formative> epistemic-totalising purview of construal’ or <amplituding/formative> epistemic-totalising devolved purviews as domains of construal as intrinsic reality or ontological veridicality, hence implicitly or explicitly liable to
elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This constitutedness nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the ‘inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ or <amplituding/formative>epistemic-totalising-devolved-purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency,-disclosed-from-prospective-
epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specificisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of conflatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specificisms of existence’s ecstatic manifestation’ as of the <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-
framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoretisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-prime-movers-totalitative-framework as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflicatedness enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups dementatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating foregrounding—entailment-{narrowing-

Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding—entailment-{narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},–as-operative-notional–deprocrypticism of the given natural science domain-of-study’ with specialism more of a furtherance of such a foregrounding—entailment-{narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},–as-operative-notional–deprocrypticism scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> (including some science domains as well which naively tend to draw
comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest–subpotency–<in-transitive-conflatedness–reflexivity–in-the-full-potency-of-existence> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-paintelligibility–<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> so-reflected in its philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency,-disclosed-from-prospective-epistemic-digression-as-of,<amplituding-formative>epistemic-totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness knowledge-reification implications derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity’ whereas this is ever always the case with good practice in the natural sciences and just as well as with an increasingly self-conscious social science as specifically upheld by postmodern-thought. For instance, the internal-coherence/nested-congruence speaking of the underlying foregrounding—entailment–<narrowing–

<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process can be garnered by the fact that all the knowledge-reification herein implied arises as of the very same underlying ‘objectifying cogent unifying process and gesturing’ as of the <amplituding-formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness-

Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the
social should reflect such blurriness-as-of-disparateness rather than the ultimate objectifying foregrounding—entailment-\{narrowing-down\-sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’\},–as-operative-notional–deprocrypticism, and so by conjugating ‘relative-ontological-completeness  \langle\text{amplituding/formative}\rangle\text{epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment-\{narrowing-down\-sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’\},–as-operative-notional–deprocrypticism, in order to elucidate the blurriness. Such that quite often as of institutional practice the notion of foregrounding—entailment-\{narrowing-down\-sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’\},–as-operative-notional–deprocrypticism is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as ‘merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation)’ in a naïve substitution of the idea that foregrounding—entailment-\{narrowing-down\-sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’\},–as-operative-notional–deprocrypticism truly speaks of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint elicited reframing/transforming/reconstrual underlying ‘cogent-unifying-operant-dynamics’ that ‘runs-through/deflates’ implied conceptualisations in elucidating their ontological-veracity by its capacity to ‘objectively deflate-all-conceptualisations as of operant

Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity conflatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-uninstitutionalised-threshold/presublimating–desublimating-decisionality–of-ontological-performance-including-virtue-as-ontology> to further advance its
constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completenesss transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completenessness as of the <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of existential-contextualising-contiguity conflatedness. It is thus not surprising that naive disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the contingent-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment as validatable and falsifiable by ontological-primemovers-totalitative-framework as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness as it is critically the case in the good practices of the natural sciences. domain-of-study as of atomising/taking-to-pieces constitutedness is shown to be veridically rather as of existential-contextualising-contiguity conflatedness going by the successive relative-ontological-completeness physics conception of such notions as space, time, etc. in epistemic-totalising/circumscribing/delineating development of successive theories say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same notions and derived-notions but with different implications. This epistemic-totalising/circumscribing/delineating nature of all domains-of-study in existential-contextualising-contiguity conflatedness as of epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, speaks of the epistemic-veracity of the fact that ‘all knowledge is truly developed as of a hermeneutic circle for relative-ontological-completeness’ that involves human limited-mentation-capacity-deepening-epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). This hermeneutic circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagagic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic insight as of maximalising-recomposuring-for-relative-ontological-completeness. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic circle level of postmodern knowledge-reification’ no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the
‘preceding formative/pedagogic hermeneutic circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} predisposition to incrementalism-in-relative-ontological-incompleteness. The fact is the various pedagogic hermeneutic circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness are meant to transmit a ‘epistemic-totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘epistemic-totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} level
of knowledge conception, and implicit in its knowledge-reification–gesturing/process is the
notion that the prior/all-the-prior hermeneutic circle level(s) of the subject-matter/domain-of-
study need to be grasped beforehand; and this is basically because such a top-level is imbued
with fundamental and new knowledge-reification priorities. While in many ways the
unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic circle
of levels of understanding’ more or less very transparent, with regards to the blurriness of the
social such a postmodern-thought ‘hermeneutic circle of levels of understanding’ rather
requires increasing familiarisation, habituation and contemplation with regards to such
critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic

intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the
capacity to appreciate-and-understand philosophical thought more than just an issue of
technical acquisition of philosophical knowledge as of mere knowledge

are no different from any other type of knowledge subject to ontological-primemovers-

knowledge’ induced disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> but rather implying a furtherance of the overall hermeneutic exercise involved in the advancement of all human knowledge as of <amplituding-formative>epistemic-totalising–renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic circle involving: the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the analyst’s/philosopher’s reflection on the shortfall in the ontological-performance-<including-virtue-as-ontology> of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-or-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-
withdrawal, eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’, as-operative-notional-deprocrypticism with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation—unforegrounding-disentailment, failing-to-reflect ‘immanent-ontological-contiguity’ orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation—unforegrounding-disentailment, failing-to-reflect ‘immanent-ontological-contiguity’ epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity in conflatedness, an issue
that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>) in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in conflatedness’; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic conceptualisation to then
develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its event instigating traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced
universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic philosophers (and not intellectual inspiration from any such mob-rule instigating scoffists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as—so—being—as—of—existential-reality dimensionality-of-sublimating—<amplituding/formative> supererogatory de-

rationalisitransanamnesic-residuality/spirit-drivenness–equalisation that then
feeds into prospective originariness-parrhesia–as-spontaneity-of-aestheticisation;
emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-
capacity that knowledge ‘more profoundly lies with the knowledge-reification–gesturing and
organic implications’, just as we cannot simplistically interpret the importance of Aristotelian
science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve
presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our
modern positivism (as being at the receiving backend of the institutional-
cumulation/institutional-recomposition-as-to-historialty/ontological-
eventfulness/ontological-aesthetic-tracing> in reflecting holographically-
<conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process) but
rather the more critical insight lies with its novel and transformative universalising-
classificatory knowledge-reification–gesturing as opening up the possibility for prospective
human reconceptualisation of science providing the backdrop from which modern science
took off from the medieval times to the present. Likewise, the transformative nature of
budding positivism more than just as garnered from the precised narrative accounts about
budding positivist thinkers, lies more profoundly with its meaningfulness-and-teleology
infrastructure impact on the developing enlightenment social developments and as this
budding positivism metaphoricity epistemic-ricochetingly/transepistemically brought about
our positivism/rational-empiricism modern society. The analyses of human becoming so-

EPISTEMICALLY-DERIVABLE AS OF ‘COHERENCE/CONTIGUITY-OF-SUPERSEDING–ONENESS-OF-ONTOLOGY-

INSIGHT-OR-INTUITION-OR-FORESIGHT-AS-OF-EMBODIED-CONSCIOUSNESS’, AND SO BEYOND THE SPECIFIC
accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for
prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a-

meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-

then the phenomenological question arising with respect to the fact that many a social
domain-of-study ‘tend to assume a disparateness-of-conceptualisation-<unforegrounding-
disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> epistemic-disposition
that is in many ways poorly constrained to existential-reality’, is how exactly does such lack
of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification
potentiality of domains-of-study as of their supposedly coherent ontological-commitment as
reflected by ontological-primemovers-totalitative-framework as of existence-potency?
Insightfully, this fundamentally has to do with the contrastive implications in construing
ontological-primemovers-totalitative-framework as of good-practice/epistemic-veracity and
bad-practice/epistemic-impertinence for knowledge-reification; wherein objectifying
foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-

framework as of ‘cogent-unifying-operant-dynamics of primemovers’ so-construed
veridically as ‘ontological-primemovers-totalitative-framework as of existential-

<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> as

While in many a natural science ‘the high-and-immediate subjection to existential/experimental falsifiability and validation as of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness-

This inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation is so-reflected with: prospective reactualising of ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’ (as derived from the reconstruing/reconsideration of both mere-tracial-and-symbolisation-manifest aestheticisation and signification-as-of-existential-reality-manifest aestheticisation); prospective reactualising of ‘mere-tracial-and-symbolisation-manifest aestheticisation as of as of human conscious-able works-of-art/artistry’, for instance in the dynamic reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflected with genres of music as of their originariness-parrhesia,—as—spontaneity-of-aestheticisation setting-up/establishing of drifting/derivating apriorising/axiomatising/referencing—re-originariness/re-origination; and prospective reactualising of ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’, and this is more fundamentally with respect to human underlying supposedly coherent ontological-commitment reflected by ontological-
<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness is ever always a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ which is patternly developed-and-anchored as from its driven originariness-parrhesia,–as–spontaneity-of-aestheticisation; and so at the thresholds of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation unduly
ricochetingly/transepistemically as of ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’ with respect to unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance—<including-virtue-as-ontology> wherein originariness-parrhesia, as—spontaneity-of-aestheticisation re-stakes/puts-back-at-stake the reconstruing of existential-reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia, as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’. For instance with regards to living-development—as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and
developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development-as-to-personality-development human aestheticisation of meaningfulness-and-teleology (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’) in existential-contextualising-contiguity conflatedness involving ‘hermeneutic reactualising as <amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic reactualising as <amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-
totalitative-reification-in-singularisation-as-veridical-epistemic-determinism). This is so because ‘human <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation’ supersedes any such human ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’, in its existential-contextualising-contiguity conflatedness (even as the latter had been precedently contributive to that purposefulness-reflexivity) such that such a human ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’ is more critically a passive ready-at-hand conception that is epistemically/notionally ever always critical only in existential-contextualising-contiguity conflatedness as it is adapted to ‘human <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation’. This basically explains the constantly developing nature of human ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it
language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-

This fundamental originariness and secondnaturedness conundrum in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process is reflected by the fact that the human Self is ever always in disseminative constructiveness/destroying defining its given registry-worldview/dimension shiftiness-of-the-Self as of ‘a subar existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflicatedness/human-subpotency disposition to construe as of full existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflicatedness at its uninstitutionalised-threshold’ its prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,-as–reproducibility-of-aestheticisation; and so in obfuscation and pedantry. providing the framework for ontological-bad-faith/inauthenticity and sophistry hanging on
unto secondnatured normativities, conventions, practices, etc. thus rendering prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity impotent. Thus ‘the possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is ever always a renewed parrhesiastic-de-mentating/structuring/paradigming’ that as of its reasoning-through/messianic-reasoning can overcome such a <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>), and so counterintuitively to any given registry-worldview/dimension notion/sense of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as rather occurring along its already secondnatured established reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation normativities, conventions, practices, etc.; and this very much explains why the successive registry-worldviews/dimensions are successive parrhesiastic instigation of renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. Further the ‘renewed parrhesiastic-de-mentating/structuring/paradigming’ in undermining prior ‘reference-of-thought-level and thus reference-of-thought-devolving-level of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’⟩’ implies ‘foregrounding—entailment-(narrowing-down—sublimation as to existence—as—sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocripticism as to existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness, and not ‘unification as of human-subpotency elicited contrasting-and-

This explains why the universalising-idealisation of Socratic philosophers, budding positivists thought and herein as well suprastructuralism/postmodern-thought are all characterised in their knowledge-reification not by an articulation along the prior established reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather prospective existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory—epistemic-conflatedness constraining parrhesiastic aestheticisation of prospective reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, that in all three cases looks down upon the notion of human-subpotency sophistic/pedantic pretence of foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional–deprocrypticism that is no more than complexification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>. of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a
covert practice of an intellection that has been critical of postmodern-thought but in latter
years ‘reformulates the implications of postmodern ideas’ as original thought even as such
practices supposedly passes their institutional thresholds of admissibility with the caveat
though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification–gesturing/process as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification–gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of ancient sophists or medieval-scholastic pedants, as of naïve shallowminded incrementalism-in-relative-ontological-incompleteness as of a poor sense of intemporal-ity/longness beyond earthly materialism. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language—
averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignoreable-void’-with-regards-to-prospective-apriorising-implications>) that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology/knowledge as of existential-contextualising-contiguity knowledge-reification’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this
simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework disposition rather than an orientation towards the ‘transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing or transversal-analysis-towards-validatory-selectivity—for-foregrounding—entailment—{narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism of conceptualisations-and-interpretations’ as constrained to ontological-primemovers-totalitative-framework which is what further reifies the body of knowledge by enabling existence as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to continually select the trace/ontological-aesthetic-tracing of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation disseminative insight, with unsound/superseded conceptualisations-and-interpretations being discarded thereafter. Concretely, we can easily appreciate the greater pertinence of a Foucauldian statement of relative truth as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, construable rather as a more precise theoretical, conceptual and operant notion of truth by its existential-contextualising-contiguity knowledge-reifying <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity as of the human-subject-
emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as reflected with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on
wooden-language-{imbued—averaging-of-thought-<as-to-

knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study
of the social world is utterly different as of existential-contextualising-contiguity from the
domain-of-study of the natural world, and not to mention that even within the natural world
or social world there are equally subject-matters peculiarities that require their own specific
approaches to elucidation/reification as of existential-contextualising-contiguity – and this
said without undermining the idea of the ecstatic singularity of existence from which all such
subject-matter-human-specialisms ecstically arise as veridically implied by
singularisation/epistemic-immanence/veridical-epistemic-determinism speaking of an
underlying ecstatic commonness though not common phenomenality. Thus, in all cases the
overall implications for the optimum advancement of human knowledge is most critically
about constraining knowledge to existential-contextualising-contiguity elucidation/reification
rather than just mere formalisation as of conceptual patterning for its own sake. The fact is
the natural sciences are already naturally constraint to existential-contextualising-contiguity
knowledge-reification by the implicated immediate-constraining ontological-primemovers-
totalitative-framework transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity whereas the human world is rather blurry in this regard and hence requires the
requisite explicited insight about existence as of its ecstatic singularity for its appropriate
approach for transcendence-and-sublimity/sublation/supererogatory-de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification.<amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity. Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicit creative process of existential-contextualising-contiguity knowledge-reification. This process is one of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology>of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’ reflected as of difference-conflectedness-as-totalitative-reification-in-
singularisation-as-veridical-epistemic-determinism, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity reflected as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism; with ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness’ rather reflected as of ontologically-veridical difference-conflicatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism which implied singularisation/epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity/sublimation/supererogatory~de-mentativity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise’ as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of
meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’ is very much obvious from the accounts of ‘successive partial contributions-and-failures’ that lead to major breakthroughs in the natural sciences as of the ‘very same <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’; with this ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’ construed as occurring within the very same scientist, across scientists of the same interest-of-study in a generation, and across scientists of the same developing interest-of-study crossoverse-generationally as of the ‘very same <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. In this regard, we can appreciate that as of their differing ontological-performance-<including-virtue-as-ontology> the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness is considered as postconverging-or-dialectical-thinking—apriorising-psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing—apriorising-psychologism; even though both address the ‘very
same physics <amplituding/formative>-epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor conflatedness of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any
such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, <amplituding/formative>epistemic-totalising-self-referencing-syneretising/circularity/interiorising/akrasiatic-drag and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation.epistemic-nonimmanence/flawed-epistemic-determinism implied identitve-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This failure in fully appreciating the import of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical
epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’ as of implied singularisation/epistemic-immanence/veridical-epistemic-determinism has fundamental <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity. Consider in this regard that the repeated maximalising-recomposuring-for-relative-ontological-completeness articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity knowledge-reification perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to
earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity knowledge-reification explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and
redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocripticism or preempting—disjointedness-as-of-reference-of-thought ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procripticism human subject is rather undecentered’ relative to the prospective postmodern—deprocripticism self-conscious mindset we fail to truly appreciate the de-
mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-prime movers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—deprocrypticism disseminative orientations for transcendence-and-subservience/sublimity/sublimation/supererogatory—de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation’.

Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of-meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than
distantly/remote abstracted conceptions of meaningfulness-and-teleology of trite existential-contextualising-contiguity knowledge-reification 
<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications, for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a ‘conflatedness totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-
‘human<amplituding/formative>epistemic-totalising~purview-of-construal’; with such construal in reality rather very much as of singularisation/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism-or-preempting—disjointedness-as-of-reference-of-thought conflatedness totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation/epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation. Unlike the constitutedness rampant with human and social
conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence

<amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative>epistemic-totalising-purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation/epistemic-immanentence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their
constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity knowledge-reification’ of existence—as-the-absolute-a-priori-of-conceptualisation in its ecstatic singularity. The naivety of implied constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding-formative>epistemic-totalising~purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly de-mentated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence conflatedness with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of ‘conflatedness with existence as of its ecstatic singularity’ given its inherent blurriness, 
<amplituding-formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and emotional-involvement, in order to then achieve parallel level of ontological-primemovers-totalitative-framework knowledge conception as of singularisation/epistemic-immanence/veridical-epistemic-determinism. In effect this ontological difficulty fundamentally has to do with the inherent difficulty of

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for its knowledge construal. The insight for singularisation/epistemic-immanence/veridical-epistemic-determinism being that as of its ‘dispensing-with-shallow-mathesis/motif/thrownness-disposition’—for-relative-ontological-completeness-by-reification, as increasing prospective relative-ontological-completeness-of-reference-of-thought towards ontologically-uncompromised—referentialism avails, effectively the construal of the social assumes the requisite reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for wholeness/nested-congruence conceptualisation as of the conflatedness of ‘prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism deprocrypticism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, as implied by the suprastructuralism conception herein in fully reflecting the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation, and so over our present parsimony/disparateness of conceptualisations ‘reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as-of-ontologically-compromised—categorising positivism–procrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. Thus we can appreciate here that ultimately singularisation/epistemic-immanence/veridical-epistemic-determinism is not just artificially prompted but is rather the de-mentative/structural/paradigmatic consequence of the prospective relative-ontological-completeness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme, ultimately as of prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Our mental-disposition is caught up between its capacity to conceptualise as of singularisation/epistemic-immanence/veridical-epistemic-determinism implied prospective relative-ontological-completeness conflatedness and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied prior relative-ontological-incompleteness constitutedness; and basically intemporal ontological-performance<-including-virtue-as-ontology> arises by drawing out the full <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of meaningfulness-and-teleology exclusively as of singularisation/epistemic-immanence/veridical-epistemic-determinism implied conflatedness prospective relative-ontological-completeness as it enables ‘ontological-performance-<including-virtue-as-ontology> to be utterly as of predictable de-
mentative/structural/paradigmatic internal-necessity/determinism so-construed as immanence-function-conflatedness’. Thus the inherent ecstatic singularity of existence carries intemporal ‘immanence-functions-conflatedness <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism conflatedness, while dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism constitutedness arises as of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-construal defect when naively failing to convey the ‘immanence-function-conflatedness implication’ of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>. Thus naturalistic methodologies are only as pertinent as of their explaining of underlying background of the social as of physical and biological reality, but not as substitutive explanations as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective— aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation> of social emanance as this is bound to induce constitutedness. What is misjudged by many naturalistic methodologies with regards to the social is the fact that the very reality as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective— aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation> of an outright social emanance as arising from ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-
aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation> is of an altogether social and socio-psychological immanence; with the implications that a hypothetical instantaneous erasure of all humans memory and knowledge will lead to humankind’s retrograding to its most basic animalistic background potential for social emanence as of the earliest of humans, speaking of an altogether substantive cumulated abstract tissue of social emanance as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued and ‘hermeneutically/reproductively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—

immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over social, and as of reasoning-through/messianic-reasoning immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over reasoning-from-results/afterthought. Basically, immanence-function-conflatedness speaks of the counterintuitive mental-reflex for drawing out the full <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity for ‘creative understanding’/insight as of singularisation/epistemic-immanence/veridical-epistemic-determinism, going by existence’s ecstatic singularity as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility<-imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>. This immanence-function-conflatedness insight is effectively what marks prospective deprocryticism/preempting—disjointedness-as-of-reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of singularisation/epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed constitutedness’ or ‘we are as potently immanent as of our virtuous conflatedness’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of
prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflicatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflicatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitition, spiritualism, etc. This same conception holds with the depocrypticism immanence-function-conflicatedness overriding the meaningfulness-and-teleology of procrypticism/disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the depocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflicatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and depocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflicatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to depocrypticism immanence-function-conflicatedness as of de-mentative/structural/paradigmatic internal-
necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework as of singularisation/epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness meaningfulness-and-teleology as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness equally highlights knowledge as of its essential organic construct implications. As a constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the de-mentating/structuring/paradigmging of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very
notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The implication of organic knowledge
syncrétising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity knowledge-reification in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity knowledge-reification. This insight equally informs this author’s supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-

psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity knowledge-reification, as well as existential-contextualising-contiguity knowledge-reification as of the disposition for advancing the metalevel transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing foregrounding—entailment-{narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),--as-operativenotional–deprocrypticism of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as of existential-contextualising-contiguity knowledge-reification as implied by the articulation of authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care—and–episteme ‘implicitation of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways
commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-thresholds, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supernogatory-de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond <amplituding/formative>wooden-language{imbu—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}> socially intelligible meaningfulness-and-teleology conceptualisation in <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflicatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supernogatory-de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-
setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procripticism social-setup to perceive our positivism–procripticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procripticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic de-mentating/structuring/paradigming as of their ultimate existential-contextualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity
knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation/epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-function-confiliatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity knowledge-reification’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity knowledge-reification are nothing more but  

<amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation, and institutionalised, such  

<amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’
but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ but with contrastive underlying relative-ontological-completeness:relative-ontological-incompleteness:relative-ontological-completeness-⟨sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating,<in-projective/reposductive—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing⟩. It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so
as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism or preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflectedness analytical implications equally arise as of the ‘countervailing transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-totalitative-framework’ between ‘existence/existental-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness <amplituding/formative>epistemic-causality-as-to-projective-
totalitative–implications, for explicating ontological-contiguity, and so as of the de-mentative/structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective relative-ontological-completeness is inherently bound with its very own epistemic <amplituding/formative> epistemic-causality-as-to-projective-totalitative–implications, for explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflicatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative> epistemic-causality-as-to-projective-totalitative–implications, for-
explicating-ontological-contiguity’ is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituding/formative>wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) epistemic impertinence. Prospective notion–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity determinant selector as of the deprocrypticism or preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Such a deprocrypticism epistemic-veracity implication is pertinent because bluriness and undisambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that
allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality

de-mentatively/structurally/paradigmatically anchoring futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism meaningfulness-and-teleology is the need for a deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to <amplituding/formative>epistemic-totalising~self-referencing-syncrétising/circularity/interiorising/akraisiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-superoogatory~epistemic-conflatedness absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy rather than as of epistemic-abnormalcy/preconvergence’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of our <amplituding/formative>epistemic-totalising~thrownness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective

implications; and so as devolingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential referencing/registering/decisioning, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social meaningfulness-and-teleology as of the epistemic-causality-as-to-projective-totalitative–implications, for-explicating-ontological-contiguity of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thus fundamentally the epistemic-causality-as-to-projective-totalitative–implications, for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulation/institutional-recomposure--<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> with successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative supererogatory–ontological–de-mentionation–dialectical–de-mentionation—stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-
subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplitudine/formate>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemperant ontological-performance-<including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-<including-virtue-as-ontology> arises as of the intemperant ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parthesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’. Can we wish that we don’t have
understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human \(<\text{amplituding/}\text{formative}>\)epistemic-totalising~thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory~de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic \(<\text{amplituding/}\text{formative}>\)wooden-language-(imbued—averaging-of-thought-\(<\text{as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-}\text{‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}>\))? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-\(<\text{including-virtue-as-ontology}>\) as of human \(<\text{amplituding/}\text{formative}>\)epistemic-totalising~thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism——imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism——imbued-
reshuffling as unconsciousness; as of a psychological analysis of direct mental-processing ontological-performance-<including-virtue-as-ontology> implications with respect to the constructiveness-of-ontological-performance-<including-virtue-as-ontology> of the social epistemic-totality of meaningfulness-and-teleology so-reflected in construction-of-the-Self all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process). The psychoanalytic pertinence of human akrasia-susceptibility-or-akrasiatic-drag complex, so-implied as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, is hinted at even by traditional psychology but rather indirectly as of its ontologically-flawed perspective as of human-subpotency <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when it recognises that we do fall short of intemporal ontological-performance-<including-virtue-as-ontology>, but strangely enough hardly has there been articulated any conception about this obviously fundamental dementating/structuring/paradigming ontologically-veridical implication of human-subpotency psyche limitation/compensative complex as from the perspective of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supernaturally-epistemic-conflatedness/intrinsic-reality/ontological-veridicality which is exactly what is ontologically pertinent, and so out of our presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inclination. Thus, human akrasia-susceptibility-or-akrasiatic-drag complex is rather construed here as of the prior relative-ontological-incompleteness <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in the shiftiness-of-the-Self

disposition,–as–reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplitude/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold–(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance–<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-
deepening-(amplitudformingepistemictotalisingly-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective dimensionality-of-sublimating—supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation insight for further human limited-mentation-capacity-deepening—(amplitudformingepistemictotalisingly-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) (as to ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a
dynamic complementary relationship between dimensionality-of-sublimating—

Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existential-contextualising-contiguity at the latter’s destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance-

In concrete terms, we can contrastively construe of such akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ existential desublimation manifestation of meaningfulness-and-teleology as of both a universalisation–non-positivism/medievalism and our positivism–procrypticism registry-worldview/dimension with regards to ‘mental-dispositions of general social living, institutional and Being ontological-bad-faith/inauthenticity geared to undermine ontological-veracity’; but then the positivism–procrypticism perspective as of its prospective relative-ontological-completeness will be less complexed in identifying the mental flaw of the universalisation–non-positivism/medievalism manifestation of akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ as of the former’s <amplituding/formative>epistemic-totalising–self-referencing-

identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocripticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-confiliatedness reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had
catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that
confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of \(<\text{amplituding} / \text{formative}>\text{wooden-language-}\)\{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>\)} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding} / \text{formative}>\text{epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normacle/postconvergence is de-mentatively/structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the \(<\text{amplituding} / \text{formative}>\text{epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation-ununiversalisation ontological-fracturing, universalisation–non-positivism-medievalism ontological-fracturing, positivism–procrypticism ontological-fracturing towards futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ontological-
idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance-<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance-<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling doesn’t substitute for the <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

We can appreciate both with regards to the social fabric as well as the natural sciences this common basis of supposedly coherent ontological-commitment from a long-term perspective, in the sense that technical and scientific progress associated with the industrial revolution ‘could hardly be socially reneged’ not only in Western Europe but with respect to its diffusion throughout the world, and so because the supposedly coherent ontological-commitment of human societies conventioning as of their ‘self-assuredness-of-authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ render themselves
This ontology-driven assessment of intemporality/longness metaphoricity perspective rejects the often wrongly made critique of relative-for-the-merely-sake-of-relative-disparateness by atomising/taking-to-pieces identitive-constitutedness-as-epistemic-totality-dereification-indissingularisation-as-flawed-epistemic-determinism critiques when misrepresenting the ontologically-veridical observations/remarks/constatations’ as of ecstatic-totalising-entailing/nested-congruence of postmodern thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation as of the epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness, and so-construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening-epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation); and this notion of relative truth is reflected in their works/research-programmes that undermine our epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism perspective. Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to truth as it enables transcendence-and-sublimity/sublimation/supererogatory—de-mentativity then is existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-epistemic-totalising—renewing—realisation/re-perception/re-thought.—

Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or
human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology- ⟨in-existential-extrication-as-of-existential-unthought⟩ unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or ⟨amplituding/formative⟩ wooden-language- ⟨imbued—averaging-of-thought-〈as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩⟩ comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our ⟨amplituding/formative⟩ epistemic-totalising-thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ nonpresencing- ⟨perspective–ontological-normalcy/postconvergence⟩ ricochetting that speaks of the dementative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or ⟨amplituding/formative⟩ wooden-language- ⟨imbued—averaging-of-thought-
presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or <amplying/transformative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of scholasticism pedantry. Just as we can appreciate that in ‘the very same physics <amplying/transformative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought, the epistemic-veracity as implied in succession from Corpenicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective nonpresencing-<perspective-ontological-
normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its dementative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supercracy–de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-confalatedness’–of-notional–dепrocrypticism-prospective-sublimation) thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes,
Galileos, Copernicuses, Newton, etc. with budding positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, as the supposedly coherent ontological-commitment of ‘self-assuredness-of-authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochet/shattering/transepistemicity metaphoricity. This is so because in the long run transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of temporal-to-intemporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives is rather as of ontological-primemovers-totalitative-framework selecting/skewing-towards intemporal-ontological-veracity as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,–in-supercerogatory-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of
immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism \(<\text{amplituding/formative}>\) epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ warrants such intemporal relaying of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology beyond just conventioning-referencing; as the very possibility of successive registry-worldviews/dimensions as of prospective relative-ontological-completeness arises because such reasoning-through/messianic-reasoning can devalue their presencing—absolutising-identitive-constitutedness conventioning-referencing to value prospective possibility for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as explained above with Socrates/Plato/Aristotle with their schools Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology common universalising-idealisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completsenesss but as of unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-\(<\text{preconverging-or-dementing–apriorising-psychologism}>\) devaluing their presencing—absolutising-identitive-constitutedness conventioning-referencing as of

The underlying insight about such ontological-veracity destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> is that the state of human-subpotency is one where overall its capacity to reflect existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-sup ererogatory-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human meaningfulness-and-teleology construal ever always varies as of ‘individual whim/impulsion narratives ontological-performance-<including-virtue-as-ontology>s’, ‘<amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) narratives ontological-performance-<including-virtue-as-ontology>s’, ‘suprasocial narratives ontological-performance-<including-virtue-as-ontology>s’ and ‘ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>’, with the latter as critically bound to fulfil ontological-veracity as of its direct and utter subjection to the superior party that is existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-sup ererogatory-epistemic-conflatedness/intrinsic-reality/ontological-veridicality as of ontological-prime movers-totalitative-framework and then its deferential-formalisation-transference and percolation-channelling implications, while it can be appreciated that the preceding three dispositions as of their <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag are not critically as so-committed to ontological-veracity. meaningfulness-and-teleology as knowledge; as social-construct settings are fundamentally the background of significant otherness for their inherent generalised purposefulness and their enlivening of the possibility for individual human purposefulness as well, such that beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> the notion of ontological-veracity is not necessarily of absolute pertinence to the individual as of pure-ontology implications of aetiologisation/ontological-escalation where individual possible construal of ontological-veracity is subject to its perception/engagement/endearment of specific and/or underpinning–suprasocial-construct settings significant otherness destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance-<including-virtue-as-ontology> implications of its possible constructive/institutionalising/nascent–sublimating-decisionality construal of ontological-veracity. such temporal-to-intemporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives susceptible to recombination in unsuspecting ways given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and are variously enabled or inhibited in different spheres/settings wherein the extended-informality including the extended-informality of institutional frameworks is more susceptible to spurious and specific temporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives unlike the strictly formalised institutional frameworks tending to totalisingly-entailing/ontologising/institutionalising of narratives. It is this possibility of narratives recombination as of formative and enculturating implications as well as the criss-crossing of formal and informal spheres/settings differing temporal-to-intemporal value-references that renders even totalisingly-entailing/ontologising/institutionalising narratives susceptible to recombination with temporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives, thus leading to their possible ontological denaturing as of uninstitutionalised-threshold implications. Ultimately, it is herein contended that conceptualising ontological-veracity reflecting existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supercategorical–epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism as this underlies retrospective, present to prospective meaningfulness-and-teleology rather boils down to grasping prospective relative-ontological-completeness-<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of notional~deprocrypticism. dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism, just as with the natural sciences and so beyond the notion of subjectivity as of ontological-primemovers-totalitative-framework validation and falsifiability implications. It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance-<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance-<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully
more of a purely ontological notion is caught up in our positivism–procrysticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrysticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally–collateralising-beholding-protohumanity’-to-'attain-sublimating-humanity’-as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflicatedness to supersede human temporality/shortness <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignoreable-void’-with-regards-to-
prospective-apriorising-implications); which will explain in many ways the difficulty of the Copernicus, Galileo, Descartes’, Diderot, etc. so effectively enculturate their budding positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality/longness and temporality/shortness as to human limited-mentation-capacity relative ontological-performance-<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war
ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold- (uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be as to existence-potency, disclosed from prospective epistemic digression as of 
worldviews/dimensions; wherein notional-deprocrypticism as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness will rather speak of prospective ‘ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>’ which as of its inherent constructive ontological-performance-<including-virtue-as-ontology> is of a de-mentative/structural/paradigmatic implication that ultimately supersedes the destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)-of-ontological-performance-<including-virtue-as-ontology> notionally underlying human-subpotency. Thus all the problem of human ontologically-flawed antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performance-<including-virtue-as-ontology>s to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiatic disposition as of the social epistemic-totality of meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Further and of much more profound reification implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>’.

This destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance-<including-virtue-as-ontology> analysis further highlights the ‘transitive nature’ of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-thresholds in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process with respect to destructuring at all uninstitutionalised-thresholds; as so-implied by de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The comprehensive social susceptibility to destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>’ arises because of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-

cognisance-and-adaptation to the reality of the ontologically compromisable possibility of
social meaningfulness-and-teleology. Insightfully, it can be appreciated that the ontological-

undermining of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at
uninstitutionalised-thresholds with relative ‘equivalence/correspondence antiakrasiatic-

can appreciate anthropologically as of human limited-mentation-capacity-deepening-

hegemonising-narrative implied with social enlightenment and the sciences rendered many
purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment

We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-reference-of-thought destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively superseded by deprocrypticism preemting—disjointedness-as-of-reference-of-thought ontologically-hegemonising-narrative thus rendering human ontological-performance-<including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

This destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> analysis effectively points to the fact that human akasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as to the destructuring implications at uninstitutionalised-thresholds implied human-subpotency epistemic/notional–projective-perspective in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing~conceptualisation> of the social-construct as from the elucidation/reification as ‘destructuring-threshold–(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance–<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance–<including-virtue-as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-thresholds notionally/epistemically reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immune from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how
human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality}–of-ontological-performance-{<including-virtue-as-ontology>} and as reflected at uninstitutionalised-thresholds. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance-{<including-virtue-as-ontology>} destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality}–of-ontological-performance-{<including-virtue-as-ontology>} and uninstitutionalised-threshold, and it is this difficult task of cроссgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance-{<including-virtue-as-ontology>} for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemparal mental-dispositions behind the superseding of destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality}–of-ontological-performance-{<including-virtue-as-ontology>} need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-

We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-

In this regards, the notion of preconverging-or-dementing-apriorising-psychologism as reflected as of ‘<amplituding/\text{formative}>\text{epistemic-totalising/\text{circumscribing/delineating}} \quad \text{preconverging/dementing–qualia-schema}’ of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of ‘<amplituding/\text{formative}>\text{epistemic-totalising/\text{circumscribing/delineating}} \quad \text{postconverging/dialectical-thinking–qualia-schema}’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<\text{conjugatively-and-transfusively}>\text{the ontological-contiguity—of-the-human-institutionalisation-process}; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<amplituding/\text{formative}>\text{epistemic-totalising/\text{circumscribing/delineating}} \quad \text{preconverging/dementing–qualia-schema}’ by its self-conscious

'amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-
in-supererogatory–epistemic-conflatedness epistemic/notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness postconverging-or-dialectical-thinking–apriorising-
psychologism reflected as of '<amplituding/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring possibility of prior relative-ontological-incompleteness preconverging-or-
dementing–apriorising-psychologism reflected as of '<amplituding/formative>epistemic-
totalising/circumscribing/delineating preconverging/dementing–qualia-schema', and so whether from a retrospective, present or prospective perspective; speaking of the 'miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation', and implying an obligation for any
given registry-worldview/dimension to maximalise this human capacity for Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as of its growing self-consciousness and self-
awareness. In fact, the notion of preconverging-or-dementing–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-
uninstitutionalisation is of a '<amplituding/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' with respect to prospective base-institutionalisation '<amplituding/formative>epistemic-
totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism–procrypticism disposition is all-encompassing as of our <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as ‘postconverging-or-dialectical-thinking–apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking–apriorising-psychologism as of their constructiveness-of-ontological-performance–<including-virtue-as-ontology> reflected as of ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ at their relative-ontological-completeness and preconverging-or-dementing–apriorising-psychologism as of their

‘<amplituding/formative>epistemic-totalising/circumscribing/delineating

equally manifest the same and so-perceived from the prospective relative-ontological-
completeness of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought.
The critical point here has to do with the fact that beyond the ‘contingent-ontologies—as-of-

ontological-contiguity—of-the-human-institutionalisation-process can thus be qualified as the
‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ as its opened-
construct-of-meaningfulness-and-teleology reflects the comprehensive ontological-veracity
of the successive registry-worldviews/dimensions becoming as of ontologically-veridical
difference-confaltedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-
determinism. This ‘true-ontology—as-of-Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
and-teleology’ is ultimately construed as of notional-confaltedness with futural Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as
notional-deprocrypticism, reflecting the fact that the ontological-contiguity—of-the-human-
institutionalisation-process as of successive registry-worldviews/dimensions outcomes can be
construed as one of human successive failings to attain deprocrypticism or preempting—
disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-
epistemic-determinism and so up to the prospective human attaining of deprocrypticism or
preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-

human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology’ highlights that as of our positivism—procrypticism
<amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-

ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-
dissingularisation-as-flawed-epistemic-determinism, we are involved in a fundamental
disjointedness-as-of-reference-of-thought in the sense that we seem to imply in our
<amplituding/formative> epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag that our ‘positivism–procrypticism
contingent-ontology—as-of-conventioning-referencing’ as reflected by our positivist science-
ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology’ in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process that engendered our positivism/rational-empiricism creating as of
epistemic-ricochetting the said science without the science-ideology and the said human
emancipation without the humanism ideology. This fundamental disjointedness explains why
and how our positivist science-ideology and humanism ideology so-misconstrued beyond-
the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-
unthought> rather turns out to be denaturing and undermines prospective Being-
development/ontological-framework-development, and explains our inclination to ask the
wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism
contingent-ontology—as-of-conventioning-referencing’. Such questions with regards to how
the humanities can be further developed as efficaciously as the natural sciences, how can
philosophy be more socially potent, and on the social paradoxes of our suboptimum

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing–apriorising-psychologism’ in order to then ‘prospectively induce originally/as-of-event prospective postconverging-or-dialectical-thinking–apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism contingent-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity will rather be ‘a more candid face-up with our procrypticism/disjointedness-as-of-reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance<-including-virtue-as-ontology> cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing de-mentating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation was relayed by other budding positivists, and so over the destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance<-including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and
take comfort in traditional scholasticism reasoning-from-results/afterthought pedantry as if critical reification will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

in-supererogatory~epistemic-conflatedness level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human
psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20\textsuperscript{th} century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-or-dementing—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness/relative-ontological-completeness-(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative—supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>) of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology is thus of lower to higher ontological-veracity/ontological-performance-<including-virtue-as-ontology> as of relative-ontological-completeness. In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-

Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-
worldviews/dimensions and identifies the nature of the sophist/pedantic inclination in each
and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for

disposition meant at stifling the possibility for prospective transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity, and so beyond-the-consciousness-
awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. In all such
instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle
as well as budding positivists, the notion of dialogical-equivalence and intellectual-and-
moral-equivalence is not a given, and as the sophists commit to sophistry the genuine
intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-&lt;shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema&gt;’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought &lt;amplituding/formative&gt;epistemic-totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-thresholds arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of
dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>’ closed <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance-<including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is about the ‘reasoning-through transversality-of-affirmative-and-unaffirmative,-disambiguated-

The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> surreptitiously defining what can be thought or not thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning-suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning-suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical
ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall <amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and underpinning-suprasocial-construct
meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrypticism is equally subject to our <amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’ with-regards-to-prospective-apriorising-implications>} and underpinning–suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance-{<including-virtue-as-ontology>} which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism or preemption—disjointedness-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism–procrypticism/disjointedness-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

In this regard, we can more specifically appreciate the central and transformative implications of the Socratic philosophers universalising-idealisation as of the prospective universalisation registry-worldview/dimension ‘social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction’, wherein such prospective ‘shiftiness-of-the-Self’ as induced by the Socratic philosophers universalising-idealisation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism inducing the secondnatured institutionalisation of the universalisation registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’ brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance—<including-virtue-as-ontology> as manifested with the Socratic method for universal consistency and coherence, Plato’s ideas for universal consistency and coherence and Aristotle’s qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-of-the-Self’. This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic
philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for ‘universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–sylllogising mindset; as of the knowledge reifying capacity-and-template for developing and cumulating such universalising-idealisation coherence and consistency across culturally diverse peoples and across space and time. The Socratic philosophers crucial and defining emphasis for differentiating themselves from sophists—ideal-type-or-individuation was very much a self-conscious insight as of the requisite parrhesiastic gesturing of ‘intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—'notionally—collateralising-beholdening-protohumanity'-to-'attain-sublimating-humanity'-as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent
existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-

atomising/taking-to-pieces constitutedness as of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity but with little consequence since such an atomising/taking-to-
pieces constitutedness is generally an ontologically-flawed afterthought
reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> scientists generally adopt a conflatedness of existential-contextualising-contiguity posture. The reality of existential-contextualising-contiguity conflatedness here is validated by the fact that ‘abstract scientific notions are not the point-of-departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity in <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity conflatedness to then reflect abstract scientific notions in existential-contextualising-contiguity knowledge-reification or depart from existential-contextualising-contiguity already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity knowledge-reification’. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology/knowledge as physics knowledge-reification. Rather we can better appreciate the occurrence of existential-contextualising-contiguity knowledge-reification as of <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity construal in the sense that our ordinary thought process itself is as of <amplituding/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally <amplituding/formative>epistemic-totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought
of existential-contextualising-contiguity of such notions like space, time, force, etc. in <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity conflatedness to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always epistemic-re-totalising/re-totalising-entailing of ‘the very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity in conflatedness involving human limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation} hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility—effusing/ecstatic—inlining nature of existential-contextualising-contiguity in epistemic-conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existential-contextualising-contiguity in <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in epistemic-conflatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment-{narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},—as-operative-
notional–deprocryptism orientations which drives their knowledge-reification–gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility—effusing/ecstatic–inlining nature of existential-contextualising-contiguity supervening-conflatedness thus rendering its methodology more explicitly totalising-entailing and teleological even as it is often naively and wrongly construed as ‘a relatively weaker natural science’ from a naïve epistemic constitutedness perspective. This underlying \textit{epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity} insight reflects ecstatic-existence’s supervening-conflatedness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<\textit{imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation}>; wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like physics and the natural sciences generally are of a less elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflatedness and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic constitutedness while inherently ‘less immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflatedness that speaks to the need for their appropriate totalising-entailing hermeneutic depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening–(\textit{amplituding/formative} epistemic--

In many ways the natural sciences by the immediate constraining of their ontological-primemovers-totalitative-framework implicitly avoid atomising/taking-to-pieces constitutedness but the misunderstanding that their knowledge-reification—gesturing is effectively as of atomising/taking-to-pieces constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. development-as-infrastructure-of-meaningfulness-and-teleology implies ‘induced human
potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In
this regards we can appreciate for instance that with the positivism/rational-empiricism
modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if
kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-
ontological-incompleteness as of a nihilistic disposition is de-
mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its
vices-and-impediments, and as the very possibility for prospective ontological-performance-
<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-

performance-<including-virtue-as-ontology> equivalence/correspondence with the full-
potency-of-existence-as-of-its-coherence/contiguity’. Can we wish that we don’t have
understanding whether directly, or indirectly as of reifying deferential-formalisation-
transference, so that we aren’t intellectually-and-morally accountable then? How can we
reconcile the fact that given human <amplituding/formative>epistemic-
totalising–thrownness-in-existence the possibility for prospective human registry-
worldview’s/dimension’s institutionalisation enabling transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective
reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue
reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning
knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought
emancipatory possibilities, and then contend to make any given reasoning-from-
results/afterthought knowledge and virtue limits intellectually and morally deterministic as of
a nihilistic <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-
to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

regard, the anti-nihilist stance implies that the very first notion of human ontological-

epistemic-totalising-thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. Reifying-and-empowering-reflexivity-of-ecstatic-existence-aspain intelligibility-<imbued-and-'hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation> ‘speaking epistemically with respect to the overall phenomenal/manifest-subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> including human-subpotency epistemic-perspective’, inherently reflects the veridical-epistemic-determinism as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness in the construal of any such phenomenal/manifest—subpotency-<in-transitive-

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional~projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—

'nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> so-construed prospectively are rather more pertinent) in order to ‘invent’ prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to present day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the <amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold,
represented ontologically as decentered and preconverging-or-dementing–apriorising-
psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental
projection associated with and contributing to such institutional-being-and-craft ‘inventing’.
But then transcendental constructs of meaningfulness going beyond the ‘conventioning
limits’ of a given registry-worldview/dimension by definition are not actually perceived as
‘most critical in value’ going by ‘intradimensional conventions’ which define registry-
worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo,
Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is
an afterthought social recognition by the prospective registry-worldview’s/dimension’s
reference-of-thought institutionalisation, not the social recognition of their own registry-
worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as
transcendental meaningfulness-and-teleology involves psychical and institutional
recomposuring of high contrariety implications to human temporality/shortness as putting
into question the present as prior/old, but then the vocation of all transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity as all knowledge is not about being
responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of
social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of an
intersolipsistic nature. It is equally important to grasp that transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is the more profound origination of
reference-of-thought that enables knowledge conceptualisations, and that the praxis of
knowledge may naively be construed as non-transcendental. So all knowledge is actually
transcendental and this is not to be confused with its distance/remoteness as coming from the
‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic
outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding<-as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-
completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a
registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primes-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiology/ontological-escalation in deprocrypticism conflatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing
and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogisms. Conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought now being construed as preconverging-or-dementing-and-decentered-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology as denaturing.] The defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring—purpose (flaw logical-processing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought-as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation defines a registry-worldview’s/dimension’s uninstitutionalised-threshold; arising in ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations. This ontologically/intemporally represents the postlogic mindsets as preconverging-or-dementing–apriorising-psychologism-

about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction-as-to-profound-supererogation mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism with respect to meaningfulness).

Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction-as-to-profound-supererogation mind to wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather than logical defect (defect of logical operation/processing/contention). This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: reference-of-thought or axioms or categorical-imperatives (reflected-as-soundness-or-authenticity-of-reference-of-thought, by the prospective relative-ontological-completeness-of-reference-of-thought and logic (logical-operation/processing/contention/implicitation-of-act-execution, and so, ‘fundamentally and
reference/teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-authenticity-of-reference-of-thought’). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness as of its unsound-reference-of-thought/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion) as he simply engages his
unsoundness-or-inauthenticity-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of-logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought—for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect> that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity—shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema—as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation—meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’) by the denaturing of the reference-of-thought or the soundness-or-authenticity-of-reference-of-thought of meaning over which denaturing he tries to get interlocutors to operate/process logic; and ‘is not even contending and that he is the subject of prelogism—as-of-conviction-as-to-profound-supererogation contention about his perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought’. The above is the fundamental nature of psychopathy and ‘it should not be lost even more critically at the adulthood stage and the corollary of social psychopathy’ as increasingly prelogism-as-of-
imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing, and enabling ontological-escalation or aetiology/ontological-escalation as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-locales’/aetiology/ontological-escalation. The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply? I.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of
registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-inauthenticity-of-reference-of-thought, i.e., slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-inauthenticity-of-reference-of-thought! Not only that, it is important to note that this unsoundness-or-inauthenticity-of-reference-of-thought as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> do protract and an ignorant prelogism-as-of-conviction-as-to-profound-supererogation mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s ‘denaturing postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity’ as non-veridical and dialectically/contendingly out-of-phase. This is known as conjugated-postlogism/preconverging-or-dementing-integration (whether conjugated to in ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), which is to
be construed as ‘distractive-alignment-to-reference-of-thought and once it is induced by ignorance it leads to an undermining of ‘deductive social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,\textlangle amplituding/formative\textrangle epistemic-totalising~in-relative-ontological-completeness) which protects the internal-coherence of meaning as of soundness-or-authenticity-of-reference-of-thought and corresponding virtue’ and so by way of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at ‘uninstitutionalised-threshold’ of registry-worldviews, with subsequent conjugating ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, the conjugated-postlogism/preconverging-or-dementing-integration is derived from the psychopath’s initiated postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and goes on to lead to social psychopathy; more like a dumb-and-dumb/miscuing degeneration effect. It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-inauthenticity-of-reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’, involve ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) narrative is apparently coherent but ‘construed together as of the retracing of set-of-narratives’ these reveal ‘unsoundness-or-inauthenticity-of-reference-of-thought as preconverging-or-dementing–apriorising-
(as this could vary anywhere from say a few days or weeks to years of supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context projection’ by which interlocutors deduce circumstantially. Thus the postlogic-and-conjugated-postlogic habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-inauthenticity-of-reference-of-thought and perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context insight, but singularly out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context are apparently of soundness-or-authenticity-of-reference-of-thought) come to be endemised and enculturated socially, as of ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’. Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather re-rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-dementing—apriorising-psychologism of adult psychopath/postlogism (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-
or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further preconverging-or-dementing–apriorising-psychologism when wrongly eliciting in an interlocutor logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold-(as-procrypticism)’, thus equally implying a <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism/disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. That revealing unsoundness-or-inauthenticity-of-reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such reference-of-thought–categorical-imperatives/axioms/registry-teleology are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-normalcy to then articulate the necessary ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
existential-contextualising-contiguity which will ‘hollow-constitute’ and falsely validate the deceptive foundation of ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity to be had/entertained nor any logical analysis but rather maximalising-recomposing-for-relative-ontological-completeness invalidating that the implied-logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’.
This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing-apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism-as-of-conviction-as-to-profound-supererogation logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound
statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism even if it is a perception of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ since that will validate the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-
completeness-of-reference-of-thought-devolving-as-of-instantiative-context’) on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism-as-of-conviction-as-to-profound-supererogation re-engaging reflex’ wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising—in-conviction-as-to-profound-supererogation instead of construing a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> ‘preconverging-or-dementing—apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’> as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation> operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (due to the ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> from some interlocutors with no more commitment given the inconsistency of the hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> as absolving/fleeting/escaping-reflex-logic, in time speaking to the fundamental mental denaturing involved in postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and so for the shallowness of the postlogism in hollow-constituting-<as-disjointed-misappropriation-

The general and complete operative psychopath perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> mechanism (it isn’t necessarily completed in all manifestations as is rather a
‘mental roaming/drifting-cycle disposition known as postlogism-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity <as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’.

Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations).

It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting-<as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrypticism/notional-disjointedness-as-of-reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’ initiated by the psychopath’s postlogism in hollow-
Paradoxically, the normal prelogism-as-of-conviction-as-to-profound-supererogation mind is so attached by supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism-as-of-conviction-as-to-profound-supererogation in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry – implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology – of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogisms//outcome-sought-precedes-logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s
conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’, contrasted to the psychopath’s compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or compulsively-dementing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction-as-to-profound-supererogation mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism (it has qualms/conscience) while the psychopath’s compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction-as-to-profound-supererogation dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction-as-to-profound-supererogation mind deterministic of other prelogism-as-of-conviction-as-to-profound-supererogation minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallelisation of mere formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-
mere-illogical-possibility-of-it-being-formulaically-narrated) with their corresponding prelogism-as-of-conviction-as-to-profound-supererogation-or-intrinsic-attribution veridical-meaningfulness elements (which are subknowledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’ as subknowledging ‘prelogism-as-of-conviction-as-to-profound-supererogation toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as subknowledging ‘prelogism-as-of-conviction-as-to-profound-supererogation suppositions’; ‘folie-raisonnante/non-veridical assumptions’ as subknowledging ‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex-logic’ as subknowledging ‘prelogism-as-of-conviction-as-to-profound-supererogation logical operation narratives’; inductive/contextual limitation as subknowledging ‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledging ‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledging ‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.’ as subknowledging ‘intrinsic-attribution of acts as inherently right or wrong’. On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copyed-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of postlogic compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ construed as ‘reverting deduction’ whereas ‘supplanting–conviction-as-to-profound-supererogation—
postconverging/dialectical-thinking–apriorising-psychologism deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledge ‘revert or postlogic compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation backtracking—iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledge). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-

It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnante, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism-as-of-conviction-as-to-profound-supererogation mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing postlogic-backtracking-<iterative-looping-’set-of-dereifying-hollow-narratives-and-acts’>-with-‘successive-shifting-of-the-narratives-and-acts-
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or slantedness/threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism-or-mimicking-or-subknowledging, when this is not socially universally transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality—(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation
involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors).

Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness)-but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism-as-of-conviction-as-to-profound-supererogation interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/solipsistic-point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at the point of lack of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) about the psychopathic postlogism/slantedness compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (and wherein there is no universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) about temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation), becomes ‘affordable’ (as it doesn’t think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds a temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives to copy it adhocly, as a
successful way of going about one’s temporal-self-interest). There is equally a social
dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism-
as-of-conviction-as-to-profound-supererogation alignment to psychopath-and/or-the-
protracted-postlogism’ comes to override the issue of ‘intrinsic rightness’ leading to what is
known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in
turn (because individuals find ‘apparent social success and conventioning/social-temporal-
thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of
social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and
the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that
endemise/enculturate this process thus becoming conjugated-postlogism, is known as
‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is
more important and critical in gaining their support than the notion of intrinsic
truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism. Ontologically, this requires an
altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of
such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-
discontinuous. This author qualifies as procrypticism preconverging-or-dementing–
apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the
‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that
reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the
positivistic mind can’t afford to compromise positivism to non-positivism/medievalism)
exactly for the ‘intemporal good-of-man’.
At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing-apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘perverted-outcome-sought-precedes-existentially-veridical-log-ical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking-apriorising-psychologism interlocutors, and so along five factors:

- MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-inauthenticity-of-reference-of-thought/slantedness become harder to perceive);
- INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faultymentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner);

- SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound);

- CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slantering—preconverging-or-dementing-apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slantering—preconverging-or-dementing-apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slantering’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparent, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism or ‘uninstitutionalised-threshold’) of many an interlocutor;

- CRAFTINESS (with increasingly greater crude-to-polished threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation construes meaningfulness as a hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> construct driven as an threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism exercise (with respect to same-terms-of-expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as determining of others/conviction-as-to-profound-supererogation interlocutors behaviours and mental-dispositions; this is rather crude with the childhood-psychopath/cinglé such that it fails to elicit supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism in others as the postlogic-effect is rather ‘delirious’ then (as in the case of wetting a chair) but the postlogism at
the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated.

But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex-logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-
deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, which is what validates logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), in the formation of a basic and normal prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) mindset/reference-of-thought’ inducing rather a postlogic compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mindset/reference-of-thought as it relates to meaningfulness as a faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction’ (explaining its absolving/fleeting/escaping-reflex-logic mental-disposition); rather than as of the ‘requisite existentially veridical logical-dueness (of apriorising—reference-of-thought-elements/apriorising—registry-elements) and logical-processing-soundness driven construct’ associated with a prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mindset/reference-of-thought. And this fundamental faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction of its postlogic compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mindset/reference-of-thought then goes on to account for the developmental psychology of
the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism failing/not-upholding-as-of-apriorising/axiomatising/referencing experiences at childhood and early adolescence to achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mindset/reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising–reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–<(amplituding/formative)>epistemic-totalising–in-relative-ontological-completeness) of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–<(amplituding/formative)>epistemic-totalising–in-relative-ontological-completeness)
of temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)’, then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-
reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social universal-transparency-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness> on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness> of its postlogism-slantedness to many a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’).

Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) or temporal (shortness-of-register-of-meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing
the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory-dementativity/civilisation, in an intemporal-preservation-entropy-or-contiguity—or–ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity—or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as deprocrypticism (preempting procrypticism, so construed by ‘deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s
institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought--<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protrated-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-reference-of-thought of mental-devising-representation and the articulation of new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversion-of-reference-of-thought--<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> include:

In the bigger scheme of things such ‘institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>’ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically<-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon
fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> that is). Hence ‘our homework’ is to articulate our very own perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-induced.-‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, as-it-is-thus-‘in-wait’–for-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-reference-of-thought of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing–apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)!
It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human
mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemoralisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-<as-to-historiallity/ontological-eventfulness/ontological-aesthetic-tracing> de-mentating/structuring/paradigming, utilising the outcome of previous institutional-cumulation/institutional-recomposure-<as-to-historiallity/ontological-eventfulness/ontological-aesthetic-tracing> effort. Hence the dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation instigation recurrently inducing the institutionalisation/intemoralisation process (is not analogical but a contiguous notion by it intemoral-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure-<as-to-historiallity/ontological-eventfulness/ontological-aesthetic-tracing>) applies universally across space and time (beyond the institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemoralisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-<as-to-historiallity/ontological-eventfulness/ontological-aesthetic-tracing> analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendancy-and-continuity of intemoral-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e., memetic contiguity as the underlying
psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism with the corresponding ‘collapsing’/overriding and preconverging-or-dementing–apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of the prior registry-worldview/dimension ‘mental-devising-representation’ as preconverging-or-dementing–apriorising-psychologism/decandored/dialectically-or-contendingly-out-of-phase consciousness-awareness-teleology by the new registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology (and so deterministically and operantly without any discretion of appraisal which wrongly leads to postconverging-or-dialectical-thinking–apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> mental-devising-representation) such as recurrent-utter-uninstitutionalisation ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by base-institutionalisation, ununiversalisation ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by universalisation, non-positivism/medievalism ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by positivism, and prospectively, procrypticism ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by deprocrypticism. This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation, this is just a mental-devising-representation for implying intemporality-of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s
uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/suprerogatory—dementativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then represented as preconverging-or-dementing–apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation—suprerogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity—shallow-suprerogation-of-mentally-aesthetised—preconverging/dementing—qualia-schema>—as-of-epistemic-decadence in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative-looping—set-of-dereifying-hollow-narratives-and-acts’> stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation>, beyond their <amplituding/formative>epistemic-totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present. Hence we know of the following stranded registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation,
ununiversalisation, non-positivism/medievalism and prospectively procrystalism/disjointedness-as-of-reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrystalism.

Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows:

(i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-’preconverging-or-dementing–apriorising-psychologism-or-subknowledging-or- perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–and-corresponding-<amplituding-formative>epistemic-totalising~self-referencing-syncretising’ relation to meaningfulness).

(iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding non-positivism/medievalism (as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of universalistic meaningfulness).

Thus in the bigger scheme of things, just as a contrastive dialectical insight (from our present vantage position of the positivism backend of the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process), will strongly highlight by ‘de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’, recurrent-utter-uninstitutionalisation, ununiversalisation and non-positivism/medievalism as non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated as in perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and-not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-
mentation—stranding-or-attributive-dialectics) of our perversion-of-reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> as of the reference-of-thought–categorical-imperatives/axioms/registry-
teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of
our registry-worldview/dimension (positivistic meaningfulness) as procrystalism/disjointedness-as-of-reference-of-thought. Noting as well that uninstitutionalised-thresholds like recurrence-of-utter-uninstitutionalisation, base-
institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism
equally had a sense of straightness/candor of their meaningfulness in a full blossoming of
their own existentialism/full-existential-depth-implications de-
mentating/structuring/paradigming as we do in our positivistic/procrystalism registry-
worldview, within the ambi of their the-Good/understanding/knowledge-
reification/ontological-primemovers-totalitative-framework conceptualisation. But then their
stranding from their prospective institutionalisation/intemporalisation represents them as
oblongated/decauned/dialectically-or-contendingly-out-of-phase/dialectically-primitive as
the transcendental backdrop/opportunity for the prospective registry-worldview/dimension.
This when extrapolated will equally apply with our present positivism/procrystalism
uninstitutionalisation/unintemporalisation for futural Being-development/ontological-
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology as of prospective depocrystalism
institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with
our illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-
syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-
thought (from ontological-normalcy/postconvergence epistemic/notional–projective-
perspective). This equally explains why uninstitutionalised-thresholds equally carried a
complex about their registry-worldview/dimension and these complexes certainly sound
unintelligible to us given our vantage perspective at the backend of the institutional-
cumulation/institutional-recompose-as-to-histoliality/ontological-
eventfulness/ontological-aesthetic-tracing process.

