Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to
ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutical insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that
such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does!

In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing <amplitudes/formatives>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as the dimensionality-of-sublimating—<amplitudes/formatives>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation behind the ‘inventing’/‘creation’ of prior knowledge fades into secondnatured mechanical dispositions requiring the renewal of dimensionality-of-sublimating—<amplitudes/formatives>supererogatory—de-mentativeness/epistemic-growth-or-
conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation prospectively. At which point, the more decisive issue is recognising and assuming the reality of a fundamental apriorising/axiomatic/referencing intellectual break/schism/estrangement with such ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’, as so-implied across sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing between non-universalising sophistry and prospective Socratic philosophers universalising-idealisation as well as in the case of medieval-pedantic dogmatism and prospective budding-positivism, and it is herein contended likewise with regards to our modern day intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-

as for instance when statistics as the outcome of prior human originariness-parrhesia, as spontaneity-of-aestheticisation in resolving prior human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint are turned around to falsely imply progress occurs anyway to then paradoxically imply surreptitiously there shouldn’t be any prospective human originariness-parrhesia, as spontaneity-of-aestheticisation in resolving prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint), is the issue of the fundamental lack of dimensionality-of-sublimating—supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as ‘knowledge becomes increasingly mechanical’ and is rather a secondary and derivational tool for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the imprimaturing so projected and the perceived temporal social-value arising with such imprimaturing and as it is increasingly associated with generalised incuriosity in genuine intellectual development and the substituting of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought over genuine knowledge-reification as to existence-potency, disclosed-from-prospective-epistemic-digression-as-of-epistemic-totalising~renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness. This has developed in our present age of intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing, as-to-entailing-epistemic-totalising~in-relative-ontological-completeness) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought,
as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-deficient-reflexivity of our wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatc-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its wooden-language-(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>); with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency,-disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supercerorogatory—epistemic-conflatedness/immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-
faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-(uninstitutionalised-threshold/presublimating-desublimating-decisionality)-of-ontological-performance-
<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-
<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> inclinations that poorly appreciate existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness implications of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-<in-dimensionality-of-desublimating-lack-of—

This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious de-mentative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-formative-epistemic-totalising~renewing-realisation/re-perception/re-thought, in supererogatory—epistemic-confoundedness or the critical analysis of such knowledge-reification but in the face of criticism
rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2 + 2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3 + 3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness- (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating–<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—rede-mentating/restructuring/reparadigming–psychologism’ as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutising-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence
doesn’t fit/digresses—from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification implications as of existential-reality’). We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of the Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s^2 to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) as preemption such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection
perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold/presublimating-desublimating-decisionality)~of-ontological-performance-<including-virtue-as-ontology>.

The fact is knowledge-reification is of ‘existential <amplituding/formative>epistemic-totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—-as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)’ and nothing can be construed in totalisingly-disentailing—-discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-＜amplituding/formative＞epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-confoundedness implications. The fact is the ‘a priori or axiomatic conception’ is effectively what precedes and validates logic as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, however there is no logical-basis for the ‘a priori or axiomatic conception’ but for ‘its ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construal as of existence’ as can thereof be validated as of strong prediction arising as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation establishing its universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-＜amplituding/formative＞epistemic-totalising~in-relative-ontological-completeness} (and so given the fact of human thrownness-in-existence,-imbued-arbitrariness/waywardness-{as-to-the-human—projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing-process-of-‘＜amplituding/formative＞epistemic-totalising~conceptualisation’), speaking to the fact that logic is rather the inner working coherence/contiguity of any human apriorising/axiomatising/referencing construct); and thus the ‘a priori or axiomatic conception’ is rather about ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-

However, the universal-transparency.<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) generated in domains like mathematics and many a natural sciences is so efficient (as of the underlying positivism/rational-empiricism reference-of-thought achieved ‘universal-transparency.<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) as of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism so-reflected as our present positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism’ first induced by budding-positivists like Copernicus, Galileo, Descartes, Newton, Leibniz, etc.) that in many ways mathematicians ‘don’t go on to be thinking about the soundness of axioms once these are construed as of existence’ for instance with the axioms-of-addition, but this doesn’t mean that the idea of unsoundness of ‘a priori or axiomatic conception’ (as to invalidate dialogical-equivalence) doesn’t exist especially so when it comes to blurred domains not only in the social sciences but sometimes in the natural sciences as well where lack of universal-transparency.<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) arises such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing meaningfulness-and-teleology as of

so portrayed today, the question can be asked to which extent it usually reflect deep curiosity

Actually the projection of values including intellectual values in such
<!amplituding/formative>epistemic-totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology<!in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-prime movers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness

We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its dementative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective deprocrypticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness

underlying conflict arises with all registry-worldviews/dimensions transcendence-and-

existential and cannot be just about the physical world without social world implications and

Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so over our present procrypticism or disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating—

<amplituding/formative> supererogatory~de-mentativeness/epistemic-growth-or-
projective-perspective, to which latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence>’ for the need for prospective originariness-parresia, as–spontaneity-of-aestheticisation, to which the Self absconds (in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to limited-mentation-capacity implications) until the perceived induced notional—positive-opportunism from any such prospective originariness-parresia, as–spontaneity-of-aestheticisation elicits the requisite human limited-mentation-capacity-deepening (<amplituding/formative>epistemic-totalisingly, as-to-existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation) (involving prospective knowledge-reification and/or deferential-formalisation-transference) for prospective secondnatured institutionalisation as of renewed prospective reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology is associated with a renewed framework of ontologisation/ontological-verity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ to the superseded framework of ontologisation/ontological-verity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-
serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)?

comprehensive postconverging-or-dialectical-thinking–apriorising-psychologism—by—preconverging-or-dementing–apriorising-psychologism dialectical representation involves articulating a comprehensive organic-comprehension-thinking narrative in ’Intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting

reality is as of ontological-normalcy/postconvergence and suprastructural and doesn’t respond to and have nothing to do inherently with human mental-devising-representation incrementalism-in-relative-ontological-incompleteness and notional–disjointedness, as it is up to us to proxy to it

knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporal/longness as ontology’

fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’

Preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as to suprastructural proxying of intrinsic-reality), beyond the deficient mental-devising-representation intradimensional representation of meaningfulness-and-teleology

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it ........................................................................................................... 2433

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality de-
mentating/structuring/paradigming

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former

The application of the universal technique of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to procrypticism-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can be basically be articulated as follows (the ontological entrapment)

Institutionalisation and formalisation are based exactly on the fact that we don’t have a universal intemporal/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’

Solipsism means I exist alone (with respect to intrinsic reality/ontological-veridicality)

By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

Pedestalled construal/pedestalled disambiguation explains the dynamism of human institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> going by a recurrent emanence template

There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-ontological-incompleteness) are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect<as-Being-or-ontological-or-existential-defect>

Technically, it can be said that the underlying psychopathic phenomenon known as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is associated with all the institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> by its eliciting of ‘protracted slantedness’ in temporal-dispositions

The text seems to be a complex and philosophical discussion on topics such as non-presencing, subpotency, and epistemological considerations. The text is difficult to read due to its complexity and the use of specialized terminology. It discusses the nature of existence, consciousness, and the implications of these concepts on our understanding of reality. The text touches on themes such as transcendence, sublimation, and the nature of knowledge, suggesting a deep reflection on the ontological status of human experience.

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogationly predisposed human mind’ as of prelogism or prelogism-as-of-conviction-as-to-profound-supererogation-(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission).

In other words, the psychopath manifests postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-
teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’, i.e. meaning-as-form or pathologically/compulsively hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism-as-of-conviction-as-to-profound-supererogation minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation, whether thereafter the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is rightly or wrongly assumed). Hence prelogism or prelogism-as-of-conviction-as-to-profound-supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of perversion-of-reference-of-thought-<as-effectively-apriorising-in-

archaeology/historiality/ontological-eventfulness/ontological-aesthetic-tracing derived-science. Insightfully, such a candidity/candour-capacity deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology construed as most ontologically-veridical human psychical representation and so over our present positivism–procrypticism psychical representation, is effectively grounded on the notion that placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is ‘by itself inherently an utterly discreet and arbitrary construct’ but for the fact that every registry-worldview’s/dimension’s reference-of-thought has been habituated to its own as of its existentialism/full-depth-of-existential-implications meaningfulness-and-teleology and considers its own by reflex to be sanctimonious. But then the fact is the true sanctimony lies with intrinsic-reality/ontological-veridicality construed as of prospective relative-ontological-completeness-of-reference-of-thought as it so defines the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology veracity/ontological-pertinence as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, as implied with the notion of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the
possibility of its secondnatured institutionalisation just as implied with the notion of faith in
creeds. Further, the dynamics of such a graduated human consciousness as of
notional-conflatedness of notional-deprocrypticism can be reinterpreted operantly as of
‘notional-referentialism’ as it points to the fact that
categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness
mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
are actually ‘various levels of failing to achieve the deprocrypticism referentialism—

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure
ontological-completeness-of-reference-of-thought’, and thus are construed as of the same
notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
levels’ given their respectively underlying limited-mentation-capacity in achieving
referentialism. While in reality these are respectively of
‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness
mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’
they still act as if of ‘deprocrypticism referentialism—ontologically-uncompromised-
mediating, as-of-conflatedness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in
their beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-
existential-unthought> preconverging-or-dementing–apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibility/setup/measuringinstruments levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness-of-reference-of-thought of meaningfulness-and-teleology’. Neuterising thus refers to human attribution of meaningfulness-and-teleology as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating, as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional–deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, that is secondnatured as of its prior relative-ontological-incompleteness-of-reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness-of-reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness-of-reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘abject and brute’ animistic interpretation as meaningfulness-and-teleology neuterising
that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary
tales’ in shoring up that posture, speaking of its threshold-of-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism. This is a most elaborate articulation of
neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’
say between positivism–procrypticism and deprocrypticism with the latter underlying the
disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the
case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in
the various illustrations highlighted herein and particularly as more obviously revealed with
childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-
referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein
recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of
neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-
compromised-mediating,-as-of-its-specific-constitutedness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing
rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’, base-
institutionalisation–ununiversalisation existential reference-of-thought next level of
neuterising is elicited by its ‘warped-consciousness tendentious—ontologically-
compromised-mediating,-as-of-its-specific-constitutedness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing
universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–
psychologism’, universalisation–non-positivism/medievalism existential reference-of-thought
after-next level of neuterising is elicited by its ‘preclusive-consciousness qualifying—
ontologically-compromised-mediating,-as-of-its-specific-constitutedness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing
as of de-mentation—(supperagogary—ontological—de-mentation—or-dialectical—de-mentation—
stranding-or-attributive-dialectics) on ‘decentering/pivoting around the uninstitutionalised-
threshold rule’ as a remaking of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument involving the
resetting of the placeholder/setup/mental-devising-representation/mentation/consciousness-
awareness-teleology, pointing out that the prior apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument has been
superseded as of its revealed perversion-and-derived-perversion-of-reference-of-thought—<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> and so as of the uninstitutionalised-threshold rule. This explains why at
uninstitutionalised-thresholds which are subject to ‘meaningfulness-and-teleology
neuterising’, prospective institutionalisation can only be achieved as of secondnatured
constraining social universal-transparency—(transparency-of-totalising-entailing—as-to-
entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-complete-
ness) that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology
neuterising’ thus enabling the ontological-normalcy/relative-ontological-complete-
essence-of-reference-of-thought of the prospective institutionalisation. It also explains why naively
implying at an uninstitutionalised-threshold that ‘the social-universally-non-transparent-thus-
non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-
reality’ is universally attributable as if humans had only the intemporal/longness-of-register-
of-meaningfulness-and-teleology individuation without temporal/shortness-of-register-of-
meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-
upholding of neuterising and thus unable to reveal perversion-and-derived-perversion-of-
reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation>; as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness <amplituding/formative> wooden-language-\{imbued—averaging-of-thought-\} as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-\{nondescript/ignorable-void\}-with-regards-to-prospective-apriorising-implications\> in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism/disjointedness-as-of-reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional~referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the
limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative>epistemic-totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought.

Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness-of-reference-of-thought, so-construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically-<conjugatively-and-
intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—for referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening—⟨amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—for referential-notions/articulations/virtue; with the ⟨given consciousness’s neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which is non-rules—apriorising/axiomatising/referencing–psychologism,—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance-<including-virtue-as-ontology> across registry-worldviews/dimensions even though all
humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring underlying the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. The fact is that all meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology>s, whether teleologically-degraded or teleologically-elevated, implied as of within a given reference-of-thought are necessarily in ontological-contiguity, construed as of a difference-in-kind/difference-in-aposteriorising-or-logicising of the same <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving. Such that a registry-worldview/dimension reference-of-thought associated postlogism-slantedness manifestation, which is inevitably being instigated as postlogism denaturing <amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiac-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) meaningfulness-and-teleology, as well as the temporal manifestations of the registry-worldview/dimension including conjugated-postlogism, is inevitably in notional-

mentatively/structurally/paradigmatically impossible for either such a non-positivistic social-

the corresponding reference-of-thought centered-

integrative and ‘not in notional contiguity’ with the prior registry-worldview’s/dimension’s reference-of-thought ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments crossgenerationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of
existential-contextualising-contiguity—in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity—<profound-supererogation-of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a depocrypticism perspective with regards to a procrystalism/disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrystalism/disjointedness-as-of-reference-of-thought arises in the first place is in circular <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered—epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology centered—epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturizing such a prospective institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/<supererogatory—de-mentativity> perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from

at their respective reference-of-thought-devolving-level of analysis; as can be elucidated contrastively between ‘recurrent-utter-uninstitutionalisation uninstitutionalisation and base-institutionalisation institutionalisation’, ‘base-institutionalisation–ununiversalisation uninstitutionalisation and universalisation institutionalisation’, ‘universalisation–non-positivism/medievalism uninstitutionalisation and positivism institutionalisation’ and prospectively ‘positivism–procrypticism uninstitutionalisation and deprocrypticism institutionalisation’. The implication here is that with say notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order to construe ontological-veridicality; as of conflatedness we can’t simply imply the presence universalisation–non–positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as the basis of instigating logical-dueness for elucidation and thereof construing ontologically-veridical meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-representation of the presence as universalisation–non–positivism/medievalism uninstitutionalisation will overlook the presence uninstitutionalised-threshold and wrongly represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of elevation/institutionalisation in soundness-or-authenticity-of-reference-of-thought projection’. It is rather the conflatedness projective/anticipative contrast between the said uninstitutionalised-threshold however the mental-reflex complex of presence and the prospective positivism institutionalisation however the mental-reflex complex of the latter’s abstractness as from the presence uninstitutionalised-threshold perspective that enables their respective reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness contrastive fundamental elucidations in grasping ontological-veridicality as of their respective prior relative-ontological-incompleteness-and-completeness-of-reference-of-thought perspective. Thus it is the
positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endeavouring unleashed as of a maximalising-recomposuring-for-relative-ontological-completeness <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought. This conceptualisation insight points out that prospective procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation associated with our positivism–procrypticism registry-worldview/dimension as of its epistemic-abnormale/preconvergence/relative-ontological-incompleteness-of-reference-of-thought is effectively the defective result of our positivism institutionalisation destructuring-threshold–(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance–<including-virtue-as-ontology> as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of its reference-of-thought–categorical-imperatives/axioms/registry-teleology at the positivism–procrypticism uninstitutionalisation, wherein the prospective ‘procrypticism uninstitutionalisation’ arises as ‘<amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–

our positivism–procrypticism so-construed from a deprocrypticism perspective will be decentered and preconverging-or-dementing–apriorising-psychologism, just as our positivism in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective construal of non-positivism/medievalism reference-of-thought in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought show the latter to be decentered and preconverging-or-dementing–apriorising-psychologism.

As a further elaboration, the circularity and epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-dementating/structuring/paradigming/teleological-possibilities established as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-dementating/structuring/paradigming/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. This explains as of metaphysics-of-absence why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a
given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-de-mentating/structuring/paradigming/teleological-possibilities as of (warped-or-preclusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of-‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’! This equally explains the \textit{amplituding/formative} epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inherent in our prospective procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation, together with its inherent manifestations of psychopathic postlogism-slantedness and social psychopathy conjugated-postlogism, when construed from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought institutionalisation as in our metaphysics-of-presence beyond-the-consciousness-awareness-teleology-\textit{in-existential-extrication-as-of-existential-unthought} we systematically override the ontological-veridicality implications of such procrypticism/disjointedness-as-of-reference-of-thought and proceed by mental-reflex to uphold our procrypticism/disjointedness-as-of-reference-of-thought \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought-\textit{as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-}

Such a threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism being rather as of a temporal extricatory de-mentating/structuring/paradigming and that naively considers the mutual intersubjective eliciting of temporal extricatory de-mentating/structuring/paradigming to be intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming, given a failure to de-mentatively/structurally/paradigmatically grasp intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and rather confusing this with social-aggregation-enabling implications. This is clearly made obvious when ‘the very same motif of reasoning’ is construed as of metaphysics-of-absence implications (as to ontological-normalcy/postconvergence) say with respect to an animistic or
Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supero-rrogatory-de-mentativity notion as of the (given consciousness’s neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought of meaningfulness-and-teleology which establishes its ‘grounded knowledge construct’, and so because of its denaturing of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology by way of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity at the registry-worldview’s/dimension’s uninstitutionalised-threshold inducing prior relative-ontological-incompleteness-of-reference-of-thought in need for prospective relative-ontological-completeness-of-reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment' cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation—teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness-of-reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness-of-reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-
completeness-of-reference-of-thought, and thus rather implies an de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded
knowledge construct commitment, because it is for instance about articulating ‘prospective
positivism axiomatic-construct (occlusive-consciousness neuterising-induced)-reference-of-
thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’
with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-

reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-

important to grasp in both instances that such psychoanalytic-unshackling commitment
implications are not to be understood respectively as of the uninstitutionalised-threshold
mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—
devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which will

inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological conflatedness’, and this is important ‘to avoid unduly considering our whole psychical-nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-presence’, but rather grasp that there are teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency of our mental-projection and mental-disposition as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ beyond just what we can imagine as of our presence as positivism–procrypticism. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the prospective relative-ontological-completeness-of-reference-of-thought of the ⟨given consciousness’s neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’

of such perverse human institutions like serfdom and slavery were construed in their own

mentatively/structurally/paradigmatically as of the relationship between non-positivism and positivism as well as our procrypticism/disjointedness-as-of-reference-of-thought and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. This underlying notion of ‘notional–conflatedness/constitutedness-to-conflatedness construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising–devolved–purview-as-domain-of-
construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-prime-movers-totalitative-framework thus rather eliciting atomising/taking-to-
pieces constitutedness that induces relatively poor ontological-performance-<including-
virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombri(stic as <amplituting/formative>epistemic-
totalising–self-referencing-synecretising/circularity/interiorising/akrasiac-drag approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory-de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-
recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising-devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-prospective-aporeticism-overcoming/unovercoming>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normaley/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supraerogatory-de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising
whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normality/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory~de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality/transcendental-enabling/sublimating/de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemie-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation)) originary/event-of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-
reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness rather than striving to expand the transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into
simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a deprocrypticism (protensive-consciousness referentialism-induced)-reference-of-thought—devolving-teleological-dementating/structuring/paradigming-of-meaningfulness analysis as of its prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue
as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativitv ontology-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; consciousness defined as of ‘notional <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflatedness. The fundamental fact is that existence as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is the absolute a priori of intrinsic-reality/superseding–oneness-of-ontology prior to any human derived knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, and hence existence as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is the foundational absolute a priori any (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-
explaining human limited-mentation-capacity flawed mental-disposition for constitutedness lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming−of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-prospective-aporeticism-overcoming/unovercoming> imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness behind the ontological-contiguity—of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation-<as-to-prospective-aporeticism-overcoming/unovercoming>
imbricatedness/threadedness/recomposuring ’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-thresholds. Thus, the ontological-veracity as prospective relative-ontological-completeness-of-reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-de-
mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-
priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-

imbricatedness/threadedness/recomposuring ’, generating knowledge-
constructs/theories/intersolipsistic-intercessory-notions/notional-referential-
notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the
construal of existential-instantiations as of maximalising-recomposuring-for-relative-
ontological-completeness which is as of conflatedness, thus enabling the ontological-
contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we
cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent
nature of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-
sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-prospective-
aporeticism-overcoming/unovercoming> and as of its implied superseding—oneness-of-
onontology, since existence is de-mentatively/structurally/paradigmatically precedent and our
conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the
‘iterating nature of existential-instantiations’ as of existence’s
imbricatedness/threadedness/recomposuring ; and any such pretence of conceptual patterning
is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of
course, it is rather prospective relative-ontological-completeness-of-reference-of-thought that
will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-&lt;as-to-prospective-aporeticism-overcoming/unovercoming&gt;.

and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating/supererogatory-de-mentativity existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness. For all the above elucidations highlighting the ontological-veracity implications of constitutedness and conflatedness, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same &lt;amplituding/formative&gt;epistemic-
normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding/formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance-<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance-<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness and as relatively-perfect/near-perfect/perfect conflatedness, construed as notional–conflatedness as of
Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately human-subpotency effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. In the bigger framework, human <amplituding/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory~de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) as of collective human shallow-to-deepening~limited-mentation-capacity,-as-limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implies that human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue inherently suffer in reflecting holographically-<conjugatively-

totalising–renewing-realisation/re-perception/re-thought that further expands human grasp of the given epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,—as-of-their-specific-constitutedness induced neuterising or prospectively deprocrypticism referentialism—ontologically-uncompromised-mediating,—as-of-conflatedness meaningfulness-and-teleology. That is, the deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument in its
referencing of conflatedness, with no intermediating construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology-and-longness-of-register-of-meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of deprocrypticism ‘referentialism—
ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional--deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising, historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness’ of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism construct, wherein its <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construes beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of its ‘projected-or-anticipated-grandest-existential-axiomatic-construct’ as the absolute framework of ontological-performance-<including-virtue-as-ontology>-as-of-its-broadest-implications and thus failing to factor in the implications on its ontological-performance-<including-virtue-as-ontology> of its prior relative-ontological-incompleteness-of-reference-of-thought as this induces <amplituding/formative>wooden-language-{imbued—temporal—mere-

In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly
construe the supposed intradimensional resolution of existential issues of prior relative-

This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence’ what is existence/existential-possibilities not factoring Being conflatedness as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in reflecting holographically,<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, and further in contradiction to the notion of human <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of transcendent-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s. Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance-<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-

However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of the very same <amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so implied by extension with respect to a given reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ a centered–epistemic-totalisation is rather the circular meaningfulness-and-teleology representation of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

Now, the issue of a centered–epistemic-totalisation defect arises where the given reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ is ontologically-flawed/deficient as it will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-<including-virtue-as-

