This insight can be translated by the fact that nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness87–reference-of-thought83-devolving84>) as to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence ‘beyond and unbeholding to any human merely-beholding–aestheticising-reflex of meaningfulness-and-teleology9955’, and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation96, as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment65 of meaningfulness-and-teleology9955, so reflecting the fact that overall human civilisation (notwithstanding any given societies/cultures of naïve presencing—absolutising-identitive-constitutedness1379 as to presencing-distorted–meritocracy/totalising–sovereign-appropriation—of-human-ontological-performance71-<including-virtue-as-ontology> ‘merely-beholding–aestheticising-reflex of meaningfulness-and-teleology9955’) could only be possible by the cumulating/recomposuring of all such ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation96, manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation96, more fundamentally speak to ‘overall human momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity
rather much more profound than the ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology\(^{9955}\) of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\)> (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising\(^{103}\) societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory–unbeholdening-confledatedness\(^{12}\) historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\) of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{46}\)’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness\(^{13}\) historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\) of presublimating intelligibility’ of ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology\(^{9955}\) caught up in complexes of ‘naïve presencing—absolutising-identitive-constitutedness\(^{1379}\) as to presencing-distorted—meritocracy/totalising—sovereign-approportioning—of-human-ontological-performance\(^{71}\)<including-virtue-as-ontology>’ that end up inducing poor/distorted human understanding of the human). This overall conception underlies the conceptivity/epistemic-reflexivity of both ‘existentialising–

regards to the fact that human aestheticisation–and–aestheticisation-towards-ontology of

perspectively-reflect respectively ‘notional–presencing—absolutising-identitive-

relationship between perspective decisionality/human-decisionality<-as-to-play-of-

existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-
reflexive psychological reorientation of human relation with meaningfulness-and-teleology\textsuperscript{9955},
as to the contrast between ‘blurriness\textsuperscript{7} in existentialising–decisionality’ and ‘universal-

wherein ‘universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-

That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism\textsuperscript{75} consequences of deferring to ‘universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}) with the lack of such ‘universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of sublimating–nascence’ as to when ‘blurriness’ in existentialising–decisionality’ arises inducing

decisionality psychological-dispositions is critical particularly with regards to the social-and-
institutional-frameworks-of—referencing/registering/decisioning of human meaningfulness-

that existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-

more readily makes ‘desublimating nonsense’ of human existentialising–decisionality
meaningfulness-and-teleology\textsuperscript{9955} failing ‘genuine knowledge-reification\textsuperscript{86} framework involving

direct/immediate potent constraining to existence—as-sublimating-withdrawal, eliciting-of-

of—referencing/registering/decisioning can be construed as ‘frameworks of relatively shallow-ontologisation/subontologisation’ as to the existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ due to ‘blurriness’ in existentialising–decisionality’. It is herein contended that the most fundamental issue with regards to human prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness$^{87}$-reference-of-thought$^{83}$-devolving$^{84}$> and requisite expansive relative-ontological-completeness$^{87}$ ‘reference-of-thought$^{83}$–reference-of-thought$^{83}$-devolving$^{84}$–meaningfulness-and-teleology$^{9955}$ comprehensiveness of prospective sublimating–nascence’ with regards to sublimating–nascence teleological-inflection{-as-to-more-profound-nondisjointing-<amplituding/formative–epistemicity>totalising/circumscribing/delineating}) has to do with this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as to the fact that nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness$^{87}$–reference-of-thought$^{83}$-devolving$^{84}$> are often of ‘restricted and directly transparent/potent existentialising–decisionality scope of sublimation for human deferential-formalisation-transference’ while the social-and-institutional-frameworks-of—referencing/registering/decisioning (as to ‘reference-of-thought$^{83}$–reference-of-thought$^{83}$-devolving$^{84}$–meaningfulness-and-teleology$^{9955}$ comprehensiveness of prospective sublimating–nascence’) imply a depth of appreciation which initially leads to ‘blurriness’ in existentialising–decisionality’ as of relative-ontological-incompleteness$^{88}$–presublimation-construct–meaningfulness-and-teleology$^{9955}$ desublimating–existentialising–decisionality. We can for instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of
sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology\textsuperscript{9955}) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as ofcrossgenerational appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness\textsuperscript{1379} existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’); and this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of reference-of-thought\textsuperscript{83}’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of reference-of-thought\textsuperscript{83}) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology\textsuperscript{9955}

cannot be articulated to imply that their subverting criticisms are rather personal/traditions attacks as is increasingly the case in today's institutional-being-and-craft intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplitudging/formative–epistemicity>totalising–in-relative-ontological-completeness87) since the very first credo of the intellectual is for inherent knowledge above any given theories and concepts and traditions which are rather subordinate to the more profound purpose of the human knowledge-reification86 project as was so understood and propounded by such mid-twentieth century thinkers like Bertrand Russell, A.J. Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since 'supposed knowledge-reification86 as to its gesturing' is as of 'existentialising–decisionality that desublimatingly precedes knowledge-reification86, rather than veridically 'knowledge-reification86 as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality' and as so- reflected when mere methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument3–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving

Ultimately, such de-mentating/structuring/paradigming intellectual or administrative/governmental institutions desublimating–existentialising–decisionality as to social-and-institutional-frameworks-of—referencing/registering/decisioning conception tend to align with their given presencing—absolutising-identitive-constitutedness\textsuperscript{1379} existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> (as poorly subjected to the genuine social intellectual–function/posture elucidation) in an expropriating/estranging/constraining/limiting exercise directly/indirectly enabling ‘dominance/vested-interest structure in relative-ontological-incompleteness\textsuperscript{88}—presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9955} desublimating–existentialising–decisionality’. This lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101},’ as arising at destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating–decisionality)–of-ontological-performance\textsuperscript{72}–\textsuperscript{including-virtue-as-ontology} is the very element particularly acted upon by social and intellectual pedantry as to incrementalism\textsuperscript{58}–in-relative-ontological-incompleteness\textsuperscript{88}–enframed-conceptualisation (as it can be appreciated for instance that the lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101},’ in a non-positivistic social-setup between prospective positivistic knowledge and prior non-positivistic knowledge is exactly what can enable pedantic dispositions to cultivate non-positivistic meaningfulness-and-teleology\textsuperscript{9955} in such a social-setup), and critically in this regards it principally involves intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) as undermining the social-construct’s intellectually potent reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}–<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>. Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily muddling when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is
bent on blurring/undermining universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative-epistemicity}\rangle\text{totalising-in-relative-ontological-completeness}\textsuperscript{87}) as to a de-mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity\textsuperscript{63} in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of meaningfulness-and-teleology\textsuperscript{9955}’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}. Critically the ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations-\langle\text{blinded-to-their-relative-ontological-completeness}\textsuperscript{87}–reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}\rangle is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} thus relatively undermining such ‘beholding as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness\textsuperscript{7} in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholding as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness\textsuperscript{7}, wherein blurriness\textsuperscript{7} is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{86} rather than ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification\textsuperscript{86}–gesturing as determining sublimating–existentialising–decisionality)’; with this
conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human temporal-to-intemporal-dispositions as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology\textsuperscript{99}<&in-existentiaal-extrication-as-of-existential-unthought>\textsuperscript{96}). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-&lt;amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) as part and parcel of prospective knowledge-reification\textsuperscript{86} as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-&lt;amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of knowledge-reification\textsuperscript{86} (and so as to self-serving social-vestedness/normativity-&lt;discretely-implied-functionalism&gt;) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification\textsuperscript{86} for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly
or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness’ in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency\textsuperscript{104}--(transparency-of-totalising-entailing,–as-to-entailing--\langle\textit{amplituding/formative–epistemicity}\rangle\textsuperscript{totalising~in-relative-ontological-completeness\textsuperscript{87}) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness--\langle\textit{as-to-historicity-tracing—\textit{in-presencing–hyperrealisation/hyperreal-transposition}\textsuperscript{46}> as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence, speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating–existentialising–
decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness\textsuperscript{7} of the social which can effectively be brought to exactifying/precisioning—of-sublimation—<as-to-entailing-theoretical,—conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification\textsuperscript{86} process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of human temporal-to-intemporal-dispositions) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification\textsuperscript{86} is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology\textsuperscript{9955} is not developed to go about articulating/relating-to meaningfulness-and-teleology\textsuperscript{9955} as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology\textsuperscript{9955}), and so by the mere implications of dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory—dementativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification, with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> conception of the ‘overall possibility of human existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human temporal-to-intemporal-dispositions is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown
that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality going beyond just neutral knowledge-reification\(^{86}\) that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness\(^{7}\) at previous moments), and so as to shallow-supererogation\(^{96}\) desublimating—existentialising—decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation\(^{96}\) motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\(^{46}\)> of any shallow-supererogation\(^{96}\) social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation\(^{96}\) may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism\(^{75}\) required for human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally—collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness\(^{12}\); as to the fact that all human sublimation is instigated as of re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking\(^{28}\) -projective-insights/‘epistemic-projection-in-conflatedness\(^{12}\)-of-notional—deprocrypticism\(^{17}\)-prospective-sublimation)\(^{98}\) before secondnaturing positive-opportunism\(^{75}\) institutionalisation, as so-reflecting Derridean messianicity wherein even when the messiah comes they still have to come (inevitably-so given
prospective human temporal-to-intemporal-dispositions to whatever induced supererogation\textsuperscript{96}/messianicity of originariness-parrhesia,−as–spontaneity-of-aestheticisation so-associated with human dimensionality-of-desublimating-lack-of\textsuperscript{25}−<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency–sublimating–nascence,−disclosed−from-prospective-epistemic-digression-as−of−<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,−in−supererogatory–epistemic-conflatedness\textsuperscript{12} in reflecting holographically−<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}−of-the-human-institutionalisation-process\textsuperscript{67}, since it will always be caught-up in its presencing−absolutising-identitive-constitutedness\textsuperscript{1379} existentialising—enframing/imprintedness−<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> as to its underlying presencing-distorted–meritocracy/totalising–sovereign-approportioning—of-human-ontological-performance\textsuperscript{71}−<including-virtue-as-ontology> desublimating–existentialising–decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating–existentialising–decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,eliciting−of-prospective-supererogation\textsuperscript{96} and the positive-opportunism\textsuperscript{75} arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever
patently doesn’t count (given the latter associated temporal desublimating—existentialising—decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating—nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment).
The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantry vague proceduralism (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) as to the simple fact that human prospective destructuring-threshold{(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—means that human meaningfulness-and-teleology is ever always caught up prospectively between intellectualism sublimating—existentialising—decisionality and pedantry
desublimating–existentialising–decisionality. This is the case given the requisite condition for the very basic human sublimating–existentialising–decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}<-as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'> (reflecting the ever always present challenge for intellectualism over pedantry); so-underscored by the ever always present challenge for human dimensionality-of-sublimating\textsuperscript{24}—\textlt<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to requisite epistemic-conflatedness\textsuperscript{12} implied projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing induced ‘projective-insights for predicative-insight’. In this respect, intellectual-muddlement-{blurring/undermining-of-prospective-totalising-entailing.-as-to-entailing-\textlt<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})} poor appreciation of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}+ (with regards to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} implications), is reflected in the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification\textsuperscript{86} (on the basis of desublimating prior apriorising/axiomatising/referencing–psychologism in epistemic-abnormalcy/preconvergence\textsuperscript{38}) failing to grasp the underlying dimensionality-of-sublimating\textsuperscript{24}—\textlt<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-

This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> (beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the

Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising–decisionality’ is ontologically flawed given human temporal-to-intemporal-dispositions to arrive at desublimating–existentialising–decisionality/sublimating–existentialising–decisionality overlooking organic-knowledge implications (whether by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation’ implied ‘pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{86} or ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ implied ‘as to the very inherent knowledge-reification\textsuperscript{86}–gesturing as determining sublimating–existentialising–decisionality’). Thus as to critical pure-ontology (underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}–<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>) the fact is rather that inherent to human temporality\textsuperscript{98} is its ‘ephemeral purpose beholdening’ that ‘do not truly know-of/carry a universal-transparency\textsuperscript{104}–{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}} project’ as to its beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} existentialising—frame. This prospect of human temporality\textsuperscript{98} induced increasing incoherence (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

This critical pure-ontology analysis point out that meaningfulness-and-teleology\textsuperscript{9955} cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification\textsuperscript{86} ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity\textsuperscript{63}–dementating/structuring/paradigming<-seeding/incipient–shallow\textsuperscript{64}-supererogation\textsuperscript{96},-as-mentally-

In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality proned to presencing—absolutising-identitive-constitutedness\textsuperscript{3379} existentialising—enframing/imprintedness--<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> needs to be critically brought to the consciousness-awareness-teleology\textsuperscript{99} of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{86}), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification\textsuperscript{86}–gesturing as determining sublimating–existentialising–decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}<imbued-and–hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein
existence as to its very panintelligibility\textsuperscript{73}—effusing/ecstatic–inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation\textsuperscript{96}. Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-sublimating–de-mentating/structuring/paradigming or existence-desublimating–de-mentating/structuring/paradigming elicitable respectively as from human ontological-good-faith/authenticity\textsuperscript{68}–de-mentating/structuring/paradigming–<seeding/incipient–profound\textsuperscript{69}–supererogation\textsuperscript{96},–as-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{28}–qualia-schema> or ontological-bad-faith/inauthenticity\textsuperscript{63}–de-mentating/structuring/paradigming–<seeding/incipient–shallow\textsuperscript{64}–supererogation\textsuperscript{96},–as-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema>. It is thereafter (in the wake of ontological-good-faith/authenticity\textsuperscript{68}–de-mentating/structuring/paradigming–<seeding/incipient–profound\textsuperscript{69}–supererogation\textsuperscript{96},–as-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{28}–qualia-schema>) that the veridical prospect of critical pure-ontology then arises. Critically, human existence-desublimating–de-mentating/structuring/paradigming—by—existence-sublimating–de-mentating/structuring/paradigming (as of ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}–(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{12}/formative–supererogating–<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—metaphoricity\textsuperscript{56}–as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{89}) speaks to the ontological-veracity that human sublimation reflected in human ontological-performance\textsuperscript{71}–<including-virtue-as-
deferentialism-imbuing capacity or appropriate secondnaturedness-deferentialism-deriving capacity (as so-reflecting human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as to the disseminative—selectivity-of-ontological-good-faith/authenticity\textsuperscript{68}—over—deselectivity-of-ontological-bad-faith/inauthenticity\textsuperscript{63}). This points out why human knowledge is veridically a race-to-the-top-exercise/millipede-movement as to the very givenness of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism—overcoming/unovercoming’> that is not subjected to human-subpotency; as to the fact that it is only a human limited-mentation-capacity maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation relation with existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} that can induce sublimation-over-desublimation. Such a veridical ontology (in relegating/doing-away-with/superseding the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is critically all about ‘a coherent totalising-entailing knowledge-reification\textsuperscript{86}—gesturing’ exposed to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism—overcoming/unovercoming’>; with such a coherent totalising-entailing knowledge-reification\textsuperscript{86}—gesturing accounting for overall knowledge historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} as to human limited-mentation-capacity-deepening\textsuperscript{52} imbued conceptivity/epistemic-reflexivity (so-reflected in the ‘momentousness-driven coherence of knowledge-reification\textsuperscript{86}—gesturing as to entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{87}, so-associated with human limited-mentation-capacity-deepening\textsuperscript{52}). It is
important to note in this regards that ‘knowledge-reification’ is the more profound conception of ontology and science (as to human dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality), and so as of the ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ driving ontology and science across their punctual developments from past to present and into the future (underlined by human ‘sublimating-referencing/registering/decisioning self-becoming/self-conflatedness/formative—supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>’ arising as of human limited-mentation-capacity-deepening).