With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises
the issue of notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-
mentally-aestheticised-preconverging/dementing-qualia-schema (undisambiguation as
temporal-to-intemporal-dispositions are wrongly given the same elevation), and relevantly so
at the procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold.
The very specific nature of the deprocryptic transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is to recognise and
articulate the veridicality of the fact of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at the procryptic
uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just
logical operation/processing/contention of narratives but rather in the first instance
introducing the notion of ‘temporal-to-intemporal-dispositions disambiguation’ to avoid
wrongfully operating/processing of logic by the reference-of-thought of the intemporal-
disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-
temporal-preservation-entropy-or-contiguity–or–ontological-preservation which is
ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are
actually temporal-dispositions thus to be construed as of their temporal references-of-thought.
It involves de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-
mentation—stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing
and thus to avoid elevating temporal-dispositions to intemporal logical contending status as
this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity-
<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-
schema>. Deprocrypticism institutionalisation/intemporalisation takes stock of the
veridicality of human-subpotency-aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable
iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex
to be postconverging constructs, to emphasise the
‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing
(‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-
reality/ontological-veridicality transcendent-al-enabling/sublimating/supererogatory–
dementativity)’ for the fulsome articulation of ontology as ‘abject (postconvergence)
ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-
memetic-depth (thinking-and-preconverging-or-dementing-dialectical-dynamism-or-
dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-
perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation (unlike all prior institutionalisations which are rather intradimensional in their
meaningful-depth construed only as a closed <amplituding-formative>epistemic-
totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
‘postconverging-or-dialectical-thinking–apriorising-psychologism dynamics’). As a
corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more
veridical nature of meaningfulness beyond intradimensionality as being
transdimensional/transcendental) should be notional and reflect this temporal-to-intemporal-
dispositions nature of deprocrypticism institutionalisation/intemporalisation to the point of
inducing a collective consciousness/social universal-transparency-(transparency-of-totalising-
entailing,-as-to-entailing-<amplitudding/formative>epistemic-totalising–in-relative-ontological-completeness of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of temporal-to-intemporal-dispositions individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-
capacity) as a result of the inherent ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supero-rogatory–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrysticism, and prospectively highest with deprocrysticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview.

Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-temporal-to-intemporal-dispositions–implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of-meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-thresholds) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking–apriorising-psychologism—by—preconverging-or-dementing–apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto
been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, deprocrypticism going by ontological-normalcy implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking–apriorising-psychologism—by—preconverging-or-dementing–apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation, as-prospective reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the institutionalisation/intemporalisation ideal (ontological-normalcy) culminating with deprocrypticism. The paradox of ontological-normalcy/postconvergence brought to bear with deprocrypticism will imply ontologically/intemporally that a registry-worldview/dimension-and-as-of-all-successive-registry-worldviews/dimensions can be seen as being in ‘preconverging-or-dementing–apriorising-psychologism hollow-constituting-&lt;as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation&gt; defect’ in need of ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-
(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ over an intradimensional <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag analysis. Insightfully, it implies the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework illumination driven institutionalisation over an impression-driven/good-naturedness/wishfulness conceptualisation as the-Good sticks by essence to intemporal-preservation-entropy-or-contiguity—or–ontological-preservation and reinvents reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation for prospective/transcending/superseding registry-worldview to comply with intemporal-preservation-entropy-or-contiguity—or–ontological-preservation when the prior one fails, while the latter sticks by form to reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation whether this fails intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation or not. The conceptualisation of reference-
of-thought–categorical-imperatives/axioms/registry-teleology refers to the same
deconstructed/ontological-reconstituting–as-of-conflatedness notion; axioms emphasises and
hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality,
categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and
‘enforcing’, while registry-teleology (short for the apriorising–registry-elements as implied—
logical-dueness-or-scape/profile-or-stature/presumptuousness-or-
arrogation/assumptions/value-reference/teleology) emphasises the ‘operant’ aspect as of
human situatedness existential-instantiation elements implied when producing
meaningfulness-and-teleology. The reference-of-thought is the fundamental-dispositional
mentation architecture for human referencing or construing of meaningfulness-and-teleology,
and is capable of ontological-reconstituting–as-of-conflatedness/deconstruction involving de-

This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought is still relevant where there is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expeditiously or unconsciously). Soundness-or-authenticity-of-reference-of-thought on the other hand implies being-or-ontological-or-existential-or-meaningfulness-and-teleology disposition as of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) nature of intrinsic-reality as ontological-normalcy/postconvergence
(prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)’, in reflecting/perspectivating/highlighting ‘the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the de-mentation-

sound reference-of-thought status’. To illustrate, suppose X and Y are contending
(ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X
is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand
how to stack up the pencils to use to count the whole lot, then where his answer was to come
out as 5+4=8, we talk of defect–of-logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to
produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the
notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking–
apriorising-psychologism’/possibly-of-soundness-or-authenticity-of-reference-of-thought in
contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with respect to
another arithmetic operation, that is, possibly after pointing out to X where they went wrong
in their operation of arithmetic. While threshold-of–nonconviction/madeupness/bottomlining-

imagined pretext is a legitimate one with emphasis being rather on established
dominance/subservience relations, with base-institutionalisation the mentation was to

Interestingly, while the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation explains how and why successive institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological—
eventfulness/ontological-aesthetic-tracing> are at their given institutionalisation levels on the basis of a memetic suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intradimensional ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘preconverging-or-dementing–apriorising-psychologism phenomenon’ like psychopathy and social psychopathy (with respect to procrypticism or perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations dispositions wherein intradimensionally, the ‘socially-betraying-threshold-of-ontologising-depth-of-analysis’ (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism) is rather an overall registry-worldview/dimension perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> aftereffect rather as an indirect comprehensive socially-betraying-threshold-of-ontologising-
channelling of such emancipation/transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold∕(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-⟨including-virtue-as-ontology⟩ ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’∕socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to ignorance∕affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold∕(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-
performance-<including-virtue-as-ontology> of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold of the registry-worldview/dimension (procrpticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ preempting the said perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of convenioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality,
racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming, contrasted with a temporal extricatory de-mentating/structuring/paradigming, is necessarily the prospective
transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s recomposed-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ aligned with ontological-normalcy is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposed)-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our
corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is one that aligns with and is driven by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wherein ontological-normalcy is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy (postconvergence) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or deprocrypticism as having ‘sound reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly devoid of reference-of-thought, and so going by the inherent human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same form-factor since their ‘snowballed differences’ arise solely due to ‘the deepening of limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation)’. Ontological-normalcy as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-normalcy (shifts-in-the-curve-of-human-grasp-of-one-ontology/’ontological-reference-of-veridicality’,
which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-veridicality/ontological-completeness’ as the institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> on the other axis or dialecticisms-of-an-imperfect-human-grasping-of-‘ontological-reference-of-veridicality’-which-mastery-improves-dialectically) which rather implies defects of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or unsoundness-or-inauthenticity-of-reference-of-thought of corresponding prior/transcended/superseded registry-worldviews/dimensions implying a voiding of their reference-of-thought as ontologically-veridical as these become the subject of contention and aetiologisation/ontological-escalation from the corresponding prospective/transcending/superseding registry-worldviews/dimension which is then the ontologically-veridical reference-of-thought. It should be noted that a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (unlike a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) implies movement-along-the-same-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought of a given registry-worldview’s/dimension’s reference-of-thought whether as an inappropriate/poor-or-bad or appropriate/good or any other variation of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and doesn’t fundamentally voids the ‘sound reference-of-thought status’ with regards to the possibility of an appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in another instance. This insight is critical because the defect–of-logical-processing-or-logical-

and-specific-shallow-contexts-scale-of-implications’ but can be more profound involving
institutions and individuals contextualisation as individuals-lives-and-institutional-lives-
scale-of-implications and in the bigger scheme of things where such dynamics involve social
de-mentating/structuring/paradigming effects on perceived meaningfulness and values in the
overall social-setup it has a social-structure-scale-of-implications (specifically not only in
terms—as-of-axiomatic-construct of vices-and-impediments but also in undermining the
enculturation of intellectual/emancipatory dispositions). Effectively, such a

respect to interlocution (in the very first instance), and enabling the second instance of engaging in terms—as-of-axiomatic-construct of logical pertinence to establish (postconvergence) ontological-veridicality/ontological-contiguity. Typically, such an insight with regards to compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is obvious and transparent with respect to the childhood psychopathy/cinglée mental-disposition, given that an initial encounter often involves a natural ‘postconverging-or-dialectical-thinking—apriorising-psychologism reflex’ by the interlocutor with respect to their initial narratives but after some familiarisation we come to understand that the initial narratives are in fact preconverging-or-dementing—apriorising-psychologism and thus our expectation of the subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-representation as a ‘preconverging-or-dementing—apriorising-psychologism reflex’. This preconverging-or-dementing—apriorising-psychologism veridicality explains both the childhood and adult psychopath disposition for absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic-attribution wherein the mental-disposition is to move postlogically/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ and not an articulation of supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or existential-contextualising-contiguity principle of reification, be it by adhering to the mere hollow form of principles and narratives in existential-decontextualisation as being deterministic of others inclinations and actions. Intrinsic-reality in its ontological-normalcy/postconvergence indicates that effectively the conjugating/inflecting/deriving/mimicking/in-protration-to-psychopathic-
preconverging-or-dementing–apriorising-psychologism (which is often the case with the adult-psychopathic preconverging-or-dementing–apriorising-psychologism) whether unconscious (ignorance) or conscious (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) effectively underlies an ontologically valid mental-devising-representation reflex as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought of such protracting threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

insight that is preceding/superseding to any hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of shallow limited-mentation-capacity-as-of-relative-constitutedness, will elicit a same defect disposition thus the need to fundamentally undermine reference-of-thought of the registry-worldview/dimension at that uninstitutionalised-threshold that endemises/enculturates the ontological-or-existentential-defect due to its socially-betraying-threshold-of-ontologising-depth-of-analysis. It should thus be noted that the preconverging-or-dementing–apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-of-conflatedness/deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting–as-of-conflatedness/deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy is already a defective state ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy by the mere fact that we are at the backend of the
institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an abject hermeneutic circle exercise of ontological-reconstituting–as-of-conflatedness/deconstruction (of our temporal-to-intemporal-dispositions nature)’ how procrypticism (preconverging-or-dementing–apriorising-psychologism as to mere formulaic positivistic meaningfulness-and-teleology) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-of-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing reference-of-thought and ontological-veridicality/ontological-contiguity as intemporal-preservation-entropy-or-contiguity–or-ontological-preservation, above and beyond the simple hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of defective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying
meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposeur-<astro-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of ‘a same form-factor’, with regards to the reality of their temporal-to-intemporal-dispositions and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)) is attained by ‘keeping or aligning’ preconverging-or-dementing–apriorising-psychologism (with no shifting by reflex into postconverging-or-dialectical-thinking–apriorising-psychologism) of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of the wrong ontological-references/contending-references of all established perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> prior/transcended/superseded registry-worldviews/dimensions, in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> failing/not-upholding-<as-of-apriorising/axiomatising/referencing> the reference-of-thought–categorical-imperatives/axioms/registry-teleology.-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with respect to ontological-

A ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (as to ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing–apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ or of preconverging-or-dementing–apriorising-psychologism as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any presencing—absolutising-identitive-constitutedness distorted meaningfulness-and-teleology. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) as the prospective/transcending/superseding registry-worldview/dimension has the-

constraining deterministic constructs which have to be exploited by the mere determinism-of-

the institutionalised/intemporalised reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-reconstituting–as-of-conflatedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/temporal-to-intemporal-dispositions inherent in a limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation); any resolution is not by wrongly implying any ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of-meaningfulness-and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology-or-hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> individuations dispositions); with corresponding percolation-channelling facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the
consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity!

Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to-reference-of-thought/decandoring with three de-mentative/structural/paradigmatic teleologies:
- subknowledging-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>);
- subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and
- the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging-impulse/compulsive-dementing-temporal-disposition-(psychopath) and the subknowledging-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the dementation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’ (acting as if in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence dementable/no-longer-
thinking) due to \textit{amplituding}/formative>epistemic-totalising~self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion-of-reference-of-thought\textlangle as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textrangle as-of-unsoundness-or-inauthenticity-of-reference-of-thought-defects (and not logical defect) of compulsive-slanting—preconverging-or-dementing-apriorising (psychopath) and the consequent derived – miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation; arising from the conjugation with the relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism. The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of-reference-of-thought\textlangle as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textrangle as to preconverging-or-dementing–apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others
‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> existential mental orientation to avoid postconverging-or-dialectical-thinking-apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms-as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory-de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-authenticity-of-reference-of-thought, and so
beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism/disjointedness-as-of-reference-of-thought.

The dynamism of social psychopathy and the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’) can be resumed as follows. Basically, the psychopath is involved in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus
reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the de-
mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—
stranding-or-attributive-dialectics) of temporal-dispositions denaturing of social psychopathy
(subknowledging/mimicking) arising from initiating phenomenal psychopathy
(subknowledging impulse) involving a distractive-alignment-to-reference-of-thought
construal (as the backdrop of new recomposuring reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation and ultimately enabling its transcendental collapsing/overriding
for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). That's how
the 'given reality’ is being subknowledged/registry-perverted. The technique to be utilised
comprehensively for grasping the social psychopathy dynamism is by articulating an
intemporal-referencing transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing ontological-normalcy/postconvergence reality construct
(by intemporal transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence is meant
an approach that makes the given prelogism-as-of-conviction-as-to-profound-supererogation

slantedness/deandoring)/distractive-alignment-to-reference-of-thought based on:

1. Given prelogism-as-of-conviction-as-to-profound-supererogation reality actually
being preconverging-or-dementing–apriorising-psychologism/subknowledged/registry-
perverted (which ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-

intemporality/longness from banal <amplituding/formative>wooden-language-{imbued—

2. Psychopath’s compulsive-slanting—preconverging-or-dementing-apriorising (as dialectically-or-contendingly-out-of-phase or hollow-mimicking) in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<-iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> as absolving/fleeting/escaping-reflex-logic in committed ‘circularity-of-extrinsic-attribution’ (it should be noted that there is an internal contradiction reason why the psychopath in its postlogism in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and equally other temporal interlocutors mimicking the psychopath’s postlogism in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, will carry on such a ‘circularity-of-extrinsic-attribution’ as the need to square up to the priorly slanted hollow mimicking narratives call for new slanted hollow mimicking perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> narratives even if it’s just to get a respite to enable an interlocutor’s or another interlocutor’s prelogic/conviction-as-to-profound-supererogation alignment to the new hollow mimicking postlogism-formulaic slanting compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation narrative, a process known as absolving/fleeting/escaping-reflex-logic),

4. Analyst’s reflection/perspectivation of the above 3 mechanisms as postlogic/subknowledging/mimicking/registry-perverting with contention never being about logical operation/processing/contention of the non-veridical hollow mimicking narratives but rather mental-slantedness/decandoring (distractive-alignment-to-reference-of-thought) of the psychopath and the interlocutors as ‘a manifestation of vice-and-impediment (never contention), i.e. rEORIENTATION’,

5. Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal ontological implication of social psychopathy dynamism across the human species (across space-and-time)/the-social/ontological—de-mentating/structuring/paradigming is drawn so that the principles so articulated can be applied in all incidental cases of social psychopathy dynamism (with the intellectual responsibility of avoiding just an ad-hoc/circumstantial based analysis and never elevating such poor rationalisations into an ontology, i.e. avoid the extrication de-mentating/structuring/paradigming).

SUPRASTRUCTURING effectively involves: (a) ‘registering’/de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) of the perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> associated with
<amplituding/formative>epistemic-totalising–self-referencing-syncretising), inducing a ‘habitation’ of the prospective/superseding/transcending registry-worldview/dimension crossgenerationally. For instance, de-mentatively/structurally/paradigmatically the positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or the referencing/registering/decisioning of meaning in terms—as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/abjected, for instance, retrospectively the ‘god of plane’… type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist reference-of-thought–categorical-imperatives/axioms/registry-teleology, and this will equally apply prospectively between deprocrypticism and procrypticism as the procryptic mindset/reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow—
supererogation> registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct).

This way of hermeneutic ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any <amplituding/formative>epistemic-totalising-self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the Deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought<<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new
<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness so-construed as longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology’; and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct carrying a virtue that supersedes the vices-and-impediments of the non-positivism/medievalism registry-worldvieww/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.
Referentialism involves a reference-of-thought (characteristic of deprocrypticism) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of conflation rather than constitutedness (notwithstanding the instances of the latter’s contingent approximating-nature for conceptualisation/construal construed as presencing—absolutising-identitive-constitutedness). Constitutedness tend to fallaciously imply ‘existence of things in existence’ whereas conflation rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness of reference-of-thought’ perpetually when aware of its deficiency. Conflation takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of metaphysics-of-absence, and as implied by the notion of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation that goes beyond <amplituding/formative>wooden-language-<imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology> which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor
in human limited-mentation-capacity-deepening-(amplituding-formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) by a re-equilibrating metaphysics-of-absence/postdication. Thus, constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a contingent resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-construct/reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidationoutsideexistential-contextualising-contiguity) that will then require another contingent resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening-(amplituding-formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are
only occasionally and partially aware about the critical defective nature implied by constitutedness in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing-reflexive/entailing-teleologyal-differentiation-as-of-subtransversality—apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or derived-perversion-of-reference-of-thought-<as-effectively-apriorising-
in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>; and as such, constitutedness will speak of subtransversality—apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘constitutedness and conjugated-constitutedness of reference-of-thought’ including psychopathic slantedness constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening-(<amplituding/formative>epistem-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) induced constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold mental-disposition’ (since such a construal fully reflect the reality of a human temporal-to-intemporal reference-of-thought nature, with high ‘constitutedness and conjugated-constitutedness of reference-of-thought’ of temporal-dispositions reference-of-thought, much like the ‘conjugated-constitutedness of reference-of-thought’ of the other BODMAS characters to A’s fundamental postlogism-slantedness pathological condition/constitutedness as when insisting on upholding the <amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) and not factoring in A’s underlying condition and defect as constitutedness, and so out of sync with the existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as the more fundamental a priori whose imbricatedness/threadedness/recomposuring reveals the fundamental defect of applying additionality reference-of-thought–categorical-imperatives/axioms/registry-teleology by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity.). The resolution by imbricatedness/threadedness/recomposuring is most telling of the inherent nature of conflation which is conceptually associated with ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; as conflation speaks of a more profound relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) by a re-equilibrating metaphysics-of-absence/postdication, and so even when elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity is denaturing as exposed by existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, to further construe new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation factoring in the imbricatedness/threadness/recomposuring reflecting the existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Conflation, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being the preceding notion
for construal/conceptualisation with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, and so grasped as conflation emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Hence conflation will tend to avoid systemic defects of analysis associated with constitutedness requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. Conflation is thus naturally inclined to induce ‘appropriate-existential-elevation-of-reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Diffèreance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated temporal-to-intemporal-dispositions. Further, constitutedness and conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding,
and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-teleology not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as of fundamental/most-simplistic constitutedness socially reprised with ‘conjugated-constitutedness of reference-of-thought’) as well as grasping fundamental dynamics of institutions and especially as influenced by the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} which is highly subject to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (emphasising socially-functional-and-accordant thresholds rather than abject ontology, thus giving room for ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’). These two concepts are critical relative to grasping and analysing human
choice/notions relative to reference-of-thought–categorical-imperatives/axioms/registry-teleology of meaningful-frameworks. Other implications have to do with human personality development psychology in relation to meaningfulness extending to the construal/conceptualisation of language development as well as aesthetics and virtue as reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. In a further elaboration of constitutedness and conflation with respect to psychologism, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct reference-of-thought psychologism has to do with the fact that every registry-worldview/dimension has ‘its own specific constitutedness/conflation psychological complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology, achieved by ‘presencing—absolutising-identitive-constitutedness’ as constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior constitutedness of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation
psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology as rather the mental-disposition apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of ‘<amplituding/formative>epistemic-totalising-nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in‐‘warped-consciousness’‐enabling-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or‐incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’ (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of meaningfulness-and-teleology orientation as we construe of arithmetic and mathematics in say a universalisation or positivism registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
and-teleology like the notion of wealth accumulation, which will be predominantly about
‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so
together with other cultural peculiarities that avoid hoarding and emphasise wealth display,
gifts, etc. Psychologism (as being central in conflation or rather ‘presencing—absolutising-
identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of
constitutedness), refers to the underlying human reflex mental scheme of a given registry-
worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede
its psychological complex in construing ontological-primemovers-totalitative-framework
transcendental-enabling/sublimating/supererogatory-de-mentativity and corresponding
meaningfulness-and-teleology’. The bigger question could be asked; why doesn’t humans in
recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-
and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do
likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise
as humans in positivism–procrypticism? Is it a difference in species, as of successive species?
Obviously, no! As we know from history and anthropology that cultural diffusion has shown
that all humans are able to come to terms and operate at the highest forms of human registry-
worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a
registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-
setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising
and determined by its specific limited-mentation-capacity-(as of relative constitutedness in
relation to conflation) construal/conceptualisation as soundness-or-authenticity-of-reference-
of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility
construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given
their limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-
as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing⟩ which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of temporal-to-intemporal-dispositions further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-
worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in excluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. Such a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ by its contiguity in grasping the implications of human temporal (pseudointemporal)-to-intemporal mental-dispositions as a contiguity of shortness-to-longness-of-register-of-meaningfulness-and-teleology should be predicative of human meaningfulness-and-teleology (much the same way that the notion of temporality-to-intemporality thresholds driven construal enables an existentially operant <amplituding/formative>epistemic-totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in–‘protensive-consciousness’-enabling-

when factoring in such mental-dispositions as believing in superstitions, alchemy, notions-

meaningfulness-and-teleology as value-reference of every registry-worldview/dimension at
the backend of the institutional-cumulation/institutional-recomposure–<as-to-
historiality/ontological-eventfulness/ontological-aesthetic-tracing> as the absolute
determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as
consciously decentering and pivoting with respect to human psychical and institutionalisation
implications), for prospective transcendence-and-sublimity/sublimation/supererogatory–
dementativity, as it doesn’t factor in the said registry-worldview/dimension prior relative-
on-ontological-incompleteness-of-reference-of-thought to then project that there may be a
prospective relative-ontological-completeness-of-reference-of-thought which
meaningfulness-and-teleology as value judgment transforms psychological-
construal/psychologism. The best possible outcome in this regard is as of the construal of a
‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism
as of the grander ontological-normalcy/postconvergence
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it
establishes prospective relative-ontological-completeness-of-reference-of-thought by social

existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. As setting up the relevant contingent psychologism is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by successive registry-worldviews/dimensions construals/conceptualisations by their contingent prospective relative-ontological-completeness-of-reference-of-thought by social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (that is, ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing-psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’), and so successively across all registry-worldviews/dimensions, whether retrospectively or prospectively. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-deepening–limited-mentation-capacity as limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence— as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) inducing the successive registry-worldviews/dimensions institutionalisations reference-of-thought with their own ‘specific institutionalisation/uninstitutionalised-threshold mental-

notional—deprocrypticism further enabling the abstract intemporal/ontological contiguity
grasp of human ‘individuation-level and registry-worldview/dimension-level meaningfulness-
and-teleology’ as it can accrue at the intradimensional-level of individuals-notionally-as-
receptacles-of-temporal-to-intemporal-individuations and individuals-as-institutionally-
constrained-actors-as-of-intersolipsistic-deambulation, and hence ontologically-adjoins in its
construal/conceptualisation the construct of the individual and the social as of
‘deprocrypticism suprastructuration’ or ‘deprocrypticism suprastructural psychical-and-
institutionalisation orientation of meaningfulness-and-teleology synopsising-depth as of the
overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’
(just as in the natural sciences, physics ontologically-adjoins chemistry and chemistry
ontologically-adjoins biology). This is in contrast with an ontologically non-contiguous
to be perceived and construed as of the (recomposured)-consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of conflation (including ‘presencing—absolutising-identitive-constitutedness’) can be conceptualised across all transcendence-and-sUBLImity/sublimation/sUPererogatory-de-mentativity as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) as the prospective registry-worldview/dimension institutionalisation reference-of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought in its ‘constitutedness and conjugated-constitutedness of reference-of-thought’ with respect to the prospective registry-worldview/dimension institutionalisation reference-of-thought overall existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context meaningfulness-and-teleology; (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective conflation) supersedes mythical/supernatural/alchemic explanations psychologism (as of prior constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating/sUPererogatory-de-mentativity’; interestingly, highlighting how and why transcendence-and-sUBLImity/sublimation/sUPererogatory-de-mentativity for prospective institutionalisation is construed in transcendental-enabling/sublimating/sUPererogatory-de-mentativity terms as its strive for a prospective relative-ontological-completeness-of-reference-of-thought necessarily
implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of conflation will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, as of ‘intemperal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness and conjugated-constitutedness of reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening-\langle\text{amplituding-formative}\rangle\text{epistemic-totalisingly, as to existence— as sublimating-withdrawal, eliciting of prospective supererogation}\rangle\text{to constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; deprocripticism by its very transcendental essence comprehensively comes into grips with the constitutedness in positivism–procripticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness’ but an overall comprehensive conflation insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procripticism. Conflation as of ontological-
<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness} that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiology/ontological-escalation as of ontological-reconstituting-as-of-conflatedness; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an
uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation–(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentionation–(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-thresholds of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentionation–(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-thresholds by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentionation–(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation,
universalisation and positivism, though probably less so of deprocrypticism institutionalisation as it points to the decentering and de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attribute-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of conflation as of centering and postconverging-or-dialectical-thinking—apriorising-psychologism reference-of-thought implied with institutionalisations and constitutedness as of decentering and ontologically/preconverging-or-dementing—apriorising-psychologism reference-of-thought implied with uninstitutionalised-thresholds; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism—procrypticism from a deprocrypticism perspective, just as we’ll recognise for instance that a universalisation—non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as
decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of <amplituding-formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its
more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is grounded on such an underlying reference-of-thought associated with organic-
knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primumovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> conjure up explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—dementativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primumovers-totalitative-framework outcomes as its mechanical-knowledge aspect but further requires a development of the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-
and-institutionalisation orientation of meaningfulness-and-teleology synopsising-depth as of
the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-
teleology’, and not the prior/superseded/transcended uninstitutionalised-threshold
psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation
as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied
reference-of-thought of meaningfulness-and-teleology as of crossgenerational
psychoanalytic-unshackling involving <amplituding/formative>epistemic-totalising–self-
referencing-syncretising/circularity/interiorising/akrasiac-drag towards the ultimate
crossgenerational alignment to the prospective/transcending/superseding registry-worldview
reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly,
and so across all successive institutionalisations, what tends to be lost ‘the failure to register
fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-
primemovers-totalitative-framework validating the institutionalisation of ‘mechanical-
knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive

attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight

Likewise, futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation meaningfulness-and-teleology implies that transcendence-and-sUBLIMITY/sublimity/sublimation/supererogatory—de-mentativity rather reasoned in our positivism—procrypticism terms of psychologism is inevitably denaturing as of ontological-normalcy/postconvergence epistemic/notional—projective-perspective; as it is in need of the organic-knowledge of the prospective institutionalisation psychologism or deprocrypticism psychologism as conflatedness (conflation psychologism) on the basis of the ‘referentialism technique of point-referencing (explained elsewhere), which involves ‘contrastive temporal-to-intemporal synopsising-depth from a deprocrypticism perspective’ that re-establishes existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and in so doing undermines the relatively defective terms of ‘positivism—procrypticism uninstitutionalisation psychologism’ (disjointedness-as-of-reference-of-thought) and setting up ‘deprocrypticism organic-knowledge institutionalisation psychologism including the discretional contemplative as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality aspect in preemiting—disjointedness-as-of-reference-of-thought or upholding jointedness’, as de-mentatively/structurally/paradigmatically transcending the overall vices-and-impediments of positivism—procrypticism registry-worldview/dimension. The reality of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven ontological-contiguity—of-the-human-institutionalisation-process points to the fact that the traditional construal of knowledge often tacitly as of intemporal/longness-of-register-of-meaningfulness-and-teleology is incomplete and rather speaks of ‘vague intellectual intemporal-romanticism’ and doesn’t fit with the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as upheld by the mediocrity principle underlying a rational-realism perspective, and explains why articulating knowledge merely as ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the mere fact of human temporal/shortness-of-register-of-meaningfulness-and-teleology mental-disposition adhering rather to `<amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} implied by the mechanical-knowledge explaining the successive need for ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to overcome such distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-romanticism, implicitly where highly pressing we tend to be obliged to recognised this temporal-to-intemporal reality as implied in the way we go about developing many a social formal construct. Thus deprocrypticism knowledge as overlapping the mechanical with the
organic, as of the intemporal/longness-of-register-of-meaningfulness-and-teleology mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation/notional-conception/amplituding of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality/shortness and skewing towards the intemporal/longness-of-register-of-meaningfulness-and-teleology, and so as of organic-knowledge overlapping. Further, the reality of a human-sub potency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no temporal-to-intemporal-dispositions mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporality/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a
notion equally implied by many a prophesying metaphysico-theological construct as the intemporality/longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality/shortness in their times). In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzscshean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence.

*Thus to sum up, the overall notion of conflation in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an abject-recomposuring-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, involving postdication with postdicatory techniques and postdicatory mindset/reference-of-thought in reflection of the suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more like the positivistic registry-worldview is all about existential positivistic conceptualisations, positivistic techniques and basic positivistic mindset/reference-of-thought superseding existential alchemic conceptualisations, alchemic techniques and a basic alchemic mindset/reference-of-thought that defined the non-positivism/medievalism registry-worldview/dimension); involving ensuring intemporal-disposition organic-comprehension-thinking that upholds-and-is-the reference-of-thought for ontological-contiguity/ontological-veridicality, over threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

the preceding institutionalisation levels are more like successive compromises towards

in institutionalisation is failing/not-upholding-as-of-apriorising/axiomatising/referencing-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation by a formulaic adherence (lip-servicing) to reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation hence attaining its uninstitutionalised-threshold wherein the ontological-veridicality of the mental-devising-representation is ‘in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and not organic-comprehension-thinking’, and we can envision retrospectively the points of de- mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation— stranding-or-attributive-dialectics) of preceding registry-worldviews/dimensions from our vantage point of being at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process like an insight in the recurrent-utter-institutionalised ‘so-called savage’ mindset/reference-of-thought or the medieval mindset, for instance. Likewise such a threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologism registry-worldview projection though of a different nature of the positivistic registry-worldview/dimension can be made prospectively from a deprocrypticism insight that overrides our illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/present-consciousness/mirage given its more suprastructural and ontological-normalcy/postconvergence vantage perspective in relation to intrinsic-reality/ontological-veridicality/ontological-referencing. The general underlying principle for deprocrypticism methods and techniques is that of being abjectly ontologising, beyond positivistic meaningfulness conventioning and temporal-accommodation as ‘ontologically-reconstituting/deconstruction’ for undermining notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-
or-dementing–apriorising-psychologism, and as it upholds veridical ontological-
veridicality/ontological-contiguity as the veridical reference-of-thought; which is what is
actually up for contention and is effective contention (organic-comprehension-thinking) over
what is being ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity-
<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-
schema>’, and is actually preconverging-or-dementing–apriorising-psychologism (threshold-
of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism) and not contending. When implied
specifically with regards to psychopathy and social psychopathy (just like a superseding
positivistic orientation implied with regards to notions-and-accusations-of-sorcery and
medieval mindset/reference-of-thought to sorcery), deprocrypticism as an intemporal
transcendental construct implies ontological-contiguity deconstruction/ontological-
reconstituting–as-of-confatedness construct of temporal-dispositions notional-
discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-
aestheticised–preconverging/dementing–qualia-schema> as the backdrop/grounding of the
veridical reference-of-thought; as what is actually up for contention and is effective
contention (organic-comprehension-thinking) over what is ‘epistemically-decadent in
notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-
aestheticised–preconverging/dementing–qualia-schema>’, as the latter is actually in
threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism and is not contending as organic-
comprehension-thinking. Noting as well that with regards to human mentation capacity, the
mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation> issues (issues arising from the tempering or false implying of the apriorising-registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supерerogation),
which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation.

It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-prime-movers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) involves:

effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ as ununiversalisation intemporally calls for universalisation,

- and prospectively deprocrypticism institutionalisation/intemporalisation (whose reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise that ‘perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘temporal-to-intemporal-dispositions’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead
to a wrong and superstitious disease theory, but accepts that de-
mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease
and that the virtue of medicine is about how to understand and preempt the above causations;
likewise deprocryptic virtue operates on a realistic grasp of human
subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections
at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference
for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-
preservation entropy/contiguity).

We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how
we transcended from non-positivism/medievalism to a positivistic registry-worldview. A
literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a
community where a traditional registry-worldview with its sense of purpose had to deal with
positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Think
of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is by cultural
diffusion rather than by internal philosophical transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. Basically, all transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity involve ‘a psychoanalytic-unshackling
of this sort’. Counterintuitively, it should be understood that no transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is rational because you rationalise by
operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives
but then the need for transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity due to perversion-and-derived-perversion-of-reference-of-thought-<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to liberate themselves before seconndaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/abject medievalism, as they were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory~de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)!

Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family,
neighbourhood, school, company, administration, business, criminality, etc. depending on the
development of the specific psychopath; by and large, ontologically and as reflected by the
organic-comprehension-thinking (organicalism/‘Intemporal-prioritisation-of-reference-of-
thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-
meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a
nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of extended-
informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-
meaningfulness-and-teleology)’ of society in general and social institutions, as the postlogic
perversion-of-reference-of-thought–<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> induces threshold-
of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism with many an interlocutor, and which by
slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag,
sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-
enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-
endemisation effect, undermines the sophistication/intricacy of thought involved with
organic-comprehension-thinking (organicalism/‘Intemporal-prioritisation-of-reference-of-
thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-
meaningfulness-and-teleology), and often leads to a social dynamism of plainness and
mediocrity which is subpar and corrupting to social and institutions teleological potential. In-
conviction-as-to-profound-supererogation (prelogically), threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism is vis a vis organic-comprehension-
thinking (organicalism/‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-
or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology), a ‘defect

preconverging/dementing–apriorising-psychologism of the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existent–defect>, as meaningfulness is now not about a ‘defect of failing/not-upholding–<as-of-apriorising/axiomatising/referencing> contiguity’ intemporality/ontological-
or–ontological-preservation are as pertinent only as these preserve intemporalities, and are collapsed/override by new reference-of-thought–categorical-imperatives/axioms/registry–teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, when shown not to be preserving intemporalities, as when of perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism with regards to the preceding reference-of-thought–categorical-imperatives/axioms/registry–teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding–as-of-apriorising/axiomatising/referencing> reference-of-thought–categorical-imperatives/axioms/registry–teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human temporal-to-intemporal-dispositions as to shallow-supererogation— to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/’Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an abject and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation.

It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogical mind’, which are antipodal as the normal mind is by reflex prelogical supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism as to existential-
contextualising-contiguity and by reflex will tend to see prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives while the psychopath is of postlogic compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) and does has an covert vista (when the interlocutor is not forewarned/experienced about its nature) in wrongfully inducing a sense of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism in the normal mind by compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation projective narrating (an insight that is easily picked up seeing the childhood psychopathy growing into an adolescent and an adult, as its more covert mental structure at adulthood can be retraced and associated to the awkwardness of expression at early life in understanding what the adult psychopath is up to), hence the reason a mind in search of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism (normal prelogism-as-of-conviction-as-to-profound-supererogation mind) will speak of a pathological liar, by liar wrongly granting the psychopath a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism, be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’, in the very first place, hence aligning integratively to the psychopath instead of aligning in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. It is rather a flaw in the prelogism-as-of-conviction-as-to-profound-supererogation mind’s perception (prelogism or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism while the psychopath’s mental-disposition is formulaic slanting compelling–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism in preconverging-or-dementing–apriorising-psychologism!

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of-meaningfulness-and-teleology) solipsistic/emanant projections of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfortune-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to
universally wish that everyone have to deal with a fair legal system, that anyway is to the
credit of the institutionalisation/intemporalisation process, but that is a
secondnatured/internalised construct). This explains why there is no need to breach the
scientific principle known as the ‘mediocrity principle’, (which says that there are no
exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in
reality man is a temporal-to-intemporal-dispositions creature in its moral/virtuous-agency); to
explain why society tends to improve/progress. Rather, the intemporal-disposition de-
mentatively/structurally/paradigmatically brings more overall good and hence skews
(‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-

mentativity) man in the medium to long perspective towards ‘the-
Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework
(institutionalised, formalised and internalised)’. This elucidation is important because while
internalisation might point to the social good it is important to understand that when dealing
with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good
as longness-of-register-of-meaningfulness-and-teleology) than temporal (shortness-of-
register-of-meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the
analysis should take account of this (by not just operating/processing logic but construing
temporal-to-intemporal-dispositions disambiguation with a de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) highlighting organic-comprehension-thinking
(organicalism/’Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-
ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) and the
distracting threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing–apriorising-psychologism. Why talk of
‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a de-mentating/structuring/paradigming of the human present as modern into a de-mentating/structuring/paradigming of across-and-of-all-times! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recompose-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposing from recurrent-utter-uninstitutionalisation, based-institutionalisation–unununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-authenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-inauthenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-‘preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> across the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, whether in the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism/disjointedness-as-of-reference-of-thought.

Such a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness conceptualisation, for a novel genuinely universal psychology as anthropopsychology, involved in all successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-
eventfulness/ontological-aesthetic-tracing> for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is profoundly elucidated with associated notions as follows:

- The concept of de-mentation-(supererogatory—ontological—de-mentation—or-dialectical—de-mention—stranding—or—attributive-dialectics) is the very drive (in providing insight on the transcendental/transdimensional/interdimensional/maximalising-recomposuring—for-relative-ontological-completeness ontological-prime-movers-totalitative-framework, i.e. temporal-to-intemporal-dispositions) for such a conceptualisation of anthropopsychology or ‘genuinely universal psychology’. The philosophical conceptualisation of stranding is rather ‘temporal-to-intemporal-dispositions disambiguation’ which serves to avoid the supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal. De-mentation-(supererogatory—ontological—de-mentation—or-dialectical—de-mention—stranding—or—attributive-dialectics), as to its corresponding notions of preconverging—or—dementing—apriorising-psychologism—<stranded—as—rightfully—oblongated/decandored-and—dialectically—or—contendingly—out—of—phase> and postconverging—or—dialectical-thinking—apriorising-psychologism—<stranded—as—rightfully—straight/candored—and—dialectically—or—contendingly—in—phase>, are central to transcendental psychoanalytic-unshackling and memetic-reordering. Stranding ensures the ‘upholding of the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional—projective-perspective) of the intemporal-
contiguity–or–ontological-preservation whether a retrospective, present or prospective registry-worldview/dimension. Hence the need for ‘collapsing’/overriding of the transcended registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology with prospective transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preemption as untenability/internal-contradiction/internal-incoherence/institutional-constraining, as secondnaturing and ‘not as temporal-dispositions transformation’ to wrongly imply a universal dimensionality-of-sublimating—<amplituading/formative> supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation human predisposition. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding its mental-devising-representation with respect to the its uninstitutionalised-threshold requiring positivism insititutionalisation/intemporalisation). Prospectively, the dementation–(supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive–dialectics) of our own mental-devising-representation by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as–infrastructure–of–meaningfulness–and–teleology as of prospective deprocrypticism as oblongated and decandored at our uninstitutionalised-threshold requiring deprocrypticism institutionalisation/unintemporalisation will equally meet with an epistemic-totalising–self-referencing-syncretising wrong reflex of postconverging–or–dialectical–
thinking–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as of preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> notwithstanding their wrongly projected postconverging-or-dialectical-thinking–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). De-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-
articulated are of intemporal-disposition teleology hence wrongly implying candored and straightness, whereas these are in effect amplituing/formative(epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing~apriorising-psychologism (the-perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing~apriorising-psychologism (the-perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the De-mentation-(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum (5 * 5) + 5 – 5, and make the mistake to say 5 * 5 = 24 but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24. This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing~apriorising-psychologism~stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) or amplituing/formative(epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or notional-discontiiguity/epistemic-discontiguity~shallow-supererogation-of-mentally-aestheticised~preconverging/dementing–qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity) is highly
prevalent in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms—as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The De-mentation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, de-mentionation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) ensure an affixing of temporal-dispositions perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> teleologic orientations denaturing to the corresponding temporal perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> mindsets in their ontological-escalation/aetiology without letting for a disjunction/skipping into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation of a non-positivism/medievalism mindset/reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiology’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiology/ontological-escalation dispositions of that non-positivism/medievalism mindset/reference-of-thought by way of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) from the intemporal positivistic mindset, and upholding such the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiology’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews in the 19th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-
representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their <amplituding/formative>epistemic-totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality. Strandung is validated by the fact that transcendental/transdimensional/interdimensional/maximising-recomposuring-for-relative-ontological-completeness conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/abjects the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/abjects our thinking or not of it! Thus de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation–strandung-or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism as ontological entrapment, with no temporal-
dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledge/mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold’, i.e. the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). Ultimately and in the bigger picture, (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment–(as-to-totalising-contiguous/coherent–factuality–of-variability))’ and with regards to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-’hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective–of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>) the teleology of human de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) reflects the human-subpotency for attaining crossgenerational transcendence–and–sublimity/sublimation/supererogatory–de-mentativity with corresponding dialectical and psychoanalytic existential reorientations (‘postconverging–or–dialectical-thinking–psychology or psychology–of–mentation–dynamics or natural psychology–of–dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional–recomposuring), and it is well beyond the idea of just a ‘de-mentative/structural/paradigmatic
argumentation convincing’ intradimensionally as to presencing—absolutising-identitive-constitutedness (based-on-the-categorical-imperatives/axioms/registry-teleology-of-the-registry-worldview/dimension as absolutised) as to a registry-worldview/dimension in relative-ontological-incompleteness that is ontologically-deficient/preconverging-or-dementing–apriorising-psychologism as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, in the first place; as teleology as such reflects human-subpotency sublimation-over-desublimation possibilities in existence as to underlying supposedly coherent ontological-commitment. Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as it wrongly implies that temporal-dispositions perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of their dimension’s/registry worldview’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality/longness instead preserving prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness-and-teleology towards the ‘institutionalisation/intemporalisation percolation-channelling’ as secondnaturing of the new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivistic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively.
ontological-completeness complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism when it is demonstrated that it is perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and rather syncretises in operating those same reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold. The reason for the human ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when <amplituding/formative>epistemic-totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have
happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought—<as-effectively-apriorising-in-

As an anthropopsychological disposition, rational-realism as deprocrypticism just like
all successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in
emphasising increasing realism counter-intuitively to a naïve temporal take is actually a
‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the
idea that ‘it is better working with what intemporally/ontologically is (that is, the-
Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework)
to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-
wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the
ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that
defeats-and-debase the grandor of a universal/intemporal projection but rather strives to
better stir man towards the intemporal-and-ontological as virtue, an exercise which while of
‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with
regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporal-longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which involves de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—

or—ontological-preservation but ‘a poorly cohesive extricatory de-
mentating/structuring/paradigming’ at uninstitutionalised-threshold. The notion of the social-
construct as intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’
but it isn’t ontologically veridical by the inherent solipsistic human nature due to a temporal-to-intemporal-dispositions human reality, and thus the need for institutionalisation to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity) towards intemporality/intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting \(<\text{amplituding} / \text{formative}\)\)-disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising) and \(<\text{amplituding} / \text{formative}\)\)-entailment-(as-to-totalising-contiguous/coherent—factuality-of-variability))’ and so as to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reproductively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality, and hence compromise ontology), but rather to aspire for a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human temporal-to-intemporal-dispositions at uninstitutionalised-thresholds). That is, knowledge-notionalisation involving grasping and understanding both the ignorances/temporal-dispositions and ideals to better skew/deferential-formalisation-
transference towards idealism as the fulsome ontology, and not failing/not-upholding-as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge)/mimick-and-syncretise at uninstitutionalised-threshold with the dialectical consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing and not nested-congruence to uphold intemporality, and hence a complete ontology. To put it in other terms, for instance, transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendent-enabling/sublimating/supererogatory-de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendent-enabling/sublimating/supererogatory-de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-

* It should be noted that in the De-mentation-{supererogatory-ontological-de-
mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-
of-increasing-ontological-normalcy/postconvergence dialecticism of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity involving the transcended and the
transcending dimensions, the terms highlighting the transcended dimension like decandored,
oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. do not carry the same
connotation as a shallower temporal analysis intradimensional to the transcended dimension.
The idea is not to idle in articulating meaningfulness within the dimension in need of
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. For instance, a
positive mind’s articulation of defective meaningfulness in non-positivism/medievalism
registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful
articulation in terms–as-of-axiomatic-construct of the non-positivism/medievalism world
sense of meaningful purposefulness but rather to project a positivistic worldview’s
transcendental meaningful purposefulness. In that sense, actually for the social scientist and
philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored,
perverted don’t carry the ordinary and temporal connotations of stigmatising under a
temporal extricatory de-mentating/structuring/paradigming. Rather, these are critical and
actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions
are veridically dialectical notions that apply in all transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per temporal-to-intemporal-dispositions going by a de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process. ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘temporal-to-intemporal-dispositions accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-

* It should be noted that this element of deconstructed meaningfulness is obviously reflected in the articulation of this paper itself in a creative, referential and dynamic grasp of reference-of-thought and meaningfulness-and-teleology in a rather ephemeral subject, the social. In this regard, the hermeneutic exercise originates from an even more wildly
idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogous to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation as prospective reference-of-thought of renewing existentialism/full-depth-of-existential-implications of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in various shades is just as critical for the necessary reconstitutive insight (deconstruction) that can be highly evasive and difficult to fully grasp at different registry-worldviews/dimensions meaningful-references or rather dialectically successive existentialisms.

To further elucidate, the underlying idea of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>-as-of-epistemic-decadence in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking–<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’>’ that matters.’ What’s the meaning of being good-natured/kind/humble/responsible/friendly/sociable/etc. in a subknowledging or perverted or corrupt social-setup or a philosophically-underdeveloped but presumptuous meaningful context (H.G. Well’s country of the blind de-mentating/structuring/paradigming, for instance), or worst still in teleologically-degraded social situations that may be mobbish or genocidal, wherein by our illusion-of-the-present/present-consciousnessas <amplituding/formative>epistemic-totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag we apparently demonstrate such qualities but ontologically we aren’t veridically intemporal-preservational? And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism, with their evolving reference-of-thought–categorical-imperatives/axioms/registry-teleology wherein prospective meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology->in-existential-extrication-as-of-existential-unthought>? The only answer that cuts it in all ways, is inevitably intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (mentation-capacity-wise, as longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology, more than just an abstraction as it carries the notion of a contiguous existentialism/full-depth-of-existential-implications transdimensional-meaningfulness/memetic-refinement as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflicatedness in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Even the idea of morality as being construed as of a sense of morality is vague self-referencing, as it is rather virtue as of knowledge-construct/intersolipsistic-intercessory-notion/notional–referential-notion/articulation of superseding–oneness-of-ontology enabling the possibility in reflecting holographically->conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process of successive registry-worldviews/dimensions that is truly of ontological relevance. The idea of conceptualising morality out of such ontology-driven basis is more or less delusional however ‘good-natured’ when we consider that even a community of miscreants will have to construe of a semblance however perverted of moral
conceptualisation that allows for individuals self-preservation and only of a degree of variance however big such a variance is perceived with supposed grander moral conceptualisations that do not factor in the de-mentative/structural/paradigmatic relation of virtue to ontology as of successive developing prospective relative-ontological-completeness-of-reference-of-thought. As semblances of virtue-constructs out of ‘sense of good-naturedness’ not factoring in the ‘unchangeable’ reality of human temporal/shortness-of-register-of-meaningfulness-and-teleology and intemporal/longness-of-register-of-meaningfulness-and-teleology mental-dispositions across all registry-worldviews will simply ‘out of goodnaturedness and naivety’ provide an ontologically-flawed deterministic framework that subject to temporal undermining by the adherence to the ‘〈amplituding/formative〉wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) of prior/transcended/superseded registry-worldview/dimension’ in subverting intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, pointing to the pertinence of analysing virtue and ontology contiguously as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being—as-of-existential-reality so-construed as organic-knowledge. This is the central idea of ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting that informs organic-comprehension-thinking. ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting further holds that in the bigger scheme of things, it is intemporal-preservation in its entropy/contiguity that is the referencing of stranding as to de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) (as of preconverging-or-dementing—apriorising-psychologism representation when temporally-preservational-as-

In other words, just as we can countenance that ontologically we’ll not engage a non-positivism/medieval social-setup in contending about say notions-and-accusations-of-sorcery but rather supersede the non-positivism/medievalism meaningful-frame as of its relative-ontological-incompleteness-of-reference-of-thought as being superstitious/non-positivistic implies the fundamental need for its psychoanalytic-unshackling for <amplituding/formative>epistem-totalising–renewing-realisation/re-perception/re-thought as of a positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought; likewise our positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought is ‘not the profound ontologically-veridical meaningful-frame’ in which an issue of its corresponding postlogism as psychopathy and social psychopathy is resolved but rather its state of relative-ontological-incompleteness-of-reference-of-thought is

preservational, the institutional-cumulation/institutional-recomposure<as-to-
historiality/ontological-eventfulness/ontological-aesthetic-tracing> process will not occur and
be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence
epistemic/notional–projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance \(7(\sqrt{64}+3-1) - (6+4-2)/2\). Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, \(\sqrt{64}=8\) and then addition \(8+3=11\), then subtraction \(11-1=10\). For the second brackets, addition as \(6+4=10\), then subtraction as \(10-2=8\). The division operation then follows with the second brackets result as \(8/2=4\). Then the multiplication operation with the first brackets result as \(7\times 10=70\). Finally, comes the subtraction with \(70-4=66\) as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as \(\sqrt{64}=8\), \(8+3=12\), \(12-1=11\), for the first brackets, and \(6+4=11\), \(11-2=9\), for the second brackets. The division operation with the second brackets yields \(9/2=4.5\), and the multiplication operation with the first brackets yields \(7\times 11=77\). Finally, subtracting both brackets gives \(77-4.5=72.5\) as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced,–‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), as reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-intemporal-
narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} in affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology}). In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over projected <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflatedness over A’s induced preconverging-or-dementing-reference/perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation>). Thus the new categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether by unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance,
B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these points before allowing the other characters operations, which then yields the right result. That is \(77 ÷ 7 = 11\) and \(4.5 \times 2 = 9\) as reverting back, then \(11 - 1 = 10\) and \(9 - 1 = 8\) to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving \(8 ÷ 2 = 4\) and \(7 \times 10 = 70\). Finally \(70 - 4 = 66\), giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism by the very fundamental veridicality of its temporal-to-intemporal-dispositions nature. But then, this being an uninstitutionalised-threshold, B going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor—uninstitutionalised-threshold may just as well due to there being ‘no institutionalisation constraining’ (i.e., no social universal-transparency–{transparency-of-totalising-entailing, as-
to-entailing-<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness) of perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, no internal-contradiction induced from ontological-primemovers-totalitative-framework, no preconverging-or-dementing—apriorising-psychologism of the perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and no intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality/shortness inducing corresponding formalisation and internalisation as values), choose to act because of one temporal reason or the other whether by ignorance of the need for this new reference-of-thought—categorical-imperatives/axioms/registry-teleology,—(for-intemporal-preservation-entropy) or affordability/opportunism/exacerbation/social-chainism—or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (i.e., induced-ring-of-gyges-effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality); and so, fail to follow the latter reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are intemporally-preservational. That is, choosing circumventive/distractive-temporal-prioritisation-of-reference-of-thought and thus failing/not-upholding—<as-of-apriorising/axiomatising/referencing> the possibility of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. That being the case, this doesn’t in anyway undermine the intrinsic reality/ontological-veridicality/reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal
to 66 with the need for new requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness-or-inauthenticity-of-reference-of-thought thus requiring de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of all such temporal-dispositions. It further speaks of how B will likely act in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation (of uninstitutionalised-threshold, where the constraining elements of institutionalisation are not available i.e. social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, internal-contradiction induced from ontological-primemovers-totalitative-framework inoperance, de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) the perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality, with corresponding formalisation and internalisation as values), thence defining the given temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from similar individuations in such situations as a registry-worldview/dimension problem, in order to ensure intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation as ontology. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold of that registry-worldview/dimension, reflected/perspectivated by the marginal perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing–apriorising-psychologism-
<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-
phase>, with a prospective institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the new straightness/candored-and-dialectically-or-
contendingly-in-phase. De-mentation-(supererogatory–ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) doesn’t confuse appropriateness of the prior reference-of-thought–categorical-imperatives/axioms/registry-
teleology, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing—apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically—or—contendingly—in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking—apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought (as mental straightness/candored-and-dialectically—or—contendingly—in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation where the reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional—projective-perspective). Where instead such reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy—or-contiguity—
or-ontological-preservation is of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema>/non-ontological-and-non-contending-referencing-<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing-apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing-reference), it is dementing (preconverging-or-dementing-apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>). This is further compounded by <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that is, wrongful upholding and projection of the stranding-as-mentally-straight-and-candored-and-dialectically-or-contendingly-in-phase mental-devising-representation at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation unto the uninstitutionalised-threshold that requires new mentation capacity, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity with the present registry-worldview corresponding as the superseded perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-
imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as to renewed logical-basis/logic—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing>’ going beyond the reference-of-thought—categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation).

M emotism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking—apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing—apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity—(as of relative constitutedness) to deeper limited-mentation-capacity—(as of relative conflation) behind the successive institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, wherein the dialectically transcending/superseding institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of relatively deeper limited-mentation-capacity—(as of relative conflation) is the shifted
reference-of-thought (dialectically-in-phase) and is thus of ‘postconverging-or-dialectical-thinking–apriorising-psychologism mental-devising-representation’ as it is in (postconvergence) ontological-veridicality/ontological-contiguity while the prior transcended/superseded institutional-cumulation/institutional-recompose-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of relatively shallow limited-mentation-capacity-(as of relative constitutedness) is no longer the reference-of-thought (dialectically-out-of-phase or dialectically-primitive) and is thus of ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ as it is of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>; thus transcendentally coming into grips with a shifting but more and more profound notion of reference-of-thought (in-phasing) and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-normalcy/postconvergence.

The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledge-impulse/compulsive-dementing/postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet matured, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance,
unconsciously, and consciously with affordability/opportunism/social-chainism-
or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
endemisation, in an absolving/fleeting/escaping-reflex-logic eliciting social psychopathy
involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting-
<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in
postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> as
absolving/fleeting/escaping-reflex-logic, to others and from different sets of interlocutors to
others. It is obvious that A’s condition/subknowling-impulse/compulsive-dementing
disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises
only in the face of perceived-social-stake-contention-or-confliction-and-confliction-targets
and furthermore the profoundness of the postlogism-slantedness manifestation is directly
related to the gravity of the perceived-social-stake-contention-or-confliction the situation and
how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an
absolute condition wherein it increments additionality by 1 is rather an absolute ideal
conceptualisation, as in reality it is a question of degree and highly circumscribed with the
adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-
and-accordant, unlike the dysfunctional child psychopath. This comparison equally
articulates the nature of uninstitutionalised-thresholds. Consider B (together with the other
BODMAS characters) in the instance where despite A’s conditions they were to stick to the
registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-
 imperative/axioms/registry-teleology thus effectively producing the wrong result 72.5 for the
particular equation which is not intemporal preservational (not ontologically ontological-
 normalcy/postconvergence) and likewise for all other equation where A’s condition applies,
we’ll then be talking about an uninstitutionalised-threshold. The implication is that the
registry-worldview/dimension then loses its qualification as being intemporally-
preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 72.5 to 66 by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference/ontologically-veridical/ontological-contiguity registry-worldview/dimension) is known as de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Even though going by its illusion-of-the-present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold of ‘ontological-thinking (not preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> which is ontologically wrong, just as all <amplitude/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness registry-worldviews/dimensions do at their uninstitutionalised-threshold. For instance, the recurrent-utter-uninstitutionalisation mindset/reference-of-thought doesn’t think of itself that way but rather as a nondescriptor/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <amplitude/formative>epistemic-totalising–conflated-meanfulness-and-teleology-as-of-notional–deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing with respect to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation—preconverging/dementing–apriorising-psychologism, and such a representation of its
mentation is the invention/mental-devising-representation of the base-institutionalisation mindset by its better ontological-completeness-of-reference-of-thought, likewise with ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively with procrypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a preconverging-or-dementing–apriorising-psychologism mental-devising-representation of our perversion-of-reference-of-thought--<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to the denaturing of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as preconverging-or-dementing–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure--<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and
temporal eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way) as opposed to intrinsic-attribution wherein the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its pertinence and upholding. This subknowledging-impulse/compulsive-dementing disposition points out that the actual and given meaningfulness being subknownledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-authenticity-of-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicalism/Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-authenticity-of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in 72.5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity-<shallow-suprerogation-of-mentally-
aestheticised–preconverging/dementing–qualia-schema’ rather than 66 which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledgeing-or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in dementation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism’/Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-temporal-to-intemporal-dispositions-with-consequential-positivistic-meaningfulness-perversion preconverging-or-dementing–apriorising-psychologism, resolved by deprocrypticism. Comparatively, for instance, articulating new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to resolve the uninstitutionalised-threshold from 72.5 to the ontologically-veridical 66, and so not only with regards to the specific but as a de-
through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging-impulse pedestal and the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism pedestal. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribute’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribute involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporal’ and is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of-meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporal/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy
and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiolgisation/ontological-escalation of the organic-comprehension-thinking (organicism/’Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be abject about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t accommodate

This can further be elucidated analysing perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging/perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing—apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as present day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain
phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging-impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging-impulse/compulsive-dementing pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or universal across all times (postlogism-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism pedestal which is rather an extricatory de-mentating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-
dementing-apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigmimg to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/reference-of-thought in organic-comprehension-thinking (organicalism/‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to
address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/’Intemporal-prioritisation-of-reference-of-thought’–as-confoundedness-or-

prioritisation-of-reference-of-thought’–as-confoundedness-or-ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging-impulse/compulsive-dementing mindset/reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-

with incrementalism-in-relative-ontological-incompleteness with temporal-dispositions
mindsets) between non-positivism/medievalism and positivism for prospective

With this insight the ontological ‘terms of reasoning’ of the subknowledging-impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing–apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

This conceptual de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of (superseded registry/registry-worldview-or-dimension) mental-devising-representation as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (preconverging-or-
dementing–apriorising-psychologism) and (superseding registry/registry-worldview-or-dimension) mental-devising-representation as straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting with respect to circumventive/distractive-temporal-prioritisation-of-reference-of-thought as the former is ‘abject’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology.–for–intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at 66/intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of-reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology.–for–intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturning (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding). Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than 66) whether it is failing/not-upholding<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-

And critically, it should be noted that ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting is about the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as registry-worldview/dimension defining, and not about good-naturedness/vague-temporal-impression-driven notions that may arise in circumstantial situations. This Arithmetic ontological-contiguity comparison equally gives an insight on why temporal-to-intemporal-dispositions-pedestals-disambiguation is needed with 3 pedestals: organic-comprehension/’Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestal for which the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontology supersedes perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) which are actually meant to represent it at uninstitutionalised-threshold, threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism pedestal for which reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are wrongly related to as an end by

reference-of-thought and meaningfulness is a sound existential construct. That is, in the
bigger scheme when it comes to deciding between ontological-veridicality/ontological-
contiguity of reference-of-thought (as from ontological-normalcy/postconvergence
epistemic/notional–projective-perspective) and the human temporal psyche, what gives-in is
the human temporal psyche (and so for the betterment of the species); that is, from an animal
that was emanantly/becomingly/solipsistically successively of a mental-devising-
representation perspective preconverging-or-dementing–apriorising-psychologism-><stranded-

recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and
from a prospective articulation, procrypticism/disjointedness-as-of-reference-of-thought, and
so respectively, for their successive institutionalisations mental-devising-representation
perspectives as postconverging-or-dialectical-thinking–apriorising-psychologism-><stranded-
as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> of base-
institutionalisation, universalisation, positivism and prospectively deprocrypticism. In other
words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation
of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so
whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is
round and by expediency a majority of mortals are saying it is flat. That is the singular
construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemperal-disposition apriorising-registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)!