But then human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) achieving prospectively of an ultimately theoretically perfect/sound reference-of-thought-as-of—‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the full ontological-contiguity—of-the-human-institutionalisation-process as notional—deprocrypticism implies the circular ontologically-flawed/deficient implications of centered—epistemic-totalisation are done away with as of ontological-completeness with the <amplituding/formative>epistemic-totalising—renewing—realisation/re-perception/re-thought of the reference-of-thought-as-of—‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative>epistemic-totalising—purview—of—construal’, with such a conceptualisation of centered—epistemic-totalisation also construed as transcendental centered—epistemic-totalisation or extrapolated-centered—epistemic-totalisation or extrapolatory—epistemic-totalisation or transcendental—epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory—epistemic-totalisation or interpolated-decentered—epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered—epistemic-totalisation circularity of meaningfulness-and-teleology of ‘the very same physics <amplituding/formative>epistemic-totalising—devolved—purview/domain-of-construal—as—intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness of less ontological-performance—<including-virtue-as-ontology>
been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-de- mentating/structuring/paradigming-of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing
undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} as of prospective relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised--preconverging/dementing–qualia-schema> in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-elicitng-of-prospective-supererogation) then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical
model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly,–as-to-existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation) induces dementatively/structurally/paradigmatically grander human meaningfulness-and-teleology ontological-performance–<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative>epistemic-totalising–purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ or <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicated axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the
axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-prospective-aporeticism-overcoming/unovercoming> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance—<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration—as-mere—extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring—<postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed—as-the-enabler-of-insight-or-intuition-or-foresight—as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity
and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory-de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory-de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative>epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is
rather about validation/invalidation of any such mathematics as it can be so-demonstrable in
the occurrence of existential phenomena/manifestations; even as such a mathematical
demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of
mathematics is often for all practical purposes mostly overlooked by mathematicians when
involved in their formalisation exercise including ‘formal proofs’ as to the fact that the
existential validation/invalidation of mathematics is so nominally obvious that hardly any
experimenting is warranted for confirmation and this existential nominalism can easily lead
to a reductionist confusion that mathematics (as to its epistemic-conception
phenomenal/manifest-subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-
potency-of-existence> with regards to the ontological-contiguity of existence’) is not priorly
subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation
(and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-
invalidation of mathematics as of a ‘very existentially nominal
supererogatory’–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–
conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other
hand why the mere introduction of mathematics, statistics and data in domains requiring
‘human corresponding-sublimation-inducing,-profound-and-creative
supererogatory’–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–
conceptualisation’ is not construed as sublimating-validation in such domains where such
mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the
inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies-<in-transitive-
conflatedness–reflexivity,-in-the-full-potency-of-existence> given ‘human corresponding-
sublimation-inducing,-profound-and-creative
supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument–for–
conceptualisation”). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, 
Bohrs had to elicit the transcendent-enabling/sublimating/supererogatory~de-mentativity of 
the physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existent-reality created axiomatic-
constructs with mathematics being accessory to the transcendent-
enabling/sublimating/supererogatory~de-mentativity. They didn’t just start to develop
‘patterns of mathematical equations’ without the prior insight about the physics domain-of-
study and what to strive for, and actually from that ‘physics reality precedence perspective’
got the insight to further develop their relevant branches of mathematics. Nor do even pure
mathematicians just go about constructing ‘mathematical patterns’ as of formalisation
without striving to get insight and inspiration from existential-reality as transcendent-
enabling/sublimating/supererogatory~de-mentativity; and we can appreciate in this regards
how the human mathematical disposition adjust from a classical reflex with regards to
existential phenomena/manifestations that assume a non-classical character like statistical-
constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation. The naivety of logicism lies exactly in
this respect of construing formalisation as most of what is supposed to be achieved, and
failing to grasp that when it comes to social reality its own transcendent-
enabling/sublimating/supererogatory~de-mentativity has to be ‘creatively construed’, and this
in many ways explains the frustrated conclusion that will often then arise from such a naïve
formalisation perspective that the philosophical exercise is not necessarily transcendent-
enabling/sublimating/supererogatory~de-mentativity, contrary to the precept of all other
knowledge! Thus the conceptualisation of logic implied by any given registry-
worldview/dimension reference-of-thought-as-of-‘reference-of-thought—devolving-
teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising~purview-of-construal’ points to the fact
that the various registry-worldviews/dimensions operate their own conception of logic as of
their prospective relative-ontological-completeness-of-reference-of-thought; as we can
appreciate inherently as of metaphysics-of-absence that however deficient, that each registry-
worldview/dimension does have its own sense of logic as of its self-conscious construed
meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the
backdrop of an absolutely valid reference-of-thought-as-of-‘reference-of-thought—
devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied
by futural Being-development/ontological-framework-expansion—as-to-depth-of-
ontologising-development-as-infrastructurize-of-meaningfulness-and-teleology as of
prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought
registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working
coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-
world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein
by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective
notional-deprocrypticism psychoanalytic-unshackling metaphysics-of-absence and
conflatedness, and further subsumed in the word candidity or candour-capacity. Such
‘suprastructural logic’ is even more damning about the naïve constitutedness construal of
meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a
conception of logic and logical analysis points to the <amplituding/formative>epistemic-
totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and
vagueness involved when construing logic and logical analysis as absolute without any
explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—
devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’; usually in
our case, in a non-transcendental <amplituding/formative>epistemic-totalising-self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied
as of our positivism–procrysticism registry-worldview/dimension. Insightfully, such a
‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being
naively construed as of a given registry-worldview’s/dimension’s
<amplituding/formative>epistemic-totalising-self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in
lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and
captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–
as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-
institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-
singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-
causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’.

Being as of its implied notional–deprocrysticism’s conflatedness provides elucidation to such
question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised,
an ununiversalised or a non-positivistic society? And invariably the answers will be a vague
<amplituding/formative>epistemic-totalising-self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension,
and it is rather the emanant insight of the-Good/understanding/knowledge-
reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastucture-of-meaningfulness-and-teleology that carries the prospective transcendence-
and-sublimity/sublimation/supererogatory-de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/supererogatory-de-mentativity when prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity; as axiomatic-

of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory-de-mentativity implications as of human limited-mentation-capacity-deepening-<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the ‘maximalising-recomposuring-for-relative-ontological-completeness affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring,<postconverging-or-dialectical-thinking–apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’. Such a logicism disposition is rather in constitutedness and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory-de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation-and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-prospective-aporeticism-overcoming/unovercoming>. In the bigger scheme of things, this author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in the conception of meaningfulness-and-teleology ontological-
conflatedness of human limited-mentation-capacity implications construed from notional–deprocripticism perspective as historiality/ontological-eventfulness/ontological-aesthetic-tracing, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflatedness, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality-to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness

<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of maximalising-recomposuring-for-relative-ontological-completeness existentially supersede abstract/imagined/misconstrued/virtual constitutedness possibilities as of elaboration-as-mere-
form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) as of uninstitutionalised-threshold failing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory-de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say 19th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemie-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemie-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising~purview-of-construal’ or
<amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against
post-structuralism and specifically Derridean deconstruction as simply convoluted
expressions of familiar and trite ideas. But then the effective transcendental-
enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in
the social sciences and literal studies clearly demonstrate otherwise. Further many such
critiques have tended to be naïve about what passes for theory whereby naïve conceptual
patternning of general knowledge are articulated devoid of ‘new theory’, with little or no
transcendental-enabling/sublimating/supererogatory–de-mentativity implications, which in
reality is nothing more than a sophistry of argument from authority. This conception of
relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-
contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve
created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-
discontiguity--<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–
qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a
change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in
relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-
and-teleology ontological-performance--<including-virtue-as-ontology>, as of the very same
<amplituding/formative>epistemic-totalising~devolved~purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality. The <amplituding/formative>epistemic-
totalising~renewing-realisation/re-perception/re-thought involves taking cue from
existence/existential-contextualising-contiguitycontexts as of existential-instantiations
imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-
ontological-completeness exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation—(<supererogation–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to reference-of-thought; as
successive registry-worldviews/dimensions institutionalisations conceptualisation of meaningfulness-and-teleology have arisen as secondnatured constructs that have substituted for their uninstitutionalised-threshold free-for-all wooden-language-
(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications) framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating/supererogatory–de-mentativity practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling framework than as of an dimensionality-of-sublimating—
supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ‘direct convincing’ at individuals-level underlying deferring to institutional and formal meaningfulness-and-teleology as of the need for profoundness and rigour that doesn’t avail in ordinary thought for transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-
ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness-of-reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the <amplituding/formative> epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness-of-reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the
resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human \(<amplituding/formative>epistemic-totalising–self-referencing-

contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-

referencing’ will seem to imply that it is almost impossible to transcend from a given social

conventioning centered–epistemic-totalisation-facticity but crossgenerationally human ‘re-

conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-

ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–

‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-

contention-or-confliction induces human transcendence-and-

sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical

transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural

diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a

social-setup is de-mentatively/structurally/paradigmatically a framework where individuals

are naturally involved in a dynamic relationship of perceived social-stake-contention-or-

confliction striving to draw in various ways the optimum as of perceived existential

possibilities, and thus individuals and social groups are not in an absolutely given/set self-

referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within

their social-setup and are predisposed on critical occasions as of syncretising-effecting to

‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities,

such that a social-setup is already involved internally however restricted in its very own
reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as \(<\text{amplituding/formative}>\text{epistemic-totalising-self-referencing-syncretising}\)’ of meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as \(<\text{amplituding/formative}>\text{epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’}, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and \(<\text{amplituding/formative}>\text{epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of

be syncretised crossgenerationally as providing the most overall positive-opportunism by
their relative universal projection implications and are formally-and-overtly assumed, and so
over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are
more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor
universal projection. However, such a conception of supposedly coherent ontological-
commitment is not actively contemplated socially but occurs latently and passively with any
given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as
its inherent social-dispositions and mental-dispositions are rather as of beyond-the-
consciousness-awareness-teleology-\langle in-existential-extrication-as-of-existential-unthought>
with regards to such transcendental implications! Despite the fact that all social-setups tend to
be surreptitiously permeated with individuals temporal/shortness-of-register-of-
meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal
ontological implications for social-functioning-and-accordance—as-of-social-stake-
contention-or-confliction, every social-setup as a conventional-construct can only be held
together in the long-term as of its requisite given registry-worldview’s/dimension’s
institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-
adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-
imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology’ allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-
commitment in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework \(<\text{amplituding/formative}>\)epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/formative}>\)epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-superegregatory–epistemic-conflatedness epistemic/notional–projective-perspective of relative-ontological-completeness-of-reference-of-thought by way of ontological-primemovers-totalitative-framework such as with
prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its *

In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding positivism can be demonstrated as more ontologically pertinent as of ontological-prime-movers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and
then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support

de-mentative/structural/paradigmatic implicated undermining of the possibility of futural
correspondence of human implied meaningfulness-and-teleology with the achievement of singularisation/epistemic-immanence/veridical-epistemic-determinism as of prospective deprocrypticism ‘inherent centered–epistemic-totalisation-as-existence’. It is those elements of an epistemic/notional possibility of correspondence, as of the
<amplituding/formative>epistemic-totalising–thrownness-in-existence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and onto, that together effectively make human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process possible given that it immanently enables the possibility of successive human prospective relative-ontological-completeness-of-reference-of-thought as of the successive registry-worldviews/dimensions institutionalisations. In other words, it is human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that ultimately ‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its uninstitutionalised-threshold for the possibility of a correspondence between human limited-mentation-capacity and the ‘inherent centered–epistemic-totalisation-as-existence’, as of Being orientation of pursuing-and-attaining ontological-completeness-of-reference-of-thought. It is only such a conflatedness perspective as of notional–deprocrypticism that can articulate a conceptualisation of meaningfulness-and-teleology ontological-performance-
<including-virtue-as-ontology> as of a notional–correspondence to existence/existential-possibilities, thus avoiding <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstrual as of constitutedness. Insightfully with respect to human temporality/shortness including postlogism and conjugated-postlogism and as reflected by psychopathy and social psychopathy in our positivism–procrypticism, the conflatedness of notional–deprocrypticism points out that

ontological-reference-of-thought’ wherein it is then strictly a matter of logical-processing-ontological-implicitly—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness-of-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-of-reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism/disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of conflatedness actually construes of more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, and so as of differing references-of-thought in transversality-of-affirmative-
critical for an ontologically-complete profoundness/depth of ‘phenomenological departure in-
its-overcoming-of-neuterisation’ reflected by metaphysics-of-absence as the ‘requisite
conflatedness of understanding’, necessarily entailing transcendental implications for
ontologically-veridical knowledge-constructs/theories/intersolipsistic-intercessory-
notions/notional-referential-notions/articulations/virtue; as we can appreciate the inherent
reality that there isn’t ‘axiomatic commonness-in-sharedness of human meaningfulness-and-
teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality,’ as-to-‘human<amplituding/formative>epistemic-totalising-purview-of-

non-positivism/medievalism, between universalisation–non-positivism/medievalism and
positivism–procrypticism, and prospectively between positivism–procrypticism and
deprocrypticism! In this case such overcoming of neuterisation with reference to the variance

variance in prospective relative-ontological-completeness-of-meaningfulness-and-teleology

of-thought soundness-or-authenticity and the uninstitutionalised-threshold’s reference-of-
sublimity/sublimation/supererogatory-de-mentativity as of notional-deprocrypticism. We can appreciate the metaphysics-of-absence insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a <amplitudning/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ to positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness-of-reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed <amplitudning/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrypticism mental-disposition is construed in deneuterising from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism perspective ‘as not self-effacing as of its ontologically-flawed <amplitudning/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold of its procrypticism/disjointedness-as-of-reference-of-thought and the prospective institutionalisation of deprocrypticism’. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-
capacity, unlike a naïve neuterising mental-reflex that by its
<amplituding/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness as of
notional–deprocrypticism deneuterising insight. Central and critical to achieving such a
deneuterising analysis in grasping the full and complete possibilities of ontologically-
veridical construal of human meaningfulness-and-teleology given human temporal-to-
intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-
threshold is the notion of beyond-the-consciousness-awareness-teleology–<in-existential-

escalation or aetiologisation of the human condition possible as the historiality/ontological-
eventfulness/ontological-aesthetic-tracing of conflatedness as of notional–deprocrypticism. It
is most critical because at any registry-worldview/dimension, human self-consciousness is a

reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather the deneuterising construal of the very ‘limited-mentation-capacity as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> constraining dynamism’ behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place; conceptualised henceforth as the very reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the Deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional–deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology’ over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits- and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere
meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation that is behind organic-knowledge. Human <amplituding-formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of-meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard.

(For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a
positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ is in a state of <amplituding/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the de-mentative/structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and
budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/de-mentativity not only to science but transcendental-enabling/sublimating/de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor wherein institutionalising reference-of-thought–categorical-imperatives/axioms/registry-teleology are always subject at uninstitutionalised-thresholds to their denaturing as of their <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology), as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Hence Being-development/ontological-framework-expansion–as-

given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-

meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should
equally be reflected as of prospective registry-worldview institutionalisation, and involving
the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-
knowledge. We can appreciate the latter point in the sense that with the development of
various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to
imply that the ‘normal social temporal-to-intemporal mental-dispositions as of

are appropriate framework for engaging their subject-matter, as they rather promoted formal

undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The point here is that at uninstitutionalised-thresholds the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-

This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalitative-framework-overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance-<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be
held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness)’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative>epistemic-totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness)’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflicatedness-as-totalitative-reification-in-singularisation-as-

However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of various pertinent social manifestations: – wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory-de-mentativity in formal institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; – wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory-de-mentativity as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

effecting intemporal implications means that the requisite intemporal/longness-of-register-of-meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism can crossgenerationally be induced for Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency--(transparency-of-totalising-entailing,-as-to-entailing--<amplituding/formative>epistemic-totalising--in-relative-ontological-completeness)’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory–dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically--<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency--(transparency-of-totalising-entailing,-as-to-entailing-
As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of renewal-renewing-realisation/re-reperception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity-<shallow-superoerogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human <amplituding/formative>epistemic-totalising–purview-of-construal’.

Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective ontological-contiguity is more than just a reification gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> but extends to encompass a de-assertion/preconverging-or-dementing–apriorising-psychologism/unaaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of ‘traditional classical mechanics axiomatic-construct’, at the threshold where it supersedes ‘traditional classical mechanics axiomatic-construct’, as being of notional-discontiguity/epistemic-discontiguity-<shallow-

While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same <amplituding/formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-
thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism/disjointedness-as-reference-of-thought implies a transcending reification gesturing that not only affirms deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-
dialectical-thinking–apriorising-psychologism> as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-
decisionality}–of-ontological-performance-<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-
determinacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor at uninstitutionalised-thresholds that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness-of-reference-of-thought is veridically in an
deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of
<amplituding/formative>epistemic-totalising~self-referring-syncretising/circularity/interiorising/akrasiatic-drag which is ‘ontologically flawed and wanting’ but rather is as of a maximalising-recomposuring-for-relative-ontological-completeness intemporal-projection transcendental-enabling/sublimating/supererogatory~dementativity for prospective institutionalisation relative to such <amplituding/formative>epistemic-totalising~self-referring-syncretising/circularity/interiorising/akrasiatic-drag that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/demts as of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised~preconverging/dementing–qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism/disjointedness-as-of-reference-of-thought reasoning’ is not admissible to prospective ‘deprocrypticism or preempting—disjointedness-as-of-reference-of-thought reasoning’ and so from the moment of the event-construed-as-the-prospective-ontology-origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event-construed-as-the-
prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema> of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-
teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adopterely of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our <amplituding/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presentation blinds us to appropriately
appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as of our amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supererогatory~de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness de-mentating/structuring/paradigming and not temporal extricatory de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and thereof its operative-construct
inducing a given specific nonpresencing-<perspective-ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for
aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative>wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) to be able to achieve transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, and so as of intemporality. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is construed as the more profound attitude/mental-
developing and social-projection-institutional-orientations attitude/mental-disposition/care–
and–episteme in ‘existential-extrication-as-of-existential-unthought’ which de-
mentatively/structurally/paradigmatically ‘do not project beyond reference-of-thought as of

perspective in nonextricatory-existential-preempting-of-existential-unthought behind the

abstract notion of perpetual/eternising preservation of Being, and so beyond
temporality/shortness existential-extrication-as-of-existential-unthought lack of the projecting
attitude/mental-disposition/care–and–episteme for prospective institutionalisations as mainly
concerned with the physical human lifespan extricatory framework as absolute reference of
meaningfulness-and-teleology ‘with little sense of coherence as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, and thus the latter cannot unlike the former be the framework for aetiology/ontological-escalation as of universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as intemporality/longness or eliciting of \(\text{amplituding/normalize}\) wooden-language-{imbued—averaging-of-thought–as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}>’. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequality/non-correspondence as well as dialogical inequality/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-\(\text{conjugatively-and-transfusively}\) the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-prime-movers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society,
etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> given the latter’s flawed de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness-of-reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory-de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’–with-regards-to-prospective-apriorising-implications>}). Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-
to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness-of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing—<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-thresholds are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being
the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of 'budding positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative–disambiguated-apriorising/axiomatising/referencing; as so reflected in their mutually beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness attitude/mental-disposition/care–and–episteme as of its social-stake-contention-or-confliction
while the very notion of perceiving highly the meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallowminded to the notion of a prospectively undermining prospective nonpresenting—perspective—ontological-normalcy/postconvergence> transcendence-and-sublimity/sublimation/supererogatory–de-mentativity attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology attitude/mental-disposition/care–and–episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflatedness of deprocrypticism or preempting—disjointedness-of-reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency—(transparency-of-totalising-entailing,—asto-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness); for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology—<in-existential—
temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness that in many ways could just as well validate <amplituding/formative>wooden-language-{imbued—averaging-of-thought-_as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}>) and untransvaluated–temporal-intemporality attitude/mental-disposition/care–and–episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic pedantry/mandarinism that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory–de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness-_as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere
‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturung for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly,–as-to-existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation). Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strivies in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,–for-explicating-ontological-contiguity’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of <amplituding/formative>wooden-language–(imbued—averaging-
and untransvaluated–temporal-intemporality social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. As such ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness are of the same notional-contiguity/epistemic-contiguity-as-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema kind that bathe in the wooden-language-imbued—averaging-of-thought-as-to-

Finally as a further analysis, Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is by a rather surreptitious manner undermined by what this author qualifies as ‘subterfuges of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ which are rather as of ideology; ideology in the sense that these are ‘commitments’ ready to ‘forego the pre-eminence of knowledge construed as of its ontological-veracity’ which is the only assurance of optimum construct of knowledge for human emancipation. Ideology as such takes the form of either ‘ideology denaturing of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ or ‘reactive fear of ideology denaturing of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-

This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of meaningfulness-and-teleology as of ‘their relative neuterising’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional—deprocrypticism/<amplituding/formative>notional—preempting—disjointedness-as-

In the bigger scheme of things, as of the notional–conflatedness of notional–deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—as-of-conflatedness-différance/internal-dialectics/difference-deferral’ and as implied as-of-the-construal-of-différance/internal-dialectics/difference-deferral-of-meaningfulness-and-teleology; and so with respect to the more ontologically-veridical reality of human conceptualisation of meaningfulness-and-teleology always from a position of limited-mentation-capacity as of prior relative-ontological-incompleteness-of-reference-of-thought, thus in need for its prior deepening so-captured in the ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional–conflatedness of notional–deprocrypticism différance/internal-dialectics/difference-deferral’ as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity-enabling, whereas such a human limited-mentation-capacity implication is naively ignored with logicism in its metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage. Such a ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional–conflatedness of notional–deprocrypticism différance/internal-dialectics/difference-deferral’, by its insight with respect to the implications of human limited-mentation-capacity for ontologically-veridical meaningfulness-and-teleology construal, is best predisposed to grasp the ‘inner
of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-authenticity-of-reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-inauthenticity-of-reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to-‘human<amplituding/formative>epistemic-totalising–purview-of-construal’’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-
ontological-completeness-of-reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising~purview-of-construal’’ with respect to social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness); and so more than just as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative>epistemic-totalising~self-referencing-syncretising’ across the entire social spectrum as of notional-episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of
institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding positivists are the outcrop of Scholasticism itself, the-new epistemic-
break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of-meaningfulness-and-teleology that prospectively construes of successive frameworks of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated reference-of-thought—categorical-imperatives/axioms/registry-teleology.—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue’ as of the specific institutionalisation, to ensure that human meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology> will remain intemporal-as-ontological as of their reference-of-thought—categorical-
garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness-of-reference-of-thought social universal-transparency-
(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality. Likewise, prospectively it is a deprocrypticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness-of-reference-of-thought social universal-transparency-
(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) that can render it untenable for procrypticism temporal mental-dispositions to elicit procrypticism/disjointedness-as-of-reference-of-thought implied temporality. Thus aetiologisation/ontological-escalation is not about transforming the reality of human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions–existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness-of-reference-
of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory-de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the
uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness mental-dispositions in their intemporality/longness or longness-of-register-of-meaningfulness-and-teleology are as of a projected-or-anticipated conflatedness of social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} for institutional and formal deferential-formalisation-transference as of percolation-channelling. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal deferential-formalisation-transference percolation-channelling to attain social approbation. It is such a ‘conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling to attain social approbation’ that holds together in social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-
institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness mental-disposition on the basis of its prior relative-ontological-incompleteness-of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposing-for-relative-ontological-completeness mental-disposition on the basis of the prospective relative-ontological-completeness-of-reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its $<$amplituding/formative$>$ wooden-language-$\{\text{imbued—averaging-of-thought}$-$<$as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications$>$ in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious $<$amplituding/formative$>$ wooden-language-$\{$imbued—averaging-of-

Ultimately, such a profound phenomenological epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance-<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human epistemic-totalising-thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally
condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendent-able/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional-deprocripticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative>epistemic-totalising-thrownness-in-existence (I exist therefore existence is of transcendent-able/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendent insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendent-able/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative>epistemic-totalising-thrownness-in-existence (I exist therefore existence is of transcendent-able/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) implies the need for a sound perpetuating construct of
universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-
teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimes presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative>epistemic-totalising--in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemoporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the
possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the \(<\text{amplituding/formative}}\text{-epistemic-totalising~thrownness-in-existence}\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory~de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-\(<\text{including-virtue-as-ontology}\>)s) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides \(<\text{amplituding/formative}}\text{-epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence
as of notional–deprocripticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory–de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomeno-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given

interpretation/axiomatisation-of-existence. Such ‘consciousness conflatedness of
meaningfulness-and-teleology’ is reflected by the signifying mirroring of meaningfulness-
and-teleology that is language as of its metaphoricity. Metaphoricity can thus be construed as
the signification of articulated meaningfulness-and-teleology as of reference to existential-
instantiation contexts adjunctively and not as naturally devolving into the ‘underlying
<amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct
of language’ as signification of reference-of-thought, such that metaphoricity is rather an
‘adjunctive incorporation’ to the ‘underlying <amplituding/formative>epistemic-
totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying
<amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct
of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to
the further deepening of human limited-mentation-capacity as of
<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought
such that prospective meaningfulness-and-teleology arises out of the adjunction to this
‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating
signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity
construed as the signification implied as of syncretising-effecting meaningfulness-and-
teleology. Thus language effectively reflects the <amplituding/formative>epistemic-
totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of
human meaningfulness-and-teleology, as language is always a blending of the ‘underlying
<amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct
of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp
here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-
and-teleology’ is always <amplituding/formative>epistemic-