This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound—supererogation’ in a soulless ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’), with this shallow—supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating—referenced/registered/decisioned self-presence/self-constitutedness (without or poorly appreciating the profound—supererogation involved in true science and ontology as to
‘sublimating-referencing/registeringdecisioning self-becoming/self-confiliatedness12/formative-supererogating<in-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing>’) leads to dominance/ vested-interest prodded social-stake- contention-or-confliction determination of knowledge as of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition46 with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/ vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as muddling of genuine knowledge, in ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification86)’. It is herein contended that in many ways as to human ontological-good-faith/authenticity68—de-mentating/structuring/paradigming—<seeding/incipient—profound69-supererogation96—as—mentally—aestheticised—postconverging/dialectical-thinking28—qualia-schema>, it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of—conceptualisation—and—existence—as—sublimating-withdrawal,—eliciting-of-prospective—supererogation96—<as—to—perspective—ontological-normalcy/postconvergence-implied— ‘prospective-aporeticism-overcoming/unovercoming’>), as to the fact that ontology is absolutely bound to its course come-what-may ‘with such contrivances rather notionally integrated as herein into ontological-veracity as part-and-parcel of ontological-elucidation’ that allows no room for any pedantic ‘extra-knowledge/knowledge-outside-knowledge/knowledge-

Such ‘fraudulent conception of knowledge’ thrive not only as to punctual thematic issues like climate change science and disenfranchisement/swindling/corruption/dispossession implications but even worst carry ideological dehumanising implications as to covertly/implicitly putting in question the humanity of other peoples/nations/cultures/races. It is herein contended that any pretense of a conception of humanity along those lines is nothing but mirrored-fascism as to the mere-token that all the human others are capable of ‘sublimating~referencing/registering/decisioning self-becoming/self-conflatedness³²/formative–supererogating<-in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>’ (as to inherent cultural growth and cultural diffusion capacity) thus rendering any lousy exclusionary conception of humanity along the lines of Western, non-Western, Oriental, Chinese, Arab, African, Russian, etc. of vague presencing—absolutising-identitive-constitutedness¹³⁷⁹ social-stake-contention-or-confliction beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing~inhibited-mental-aestheticising (speaking of shallow ‘germinative intensification—amplituding of aestheticisation—beholding-out-of-bechancing’ / ‘taxingness-of-originariness,—imbued—sublimating-by-desublimating—amplituding as to the backdrop-of-inherent-immanent-existence’s—sublimation-structure<-of-‘unsurrealistic-as-real’—ontological-normalcy>). In many ways this latterly identified manifestation of ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’, wherein political purpose supposedly supersedes human intellective potency is the very crème-de-la-crème dementative/structural/paradigmatic and defining basis for social-and-institutional-frameworks-
(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}), social and intellectual pedantic incrementalism\textsuperscript{59}—in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation as well as dominance/vested-interest with this dynamic inducing ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{86})’, and critically social sublimation/emancipation necessarily requires human aporeticism overcoming/unovercoming along these intimately-and-dynamically reinforcing existentialising—frames of human destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating—desublimating-decisionality)~of-ontological-performance\textsuperscript{71}<& incluring-virtue-as-ontology>. This latter conceptualisation goes well beyond a point of just mere technical ontological-pertinence as to the fact that it operantly captures in a nutshell the prospectively requisite human aporeticism overcoming/unovercoming in upcoming years and decades, as to the capacity for the human to redefine humanity in the light of the societal and technological transformations of the past few decades and the resultant/developing geopolitical context. It is herein contended that the incapacity for such a collective reconstrual of humanity (as to ‘intemporal unbeholding sublimating—nascence ontologising-depth of the full-potency of existence implied as to the very inherent knowledge-reification\textsuperscript{86}—gesturing as determining sublimating—existentialising—decisionality’) following the social and industrial transformation occurring by the end of the 19th century very much underlies the ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{86})’ which could only end up in the human-made calamities of the 20th centuries so-critically attributable to dominion/statal—logic-
(preconverging/shallow-supererogating-'human-and-social–expectations/anticipations—dementating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>). In many ways, this highlights the subjection of the genuine social intellectual–function/posture by dominion/statal–logic-(preconverging/shallow-supererogating-'human-and-social–expectations/anticipations—dementating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>) (reflected as to the underpinning–suprasocial-construct enclosing/hemming-in religiosity inculcated as defining the very notional/epistemic framework of human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{955} and so consciously/unconsciously as supposedly superseding pure-ontology); and so across all the various registry-worldviews/dimensions whether so manifested in say the recurrent religio-political induced instability in Ancient Egypt despite its advanced technical and organisational development, Ancient Athenian political decadence associated with the Socratic philosophers aspiration for enlightening-renewal of the political process or the medieval establishment politico-religious excesses underlying the reformation and renaissance and its prolongation into the enlightenment genuine social intellectual–function/posture strive for science, universal human rights and enlightened society and governance. Such a varying relation between the possibility for profound-supererogation\textsuperscript{96} inducible as from genuine social intellectual–function/posture
and dominion/statal–logic–⟨preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence–as-to-social-vestedness/normativity–⟨discretely-implied-functionalism⟩⟩ in many ways across human history is intimately tied to ‘perceived urgency in social mood’ whether as to a mood of enlightening-renewal or hegemonic-ascendency. It is no wonder that periods following heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a genuine social intellectual–function/posture obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very genuine social intellectual–function/posture (as to its abstract notional/epistemic possibilities for prospective sublimation/emancipation so-undermined by dominion/statal–logic–⟨preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence–as-to-social-vestedness/normativity–⟨discretely-implied-functionalism⟩⟩) tend to be paradoxically re-construed (on the basis of dominion/statal–logic–⟨preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence–as-to-social-vestedness/normativity–⟨discretely-implied-functionalism⟩⟩) presencing—absolutising-identitive-constitutedness379 <amplituding/formative–

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness^{87} basis for such supposedly ontological insight so-critically provided by the veridical genuine social intellectual–function/posture. In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic–
(preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—dementating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising—beholdening—<whether—trepidatious—or-warped—or-preclusive—or-occlusive>—and—its—consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social—vestedness/normativity—<discretely-implied-functionalism>) subverting the sublimating—existentialising—decisionality of the genuine social intellectual—function/posture; and so as to the fact that the democratic process ‘public-sovereignty—giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual—function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning—suprasocial-construct existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⁴⁶> socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable
locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct existentialising—enframing/imprintedness→as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition46> (as to as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-instructure-of–meaningfulness-and-teleology995) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-ontologisation of alternative institutional aestheticising contemplation ‘given dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening←whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social vestedness/normativity←discretely-implied-functionalism>) calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance71-

Critically (beyond just the present democratic crisis as it reflects upon prospective human socio-econo-political sublimation/desublimation), all human societies arrive at their desublimating—existentialising—decisionality destructuring-threshold-(uninstitutionalised-threshold/presublimating—desublimating—decisionality)—of-ontological-performance, and so as to the fact that human technical—and-associated-organisational-development central to human social formation and social-enhancement is prospectively ‘apprehended/locked-in by the dominion/statal—logic—(preconverging/shallow-supererogating—human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising—beholdening—whether—trepidatious—or-warped—or-preclusive—or-occlusive—and—its-consociated-dominance/vested-interest-subontologising—skewed—influence—as-to-social—vestedness/normativity—discretely-implied—functionalism) dominating over such technical—and-associated-organisational-development as to imply its inherent mystic of social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating—existentialising—decisionality’ (seeming to thus wrongly imply that there isn’t any prospectively requisite de-mentative/structural/paradigmatic sublimating—existentialising—decisionality of ‘human sovereign—function/posture as to public-sovereignty—giving function/posture’ as determining the valid sublimating—existentialising—decisionality or invalid desublimating—existentialising—decisionality of dominion/statal—logic{(preconverging/shallow-supererogating—human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-

In many ways, we can appreciate that the modern day genuine social intellectual—function/posture as to its relatively genuine sublimating—existentialising—decisionality critically ‘operates mostly in the wake of the social—and—institutional—frameworks—of—referencing/registering/decisioning desublimating—existentialising—decisionality of dominion/statal—logic—⟨preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-its—specific—collateralising—beholdingen—<whether—trepidatious-or-warped-or-preclusive—or—occlusive>—and—its—consociated-dominance/vested-interest-subontologising-skewed-influence—as—to-social—vestedness/normativity—<discretely-implied-functionalism⟩⟩’; as to the fact that the critical aftereffects of political, economic, social and mediatic strategic policy orientations reflected in socio-econo-political and legal decision-making associated with various crises
whether decadal economic crises, media and information crises, political accountability, etc. are effectively related by the genuine social intellectual–function/posture but very much after the facts (often decades after the social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating–existentialising–decisionality of dominion/statal–logic-(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>)), and so as to the sublimating impotence of such genuine social intellectual–function/posture. Critically in this respect the very artifice available to present day democracy dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>)) involves the ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’, and thereafter it doesn’t matter in effect whether the human sovereign–function/posture comes to think otherwise and disapprovingly of the given decisions, as better still so long as this rather plays the role of a psychological-outleting that project a falls sense of public accountability of poor or no effective resolutive course, this mechanism of ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’ can perpetuate itself as to a Machiavellianism underlying the dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-

Such a Machiavellianism riding-the-wave of the underpinning-suprasocial-construct existentialising-enframing/imprintedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of the human sovereign-function/posture thrives on social and intellectual pedantic incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with the cultivation of disingenuous analysis as to strategies of misanalysis (so-reflected by the ‘propounding and enframing in ad-hocness and false-orthodoxy of policy issues so-underlied with catchphrases like deficit, public spending, etc. as to an aversion to consistent and long-term analysis pointing out the underlying inconsistency’ highlighting effectively that the political disenfranchisement/swindling/corruption/dispossession purpose of such argumentations precede their ‘very inherent knowledge-reification—gesturing as determining sublimating—existentialising—decisionality’ purpose as to Machiavellian instigated false public debates) to which human sovereign-function/postures gullibly get caught up in or which ultimately discourages public interest and participation or lead to protest votes; with such misanalysis typically characterised by false bothsidesism existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition reflex (bandied about as supposedly the very summum of democratic impartiality) relation to any sublimating meaningfulness-and-teleology. The
reason for this genuine social intellectual–function/posture pre-eminence in human sublimation-over-sublimation has to do with the nonpresencing nature of inherent existence (explaining the centrality of metaphysics-of-presence in all thought aspiring for the momentousness of sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing over desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), so because ‘the epistemic particularity of human-subpotency is limited-mentation-capacity’ and veridical sublimation-over-desublimation meaningfulness-and-teleology only avails with human limited-mentation-capacity-deepening explaining the need for ‘<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness in re-origination/re-originariness’ as most profound in the construal of existence as to its sublimation-over-desublimation (and so as the epistemic-projection perspectives of relative profound-supererogation is ‘not of desublimating–referenced/registered/decisioned self-presence/self-constitutedness’ but rather ‘of sublimating–referencing/registering/decisioning self-becoming/self-conflatedness/formative–supererogating–<in-projective/reprojective—aestheticising–re-motif–and–re-apriorising/re-axiomatising/re-referencing>). overcoming/unovercoming and rather disenfranchisingly interceded by a pedantising that is enabling de-mentatively/structurally/paradigmatically (whether by wrong/flawed analysis or cynical ontological-bad-faith/inauthenticity\textsuperscript{63} misanalysis) to ‘occlusive discrete inherence of sublimating/desublimating—modalisation-<as-to-absolute-referencing—of—meaningfulness-and-teleology\textsuperscript{9955}> on the basis of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} social-vestedness/normativity-<discretely-implied-functionalism> inducing of subontologisation/subpotentiation’, especially-so as to an economically driven media landscape that can hardly discriminate between intellection and pedantry and in many ways passes the latter for the former as-so associated with overall social banalisation-of-thought with foils/stooges of pop-intellectuals as the ‘greatest thinkers’ of our present intellectually shameful epoch). In this regards, it is critical to appreciate that the democratic process is a sovereignty-imbuing process and while this sovereignty-imbuing process is critical as the point-of-departure for socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming it is incomplete if it is merely construed/manipulated as to essentially sovereignty-giving without a cultured aspiration to grasp and operate as to prospective ontological-veridicality (as so-understood by the Socratic philosophers) just as our sovereignty over say our house doesn’t necessarily imply our technical competence with requisite house enhancements like electricity, plumbing, etc. even as our sovereignty is the point-of-departure for our independent/sovereign contemplating to undertake such house enhancement chores. This reality underlies the contention herein of the ‘overrated pedantising of meaningfulness-and-teleology\textsuperscript{9955}’ as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it is a discursivity of subpotency as to human-subpotency which doesn’t necessarily subject/supersede existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} as warranted for prospective sublimation/emancipation (even as