It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing-registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising-registry’s or registry-worldview’s/dimension’s reference-of-thought de-mentation—supererogatory-ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> (as it is ‘void of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistemic-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> the reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemperal-preservation-entropy—or-contiguity—or—ontological-preservation), and so, in a state of transversal-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing as perceived from the superseding/transcending intemperal-disposition or registry-worldview/dimension which voids the registry-perverting/subknowledge/preconverging-or-dementing-temporal-dispositions’ transcended-or-superseded-registry-worldview’s/dimension’s apriorising—registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-

The point then is that, from a transcending registry-worldview/dimension, the relation with its transcended registry-worldview/dimension is ‘not ontologically an exercise in logical-congruence with the transcended registry-worldview/dimension as a postconverging-or-dialectical-thinking–apriorising-psychologism exercise’ but rather ontologically an exercise in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a preconverging-or-dementing–apriorising-psychologism
representation as manifestation-and-not-contention of the transcended registry-worldview/dimension denaturing of reference-of-thought--categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity--or-ontological-preservation for prospective positivistic meaningfulness, as preconverging-or-dementing--apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, and avoiding the supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking--apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex which wrongly elevates perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> into logical-contention. De-mentation-<supererogatory--ontological--dementation-or-dialectical--dementation—stranding-or-attributive-dialectics> is effectively the mental-devising-representation of the dialectical-primitivities/dialectical-out-of-phasing registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism (preconverging-or-dementing--apriorising-psychologism of positivistic meaningfulness), as from successive veridical reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference (ontological-veridicality/ontological-contiguity) as base-institutionalisation, universalisation, positivism and deprocrypticism respectively which are mentally postconverging-or-dialectical-thinking--apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. De-mentation-<supererogatory--ontological--dementation-or-dialectical--dementation—stranding-or-attributive-dialectics> as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is
memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought--<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, is transdimensional/transcendental in depth-of-meaningfulness as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). De-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology. This involves maximalising-recomposuring-for-relative-ontological-completeness as enabled by de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness-of-reference-of-thought and relative-ontological-completeness-of-reference-of-thought. The implication is that soundness-or-authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing
beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing–apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing–apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, of course, that is, when precluding our illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage). In the bigger picture, de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) effectively will seem to place human (recomposuring)-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-
worldviews/dimensions are rather prospectively <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving dementating/structuring/paradigming), and with specific evolving percolation-channelling for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/registry-worldview/dimension will be transcendable (hence dementable/no-longer-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposing/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity—or-ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology is possible. This is because de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dements the mental-devising-representation of the old/retrospective/superseded/transcended registry-
worldview/dimension ‘as not postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-authenticity-of-reference-of-thought but preconverging-or-dementing–apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-authenticity-of-reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemperal-preservation-entropy-or-contiguity—or–ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing–apriorising-psychologism/dialectically-preconverging-or-dementing–apriorising-psychologism in a de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) wherein its mental-devising-representation is preconverging-or-dementing–apriorising-psychologism as not thinking/unsoundness-or-inauthenticity-of-reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-authenticity-of-reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference)’ over the former which is ‘no longer reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-authenticity-of-reference-of-thought today but rather
ontologically-preconverging-or-dementing–apriorising-psychologism’. This dialectical conceptualisation equally applies regarding procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding–as-of-apriorising/axiomatising/referencing> intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (i.e., de-mentation–(supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics), perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect–<as-Being-or-ontological-or-existential–defect>, unsoundness-or-inauthenticity-of-reference-of-thought, mental-perversion, subknowledging, mimicking; and-their-corresponding–<amplituding/formative>epistemic-totalising–self-referencing-syncretising) indicates that de-mentation–(supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics) is ultimately the ‘ideal reference term’ for the simple reason that unlike the other terms it ‘beats’ the ‘intuition for intradimensional/non-transcendental/non-transdimensional reasoning’ and succeeds to convey, overcoming the counter-intuition, the requisite transdimensional/transcendental reasoning that achieves ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging-normalcy’ (epistemic-
totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. De-mentation-

\[ \text{supererogatory} \text{– ontological} \text{– de-mentation-or-dialectical} \text{– de-mentation–stranding-or-attributive-dialectics} \] ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a de-mentation-

\[ \text{supererogatory} \text{– ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics} \] of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, subknowledging-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging-normalcy’(epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation-

\[ \text{supererogatory} \text{– ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics} \] does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation-

\[ \text{supererogatory} \text{– ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics} \] in meeting up with ‘ontological-
normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect>’ brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of de-mentation–(<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that carries the intuition of an uninstitutionalised-threshold, and construes a superseding/transcending registry/worldview-or-dimension and a superseded/transcended registry/worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect>’ term thereafter, we grasp that it is the ‘<amplituding/formative>epistemic-totalising–self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect> (and not about defect–of-logical-processing–or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation). Specifically, de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect<-as-Being-or-ontological-or-existential-defect>/not-just-a-logical-processing-or-an-implication-of-act-execution-or-a-implication-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the-’preconverging-or-dementing–apriorising-psychologism of positivistic-meaningfulness) de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) (with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) provides the better overarching conceptualisation from an ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). Furthermore, by its de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) is the only notional term that operantly and deterministically projects

2) thinking as veridical reference-of-thought (veridical-thinking-reference-overpreconverging-or-dementing-reference) of mental-devising-representation of the prospective registry-worldview/dimension as soundness-or-authenticity-of-reference-of-thought versus preconverging-or-dementing–apriorising-psychologism as mental-devising-representation of the retrospective registry-worldview/dimension as unsoundness-or-inauthenticity-of-reference-of-thought as it is no longer an reference-of-thought (not-veridical-thinking-reference-rather-preconverging-or-dementing-reference)

4) ‘Intemperal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as defining the priority of life choices or existential living as in priority all that which preserve precedingly the intemperal as it creates the institutionalisation possibilities for the furtherance of intemperality/longness versus circumventive/distractive-temporal-prioritisation-of-reference-of-thought as defining the priority of life choices or existential living as priorly unaccountable to the possibility for the furtherance of intemperality/longness

Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrence-of-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrypticism and prospectively perpetuation-of-deprocrypticism) is as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation
(procrysticism) and implying a prospective need for deprocrysticism. Postdication, when alluding to an de-mentation—(supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or—attributive—dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or—dementing—apriorising—psychologism social of personhoods—and—socialhood—formation in existentialism/full—depth—of—existential—implications of temporal—to—intemporal—dispositions, from a prospective registry—worldview’s/dimension’s reference—of—thought in ontological—normalcy/postconvergence. Postdication means reasoning from a basis of ontological—normalcy/postconvergence wherein the prior/transcended/superseded registry—worldview/dimension is no longer referenced/registered/decisioned (as reference—of—thought) but ‘dialectically preconverging—or—dementing—apriorising—psychologism/unsoundness—or—inauthenticity—of—reference—of—thought’ while the prospective/transcending/superseding registry—worldview/dimension is referenced/registered/decisioned (as reference—of—thought) as ‘postconverging—or—dialectical—thinking—apriorising—psychologism/soundness—or—authenticity—of—reference—of—thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal—accommodation as circumventive/distractive—temporal—prioritisation—of—reference—of—thought of being—and—existence as conceptualised within the successions—of—existing—human—life—spans or rather an abstract eternal—projecting disposition of 'Intemporal—prioritisation—of—reference—of—thought’—as—conflatedness—or—ontological—reprojecting wherein the articulation of meaning, being and existence is in existentialism—terms intemperally—driven on the basis that that which is in need of transcendence—and—the—intemporal (the temporal) cannot be seen—as—or—made—a—reference—of—intemporal/ontological—thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference—of—thought
(veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness-or-ontological-reprojecting as ontology with regards to apriorising–registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. De-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in our present case, deprocrypticism of procrypticism/disjointedness-as-of-reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic
resolution of defective-issues or vices-and-impediments of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance-<including-virtue-as-ontology> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately universalising and detached meaningfulness by percolation-channelling’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendancy of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from procrypticism to deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought:<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging/perversion-of-reference-of-thought:<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) may be to think, given our own illusion-of-the-present/present-consciousnessas
epistemic-totalising~self-referencing-synergising/circularity/interiorising/akrasiac-drag, that such an analysis applies only to prior institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meet with some resistance or the other and thus a reason for transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and
transcends’, and the intellectual exercise goes beyond just reasoning within ambits of
‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might
actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an
intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
for-relative-ontological-completeness de-mentating/structuring/paradigming are
indispensable. With the idea that an
intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
for-relative-ontological-completeness de-mentating/structuring/paradigming that prolongs to
intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal
existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense
of good to all humans at all times’ by its percolation-channelling wherein for instance, the de-
mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its
circumstantial construal and application may not be in tune with the temporal interests of
many but for its institutionalising constraining. This contrast between humans appreciating
intemporality/longness as potentially of universal import and at the same time disposed
occasionally to advanced their temporality, is what warrants ‘a constraining
institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau
or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to
rather carry the mantle from one royal court to the other of affirming the possibility of human
emancipation (by which we are all percolatively benefiting from today) or the other the
mantle of a principled engagement and possibility of science starting with an
uncompromising supplanting–conviction-as-to-profound-supererogation—
postconverging/dialectical-thinking–apriorising-psychologism from observation that the earth
is not at the centre of the solar system, by which a culture of science came to be established.
And finally, how coherent are temporal meaningful frames built from such intemporal grand
principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this?

From an intemporal hence ontological depth-of-meaningfulness, precedingly/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is the reason for registry-worldview/dimension perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect at uninstitutionalised-threshold; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond the defective ‘intradimensional-subknowledging-normalcy or reflex-normalcy’ which is rather an epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrypticism/disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as deprocrypticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-
present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as against the defective reflex-normalcy/intradimensional subknowledging-normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is more than just the instigating effect of the subknowledging-impulse/compulsive-dementing (psychopathic postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) but harkens back to the notion of the intraregistry-worldview/dimension limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)/uninstitutionalised-threshold in the very first place. As this is the de-mentating/structuring/paradigming disposition for the possibility of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> requiring ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-
upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, such perversion-of-reference-of-thought<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as witchcraft in the
non-positivism/medievalism registry-worldview/dimension is fundamentally implying de-
mentatively/structurally/paradigmatically a need for the right human mentation-capacity as
the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of a
positivistic registry-worldview/dimension, and likewise de-
mentatively/structurally/paradigmatically regarding procrypticism/disjointedness-as-of-
reference-of-thought with deprocrypticism (as the-Good/understanding/knowledge-
reification/ontological-primemovers-totalitative-framework and not good-natured/vague-
impress construct).

Ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-

beyond defective intradimensional-subknowledging-normalcy/reflex-normalcy, points to
factoring in temporal-to-intemporal-dispositions disambiguation as ‘knowledge-

(intradimensional-subknowledging-normalcy/reflex-normalcy) and at
institutionalised/intemporalised-thresholds (ontological-normaley/postconvergence). It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing is about bringing the prior registry-worldview/dimension perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation to its placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening-amplituding-formative-epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)-threshold (uninstitutionalised-threshold). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism. Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing–apriorising-psychologism-stranded-as-rightfully-oblongated/de candored-and-dialectically-or-contendingly-out-of-phase>, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-
cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling as setup from positive-opportunism for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling (undermining amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology); all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of-meaningfulness-and-teleology) over temporal-dispositions (shortness-of-register-of-meaningfulness-and-teleology) as percolation-channelling not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning
about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework to construe knowledge and virtue conceptualisations as this is what proxies/synces-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag but are often defective by lack of universality, not ontologically-driven in terms—as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of-meaningfulness-and-teleology. In this light, the articulation of the ontological-veridicality/reference-of-thought of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor-pedestals-disambiguation of our mental-devising-representation in explication of our ‘mentation capacity limitations’ accounting for our perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> that ‘structurally-explain’ the vices-and-impediments peculiar to our own registry-worldview/dimension (procrysticism/disjointedness-as-of-reference-of-thought) or perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness, beyond our illusion-of-the-present/present-consciousness (just as non-positivism/medievalism ‘structurally-explains’ the peculiar vices-and-impediments and de-mentative/structural/paradigmatic inhibitions to human emancipation requiring prospective

To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding→<as-of-apriorising/axiomatising/referencing> ontological-normaley/postconvergence as
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and subknowledging-impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as temporal-to-intemporal-dispositions individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposur-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> are anallogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging-impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/compulsive-dementing of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor
before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and subknowledging-impulse/compulsive-dementing with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold, for a suprastructural resolution to human perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> disposition, enabling the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing of the collective-consciousness towards knowledge-notionalisation; as the recognition of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor-pedestals-disambiguation then allows for

The implications for the science of psychology can thus be drawn out. The articulated notion of de-mentionation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this de-mentionation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. De-mentionation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) further implies that instead of a ‘conventioning influenced
and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in de-mentation-(supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) terms of de-mention-(supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation as-prospective reference-of-thought (de-mentation-(supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/reference-of-thought of transdimensional-meaningfulness—apriorising/axiomatising/referencing/intelligibility/setting/measuring-instrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the
depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a
given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) over reflex-normalcy or intradimensional-subknowledging-normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-

target (due to the institutionalisation/intemporalisation process) in need for prospective
dialectical reconstitution (deconstruction), which then puts a science of psychology in phase

mentation-(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—

intradimensionally set in stone and across all moments whereas an ontologically-driven
psychology acknowledges and recomposes to the dialectical evolution of reference-of-

wise/dimension-wise (for de-mentation-(supererogatory—ontological–de-mentation-or-

are the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism preconverging-or-dementing-apriorising-psychologism, and prospectively (critical for a prospective conceptualisation of psychology) perpetuation-of-deprocrypticism. This explains why this memetism/transdimensional-meaningfulness/suprastructural-meaningfulness psychology is a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy in successive ontological-normalcy/postconvergence/postdicatory ontological-reconstituting—as-of-conflatedness/deconstruction of dialectical existentialisms/full-depths-of-existential-implications as reference-of-thought, rather than intradimensional-subknowledging-normalcy or reflex-normalcy) for ‘de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. stranding-as-rightfully-mentally-oblongated/deandored-and-dialectically-or-contendingly-out-of-phase for the dialectically-and-ontologically superseded/transcended/unsound registry/registry-worldview-or-dimension, and stranding-as-rightfully-mentally-straight/candored-and-dialectically-or-contendingly-in-phase for the dialectically-and-ontologically-superseding/transcending/sound registry/registry-worldview-or-dimension. This ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the
veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the conventioning–superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning–superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of present day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing–apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ exercise of
registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflicatedness as dialectical transformation as-prospective reference-of-thought. A dialectical ontological-reconstituting—as-of-conflicatedness/deconstruction of reference-of-thought (recognising human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>) as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of present day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as fundamentally the reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound
meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy de-mentating/structuring/paradigming with respect to positivistic chemistry de-mentating/structuring/paradigming, a flat-world de-mentating/structuring/paradigming with respect to a round world de-mentating/structuring/paradigming, a creationism de-mentating/structuring/paradigming with respect to an evolution de-mentating/structuring/paradigming, a universal humanity de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal de-mentating/structuring/paradigming, a science de-mentating/structuring/paradigming with respect to a superstition de-mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in de-mentating/structuring/paradigming, prospectively. This brings forward fundamentally the limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)/uninstitutionalised-threshold construct of our times (procrypticism) and the de-mentative/structural/paradigmatic implications specifically for such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ (as highlighted) over a relatively mented-psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-devising-representation processing exercise’; rather it is an intrinsic ontological-normalcy/postconvergence notion that doesn’t respond to human mental-devising-representation processing. The role of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—
stranding-or-attributive-dialectics) as a mental-devising-representation mechanism that syncs with evolving ontological insight (insight about intrinsic reality) as ontological-normalcy is to reflect/perspectivate the dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the capability as its mental-devising-representation of a registry-worldview/dimension (uninstitutionalised-threshold), which otherwise any <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview will overlook as it is a <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}
that is exclusively operant and deterministic only to its very own reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only de-mentation—{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recomposure it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from 66 to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a de-mentative/structural/paradigmatic–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or preconverging-or-dementing–apriorising-psychologism/subknowledge/perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness) psyche as being ontologically-preconverging-or-dementing–apriorising-psychologism/dialectically-preconverging-or-
dementing–apriorising-psychologism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ has to do with the foundational nature of mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold; much the same way like a positivistic world opened up from the de-mentation-（supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics）of a non-positivism/medievalism registry-worldview/dimension at its uninstitutionalised-threshold. To further elucidate the criticality as indicated of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the de-mentation-（supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics）of de-mentation-（supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics）. of a positivising/rational-empiricism reference-of-thought. Such an insight prospectively will
involve putting into question naïve and ever evolving constructs in our present day
mented/stigmatic psychology science like personality disorders on the fundamental argument
regarding the relatively poor insight about the requisite reference-of-thought to be established
in the first place before then qualifying personalities with respect to such a philosophically
and insightfully soundly established reference-of-thought, and not just naïve assumptions
whether on the basis of popular axioms, vagueness and personal however well-meaning; with
the idea of meaningfulness that goes beyond just a conventioning reference-of-thought and is
rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a
‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or
natural psychology-of-dynamics’ that is ontologically-driven will go beyond an exercise of
mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given
settings-of-time, but grasp that human personality is critically involved in the de-mentation-

reflecting ontological-reconstituting—as-of-conflatedness/deconstruction as the more
profound reference-of-thought and analysis, and with a more fundamental
interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and confictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite de-mentative/structural/paradigmatic shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of constitutedness in lieu of conflatedness as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) very much explains human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the recurrent ‘postconverging-or-
dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Such a ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdictatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology’, and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the past and future, with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-of-conflatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-of-conflatedness’/deconstruction is that it

Considering that deconstruction as ‘ontological-reconstituting–as-of-conflatedness’ necessarily implies not one but two dialectically opposed registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and the preconverging-or-dementing–apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirageas <amplituding-formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just
as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and not a secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive).

Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting—as-of-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the reference-of-thought and meaningfulness of the seemingly reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given reference-of-thought and projecting the appropriate reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected reference-of-thought. This is akin to the idea of a positivistic mindset/reference-of-thought articulating chemistry rules and principles to an alchemic mindset/reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic
mindset/reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-worldview/dimension) of ‘striving to avert preconverging-or-dementing–apriorising-psychologism mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve a <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ that is not limited by the illusion-of-the-present/present-consciousness/mirage as <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of any registry-worldview/dimension and so at the deeper memetic/psychoanalytic level, suprastructuring as such reveals that ‘human psychology is very much an active construct associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ in the reflection as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of retrospective, present and prospective institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-of-conflatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the
psychology science (before even worrying about the abnormal)? Further isn’t it possible to
make the contribution of present day psychology more complete in constructing a more
thorough and dynamic understanding of mentation/psyche in relation to individual-social-
humanity aspiration, where psychology evolves in a complete existentialism cadre. In other
words, so placed in a becoming/existential cadre, is psychology not meant rather than just
encapsulating what the human psyche/mentation is all about as if it is a set and determinate
construct (strangely enough inadvertently and often mirroring schemes of social
classification, and hence of social power relations) equally involve in articulating aspiratory
models for human mentation/psyche? And such a de-mentating/structuring/paradigming shift
with regards to present day mented/stigmatic psychology can actually be implied by
prospective ontological-normalcy as deprocrypticism (involving ‘ontologically-
reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation by ‘overriding failing/not-upholding-<as-of-
apriorising/axiomatising/referencing> and renewing ever sound and appropriate’ reference-
of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation’) over the ‘conventioningly-
driven/conventionalised hollow-constituting-<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation> reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation whether the latter is failing/not-upholding-<as-of-
apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. Insight from ontological-normalcy as it matches placeholder-
setup/mental-devising-representation/mentation/consciousness-awareness-teleology to
ontological-veridicality (notwithstanding that this undermines habituated conventionalised
mented/stigmatic placeholder-setup/mental-devising-representation/mentation) representing
conflatedness/deconstruction and point out their peculiar mented/stigmatic specificities in their hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation involving with all mented/stigmatic mental-devising-representations a circular preconverging-or-dementing-temporal-manifestation (subontologisation in-a-social-dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the various institutionalisations/institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing are actually the levels at which their specific quality (whether as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism) actively and comprehensively define and characterise each of the institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-of-existential-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered attainment of positivism, and effectively by a prospective insight, proto-deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were
actually very thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their de-mentating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexity of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the-Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of a temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal notions and virtues (as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) without institutionalisation design or conceptualisation! This is an unspoken recognition of the inherent reality of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation conceptualisation of the-Good (positivistic ontological-primemovers-totalitative-framework). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of-meaningfulness-and-teleology) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and specialisms, that are always ferociously, blindly and without further justification upheld by regulation and law and/or newer legitimately made regulation and law even against popular whim given their ‘inherent assuredness to preserve the intemporal construct in a furtherance of intemporal-preservation percolation-channelling. Prospectively,
deprocrypticism institutionalisation will imply a superseding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as new-mentation and further extension of formalisation as ‘deferential-formalisation-transference’ of ‘deprocryptic formalisation’ into the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) implying a greater underlying demystification of positivism–procrypticism/disjointedness-as-of-reference-of-thought reasoning by way of the ontological-contiguity (as from prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>) with respect to the veridicality of human temporal-to-intemporal individuations dispositions nature that explains the nature of the positivism–procrypticism registry-worldview notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> as we become more consciously insightful, preemptive and superseding of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivism–procrypticism meaningfulness-and-teleology with its social-construct implications; and this insight prospectively defines the conceptualisation of the present positivism–procrypticism registry-worldview/dimension vices-and-impediments as the backdrop for the deprocrypticism de-mentating/structuring/paradigming shift. But this equally as with all institutionalisations imply bringing to the collective consciousness a dialectically preconverging–or-dementing–apriorising-psychologism mental-devising-representation of the present procrypticism registry-worldview/dimension (which is prior) from the prospective registry-worldview/dimension (deprocrypticism) as the new reference-of-thought, which will seem unintelligible to the prior even though it is actually more real suprastructurally and in ontological-normalcy/postconvergence, just as our representation of
medievalism though more ontologically-veridical will seem unintelligible/existentially-suprastructural to a medieval mindset/reference-of-thought in its closed mental-devising-representation of intrinsic-reality. Central to the notion of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as the ‘veridical reference-of-thought’ articulation of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity as of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation over the positivism–procripticism/disjointedness-as-of-reference-of-thought notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> as of its perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and so in a prospective de-mentation-supererogatory/ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontology) supersedes intradimensional-subknowledging-normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue reference because to start with all conventioning institutionalisations are de-mentatively/structurally/paradigmatically in want of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity whether as recurrent-utter-institutionalised, ununiversalisation, non-positivism/medievalism or procripticism in a prospective insight. Conventioning as such could only prospectively reflect ‘sound reference-of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation; the holy grail of the
deprocrypticism institutionalisation ideal. But actually a conventioning construct in contrast
to attaining such a prospect of ‘abject-purism-of-ontology’ rather tends to operate on the
basis of least-acceptable-meaningfulness-or-value-reference-denominator for that
conventioning construct, and the latter is thus the ‘effective meaningfulness-or-value-
reference’ of the said conventioning construct notwithstanding any grander ontological
meaningfulness-or-value-reference striving for abject-purism-of-ontology. The implication
here is effectively that grander ontological and philosophical meaningfulness-or-value-
references are no more pertinent in a conventioning construct than its least acceptable
meaningfulness-or-value-reference-denominator but for discrentional or prestige basis of
discrentional and disparate recognition, out of discretionary formalisation in inducing the
secondnaturing and internalisation for that recognition. This insight is pertinent in that in the
construct of ontology driven meaningfulness-and-value-references of intellectual grounding
(purism-of-ontology), it is important to grasp that the social integration of meaningfulness-
and-value-references in a conventioning construct is effectively a least-acceptable-
meaningfulness-or-value-reference-denominator-driven dynamism, and that it is by an
effective utilisation of the institutionalisation percolation-channelling mechanism that such
‘purism-of-ontology’, by it’s the-Good, can stand out in bringing to bear its human and social
emancipation potential. In the same token, thus it is equally important to grasp that primacy
of meaningfulness-or-value-reference orientations in conventioning constructs do not
necessarily has to do with a primacy of ontological-veridicality pertinence especially where it
is not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory–
dementativity but by social-aggregation-enabling, notwithstanding that such a conventioning
construct may be seen as the social reference of grander meaningfulness-and-value-references
in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-
unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and their corresponding temporal enculturation/temporal-endemisation. Explained in another way, the actual depth-of-storying involves:

- and so, as an ontological-escalation/aetiologisation (the organic-comprehension-thinking analytical resolution) that is essentially and prospectively deprocrypticism; ideally such a resolution articulation technique comes down to an enigmatic ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflicatedness as dialectical transformation storying reflecting-or-perspectivating a procrypticism (preconverging-or-dementing-of-positivistic-meaningfulness) registry-worldview/dimension as notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> (at positivism–procrypticism uninstitutionalised-threshold) with respect to deprocrypticism abject ontological-contiguity/ontological-veridicality (postconvergence), and so as the bigger grounding for the resolution of the epiphenomenon/incidental-phenomenon of psychopathy and social psychopathy.

By the way this operant conceptualisation is relevant with phenomena of perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation> in all registry-worldviews/dimensions. Wherein for instance in a non-positivism/medievalism registry-worldview/dimension:

supererogation—postconverging/dialectical-thinking–apriorising-psychologism whether unconsciously by ignorance, or consciously by affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (the temporal-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’)

- and so, as an ontological-escalation/aetiologisation (the organic-comprehension-thinking analytical resolution) that is essentially and prospectively positivistic, just as the ontological-escalation/aetiologisation of psychopathy and social psychopathy is essentially deprocripticism. Likewise, one can imagine the same type of enigmatic ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation storying reflecting-or-perspectivating a non-positivism/medievalism registry-worldview/dimension as notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> (at its uninstitutionalised-threshold) with respect to positivism as (postconvergence) ontological-veridicality/ontological-contiguity, as the bigger grounding for
the epiphenomenon/incidental-phenomenon of say a medieval phenomenon of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> like sorcery. As fundamentally, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming resolution as against an extricatory/temporal/non-ontological de-mentating/structuring/paradigming resolution fundamentally implies putting into question a registry-worldview’s/dimension’s reference-of-thought (to be transcended by a prospective transcending/superseding registry-worldview/dimension) that is structured to enable the endemisation and enculturation of a phenomenon of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> like sorcery in the non-positivism/medievalism world; implying that an ‘intemporal-disposition mindset’ of positivistic disposition finding themselves in a non-positivism/medievalism social-setup will not see the proffered accusation of sorcery against them or any other individual as simply requiring defending themselves or the accused of sorcery or ‘playing out’ in the social-and-temporal-trading of that social-setup to extricate themselves or the accused but rather project that the registry-worldview/dimension in endemising and enculturating the possibility of accusations and notions of sorcery is de-mentatively/structurally/paradigmatically dialectically-primitive/dialectically-out-of-phase (thus in need of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity), and the undermining of that registry-worldview/dimension is the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming resolution of the epiphenomenon of sorcery across metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation.
It should be noted that an intemporal or ontological or longness-of-register-of-meaningfulness-and-teleology resolution to perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in any registry-worldview/dimension is well beyond the notion of resolving just an underlying causative subknowledging-impulse/compulsive-dementing (condition from say a physiological cause), like psychopathy in the positivistic registry-worldview/dimension or a sorcerer accuser in a medieval registry-worldview/dimension. That may explain the initiation of a loss of intemporal social universal-transparency—<transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative>epistemic-totalising—<in-relative-ontological-completeness> arising from postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance which is then at the base of a registry-worldview’s/dimension’s uninstitutionalised-threshold (which is overall the de-mentative/structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a ‘deferential-formalisation-transference’/skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) institutionalisation setup, whether at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and suprastructural and doesn’t respond to and have nothing to do inherently with human mental-devising-representation incrementalism—in-relative-ontological-incompleteness and notional—disjointedness, as it is up to us to proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-way (as reference-of-thought—categorical-imperatives/axioms/registry-teleology) to naively imply that
reality will and should comply, as failing/not-upholding-as-of-apriorising/axiomatising/referencing> reference-of-thought–categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-ends and the need for de-mentating/structuring/paradigming shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the (recomposured)-consciousness-awareness-teleology or mental-devising-representation of a registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporality/longness as ontology’.

* In other words, fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, qualified as the very essence of intrinsic-reality as a suprastructural and ontological-normalcy/postconvergence conjoint-ontological-and-virtue-consistency upholding construct; and in so doing, explications successive institutional-cumulation/institutional-recomposure<-asta-historiality/ontological-eventfulness/ontological-aesthetic-tracing> existentialisms/full-depths-of-existential-implications. This transcended/superseded uninstitutionalised-threshold in the de-mentation-&lt;supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics&gt; is a universal notion in establishing that that which is perversion-of-reference-of-thought-&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation&gt; and therefore not ontologically-veridical (superseded/transcended stranding-as-mentally- oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) or the uninstitutionalised-threshold, and that which is not perversion-of-reference-of-thought-&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation&gt; and ontologically-veridical (superseding/transcending stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase) or the institutionalised threshold. ontologically why and how humans from the very beginning to today are the same as it
fundamentally grasps the dynamism of institutional-cumulation/institutional-recomposure-
<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>/memetic-
reordering/psychoanalytic-reorientation that elucidates our human contiguous
anthropological-continuity or anthropopsychology. Further, in the practical elucidation of
social issues having to do with an issue of perversion-of-reference-of-thought-<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

is to understand what meaningful apriorising–registry is the ‘veridical reference-of-thought’
as reflected/perspectivated by soundness-or-authenticity-of-reference-of-thought/candoring-
and-dialectically-or-contendingly-in-phase and what is rather non-ontological-and-non-

dementing–apriorising-psychologism as reflected/perspectivated by mental-
slantedness/decandoring-and-dialectically-or-contendingly-out-of-phase; and so in an
underlying conceptual framework of ontology as an ideal that pulls the social towards the
intemporal and the real nature of the social rather as a ‘conventioning construct’ that while
susceptible to ontological/intemporal influence is equally the milieu of temporal drawbacks
that need to be critically undermined including with ‘knowledge-notionalisation’ involving
not only the study of the ideal but ‘understanding how temporal-dispositions arise and work’
to better skew/deferential-formalisation-transference for intemporality/ontology as
institutionalisation/intemporalisation together with differentiating between good-naturedness which is rather impression-driven, vague and might actually be precarious by its meaningful disposition to extrinsic-attribution and associated perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and the-Good which is about understanding in ontological-primemovers-totalititative-framework how reality is/how things work to deliver virtue and hence is the basis for formalisations, and actually the ‘deferential-formalisation-transference’ has been the process by which throughout human history, increasingly segments of social thinking (present-day subject-matters) are taken out of common hotchpotching and undisambiguated temporal-to-intemporal-dispositions in the extended-informality—(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) to be given ‘formal deferential status’ to ensure the supersedingness and internalisation of intemporal-disposition inclination to ontological-veridicality. This de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—strandng-or-attributive-dialectics) insight brings up another definition of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process relating human mental-devising-representation with the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality, wherein we can imagine ‘an initial state for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of base—de-mentation and imagine a completed state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non—de-mentation—<as-to-perspective—ontological-normalcy/postcovergence>’, with the underlying mental-devising-representation/(recomposure)—consciousness-awareness-teleology taking/institutionalising/intemporalising the abstract human mind from base—de-mentation to non—de-mentation—<as-to-perspective—ontological-normalcy/postcovergence>; involving at
successive uninstitutionalised-threshold of the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, social universal-transparency-<transparency-of-totalising-entailing, as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, internal-contradictions induced from ontological-primemovers-totalitative-framework inoperance, de-mentation–(<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) divulging prospectively perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality, with corresponding formalisation and internalisation as values. While this process had occurred priorly rather beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existental-unthought> from base-institutionalisation, universalisation and up to positivism, it will possibly be more driven as-of-consciousness-awareness-teleology when it comes to attaining deprocrypticism as the latter registry-worldview/dimension is actually weaker than the preceding registry-worldviews/dimensions in eliciting a positive-opportunism and will more strongly depend on percolation-channelling of intemporality/longness to be realised. Preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as to
suprastructural proxying of intrinsic-reality), beyond the deficient mental-devising-representation intradimensional representation of meaningfulness-and-teleology. The storying/narrating technique for relating preconverging-or-dementing–apriorising-psychologism will involve projecting suprastructurally and in ontological-normalecy/postconvergence in the transcending/superseding registry-worldview/dimension for ‘ontological-reference meaningfulness’ as the intemporal-disposition (in ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting organic-comprehension-thinking), while representing temporal-dispositions as rather in the transcended/superseded registry-worldview/dimension (preconverging-or-dementing–apriorising-psychologism) meaningfulness-and-teleology which is not-of-ontological-reference, and in the place of the temporal-dispositions (in-circumventive/distractive-temporal-prioritisation-of-reference-of-thought threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologisms) preconverging-or-dementing–apriorising-psychologism wrongful-stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase, imply their rightful-stranding-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase; just as all prospective/transcending/superseding registry-worldviews/dimensions mentally-represent-and-relate-with their prior/transcended/superseded registry-worldviews/dimensions, even though all the latter naturally by <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag resist such representation by the former. Noting as well that teleologically, the transcending/superseding and the transcended/superseded are in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. That is, the two ‘reason pass each other’ (wherein the transcending/superseding is organic-comprehension-thinking while the
transcended is in threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing—apriorising-psychologism) as the
transcending/superseding is involved in ‘reasoning-through/over’ and not ‘reasoning-with’
the transcended/superseded (this explains why transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is ‘a registry-worldview’s/dimension’s

effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-incoherence/institutional-constraining and social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) imposes crossgenerationally the dominant as transcending/superseding meaningfulness over the dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries is suprastructural and ontological-normalcy/postconvergence and doesn’t adjust to the mortals, that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying reference-of-thought to intrinsic-reality, to start with. Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s², but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘de-mention-(supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) of reference-of-thought’ in upholding a mental-devising-representation of temporal-dispositions as preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> is rather a comprehensive intemporality-preserving ontological-entrapment of the ‘notional-discontiguity/epistemic-discontiguity-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, – with-corresponding <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and the rightful-stranding-as-mentally-oblorgated/decandored-and-dialectically-or-contendingly-out-of-phase recurrently, for all registry-worldviews/dimensions (preconverging-or-dementing–apriorising-psychologism), that suprastructurally and in ontological-normalcy/postconvergence defines any specific registry-worldview/dimension dialectical-primitivity whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrepticism/disjointedness-as-of-reference-of-thought. The bigger point is that fundamentally it is impossible to conjugate/inflect/protract intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>) as then one is just in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence-and-sublimity/sublimation/supererogatory-de-mentativity or is non-transcendable (hence undementable/still-of-postconverging-or-dialectical-thinking–apriorising-psychologism) when in fact it is preconverging-or-dementing–apriorising-psychologism/subknowlding/registry-perverting-in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This latter idea is actually the <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex of all prior/transcended/superseded registry-worldviews/dimensions with respect to the suggestion of prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate from our vantage perspective at the backend of the institutional-cumulation/institutional-

process to be rather not true with prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity though we’ll in turn obviously act by reflex in <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with respect to the suggestion of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity undermining our registry-worldview’s/dimension’s categorical-imperatives/axiom/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/abjection to apprehend intrinsic-reality, over incrementalism-in-relative-ontological-incompleteness and notional—procrypticism/notional—disjointedness—as-of-reference-of-thought which is more about ‘transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework as all-determinant); with reasoning-through/abjection generally implied in formal constructs and settings as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework settings while informal constructs and settings tend more to incrementalism-in-relative-ontological-incompleteness and notional—procrypticism/notional—disjointedness—as-of-reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is that formal constructs and settings emphasise ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting in longness-of-register-of-meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-
prioritisation-of-reference-of-thought in shortness-of-register-of-meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of temporal-to-intemporal-dispositions. ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplitudiniformative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) in wrongly implying that a deprocrypticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infallibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal
circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>} perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy in contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reference of ontological-contiguity but for naively and wrongly implying good-natured qualities as being ontological (rather than the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation validated by ontological-contiguity or a ratio-conguity notion), and since the ontological-contiguity—of-the-human-institutionalisation-process shows that ‘good-naturedness’, without the-
Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ontological-contiguity, fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophets (working rather more assertively on supernatural de-mentating/structuring/paradigming) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/ontological-primemovers-totalitative-framework/ontological-contiguity they actually aspired for ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting, that is, they were prioritising and focussing on that which establishes universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-{as-of-relatively-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the golden mean into ‘Intemporal-prioritisation-of-reference-of-thought’–as-confaltedness-or-ontological-reprojecting but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism which are of transcendental nature as ‘shaping the human psyche’ and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather non-transcendental and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms–as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social
emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximising-recomposing-for-relative-ontological-completeness de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting will be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally. Such an insight can further be expanded thus, it is critical to note that the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing are developments of human mentation capacity in grasping its ‘internal ontological-reconstituting–as-of-conflatedness/deconstruction intermediating environment’ and the external environment. The former refers to the teleological devised representation of the relationship with the external environment like language, organisation, culture and other institutional construct by which it existentially accesses the external environment. In effect, though counterintuitive, human
of-thought’—as-conflatedness-or-ontological-reprojecting/intemporal-preservation preemption of procrypticism, so construed by ‘deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’; and so, in the relation between human developing mentation capacity and suprastructural-and-postconvergence-intrinsic-reality in ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation). In this regard, transcendental institutionalisation is basically an ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting/intemporal-preservation preemptive conceptualisation. Such ‘‘Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting/intemporal-preservation preempting that actually create institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>’ is in fact the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework which in the face of ontological-normalcy as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation harkens back to ontological-primemovers-totalitative-framework to establish prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the corresponding mental-devising-representation of the ‘de-mentation-(supererogatory–ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ as stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase) to-meet-up/proxy-with the ever dialectically suprastructural and ontological-normalcy/postconvergence intrinsic-reality, explaining the institutionalisations as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, as reflected/perspectivated by their organic-
comprehension-thinking. This contrasts with the defective good-natured construct as impression-driven and intradimensionally-tied and all so apt to existentially fail ontological-normalcy/prospective-transcendence-in-perpetually-failing-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as it is rather tied to and proxies, by mere-form, with intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation irrespective of whether these are failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; and thus as the corresponding ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ mental-devising-representation as preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, explaining the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>, reflected in terms—as-of-axiomatic-construct of registry-teleology-mentation, behind this mental-devicing-representation of the registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism as reflected/perspectivated by their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism.

Briefly, such an anthropopsychological/the-anthropological-continuity conceptualisation as articulated above further enables the insightful conceptualisation of ‘ontological-primemovers-totalitative-framework retracing (for temporal-to-intemporal-dispositions disambiguation articulation) analysis’ as expanded upon below, in the ‘ephemerality that is the social-construct’, on the basis of an ontological-
normalcy/postconvergence intemporal-preservation-entropy-or-contiguity-or-ontological-preservation understanding of the social-construct. This is central in articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposing possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of procrypticism):

Of course, this is more like a ‘notional template’ in a ‘dynamics of benign implications to grave existentialism/full-existential-depth-implications’ articulated over a functional social-construct which however ‘endemises psychopathy and social psychopathy rather at the uninstitutionalised-threshold of the positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation persion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> known as procrypticism preconverging-or-dementing–apriorising-psychologism, requiring futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation/intemporalisation (for the furtherance of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-contiguity/ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology), and cannot be made a
reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-primemovers-totalitative-framework demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-.
present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as metaphysics-of-presence, of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity. One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy lifespan perspectives of individuals existentialism/full-depth-of-existential-implications of shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> of the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a
mindset/reference-of-thought as a secondnaturedness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring induced from intemporal-disposition individuation disposition, and correspondingly differentiate between being so-institutionalised with a secondnatured and internalisation mindset/reference-of-thought and the intemporal–individuation disposition that will equally be responsible out of mere intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentias/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, and inherently implies ‘a universal existentias/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials.

This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and
creative application of the de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates postconverging-or-dialectical-thinking–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of mental-devising-representation by which human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social-stake-contention-or-confliction behind the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring history but a ‘consciously directed’ abstract understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendence-and-sublimity/sublimation/supererogatory–de-mentativity like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation-channelling. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation.

It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions. (By ontological meaning is implied intemporal/veridical/purism/operant-construct/predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment) meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical/compromised/non-operant-and-vagueas <amplituding/formative> epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaning or metaphysical/speculative/banality/social-discomfiture/temporal-human-centered meaning).

Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method I qualify as ‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite
classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of ‘point-referencing’ notions and concepts in a contiguously dynamic, evolving and ontological-reconstituting–as-of-conflectedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation. This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on ‘the organic dynamics of understanding’ wherein a child for instance doesn’t necessarily grasp outright the fullness of concepts-of-meanings but rather the ‘relevant dynamic contextualisation of meanings’ ensuring a strongly operant and ‘wealthy’ relationship with meaning in the social context. ‘Intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’ with respect to uninstitutionalised-threshold of registry-worldviews/dimensions, can be construed as follows:

Supposed all humanity across space and time that ever existed was just ‘one human temporal-to-intemporal individuation’, the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism, and prospectively to deprocrypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism as convergent concepts towards deprocrypticism (as ‘longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, as induced by maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with deprocrypticism thus implying a ‘full-cycle ontological-contiguity—of-the-human-institutionalisation-process undermining of subknowledging/mimicking/emancinant-uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) to handle the requisite transcendence-and-sublimity/sublimation/supererogatory-de-mentativity even if from the very start the human doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on the successive challenges of base-institutionalising, then universalising, then positivising, and finally with deprocrypticism absolute ontological-contiguity by undermining ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology-in-arrogation’ (longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology). It should be noted that the issue of procrypticism had always been present at all times of human existence but the natural priority going by human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) was first to have a base-institutionalisation institutionalisation, universalisation institutionalisation, positivism institutionalisation before prospectively deprocrypticism institutionalisation; more precisely, previous psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring are indirectly (skewing towards) addressing base-institutionalisation, universalisation, positivism and deprocrypticism, up to the point of the respective institutionalisation/intemporalisation-recomposure where the reference-of-thought-as-the-registry-worldview is directly addressed. This thus explains ontological-normalcy/postconvergence across human mental-devising-representation as changes to accommodate intrinsic reality by psychoanalytic-unshackling/memetic-reordering/institutional-recomposurings of successive illusions-of-the-present/present-consciousnesses/epistemic-totalising–self-referencing-syncretising/mirage at these successive institutionalisation/intemporalisation levels including the positivism–procrypticism institutionalisation/intemporalisation, towards intrinsic-reality/ontological-veridicality; that has and will never change, and by way of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework inducing of social universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) and internal logical coherence/contradiction this then validates the need for human psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In the bigger scheme of things, it points to the fact that ontologically for the full potential of human science, this should be ‘rising from this fundamental philosophical depth/profoundness of thought’ to then transversally address the issues it raises while projecting prospectively.

A further insight can be grasped regarding the relationship between psychopathy, anthropopsychology/the-anthropological-continuity, veridicality (intrinsic reality/ontological representation), non-veridical reality (illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as metaphysics-of-
mindset). A positivistic mind can’t explain the denaturing of the notion of witchcraft to a non-positivism/medievalism mindset as the state of being of non-positivism/medievalism means we make reference to non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology that end up endemising/enculturating such superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ of the medieval mindset/reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the deprocrypticism registry-worldviews/dimensions). In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to-reference-of-thought is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms–as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool’ whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is
not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-primemovers-totalitative-framework. For instance, while the traditional reflex of the human mental-devising-representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its ontological-primemovers-totalitative-framework, thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-utter-uninstitutionalised earlymen to our current positivism-procrypticism registry-worldview, with the insight that our mental-devising-representation will evolve when prospective abstract reality ontological-primemovers-totalitative-framework shows that it is defective/perverted as procrypticism/disjointedness-as-of-reference-of-thought, from a deprocryptic mental-devising-representation.

In the same vain, why we perceive the recurrent-utter-uninstitutionalised mind as that of ‘a savage’, the recurrent-utter-uninstitutionalised in its ‘<amplituding/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence perceives its mind as straight/candored and as of organic-comprehension-thinking (organicalism/’Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) and soundness-or-authenticity-of-reference-of-thought. It is the prospective base-institutionalised mind that ‘invents’ the representation of mental-slantedness/decandored-and-dialectically-or-contendingly-out-of-phase/dialectically-primitive) of the recurrent-utter-uninstitutionalised mind; and likewise with the ununiversalised mind and universalised mind, non-
As registry-worldview/dimension defects or denaturing are responsible for the vices-and-impediments of the said registry-worldview/dimension; noting that the fundamental construction is a ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation’ making reference to ontological-primemovers-totalitative-framework and not a vague ‘impression/good-naturedness/wishfulness conceptualisation’ making reference to the banal ⟨amplituding/formative⟩wooden-language-(imbued—averaging-of-thought-⟨as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩) as may illusionary be projected intradimensionally/registry-worldview (the latter being represented as oblongated non-veridical narratives by the prospective intemporal-disposition-worldview)! The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’. For instance, no non-positivism/medieval mindset is ‘good-natured/vague by the
registry-worldview/dimension impression’ enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address ‘the-Good/understanding’ of a positivistic mindset which will resolve or structurally-rendered-inoperant the problems of superstition and witchcraft as the former will always make reference to the defective/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology of non-positivism/medievalism no matter how ‘good-natured/impression-driven’ it is. The same applies with procrypticism and deprocrypticism. No procrypticism (preconverging-or-dementing–apriorising-psychologism) mindset as of impression-driven/good-naturedness/wishfulness has the requisite ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ insight to resolve/structurally-rendered-inoperant the issues of the vices-and-impediments of procrypticism as it is the deprocryptic mindset of ‘the-Good/understanding/knowledge construct’ that is the virtue that carries the sound registry-worldview/axiomatic construct/categorical-imperatives to be able to do this.

- the-Good is an intemporal/ontological articulation referencing intemporality/longness in a contiguous emanance of ‘transcendental/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ and corresponding derived reference-of-thought–categorical-imperatives/axioms/registry-teleology; and is imbued with the ‘memetic reordering contiguity’ of institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> (base-institutionalisation-to-universalisation-to-positivism-to- deprocrypticism, and thereafter). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework is notionally more of ‘a capacity and scientific construct’ (high or low mentation-capacity) rather than a ‘stigmatising construct’ (positive or negative impressions).
- ‘Good-naturedness’ is a temporal articulation that wrongly references (distractively) for temporality-sake registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology priorly-and-over ‘transcending/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’; and is imbued with the memetic notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> that undermines institutional-cumulation/institutional-recompose<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. Good-naturedness is notionally more of a ‘stigmatising construct’ (positive or negative stigmatising) rather than ‘a capacity and scientific construct’ (high or low mentation-capacity).

- Virtue (retrospectively to prospectively) is not determined by ‘good-naturedness’/impression-driven construal/conceptualisation of meaning but rather by the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation of meaning as validated by ontological-primemovers-totalitative-framework (the emanant/becoming ontological-normalcy/postconvergence determinant of veridicality/the-quality-of-being-emanantly-real). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) as per veridicality demonstrated by ontological-primemovers-totalitative-framework is the complete and sufficient elaborative framework for conceptualising virtue! Such ontological-primemovers-totalitative-framework is rather tangentially the purview of increasing realism of the institutional-cumulation/institutional-recompose<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as it is contiguous with ‘human transcending across shifting virtue de-mentating/structuring/paradigming for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring);

Such an articulation of the human, retrospective and prospective, skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity)/deferential-formalisation-transference towards/development of virtue is grounded in a the-Good/understanding/knowledge-driven conceptualisation on veridicality established by ontological-primemovers-totalitative-framework validation. The overarching and defining notion is that each registry-worldview/dimension is only capable of the virtue reflected by its intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In other words, ‘a registry-worldview/dimension defective reference-of-thought—categorical-imperatives/axioms/registry-teleology as of its relative-ontological-incompleteness-induced—threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising—psychologism’ is responsible for the vices-and-impediments of that registry-worldview’s/dimension’s reference-of-thought’; and, requiring prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation
and preemption of such perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. Thus de-
mentatively/structurally/paradigmatically it is the prospective registry-worldview/dimension
which is always the ‘prospective virtue potential’ for the prior/superseded registry-
worldview/dimension. Basically, base-institutionalisation enabled the virtuous resolution of
vices-and-impediments of the state of recurrent-utter-uninstitutionalisation, and likewise with
universalisation and ununiversalisation, positivism and non-positivism/medievalism, and
In the present world, we no longer do institutional slavery, we talk of universal rights and
equality of all people, mob judgment and mob killing is hardly practised anymore,
accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist
registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring that enabled such human transformation from a non-
positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism,
as biological or otherwise, of humans living now over their forerunners.

Basically, human ‘supplanting–conviction-as-to-profound-supererogation—
postconverging/dialectical-thinking–apriorising-psychologism deductive reasoning’ as
prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation and hence virtue; that is, so long as it is adhered to properly.
However, this is not the case on two grounds. It is critical to distinguish a defect in improper
processing/operating of supplanting–conviction-as-to-profound-supererogation—
postconverging/dialectical-thinking–apriorising-psychologism or prelogism which is rather
construed as a singular/ad-hoc ‘implicitation-of-act-execution defect’ and can be then
qualified as a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—
postconverging/dialectical-thinking–apriorising-psychologism’; it being nonetheless a
supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-

thinking–apriorising-psychologism or prelogism as it holds the teleological aim of
‘intemporal preservation with a principled adherence to supplanting–conviction-as-to-

profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’
even though it delivered an inappropriate/poor-or-bad logical-processing-or-logical-

implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. On the
other hand, a defect of postlogism/psychopathy compulsion–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation in
hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-
in
temporal-preservation> operates on the ‘parasitising/co-opting’ basis that intemporal-

preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–
categorical-imperatives/axioms/registry-teleology are mere formulaic determinants of human

thought and action and is the basis for perversion-of-reference-of-thought<as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. Such
a defect is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-

Being-or-ontological-or-existential–defect>’ as it rather holds the teleological aim of
‘temporal preservation/undermining-of-intemporal-preservation without a principled

adherence to prelogism-as-of-conviction-as-to-profound-supererogation’ and thus speaks to
the disposition to act likewise technically in a large or infinite number of cases (syncretising).

It should be noted that temporal-dispositions

(ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) are in-of-

themselves act defects and not being defects. However, such temporal-dispositions are

registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-

ontological-or-existential–defect> when these relay postlogism in hollow-constituting<as-
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as of formulaic slanting compuling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism (whether of the psychopath or not) inducing narratives that are slanted/preconverging-or-dementing–apriorising-psychologism/dialectically-or-contendingly-out-of-phase/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated as in perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and not-of-logical-contention; due to the miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and temporal-enculturation/temporal-endemisation (occurring at the specific temporal-dispositions). For instance, going by the BODMAS equation highlighted before, the mere operation of arithmetic without factoring in A’s condition/subknowledge-impulse/compulsive-slanting—preconverging-or-dementing-apriorising as of incrementalism-in-relative-ontological-incompleteness additionality with 1 leads to a systematic failure that is ontological and not a mere act defect, and defines an uninstitutionalised-threshold. It should be noted that at all uninstitutionalised-threshold, it is de-mentation—<supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics> that enables the mental-reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with)-representation of the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect—<as-Being-or-ontological-or-existential–defect> as perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in construing unsoundness-or-inauthenticity-of-reference-of-thought (stranding-as-mentally-

uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> at the
uninstitutionalised-threshold where you need deprocrypticism. Reality being blunt/incisive as
it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to
us, is in essence of potent operant and deterministic phenomenality that doesn’t have any
place for our thresholding discrete incrementalism-in-relative-ontological-incompleteness
notions but even for the cases where such discretion is artificially devised/implied, it is
applied as operant and deterministic (consider quantum-mechanics). So ontologically, the
mental-devising-representation of perversion-of-reference-of-thought-<as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as
strands-of-perverting-temporal-dispositions is definitely accurate on two insightful grounds.
Reality's bluntness/incisiveness doesn’t leave room for discretionary judgments about ‘good-
natured’/impression-driven conceptualisations of virtue and virtuous judgment within the
overarching framework of such the-Good/understanding/knowledge-reification/ontological-
primemovers-totalitative-framework reality determinism, and such impressions can only pass
for an illusion-of-the-present/present-consciousness mirage and/or
<amplituding/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag (attempting to operate logic in a
superseding registry-worldview on the basis of the reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation of a superseded registry-worldview; for instance, God of plane
type of statement in say an animistic society that comes in contact with foreigners and a
plane). The second reason is that we can garner insight on prior/superseded
institutionalisations and understand that the vices-and-impediments are actually cross-
sectional to the registry-worldviews/dimensions as of beyond-the-consciousness-awareness-
teleology-<in-existential-extrication-as-of-existential-unthought> and it is intemporal philosophical development that goes on to liberate/enlighten/moult-out ‘actors of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ who in turn then shine the light across society, i.e. institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference for the supersedingness of the intemporal-disposition over temporal-dispositions for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/knowledge-reification/ontological-primemovers-totalititative-framework basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation’/temporal-to-intemporal-dispositions), rather than a transcendental understanding of the-Good – i.e., knowledge/virtue-as-institutional-cumulation/institutional-recompose-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>-for-intemporal-preservation. This points to the fact that necessarily the de-mentative/structural/paradigmatic virtue construct (knowledge-driven) of recurrent-utter-uninstitutionalisation is base-institutionalisation, ununiversalisation is universalisation, non-positivism/medievalism is positivism, and prospectively, that of our positivism–procrypticism/disjointedness-as-of-reference-of-thought is deprocrypticism or preempting—disjointedness-as-of-reference-of-thought; and so as a veridical and contiguous deterministic-and-operant psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, that knows no discretion!

There are ‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous de-mentative/structural/paradigmatic construct, analysed from the perspective of an ontological-veridicality establishing ontological-primemovers-totalitative-framework:

(i) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) which is effectively ontologically operant.

perate from an ontological-primemovers-totalitative-framework perspective; which generates (distractive-alignment-to-reference-of-thought) perversion-of-reference-of-thought-

imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation of the-Good conceptualisation; pointing to the fact that
impression-driven/good-naturedness/wishfulness conceptualisations are rather inclined to
induce vices-and-impediments given that the veridicality of reality (reflected by the-
Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework
conceptualisation) is all the virtue enabler that there is and other conceptualisations are rather
distractions that are in effect vice-ridden and an impediment, and more specifically when
these undermine the-Good/understanding/knowledge-reification/ontological-primemovers-
totalitative-framework conceptualisation.

Impression-driven/good-naturedness/wishfulness conceptualisation lack veridical
ontological-contiguity. One may query what is the meaning of good/truth/essence in a
recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And
invariably the answers will be a vague <amplituding/formative>epistemic-totalising-self-

worldview/dimension, and it is rather the emanant insight of the-

Practically, however ‘good intentioned or good-natured’ a non-positivism/medievalism mindset/reference-of-thought it is bound to rely on medieval reference-of-thought–categorical-imperatives/axioms/registry-teleology of sickness like a curse or witchcraft rather than a positivist notion like infection, and the virtuous outcome is fundamentally a question of the-Good/understanding/knowledge-reification/ontological-
primemovers-totalitative-framework of positivistic understanding, and not any vague impression! Not only is impression-driven/good-naturedness/wishfulness conceptualisation at best vague, ontologically speaking, it is bound to be extricatory (temporal/circumstantial/self-
interest de-mentating/structuring/paradigming) rather than intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
for-relative-ontological-completeness de-mentating/structuring/paradigming. Alignment should rather be in transversality-of-affirmative-and-unaffirmative,-disambiguated-

framework conceptualisation. Further, impression-driven/good-naturedness/wishfulness conceptualisation induces both ‘logical and unconscionability-drags. A drag is a vague meaningful articulation arising out of veridical incongruence due to the nonreality of initiating narratives or propositions, and subsequent de-mentative/structural/paradigmatic contiguity of narratives and propositions thereafter from such initial miscues and/or intermittent miscues. For instance, supposed going by the example where a psychopath had wrongly accused someone of being a paedophile (not in terms—as-of-axiomatic-construct of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism but rather compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism due to the inexistence of the psychopath’s implied—logical-dueness-or-scape/profile-or-stature/presumptuousness—or-arrogation/assumptions/value-reference/teleology), suppose the interlocutor was to go on to in—conviction-as-to-profound-supererogation relay these distortions with other interlocutors, we will talk of a ‘miscue’, and where other meaning grounded fundamentally on this miscue were to develop, we talk of ‘logical-drag’, further where comprehensive generation of social meaningfulness were to arise out of this, we talk of ‘unconscionability-drag’, and finally sub-par/formulaic-association/temporal/alibi conventioning-rationalising refers to the temporal mental-disposition to use conventioning thinking as alibi for temporal-motivated dispositions (over the inherent sense of ontological meaningfulness). Actually, strands-of-perverting-temporal-dispositions are the characteristic backdrop mental-devising-representations of superseded/transcended registry-worldviews/dimensions when we think from an ontological perspective of the soundness-or-authenticity-of-reference-of-thought projection/representation that captures the meaningful framework of a registry-worldview
crossgenerational collapsing/overriding of temporal/preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension that is defective or perversion-of-reference-of-thought—<as-effectively-apriorising-in-

and so in transversality-of-affirmative-and-unaffirmative,-disambiguated-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by the temporal-

notion of a new and comprehensive human psychology wherein the human psyche is more of
teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

These fundamental human mental-devising-representation or apriorising–registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-thresholds where there is divergence in reference-of-thought construed meaningfulness-and-teleology construed as transversality-of-affirmative-and-unaffirmative-, disambiguated-apriorising/axiomatising/referencing. At uninstitutionalised-threshold, given the veridicality of human emanance as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-primemovers-totalitative-framework veridicality and carries a positive-opportunism that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation-channelling in the medium to long-run. It is only after such uninstitutionalised-threshold is superseded/dominated/preceded/overridden/abjected by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human seconndnaturing as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology that
establishes the substantive/existential-contextualising-contiguity (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors’ articulations.

thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation the notion of temporal-dispositions to dement/subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge)/mimick-and-syncretise (rather than subsequently as a transcendence-and-sublimity/sublimation/supererogatory de-mentativity). This raises two dilemma with respect to the conceptualisation of virtue as rational-realism implies that at the procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold, we have to register/acknowledge priorly our inclination to subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge) positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion/preconverging-or-dementing–apriorising-psychologism by temporal-dispositions:

(i) <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside (as being in denial of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect) arises where a registry-worldview returns to its same reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that have been shown to be subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge)/perversion-of-reference-of-thought<as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation>/mental-perversion at the uninstitutionalised-threshold, and hence remains
candored/integratively-aligned; contrasted with the instance of the adoption of a new registry-
worldview’s (superseding the uninstitutionalised-threshold) reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation in anticipation and preemption of the afore perversions-
reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation> registry-worldview. This latter instance involves De-
mentation-(supererogatory–ontological–de-mentionation–drial-exclusion—
stranding-or-attributive-dialectics) or Coring (in reflection/perspectivation and
acknowledgment of perversion-of-reference-of-thought<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) with corresponding
decandoring/distractive-alignment-to-reference-of-thought and is what enables memetic-
reordering/psychoanalytic-unshackling whereas <amplituding/formative>epistem-
totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-
aside at best induces ‘memetic-inching/psychoanalytic-realigning’ which are not of an
immediate transcending nature.

(ii) Conventioning metaphoricity involving in a continuum on one side ontologising
rationalising though ontological-veridicality is not the sufficient reason for the social
acceptance of rightness for rightness sake (as explained previously) and on the other side
intemporal-ontology distractive sub-par/formulaic-association/temporal/alibi
conventioning-rationalising.

‘Rational-Realism as of Deprocrypticism or institutionalisation/intemporalisation full-
cycle’ can thus be construed as a contiguous cumulation of successive memetic-reordering
(as institutional recomposuring) for intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation; with such successiveness due to the limitation of human mentation-capacity to be able to mimetically (across suprastructural-meaningfulnes) come full-cycle in one transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, explaining the recomposing of the successive institutional-cumulation/institutional-recomposeur-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>; from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and recomposing full-cycle towards prospective rational-realism as of deprocrypticism.

Correspondingly, due to human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), human memetic/psychoanalytic grasp-and-fulfilment of intemporal-preservation (in devising reference-of-thought–categorical-imperatives/axioms/registry-teleology) is limited at successive instances of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation, due to:

Hence intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation, construed as ‘postconvergence memetic recomposuring’; recomposure is defined as ‘ontological-representation/ontological-memetism of intrinsic-meaningfulness (whether implying, on the one hand, an integrative/candor/organic-comprehension-thinking alignment or on the other hand, a distractive/decandored alignment as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism) towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (as validated by veridicality/ontological-primemovers-totalitative-framework). This definition explains the succession of the recomposuring of institutionalisations with the notion that where intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation is lost at a registry-worldview’s/dimension’s uninstitutionalised-threshold, a prospective registry-worldview/dimension is implied/recomposured that will ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and undermines notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>/epistemic-totalising–self-referencing-syncretising/setting-aside by appropriate stranding/coring representation (of-perverting-temporal-dispositions) as the backdrop for the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology. That is, ‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence once it is shown that it subknowledges-or-mimics (as perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold, even though this from the temporal-dispositions mindset/reference-of-thought is always an unpalatable proposition. But then the state of being in a transcended registry-worldview/dimension (as in our present positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, at their uninstitutionalised-threshold; and so, going back to the recurrent-utter-
institutionalised early men who left the caves and trees, thus any denial of prospective
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as articulated above
is an argument which incoherence emanantly imply ‘we should go back to the caves and
trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had
transcended up to our very own registry-worldview/dimension, and beyond, prospectively.
Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed
at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the
registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing>
intemporal-preservation-entropy-or-contiguity-or-ontological-preservation), as the ‘base de-mentative/structural/paradigmatic
as operant and deterministic, and not an impression-driven/good-naturedness/wishfulness nor
a veridically logically-disjointed/discretionary reflection/perspectivation). Stranding is thus
articulated as slanting/miscuing/disjointed-logic/logical-drug/unconscionability-drug/subpar-conventioning-rationalising
preconverging/dementing–apriorising-psychologism as to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). The memetic-reordering is in recomposuring, at the uninstitutionalised-threshold as the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism of (registry-worldview) apriorising–registry elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (i.e. reference-of-thought–categorical-imperatives/axioms/registry-teleology) towards the transcending registry-worldview’s implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (categorical-imperatives/axioms/registry-teleology) for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, in re-institutionalising the uninstitutionalised-threshold. There is no reason for de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold, as its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism provides the dynamic association for psychopathic/postlogic subknowledging/mimicking impulse leading to the vices-and-impediments of the registry-worldview/dimension from an intemporal/ontological perspective; and ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation veridicality (as ontological-primemovers-totalitative-framework) is the drive that resolves lack of human mentation-capacity for intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation (at uninstitutionalised-threshold) by stranding-backdrop-for-transcendence and then recomposuring prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology. The example highlighted on page 12 provides an excellent ‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding->as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold …

To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human subknowledging caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to-reference-of-thought of mental-devising-representation as to its unsoundness-or-inauthenticity-of-reference-of-thought arising from the perversion-and-derived-perversion-of-reference-of-thought->as-effectively-apriorising-in-

In practical terms, human/social VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal-disposition philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge–(preconverging-or-dementing-as-if-of-sound-knowledge) intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering).