‘human-epistemic-totalising—purview-of-construal’; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening—(<epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) adhocly produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-
ontological-incompleteness-of-reference-of-thought when conceptualising about such an ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity-signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology <amplituding/formative>epistemic-totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, as its very own as the...
prospective ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historicality/ontological-eventfulness/ontological-aesthetic-tracing of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying epistemic-totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human
mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the
<amplituding/formative>epistemic-totalising~self-referencing-
synecretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-
social meaningfulness-and-teleology’, and this equally explains why language evolves and
transforms over time. In effect, ‘language is never phenomenologically the complete
possibilities of language as an absolute present conception but is rather a becoming as of an
immensely-existentially-present signification reflected by individuals and the collective-
social along existential development stages as of the dynamics of social-construct existential
situations/instances, stakes, institutions and processes’. The above insight further points out
the pertinence of construing-of and analysing language more completely as of human
existentialism/thrownness/facticity, giving that language is more phenomenologically-and-
pragmatically a signification accompaniment of ‘individuals and the collective-social along
existential development stages as of the dynamics of social-construct along
existential development stages as of the dynamics of social-construct existential
situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge
implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with
regards to such a phenomenological conception of language as a lockstep veridical reflection
of human personality development all along the various existential stages as of a notion of the
dynamics of social-construct existential situations/instances, stakes, institutions and processes
from childhood to adulthood’, notwithstanding the fact that the privileged social
conceptualisation of language is as of ‘language as the complete possibilities of language as
of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall conflatedness

Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism or preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant
social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity’ as successive transcendental outcomes, so reflected by the historiality/ontological-
eventfulness/ontological-aesthetic-tracing; this doesn’t reflect an inherent différence operant phenomenological process reality. Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-différence-freeplay as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of various temporal-to-intemporal perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/superrgatory-de-mentativity. Accreting-substitutive-subsumption-as-futural-différence-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing as transcendental outcomes of such différence, accreting-substitutive-subsumption-as-futural-différence-freeplay is not only about the successive <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’” as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive
amplituding/formative/epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historicity/ontological-eventfulness/ontological-aesthetic-tracing of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional~knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historicity/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for
breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemorality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricty-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricty-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–confatedness of notional–deprocrypticism deneuterising—referentialism’ is operantly enabled by accretiing-substitutive-subsumption-as-futural-diffrance-freeplay and is the maximal ontologically veridical articulation of conflatedness
that ‘undermines the privileging of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of
accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective–ontological-normalcy/postconvergence> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so contradictorily as if both are of the presencing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. With the reality that nonpresencing—<perspective–ontological-normalcy/postconvergence> is wrongly-and-unsuspectingly given as of common presencing—absolutising-identitive-constitutedness, thus inducing a relative ontologically-flawed quasi-transcendental freeplay as nonpresencing—<perspective–ontological-normalcy/postconvergence> is rather in notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> when analysed as of presencing—absolutising-identitive-constitutedness. Consider in this regard ‘the very same physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior
together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing—perspective—ontological-normalcy/postconvergence. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing—perspective—ontological-normalcy/postconvergence

supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument which points to a prospective relative-ontological-completeness/ontological-contiguity as of the very same epistemic-totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective nonpresencing—perspective—ontological-normalcy/postconvergence in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-mentation-capacity-deepening—(epistemic-totalisingly—as-to-existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation) as of de-mentation—
as-of-existential-reality led projection/anticipation’ ultimate validation by ontological-
primemovers-totalititative-framework. This meaningfulness-and-teleology centered–epistemic-
totalisation-inducing-transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity metaphoricity thus perfectly satisfies the ‘foreboding concern for ontological-
veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-
absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-
of-prospective-supererogation–<as-to-prospective-aporeticism-overcoming/unovercoming>
that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and so implying human limited-
mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly,-as-to-
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}; and thus,
this point that enables the Derridean freeplay différance as of tendential-deliberation-of-
decidability to achieving transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity is the full conflatedness reflecting existence—as-the-absolute-a-priori-of-
conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation–<as-to-prospective-aporeticism-overcoming/unovercoming> in its nonpresencing–<perspective–ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay différance which is then in constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-
eliciting-of-prospective-supererogation–<as-to-prospective-aporeticism-
overcoming/unovercoming>. So because at the point of transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-prospective-aporeticism-overcoming/unovercoming> and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-prospective-aporeticism-overcoming/unovercoming>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency,—disclosed-from-prospective-epistemic-digression—as-of-<amplituding/formative>epistemic-totalising—renewing—realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness as validatable by ontological-prime movers—totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing depth of reasoning and perspective which is pushed to its brink in projection/anticipation(expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-
outside-existential-contextualising-contiguity. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. The question can thus be asked is there more profound meaningfulness-and-teleology beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-prospective-aporeticism-overcoming/unovercoming>? It is herein that we get into the realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of de-mentation-

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an
attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance<-including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance<-including-virtue-as-ontology>s). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th
and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism or preempts—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as
drastically implied at the phenomenological depth of reference-of-thought transcendental
classification this turns out to be much more difficult to countenance given individuals
‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a
given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative>epistemic-totalising-self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-
totalisation-of-meaningfulness-and-teleology’ as well as the ‘psychological comfort’
habituated at the given neuterising. But then every registry-worldview/dimension has its own
specific hurdle to clamber-over and that of futural Being-development/ontological-
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology as of prospective deprocrysticism is exactly the capacity to
construe meaningfulness-and-teleology as of full/complete human consciousness implications
as implied by its protensive-consciousness which ultimately doesn’t allow for
meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-
existential-extrication-as-of-existential-unthought> arising as of human prior relative-
ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-

ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding
as always prospective as of prospective relative-ontological-completeness-of-reference-of-
thought; and so, as of the successive base-institutionalisation, universalisation, positivism and
deprocrypticism registry-worldviews/dimensions nonpresencing-<perspective–ontological-

grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–
ununiversalisation, universalisation–non-positivism/medievalism, and positivism–
procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can
appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential
issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-
relatively-ontologically-flawed from our positivism–procrypticism as prospective
perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are
hard-pressed to concede that from futural Being-development/ontological-framework-

and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-
reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-
conflatedness than any other prior non-constructed meaningfulness-and-teleology simply because of the profoundness of its phenomenological depth of projection/anticipation in the quest for ontological-prime-movers-totalitative-framework validation, which ordinary <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-

This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness-of-reference-of-thought. It is human limited-mentation-capacity-deepening-<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-
sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-esposued ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) for human emancipation. Thus implying existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness/intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-
capacity-deepening (amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening (amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal amplituding/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/’reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance-⟨including-virtue-as-ontology⟩. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-
relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness-of-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-of-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance<-including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing–apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness-of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking–apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing–apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-
complete objectivity of meaning as of prospective relative-ontological-completeness-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness’, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—{imbued-postconverging/dialectical-thinking—‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation} appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ thus implying rather a deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation—{reflecting-a-supererogatory—decisionality-of-socioinstitutional-conceptions-as-to—‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality—numbingtraction-desublimation’}-as-so-operationalising—‘scalarisation-as-to-rescalarisation-as—re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care—and—
episteme’ as of its procrypticism/disjointedness-as-of-reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—’ episteme’ which prospectively represents the modern as preconverging-or-dementing—apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking—apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation—supernatural—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—’ episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness} as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness} as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic
transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness-of-reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-
thought-devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.
and-teleology of its <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation)) originary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very
much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-thresholds do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ de-mentating/structuring/paradigming of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’, as of successive prospective relative-ontological-completeness-of-reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill
deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness-of-reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness-of-reference-of-thought supersedes the prior relative-ontological-incompleteness-of-reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance-<including-virtue-as-ontology> of any ‘reference-of-thought–categorical-
imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> in terms—as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care—and—episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care—and—episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care—and—episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care—and—episteme. In this regard, attitude/mental-disposition/care—and—episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notional—conflatedness as implied by its ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting the ‘incisive-and-intransigent nature of existence—as-the-

Where beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>,

the new/prospective attitude/mental-disposition/care—and—episteme given its prospective relative-ontological-completeness-of-reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness-of-reference-of-thought, this induces constitutedness ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care—and—episteme’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern depocrypticim or preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, as of depocrypticim or preempting—disjointedness-as-of-reference-of-thought is rather a notional—conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern depocrypticim or preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-
completeness-of-reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern depocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ should equally enable the avoidance of the erroneously
implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-
subject-emancipatory-relativism-driven-recompossuring-constructivism-towards-
singularisation is so with regards to the inherent ontological sublimating human possibility in
existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human
potential, and so as emphasised and reflected with regards to the need for human limited-
mentation-capacity-deepening<(amplituding/formative)epistemic-totalisingly,-as-to-
environment—sublimating-withdrawal,-eliciting-of-prospective-supererogation). We can
garner insight about how we tend to misconstrue any attitude/mental-disposition/care–and–
episteme that is different from our own ‘present attitude/mental-disposition/care–and–
episteme’, whether it is a ‘prior/old/superseded attitude/mental-disposition/care–and–
episteme’ or a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’.
For instance, in the previous articulation of the existential-contextualising-contiguity-lowest-
level-reification perpectivity-as-of-bad-omen with ‘recurrent-utter-uninstitutionalisation
attitude/mental-disposition/care–and–episteme’ given its ‘non-rules—
apriorising/axiomatising/referencing–psychologism,–as-impulsive-or-accidented-or-random-
mental-disposition’, the reality is that our mental-devising-representation still remains in our
attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present
attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought
more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative>epistemic-totalising–purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) has always encountered its uninstitutionalised-thresholds all along in reflecting holographically-

Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative> epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-
to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its &amp;lt;amplituding-formative&amp;gt;epistemic-totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism/disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness-of-reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

precedes-and-is-the-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-to its requisite meaningfulness-and-teleology as prospective aetiologisation/ontological-escalation. This reflects the salient and underlying idea about Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
and-teleology that a given reference-of-thought meaningfulness-and-teleology cannot be apriorised as of a prior/old prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology. It is to be noted here that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument precedence of attitude/mental-disposition/care-and–episteme for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology while seemingly counterintuitive, simply speaks of the implications of the notion of prospective relative-ontological-completeness-of-reference-of-thought/ prior relative-ontological-incompleteness-of-axiomatic-construct as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplitudining/formative>epistemic-totalising~purview-of-construal’, in that our appropriate-or-inappropriate-at-various-successive-levels conception as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplitudining/formative>epistemic-totalising~purview-of-construal’ has nothing to do with inherent existential reality but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in order to reflect ontologically-veridical signification as of existence. And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology reasoning-from-results/afterthought, but it is hard from our positivistic angle to then
prospective-apriorising-implications>); given that no seconndnatured institutionalisation grounding of meaningfulness-and-teleology exists for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The ontological-veracity of such an dimensionality-of-sublimating—<amplitudings/ormative>supererogatory-de-mentativeness/epistemic-growth-or-cinflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation individuation reasoning-through as of Derridian messianic reasoning can be grasp when we contemplate that in a seconndnatured institutionalisation framework of deferential-formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don’t get involve in <amplitudings/ormative>wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>} exercise to resolve the technical problem. This outlook is actually ‘seeded’ within the dimensionality-of-sublimating—<amplitudings/ormative>supererogatory-de-mentativeness/epistemic-growth-or-cinflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is ‘appropriate prospective institutionalisation secondnaturing metaphoritic’. Consider in this regard, that the instigative matesis universalis metaphoritic by the Galileos, Descartes, etc. of budding positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-

positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics <amplituding/formative>epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing-<perspective—ontological-normalcy/postconvergence>; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy—for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—
as-of-reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness-of-reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sUBLImity/sublimation/supErroRogatory/de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme is ontologically validated as of its prospective relative-ontological-completeness-of-reference-of-thought, divulging the <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag vagueness and futility of the pretences and judgments of the destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>. We can equally appreciate here that such a conception of transcendence-and—sublimity/sublimation/supererogatory—de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative>epistemic-totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existentia
l-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativity/epistemic-growth—or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inventing’ of the prospective notion of ‘thinking/postconverging-or-
dialectical-thinking–apriorising-psychologism’ as positivism/rational-empiricism thinking or deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism–procrypticism/disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory–de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as—to—existence-potency,—disclosed—from—prospective-epistemic-digression—as—of—<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative>wooden-language—(imbued—averaging-of-thought—<as—to—leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as—of—‘nondescript/ignorable-void’—with—regards—to—prospective-apriorising-implications>)) depth/profoundness of human posterity; projecting well beyond the narrow and decadent obsessions of shallow as of extricatory/temporal dementating/structuring/paradigming of social-stake-contention-or-confliction, as it actively

many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a

Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming

mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche
equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’
of succeeding Christian generations as for instance with ascetic practices becoming more of

It is this underlying misconception that induces subsequent philosophical misinterpretations of notions like "amplituding/formative"wooden-language-(imbued—averaging-of-thought-"as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications">), ressentiment and leveling failing to appreciate that these are ontologically-driven as of underlying relative-ontological-completeness knowledge-reification basis of such conceptualisations arising as to the need for prospective emancipatory inspiration of prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation inducing human limited-mentation-capacity-deepening-("amplituding/formative"epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance-"including-virtue-as-
ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}>}); pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as

It is thus not odd that as of human emotional-involvement implications, Socratic philosophers universalising-idealisation and budding positivists projected meaningfulness-and-teleology infrastructure rather met initially with the antipathy of their underpinning–suprasocial-construct and \(\langle\text{amplituding/formative}\rangle\) wooden-language-(imbued—averaging-of-thought-\(\langle\text{as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-\text{‘nondescript/ignorable-void’}-with-regards-to-prospective-apriorising-implications}\rangle\)) and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation-\(\langle\text{unforegrounding-disentailment,-failing-to-reflect-\text{‘immanent-ontological-contiguity’}\rangle}\) whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology
infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as <amplituding/formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-
constitutedness-of-meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrpticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ’de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for
social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal
social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusiveness warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought appropriate foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-suprerogation in reflecting ‘immanent-ontological-contiguity’),-as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> of our rational-empiricism/positivism occlusiveness in its <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications) tend to rather reflect our <amplituding/formative> epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The occlusiveness of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism or preemtting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-
consciousness, warped–self-consciousness, preclusive–self-consciousness, occlusive–self-consciousness and prospectively protensive–self-consciousness. Thus human limited-mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup universal-transparency–(transparency-of-totalising-entailing, as-to-entailing-$<$amplituding/formative$>$epistemic-totalising–in-relative-ontological-completeness) of supposedly coherent ontological-commitment with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such universal-transparency–(transparency-of-totalising-entailing, as-to-entailing-$<$amplituding/formative$>$epistemic-totalising–in-relative-ontological-completeness) is muted and where such universal-transparency–(transparency-of-totalising-entailing, as-to-entailing-$<$amplituding/formative$>$epistemic-totalising–in-relative-ontological-completeness) is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—in-imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation simply reflects the $<$amplituding/formative$>$epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this
regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of foregrounding—entailment-(narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocripticism lies with the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-

above such a transvaluation knowledge-reification of social—value-construction reflects the
prospective human-subpotency—aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness
registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-
accordance as of its ontologically-flawed implied supposedly coherent ontological-
commitment; pointing to the ontological-veracity of a ‘direct bilateral relationship of
appropriate construction-of-the-Self for appropriate cognisance-and-integration of
prospective relative-ontological-completeness meaningfulness-and-teleology’. This
ontological reality basis of social—value-construction, it is often claimed, needs to account for
the reality of human sovereignty and free-will as to the ‘autonomy and independence of
human disposedness’. But then such a conception of human sovereignty and free-will seems
to imply an ‘existence-in-existence constitutedness ontologically-flawed de-
mentating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-
and-override existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-

aporeticism-overcoming/unovercoming> so-reflected as of <amplituding/formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness, so-construed as ‘human-subpotency ontological-performance-<including-virtue-as-ontology> within the full-potency-of-existence-as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reproductively-educing’–human-
subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing~conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative>epistemic-totalising~thrownness-in-existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>’; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance-<including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-ontological-performance-<including-virtue-as-ontology>. In this regards,
the broader and more profound conception of human sovereignty and free-will as reflected by human epistemic-totalising-thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance-<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-ontological-performance-<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ and then ‘the individual dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as

Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historiality/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—supererogatory—epistemic-conflicatedness/existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-prospective-aporeticism-overcoming/unovercoming>, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of—sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to difference-conflicatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity successiveness of registry-worldviews/dimensions. The point here is that, ‘the individual
dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-
mentativeness/epistemic-growth-or-conflatedness/transvalutative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-
disposition and expression’ driving the deferential-formalisation-transference knowledge-
reification and empowerment from the knowledge-reification as of historiality/ontological-
eventfulness/ontological-aesthetic-tracing, even as of poor ontological-performance-
<including-virtue-as-ontology> of social–value-construction so-construed as destructuring-
threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-
ontological-performance-<including-virtue-as-ontology>, can only achieve social-
functioning-and-accordance by a claim to be as of supposedly coherent ontological-
commitment, whether relatively real or surreptitious; and it is this preceding broader human
sovereignty and free-willing disposedness for claiming social–value-construction for social-
functioning-and-accordance as of supposedly coherent ontological-commitment that gives the
teleological orientation of human meaningfulness-and-teleology in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-
human-institutionalisation-process, as it then exposes human meaningfulness-and-teleology
as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-
totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-
supererogation) to the prospective constraint to be as supposedly coherent ontological-
commitment thus inducing the possibility for prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity when its any given meaningfulness-
and-teleology is discovered/shown not to be ontologically veridical leading to its effective
human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-
totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-
supererogation). Thus the bigger picture here with regards to social–value-construction for
social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity in reflecting both destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> as of prior relative-ontological-incompleteness implied preconverging/dementing—qualia-schema and constructiveness-of-ontological-performance—<including-virtue-as-ontology> as of prospective relative-ontological-completeness implied postconverging/dialectical-thinking—qualia-schema as elucidation of ontological-primemovers-totalitative-framework. Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency,—disclosed—from-prospective-epistemic-digression-as—of—epistemic-totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic-conflatedness manifestation of 9.8 m/s² and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same
and so with regards to virtue, value attribution, aesthetics, episteme and Being) while ‘specific epiphenomenon-(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology’ as of ‘reference-of-thought-devolving ‘relative-ontological-incompleteness/relative-ontological-completeness-
fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’).

It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human
<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier
laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-prospective-aporeticism-overcoming/unovercoming>’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are
more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disappprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end
purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself, and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness/relative-ontological-completeness-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism–procrypticism occlusiveness, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services
and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly,
whimsically/fancifully and strategically prejudiced influences on media orientation. In this
regards, the notion of freedom-of-speech as of such consequentially biased and
disproportionate representation undermining ‘equanimity/balance of contending frameworks
and policy frameworks as reflective of socially-perceived commendation and disapprobation’
as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-
transference implications, is increasingly becoming the unbecoming/undoing of the modern
day democratic political process. Direct media surreptitious drumming-up of specific policy
stances and political movements have often interfered with political governance as with the
thea-party movement for instance; when considering how political orientations are
‘strategically advanced/framed’ in the media at critical moments for upholding favourable
political policies or foiling unfavourable political policies while undermining sound analytic
public debate. It is no small wonder that a public opinion increasingly exposed to such media-
driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been
turning to protest voting as an expression of political disdain. Furthermore, the idea of human
sovereignty and free-will across all times is intimately tied down to human limited-
mentation-capacity-deepening-(<amplitudging/formative>epistemic-totalisingly,-as-to-

This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness/relative-ontological-completeness-

(sublimating~referencing/registering/decisioning—as-self-becoming/self-conflatedness/formative—supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>) as to human-and-social—expectations/anticipations—rede-mentating/restructuring/reparadigming—psychologism’ that effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ arguments are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-

about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly
reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications
when analysed as of relative-ontological-completeness. Consider in this regards for instance
as of the presencing—absolutising-identitive-constitutedness notion of ‘human social-

slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-

more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating
implications as of its apriorising/axiomatising/referencing that one human being has the right

can arise from the perspective of relative-ontological-completeness as what is then implied

The proof that this is priorly ‘a power-grabbing/appropriating/usurpary/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-

This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-

The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness/relative-ontological-completeness-

It is this epistemic-conflatedness veracity (construed as transepistemicity) over epistemic constitutedness (construed as presencing—absolutising-identitive-constitutedness), of human knowledge that underlies knowledge-notionalisation as to ‘notional conceptualisations’ like conception / misconception, intellectualism / sophistry, leveling / deleveling, human-subpotency / existence-potency, disclosed-from-prospective-epistemic-digression-as-of-

Thus, there is a direct relation between human-subpotency and existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative> epistemic-totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance-<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence-as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of
reflexivity is the very structure in reflecting holographically->conjungatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transeptemicity/anamnestic-residuality/spirit-drivenness—equalisation given the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with such human dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transeptemicity/anamnestic-residuality/spirit-drivenness—equalisation speaking of true humanity projection for prospective secondnaturing
institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality/shortness
\langle\text{amplituding/formative}\rangle\text{wooden-language}\{\text{imbued—averaging-of-thought}\langle\text{as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-
doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development—as-to-
personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), de-mentatively/structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency—{transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness)—or-understanding-of-ontological-primemovers-totalitative-framework-of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency,—disclosed—from-prospective-epistemic-digression-as-of—<amplituding/formative>epistemic-totalising—renewing—realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness) is effectively what underlies human institutional paralysis and social-vestedness/normativity—<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly
out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future
that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology out of its historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition social-vestedness/normativity-<discreetly-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic/notional—projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening-

<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought—
in-supererogatory—epistemic-conflatedness. Such that such ontologically-flawed presencing—absolutising-identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness
sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews(dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-
unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-originariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs–of-meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ presencing—absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing–conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness of apriorising/axiomatising/referencing–conceptualisation as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-

Desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition
imbued psychological entrapment arises inherently because of the taxingness-of-originariness as to the fact that: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation, with regards to human limited-mentation-capacity-deepening- (<amplituding-formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation. But then existence is not beholden to any such human reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation residuality that induces human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation stifling/stalling of the full possibility of prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing. Desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition aestheticisation—and—aestheticisation-towards-ontology decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as construed from the prospective deprocrypticism ontological-normalcy/postconvergence epistemic/notional~projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historiality/ontological-eventfulness/ontological-aesthetic-tracing purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) of
desublimating historicity-tracing—im-presencing—hyperrealisation/hyperreal-transposition
psychological entrapment with respect to the overall prospective sublimating
historiality/ontological-eventfulness/ontological-aesthetic-tracing (which dem-
mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-
of-originariness). Effectively, human decoherencing-structure—of-meaningfulness-and-
teleology-for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone
before aesthetically structures/paradigms distortedly the possibility for the later
aestheticisation). The idea of superseding the human registry-worldview’s/dimension’s
institutionalisation decoherencing-structure—of-meaningfulness-and-teleology-for-
institutionalisation (as to ‘abstractly projected finality in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process’) for prospective sublimating historicity/ontological-
eventfulness/ontological-aesthetic-tracing, patently makes obvious what the true implications
of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought
project with respect to its dispensing-with-immediacy-for-relative-ontological-completeness-
by-reification/contemplative-distension re-originariness/re-origination conceptualisation in
relation to our present positivism—procrypticism aestheticisation—and—aestheticisation-
towards-ontology as meaningfulness-and-teleology. This is reflected in the projected
underlying ontological-performance—<including-virtue-as-ontology> divergent relation
between historicity-tracing—im-presencing—hyperrealisation/hyperreal-transposition (as
constrained to human taxingness-of-originariness as to: what has gone before aesthetically
structures/paradigms distortedly the possibility for the later aestheticisation) and prospective
historiality/ontological-eventfulness/ontological-aesthetic-tracing. Historicity-tracing—im-
presencing—hyperrealisation/hyperreal-transposition as implied at all uninstitutionalised-
threshold is what underlies the notionally-collateralising inclination of human
reification/contemplative-distension). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation–and–aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) before any construable human panoramic-sublimating-criticality outcome of meaningfulness-and-teleology) has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation–and–aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance—<including-virtue-as-ontology>’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming–frames-as-from-living,—institutionalising,—and-Being-ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-subpotency–aporia/undecidability/dilemma/ought-

ontological-normalcy/postconvergence epistemic/notional-projective-perspective (as to

axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting so-explaining the dimensionality-of-sublimating—<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation, as if the human had absolute-mentation-capacity as falsely implied by presencing—absolutising-identitive-constitutedness inclinations the very first humans will not apriorise/axiomatise/reference meaningfulness-and-teleology as of recurrent-utter-uninstitutionalisation but will directly attain prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. In this regards, the dimensionality-of-sublimating—<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and the dimensionality-of-desublimating-lack-of—<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation are intimately related respectively to ontological-good-faith/authenticity (enabling the possibility of human transcendence-and-sublimity/sublimation/supererogatory de-mentativity) and ontological-bad-faith/inauthenticity (assuming a desublimation/gimmickiness as to its perceived presencing social-stake-contention-or-confliction), and so beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. Prospective deprocrypticism thus is ‘a projection beyond just about a deterministic supererogatory acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, but a fundamental grasp of the underlying dimensionality-of-sublimating—<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-
deprocrypticism as the ultimate de-mentative/structural/paradigmatic issue with regards to addressing prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint). This dimensionality issue in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process can be reflected in the recurrent variance of ‘lack-of-
<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and Socratic philosophers/budding-positivists dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as reflected say in an ordinary non-universalising/non-positivism–medievalism world inclined to construe of its ‘normality’ (notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>) as given even in the face of its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>) from the projected universalising-idealisation/rational-empiricism implications. This reality is equally applicable to our state of positivism–procrypticism as to a disinclination to perceive its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-
mentally-aestheticised–preconverging/dementing–qualia-schema>) as projected from prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing–psychologism to project of the <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity of prospective base-institutionalisation–ununiversalisation, just as the latter with prospective universalisation–non-positivism/medievalism, likewise the latter with prospective positivism–procrypticism, and likewise our positivism–procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of the dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>); as reflected in the fact that the supposed intellection of the non-universalising sophists, the medieval-scholastics and our present intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative>epistemic-totalising—in-relative-ontological-completeness) ends up in gimmickiness-of-thought (poorly-constrained or unconstrained to existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-