Critically, this fundamental contrastive human relation to knowledge as to ‘the mere-formulaicity of mechanical-knowledge constrained to human-subpotency temporal inclinations’ and ‘organic-knowledge constrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} (with regards to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} so-manifested as to human temporal-to-intemporal-dispositions as reflected all across the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, speaks to a dynamic relation to knowledge as of inappropriate

so as to ‘human intellection exercise direct-or-elicited very own self-distantiation’ (involving appropriate ‘metaphoricity\(^{56}\) of hermeneutic/reprojective <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,,-in-superceratory–epistemic-conflatedness\(^{32}\)) and appropriate deferential-formanlisation-transference sense of distantiation over distractive-alignment-to-relative-ontological-incompleteness\(^{88}\). With regards to human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{995}\) distractive-alignment-to-reference-of-thought\(^{83}\)-<of-apriorising/axiomatising/referencing>\(^{29}\) translates in the overlooking of the effectively requisite social-stake-contention-or-confliction prospective aporeticism overcoming/unovercoming (as to a threshold where subontologisation/subpotentiation supposedly takes over from re-ontologisation/omnipotentiality, and it is quite interesting to realise that there is hardly any distractive-alignment-to-reference-of-thought\(^{83}\)-<of-apriorising/axiomatising/referencing>\(^{29}\) posturing for limiting human re-ontologisation/omnipotentiality with regards to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness\(^{87}\)–reference-of-thought\(^{83}\)-devolving\(^{84}\)> existentialising–decisionality as to human temporal-and-immediate advantageously perceived positive-opportunism\(^{75}\) while on the other hand pedantising distractive-alignment-to-reference-of-thought\(^{83}\)-<of-apriorising/axiomatising/referencing>\(^{29}\) is rather elevated when it comes to social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality as to social-stake-contention-or-confliction). Critically in this regards, ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{191}\) is merely the translation of the perspective ontological-normalcy/postconvergence of inherent existence as to an impasse/break between relative-ontological-incompleteness and relative-ontological-completeness\(^{87}\) (with
regards to <amplituding/formative>disposedness-{as-to-orientation/value-construct/valuation–and–derived-parameterising} and <amplituding/formative>entailment-{as-to-totalising-contiguous/coherent–factuality-of-variability}). This can starkly be appreciated with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\(^{9955}\) wherein for instance the notion of God-of-plane in an animistic social-setup speaks of a fundamental rede

priorising/axiomatising/referencing\(^{101}\)’, as to the fact that the positivistic/rational-empiricist meaningfulness-and-teleology\(^{9955}\) is of utter ‘<amplituding/formative>disposedness-{as-to-orientation/value-construct/valuation–and–derived-parameterising} and <amplituding/formative>entailment-{as-to-totalising-contiguous/coherent–factuality-of-variability}’ break/impasse (with the animistic meta-conceptualisation scheme of meaningfulness-and-teleology\(^{9955}\) as to its uninstitutionalised-threshold\(^{102}\)) for inducing the appropriate perspective ontological-normalcy/postconvergence (to enable the eventual epistemicity growth/conflatedness\(^{12}\) of the animistic social-setup into a positivistic/rational-empiricist conceptivity/epistemic-reflexivity); and this is effectively the critical posture of the genuine social intellectual–function/posture as to its prospective registry-worldview/dimension opening-up function as to perspective ontological-normalcy/postconvergence not constrained to the immediacy/punctual human social-stake-contention-or-confliction presencing—absolutising-identitive-constitutedness\(^{1379}\) existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\)> for the possibility of re-ontologisation/omnipotentiality. Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a threshold of pedantisation
and intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality prone to presencing—absolutising-identitive-constitutedness). Thus the genuine social intellectual–function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality (however the remoteness to immediacy/punctual human social-stake-contention-or-confliction presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as this is exactly what makes-available/keeps-open prospective human sublimating–nascence (as a requisite sublimation-over-desublimation function that is most important and cannot be allowed to be undermined by the immediacy-driven/nombrilistic positive-opportunism of presencing—absolutising-identitive-constitutedness social-vestedness/normativity—discretely-implied-functionalism) and so especially in opening-up prospective registry-worldviews/dimensions as to human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and the positive-opportunism then arising with the corresponding living-development—as-to-personality-development and institutional-development—as-to-social-function-development. Critically, the genuine social intellectual–function/posture is thus much more than just about identitive specificities of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} existentialising—enframing/imprintedness–<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> as to just contrastive and balancing-out/equinamity conception of sublimation-over-desublimation as to the very same existentialising—enframing/imprintedness–<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> psychological-complexes but projects to

What is thus implied herein as most critical about the human and humanity is the capacity for profound-supererogation\(^{96}\) and so ‘more than just a positive-opportunism\(^{75}\) relation to meaningfulness-and-teleology\(^{9955}\), as to the registry-worldview/dimension station of <\text{amplituding/formative–epistemicity}\text{-totalising–thrownness-in-existence}^{34}\text{-imbued-projective–arbitrariness/waywardness-(as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of–‘<\text{amplituding/formative–epistemicity}\text{-totalising–conceptualisation’}).

supererogation\(^{96}\) as such is actually the very essential attribute of the full-potency of existence, and it is so underlined by the perspective ontological-normalcy/postconvergence veracity of existence as to supervening manifestations in notional-conflatedness\(^{12}\) (as to ontological-prime-movers-totalitative-framework\(^{72}\)), so-reflected in the fact that while physics principles explain physical phenomena, their reflection in chemical processes speaks to the overall

human sublimation-over-desublimation. This ‘human existentialising–decisionality dual

decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political
subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as
to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to

subontologisation/ideology-over-ontology disjointing abstract notions as technocratic,
capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of
social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of
 crisis when such ‘underlying social dynamics of presencing—absolutising-identitive-

themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of

Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–

Thus beneath any supposedly underpinning—suprasocial-construct (reflected in the modern-day underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a more fundamental ‘nonpresencing\textsuperscript{68}—<perspective—ontological-normalcy/postconvergence> notion of supererogatory—progressivity’ (however the ‘shallow-supererogation\textsuperscript{96} of supererogatory—progressivity’) accounting for the possibility for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as in effect creatively permeating all such ‘underpinning—suprasocial-construct of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} existentialising—entailing’; and so (especially potent when such ‘nonpresencing\textsuperscript{68}—<perspective—ontological-normalcy/postconvergence> notion of supererogatory—progressivity’ is manifested as of profound—supererogation\textsuperscript{96} entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{87} as to dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>suppererogatory—de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation over
‘shallow-supererogation\textsuperscript{96} of supererogatory–progressivity’), as more critically superseding human delusions as to desublimating beholding-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing–inhibited-mental-aestheticising (and thus reflecting the sublimating possibility for prospective ‘bechancing-backdrop of nonpresencing\textsuperscript{60}<-\textsuperscript{perspective–ontological-normalcy/postconvergence}>’ as to ‘bechancing-becoming—originariness/origination–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}—disinhibited-mental-aestheticising sublimation reclamation/recovery from beholding-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing–inhibited-mental-aestheticising’, so-construed as ‘reclamation/recovery of unenframed-conceptualisation’<-\textsuperscript{as-to-maximalising-recomposing\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation}>). In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology\textsuperscript{9955}’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of
national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into
the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a
globalised framework of totalising-entailing interlocking corporate interests and corporate
welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of
runaway financial and economic disaster and/or state political-economy retrogradation for non-
compliance) the very possibility for their full-capacity for supererogatory–progressivity while
being well aloof of the public accounting that political actors running states have to fulfill thus
speaking to a most fundamental globalised capitalistic induced democratic-deficit while
relatively disempowered governments are left to pick-up-the-pieces (while de-
mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the
capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to
media-driven impressionable narratives rather than to the protracted implications of the roguish
capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic
international capitalistic system usurpation and undermining of the possibility for social
supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with
the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the
supererogatory–progressivity potential of the global economy presents more opportunities than
the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of
individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic
model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their
naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation\(^{96}\) of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of
socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow–supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied by a basic level of supererogatory–progressivity. Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing
critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’\(^96\) of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness\(^1379\) social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The
bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation96 of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). the so-construed notional–notional–deprocrypticism17 epistemicity conception of predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment65) as to the overall ontological-contiguity66—of-the-human-institutionalisation-process67 provides the requisite basis for prospective human ontological-performance71–<including-virtue-as-ontology> convergence towards ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective

dementatively/structurally/paradigmatically construing as calamitous the possibility for prospective re-ontologisation from its subontologisation; with ‘human superseding of so-articulated presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—⟨as-to-historicity-tracing—inner-presencing—hyperrealisation/hyperreal-transposition⟩’ keeping opened/alive the ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. Critically, scalarisation analysis operantly implies projecting the implied ‘scaling/scalar of reference’ as from ontological-normalcy/postconvergence epistemic-projection perspective implications of analysis as to the prospective possibilities for ‘human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—of—meaningfulness-and-teleology’. In this regards, it can very much be appreciated that human scalarisation potential (existentially manifestable as of successive rescalarisation as re-ontologisation as to human limited-mentation-capacity-deepening implications) reflects all the sublimation-over-desublimation possibility for the full possibility of human ontological-performance—⟨including-virtue-as-ontology⟩ as can be so-construed as from notional—notional—deprocripticism prospectively implied originariness/origination—⟨so-construed—as-to-ontological-normalcy/postconvergence—

But then inevitably human limited-mentation-capacity-deepening\textsuperscript{52} implications speaks to conceptivity/epistemic-reflexivity in the sense that (beyond naïve presencing—absolutising-identitive-constitutedness\textsuperscript{1397} existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}>) as from nonpresencing\textsuperscript{69}<perspective–ontological-normalcy/postconvergence> epistemic-projection perspective, ‘human descalarisation is already caught up in the human aspiration for scalarisation re-originariness/re-origination’ as to the underlying sublimating-by-desublimating <amplituding/formative–epistemicity>totalising/circumscribing/delineating manifestation of aestheticisation—and–aestheticisation-towards-ontology as to ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflicatedness\textsuperscript{12}/formative–supererogating–<in-projective/reprojective–aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—metaphoricity\textsuperscript{56}–as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{89} just as for instance the notion of length is already caught up in the notion of width in the ‘sublimating <amplituding/formative–epistemicity>totalising/circumscribing/delineating manifestation of a rectangle’ and so with regards to the fact that human aestheticisation—and–aestheticisation-towards-ontology of meaningfulness-and-teleology\textsuperscript{9955} is ever always about ‘idealised-typification in epistemic-conflicatedness\textsuperscript{12} sublimation or epistemic constitutedness\textsuperscript{13}/pseudoconflation desublimation/gimmickiness’ for eliciting sublimation/desublimation from the ‘full-potency of existence withheld as from ontological-normalcy/postconvergence epistemic projection-perspective’. In this respect, scalarisation analysis is a projection beyond just a conceptually implied originariness/origination<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> but is comprehensively and

In other words, the notion of ‘the other’ as aetiological/ontological-escalation is much more than ‘magnanimitiy towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity<-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 1930s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-

Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity\textsuperscript{66} of our ‘modern take attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those
troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity\textsuperscript{66} of our ‘modern take attitude/mental-disposition/care–and–episteme’\textsuperscript{5}; divulging that conceptualising virtue in ontological-contiguity\textsuperscript{66} is at best only of palliative consequence and not truly aetiology/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity\textsuperscript{61}\textsuperscript{--}<profound-supererogation\textsuperscript{96}\textsuperscript{--}of-mentally-aestheticised--postconverging/dialectical-thinking\textsuperscript{28}\textsuperscript{--}qualia-schema> as of prospective relative-ontological-completeness\textsuperscript{87}\textsuperscript{--}of-reference-of-thought\textsuperscript{83}. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiology/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments\textsuperscript{105}. This existential reality about ontological-prime movers-totalitative-framework\textsuperscript{72} is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}\textsuperscript{--}<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 1930s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’\textsuperscript{5} in ontological-contiguity\textsuperscript{66} as of its <amplituding/formative–epistemicity>totalising–self-referencin—

Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity\textsuperscript{61}-<profound-supererogation\textsuperscript{96}-of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema> as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317}

As a further elucidation, prospective notional-contiguity/epistemic-contiguity\textsuperscript{61}-<profound-supererogation\textsuperscript{96}-of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema> as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} actually points out that the uninstitutionalised-threshold\textsuperscript{102} is rather a point of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-

We can effectively grasp why Heidegger’s implicited insight as of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}--\textless shallow-supererogation\textsuperscript{96}\textgreater of-mentally-aestheticised--preconverging/dementing\textsuperscript{19}--qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity\textsuperscript{62}--\textless shallow-supererogation\textsuperscript{96}\textgreater of-mentally-aestheticised--preconverging/dementing\textsuperscript{19}--qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically--\textless conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating\textsuperscript{24}--\textless amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} is aporetically the more fundamental incipient/seedling originariness-parrhesia,–as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ and thus in
preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating—amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-driveness—equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism
pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity\textsuperscript{56} rationalism schema/dissemination\textsuperscript{27} that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity\textsuperscript{56} implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5}, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency–sublimating–nascence–disclosed–from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,/in–supererogatory–epistemic-conflatedness\textsuperscript{32} relative-ontological-completeness\textsuperscript{87} of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness\textsuperscript{1379} of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5} and postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental–

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crosgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised-preconverging/dementing—qualia-schema> analysis, implied as of prospective relative-ontological-completeness of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of
purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising\textsuperscript{32}/circumscribing/delineating construct being the reference-of-thought\textsuperscript{83}. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} but rather human-subpotency adjusting as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{32}; with such adjusting being construed as of prospective relative-ontological-completeness\textsuperscript{87}. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}/relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{86}, implied as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} with regards to the reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology\textsuperscript{9955} is an incrementalism\textsuperscript{50}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of  <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in conflatedness\textsuperscript{32}, such that this leads to constitutedness\textsuperscript{13} when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust
to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} that our human <amplituding/formative–epistemicity> totalising/circumscribing/delineating reference-of-thought\textsuperscript{83} is transcended for prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} implied as of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<shallow-supererogation\textsuperscript{96}—of-mentally-aestheticised—preconverging/dementing\textsuperscript{19}—qualia-schema>. This phenomenological insight in
recognising that there is ‘an underlying metaphoricity\textsuperscript{56}-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procripticism\textsuperscript{88} to the prospective postmodern man as of deprocripticism\textsuperscript{17}, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme\textsuperscript{5} migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology\textsuperscript{9955} as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}; and so, as of retrospective and prospective meaningfulness-and-teleology\textsuperscript{9955} interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘ad hocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought\textsuperscript{83} apriorising/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5} from our present attitude/mental-disposition/care–and–episteme\textsuperscript{5}, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme\textsuperscript{5} is what underlies the protensive-consciousness of deprocripticism\textsuperscript{17}, from which standpoint as of its ontological-completeness-of-reference-of-thought\textsuperscript{83} such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme\textsuperscript{5} migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme\textsuperscript{5} conception, and specifically as relevant for understanding prospective ‘postmodern deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} apriorising/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5}. In this regard, ‘human attitude/mental-
thought\textsuperscript{83}; - and prospective description/deneuterising\textsuperscript{16} psychology/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument over prior ascription/neuterising\textsuperscript{57} psychology/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument.