It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves universal projection to grasp universal principles and is not meant to ‘equivocate and idle’ with perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> temporal
manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-totalitative-framework).

Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, but the template of human transcendence-and-sublimity/sublimation/supernergatory–de-mentativity shows that the intemporal prospective/superseding registry-worldview reference-of-thought takes precedence with contention construed by its reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by the ontological-normalcy/postconvergence prioritisation of the relatively intemporal/universal/intrinsic, hence, ‘the inherent cumulating/recomposuring of intemporal-preservation-entropy’ going from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivis–procrpticism, and prospectively deprocrpticism. Such a subknowledging/mimicking/registry-worldview denaturing resistance is not attended to logically/by-logical-congruence since a perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supernergation> as-of-its-unsoundness-or-inauthenticity-of-reference-of-thought/subknowledging registry-worldview/dimension is circular and syncretic in its logic (as it circularly makes reference to
its defective/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) but by psychoanalytic-unshackling/memetic-reordering/institutional-recomposing through the untenability/internal-contradiction/internal-incoherence/institutional-constraining induced by the ontological-primemovers-totalitative-framework of the prospective intemporal-disposition-worldview/dimension (with its more appropriate recomposed reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology); involving rather a crossgenerational collapsing/overriding of the temporal/preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension that is defective as of perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the first place), and so with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of temporal-dispositions and the intemporal-disposition, as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstitious medical worldview; the scientific
tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation disposition’. Rather it is a secondnatured/ontological-contiguity—of-the-human-institutionalisation-process as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-worldviews/dimensions arising out of human institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> to the capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly directed to the transformative of activities while taking for granted much of the bestowed knowledge heritage. Hence we can’t overrate the ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation disposition’ development of the cross-section/averageness/banality of solipsistic human thought to wrongly imply human dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation disposition is inherently intemporal, for the possibilities of human progress (due to the veridicality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at the

provided the backdrop for positivism recomposing or that of ununiversalisation for
universalisation recompose or that of recurrent-utter-uninstitutionalisation for base-

thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation,
temporal-dispositions potential inclination for preconverging-or-dementing–apriorising-

preconverging/dementing–apriorising-psychologism. At uninstitutionalised-threshold
(extended informalities), no formalism and internalisation (generated by the intemporal-
disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)
exists in preemption leading potentially to preconverging-or-dementing–apriorising-
psychologism. Basically, such a representation of organicalism and mechanicalism can be
storied or narrated as follows:

Supposed going by the case highlighted where a psychopath met a stranger talking
about another stranger as molesting children; the so accused stranger was actually a guardian
of the child assuming various responsibilities that come with it (this represents the organic-
comprehension-thinking (organicism/'Intemporal-prioritisation-of-reference-of-thought'–
as-conflicatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-

hollow mimicking narratives to the other stranger who aligned in-prelogic supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologismly/prelogicly to the psychopath but is veridically now in effect the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing—apriorising-psychologism by ignorance, and goes on to miscue by articulating that the accused stranger should be reported to the police or any other relevant organisation, and possibly does that. Further still, this miscuing comes to develop into disjointed-logic, logical-drag, unconscionability-drag, temporal-dispositions preservation, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising wherein ‘a comprehensive depth of perverted narratives’ has now been cultivated in the social environment. All such denaturing (and as are conjugated/inflected/derived/mimicked/in-protracion-to-psychopathic-preconverging-or-dementing—apriorising-psychologism to human temporal defects of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s) are a perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism to the organic veridicality (deprocrypticism). In the bigger scheme of things, denaturing of apriorising—registry (as the apriorising—registry is the axiomatic-construct/categorical-imperatives on which logic operates/is processed pointing to a coherently systematic failure of logic at the uninstitutionalised-threshold; consider that the non-positivism/medievalism apriorising—registry will coherently fail logical operation/processing/contention with regards to its

It should be noted that however ‘good-natured an individual’ in that worldview the basic knowledge defect of that worldview as non-empirical/superstitious defines the disposition of any such individual, as they adhere to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, to commit vices-and-impediments associated with non-positivism/medievalism, since virtue actually lies in the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’

Directed-preconverging-or-dementing–apriorising-psychologism as such being a conscious and operant mental awareness of psychopathic/postlogic minds of the void of their narratives and teleology but understanding and acting by instrumentalisation on the basis that
prelogic/conviction-as-to-profound-supererogation minds are disposed to elevate the hollow mimicking narratives (by ignorance and/or subsequently affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to wrongly validate the apriorising-registry as veridical thus falsely implying an implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology.

Just as we work with the reality that all humans are disposed to have cancer and the virtue of curing is not denying but anticipating and preempting the possibility of having cancer with medicines, lifestyle, research, etc., i.e. ‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as it enables ontological-primemovers-totalitative-framework. It is bluntly speaking a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise involving the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, to ‘pedestally dominate and override’ temporal-dispositions in the cross-section/averageness/banality of solipsistic human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully,
human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor speak of ‘the-real-nature-of-man’ that can be skewed
with institutional recomposuring/memetic-reordering/psychoanalytic-unshackling towards
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to explain how-
man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or
prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a
specific ‘institutionalisation/secondnaturing level’ which is in ‘existential immediacy’ this
may seem to indicate that we are talking about ‘different species’ with ‘different ontological
determinants’, which is naïve and false. The anthropopsychological approach to psychology
is analogical to the development of physics which is not only on the basis of what is
immediately at the conscious operational level of physicists but equally projecting into a
physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the
microcosm (particle physics) in other to place the subject on a comprehensively sound
footing. Central to such a sound footing in the ontological-normalcy/postconvergence
conceptualisation of the social domain is the idea of temporal-to-intemporal-dispositions and
institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-
eventfulness/ontological-aesthetic-tracing>.

On another note, it is critical to distinguish between a true philosophical development
that arises by intemporal-disposition and an institutionalised development that is articulated
to elicit ‘positive-opportunism’ in humans, so that the intellectual exercise doesn’t naïvely
project a philosophical idealism where this doesn’t exist and by so doing undermine its work
by naively projecting universal intemporality/longness and failing/not-upholding-<as-of-
apriorising/axiomatising/referencing> to articulate a realism that takes account of temporal
mental-dispositions (knowledge-notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality-of-affirmative-and-unaffirmative, disambiguated-apriorising/axiomatising/referencing to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing).

It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. intemporality/longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to reality-referencing and the ontology pedestal) while temporality/shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to \(<\text{amplituding-formative}>\text{epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals}\)’. intemporality/longness and temporality/shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality/longness and temporality/shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of-meaningfulness-and-teleology (intemporality) and shortness-of-register-of-meaningfulness-and-teleology (temporality). That is, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar 'socially-perceived-value as of social-stake-contention-or-confliction' setup across space and time; while
temporal minds under the same notion (intemporality-temporality) conceptually assume lower and lower shades ‘in mentation-capacity terms’ of such an intemporal universal-depth concept articulation stressing in lieu of ‘all humans’ various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-primemovers-totalitulative-framework in the notion of intemporality-temporality that doesn’t need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms–as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended/superseded reference-of-thought rather than the prospective/transcending/superseding reference-of-thought; since shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology are a contiguous value construct as in <amplituding/formative>epistemic-totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abtractiveness-of-presencing-in–‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation beyond just <amplituding/formative>epistemic-totalising–random-as-impulsive-phenomenal-abtractiveness-of-presencing-in–‘trepidatious-consciousness’-enabling-

Thus by intemporality/longness as a the-Good conceptualisation as ‘longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology’, that specificity (as pursued in this paper) that informs ontological understanding of not idling and articulating meaningfulness in equivalence of temporality/shortness in its various shades, but rather with intemporal purpose and intent, and an ultimate quest for validation only as an ontological-primemovers-totalitative-framework conceptualisation will be qualified as ‘longness-of-thought’; and it strives to achieve a prospective de-mentative/structural/paradigmatic existential registry-worldview/dimension conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity wherein aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the underlying drive. The non-implication of an equivalence between (‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) with temporality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and-social-stake-contention-or-confliction context, wherein for
instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocrypticism-over-procrypticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development).

The use of ‘human mental-dispositions/individuations’ as of temporal-to-intemporal-dispositions doesn’t mean ontologically that the analyst view is that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human temporal-to-intemporal-dispositions mental-dispositions/individuation potential possibilities that can incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of temporal-to-intemporal-dispositions, and hence the possibility of ontological-primemovers-
totalitative-framework or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations).

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal). The intemporal and temporal-dispositions-registries individuations-pedestals imply and point to the underlying ontological-primemovers-totalitative-framework basis of ‘the specific temporal-disposition meaningfulness-and-teleology. Further, by psychopathic or other postlogic subknowledging/mimicking-and-mimicking-protraction, the ‘temporal-dispositions individuations-pedestals’ wrongly conjugate/inflect/protract their apriorising–registry-elements (implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) from aligning prelogically to postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> thus effectively being postlogic, and this can thus be predicated as per the ‘specific temporal-disposition’. While the prelogic/conviction-as-to-profound-supererogation ‘ontologically-reconstituting’ intemporal-disposition-teleology is rather the ontologising individuation-pedestal as it strives perpetually to define-and-redefine categorical-imperatives (by its ontologically-veridical associated registry-teleology-mentation elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) for ‘intemporal/ontological preservation entropy/contiguity’ as it perpetuates institutionalisation/intemporalisation/longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology despite the natural reflex at every registry-worldview/dimension, whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, to temporally arrive at entropy on the basis of temporal-dispositions teleologies or shortness-of-register-of-meaningfulness-and-teleology (with the associated non-veridical temporal implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) i.e. temporal preservation teleologies are inclined to forego intemporal-preservation-entropy-or-contiguity–or–ontological-preservation
teleology (ontological-veridicality/ontological-contiguity of reference-of-thought) at a registry-worldview’s/dimension’s uninstitutionalised-threshold, which should definitely be resisted by ‘intellectual responsibility’ which for the positivistic registry-worldview/dimension holds that the intellectual disposition is all too willing to be ‘romantic’ about the idea of human firstnature cross-sectional inclination for the intemporal-disposition and that intellectual responsibility is to acknowledge the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor and be preemptive of the ‘non-ontological/non-knowledge/non-virtue temporal-dispositions threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation based on absolute ontological-contiguity and taking account of temporal-dispositions perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>; just as the present positivism institutionalisation had been preemptive of human cross-sectional disposition for superstition by emphasising rational-empiricism, and the universalisation institutionalisation had been preemptive of human disposition for ad-hoc social-stake-contention-or-confliction resolutions along whims and interests to imply a sense of universalisation, and base-institutionalisation had been preemptive of human disposition for recurrent lawlessness to imply a sense of institutionalised living with mutual expectations. ‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition to be ontological as these conjugate/inflect/protract

Given that ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding’, whether intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) or temporal (shortness-of-register-of-meaningfulness-and-teleology); it is this mental-devising-representation as the

Unconscionability-drag (from an ontological/intemporal reference) also points to the fact that at any institutional registry-worldview/dimension, there can be two mental alignments; whether the apriorising–registry is at the institutionalised/intemporalised threshold of meaning (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) or at the uninstitutionalised-threshold of meaning involving perversion-of-reference-of-thought<?,as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> requiring distractive-alignment-to-reference-of-thought, and in the latter case the reflex to be integratively aligned is lost across all the temporal-dispositions of the perversion-of-reference-of-thought<?,as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> dimension, and what is called for with the unconscionability-drag is a distractive-alignment-to-reference-of-thought which will explain a dialectically-or-contendingly-out-of-phase or dialectically-primitive alignment by oblongating/decandoring/downgrading. * I.e. Remember ‘mental-
devising-representation’ is a devising construct of preceding/superseding abstract reality/veridicality (postconvergence) as the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by ontological-primemovers-totalitative-framework!

The reason why the ‘study of the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing the two elements of ontological meaning (reference-of-thought and logic); with reference-of-thought being hitherto undisambiguated in the social construction of meaning, thus leading to a ‘lack of constraining social universal-transparency-\{transparency-of-totalising-entailing, as-to-entailing, \langle amplituding/formative\rangle epistemic-totalising~in-relativetonological-completeness\} of temporal-dispositions prior relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’.

However as articulated above, the ‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning as it is fully aligned or ‘in ratio alignment’ to ‘an emanant transdimensional (across registry-worldviews) point-referencing of intemporal-preservation-entropy’ while reflecting a social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—

Of course, this is just a most basic demonstration as ideally one can imagine a creative storied narrative should articulate the phenomenon to its utmost evolving complexities – a storying construal involving an underlying-and-superseding intemporal/ontologising emanant ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism’ for ‘postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation longness-of-register-of-meaningfulness-and-teleology as of deprocrypticism teleology’ putting into perspective ‘temporal emanant conjugations/inflections shortness-of-register-of-meaningfulness-and-teleology as of procrypticism teleologies’.

For instance, the storying construal ‘ontological/intemporal veridicality’ of non-positivism/medievalism perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> will be ‘abjectly referenced’ from positivism; likewise that of recurrent-utter-uninstitutionalisation inherently-’preconverging-or-dementing–apriorising-psychologism will be ‘abjectly referenced’ from base-institutionalisation, that of ununiversalisation perversion-of-reference-of-thought-as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> will be ‘abjectly referenced’ from universalisation, and thus that of
procrypticism/disjointedness-as-of-reference-of-thought persion-of-reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> has to be ‘abjectly referenced’ from deprocrypticism/longness-of-register-of-
The reason for the above is that you can’t address a registry-worldview/dimension
persion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomenal defect
(psychopathy) without addressing the defects of the registry-worldview/dimension
(procrypticism) that endemises it from the reference of the prospective transcendental
dimension, just as you can’t address witchcraft without fundamentally addressing a non-
positivism/medievalism registry-worldview that will necessarily and readily endemise
superstitions and witchcraft. The peculiarities of successive institutionalisations is that these
address the successive emanant dimensional defects of: recurrent-utter-uninstitutionalisation
by emphasising ‘base-institutionalising’, ununiversalisation by emphasising ‘universalising’,
superstition/non-positivism/medievalism by emphasising ‘positivising’, and procrypticism
preconverging-or-dementing–apriorising-psychologism by emphasising ‘undermining
subknowledging/mimicking’ or deprocrypticism or ‘longness-of-register-of-meaningfulness-
and-teleology over shortness-of-register-of-meaningfulness-and-teleology’ (noting that the
latter institutionalisation/intemporalisation contains the previous institutionalisations up to its
own threshold of institutionalisation/intemporalisation, with deprocrypticism being
organically imbued with all the prior/superseded institutionalisations); all these, pointing to
‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’
which the present treatment of psychology doesn’t recognise:
(i) Psychopath narrative teleology: an adult psychopath meets a stranger and speaks to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children.

(ii) Temporal-dispositions narratives teleologies: a stranger not knowing the other stranger aligning prelogically to the psychopath’s narrative will have a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism ignorance-temporal-disposition defect’ if it articulated the following narrative:

(a) Such a person should not be allowed to roam the streets and should be interned.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism affordability-temporal-disposition defect’ will arise if another interlocutor knowing the accused for not truly being a child molester but because of expediency with respect to the psychopath articulates the following narrative:

(b) the guy is actually a bad person and they will not be surprise that he is a child molester.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism opportunism-temporal-disposition defect’ will arise if a different interlocutor knowing truly that the accused is not a child molester but for a favour or sense-of-favour they owe to the psychopath articulates the following narrative:

(c) this guy has been going around molesting young children for quite a while now.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism exacerbation-temporal-disposition defect’ will arise where another interlocutor knowing the truth about the whole thing, thinks
they can have an advantage by acting likewise as the psychopath and articulates the following narrative

(d) they had actually witnessed the accused shoplifting.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism social-discomfite/(social-chainism/negative-social-aggregation)-temporal-disposition defect’ will arise where

(e) such narratives are purposefully and consistently relayed in the social sphere based on ignorances, affordabilities, opportunisms and exacerbations, and individuals come to make it a reference for their relation with the accused.

And finally, a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism temporal-enculturation (temporal-endemisation)-temporal-disposition defect’ arises where

(f) individuals come to learn that by having the appropriate social relations and social support network they can then initiate such narratives if they were to have competing 'socially-perceived-value as of social-stake-contention-or-confliction' situations with others, and not only that it also includes individuals passively accepting and giving up on the principle of the intemporality/longness and intrinsicness of meaning.

It is important to distinguish all the above ‘temporal instances conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism of the psychopath’s postlogism-slantedness in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>’, and is different from ‘a defect of logical operation/processing/contention which does not imply any temporal-disposition defect (in terms–as-of-axiomatic-construct of perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or the denaturing of
the reference-of-thought-elements/apriorising-registry-elements out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology’). With temporal-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (mental-perversion), the interlocutor deliberately (or naively in the case of ignorance) doesn’t project intemporally (i.e. projects in terms–as-of-axiomatic-construct of shortness-of-register-of-meaningfulness-and-teleology or immediate-temporal-interest and not a universal ontological sense of meaning), comparatively more like a student guessing that the answer of a math question is say 5 ‘artificially’ operates an equation to yield 5 as answer. Whereas with ‘a defect of logical operation/processing/contention’ (which is not the case here), an interlocutor perfectly projects intemporally (i.e. projects in terms–as-of-axiomatic-construct of longness-of-register-of-meaningfulness-and-teleology or a universal ontological sense of meaning) but poorly operates/processes the logic adhocly. This latter case unlike the former doesn’t imply registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> but rather ‘an adhoc defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance whereas the former is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> that speaks to the unprincipled-or-derived-unprincipled disposition of the interlocutor’s individuation that is, with respect to an infinite number of cases in the same situation (i.e. comparatively the disposition to go about answering math questions by figuring out their answers then ‘artificially’ trying to work out equations to yield the answers). Thus
as-rightfully-oblongated/decandored’ of such temporal-dispositions denaturing to be reflected/perspectivated and ontologised by the intemporal mind as procrypticism as validated by ‘unconscionability-drag’ such that the temporal-dispositions, which are ‘conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism slantedness’ as these are protractions of the psychopath’s as dialectically-or-contendingly-out-of-phase or hollow-mimicking) insane-fitment/postlogism-slanthedness, and hence are in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing and should not be represented mentally going by the ‘unconscionability-drag’ as ‘logically/in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologismly articulating/composing i.e. not contending’ but rather as ‘a mentally-conjugated/inflected/derived/mimicked/subknowledging/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism,-and-oblongated i.e. a manifestation of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ as is the case with the mental-devising-representation at all registry-worldviews/dimensions uninstitutionalised-thresholds, and should not be wrongly elevated/candored/straightened/integratively-aligned/dialectically-or-contendingly-in-phase in equivalence with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation apriorising–registry (since they are not contending) but rather downgraded/decandored/protracted-preconverging-or-dementing–apriorising-psychologism/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and are rather manifestations of registry/mental defect or denaturing and are the subject of intemporal/ontological contention from the intemporal-disposition, more like at the registry-
worldview/dimension defect level medievalism categorical-imperatives/axioms being superseded and undermined with respect to positivism categorical-imperatives/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Very much counterintuitively with regards to ‘unconscionability-drag’, the transcendental requirement for a ‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought–categorical-imperatives/axioms/registry-teleology is rather ‘unfathomable’ for the prior <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} of the so-called ‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> dimension’; this applies with regards to recurrent-utter-uninstitutionalisation and base-institutionalisation, ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively for upcoming times, procrypticism and deprocrypticism. The explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-worldview/dimension are formed by the memetic-ordering/psychoanalytic-construction at that registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms–as-of-axiomatic-construct of reference-of-thought and logic)’ to the individuals and so right up to their subconscious mind. But then a prospective transcendental memetic-reordering/psychoanalytic-unshackling is placing such a prior memetic-order/psychoanalytic-construction of their existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation in jeopardy, and it is only the ontological-primemovers-totalitative-framework social universal-transparency-{transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness)
of the prospective intemporal dimension inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining with corresponding percolation-channelling impact from the prospective registry-worldview/dimension on the overall social-construct over a generation or two or more that allows for any such ‘habituation’ to a prospective registry-worldview’s/dimension’s transcendence-and-sublimity/sublimation/supererogatory–de-mentativity with its new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology. This will explain the difficulty of medieval minds (including institutions like the church) over centuries to come to terms with positivism and scientism such that the positivistic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is still ongoing. Counterintuitively, every successive institutionalisation/intemporalisation registry-worldview/dimension naively thinks it being at the backend of the ‘institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process’ means it is beyond transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as it doesn’t project of itself as being superseded by a prospective registry-worldview with its new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology (as of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism) at the point where the former starts perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> its own reference-of-thought–categorical-imperatives/axioms/registry-teleology, and does not tend to represent itself as oblongated/deandored/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism from a prospective dimension perspective in the sense that. the decandored/oblongated/logical-incongruence-or-
transversality/dialectically-or-contendingly-out-of-phase insight we think of non-positivism/medievalism with corresponding phenomena like superstitions, witch-hunts, etc. has never been the way they represented themselves as they are candored/straight/integratively-aligned/"dialectically-or-contendingly-in-phase" in their <amplituding/formative>epistemic-totalising→self-referring-syncretising/present-consciousness/illusion-of-the-present mental-devising-representation of themselves. Rather it is the more profound grasp of reality from positivism that initiates that decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase mental-devising-representation of non-positivism/medievalism in the positivistic mind, and this is the case as well with all other dialectic institutionalisations across the institutional-cumulation/institutional-recomposure→<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>/anthropological-continuity/anthropopsychoLOGY.

The reason for making the above point is that we will most possibly as of <amplituding/formative>epistemic-totalising→self-referring-syncretising/present-consciousness/illusion-of-the-present act likewise when it is time to imply our own decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase procrypticism/disjointedness-as-of-reference-of-thought mental-devising-representation of our reference-of-thought–categorical-imperatives/axioms/registry-teleology with respect to a prospectively candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase deprocrypticism new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology that is revealed by the 'unconscionability-drag' disambiguation of our temporal-dispositions-perversion associated with perversion-of-reference-of-thought→<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in our dimension (procrypticism) including psychopathy-and-its-social-psychopathy-corollary subknowledging/mimicking!

thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; with the notion that any such wrongly implied re-joining as logical articulation is rather <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry/.registry-worldview reflex-defect in want of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. For instance, in the case mentioned before with regards to B (Brackets), where B was to stick with the same temporal-dispositions individuation disposition that delivered the wrong results with respect to subsequent equations of a similar context (uninstitutionalised-threshold) this will be epistemic-decadence, as conjugated/inflected/derived from A’s defective condition which is in epistemic-decadence, and the both A and B are of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> defining the registry-worldview/dimension apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument defect. This implies de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of B to such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) is the effective backdrop for ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation, and this is rather crossgenerational in nature (rather than instant intra-generational registry/registry-worldview transformation) as personhoods-and-socialhood-formation are rather grounded on the superseded/transcended/unsound reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The above analysis shows that soundness-or-authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-verification as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence).

Unconscionability-drag (from an ontological/intemporal reference) ensures the disambiguation of registries so that the psychopath’s and temporal-dispositions are not elevated to the intemporal level which then allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect being in terms—as-of-axiomatic-construct of the apriorising-registry-elements, implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology of the registries, i.e. rather the unsoundness-or-inauthenticity-of-reference-of-thought or the dialectically-or-contendingly-out-of-phase meaningful construct).

Unconscionability-drag (from an ontological/intemporal reference) is thus central to resolving the rational-realism de-mentating/structuring/paradigming as it accounts for the defect of temporal-dispositions teleologies of meaning (shortness-of-register-of-meaningfulness-and-teleology) while projecting intemporally/ontologically.

The notion of ‘unconscionability-drag’ also explain how and why banal temporal-dispositions are not readily ‘integrative of psychopathic postlogism-slanedness as conjugated-postlogism/preconverging-or-dementing-integration’ (hence no distractive-alignment-to-reference-of-thought) to the childhood and early adolescent psychopaths but
come to develop a ‘mental-unconsciousness’ (unconscionability) to be ‘integrative of psychopathic postlogism-slantedness’ during the stage of late adolescence and adult psychopath.

Antipodal to the idea of ‘unconscionability-drag’ is the idea of ‘conventioning’/social-temporal-thresholding. ‘Unconscionability-drag’ points to an abstract but more veridical ontological construct of the ‘social construction of meaning’ that is ontological-normalcy/postconvergence, based on intemperal-preservation-entropy-or-contiguity—or-ontological-preservation by using categorical-imperatives of the prospective superseding/transcendental registry-worldview/dimension whether such a representation is aligned or not with the society’s collective-social-psyche or present-consciousness. (For instance, we can generate an unconscionability-drag of a medieval society on the basis of a positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic mental-dispositions of individuations in such a society. While such a representation, with its corresponding subknowledging/mimicking, is ontologically more accurate about such a society, however, the collective-social-psyche/present-consciousness of individuations in the said society will not recognise any such decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase representation of themselves, rather the medieval society will represent itself as candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-temporal-thresholding representation of the social construction of meaning’). Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it.
Transcended and ontological meaningfulness of reality (contrary to convectioning/social-temporal-thresholding meaningfulness of reality which is rather towards <amplituding/formative>epistemic-totalising~self-referencing-syncretising/temporality-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to ‘prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation-channelling’ of ‘any social construction of meaning’ for there to be collective institutionalised social adherence (and by the relative positive-opportunism elicited). Institutionalisation/Intemporalisation percolation-channelling are the institutionalised relays for human survival-and-flourishing-teleology, whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocrypticism, such that abstractions that will normally hardly be socially integrated going just by averaging human temporal-to-intemporal nature, can actually come from re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation} intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation-channelling are for institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> beyond just the consciousness appraisal of temporal-dispositions. Institutionalisation/Intemporalisation percolation-channelling imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over ‘social-and-temporal-trading’ and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied positive-opportunism for human survival-and-flourishing imbued in
institutionalisation/intemporalisation percolation-channelling. This implies that an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality dementating/structuring/paradigmimg (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather 'conventionalised from institutionalisation/intemporalisation (secondnatured), and has not evolved as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection; as it may be inclined to make references to temporal reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are preconverging-or-dementing—apriorising-psychologism/of-perverted-registry/subknowledging/mimicking—and—epistemic-totalising—self-referencing-syncretising-these. This brings forth the idea of ‘ordered construct’ between the intemporal firstnature/intemporal (organic-comprehension-thinking as to intemporal supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism) and temporal-and-poorly-secondnatured/institutionalised (threshold-of—nonconviction/madeupness/bottomlining-as—to—shallow-supererogation—preconverging/dementing—apriorising-psychologism, in relation to transcending meaning. Such ordered construct ensures precedence of the former as it skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) solipsistically towards intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation while the latter skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suberogatory-de-mentativity) for temporal preservation. Anecdotally, moral philosophy as dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (organic-comprehension-thinking) creates law/legal-conventions but then questions of justice cannot be attended to by populist-social-construct (threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing—apriorising-psychologism) since only a developed sense of moral philosophy as dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (organic-comprehension-thinking) ensures sound jurisprudence as a human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring—\textit{\textsuperscript{for-relative-ontological-completeness de-mentating/structuring/paradigming}} rather than a temporal extricatory de-mentating/structuring/paradigming. ‘Prior or circumstantial social integration gatekeeping construals or institutionalisation/intemporalisation percolation-channelling’ that can enable the superseding of conventioning in the social integration of ontological veridicality include existing percolation-channelling of formalisms/officialdom which have naturally been instituted to allow for the supersedingness of intemporal/ontological constructs and intemporal-disposition s. For instance, formal institutions selectivity mechanisms; and where the latter fail or are fallacious, basic positive-opportunism wherein the ontologising construct elicits positive-opportunism for the undermining of defective conventioning/social-temporal-thresholding constructs/categorical-
imperatives of meaning (for instance, a natural causes disease conception leading to more cures such that positive-opportunism then undermines a superstitious-driven disease theory which leads to more pain and deaths). The big idea here is that, it is naïve philosophically to operate mainly on the basis of ‘ontological rightness of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ with respect to a species whose construct is structured to be temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) requiring skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-verbatim/subsumption-of-temporality)/deferential-formalisation-transference to the latter. And any such ‘ontological transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by mere rightness’ has never been acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never took off even though it was ontologically right (as the medieval conventioning/social-temporal-thresholding construct and strongly ingrained social dispositions). It is the generated untenability/internal-contradiction/internal-incoherence/institutional-constraining together with positive-opportunism coming from sailors sailing around the world on this idea to seek for spices and create wealth that constrained/institutionalised the medieval world into such an ontological transformation/transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Part and parcel of ontological transformation/transcendence is the existential cynicism to grasp the human sense of internal contradictions and positive-opportunism to introduce and uphold these by the mechanism known as institutionalisation/intemporalisation. Regarding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism undermining of procrypticism, it is doubtful that pertinent ontological
constructs and generally the ‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> dynamics of procrypticism’ are by themselves a sufficient basis for the direct and immediate social integration of deprocrypticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolation-channelling for intemporal transcendence-and-sublimity/sublimation/supererogatory-de-mentativity.

However, it should be noted that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective temporality/shortness undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism-slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the intemporal meaning), and on the other hand, how prospective intemporality/longness is regenerated to supersede/transcend such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and bring about new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation).

Organic-comprehension-thinking (as to supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism) as
highlighted above contrasts with threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism which is rather temporal-driven (whether ignorance at best, slantedness/psychopathy, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Organic-comprehension-thinking (organicism/"Intemporal-prioritisation-of-reference-of-thought”–as-conflicatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology), being intemoral-driven, with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity points to the fact that the articulation of meaning referenced/registered/decisioned differently in two registry-worldviews/dimensions, the perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as retrospective and transcendental as prospective, is/should be wholly referenced/registered/decisioned intemorally from the superseding transcendence-and-sublimity/sublimation/supererogatory–de-mentativity that upholds intemoral-preservation-entropy-or-contiguity–or-ontological-preservation; as the ‘intemoral mind’ can’t go after the value reference of both registry-worldviews/dimensions since transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is about ‘subverting’ perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. For instance, the non-positivism/medievalism value references of aristocracy/class are contrarian to positivistic value references for the possibility of equal opportunities; and the intemoral projecting positivistic mind in medieval times has no business trying to appear ‘great and wonderful’ with respect to ‘conventioned’ value reference of aristocracy/class in the medieval world even though it is the dominant and
encultured collective mental-disposition. Likewise, such logic will apply regarding
deprocrypticism and procrypticism requiring a reasoning that goes beyond the
‘<amplituding/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-
present’ mindset/reference-of-thought of our current procryptic mental-disposition, i.e. ‘the
limit of ontological thought is not the banal <amplituding/formative>wooden-language-
(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology-as-of-‘nondescript/ignoreable-void’-with-regards-to-
prospective-apriorising-implications>) of a registry-worldview/dimension’. Otherwise no
progress is possible as a dimension progresses exactly because it has defects which when
overcome enables the progress to occur! So the intemporal mind cannot as such ‘be
impressionable’ by the banal <amplituding/formative>wooden-language-<imbued—
averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-
-teleology-as-of-‘nondescript/ignoreable-void’-with-regards-to-prospective-apriorising-
-implications>) of a registry-worldview/dimension. It points to the fact that it is ‘perfectly ok’
to be ‘unintelligible/existentially-suprastructural and value-reference-wise unresponsive’ to
the subknowledge-{preconverging-or-dementing-as-if-of-sound-knowledge} apriorising–
registry but rather alienative as to the possibility for its psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring. The ‘apparent profoundness’ of such temporal
reference of thought is rather ‘depth-of-ignorance’ rather than ‘depth-of-elucidation’.
threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism arises as a result of shallow mental-
dispositions induced by temporal-dispositions, and their disambiguation should be called for,
and not candored/straightened/integratively-aligned as if intemporal/longness in nature but
rather decandored / oblongated / transversality-of-affirmative-and-unaffirmative,-
disambiguated-apriorising/axiomatising/referencing as temporal/shortness. threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism as such is rather a ‘flatness-of-the-mind’
involving temporality, ‘mental triteness’ and ‘gullibility’ with respect to, in the case of
psychopathy, insane/slantedness integration as social psychopathy; and more generally, ‘lack
of intemporal-disposition philosophical depth’, i.e. lack of spontaneous dimensionality-of-
sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-
or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation inclination (the-guy-who-spontaneously-stands-out-against-say-a-
genocide or the milgram-experiment-guy-who-sticks-with-what-is-reality-rather-than-going-
with-the-flow, etc.) not to be confused with secondnaturings/institutionalisation, and as a
consequence an inclination to compromise intemporality/longness as ‘conventioning (social-
temporal-thresholding) of meaning’ rather than ‘ontologising (intemporal-uncompromising)
of meaning’. Overall threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing–apriorising-psychologism points to the
fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal
consequences whether regarding defective enculturation or defective social
ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires
‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-
contiguity–or-ontological-preservation exercise of undermining conventioning at
uninstitutionalised-threshold (due to the inescapable veridicality of human individuation
temporal/shortness-to-intemporal/longness which inevitably induces perversion-of-reference-
of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation> at uninstitutionalised-threshold); deconventioning as such skews
(‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-
reality/ontological-veridicality transcendentental-enabling/sublimating/supererogatory-de-
mentativity) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An essential element underlying the psychopathic and other postlogic relationship with meaning has to do with the nature of attachment to meaning. A postlogic mind doesn’t view meaning articulations as ‘inherently sanctuous’ and thus is inclined to produce mechanically whatever deductions that may engage an interlocutor in-prelogic supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologismly/prelogically even if these are hollow mimicking non-veridical narratives, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated). On the other hand, prelogism-as-of-conviction-as-to-profound-supererogation-or-thinking imply more of an organic alignment view of meaningful articulations as ‘inherently sanctuous’, i.e. ‘existential-contextualising-contiguity/meaningful-projection-of-intrinsicness’. Going by these two facts, the postlogic and psychopathic mindset/reference-of-thought is readily inclined to call upon a broad base of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging narratives (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) whereas the prelogic/conviction-as-to-profound-supererogation mindset/reference-of-thought is inclined to call upon just the narratives it sincerely thinks are relevant/due and intrinsically real. So it is critical not to confuse the over-articulation of postlogic narratives (vague mechanical stylising-of-locution) with an organic depth-of-thought or profundness, given that these involve postlogism-slantedness, disjointed-logic, miscuing, inventions and platitudes from the postlogic mindset, requiring decandoring/oblongating/distractive-alignment-to-reference-of-thought. Ontologically speaking, meaning is an essential construct of human mental-devising-representation meant
to allow for human intemporal teleology. A postlogic-formulaic slanting threshold-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism relation to such a conceptualisation is
sub-par-or-formulaic-association-or-temporal-or-alibi to ontology and is thus regarded as
‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> referencing’ that is
ontologically inconsistent as it counts on the fact that others remain intemporal/ontological
for it to exist parasitising/co-optingly. Worst still such vague-rhyming-or-copied-mimicry-
or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-
subknowledging tend to be integrated at uninstitutionalised-threshold of
conventioning/social-temporal-thresholds.

Without a sense of ‘rational-realism’ (the veridicality of meaning involving not only
the logical processing/operation of narratives but precedingly temporal-to-intemporal-
dispositions disambiguation, i.e. in terms–as-of-axiomatic-construct of implied—logical-

same pedestal towards construing veridicality/intrinsic-reality. Such an analysis is wrong as
an inherently prelogic/conviction-as-to-profound-supererogation mental-disposition will
rather re-accentuate prelogic/conviction-as-to-profound-supererogation constructs in
contention situations whereas the characteristic of postlogism in hollow-constituting–<as-

hierarchisation’) is meant, the possibilities of human dispositions and acts beyond frameworks that have not been institutionalised; manifesting as (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring universalisation), and to the recurrent-utter-institutionalised apriorising–registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation). Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifices (institutions with their formal rules) by the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendentalenabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference of our collective thought process in the medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt temporal dispositions. This explains why modern man (positivistic registry-worldview) is apparently more evolved/developed than he/she should normally be compared to previous generations (recurrent-utter-uninstitutionalised men, ununiversalised men, non-positivism/medievalism men, and prospectively, how he/she will be superseded by the deprocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is different from the others. The difference is the cumulated ‘software’ or institutionalisations and formalisations that have been internalised into modern man. Anthropologists know that if you were to take a newly
born child from a society like those that do not have contact with the modern world, and raise the child in a modern family, there is no different outcome on average as with any other child bred in the modern world. So our faith in virtue is not in our inherent excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation that has cumulated, and insightfully, which creative template we will prospectively develop! Incidentally institutionalisation and formalisation ensures that we take the best form of human individuation thinking/capacity potential and constrain society and individuals to that individuation thinking/capacity potential, and inherently so, by the overall positive-opportunism to the cross-section of the species since it better grasp intrinsic reality and its virtues! Solipsism means I exist alone (with respect to intrinsic reality/ontological-veridicality), and this author notionally interpret solipsism as the deepest sense of existence and meaning available to an individual in its spontaneous emanance or becoming, and as it projects itself ‘purely and universally’. It is a firstnature/intemporal construct beyond and ‘inventing the possibility’ of secondnatured institutionalisation, and places all humans at all times at the same pedestal of virtuous and ontological appraisal, as it is about our ‘transcendental valour’ irrespective of the level of institutional-cumulation/institutional-recomposure<-as-to-histoliality/ontological-eventfulness/ontological-aesthetic-tracing> at which we are. It contrasts with institutionalisation/intemporalisation which is ‘a negotiated and secondnatured or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction’. Institutionalisation/intemporalisation as such, by way of positive-opportunism and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence-and-sublimity/sublimation/de-mentativity which is upheld by formalisation and internalisation. By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 5000 AD might be worlds apart, but the intrinsic nature of reality never changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework for ontological-primemovers-totalitative-framework and thus a better grasp of the world; hence proxying mentation-capacity level as the various institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. That idea that intrinsic reality is preceding/superseding is known as ‘postconvergence’ (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of ontological-primemovers-totalitative-framework is known is the human psyche (whether by candoring/straightness/prelogism when pertinent or decandoring/slantedness/distractive-alignment-to-reference-of-thought when impertinent), intrinsic reality never gives in (that’s why we are mortals and our hope is to always give-in to intrinsic reality for the possibilities of the future). This latter point is important as by reflex an epistemic-totalising~self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its registry-

By ‘intemporal transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence’ is meant ontological-normalcy/postconvergence meaningfulness-and-teleology as so articulated above is ontologically veridical but that does not necessarily imply the metaphysical framework temporal mental-dispositions will recognise that (i.e. there is no ontological-contiguity between registry-worldviews references-of-thought as this falsely implies ‘no temporal-to-intemporal disambiguation, i.e. equivalence of references-of-thought/no-alienative-hierarchisation, whereas what is warranted is ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling’); and that it is transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of such constructed veridicality in its ontological-primemovers-totalitative-framework determinism and operance that will undermine other possible ‘temporal perverted-transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing-meaning’ by rendering them untenable/internal-contradiction and inoperant (not a ‘convincing’ at the philosophical or emanance level, rather a ‘constraining’ at the institutionalisation/intemporalisation secondnaturing level out of ontological-primemovers-totalitative-framework); noting that ‘temporal perverted-transversality-of-affirmative-and-unaffirmative,-disambiguated-

Ontology being of the intemporal-disposition, the exercise of ‘directing logical convincing’ to temporal-dispositions is inherently unwarranted and is rather <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drug, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards ontological-primemovers-totalitative-framework which induces the positive-opportunism and untenability/internal-contradiction/internal-incoherence/institutional-constraining for its supersedingness in the ‘institutionalisation/intemporalisation percolation-channelling’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) and allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. This is underlying transcendental-enabling/sublimating/supererogatory–de-mentativity notion while often obscured in the social <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality due to their ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor
biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal validation but impose themselves because natural truths inherently supersede human egotistic or <amplituding/formative>epistemic-totalising~self-referencing-
synergising/circularity/interiorising/akrasiatic-drag opinionatedness!

Postconvergence, in the bigger scheme of things, implies that knowledge has to do with the development of our ‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern is about ‘us’; in the appropriateness of the registries we make of intrinsic-reality across retrospective-and-prospective history or rather shifting dialectical moments of relative-ontological-completeness! The articulation of reality, registry-worldviews/dimensions, mental strands (perverted or not), and other constructs of ontological-primemovers-totalitative-framework is ‘at-a-superseding-pedestal and incisive/blunt’ by the very nature of ontological-normalcy/postconvergence reality. For instance, supposed a society with a non-positivism/medievalism belief system attributes the cause of a disease to say witchcraft, that doesn’t stop the reality of bacteria causing the disease even if such a representation of reality isn’t in the present-consciousness/illusion-of-the-present of that society. Such an ontological conceptualisation of reality equally applies in our times where it can be demonstrated prospectively that our mental-devising-representation of meaning regarding a phenomenon is out of kilter, and reality won’t stop to accommodate us or our banality of thought. Thus the conceptualisation of reality is rather articulated at this depth-of-thought whether it accommodates our present-consciousness/illusion-of-the-present or not (reality personality), and operates by an ordered construct based on ontological-
primemovers-totalitative-framework and not a disposition of averageness/banality/popularity/extrinsic-attribution-of-thought recurrent in uninstitutionalised-threshold in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology), allowing for the possibility of transcendental meaning, institutionalisation/intemporalisation (skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) for intemporal domination) and human progress; given human temporal/shortness-to-intemporal/longness dispositions. Such an articulation of reality introduces the concept of ‘reasoning-through/abjection’ over ‘incrementalism-in-relative-ontological-incompleteness and notional~disjointedness’. Reasoning-through/abjection refers to the uncompromising and non-negotiable nature of reality with respect to the meaningful frames of mortal creatures that we are as reality doesn’t adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-through/abjection then implies that meaning is articulated exclusively in terms–as-of-axiomatic-construct of ontological-primemovers-totalitative-framework and anything else is defined, whether to be candored or to be decandored, at that ordered construct point-of-reference or point-referencing. Reason is thus ontologically a ‘reasoning-through’ as allowed through in a ‘pure, organic and intemporally uncompromising state’ by reality ontological-primemovers-totalitative-framework ‘at-a-superseding-pedestal and incisively/bluntly’. Incrementalism-in-relative-ontological-incompleteness and notional–disjointedness-as-of-reference-of-thought refer to the human reflex to average minds or make reference to extrinsic elements rather than meaning by its inherence as can be predicated effectively, and involves ‘reasoning with’, as it introduces ‘temporal and social trading’ elements over or clouding or compromising inherent intemporal veridicality. Incrementalism-in-relative-ontological-incompleteness and notional~disjointedness-as-of-
reference-of-thought as such is patently wrong; as can be perceived from point-referencing superseding registry-worldviews/dimensions such that the ontological representation of the veridicality is different from the different perspectives of an recurrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding depocryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising–registry point-referencing threshold’, and implying rather the need for our psychoanalytic-unshackling/memetic-reordering/institutional-recomposing by distractive-alignment-to-reference-of-thought. Fundamentally, incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought in human thinking as indicated above with the various institutional-cumulation/institutional-recomposeur-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> is superseded by reasoning-through/abjection; in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing at-a-superseding-pedestal, and represented as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as oblongated/deandored or failing-intemporal-preservation-or-misappropriation-of-meanfulness or transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing, given the fact that this reflects apriorising–registry defect and not logical defect.
More precisely, how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? This fundamentally has to do with our dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection irrespective of the uninstitutionalised-threshold, and calls for PEDESTALLED CONSTRUAL or PEDESTALLED DISAMBIGUATION to skew/deferential-formalisation-transference meaning towards the intemporal/longness disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, as institutionalisation/intemporalisation.Pedestalled construal/pedestalled disambiguation thus involves at a given uninstitutionalised-threshold translating the ‘apparently prelogism-as-of conviction-as-to-profound-supererogation or prelogic teleological finality of a temporal-disposition into its veridical preconverging-or-dementing—apriorising-psychologism as postlogic perversion-of-reference-of-thought—<as-effectively-apriorising-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> teleological finality, and so successively in reflecting the notional-discontiguity/epistemic-discontiguity—<shallow supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> of temporal-dispositions registries (ignorance/affordability/opportunism/exacerbation/social chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or temporal-endemisation) as rather referenced/registered/decisioned from the prospective intemporal-disposition in postconverging-or-dialectical-thinking—apriorising-psychologism to reconstrue new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-

Technically, pedestalled construal/pedestalled disambiguation should involve reflecting/perspectivating/highlighting from the intemporal-disposition pedestal teleology finality/questioning mental-profoundness (deep candor) the relative longness/shortness-of-teleology of temporal-dispositions teleologies finalities/questioning mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which is the psychopath’s insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology finalities/questioning (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled construal/pedestalled disambiguation points to the fact that the social representation of meaning is transversal/logically incongruent at uninstitutionalised-threshold as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of ‘questioning depth-of-thought’ and ‘strands of depth-of-meaningfulness’ to reflect effective meaningful representation from the intemporal-disposition point-of-reference). Where meaning is not articulated within an institutionalised/intemporalised framework, the idea of logical-congruence (a common reference of meaning in terms–as-of-axiomatic-construct of reference-of-thought and logic) should be avoided due to perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether psychopathic or not, and pedestalled construal/pedestalled disambiguation is then required using distractive-alignment-to-reference-of-thought to establish the ontological pre-eminence of the intemporal-disposition. Instances of perversion-
and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather point to
uninstitutionalised-threshold, whether retrospectively or prospectively, as there is wrong
equivalence of temporal-to-intemporal-dispositions in the articulation of meaning; instead of
the pedestalled supersedingness of the intemporal-disposition as it is all about intemporal-
preservation-entropy-or-contiguity—or-ontological-preservation (superseding various shades
of temporal preservations). Otherwise, perversion-of-reference-of-thought-<as-effectively-

induces a ‘free for all’ false equivalence wrongly construed as of intemporality/longness

anticipation and preemption of these for the institutionalisation/intemporalisation. Pedestalled construal/pedestalled disambiguation explains the dynamism of human institutional-cumulation/institutional-recomposure-going by a recurrent emanance template that involves:

(1) Free-for-all implying an equivalence of temporal-to-intemporal-dispositions as being all intemporal (rather than temporal-to-intemporal), with the result that meaning then becomes veridically a hotchpotch of various formulaic-association, temporal, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, and the intemporal-emanance, without apriorising–registry disambiguation (as apriorising–registry disambiguation, into the intemporal and various conjugating temporal-dispositions of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-going by a recurrent emanance template that involves: slanting by psychopath, miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising – with temporal-dispositions in varied shades of temporal conjugation/inflection to psychopathic postlogism in hollow-constituting-going by a recurrent emanance template that involves:
meaningfulness-and-failing-intemporal-preservation> as ontological-primemovers-totalititative-framework dispositions; thus enabling the stifling (undermining the ontological-veridicality) of temporal-dispositions and skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity), by way of institutionalisation/intemporalisation percolation-channelling, towards the supersedingness of the intemporal-disposition for institutionalisation’s/intemporalisation’s intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor universal rules (mob situations as well as social psychopathic situations will fall under such an interpretation as well).

(2) Pedestalling (‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) articulates the relative grandor and virtuous consequence of the pedestalled supersedingness of the intemporal-disposition by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that then leads to society’s temporal-to-intemporal cross-sectional ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection induced deference’; whether deference with regards to a superstition/belief system/religion, essences/universal-notions, positivist idealism/principles-rationalism (and prospectively rational-realism as of deprocrypticism), involving a posture (institutionalised disposition) of the sort ‘the-say-that or it-is-said-that’ as ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation projection induced deference’ to the intemporal/longness disposition, for instance, ‘scientists say that’, ‘the Bible says that’, ‘it is said that one should not set foot in that forest as it will bring bad luck’, etc. This ‘the-say-that/it-is-said-that’ ‘dimensionality-of-sublimating—<amplituating/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection induced deference’ explains why institutionalisation/intemporalisation has been happening across human history; whether deference from personalised/animists beliefs to philosophical, religious and other social belief systems, deference from haphazard application of social rules to universal notions, laws and principles, deference from spirit-and-mystical-driven notions of nature and various alchemies to a modern scientific construct system. Hence the very place of the averageness/banality-of-human-thought-and-meaning in history has been for it to defer to superseding intemporal-disposition construal by ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling. There is no such thing as allowing thought-and-meaning to the whims of masses thinking but rather deference to ‘reality/veridicality predicating constructs’; as enabled abstractly and existentially by the human individuation intemporal-emanant-registry in superseding human individualisations temporal-dispositions.

‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and hence the precedence of higher intemporal teleologies over low temporal teleologies of reference-of-thought and meaningfulness; and that subpar de-mentating/structuring/paradigming of reference-of-thought and meaningfulness not for intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation but rather as perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of subar reference-of-thought–categorical-imperatives/axioms/registry-teleology,-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as uninstitutionalised-threshold is ‘perverted reference-of-thought and meaningfulness’ (<amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ), and is ontologically-preconverging-or-dementing–apriorising-psychologism (dialectically-preconverging-or-dementing–apriorising-psychologism) whether from a superseding/transcending registry/registry-worldview reference-of-thought/veridical-thinking-reference-over-preconverging-or-dementing-reference that is retrospective (like base-institutionalisation over recurrent-utter-uninstitutionalisation), present (like positivism over non-positivism/medievalism) or prospective (like deprocrypticism over procrypticism/the-'preconverging-or-dementing–apriorising-psychologism-of-the-positivistic-registry-worldview-or-dimension-categorical-imperatives-or-axioms-or-registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling underlines the fundamental nature of institutionalisation/intemporalisation not as a temporal-dispositions- to intemporal-disposition transformation (not emanance transformance) but rather ‘a positive-opportunum constraining construct’ involving ‘intemporal-disposition deferential-formalisation-transference’ (such that just as jurisprudentialism is dismissive of whatever we’ll like to think of it in our social-and-temporal-trading context about the law which is rather articulated as a formal conceptualisation and constraint to be internalised as a universal construct to avoid its ‘downgrading’ by mobbish or other temporal social inclinations, likewise with many a subject-matter domain). In the same vain, the outcrop of an organic-comprehension-thinking
‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting conceptualisation of deprocrypticism over procrypticism can only be construed within a formal institutionalised articulation not opened to ‘temporal/ordinary disposition contention’ as is the case with subject-matter constructs, but rather an institutionalised percolation-channelling exercise, so as to avoid temporal-dispositions denaturing as is the case with all formal constructs, which rather strive to uphold the intemporal/longness-of-register-or-depth-of-meaningfulness teleology while relying on principled methods.

progress/transcendence; and is necessary by the inherent fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, going by the mediocrity principle (if men were only of intemporal-disposition, no institutionalisation/intemporalisation nor ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling will be necessary as the mere exposure-to/contemplation-of ‘rightness of thought and meaning’ will suffice for transcendence; such a complete human being doesn’t and has never existed, and not even philosopher-kings from the Socrates, Aristotles and others who explore such possibilities, even though intemporal-disposition possibilities will tend to accrue more to such ‘philosopher-kings’ individuals). For the big picture, this point to the fact that institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>/anthropological-continuity/anthropopsychology is only possible for one reason, a continuity in the intemporal-disposition institutionalisation/intemporalisation (with ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection induced deference’) of the cross-section of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. to temporal-dispositions perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>s and corruption
dispositions. For instance, the institutionalisation/intemporalisation of ‘scientific chemistry’
comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the
meaningful frame, on the justification that they explain and account more about the material
world than any other alternative. This justification goes on to make them formalism and
officialdom percolation-channelling to the extended-informality-{susceptible-to-effecting-
parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} such that
over time alchemic and superstitious conceptualisations of material meaning are effectively
destroyed while equally seeing to it that pseudo-scientism is kept at bay. ‘Delegated
gatekeeping and institutionalisation/intemperalisation percolation-channelling processes’;
because such a pedestalled supersedingness is only as valid as to when it is the grandest
construal of material meaning until, and if, it is shown not to be the case. A further and
nonetheless important reason for such delegation is the relative superficiality generally
associated with averageness/banality-of-thought dimensionality-of-sublimating—
<amplituding/formative> supererogatory- de-mentativeness/epistemic-growth-or-
confaltedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness—equalisation projection construal of meaning, and not to speak of its
discomposure to the convolutedness often required in articulating and grasping intemporal
meaning as intemporal/ontological/social/species/universal/transcendental/maximising-
recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming.
Besides, this raises other issues related to a more or less temporal take of an
ontological/intemperal enterprise with regards to articulations that are meant to have
universal import (import of metaphorically-a-million-and-one-instances-and-
locales/aetiologisation/ontological-escalation across space and time) rather than for the sake
of any particular circumstantial/temporal take/extricatory-situation in whichever locale, that
is, an extricatory de-mentating/structuring/paradigming. A failure to grasp the intellectual-
analyst posture rather as a proxying-of-intrinsic-reality-as-ontology as per ontological-
primemovers-totalitative-framework validation and that there-is-no-discretionary-construal-
of-ontology/ontological-reality since intrinsic reality is superseding of all mortals including
the intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping
such an intrinsic-reality is a proxying one superseded by the ontological-primemovers-
totalitative-framework of reality ‘which in no way depends on any notion of the intellectual-
analyst’s choice/luxury’ (as the intellectual-analyst might actually have by another
individuation chose not an intemporal/ontological projection but a temporal posture ‘in moral/intellectual equivalence with temporal mental projections’ with nefarious temporal consequences). Basically, there is nothing like an intemporal temporality/shortness whereby there is any intemporality/longness in accommodating human temporality. Likewise, supposedly the intellectual-analyst was to come short in its intemporal projection or other universal values by temporal manipulation, it is very naïve to ‘reason and projecting temporally’ that eliciting such ‘an inductive-limitation (the-paradox-of-a-universal-rule-that-doesn’t-apply-universally-but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset/reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally, temporal-dispositions as eliciting temporal vices-and-impediments are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but <amplituding/formative>epistemic-totalising~self-referring-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal preservation as ontological veridicality with the potential for a grander human good’ on the basis of ‘universal implications’; as inevitably, ontologically, the resolution of ontological/being perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defects (and as per their manifestation and conjugation as postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s) are as prospective registry-worldviews/dimensions constructs that supersede the prior/superseded registry-worldview’s/dimension’s perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (uninstitutionalisation de-mentatively/structurally/paradigmatically superseded/resolved/rendered-inoperant by base-institutionalisation, ununiversalisation by universalisation, non-positivism/medievalism by positivism, and prospectively procrypticism/disjointedness-as-of-reference-of-thought by deprocrypticism). Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won’t mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn’t have the choice/luxury of deciding from his insight that evolution doesn’t exist in placating any temporal mortals or Galileo doesn’t have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their ‘aggrandised mortality’. The blunt/incisive reality is that they being in that position to affirm intemporality/ontology/intrinsic-reality-as-providing-future-universal-possibilities-for-the-human-species are the ‘very tip of the possibility of human civilisation’ and their moral/intellectual posture is to ‘bluntly look down’ to the ‘little mortal creatures of temporality’ and ‘shepherd the sheepishness-of-the-species’ to grander civilisational grounds. It is an ontological ‘moral and intellectual responsibility and privilege’, actually, to be in any such position, going by the eudaemonic-contemplation which is what ‘effectively grants existential moral and intellectual superiority’ and not naïve temporality/shortness
accommodating conventioning constructs about any such pretence which is nothing more than temporal/the-mortal’s perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing-apriorising-psychologism; as any such is not the intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable deprocrypticism (to thwart procrypticism/disjointedness-as-of-reference-of-thought) and thereafter; the intemporal individuation as such projects in an ‘abstract eternality’ which is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Temporal-dispositions may not need to understand as of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present for the pertinence of intrinsic reality to be established as it is preceding in ontological-normalcy/postconvergence, anyway, that is why it is ‘a registry-worldview’s/dimension’s prospective institutionalisation/intemporalisation secondnaturing exercise’, and ‘not human temporal-dispositions transformation exercise’ into intemporality! Ultimately, like all institutionalisation/intemporalisation construct, there is a ‘dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection induced deference’ to such an ontological construal by way of formalism-and-officialdom as the temporality/averageness/banality-of-thought is not allowed to imply an dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection depth with respect to such ontological construal (due to
the reality of the mediocrity principle that we are not as of intemporal-disposition but
temporal-to-intemporal-dispositions, and hence the need for the artifice to skew/deferential-
formalisation-transference for intemporality as enabling ontologisation and re-ontologisation)
otherwise we would be working with moral philosophy and not law, subject-matter
informalities and not formalisms, etc. There is no such thing as ‘intemporal temporality’ as
mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-
ontological-incompleteness) are doing nothing but providing the anchoring for the

More like we don’t have issues of sorcery and so in the positivistic society as de-mentatively/structurally/paradigmatically the positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology do not endemise/enculturate the notion and the social vices-and-impediments arising from it thereof. On the contrary, de-mentatively/structurally/paradigmatically the non-positivism/medievalism registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology endemises/enculturate this with the consequent social vices-and-impediments. It is very naïve to think that psychopathy as a social phenomenon is limited in scope to contexts where psychopaths are involved rather than involving a much wider social basis to explain how the positivistic registry-worldview/dimension integrates, enculturates and endemises it as ‘social psychopathy’. Just as prior/superseded registry-worldviews/dimensions have undergone their prospective institutionalisation/intemporalisation/transcendence once it is established that the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are subknowledged/registry-perverted/dialectically-preconverging-or-dementing–apriorising-psychologism at their uninstitutionalised-threshold and thus the need for new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, likewise the positivistic dimension perversion-of-reference-of-thought=<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation> subknowledging/mimicking/registry-perverting/preconverging-or-dementing–apriorising-psychologism of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation known as procrypticism/disjointedness-as-of-reference-of-thought implies that ‘it is not and cannot be beyond a prospective institutionalisation/intemporalisation/transcendence exercise’ known as deprocrypticism which highlights the positivism–procrypticism registry-worldview’s/dimension’s enculturated/endemised vices-and-impediments associated with its perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and so, as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal, and not as a vague impression-driven construal. By and large, virtue is best understood as the knowledge/lack-of-knowledge ontological possibility offered in a registry-worldview’s/dimension’s reference-of-thought (whether as base-institutionalised, universalised, positivising or deprocrypticism existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality) and not vagueness based on impression of discreet human or social qualities which just serve to confuse and distort the fundamental knowledge/lack-of-knowledge/understanding issue. This is very much in line with the virtues of all human subject-matter formalisms which are the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not vague impression-driven/good-naturedness/wishfulness.

This elucidation shows that intrinsic-reality, accessible by ‘reasoning-through transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ only at-a-superseding-pedestal that is ontologically abject and incisive/blunt over human incrementalism-in-relative-ontological-incompleteness
and notional-disjointedness-as-of-reference-of-thought and 

As a reminder to the fact that pedestalled construal/pedestalled disambiguation is with respect to perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism defect or a defect outside the logical de-mentating/structuring/paradigming of the said registry-worldview) and not logical defect (conviction-as-to-profound-supererogation defect or a defect in the operation/processing of the logical de-mentating/structuring/paradigming of the said registry-worldview); it is critical to note that the mental state of the registry-worldview/dimension involved with the psychopath’s slantedness-integration is not a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ (which is a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism nonetheless) but an elicited threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, construed by the slanted social protraction of the psychopath’s slantedness inducing a social psychopathy; and it is these strands-of-perverting-temporal-dispositions including that of the psychopathy that
are the subject of every institutional-cumulation/institutional-recomposition level’s psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. Technically, it can be said that the underlying psychopathic phenomenon known as postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is associated with all the institutional-cumulation/institutional-recomposition level’s psychoanalytic-unshackling/memetic-reordering/institutional-recomposing by its eliciting of ‘protracted slantedness’ in temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfitter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), and so given the de-mentative/structural/paradigmatic relative-ontological-incompleteness-of-reference-of-thought induced threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. Hence, the need for ‘dimensionality-of-sublimating—amplitiung/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection induced deference’ to skew/deferential-formalisation-transference towards intemporal-disposition as to prospective institutionalisation/intemporalisation.