In the bigger scheme of things the dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation warrants that the prospective projection of any human meaningfulness-and-teleology as transcendental-enabling/sublimating/supererogatory–de-mentativity should be articulated in such a way as to imply that all human meaningfulness-and-teleology should assume the same disposition as to the possibility of enabling the sublimation in reflecting holographically-

ways, this dimensionality-of-desublimating-lack-of—
<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-
confatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

<discretely-implied-functionalism> <amplituding/formative>epistemic-totalising—self-

at the backend in reflecting holographically-<conjugatively-and-transfusively> the
ontological-contiguity—of-the-human-institutionalisation-process inherently grants
epistemic-profundity (not factoring that this is not necessarily the case with overall existence
beholden frameworks which can actually suffer intellectual regression) unlike the case with
epiphenomena as in the science domains (as providing the prolongation for human
interpretation capacity with respect to epiphenomenal manifestations outside ordinary
existential sublimation manifestations). In this regards, we can appreciate that the strong
predictive constraining in many a natural science domain (as strongly constrained to
existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,-
in-supererogatory—epistemic-confatedness) induces the manifestation of sublimating thought
as from induced requisite cogency of knowledge-reification (as of ontological-
normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-
existential-unthought) unlike is the case in many a blurry domain highly subjected to
imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-
formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparities-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-over-desublimating implications of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence deponent/structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) induced constraining reifying-and-empowering reflexivity undermining human-subpotency totalisingly-disentailing—discretion/whim-of-
thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the defining ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’ as to the lack or poor predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity-<discretely-implied-functionalism> reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—estheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflatedness. Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical
capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to ‘relative-ontological-incompleteness/relative-ontological-completeness-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating–<in-projective/reprojective—aestheticising-re-motif–and–apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—rede-mentating/restructuring/reparadigming–psychologism’ as to ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’); as the ontological inherently permeates all social and cultural frameworks so-reflected as of their underlying supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity when any of its given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative-or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of ‘relative-ontological-incompleteness/relative-ontological-completeness-

More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding positivists like Galileo for wrongly making the case for a
heliocentric world for instance are paradoxically based on condemning the latter and other budding positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing’ was developed and enculturated/constructed as scientific practices by these budding positivists with their medieval societies previously knowing nothing of such as to their scholastic pedantry (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as of relative-ontological-incompleteness to ‘relative-ontological-incompleteness/relative-ontological-completeness- (sublimating–referencing/registering/decisioning,—as-self-becoming/self-confoundedness/formative–supererogating,<in-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—rede-mentating/restructuring/reparadigming–psychologism’ as to <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity. Thus it is such an ideological conception of science and knowledge-reification on the latter basis (as of prior-apriorising/axiomatising/referencing–dialogical-equivalence–<as-superseded-logical-basis>) that ultimately translates into the ‘methodological, epistemic, institutional and social sagging of human knowledge-reification’ reflected abstractly in crises of methodology, epistemicity and scholarship as well as derived human institutional and social crises as to underlying meaningfulness-and-teleology infrastructure; and critically so with regards to our own positivism–procrypticism/disjointedness-as-of-reference-of-thought relevant-level of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that has to be addressed. In another respect, given the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension involved in true human consciousness sublimation, the dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism, as ‘the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ that brings about sublimation needs to be construed as to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism elicits parallel competing meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of the dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-

In many ways the underpinning–suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning–suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with the dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning–suprasocial-construct framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is our modern day presencing—absolutising-identitive-constitutedness politically clouded historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition underpinning–suprasocial-construct environment the contemplative beholder of the panacea for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity potential; as so reflected in their ever always hardly-adaptable/inflexible reproducibility—mathesis/motif/thrownness-disposition—as–reproducibility-of-aestheticisation frameworks of

This in many ways explains why ultimate responsibility lies with the abstract individual as to the requisite human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—’notionally—collateralising-beholdening-protohumanity’-to—’attain-sublimating-humanity’—as-to-existence-potency,-disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative>wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as—of—’nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>)). Ultimately, the deprocripticism registry-worldview/dimension construed as the nascent prospect for overcoming the dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation effectively projects the possibility of boundless human aestheticisation—and—aestheticisation-towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and-teleology, as in many ways the reality of our past and present aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing~inhibited-mental-aestheticising
axiomatising/re-referencing~conceptualisation> (as to underlying human construction-of-the-Self) is not ‘a metaphysical/ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any ‘metaphysical/ideological advocacy’, but rather just as modern day science such a conception speaks to ‘the inherent ontological implications as to human knowledge-reification and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlaid with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). It speaks to a metaphoricity potentiation imbued
sublimating-thoughtfulness / historicality-or-ontological-eventfulness-or-ontological-aesthetic-tracing / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold of lack-of—amplituding/formative>epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—inp-presencing–hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation—and–aestheticisation-towards-ontology’); and so critically as to the

reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-

metaphoricity potentiation’ when we consider that our present positivism registry-worldview
is just about 500 years; pointing out that as of our specific human-subpotency as to overall

the human prospective capacity to serenely come to terms with ‘prospectively
conceptualisable aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ as so induced by
the latter’s existentially constraining implications of ontological-veracity, is not necessarily
forever bound to be as of the ‘human consciousness defensive-driven/unhinging/unbalancing

the basis of human supposedly coherent ontological-commitment’ that undermines the

possibility for such prospective deprocrypticism conceptualisation of ‘boundless human aestheticisation—and—aestheticisation-towards-ontology’ (as to the potential for a full human psychological uninhibitedness/decomplexification in superseding the ‘underlying human formative decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation’). But then such overcoming of ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’ still has to be effectively achieved as to the requisite human prospective development of protensive–self-consciousness in the face of the ever present manifestations of desublimating/gimmicky sophistry and eliciting of human temporality/shortness <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of–‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as to incrementalism-in-relative-ontological-incompleteness and so over the requisite maximalising-recomposuring-for-relative-ontological-completeness. The very forward-facedness of human consciousness as it defines human social-stake-contention-or-confliction is in many ways architectonically determinative and defining (as it projects postconverging/dialectical-thinking–qualia-schema over preconverging/dementing–qualia-schema), with regards to the de-mentative/structural/paradigmatic circular recurrence of ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes); as to the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as of the potentiative transforming/conversion, on the basis of existentially constraining implications of

overall social-construct’s intellectual-function as to prospective transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity’; with the paradox of such usurpation
especially as of its drivenness in ‘intellectually mediating institutions as to popular-

vestedness/normativity-<discretely-implied-functionalism> constructs and frameworks of
value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect
the ontological equanimity/balance of conceptualisations as to the momentous implications of
prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing (thus implicitly
upholding the notion that the social is non-ontological as non-metaphysical); especially given
that the equanimity/balance for upholding democratic sovereignty is in effect achievable only
as of ‘de-mentative/structural/paradigmatic <amplituding/formative>epistemic-
totalising/circumscribing/delineating operant considerations for equanimity/balance with
regards to the social, political and media landscapes decision-making/editorialising
processes’, as the often sparing instantiating existential frames of day-to-day social, political
and media landscapes decision-making/editorialising processes are poorly amenable naturally
to such ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating operant

<discretely-implied-functionalism> defaulting postures with occasional clamours for
equanimity/balance of the decision-making/editorialising processes quite often the niggling
exceptions to entrenched and existentially-unthought reflex. Such that beyond
‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-
construct’s intellectual-function itself (as of aestheticisation-towards-ontology with respect to
prospective human emancipation) becomes capitalistically-captured-at-the-

of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-

This existential-extrication-as-of-existential-unthought as to the dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with the dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation.

Similarly with respect to the ‘requisite human dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, in many ways just as prior human scientific and
technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human temporal-to-intemporal-dispositions accordion-ing-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>) at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—in-presencing-hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity/sublimation/supererogatory-de-mentativity

This reflects the reality that the transcendental meaningfulness-and-teleology of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypcticism or preempting—disjointedness-as-of-reference-of-thought respectively are effectively only marginally integratable respectively to prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrepticism/disjointedness-as-of-reference-of-thought (as to crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so only as the former induce their ‘prospective predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) constraining that prospectively transforms human ontological-performance<-including-virtue-as-ontology> capacity’; thus reflecting the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as the critical enablers for the possibility of prospective transcendental meaningfulness-and-teleology. Such an insight divulges the underlying de-mentative/structural/paradigmatic possibility that arise for sophistic/pedantic dispositions across all registry-worldviews/dimensions as to the prior ‘social-construct <amplituding/formative>epistemic-totalising/circumscribing/delineating given institutionalised-and-uninstitutionalised-thresholds imbued secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’<amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of human meaningfulness-and-teleology when not subjected to ‘prospective predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) constraining that prospectively transforms human ontological-performance<-including-virtue-as-ontology> capacity’. In other words, the human as ‘manifesting presencing—absolutising-identitive-constitutedness  <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction’; as we can appreciate that the state of prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought (so-construed as of ‘supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence’ in their presencing—absolutising-identitive-constitutedness) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preempting—disjointedness-as-of-reference-of-thought respectively. Interestingly as well, we can appreciate the more or less socially enculturated disposition in our positivism/rational-empiricism registry-worldview/dimension (with regards to the ‘profoundly sublimating natural sciences’) of human appreciation of the ‘messianic-structure of intemporality’ and its derived deferential-formalisation-transference secondnaturing, with regards to such sciences foregrounding—entailment-{narrowing-down~sublimation as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},—as-operative-notional—deprocrypticism as to the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation-{as-to-underlying-ontological-commitment} as critically enabling prospective sublimation. In contrast this author is critical of the notion that disparateness-of-conceptualisation<-unforegrounding-disentailment, failing-to-reflect-‘immanent-ontological-contiguity’> subject to totalisingly-disentailing—discretion/whim-of-thought associated with presencing—absolutising-

In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment)’ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment) associated with the physical sciences and generally ‘much of the basic/fundamental and disinterested natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment)’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing’ is either indirectly or directly undermined with social-vestedness/normativity–<discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with <amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology)) over existence-potency,-disclosed-from-

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame—ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-ontological-unthought) work paradoxically only by impliciting the reality of the ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame—ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest—subpotencies—in-transitive-conflatedness—reflexivity—in-the-full-potency-of-existence> (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/popup (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological

effect wrongly implies a dialogical-equivalence ‘nature versus nurture debate’ between these

Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’> as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-

Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supercogoration)’

In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of the ontological-performance-<including-virtue-as-ontology> of human temporal-to-intemporal-dispositions narratives’: and so as to human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness (in reflecting holographically-<conjugatively-and-transfusively> the

latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity-<discretely-implied-functionalism>’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity-<discretely-implied-functionalism>’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness are vague disparateteness-of-conceptualisation-<unforegrounding-disentailment,-
failing-to-reflect-‘immanent-ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-confledness; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-confledness/transvaluative-

philosophers and budding positivists it is always the case that the sophistic/pedantic
dispositions will fathom that in relation to prospectively sublimating base-institutionalisation,
universalisation, positivism and deprocrypticism the effective ‘world that exists to the
majority people (as of ‘human temporal-to-intemporal-dispositions accordion-ing-{as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redouding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>}) at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought to go on cynically eliciting <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-
reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocripticism or preemting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) as to an epistemically-decadent <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procripticism/disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocripticism or preemting—disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of human registry-
worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appending as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-superceragatory–epistemic-conflededness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more tha <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity–<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development–as-to-
(with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’.

identitive-constitutedness. Translated, this ‘ scalability/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ underlying prospective human ontological-performance-including-virtue-as-ontology with regards to human meaningfulness-and-teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening-<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) is strongly prone to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) is rather relatively amenable to sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing as of ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as
well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-ves tedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual-function arising as of ‘social-ves tedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence>; and so as to the relative impertinence of the ‘social-ves tedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) (reflecting ‘scalarity/immanency of existence’s ontological-
normalcy/postconvergence’). In this regards, the de-mentative/structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordion-ing-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>) at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’, reflect the fact that the originariness-parrhesia,—as—spontaneity-of-aestheticisation supernerogatory—acuity/perspicacity/astuteness/edginess/incisiveness for prospective knowledge-reification implying a projection out of a prior human registry-worldview’s/dimension’s institutionalisation framework cannot be construed as of any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly implying that there is an underlying absolute sound basis for human knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas in reality such grounds are recurrently rede-mentated/restructured/reparadigmed for relative-ontological-completeness as to re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting); hence implying that prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing at any uninstitutionalised-threshold is necessarily imbued with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation ‘messianic-structure of intemporality’ and its derived deferential-
formalisation-transference secondnaturring. We can appreciate in this regards that budding-
positivists meaningfulness-and-teleology however relatively intelligible to us today, wouldn’t
make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior

Such a rede-mentating/restructuring/reparadigming for relative-ontological-completeness induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring equally applies with respect to prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards, just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that projected of an underlying ‘scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ by budding-positivists allowed for the enculturation of a human positivism/rational-empiricism social orientation with regards to the natural sciences (then more-or-less subsequent ‘aspirational sciences’) epistemic-conceptions phenomenal/manifest-subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-

totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—
of-thought sublimation over procrypticism/disjointedness-as-of-reference-of-thought desublimation, thus prospectively inducing a strongly encultured predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) constraining of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought meaningfulness-and-teleology, (and so overriding disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> as to the latter’s implied procrypticism/disjointedness-as-of-reference-of-thought). But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft intellectual-muddlement-<blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness). What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as critically enabling prospective sublimation’ so-implied as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflicatedness. The strategic problem faced by the Ancient sophists and medievalism-
scholastics in this respect (beyond-the-consciousness-awareness-teleology-\(<\)in-existential-extrication-as-of-existential-unthought\>) is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–\(<\)as-to-underlying-ontological-commitment\>’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–\(<\)as-to-underlying-ontological-commitment\>’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation–\(<\)as-to-underlying-ontological-commitment\>’ meaningfulness-and-teleology by eliciting presencing—absolutising-identitive-constitutedness sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness \(<\)amplituding/formative\>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-
interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at muddling promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing–psychologism encultured/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment’) (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness allowing for prospective Socratic philosophers

Since the relative-ontological-completeness logical-basis/logic-as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> is in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing with the relative-ontological-incompleteness logical-basis/logic-as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing>, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity—de-mentating/structuring/paradigming—<seeding/incipient—profound-supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity—de-mentating/structuring/paradigming—<seeding/incipient—profound-supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as to the
beyond-and-above the desublimating ontological-good-faith/authenticity—dementating/structuring/paradigming—<seeding/incipient—profound—supererogation,—as—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity—dementating/structuring/paradigming—<seeding/incipient—profound—supererogation,—as—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing—qualia-schema of ‘the God of plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity—dementating/structuring/paradigming—<seeding/incipient—profound—supererogation,—as—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing—qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing—qualia-schema of our procrypticism/disjointedness—as-of-reference-of-thought uninstitutionalised-threshold as from a prospective deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-
worldview/dimension notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—<as-to-underlying-ontological-commitment>’ imbued foregrounding—entailment—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity—dementating/structuring/paradigming—<seeding/incipient—profound-supererogation,—as—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ as to prospective living-development—as-to-personality-development and institutional-development—as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite ‘ontological-good-faith/authenticity existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ and naïve present day presencing—absolutising-identitive-constitutedness interpretations in terms of the supposed arrogance of
the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (as to the failure to appreciate that the surpassing of human-subpotency aporeticism is all about originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument—for—conceptualisation that only arises as of ‘sublimation affirmation/projection/assertion/dueness—validating-logicising/suitablemeasuringinstrument-validating-measuring—<postconverging-or—dialectical-thinking—apriorising—psychologism>’ over ‘desublimation unaffirmation/deprojection/de—assertion/undueness-invalidating—logicising/unsuitablemeasuringinstrument-invalidating-measuring—<preconverging—or—dementing—apriorising—psychologism>’). Indeed, as to when such ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as—to—underlying—ontological-commitment)’ is institutionalised say with modern day positivism/rational—empiricism the requisite ‘ontological-good-faith/authenticity existential—condescension—<of—apriorising/axiomatising/referencing—psychologism>’ of modern day scientific breakthrougths sublimation projected knowledge hardly put into question. Likewise, this insight about the requisite ‘ontological-good-faith/authenticity existential—condescension—<of—apriorising/axiomatising/referencing—psychologism>’ for organic-knowledge needs to be explicited with regards to the blurriness of meaningfulness-and—teleology associated with today’s institutional—being—and—craft intellectual—muddlement—{blurring/undermining—of—prospective—totalising—entailing—as—to—entailing—<amplituding/formative>epistemic—
totalising-in-relative-ontological-completeness) with cynical, ridiculous and paradoxical pretenses of humility and sensibility/decorum that by that token (not unlike ancient sophistry and medieval-scholasticism) go on to induce ‘existentially invalid condescension’ as to their veridical desublimating presencing—absolutising-identitive-constitutedness<amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ as of ontological-bad-faith/inauthenticity-de-mentating/structuring/paradigming-seeding/incipient—shallow-supererogation,—mentally-aestheticised-preconverging/dementing—qualia-schema>. The fact is where such pretenses are nowhere found in the terrain of knowledge-reification but rather surreptitious enterprises of<amplituding/formative>wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of—‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>) this signals their emperor has no clothes moment. In this regards, as to ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring—postconverging-or-dialectical-thinking—apriorising-psychologism’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring—preconverging-or-dementing—apriorising-psychologism’, the requisite ‘ontological-good-faith/authenticity existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ for organic-knowledge ‘speaks to an intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for its elucidation and appropriate second-natured institutionalisation that is not dissociated from the very construction-of-the-Self’, and knowledge cannot thus be construed as ‘a minor and side thing of mere influencing
and stature’ that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-often implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human living-development–as-to-personality-development and institutional-development–as-to-social-function-development the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as to a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> which pedantry and sophistry thrives on this lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness⟩) with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underlying the genuine social intellectual-function. Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation of ontology
as metaphysics-of-presence”; and it is here that the genuine social intellectual-function comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as-re-ontologisation/supererogatory-involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation>, and the genuine social intellectual-function as such is not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The genuine social intellectual-function means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development—as-to-personality-development and institutional-development—as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation-profundity-de-mentating/structuring/paradigming
requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning—suprasocial-construct tends to be abstractly de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual-function is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development—as-to-personality-development and institutional-development—as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness mentality of registry-
worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaus, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development—as-to-personality-development and institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and dementated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-thresholds of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness—as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition> of social-vestedness/normativity-<discretely-implied-functionalism> and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historiality/ontological-eventfulness/ontological-aesthetic-tracing) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite de-mentative/structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ disposition of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> subontologising palliative terms that as to their specifically defined ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ are very much integrative of collateral aspects as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by dulling the social-construct’s conscience in this way rather distracts from the realisation and contemplation of the full possibilities for profound de-mentative/structural/paradigmatic transformation of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. The subtle manifestation of the social implications of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>

rereferencing—conceptualisation>. The underlying insight here is that unlike the flawed mental-
reflex associated with presencing—absolutising-identitive-constitutedness
<amplituding/formative>epistemic-totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag that de-
presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance-<including-virtue-as-ontology> cannot be neutrally be separated from human <amplituding/formative>epistemic-totalising~thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance-<including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming~<seeding/incipient–profound-supererogation,-as-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> existential-condescension~<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative>epistemic-totalising~thrownness-in-existence’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans
as human-subpotency is priority of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere methodologising/mutualising/organising/institutionalising prescences as to entailments of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-ordementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating—

force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the premeaningfulness/preframing—<metaphoricity-disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative>epistemic-totalising—thrownness-in-existence’. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative>epistemic-totalising—thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance—<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility

as to their existence within the meaningful sovereign frameworks that de-
mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other
words, our intellectual-and-moral responsibility is already engaged as to our
epistemic-totalising–thrownness-in-existence and the idea that any
attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus;
and human intellectual-and-moral responsibility starts at the very least with an orientation to
relative-ontological-completeness as to overall existential dimensionality-of-sublimating—
supererogatory-de-mentativeness/epistemic-growth-or-
conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation. Besides such a more stark elucidation as to Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology, existential-discursivity—implicit-
sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–de-
mentating/structuring/paradigming–seeding/incipient–profound-supererogation,–as-
mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> existential-
condescension–of-apriorising/axiomatising/referencing–psychologism>’, thus points to the
primacy of ‘the very <amplituding/formative>epistemic-totalising–thrownness-in-existence
of human discursivity as to the possibility for prospective existential sublimation’ so-
reflected in originariness-parrhesia,–as-spontaneity-of-aestheticisation
supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness projection as to overall
existential dimensionality-of-sublimating—supererogatory-de-
mentativeness/epistemic-growth-or-conflatedness/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. The
bigger point here is that prospective human sublimation underlying prospective knowledge-
reification in relative-ontological-completeness cannot be engaged with any given registry-
deficiency arising from its specifically given \(<\text{amplituding}/\text{formative}>\)epistemic-totalising~thrownness-in-existence’ with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of the dimensionality-of-sublimating—\(<\text{amplituding}/\text{formative}>\)supererogatory~de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness~equalisation. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening\(\langle<\text{amplituding}/\text{formative}>\)epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(\rangle\)). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence as to presencing—absolutising-identitive-constitutedness \(<\text{amplituding}/\text{formative}>\)epistemic-totalising~self-referencing-syneretising/circularity/interiorising/akrasiatic-drag’ on the one hand and on the other hand difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to relative-ontological-completeness \(<\text{amplituding}/\text{formative}>\)epistemic-causality-as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity, is
aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplitudifying/formative>disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising) and <amplitudifying/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening-({<amplitudifying/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}) underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of deprocripticism or preempting—disjointedness-as-of-reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness <amplitudifying/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its
positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the ‘noble savage’ and nature as speaking to an aporeticism that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn’t imply just killing animals at whim); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical
sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation—(as-to-underlying-ontological-commitment)’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition
gimmickiness/desublimation relation with meaningfulness-and-teleology’ of our positivism-procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual-function as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination—<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>—perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—<including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the <amplitudes/formative>wooden-language—<imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of—’nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>
displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the present day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally
defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’.

Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. Along the same line of intellectual appreciation of prospective sublimation implications as to the fact that nascent-particular/incipient-and-material/technical-sublimations＜blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving＞‘critically points to an overall nascent knowledge-reification–gesturing directly or indirectly prescient of a comprehensive sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension’; the possibility for ontology/science is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing construction’ (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest–subpotency–＜in-transitive-conflatedness–reflexivity,–in-the-full-potency-of-existence＞) and so as to the subject-matter underlying existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—de-mentating/structuring/paradigming–＜seeding/incipient–profound–

In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>-’. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>-’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>-’ increasingly undermine the organisation behind
the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness/ontological-aesthetic-tracing rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identitive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual-function indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-

Critically thus the veracity of human sublimation is rather as to the originariness/origination—

deprocrypticism ontological-normalcy/postconvergence perspective points out that human

ontology/meaningfulness-and-teleology can be understood in the sense that just as we can appreciate that if supposedly we are found in say an exclusively animistic social-setup with supposedly no possibility to rejoin a positivistic social-setup, while at the very least we appreciate that the material/technical capacity of a positivistic social-setup overall meaningfulness-and-teleology will enhance such an animistic social-setup as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the fact remains that our thrownness in the animistic social-setup requires at least a basic engagement tolerable to its meaningfulness-and-teleology before any pretense to a projection of positivistic meaningfulness-and-teleology (as can so be appreciated with the cultural diffusion encounters throughout human history). diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human meaningfulness-and-teleology (as so-construed as of the dimensionality-of-sublimating—⟨amplituding/formative⟩supererogatory–de-
at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing). But then just like with all prior registry-worldviews/dimensions, our positivism–procrypticism presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition effectively projects a hurdle to any such de-mentative/structural/paradigmatic deprocrypticism conception of re-ontologisation as to its inherent amplituding/formative—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag poorly amenable to profound alternative institutional aestheticising contemplation ‘given its calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance—including-virtue-as-ontology as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ (however their de-mentative/structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social
sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticicising contemplation given their institutional ascendance. Such a beholding presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> skews the fundamental ontology question by its inherent <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity—<discretely-implied-functionalism>. This latter issue is the ultimate challenge to prospective deprocrypticism institutionalisation ‘unenframed/unbeholding/bechancing–supererogation parameterisation/reparameterisation—{reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)–as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-ontologisation’ for prospective aestheticisation—and–aestheticisation-towards-ontology/meaningfulness-and-teleology; as of the paradox that a social-setup as to its <amplituding/formative>epistemic-totalising—thrownness-in-existence is so pragmatically self-focussed that its aestheticisation and hence aestheticisation-towards-ontology dynamic-potential as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is narrowed/limited/constricted however its level of development (explaining the decisiveness/criticality of cultural diffusion imbued originariness-parrhesia,—as–spontaneity-of-aestheticisation in re-ontologisation accompanying human institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as can be appreciated throughout human history).
This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised \(<\text{amplituding}/\text{formative}>\text{epistemic-totalising}-\text{self-referencing-syneretising/circularity/interiorising/akrasiatic-drag}\) posture; and this very much explains the double epistemic orientation to deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-\{reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’\}-as-so-operationalising–‘scalarisation-as-to-recalarisation-as-re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology as highlighted above (as to the need to feed our \(<\text{amplituding}/\text{formative}>\text{epistemic-totalising–thrownness-in-existence decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). This is further reflected in ‘the very postconverging-as-to-ontological-normalcy over preconverging-as-to-epistemic-abnormalcy conception of human transcendence-and-sublimity/sublimation/supererogatory–de- mentativity’ with regards to the fact that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism respectively aren’t of the ‘existential and contemplative internal adequation’ for prospective base-institutionalisation, universalisation, positivism and deprocrypticism, as to the ‘increasing crumbling of the former genuine social intellectual-function’ into subterfuge of false-scepticism (as to the fact that veridical scepticism is of constructive knowledge commitment effectively exposing itself to existence—as–sublimating-withdrawal,-eliciting-of-prospective-supererogation and so rather than idly critical and unaccountable totalisingly-disentailing—discretion/whim-of-thought), pedantry and <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-
narratives increasingly ignoring-and-failing to engage with inherent veridical knowledge-reification. In this respect the possibility of human prospective reasoning-through/messianic-reasoning that goes on to induce prospective reasoning-from-results/afterthought as secondnatured-institutionalisation is ever always accompanied/framed by its ‘instigative–askesis-or-acumen de-mentating/structuring/paradigming the possibility for prospective sublimating and reifying socio-institutional conceptions/constructs/models as to prospective aporeticism-overcoming/unovercoming-overcoming for human social emancipative reinvigoration/disruption’ as to the resultantly developed deferential-formalisation-transference socio-institutional model/construct (reflected historically as of a sacral, monasterial, pastoral, hippocratic, etc. aestheticisation–and–aestheticisation-towards-ontology and inconsistently echoed in modern day deonto-professional institutional practices’); and so by the mere token of the de-mentative/structural/paradigmatic relative ontological-deficiency of the generalised social-construct <amplituding/formative>wooden-language–(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’–with-regards-to-prospective-apriorising-implications>) as to its beholding to living-development–as-to-personality-development and institutional-development–as-to-social-function-development so-derived rather as from the prior Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implied uninstitutionalised-threshold. Thus in many ways ‘instigative–askesis-or-acumen de-mentating/structuring/paradigming the possibility for prospective sublimating and reifying socio-institutional conceptions/constructs/models as to prospective aporeticism-overcoming/unovercoming-overcoming for human social emancipative

This is necessary for fundamental ontology speaking of notional~deprocrypticism enabled fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ for inducing prospective human historiality/ontological-eventfulness/ontological-aesthetic-tracing. Basically, notional~asceticism is ever always associated with the successive relative-ontological-completeness registry-worldviews/dimensions possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to arise (as to the notional~asceticism instigating originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness projection of prospective methods/methodologies/approaches as from prospective sublimation induced methodologising/mutualising/organising/institutionalising), and so because all the ‘existential and contemplative internal adequation’ available for any given relative-ontological-incompleteness registry-worldview/dimension is as of its inherent apriorising/axiomatising/referencing—psychologism imbued logical-basis/logic—<as-to—transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing— that is not de-mentated/structured/paradigmed to recognise the prospective sublimating relative-ontological-completeness registry-
worldview/dimension apriorising/axiomatising/referencing—psychologism imbued logical-basis/logic—transversality-of-affirmative-and-unaffirmative—disambiguated-apriorising/axiomatising/referencing> (with only the crossgenerational positive-opportunism arising from the relative-ontological-completeness comprehensively induced sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation that then elicits the universal-transparency—transparency-of-totalising-entailing,—as-to-entailing—epistemic-totalising—in-relative-ontological-completeness), untenability and affiliation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring—postconverging-or-dialectical-thinking—apriorising—psychologism> of the relative-ontological-completeness apriorising/axiomatising/referencing—psychologism imbued logical-basis/logic—as-to—transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing>). But then with such notional—asceticism associated with deprocrypticism factoring in that the projective-insights ‘out of thin air’ (as of reasoning-through/messianic-reasoning) that go on to contemplate of prospective relative-ontological-completeness sublimation is potentially a universal human capacity as of discretionary human disposition (as to when relative-ontological-completeness avails) for opting for sublimating ontological-good-faith/authenticity—de-mentating/structuring/paradigming—seeding/incipient—profound-supererogation,—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> or opting for desublimating ontological-bad-faith/inauthenticity—de-mentating/structuring/paradigming—seeding/incipient—shallow-supererogation,—mentally-aestheticised—preconverging/dementing—qualia-schema>, and that (as speaking to human-subpotency ontological-faith-notion—or-ontological-fideism—imbued—underdetermination-of—apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) ‘this most
fundamentally potent point of human-subpotency is the epistemic point-of-departure for
construing ontology/science as from the notional–deprocrypticism projected human-
subpotency profound-and-complete mentation-capacity ontological implications’; given that
to avoid being merely a complexification of positivism–procrypticism as of the possibility for
disjointedness-as-of-reference-of-thought deprocrypticism warrants the requisite human
organic-disposition as of deprocrypticism apriorising/axiomatising/referencing–psychologism

<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-

ontological-contiguity—of-the-human-institutionalisation-process explains why the
universalising-idealisation of the Socratic philosophers is not a ‘disengaged articulation but
subverts’ non-universalising sophistry, why budding-positivism is not a ‘disengaged
articulation but subverts’ non-positivising medieval-scholasticism and prospectively why
postmodern-thought and herein deprocrypticism is not a ‘disengaged articulation but
subverts’ present-day disjointing/disparateness/disentailing intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of
thought; and so further reflected as to the fact that base-institutionalisation, universalisation,
positivism and prospectively deprocrypticism (as of their respective prospective Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology) are respectively subversions of the
aporeticisms of recurrent-utter-uninstitutionalisation, base-institutionalisation—
ununiversalisation, universalisation—non-positivism/medievalism and positivism—
procrypticism. The veracity of human knowledge as ever always a ‘non-disengaging
epistemic articulation as to the totalising oneness of existence manifest sublimations’ lies
with the very immanent—ontological-contiguity of existence that epistemically speaks to the
‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-
coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-
of-embodied-consciousness’ as so divulging/disclosing existence—as-sublimating-
withdrawal,—eliciting-of-prospective-supererogation; such that human knowledge-reification
is effectively in reality about addressing and superseding human aporeticisms (human-
subpotency—aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
dispositions—existentialism-form-factor) as surpassing epistemic-constructs of sublimation-
over-desublimation so-implied with the dimensionality-of-sublimating—
<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-
conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

institutional-development—as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology). The implication here is that human ‘epistemic-constructs of sublimation-over-desublimation’ are not-and-never optional/discretionary representations about existence (but for when ‘deliberately of mere aestheticisation as mere motif implications’ with no relative reference to any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with regards to human epistemic aestheticisation–and–aestheticisation-towards-ontology of immanent existence; reflected in the fact that all such epistemic-constructs as knowledge-reification (as referencing any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) speak to an underlying human ontological-commitment as to the possibility for prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-authenticity–as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment). In this regards, we can appreciate that the successive human registry-worldviews/dimensions speak to successive human aporeticisms of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

But then with regards to the uninstitutionalised-thresholds of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the fact is that their socio-institutional decisional-construct for responding to their own given prospective aporeticism-overcoming/unovercoming take up a pedantising and institutional self-preservation nature that falsely turns around (breaks with ‘prospective ontological-contiguity conception of relative-ontological-completeness as to existence—as sublimating-withdrawal,-eliciting-of-prospective-supererogation’ for knowledge-reification) to undermine prospective human knowledge-reification, by wrongly implying any such prospective construal of ‘prospective ontological-contiguity conception of relative-ontological-completeness as to existence—as sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (as of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) is about ‘a framework of metaphysical/ideological advocacy as of totalisingly-disentailing—discretion/whim-of-thought (rather than truly being a framework of ontological-veracity implied relative-ontological-completeness <amplituding/formative>entailment—as to-totalising-contiguous/coherent–factuality–of-variability’) and so in order to falsely nullify/undermine the subverting epistemic implications of relative-ontological-completeness as to existence—as sublimating—
necessarily warranting prospective universalising-idealisation; likewise the medieval-scholastics adopted ‘a non-positivising break with prospective ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for knowledge-reification’ wrongly construing ‘the subverting epistemic implications of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation of budding-positivism’ as being about ‘a framework of metaphysical/ideological advocacy as of totalisingly-disentailing—discretion/whim-of-thought (rather than truly being a framework of ontological-veracity implied relative-ontological-completeness

succession of registry-worldviews/dimensions as to their induced living-development–as-to-personality-development and institutional-development–as-to-social-function-development social-stake-contention-or-confliction. Inherently, unlike the flawed intuitive human projection of meaningfulness-and-teleology in constitutedness terms inducing presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> distortion that seem to wrongly imply that human nature is of intemporal-disposition only without factoring the distorting implications on human ontological-performance<including-virtue-as-ontology> of human temporal-dispositions with regards to social-stake-contention-or-confliction at uninstitutionalised-thresholds, in rather truly reflecting human ontological-performance<including-virtue-as-ontology> as of temporal-to-intemporal-dispositions this then allows for conceptualising how intemporal-disposition induced ontological-performance<including-virtue-as-ontology> in superseding uninstitutionalised-thresholds arises (as of the conflatedness of the dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation implications) and so involving ‘human thrownness-in-existence,-imbued-arbitrariness/waywardness-(as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of-

Such that the manifested postlogism-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) is directly related to the presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning <amplituding/formative>disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising) to be cognisant-and-integrative in prelogism-as-of-conviction-as-to-profound-supererogation (construed as if of postconverging-or-dialectical-thinking–apriorising-psychologism) of the same meaningfulness-and-teleology articulated as of postlogism manifestation (articulated rather as preconverging-or-dementing–apriorising-psychologism) thus inducing the conjugated-postlogism; and so as to the fact that for instance a postlogism manifestation grounded in a social-setup as of say an animistic social-setup cognisant-and-integrative of notions-and-accusations-of-sorcery in prelogism-as-of-conviction-as-to-profound-supererogation (as if of postconverging-or-dialectical-thinking–

The psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation, is de-mentatively/structurally/paradigmatically already validating the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—

Furthermore, it is such ontologically-deficient incrementalism-in-relative-ontological-incompleteness (as to its cognisant-and-integrative blending/incorporating of prospective ‘nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving> as if of relative-ontological-incompleteness presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning in circularly beholdening meaningfulness-and-teleology to human-subpotency’) that is behind the

so-construed as being of preconverging-or-dementing–apriorising-psychologism epistemic-

recomposuring-for-relative-ontological-completeness postconverging-or-dialectical-thinking–
apriorising-psychologism conception in ontological-normalcy/postconvergence epistemic-
projection perspective). As of practical existential implications maximalising-recomposuring-
for-relative-ontological-completeness means that the positivistic
<amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–
derived-parameterising) cannot be responsive to the social-stake-contention-or-confliction
projected as of such a non-positivistic meaningfulness-and-teleology, as to a fundamental
positivistic disavowal of its non-positivistic <amplituding/formative>disposedness-(as-to-
orientation/value-construct/valuation–and–derived-parameterising) as non-
aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the
holding-forth of its non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–

completeness psychologistic and apriorising implications (so-construed as from the technical
ontological-veracity of originariness/origination<-so-construed-as-to-ontological-
normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of
notional–deprocrypticism), speaks to the fact that the psychoanalytic-unshackling/memetic-
reordering/institutional-recomposing of the respective registry-worldviews/dimensions in
relative-ontological-completeness (base-institutionalisation, universalisation, positivism and
deprocrypticism respectively) are projected in disavowal of their respective prior registry-worldviews/dimensions in relative-ontological-incompleteness (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively) destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}–of-ontological-performance-{including-virtue-as-ontology} of ontological-performance-{including-virtue-as-ontology} as reflected by their \texttt{amplituding/formative} disposedness-{as-to-orientation/value-construct/valuation–and–derived-parameterising}, implying the latter are effectively non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of their respective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation). Thus, as to their respective presencing—absolutising-identitive constitutedness \texttt{amplituding/formative} epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, all relative-ontological-incompleteness registry-worldviews/dimensions as of their preconverging-or-dementing–apriorising-psychologism pretend to articulate what can prospectively be possible and impossible (in such a way that ‘conveniently’ imply that theirs is the registry-worldview/dimension that ‘thinks right’ while ignoring projective-insights as of the overall ontological-contiguity—of-the-human-institutionalisation-process implications as to existence—as-sublimating-withdrawal,‐eliciting-of-prospective-supererogation) with respect to all corresponding prospective relative-ontological-completeness projective-insights implications of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; failing to factor in that their paradoxical contemplation in relative-ontological-incompleteness is exactly what renders their supposed determination of what can prospectively be possible and impossible structurally/paradigmatic nonsensical but for the convenience of falling back (even when relative-ontological-completeness avails) as of ontological-bad-faith/inauthenticity to the
notion that after all the world that exists is-as-of-their-given-registry-worldview/dimension however its de-mentative/structural/paradigmatic vices-and-impediments (which mental-reflex is ever always ‘exactly the aporeticism’ to be superseded with prospective sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In a further elucidation, the ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with human temporal inclination to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has to do fundamentally with the very nature of human sublimation (notwithstanding its constraint by human limited-mentation-capacity). Such a most profound insight about human sublimation in ontological-normalcy/postconvergence as to ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation} intemporal-disposition supererogatory rescalarisation of ontologisation and value-construction (within any given registry-worldview/dimension presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>) inducing prospective sublimation-over-desublimation meaningfulness-and-teleology infrastructure thus effectively superseding any such given registry-worldview/dimension underpinning–suprasocial-construct prior conception of ontologisation and value-construction’ reflects a spontaneous human incipient/seeding sublimation-construct which is underlined by both human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> and effectively-manifest-sublimation/sublime. This spontaneous human incipient/seeding sublimation-construct (underlined as of human-decisionality-<as-to-

Ultimately (as to human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency,-
eliciting-of-prospective-supererogation’ manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ more fundamentally speak to ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology’ of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory–unbeholdening-confalatedness historiciality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as
from a ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of presublimating intelligibility’ of ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology’ caught up in complexes of ‘naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted—meritocracy/totalising—sovereign-approporportioning—of-human-ontological-performance--<including-virtue-as-ontology>’ that end up inducing poor/distorted human understanding of the human). The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of meaningfulness-and-teleology, a ‘human psychological-disposition for supererogatory–unbeholdening-conflatedness historicity/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. This overall insight is particularly salient in the sense that the ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of presublimating intelligibility’ (so-perpetuative as to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

critical pure-ontology discernment as from the above elucidation of
‘phenomenal/manifest–subpotencies–<in-transitive-conflatedness–reflexivity,-in-the-full-

de-mentatively/structurally/paradigmatically of ‘beholdening as sovereignising–imbued-
subontologisation/subpotentiation’ while sublimating–nascence is de-
mentatively/structurally/paradigmatically of ‘unbeholdening ontologising-depth as to
backdrop-of-inherent-immanent-existence’s–sublimation-structure–<of-‘unsurrealistic-as-

underly/organise/decision existentialising subpotentiation’ and so potently constrained as
from perspective ‘unbeholdening sublimating–nascence ontologising-depth of the full-
potency of existence’); as to the fact that surrealisingly/supererogatorily existentialising–
decisionality is of ‘notional–presencing—absolutising-identitive-constitutedness de-
mentating/structuring/paradigming—beholdening-as-to-effectuation’ and so potently
constrained as from sublimating–nascence ‘notional–nonpresencing–<perspective–
ontological-normalcy/postconvergence> as to backdrop-of-inherent-immanent-existence’s–
sublimation-structure–<of-‘unsurrealistic-as-real’–ontological-normalcy>’. This overall
conception underlies the conceptivity/epistemic-reflexivity of both ‘existentialising–
and perspective sublimation/desublimation in existence’. Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-reflexive psychological reorientation of human relation with meaningfulness-and-teleology’ as to the contrast between ‘blurriness in existentialising–decisionality’ and ‘universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of sublimating–nascence’; wherein ‘universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of sublimating–nascence’ (as to nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>) is relatively bound to elicit individual and social positive-opportunism deferential-formalisation-transference of existentialising–decisionality while ‘blurriness in existentialising–decisionality’ is relatively bound to undermine individual and social deferential-formalisation-transference as to relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating–existentialising–decisionality (thus undermining the requisite relative-ontological-completeness ‘reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence’ as of the sublimating–nascence teleological-inflection–(as-to-more-profound-nondisjoining–<amplituding/formative>epistemic-totalising/circumscribing/delineating)). That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-
formalisation-transference existentialising–decisionality psychological-disposition as to the
positive-opportunism consequences of deferring to ‘universal-transparency–(transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-
ontological-completeness) of sublimating–nascence’ (in delegating sovereignty ultimately as
to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with the
lack of such ‘universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of
sublimating–nascence’ as to when ‘blurriness in existentialising–decisionality’ arises
inducing defaulting ‘beholdening as sovereignising–imbued-
subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition
(as to relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-
teleology desublimating–existentialising–decisionality). The implications of this dual
existentialising–decisionality psychological-dispositions is critical particularly with regards
to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human
meaningfulness-and-telology of ‘blurriness in existentialising–decisionality’ as rather poorly
amenable to profound ‘unbeholdening sublimating–nascence ontologising-depth of the full-
potency of existence’ as it is relatively the case in the natural sciences (and so beyond-the-
consciousness-awareness-telology-<in-existential-extrication-as-of-existential-unthought>);
as to the fact that existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—
as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-prospective-
aporeticism-overcoming/unovercoming> more readily makes ‘desublimating nonsense’ of
human existentialising–decisionality meaningfulness-and-telology failing ‘genuine
knowledge-reification framework involving an immediate potent detour to existence-
potency,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-
in-supererogatory—epistemic-conflatedness while the relative ‘blurriness in existentialising—decisionality’ of social-and-institutional-frameworks-of—referencing/registering/decisioning induce a relative orientation in the social towards presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism> existentialising—decisionality meaningfulness-and-teleology (so-enabled by poor direct/immediate potent constraining to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In this regards, many such social-and-institutional-frameworks-of—referencing/registering/decisioning can be construed as ‘frameworks of relatively shallow-ontologisation/subontologisation’ as to the existentialising—decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’ due to ‘blurriness in existentialising—decisionality’. It is herein contended that the most fundamental issue with regards to human prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> and requisite expansive relative-ontological-completeness ‘reference-of-thought—and—reference-of-thought-devolving—meaningfulness-and-teleology comprehensiveness of prospective sublimating—nascence’ with regards to sublimating—nascence teleological-inflection—(as-to-more-profound-nondisjointing—<amplituding/formative>epistemic-totalising/circumscribing/delineating)) has to do with this ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as to the fact that nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> are often of ‘restricted and directly transparent/potent existentialising—decisionality scope of sublimation for human deferential-formalisation-transference’ while
the social-and-institutional-frameworks-of—referencing/registering/decisioning (as to ‘reference-of-thought—and—reference-of-thought-devolving—meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence’) imply a depth of appreciation which initially leads to ‘blurriness in existentialising–decisionality’ as of relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating–existentialising–decisionality. We can for instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’); and this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-
positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation induced psychologism of reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation psychologism of reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation with regards to sublimating–nascence teleological-inflection-(as-to-more-profound-nondisjointing–<amplitudine/formative>epistemic-totalising/circumscribing/delineating)’, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ in the sense that the technician and natural scientist are unconcerned with ‘any social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality imbuement’ supposedly superseding existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation given that any such social and institutional pretense-of-sublimation cannot generate any inherent technical and scientific sublimating–nascence (wherein if such social-and-institutional-frameworks-of—referencing/registering/decisioning pretense-of-sublimation warrants gravity on earth to be considered as 7 m/s² for instance for one reason or another but for existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), rather the natural scientist and technician will view such social-and-
institutional-frameworks-of—referencing/registering决策—existentialising
decisionality 假象-sublimation 作为非常 de-mentative/structural/paradigmatic
undermining of the possibility of natural science and technical development as to
sublimating–nascence beyond just the specific instance but as to a fundamentally
underdeveloped social-and-institutional-frameworks-of—referencing/registering/decisioning
desublimating–existentialising–decisionality that must be overridden (so that similar
intellectual decadent 假象-of-sublimation should not arise) for the prospective possibility
for science and technical development sublimating–nascence to flourish; and likewise it is
herein contended that absolutising social-and-institutional-frameworks-of—
referencing/registering/decisioning existentialising–decisionality pre-eminence as to
imprimatur and the dynamics of imprimatur (with regards to ‘blurriness in existentialising–
decisionality’ associated with social-and-institutional-frameworks-of—
referencing/registering/decisioning) as ‘previously defining the possibility of prospective
knowledge over inherent knowledge’ is itself the very de-mentative/structural/paradigmatic
desublimating undermining of the possibility of veridical social and institutional prospective
sublimation/emancipation as to sublimating–nascence, and in that respect no mortal
(including the one mortal making this articulation herein) can pretend to a status bigger than
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation to then imply
that genuine knowledge-reification cannot cross-it/has-to-bow-to-it (for one reason or
another), and in that regards the more profound knowledge-reification as to the de-
mentative/structural/paradigmatic upholding at all instances of the possibility for prospective
genuine knowledge-reification inducing sublimation/emancipation as to sublimating–
nascence is more than just the specific knowledge-reification–gesturing for sublimation but
rather more critically overt articulation of the ‘veridical de-mentative/structural/paradigmatic
intellectual underdevelopment underlying any such a mortal claim’ as to the fact that no
human can claim that 2 + 2 is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in prospective construction-of-the-Self) so-reflected in the fact that the underlying existentialising-frame of knowledge is the very requisite condition for eliciting the true meaningfulness-and-teleology of any given specific knowledge-reification—gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising—decisionality specific knowledge-reification—gesturing for sublimating—nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> where the underlying registry-worldview/dimension existentialising—frame of knowledge is of non-positivistic desublimating—existentialising—decisionality and is not addressed/dealt-with as the Galileos, Descartes, etc. understood with respect to non-positivising medieval-scholasticism desublimating—existentialising—decisionality or the universalising-idealisation Socratic-philosophers sublimating—existentialising—decisionality understood with respect to non-universalising ancient-sophists desublimating—existentialising—decisionality and in both instances as of their prospective registry-worldviews/dimensions implied incipient/seeding thrownness-in-existence,—imbued-arbitrariness.waywardness—{as-to-the-human—projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing-process-of—'<amplituding/formative>epistemic-totalising—conceptualisation’} as to sublimating—nascence epistemic-conflatedness as of projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing, and it is contended as well that the conceptualisation herein is rather the more profound as to when its meaningfulness-and-teleology elucidates as to its deprocrypticism/preempting—disjointedness-as-of-reference-of-thought sublimating—existentialising—decisionality ‘the desublimating—existentialising—decisionality of such disjointing intellectual-muddlement—

reflected also with ‘postmodern thinkers direct/indirect criticisms of presencing—
absolutising-identitive-constitutedness’ as the sublimating–existentialising–decisionality
predefining condition for their specific knowledge articulation to more profoundly be
grasped/comprehended/realised), with human knowledge-construal being an altogether level
playing field only driven as of the sublimating potential as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation (and in this regards theories and concepts
cannot be articulated to imply that their subverting criticisms are rather personal/traditions

muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness) since the
very first credo of the intellectual is for inherent knowledge above any given theories and
concepts and traditions which are rather subordinate to the more profound purpose of the
human knowledge-reification project as was so understood and propounded by such mid-
twentieth century thinkers like Bertrand Russell, A.J. Ayer, Richard Rory, etc. even as their
conceptions came under criticism because a genuine relation with knowledge is what can
bring about appropriate prospective correction for sublimating knowledge when prospective
inspiration avails notwithstanding the traditional approach to knowledge so long as it remains
self-critical whereas a false social and institutional pre-eminence driven relation to
knowledge shoves existential issues under the table not because there is no human
intelligence to tackle true knowledge but because the possibility for more profound
contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification as to its
gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-
reification’ rather than veridically ‘knowledge-reification as of its very own
deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so-
reflected when mere methodologising/mutualising/organising/institutionalising as of human-
subpotency is construed as doing away with priorly requisite-and-relevant
supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–
conceptualisation with the off-the-shelf and made-to-measure projection of methods and
statistics by itself considered as supposedly profound knowledge, and even then such an
approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving
punctual/expeditious institutional enterprise rather than of overall prospective human
existential sublimation/emancipation). Overall the social-construct itself is reflexive of this
‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of
sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as of its
very underlying social-and-institutional-frameworks-of—referencing/registering/decisioning
as to social-stake-contention-or-confliction wherein the ‘implicit
sublimating–existentialising–decisionality’ underlying the ‘non-immediacy prospective
sublimating value and ontological-veracity disposition’ associated with nascent-
particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-
ontological-completeness–reference-of-thought-devolving> (as reflected by the
dedication/selflessness/disinterest/magnanimity underlying such existentialising–
decisionality of sublimating–nascence as to existence—as-sublimating-withdrawal,-eliciting-