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ is all about such a deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} as implied by its human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation\textsuperscript{9247} ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme\textsuperscript{5}’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}), as of prospective transcendence-and-sublimity/sublimation/supertegoraty-de-mentativity singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the notional–deprocrypticism\textsuperscript{17} registry-worldview/dimension is one that will be marked by sharper and sharper singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. In this regard, singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism retrospectively and prospectively reflects the notional–confatedness\textsuperscript{12}/confatedness\textsuperscript{12} implied as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

implied notional—conflatedness highlights that ‘axiomatic-constructs as of
<amplituding-formative–epistemicity>totalising/circumscribing/delineating reference-of-
thought—devolving’, in reflecting of ‘human-subpotency ontological-performance—
<including-virtue-as-ontology> correspondence with the full-potency of existence in its
coherence/contiguity’ as of implied human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation, is effectively as of
dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to
singularisation/epistemic-immanence/veridical-epistemic-determinism. That is
singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is
no inherent meaning of existence about existence as existence is tautologically what it is as
existence, rather the notion of meaning arises as of the notion of human-subpotency strife to
‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-
constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\(^83\)-devolving\(^84\) human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(^9247\). In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening\(^52\) of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\(^83\)-devolving\(^84\)’. singularisation\(^92\)/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^45\), points out that dissingularisation\(^28\)/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance\(^71\)-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness\(^87\) reflects that singularisation\(^92\)/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance\(^71\)-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation\(^92\)/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance\(^71\)-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening\(^52\) of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\(^83\)-devolving\(^84\)’, and so reflected by the notion of dispensing-with-immediacy-for-
relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}. This reality of the need to construe of human-subpotency ontological-performance\textsuperscript{71-}<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism over dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-mentating/structuring/paradigming singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity\textsuperscript{38}}
knowledge-reification\textsuperscript{86} rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}<-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity\textsuperscript{38}, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}<-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} that determines science practice, and so in existential conflatedness\textsuperscript{12}. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without
truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional–conflatedness\textsuperscript{32} singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more often than not geared to ontologically-flawed dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism that tend to be absolutised in constitutedness\textsuperscript{13} of prior reasoning-from-results/afterthought mental-reflexes of <amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}–narratives—of-the-reference-of-thought\textsuperscript{83}–categorical—

gained with respect to any axiomatic-construct as the meaningfulness-and-teleology\textsuperscript{9955} representation of human-subpotency ontological-performance\textsuperscript{71}-\langle including-virtue-as-ontology\rangle correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-

We can appreciate that with regards to ‘the very same ill-health <amplituding/formative-epistemicity>totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human-subpotency ontological-performance of prior perceptivities as successive uninstitutionalised-threshold are rather in ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity in-reification (by their identitive-constitutedness as-‘epistemic-totality dereification-in-dissingularisation as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought), as overlooking their successively prospective perceptivities which are actually in prospective relative-ontological-completeness of-reference-of-thought as enabling/cogent-with difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity of-the-human-institutionalisation-process, so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’. The notion of human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity in-reification can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <amplituding/formative-epistemicity>totalising—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity in-reification reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness reflects the former’s prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-
dementing\textsuperscript{19}–apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86} at uninstitutionalised-threshold\textsuperscript{102} actually highlights that from a prospective perspective of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} our positivism–procrypticism\textsuperscript{80} registry-worldview/dimension is very much imbued with a flawed ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology\textsuperscript{9955} is coherent, failing to factor in that it is preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism at its uninstitutionalised-threshold\textsuperscript{102} as reflected as disjointedness-as-of-reference-of-thought\textsuperscript{83} preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective depycrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317}’; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} which we necessarily relate to as if of ontological-completeness–of-reference–of–thought\textsuperscript{83}, and this further explains as reflected from their prospective relative-ontological-completeness\textsuperscript{87}–of-reference–of–thought\textsuperscript{83} the notional–procrypticism\textsuperscript{99}/notional–disjointedness of all registry-worldviews/dimensions as of their prior relative-ontological-incompleteness\textsuperscript{88}–of-reference–of–thought\textsuperscript{83} denaturing\textsuperscript{15} meaningfulness-and-teleology\textsuperscript{9955} as of their identitive-constitutedness\textsuperscript{13}–as–‘epistemic-totality\textsuperscript{96}–dereification–in-dissingularisation\textsuperscript{28}–as–flawed-epistemic-determinism\textsuperscript{48} as cloistered–within-the-same-reference–of–thought\textsuperscript{83}. Concretely, the latter translates at the
uninstitutionalised-threshold\textsuperscript{102} as of human-sub potency temporality\textsuperscript{98}/shortness or shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} flawed ontological-performance\textsuperscript{71}<-\textlangle\textlangle\textlangle including-virtue-as-ontology\rangle\textrangle, ‘being construed temporally as determinative by \textlangle\textlangle amplituding/formative\textrangle\textlangle wooden-language\textrangle\{\textlangle imbuemed-\textlangle temporal-\textlangle mere-form\textrangle\textlangle virtualities\textrangle\textlangle dereification\textrangle\textlangle akrasiatic-drag\textrangle\textlangle denatured\textrangle\textlangle preconverging\textrangle\textlangle or\textlangle dementing\textrangle\textrangle narratives\textrangle\textrangle--of-the-reference-of-thought\textsuperscript{83}-\textlangle categorical-imperatives/axioms\textrangle\textlangle registry-teleology\textsuperscript{998}\textrangle, of a given registry-worldview/dimension reference-of-thought\textsuperscript{83} supposedly intemporal/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} reference-of-thought\textsuperscript{83}-\textlangle categorical-imperatives/axioms\textrangle\textlangle registry-teleology\textsuperscript{998}\textrangle, -for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology\textsuperscript{9955}, as of temporal dynamic manifestations of postlogism\textsuperscript{77}-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}, so-disambiguated as of reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84} ontological-performance\textsuperscript{71}<-\textlangle including-virtue-as-ontology\textrangle\textlangle beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-\textlangle in-existential-extrication-as-of-existential-unthought\textrangle\textrangle. This arises because within the institutionalisation framework of a registry-worldview/dimension human construal of its existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} is only as effective as of the institutionalisation reference-of-thought\textsuperscript{83}-\textlangle categorical-imperatives\textrangle\textlangle axioms\textrangle\textlangle registry-teleology\textsuperscript{998}\textrangle, -for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology\textsuperscript{9955}, in universal-transparency\textsuperscript{104}<-\textlangle\textlangle\textlangle transparency\textrangle\textlangle of\textrangle\textlangle totalising\textrangle\textlangle entailing,\textrangle\textlangle as\textrangle\textlangle to\textrangle\textlangle entailing\textrangle\textlangle amplituding\textrangle\textlangle formative\textrangle\textlangle epistemicity\textrangle\textrangle totalising--in-relative-ontological-completeness\textsuperscript{87}\textrangle, thus providing a ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{9955} about its existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}*. But then at un institutionalised-threshold\textsuperscript{482} where meaningfulness-and-
teleology is denaturing, this prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ gives a false certainty/assurance, such that human-subpotency existentially-constrained temporal ontological-performance including-virtue-as-ontology as of

reference-of-thought\textsuperscript{8380} mindset construal of meaningfulness-and-teleology\textsuperscript{9955} that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought\textsuperscript{83} denaturing\textsuperscript{15} implications of its prospective disjointedness of meaningfulness-and-teleology\textsuperscript{9955} out of prospective existential-contextualising-contiguity\textsuperscript{38}-reification\textsuperscript{86}, as such disjointedness-as-of-reference-of-thought\textsuperscript{83} can be instigated originally from a postlogism\textsuperscript{77}-slantedness mental-disposition and the developing social dynamics with human temporality\textsuperscript{98}. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{9955} about existential-contextualising-contiguity\textsuperscript{38}’, but then at its uninstitutionalised-threshold\textsuperscript{102} where its reference-of-thought\textsuperscript{83} dementative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}, it always systemically faces notional-procrysticism\textsuperscript{80}/notional-disjointedness as of vices-and-impediments\textsuperscript{106} arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> as <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{9955} about existential-contextualising-contiguity\textsuperscript{38}’ now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold\textsuperscript{102} manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{9955} about
existential-contextualising-contiguity\textsuperscript{38}, as of the fact of the beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as <amplituding/formative>wooden-language–{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}–narratives—of-the-reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{99b}} in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism representation as temporal denaturing\textsuperscript{55} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{995} about existential-contextualising-contiguity\textsuperscript{38}. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold\textsuperscript{102} but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as <amplituding/formative>wooden-language–{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}–narratives—of-the-reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{99b}} of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that supersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation,
base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposition—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supercrery-genic—mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance—<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation/epistemic-immanence/veridical-epistemic-determinism ontological-performance—<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology in notional–conflatedness as of ontological-normalcy/postconvergence (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness—<as-to-orientation/value-construct/valuation—and-derived-parameterising) and <amplituding/formative>entailment—<as-to-totalising-contiguous/coherent–factuality-of-variability)>’ and so as to the specific human-subpotency as

existence is transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance^{71}<-<including-virtue-as-ontology>) means that it is wrong to construe the ontological-contiguity^{66}—of-the-human-institutionalisation-process^{67} as of a human temporal dimensionality-of-sublimating^{24}—<amplituding/formative>spererogatory-de-mentativity/epistemic-growth-or-conflatedness^{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation transformation, and so fundamentally because of human limited-mentation-capacity and the correspondingly constraining consequences on its ontological-performance^{71}<-<including-virtue-as-ontology>. Rather it is more candid to relate to the ontological-contiguity^{66}—of-the-human-institutionalisation-process^{67} as of human limited-mentation-capacity-deepening^{52}, and so as of prospective intemporal secondnatured institutionalisation induced universal-transparency^{104}—(transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness^{87}), deferential-formalisation-transference and habituation in positive-opportunism^{75}. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology^{9955} is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness^{87}—of-reference-of-thought^{83} without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification^{86} as of the developed disposition to register such implications as of their intemporal/longness-of-register—of—meaningfulness-and-teleology^{9955} pertinence; as the notion of cossgenerational de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics)^{14} herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-
dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology\textsuperscript{9955}. Thus the metaphoricity\textsuperscript{56} exercise of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology\textsuperscript{9955} universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework\textsuperscript{72} for prospective universal positive-opportunism\textsuperscript{79}; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21} protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67},-so-construed-as-singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity\textsuperscript{62}-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86}\textsuperscript{1} as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought\textsuperscript{83}, with regards to the construal of meaningfulness-and-teleology\textsuperscript{9955} as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology\textsuperscript{9955} varies as of underlying relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} reference-of-thought\textsuperscript{83}; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<-amplituding/formative-epistemicity>totalising-purview-of-construal’, the meaningfulness-and-teleology\textsuperscript{9955} of a positivistic mindset with the idea of going into a
supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} despite the existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. The fundamental implication here is that transcendental meaningfulness-and-teleology\textsuperscript{9955} is hardly construed in any presence registry-worldview/dimension reference-of-thought\textsuperscript{83} as of its rather prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, and thus elicits the presence prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}; <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, with the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity arising as of crossgenerational induced metaphoricity\textsuperscript{56}. reification\textsuperscript{86} is about apriorising-teleological resetting of <amplituding/formative–

Lacking such an insight about reification\(^{86}\) will induce an ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity\(^{66}\) of the prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) which is in dereification and the corresponding ontologically-flawed apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity\(^{62}\)-<shallow-supererogation\(^{96}\)-of-mentally-aestheticised-preconverging/dementing\(^{19}\)-qualia-schema> of the prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) which is as of reification\(^{86}\); wherein dereification involves teleological embrangling/muddling/underdetermining meaningfulness-and-teleology\(^{9955}\) to the prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\). This is because the lack of reification\(^{86}\) wrongly implies that the <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\(^{9955}\)-as-of-‘nondescript/ignorable–void\(^{59}\)-with-regards-to-prospective-apriorising-implications>} reference-of-thought\(^{83}\) framework of registry-worldviews/dimensions are the absolute determinants of intemporal value reference, such that the <amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\(^{9955}\)-as-of-‘nondescript/ignorable–void\(^{59}\)-with-regards-to-prospective-apriorising-implications>} reference-of-thought\(^{83}\) framework of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism\(^{88}\) and deprocrypticism\(^{17}\), are paradoxically-and-falsely equally the absolute determinants of intemporal value reference; whereas reification\(^{86}\) highlights that all the successive institutionalisations are as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, but of varying