This ‘institutionalisation template’ as articulated above implying ‘a next best case approach’ in ‘construing the institutionalisation/intemporalisation of human virtue’ where we are face with the reality that man is not as of intemporal-disposition but rather temporal/shortness-to-intemporal/longness dispositions may be counterintuitive with respect to our illusion-of-the-present/present-consciousness, as any present-consciousness is shaped to perceive itself as intemporal with the notion that its reference-of-thought—categorical-imperatives/axioms/registry-teleology/registry-teleology are perfectly sound. But we simply

defective reflex of human mental devising of representation of meaning such that it is the
latter, the psyche, that gives in when demonstrated to be impertinent abstractly, and hence in

distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’ will perfectly
explain how ‘apparently sound human mental-dispositions’ within the scope of
‘institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation’ go on to produce such consequences as ‘crowd
effects’ and worst still in teleologically-degraded social and political environments rationalise
and/or partake in ‘genocidal acts’, for instance. Technically, distractive-alignment-to-
reference-of-thought by the temporal-dispositions involves simply conjugating/inflecting the
underlying ‘(as dialectically-or-contendingly-out-of-phase or hollow-mimicking)
insane/slantedness fitment’ of the postlogic mind of the psychopath to
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

In the bigger scheme of things, the articulation of reality as referentially of
ontological-normalcy/postconvergence enables and allow creative projective-insights thought
possibilities that the all too common ‘fixated traditional categorisation conceptualisation of
reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the
strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained
with the concept of unconscionability-drag) as ‘it enables mental-devising-representation
contiguity in recomposing’ across all institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposing how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. The insight we can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as ‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflededness (deconstruction/ontological-reconstituting–as-of-conflededness possibilities) – subexistence-in-existence being that which holds existential possibilities or existential potency for
existential reality or ontological veridicality, as allowed by referential-depth or (‘allant’ or ‘fugue’ in French) or ‘natural emanant dynamic creative vitality/drive’, i.e. ontological-normalcy/postconvergence ‘unwinding’ as deconstruction/ontological-reconstituting–as-of-conflicatedness – (more like the subconscious is that which holds existential possibilities/existential potency for ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness consciousness reality/veridicality, or more like quantum-mechanics is actually an ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness about evasive atomic-level physical reality, more like musical and/or artistic creativity hermeneutics is the subexistence-in-existence possibilities or existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,— in-supererogatory–epistemic-conflicatedness/existential-potency for ontologically-veridical ontological-normalcy/postconvergence ‘unwinding’ concrete music and/or art production). Thereafter, the ontological exercise is about having ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘an ontologically-veridical abstract and infallible referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on the one hand, candoring/prelogism/organic-comprehension-thinking ontologising, or on the other hand, decandoring/distractive-alignment-to-reference-of-thought /threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, even as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implies a continually-evasive/ephemeral social world dynamics but that is graspable in referential terms. This allows for a truly universal and dynamic psychological science (and sound
of reference of specific consciousness-awareness-teleologies like recurrent-utter-uninstitutionalisation–base-institutionalisation, ununiversalisation-universalisation, non-positivism/medievalism-positivism, and prospectively procrypticism-deprocrypticism) as ‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated (recomposured)-consciousness-awareness-teleology’ (given that these consciousness-awareness-teleologies are the recomposured outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)’) but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/abject understanding by the very nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness inherent in any (recomposured)-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension. Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) hermeneutically/reprojectively-educing-human-meaningfulness-and-teleology-into-the-existentialism-becoming of personhoods-and-socialhood-formation (existential-storying-in-contiguity). An analogical case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology. However, the bigger picture is that if
prior/superseded institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> have effectively occurred and so, counterintuitively to their natural (recomposured)-consciousness-awareness-teleologies, as anticipated by postdication right up to our present positivistic institutionalisation/intemporalisation owns (recomposured)-consciousness-awareness-teleology; there isn’t any particular ontological reason for intemporal/ontological meaning not to be construed in ontological-normalcy/postconvergence (postdication) as more veridically/ontologically real, beyond and counterintuitively to the positivistic mind’s temporal (recomposured)-consciousness-awareness-teleology (even if it is unintelligible/existentially-suprastructural to it). Such counter-intuitiveness arises because a prospective transcendental psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implied by postdication places the prior psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (in this case positivistic institutionalisation/intemporalisation) existentialism/full-existential-depth-implications personhoods-and-socialhood-formation in question/jeopardy. But then it is not reality that caves in, it is ‘the mortal’ with a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposing at its uninstitutionalised-threshold involving organic-comprehension-thinking (organicism/’Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) in contrast with threshold-of–nonconviction/maeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism; in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing along 3-pedestals (psychopath’s slantedness transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing pedestal, temporal-dispositions transversality-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. Even if this sounds unintelligible/existentially-suprastructural, in any case a retrospective registry-worldview/dimension is ‘existentially parochial/narrow-minded as reflected/perspectivated by its threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism denaturing from an organic-comprehension-thinking (organicalism/*Intemporal-prioritisation-of-reference-of-thought*—as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)-ontologising from the prospective registry-worldview/dimension’. For instance, where a positivist mind might see a forest as a subject of scientific inquiry/understanding, a non-positivist/medieval mindset/reference-of-thought might rather see a mentally unconscious man going into the ‘evil forest’. Such ‘existential parochial perspectives’ will arise anyway from procrypticism viewed from deprocrypticism, though of a different nature than the example expressed above. In that sense, the deprocryptic mind might actually seem ridiculous in the procryptic registry-worldview/dimension but ‘there should be no temptation to want to appear great or adjust in such a perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>
perspective but rather to make it irrelevant’ otherwise the deprocryptic mind compromises the essence of its purpose, just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise its positivistic stance’ by trying ‘to be wonderful’ in a non-
positivism/medievalism perspective that is rather ‘in want of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’; as it is exactly because the temporal non-positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, requiring that such an intellectual analyst be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-worldview/dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (procrypticism) to avoid dividing its meaningful-referencing instead of taking it prospectively (deprocrypticism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the de-mentative/structural/paradigmatic conceptual
limits (uninstitutionalised-threshold) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then arises is that it doesn’t carries the meaningfulness sought for transcendentally. On the other hand, transdimensional/transcendental meaningfulness-and-teleology is precedingness/supersedingness/ascendency accruing as ‘existential psychoanalytic ontological form (in full blossoming of the transcending dimension)’ beyond the superseded intradimensional de-mentative/structural/paradigmatic conception limits (uninstitutionalised-threshold) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension (which itself had been the outcome of a preceding existential psychoanalytic ontological form). Memetism as to suprastructural meaningfulness-and-teleology will refer to the projective conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation); highlighting as ontologically wrong any relation to intradimensional meaningfulness as (intemporally/ontologically)-sanctuous-by-reflex (as this wrongly undermines the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of temporal-dispositions-postlogic-backtracking-< iterative-looping,'set-of-dereifying-hollow-narratives-and-acts'>-subknowledging/mimicking-set-of-narratives, and wrongly leads to their <amplituding/formative>epistemic-totalising–self-referencing-syncretising-as-straight/candored)’ at that registry-worldview’s/dimension’s uninstitutionalised-threshold
requiring prospective memetic-reordering. (As a side note, this will explain while ‘referentialism’ in contrast to ‘categorisation’ is the appropriate knowledge-cadre for such a more or less deconstructive articulation in ontological-normalcy/postconvergence and suprastructural, as is the case with this paper, by the fact of the need for a requisite ‘habituation-into and repeatability-from-different-textual-meaningfulness-perspectives’ that is necessary to get-to-and-grasp not only an explanation but critically as well the requisite psychoanalytic-state of a construed existential psychoanalytic ontological form, in full blossoming of the transcending dimension, as ontological meaningfulness.) Finally, it is just a matter of fact going by the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process that human cross-sectional mentation-capacity in relation to the intemporal-preservation-entropy-or-contiguity--or--ontological-preservation is limited given perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as virtue is rather extended by successive re-institutionalisation in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing (not nested-congruence) by the intemporal-disposition intemporalisation skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) as deferential-formalisation-transference, going from base-institutionalisation, universalisation, positivism and prospectively deprocrypticism.

Such a ‘postconvergence referentialism’ skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) hermeneutic-circle goes beyond a traditional hermeneutics exercise of subjective interpretation and rather arrives at an
exercise in ‘universal objective (ontological-primemovers-totalitative-framework) ontological explanation’ as it emphasises transversally/incongruently ‘the recomposuring precedingness/supersedingness/ascendency of abstract ontological-normalcy/postconvergence referentialism notion of reality’ in referencing meaningfulness apriorising-registry (whether candored / integratively-aligned / straightness / dialectically-or-contendingly-in-phase or decandored / transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing / dialectically-or-contendingly-out-of-phase colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation), and so, as coming from an intemporal-disposition/ontological skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) point-of-referencing. It further holds a promise that goes beyond our notions of reference-of-thought and meaningfulness (as rather intradimensional or a registry-worldview constructs), and arrives at the grander notion of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which grasp should enable greater human transcendental possibilities.

Of course, ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’, rather than how do we over-idealise ourselves and thus fail to be preemptive (as the ‘human cross-sectional mental equilibrium disposition’, at any successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation in the ‘human essential temporal-to-intemporal-dispositions equilibrium nature which is
ontologically true’, under-accounts for ‘temporal-nature which is not ontologically true’, and over-accounts for ‘intemporality/longness nature which is equally not ontologically true’ – the insight for this is that institutionalisation/intemporalisation is a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring tool, it doesn’t transform temporal-dispositions which is the exclusive purview of individual sense of dimensionality-of-sublimating—

growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and by its very nature is ‘beyond a philosophical transformation exercise’ as the latter exercise is mainly to ‘construct articulations for secondnaturng’ at best (articulate new institutionalisation/intemporalisation deterministic-and-operant possibilities for skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), hence the need to refer analytically to human temporal-to-intemporal-dispositions s as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existental-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness highlighting the uninstitutionalised-threshold and not analytically implying by reflex solely on the basis of a human intemporal-disposition mental-disposition); and prospectively, do our part of the ‘transcendental homework’ that has brought the human species this far taking cue from retrospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity.

By extension this explains how the notion of ‘knowledge problem’ is to be apprehended transcendentally/transdimensionally/interdimensionally (as a contiguous
intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as ‘social problem/questioning’ is an ‘intradimensional focus’ around logical operation/processing/contention based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with the temporal defect of possible denaturing of such reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. However, ontological-normalcy/postconvergence (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge problem as ‘social problem/questioning’ on the ‘intemporal-preservation-entropy’ itself-and-beyond-any-set-categorical-imperatives/axioms/registry-teleology-implying-it (and by extension accounting for incompleteness of human mental/brain mentation-capacity which is the reason of the institutional-cumulation/institutional-recomposuse<=(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process) to define ‘social problem/questioning’ as implying a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation recomposuring/memetic-reordering/psychoanalytic-unshackling to enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when at the uninstitutionalised-threshold of the registry-worldview/dimension (the contiguous referential exercise of recomposuring/memetic-reordering/psychoanalytic-unshackling to perpetually enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is known as ‘postdication’, a term that is in contrast with ‘predication’ which is based on ‘constitutive categorisation elaboration on an intradimensionally affixed reference-of-thought–categorical-imperatives/axioms/registry-teleology whereas postdication refers to a
enabling/sublimating/supererogatory–de-mentativity), by way of institutionalisation/intemporalisation percolation-channelling, towards the supersedingness of the intemporal-disposition for institutionalisation’s/intemporalisation’s intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Thus the ontological veridicality of the registry-worldview’s/dimension’s perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> at it uninstitutionalised-threshold is articulated, with contention then being about reflecting/perspectivating/highlighting and aetiologising/ontologising this, even if it is intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this regard, the development of positivism from non-positivism/medievalism). It should be noted then that the de-mentating/structuring/paradigming is an intemporal/ontological projection referencing de-mentating/structuring/paradigming beyond-and-the-non-implication of an equivalence between (‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting-pedestalling) with the intradimensional ‘consciousness-awareness frame-of-social-stake-contention-or-confliction’ of the temporal/preconverging-or-dementing–apriorising-psychologism dimension, more like the positivist ontological biology and medicine de-mentating/structuring/paradigming is beyond/supersedes-and-is-a-non-implication of an equivalence with the ‘consciousness-awareness frame-of-social-stake-contention-or-confliction’ of say non-positivism/medievalism temporal value dispositions with respect to the notion of disease, that is, it’s point is to define an altogether different and superseding meaningful frame or de-mentating/structuring/paradigming and is not involved in an idle exercise of elevating and articulating its meaning in terms–as-of-axiomatic-construct of and implying an equivalence with non-positivism/medievalism meaningfulness. That is equally the relation between a
transcending deprocrypticism registry-worldview and the transcended procrypticism worldview.

This transcendental insight is in line with the idea of low teleologies or temporal concerns in threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicalism/‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology), and ontologically long in an intemporal/species-possibilities/abstract-eternality-of-being-mental-projection/eudaemonic-contemplation), and their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/characteral-
disposition whether of low or higher teleology; hence any such ‘storied/articulated’ absolutely specific-individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of individuation aetiologies’, though all such storied/narrated specific individuation aetiologies represent the full possibilities of any and all individuals ‘as receptacles of individuation aetiologies’).

By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a profound-supererogation disposition that is beyond just one institutionalised/intemporalised registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology but abstractly and supererogatorily across all transcendental retrospective-and-prospective institutionalisation/intemporalisation registry-worldviews/dimensions as so-reflected by dimensionality-of-sublimating—<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation); with the implication that the highest teleologies of Base-institutionalisation (as percolation-channelling undermining of recurrent-utter-uninstitutionalisation and its vices-and-impediments) – equivocates as of profound-supererogation to the highest teleologies of Universalisation (as percolation-channelling undermining of ununiversalisation and its vices-and-impediments) – equivocates as of profound-supererogation to the highest teleologies of Positivism (as percolation-channelling undermining of non-positivism/medievalism and its vices-and-impediments) – and prospectively, equivocates as of profound-supererogation to the highest teleologies of Deprocrypticism (as percolation-channelling undermining of procrypticism/disjointedness-as-of-reference-of-thought and its vices-and-impediments). It should thus be noted as such that ‘higher teleologies’ are ‘equivalences of existential ’ (in terms–as-of-axiomatic-construct of temporal-to-intemporal-dispositions), and not
equivalences of institutionalisation/intemporalisation levels. That is, being in a transcended institutionalised/intemporalised registry-worldview/dimension (internalisation and formalisation induced as a second nature) doesn’t equivocate as highest teleologies to the existential projection that ‘had the vision’ in the prior/superseded subknowledging/mimicking/untranscended registry-worldview/dimension (‘with-no-elicited-positive-opportunism/much-more-likely-temporal-negative-disincentive’ and ‘out-of-the-blue’) to articulate-and-uphold-for-percolation-channelling the prospect of the transcended registry-worldview/dimension-with-its-prospective-universal-virtue-over-the-vice-and-impediments-of-the-prior-registry-worldview/dimension even as it seem unintelligible/existentially-suprastructural to the prior/superseded untranscended/preconverging-or-dementing-apriorising-psychologism registry-worldview/dimension. So in terms–as-of-axiomatic-construct of ‘higher teleologies’ (emphasising the existential intemporal-disposition as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an institutionalised/intemporalised positivistic world doesn’t necessarily equivocate us to the Galileos, Descarteses, Newtons, Leibnizes, Rousseaux, Darwins … behind the articulation-and-upholding-for-percolation-channelling of a positivistic registry-worldview/dimension (even though together with them we all may recognise and operate within a positivistic world). That is, the ‘existential profound-supererogating that enables the articulation-and-upholding-for-percolation-channelling of a transcending registry-worldview/dimension as to dimensionality-of-sublimating—<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ is the higher teleology ‘over the mere-institutionalised-being-and-craft’ in such a transcended registry-worldview/dimension. And why is this distinction critical? Because prospective
(intemporality) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation necessarily calls upon the (intemporal)-kind that articulated-and-upheld-for-percolation-channelling the superseding institutionalisation/intemporalisation/transcendence; and the condition of mere-institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn’t speak of a disposition to prospectively articulate-and-uphold-for-percolation-channelling an intemporally requisite prospective registry-worldview/dimension institutionalisation/intemporalisation that is intemporally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for ‘human registries-disambiguation at uninstitutionalised-threshold’, and as being temporal-to-intemporal-dispositions. The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemporal virtue as civilisational over temporal vices-and-impediments (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-temporal-momentativity)/memetic-reordering with respect to the base physical animal selectivity process (genetics) of the human species generational succession.

On other issues of pertinence in the bigger scheme of things:
(i) Meaningfulness of temporal-to-intemporal-dispositions as to ‘existential idealism/success’ as these define mental orientations or registry-worldview teleological-dispositions. Going by the human ‘institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>-’ process involving variously candored/straightness/prelogism and decandored/oblongated/distractive-alignment-to-reference-of-thought mental-devising-representation of registry-worldviews dependent on which registry-worldview is considered perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or transcendental/superseding; in any given registry-worldview’s social context, the notion of ‘existential idealism/success’ is averagely viewed invariably as ‘living to the ‘opportunistic ideals or conventioning/social-temporal-thresholding’ of the inherent registry-worldview’ irrespective of whether it is perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or transcending/superseding, and not necessarily by its veracity/ontological-pertinence. But then given that what allows for the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>-process transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to take us from an uninstitutionalised animal to now a positivistic one and prospectively a deprocryptic one; it is difficult to contemplate ‘existential success/idealism’ from a knowledge/ontological perspective (in contrast to a temporal <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>-) perspective) without identifying that intemporal-disposition in contrast to temporal mental-dispositions is what is ‘truly existential success’ as the intemporal-disposition is very much what allows for human transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity and subsequent institutionalisation/intemporalisation, much as the distilling process allows for the lightness of hydrocarbons, ‘where lightness is virtue’. Basically, it can be said that without the human quality of the ‘aetiologisation/ontological-escalation individuation of the intemporal ’ we’ll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the ‘percolative impact’ of the ‘firstnature/intemporal’ (which is not readily available to the immediacy/shortness-of-register-of-meaningfulness-and-teleology of minds of temporal-dispositions). For instance, men did not ‘by magic’ develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding ‘psychoanalytic liberation’ that allowed for such a development induced by philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profoundly applicative enough’ and more or less cultic (available more or less to a priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolation-channelling effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was outlying without scale and time and the sufficient lack of chaos and war). As the establishment of a registry-worldview’s/dimension’s ‘(re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–‘projective-insights’)/epistemic-projection-in-

This highlights that our own location at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process doesn’t dispense us from our own de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) for prospective transcendental possibilities. Basically, the entropy behind such a philosophical-driven conceptualisation of human meaning and corresponding psychoanalytic-unshackling, percolation-channelling into an overall relaying defining the human anthropological-continuity or anthropopsychology or institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> could be summed up this way:

- a human-philosophical-conceptualisation of mythologies (of superstitious causations with respect to human and existential destiny/teleology) ‘inducing a human psychoanalytic-unshackling or registry-worldview memetic-reordering’ which has the merit of introducing comprehensive social institutionalisation/intemporalisation suprastructurally based around such mythologies (underlying suprastructurally the creation of superstititious practices,
religions and belief systems, and practically ‘institutionalised living’ whether with respect to nature or among humans);

- a human-philosophical-conceptualisation of mystical-principles (a system of the appropriate relations humans need to have with such superstitious causations with respect to human and existential destiny/teleology) ‘renewing the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ which has the merit of redefining comprehensive social institutionalisation/intemporalisation as rules/principles-driven though still based on mythological systems (underlying the suprastructural introduction of rules/principles in superstitious practices, religions and belief systems, and practically ‘universal rules of institutionalised living’ whether with respect to nature or among humans);

- a human-philosophical-conceptualisation of principles-rationalism (of principles/rules of causation-in-reflecting-ontology as not superstitious with respect to human and existential destiny/teleology) ‘redefining the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ and has as merit the superseding of superstitions based on rationalising systems of universalisation, positivism and science (underlying the suprastructural introduction of intemporal principles in the operation of social endeavours including social rules and science, and practically ‘the categorical-positivising/rational-empiricism of institutionalised living’ whether with respect to nature or among humans); and prospectively

of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) agency towards intemporality/longness in secondnaturing is what is critical and not a false idealism wrongly implying a direct/immediate cross-sectional intemporal-disposition of humankind’), with respect to human and existential destiny/teleology ‘reorienting the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ and has as merit a realistic and hence more ontological-primemovers-totalitative-framework conceptualisation over ontologically-flawed-intemporal-construction-with-the-drawback-of-temporal-dispositions-’preconverging-or-dementing–apriorising-psychologism underlying the suprastructural and practical introduction of deprocripticism postconverging-or-dialectical-thinking–apriorising-psychologism rules/principles (postconvergence referentialism entropy of institutionalisation/intemporalisation).

The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from the superstitious/religion, universal-notions/essences, principles-rationalism/positivist-idealism and then rational-realism as of deprocripticism is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain its world, but then realises across institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> that successive introduction of more and more ‘realistic’ conceptualisations enable a grander ontological-primemovers-totalitative-framework and grasp of its world.

Further, what differentiates principles-rationalism/positivist-idealism and rational-realism as of deprocripticism is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the
that it addresses the fundamental issue of perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect by recognising the reality of human temporal-to-intemporal-dispositions in principle and preempting this in principle in its operant conceptualisation i.e. in principle the deprocryptic reflex is not to simply operate/process logic, it anticipates the verification of soundness of apriorising—registry to establish that this isn’t subknowledging-impulse/compulsive-dementing/slanted/psychopathy as well as the conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing—apriorising-psychologism perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by the temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

It should be noted that while the prior/superseded transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to positivistic institutionalisations have been rather incremental-to-abject, it is likely that procryptic to deprocryptic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is most probably an outrightly blunt/incisive abject construct, and why, because higher institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> imply higher perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are ‘not readily perceived as undermining intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in their ontological-prime-movers-totalitative-framework and are often wrongly analysed as being intemporally preservational’ but for a very insightful ontological reflecting/perspectivating/highlighting exercise of organic-comprehension-thinking (organicism/‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) ontological-escalation/aetiologising over threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism; requiring a corresponding intellectually decisive and abject articulation for procryptic-to-deprocryptic crossgenerational deprocryptic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism, as the procryptic perversion-of-reference-of-thought<<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is weakly graspable in the cross-section of the social-construct for the transcendence-and-
sublimity/sublimation/supererogatory de-mentativity to work effectively by incrementalism-in-relative-ontological-incompleteness as to notional–disjointedness-as-of-reference-of-thought even though such incrementalism-in-relative-ontological-incompleteness and notional–disjointedness-as-of-reference-of-thought might later arise in social integration from institutionalisation/intemporalisation percolation-channelling following an intellectually abject and decisive articulation, or possibly with successive other such intellectual articulations, of the perpetuation-of-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory de-mentativity. Methodologically, it should draw on phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full-existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence-and-sublimity/sublimation/supererogatory de-mentativity should be similar to say a literary work like Things Fall Apart by Chinua Achebe even though the latter is rather more about cultural-diffusion-from-Western-philosophical-transcendence which positivistic transcendence-and-sublimity/sublimation/supererogatory de-mentativity integration into the society’s institutionalisation/intemporalisation percolation-channelling undermines-psychoanalytically/psychoanalytic-unshackling/memetic-reordering/institutional-recomposing the society’s existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation allowing for positivistic transcendence-and-sublimity/sublimation/supererogatory de-mentativity. But then unlike Things Fall Apart, such a perpetuation-of-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory de-mentativity being not a cultural-diffusion-from-another-society’s-philosophical-transcendence but rather a universal-human-intradimensional-philosophical-transcendence can be creatively devised as being in
substitution to an ‘abstract cultural-diffusion-from-another-society’s-philosophical-transcendence transcendence and sublimity sublimation supererogatory de-mentativity’, for an in-depth insight. However, the latter storying will have to be more deterministic, operant and of aesthetic applicability, unlike just a simple literary work, with strong existentialism full existential depth implications insights with respect to percolation channelling effects as predication deferred predication and application deferred application to human and social issues based on temporal to intemporal dispositions conceptual articulation as ontological primemovers totalitative framework about the ‘abstract nature of man’. This will involve ‘creative existentialism (full existential depth implications) storying construal’ in transversality of affirmative and unaffirmative disambiguated apriorising axiomatising referencing articulated in a dynamic relationship along the three pedestals of: psychopathic characters slantedness as insane slantedness fitment in absolving or fleeting logic reflex or escaping logic in hollow constituting as disjointed misappropriation of meaningfulness and failing intemporal preservation in postlogic backtracking iterative looping ‘set of dereifying hollow narratives and acts’ to last narrative wronglyly allowing interlocutors prelogic or conviction as to profound supererogation alignment temporal dispositions (of ignorance affordability opportunism exacerbation social chainism or social discomfort or negative social aggregation temporal enculturation or temporal endemisation) insane slantedness integration conjugation in threshold of nonconviction madeupness bottomlining as to shallow supererogation preconverging dementing apriorising psychologism miscuing disjointed logic logical drag unconscionability drag sub par or formulaic association or temporal or alibi conventioning rationalising temporal enculturation or temporal endemisation of the organic comprehension thinking (organicism Intemporal prioritisation of reference of thought)

This serves to provide the perspective/reflection to the present positivistic mindset/reference-of-thought explaining while the ‘seemingly unlikely preconverging-or-dementing–apriorising-psychologism mental-devising-representation of its mind’ at its uninstitutionalised/unintemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as procrypticism/disjointedness-as-of-reference-of-thought so reflected/perspectivated from deprocrypticism is more veridical than its illusion-of-the-present/present-consciousnessas <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drug mental ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ representation. In the bigger scheme of things, such a ‘creative existentialism (full-existential-depth-implications) storying construal’ on perpetuation-of-deprocrypticism re-elaborated to a ‘creative existentialism (full-existential-depth-implications) storying construal’ of all the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity provides an even more profound and emanant-insight understanding of the anthropological continuity/anthropopsychology and the proper place of the present positivistic mind in the bigger scheme, and what is prospectively
implied, as a perpetuation-of-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity).

Another ontological element of the perpetuation-of-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct. Prior/superseded transcendence-and-sublimity/sublimation/supererogatory-de-mentativity are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from recurrent-utter-uninstitutionalisation being the strongest in its positive-opportunism as the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of: ‘organising rules/principles’/base-institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where such organising/rules/principles/laws are constantly being remade competitively with respect to survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation-channelling for intemporal transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is a highly-
diffusionary-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-social intemporal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the amidst of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these institutionalisations transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can elicit, in effect, a grander sense of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming rather than a temporal extricatory de-mentating/structuring/paradigming in their cross-section of the social-construct. However, it will probably be more facile for such a cross-section of the social-construct to be strongly disposed to adopt an extricatory/temporality de-mentating/structuring/paradigming rather than intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming regarding the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of ‘temporal-to-intemporal-dispositions accountability as intemporality-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) rules/principles’ or deprocrypticism with regards to their temporal direct/immediate survival opportunism statistically to individuals on the cross-section of the social-construct. An intemporal
disposition as ontological projecting that may elicit a sense of positive-opportunism for survival itself with base-institutionalisation will not necessarily have the same adherence effect on the cross-section of the social-construct when it comes to a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which temporal directness/immediacy for ‘individuals sense of survival-and-flourishing’ is not so obvious but for its abstract ontological veridicality and abstract intemporal transformation implications as is the case with deprocrypticism; but is rendered possible because of the relatively ‘strong preset institutionalisation/intemporalisation percolation-channelling for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ (on the basis of its untenability/internal-contradiction/internal-incoherence/institutional-constraining generation capacity); more like it would be fair to say that many an abstract and boring scientific efforts do not necessarily appeal temporarily but for the strongly preset institutionalisation/intemporalisation percolation-channelling for their social integration. Basically, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as temporal directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolation-channelling for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) in assuring prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity strengthens.

To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. That is, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more
immediate/direct basis for the human temporal drive). To the extent that transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity highlights critically that it is what is the
best enabler for survival-and-flourishing then it is a force of social transformation. Equally,
an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with
regards to human temporal practicality, by mere ontological-veridicality be a basis for its
social integration, if the insight that it provides a grander survival-and-flourishing scheme
isn’t immediately palpable. As in this case human temporal practicality disposition is
perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-
threshold. But then with an increasing cerebral grasp of our nature and our surrounding world
rather than just passive endurers of nature-in-action, we can fairly anticipate and supersede
intellectually our human temporal practicality dispositions, in this case with regards to
deprocrypticism, and attain prospective knowledge-and-virtue generally. Meaning (defined
previously as what defines/predicates value, thought and action) is actually a referential
memetic construct in the referential exercise of the entropic preservation of preceding-
intemporality/intrinsic-reality as validated by ontological-primemovers-totalitative-
framework. This leads in the instance of perversion-of-reference-of-thought-<as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> to the
notion of ‘memetic-corruption or psychoanalytic-misrepresentation of reference-of-thought–
categorical-imperatives/axioms/registry-teleology; requiring a referential ‘memetic
reordering/psychoanalytic-unshackling reference-of-thought–categorical-
imperatives/axioms/registry-teleology for the entropic preservation of intemporality/intrinsic-
reality as validated by ontological-primemovers-totalitative-framework.

The referential memetism as suprastructural-meaningfulness implying that meaning is
in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-reality)
and it is grounded on its validation/veridicality by its ontological-primemovers-totalitative-
framework in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-authenticity-of-reference-of-thought/candored, and then mentally-oblongated/decandored with respect to new/superseding soundness-or-authenticity-of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold whether from recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-positivism/medievalism to positivistic, and prospectively procrypticism to deprocrypticism.

More than just an exercise of grasping the possibilities of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it is critical that for future transcendence-and-sublimity/sublimation/supererogatory-de-mentativity we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of mortals’ (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity that enabled its world, the positive worldview from non-positivism/medievalism, but has been rather ‘institutionalised and secondnatured there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential
idealism/success’ must be the exclusive purview of the aetiological individuation of the intemporal-disposition whose organic-comprehension-thinking (organicism/‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)’s universal projection/intemporality keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable deprocrypticism (to thwart procrypticism/disjointedness-as-of-reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract eternality’ that is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

In the bigger scheme of things, all the vices-and-impediments of successive registry-worldviews can be directly ascribed as corresponding perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of temporal-dispositions at the registry-worldviews uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/knowledge-reification/ontological-prime movers-totalitative-framework constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent an recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as
subknowledging/mimicking/perverting positivistic meaningfulness) those of procrypticism. Virtue is plainly and simply about the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct with corresponding virtuous consequences of knowledge or lack-of-knowledge thereof). It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendental possibilities, otherwise we syncretise and preserve and articulate our temporality/shortness as being intemporal!

(ii) ‘Intellectual solipsistic/emanant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing and subknowledging’ with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of human/social progress dementating/structuring/paradigming. While intellectual ontological/intemporal meaningfulness may strive to articulate a universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism-slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not impression/good-naturedness/wishfulness vagueness) the supersedingness of the
intemporal-disposition-worldview (as ontological and upholding virtue in the medium to long perspective) over the cross-section of human mental temporal-to-intemporal-dispositions, i.e. secondnaturing as formalisation and internalisation. For instance, if men were of an intemporal-disposition we will only need ‘moral philosophy’ and ‘no law’ as the institutionalising principle of the law is a tacit recognition that realistically we need ‘dominating-superseding artifices’ or ‘institutions and their rules and narratives’ whether the human subjects have a grasp of the ‘philosophical’ universal end purpose or not). This is the attitude that preserves the virtue inherent in the intemporal conceptualisation of meaning and ‘not any temporal romantic idealism’ which only leads to perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in particular in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)’ (informal settings) where the constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) (usually introduced in formal settings) is not available. Hence intellectual responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism. This involves avoiding the naivety of articulating meaning only in the sense of the intemporal ideal but including a constraining and temporal-to-intemporal-dispositions-disambiguating realism that upholds/preserves intemporality/longness and stifles temporal-dispositions perversion-of-reference-of-thought-
inclinations. Such an approach is known as the ‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances’/temporal-dispositions to knowledge/intemporality which then allows for scrutinising and preemption of the ignorances’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct).

‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturing and internalisation. ‘Intemporal and temporal disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional meaningfulness for instance respectively as deprocrypticism and as procrypticism (persistence-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness), just as there is mutual unintelligibility between positivism and non-positivism/medievalism meaningfulness. This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or
prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews share the same reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); wherein it is transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing that plays out to enable the abject superseding/transcendence of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension over the prior/transcended/superseded intradimensional meaningfulness. For the simple reason that intrinsic-reality being preceding as ontological-normalcy/postconvergence it won’t let the positivistic mindset/reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of the mortals that we are, in the sense that a cholera epidemic that was to occur say in 100 b.c. Will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; thus naivety will be to strive to syncretise in temporal-and-social-trading our discomfort/unpalatability in construing intrinsic-reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with ‘reasoning-through/abjection’ with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as preconverging-or-dementing–apriorising-psychologism (where the non-positivism/medievalism registry-
worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-Good/understanding/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling mechanism. This ontological insight (transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing that plays out to enable the abject prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-worldview/dimension as deprocrypticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter superseded/transcended as of ‘reasoning-through/abjection’ and represented as preconverging-or-dementing–apriorising-psychologism in line with the preceding ontological-normalcy/postconvergence nature of intrinsic-reality/ontology, likewise with the idea that deprocrypticism validation will arise from the untenability/internal-contradiction/internal-incoherence/institutional-constraining of procrypticism as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism takes hold in the the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling mechanism. So deterministically and operantly, without any discretion allowed, from the intemporal/ontological perspective, it is a crossgenerational collapsing/overriding-and-superseding of temporal-dispositions and a registry-worldview/dimension-intradimensional-meaningfulness that is perversion-of-reference-of-thought<-as-effectively-

prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that
enables prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity.
Thus technically, preconverging-or-dementing—apriorising-psychologism arises simply by a
shift of reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity—
or—ontological-preservation wherein the latter reference-of-thought as a registry-
worldview/dimension is shown to be more intemporally-preservational); with the
preconverging-or-dementing—apriorising-psychologism reflected/perspectivated in the
mental-devising-representation fully implied by the new transcending/superseding reference-
of-thought (of postconverging/dialectical-thinking—apriorising-psychologism) about the prior
transcended/superseded reference-of-thought (and so, beyond the latter’s registry-
worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated
ontological-impertinence as of notional-discontiguity/epistemic-discontiguity—<shallow-
supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> and go
on to be of <amplituding/formative>epistemic-totalising~self-referencing-
syneretising/circularity/interiorising/akrasiatic.drag this now shown-to-be-wrong reference-
of-thought). Preconverging-or-dementing—apriorising-psychologism as such is easily and
spontaneously reflected of a prior/superseded/transcended registry-worldview/dimension like
for instance a positivistic registry-worldview/dimension mental-devising-representation
reflecting the preconverging-or-dementing–apriorising-psychologism of a medieval registry-worldview/dimension. But then this is because the positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension personhoods-and-socialhood-formation has to deal with. However, implying similarly the preconverging-or-dementing–apriorising-psychologism of the positivistic registry-worldview/dimension from its intradimensional perspective where its own reference-of-thought is superseded/transcended by a prospective reference-of-thought as deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage that its personhoods-and-socialhood-formation has to deal with, lead to the positivistic registry-worldview/dimension by reflex setting-aside/ignoring the prospective and veridical reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity, and go on to self-reference-syncretise its transcended/superseded reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/reference-of-thought will likely shift the reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A’s illness, the mental-devising-representation of the positivistic mindset/reference-of-thought will be that A is preconverging-or-dementing–apriorising-psychologism and that a germ and biological functioning theory of the human body is the reference-of-thought for A’s disease. But then intradimensionally, A and B and their society of personhoods-and-socialhood-formation and existentialism/full-depth-of-existential-implications that are non-positivism/medievalism will tend to harken back to reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-
simple as it is based on adhering to a registry-worldview’s/dimension’s institutionalisation
temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-
dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-
teleology, which along the institutional-cumulation/institutional-recompose-<as-to-
historiality/ontological-eventfulness/ontological-aesthetic-tracing> are successively shown to
be defective-as-always-being-sub-par-to-intrinsic-reality and defining the uninstitutionalised-
threshold. Virtue and ontology/intrinsic-reality rather lies in the intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation, and not its reference-of-thought–
categorical-imperatives/axioms/registry-teleology, with the latter only being pertinent in the
sense where it relays intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation. Such a relaying is not within the ambits of good-naturedness constructs but
rather the-Good as a continuous refinement of ontological-primemovers-totalitative-
framework that ensures re-institutionalisation/re-intemporalisation for intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation when ontological-
primemovers-totalitative-framework so reveals it. Thus supposed an individual shows good-
naturedness following the reference-of-thought–categorical-imperatives/axioms/registry-
teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of
the recurrent-utter-uninstitutionalised registry-worldview/dimension that warrants that one
simply gets one’s way no matter the situation even if it means committing murder to have
some food for oneself and close ones; a good-natured quality that is highly rated for survival
in an recurrent-utter-uninstitionalised setup. That is perfectly within the good-naturedness
ambits of a survival-driven registry-worldview/dimension but prospectively it is the
creativity of the-Good/understandingknowledge-reification/ontological-primemovers-
totalitative-framework as of ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-
reality that carries the virtuous and ontological insight to grasp that a registry-worldview’s/dimension’s institutionalisation as base-institutionalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism will provide a grander virtuous and ontological outcome for humans, and not a good-naturedness inclination which is stuck at the reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation of recurrent-utter-uninstitutionalisation. This same fundamental dilemma arises with all other institutionalisations. For instance, the procrypticism inclination to stick to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation of a positivistic registry-worldview/dimension viewed as deterministic by projected <amplituding/formative>wooden-language{(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) as-to-how-others-act-in-hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> requiring the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework appreciation that an ontological-primemovers-totalitative-framework as to existence-potency,—disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative>epistemic-totalising—renewing—realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflicatedness indicating such a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> implies a prospective/transcending/superseding registry-worldview’s/dimension’s new reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation to ensure intemporal-preservation as
deprocrypticism. Thus it is the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework that carries the mantle of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and not good-naturedness/vague-impression drive which temporal-mimicking (unconscious or conscious) shouldn’t be confused with preserving ontology and virtue. Thus the basic reason for this counter-intuition about the veridical nature of good-naturedness construct is that it is intradimensionally
<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with the wrong implications of inherently representing the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the registry-worldview/dimension as absolute intrinsic-reality/ontology without any factoring of intrinsic-reality/ontology ontological-normalcy/postconvergence and suprastructural nature as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework does. This fundamentally explains why all prior/transcended/superseded registry-worldview’s/dimension’s present-consciousness/illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/mirage are necessarily preconverging-or-dementing—apriorising-psychologism from the mental-devising-representation of the prospective/transcending/superseding registry-worldview/dimension in the requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing exercise that enables the existentialism (full-depth-of-existential-implications) deconstructed/’ontologically-reconstituted’ becoming of the prospective/transcending/superseding registry-worldview/dimension. The bigger insight here has to do with the ontological-normalcy/postconvergence nature of intrinsic-reality. Intrinsic-reality/ontological-veridicality is already given and what is required to access it absolutely is
of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation mainly for the compromising sake of ‘effective functioning’, and so at one dialectical moment till a better one arises at another dialectical moment, as a transcending/superseding reference/registry/registry-worldview/dimension) that simply ‘open-up’/‘throw-up’/‘reveal’ in ontological-normalcy/postconvergence successive existentialisms/full-depths-of-existential-implications of the notion of what is meant by intrinsic-reality; more precisely and effectively, as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation as (prospective) transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument or (prospective) existentialism/full-depth-of-existential-implications, i.e. the overall enterprise is about deconstruction/ontological-reconstituting–as-of-conflatedness-towards-intrinsic-reality wherein existence-defines-essence (along Sartrean existence-precedes-essence or existence-meeting-essence), as it is existentialism which is the ‘becoming that defines essence’ with ‘essence-of-meaningfulness being-veridically-in-ontological-reconstituting–as-of-conflatedness’ and not a traditionally naïve ‘wrong hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> perception or construct-of-essence-of-meaningfulness-in-an-abstract-classification-scheme-which-is-out-of-existential-contextualising-contiguity’ that is usurpable/impostored by mere form. This is the veridical ontological depth of mental-devising-representation/psychological-representation/(recomposured)-consciousness-awareness-teleology informed by the de-mentionation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics). The institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as specific
successive existentialisms/full-depths-of-existential-implications imply their mental-devising-representation in a reflecting/perspectivating/highlighting transdimensional/transcendental dialectics enabled by de-mentation\{supererogatory\-ontological\-de-mentation-or-dialectical\-de-mentation\-stranding-or-attributive-dialectics\} wherein the de-mentation\{supererogatory\-ontological\-de-mentation-or-dialectical\-de-mentation\-stranding-or-attributive-dialectics\} sets prior/transcended/superseded institutional-cumulation/institutional-recomposure\langle as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\rangle as ‘dialectically-preconverging-or-dementing-apriorising-psychologism’ (mentally-oblungated/decandored-and-dialectically-or-contendingly-out-of-phase) and the prospective/transcending/superseding institutional-cumulation/institutional-recomposure\langle as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\rangle as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought (mentally-straight/candored-and-dialectically-or-contendingly-in-phase), in their successive existentialisms/full-depths-of-existential-implications ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatadedness as dialectical transformation. Thus this insight in transcendental analysis is that by its very nature in that it puts into question ways, assumptions and traditions of thought and practices, the possibility of truly profound insights that go well beyond more or less platitudes and inevitably requires taking stock of the full-depth-of-existential-implications/existentialism of transcendental-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, given the need to boldly overcome intellectual dead-ends and introduce dementating/structuring/paradigming shifts often with inconvenient and unpalatable implications to the given registry-worldview/dimension personhoods-and-socialhood-formation. It requires more than just a sense of professional and technical craft but often more critically a profound sense of intemporal/firstnature emanant commitment, an attribute that is by definition of dimensionality-of-sublimating—<amplituding/formative> supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection nature and hardly just secondnatured, in thriving for an abstract sense of the intemporal beyond just functioning within the ambits of given reference-of-thought–categorical-imperatives/axioms/registry-teleology with their intemporal preservation limitations as well as their corrupting nature as distractive/circumventive <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Within all registry-worldviews as institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, there is a convergence that ensures intemporal-

(wherein ‘ontological/intemporal reference-of-thought and meaningfulness’ is wrongly re-conjugated with the temporal-dispositions teleologies/dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, inducing corresponding denaturing of the ‘ontological/intemporal reference-of-thought and meaningfulness’ by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect) towards profound-limited-mentation-capacity/longness-of-register-of-meaningfulness/intemporality-potency.registry-soundness which is behind the generation of ‘ontological/intemporal reference-of-thought and meaningfulness’ and the institutionalisation/intemporalisation process. This convergent selectivity is perpetually directed by ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ (not to be confused with good-naturedness/impression-drive) towards the validation of intemporal-potency and the dismissal of temporality-potency, and so in dialectical succession of registry-worldviews as the successive/snowballing institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. Thus establishing a human approximating/proxying/aligning relationship with the ‘potency of intrinsic-
run be untenable with respect to the latter thus ‘collapsing’ it; and so reflecting ‘Derridean
underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power
conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere
‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-

dementing–apriorising-psychologism>’ so-underlining existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-
of-conceptualisation. Intradimensionally within a registry-worldview like positivism, this
could be construed as there is no basis for a mindset/reference-of-thought advocating for
scientific medicine as practised in hospitals to ‘logically convince’ another
mindset/reference-of-thought advocating rather for traditional medicine (involving a mix of
herbalism, incantations, spirits, etc.) that the former is more ontologically-veridical on purely
logical terms (as the traditional medicine interlocutor operates logic according to the
apriorising–registry or reference-of-thought–categorical-imperatives/axioms/registry-
teleology behind its traditional medicine meaningful-frame while the scientific medicine
interlocutor operates logic according to the apriorising–registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology of a positivistic meaningful-frame), and it
is purely the ontological-primemovers-totalitative-framework fact in that by and large more
patients survive/get-cured by going to hospitals which then collapses the traditional medicine
interlocutor’s reference-of-thought in the middle to long-run to impose the scientific
medicine interlocutor’s reference-of-thought as a common one, and it is only when this
common reference arises that the ‘notion of agreement-disagreement’ with regards to logical
processing is now relevant, and it is irrelevant and non-applicable before that. The implication is that a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated temporal-to-intemporal-dispositions (aetiological ontological-primemovers-totalititative-framework construct), and so whether with regards to the epiphenomenon of psychopathy and social psychopathy (or with respect to ontological-veridicality or issues of reference-of-thought and meaningfulness generally):

- As the ‘intemporal-disposition’ disposition which is prelogism-as-of-conviction-as-to-profound-supererogation-or-existential-contextualising-contiguity with respect to the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (based on ontologically-veridical reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation since its apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are ontologically-veridical), which are ‘ontologically-reconstituted/deconstructed’ and hence of sound/veridical reference-of-thought (registry-soundness reflected as soundness-or-authenticity-of-reference-of-thought), and in registry-worldview terms dialectically-in-phase as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’.

- As in registry-worldview terms, all the temporal-dispositions in their ‘dynamic-cumulative-
aftereffect of subontologisation’ paradoxically define and establish the said registry-

registry-worldview terms dialectically-in-phase as ‘postconverging-or-dialectical-thinking–
apriorising-psychologism’.

- As ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism’ implies that ontological-normalcy

example priorly highlighted at the beginning:

For instance, if an adult psychopath were to meet a stranger and spoke to him about another
stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be
molesting children, etc. The logical operation is entirely right in abstract terms but does the
apriorising–registry apply? I.e. The faulty-mentation-procedure-deception-or-urge is not with
regards to the logic (which is technically true) but with the ‘implied’ denaturing of the
elements of the apriorising–registry as of reference-of-thought–categorical-

logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist
since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a
false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-
assumptions (the assumptions implying the psychopath’s relationship with the guy and the
guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s
elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and
implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor
about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-
mentation-procedure-deception-or-urge but none to do with logic, but everything to do with
the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-
inauthenticity-of-reference-of-thought! So with the psychopath, you don’t watch the logic,
you watch out for the apriorising–registry for mental-perversion or the psychopath’s

that this unsoundness-or-inauthenticity-of-reference-of-thought do protract and an ignorant

The insight here is that without having at hand a ‘Différance-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’, of-meaningfulness’ technique which is able to disambiguate the underlying existential reality of the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with regards to the various interlocutors, whether unsoundness-or-inauthenticity-of-reference-of-thought and preconverging-or-dementing–apriorising-psychologism as slanted/psychopathic/postlogic interlocutor as well as the various (conjugated-postlogism) temporal-dispositions as derived-slanted ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation interlocutors or soundness-or-authenticity-of-reference-of-thought and ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ intemporal-disposition interlocutor, the natural human reflex when a contestation arises is to be supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism as existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at (without putting into question in the very first place the veridical state of the various interlocutors registry/registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology with respect to contestation, and by foregoing this it wrongly attributes the implied essence-of-meaningfulness without the insight of existential-contextualisation by simply and wrongly implying that everybody must be of intemporal-disposition and voiding the notion of disambiguating-and-establishing the existential-contextualisation of the various-characters-states-of-minds/the-various-characters-registries with respect to ontological/intemporal meaningfulness in establishing veridicality in the very first place (whether of temporal-dispositions (conjugated-postlogism), intemporal-dispositions or postlogism compulsive-

- As previously explained, it is important to grasp that temporal-to-intemporal individuations dispositions are within the receptacles that are individuals, and hence there is no contradiction in saying that all individuals potentially have both the intemporal-disposition and temporal-dispositions, with the major existential/contextual difference among individuals with regards to the existential/contextual inclination to preserve-intemporality or fail-intemporality/temporality as social-stake-contention-or-confliction arise varying with regards to the implications of graver and graver temporal consequences (wherein as an archetype elucidation for instance, Socrates or Galileo will strive to keep on preserving intemporality/longness even when the conventional social-stake-contention-or-confliction threaten as they view the perpetuation of the ideas and principles they stood for were more critical for human posterity, but again ‘a sense of intemporality’ may vary from an intellectual nature where for instance an ordinary person may spontaneously save from drowning or defend another or others at risk to themselves, etc., implying that individuals ‘solipsistic or secondnatured philosophies’ with respect to the acuteness of social-stake-contention-or-confliction is more critical in determining their dispositions to preserve-
intemporality or fail-intemporality/temporality); thus explaining a same notional and contiguous conceptualisation (rather as a variation of degree and not different notions) construed as temporal-to-intemporal-dispositions as shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology, and equally explaining why institutionalisation/intemporalisation is possible, as the framework/social-construct wherein social-stake-contention-or-confliction arise can be construed/designed to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) towards and encourage the intemporal-disposition to preserve-intemporality over failing-intemporality/temporal-dispositions of postlogism-slantedness (postlogism-as-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>—instigation-at-a-given-registry-worldview/dimension, that is instigative to the turning of the prospective ‘temporal defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance into registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect>), and its subsequent conjugation with ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Critically, this accounts for how individuals arrive at their various teleologies/finalities of the intemtemporal-disposition as ‘logically sound acts’ or temporal-dispositions as ‘logically unsound acts’ or defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (in the latter case, which are more or less

veridical-meaningfulness-and-teleology’) and percolation-channelling from human intemporal-disposition solipsism-of-thought (hence abjectly ontologising and rather acting-

It is important to grasp that going by human-subpotency–aporia/undecidability/dilemma/ought–indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, the ontological-contiguity—of-the-human-institutionalisation-process where this is skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) by deferential-formalisation-transference towards the intemporal (intemporalisation) is actually an artifice (artificial conceptualisation) that is habituated for its relative positive-opportunism with regards to the cross-section of human interest in the middle to long run construed as de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). However, no institutionalisation construct, going by its implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity alienating ‘present as prior/transcended/superseded ontological-reference conceptualisation’ for ‘future as prospective/transcending/superseding ontological-reference conceptualisation’, has ever been acquiesced to socially without resistance even in instance induced by diffusion involving the power dominance of one cultural entity over another, with such resistance being at least in the short-term of a covert nature and of a <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag nature as well. Resistance is even stronger where transcendental institutionalisation is implied within a same cultural entity. Thus it might just be the case that the more or less itinerating clanic or tribal groups of early humans were the perfect model for a sort of complementary diffusion of
transcendentalism that quickly enabled a hominid to achieve the core assets for its perpetuation of civilisation as complex meaningfulness enabled by language and culture. Insightfully as well the possibility of positivism/rational-realism arising in Western Europe was greater by this same mechanism of complementary diffusion of transcendentalism given the mutually feeding diffusionary dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and this author thinks that applies to us as of the positivism–procrypticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction on the basis of common/same/shared registry-worldview reference-of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, however, at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor, and so at the threshold between recurrent-utter-
uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, 
non-positivism/medievalism and positivism, and prospectively procrypticism and 
deprocrypticism. The implication is that naturally all prospective institutionalisations by their 
implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are 
‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that 
their intemporal valor is inestimable (at least when we are looking retrospectively in 
appreciating that a positivistic outlook should supersede a non-positivism/medievalism 
outlook, and in the case where we are not uninhibited/decomplexified to equally construe that 
prospectively as a deprocrypticism outlook should supersede a procrypticism outlook). This 
insight equally highlights that institutionalisation/intemporalisation is implied with regards to 
human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor, how temporal ‘resistance’ is superseded, the 
mechanism of percolation-channelling and how transcendental ideas are taken up over time 
and induce untenability/internal-contradiction/internal-incoherence/institutional-constraining 
and positive-opportunism in the short run and secondnaturin in the middle to long run 
construed as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-
mentation—stranding-or-attributive-dialectics). The fact is that while the social-construct is
by and large a conceptualisation that determines individuals possibilities, the reality is equally that the social-construct does has ‘powerful channels’ that enable individuals to drastically redefined what is the social. The individual, it is often ignored, is an abstract-atomic-social-construct, as in the individual is priorly implied in the social, beyond just in terms–as-of-axiomatic-construct of social aggregation in implying a meaningfulness and value-reference construct relationship to the abstract summative social. Such insight on the nature of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity will certainly highlight why the Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect contributing in transforming medieval European societies mindsets into a positive worldview by cynically putting together all the positive knowledge they could muster and disseminating it throughout Europe, and so over the forces of obscurity of the days who understood the implications of such a venture. The fact here as well as with all issues of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (by the prior relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, as-it-is-thus–‘in-wait’-for-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–or-temporal-preservation-as-pseudointemporality-preservation, say of a medieval mindset/reference-of-thought with respect to a prospective positivistic mindset, as implied by ontological-normalcy), is that there was obviously no mutually common/same reference-of-thought between the Encyclopédists as positivists and many in the medieval establishment as non-positivists for any mutually intelligible logical exercise. apriorising/axiomatising/referencing wherein the ontological-primemovers-totalitative-framework of positivistic meaningfulness over non-positivism/medievalism ontologically imposed the positivistic reference-of-thought, as the former elicits untenability/internal-contradiction/internal-incoherence/institutional-constraining in the latter as well as its relative positive-opportunism from its relative ontological effectiveeness such that it ends up being secondnatures further by percolation-channelling. Insightfully, in an intellectual conceptualisation exercise which, though conceptually contiguous, and while not necessarily implying similar dramatisation, in addition to its relatively diffuse implications in the sense of the contention being rather about human-mentation-capacity-furtherance and the fact that as a latter institutionalisation it is apparently less dramatic, at least as of its apparent negative social consequence given it is so focussed on human individuations as atomic-level point-of-departure of transformation but rather finding its radicalness more in the boldly implied décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence) emancipation of the positive/procryptic human, and as with all other institutionalisations, it is thus not an issue that deprocrypticism meets in the short-term and temporary with ‘resistance’ or rather criticism (possibly by and large more in terms–as-of-axiomatic-construct of intellectual agreement/disagreement, as obviously every notion seriously contemplated about is); such that focus should be relatively more about construing veracity/ontological-pertinence and percolation-channelling thereof, as an objectively engaged intellectual/emancipatory exercise.

aestheticised–preconverging/dementing–qualia-schema> speaking of epistemic-decadence (postlogism). Insightfully again, going by the first example, it might (wrongly) be argued, by human ‘temporal extricatory de-mentating/structuring/paradigming’, that notions-and-accusations-of-sorcery in a non-positivism/medievalism setup should imply that any such accused should equally ‘make-up’ accusations in their own defence to neutralise and possibly defend their own interests. But such a stance is a temporal extricatory de-mentating/structuring/paradigming that faces human temporality/shortness with human temporality. Intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming will garner the insight that humanity-at-large at all such non-positivism/medievalism setups is rather in need (as the resolution) of a renewed institutionalisation prospectively as the positivistic registry-worldview based on rational-empiricism as the de-mentating/structuring/paradigming for superseding the vices-and-impediments that the enculturation/endemisation of the notions-and-accusations-of-sorcery speak of inherently, together with the social-structural implications and derivations arising, with regards to the non-positivism/medievalism registry-worldview. The vocation of the intemporal-disposition (intemporality/ontological-construct/longness-of-register-of-meaningfulness-and-teleology) is not-to-come-to-and-construe meaningfulness-and-teleology at a same pedestal as a temporal-dispositions extricatory de-mentating/structuring/paradigming, and this invariably means that its on-occasion/incidental insight about temporal-dispositions defects (temporality) is ‘necessarily escalated ontologically at a humanity-at-large scale of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’. This construal is what enables ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) or ontological-normalcy/postconvergence, and its

Thus if strictly speaking a postlogism phenomenon (perverted-outcome-sought-precedes-existentially-veridical-logicial-dueness) like a psychopathic disposition is not the causation of a reference-of-thought perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, then what is its relevance and pertinence? worldview-perversion is established together with the untenability/internal-contradiction/internal-incoherence/institutional-constraining of that perversion, thus facilitating the referencing/registering/decisioning or stranding of the implied dialecticism in the social-psyche/collective-consciousness of what is effectively ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and what is preconverging-or-dementing–apriorising-psychologism, with the latter being alienated in the operation of meaningfulness as the new institutionalisation is established. dementativity as the most important thing/purposefulness of humanity-at-large. But then, our human intemporal-disposition responsible for the institutionalisation/intemoralisation process is equally inclined to focus-the-mind-more-thoroughly when dealing with phenomena that undermine ontological-veridicality and so specifically with the undermining of soundness of reference-of-thought, and so across the various institutional-
cumulation/institutional-recompose-<as-to-historiality/ontological-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena as postlogic effect including psychopathic may actually have been a boost for more rapid human registry-worldview’s/dimension’s institutionalisation/intemporalisation as our intemporal-disposition going by its own intemporal preservational individuation disposition (in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is rather prone to apprehend and deal with perversion-of-reference-of-thought<-as-effectively-apriorising-int-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> issue at the humanity-at-large scale for the need of human registry-worldview’s/dimension’s institutionalisation as secondnaturing given that with human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) it is naïve to operate on the basis of a ‘human transformation on the wrong dependence of our intemporal-disposition as firstnatureness’, thus the reason why we institutionalise as secondnaturing taking cognisance of the reality of our temporal-to-intemporal individuations dispositions. Just as implied elsewhere in this paper, the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) (from shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology) of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the trascendental construct of human virtue, and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recomposure/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as well. Seemingly, such a temporal approach will more or less be more effective in preempting
the ‘incidental resolution of temporal-preservation-as-pseudointemporality-preservation’ (with respect to themselves in their specific locale) associated with the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) rather as an extricatory/temporal de-mentating/structuring/paradigming in serving their purpose of a temporal mortal. In so doing incidentally it doesn’t actually preempt but fails the ‘universal resolution of temporal-preservation-as-pseudointemporality-preservation’ (at humanity-at-large scale) as it advances an argument that still enculturates/endemises the upkeep of notions of superstition and sorcery. This approach of temporal-dispositions of dealing with temporality/shortness with respect to perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>s in all the registry-worldviews (institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>) is what endemises/enculturates the dialectically-out-of-phase or dialectically-primitive. A truly intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming warrants a transcendental posture of universal-projection/aetiologisation/ontological-escalation that overlooks resolving temporality/shortness with temporality/shortness and seeks to grasp the universal implications of all such temporal-preservation-as-pseudointemporality-preservation inclinations of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> at the humanity-at-large level of all locales and situations, and only then in transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing that all such incidentals of perversion-of-reference-of-thought-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation are construed and resolved by deferential-formalisation-transference of the intemporal-disposition approach as institutionalisation/intemperalisation. It is only such an intemporal approach that suprastructurally (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-of-temporal-dispositions) allows for the requisite base-institutionalising of recurrent-utter-uninstitutionalisation, universalisation of ununiversalisation, positivising/rational-empiricism of non-positivism/medievalism, and prospectively deprocrypticising/preempting—disjointedness-as-of-reference-of-thought of procrypticism/disjointedness-as-of-reference-of-thought. The fact has always been that throughout the various institutionalisations this human intemporal-disposition individuation disposition has always been an indispensable re-originary—unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/’epistemic-projection-in-conflatedness’-of-notional—deprocrypticism-prospective-sublimation) (as longness-of-register-of-meaningfulness-and-teleology) with respect to human social-stake-contention-or-confliction-and-confliction and the reason for its conceptualisations to be construed as institutionalisation-as-virtue even though going by temporal-dispositions inclinations, ‘such abstract projection basically would hardly make sense’. The fact is that this intemperal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and more precisely psychopathy and social psychopathy in the
social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic maximalising-recomposuring-for-relative-ontological-completeness disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’ going by its customary perception), since it doesn’t accommodate temporal/incremental/‘disjointedness-as-of-reference-of-thought’ ways of thinking and instead strives for a universal implications depth-of-thought. Basically, on the same token the maximalising-recomposuring-for-relative-ontological-completeness of formal constructs is all about construing human transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposuring-for-relative-ontological-completeness construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness the possibility of human health. The reason for this deferential-formalisation-transference disposition is simple, as formal constructs ‘reason’ on the basis of intemporality/abject-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation—preconverging/dementing-apriorising-psychologism’ of ordinary
day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly
universalising, poorly insightful, and with elevated subjectivity (not only with regards to facts
but with the purported reference-of-thought as well as the apriorising-reference-of-thought-
elements/apriorising-registry-elements which are implied—logical-dueness-or-scape/profile-
or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), and so
beforehand/as-of-a-priori even without the instigating effect of any perversion-of-reference-
of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation> like postlogism/psychopathy; such that such
temporal/incremental/’disjointedness-as-of-reference-of-thought’ reasoning is best left for
inconsequential and trite matters of day to day living, as validated by the processes and
procedures of our formal institutions however approximate in their success given the
pervasiveness of the extended-informality-{susceptible-to-effecting-parsimony-as-of-
shoddiness-and-incompleteness-to-meaningfulness-and-teleology} even in formal setups,
with its susceptibility to undermine or overlook ‘formal effectiveness’ (which can sometimes
be naively construed as weakness of formalism rather than insufficiently effective formalism
or extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to-meaningfulness-and-teleology} disruption of formal effectiveness).
Abstractly maximalising-recomposuring-for-relative-ontological-completeness
meaningfulness carries an intemporal/longness-of-register-of-meaningfulness-and-teleology
and universal coherence that incremental meaningfulness doesn’t, and thus maximalising-
recomposuring-for-relative-ontological-completeness is actually the drive for transcendence-
and-sublimity/sublimation/supererogatory—an-mente-vativity in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process successive institutional-cumulation/institutional-recomposure-
with human ontological development from ‘shallow limited-mentation-capacity-{as of relative constitutedness} to deeper limited-mentation-capacity-{as of relative conflation} reconstrual/reconceptualisation’ and hence it is ontologically-contiguous as a virtue construct that is self-sustaining. Maximalising-recomposuring-for-relative-ontological-completeness as such is the mental-disposition to uphold ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologicallysame-existent-reality’ (from the perspective of the ‘postconverging-or-dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought’) as ‘shallow limited-mentation-capacity-{as of relative constitutedness} to deeper limited-mentation-capacity-{as of relative conflation}’/relative-ontologicalcompleteness/diminishing–human-epistemic-abnormalcy/diminishing–preconvergence avails for the development of reference-of-thought in construing intrinsic-reality/ontology, by its very intemporal/longness-of-register-of-meaningfulness-and-teleology principle-driven nature; hence it thus regenerates new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to match developing ‘shallow limited-mentation-capacity-{as of relative constitutedness} to deeper limited-mentation-capacity-{as of relative conflation}’/relative-ontological-completeness/diminishing–human-epistemicabnormalcy/diminishing–preconvergence. Whereas incrementalism-in-relative-ontological-incompleteness tends to operate as if at any one instance human meaningfulness is absolutely set (and so rather as a mere form) and thus incrementalism-in-relative-ontological-
incompleteness is non-transcendental, and so with reference to the underlying intemporality/longness (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) that ontological development from ‘shallow limited-mentation-capacity—(as of relative constitutedness) to deeper limited-mentation-capacity—(as of relative conflation)’/relative-ontological-completeness/diminishing—human-epistemic-abnormalcy/diminishing—preconvergence elicits, and in lieu it is rather of a temporality/shortness reflex mental-disposition such that correspondingly developed reference-of-thought—categorical-imperatives/axioms/registry—teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is related to in virtuality—or—ontologically-flawed—construal (being-construal—as—abstract—construal—as—of—flawed—and—shallow—and—non—veridical—existential-reference) terms, whether unconsciously (ignorance), expediently (affordability) or consciously. Thus as mental-disposition, incrementalism—in—relative-ontological-incompleteness across all registry-worldviews involves teleological—decadence—<—in—dimensionality—of—desublimating—lack—of—

ontological-incompleteness relation to meaningfulness as ‘a comprehensive additionality exercise’ thus fails to account for human temporality/temporal-dispositions as ‘not transformed’ and will tend at uninstitutionalised-threshold towards the perversion/derived-perversion of the institutionalisation reference-of-thought or reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (whether unconsciously, expeditently or consciously), involving flawed-existential-elevation-of-reference-of-thought. This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology grasp of the same intrinsic-reality-as-ontological-veridicality in construing meaningfulness-and-teleology/teleological-differentiation involving rather a ‘continuous maximalising-recomposuring-for-relative-ontological-completeness exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity-(as of relative conflation) arising from the overall and specific accumulated human experiential possibilities of being on earth. Thus human progress as maximalising-recomposuring-for-relative-ontological-completeness is a change of human <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology} enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and it not about being incremental/additional but is rather a ‘maximalising-recomposuring-for-relative-ontological-completeness emerging-through (by maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-