‘immediacy supposed absolute sublimating value and ontological-veracity disposition’
reconception of existentialising–decisionality as to social-and-institutional-frameworks-of—
referencing/registering/decisioning (with respect to such underlying nascent-

nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-

This lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ as arising at destructuring-threshold–{uninstitutionalised-threshold/presublimating–desublimating–decisionality}–of-ontological-performance-<including-virtue-as-ontology> is the very element particularly acted upon by social and intellectual pedantry as to incrementalism–in–relative-ontological-incompleteness enframed-conceptualisation (as it can be appreciated for instance that the lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ in a non–positivistic social-setup between prospective positivistic knowledge and prior non-positivistic knowledge is exactly what can enable pedantic dispositions to cultivate non-positivistic meaningfulness–and–teleology in such a

associated with both sceptical argumentations (with sceptical arguments not necessarily
muddling when assuming a coherent/consistent threshold of scepticism in want for
elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein
in both instances the inconsistency is bent on blurring/undermining universal-transparency-
(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative>epistemic-
totalising~in-relative-ontological-completeness) as to a de-mentative/structural/paradigmatic
implication that renders prospective knowledge impotent and so out of ontological-bad-
faith/inauthenticity in desublimating—existentialising—decisionality gesturing of
attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-
entailing conception of meaningfulness-and-teleology’ thus allowing for totalisingly-
disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the
‘unbeholdening sublimating—nascence ontologising-depth of the full-potency of existence’
associated with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-
their-relative-ontological-completeness—reference-of-thought-devolving> is necessarily of
totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-
eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as
sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human temporal-to-intemporal-dispositions as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existent-unthought⟩). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-
without-knowledge constructs out-of and implicitly obviating the veracity of the universal-
transparency-{transparency-of-totalising-entailing,-as-to-entailing- 
<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of knowledge-reification’ (and so as to self-serving social-vestedness/normativity-<discretely-
implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-
flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-
frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency-{transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-
ontological-completeness) of critical importance for effective social-and-institutional-
frameworks-of—referencing/registering/decisioning sublimating~existentialising–
decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—
enframing/imprintedness<-as-to-historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition> as of vague impression-driven/good-
naturedness/wishfulness ‘beholdening as sovereignising—imbued-
subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-
entailing as so-demonstrable with say the momentous development of quantum physics with
the physics totalising-entailing implications of argumentations of
sublimating~existentialising—decisionality at critical moments moving from one physicist to
the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone
person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-
knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like
reputation having any incidence, speaks to a more profound lack of constraining aporeticism
overcoming/unovercoming as to institutional convenience that fails to articulate such a
‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus
renders in relative terms the social domain more intellectually impotent in inducing a similar
level of sublimating~existentialising—decisionality as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural
sciences (and so notwithstanding the relative blurriness of the social which can effectively be
brought to exactifying/precisioning—of-sublimation<-as-to-entailing-theoretical,-conceptual-
and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-
involvement overcoming rather than assuming a relatively false social and institutional pre-
eminence driven relation to knowledge); with the further implication of such ‘totalising-
entailing pertinence of thought upheld/elevated above anyone person’ being that the
‘knowledge-reification process becomes highly impersonal and complementary in a natural
way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of
the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of human temporal-to-intemporal-dispositions) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflectied in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relationing-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-
ontological-performance-><including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-><as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> conception of the ‘overall possibility of human existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human temporal-to-intemporal-dispositions is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness-><as-
to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnaturedness and derived secondnaturedness positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising—beholdening-protohumanity’—to—‘attain—sublimating—humanity’—as—to—existence—potency,—disclosed—from-prospective—epistemic—digression—as—of—<amplituding/formative>—epistemic—totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—confaledness; as to the fact that all human sublimation is instigated as of re—originary—as—unenframed/unbeholdening/outlier—conceptualisation—(imbued—postconverging/dialectical—thinking—‘projective—insights’/‘epistemic—projection—in—confaledness’—of—notional—deprocrypticism—prospective—sublimation) before secondnaturing positive—opportunism institutionalisation, as so—reflecting Derridean messianicity wherein even when the messiah comes they still have to come (inevitably—so—given—prospective—human—temporal—to—intemporal—dispositions to whatever induced supererogation/messianicity of originariness—parrhesia,—as—spontaneity—of—aestheticisation so—associated with human dimensionality—of—desublimating—lack—of—<amplituding/formative>—supererogatory—dementativeness/epistemic—growth—or—confaledness/transvaluative—rationalising/transepistemicity/anamnestic—residuality/spirit—drivenness—equalisation). It is this fact that explains why no underpinning—suprasocial—construct is able to coherently explain human—subpotency ‘fatedness—of—sublimation—over —desublimation to existence—potency,—disclosed—from—prospective—epistemic—digression—as—of—<amplituding/formative>—epistemic—totalising—renewing—realisation/re—perception/re—thought,—

In other words ‘the legislation for human prospective sublimation’ (as to sublimating—existentialising—decisionality) lies with the firstnatured intemporal indiduation relation to existence—as—sublminating-withdrawal,-eliciting-of-prospective-supererogation and the positive-opportunism arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implications) and in that regards the triteness of human pedantry in incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation and <amplituding/formative>wooden-language-imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignoreable-void’—with-regards-to-prospective-apriorising-
implications>) patently doesn’t count (given the latter associated temporal desublimating-existentialising-decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating-nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-authenticity–as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment).

The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantry vague proceduralism (beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>) as to the simple fact that human prospective destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-ontological-performance-<including-virtue-as-ontology> means that human meaningfulness-and-teleology is ever always caught up prospectively between intellectualism sublimating-existentialising-decisionality and pedantry desublimating–existentialising–decisionality. This is the case given the requisite condition for the very basic human sublimating–existentialising–decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-prospective-aporeticism-overcoming/unovercoming> (reflecting the ever always present challenge for intellectualism over pedantry); so-underscored by the ever always present challenge for human dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-confoundedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to
the same lines (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicitd exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-
of-existential-unthought>) about substituting a different and desublimating-existentialising-decisionality (whether of pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation or <amplifying/formative> wooden-language- {imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>}) and particularly so in relatively blurry domains-of-study/domains-of-interest (as we can appreciate that such a ‘technically wrong presencing—absolutising-identititive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> deficient notion of genius’ in spheres of inherently sublimating–nascence as to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> is practically of ‘insignificant import though technical ontological-impertinence’ and so ‘as to their very knowledge-reification—gesturing as determining sublimating–existentialising–decisionality’ since the immediate/direct potency as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation will be highly challenging to any incompetent mind pretending to be technically/scientifically apt/of-sublimating-existentialising–decisionality in lieu of the truly apt/of-sublimating-existentialising–decisionality technician/scientist, and so unlike desublimating–existentialising–decisionality taking precedence over prospective knowledge-reification arising relatively in blurry domains-of-study/domains-of-interest where such ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sUBLIMATION as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’ can more easily arise). In both elucidations of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ (as of

Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising-decisionality’ is ontologically flawed given human temporal-to-intemporal-dispositions to arrive at desublimating~existentialising~decisionality/sublimating~existentialising~decisionality overlooking organic-knowledge implications (whether by ‘temporal

Thus as to critical pure-ontology (underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and–

This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicty but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicty’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—dementating/structuring/paradigming—<seeding/incipient—shallow-supererogation,—as-mentally-aestheticised—preconverging/dementing—qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory—shallowness or supererogatory—profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicty projected reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—
decisionality prone to presencing—absolutising-identitive-constitutedness existentialising—
enframing/imprintedness-<as-to-historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition> needs to be critically brought to the consciousness-
awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-
constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as
sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as

overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology
of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-

in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-

construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein
existence as to its very panintelligibility—effusing/ecstatic–inlining is the very

supererogatorily act/react in sublimation or desublimation from whence knowledge as to
organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,-

mentating/structuring/paradigming or existence-desublimating—de-
mentating/structuring/paradigming elicitable respectively as from human ontological-good-

veridical ontology (in relegating/doing-away-with/superseding the ‘extra-
knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is
critically all about ‘a coherent totalising-entailing knowledge-reification–gesturing’ exposed

(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

that ‘knowledge-reification–gesturing historiality/ontological-eventfulness/ontological-
aesthetic-tracing’ is the more profound conception of ontology and science (as to human
dimensionality-of-sUBLIMating—<amplituding/formative>supererogatory–de-
mentativeness/epistemic-growth-or-conflatedness/transvaluative-

as of the ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ driving ontology and science across their punctual developments from past to present and into the future (underlined by human ‘sublimating-referencing/registering/decisioning self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>’ arising as of human limited-mentation-capacity-deepening- (<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)). This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound–supererogation’ in a soulless ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’), with this shallow—supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating—referenced/registered/decisioned self-presence/self-constitutedness (without or poorly appreciating the profound–supererogation involved in true science and ontology as to ‘sublimating—referencing/registering/decisioning self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>’) leads to dominance/vested-
interest prodded social-stake-contention-or-confliction determination of knowledge as of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendancy and other dominance/vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as muddling of genuine knowledge, in ‘temporal beholding as sovereignising—imbued-subontologisation/subpotentialisation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’). It is herein contended that in many ways as to human ontological-good-faith/authenticity—de-mentating/structuring/paradigming—<seeding/incipient—profound-supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema>, it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-prospective-aporeticism-overcoming/unovercoming>), as to the fact that ontology is absolutely bound to its course come-what-may ‘with such contrivances rather notionally integrated as herein into ontological-veracity as part-and-parcel of ontological-elucidation’ that allows no room for any pedantic ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ and not even when it elicits <amplituding/formative>wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology as
of shortsighted social power play. Such ‘fraudulent conception of knowledge’ thrive not only as to punctual thematic issues like climate change science and disenfranchisement/swindling/corruption/dispossession implications but even worst carry ideological dehumanising implications as to covertly/implicitly putting in question the humanity of other peoples/nations/cultures/races. It is herein contended that any pretense of a conception of humanity along those lines is nothing but mirrored-fascism as to the mere-token that all the human others are capable of ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness/formative–supererogating,<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>’ (as to inherent cultural growth and cultural diffusion capacity) thus rendering any lousy exclusionary conception of humanity along the lines of Western, non-Western, Oriental, Chinese, Arab, African, Russian, etc. of vague presencing—absolutising-identitive-constitutedness social-stake-contention-or-confliction beholding-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising (speaking of shallow ‘germinative intensification—amplituding of aestheticisation—beholding-out-of-bechancing’ / ‘taxingness-of-originariness,-imbued–sublimating-by-desublimating–amplituding as to the backdrop-of-inherent-immanent-existence’s–sublimation-structure,<of–unsurrealistic-as-real’–ontological-normalcy>). In many ways this latterly identified manifestation of ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’, wherein political purpose supposedly supersedes human intellective potency is the very crème-de-la-crème de-mentative/structural/paradigmatic and defining basis for social-and-institutional-frameworks-of—referencing/registering/decisioning of desublimating–existentialising–decisionality as to ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to

‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied
pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking

sublimation/emancipation necessarily requires human aporeticism overcoming/unovercoming
along these intimately-and-dynamically reinforcing existentialising—frames of human
destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-

conceptualisation goes well beyond a point of just mere technical ontological-pertinence as to
the fact that it operantly captures in a nutshell the prospectively requisite human aporeticism
overcoming/unovercoming in upcoming years and decades, as to the capacity for the human
to redefine humanity in the light of the societal and technological transformations of the past
few decades and the resultant/developing geopolitical context. It is herein contended that the
incapacity for such a collective reconstrual of humanity (as to ‘intemporal unbeholdening
sublimating–nascence ontologising-depth of the full-potency of existence implied as to the
very inherent knowledge-reification–gesturing as determining sublimating–existentialising–
decisionality’) following the social and industrial transformation occurring by the end of the
19th century very much underlies the ‘temporal beholdening as sovereignising–imbued-
subontologisation/subpotentiation (implied pretense-of-sublimation as to
desublimating–existentialising–decisionality supposedly taking precedence over inherent
prospective knowledge-reification)’ which could only end up in the human-made calamities
of the 20th centuries so-critically attributable to dominion/statal–logic–
(preconverging/shallow–supererogating–‘human-and-social–expectations/anticipations—de-
mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-

the subjection of the genuine social intellectual-function by dominion/statal–logic–
(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-
mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-

enlightening-renewal of the political process or the medieval establishment politico-religious

It is no wonder that periods following heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a genuine social intellectual-function obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very genuine social intellectual-function (as to its abstract notional/epistemic possibilities for prospective sublimation/emancipation so-undermined by dominion/statal—logic—{preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising-beholding—<whether—trepidatious—or-warped—or-preclusive-or-occlusive>—and—its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism>}) tend to be paradoxically re-construed (on the basis of dominion/statal—logic—{preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising-beholding—<whether—trepidatious—or-warped-or-preclusive-or-occlusive>—and—its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism>}) presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising—self-referencing-

worst of relative irrelevance to prospective social sublimation/emancipation (especially as to
when it ambitions a criticism of profound social emancipation), and so as to muddlement
induced subversion of such genuine social intellectual-function marked by the overt and
covert cultivating of pedantic incrementalism-in-relative-ontological-incompleteness
enframed-conceptualisation and a conception of the genuine social intellectual-function as
remote and directly irrelevant to social aporeticism overcoming/unovercoming. This flawed
conception of the genuine social intellectual-function is supposedly justified across human
history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the
case in all societies even in many a premodern society when the traditional order of the day is
put in question with cultural diffusion as to when for instance witchdoctors carry covert
misinformation campaign against the perceived threat of modern medicine) while
paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality
apparently implying ontological-veracity can be achieved without any relative-ontological-
completeness basis for such supposedly ontological insight so-critically provided by the
veridical genuine social intellectual-function. Critically, such dominion/statal–logic-

The fact remains that the genuine social intellectual-function (even as to when it is undermined with punctual pedantry desublimatingly pandering to the powers of the day) remains the only human conduit to sublimating ontological-veracity that cannot be substituted but rather supererogated as to undermining such pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a de-mentative/structural/paradigmatic issue of intellectual irrelevance no less than punctual technical or scientific incompetence can be transformed into a de-mentative/structural/paradigmatic issue of technical or scientific

In our modern day context, the very essential ‘public-sovereignty–giving function as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-
construed as the very cornerstone for domion/statal–logic–(preconverging/shallow-supererogating–human-and-social–expectations/anticipations—de-
mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-

vestedness/normativity–<discretely-implied-functionalism>) subverting the
sublimating–existentialising–decisionality of the genuine social intellectual-function; and so
as to the fact that the democratic process ‘public-sovereignty–giving function as associated
with the centrality of elections, voting and party politics’ is incomplete without an adequate-
and-healthy enlightening public-debate with such enlightening encumbering upon a genuine
social intellectual-function. In many ways the very idea of the ‘democratic public-debate’
itself is skewed from its very inception as to dominance/vested-interest natural ascendency
over ‘the supposedly democratic platforming and stakeholding in defining the very issues of
society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed
media debates and socio-econo-political thought-makers/thought-making overtly associated
with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media
influence). Critically, in this context such skewed platforming and stakeholding ends up
alienating supposed sovereign electors as to a platforming and stakeholding process that
mediatically and politically take a self-contained course (as to dominance/vested-interest
defaulting issues that can be debated as to the underpinning–suprasocial-construct
existentialising—enframing/imprintedness–<as-to-historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition> socio-econo-political social-stake-contention-or-
confliction) with the consequence that the so-politically-alienated sovereign electors are
increasingly turning to protest votes (reflecting rather a psychological-outleting rather than
true policy solution) or decreasing participation in the democratic process, in many ways
speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual-function as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> (as to as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-structure-of-meaningfulness-and-teleology) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-ontologisation of alternative institutional aestheticising contemplation ‘given dominion/statal–logic–<preconverging/shallow-supерerogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary
transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance-<including-virtue-as-ontology> as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>’ (however their de-mentative/structural/paradigmatic flaws). Critically (beyond just the present democratic crisis as it reflects to prospective human socio-econo-political sublimation/desublimation), all human societies arrive at their desublimating-existentialising-decisionality destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-ontological-performance-<including-virtue-as-ontology>, and so as to the fact that human technical-and-associated-organisational-development central to human social formation and social-enhancement is prospectively ‘apprehended by the dominion/statal–logic-(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdingen-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/ vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> dominating over such technical-and-associated-organisational-development as to imply its inherent mystic of social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality’ (seeming to thus wrongly imply that there isn’t any requisite de-mentative/structural/paradigmatic sublimating–existentialising–decisionality of ‘human sovereign-function as to public-sovereignty–giving function’ as determining the valid sublimating–existentialising–decisionality or invalid desublimating–existentialising–

public accountability of poor or no effective resolutive course, this mechanism of ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’ can perpetuate itself as to a Machiavellianism underlying the dominion/statal–logic-{preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdingening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>-and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>–relation with the human sovereign-function. Such a Machiavellianism riding-the-wave of the underpinning–suprasocial-construct existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> of the human sovereign-function thrives on social and intellectual pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation with the cultivation of disingenuous analysis as to strategies of misanalysis (so-reflected by the ‘propounding and enframing in ad-hocness and false-orthodoxy of policy issues so-underlied with catchphrases like deficit, public spending, etc. as to an aversion to consistent and long-term analysis pointing out the underlying inconsistency’ highlighting effectively that the political disenfranchisement/swindling/corruption/dispossession purpose of such argumentations precede their ‘very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’ purpose as to Machiavellian instigated false public debates) to which human sovereign-functions gullibly get caught up in or which ultimately discourages public interest and participation or lead to protest votes; with such misanalysis typically characterised by false bothsidesism existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing– hyperrealisation/hyperreal-transposition> reflex (bandied about as supposedly the very
summum of democratic impartiality) relation to any sublimating meaningfulness-and-

mentating/structuring/paradigming—<seeding/incipient—shallow-supererogation,—as-mentally-

the fact that no human institutional-construct (including the modern democratic institution)
can sublimatingly perpetuate itself on the mere basis of a formulaicity as to secondnatura

with foils/stooges of pop-intellectuals as the ‘greatest thinkers’ of our present intellectually shameful epoch). In this regards, it is critical to appreciate that the democratic process is a sovereignty-imbuing process and while this sovereignty-imbuing process is critical as the point-of-departure for socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming it is incomplete if it is merely construed/manipulated as to essentially sovereignty-giving without a cultured aspiration to grasp and operate as to prospective ontological-veridicality (as so-understood by the Socratic philosophers) just as our sovereignty over say our house doesn’t necessarily imply our technical competence with requisite house enhancements like electricity, plumbing, etc. even as our sovereignty is the point-of-departure for our independent/sovereign contemplating to undertake such house enhancement chores. This reality underlies the contention herein of the ‘overrated pedantising of meaningfulness-and-teleology’ as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it is a discursivity of subpotency as to human-subpotency which doesn’t necessarily subject/supersede existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as warranted for prospective sublimation/emancipation (even as human social-and-institutional-frameworks-of—referencing/registering/decisioning of existentialising—decisionality by reflex tend to absolutise human discursivity as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism>); thus requiring appropriate nonpresencing—<perspective—ontological-normalcy/postconvergence> epistemic-projection (as to requisite human limited-mentation-capacity-deepening—(<amplifying/formative>epistemic-totalisingly, as to—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) towards absolute-mentation-capacity as sought-after by the genuine social intellectual-function involving its specifically cultivated arts/skills and time investment and on the intimation that
the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment) and its consequent ‘distantiation of contemplative existentialising-frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ in superseding any underpinning-suprasocial-construct defaulting relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating–existentialising–decisionality (beyond the falsehoods and naiveties of bothsidesisms formulae of discursivity that confuses pedantism and intellection).

This ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjointing tends to be <amplituding-formative>epistemic-totalisingly absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>’ that-drives/is-behind such subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>’ manifest themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ but also persistently across time in more subtle ways). of that underpinning–suprasocial-construct ‘beholding as sovereignising–imbued-

supererogation of supererogatory–progressivity’). Thus beneath any supposedly
underpinning–suprasocial-construct (reflected in the modern-day underlying socio-econo-
political subontologisation/ideology-over-ontology whether technocratic, capitalistic or
communist), is a more fundamental ‘nonpresencing-<perspective–ontological-

supererogation of supererogatory–progressivity’) accounting for the possibility for
prospective human social-and-institutional-frameworks-of—
referencing/registering/decisioning sublimation/desublimation as in effect creatively
permeating all such ‘underpinning–suprasocial-construct of presencing—absolutising—

unenframed-conceptualisation’). In this respect we can appreciate with regards to the
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ that its most critical/grave moments are moments at which it is hardly/poorly
present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’
wherein for instance the social atrophying associated with the Great Depression rather
elicted statal supererogatory–progressivity extending into the postwar era of sociopolitical
and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in
the pure sense of the word and in many ways the technocracy developed and resourced in the
postwar years and the associated scientific and technical advancement especially in the face
of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resouces and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a dementative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for
individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welloping that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social
supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist
capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only
nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow–supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human
supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied by a basic level of supererogatory–progressivity. Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of
supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over

In this respect, scalarisation analysis is a projection beyond just a conceptually implied originariness/origination—<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> but is comprehensively and notionally/epistemically reflective of underlying de-mentative/structural/paradigmatic rescalarisation and descalarisation of human ontological-performance—including-virtue-as-ontology> as to human limited-mentation-capacity implications. This incipient descalarisation reflex is critically manifested by the fact that the
notional-decrypticism or <amplitudes/formative>notional-preempting—disjointedness-as-of-reference-of-thought underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that supererogatory—acute/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument—for-conceptualisation rather speaks of ‘one long continuous whole of human originariness-parrhesia,—as—spontaneity-of-aestheticisation as of notional—decrypticism’ which guiding spirit no human prospective apriorising/axiomatising/referencing—conceptualisation can pretend to ignore-and-override without falling into perversion of meaningfulness-and-teleology as to pedantry and/or sophistry by mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> in gimmickiness/desublimation. This insight about human ‘distending/dragged-out scalarisation’ points to the ontological-veracity of a necessary hermeneutic <amplitudes/formative>epistemic-totalising/circumscribing/delineating understanding associated with human ontological-performance—<including-virtue-as-ontology>, with the dearth of such hermeneuticism often associated with social contemplative fragility as well as the sophistry that further exploits this social contemplative fragility as to presencing—absolutising-identitive-constitutedness; and originariness-parrhesia,—as—spontaneity-of-aestheticisation imbued scalarisation effectively speaks of the ontological-veracity of the requisite difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism for the appropriately optimisable ontological-performance—<including-virtue-as-ontology> of human conceptual and operant meaningfulness-and-teleology. This overall construal of the determinative structure of human ontological-performance-<including-virtue-as-ontology> (as it reflects the ontological-veracity of human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology over any given conception of human intersubjectivity–of–meaningfulness-and-teleology’) rather undermines the ontological-pertinence as to the ontological-performance-<including-virtue-as-ontology> of the notion of human intersubjectivity–of–meaningfulness-and-teleology and so very much along the same lines of the Derridean criticism of intersubjectivity–of–meaningfulness-and-teleology going by his ‘heterogeneous genesis’ conception (even as the latter is more-or-less caught up in metaphysics-of-presence epistemic constitutedness as to its quasi-transcendental implications since genesis is rather truly as of the ‘full-conflatedness in the apriorising/referencing/axiomatising of meaningfulness-and-teleology’ involved with human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) and so-reflected rather as from ‘originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> implied scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>’), such that intersubjectivity–of–meaningfulness-and-teleology is rather an ontologically-flawed conceptualisation ‘poorly reflecting the ontological-veracity of the-social/human-social-potency as to the full potential for human ontological-performance-<including-virtue-as-ontology>’ and so since intersubjectivity–of–meaningfulness-and-teleology is rather beholdening to presencing—absolutising-identitive-
conflatedness induced prospective determination which then is de-
mentatively/structurally/paradigmatically preceding-and-constraining to human-subpotency

that the ‘institutionalised facts’ of the successive registry-worldviews/dimensions are then
construed wrongly as ‘beyond ontological analysis’ such that the ontological-contiguity—of-
the-human-institutionalisation-process herein implied is then construed as ‘unintelligible’ as
even the notion of how successive registry-worldviews/dimensions come about is obfuscated.
This overall insight points to the fact that all the potentiality for human ontological-
performance–<including-virtue-as-ontology> rather lies with grasping: human
‘formativeness–<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-

<amplituding/formative>epistemic-causality potentiality of ontological-performance–
<including-virtue-as-ontology>) and so as to human inherently embodied–
vitality/survival/subsistence in existential becoming with regards to human living-
development–as-to-personality-development, institutional-development–as-to-social-
function-development and Being-development/ontological-framework-expansion–as-to-

- human individual as solipsistic sovereign-emergence of drivenness beyond just ‘socially induced emancipatory/non-emancipatory drivenness’ as to the individual thrownness in any registry-worldview’s/dimension’s institutionalised-and-uninstitutionalised-thresholds of ontological-performance-<including-virtue-as-ontology>,

Such a depth of contemplation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process (at the crossroads of prior meaningfulness-and-teleology and prospective metaphoricity) over approaches of relative gimmickiness-of-thought as to our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness <amplituding-formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag that poorly address human egotistic/self-referential complex in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint and with the corresponding possibility for sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification tends to be notionally/epistemically caught up between a sublimation and desublimation/gimmickiness de-mentating/structuring/paradigming’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.). In other words, the notion of ‘the other’ as aetiology/escalation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled
commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 1930s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipatory potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation}, and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity-
<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of-reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different

inherent ontological coherence/contiguity. This insight about virtue as lying with ontology
has been to varying degrees implicitly understood by many postmodern thinkers, beginning
with Heidegger pointing to a sophistication of thought but for the poor development and poor
conclusions of his analysis during the troubled years of 1930s; and rather poorly interpreted
by virtue critiques adopting a ‘modern take attitude/mental-disposition/care—and—episteme’ in
ontological-contiguity as of its <amplituding/formative>epistemic-totalising—self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-
incompleteness-of-reference-of-thought perspective construed-as reasoning-from-
results/afterthought of modernity. Such sophistication of thought to think in terms of inherent
ontology, however ontologically-flawed with respect to Heidegger, has been further
implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for
construing virtue from the orientation of prospective notional-contiguity(epistemic-
contiguity—<profound-supererogation-of-mentally-aestheticised—postconverging/dialectical-
thinking—qualia-schema> as of prospective relative-ontological-completeness-of-reference-
of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern
deprocrypticism or preemipping—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intellligibilitysetup/measuringinstrument attitude/mental-
disposition/care—and—episteme’ should ontologically nurture the requisite psychoanalytic-
unshackling/prospective-grounding/prospective-reification for prospective notional-
contiguity(epistemic-contiguity—<profound-supererogation-of-mentally-
aestheticised—postconverging/dialectical-thinking—qualia-schema> as of prospective relative-
ontological-completeness-of-reference-of-thought implied as of deprocrypticism or
preempting—disjointedness-as-of-reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care—and—episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care—and—episteme over the uninstitutionalised-threshold attitude/mental-disposition/care—and—episteme. We can effectively grasp why Heidegger’s implicity insight as of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—\(<\text{amplituding/formative}\>)\text{supererogatory}\text{-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—}\text{-as-sublimating-withdrawal,}-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as—spontaneity-of-aestheticisation to Descartes thinking—\text{proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—\(<\text{amplituding/formative}\>)\text{supererogatory}\text{-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—}\text{-as-sublimating-withdrawal,}-eliciting-of-prospective-supererogation) which philosophically precedes his secondary thinking-proposition as reasoning-from-results/afterthought; such that budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger notional-discontiguity/epistemic-discontiguity-\(<\text{shallow-supererogation-of-mentally-aestheticised—preconverging/dementing–qualia-schema}>\text{why intending to be of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is actually of an epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}

effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I
think therefore I am’ is not the idea that Descartes contemplates that he is the first person to
be self-conscious about his thinking; rather his underlying reasoning is ‘more than just
speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-
positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-
transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’

That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. apriorising/axiomatising/referencing/intelligibility setup/measuring instrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> analysis, implied as of prospective relative-ontological-completeness-of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness-of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness-of-reference-of-thought/relative-ontological-completeness-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In lieu
the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness in resetting-our-psychoanalytic-disposition/prospective-grounding as of <amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought in conflatedness, such that this leads to constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation-supererogatory--ontological--de-mentation-or-dialectical--de-mentation--stranding-or-attributive-dialectics that our human <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness-of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing--qualia-schema>. In this regard, ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative--implications,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is essentially one of shifting attitude/mental-disposition/care--and–episteme by the successive institutionalisations reference-of-thought apriorising/axiomatising/referencing/​​intelligibilitysetup/measuringinstrument for
aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, even though beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought human induced bias leads to a wholly immersed-and-engrossed focussing only at its given present institutionalisation’s reference-of-thought ‘present attitude/mental-disposition/care – and – episteme’ as if other retrospective-and-prospective institutionalisations’ reference-of-thought do not have their own attitude/mental-disposition/care – and – episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorising/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-
worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocripticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme conception, and specifically as relevant for understanding prospective ‘postmodern deprocrypticism or preempts—disjointedness-as-of-reference-of-thought
underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning. singularisation/epistemic-immanence/veridical-epistemic-determinism as such is a conception that grasps that ‘axiomatic-constructs as of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ is the meaningfulness-and-teleology format implied by the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning. Thus singularisation/epistemic-immanence/veridical-epistemic-determinism by its implied notional–conflatedness highlights that ‘axiomatic-constructs as of
epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting of ‘human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence in its coherence/contiguity’ as of implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, is effectively as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to singularisation/epistemic-immanence/veridical-epistemic-determinism. That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) of ‘axiomatic-constructs as of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’. singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing, points out that dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness
reflects that singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening-<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) of ‘axiomatic-constructs as of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. This reality of the need to construe of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-
mentating/structuring/paradigming singularisation/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-prospective-aporeticism—overcoming/unovercoming>’.

In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markedly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-prospective-
aporeticism-overcoming/unovercoming> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because
reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that
at uninstitutionalised-thresholds, human cognition which is rather in ‘excogitative-blanking
of prospective institutionalisation existential-contextualising-contiguity-in-reification’
suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-

for such singularisation/epistemic-immanence/veridical-epistemic-determinism is denaturing
as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-
flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought at its

<amplituding/formative>epistemic-totalising–devolved–purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human-
subpotency ontological-performance-<including-virtue-as-ontology> of prior perceptivities
as successive uninstitutionalised-thresholds are rather in ‘excogitative-blanking of the
prospective institutionalisation existential-contextualising-contiguity-in-reification’ (by their
identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-

their successively prospective perceptivities which are actually in prospective relative-

‘excogitative-blanking of the prospective institutionalisation existential-contextualising-
contiguity-in-reification’ can equally be elucidated with regards to a devolved axiomatic-
construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the
very same physics <amplituding/formative>epistemic-totalising–devolved—
purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’,
the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in
‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity-

mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-
completeness reflects the former’s prior relative-ontological-incompleteness as dialectically
out-of-phase/preconverging-or-dementing–apriorising-psychologism. This insight about
human ‘excogitative-blanking of the prospective institutionalisation existential-
contextualising-contiguity-in-reification’ at uninstitutionalised-thresholds actually highlights
that from a prospective perspective of prospective relative-ontological-completeness-of-
reference-of-thought our positivism–procrypticism registry-worldview/dimension is very
much imbued with a flawed ontological-performance-<including-virtue-as-ontology>, as is
the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-
think that our social world of meaningfulness-and-teleology is coherent, failing to factor in
that it is preconverging-or-dementing–apriorising-psychologism at its uninstitutionalised-

<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness} as to ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity-reification, and likewise with regards to a positivism–procrypticism/disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbuemin-temporal-to-intemporal-dispositions–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as <amplituding/formative>wooden-language-(imbuemin-temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing-narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that surpresse/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60 – 100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshakling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-

ontological-completeness), deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness-of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of-meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation-supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-

Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the construal of meaningfulness-and-teleology as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology varies as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

through/messianic-reasoning beyond prior reasoning-from-results/afterthought endemising/enculturating <amplituding/formative>epistemic-totalising~self-referencing-

non-positivistic registry-worldview/dimension, whether animistic or medieval, notions-and-

underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality singularisation/epistemic-immanence/veridical-epistemic-determinism reified insight. The insight here about reification is that all their intemporal value references are rather as subsumed in their ‘positivistic reification of meaningfulness-and-teleology’ as of their prospective relative-ontological-completeness-of-reference-of-thought with the corresponding implications of human ‘prospective positivistic transcendence-and-sublimity/sublimation/supererogatory de-mentativity ontological-performance<including-virtue-as-ontology>’ as aetiolisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments. By that token they are effectively of the most intellectually-and-morally inclined persons of their society. Contrastively, the temporal value reference as of non-positivism/medievalism <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) mental-dispositions of persons like ‘honourable aristocrats’ simply reified to the universalisation–non-positivism/medievalism registry-worldview/dimension with its prior relative-ontological-incompleteness-of-reference-of-thought vices-and-impediments, while favourably looked upon as of non-positivism/medievalism society <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a prospective singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological
completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <amplituding(formative)>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-of-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion~as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preemtping—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of-meaningfulness-and-teleology <amplituding(formative)>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of- ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} instigated prospective transcendence-and-sublimity/sublimation/superceratory-dementativity, is construed as ‘putting-into-question its existentially invested conception of meaningfulness-and-teleology’, which is rather a contradiction of sorts given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness). With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <amplituding/formative>wooden-language–(imbued—averaging-of-thought–
advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbuend-temporal-to-intemporal-dispositions–existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—amplituding/formative>supererogatory–de-mentativity/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inducing institutional secondnaturin. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-prime movers-totalitative-framework constraining it crossgenerationally overrode scholastic pedantry. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking—‘projective-insights’/’epistemie-projection-in-conflatedness’—of-notional—deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness-of-reference-of-thought with the latter’s <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricit constraint as of ontological-prime movers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-
incompleteness-of-reference-of-thought naïve non-transcendental
<amplituding/formative>epistemic-totalising~self-referencing-
syneretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a
transcendently projecting intemporal mental-disposition is rather uncanny about the
‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed
as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal
thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence
reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to
the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a
reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation
with reasoning-from-results/afterthought deficient prior institutionalising; and certainly
explaining why uninstitutionalised-thresholds transcing has ever always been conflicted
as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency
existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing
mortals that we are for our prospective emancipation. Without an insight about reification and
dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-
determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-
veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in
dereification will be teleologically-elevated and meaning produced as of reification will be
teleologically-degraded; as so blatantly obvious particularly with the dereification
manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly
coverd nature as of adulthood psychopathy and social psychopathy dynamics. In this regard,
divergent as of temporal-to-intemporal dynamics of human ontological-performance-
<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring
meaningfulness-and-teleology reflecting dereified and reified construals of existential-
contextualising-contiguity is to be expected, and assessable on the basis of a commonly
expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument,
which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the
intemporal mental-disposition with no dereification and reification contrast. However,
compounding this situation making relevant the need to contrast reification and dereification
and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so
between temporal mental-dispositions and intemporal mental-disposition, is specifically the
flawed ontological-performance-<including-virtue-as-ontology> manifestation of
psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically
associated with the denaturing of the <amplituding/formative>epistemic-totalising-devolved
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so
fundamentally with regards to the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the
<amplituding/formative>epistemic-totalising-self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations
aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology;
with the fundamental implication that there are thus divergent
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of
psychopathic induced postlogism-slantedness, and its social cognisance and integration as
conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social
psychopathy. In this latter case of contrasted reification and dereification and implying

veridicality/existential-reality’, its reification as ‘apriorising-teleological resetting of
<amplitudizing/formative>epistemic-totalising/circumscribing/delineating meaningfulness-
and-teleology to the prospective relative-ontological-completeness-of-physics-axiomatic-
construct’ implies that de-mentatively/structurally/paradigmatically ‘traditional classical
mechanics axiomatic-construct’ is dereified as of its prior relative-ontological-incompleteness
to theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is
rather reified as of its prospective relative-ontological-completeness; such that interestingly to
construe, as of ontological-veridicality, the reality of ‘traditional classical mechanics
axiomatic-construct’ requires rather assuming/departing-from an understanding of existential-
contextualising-contiguity knowledge-reification as implied by the reifying theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs in articulating
ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from this projected ‘notional—singularisation/epistemic-
immanence/veridical-epistemic-determinism’ as of theory-of-relativity-together-with-
quantum-mechanics—axiomatic-constructs perspective or attitude/mental-disposition/care—
and—episteme over ‘traditional classical mechanics axiomatic-construct’, and so-implied as of
‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-
dissemination-and-dereification-dissemination-implications’ construed as the
‘variance/discrepancy of meaningfulness-and-teleology’ as of prospective relative-
ontological-completeness and as of prior relative-ontological-incompleteness. Note that on
the imaginary supposition that no such prospectively projected ‘notional—
singularisation/epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing
the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-
teleology’, mental-dispositions in prior relative-ontological-incompleteness will falsely go on
reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive-
constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity of ‘the very same physics epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism is in reality preconverging-or-dementing–apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism/disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing–apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ as of our positivism–procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-
disposition/care—and—episteme in our positivism—procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care—and—episteme of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and—teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical—de-mentation of our positivism—procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe existential-contextualising-contiguity—in-reification/dereification by adopting the positivism—procrypticism dereifying perspective or attitude/mental-disposition/care—and—episteme in its prior relative-ontological-incompleteness in an exercise of ontologically-flawed identititive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification arise as of their temporal threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social—

Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to- leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of- ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} mental-dispositions as of ‘mutual temporal/shortness-of-register-of-meaningfulness-and-teleology eliciting’ construed as ‘intemporal temporality’. The fact is our pretences and arguments of practice, as not critically pinned down to their ontological-veracity as of prospective relative-ontological-completeness, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview’s/dimension’s reference-of-thought practices, and thus conceptualising virtue by <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag while circumventing as of beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>
the vices-and-impediments of each registry-worldview/dimension in want of its ‘pure-ontology’ virtue resolution as of aetiolisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying de-mentative/structural/paradigmatic ontological implications about our ‘modern take attitude/mental-disposition/care–and–episteme’ reflected by the ‘postmodern deprocrypticism or preempts—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ with regards to social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> frameworks and temporal mandarinism/pedantry frameworks, are no different to say ‘non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> frameworks and temporal mandarinism/pedantry frameworks as reflected from ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of prospective relative-ontological-

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness: will question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their

unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon’ constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening-⟨amplituding-formative⟩epistemic-totalisingly-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional–conflatedness of notional–deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-
emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Such a postmodern suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care-and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism to such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for–aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existentia-l-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social
organisation advancement brought about from budding positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mindality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but
rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency-
(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a
position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding-formative>epistemic-totalising-in-relative-ontological-completeness). Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology.–for–aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity–<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event-or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such
criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human

<amplituding/formative>epistemic-totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along
'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications, for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/superrogatory–de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative>epistemic-totalising–in-relative-ontological-completeness)’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a
sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of-meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative>epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought,—in-superceratory—epistemic-confledness; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other
words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs constitutedness, but rather it is by conflatedness with regards to ‘the very same physics <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-<perspective—ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-prime-movers-totalitative-framework tendential validation as to existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory—epistemic-conflatedness. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening-<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation) analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différence-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différence as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différence that coincides-and-is-contiguous with a prior Derridean différence as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différence tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening-⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différence as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différence, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation
before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening-(amplituding-formative)epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescence of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of<(amplituding/formative)epistemic-totalising~renewing~realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflededness so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-forgiven-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism deference to the prescence of existence-potency,-disclosed-from-prospective-epistemic-digression-as-of<(amplituding/formative)epistemic-totalising~renewing~realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflededness over any human-as-mortall framing of meaningfulness-and-teleology including oneself-as-human-as-mortall, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness-of-reference-of-thought over
human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness-of-reference-of-thought, and so by maximaliing-recomposuring epistemic-totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency–(transparency-of-totalising-entailing, as-to-entailing–epistemic-totalising~in-relative-ontological-completeness)’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has
always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative>epistemic-totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness/notional-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’ to grasp deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness
apriorising/axiomatising/referencing/intellibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness)’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural differance consciousness development is the notion of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of the consciousness in ontological-contiguity/relative-ontological-completeness-of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-
incompleteness-of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness, and not incrementalism-in-relative-ontological-incompleteness, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative>epistemic-totalising~purview-of-construal’”. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation); overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising as of prospective relative-ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-
construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-con structs as of ‘the very same physics <amplituding/formative>epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of nonpresencing-<perspective—ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective—ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative>epistemic-totalising—self-referencing-syneretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of ontological
primemovers-totalititative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given <amplituding/formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <amplituding/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
mentation-capacity as of growing certitude from the opening up of nonpresencing-
<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation
ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-
totalititative-framework. Further, metaphoricity as such speaks of the easiveness of all human
meaningfulness-and-teleology at uninstitutionalised-thresholds as recurrently pointed out
herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing–apriorising-psychologism possibilities relation to
reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as
of human limited-mentation-capacity implications. The implications of this reality as of
metaphoricity explains why epistemes are fundamentally and necessarily constricted as of
their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are
as relevant as the ontological-possibilities divulgeable by presencing—absolutising-
identitive-constitutedness and nonpresencing–
<perspective–ontological-normalcy/postconvergence>, such that in the case of the latter there is no prior insight about
the veracity of any episteme before it is divulged with Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness.
Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a
medieval Establishment scholasticism-and-mysticism episteme as of Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as the necessary backdrop for the knowledge
he articulates and all subsequent positivistic knowledge. In many ways, this author as of
organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–
procrypticism episteme as of its constitutedness with respect to futural Being-

psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation and futural

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for \(<\text{amplituding}/\text{formative}>\text{epistemic-totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag.}\) Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then
contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to open up new and coherent
thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of \(<\text{amplituding/formative}}\text{wooden-language}\text{-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-’nondescript/ignorable-void’}-with-regards-to-prospective-apriorising-implications}>\), such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance
peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing—apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated—temporal-intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness-of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease
theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing,-amplituding-formative>epistemic-totalising-in-relative-ontological-completeness}’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so

‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-<<in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicty/anamnestic-residuality/spirit-drivenness—equalisation>

subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional~knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of
intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a <amplituding/formative> epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-<perspective–ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a
more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting—as-of-conflicatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of the dimensionality-of-sublimating—<amplituding/formative>supererogatory-dementativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation of our supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-
ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’.

Anecdotally, the shallowness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocriptism. But then ontological-bad-
faith/inauthenticity is equally elicited by ‘lack of social universal-transparency- (transparency-of-totalising-entailing, as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness)’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/interolsipistic-intercessory-notions/notional-referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness-of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—<amplituding/formative>supercerogatory-de-mentativeness/epistemic-growth-or-confatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation). Such conflatedness imbued in postmodern-thought address more
than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and de-mentating/structuring/paradigming of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory—de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of deprocripticism or preempting—disjointedness-as-of-reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism–procripticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-

In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology as of notional–deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising—referentialism, in lieu of neuterising. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human amplituding/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) has always involved a disparateness-of-ontologically-construed-social-reality as of on the one hand a dichotomy of ‘intemporal-projection transcendental-enabling/sublimating/supererogatory–de-mentativity abstraction of prospective Being and meaningfulness-and-teleology construal as of organic-knowledge implications and so as reductive construction however non-mechanical and intemporal-as-ontological-its-projection and hence as an open-ended-incompleteness/nonachievement-of-ontological-normalcy
neuterising by its trepidatious-consciousness, while on the other extreme in contrast deprocrypticism rather has a reference-of-thought/de-mentative/structural/paradigmatic deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-confledness protensive-consciousness sound conceptualisation perspective’ that by its ‘reference-of-thought-devolving—différance/internal-dialectics/difference-deferral’ grasp the ontologically-veridical ‘underlying human limited-mentation-capacity dynamics of <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving, and so without being subject to any neuterising’ as is the case with all ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’. Thus by its deneuterising—referentialism construed as of historiality/ontological-eventfulness/ontological-aesthetic-tracing, deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metaphysics-of-presence affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is achieved from the prospective notional–confledness of notional–deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing.<perspective–ontological-normalcy/postconvergence>. In other words the historial implications of human limited-mentation-capacity-deepening-

by some token has sustainable-and-learned access to basic but greatly enhancing productive

This explains the peculiar mimetised-preconverging-or-dementing-apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/reference-of-thought that doesn’t register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing-apriorising-psychologism by its positivism–procrysticism reference-of-thought. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of—

threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism with regards to the limits of a registry-
worldview’s/dimension’s institutionalisation (whether base-institutionalisation,
universalisation and positivism eliciting respectively the uninstitutionalised-thresholds of
ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-
contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional~projective-perspective, it is ‘preconverging-or-dementing–apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory~de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening-{<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation} expansion of ontological-depth as

Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating meaningfulness-and-teleology from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposing, and so by maximalising-recomposing-for-relative-ontological-completeness. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity since the latter is only appropriate in the instance of prospective relative-ontological-completeness-of-reference-of-thought; as the

we can imagine that making a positivistic argument in the midst of a non-

shallow-supererogation—preconverging/dementing–apriorising-psychologism, though our
mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing-apriorising-psychologism as well. However, to the extent that it is ‘not such <amplitudining-formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of-meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-thresholds from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of-meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of-meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of-meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-
enabling/sublimating/supererogatory-de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-prime-motion-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-prime-motion-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and de-mentating/structuring/paradigming meaningfulness-and-teleology in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening-〈amplituding/formative〉epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), as institutionalising ontological-prime-motion-totalitative-framework successively induce more and more profound ‘mimetic-echonesty to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echonesty/existence-in-reverberation/existence-potency,-disclosed-from-prospective-epistemic-digression-as-of-〈amplituding/formative〉epistemic-totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness. (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-prime-motion-totalitative-framework of meaningfulness-and-teleology going by their limited-mentation-capacity-deepening-〈amplituding/formative〉epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation)).
sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening—(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation)’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative>epistemic-totalising—renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about $9.8 \text{ m/s}^2$ on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory-de-mentativity), with respect to transcendent-enabling/sublimating/supererogatory-de-
mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e., human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-verdicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-verdicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-verdicality transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-verdicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then
has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of
transcendence-and-sublimity/sublimation/supera rogatory-de-mentativity to prospective transcendence-and-sublimity/sublimation/supera rogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridical-transcendental-enabling/sublimating/supera rogatory-de-mentativity as secondnatur ing institutionalisation percolation-channelling to elicit the necessary positive-opportunism for prospective institutionalisation as skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridical-transcendental-enabling/sublimating/supera rogatory-de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Corpernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridical-transcendental-enabling/sublimating/supera rogatory-de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (and so as of ‘circular-complexification’/perpetual-reinstitutionalisation as a result of the same human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions across all the successive ontological-contiguity—of-the-human-institutionalisation-process registry-worldviews/dimensions). In the bigger scheme of things, as of the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness
of notional–deprocrypticism deneuterising—referentialism’ reflected by metaphysics-of-absence in the conception of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> as of the transcendental implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the
absolute ontological determinant of meaningfulness-and-teleology ontological-performance-
<including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the
<amplituding/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-
<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preemting—disjointedness-as-of-reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence for the conception of meaningfulness-and-teleology ontological-performance-
<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> naively construed
<amplituding/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-
<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s
institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>)’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturning. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturning construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of-meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the Deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing-apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-
thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) of the psychopath’s mental-disposition of postlogism-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)), and while construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness-of-reference-of-thought, as it leads to ‘lack of constraining social universal-