Behind this possibility of ontologically-flawed dereification of human meaningfulness-and-teleology\textsuperscript{9955} is the fact that given the reality of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, ‘the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}—in-singularisation\textsuperscript{92}—as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative-epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity\textsuperscript{66}\textsuperscript{44}\textsuperscript{+} is a secondnaturing process as of elicited and secondnatured positive-opportunism\textsuperscript{75} of instigated ‘dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth—or-conflatedness\textsuperscript{12}/transvaluative-rationalising/tranepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being—as-of-existential-reality reflected as to ontological-good-faith/authenticity\textsuperscript{68} over ontological-bad-faith/inauthenticity\textsuperscript{63} elucidatin/reification\textsuperscript{86} of existential-contextualising-contiguity\textsuperscript{18}\textsuperscript{+} as of ontological-primemovers-totalitative-framework\textsuperscript{72} articulation of meaningfulness-and-teleology\textsuperscript{9955} in skewing for universal-transparency\textsuperscript{184} ⟨transparency-of-totalising-entailing,—as-to-entailing,—<amplituding/formative-epistemicity> totalising—on-relative-ontological-completeness\textsuperscript{87}⟩ and social deferential-formalisation-transference. The implication here is that the social-construct has ever always been a threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold\textsuperscript{102}; wherein respectively there is positive-opportunism\textsuperscript{75} for prior institutionalisation and no positive-opportunism\textsuperscript{75} for prospective institutionalisation, explaining the developing reality of the various successive human registry-worldview’s/dimension’s institutionalisations, as of retrospective and prospective implications. This fundamentally points to a ‘human psychology of positive-opportunism\textsuperscript{75} as of prior-institutionalisation-reification\textsuperscript{86} and uninstitutionalised-threshold\textsuperscript{102}-dereification’, that points out that hitherto the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} has not been about ‘dimensionality-of-sublimating\textsuperscript{24}–\textlangle amplituding/formative\textrangle supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-

The basis for this ‘human psychology of positive-opportunism\textsuperscript{75} as of prior-institutionalisation-reification\textsuperscript{86} and uninstitutionalised-threshold\textsuperscript{182}-dereification’, is the fact that humankind is caught up in intemperal-reification\textsuperscript{86} and temporal-dereification as of existential-constraint of ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold\textsuperscript{102} as of ‘no positive-opportunism\textsuperscript{75} for prospective institutionalisation’ is a threshold at which there is a dementative/structural/paradigmatic lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of uninstitutionalised-threshold\textsuperscript{102} dereification threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{6644}. The full implications here is that a notional–deprocrypticism ontologically-uncompromised—referentialism singularisation/epistemic-immanence/veridical-epistemic-determinism construal of meaningfulness-and-teleology is more critically about eliciting the ‘subject intemporal-disposition sense of knowledge-and-virtue as of its de-mentation—\(\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics}\)\(^14\) for a fully protracted-consciousness beyond a cloistered-consciousness’ in line with Foucauldian hermeneutics of the subject futural implications. Further, it is important to grasp that ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ is actually associated with all the transcendence-and-sublimity/sublimation/suberogatory-de-mentativity of all the successive registry-worldviews/dimensions, but that what is particular with notional–deprocrypticism\(^17\) summoning of ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied by its ontologically-uncompromised—referentialism singularisation/epistemic-immanence/veridical-epistemic-determinism, is the fact that it achieves the potentiative-aspiration of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-

It is untenable to construe of the ultimate potential of human emancipation without the eliciting of this more fundamentally authentic basis of human emancipation as of the overcoming of human limited-mentation-capacity temporal dynamics beyond just ‘the elicitation of positive-opportunism\textsuperscript{75} to existential constraining’; as implied by ontologically-uncompromised—referentialism singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism mirroring ontological-completeness-of-reference-of-thought\textsuperscript{83} of inherent existence as ‘ecstatic singularity’, very much unlike reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation—as-of-ontologically-compromised—categorising-or-qualifying-or-tendentious-or-impulsive implied dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism as of their given prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} that fail to mirror inherent existence as ‘ecstatic singularity’. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology<sup>9955</sup> that there is and can exist is ontological as of prospective relative-ontological-completeness<sup>87</sup>, such that any such implied meaning is only ontologically intelligible with its reification<sup>86</sup> as of prospective relative-ontological-completeness<sup>87</sup>-of-reference-of-thought<sup>83</sup>, as so implied from singularisation<sup>92</sup>/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology<sup>9955</sup>. This points out that as of its very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>33</sup>, a registry-worldview/dimension reference-of-thought<sup>83</sup> is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness<sup>87</sup>-of-reference-of-thought<sup>83</sup> reification<sup>86</sup> of meaningfulness-and-teleology<sup>9955</sup>, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism<sup>88</sup> as from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology<sup>9955</sup> as of prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought<sup>8317</sup> prospective relative-ontological-completeness<sup>87</sup> perspective. However, this ‘ontologically-veridical reification86 of value reference as of prospective relative-ontological-completeness87’ and the ‘ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness88’ is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold–(uninstitutionalised–

<including-virtue-as-ontology\(^{\ast}\)>. The idea of ontological-bad-faith/inauthenticity\(^{63}\) raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with the possibility of denaturing\(^{15}\) as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework\(^{72}\) reflection of existential-contextualising-contiguity\(^{38}\). This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating\(^{24}\)—<amplituding/formative> supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\(^{32}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equality inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity implications put into question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness especially as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibility setup/measuring instrument attitude/mental-disposition/care–and–episteme\(^5\) conception of knowledge’ that superseded and didn’t recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\); and in due course, by its ontological-primemovers-totalitative-framework\(^72\) constraining it crossgenerationally overrode scholastic pedantry. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\(^28\)-‘projective-insights’/‘epistemic-projection-in-conflatedness\(^12\)-of-notional–deprocrypticism\(^17\)-prospective-sublimation)\(^90\) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness\(^88\)-of-reference-of-thought\(^83\) with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{86} implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\textsuperscript{56} constraint as of ontological-primemovers-totalitative-framework\textsuperscript{72} for the possibility of prospective transcendence-and-sublimity/sublimation/superegoary-de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\textsuperscript{88} of-reference-of-thought\textsuperscript{83} naïve non-transcendental <amplituding/formative-epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology\textsuperscript{9955}. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\textsuperscript{182} transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing\textsuperscript{15} mortals that we are for our prospective emancipation. Without an insight about reification\textsuperscript{86} and dereification, the notion of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought\textsuperscript{83} for ontologically-veridical meaningfulness-
and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral- and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising–devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, with the fundamental implication that there are thus divergent
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism\textsuperscript{77}-slantedness, and its social cognisance and integration as conjugated-postlogism\textsuperscript{77} so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49} as of social psychopathy. In this latter case of contrasted reification\textsuperscript{86} and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—contrastive-reification\textsuperscript{86}-dissemination\textsuperscript{27}-and-dereification-dissemination\textsuperscript{27}-implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology\textsuperscript{9955}’ as-of-prospective-relative-ontological-completeness\textsuperscript{87}-postconverging-or-dialectical-thinking\textsuperscript{28}—apriorising-psychologism and as-of-prior-relative-ontological-incompleteness\textsuperscript{88}-preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}—as-veridical-epistemic-determinism\textsuperscript{21} from the projected ‘notional—singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism’ of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness\textsuperscript{87}-postconverging-or-dialectical-thinking\textsuperscript{28}—apriorising-psychologism recognising this ‘preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism and postconverging-or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism variance/discrepancy of meaningfulness-and-teleology\textsuperscript{9955}, that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity\textsuperscript{38} as implied by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of reifying intemporal/valid/postconverging-or-dialectical-thinking\textsuperscript{20}

Consider in that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, its reification\textsuperscript{86} as ‘apriorising-teleological resetting of <amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{9955} to the prospective relative-ontological-completeness\textsuperscript{87}-of-physics-axiomatic-construct’ implies that de-mentatively/structurally/paradigmatically ‘traditional classical mechanics axiomatic-construct’ is dereified as of its prior relative-ontological-incompleteness\textsuperscript{88} to theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is rather reified as of its prospective relative-ontological-completeness\textsuperscript{87}; such that interestingly to construe, as of ontological-veridicality, the reality of ‘traditional classical mechanics axiomatic-construct’ requires rather assuming/departing-from an understanding of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as implied by the reifying theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in articulating ontologically-veridical difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21} from this projected ‘notional—singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism’ as of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective or attitude/mental-disposition/care—and–episteme\textsuperscript{5} over ‘traditional classical mechanics axiomatic-
construct’, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification—dissemination—and-dereification-dissemination—implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology—discontiguity—and-teleology that is seen as of ‘prospective relative-ontological-completeness’ and as of prior relative-ontological-incompleteness. Note that on the imaginary supposition that no such prospectively projected ‘notional—singularisation—epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology’, mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by idenitive-constitutedness—as—‘epistemic-totality—dereification-in-dissingularisation—as-flawed-epistemic-determinism’ as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity of ‘the very same physics <amplituding/formative—epistemicity>totalising~devolved—purview/domain-of-construal-as—intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-relativity—together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ idenitive-constitutedness—as—‘epistemic-totality—dereification-in-dissingularisation—as-flawed-epistemic-determinism is in reality preconverging-or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought—level, for instance, with regards to the fact that our positivism—procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or—disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism—procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation—non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of their universalisation—non-positivism/medievalism uninstitutionalised-threshold), ontological-veridicality is rather assumed/departs from an understanding of existential-contextualising-contiguity knowledge-reification as implied with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension and not our positivism—procrypticism, in articulating ontologically-veridical difference-conflatedness-as-to-totalitative-reification as-veridical-epistemic-determinism from this projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought perspective or attitude/mental-disposition/care—and—episteme over our positivism—procrypticism, so-implied as of their disseminative-notional-discontiguity/epistemic-

Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism\(^{77}\)-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative

This insight is in effect the futural rejoinder to the Foucauldian hermeneutics of the subject with respect to human prospective reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory–de-mentativity capacity; in the sense that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in-singularisation\textsuperscript{92}–as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative-implications,–for-explicating-ontological-contiguity\textsuperscript{6644} has always called upon a certain apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument development of the human subject itself as enabling-and-making-available the capacity for that human subject to tackle the prospective issues of its world. In this regard, the question could be asked: what is the capacity of the universalisation–non-positivism/medievalism mindset to tackle prospective issues warranting a positivism self-consciousness psychology, and by extension what is the capacity of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8388} mindset to tackle prospective issues warranting a deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} self-consciousness psychology? Insightfully, this author further addresses the common criticism of postmodern-thought with regards to virtue, as of postmodern implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247}. Such that it is fundamentally the prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} that becomes the ‘lack-of-virtue or vice issue’, beyond just any associated incidental existential problems, as requiring aetiologisation/ontological-escalation as of the need for prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} to address the myriad <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} existential possibilities of the registry-worldview’s/dimension’s vices-and-impediments\textsuperscript{385} as fundamentally bound to its prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} ‘underlying reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}, and so beyond just <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and ad-hoc palliative

This insight about the need for prospective notional-contiguity/epistemic-contiguity$^{61}$-<profound-supererogation$^{96}$-of-mentally-aestheticised–postconverging/dialectical-thinking$^{28}$–qualia-schema> underlies a postmodern understanding, as it is herein contended, that it is by the exercise of prospective relative-ontological-completeness$^{87}$-of-reference-of-thought$^ {83}$ as of human limited-mentation-capacity-deepening$^{52}$ as of the need for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology$^{9955}$ as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought$^ {8317}$ and so over our positivism–procrypticism$^ {80}$ temporal-to-intemporal mental-dispositions ‘mutual cognisance and integrativeness of procrypticism–or–disjointedness-as-of-reference-of-thought$^{8388}$ beyond-the-consciousness-awareness-teleology$^{99}$-<in-existential-extrication-as-of-existential-unthought$^ {6}$, that we provide the ontologically-veridical aetiologisation or ontological-esclation resolving the vices-and-impediments$^{365}$ of our ‘so-prospectively deprocrypticism$^{17}$-construed’ procrypticism–or–disjointedness-as-of-reference-of-thought$^{8388}$ as of its underlying <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag$^{33}$, and so beyond just our ad-hoc palliative construals of virtue. Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care–and–episteme$^{5}$ event-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven,
non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology} as-of–

attitude/mental-disposition/care—and—episteme\(^5\) of meaningfulness-and-teleology\(^9955\). This fundamentally speaks of a de-mentative/structural/paradigmatic conception of virtue-as-ontology transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness\(^87\)—of-reference-of-thought\(^83\). This very much differs from \(<\text{amplituding}/\text{formative—epistemicity}\text{totalising—self-referencing—syncretising}/\text{circularity/}\text{interiorising}/\text{akrasiatic-drag}\>\(^{33}\) ontological-contiguity\(^66\) palliative virtue constructs as of variance of the very same reference-of-thought\(^83\)—categorical-imperatives/axioms/registry—teleology\(^998\),—for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^9955\), and thus implies temporally neutering\(^57\) ‘interiorisation attitude/mental-disposition/care—and—episteme\(^5\) of meaningfulness-and-teleology\(^9955\). This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure—of—meaningfulness-and-teleology\(^9955\) in reflecting holographically—\(<\text{conjugatively—}\text{and—transfusively}>\) the ontological-contiguity\(^66\)—of-the-human-institutionalisation-process\(^67\). Such an ontological-contiguity\(^66\) <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\>\(^{33}\) virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention—or-confliction changing temporal constraints, temporal meaningfulness-and—teleology\(^9955\) existentialising—enframing/imprintedness—<as-to-historicity-tracing—im-presencing—hyperrealisation/hyperreal-transposition\>\(^{46}\)> frameworks and temporal mandarinism/pedantry frameworks as of the given reference-of-thought\(^83\), with these elements in need for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness\(^87\)—of-reference-of-thought\(^83\) but
paradoxically now defining the conception of virtue. The fact is our pretences and arguments of
practice, as not critically pinned down to their ontological-veracity as of prospective relative-
ontological-completeness, can similarly be meted with pretences and arguments of practice as
of each and every registry-worldview’s/dimension’s reference-of-thought practices, and thus
conceptualising virtue by <amplituding/formative–epistemicity> totalising–self-referencing-

the vices-and-impediments of each registry-worldview/dimension in want of its ‘pure-

palliative virtue constructs overlooking fundamental underlying de-
mentative/structural/paradigmatic ontological implications about our ‘modern take

approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, notwithstanding our state of beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}—as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative—epistemicity>causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity\textsuperscript{66} as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955}, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of its ontological reflection in Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} that virtue
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity comes about, whether or not beyond-the-consciousness-awareness-teleology\textsuperscript{99} in existential-extrication-as-of-existential-unthought\textsuperscript{6}. In this regard, any registry-worldview/dimension reference-of-thought\textsuperscript{83} is a <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable—void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>} as of the <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, such that prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} as required for virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily implies disrupting and superseding any such <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable—void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>} vices-and-impediments\textsuperscript{105}, as of the prospective/new superseding reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955}.