Insightfully with respect to the notion of maximalising-recomposuring-for-relative-ontological-completeness, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for example) in effectively construing optimal prevention of criminality in society as a de-mentative/structural/paradigmatic construct that more vitally shapes human action and its ‘effective enforcement’ is actually a minor portion of the de-mentative/structural/paradigmatic construct of law over lawlessness; as it carries an inherent intemporality/longness that is further summonable in improving the law with human ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) reconstrual/reconceptualisation’. Like all formal constructs it wouldn’t rely on incremental-dispositions or temporal-accommodation of <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) that may lead to temporal mobjish dispositions, the fundamental point being that that element of ‘abstraction-of-thought/principled-thought’ is decisive as with all knowledge constructs. Rather the limit of such intemporal thinking is not the <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-
prospective-apriorising-implications>) but operates and is based in effect on intemporal projection-of-thought in an intersolipsistic relation to intrinsic-reality/ontology/ontological-veridicality on the validity of the intercession of ontological-primemovers-totalitative-framework implied predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) and by extension the intercession of formal/conventioning rules as institutionalisation arising in validation of the former, and their corresponding percolation-channelling in deferential-formalisation-transference. The notion of intersolipsism is actually the notional validation of the solipsistic argument as it frames the question in the right manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism question, which by so doing naively and wrongly implies that ‘individuals precede and/or are in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than the idea of becoming solipsistically in existence which subsumes their individuality and projecting of the same about others in an intersolipsistic recognition arising from individuals’ own solipsistic insights of predication-and-projection as so-reflected as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, since it priorly implies existential emanance-or-becoming validated by ontological-primemovers-totalitative-framework about a superseding–oneness-of-ontology as the intercessory basis for mutual-solipsism/intersolipsism. This author equally conceptualise of a difference between solipsism and subjectivity in that solipsism is rather purely ontological as it implies notionally the individual’s perspective in existential becoming as of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-
in-supererogatory-epistemic-conflatedness (however effective-as-solipsistically-intemporal or ineffective-as-solipsistically-temporal such perspectival performance), whereas subjectivity refers to our animate-existential-referencing-as-subjectification which is not necessarily oriented to the ontological appropriateness/veridicality of that reference but rather is a notional construal of the reality of ‘human condition of perceived ontological appropriateness/veridicality’ irrespective of whether it can be said of such perception as being objectively right or wrong going by inherent ontological-veridicality. So solipsism speaks of the human projection in notionally construing ontological veridicality/appropriateness notwithstanding the perspectival effectiveness or ineffectiveness of such a construal as of solipsistic-temporality to solipsistic-intemporality and as such solipsism as of solipsistic-intemporality is the drive behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Whereas subjectivity speaks notionally of a human condition orientation with respect to perceived ontological veridicality/appropriateness no matter whether right or wrong. This possibility of distinguishing an inherently ontological foundation of existential meaning different from an ontological as human epistemic-conception reflexivity of perceived existential meaning is central to a deprocrypticism mindset in enabling the most elaborate transcendentally-enabling-level—of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism construal since necessarily intrinsic-reality/ontological-veridicality is inherently tautologuous, and ‘human capacity to grasp the possibilities of referential relations to inherent existential tautology as of human animate-existential-referencing/subjectification’ in conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of notional knowledge. Supposed for instance a child comes to learn the rules of
addition for all types of number additions such that the child understands the addition principle, but then there is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate 2+2 as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into existence alone in an intersolipsistic relationship with others interceded with ontological-primemovers-totalitative-framework inducing projective-insights and predicative-insights) will become a self-made revolutionary and question the teacher indicating the correct answer to 2+2 as being 4; depending equally on its notional sense of intemporal-projection/longness-of-register-of-meaningfulness-and-teleology relative to temporality/shortness-of-register-of-meaningfulness-and-teleology as to the child’s underlying ‘conception of the ontological-good-faith/authenticity—de-
mantating/structuring/paradigming—<seeding/incipient—profound-supererogation,—as-
mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema>’, further explaining in the bigger picture why maximalising-recomposuring-for-relative-ontological-
completeness pursuits, apparently unnecessary from a temporal interest point of view, are intemporal-solipsistically undertaken. Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of the ordinary as with respect to its construal of all other meaning including other additions, the child’s knowledge and learning has always been about confirming any such meaning by its notional sense-of-solipsism as of superseding—oneness-of-ontology; but this particular solution for the addition rather becomes outlying for the child because despite the ‘social affirming’ of 2+2 as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of superseding—oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic confirmation as 2+2=4! Thus this points out that our interrelationship to meaningfulness is most authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in each of us to access intrinsic
meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-construct/intersolipsistic-intercessory-notion/notional~referential-notion/articulation (enabled obviously by language as well as any human meaning relaying medium like signs, whether active or passive or implied or direct)’. By extension, our consciousness-awareness-teleology as of a solipsistic epistemic/notional–construct is equally the result of our animate-existential-referencing/subjectification as of our existential underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns-and-accrues projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’, and existentially so as of our ‘social framework of intersolipsistic deambulation’. So there is no medium for intersolipsism but for the fact of
existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-confiliatedness accruing to each individual, implying our limited-mentation-capacity enables us at any given phase of our existence to mutually be able to ‘solipsistically reference a common sense of inherent existential-reality’, and so increasingly as of our common species, common registry-worldviews, common communities, common institutions and common personhoods and socialhood; and so, however ontologically-veridical our meaningfulness-and-teleology within institutionalised-threshold or as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at uninstitutionalised-threshold. This will equally explain why in the rare cases reported in the media of infants abandoned and adopted by animals like dogs and monkeys, such infants often tend to adopt behaviours of the animals as of ‘mutual solipsism or intersolipsism of reference to underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-prime movers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), as the capacity for the infant to act and behave like a human effectively requires its personality development in a mutual solipsism or intersolipsism of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’
(so-enabled by underlying supposedly coherent ontological-commitment as of ontological-prinemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) with other humans from whence the existential specificity/instantiation basis as of the family, neighbourhood, local institutions, sociocultural context and increasingly in a globalised world social trends of all sorts whether fashion, cultural, educational, intellectual, political, environmental, social media, etc. are now critical determinants of its subjective and intersubjective meaningfulness-and-teleology. Supposed again in a non-positivism social-setup a case of accusation-of-sorcery was to be brought up, wherein as of the relative-ontological-incompleteness-of-reference-of-thought implied beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ of the registry-worldview/dimension, it is a generalised certainty that sorcery and sorcerers/sorceresses do exist (as of the non-positivism social-setup own threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at their non-positivism uninstitutionalised-threshold). This conception speaks of that registry-worldview/dimension subjectivity and intersubjectivity as of ‘a <amplituding/formative>wooden-language-(imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩) human condition of construal of intrinsic-reality/ontological-veridicality as knowledge’ which is the ‘indubitable reality’ as far as they are concerned. Such a subjectivity and intersubjectivity conceptualisation/construal can be implied as well as of ‘<amplituding/formative>wooden-language-(imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-
human condition of construal of intrinsic-reality/ontological-veridicality supposedly as knowledge’ across all the successive registry-worldviews/dimensions (including the subjectivity and intersubjectivity in our positivism–procrypticism) with respect to their respectively relative-ontological-incompleteness-of-reference-of-thought implied uninstitutionalised-threshold. However, without a solipsistic notion of construal of intrinsic-reality/ontological-veridicality as of inherent intrinsic-reality/ontological-veridicality, and so beyond subjectivity and intersubjectivity, arising as of purely ‘solipsistic-and-intersolipsistic insights in referencing underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-prime movers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) as a potential capacity in all individuals, then the construal of intrinsic-reality/ontological-veridicality will tend to actually be defined whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as implied by subjectivity and intersubjectivity as a ‘construct of human condition of construal of intrinsic-reality/ontological-veridicality as supposedly knowledge’, with the consequence that humankind construal of intrinsic-reality/ontological-veridicality is naively-and-wrongly interpreted as superseding ‘inherent intrinsic-reality/ontological-veridicality’ at registry-worldviews/dimensions uninstitutionalised-threshold (which is obviously fallacious, as it is ‘the possibility of humankind being subjected to the meaningfulness-and-teleological implications of further solipsistic-and-intersolipsistic elucidations in referencing underlying

psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring enabling human 
emancipation and progress, and not the other way round). The further implication is that by a 
retrospective and prospective analysis the possibility of human transcendence-and-

be jeopardised since the ‘putting-into-question’ as a solipsistic exercise with the possibility of 
getting at the very core of what is ‘further divulge-able’ by intrinsic-reality/ontological-
veridicality, is largely compromised by a subjectivity and intersubjectivity
mental-disposition. This distinction between subjectivity and intersubjectivity as referencing human condition of construal of intrinsic-reality/ontological-veridicality from solipsism and intersolipsism as referencing human effective/ineffective construal of intrinsic-reality/ontological-veridicality, is actually important because (while less critical to elucidate this in the natural sciences given the immediacy of constraint from intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity hence implicated), the implications for its comprehensive and conscious understanding in the social world (for conceptualising knowledge while superseding human temporality/shortness as ignorances, so-construed as ‘knowledge-notionalisation’) is decisive as it requires both an understanding of ‘the human condition in its construal/relation to intrinsic-reality/ontological-veridicality’ and ‘understanding of inherent intrinsic-reality/ontological-veridicality’; and so, as a prerequisite for the organic-knowledge necessary for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview institutionalisation. For instance, the concepts of constitutedness, first-level presencing—absolutising-identitive-constitutedness, second-level presencing—absolutising-identitive-constitutedness, third-level presencing—absolutising-identitive-constitutedness and conflatedness of temporal-to-intemporal individuations as of reference-of-thought—prelogism-as-of-conviction-as-to-profound-supererogation to threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism so-articulated previously as of ‘notional~conflatedness/constitutedness-to-conflatedness perspectivation of
ontologically-veridical dynamic-cumulative-aftereffect/aftereffect’ in enabling a storied-construct/ontologically-valid-narration aetiologyisation/ontological-escalation insight, can only be properly construed as of such a disambiguation in conceptualising not only inherent intrinsic-reality/ontological-veridicality but equally the human temporal-to-intemporal conditions/states of perception/relation with intrinsic-reality/ontological-veridicality. This is fundamentally so because ‘inherent existential-reality/intrinsic-reality/ontological-veridicality is already what it is as given whether humankind knows about it or not’ but rather the point of human knowledge is an emancipatory exercise involving the need to decenter/pivot and supersede our animate-existential-referencing/subjectification as of the syncretising/circularity/interiorising/akrasiotic-drag human condition to derive knowledge-and-virtue, and so as human-subpotency/‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency,-disclosed-from-prospective-epistemic-digression-as-onof-<amplituding/formative>epistemic-totalising-self-referencing-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-in-superratedy-epistemic-conflatedness). Solipsism as such is truly the foundational notion of all phenomenological conceptualisations and derivation of value and meaningfulness as intersolipsistic teleological constructs from a transversal-and/or-common perceived existential-reference/existential-tautologisation and derived-representations of existential-reference/existential-tautologisation. It is what allows for the possibility of human construal of intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/superratedy-de-mentativity to supersede social-aggregation-enabling as a knowledge and virtue construct. The implication being that there is a contiguity in solipsistic insight as simplistically elucidative in the relatively more simpler experimental framework of natural phenomenon studied by the natural sciences (which practice is
categorisation-driven, more like elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity but then with a high risk of inducing virtualities thus explaining
the continually reshaping/re-categorisation/re-optimising of experimental content when the
virtualities come to be seen as unreal or deficient or suboptimal, and so more critically with
the practitioner’s experience tend to be driven heuristically actually as of presencing—
absolutising-identitive-constitutedness or conflatedness) but such solipsistic insight extends
to the more convoluted social phenomenon studied by the social sciences, as well as the
phenomenal convolute equally inherent in scientific domains like quantum-mechanics, as
herein contemplated should ideally be understood as of referentialism implied ontological-
normalcy/postconvergence epistemic-projection perspective, more like maximalising-
recomposuring-for-relative-ontological-completeness from the most profound of
conceptualisation which is intemporality/longness or intemporal-preservation-entropy-or-
contiguity—or—ontological-preservation, as of inherent superseding—oneness-of-ontology, and
so on the basis of the absolute a priori, ‘existential-contextualising-contiguity’s-

construal’, in the staggered elucidation of less and less profound but critical
conceptualisations as undertaken in this hermeneutic design. Furthermore, solipsism will
equally explain why human meaningfulness-and-teleology is developed rather by
maximalising-recomposuring-for-relative-ontological-completeness of the same superseding–
oneness-of-ontology as of our limited-mentation-capacity-deepening-
(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation) (whereby successive generations take a
shot at the superseding–oneness-of-ontology that is existence like Ancient Civilisations like
Greece establishing that matter is made up of water, fire, air, earth and ether critically
establishing the psyche of matter as composed of basic elements and successive
recomposurings right up to our modern day quantum-mechanics recomposuring as of
historiality/ontological-eventfulness/ontological-aesthetic-tracing), rather than it erroneously
being construed as an incremental exercise; as it is only incremental in the literal sense but in
the ‘operant sense’ it is an exercise of maximalising-recomposuring-for-relative-ontological-
completeness as of transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing overall reconstruing/reconceptualising rather than just
incrementing. This insight is important for critical thought and analysis as oftentimes it is
naively assumed that prospective knowledge is to be simply obtained by ‘additioning’ or
‘cumulating’ to prior works rather than the more pertinent insight of
(<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought
as of a same superseding–oneness-of-ontology that is existence. On the same token, this
tautological insight about the precedingness of existence can be extended to the notion of
nothingness with nothingness rather existing in existence as there is no nothingness or for that
matter anything out of existence which is ‘conceptually’ emanation-as-to-the-all-defining-
ontological-primemovers-totalitative-framework-intercession, with nothingness rather the
‘conceptual devising of the metaphysics-of-absence of existence’ with existence conceptually
construed in metaphysics-of-presence; but then with existence being its very own
metaphysics-of-presence, the mutual equivalence of both metaphysics-of-presence and
just as the many conceptualisation herein like the registry-worldviews/dimensions and ontological-contiguity—of-the-human-institutionalisation-process are actually speaking of human rescheduling of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in grasping a superseding—oneness-of-ontology/intrinsic-reality that has been so all the time; and so critically talk of transcending from shallow to deeper superseding—oneness-of-ontology is no more than about human <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as ‘subpotent-mimetic-echoness-derivation—within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-confatedness already given as ontological-normalcy/postconvergence oneness) along the same lines with the notion of dementation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributeive-dialectics) in compensation of human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) as ‘shallow limited-mentation-capacity—(as of relative constitutedness) to deeper limited-mentation-capacity—(as of relative conflation) reconstrual/reconceptualisation’. That is, such ‘conceptual devices’ are reformulations arising from ‘grander/transcendental insights’ about the same question but implying a radical transformation of ontological/meaningful conceptualisation of the human mind and human teleology. The idea is that ‘intrinsic-reality/ontology is not changed’ but rather it is ‘human <amplituding/formative>epistemic-totalising~renewing-realisation/re-
perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-
of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-
prospective-meaningfulness-and-teleology) that is changed’. Technically, the implication is
that existence/being cannot be thought outside of human thought/limited-mentation-capacity);
as a conclusion driven by the insight that human thought/limited-mentation-capacity in
construing existence/being implies human meaningfulness-and-teleology is necessarily of
ontological-primemovers-totalitative-framework or contingent. However the disavowal rather
than renewal/deconstruction/ontological-reconstituting–as-of-confoundedness of human
thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of
meaningfulness-and-teleology’ as the alternate logical outcome, but then with this latter
construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the
drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation
is a human growth activity and not an absolutely achieved activity’, besides abandoning the
notion of human existentialism/thrownness/facticity behind human strife itself thus
contradictorily undermining again the assumption of such an alternate logical outcome as
itself a ‘contemplated strife’ construed as arising only by the implication of such
existentialism/thrownness/facticity, and further failing to factor in that deepening human
thought/limited-mentation-capacity increasingly narrows the framework of human existential
contingency/ontological-primemovers-totalitative-framework ‘enabling human existential
development as less and less a question of fate’ on the basis of ‘intemporal ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated

<amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-
explicating-ontological-contiguity’. Thus the bigger issue is not existence/being in itself as it is given, whatever it is that is given. Rather the bigger issue of concern is our human thought/limited-mentation-capacity in apprehending existence/being as of our ontological-primemovers-totalitative-framework/contingent reconstruals/reconceptualisations of existence/being as of human deepening thought/limited-mentation-capacity so enabled by our capacity for de-mentation-(supererogatory-ontological-de-mentation-or-dialectical- de-mentation—stranding-or-attributive-dialectics) behind the successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> narrowing the framework of human existential contingency, with the further possibility of prospective <amplituding/formative>epistem-totalising-renewing-realisation/re-perception/re-thought as deprocrypticism as of ontological-normalcy/postconvergence. Such maximalist intemporal projection reasoning doesn’t entertain banal ordinary logic (that is all too readily incremental, ‘disjointedness-as-of-reference-of-thought’ and temporally-preservational-as-pseudointemporality-preservation) of the sort: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. The intemporal reasoning maximalist approach (non-incremental, non-‘disjointedness-as-of-reference-of-thought’ and striving for the ontologically-abject) that permeates many a formalised construct does not entertain meaningfulness within the sphere of temporal-and-social-trading and is rather transcendental inherently, as it simply supersedes and skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) meaningfulness-and-teleology towards the universal/intemporal as of implication. In other words, maximalising-recomposing-for-relative-ontological-
completeness is construed as of the apparently least possibly perceived constraining context in order to truly affirm the universalism of rules or any ontological-constructs; as the test of incrimination with respect to the above apparently least possibly perceived constraining specific crimes contexts is effectively what validates the universalism for all other contexts of such specific crimes. Maximalising-recomposuring-for-relative-ontological-completeness, across all institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, is effectively the projective mechanism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that reinvents new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as a metaphysics-of-absence conceptualisation in further human limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation} and opening up new institutionalisation possibilities behind the successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of an animal of temporal-to-intemporal-dispositions in need for skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal to induce a registry-worldview’s/dimension’s institutionalisation-as-virtue that very much elevate it beyond its temporality/shortness which left to its own device will strive for incrementalism-in-relative-ontological-incompleteness temporal-accommodation/extrication. Even when it comes to the social integration of maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming, it is often the case that such meaningfulness-and-teleology is bound to the denaturing in many ways as of human ordinariness wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} temporal extricatory de-mentating/structuring/paradigming concatenation to it, if the requisite percolation-channelling institutionalisation and formalisation constructs are not priorly attended to. Even such that notions like exceptional, genius, prophesying, etc. associated with
maximalising-recomposing-for-relative-ontological-completeness mental-dispositions, as recognised by the Niezschean imagination are more often than not construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as ‘derogation to the fact that such maximalising-recomposing-for-relative-ontological-completeness de-mentating/structuring/paradigming can hypothetically be incumbent of all humans as to their choice of intellectual-and-moral orientation and their specific focus’, and thus paradoxically implying as of the blurriness of the social domain that such so-called exceptional, genius, prophesying, etc. are ‘abnormal’ with the paradox that their implied ontological-veridicality is ‘abnormal’, thus by that same token falsely upholding the ontological-pertinence of ordinariness <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩⟩ as a non-decenterable <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩⟩! Actually the paradox is that, no transcendentally implied construct is effectively a ‘grounded knowledge-construct commitment’ inherently as it inevitably and fundamentally puts into question the underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework notion, which is the prior <amplituding/formative> epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology as of its (given consciousness’s neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. Such transcendental implications arise as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-

On the basis of such hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> circularity, one may perfectly argue that any of the institutionalisations are just as good so long as people are relatively satisfied but such an argument is never made of lower/prior institutionalisations with the implications that its elicitation within a registry-worldview as present is nothing more but an act of ‘ontological-bad-faith’, but then a maximalising-recomposuring-for-relative-ontological-completeness approach is one that doesn’t reason in temporal-accommodation but provides the opportunity for prospective institutional possibilities. Maximalising-recomposuring-for-relative-ontological-completeness was what was in the minds of the Copernicuses, Galileos, Rousseaus, Darwins and the enlightenment Encyclopédistes led by Denis Diderot in cynically vouching for the possibilities of the future of positivism over a non-positivism/medievalism worldview. Such that vague arguments of the type we’ve been living well without such ideas are nothing but avowals of temporal-dispositions poor grasp of how their present institutionalisation came about and future institutionalisation possibilities; since we can project that all humans in recurrent-utter-uninstitutionalisation were recurrent-utter-institutionalised, all humans in ununiversalisation were ununiversalised, all humans in medieval non-positivism were non-positivistic, and by extention (but for the complexes arising from our metaphysics-of-presence) all humans in our procrypticism/disjointedness-as-of-reference-of-thought are procryptic and it is no use turning around to our fellow mortals to do social-aggregation-enabling; with the more criticial issue being what is the ontological-

It is only the ontological-primemovers-totalitative-framework and positive-opportunism of the prospective/transcending/superseding reference-of-thought in the middle to long run construed as of de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) that will induce its untenability/internal-contradiction/internal-incoherence/institutional-constraining and the collapsing/overriding of the prior/transcended/superseded (as ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so going by their ‘relative ontological-effectivity’. This explains why a recurrent-utter-uninstitutionalised, an ununiversalised, a non-positivism/medievalism, or prospectively a procrypticism mindset, by <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, cannot correspondingly ‘dialectically-think’ in terms—as-of-axiomatic-construct of the reference-of-thought mindset/reference-of-thought of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, going by human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor with respect to

However, contrary to the ‘incrementalism-in-relative-ontological-incompleteness <amp|form>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}’) disposition, it is only solipsism-of-thought by its emphasis on intrinsicness (I come to reality alone solipsism) that has the requisite and socially-uncompromised backdrop for construing ontologically-veridical-meaningfulness, that is, ‘at such uninstitutionalised-threshold requiring prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity’, by the possibility for its adherence to ontological-normalcy/postconvergence, and hence the requisite transcendental limited-mentation-capacity-deepening-<amp|form>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) to put the prior/transcended/superseded into question (including and priorly, the transcendental emancipator own’s mentation) for the prospective/transcending/superseding reference-of-thought; and so, with the notion that the prior/transcended/superseded is preconverging-or-dementing—apriorising-psychologism as dialectically-out-of-phase/dialectically-primitive, with no place for its ‘<amp|form>epistemic-totalising—self-referencing-syncretising’ which is no more than its ‘internal myth/metaphysics’ that has nothing to do with ontological-veridicality/ontological-contiguity. As such, solipsism enables the requisite ‘moulting’ of
human limited-mentation-capacity-deepening-\langle amplituding/formative\rangle epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation) of temporal-to-intemporal-dispositions to allow for successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; and as a social conceptualisation operates as ‘a relation of intersolipsistic mindsets in transversal-ity-of-affirmative-and-unaffirmative,-disambiguated-apidorising/axiomatising/referencing led by the preceding/superseding intercession of intrinsic-reality/ontological-veridicality as validated by ontological-primemovers-totalitative-framework’. (Noting that beyond this point of solipsistic contemplation is the end of ontology, as of ontological-primemovers-totalitative-framework/contingent-projective-and-predicative-validation, and metaphysics arises though metaphysical constructs tend to harken back towards ontology in trying to explain the metaphysical-as-of-existental thus explaining the blurring that often arises between metaphysics and ontology as there is hardly any metaphysical construct that doesn’t strive to be existentially relevant as of the present, thus carrying ontological implications of conceptualisation whether it is demonstrably ontologically-veridical or not; and this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity—of-the-human-institutionalisation-process which is rather about ‘successions of metaphysics-of-absence insights as the successive transcendental-enabling/sublimating/supererogatory-de-mentativity rules in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process yielding in-lockstep the successively more ontologically profound metaphysics-of-presence construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the deprocrypticism registry-worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure-
ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions such that all supposed present ontologies are metaphysical constructs as of their non-elucidations. Hence even science itself despite its positive perspective is a metaphysical construct.) Hence, from a maximalising-recomposuring-for-relative-ontological-completeness insight, the <amplituding-formative>epistemic-totalising-self-referencing-syneretising/circularity/interiorising/akrasiatic-drag of ‘incrementalism-in-relative-ontological-incompleteness <amplituding-formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)’ disposition is rather the prior/transcended/superseded reference-of-thought to be construed as preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase/dialectically-primitive with respect to a prospective/transcending/superseding reference-of-thought that is ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ as dialectically-in-phase.

It is the dynamic-extension of this Différance-suprastructurally-disambiguated-mental-dispositions-meaningfulness-as-the-various-temporal-to-intemporal-dispositions in ‘dynamic-cumulative-aftereffect of subontologisation’ (as slantedness/postlogic-effect, miscuing, disjoined-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) at the-individuations level to registry-worldview level and the-transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness level that explains the ‘alterating iterability dynamism’ at these three levels; whether at the-individuations level involving the hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> alteration’ by temporal-dispositions as slanted-and-formulaic postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> of meaningfulness of the postlogic disposition or ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ of the slanted-and-formulaic perverted meaningfulness as the conjugated-postlogic disposition, meted with the ‘ontological-reconstituting–as-of-conflatedness/deconstruction compensating-alteration or realteration of meaningfulness’ of the intemporal-disposition), as the basis of the institutionalisation/intemporalisation processs at registry-worldview/dimension or intradimensional level, and ultimately explaining the-transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-

alterity/alteration-in circularity/recurrence/repetition/repeatability as shortness-of-register-of-meaningfulness-and-teleology, requiring the further realterity/realteration-of-such temporal-preservation-alterity/alteration-in circularity/recurrence/repetition/repeatability as ‘ontological-reconstituting—as-of-conflicatedness/deconstruction’ by intemporal-preservation-entropy-or-contiguity—or-ontological-preservation in iterability/iteration (for the preservation of ontologically-veridical-meaningfulness-and-appropriateness-of-reference-of-thought-as-of-conflicatedness). In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of subontologisation’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-mentationprocedure-deception/‘urge’/entitlement-folie of postlogism-slantedness effect) or progressive alterity/alterations which could be regular (like an exacerbation or opportunism interlocutors in conjugated-postlogism) or regressive
alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism). The notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation)’ and the intemporal-disposition compensation-iterativity/alteration by ‘ontological-reconstituting-as-of-conflatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-thresholds), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of an dimensionality-of-sublimating—<amplitudinal-formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluable-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation exercise but rather institutionalisation/intemporalisation or secondnaturing, which is about ‘skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/constraining towards’ the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to enable the given prospective institutionalisation. Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emancance’ but actually the result/effect of human limited-mentation-capacity-deepening—<amplitudinal-formative>epistemic-totalisingly—as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) coming-into-grips with intrinsic-reality as existence-emancance, and so in the succession of institutionalisations. The implication of this iterability (due to temporality-preservational-alterity/alterations in

Ultimately the philosophical pessimism of many a philosopher stems from this confusion about the achievement of human emancipation and virtue, in naively construing that such an achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-construct-of-meaningfulness for the upholding of the intemporal construct of ontologically-
veridical-meaningfulness’ as implied by the intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normaley/postconvergence. Strangely enough, this idea can be derived from the contrastive implications of metaphysics-of-presence (with its illusion-of-the-present/present-consciousness/mirage/epistemic-totalising~self-referencing-syncretising) and metaphysics-of-absence as postdication (suprastructuring transcendental-insight-projection-capacities). Ontologically speaking, the institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> in their evolving de-mentation-
(superoergatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) registry/registry-worldview/ontological-reference dialecticisms as at one moment ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ and at another preconverging-or-dementing—apriorising-psychologism are effectively a reflection of the reality of a dynamic dialectics of ‘metaphysics-of-presence’ and ‘metaphysics-of-absence’ retracing of ontologically-veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology retrospectively, presently and prospectively, going by a human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) institutionalisation/intemporalisation process. Such an insight points out that a non-positivism/medievalism ‘metaphysics-of-presence’ will ‘wrongly be contending’ on the basis of a non-positivism/medievalism reference-of-thought with regards to issues of sorcery and so and so, instead of the requisite ‘metaphysics-of-absence’ as a suprastructuring transcendental-insight-projection into positivistic (rational-empiricism) mindset/reference-of-thought that supersedes the ‘flaws-and-manipulations’ or vices-and-impediments involved in such a non-positivism/medievalism setting reference-of-thought; in need of deconstruction/(engaged)-destruktion/‘ontological-reconstituting—as-of-conflatedness’ into
prospective (to-resolve-the epistemic-abnormalcy/preconvergence); and not ‘metaphysics-of-presence’ conceptualisation which ‘wrong pretence of being in ontological-normalcy’ is actually stifling the prospective orientation by its illusion-of-the-present/present-consciousness/mirageas <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This posture is validated by the decreasing epistemic-abnormalcy/preconvergence nature of the successive institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> from retrospective to present to prospective, whereby there is decreasing epistemic-abnormalcy/preconvergence as the institutionalisation/intemporalisation process veers towards ontological-normalcy (from recurrent-utter-uninstitutionalisation to base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism). the positive-opportunism thereof’, and thus undermining human temporal-preservation-as-
pseudointemporality-preservation behind the uninstitutionalised-threshold and
institutionalisation/intemporalisation secondnaturing; and not as may wrongly be construed
as an emanance transformation exercise from temporal-dispositions as shortness-of-register-
of-meaningfulness-and-teleology to intemporal-disposition as longness-of-register-of-
meaningfulness. This latter point is to highlight that ontological focus should rather be placed
on the ‘abstract conceptualisation that enables institutionalisation-as-virtue and not any naïve

bigger scheme of things the latter is delusional (for an animal whose potency under social-

the clairvoyance of institutionalising principles and rules’, and ‘not the purported impression-
driven/good-naturedness dispositions of the one or the other’, as this is an unsustainable
construct and is simply a call for institutional failure in the middle to long run. A human
secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation in individuals purporting prospective emancipation comes from and are from the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘mouling’, as actually intemporality/longness is a ‘potential construct of orientation’ as implied by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and it is only a devised institutionalisation construct as secondnaturing that achieves that potential-construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are ‘mouling’ their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained.

- As the notion of ‘dynamic-cumulative-aftereffect of ontology and subontologisation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-enculturation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving
intersubjective valuation). Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ (as an ontology-driven epistemic-totalising–ratio-contiguity/ratiocontiguity-as-referentialism-phenomenal-abstractiveness-of-presencing-in ‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context conceptualisation); but rather a ‘psychology of qualifications’ as is equally the case with social psychology. The author as previously implied with the notion of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ perceives the need for defining human psychology from a transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism and thus operant perspective of ontologically-dynamic-and-coherent construal/conceptualisation, as a profound superseding–oneness-of-ontology. This is implied in ontological-normalcy/postconvergence, and should be more precisely invigorated in the construal/conceptualisation of the ‘reference-of-thought as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension as metaphysics-of-absence of the positivism/procrypticism reference-of-thought metaphysics-of-presence’; implying an ontologically-driven conceptualisation of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as the

With ontology-driven implying that our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is just a ‘placeholder-setup’ that doesn’t has any inherent ontological validity, but is rather as valid as its representation/schedule of ontology/ontologically-veridical-meaningfulness/intemporality, such that with the insight of more profound ontology/ontologically-veridical-meaningfulness/intemporality, the ‘placeholder-setup’ as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is accordingly rescheduled psychoanalytically (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), validating and explaining why our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology has been developing all along from the mindset/reference-of-thought of an recurrent-utter-institutionalised, base-institutionalised, universalised and positivised, with the implication that the latter’s mindset/reference-of-thought is not beyond prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity where such prospectively more profound ontology is demonstrated to imply a renewal of human reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
imbued-temporal-to-intemporal-dispositions–existentialism-form-factor induced dynamism of shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation). In fact, psychoanalysis is actually a natural existential human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology process with the difference that such comprehensively conceptually-directed constructs as is implied with deprocrypticism with respect to the present positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and parcel of the human psychoanalytic experience with regards to passive to conceptually-directed constructs of human teleological projection. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (prospective) as a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology effectuation, is not technically achieved as may naively/counterintuitively be implied by construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (from the present) but rather, on the basis of ‘prospective reference-of-thought transcendent insights’, it correspondingly implies ‘construing the present as metaphysics-of-present as the transcended/superseded/prior placeholder-setup/mental-devising-representation/mentation’ to be represented as ‘preconverging-or-dementing–apriorising-psychologism reference-of-thought’, and so implied by the ‘prospective reference-of-thought transcendent insights’, such that the prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought’ is naturally implied as being the new and prospective suprastructuring, (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) of the ‘old
present'/retrospective as prior. That is it is critical to grasp that de-mentation- (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and preconverging-or-dementing–apriorising-psychologism is never about generating a prospective ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ (with respect to the present as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’), but such de-mentation- (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather about decentering and preconverging-or-dementing–apriorising-psychologism/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the present as preconverging-or-dementing–apriorising-psychologism which becomes ‘old-present'/retrospective as prior’ and dialectically ushering contrastively from that backdrop a new and prospective ‘postconverging-or-dialectical-thinking–apriorising-psychologism’. This is actually about maximalising-recomposuring-for-relative-ontological-completeness of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior reference-of-thought as veridical. Maximalising-recomposuring-for-relative-ontological-completeness being about optimally rescheduling the ‘placeholder-setup’ (as placeholder-setup/mental-devising-representation/mentation) with regards to ontologically-veridical-meaningfulness, on the ontological backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. This involves a pointedness-of-
ontology conceptualisation, central to a maximalising-recomposuring-for-relative-ontological-completeness, can be demonstrated as follows: supposed A has the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogically-enculturated, and supposed some other interlocutors, not only by ignorance but affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation further engaged in such vilifying (as social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} of their mental denaturing disposition is socially opaque); engaging meaningfulness at a same reference-of-thought will wrongly imply that there is an issue of ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation’ at hand rather than in veridicality one of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation>, requiring instead a maximalising-recomposuring-for-relative-ontological-completeness that is ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ from the ‘deeper superseding–oneness-of-ontology construal/conceptualisation’ as existentialist/‘ontologically-reconstituting’ of A as intemporally-preservational, (in a pointedness of deprocrypticism prospective reference-of-thought which maximalising-recomposuring-for-relative-ontological-completeness then ‘upholds in contiguity’ the ‘trace

construal/conceptualisation, rather of a transcendental/abject nature in line with intrinsic-
reality/ontology, and not incremental). A rule of thumb with maximalising-recomposing-
for-relative-ontological-completeness will be to void the wrongly implied existentialist-as-
ontologically-veridical-meaningfulness by perceiving the reference-of-thought of
postlogic/psychopathic and conjugated-postlogism/preconverging-or-dementing-integration
mental-dispositions as purely non-veridical/vacuous hollow-constituting<as-disjointed-

reality/existence/being as becoming is actually an ‘unwinding elucidation’ model construct.
However, since meaningfulness involves an interceding placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology as reference-of-thought in
relation to intrinsic-reality/ontology and given our limited-mentation-capacity-deepening-
<<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

This is more than just a question of acts-execution/logical-processing defects but registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect>, that speaks of the registry-worldview’s/dimension’s inherent relative-ontological-incompleteness-induced,”‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, as-it-is-thus-‘in-wait’–for-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–or-temporal-preservation-as-pseudointemporality-preservation. That is at the basis of the<amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-dragnature of a registry-worldview/dimension vices-and-impediment. This is equally why epistemologically-speaking categorisation schemes tend to be incomplete and requiring further re-categorisations and readjustments as rather construed/conceptualised on an epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-dragnature of organisation that isn’t in the full potency for grasping intrinsic reality and requiring further adjustments all along (the whole exercise actually being ‘ad-hoc referentialism’), and why referentialism as previously

articulated, though ‘relatively abstract as a notion of representation’ is a conceptualisation basis needing constant insights, it is actually a better conceptualisation scheme of prospective being/becoming notions particularly of an ephemeral nature. Just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its <amplituding/formative>epistemic-totalising→self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as abjectly preconverging-or-dementing–apriorising-psychologism and unintelligible/existentially-suprastructural and being as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity with it will wrongly imply the ontological-veridicality of its meaningfulness, a deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of a procrypticism mindset/reference-of-thought will rather be abjectly preconverging-or-dementing–apriorising-psychologism and unintelligible/existentially-suprastructural of ‘our procrypticism terms of meaningfulness’ and will equally avoiding elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity recognition of the soundness of our procrypticism/disjointedness-as-of-reference-of-thought at the (deprocrypticism) unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in other to effectively and adequately reflect the requisite metaphysics-of-absence necessary to act as the referenced/registered/decisioned–psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—
stranding-or-attributive-dialectics) as uninstitutionalised-threshold-suprastructuring de-
mentation-(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—
stranding-or-attributive-dialectics) that is the mechanism that enables ‘postconverging-or-
dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psy-
chology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring. *The fundamental ontological/meaningful question is: which is the
'superseding reference-of-thought, from where meaningfulness is aligned as ‘thinking and
contending’ over the ‘perverting/superseded reference-of-thought’ aligned to as
‘preconverging-or-dementing—apriorising-psychologism and not-contending”? ‘Anchoring-
of-meaning as base-institutionalisation’ over recurrent-utter-uninstitutionalisation,
‘anchoring-of-meaning as universalisation’ over perversion-of-reference-of-thought—
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

as positivism’ over perversion-of-reference-of-thought—
<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,—of-universalisation-
as-non-positivism/medievalism or ‘anchoring-of-meaning as deprocrypticism’ over
perversion-of-reference-of-thought—
<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,—of-positivism-as-
procrypticism. A ‘postconverging-or-dialectical-thinking—psychology or psychology-of-
mentation-dynamics or natural psychology-of-dynamics’ will actually be about a novel
construal of the social as ‘metaphysics-of-absence’/postdication of the individual as
‘metaphysics-of-presence’; with the implication that the concepts and conceptualisations of
the individual of the current ‘psychology of qualification and qualification schemes’ are
actually and effectively construed by the ‘postconverging-or-dialectical-thinking—psychology
or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as of a
postconvergent/ontological-normalcy cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their metaphysics-of-absence/postdication (as the existential social) articulation. Insightfully, a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ rather mobilises maximalising-recomposuring-for-relative-ontological-completeness as is necessarily the case with all metaphysics-of-absence/postdication conceptualisations (which must avert the mix-up induced by the illusion-of-the-present/present-consciousness/mirageas <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as metaphysics-of-presence) in ontologising/ontological-conceptualising. This thus validates and operates on the fundamental assumption that the individual-as-of-its-temporal-to-intemporal-individuation-potency is an abstract-atomic-social-construct capable-of-and-as-the-basis-for-both-social-effectuation-and-institutionalisation/intemporalisation. What is then qualified as social phenomenon is determined and effectively deconstructible/ontologically-reconstitutable from the inherent dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; and in construing/conceptualising the ‘transcendence and skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference’ of meaningfulness-(and-value) towards the intemporal-disposition (ontologisation/ontological-veracity/aestheticisation-towards-ontology –
previously indicated, a registry-worldview/dimension ontological/being-construal-defect (as its subontologisation) is ‘not caused’ by compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism, whether pathological/psychopathic or enculturated, (as this is priorly due to the inherent registry-worldview’s/dimension’s uninstitutionalised-threshold ‘in wait’ for such compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism elicitation of its threshold-of–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—preconverging/dementing–apriorising-psychologism, for instance, the state of being superstitious in non-positivism/medievalism is itself ‘in wait’ for notions-and-accusations-of-sorcery to elicit its threshold-of–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—preconverging/dementing–apriorising-psychologism in such a social-setup by corresponding non-positivism/medievalism compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism), whereas the positivistic registry-worldview reference-of-thought has the prospective relative-ontological-completeness-of-reference-of-thought for the eliciting of such a notions-and-accusations-of-sorcery threshold-of–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—preconverging/dementing–apriorising-psychologism not to arise. However, as highlighted again previously, the subsequent temporal-preservation-as-pseudointemporality-preservation of a registry-worldview’s/dimension’s subontologisation is largely due to the perpetuating recurrence, as an intradimensional dynamic-cumulative-aftereffect, of such pathological/psychopathic-and-enculturated compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism and conjugated-postlogism/preconverging-or-dementing-integration that
undermine and blur recurrently intemporal-disposition supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism to induce social universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of the registry-worldview’s/dimension’s ontological/being-construal-defect as unsound reference-of-thought of meaningfulness and the positive-opportunism thereof for prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and leading to the registry-worldview’s/dimension’s uninstitutionalised-threshold endemised/enculturated temporal-preservation-as-pseudointemporality-preservation. This aspect of postlogism and conjugated-postlogism/preconverging-or-dementing-integration temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation is thus the more salient construal for the de-endemisation/de-enculturation of ontological/being-construal-defect as unsound reference-of-thought of meaningfulness, as defined by recurrence and ‘non-transient transcendability’ at the uninstitutionalised-threshold; (in contrast with either a state of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that doesn’t speak of ‘recurrence of perversion/unsoundness of reference-of-thought’ or an ‘abstract’ state of inherent uninstitutionalised-threshold but which is ‘transiently transcendable’ as it is not in temporal-preservation-as-pseudointemporality-preservation instigated by postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation). Thus it is the condition of ‘recurrence’ and ‘non-transience’ transcendability arising from postlogism and conjugated-postlogism/preconverging-or-dementing-integration that is ontologically relevant for ontological-reconstituting–as-of-conflicatedness/deconstruction for prospective transcendability (as it conceptually defines the successive uninstitutionalised-thresholds of recurrent-utter-uninstitutionalisation,
metaphysics-of-presence and metaphysics-of-absence, with the capacity of easily reflecting both preconverging-or-dementing–apriorising-psychologism and postconverging-or-dialectical-thinking–apriorising-psychologism as implied from a renewed human mentation transcendental insights (in reflexivity) about intrinsic-reality/ontological-veridicality. Threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism implies that at registry-worldview’s/dimension’s uninstitutionalised-threshold at which they are prospectively reflected/perspectivated as being in epistemic-abnormalcy/preconvergence (as shallow superseding–oneness-of-ontology construal/conceptualisation) with respect to ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as deeper superseding–oneness-of-ontology construal/conceptualisation), correspondingly the ontological-veridicality of human dispositions is construed as requiring a temporal-to-intemporal-dispositions disambiguation of reference-of-thought (rather than naively, an assumption of universal human intemporal-disposition as reflected/perspectivated within a functional institutionalised registry-worldview existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>’), with the implication that the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ are actually of disambiguated temporal-to-intemporal-dispositions reference-of-thought and meaningfulness. This broadly sums up the importance of elucidating the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism when it comes to registry-worldviews/dimensions construed as to their uninstitutionalised-thresholds as being in epistemic-abnormalcy/preconvergence, as it enables the conceptual articulation of meaningfulness that the ‘perspective of a functionally institutionalised registry-

aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor speaks otherwise (even though such an axiom of ‘a universal human intemporal-disposition’ is only surreptitiously implied, as a necessary ‘functional pseudo-conceptualisation’ which functionally assumes intemporality/longness to avoid the cumbrous need for disambiguating reference-of-thought of meaningfulness into temporal-to-intemporal-dispositions (at any singular instances) ‘within established institutionalised registry-worldview/dimension’ but virtue cannot be assumed beyond the uninstitutionalised-threshold; that is, virtue is de-mentatively/structurally/paradigmatically the result of intemporalisation-as-institutionalisation secondnaturing, for instance, we can broadly argue that the positivistic registry-worldview/dimension implies more or less a ‘universal positivistic intemporality’ as a functional pseudo-conceptualisation of intemporality/longness ‘as people do not act medieval by and large’ but at our uninstitutionalised-threshold wherein procrepticism/disjointedness-as-of-reference-of-thought arises our positivistic registry-worldview/dimension can only be qualified as of temporal-to-intemporal-dispositions since the requisite intemporalisation-as-institutionalisation as deprocrepticism/preempting—disjointedness-as-of-reference-of-thought secondnaturing is wanting), but virtue should rather be construed as the superseding/transcendental institutionalisation/intemporalisation design/conceptualisation that by inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the long run enables the prospective registry-worldview/dimension institutionalisation; it is this focus on institutionalisation/intemporalisation that is effectively institutionalisation-as-virtue given that in the succession of human institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, no institutionalisation effectively transforms
human temporal-to-intemporal-dispositions nature into an absolutely intemporal-disposition nature, but rather reduces human epistemic-abnormalcy/preconvergence towards ontological-normalcy as deeper and deeper superseding–oneness-of-ontology construal/conceptualisations. The bigger point being that it is by effectively grasping that any human intemporal-disposition individuations that can ‘spontaneously’ arise in whatever concern there is should be directed/skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity) (as deferential-formalisation-transference of meaningfulness) for institutionalisation/intemporalisation-as-virtue for secondnaturing, and not a wrong implication of functionally grounding virtue on human ‘temporal disposition’ which will inevitably bring about temporal-and-social-trading with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. The fact is that our institutional and organisational constructs at their very core, unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our temporal-to-intemporal-dispositions), however, the notion of ‘consciously-spoken’ as herein highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring required in fully assuming the reference-of-thought of any prospective registry-worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply ‘a new psychological orientation as positivistic’ that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric
solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, ‘<amplituding/formative>epistemic-totalising rationalism’ by Descartes based on methodical thinking, universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/reference-of-thought as a de-mentative/structural/paradigmatic shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton’s involvement with alchemy, for instance. This point to the critical importance of the psychological state of the mind for the very possibility of prospective ontologically-veridical transcendence-and-sublimity/sublimation/supererogatory/de-mentativity to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moult itself’ (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) towards a more profound construal/conceptualisation as of that superseding–oneness-of-ontology, however strongly we might naively believe in our ideas in any given epoch as of its metaphysics-of-presence. Thus metaphysics-of-absence notion of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism (substituting, to induce ‘a preconverging-or-dementing–apriorising-psychologism mentation reflex’ in sync with the ontological perspective, over the same notion as subontologisation as metaphysics-of-presence, which rather wrongly induces ‘a postconverging-or-dialectical-thinking–apriorising-psychologism mentation reflex’ out of sync with the ontological
perspective, thus is subject to

Ultimately the purpose of maximalising-recomposuring-for-relative-ontological-
completeness as an intemporal conceptualisation of transcendental implication should be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ and is not for the sake of ‘immediate intelligibility’ within a given uninstitutionalised registry-worldview/dimension in want for a prospective corresponding institutionalisation registry-worldview/dimension, as such a purpose will wrongly and paradoxically imply that the logical-dueness/logical-pertinence of the uninstitutionalised-threshold is sound as its reference-of-thought is prospectively defective (for instance a positivistic implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be logically intelligible to a medieval setup that harkens back to medieval reference-of-thought–categorical-imperatives/axioms/registry-teleology for its logic, i.e. ‘issue of articulating chemistry rules and principles for the evaluation of an alchemist not logically cognisant of chemistry rules and principles, in the very first place’), but rather it is a middle to long run construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) instigation of prospective registry-worldview/dimension institutionalisation reference-of-thought as of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (though we can mostly grasp such an insight not from instances of ‘natural intra-society transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ since this takes a longer time to occur and is relatively obscure, but transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by cultural diffusion associated with conquests where the dominant is at a more advanced stage of institutionalisation or in the rare cases where it is the reverse like Ancient Egypt or Ancient Greece, with the dominated actually relatively dominating or in parity with the dominant culturally as of divergent aspects). The implication here is that transcendental maximalising-recomposuring-for-
relative-ontological-completeness is rather grounded on a relatively intemporal-and-deeper existential-reference-of-meaningfulness with the positive-opportunism of the prospective institutionalisation ontological-primemovers-totalitative-framework over its corresponding uninstitutionalised-threshold to put in question the latter’s reference-of-thought–categorical-imperatives/axioms/registry-teleology for the ones of the prospective institutionalisation, and it is only after that that the notion of mutual logical intelligibility arises (it is only after the alchemist ‘psychoanalytically-unshackle’ into a positivistic-inclined mindset/reference-of-thought with respect to appreciating notion of natural cause-and-effect and experimentation as well that the notion of mutual intelligibility of chemistry rules and principles makes sense, until then there cannot be much of intelligibility without such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing exercise from the perspective of the prospective chemist). That explain why maximalising-recomposing-for-relative-ontological-completeness construct are meant to be detached and totalisingly-entailing so as to act as a backdrop for prospective institutionalisation, and not to necessarily make sense in terms–as-of-axiomatic-construct of ‘the now temporal mental-disposition reference-of-thought’ which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. In the bigger scheme of things, it is inevitable that suprastructuring (the conceptualisation that renders de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) relative-mutual-construal of the prospective/superseding/transcending registry-worldview/dimension as deeper superseding–oneness-of-ontology construal/conceptualisation over the prior/superseded/transcended registry-worldview/dimension as shallow superseding–oneness-of-ontology construal/conceptualisation by (suprastructurally) reflecting/perspectivating, beyond-the-
of the prior/superseded/transcended, respectively the ‘postconverging-or-dialectical-thinking–apriorising-psychologism as dialectically-in-phase’ and the ‘preconverging-or-dementing–apriorising-psychologism as dialectically-out-of-phase’), is rendered operant by the notion of ‘existential-decontextualising-transposition (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism defect) of ontology/ontologically-veridical-meaningfulness/intemporality’ in operantly grasping such suprastructuring transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity/transdimensional/interdimensional construct; as it perpetually upholds ontological-veridicality by its ‘existential-reality’ (not non-veridical/vacuous hollow-
constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-
preservation>) on the basis of, first and critically, the validity of the reference-of-thought so-
reflected as soundness-or-authenticity-of-reference-of-thought if valid and unsoundness-or-
inauthenticity-of-reference-of-thought if invalid (before even recognising whether the ‘implicitation-of-notion-of-agreement-or-disagreement’ or ‘of logical-processing’ arises) to determine the ‘postconverging-or-dialectical-thinking–apriorising-psychologism and dialectically-in-phase’ over the ‘preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase/dialectically-primitive’. It is critical to grasp that the notion of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism is rather of conceptual metaphysics-of-
absence (meant to ensure a natural maximalising-recomposuring-for-relative-ontological-
completeness to avoid mix-up of reference-of-thought) with such a mix-up arising from the <amplituding/formative>epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag (whether wittingly or unwittingly)
induced subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) so-construed as metaphysics-of-presence. So both notions are conceptually the same but implying different approaches with respect to the temporal undermining of ontological-veridicality; with subontologisation referencing/biased within the contextual perspective of institutionalised registry-worldview/dimension, with existential-decontextualised-transposition referencing/biased within the contextual perspective of uninstitutionalised registry-worldview/dimension, thus the latter enabling an appropriate disambiguation of temporal-to-intemporal-dispositions with respect to ontologically-veridical reference-of-thought, and by extension it is the concept of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism that is appropriate in all instances of implied uninstitutionalised registry-worldviews/dimensions as metaphysics-of-absence perspective since it avoids the <amplituding-formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage that is inevitable when reasoning by a metaphysics-of-presence induced subontologisation. Besides even within the intradimension contextual perspective of institutionalised registry-worldview/dimension, it is equally the best approach with respect to the construal/conceptualisation of the instigating of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> mental-disposition that will induce temporal-preservation-as-pseudointemporality-preservation in temporal-dispositions as conjugated-postlogism/preconverging-or-dementing-integration (by hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> on the reference-of-thought–categorical-imperatives/axioms/registry-teleology of the priorly institutionalised registry-worldview/dimension) and by so doing reflecting the
progressive in upholding temporal-preservation-as-pseudointemporality-preservation and the conjugated ignorance/affordable mental-dispositions as largely summative of the dynamic-cumulative-aftereffect, are geared towards upholding or undermining temporal-preservation-as-pseudointemporality-preservation by supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism inclination whether naively conjugating to postlogism as misconstrual or good supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism when the untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism of ontological-veridicality is established from an intemporal-disposition, in which latter case as being largely summative of the dynamic-cumulative-aftereffect it leads to the collapsing of postlogism mental-disposition recursiveness and exacerbatory/opportunistic mental-dispositions progressiveness with respect to temporal-preservation, and thus orienting towards intemporal-preservation/intemporalisation and the possibility for prospective institutionalisation, itself subjectable to temporal-preservation-as-pseudointemporality-preservation at its uninstitutionalised-threshold. Thus this is the underlying dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation in the psychoanalytic dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor across all the institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as of human shallow-to-deepening–limited-mentation-capacity as limited-mentation-capacity-deepening–<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

Insightfully, ontological-normalcy/postconvergence establishes beyond human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) that there is a potent and overall oneness/contiguity of ontologically-veridical meaningfulness which transverses and supersedes all other conceptualisations of reference-of-thought and meaningfulness (which are therefore approximates) by mere ‘ontological-consistency’ whether with regards to virtue conceptualisation (as highlighted with the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) or second-level ontological constructs as is the case with subject matters conceptualisations. Ultimately, the capacity for
philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding–oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of-meaningfulness-and-teleology) for human-mastery-of-reality or knowledge, as inherently implied by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipatory ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition individuation within the recurrent-utter-uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,—(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) as a de-mentating/structuring/paradigming for superseding the vices-and-impediments inherent to recurrent-utter-uninstitutionalisation is a necessity-for-its-own-and-by-extension-the-registry-worldview’s/dimension’s ‘mouling’ in the middle to long run construed as of de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) into a base-institutionalisation registry-worldview. Such solipsistic
insight is the effective ‘transcendental virtue conceptualisation’ that drives ontological-normalcy/postconvergence across all the successive institutionalisations and by that token coincides with ontology as a necessary ontological development driver in an animal of shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation). This analysis is very much in line with the notion of virtue as a <amplituding/formative>epistemic-totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-

imbued-temporal-to-intemporal-dispositions–existentialism-form-factor points out that it is rather such intemporality/longness solipsistic ‘transcendental virtue projection’ that enables the superseding of the uninstitutionalised-threshold of the various registry-worldviews/dimensions as institutional-cumulation/institutional-recomposure-<as-to-
historiality/ontological-eventfulness/ontological-aesthetic-tracing>. In other words, it is the necessary ‘transcendental virtue projection’ for a prospective registry-worldview superseding
the vices-and-impediments of the prior registry-worldview that enables the ontological possibilities for such prospective registry-worldview to even arise existentially; as the temporally-inclined recurrent-utter-institutionalised individuation is non-cognisant of any such thing as base-institutionalisation and the ontological possibilities availing to it, likewise with the temporally-inclined ununiversalised individuation with respect to universalisation and its ontological possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to the positivistic and its ontological possibilities, and prospectively the temporally-inclined procrypticism individuation with respect to deprocrypticism and its ontological possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A question that arises will be how can a society deliver an Einstein or a Bohr respectively that will articulate the theory-of-relativity or quantum-mechanics without it having the necessary institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual mindset/reference-of-thought and associated other contributing mindsets) that allows for the possibility of such discoveries? In other words what was the possibility for the theory-of-relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather improbable. As a side note, such an insight equally attends to such a debate we currently entertain with respect to coming into contact with an advanced alien civilisation. A transcendental virtue conceptualisation will hold that in the very first place such a civilisation won’t be able to exist without the necessary virtue construct (as successions of metaphysics-of-absence insights yielding in-lockstep the successively more ontologically profound metaphysics-of-presence as implied by ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a medieval age, for instance, going by the mere human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms–as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity–{as of relative constitutedness) to deeper limited-mentation-capacity–{as of relative conflation) by enabling ‘solipsistic moulding’ (as ‘intemporal-disposition individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at uninstitutionalised-threshold states, with a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-disposition due to lack of social universal-transparency–{transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) about virtue inducing supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’) and the secondnaturing of the social-construct (as institutionalisation-as-virtue) including the requisite human psychical