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-confaltedness’-of-notional–deprocripticism-prospective-sublimation⟩ transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep
over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, which may wrongly imply being out of the scope
of human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the <amplituding/formative>epistemic-totalising~self-referencing-

even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-

<amplituding/formative>epistemic-totalising~self-referencing-

socially <amplituding/formative>epistemic-totalising~self-referencing-

acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant-(as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology} as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-
thought’, so-undertaken as of maximalising-recomposuring-for-relative-ontological-
completeness), the new logical-processing-or-logical-implicitation—supposedly-apriorising-
in-conviction-as-to-profound-supererogation as ‘prelogic supplanting—conviction-as-to-
ontological-completeness. The difference between postlogism (postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation–(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)) and prelogism (prelogism-as-of-conviction-as-to-profound-supererogation–(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at)) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency–(transparency-of-totalising-entailing, -as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement' (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflicatedness) and find out that the numbers measured and to be added are 5 + 2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of
aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and
understands the addition principle well. This instance of A’s reference-of-thought where it is
not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-
in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for
addition calculations is part and parcel (whether successful or not) of prelogism. Now
supposed B is in a position and has the mental-disposition to covertly add 1 to any of the
numbers measured and to be involved in the calculations to be undertaken before then
calculating and so as to measurement (so-construed as use of a defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements speaking of B’s perversion-of-reference-of-thought-<as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such
that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—
of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather
implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement
undertaken by A for subsequent calculation as 5 + 2) and then resolved correctly to be 9 as
well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for
solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed
due to its perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (incorrect
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential—defect, i.e., the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential—defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to
it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency–(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism-as-of-conviction-as-to-profound-supererogation re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B’s postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and C, D, E and F relative-ontological-incompleteness-induced,–‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ that is ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology to enable their conjugated-postlogism, where it is socially-functional-and-accordant to do so. It should be qualified that postlogism
(psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing,-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of perversion-and-derived-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how prelogism-as-of-conviction-as-to-profoundsupererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation and its protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (even when other prelogism-as-of-conviction-as-to-profound-supererogation minds do lack a social universal-transparency–(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) of the veridical postlogism/psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism-as-of-conviction-as-to-profound-supererogation minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the
said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vivious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance
threshold-of-shallow-supererogation vicious acts-and/or-narratives’ based on their systematic combination with ‘compensating directed pseudo-virtue acts-and/or-narratives’ directed to relevant significant others will enable the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ as of an association between the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’, and ‘compensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, wherein that compensating is not a trite equivalence but rather involves ‘high-proportionality of overcompensating directed pseudo-virtue acts-and/or-narratives’ relative to ‘specific or given postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ in order to enable the postlogism/psychopathic manifestation achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and subsequent sense of social allegiance with relevant significant others and then corresponding ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, whether relevant individuals and/or relevant social network, as overall ‘social investment’ that should allow its instigated ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and
initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism-as-of-conviction-as-to-profound-supererogation come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-
reference/teleology (which are actually outside existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation. This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the \(<\text{amplituding/formative}>\text{wooden-language-}\langle\text{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology}\rangle\) (failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism/psychopathy and conjugated-postlogism/social-psychopathy with respect to ontologically-veridical meaningfulness-and-teleology arises disjointedness-as-of-reference-of-thought; inherent in temporality/shortness and as of postlogism and conjugated-postlogism mental-dispositions (shallowness-of-thought construed as of temporal-extricatory

ontological-incompleteness-of-reference-of-thought, and more specifically relevant to the phenomenon of psychopathy and social psychopathy it points to disjointedness-as-of-reference-of-thought associated with procrypticism relative-ontological-incompleteness-of-reference-of-thought. It should be noted as well that the notion of overlooking and resetting (as the fact is the conscious manifestation of perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> doesn’t truly qualify for such a notion of overlooking and resetting since it is of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect—<as-Being-or-ontological-or-existential–defect> and not defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, more like it can’t be pretended that overlooking the nefarious implications of notions-and-accusations-of-sorcery in a non-positivistic social-setup in some way implies a resetting of non-positivism/medievalism mindsets/reference-of-thought, and it will be more of an intellectual-and-moral dereliction from a positivistic insight) doesn’t cancel the fundamental temporal mental-dispositions as portrayed above given that intrinsic-reality/ontological-veridicality is a contiguity (superseding–oneness-of-ontology), and the relative-ontological-incompleteness-induced—‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing–apriorising-psychologism’ as displayed by the individuations (speaking not of a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance) above is of ‘existential perpetuation in circularity/recurrence/repetition/repeatability (as-of–‘perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-

Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ of ‘<amplituding/formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an
elaboration well within the psychical framework established by the dimensionality-of-

and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that

supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘<amplituding/formative>/epistemic-totalising—renewing-realisation/re-perception/re-thought-

It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically
erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ahem/min/essences/mideval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibility/setup/measuring/operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied herein as of limited-mentation-capacity-deepening–(<amplituding/formative>epistemic-totalisingly–as-to-existence—as-sublimating-withdrawal, eliciting of prospective supererogation) with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to–‘human<amplituding/formative>epistemic-totalising–purview-of-construal’ as superseding-oneness-of-ontology as an all-encompassing <amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of human psychical and

This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking–psychology or psychology-owment-dynamics or natural–psychological-dynamics’ psyche as ‘(<amplituding/formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of
transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our

recurrent-utter-uninstitutionalisation will be more inclined to turn towards the ‘prior conventional non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition’ as reference-of-thought—categorical-imperatives/axioms/registry-teleology, and so over the ‘prospective relative pure-ontology conflatedness implying rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’. This is because a registry-worldview/dimension is a ‘circular-pervasiveness <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>}’ wherein achievement motives and temporal-stakes of the conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—‘nondescript/ignorable-void’—with-regards-to-prospective-apriorising-implications>} so-construed prospectively, will tend to ‘take precedence as of relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought (as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as heuristic but non-constraining compensation for human limited-mentation-capacity where constraining social universal-transparency—{transparency-of-totalising-entailing—,as-to-entailing—<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} doesn’t yet avail) even though, it is such relative pure-ontology conflatedness that is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-of-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-of-reference-of-thought brings about deepening sense as to apriorising/ axiomatising/referencing–psychologism of transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the
denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising-in-relative-ontological-completeness), that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘<amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) of prior/transcended/superseded registry-worldview/dimension’ notwithstanding its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; highlighting how across the successive registry-worldviews threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism arise, however, different the perception from ‘very-crude’ (with recurrent-utter-uninstitutionalisation) to ‘seemingly polished’ (with our positivism–procripticism) depending on prospective relative-ontological-completeness-of-reference-of-thought. decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-
dispositions or vices-and-impediments as arising mainly as of their conscious choices, de-
mentatively/structurally/paradigmatically a registry-worldview/dimension prior relative-
ontological-incompleteness-of-reference-of-thought as a beyond-the-consciousness-

more decisive/salient notion as to human ‘objectively construed/analysed virtuous-
dispositions or vices-and-impediments’ even though individual ‘conscious choices’ will tend
to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-
impediments arising’; such that a registry-worldview/dimension incompleteness-of-reference-
of-thought is de-mentatively/structurally/paradigmatically susceptibility as a state of ‘in-wait

ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede
the state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-

(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This equally explicates the empirical reality associated with the occurrence of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cross-generationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposing of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ to take hold. It equally explicates why threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism (as ‘vague staging and performing’ and not truly postconverging-or-dialectical-thinking—apriorising-psychologism meaningfulness-and-teleology) tend to arise in each registry-worldview/dimension at its uninstitutionalised-threshold. This has to do fundamentally with the antipodality of the mental-dispositions of postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as of effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology and prelogism-as-of-conviction-as-to-profound-supererogation as of effecting-wholeness-as-of-profundness-and-completeness-to-meaningfulness-and-teleology in the construal of intrinsic-reality/ontological-veridicality. It is important to grasp that such ‘prelogism-as-of-
associated with uninstitutionalised-thresholds.) This thus conveys the individuation-level of analysis ontological-prime-movers-totalitative-framework as well as differentiated intemporal-confinedness-as-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology-or-temporal-constitutedness-as-effecting-parsimony-of-meaningfulness-and-teleology (so implied by metaphysics-of-absence as of our procrustic-uninstitutionalised-threshold as disjointedness-as-of-reference-of-thought). By mental-reflex a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation stand is a ‘mental-shortcut’ that is fundamentally perverted as it perceives meaning as ‘deterministic of others behaviours by its empty-form’ while a prelogism-as-of-conviction-as-to-profound-supererogation stand is one that relates to meaning on the basis of its assumed existential validity, or at worst involves omissions or exaggerations relative to such fundamental existential validity, but doesn’t countenance by mental-reflex the projection of empty-form of meaningfulness which is ‘existentially invalid’ in the very first place. Consequently, where there is ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} at the uninstitutionalised-threshold due to relative-ontological-incompleteness-of-reference-of-thought, postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation implied meaningfulness-and-teleology will tend to be incidentally conjugated with prelogism-as-of-conviction-as-to-profound-supererogation dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. This is the case beyond just any such specific instances and such specific postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation character(s) and specific conjugated-postlogism character(s) but

there is need for prospective ontological-completeness-of-reference-of-thought structured to

most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of
prospective transcendental-enabling/sublimating/supererogatory–de-mentativity over any
temporal extricatory de-mentating/structuring/paradigming, however, the enculturation and
mass thinking behind temporal extricatory de-mentating/structuring/paradigming. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of-meaningfulness-and-teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendental/transdimensional/interdimension/maximising-recomposuring-for-relative-ontological-completeness analysis as metaphysics-of-absence/postdication). Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposing mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning – as ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposing-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism reference-of-thought’ in shallowness-of-

This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality/longness needed for maximalising-recomposuring-for-relative-ontological-completeness out of the ordinariness/averageness of any institutionalised-being-and-craft setup. Hence such intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness need its <amplituding/formative>epistemic-totalising–renewing–realisation/re-perception/re-thought as of given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations/the-ontological-contiguity—of-the-human-

‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psycho’ll’. The implication is that acting as-of-a-
secondnatured nature is not enough for articulating prospective institutionalisation requiring ‘
intemporal projection <amplituding/formative>epistemic-totalising–renewing-realisation/re-

universal-and-abstractive nature but is in ‘<amplituding/formative>epistemic-totalising–self-
referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as
metaphysics-of-presence. Thus a registry-worldview’s/dimension’s institutionalisation
secondnatedness is challenged by its very own level of relative-ontological-
incompleteness-induced,—‘threshold-of–nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation—preconverging/dementing–apriorising-psycho’ll’ marking its
uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-
utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-
or-mediavalism with universalisation and procrypticism with positivism, in need for a
renewed institutionalisation respectively as base-institutionalisation, universalisation,
positivism and prospectively deprocrypticism. This equally explain why the notion of human
transcendental progress is relatively ‘re-originary–as-unenframed/unbeholdening/outlier-
conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturing such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> that had tended to fundamentally put into question their present with new de-mentating/structuring/paradigming shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’, for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as deprocrypticism or positivism, it is in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology), given that this fundamental relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ of the given registry-worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, by its ‘contextualising-contiguity of existence-potency,-disclosed-from-prospective-epistemic-digression—rules-of-

ontologically-same-existential-reality’ means it is de-
mentatively/structurally/paradigmatically bound to enculturate/endemise its given
postlogism. Obviously we can appreciate that without a positivistic outlook/reference-of-
thought there is no chance that a non-positivism/medievalism registry-worldview/dimension
will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of

wherein the perversion-of-reference-of-thought-<as-effectively-apriorising-in-

profound-supererogation re-engaging reflex’) and even exploited (whether unconsciously,
expeditently or consciously), implies a comprehensive de-mentative/structural/paradigmatic
undermining of the phenomena of psychopathy and social psychopathy is impossible without
putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology as of prospective
depprocrypticism which is effectively the de-mentative/structural/paradigmatic resolution of
psychopathy and social psychopathy (besides palliative conceptualisations that can hardly
make a dent on the comprehensively defined de-mentative/structural/paradigmatic
phenomenon in terms–as-of-axiomatic-construct of the larger aetiologisation/ontological-
escalation) just as positivism is the de-mentative/structural/paradigmatic ontological
resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval
postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct de-mentative/structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced,—‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ and accessirly its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-prime-movers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the

with respect to the infinite possibilities of ‘perfect logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation’ on the false basis of the perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>). Such perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-devising-representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Pete punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does.

One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction-as-to-profound-supererogation (‘poor or bad supplanting—conviction-as-to-
profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’),

implying a ‘being or ontological or meaningfulness or existential defect’ which is poorly
construed as ‘pathological lying at the level of logical—processing—or—logical—implicitation—

as—to—shallow—supererogation> construed as mental—unsoundness). In fact, besides ‘lying’
such poor characterisation of the psychopath extends to other notions like ‘bullying’,
‘manipulating’, ‘fooling’, etc. which are all in prelogism—as—of—conviction—as—to—profound—
supererogation-or-thinking notions though “poor or bad supplanting-conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking-apriorising-psychologism’s” (‘poor or bad supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism’–or-prelogism construed as wrong logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation or wrong operation of prelogism-as-of-conviction-as-to-profound-suprerogation but nonetheless prelogism-as-of-conviction-as-to-profound-suprerogation). Fundamentally, psychopathic slanting is particular in that it departs from a relation to the ‘empty-form-of-meaning-as-inherently-deterministic outside the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’ contrasted with ‘poor or bad supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism’ which departs with a relation to ‘omitting or exaggerating within the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. But while poor-or-bad prelogism may be what is perceived from a ‘normal’ social and supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. The psychopath is in a state of compulsion–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-suprerogation or ‘compulsive-dementing’ (not recognising/giving-up-on the sound operation/processing of logic as the basis for deriving essence of meaning but rather perceiving meaning as just a hollow mimicking form that determines how others will act, more like a projection of form,
conviction-as-to-profound-supererogation perspective which reference-of-thought is veridical. All the ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a ‘deliberative prelogism-as-of-conviction-as-to-profound-supererogation mental process’ with respect to its end purpose, and thus wrongly implying it is in ‘prelogism-as-of-conviction-as-to-profound-supererogation’ with the wrong idea that its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought-elements/registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are existentially veridical. The psychopath is operating on the basis of ‘a last mimicking denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogic-backtracking-<iterative-looping-’set-of-dereifying-hollow-narratives-and-acts’>-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’, and so to satisfy ‘a faulty-mentation-procedure-deception-or-urge’; and so, one narrative iteration at a time. Now the faulty-mentation-procedure-deception-or-urge implying ‘a supplanting—conviction-as-to-profund-supererogation—postconverging/dialectical-thinking—apriorising-psychologism deliberativeness’ is coming from its interlocutor’s ‘prelogism-as-of-conviction-as-to-profund-supererogation mind’ itself which prelogically/in-conviction-as-to-profund-supererogation (as the prelogism, which is wrongly induced in distractive-alignment-to-reference-of-thought, conjoins all the denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogic-backtracking-

The psychopath being postlogic—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness or pathologically/compulsively hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is not lying (or manipulating or bullying), in fact the psychopath will prefer that normal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism minds think it is lying (or any notion of a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ as it wrongly elicits just a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation rather than the idea of compulsion–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation), as at least they will then wrongly realign prelogically/(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) again to it with respect to its subsequent narratives to examine the pertinence of its logic/logical-processing i.e. engaging logical operating/processing and wrongly granting it supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism (be it even ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ as this will then wrongly imply its wrong or poor performance of logical-processing-or-logical-implicitation—

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism-as-of-conviction-as-to-profound-supererogation mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-
outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing-integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory–de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/ adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and the notion of a lie which is prelogism-as-of-conviction-as-to-profound-supererogation (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration.
or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-
ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), with respect to construing meaningfulness as prelogism-as-of-conviction-as-to-profound-supererogation, but instead construes meaningfulness as postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendent-al-enabling/sublimating/supererogatory-de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction-as-to-profound-supererogation mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting
psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism/preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction-as-to-profound-supererogation alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism-as-of-conviction-as-to-profound-supererogation with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic
supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism alignment to its postlogic compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism/preconverging-or-dementing-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing–apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing–apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-authenticity-of-reference-of-thought.
Insightfully, it points out as well that the basis of the postlogism/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism-as-of-conviction-as-to-profound-supererogation interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation’ as it will ‘normally do’ with other prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism minds to a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind, and then wrongly validates that the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind is in prelogism-as-of-conviction-as-to-profound-supererogation. In order words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on prelogism-as-of-conviction-as-to-profound-supererogation but rather as based on postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with its personality development into adulthood on this basis, paradoxically leads to the prelogism-as-of-conviction-as-to-profound-supererogation mind’s deception since the latter operates on the basis that everyone must be supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism (be it ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ at worst) and the notion of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation doesn’t register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious
mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance-<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism manifestation of the interlocutor by compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation manifestation of the psychopath cross-perception effect’ wherein the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-
processing’ in existential-contextualising-contiguity knowledge-reification with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutor reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity, while the psychopath view of the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} of its acts, at adulthood psychopathy the lack of such universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} of the postlogism-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity’ disposition tends to be socially enculturated/endemised as of
conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing, as-to-entailing–<amplitude/formative>epistemic-totalising–in-relative-ontological-completeness) with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

of-maximising-recomposuring-for-relative-ontological-completeness-as-inducing-the-

indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

implication is that we ‘consistently’ have two sets of mental-dispositions having to do with
the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-
presence and metaphysics-of-absence representations. First, ‘human registry-

With the attainment of registry-worldview/dimension institutionalisation by social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) we can very much uphold a secondnatured quasi-intemporal-disposition reference-of-thought as ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-thresholds as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor) to grasp how we can
(actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) scheduling or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <amplituding/formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional–deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the prospective apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’, at uninstitutionalised-threshold (reflecting uninstitutionalised-threshold), is now substituted (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective of the prospective registry-worldview/dimension institutionalisation reference-of-thought) by its ‘decentering and dialectical–de-mentation of its reference-of-thought’; which we can effectively acquiesce to as of the uninstitutionalised-thresholds but will rather have a mental complex when this is implied prospectively to imply our uninstitutionalised-threshold as procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-authenticity-of-reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposition–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation–
ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening-⟨amplituding-formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-

psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview reference-of-thought and not the present positivism–procripticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect>, so construed in order to supersedes its de-mentative/structural/paradigmatic vices-and-impediments. Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening–(<amplituding-formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits,
as taking away the chore of understanding and purpose, and giving a sense of intuitive
guidance, hope, peace of mind and as to what humans should expect in their existence. But as
of the intrinsic-reality constraints of having to deal with matters of the world on its own by
developing notions of understanding and purposefulness as the mere imagination of God or
Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in
resolving human issues of the world and making its need for understanding and
purposefulness go away. This induces a bifurcation of human intellectual-and-moral
allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness.
With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous
import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both
an effective realistic as well as idealistic conceptualisation/construal in existence. Such a
growth psychology ultimately goes beyond construing idealism as the supernatural but as a
complement to more and more profound realistic understanding and purposefulness in
existence, but then having to readjust such idealism wherein the real as of its critical import
to critical existence issues increasingly comes to take presence as of its effectiveness. Such
that as construed today, human history overall has been an exercise in toning down the
grander notion of idealism as of notions of the supernatural, essences and metaphysical
ideals, and enabling increasing permeation and/or superseding of such notions with an
effectiveness-driven realism leading to a general and increasing elevation of knowledge as
the-human-and-social-emancipator, the present ascendancy of philosophies increasingly
concerned with the human realities of existence (strongly so, lately with such movements as
positivism, phenomenology, existentialism and post-structuralism) and science in all its facets
whether physical, biological or social, as well as a human-centeredness of arts and culture.
Rational-realism is grounded on this historic empirical state of affairs of increasing human
realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its
effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening-
(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation) in construing/conceptualising
meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism,
an avowal of human limited-mentation-capacity-deepening-
(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation) that actually is behind all threshold-of—
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism of successive registry-
worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that
human emancipation and virtue has been and is fundamentally about buckling down and
undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the
name of idealism. Rational-realism pushes the grander notion of realism further by asking the
question, have all the idealisms as of the grander idealism been identified and superseded? It
comes to the conclusion that while that has been decisively the case with supernaturalism,
belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic
social implications, one other sort of idealism remains to be recognise as ‘false realism’; the
idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising
how a thorough understanding of itself in enabling pivoting/decentering is effectively the
strongest asset for its full emancipation. Central to such a most basic realism is grounding
human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to
enable the full construal of both metaphysics-of-presence and metaphysics-of-absence
ontologies as enabling a further human emancipation registry-worldview’s/dimension’s
reference-of-thought psychologism, deprocrypticism psychologism. This is the insight behind
the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures
to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychology, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychology to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable temporal-to-intemporal-dispositions nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,—as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding<-as-of-apriorising/axiomatising/referencing> rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,—(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for
Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening–(<amplitud ing/formative>epistemic-totalisingly,–to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency–(transparency-of-totalising-entailing,–to-entailing–<amplitud ing/formative>epistemic-totalising–in-relative-ontological-completeness) required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the <amplitud ing/formative>wooden-language–(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) (failing/not-upholding–<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-
normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening-(<amplitude/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) by a re-equilibrating metaphysics-of-absence/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as
effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-thresholds are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity-<profound-supererogation-of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-
totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’.

This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘temporal-to-intemporal-dispositions individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an

Such that it is not a logical exercise (logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation) that is in order which will rather be circular as fundamentally operating on false non-positivism registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology of superstition but rather one of determination of temporal individuations threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as this reflects postlogism denaturing and conjugated-postlogism derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) given our relative-ontological-incompleteness-of-reference-of-thought and secondly by arbitrariness in the
choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of all human institutions, and particularly where social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness) is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought–prelogism-as-of-
conviction-as-to-profound-supererogation as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of-nonconvictionemadeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing-apriorising-psychologism and reference-of-thought-prelogism-as-of-conviction-as-to-profound-supererogation takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> de-convergence as of transversality-of-affirmative-and-unaaffirmative,-disambiguated-apriorising/axiomatising/referencing. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) individuations nature as implicitly recognised in the de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors threshold-of—

preconverging/dementing–apriorising-psychologism mental-dispositions, and as is often

preconverging/dementing–apriorising-psychologism and reference-of-thought–prelogism-as-

for prospective registry-worldview/dimension institutionalisation prospective relative-

rendering the prior registry-worldview/dimension threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing–apriorising-psychologism (as operant construal) untenable. This
brings to the fore the idea that the salient point about human mental-disposition whether
construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with
the possibility of attaining or not attaining social universal-transparency-{transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-
ontological-completeness). Where this is effectively attained, it becomes psychically and
institutionally untenable for interlocutors to act as of subpar (threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism) with regards to reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness-of-reference-of-thought. This imbued potency in social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will
completeness)). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-epistemology doesn’t socially take hold then, as such childhood postlogism perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> hasn’t superseded the social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} in further inducing temporal-dispositions derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory dementating/structuring/paradigming, and not by ontological-veridicality insight as of dementative/structural/paradigmatic <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising~in-relative-ontological-completeness} is dementatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of
meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness-of-reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness-of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness-of-reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness

<amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness

the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Wells’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications}> that hardly entertains its own transcendency/dementability, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-
thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-thresholds, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more dementatively/structurally/paradigmatically, together with all other such demonstrations of the prospective <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (recurrent-utter-uninstitutionalisation) will hardly countenance operating the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights of the former as more ontologically profound, given its ‘circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing—apriorising-psychologism as of distractive-alignment-to-
reference-of-thought, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of
procripticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procripticism/disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshacktle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative>epistemic-totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a deprocripticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procripticism uninstitutionalisation as procripticism/disjointedness-as-of-reference-of-thought reference-