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold\textsuperscript{102}. Thus the ‘field of conception’/notional—conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, as its implications as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In
transposition frameworks and temporal mandarinism/pedantry frameworks; and, hence the ontologically-veridical paradox of the very de-mentating/structuring/paradigming implications of human limited-mentation-capacity-deepening\textsuperscript{52} renders any registry-worldview/dimension reference-of-thought\textsuperscript{83} ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{46} of meaningfulness-and-teleology\textsuperscript{9955}. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our 'modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness' perspective/framing/reference/horizon’ constitutedness\textsuperscript{13} construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising\textsuperscript{57}, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori'; such that the meaningfulness-and-teleology\textsuperscript{9955} that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness\textsuperscript{12} that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\textsuperscript{52} implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of
the notional-conflatedness\textsuperscript{12} of notional-deprocrypticism\textsuperscript{17}. However, it is equally critical to grasp the double-gesture reification\textsuperscript{86} implied in such a postmodern-as-suprastructural conceptions of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247}. Such a postmodern-suprastructuralism double-gesture reification\textsuperscript{86} holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme\textsuperscript{5} with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} of such organic-knowledge construed in intemporalty\textsuperscript{51} as supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}–postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}–preconverging/dementing\textsuperscript{19}–apriorising-psychologism to such mere reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme\textsuperscript{5} which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme\textsuperscript{5} and organic-knowledge attitude/mental-disposition/care–and–episteme\textsuperscript{5}. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–
episteme\textsuperscript{5} will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology\textsuperscript{9955} in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of its prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83}, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification\textsuperscript{86} in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-
gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology\textsuperscript{9955} to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology\textsuperscript{9955} as of any specific human society relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as fundamentally denaturing\textsuperscript{15}, and likely to induce transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{381} dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency\textsuperscript{384}. (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}–of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empricism attitude/mental-disposition/care–and–episteme\textsuperscript{5}, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal
positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness). Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, –for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event-or-operant to all and sundry’. Finally, the naivety when
facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–projective-insights/epistemic-projection-in-conflatedness–of-notional–deprocrypticism–prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human
knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative-epistemicity>causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity shows that there has always been beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology due to ‘lack of social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-
thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporary individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation—as-not-beholden to temporal/shortness-of-register-of—meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically—the ontological-contiguity of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative—epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of— <amplituding/formative—epistemicity>totalising~renewing-realisation/re-perception/re-thought,—in-supercerogatory—epistemic-conflicatedness; as prior human presencing—absolutising-identitive.
constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs constitutedness, but rather it is by conflatedness with regards to ‘the very same physics <amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing—<perspective—ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework tendential validation as to existence-potency—sublimating—nascence.—disclosed—from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness. Such a construal of human transcendence-and—sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as

1430
the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différence-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-notional-deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différence as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différence that coincides-and-is-contiguous with a prior Derridean différence as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différence tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différence as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différence, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différence as of such ‘existential-reality concreteness dynamics’ is scientific
and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening\(^5\) or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-confoundedness\(^3\) so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation\(^9\)—postconverging/dialectical-thinking\(^2\)—apriorising-psychologism deference to the prescience of existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>-totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-confoundedness\(^3\) over any human-as-mortals framing of meaningfulness-and-teleology\(^9\) including oneself-as-human-as-mortals, as it is human mortality-as-temporality\(^9\) that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought\(^8\), as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness\(^8\)-of-reference-of-thought\(^8\) over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness\(^8\)-of-reference-of-thought\(^8\), and so by maximaliing-recomposing <amplituding/formative-epistemicity>-totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge.
A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that
the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation,
universalisation–non-positivism/medievalism, and positivism–procrypticism\textsuperscript{88}, are
successively-wanting of prospective defining-transcendence and defining-sublimity going by
their successively-given mechanical-knowledge in temporality\textsuperscript{98}-as-of-neuterisation\textsuperscript{98}/relative-
ontological-incompleteness\textsuperscript{88}/existential-extrication-as-of-existential-unthought. In other words,
an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of
prospective registry-worldview/dimension reference-of-thought\textsuperscript{83} in prospective relative-
ontological-completeness\textsuperscript{87}-of-axiomatic-construct-or-reference-of-thought\textsuperscript{83} can’t sidestep
such implied prospective defining-transcendence and defining-sublimity, and undertake
existence as of the prior registry-worldview/dimension reference-of-thought\textsuperscript{83} in prior relative-
ontological-incompleteness\textsuperscript{88}, even if it such a mental-disposition could lead to such an
outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment;
despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism,
which knows better, but exploits lack of ‘social universal-transparency\textsuperscript{104}-(transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-
ontological-completeness\textsuperscript{87})’. But then it is actually a sign of ‘propounded theoretical health
and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-
and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains
and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on
institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the
very central tenet has always been about theoretical disputative engagement and not acts of
escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual
popularity’. Thus by its prospective relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct-
or-reference-of-thought\textsuperscript{83} as futural différance, accreting-substitutive-subsumption-as-futural-
différance-freeplay\(^2\) comes into terms with both presencing—absolutising-identitive-constitutedness\(^{1379}\) and nonpresencing\(^{68}\)-<perspective-ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\(^{87}/\)ontological-contiguity\(^{66}\) of the latter over the prior relative-ontological-incompleteness\(^{88}\) of notional-discontiguity/epistemic-discontiguity\(^{62}\)-<shallow-supererogation\(^{96}\)-of-mentally-aestheticised–preconverging/dementing\(^{19}\)-qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising-purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^{22}\) but rather difference-in-nature/difference-in-apriorising-or-axiomatising\(^{23}\) between presencing—absolutising-identitive-constitutedness\(^{1379}\) and nonpresencing\(^{68}\)-<perspective-ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness\(^{87}\) notional-contiguity/epistemic-contiguity\(^{61}\), construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology\(^{9955}\) grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology\(^{9955}\) without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology\textsuperscript{9955} without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology\textsuperscript{9955} without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism\textsuperscript{80} mindset perspective/framing/reference/horizon’ to grasp notional–deprocrypticism\textsuperscript{17} meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism\textsuperscript{17} mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} is enabling to surreptitious
Establishment charlatanism, however with increasing ‘social universal-transparency’
(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness)’ such charlatanism is exposed
for what it really is, explaining the panickiness and falsehood associated with such charlatanism
as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by
itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-
imaginary, theoretical and conceptual possibility for such futural différance consciousness
development is the notion of de-mentation–(supererogatory–ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) which by pointing out an
episemic-break as of difference-in-nature/difference-in-apriorising-or-
axiomatising/ontological-discontinuity, underscore at once ‘both as
affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-
validating-measuring–<as-to-postconverging-or-dialectical-thinking–apriorising-
psychologism> of the consciousness in ontological-contiguity/relative-ontological-
completeness–of-reference-of-thought and as unaffirmation/deprojection/de-
assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-
measuring–<as-to-preconverging-or-dementing–apriorising-psychologism> of the
consciousness of notional-discontiguity/epistemic-discontiguity–shallow-supererogation–of-
mentally-aestheticised–preconverging/dementing–qualia-schema>/relative-ontological-
incompleteness–of-reference-of-thought as of maximalising-recomposuring–for-relative-
ontological-completeness—unenframed-conceptualisation, and not incrementalism–in-
relative-ontological-incompleteness–enframed-conceptualisation, as of the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–
‘human–amplituding/formative–epistemicity>totalising–purview-of-construal’”. As futural
différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay
différence’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening\textsuperscript{52}; overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology\textsuperscript{9955} should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22}, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of nonpresencing\textsuperscript{68}-<perspective–ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness\textsuperscript{88} and prospective relative-ontological-completeness\textsuperscript{87}, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity> totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} but rather a difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23}; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-
nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of nonpresencing\textsuperscript{68} </perspective–ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}}, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} mental-disposition as of presencing—absolutising-identitive-constitutedness\textsuperscript{1379}. But existence/ontology’s-directedness-as-Being as of nonpresencing\textsuperscript{60}</perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}}, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of ontological-primemovers-totalitative-framework\textsuperscript{72} validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness\textsuperscript{1379} and re-projects/re-anticipates nonpresencing\textsuperscript{68}</perspective–ontological-normalcy/postconvergence>
enabling human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity.

Therefore, metaphoricity\textsuperscript{56} as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\textsuperscript{56} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. metaphoricity\textsuperscript{56} as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology\textsuperscript{9955} implications to the so-renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity\textsuperscript{56}-signification within such renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’.

metaphoricity\textsuperscript{56} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology\textsuperscript{9955} as an epistemic-totalising\textsuperscript{32}/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{56} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing\textsuperscript{68}<-perspective-ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework\textsuperscript{72}. Further, metaphoricity\textsuperscript{56} as such speaks of the evasiveness of all human meaningfulness-and-teleology\textsuperscript{9955} at uninstitutionalised-threshold\textsuperscript{102} as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism possibilities relation
to reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity\textsuperscript{56} explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought\textsuperscript{83}; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness\textsuperscript{1379} and nonpresencing\textsuperscript{68}-<perspective–ontological-normalcy/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as presencing—absolutising-identitive-constitutedness\textsuperscript{1379}. Consider in this regard Galileo’s implying positivistic episteme metaphoricity\textsuperscript{56} over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism\textsuperscript{80} episteme as of its constitutedness\textsuperscript{13} with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} with respect to our procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8380} uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} institutionalisation implications representation, and so
beyond just our natural inclination for <amplituding/"formative—epistemicity">totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. Galileo could well have possibly recast his implied positivism meaningfulness-and-teleology\textsuperscript{9955} in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing\textsuperscript{60}–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology\textsuperscript{9955} we entertain today. Likewise, as of such metaphoricity\textsuperscript{56} episteme, the meaningfulness-and-teleology\textsuperscript{9955} herein implied as of its essence cannot do without this hermeneutic/reprojective circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness\textsuperscript{32}; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2}. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification\textsuperscript{86} that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification\textsuperscript{86} reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of
contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification\textsuperscript{86} of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity\textsuperscript{68}. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity\textsuperscript{63} critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification\textsuperscript{86} as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such
‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling are necessarily construed as of a double-gesture reification\textsuperscript{86} that supersedes the ordinariness/banality of day to day social existence analysis as of <amplinding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{955}-as-of-‘nondescript/ignorable–void\textsuperscript{99}-with-regards-to-prospective-apriorising-implications>), such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity\textsuperscript{63} and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity\textsuperscript{63} critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{81}-postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-
teleology\textsuperscript{9955} while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology\textsuperscript{9955}, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} retrospectively and prospectively while the latter as of its false ‘untransvaluated—temporal-intemporality\textsuperscript{51}’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}. As ultimately, it is the prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{105} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/suberogatory–de-mentativity—reference-of-thought\textsuperscript{83}. The overall insight here of such ontological-bad-faith/inauthenticity\textsuperscript{63} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency\textsuperscript{104}—{transparency-of-totalising-entailing—as-to-entailing—<amplituding—formative—epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{87}}’ with regards to such over-a-time-period-bodily-reparation notion
and throwing a spanner in the works by pretending that the physician should confirm that
patients are cured immediately as otherwise the physician must be practising witchcraft on the
patients, understanding fully well the authentic disposition of the physician to affirm a practice
of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine.
While they are pragmatically inclined to advanced opportunistically whatever explanation to
justify that their healing is immediate/instant and so involving any such stratagem like
opportunistically accusing patients or some other persons for any implied failure of
immediate/instant cure having the effect on the most part of shutting-off any complain or at
least negative allegations about the healer’s cure, and so-enabled on the basis of the healer
priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such
a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the
possibility of the positivistic disease theory conception subverting their own non-positivistic
healing practice notwithstanding ontological-veracity). The manifest acts of many such
ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether
when pretending to misunderstand postmodern double-gesture reification of meaningfulness,
blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine
intellectual-level disputation, and so rather opting for subversive
<amplituding/formative>wooden-language-{imbued—averaging-of-thought<-as-to-

‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while
claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the
notion of science and intellectualism towards such uncritical publics; and all this as a
manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought
is not and has never been immune from genuine intellectual criticism not only from other
schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity\textsuperscript{63} critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-\textsuperscript{-in-dimensionality-of-desublimating-lack-of\textsuperscript{25}}-amplituding/formative-superrogatory-de-

subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional–knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity\textsuperscript{63} shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-
faith/inauthenticity\textsuperscript{63} rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximising-recomposing\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-
mentating/structuring/paradigmising, and intellectuals’ choice of ontological-bad-
faith/inauthenticity\textsuperscript{63} is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought\textsuperscript{83} as of prospective relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct-or-reference-of-thought\textsuperscript{83} over a
<amplituding/formative–epistemicity>–totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that
necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling
thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-
thought ‘as of the prospective relative-ontological-completeness of-axiomatic-construct-or-
reference-of-thought of a better knowledge perspective/reference-of-thought before/as-
preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our
limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards
to reference-of-thought and its derived meaningfulness-and-teleology, with the implication
that we need to a prospective relative-ontological-completeness of-reference-of-thought to
be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance
of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-
veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance
as of nonpresencing for their sublimation and transcendence-and-sublimity/sublimation/de-mentativity into
more profound and more complete meaningfulness-and-teleology. For instance the
‘postmodern take’ about science is rather a more profound and complete notion of science than
the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to
factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-
capacity and the need to deepen it, thus translated into the prior need for prospective relative-
ontological-completeness; wherein the ‘modern take’ might naively consider medicine as
simply providing medications and remedies, the ‘postmodern take’ by an internal-
dialectics/différance of the notion of medical science will factor in socioeconomic, education,
information, environmental, gender and power relations issues underlying healthcare and
medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation of our supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-
operant entailing framework of ontological-contiguity\textsuperscript{66} as herein implied by this author with ‘the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} congruent,-cogent-and-operant entailing framework of ontological-contiguity\textsuperscript{66}’. Anecdotally, the shallowmindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification\textsuperscript{86} will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification\textsuperscript{86} for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sUBLIMITY/SUBLIMATION/SUPEREROGATORY-De-MENTATIVITY is behind the respective registry-worldviews/dimensions as of their given reference-of-thought\textsuperscript{83} specific neuterising\textsuperscript{57} as well as the ultimate deneuterising\textsuperscript{16}—referentialism of deprocrypticism\textsuperscript{17}. But then ontological-bad-faith/inauthenticity\textsuperscript{63} is equally elicited by ‘lack of social universal-transparency\textsuperscript{104}—(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought\textsuperscript{83} ‘reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework\textsuperscript{72} transcendental-
possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness—of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—of—amplituding/formative>supererogatory—de-mentativeness/epistemic-growth—or—conflatedness/transvaluative—rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests
itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and de-mentating/structuring/paradigming of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating/supernovacata—de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism—procrypticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism—procrypticism disjointedness-as-of-reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. Such a paradox of human ontological-performance <including-virtue-as-ontology> is effectively construed as arising out of human

Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology\(^{9955}\) notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness\(^{13}\) consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms—as-of-axiomatic-construct of ‘neuterising\(^57\) as of <amplituding/formative-epistemicity>-totalising/circumscribing/delineating reference-of-thought\(^83\)-devolving\(^84\) whether beyond-the-consciousness-awareness-teleology\(^{99}\)\(<\text{-in-existential-extrication-as-of-existential-unthought}\>\(^6\), and so elucidated from the ontological-normalcy/relative-ontological-completeness\(^{87}\) of reference-of-thought\(^{83}\) perspective of notional–deprocrypticism\(^{17}\) ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\(^{12}\) protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology\(^{9955}\) as of notional–notional–deprocrypticism\(^{17}\) as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising\(^6\)—referentialism, in lieu of neuterising\(^57\). Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-

This overall disparateness-of-ontologically-construed-

perspectives’. Thus by its deneuterising—referentialism construed as of
historiality/ontological-eventfulness/ontological-aesthetic-tracing, notional–deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metaphysics-of-presence affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is achieved from the prospective notional–conflatedness of notional–notional–deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing.<perspective–ontological-normalcy/postconvergence>. In other words the historial implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is attainable as of deneuterising, construed as equinominal/equivalent with deneuterising—referentialism as the notional–conflatedness of notional–notional–deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing.

But rather related to as of transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity/nihilistic marked by incoherence of contemplative mindset/reference-of-thought development in the midst of the technical world as rather literally ‘hurling along’ prospectively underdeveloped-Being-as-of-unexpanded-ontological-framework; and so as reflected by conflatedness <amplituding/formative–epistemic> causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity as of ‘the concatenation of intemporal-projection inextricably with derived-denaturing-deprojecions-indistractiveness-of-intemporal-projection’. Consider a metaphysics-of-absence elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-

The idea that intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is only the panache of the technical as of the sciences and that there is no need for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} to be instigative-and-be-elevating-of-contemplation-and-Being in complement as of human development is nothing less than a derogation that renders such an establishment erudition no different, as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, from the mediums, shamans, witchdoctors, dogmatic scholastics of prior registry-worldviews/dimensions as vested in their ‘circular-pervasiveness \textless amplituding/formative\textgreater wooden-language-(imbued—averaging-of-thought-\textless as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}-as-of—‘nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications\textgreater )’ rather than moving ahead of human blithe and their platitudes, and construing the real possibility of human emancipation as of a prospective opened-construct-of—meaningfulness-and-teleology\textsuperscript{9955}; as the masses-defined-as-non-specialists can effectively be ‘tolerated’ to be

misappropriated-meaningfulness associated with procrypticism\textsuperscript{88}. prelogism\textsuperscript{78} even when ontologically-flawed can be compared to the defect arising using a ‘correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ (appropriateness-of-reference-of-thought\textsuperscript{83}-as-of-conflicatedness\textsuperscript{12}) for aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (to derive meaningfulness-and-teleology\textsuperscript{9955}) but in doing so aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements wrongly (construed as using the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ wrongly) which specifically speaks of the possibility of reusing the ‘same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ as same appropriateness-of-reference-of-thought\textsuperscript{83}-as-of-conflicatedness\textsuperscript{12} (notwithstanding the specifically flawed aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements) for producing veridical meaningfulness-and-teleology\textsuperscript{9955}. While postlogism\textsuperscript{77} is akin to the ‘defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself’ (perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>) besides the ‘specific act of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ for producing veridical meaningfulness-and-teleology\textsuperscript{9955}, and speaks to a fundamental flaw that is bound to circularly/repetitively/recurrently give erroneous aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements given the fundamentally incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-

This elucidation of postlogism\textsuperscript{77} in comparison with the implications of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements provides a comprehensive insight about the underlying perversion\textsuperscript{74}–of-reference-of-thought\textsuperscript{83}–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}–> associated with postlogism\textsuperscript{77}–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1996} and its social derivation as conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{49}–integration as of relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83}. Thus technically speaking all elocution associated with the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for the aposteriorising/logicising/deriving/intelligising/measuring—of-obtained-measurements (perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>, as meaningfulness-and-teleology\textsuperscript{9955} is dementatively/structurally/paradigmatically constrained as to threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism, as from candidity/candour-capacity perspective. This technically highlights two issues, the inherent perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> and the registry-worldview/dimension relative-ontological-incompleteness\textsuperscript{88}-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism’, that induces a derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>; in the sense that while a relative-ontological-incompleteness\textsuperscript{88}-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism’ as the non-positivism/medievalism mindset/reference-of-thought\textsuperscript{83} will certainly be enabling for a non-positivism/medievalism type of perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> like notions-and-accusations-of-sorcery to arise in circularity/recurrence/repetition/repeatability\textsuperscript{9} (as-of–perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>–as-to-uninstitutionalised-threshold\textsuperscript{102}–self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing’) in a non-positivism/medievalism social-setup, a positivistic mindset/reference-of-thought\textsuperscript{83} prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} makes it impossible by its ‘rational-empiricism/positivising <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-
of reference-of-thought\textsuperscript{83}, that is effectively the de-mentative/structural/paradigmatic ontological resolution given its ontological-completeness-of-reference-of-thought\textsuperscript{83}. This notion of human growing/developing prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} as of diminishing–human-epistemic-abnormalcy/diminishing–preconvergence from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism and prospectively deprocrypticism\textsuperscript{17}, as successive <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of the construal/conceptualisation of the same ontological-veridicality/intrinsic-reality going by human limited-mentation-capacity-deepening\textsuperscript{52}, can effectively be construed as a maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation ‘successive shifting in the curve-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} of human meaningfulness-and-teleology\textsuperscript{9955}, (rather than a naïve construal based on incrementalism\textsuperscript{58}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation as successive additions which will wrongly imply an improvement along the same ‘curve-of-prior-relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} of human meaningfulness-and-teleology\textsuperscript{9955}’) wherein going by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as reference-of-thought\textsuperscript{83} comparison, the implication is one of successive ‘transformative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ (successive transformative references-of-thought) undertaking respectively the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (as logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653}) of the same inherent existential-reality but with ‘respective dramatic changes in the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements’ (as dramatic changes in meaningfulness-and-teleology\textsuperscript{9955}}
from the successive registry-worldviews/dimensions references-of-thought), together with an underlying recurrent postlogism\(^7\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^9\) issue with the successive registry-worldviews/dimensions references-of-thought as of their prospective relative-ontological-completeness\(^8\)-of-reference-of-thought\(^3\) (due to ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought\(^3\)-as-of-incrementalism\(^5\)-in-relative-ontological-incompleteness\(^8\)—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\(^1\)\(^0\)\(^2\));

highlighting the notion of defectiveness in successive transformative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as corresponding to perversion-and-derived-perversion\(^7\)-of-reference-of-thought\(^3\)-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^6\)>/postlogism\(^7\)-and-conjugated-postlogism\(^7\) as of prospective relative-ontological-completeness\(^8\)-of-reference-of-thought\(^3\). Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness\(^8\)-reference-of-thought\(^3\)), the historical transformation of meaningfulness-and-teleology\(^9\)\(^5\)\(^5\) associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology\(^9\)\(^5\)\(^5\)) as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing\(^1\)–apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) we’ll construe for instance of a non-positivism/medievalism mindset/reference-of-thought\(^3\) that doesn’t register positivistic meaningfulness reference-of-thought\(^3\) and likewise
prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^99\) as of priorly unsoundness-or-ontological-bad-faith/inauthenticity\(^63\)-of-reference-of-thought\(^83\)/preconverging-or-dementing\(^19\)–apriorising-psychologism by its positivism–procrypticism\(^80\) reference-of-thought\(^83\). Just as the very nature of existential-reality by our limited-mentation-capacity-deepening\(^52\) construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening\(^52\) virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposing of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-recomposing\(^54\)-for-relative-ontological-completeness\(^87\)—unenframed-conceptualisation. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-reference-of-thought\(^83\) with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^96\)–preconverging/dementing\(^19\)–apriorising-psychologism of the postlogism\(^77\)-and-conjugated-postlogism\(^77\) in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism relative-ontological-incompleteness\(^88\)-induced,–*threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^96\)—preconverging/dementing\(^19\)–apriorising-psychologism’ (given that sorcery doesn’t exist, going by the insight of positivistic prospective relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\) whereas the non-positivism/medievalism registry-worldview/dimension is ridden with a whole complexity of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^96\)—preconverging/dementing\(^19\)–apriorising-psychologism construct of notions-and-accusations-of-sorcery meaningfulness-and-teleology\(^9955\) as its de-
mentating/structuring/paradigming of circularity/recurrence/repetition/repeatability\(^9\) (perversion-and-derived-perversion\(^{74}\)-of-reference-of-thought\(^{83}\)-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\)-as-to-uninstitutionalised-threshold\(^{102}\)-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing). This insight can equally be drawn prospectively in our positivism–procrypticism\(^{88}\) registry-worldview/dimension faced with its postlogism\(^{77}\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^{1096}\) like psychopathy and social psychopathy. This speaks of the very nature of all threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\)—preconverging/dementing\(^{19}\)-apriorising-psychologism with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-threshold\(^{102}\) of ununiversalisation, non-positivism/medievalism and procrypticism\(^{88}\)) across all the ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought\(^{83}\) in its \(<\text{amplituding}/\text{formative–epistemicity} \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^{33}\) (as metaphysics-of-presence: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking\(^{20}\)-apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought\(^{83}\), as of the ontological-normalcy/postconvergence epistemic/notional–projective-perspective, it is ‘preconverging-or-dementing\(^{19}\)-apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective \(<\text{amplituding}/\text{formative–epistemicity} \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^{33}\) is that all registry-worldviews/dimensions reference-of-thought\(^{83}\) ‘tend to convention’ and in so doing close the
‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory—de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable—void-with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced,−‘threshold-of−nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms—as-of-axiomatic—
of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing\(^{19}\)–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrystalism\(^{89}\) relationship to its postlogism\(^{77}\) that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\)–preconverging/dementing\(^{19}\)–apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing\(^{19}\)–apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) temporal/shortness-of-register-of–meaningfulness-and-teleology\(^{9955}\) inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold\(^{102}\) from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrystalism\(^{89}\) (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology\(^{9955}\) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) confliction’ resolved intemporally by
prospective ontological-primemovers-totalitative-framework\textsuperscript{72} and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought\textsuperscript{83} and a prospective/transcending/superseding reference-of-thought\textsuperscript{83}; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality\textsuperscript{51}, and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity associated with intemporality\textsuperscript{51}/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework\textsuperscript{72} as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework\textsuperscript{72} is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and de-mentating/structuring/paradigming meaningfulness-and-teleology\textsuperscript{9955} in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{52}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{72} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-
(<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-
thought, in supererogatory–epistemic-conflicedness)\textsuperscript{12}. (Consider the case with ancient
Egyptians and even ancient Greeks where their relations with their deities were closely related
to the fortune they expected on an empirical basis whether with respect to such occurrences like
droughts, warfare, etc. which technically speaking is a rational allocation as ontological-
primemovers-totalitative-framework\textsuperscript{72} of meaningfulness-and-teleology\textsuperscript{9955} going by their
limited-mentionation-capacity-deepening\textsuperscript{52}). transcenence-and-
sublimity/sublimation/subergeratory–de-mentativity and transcendental-
enabling/sublimating/sup Lerogatory–de-mentativity as so construed is more than just a vague
notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-
mentation-capacity-deepening\textsuperscript{52}, implies more and more profound 
reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising~re-
realisation/re-perception/re-thought) inducing transformative implications with respect to
meaningfulness-and-teleology\textsuperscript{9955} as transcendence; in contrast to the mere aestheticisation of
abstract dialecticism or analogy/mere-analogueising speaking thus of human sublimation-
inducing—textuality/hermeneutics/possibilities-of-becoming-existential-
interpretation/axiomatisation-of-existence\textsuperscript{95}. As knowledge conception as contrasted to
sovereign conception, ‘transcendence and transcendental-
enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet
primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is
the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in
deciding that gravity is about 9.8 m/s\textsuperscript{2} on earth since intrinsic-reality imposes that idea and the
 corresponding knowledge construction and organisation where intrinsic-reality is ascendant is
rather based on an ‘intemporal\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}’, for relative
intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology⁹⁹⁵⁵ as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology⁹⁹⁵⁵ itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historicality/ontological-eventfulness/ontological-aesthetic-tracing⁴⁵, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology⁹⁹,<in-existential-extrication-as-of-existential-unthought>⁶ to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight
explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as secondnaturing institutionalisation percolation-channelling to elicit the necessary positive-opportunism for prospective institutionalisation as skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Corpernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor (and so as of ‘circular-complexification’/perpetual-reinstitutionalisation as a result of the same human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions across all the successive ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} registry-worldviews/dimensions). In the bigger scheme of things, as of the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} deneuterising\textsuperscript{16}—referentialism’ reflected by metaphysics-of-absence in the conception of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as of the transcendental implications in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} in the first place; with the notional–deprocrypticism\textsuperscript{17} institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} its conventioning limits as absolutely
ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>, and that meaningfulness-and-teleology\textsuperscript{9955} as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} with regards to our positivism–procrypticism\textsuperscript{80}, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence for the conception of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} naively construed <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{9955}
ontological-performance<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrysticism<sup>80</sup> registry-worldview’s/dimension’s institutionalisation reference-of-thought<sup>83</sup>. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking<sup>28</sup>·projective-insights'/epistemic-projection-in-conflatedness<sup>12</sup>·of-notional–deprocrysticism<sup>17</sup>·prospective-sublimation}<sup>90</sup> ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology<sup>99</sup>·in-existential-extrication-as-of-existential-unthought>6)’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework<sup>72</sup> with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology<sup>9955</sup>, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrysticism<sup>17</sup> registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and
institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-existential-extrication-as-of-existential-unthought\textsuperscript{6}.