This disambiguated-mental-dispositions as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology develops, with changing contextualisation, at the registry-worldview/dimension or intradimensional level as the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioneing-rationalising, and temporal-enculturation/temporal-endemisation-effect), and is equally characteristic across registry-worldviews; with the implication that this is an attribute of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. That is, the uninstitutionalised-threshold is characterised by the ‘trace of disambiguated-mental-dispositions as temporal-to-intemporal-dispositions ontological-primemovers-totalitative-framework. It is mainly a ‘Différence-disambiguation-of-ontologically-verbatim-meaningfulness-and-teleology’ that can establish the ontological-veridicality-of-meaningfulness precisely by disambiguating the effective ontological-references of the various temporal-to-intemporal-dispositions individuations, and so not only at an instant or act or specific circumstance or context (which is rather an act construal and not a being/ontological construal) but projectively in their retrospective-to-present-to-prospective existentialism-deambulation/meandering which provides the full
insight of temporal-to-intemporal-dispositions individuations mental-dispositions/meaningful-references/ontological-references/contending-references as ontological-entrapment. Such a being/ontological-basis, as described above, of a ‘Différence-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ is in line with and further elucidates the ‘Différence-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–of-meaningfulness’ technique. Going respectively by the Sartrean and Derridean principles for establishing ontologically-veridical-meaningfulness, that is, ‘existence precedes/defines essence’ or ‘there is nothing outside the text’ in evaluating ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with respect to their veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in various instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness. What is critical to understand here is to distinguish between: (i) recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness basis of meaningfulness that is grounded on grasping that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are deterministic by virtue of reflecting/perspectivating/highlighting their recurrent context of reality and thus subjects them to ‘ontological-reconstituting–as-of-conflectedness’/deconstruction in upholding intemporal-preservation-entropy-or-contiguity–
postlogic/psychopathic disposition (and by extension temporal-dispositions conjugated-postlogism/preconverging-or-dementing-integration dispositions) adhere to an elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity basis of meaningfulness on the ground that plausibly construing a false-premising to an existential-context-of-reference-narrative ‘provides licence’ to then (‘recursively’ in concurrence – in the case of the postlogic/psychopathic character, progressively – in the case of a conjugated-exacerbatory and conjugated-opportunism characters, and regressively – in the case of a conjugated-ignorance and conjugated-affordability characters) comprehensively articulate any possible existentially-unreal-and-abstract-narratives (on the basis of a conceptualisation of mere hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> static-or-abstract non-veridical/vacuous-state of essence-of-meaningfulness’ with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology and hence failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) by exploiting the plausibility derived from the concurrently-false-premising existential-context-of-reference-narrative. So the latter disposition, and so particularly with the postlogic/psychopathic mindset, is to induce or generate or exploit any plausible existential-context-of-reference-narrative to then unleash slanted-and-formulaic hollow existentially-unreal-and-abstract narratives by concurrently-false-premising on the plausible existential-context-of-reference-narrative. In other words, the postlogic/psychopathic individuation character gets that there is a human mental-reflex to grasp ontologically-veridical-meaningfulness on ‘static-or-abstract non-veridical/vacuous-state (abstract reference-of-thought–categorical-imperatives/axioms/registry-teleology) of essence-of-meaningfulness terms, so long as their existential basis is established, including and critically for its purpose, where it is so deceptively implied’, to artificially or
opportunistically construe a plausible existential-context-of-reference-narrative which then ‘provides licence’ to articulate existentially-unreal-and-abstract-narratives in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> concurrently-false-premising on the initial plausible existential-context-of-reference-narrative, with the idea that that human mental-reflex will by reflex naively-and-wrongly imply the existential/contextualisation ontological-veridicality of its generated slanted-and-formulaic hollow existentially-unreal-and-abstract-narratives; and so, in terms—as-of-axiomatic-construct of the ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology as highlighted priorly. This preconverging-or-dementing—apriorising-psychologism is in contrast with a postconverging-or-dialectical-thinking—apriorising-psychologism (when the latter is of inappropriate/bad or appropriate/good supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism) which is always inclined to ensure that the succession-of-narratives it propounds are tied to successive-instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness. Thus, the reason why the ontological construal (ontological-entrapment) of the postlogic/psychopathic individuation characters and conjugated-postlogism/preconverging-or-dementing-integration individuation characters is rather as an intemporal/ontological suprastructure (implying de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—
more or less blurred disposition to <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when analysing transcendental issues within our present positivistic/procryptic registry-worldview/dimension as its own metaphysics-of-presence problem), if say a totem was to be presented as proof that a targeted individual was a sorcerer (as existential-context-of-reference-narrative) for establishing plausibility for subsequent comprehensive articulation of existentially-unreal-and-abstract-narratives accusing the target of sorcery, a transcendental/abject/intemporal conceptualisation will imply rather a prospective ontological-reference of essence-of-meaningfulness as positivism, with the ontological-normalcy/postconvergence implication of construing not only the accuser as being of ‘medieval mental-perversion/perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> but the temporal-dispositions and overall social-enculturation of that inclination abstractly with respect to metaphorically-a-million-and-one-instances-and-locales/aetiologically/ontological-escalation as a fundamental ontological/being-construal-defect of such a medieval reference-of-thought; noting as well that there is no need ontologically/intemporally for such a target to adjust to such accusation but rather a dismissive disposition with respect to such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism and its defective ontological-reference of meaningfulness, as acting otherwise like ‘being logical’ with such implied meaningfulness by saying for instance it is not its totem or it doesn’t know about it or it is somebody else’, wrongly validates that the reference-of-thought of such medieval accusation is valid and is thus rather contributing then to upholding its temporal-enculturation/temporal-endemisation, as where there is perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> there is no logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) to start with in the very first place but rather a superseding/transcendental representation of such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing—apriorising-psychologism and actually implying a suprastructuring (beyond its consciousness-awareness-teleology) at the said (non-positivism/medievalism) uninstitutionalised-threshold requiring positivism registry-worldview reference-of-thought institutionalisation. Thus unlike in a case of defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect-<as-Being-or-ontological-or-existential—defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing wherein the superseding (and ontologically-veridical) reference-of-thought can only construe of the superseded (and ontologically unsound) as preconverging-or-dementing—apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to transcend
into the superseding reference-of-thought in the very first instance, before any ontologically-veridical pretence to mutual contention. Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about,...) In the bigger perspective with regards to the institutionalisation of deprocrypticism for instance, it is such an existentialism construal from a transcendental intemporal reference-of-thought over temporal perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> that allows for the superseding of vices-and-impediments as prospective registry-worldview/dimension structural-resolution of positivism–procrypticism preconverging-or-dementing–apriorising-psychologism. It should be noted that as earlier articulated, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming (in contrast to a temporal extricatory de-mentating/structuring/paradigming) can only be transcendental as superseding (by implying an altogether different reference-of-thought as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’), and not incremental/‘disjointedness-as-of-reference-of-thought’ (wrongly operating on the same temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect> reference-of-thought which is actually preconverging-or-dementing–apriorising-psychologism/oblongated and dialectically/contendingly-out-of-phase). Taking the previously articulated case of sorcery in a non-positivism/medievalism setup, it has no ontological structural-resolution by reciprocity of sorcery accusations on the same reference-of-thought terms but rather by the transcendental undermining of such non-positivism/medievalism mindset/reference-of-thought with an altogether superseding positivistic reference-of-thought that is in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing with a non-positivism/medievalism
ontological-reference (registry-worldview). Even though, inevitably (and as in the ‘present as-present-consciousness’ of all registry-worldviews with regards to their own corresponding perversion-of-reference-of-thought-<as-effectively-apriorising-in-
onconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena), there is bound to be more or less a dumb-and-dumb effect of summative social acquiescence to a superstitious mindset/reference-of-thought in a non-positivism/medievalism setup, that will in the short term temporal perspective be a drawback to such a transcendental projection of positivistic mental-disposition, and likewise there will inevitably be more or less be a dumb-and-dumb effect of summative social discontentment where a transcendental deprocripticism mental-disposition is implied in a procripticism setup. This shows that going by human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor, in all registry-worldviews/dimensions the more or less summative mindset/reference-of-thought is bound to be incremental/‘disjointedness-as-
of-reference-of-thought’ and not transcending such that would-be emancipating individuation’s projection (that is, if ontologically pertinent) is necessarily the middle to long run construed as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–
de-mentation—stranding-or-attributive-dialectics) percolation-channelling for the necessary ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring accompanying such prospective transcendental institutionalisation. That is, by transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity is meant dispose to construe the ontological resolution of an intradimensional ontological/being-construal-defect transcendentally/transdimensionally/interdimensionally; for instance, capable of putting in question non-positivism/medievalism intradimensional
superstition as of the registry-worldview defect in the first place supersedingly/transcendentally rather than a usual attendant/incidental reciprocity of superstitious contentions or capable of putting into question procrypticism/perversion-of-positivistic-meaningfulness with its corresponding postlogism-and-conjugated-postlogism of psychopathy and social psychopathy as of the registry-worldview in the very first place supersedingly/transcendentally rather than a temporally reciprocal equivalence. Basically, such an intemporal-disposition/ontologically-veridical transcendental disposition storied-construct/ontologically-valid-narration will be of imbricatedness/threadedness/recomposuring as existential-tracing of ontologically-veridical-meaningfulness reflecting temporal-dispositions rather in ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised individuation has no place for the ‘transcendental rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded ununiversalised individuation (in base-institutionalisation) has no place for the ‘transcendental rules universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the subontologisation moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi
conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthily life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is de-mentatively/structurally/paradigmatically responsible for present reference-of-thought to project to the de-mentative/structural/paradigmatic need of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. This further points out that with regards to ‘metaphysics-of-absence’ projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising~self-referencing-syncretising), across all registry-worldviews from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the (positivistic) uninstitutionalised-threshold of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect> is non-transcendable/unsuperseded by its <amplituding/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as ‘metaphysics-of-presence’ thus upholding its
soundness-or-authenticity-of-reference-of-thought by ignoring the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> while the prospective registry-worldview/dimension implying a new reference-of-thought that de-mentatively/structurally/paradigmatically resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> represents the prior as prior/transcended/superseded and hence unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing– apriorising-psychologism/suprastructurable (at that uninstitutionalised-threshold). The bigger point here is that just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its <amplituding/formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as abjectly preconverging-or-dementing–apriorising-psychologism and unintelligible/existentially-suprastructured, a deprocrypticism placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology of procrypticism/disjointedness-as-of-reference-of-thought mindset/reference-of-thought will rather be construed as decentered and preconverging-or-dementing–apriorising-psychologism, unintelligible/existentially-suprastructured with respect to ‘our positivism–procrypticism terms of meaningfulness’ that is, at the (deprocrypticism) uninstitutionalised-threshold in order to effectively and adequately reflect the requisite metaphysics-of-absence necessary to act as the referenced/registered/decisioned–psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as-uninstitutionalised-
threshold-suprastructuring de-mentation—supererogatory ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that is the mechanism of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective institutionalisation. This latter notion is important as with all psychoanalysis whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect—<as-Being-or-ontological-or-existential–defect> is central to superseding it, and so the idea of implying preconverging-or-dementing–apriorising-psychologism/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not carry the poorer connotations of temporal/banal mental-dispositions, but rather it is technically a necessary and useful ontological conceptualisation in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring from our shallow limited-mentation-capacity—<as of relative constitutedness> to deeper limited-mentation-capacity—<as of relative conflation>. Thus psychoanalysis is actually in effect an existentialism process of human skewing towards intemporal-disposition as we construe meaningfulness and value-referencing, and so beyond the Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’ conceptualisation of psychology we know of when we talk of psychoanalysis in the subject matter of psychology, but rather construed as a natural ontologically-driven ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ behind human secondnaturung across the successive institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-
human-institutionalisation-process. As a side note though, it is important to grasp that the registry-worldviews as the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> are actually broad categorisations and that actually human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality/ontologically-veridical-meaningfulness varies (though not varying in terms–as-of-axiomatic-construct of the central defining conceptualisation of each registry-worldview/dimension) within each registry-worldview/dimension from its early to later spectrum, given human more or less passive continuous psychoanalytic readjustment to ‘ontological experience’. For instance, there is certainly a marked difference in scope and depth between the positivistic construct in the 19th century with its nature in the late 20th and early 21st century. Further to the two elucidations made of postlogism/psychopathic and conjugated-postlogism/preconverging-or-dementing-integration distortion/perversion of essence-of-meaningfulness that go on to endemise psychopathy and social psychopath with reference to with the ‘Diffèreance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ and its ‘Diffèreance-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–of-meaningfulness’ technique as well as plausibly concurrently-false-premising to an existential-context-of-reference-narrative providing licence for postlogic narratives, a third elucidation provides an even more profound insight of the distortion/perversion of essence-of-meaningfulness and the implications at the comprehensive existential level. This basically has to do with the ontological consequences and implications of the ‘existentialist’ and ‘non-veridical/vacuous’ conceptualisation of reference-of-thought and meaningfulness, and so with respect to perception of registry-soundness/soundness-or-authenticity-of-reference-of-thought and
perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness-
or-inauthenticity-of-reference-of-thought, and ultimately the disambiguation of ontological-
reference (trace) with respect to postlogism and conjugated-postlogism threshold-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism individuation characters, and
supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-
thinking–apriorising-psychologism individuation characters. Basically the ontological-
veridicality of meaningfulness is construed in ‘non-veridical/vacuous’ terms of reference-of-
thought–categorical-imperatives/axioms/registry-teleology ‘supposedly’ in intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation and this ‘supposedly-ness’ is
only validated if ‘existentially real’ as ontologically-veridical. However there is an
‘existentialist-shortfall’ of the human supplanting–conviction-as-to-profound-
supererogation—postconverging/dialectical-thinking–apriorising-psychologism mind with
respect to assuring the ‘existential-reality’ in the face of ‘non-veridical/vacuous terms of
reference-of-thought–categorical-imperatives/axioms/registry-teleology. This ‘existentialist-
shortfall’ has to do with the fact that it will be ‘a waste of too much mental energy’ to be
verifying in detail the ‘apriorising–reference-of-thought-elements/apriorising–registry-
elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-
relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-
context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-
arrogation/assumptions/value-reference/teleology – of every interlocutor, and so mentally the
human mind has developed ‘a referencing scheme of trusting that involves closeness,
familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically
incomplete and can be undermined and usurped, but it is standard as it ‘saves mental energy
and time’. This ‘existentialist-shortfall’ is relatively inconsequential where interlocutors are mutually of prelogism-as-of-conviction-as-to-profound-supererogation or existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and even better when mutually of good supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism (than when one or the other is of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ even though the latter is relatively circumspect and ad-hoc in its misrepresentation of reality, and so its consequence with respect to the ‘existentialist-shortfall’ is rather limited as defect–of-logical-processing–or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance rather than registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–\langle-\text{as-Being-or-ontological-or-existential–defect}\rangle associated with postlogism, whether pathological/psychopathic or enculturated, and conjugated-postlogism). However, with the psychopathic/postlogic and social psychopathic case where compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism as perverted-outcome-sought-precedes-existentially-veridical-logistical-dueness is the underlying principle as vague-rhyming-or-copied-mimicry–or-formulaic-projection–or-projection–of–form–or-hollow–and–vague–vocalisation–or–subknowledging, this ‘existentialist-shortfall’ is highly consequential as it is the basis of the induced registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–\langle-\text{as-Being-or-ontological-or-existential–defect}\rangle; by wrongly and so comprehensively implying the ‘existential-reality’ of ‘non-veridical/vacuous <amplituding/formative>wooden-language–\langle\text{imbued—temporal—mere–form/virtualities/dereification/akrasiatic–}\rangle

otherwise by the rather non-veridical/vacuous implied meaningfulness and reference-of-
thought or otherwise by the non-veridical/vacuous implied meaningfulness and reference-of-

fallacious since such arguments cannot truly be of entailing-
<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness as they
require that others do not act likewise or their implications should be limited to given
target(s) and not be totalisingly-entailing, since their fundamental teleology is not
intemporal/not-of-totalising-entailment but speak more of temporal motive. In other words
meaningfulness and reference-of-thought is only veridical as an ‘ontologically-veridical

meaningfulness and reference-of-thought thus allows for an overall existential/being
framework/cadre of ‘non-veridical/vacuous distortion/perversion’ of meaningfulness in

The centrality of ‘concurrently-false-premising-of-meaning thread/tracing’ in the entire process of postlogism and conjugated-postlogism/preconverging-or-dementing-integration lies in the fact that it provides the ‘as

‘concurrently-false-premising-of-meaning thread/tracing’ arises can equally conspicuously be
understood at childhood psychopathy situation wherein the childhood psychopathy blatantly
attempts to initiate a dereifying narrative like in the case of spilling water on a chair
highlighted before to which if concurred to by the interlocutor will be the basis for the child to assume apparently normal logical contentions but fundamentally based on this distorted deceptive high-point of concurrently-false-premising as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. It is basically the same process with an adult psychopath but for the fact of the highly opaque nature of adult psychopath mental-disposition unlike a child psychopath, and as previously explained is ‘maturated’ in its theme on issues that are rather of serious import, ‘spatialising’ (to confound by not acting postlogically/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness within the same spatialisation of relevant social interlocutors, which may raise the hollow nature of its narratives from cross-examination), being ‘indirect’ (by increasingly appearing neutral and unmotivated unlike at childhood), increasingly ‘credulous’ (by effective eliciting of social threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as to subontologisation misquing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-conventioning-rationalising/temporal-enculturation where its ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are all false) and ‘crafty’ (with increasingly greater staging and performance: as the psychopath perceives instances of rebuttal of its postlogism not essentially in terms—as-of-axiomatic-construct of the rightness or wrongness of the postlogic acts in its personality development into adulthood, as a prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism
human-epistemic-abnormalcy/diminishing–preconvergence), eliciting the intemporal-disposition to ‘ontologically-reconstitute’/deconstruct the new ‘uninstitutionalised registry-worldview/dimension’… and so on, circularly up to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalised registry-worldview as abjectly-ontological (ontological-normalcy) as ‘it can’t be hollow-constituted’ by its mere ontological-completeness or ontological-abjectness or as-ontological-normalcy. This further highlights the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as validating the requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring decomplexifying/uninhibiting dementating/structuring/paradigming for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, in contrast to a ‘wrongly misconstrued universal human intemporal-disposition nature’ (which is rather a ‘functional construal/conceptualisation’ arising from intemporalisation/institutionalisation within an institutionalised registry-worldview/dimension as secondnatured but not beyond its uninstitutionalised-threshold) as it will fail to account and register for the ontological/being-construal-defect of the present as procrypticism which should enable superseding for the prospective transcendent institutionalisation secondnaturizing as deprocrypticism.

This explains how a ‘Différence-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ gives ontological-anchoring for a Derridean metaphysics-of-presence (due to human limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-

stranding-or-attributive-dialectics) of reference-of-thought’ in construing the reference-of-

meaningfulness-and-teleology’ is rather about the ontological-veridicality of reference-of-
thought. It should not be confused with the more familiar issue involving existentially
veridical logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation, and this doesn’t put-into-question the soundness/appropriateness or unsoundness/inappropriateness of reference-of-thought. Thus unlike in the instance of defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing wherein the superseding (and sound) reference-of-thought can only construe of the superseded (and unsound) as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to transcend into the superseding reference-of-thought in the very first instance before any ontologically-veridical pretence to mutual contention). It is based on perpetuating the precedingness/supersedingness/ascendency over reference-of-thought and meaningfulness of the intemporal-disposition as ontological over the temporal-dispositions; as the latter, going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor are inclined to ‘incrementalism-in-relative-ontological-incompleteness <amplitudes/formative>wooden-language—imbued—averaging—

Critically, the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology implications are utterly different between such a familiar logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation and a ‘Différence-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ as the latter calls upon de-mentation—(supererogatory—ontological—de-mentation-or—dialectical—de-mentation—stranding—or-attributive-dialectics) in setting up two dialectical reference-of-thought, wherein the one as prior/present/transcended/superseded is preconverging—or-dementing—apriorising-psychologism and the other as prospective/transcending/superseding is postconverging—or-dialectical-thinking—apriorising-psychologism. In other words, ‘Différence-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ is dealing with perversion—and-derived-perversion-of-
is no logical-basis for a positivistic mindset/reference-of-thought to convince a non-positivism/medievalism mindset/reference-of-thought that it reference-of-thought is better but for the fact that its better ontological-primemovers-totalitative-framework will in the middle to long-run be ontologically untenable thus ‘collapsing’ the non-positivism/medievalism mindset/reference-of-thought; and so reflecting ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>’ so-underlining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-of-conceptualisation. This is the only basis for establishing the relative ascendancy of divergent reference-of-thought (not to be confused with ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation convincing’ as this by definition will instead make circular references to a prior reference-of-thought that is already established and uncontested in the very first place; thus highlighting the notion that it is the veridicality of the prospective reference-of-thought that precedes and defines the pertinence of an exercise of ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation convincing’ whereby interlocutors already share this common reference-of-thought, and not the other way around).

Such a postconverging-or-dialectical-thinking–apriorising-psychologism over preconverging-or-dementing–apriorising-psychologism habituation (at their respective ‘uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-

It should equally be noted that just as no reference-of-thought will recognise itself as rather preconverging-or-dementing—apriorising-psychologism (from its own present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of itself as postconverging-or-dialectical-thinking—apriorising-psychologism) as we may appreciate from our relative vantage point being at a higher registry-worldview ontological-completeness-of-reference-of-thought, we will equally have a hard time recognising a preconverging-or-dementing—apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of our present positivistic registry-worldview as rather preconverging-or-dementing—apriorising-psychologism (as procrypticism/disjointedness-as-of-reference-of-thought) from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism higher registry-worldview ontological-completeness-of-reference-of-thought; as in both instances, the ‘Différence-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ highlights that the prior preconverging-or-dementing—apriorising-psychologism reference-of-thought faces a ‘Heideggerian (engaged)-destruktion’, as it is not about substituting our
at temporal-to-intemporal-dispositions individuations level of hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, which then allows for disambiguated ontological-primemovers-totalitative-framework with respect to individuals teleologies as being of any of the various temporal-to-intemporal-dispositions individuations (for instance, psychopath postlogic-backtracking-‘set-of-dereifying-hollow-narratives-and-acts’)-as-reflex-fleeting-logic, psychopath’s or postlogic interlocutor conjoining-looping-set-of-narratives as-reflex-cohering-logic, etc.). This effectively allows for ‘différance conceptualisation’ of hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and ontological-reconstituting-as-of-conflatedness/deconstruction analysis of intradimensional phenomena, and rather construed as of the conflation of the corresponding registry-worldview reference-of-thought transcendental dialectics. Such a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ thus goes on to encompass the de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) hermeneutically/reprojectively-educing-human-meaningfulness-and-teleology-into-the-existentialism-becoming of personhoods-and-socialhood-formation marking any registry-worldview reference-of-thought. The underlying idea here being that faced with incidental issues arising in various effective social contexts, the ‘ontological/intemporal de-mentation/structuring/paradigming approach’ is to have at hand a ‘universal cadre’ that conceptualises and is geared towards attending-to/resolving all such and other incidental issues as it is suprastructural to all such incidentals. That universal cadre with regards to issues of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation pointing to ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’, and so across all registry-worldviews/dimensions, is human-subpotency–

It also points out that the exercise of institutionalisation/intemporalisation is not an exercise of human emanance transformation from temporal-dispositions to intemporal-disposition (as we wrongly imply by intuition) but a registry-worldview’s/dimension’s institutionalisation or secondnaturing exercise, explaining why we are continually the same species from utter-institutionalisation to prospectively deprocrypticism. This point can be demonstrated by the fact that when a prospective/transcending/superseding registry-
factoring it in, as ‘knowledge-notionalisation’ or knowledge construct not only based on intemporal idealisation but that also factors in how the temporalities will relate to meaning, and be conceptually preemptive of human temporality/shortness since human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor can’t be emanantly/becomingly/solipsistic transformed as ‘of intemporal-disposition only’ (it’s a lost cause as that is not our firstnatureness since we are effectively of temporal-to-intemporal-dispositions given our human-subpotency ever limited-mentation-capacity relative to the full-potency of existence as existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supercratory–epistemic-conflatedness) and avoid articulating knowledge as if the human mentation is by reflex only intemporal of emanance reference-of-thought when in reality it is of temporal-to-intemporal-dispositions, and so by way of deferential-formalisation-transference and percolation-channelling. Effectively given that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, the determinant nature of intemporal/ontological constructs induced by institutionalisation with respect to social-stake-contention-or-confliction is always bound to elicit two classes of human mental-dispositions with respect to it whether as a temporal extricatory de-mentating/structuring/paradigming or as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming, and knowledge-notionalisation is grounded on addressing meaningfulness insightfully in these two respects. The veridical insight to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
imbued-temporal-to-intemporal-dispositions–existentialism-form-factor lies in the fact that
the cross-section of humankind at any institutionalisation is institutionalised at its socially-

intemporality/longness is a pathway from base-institutionalisation to universalisation to
positivism and prospectively deprocrypticism as the fulfilment of ontological-normalcy/postconvergence potency, and any pretence at a positivistic registry-worldview to
be non-transcendable (in terms–as-of-axiomatic-construct of ‘‘Différance-disambiguation-of-
ontologically-veridical-meaningfulness-and-teleology’) is untenable as the same could be
implied at base-institutionalisation and universalisation, which obviously we won’t recognise
and acquiesce to, implying the temporal-difficulty of dealing with the transcendentental

devising and devices’ already speaks a lot about human potential and capacity (and are
basically our virtue with no need for ‘false idealisation’ that just induces ‘vain-temporality

increasing realism, because they did away with deities and spirits in recognising that human
potential lies in what humans can do themselves, and strived even more by doing away with
essences in recognising that understanding effectively what happens in the world is what
gives power and effectiveness over nature, a further extension of rational-realism is to do

Going by our mirage/illusion-of-the-present/present-consciousness we will possibly think otherwise, but this rather points to how our forerunners felt psychologically when their worlds built of deities and later essences were being put into question by ‘an increasing realism insight’ of an intrinsic-reality that is ontologically given and in ontological-normalcy/postconvergence with respect to us, with the implication that it is our psyche that ‘gives-in’ to intrinsic-reality and not the other way around.

realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflicatedness, as the given
subject-matter in a full-blossoming unison of second-order ontology with first-order
ontology. Insightfully, superseding–oneness-of-ontology points out that human ascription of
knowledge into various categories as science, humanities, arts, etc. is actually an unnatural
differentiation that has to do with arbitrary human categorisation out of practicalities of
division of labour and organisation, while equally leading to confusions. Actually knowledge
as a whole imply the two basic elements: its conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge conceptualisation and causal effectiveness can successively be construed in three respects; specific, intermediary and general, with all aspects of conceptualisations being notionally philosophical as providing meaningful insights while all aspects of causal effectiveness provide confirmatory and predicative-insights to meaningful insights. (Interesting it is important to note that empiricism speaks of the possibility of knowledge revelation by the inherent nature of the subject-matter and not an abstract approach as often naively construed; with the implication that empiricism can be construed as deriving from a confirmatory analysis of a mere insight, observation or experiment depending on the inherent nature of the said subject-matter, so long as this then allows for ontological-primemovers-totalitative-framework.) Thus notionally speaking all human knowledge is philosophical knowledge as being about meaningful insights. For practicalities, the general basis for establishing conceptual pertinence as of the more general abstract notions of knowledge is attributed to the philosophical disciplines (involving philosophy and the philosophies of subject-matters including sciences, and its extension in the humanities and social sciences) even though in further practical terms such construal will be punctually undertaken as well when relevant to specific disciplines of immediate cause-and-effect construals/conceptualisations. This equally practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic),
the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation – logical-coherence – causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasing or overemphasising doesn’t speak of a change of ontological-veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of meaningfulness-and-teleology but naively purported to be answered wholly as of a second-order ontology terms. Broadly speaking philosophy as the first-order ontology (acting as a cog) has been more about providing the overall scope for meaningful insights and the broader conceptual background for other subject-matters while science and other second-order ontology disciplines (as the wheel that meets the ground) draws on a sound and broad philosophical conceptual background to articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round. The reality is that if science was the best method to answer philosophical questions as of its subject-matter, then it would have already taken over from philosophy as
practised and the reverse holds true as well, as in reality it is all about human practical organisation in construing a superseding-oneness-of-ontology while dealing with our given limited-mentation-capacity-deepening-(*amplituding*/*formative*-*epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). The fact is science is de-mentatively/structurally/paradigmatically bound to construe causal effectiveness as of the inherent nature of its domains of reality and philosophy is fundamentally conceptualising by its very nature and providing the broad conceptual background for all human knowledge with the implication that without such conceptualisation the historical insight for the need and upholding of the sciences and scientific method wouldn’t have come about while equally defining the limits of what science can achieve. Insightfully and beyond their practical differentiations, with all knowledge actually being conceptually philosophical, a lot of science is actually a sort of impromptu and punctual heuristic philosophy at sciences subject-matter level. So it is rather critical here to distinguish between a human denotative and segmenting exercise (as not determining inherent reality) which is conventioned knowledge and the inherent connotation of the reality of knowledge as the superseding knowledge ontology inherent structure. In that sense, one often misconstrued notion with respect to notional philosophy is that it is not as successful as the sciences, which is a naïve conceptualisation as the very idea of such notional philosophy is its conceptualising irrigation of second-order ontology with the more immediate and ontological-primemovers-totalitative-framework success being not only a success of the second-order ontology but a percolated success of notional philosophy as of its historical development of human conceptualisation in inducing the second-order-ontologies and irrigating them with meaningful-insights, whether we talk about the sciences, jurisprudence and law, ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of philosophy as mainly about great philosophical thinkers is incomplete as we
equally need to understand the ‘organic-knowledge’ as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of other thinkers as they were developing second-order ontologies, and analyse such thoughts in philosophical terms and make these part and parcel of philosophy without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and now’. ‘Notional philosophy’ as articulated above is the very profundity behind the human (‘social framework of intersolipsistic deambulation’) imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today’s second-order ontologies, as inventing the overall
knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human amplituding/formative/epistemic-totalising~renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical amplituding/formative/epistemic-totalising~renewing-realisation/re-perception/re-thought as of a prospective mindset/reference-of-thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn’t recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the superseding drive behind the ‘inventing/creating’ of all human technicalities/mechanical-knowledge refers to the mental-disposition to break from ‘ordinary apathy and constraining framework of secondnatured institutionalisation’ to rearticulate the

Central to such ‘ontological-tautologisation/existential-reference conceptual-scheme’ is the idea of superseding—oneness-of-ontology, as obviously there can’t be any predication-and-postdication without a ‘sole ontology’ with a ‘sole intrinsic ontologically-veridical-meaningfulness’ (otherwise meaningfulness will be chaotic-and-meaningless), not to be confused with human constantly evasive meaningful grasp of intrinsic-reality/ontology having to do with our relative-ontological-incompleteness-induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ due to our limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation), with such a conceptual scheme thus enabling aetiologisation/ontological-escalation. Secondly, with respect to the psychological/psychoanalytical basis of meaningfulness representation (placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology), with regards to the fact that the ‘reflex supplanting–conviction-as-to-
profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mental-disposition’ is a ‘purely abstract construct’ of reference-of-thought–categorical-imperatives/axioms/registry-teleology representation of meaningfulness but then without ‘existential reality validation’ is wrong (particularly beyond the scope of a registry-worldview’s institutionalisation reference-of-thought where intemporality//longness-of-register-of-meaningfulness-and-teleology has been more or less secondnatured, at its uninstitutionalised-threshold) as this fails to reflect the fact that the same-terms-of-
primitive/unsoundness-or-inauthenticity-of-reference-of-thought/slantedness and dialectically-out-of-phase'; from whence logical-processing-or-logically-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation then arises in protraction in an altogether different construction only if appropriate/soundness/authenticity-of-reference-of-thought of meaningfulness is established, dismissing hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>/non-veridical/vacuous constructs of reference-of-thought—categorical-imperatives/axioms/registry-teleology as perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with the apriorising—registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology as non-existent and bogus). With respect to social-and-confliction-stakes 'the same-terms-of-expressions/seemingly-same-implied-meaningfulness’ have different implications with respect to whether the interlocutor is an supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor or postlogic/psychopathic/postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> interlocutor or conjugated-postlogic/conjoining-looping-set-of-narratives interlocutor, and is what makes it a requisite to construe as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existent-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring—for-relative-ontological-completeness. We can’t be certain about the ontological-veridicality of ‘separate dots as separate narratives’ themselves as the 3 different interlocutors can all express ‘the same-terms-of-expressions/seemingly-same-implied-meaningfulness’ going by their mental-dispositions with the latter two, postlogic/psychopathic/postlogic-backtracking—<iterative-
looping-‘set-of-dereifying-hollow-narratives-and-acts’> interlocutor or conjugated-postlogic/conjoining-looping-set-of-narratives interlocutor, being deceptive by their mental-dispositions (recursively with postlogic/psychopathic, progressively with exacerbation/opportunism and regressively with ignorance/affordability). However, we can ascertain the true motive and ontological-veridicality of the 3 types of interlocutors by the ‘trace of their dots as separate narratives’ in revealing their true mental-dispositions and motives, as of the circularity/recurrence/repetition/repeatability as of ‘existential-transitioning-or-iterability-trace-of-narratives-as-dots/existentia-contextualising-continuity-reification/superseding-oneness-of-ontology’ quickly reveals that however coherent and sound each separate narrative of the postlogic/psychopathic/postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> interlocutor or conjugated-postlogic/conjoining-looping-set-of-narratives interlocutor (particularly as recursive and progressive), the ‘perception-together-in-succession or as-a-trace’ of their ‘expressed dots as separate narratives’ reveals ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation that shines the light on the fundamental driver/ontological-prime movers-totalitative-framework of the postlogism/psychopathic and conjugated-postlogism interlocutors as well as the reality of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing—apriorising-psychologism whereas the same exercise with supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor will show a coherence of the trace-of-dots-as-narratives and actually in the case where a supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor is actually the target of such postlogism-slantedness inducing ‘faulty-mentation-procedure-deception-or-urge’ about the latter, that trace-of-dots-as-narratives from the supplanting–
conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism and the postlogic/psychopathic and/or conjugated-postlogic interlocutors will reveal the ontological nature of the ‘faulty-mentation-procedure-deception-or-urge’. The reason why ‘separate dots as separate narratives’ lead to postlogic and conjugated-postlogic faulty-mentation-procedure-deception-or-urge is that their extrapolation is actually an extrapolation of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness as if supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ whereas retracing of the mental-disposition foregoes elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of separate dots as separate narratives, and thus is existentially involved in construing the reality to the point of revealing ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation in the trace-of-successive-dots-as-(hollow)-narratives that shines the light on the fundamental driver/ontological-primemovers-totalititative-framework of the postlogic and/or conjugated-postlogic interlocutor as well as the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of its narratives. That’s why spatialisation, indirectness and craftiness are critical to postlogic and conjugated-postlogic mental-dispositions so as to evade their prospective interlocutors ‘putting one and one together as will arise in an existentially veridical context and so that their interlocutors should rather undertake elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity the purely abstract meaning as
seemingly sound separate dots as separate narratives but which are non-existentially real, rather than existentially trace the successive dots as separate narratives. This is what enables the establishment, as of the circularity/recurrence/repetition/repeatability as of ‘existential-transitioning-or-iterability-trace-of-narratives-as-dots/existentia-contextualising-contiguity-reification/superseding-oneness-of-ontology’, at the relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>-, or-temporal-preservation-as-pseudointemporality-preservation), defining the typical threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism psyche of successive uninstitutionalised-thresholds (beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> manifestation intradimensionally, and so-construed from the perspective of their corresponding superseding/transcending/prospective institutionalisations) as recurrent-utter-uninstitutionalisation preconverging-or-dementing-psyche, ununiversalisation preconverging-or-dementing-psyche, non-positivism/medievalism preconverging-or-dementing-psyche and our uninstitutionalised-threshold as procrypticism/disjointedness-as-of-reference-of-thought preconverging-or-dementing-psyche. This equally reflect how the childhood psychopathy psyche is preconverging-or-dementing–apriorising-psychologismly perceived though at childhood temporal-dispositions-conjugated-postlogism/preconverging-or-dementing-integration to psychopathy is not significant as its perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is still universally transparent as delirious and thus it doesn’t elicit temporal-preservation by conjugated-
postlogism/preconverging-or-dementing-integration, since it is not spatialising, maturating, and being sufficiently indirect, credulous and crafty to be non-transparent by its motives and acts. Ultimately, this highlights generally that at relative-ontological-incompleteness-induced–threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychoanalysis’-threshold (as-it-is-thus–‘in-wait’-for-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–or-temporal-preservation-as-pseudointemporality-preservation)s or uninstitutionalised-threshold, hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>/extrapolating/inferring to derive essence-of-meaningfulness is not a credible notion with respect to an human animal of temporal-to-intemporal-dispositions wherein ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ is bound to be perverted by temporal-dispositions, though within institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation this is secondnatured, for instance, with respect to the fact that a medieval postlogic phenomenon like witchcraft cannot be credibly implied both in terms–as-of-axiomatic-construct of eliciting abstract/extrapolating/inferring hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> nor existential-transitioning/iterability-tracing-of-dots-as–{(hollow)narratives in our present institutionalised positivistic registry-worldview. Vitally, with regards to postlogism and conjugated-postlogism, it is always about ‘falsely and parasitisingally/co-optingly’ staking a claim to the reference-of-thought in order to wrongly elicit its implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology to a prospective interlocutor, and so recursively (psychopathic/postlogic-character), progressively (conjugated-exacerbation and conjugated-opportunism characters) and regressively
(conjugated-ignorance and conjugated-affordability characters). Generally, this insight harkens back to the previous elucidation with regards to the BODMAS characters where the pure arithmetic operation as a deductive/inferring/extrapolation exercise is no longer valid when the fundamental axiom is breached due to a pathological condition, and with the ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) resulting in other temporal characters, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, operating arithmetic as if the condition never existed; and thus there is a need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness representation, this further confirms the fact that temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) and intemporality/longness (longness-of-register-of-meaningfulness-and-teleology) are both basically the same notion of intemporality, but with temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) being rather in various grades of poor execution of intemporality/longness (longness-of-register-of-meaningfulness-and-teleology) but that in so doing such temporal-dispositions of individuation ‘falsely retaining their teleology/purposefulness’ as if of intemporal-disposition leading to their ‘pseudointemporality’ (and so with respect to their apriorising-registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), inducing de-mentative/structural/paradigmatic registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> where such false-retention
conceptual-scheme’. The notion of temporality/shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality/shortness is much more than morality as derived from intemporality/longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporality’ of such individuations induces ‘notional-disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (at individuation-level as relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, as-it-is-thus–‘in-wait’–for-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, or-temporal-preservation-as-pseudointemporality-preservation, which when taken into preservation, as temporal-preservation, is rather in pseudointemporality, while with respect to a traditional conceptualisation it is wrongly ‘vaguely imbued with a dispositional-drive-as-teleology’ as bad, as evil, as wicked… etc. Now, the consequences of pseudointemporality individuations (postlogism-slantedness, postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance<including-virtue-as-ontology>s) are reflected developmentally in the social fabric which is a ‘framework of social-stake-contention-or-confliction’ as the transference, in dynamic-cumulative-aftereffect, of such pseudointemporality individuations into ‘individual
personalities dispositions and social dispositions’ induces correspondingly subontologisation in ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (at individuation-level relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, as-it-is-thus–‘in-wait’–for-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, –or-temporal-preservation-as-pseudointemporality-preservation, on ‘social ontologically-veridical-meaningfulness’ and is the basis, in dynamic-cumulative-aftereffect, of given registry-worldviews/dimensions vices-and-impediments, and how these can be superseded/transcended, because the reality is that humans have transcended retrospectively to the present and there is no particular reason to think that there can’t be prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ will further highlight in contrast to the present ‘psychology of qualification/qualification-schemes’ that human psychology is actually much more of a becoming dynamic construct, rather than static, which wholly readjusts to human deepening grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective, present and prospective development; that collectively-and-inclusively-individuals-and-their-social-constructs do have latitude for the choices they make in existence more than and beyond the limits of personality traits and social character, and further that the human mind is ‘not
irresponsible’ with respect to given personalities dispositions (whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a ‘psychology of qualifications/qualification-schemes’ induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, human secondnaturing is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled ‘an animal in many ways’ to emancipate itself developmentally across epochs such that the ‘insightful depth’ of such a developmental understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as it recognises that (and explains why) the mental-disposition/consciousness-awareness-teleology of a recurrent-utter-institutionalised mindset/reference-of-thought varies from that of a based-institutionalised/ununiversalised mindset, the latter from that of a universalised/non-positivistic-or-medieval mindset, the latter from that of a positivistic/procrypticism mindset/reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is the central concept for such a succession of human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ renewal retrospectively, presently and prospectively, with ontological-normalcy/postconvergence teleology being the central determinant driving and defining human psychology construed by its metaphysics-of-absence as diminishing–human-epistemic-abnormalcy/diminishing–preconvergence. Interestingly, psycho-ontological-tautologisation/psycho-existential-reference as a human disposition for correspondence/equalisation/squaring-off with existence/intrinsic-reality/ontology, as of sub-potency-to-full-potency as qualified by recomposuring from shallow limited-mentation-capacity-{as of relative constitutedness} to deeper limited-mentation-capacity-{as of relative conflation}, speaks of the mind as an abstract ‘teleologically imbricated tautologisation/existential-reference’ (‘teleologically imbricated tautologisation/existential-reference’ implying: striving for ontological-normalcy/postconvergence, in-lockstep/intertwining of success-and-pseudosuccess/failure as institutionalisation-and-pseudo-institutionalisation/uninstitutionalised-threshold), as the teleological driving-seat of the body validating dualism as ‘imbricated dualism’; the human mind being rather ‘an abstract imbricated transcendable/maximalisable placeholder-setup-of-tautologisation/placeholder-setup-of-existential-reference for prospective ontological-normalcy/postconvergence superseding the human body, as entailing human existence’. This points out that the potency for ontological-normalcy/postconvergence is tautologically inherent in our being construct, and that abstract tautologisation/existential-reference as human teleology is the mind as ‘human <amplituding-formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–

Existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality in sync with existence ‘speaks of threaded-or-intertwined subsumed referencing of all in existence’ beyond just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, thus validating philosophically such approaches in physics as string-theory concepts lending support to the string phenomenology approach. This conceptually implies that the ‘all-in-one/oneness’ (of ontology) implied of existence supersedes our elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity conceptualisations, and while these are ‘mental tools of analysis’ we have in grasping knowledge, as elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring of elucidation outside existential-contextualising-contiguity these are rather ‘sub-par to the full grasp of existential reality’ (given that our limited-mentation-capacity-deepening-(amplituding/formative)epistemic-totalisingly-as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) as of our relative-ontological-incompleteness-induced,—‘threshold-of—nonconviction/madeupness/bottomlining—as-to-shallow-supererogation—
preconverging/dementing—apriorising-psychologism’, will often fail to reference the underlying being-construal/existential-reference/existential-tautologisation ‘for a contextualising-contiguity of existence-potency,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality that syncs with existential reality’. For instance say in the case of the BODMAS characters highlighted before, where the other characters ignore the given pathological condition in simply operating arithmetic rules, however, the inherence of existential reality will not be superseded simply by such elaboration—as-mere-extrapolating/constituting/abstracting/deducing/inferring of elucidation outside existential-contextualising-contiguity of arithmetic rules in protraction as ‘virtuality—or-Being-construal-as-abstract-construal—as-of-flawed-and-shallow-and-non-veridical-existential-reference’, as such arithmetic rules of extrapolating/constituting/abstracting/deducing/inferring will have to be adjusted-in-a—‘threadedness/imbricatedness/recomposuring’ like subtracting 1 to A’s results to sync with the existential reality implications of A’s pathological condition of wrongly adding 1 to the correct result of arithmetic operations), and as metaphysics-of-presence (i.e., ‘virtuality—or-Being-construal-as-abstract-construal—as-of-flawed-and-shallow-and-non-veridical-existential-reference’) metaphysics-of-absence is rather the ontological-normalcy/postconvergence correction-tool of postdication, as-of projective-insights for
predication, which is equally construed as ontological-reconstituting—as-of-conflicatedness/deconstruction (i.e. implying ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’). This is more of a simplistic though conceptually correct demonstration, and the implications to meaningfulness can be much more elaborate and as explained further below, with the notion of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity as ontologically-veridical only as abstract-construal (such as the abstract arithmetic operations) but its wrong ontological derivation in lieu of being-construal/existential-reference/existential-tautologisation is ontologically wrong/non-veridical as it leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ (wherein the elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity in protraction of the abstract arithmetic operations wrongly overlooks existential-reality as of being-construal/existential-reference/existential-tautologisation given by the existential pathological condition), instead of ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-
aftereffect/aftereffect’ as the ontological-veridicality of being-construal/existential-reference/existential-tautologisation (which in the face of the ‘existential pathological condition’ as being-construal/existential-reference/existential-tautologisation upholds existential-reality by way of imbricatedness/threadedness/recomposuring by subtracting 1 from A’s result to existentially account for its pathological condition). It is thus not a coincidence that a Deleuzian approach and string phenomenology approaches intuitively develop the same insight about the need for ‘creative-spaces-of-expression/metaphors’ to be able to conceptualise by projective-insights on topics that critically highlight this more fundamental nature of existential reality as a contextualising-contiguity of existence-potency,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality so-construed from the perspective of our limited-mentation-capacity-deepening—(<amplifying/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) as of our relative-ontological-incompleteness-induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’, in order to avoid elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity inducing ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. It is important to grasp here that elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity are not ontologically wrong concepts in themselves as of abstract-construal but are ontologically wrong when implied in lieu of being-construal/existential-reference/existential-tautologisation as this leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-
reference’ with respect to ontological-veridicality and in so doing attaining ontological-veridicality or veracity/ontological-pertinence as a being-construal/existential-reference/existential-tautologisation. This can readily be appreciated when we grasp that we cannot just operate basic principles in producing scientific research for instance, as there is a whole reality of a ‘honing exercise’ or recomposure (in superseding our ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference/rexistential-tautologisation. Equally, ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ is metaphysics-of-presence that is the ‘honing exercise’/recomposure backdrop for metaphysics-of-absence as ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ to generate the art-forms/aesthetics as being-construal/existential-reference/existential-tautologisation, by

not mistakenly be confused with the notion of an abstract-construal since this is ontologically non-veridical as it will lead to virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference; as reference-of-thought as being-construal/existential-reference/existential-tautologisation makes reference to the comprehensive implications existentially with respect to mental-dispositions along the apriorising–registry-elements /anchoring-of-meaning-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, and involving the potency of both consciousness-awareness-teleology representations and implications, for instance, the difference of the reference-of-thought as an alchemist and a chemist is much more than just an on-occasion/incidental difference (difference in abstract-construal) with respect to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of meaning but carries derived being-construal/existential-reference/existential-tautologisation differences with respect to their consciousness-awareness-teleologies and registry-worldviews/dimensions <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. In fact, ontological-reconstituting–as-of-conflatedness/deconstruction which always refers rather to the issue of reference-of-thought is actually of ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect’ nature and it is about implying a prospective reference-of-thought, rather than just a différance
(differentiation) as within the same prior/given reference-of-thought as of a basic abstract-
construal. This is one of the reasons for its misapprehension as it implies an overall change in
the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’
into question, contrary to the traditional analytical expectation of selective-or-limited
critique/contestation usually of a non-transcendental nature. Insightfully, the overall relation
of deconstruction as ontological-reconstituting–as-of-conflatedness to the existential
framework of ontological-veridicality should further allay the confusion. Deconstruction is
actually tautological with respect to intrinsic reality/ontological-veridicality because it is
always about the same existential reality being dealt with by improving human limited-
mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly, -as-to-
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as shallow-
limited-mentation-capacity to deeper-mentedation-capacity ontological-reconstituting–
as-of-conflatedness; generating differing consciousness-awareness-teleology outcomes of the
same existential reality whether talking of deconstruction at the registry-
worldview/dimension or intradimensional level or individuation-level. Since it is always
about the same existential reality, in effect the readjustment for intrinsic-reality/ontological-
veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment
(psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with its
increasing-ontological-completeness or diminishing–human-epistemic-
abnormalcy/diminishing–preconvergence as implied by an ontology-driven ‘postconverging-
or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural
psychology-of-dynamics’, wherein placeholder-setup/mentation-representation/mentation/consciousness-awareness-teleology scheduling ‘is not inherently
sanctimonious’ (the naïve way every registry-worldview tends to relate to its mental-
disposition) but is determined and shaped (by way of ‘de-mentation-
(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’) by construed ontological-veridicality. Since it is always about the same existential reality but improving-rather-as-cumulating/recomposuring human limited-mentionation-capacity-deepening-

<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory—epistemic-conflatedness, it is thus analysed as maximalising-recomposuring-for-relative-ontological-completeness as a mental-rescheduling and goes by the ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-
apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ unlike an elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which will wrongly hollow-constitute and induce ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-
non-veridical-existential-reference’. So the tautological implication of deconstruction as ontological-reconstituting–as-of-conflatedness is all about human rescheduling of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in deepening its grasp of a superseding–oneness-of-ontology/intrinsic-reality that has been so all the time, and so critically talk of transcending from shallow to deeper superseding–oneness-of-ontology is no more than about human

The implications at the individuation-level is that our limited-mentation-capacity, as of our temporal-to-intemporal mental-dispositions, in the construal of intrinsic-reality/ontological-veridicality tends towards temporality/shortness as of constitutedness that ultimately fails hence inducing virtualities. And so, when initially striving to explicate the coherence of a given ontological/being phenomenon or explicating its coherence with other ontological/being phenomena or more profoundly explicating its coherence with the overall existential ontological/being phenomenon. This is inherently-and-intuitively underscored by our underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue for the <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality articulation’ such as

construed to compensate for our temporality/shortness disposition associated with
constitutedness, with this compensating exercise construed as of ‘presencing—absolutising-
identitive-constitutedness’ or more consummately as conflation/conflicatedness. This
presencing—absolutising-identitive-constitutedness and conflatedness compensation
mechanism, given our limited-mentation-capacity for the construal/conceptualisation of
intrinsic-reality/ontological-veridicality/ontology, equally clarifies why maximalising-
recomposuring-for-relative-ontological-completeness (as intimately tying down our limited-
mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of
existential-reality/ontology/intrinsic-reality/ontological-veridicality) takes precedence over
elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-
outside-existential-contextualising-contiguity (as letting our limited-mentation-capacity by
unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-
reality/ontology/intrinsic-reality/ontological-veridicality). With regards to logic and by extension mathematics, this equally points out that logic as well as mathematics (and for that matter all other knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue like time, space, virtue, historiality/ontological-eventfulness/ontological-aesthetic-tracing, instantaneity, cogency, methodology, etc.) are abstract constructs that underscore the underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation by presencing—absolutising-identitive-constitutedness or conflatedness ‘intuitively-assign projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ in the construal/conceptualisation of intrinsic-reality/ontological-veridicality/ontology. That is, these are notions that reflect existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness as of the underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, thus reflecting the registry-worldview’s/dimension’s reference-of-thought ontological-performance-<including-virtue-as-ontology> as of its historiality/ontological-eventfulness/ontological-aesthetic-tracing as so-analysed as from notional–deprocrypticism! (It is important in this regard to distinguish what is implied by ‘incidenting’ not to be confused with ‘instantiation’, as incidenting implies an ‘abstract construction’ of the implication of logic or any ‘knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue’ that may or may not be of existential-instantiation, whereas instantiation refers actually to ‘actual existential instance’. It is critical to uphold this distinction with respect to the existentially contingent nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all ‘intersolipsistic-intercessory-notions/notional~referential-notions’/knowledge including our grasp of logic or mathematics. As ‘abstractly-speaking’ there is no absolute certitude that in say a million years from now ‘a given as of yet unelucidated notion’, as a further imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the ‘existential-instantiations’ validity of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue including logic and mathematics as we know of them today. Such distinction as of more immediate concern is to point out the subsuming precedence of existence as of its inherent intrinsicness beyond-and-over human construal/conceptualisation of meaningfulness-and-teleology about it as at best the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation of existence’; noting here as well for coherence sake that such a statement cannot be made about existence itself as the absolute a priori, simply because any arising existential-instantiations no matter the strangeness or abnormality to what is
notions/articulations/virtue) can then contribute in furthering its elaboration (as of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness), but it wouldn’t work out the other way round on the basis of simple methodological mimicry starting out from the mimicked construal/conceptualisation of logic and mathematics (and any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue) on the naïve goal of then grasping a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of a given <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. For instance, the need to develop a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the specific biology <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as DNA-based genetics that explains genes and genetic principles is ontologically preceding and defining of how the knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of mathematics, logic, information processing, etc. can further contribute in elaborating DNA-based genetics but it is rather naïve to think mathematics, logic, information processing or for that matter any other knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue like ‘mere research methodologies lacking critically the requisite ontological cogency’ can by themselves develop a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of a given <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by such vague methodological mimicry. The latter at best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-study where the positive or negative sanctioning by ontological-primemovers-totalitative-framework of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is not immediately perceptible but rather remote like in the human sciences and to some extent as well with some studies in the natural sciences (where for instance the overall cogency of the whole experimental framework relative to the conclusions advanced of many a research study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or statistical methodological analysis was to be introduced with regards to the underlying articulation herein and based say on an ‘arbitrary historiality/ontological-eventfulness/ontological-aesthetic-tracing grounded methodology on the basis of just vague impression’ it will rather be conceptual patterning. What is required is an underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology (as implied by this author herein, as of ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence/Doppler-thinking as it elicits human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’). The contention being that studies and research that do not develop their conceptual formulations validly and succinctly as the underlying framework of the <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-
veridicality but simply expect to dangle/associate methodologies including statistical and
dependent analyses are rather involved in vague conceptual patterning as of reference-of-
through constitutedness. This insight is critical with respect to the validity of interpretations
and conclusions in many experimental and study frameworks in the social sciences often
‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’
to which the implications of statistical and mathematical methodologies and analyses are
naively brought to bear. This further speaks in the bigger scheme of things, of the need for
the articulation of what will be a ‘fully intrinsic-reality/ontological-veridicality

science’ as futural Being-development/ontological-framework-expansion–as-to-depth-of-

with the constructs being transcended. The reason is rather straightforward as there is a ‘mental/psychoanalytic investment’ behind the construal of meaningfulness in a given way within a registry-worldview’s/dimension’s reference-of-thought defining its ontological-capacity with respect to inherent intrinsic-reality superseding oneness-of-ontology. Where its ontological-capacity is limited is known as its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, and includes the following registry-worldviews/dimensions recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrysticism. At the point of relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ or uninstitutionalised-threshold meaningfulness in the registry-worldview/dimension is related to as if there isn’t any relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism (beyond-the-consciousness-awareness–teleology-<in-existential-extrication-as-of-existential-unthought>) hence inducing uninstitutionalised-threshold, as it is impossible to critically extend ontological-capacity on the basis of the same reference-of-thought/psyche/psychological—dementating/structuring/paradigming but for a new reference-of-thought/psyche/psychological—dementating/structuring/paradigming with respect to existential reality to enable prospective institutionalisation over the uninstitutionalised-threshold with the result that all prospective institutionalisations are equally about annulling corresponding uninstitutionalised-thresholds; whether annulling notions of deities, sorcery,

preempting—disjointedness-as-of-reference-of-thought opened-construct-of-meaningfulness-

syncretising/circularity/interiorising/akrasiatic-drag are shown to be of prior relative-
ontological-incompleteness-of-reference-of-thought and thus ontologically-speaking our
logical-dueness doesn’t even arise, no more than the logical-dueness of a non-
positivism/medievalism mindset arises as with respect to medieval postlogism phenomenon
like notions-and-accusations-of-sorcery as in both cases ontologically-veridical
meaningfulness-and-teleology exists beyond their <amplituding/formative>wooden-
language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-
prospective-apriorising-implications>) as of the respective deprocrypticism as preempting—
disjointedness-as-of-reference-of-thought and positivism reference-of-thought that carry the prospective relative-ontological-completeness-of-reference-of-thought opened-construct-of-meaningfulness-and-teleology. Ultimately, the very transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness-of-reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness-of-reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior reference-of-thought. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; but then humankind has always been called upon to show itself capable of surperseding/surpassément for
prospective possibilities to avail. This is exactly what underlies the notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in that relative-ontological-incompleteness-of-reference-of-thought ‘is not a logical issue/problem’ but ‘a Being/existential/ontological/axiomatic-construct problem’ with its de-mentative/structural/paradigmatic implied vices-and-impediments, as it is rather an issue of uninstitutionalised-threshold as of recurrent-utter-uninstitutionalisation uninstitutionalisation requiring base-institutionalisation institutionalisation, ununiversalisation uninstitutionalisation requiring universalisation institutionalisation, non-positivism/medievalism uninstitutionalisation requiring positivism institutionalisation, and our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation requiring prospective deprocrypticism institutionalisation as preemtping—disjointedness-as-of-reference-of-thought institutionalisation, and so rather as of a transcendental habituation exercise construed as ‘ontological-resetting’ of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of relative epistemic-abnormalcy/preconvergence for relative ontological-normalcy as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) stranding dynamics. A ‘relative-ontological-completeness-of-reference-of-thought’ implies ‘a new all-pervasiveness of reference-of-thought–categorical-imperatives/axioms/registry-teleology as the axiomatic-construct of meaningfulness-and-teleology’ as a prospective institutionalisation reference-of-thought. Thus a reference-of-thought is an all-pervasiveness of reference-of-thought–categorical-imperatives/axioms/registry-teleology as the axiomatic-construct of meaningfulness-and-teleology; explaining why it is de-mentatively/structurally/paradigmatically non-derogable as of its state of prospective relative-ontological-completeness-of-reference-of-thought, with such implied derogation of such ‘all-pervasiveness of reference-of-thought–categorical-
virtue’ that brings about prospective relative-ontological-completeness-of-reference-of-thought; construed as ‘ontological-resetting’ of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of relative epistemic- abnormalcy/preconvergence for relative ontological-normality as of de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) stranding dynamics ‘which is effectively the concatenated mechanism
that engenders sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing
towards prospective notional–deprocrypticism’. Thus this further explains the very thorny
difficulty of dealing with psychopathy and social psychopathy, because more than just an
individuation phenotype and incidental/on-occasion phenomenon, it speaks of a registry-
worldview’s/dimension’s our dimension, relative-ontological-incompleteness-induced,-
‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preempting—disjointedness-as-of-reference-of-thought as an overall de-
mentative/structural/paradigmatic resolution to the vices-and-impediments of our positivism–

perversion-of-reference-of-thought<-as-effectively-apriorising-in-

consider just arriving at ontological-veridicality/intrinsic-reality construal of such acts as of
the paradox of their universally implied prior relative-ontological-incompleteness-of-
reference-of-thought’ with the latter by itself becoming the grander problematic, more like
the relative non-positivism/medievalism relative-ontological-incompleteness-of-reference-of-
thought itself is the grander problematic with respect to the endemisation/enculturation of
notions-and-accusations-of-sorcery acts/occurrences, and so more than just an act or acts of
notions-and-accusations-of-sorcery construed as perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as revealing of the grander framework of vices-and-impediments inherent to the relative non-positivism/medievalism relative-ontological-incompleteness-of-reference-of-thought. Rather it is about articulating the ontological-completeness-of-reference-of-thought as ‘Being correction’ as of base-institutionalisation institutionalisation over recurrent-utter-uninstitutionalisation uninstitutionalisation, universalisation institutionalisation over ununiversalisation uninstitutionalisation, positivism institutionalisation over non-positivism/medievalism uninstitutionalisation, and prospectively deprocrypticism institutionalisation over our procrypticism uninstitutionalisation. Obviously a traditional approach of analysis of psychopathy (as so construed from this papers totalising-entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery were individuals will equally be wary of non-positivism/medievalism perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and will equally be inclined to palliation regarding notions-and-accusations-of-sorcery depending on circumstances; though obviously the ontologically de-mentative/structural/paradigmatic resolution in both instances is with respect to the necessary ontological-completeness-of-reference-of-thought in overcoming <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by prior/transcended/superseded non-positivistic or procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-

So perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> has always been recurrent in reflecting holographically<-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process because institutionalisation is not emanance transformation of temporal-dispositions as shortness-of-register-of-meaningfulness-and-teleology into the intemporal-disposition as longness-of-register-of-meaningfulness-and-teleology but designed to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards the intemporal-disposition, such that where institutionalisation reaches its design limits given human limited-mentation-capacity-deepening(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), the possibility for perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> arises with its corresponding enculturation/endemisation as uninstitutionalised-threshold in want for prospective institutionalisation as the ontologically-veridical de-mentative/structural/paradigmatic resolution. When that insight avails (a Derridean event), it is properly time to ‘trample’ the melee of common sense disposition for self-preserving extrication/temporal de-mentating/structuring/paradigming with the elicited intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming, as has been the case along and defining human history ultimately ushering our very own registry-

It is the idea of the ontological-primemovers-totalitative-framework of the latter over the former that will existentially/ontologically impose the latter, and not common/mutual logical-processing as logic is then ‘a lower, inappropriate and inherently defective level of meaningfulness-and-teleology processing’ in relation to ‘appropriateness-of-reference-of-thought-as-of-conflatedness processing’ (just as there can’t be logical intelligibility between a non-positivisit/medieval mindset/reference-of-thought of meaningfulness-and-teleology with a positivistic one); by its ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining as the correct functioning apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (the appropriateness-of-reference-of-thought-as-of-conflatedness) in the middle to long run construed as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). This equally validates the notion of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing as logical-incongruence of appropriateness-of-reference-of-thought-as-of-conflatedness and perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This is de-mentatively/structurally/paradigmatically the most elevated construct for the production of human knowledge as transcendental knowledge and as implied in its dissemination along formal constructs based on a de-mentating/structuring/paradigming for skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards intemporality, and not wrongly averaging of human thought in equivalence as logical-congruence of temporality/shortness and intempolity/longness-of-meaningfulness, such that knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since
solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as ‘intrinsic-reality/ontological-veridicality transcendent-enabling’ that allows what is intemporal as of mental-disposition to be effective by ontological-prime movers-totalitative-framework as of ontological and virtue constructs, and be imposed as knowledge. Thus it is critical to understand that the exercise of reconstituting ontological veridicality is a wholly maximalising-recomposing-for-relative-ontological-completeness in grasping ‘existential-contextualizing-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’, even when it would seem weird due to metaphysics-of-presence, and is creatively grounded on ‘on phased phases construed in mirroring the fundamental insane/postlogism-fitment of the childhood-psychopath perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> mental-disposition structure as it induces conjugated-postlogism/preconverging-or-dementing-integration later on and most effectively at adulthood psychopathy’. This fundamental structure of the denaturing nature of postlogism and conjugated-postlogism/preconverging-or-dementing-integration can be demonstrated with the blatantly obvious case of the childhood-psychopath even though the denaturing of its mental-disposition is relatively socially-universally-transparent (enabling an understanding-of-ontological-prime movers-totalitative-framework-of-the-underlying-phenomenon). In the case were in a ‘dereifying act’ water is spilled on a chair, and a visiting stranger (as-of-pseudointemporality by ignorance) not aware of the mental-disposition of the childhood-psychopath coming into the scene after the event and
sitting unknowingly on the soaked sofa, and was to frown and remonstrate against or possibly smack the innocent brother, such a stranger is in ignorance-conjugated-postlogism or conjugated-ignorance as its relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologism’ led it to align in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologismly (as-of-pseudointemporality) to the childhood-psychopath’s postlogic narrative, and so in ‘ignorance-temporal-preservation-as-pseudointemporality-preservation’, that it was the brother that spilled the water on the chair on purpose (noting that even at this level, for all practical purpose the visiting stranger’s meaningfulness is ‘supposedly in prelogism-as-of-conviction-as-to-profound-supererogation (as-of-pseudointemporality) but is rather effectively ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ with respect to the ‘denaturing postlogic-backtracking–<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’–with–‘successive-shifting-of-the-narratives-and-acts-foci’–construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase, of the childhood-psychopath’s meaningfulness is effectively in conjugated-postlogism and has ‘joined the childhood-psychopath in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologism and is preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase’ with respect to ontologically-veridical existential-reality as construed from ontological-normalcy/postconvergence, and further it state of ignorance speaks of its relative-ontological-incompleteness-induced,- ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism’ as procrypticism/disjointedness-as-of-reference-of-thought which can’t be overlooked for aetiologisation/ontological-escalation conceptualisation by the fact that the visiting stranger or more precisely an individuation of the type expressed by the visiting stranger (as-of-pseudointemporality by ignorance) might act the same way he acted in ‘metaphorically-a-million-and-one-instances-and-locales’ as aetiologisation/ontological-escalation, and this particular example symbolises why virtue is a ‘The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ and not ‘impression-driven/good-naturedness/wishfulness construct’ as reality is above all ‘effectivity’ by its manifestation. But then given the relative social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} at this childhood stage, it is more likely that the whole situation will be explained to the visiting stranger (as-of-pseudointemporality) and will assume mostly an incidental/on-occasion conjugated-postlogism effect in the contingent social space. The fact is at this childhood stage conjugated-postlogism will tend to be incidental and mostly arise as ignorance-conjugated-postlogism. (Such a construal can further be articulated not only in the case of ignorance as ignorance-conjugated-postlogism but equally as the child-psychopath develops into adulthood and is less and less socially-dysfuntional and social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} of the postlogism is lost socially with its maturation/spatialisation/indirectness/credulity/craftiness, giving rise to the conjugated-postlogism cases of conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation by temporal-dispositions where the effect is ‘more than just benign and incidental/on-occasional with dramatic social consequences and as there is further eliciting of enculturated postlogism

preconverging/dementing–apriorising-psychologism are construed in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing as of subtransversality—apriorising/axiomatising/referencing(*as-of-pseudointemporalities;
pseudointemporality)’ as instigated by postlogism/enculturated-postlogism in protraction as temporal-preservation-as-pseudointemporality-preservation that tends to generate threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism reflecting the uninstitutionalised-thresholds at institutionalisations’ uninstitutionalised-threshold. Basically, from a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness insight, the supratransversality—apriorising/axiomatising/referencing contends about the perversion-of-reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of the subtransversality—apriorising/axiomatising/referencing which is in protracted-pseudointemporality; more like a deprocrypticism, positivism, universalisation or base-institutionalisation supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) contending correspondingly about the perversion-of-reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of the procrypticism, non-positivism/medievalism, ununiversalisation or recurrent-utter-uninstitutionalisation subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality). The implication here is that from a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, just as a positivistic supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) will imply a deeper intellectual-and-moral ontological construct (in a projection of a positivistic worldview where the mental-dispositions and conventioning in a non-positivism/medievalism setup are construed as prospectively questionable) of non-equivalence over that projected by a non-positivism/medievalism subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality) as a ‘distractive looping-alignment-of-narratives’ in distraction to the former, with the positivistic
supratransversality—apriorising/axiomatising/referencing rather a maximalising/transcendental firmament for obtruding the subtransversality—apriorising/axiomatising/referencing as of its ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’, reflected by the subtransversality—apriorising/axiomatising/referencing subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation effect; the same analysis will be drawn for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation with respect to deprocrypticism supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) and procrypticism subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality) in terms—as-of-axiomatic-construct of their implied intellectual-and-moral implications (in a projection of a deprocrypticism worldview where the mental-dispositions and conventioning in a procrypticism setup are construed as ‘prospectively questionable’). Such a supratransversality—apriorising/axiomatising/referencing over subtransversality—apriorising/axiomatising/referencing insight can transcendentally be grasped in the archetype characters of say a Socrates or Rousseau. Wherein within their respective registry-worldviews/dimensions setups, their maximalising/transcendental mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning — as
'wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ – will rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-unthought in his asceticism the prospective intemporal over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature should warrant like actively pursuing for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the possibility for prospective registry-worldview/dimension as there isn’t any inherent intemporality/longness but for the disposition for maximalising-recomposuring-for-relative-ontological-completeness out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension. Hence
such intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness needs its <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought as of secondnatured institutionalisation given that the succession-of-registry-worldviews-or-dimensions-institutionalisations/the-ontological-contiguity—of-the-human-institutionalisation-process is ‘not a human emanance transformation of temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology into the intemparal-disposition/longness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturizing to supersede the uninstitutionalised-threshold’. The implication is that acting as-of-a-secondnatured nature is not enough for articulating prospective institutionalisation requiring ‘intemparal projection <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought’ for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not intemparal as of-universal-and-abstractive nature but is in ‘<amplituding/formative>epistemic-totalising-self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Thus institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing-apriorising-psychologism’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism and procrypticism in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This is rather addressed by transversality-of-affirmative-and-unaffirmative,-disambiugated-apriorising/axiomaticising/referencing as supratransversality—apriorising/axiomaticising/referencing non-pseudointemporality-as-thinking-and-in-phase over
being-and-craft setups even though paradoxically the ordinariness within such institutionalised-being-and-craft setups may be impervious to what is behind this very creation/invention in the first place as it fails philosophically to appreciate the need for transcendental first-order-ontology/ontological-construal in the elucidation (as institutionalisation and psychical-reorientation) of meaningful-and-teleological pertinence within its own registry-worldview/dimension but equally in ‘inventing/creating’ the institutionalisation possibilities and psyche for the prospective institutionalised-being-and-craft setup. Thus it is generally not surprising that the transcendental first-order-ontology/ontological-construal by an ascetic intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value with the true worth and value of such implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity grasped, at least expediently, mostly in the prospective institutionalised-being-and-craft setup it ushers, the same could be said of a an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Copernicus, an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Rousseau, an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Galilei or an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Darwin, and so as a fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. But then mental-dispositions that come to intemporal notions by expediency cannot truly have the pretence of engaging such on the basis of shallow temporal extricatory de-mentating/structuring/paradigming as of institutionalised-being-and-craft setup whose temporal-dispositions terms are alien to the intemporal
disposition required for transcendental/maximalising-recomposuring-for-relative-ontological-completeness first-order-ontology/ontological-construal required for ‘creating/inventing’ the prospective institutionalised-being-and-craft setup! That failed test of understanding the transcendental/maximalising-recomposuring-for-relative-ontological-completeness not in a prospective appreciation, but rather possibly as of retrospective appreciation and expediency, speaks of the social-construct as more of a secondnatured institutionalised-construct rather than an intemporal-disposition construal, and therefore assertive pretences that naively imply the latter should necessarily be suspect of their threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism without the corresponding demonstration of the requisite salient philosophical insight of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming (that goes beyond subontologisation as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect); and the fundamental issue that will then arise in that instance is one of ‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism, and that is paradoxically our virtue, not a wrong or false idealism (which metaphorically ends up hiding things under the table beyond the analysis required for their understanding and resolution)! It equally speaks of the ‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters (or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least afford to be of normal trade, as it starts with a commitment of the mind (rather like
modern day religion) rather than just a normal craft, and further requiring the central quality of transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism of thought, postures and teleology above anything else (not even the value of institutional recognition as Socrates, Rousseau, Sartre and others intuitively understood, necessarily so, since it is what is of a priori definition and can’t be compromised in institutional-constructs-and-setups)! The blunt fact here is that, with respect to social-stake-contention-or-confliction within a given registry-worldview, the everyday <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) or banality-of-thought doesn’t necessarily as of solipsistic intemporal projection appreciate ‘the need for prospective transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming over the extricatory/temporal/expediency de-mentating/structuring/paradigming with respect to its registry-worldview/dimension’ (even though it does appreciate this retrospectively with respect to prior registry-worldviews/dimensions), but for effective secondnatured institutional devising. Inevitably an aetiologisation/ontological-escalation construct is rather about intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming which is necessarily antipodal to the everyday temporal extricatory de-mentating/structuring/paradigming mental-disposition, ontologically justifying ‘subtransversality—apriorising/axiomatising/referencing(as-of-pseudointemporalities)/suprastraversality ‘point-of-departure-of-construal of reference-of-

We would possibly appreciate this argument from a retrospective insight of how the retrospective institutionalisations came about to the present, but it will certainly be alienating to think the same of our present in those transcended terms from a prospective transcending reference, even though the ontological insight points in that direction. This ‘subtransversality-by-supratransversality technique of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ is further rendered operant as the teleological structure of the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation based on the underlying principle involved in the example of the visiting stranger (as-of-pseudointemporality) or generally the BODMAS characters. This underlying principle is one of ‘decentering’ wherein apparently the visiting stranger (as-of-pseudointemporality) was of ‘sound registry–(reflected-as-soundness-or-authenticity-of-reference-of-thought)’ in its circumstantial/existential relationship with

that grasping and superseding of psychopathy and social psychopathy ontologically requires 'avoiding to construe the generality/averaging of the social-construct as being of the sound/appropriate ontological cadre/framework' but rather ontologically adopting deferential-formalisation-transference (as all formal constructions whether the law, subject-matters, formal institutions, etc. have always been conceived) to 'abstractly reference prospective institutionalising as a seconndnaturing that is of universal implications/aetiologisation/ontological-escalation for all times and all humans' by factoring-in the requisite supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism as of transcendental-projection/intemporal-preserving/maximalising-recomposing-for-relative-ontological-completeness construct that transcends/supersedes subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities), as supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality). is central in articulating a storied-construct/ontologically-valid-narration
aetiologisation/ontological-escalation that further elucidates the conceptualisations herein.
The conceptual background for this tone-as-temperament and thematic teleological
conceptualisation (for the storied-construct/ontologically-valid-narration
aetiologisation/ontological-escalation) lies in the notion that human construal of
meaningfulness/memetism defines and structures its teleology/teleological-differentiation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations whether in ‘temporal-to-intemporal-dispositions individuation terms’ and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendentally/transdimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects will fundamentally be predisposed to a defining teleology/teleological-differentiation of animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology/teleological-differentiation, and likewise a meaningfulness/memetism that is mostly secular-inclined will be predisposed to the defining teleology/teleological-differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining temporal-to-intemporal-dispositions of individuals action intradimensionally (and as recurrently affirmed by the ontological-contiguity—of-the-human-institutionalisation-process across all the registry-worldviews/dimensions, giving rise to prospective institutionalisations and uninstitutionalised-thresholds), this establishes that there is a deterministic existential-tautologisation/existential-reference of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ highlighting a teleology/teleological-differentiation at the individuation-level in a continuum from pseudointemporality (involving the ‘faulty-mentation-procedure-deception-or-urge’ of

Thus, decentering is what divulges all the uninstitutionalised-thresholds as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism by maximalising-recomposuring-for-relative-ontological-completeness, while ‘centering’ divulges all the institutionalisations as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism; and so with their ontological possibilities and limits as well as corresponding ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ or registry-worldview/dimension orienting/pivoting/decentering psyches (by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), reference-of-thought and teleologies/teleological-differentiations. Insightfully from metaphysics-of-absence, we’ll certainly grasp that a non-positivism/medievalism mindset/reference-of-thought ‘is not qualified/sound’ by virtue of its relative-ontological-incompleteness-induced, ‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ as not being positivising/rationally-

<amplituding/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage, and thus the ‘rational need’ for our own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to supersede the vices-and-impediments associated with a positivism–procrypticism mental frame, even though we’ll possibly carry-complexes/complexé about the blunt fact, as all registry-worldviews/dimensions prior to ours had equally done. Decentering thus fundamentally speaks of human shallow-limited-mentation-capacity to deeper-limited-mention capacity recomposuring from ontological-normalcy/postconvergence point of reference maximalising-recomposuring-for-relative-ontological-completeness across all institutional-cumulation/institutional-recomposure.<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. The notion of pivoting/decentering as fundamentally psychoanalytic actually extends to the construal of understanding itself with regards to the underlying rescheduling of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, as the idea of pivoting/decentering extends to the notions of the ‘self’s own pivoting/decentering for understanding’. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mention-capacity-deepening-<amplituding/formative>epistemic-totalisingly,-as-to-existence—-as-sublimating-

In other words the aporetic nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-unshackle, construed in interdimensional transcendence-and-sublimity/sublimation/supererogatory—de-mentativity terms as akin to a positivistic laden text articulated in a non-positivism/medievalism setup implying a necessary psychoanalytic-unshackling as requiring the pivoting/decentering of the reader for its understanding as it is more than an explanation in the terms of the old as non-positivism/medievalism meaningfulness-and-teleology but more critically an invitation into the new as of a positivising/rational-empirical mindset/reference-of-thought meaningfulness-and-teleology; having to do fundamentally with the human mind complex and reflex of failing/not-upholding—<as-of-apriorising/axiomatising/referencing> to acquiesce to prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and so all across the various institutional-cumulation/institutional-recompose—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, even though it will readily acquiesce from a standpoint of retrospectively implied construal of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Such a pivoting/decentering of understanding itself is what is implied by ‘projective-insights’/postdication/metaphysics-of-absence; further explaining the underlying notion of suprastructuralism as the ability to construe/conceptualise meaningfulness across different

Suprastructuralism as such will also explain the underlying logic of Bruno Latour’s famous criticism of the notion that scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with the organisation of an official ceremony in full honours in celebration of Ramses II corpse and the discovery, as being an entanglement of references-of-thought between the modern frame-of-reference/collective-consciousness-awareness-teleology and the Ancient Egypt pharaonic era frame-of-reference/collective-consciousness-awareness-teleology (a mix-up that must not occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its very own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of understanding the past and projecting to the future); as if it were ‘possible and desired’ that the modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such highlights the ‘mental complex of all present mindsets as metaphysics-of-presence’, and going by ‘projective-insights’/postdication/metaphysics-of-absence is equally what can enable our own prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in grasping a more profound intrinsic-reality/ontological-veridicality as deprocrypticism which is deeper than our present positivism–procrypticism registry-worldview reference-of-thought.
As implied in this paper, the implication of pivoting/decentering for understanding itself is that our metaphysics-of-presence traditional/conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology is put into question, and the notion of understanding itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation also construed as ontological-normalcy/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation constituting elaboration) to retain its cross-referencing coherence of prospective meaningfulness. The recognition for the need to disambiguate human mental-dispositions as of temporal-to-intemporal is not an exception here as all our formalisations implicitly operate on this basis as deferential-formalisation-transference, tacitly confirming its veracity/ontological-pertinence. It should be noted that the representation of registry-worldview’s/dimension’s uninstitutionalised-thresholds as of ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ based on their respective relative-ontological-incompleteness-induced,’threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ while most ontologically-veridical from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective, such a suprastructural-meaningfulness/memetism is rather unordinary and suprastructural (beyond-the-consciousness-awareness-teleology-<in-

The suprastructural (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity at the individuation-level is that with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’
situations, there is an underlying meaningfulness-and-teleological differentiation of human mental-dispositions as of non-pseudointemporality as of supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking-apriorising-psychologism and pseudointemporality as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism (including as derived/conjugated pseudointemporality as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism), and so in contrast to the social/normal reflex of naively-and-wrongly construing and falling back to the idea of meaningfulness-and-teleology (as of reference-of-thought) rather essentially of non-pseudointemporality as of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism. For pseudointemporality as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and by its derivations (consciously, expediently or unconsciously), the representations of meaningfulness-and-teleology are set/formulaic and the fundamental essential/intrinsic/inherent attributions behind the representations of meaningfulness-and-teleology are irrelevant, and a parasitising/co-opting association that is alien to the fundamental essential/intrinsic/inherent/intemporal attributions of meaningfulness-and-teleology is just as valid; basically due to the fact that our fundamental relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ at all prior registry-worldviews/dimensions, whether as recurrent-utteruninstitutionalisation/ununiversalisation/non-positivism-or-medievalism/procrypticism, is bound to lead to human integration of the corresponding postlogism/perversion-of-
dynamic-cumulative-aftereffect at the registry-worldview/dimension or intradimensional level that brings about prospective institutionalisations by rescheduling the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with respect to construed prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) explaining why we are able and do transcend; or else as in all prior registry-worldviews, the pseudointemporality logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity that construes of the present (by its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental/maximalising-recomposuring-for-relative-ontological-completeness as longness-of-register-of-meaningfulness/intemporality that accounts for the becoming from all the priors to the present to the prospective registry-worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of universal import with temporal extricatory de-mentating/structuring/paradigming contentions (more like metaphorically an apple falling on Newton’s head and his projection of this in grasping the universal implications of the laws of motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be ‘temporally’ undermining in one way or the other). Critically, it isn’t idle idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution, universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-
unshackled/mimetically-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that deprocrypticism (by its deprocrypticism or preempting—disjointedness-as-of-reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existing-reality) is an inherent meaningfulness that is perfectly construable within just a positivism–procrypticism mental-disposition and the latter’s many compromised assumptions as articulated in this paper, as deprocrypticism is priorly implying futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism psyche/mindset. This equally raises the fundamental issue with post-structuralism, does it fully make sense in a ‘modern mindset’ of reference or reference-of-thought or rather it is implying priorly a prospective ‘postmodern mindset’ of prospective reference or reference-of-thought as its existential-reference/existential-tautologisation wherein human ‘deeper limited-mentation-capacity-(as of relative conflation)’ pivots/decenters to reconstrue/reconceptualise meaningfulness-and-teleology, most critically marked by suprastructuralism/meaningfulness-as-beyond-temporal-consciousness-awareness-teleology as a knowledge construct grounded on the ontological-veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor and the implications for the derivation of
meaningfulness (a progression from just a positivism mindset/reference-of-thought of meaningfulness-and-teleology grounded pre-eminently on a human intemporal nature construct thus failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to appropriately factor in the dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions prospectively, with focus wholly on positivistic construal and logic grounded solely on an intemporal construct (overlooking the implication of ‘parasitism of meaningfulness-and-teleology’ as temporal arrogation/disjointedness/impostoring/extrication/misappropriation whether consciously/by-expediency/unconsciously, coming from the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)) in inducing defect of reference-of-thought as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>). Critically, ontological-normalcy/postconvergence points out that paradoxically the transcendental mindset/reference-of-thought associated with a ‘knowledge construct of intrinsic-reality’ should priorly be established (‘centered’ over the prior meaningful-frame which is ‘decentered’) for the knowledge construct to take hold by the continuing ‘moult­ing’ of its proponents and corresponding social construct, as intrinsic-reality doesn’t adjust its inherent meaningfulness to us but rather humans need to achieve a given psychical development to have-access-to or be-able-to-register the knowledge construct of the more profound existential-reference/existential-tautologisation to intrinsic-reality/ontological-veridicality that that psychical development allows for, in meaningfulness-and-teleological terms. This is rather a difficult task as it implies ‘de-­mentation–ontological–de­­mentation–or-dialectical–de­­mentation—stranding-or-attributive-dialectics) of reference-of-thought’
behind the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and no registry-worldview/dimension sees itself as dementable prospectively, as being decentered for a prospective centering, even where it acquiesces to the notion retrospectively up to its own institutionalisation; pointing that ontological-normaley/postconvergence is the genuine perspective for construing the dynamism of knowledge-and-virtue or meaningfulness-and-teleology. The fundamental point of a knowledge construct (which is necessarily tautological as intrinsic-reality/ontology is already given) is rather an exercise of ‘human <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing~psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology} as subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
Pivoting/decentering as such for transcendence-and-sublimity/sublimation/supercyogatory-de-mentativity at the individuation-level speaks of intemporal-disposition maximalising-recomposing-for-relative-ontological-completeness value and disposition re-ontologising terms even though for temporal-dispositions value and disposition conventioning terms this may sound unintelligible. Such a transcendental/intemporal pivoting/decentering necessarily construed from the prospective institutionalisation (whether base-institutionalisation, universalisation, positivism or deprocrypticism, as ontological-normalcy/postconvergence epistemic/notional-projective-perspective), of temporal-dispositions individuations in uninstitutionalised-thresholds (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism) as being of ‘mental anarchy’ (mentarchy) which ‘speaks of a defining state of ontologically-defective meaningfulness-and-teleology, arising from lack of common (lack of an ordered construct of deferential-formalisation-transference) ontologically-veridical reference-of-thought, wherein both temporal-dispositions in various shades and the intemporal-disposition are socially-perceived as meaningfully-and-teleologically entitled-in-equivalence ‘notwithstanding veridical veracity/ontological-pertinence conveyable by imbricatedness/threadednes/recomposing of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ which ‘breaking’/existential-decontextualised-transposition by temporal-dispositions (on the wrong basis of a prelogic supplanting—conviction-as-to-profound-supercyogation—

Mentarchy/Mental-anarchy (as inducing ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and dialectically-out-of-phase’ and uninstitutionalised-threshold) can also be construed as a disposition for temporal-finitude on the basis of referencing ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ by the temporal-dispositions references-of-thought (whether consciously, expeditiously or unconsciously) in order to undermine the referencing of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as intemporal reference-of-thought (thus implying a mental-representation-devising/mentation/placeholder-setup of the ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as ontologically preconverging-or-dementing–apriorising-psychologism from the perspective of the transcendental-enabling/sublimating/supererogatory–de-mentativity as ontologically thinking). Insightfully, for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, such a ‘dynamic-cumulative-aftereffect of
individuation/intradimensional/transcendental-or-transdimensional-or-interdimensional levels of conceptualisation’ ontologically validates ‘a deterministically teleological-differentiated storied-construct/ontologically-valid-narration’ of projectable/predictable-relative-existential-implications of the various ‘incrementalism-in-relative-ontological-incompleteness temporal-dispositions incremental/shortness-disposition-relative-finitudes’ and ‘maximalising-recomposuring-for-relative-ontological-completeness intemporal-disposition superseding/longness-disposition-to-finitude’; finitude being the full-depth-of-existential-implications/existentialism arising when acting (as-being/as-existing) with regards to one’s prior relative-ontological-incompleteness/relative-ontological-completeness-
(sublimating–referencing/registering决策ing,—as-self-becoming/self-conflatedness/formative–supererogating–in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) of reference-of-thought. As a side note, such a notion of mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of reference-of-thought associated with human languages from ancient ones to modern ones (as of the registry-worldview/dimension-levels of the corresponding societies), facilitating the deciphering and understanding of ancient languages, as well as the reconceptualisation of meaningfulness-and-teleology across history, which conceptual exercise tends to be rather biased towards a modern perspective metaphysics-of-presence. Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to take cognisance of the very peculiar nature of the social world (in contrast to the natural world) that makes the social ‘susceptible to incorrect understanding and analysis’ particularly at a practical and operant level by the fact that it is highly emotionally-involved/politically-driven especially so with disturbing issues, and this is further compounded by the ‘blurriness and distance of ontological-promemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory-de-mentativity’, and finally from a transcendental/maximalising-recomposuring-for-relative-ontological-completeness perspective human mental-disposition with regards to the social can be poorly ontological with unconscious, expedient or conscious emphasis on significant others basis of logic as well as \(<\text{amplituding/formative}>\) wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) mental-dispositions (social-aggregation-enablers) undermining the solipsistic relationship with intrinsic-reality required for veracity/ontological-pertinence (transcendental-enabling/sublimating/supererogatory-de-mentativity). In this regard, it will actually be naïve to assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all that is necessary in achieving effectiveness. With the weaknesses highlighted above with regards to grasping the social, it is important that such veracity/ontological-pertinence is effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’ driven by social-aggregation-enabling, wherein for instance the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporalmundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its
reality as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake, etc.). The ‘blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/‘interested’/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French post-structuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be
countenanceable in the promptness of effectiveness driven natural science of ontological-primemovers-totalitative-framework, for instance, holding that Einstein’s theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ with the transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality ontological-primemovers-totalitative-framework. This weakness actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as driven by postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> and corresponding conjugated-postlogism conjoining-looping-set-of-narratives of such postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>, respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to demonstrate veracity/ontological-pertinence of the conceptualisations highlighted in this paper not purely by themselves as
transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality but rather such conceptualisation in a supratransversality—apriorising/axiomatising/referencing should be over-and-face-off a subtransversality—apriorising/axiomatising/referencing of temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ such as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and this is the realistic developing social contextualisation within which psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler mechanism is what brings about social-chainism/social-discomfiture/negative-social-aggregation as well as the temporal-endemisation/temporal-enculturation of psychopathy and social psychopathy by eliciting of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation, etc., to induce subontologisation or existential-decontextualised-transposition. Ontologically, thus the construal/conceptualisation of the Social de-mentating/structuring/paradigming is necessarily a construct that harkens to the intemporal-projection enabling the thoughtfulness as the imbued intemporal-preservation consciousness-awareness-teleology with the corresponding meaningfulness-and-teleology as
about social relations of extricatory temporal-dispositions are perfectly construable as of varying covert to overt ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’). Likewise a mental-disposition of ‘overt non-aggregative social disposition’ conceiving the social-setup reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation ‘as of inherent essence and to be upheld and maximalisingly recomposured’ (as appropriateness-of-reference-of-thought-as-of-conflicatedness) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather the opportunity for transcendental construal of our potential for intemporality. Paradoxically and across all registry-worldviews this has always imply sociologically that uninstitutionalised-thresholds are in a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of these two divergent mental-dispositions with respect to meaningfulness-and-teleology whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity or conceptualisation in aggregativity/social-aggregation as of ≪amplituding/formative⟩wooden-language⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’–with-regards-to-prospective-apriorising-implications⟩⟩ driven by social-aggregation-enabling, explaining the underlying confliction implied by any prospective institutionalisation as transcendental. This insight can be grasped from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of-meaningfulness-and-teleology’ in a non-positivism/middlealism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing
anchoring for prospective positivistic institutionalisation construed reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology mindset’ of such a ‘social ontology insight about prospective positivism’ (as maximalising-recomposing-for-relative-ontological-completeness for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) may lead to its very own circumspection with the registry-worldview’s/dimension’s meaningfulness-and-teleology and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued meaningfulness-and-teleology’ with respect to the prospective as the posivistic registry-worldview/dimension and the prior as the non-positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of meaningfulness-and-teleology. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue (in lieu of the-Good/understanding/knowledge-reification/ontological-prime movers-totalitative-framework in its <amplituding/formative>epistemic-totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of intemporality) will not factor in the inherent deficiency in value judgment of a non-positivism/medievalism inclined ordinary mindset/reference-of-thought from which such accounts are coming from (given such a society’s state of paradox of transcendence-and-sublimity/sublimation/supererogatory-dementativity of relative-ontological-incompleteness-induced,-‘threshold-of-

prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting as
partaking in the ‘inventing/creating’ of the de-mentative/structural/paradigmatic possibility
(and the corresponding psychologism) for prospective positivism institutionalised-being-and-
craft, more like biting a hand that intemporal-solipsistically as of ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
as-so-being-as-of-existential-reality provides the opportunity for prospective de-
mentative/structural/paradigmatic human flourishing, with the underlying fact being that
inherently such a personality type rather as of a solipsistic-intemporality individuation
disposition, by its contemplative reappraisal, is exactly what can provide the opportunity for
such transcendental possibilities (when we come to grasp that the true profoundness of
knowledge is more than just ‘mechanical as something construed soullessly’ without a more
complete appreciation of knowledge as ‘organic as something construed with a profound
sense of intemporal projection philosophy as to profound-supererogation’ with the idea that
the type of knowledge construed as of first order transcendental-

--supererogatory--de-mentativity is not based on an ordinary notion of
‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of
intemporal philosophical projection and more than just a ‘product’ for a materiality purpose
but a driven sense of human emancipation). In fact, this equally points to a major flaw of the
inherently implied value judgement in a lot of what passes for social sciences today
explaining the vagueness, platitude and emptiness of little or no relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-
mentativity implication as an epistemic-totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag circular exercise, wherein the unabated
recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} ideas should be the basis for construing its social science! In fact, technically Newton might be the most inclined person for social engagement but then will he as of intemoral projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> ‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/mented psychology of the present, as of any ‘present registry-worldview/dimension’, with value references related to as absolute without or poorly factoring in that the animal that is the human is rather a becoming animal in constant psychological development of its limited-mentation-capacity with respect to social universal-transparency-(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness) as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of ontological-completeness-of-reference-of-thought; as determining its value reference and defining its underlying placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, and hardly addressing such a more fundamental question as implied by ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’). In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on
a social relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construal but identify objective reality by its naturally constraining ontological-primemovers-totalitative-framework, as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-enabling/sublimating/supererogatory-de-mentativity basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and inventions given that their transcendental-enabling/sublimating/supererogatory-de-mentativity as of a positivism outlook psychologism of the world had taken place both in philosophical and practical scientific terms with the Descartes, Hobbes’s, Kants, Copernicuses, Galileos, Newtons, of the past. Whereas a lot of present day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism insight, wherein positivism–procrypticism is decentered and deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author’s or anyone’s chosen but rather that the test for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocripticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, induced by prospective relative-ontological-completeness-of-reference-of-thought is what counts as true knowledge beyond the blurriness-in-reflecting-and/or-coming-to-terms-with-implied-transcendence that often tends to arise with all institutionalisations institutionalised-being-and-craft erudition! More fundamentally, as previously highlighted with the mediocrity principle of science as it applies to humankind as well (as the notion of metaphysics-of-absence is pushed to its full implications over metaphysics-of-presence as our present-consciousness/illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/mirage), the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor may actually more objectively (and so beyond-our-consciousness-awareness-teleology) point to the idea that institutionalisation (the ontological-contiguity—of-the-human-institutionalisation-process) as intemporalisation is actually ‘a maximalising-recomposuring-for-relative-ontological-completeness recomposured abstract-construction/institutionalisation-designing’ which ‘in its operant effectuation (due to limited-mentation-capacity as of ‘presencing—absolutising-identitive-constitutedness’) defines its very own prospective interspersing with uninstitutionalised-threshold’ articulated as ‘socially-functional-and-accordant

Further, the fact is such extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) effect can be more than just about the operant effect but equally protracted as ‘designed-formalisation-ineffectiveness’ in ensuring the ascendency of extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) meaningfulness-and-teleology-as-of-a-relatively-poor-institutionalising-inclination over formal constructs. By and large, this can be construed as the residual temporalisation effect arising from the fundamental reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor with respect to all the successive institutionalisations; with the notion of deprocrypticism requiring referencing/registering/decisioning the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor without any complexes and psychically pivoting/decentering (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) over its deprocrypticism or preempting—disjointedness-as-of-reference-of-thought (just as the ‘positivistic mindset’ arose from referencing/registering/decisioning the reality of defective essences, alchemic, spirits, etc. Universalising-rules and psychically pivoting/decentering for rational-

issue, going by the postlogism-and-conjugated-postlogism/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is then one that at the
transcendental/transdimensional/interdimensional/maximalising-level defines the
uninstitutionalised-threshold vices-and-impediments construct of the registry-worldview/dimension, more than just on-occasionally/incidentally. From an
intemporal/ontological perspective that speaks of ‘modern savage mentality’, whether as
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology as of prospective deprocrypticism. That exercise has always
been one of decentering of the defective center for the emergence of a new and more
ontologically-complete-reference-of-thought center, and no registry-worldview/dimension
can pretend to imply it is ‘un-decenterable (implying its preconverging-or-dementing–
apriorising-psychologism and out-of-phasing for the prospective thinking centering and in-
phasing) by its <amplituding/formative>epistemic-totalising–self-referencing-
syncretising/illusion-of-the-present/present-consciousness/mirage speaking of its
metaphysics-of-presence, as that is the full implication of ‘intemporal ontological-faith-

explicating-ontological-contiguity’ for our present as well, its psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring. As with all prospective
institutionalisations, a human secondnaturing institutionalising construct is a requisite
because, at best even the intemporal-disposition individuation individuals, purporting (by
maximalising-recomposuring-for-relative-ontological-completeness) prospective
emancipation come from and are of the stock of the prior reference-of-thought
uninstitutionalised-threshold registry-worldview/dimension, and such prospective
emancipation involves such individuals own ‘moulting’, as actually intemporality/longness is
a ‘potential construct of orientation’ as implied by ontological-normalcy (prospective-
transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation) and it is only a devised institutionalisation construct that achieves
that potential-construct-of-orientation and not any implied inherent emanance intrinsicness (though the meaningfulness as articulated as such, and as the meaningfulness in this entire paper, is rather of an intemporal register validation and not of any temporal register validation, since an authentic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is what underlies transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as a ‘deeper limited-mentation-capacity-(as of relative conflation)’ existential-tautologisation/existential-reference pivot/decenter to reconstrue/reconceptualise meaningfulness-and-teleology; more like a jurisprudential maximalising-recomposuring-for-relative-ontological-completeness contention for rehabilitation is not of the same meaningful-framework as a temporal mental-disposition of illicitness for shifty expectation of rehabilitation which it should necessarily anticipate and preempt). By that token there is no base-institutionalised individuation in recurrent-utter-uninstitutionalisation, no universalised individuation in ununiversalisation, no positivistic individuation in non-positivism/medievalism, and prospectively no deprocrypticism individuation in procrypticism; as at best such emancipating intemporal individuation are ‘moulting’ and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained.

The notion of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as defining the registry-worldviews/dimensions uninstitutionalised-thresholds is rather a most real idea from an ontological-normalcy/postconvergence epistemic/notional~projective-perspective wherein we can very much fathom out that the successive relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ as the successively
reducing-ontological-abnormalities of recurrent-utter-uninstitutionalisation uninstitutionalisation, ununiversalisation uninstitutionalisation, non-positivism/medievalism uninstitutionalisation and procrypticism uninstitutionalisation effectively speaks of their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as the respective uninstitutionalised-threshold with respect to the superseding–oneness-of-ontology which as existential-reality isn’t changed but rather the respective cumulating/recomposuring uninstitutionalised-thresholds are due to ‘changes in human meaningfulness and the teleological implications thereof’ confirming by extension that the reality of their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism is veridical or a most real idea with implications on psychical-orientations/mindsets as structured by the ontology-driven ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’. However apparently logical this idea, it is an altogether different to mentally register the idea of such an threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism construct and perception about our own registry-worldview uninstitutionalised-threshold as procrypticism just as it would be by reflex difficult in all the successive registry-worldviews, often requiring a generation or more for transcendental implications to sink in. This threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism conceptualisation of ‘the social as at its uninstitutionalised-threshold threshold’ wherein the representation as ‘being in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ is more real (from an ontological-
normalcy/postconvergence epistemic/notional-projective-perspective) than the actual placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect of conscious mindsets within the given uninstitutionalised-thresholds registry-worldview/dimension (as the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation—preconverging/dementing–apriorising-psychologism insight is suprastructural to it or beyond-its-consciousness-awareness-teleology); is an ontological validation of Derridean hauntology/hantologie conceptualisation of the social in cinematographic terms of meaningfulness (and will seem very much akin, from an ontological perspective, to the central notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding referential conceptualisation of ontology and inherently imbued with ontological-reconstituting–as-of-conflatedness as a centering/decentering mechanism’ as implied in this paper, though hauntology/hantologie is not quite articulated in such more precise ontological terms but imbricatedness/threadedness/recomposuring notion of existential-reality in there can be grasped), and equally highlights the fundamental ‘paradox of post-structural deconstruction by its transcendental implications’, in that the mental-disposition/psychical-orientation of the present registry-worldview/dimension as positivism–procrypticism is not developed enough (in terms–as-of-axiomatic-construct of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) to grasp its implications (in want of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), just as the core non-positivism/medievalism mindset/reference-of-thought wasn’t developed enough to grasp the implications of created-and-accruing positivistic meaningfulness and redefined mindset/psyche inducted by the Descartes, Copernicuses, Galileos, Newtons, Kants, Rousseaux and it had to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure over generations ‘for what were re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) outlying ideas to become the defining ideas of modernity’. Thus the apparent issues today raised with post-structuralism have as much to do with the psychical orientation (as underdeveloped) of its critiques as well as the requisite effort required to further develop, elucidate and focus it; and in this regard why there have been many serious and constructive criticisms of post-structuralism as required for any subject-matter, most of the ‘popular criticisms’ levied against post-structuralism fail to past the test of intellectual criticism and have mostly been populist and media-driven attacks, gaining traction by social trending than genuine intellectual validity. The most popular being an initiative on an unrecognised social science journal which by that mere token disqualifies the so-called criticism but has turned out to be the most populist ploy by all accounts for condemning post-structuralism. Furthermore and critically, the intellectual exercise as with all institutional processes operate fundamentally on a basis of mutual trust. However the methodologies, theories and concepts, what can be articulated as new knowledge is not
necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the overall peer review process is to channel potentially admissible and debatable knowledge towards further elucidation in the overall scheme of establishing overall human knowledge as of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer review though that point tends to be a ‘highly political point nowadays’ as of the increasing bean-counting institutional reflex of funding implications and sometimes at the detriment of novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals approval and extends with the continual critiquing of knowledge whether dominant or outlying. Ultimately, the more fundamental test in such a negotiated process is a strive for consistency and validatory clues with no guarantees of effectiveness but for the overall consistency, as of the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might equally be argued that peer-reviewing and by extension all epistemological and their corresponding methodological activities are not natural knowledge activities as of inherent pure-ontology in of itself but derived activities as of human norms, practices and policies for establishing thresholds that then enable articulated qualifications as of pure-ontology; in other words, any such epistemological and methodological activity is irrelevant if pure-ontology can be arrived at without it. Consider for instance that mathematicians hardly make use of experimental
designs or that many secret research by corporations and government aren’t peer reviewed, at least not publicly. Besides at a more fundamental level the question can be asked what are the metaphysics-of-absence implications of knowledge epistemology, methodologies and peering as to the weightier construal of the successive human ontological developments involving increasing prospective relative-ontological-completeness-of-reference-of-thought associated with the overall institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, beyond just an intra-positivism registry-worldview/dimension illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage conceptualisation of knowledge epistemology, methodologies and peering naively articulated-and-implied-as ‘universally applicable’, à la Kantian positivism registry-worldview/dimension <amplituding/formative>epistemic-totalising~intervalist-as-categorising-phenomenal-abtractiveness-of-presence however remarkable, to all registry-worldviews/dimensions particularly since such a conceptualisation doesn’t factor in ‘transcendental implications’ as de-mentatively/structurally/paradigmatically overthrowing/fazing-out/collapsing the uninstitutionalised-threshold of meaningfulness-and-teleology of the prior/old registry-worldview’s/dimension’s reference-of-thought as a decentering subsumption; along the same line as the medieval ‘dogmatic scholastics’ insisting that the now established positivism registry-worldview/dimension knowledge constructs, which were then transcendental, should conform to their ‘institutionalised dogmatic scholasticism methods and processes of reviewing’. By extension the question can be asked whether beyond our ‘<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag institutionalised positivism conceptualisation of meaningfulness-and-teleology’ whether such is truly in a ‘requisite
contemplative-and-Being position as of the prospective transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism’ of ‘evaluating a construct of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as herein implied about futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension meaningfulness-and-teleology which paradoxically de-mentatively/structurally/paradigmatically entails overthrowing/fazing-out/collapsing the positivism–procrypticism meaningfulness-and-teleology at its uninstitutionalised-threshold as a decentering subsumption; when we factor that such a contemplation-and-Being as from a positivism–procrypticism meaningfulness-and-teleology is being called upon to evaluate as to ‘a meaningfulness-and-teleology world beyond its ordinary contemplation’ with the mental tools for such a prospective projection mostly of abstract projective contemplation for grasping the prospective organic-knowledge implied, and so beyond an ordinary evaluation within an implied same reference-of-thought. It should be noted here that the more pertinent quality for such implied transcendentalism as of its implied organic-knowledge beyond just a mechanical construct is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality explaining the disparate nature of the development of human knowledge. This author as previously articulated points out that there is a more profound basis for how and why new/prospective knowledge whether outlying or main stream is socially integrated in driving ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated
natural psychology-of-dynamics’, notwithstanding the more superficial constructions of ‘human validation-conceptualisation/epistemological relationship to knowledge’ within a same registry-worldview’s/dimension’s institutionalisation whether base-institutionalisation/animistic-universalisation shamanism, universalisation–non-positivism/medieval dogmatic scholasticism or our positivism–procrypticism ‘categorisation epistemes’; but also the conflatedness of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ‘referentialism as epistemological’ (as of notional–deprocrypticism which reflects ontological-construal along the full potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness). Such a notional futural différance as a suprastructural construct appreciation of epistemological implications about social integration of knowledge certainly informs a commitment to re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) ideas as being ultimately validatable in effect as of their intrinsic-reality/ontological-veridicality, if that is as of what they truly are, in the medium to long-run. Basically the transcendental as (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation)) originary/event-of-prospective-ontology-origination to a knowledge and its knowledge system however remote the origination, in the very first place, speaks of the notion of ⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought
associated with ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ behind any retrospective or prospective registry-worldview’s/dimension’s reference-of-thought validation-conceptualisation/epistemological relationship to knowledge/ontological-construal. Ultimately, the very transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness-of-reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness-of-reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic <amplituding/formative>epistemic-causality-as-to-projective-totalititative–implications,-for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior registry-worldview’s/dimension’s reference-of-thought not factoring its prior relative-ontological-incompleteness-of-reference-of-thought. But this is simply valid on the fact that a more profound axiomatic-construct on a given domain of reality as of prospective relative-ontological-completeness-of-reference-of-thought is of intemporal-or-ontological prioritisation as of its conflatedness relative to a less profound axiomatic-construct on that same given domain of reality as of prior relative-ontological-
<in-existential-extrication-as-of-existential-unthought> meaningfulness-and-teleology as of organic-knowledge Being correction’ of the prior reference-of-thought, such that the prior reference-of-thought logical-dueness doesn’t even arise as the prospective reference-of-thought is the relatively complete ‘ontological-resetting’ in an ‘organic effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology’ over the prior reference-of-thought ‘effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology’; just as the introduction of chemistry science carries an organic effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology over a non-positivism/medievalism alchemic material construal. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and

universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. A second weakness of many critiques is by naively misrepresenting post-structural meaningfulness, and going on to criticise this. For instance, such arguments about post-structuralism as a theory that has no worldview are not made by poststructuralists who in their transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism have been rather questioning openly what the reality of the meaningfulness they construct implies, as a basis for further intellectual development. This explains the convoluted responses of say Derrida because that is the intrinsic-reality insight at hand, and the issue is rather how to further develop. This will be tantamount to criticising early quantum physics for contending that the fundamental particles are rather like waves and evasive without yet establishing an advanced basis of the science. Knowledge is not an exercise of one set of individuals arguing against another nor is it a popularity contest but rather it is all about finding out what constitutes intrinsic-reality as it permits ontological-primemovers-totalitative-framework; intrinsic-reality being the superseding transcendental enabler, and not any humans no matter their statuses. A third weakness has been by relating to poststructuralists as if they have got to get all their ideas right on by the instant, as if the theoretical framework isn’t in development like all theoretical frameworks (by the same token imagine all the unanswered questions that underlie quantum physics for over half a century that are still being elucidated, for instance, string theory which
is so highly speculative but is still credibly a basis for research and analysis). The purpose of a theoretical framework is not to provide an immediate answer for everything but rather to provide a framework for constant critical development of ideas. Otherwise, it will be best to develop a correlational construct that may statistically be coherent with many arguments at any given point in time but is of little predicative or projective value because it hasn’t got a profundity as a genuine theoretical construct which may actually be mostly incoherent with many arguments at its earlier stage but provides a wealthy framework for the continuous articulation of ideas and resolutions, and this is actually the point of a theory in the very first place. It is thus no accident that many other disciplines have found post-structuralism as a relatively ideal tool for invoking much needed insight. A fourth criticism has to do with the ‘political nature’ of human affairs obviously, and even the intellectual is not beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been the case throughout human history) and further so in a social domain that is not immediately amenable to predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as with the natural domain even though the latter equally faces similar issues but to a lesser extent. When we come to reflect that the leading poststructuralist of his time had an entire school, rather than focusing on developing research criticisms of his work and other poststructuralists (which would have been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think that intellectualism and ideas occur in an absolute neutral environment particularly when of socially-perceived disturbing implications. While it is generally recognised that knowledge is determined on its own merits as an interest-free principle, the fact is in the real world of ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and extra-intellectual meaningfulness becomes
fair game. Fifthly, the argument of unintelligibility of post-structural meaning is outright ridiculous with respect to the exegetical aims of its authors, and no less so as expecting advanced chemistry, biology and physics writing to be popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-transference permeating all subject-matters and disciplines, which speaks to the idea that the ‘ordinariness of thought’ is not the sound basis for construing issues raised in terms–as-of-axiomatic-construct of profoundness of contemplation. The ontological-contiguity—of-the-human-institutionalisation-process by its deferential-formalisation-transference is an exercise of shrinking the melee of common sense wherein spheres previously opened for common opinionionatedness are shoved away as ‘deferred to’ specialisms whether institutional or subject-matters by the mere effectiveness, with ‘informed common and individual opinions’ being the panache for the expression of sovereignty whether about the polity or individual choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that there is a common sense social science is a falsehood no more than there is no common sense natural science, and intellectuals are irresponsible when peddling the notion that readers shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness and rather expect that they should be able to satisfactorily engage at the same intellectual level (reference-of-thought) involving advanced studies and research on the basis of ordinariness of thought. This should not be confused with a popularising exercise meant to stir popular interest like popular science, though in fact there is no truly popular science for that matter but serious/candid science. Such a confusion can hardly arise in the natural sciences because of the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ in constraining veracity/ontological-pertinence of thought by the immediate effectiveness of studies, discoveries and inventions wherein a flaw thought proposition will be proven wrong by its
ontological ineffectiveness with relatively little concern for third-party convincing over the
transcendental-enabling/sublimating/supererogatory-de-mentativity that is
existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness and distance of
ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity’ in the social sciences
allows for propositions to crop up that are hardly constrained by immediate effectiveness of
studies, discoveries and inventions, such that such propositions will often border on popular
thinking or the political (technically) or a concern priorly driven with garnering support and
agreement, rather than of genuine intellectual strife for ontological-primemovers-totalitative-
framework/intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory-de-mentativity. In this regard, the central tenet of
poststructuralists with respect to their pursuit has been transcendentally-enabling-level-of-
authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
as-so-being-as-of-existential-reality/antinishilism with respect to their reflections, studies and
research at all cost, even at the cost of many poststructuralists not recognising explicitly that
they are poststructuralists or not recognising similarities in their works with other
poststructuralists, so because fundamentally they can only vouch for their authentic
reflections and analyses without a ‘surreptitious pretence’ for such amalgamation which will
undermine their authenticity with regards to conceptualising intrinsic-reality/ontological-
veridicality, with the idea that the notion of a commonness of their ideas and as a movement
will take care of itself if they are truly articulating an intrinsic-reality/ontological-veridicality
that reflects that commonness; more like the Indian story of blind men who came across an
elephant and each one sincerely/authentically said what their capacity enabled them to say, no
more no less, with the idea that if what they say is of-the-reality of an elephant, that notion
will take care of itself but their first posture is to say authentically what is in front of them. This speaks of the essential nature of all sciences wherein the researcher considers the most determinant element to be not itself or other humans (who are together mortals; mortal because they/humans don’t really invent any rules of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or utilise them as ‘supposed inventions’ – and the scientist is all about a validation by intrinsic-reality/ontological-veridicality-as-the-transcendental-enabling/sublimating/supererogatory–de-mentativity in contrast to a mental-disposition of social-aggregation-enabler where the emphasis is naively about convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-veridicality transcendental enabler thus leading to subontologisation in-a-social-dynamism-of-meaningfulness-misappropriation, rather than the supersedingness/precedingness of intrinsic-reality/ontological-veridicality transcendental enabler) but the superseding transcendental-enabling/sublimating/supererogatory–de-mentativity which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by effectiveness of ontological-prime movers-totalitative-framework and projection; with the latter wholly the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating/supererogatory–de-mentativity that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘sovereignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the
transcendental-enabling/sublimating/supererogatory-de-mentativity whatever the jargon required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating/supererogatory-de-mentativity of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of ontological-primemovers-totalitative-framework ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation. Sixth, thus the idea of deferential-formalisation-transference behind formal predicates of institutions and subject-matter specialisms is all about construing meaningfulness in a depth-of-thought (intemporality) that is not available to ordinariness of thought, wherein there is a disambiguating of the supratransversality—apriorising/axiomatising/referencing as a construct of formalised reference-of-thought that is of intemporal-projection/longness-of-register-of-meaningfulness/totalisingly-entailing/maximalising/transcendental over the subtransversality—apriorising/axiomatising/referencing informal reference-of-thought as melee of common sense of temporality/non-totalisingly-entailing/non-maximalising/non-transcendental constructions. The idea is that such a disambiguating is a necessity going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor requiring skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness-and-teleology as the ontological construct that institutionalises (intemporalises). Hence such a skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) in the ontological-contiguity—of-the-human-institutionalisation-process of shrinking the melee of common sense involves developing institutional and subject-matter specialisms as supratransversality—apriorising/axiomatising/referencing narratives (for instance, the developing sciences and institutional specialisms) that induce corresponding untenability/internal-contradiction/internal-incoherence/institutional-constraining by effectiveness on the subtransversality—apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that…, physicists say that…, etc. and not a common sense posture of the sort I think that…, thus relegating the melee of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness. Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality—apriorising/axiomatising/referencing intellectual criticism but raising subtransversality—apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted above. The fact is the melee of common sense as subtransversality—apriorising/axiomatising/referencing hasn’t got the requisite intemporality/longness in terms—as-of-axiomatic-construct of
universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper’s purported construct for aetiology/ontological-escalation in grasping the phenomenon of postlogism in general and the general background human science conceptualisation; together with its exposure for falsifiability/validation from subsequent critical analyses). Such that there will tend to be ‘confusion of reference-of-thought’ where such subtransversality—apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than ‘to defer’, or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As our melee of common sense defers when it comes to the natural sciences, it defers when it comes to the legal science, it shouldn’t expect otherwise but to defer when it comes to rigorous post-structural and other social science constructions however their approximations, and so as the best construction potential of human meaningfulness and teleological possibilities. On that same token the notion of validation of supratransversality—apriorising/axiomatising/referencing with respect to subtransversality—apriorising/axiomatising/referencing is not one of contending/argumentative validation at a same contending pedestal but rather as a validation of the supratransversality—apriorising/axiomatising/referencing reference-of-thought as intellectually-and-morally institutionalising and not implying its equivalence with subtransversality—apriorising/axiomatising/referencing melee of common sense reference-of-thought, wherein for instance a consistent demonstration of a chemistry science (as supratransversality—apriorising/axiomatising/referencing) effectiveness earns chemistry science the deferential-formalisation-transference of no longer being engaged at a same contending pedestal as the
melee of common sense with respect to human social contention about material constitution in order to avoid the circular drawback of constantly making arguments in \(<\textit{amplituding}/\textit{formative}>\text{wooden-language}\{\text{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}\text{terms–as-of-axiomatic-construct},\text{such\ that social deference is now institutionalised as ‘chemists say that/it is said in chemistry that’ rather than a social melee of common sense equivalence of ‘chemists think that but I also think that going by my common sense’}. This argumentation is not idle as the social sciences as ‘being closest to human conscious sense of sovereignty’ tend to be most affected by such fallacies as highlighted that should be superseded by all knowledge whether natural or social-construct, and while such notion are often intuitively grasped with other formalisms whether institutional, legal or in the natural sciences subject-matter specialisms, for the social sciences there is a need to actively bring this notion to the consciousness-awareness-teleology in order to circumvent such nature of knowledge fallacies with regards to an emotionally charged domain that is the social. This equally explain why the studies of the social are easiest prone to ontological-bad-faith/inauthenticity, whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, as even where contending intellectual postures are of relative elevated formal knowledge de-mentating/structuring/paradigming, it is quite easy for a muddling with \(<\textit{amplituding}/\textit{formative}>\text{wooden-language}\{\text{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}\text{mentality in order to advance one intellectual posture, and so as intellectual politics rather than genuine intellectualism. Seventh, as advanced by this author the ontological-normalcy/postconvergence of intrinsic-reality as reflecting holographically-<conjugatively-}
and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process validates and restores the notion of essential meaningfulness (the notion of a center – be it conceptualised as an ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’) to post-structural thought as its scholars had rather previously mostly focussed on disambiguating/clarifying the certitude/lack-of-certitude of human meaningfulness and thought. Even then the practical application and conceptualisation of post-structural meaningfulness has always been one that has tended to restore a sense of re-equilibrium with respect to perceived vested interest and skewed power relations whether with regards to its articulation in feminist studies, postcolonial studies, power relations in social settings with regards to appropriate deliverance and more responsive public services, etc. as post-structuralism has often been a framework giving weaker and subjected meaningful frames public voice. Thus the so-called ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation of post-structuralism’ has been in real and practical world terms more a question of abstract reconstructive thinking since such practical applications have tended to be effective further highlighting the need rather for more decentering contemplations. Besides, post-structuralism practical emphasis has mostly been methodical rather than dogmatic. In the bigger scheme of things, this author further highlights that post-structuralism by implying ‘decentering’ is implying transcendence-and-sublimity/sublimation/superrogatory—de-mentativity or an ‘existential-reference/existential-tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of analysis/knowledge-construct has moved to the prospective/transcendental superseding
reference-of-thought putting into question the now-and-present way of thinking as prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract articulation of principles is of existential-tautologisation/existential-reference neutrally. For instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining meaningfulness-and-teleology from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-ephemeralized-prominence/to-epistemic-totalising~renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness. In other words, abstract post-structural construct as any other theoretical constructs have no commitments to upholding any value-disposition and teleology but rather construe the ontological possibility conflated as of existential reality. The idea of discretely eliciting value-disposition and teleology choices/options is a secondary exercise of human social application (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting ephemeralized-prominence/to-epistemic-totalising~renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness) and ephemeralized-prominence/to-epistemic-totalising~renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness)’ and so with regards to the specific human-subpoteency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-
panintelligibility-<imbued-and-'hermeneutically/reprojectively-educing’–human-
subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–
re-apriorising/re-axiomatising/re-referencing~conceptualisation>), and specifically with
regards to the practical application of post-structural thought as a re-equilibrium exercise
derived from the ‘theoretic reshuffling-of-the-cards/putting-into-question’. Thus post-
structuralism being so construed as ontologically-driven (having a center as of ontological-
normalcy/postconvergence graspable by ‘the dynamics of metaphysics-of-absence or
postdication insight with respect to metaphysics-of-presence’ involving diminishing–human-
epistemic-abnormalcy/diminishing–preconvergence/increasing-relative-ontological-
completeness-of-reference-of-thought in construing-ontological-veridicality as determined-
by-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-
ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context due
to human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-
totalisingly,,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation) as ‘shallow limited-mentation-capacity to deeper limited-mentation-capacity-
(as of relative conflation) development’) effectively heralds post-ideology as ideas and
notions are validated/invalidated by their demonstrated ontological-veracity/ontological-
pertinence. In order words the supposed ontological-terms of notions and ideas are the basis
for their analysis as ontologically-pertinent or impertinent, and so more than just perfunctory
analyses constrained by the limiting framework of institutionalised-being-and-craft constructs
and setups but at an existentialism/full-depth-of-existential-implications level highlighting the
precedingness/supersedingness/ascendancy of ontologically-driven analysis over ‘habits’,
‘conventions’ and rights-of-precedence/entitlement fallacies. Post-structuralism as such
should posit to remedy and supersede the inherent ‘conceptual hyperbole’ imbued in the often
‘poorly-ontological, non-ontological or metaphysical constructions permeating ideologies’
and projected as worldviews, to ‘restore existential veracity/ontological-pertinence as the central notion behind worldview construction and representation’, and so beyond just ‘present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and anthropological depth with respect to human mentation, meaningfulness and institutional-development—as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting—as-of-conflatedness/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor and a social world is inherently hampered by a blurriness and distance of ontological-primer-movers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-
mentativity’. Thus approaching a scientific study of the Social on the same operational basis as that of the natural world is necessarily deficient as the latter’s immediacy of concurrent ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the ‘very strength’ of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is this author opinion, is not strong enough (of sufficient ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context for the further development today of the study of the Social as of its fleeting nature (on such terms of what predicates should take precedence). It must be said that the notion of transcendental enabler with regards to the Social today is rather relatively weak such that critically a lot of the basis for the social sciences today is influenced rather by practice, authority, and more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, rather than truly ontological-primemovers-totalitative-framework deterministic ontological ‘projected constructs’. Consequently despite the projected candour, the study of the social is inevitably permeated with ‘intellectual-ontological-bad-faith’
(unconsciously or consciously), and by this is meant it will be naïve to think that all issues of intellectual disagreements with respect to the study of the social are necessarily in purely logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant constraining of the natural world can do to thinking by mere onological-primemovers-totalitative-framework under the rational-empiricism de-mentating/structuring/paradigming is often weakly possible with the Social particularly where there is perceived interest to act otherwise. This is particularly the case with regards to the undermining of social criticism and especially post-structuralism with the intellectual standards of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by ‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> abused as objective bases of intellectual criticism get discarded easily for highly subjective ones); and this author equally holds that a ‘fully emancipated social science’ will only prevail with the requisite pivoting/decentering of understanding as deprocrypticism or preempting—disjointedness-as-of-reference-of-thought psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, which should enable the attainment of a suprastructural/beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> level of social thought involving deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. More like in many ways the level of thought in the natural sciences is wholly divorced from our consciousness-awareness-teleology and is fully transcendental-enabling/sublimating/supererogatory-de-mentativity by confirmatory existence/intrinsic-reality/ontological-veridicality with little or no social-aggregation-enabling but say for human organisational issues and wrong preconceptions induced by social-aggregation-enabling. This arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently
strong transcendental-enabling/sublimating/supererogatory-de-mentativity. While in the 
natural and mathematical sciences the subject-matter by itself is highly transcendental- 
enabling/sublimating/supererogatory-de-mentativity this is not the case with the subject-
matter of the social due to its high temporal-to-intemporal-conjugating-emotional-
involvemen/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-
perceived-social-stake-contention-or-confliction requiring rather a further strengthening of 
ontologising rules as of knowledge-notionalisation and abject-ontologising-recomposuring 
(deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-
reference-of-thought) beyond the present just positivistic/rational-empiricism striving social 
science bringing together profound insight with causal effectiveness. This doesn’t necessarily 
imply a naïve mimicry of the experimental approach as is often the case it can be argued as 
prevalent in the psychological sciences, and even in the natural sciences there is need for 
thorough insight when experimenting like say much of quantum physics is often based on 
elaborate abstractness of thought that is merely validated by critical confirmatory 
experiments. In fact, this author will contend that the overall ‘insightful empirical’ 
conceptualisation of this paper is actually more profound than catches the eye in a naïve 
empirical sense that cannot see beyond our positivistic registry-worldview to recognise 
human successive transcendental states like recurrent-utter-uninstitutionalisation, base-
institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, 
positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires 
insight and it is more than just a matter of obtaining results because an experiment has been 
made which is certainly simplistic as the very existential state of things when disambiguated 
is actually a more profound notion of experiment. It is interesting to note that this argument 
on the specific basis of (conscious or unconscious) ontological-bad-faith/inauthenticity for 
the requisite condition of a ‘fully emancipated social science’ is more than just of
circumstantial and idle implication but is rather construed as a de-
mentative/structural/paradigmatic notion much like saying it is impossible to have a fully
emancipated science in a transitory non-positivism/medievalism to positivistic social-setup
still emphasising essences and supranatural causations over a transcendental-
enabling/sublimating/supererogatory-de-mentativity of rational-empiricism/positivising
based knowledge of intrinsic-reality, as transcendental-
enabling/sublimating/supererogatory-de-mentativity positivistic contentions will still be
undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity-
<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-
schema> in the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
of reference-of-thought/axiomatic-construct. Likewise, the positivism–procrypticism
meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology-<in-
existential-extrication-as-of-existential-unthought> of social-aggregation-enabling with
respect to its social reality subject-matter as of its spurious/remote nature, for a more
profound transcendental-enabling/sublimating/supererogatory-de-mentativity (unlike the
relative case with the physical reality subject-matter as immediate) as required for futural
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology as of prospective
deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only
credible logic this author can think of is that post-structuralism as one of the major critical
theories given its potential ontological vigour has been seen as a threat with a deliberate
cover non-intellectual effort to stifle it and limit its influence often having to do with
misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one
of the central issue with regards to post-structural thinking with respect to other intellectual
postures has had to do with the unusually high level of accusations of its proponents of
misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather ‘a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis’. Consider in this case one media-driven and popularised argument that Karl Rove ‘we make our own reality’ quote during the Bush mandate, is due to post- structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes-rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical applications of post- structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity’ of ‘parodying’ of poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in authenticity. Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding cure for diseases. This is no
more different with post-structural thought which is not a metaphysical/ideological advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science issues but political economy issues that require a criticism with respect to social choice about the political economy, but this has been usurped uncritically as if of a natural economic allocation mechanism (a falsehood). This author makes this latter point on the belief that knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of speculative thinking allowed to this author in this paper, it
is such a proposition together with the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism since the 1980s arises out of such (it is herein contended) ‘intellectual triteness’ by such critics particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual standards they have been able to show elsewhere, together with the notion that these have tended to be unusually media driven in inducing a populist effect. Imagination will point to the idea that something much more ‘cynical and non-intellectual’ must be at work but passing for legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment more or less grasping the true implications of a non-medieval positivistic thinking on the whole intellectual, belief system and social-construct, and cynically upholding notions they knew better to be wrong but for their overall sense of preservation of their present and their present interests. This impression can be extended as well with respect to the idea of the social implications of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-suprerogation as of its ontological-resolution (aetiologisation/ontological-escalation) in all the successive registry-worldviews given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. As we can grasp that an aetiologisation/ontological-escalation as resolution for non-positivism/medievalism world postlogism which is more than just palliative/incidental-in-its-implication with regards to a specific instance or specific instances of notions-and-accusations-of-sorcery for instance, but rather construing the whole non-positivism/medievalism registry-worldview/dimension relative-ontological-incompleteness-induced,−‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation—preconverging/dementing–apriorising-psychologism’ (as of metaphorically-a-million-and-one-instances-and-locales as enabling the possibility of the phenomenon of notions-and-
accusations-of-sorcery and other vices-and-impediments of the state of non-positivism/medievalism and thus requiring de-mentatively/structurally/paradigmatically and comprehensively a positivistic ontological-completeness-of-reference-of-thought will de-mentatively/structurally/paradigmatically elicit a non-positivism/medievalism world sense of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology preservation’ that wouldn’t necessarily construe the social manifestations of notions-and-accusations-of-sorcery with their associated vices-and-impediments as abstractly and ontologically unwarranted universally (which we know was actually the case, with the ‘establishment’ idea being that the masses didn’t need to know about such ‘positivistic stuff’ even if such stuff was ontologically-veridical), to ensure its ‘temporal/shortness-of-register-of-meaningfulness-and-teleology preservation’. Likewise an articulation as of aetiologisation/ontological-escalation (ontological-resolution) that is more than just palliative/incidental-in-its-implication with respect to the notion of psychopathy and social psychopathy with regards to a specific instance or specific instances of psychopathy and social psychopathy but by pointing to the bigger picture to the procrypticism registry-worldview’s/dimension’s disjointedness-as-of-reference-of-thought relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ (as enabling the possibility of the phenomenon of psychopathy and social psychopathy as of metaphorically-a-million-and-one-instances-and-locales as well as other vices-and-impediments of procrypticism de-mentatively/structurally/paradigmatically and comprehensively requiring a deprocrypticism ontological-completeness-of-reference-of-thought will de-mentatively/structurally/paradigmatically elicit a human procrypticism sense of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology preservation’ that wouldn’t necessarily construe the social manifestations of psychopathy and social psychopathy with
(transparency-of-totalising-entailing,<as-to-entailing,<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of the defect) as at adulthood, the postlogism ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation tends to extend as conjugated-postlogism ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation involving the temporal elicitation of derived-perversion-of-reference-of-thought,<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and it is thus naïve to construe postlogisms without such a corresponding differentiation of social analysis in the construing/conceptualisation of ontological-veridicality. Now the criticism of populism-driven critiques of post-structuralism is not raised idly, as an exercise that purports to articulate such breadth and depth of novel ideas as this paper does necessarily requires that the authorship effectively assume the profile and presumption that the implied knowledge construct warrants (which obviously every truly intellectual spirit will appreciate for what it is, if not agree with the arguments). Such an articulation is driven by the idea that knowledge as a transcendence-enabling construct is more than just about its craftiness/technique but part and parcel of the intellectual exercise is to articulate meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced with the evasive nature of quantum theory the physicists never said reality is wrong since it is difficult to understand, likewise it is naïve to imply that the reality reflected by post-structuralism is wrong because it doesn’t quite fit into our ordinary everyday way of thinking (that is exactly the point, our ordinary everyday way of thinking is in want of its further development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-unshackled)!