[The notion of ‘beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-existential-extrication-as-of-existential-unthought\textsuperscript{6}’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-existential-extrication-as-of-existential-unthought\textsuperscript{6}’ speaks of the mental state as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism by its relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (also referred to as ‘uninstitutionalised-threshold\textsuperscript{102}’) where the mental-disposition/mindset/reference-of-thought\textsuperscript{83} is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-existential-extrication-as-of-existential-unthought\textsuperscript{6} implies ‘conscious’ and/or ‘unconscious’ as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism at the uninstitutionalised-threshold\textsuperscript{102} of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that
we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>\(^6\). Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>\(^6\) as when eliciting ignorance (as of ‘lack of constraining social universal-transparency\(^{104}\) -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^87\)}) of the psychopath’s mental-disposition of postlogism\(^77\) - (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness), and while construed as beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>\(^6\) as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of
relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought\textsuperscript{83}, as it leads to ‘lack of constraining social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}), associated with the successive uninstitutionalised-threshold\textsuperscript{102} states, the notion of ‘human beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} is actually in the bigger picture the larger determinant of manifest human vices-and-impediments\textsuperscript{105} as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect–<as-Being-or-ontological-or-existential–defect>\textsuperscript{85}, inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrysticism\textsuperscript{90}. Whereas the notion of human conscious vices-and-impediments\textsuperscript{105} as of defect–of-logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} of the registry-worldview’s/dimension’s–reference-of-thought\textsuperscript{83}–for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect–<as-Being-or-ontological-or-existential–defect>\textsuperscript{85}, as beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} of the registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{102}; as social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) is a strong inherent deterrent of human temporality\textsuperscript{98}/shortness and enabler of human intemporality\textsuperscript{51}/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold\textsuperscript{102} of such knowledge-as-virtue arises the temporal-dispositions denaturing\textsuperscript{15} its reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{99} for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.
This nature of ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect\textsuperscript{85} as induced beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textsuperscript{6} as of registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{102} explains why fundamentally issues of reference-of-thought\textsuperscript{83} defect or perversion\textsuperscript{74}–of-reference-of-thought\textsuperscript{83}–\textsuperscript{96} point more decisively/fundamentally as to their resolution as aetiologistion/ontological-escalation towards the need for ontological-completeness-of-reference-of-thought\textsuperscript{83} as to the successive registry-worldviews/dimensions institutionalisations-in-superseding-their-corresponding-uninstitutionalisation with regards to base-institutionalisation-superseding-recurrent-utter-uninstitutionalisation, universalisation-superseding-ununiversalisation, positivism-superseding-non-positivism/medievalism and prospectively deprocrypticism\textsuperscript{17}–superseding-procrypticism\textsuperscript{80}.

Thus de-mentatively/structurally/paradigmatically, this is the supratransversality—apriorising/axiomatising/referencing associated with intemporality\textsuperscript{51}/longness and construed as ‘intemporality\textsuperscript{51}–asymmetric-subsumption-of-temporality\textsuperscript{98} since it is ‘not equable’ with the relative shallowness as temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} in intradimensional construal of meaningfulness-and-teleology\textsuperscript{9955} but projects directly in grasping fundamentally the issue of relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/de-mentatively/structurally/paradigmatically as of aetiologisation/ontological-escalation a question of their relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} as it endemises/enculturates such notions as its vices-and-impediments\textsuperscript{105} and the same approach applies to our state of positivism–procrypticism\textsuperscript{80} involving procrypticism–or–disjointedness–as-of-reference-of-thought\textsuperscript{83\textsuperscript{80}}–as-misappropriated–meaningfulness-and-teleology\textsuperscript{9955} as it

notions of intemporality\textsuperscript{51}/longness in successive epochs become dominant notions of human
knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Further along
the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly
demonstrated with ‘cultural diffusion driven transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity’, the mechanism of transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity is not a simplistic transference from a
more ontologically-completeness-of-reference-of-thought\textsuperscript{83} registry-worldview to a lesser one.
Surprisingly, the lesser one is actually in the position of determination in the contention for
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the
competitiveness of ideas that are more ontologically-complete and ontologically inducing
untenability/internal-contradiction/internal-incoherence/institutional-constraining and
inconsistency that initially leads to the \textlangle \textlangle amplituding/formative--epistemicity\textrangle \textrangle totalising--self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} towards the path of its
transcendence; as notions and ideas of the prospective reference-of-thought\textsuperscript{83} gradually creep
over those of the prior reference-of-thought\textsuperscript{83}. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought\textsuperscript{83}, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought\textsuperscript{83} of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought\textsuperscript{83} in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought\textsuperscript{83} (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}. <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought\textsuperscript{83}, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>, which may wrongly imply being out of the scope of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the mechanism by which re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking28—‘projective-insights’/epistemic-projection-in-confledness12—of-notional—deprocrypticism17—prospective-sublimation)90 transcendental ideas (transcendental in terms—as-of-axiomatic-construct of putting in question the prior <amplituding/formative—epistemicity>totalising/circumscribing/delineating reference-of-thought83—devolving84, beyond just novel ideas within the same reference-of-thought83), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moult’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology99—<in-existential-extrication-as-of-existing-unthought>6, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting—conviction-as-to-profound-supererogation96—postconverging/dialectical-thinking28—apriorising—psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag33 which makes it unsurprising that even socially <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag33 is a necessary process for the ultimate acceptance of prospective ontological—primemovers—totalitative-framework72 as this subsumes—as-supplant—(as-of-the-more-profound—construal—of-existing-contextualising—contiguity38’s—
reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework\textsuperscript{72}. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology\textsuperscript{9955} transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitative-constitutedness\textsuperscript{1379} consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation <amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology\textsuperscript{9955}) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology\textsuperscript{99} - <in-existential-extrication-as-of-existential-unthought>\textsuperscript{5}). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context as to existence-potency–sublimating–

The difference between postlogism (postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096}-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)) and prelogism (prelogism-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96}-(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at)) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology\textsuperscript{9955}) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>(more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology\textsuperscript{9955}), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought\textsuperscript{83}-as-of-conflatedness\textsuperscript{12}) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653}) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought\textsuperscript{83} where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism\textsuperscript{78}. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion\textsuperscript{74} of-reference-of-thought\textsuperscript{83} <as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology\textsuperscript{9955}) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653}) is flawed since B is not committed due to its perversion\textsuperscript{74} of-reference-of-thought\textsuperscript{83} <as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing\(^{15}\) an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant\(^{93}\) to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought\(^{83}\) is not perverted, such that A’s defect is a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{9653}\) of the registry-worldview’s/dimension’s–reference-of-thought\(^{83}\)-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant\(^{93}\) while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive
it can be socially-functional-and-accordant\textsuperscript{93} to them wherein lack of ‘social universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>-totalising--in-relative-ontological-completeness\textsuperscript{87}) which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism\textsuperscript{77}, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability\textsuperscript{9} the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>--as-to-uninstitutionalised-threshold\textsuperscript{102}-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing) elicited by B in terms—as-of-axiomatic-construct of B’s postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096} and C, D, E and F relative-ontological-incompleteness\textsuperscript{88}-induced,―‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism’ that is ‘in-wait as of prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} defective reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} to enable their conjugated-postlogism\textsuperscript{77}, where it is socially-functional-and-accordant\textsuperscript{93} to do so. It should be qualified that postlogism\textsuperscript{77} (psychopathy) and conjugated-postlogism\textsuperscript{77} (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant\textsuperscript{93}
without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of perversion-and-derived-perversion-of-reference-of-thought,<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how prelogism-as-of-conviction,-as-to-profound-supererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and its protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-
postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (even when other prelogism-as-of-conviction-as-to-profound-supererogation minds do lack a social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-epistemicity-totalising-in-relative-ontological-completeness) of the veridical postlogism/psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism-as-of-conviction-as-to-profound-supererogation minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on
its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism\textsuperscript{77} behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s-reference-of-thought\textsuperscript{83}-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096}, at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vivious postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096}, as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096} vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework\textsuperscript{72} faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s-reference-of-thought\textsuperscript{83}-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s-reference-of-thought\textsuperscript{83}-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency\textsuperscript{104} (transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative–
narratives-and-acts and are rather inclined to contend on the basis of the same flawed and deceptively-induced reference-of-thought\(^{83}\)-elements/registry-elements (whether unconsciously as beyond-the-consciousness-awareness-teleology\(^{99}\)-in-existential-extrication-as-of-existential-unthought\(^6\) as conjugated-ignorance or by expediency as conjugated-affordability or consciously as conjugated-opportunism/conjugated-exacerbation/conjugated-social-chainism-or-social-discomfitude-or-negative-social-aggregation/conjugated-temporal-enculturation-or-temporal-endemisation, given the ‘lack of constraining social universal-transparency\(^{184}\)-(transparency-of-totalising-entailing,-as-to-entailing-&lt;amplituding/formative–epistemicity&gt;totalising–in-relative-ontological-completeness\(^{87}\)) without reference-of-thought\(^{83}\)-categorical-imperatives/axioms/registry-teleology\(^{99}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{9955}\) to the ontological implications of the appropriate existential-contextualising-contiguity\(^{38}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\)-devolving\(^{84}\)-as-of-instantiative-context reference-of-thought\(^{83}\)-elements/registry-elements and thus explaining derived-perversion\(^{74}\)-of-reference-of-thought\(^{83}\)&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\)&gt; arises, in addition to the more fundamental issue of relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) as of prospective procrypticism\(^{80}\) uninstitutionalisation. In other words, ‘psychopathic/postlogism\(^{77}\) and social-psychopathic/conjugated-postlogism\(^{77}\) vicious acts-and/or-narratives’ as of perversion-and-derived-perversion\(^{74}\)-of-reference-of-thought\(^{83}\)&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\)&gt; take the form of mental ‘misconception of meaningfulness-and-virtue’ that such ‘postlogism\(^{77}\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^{1096}\) vicious acts-and/or-narratives’ based on their systematic combination with ‘compensating directed pseudo-virtue acts-and/or-narratives’ directed to
relevant significant others will enable the registry-worldview’s/dimension’s-reference-of-
thought\(^{83}\)-for-social-functioning-and-accordance, by such a compensation mechanism. With
this faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism\(^{77}\)-
as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation\(^{1096}\) vicious acts-and/or-narratives’ as of an association between the
‘postlogism\(^{77}\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-supererogation\(^{1096}\) vicious acts-and/or-narratives’, and ‘compensating directed pseudo-
virtue acts-and/or-narratives’ towards relevant significant others, wherein that compensating is
not a trite equivalence but rather involves ‘high-proportionality of overcompensating directed
pseudo-virtue acts-and/or-narratives’ relative to ‘specific or given postlogism\(^{77}\)-as-of-
compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation\(^{1096}\) vicious acts-and/or-narratives’ in order to enable the
postlogism\(^{77}\)/psychopathic manifestation achieve the registry-worldview’s/dimension’s–
reference-of-thought\(^{83}\)-for-social-functioning-and-accordance (with such overcompensation
involving sought after overall preceding and subsequent sense of social allegiance with relevant
significant others and then corresponding ‘high-proportionality overcompensating directed
pseudo-virtue acts-and/or-narratives’ towards relevant significant others, whether relevant
individuals and/or relevant social network, as overall ‘social investment’ that should allow its
instigated ‘postlogism\(^{77}\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-
threshold-of-shallow-supererogation\(^{1096}\) vicious acts-and/or-narratives’ with respect to another
individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-
deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc
trite association between committing a given vicious act and initiating a given limited
‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at
childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s-reference-of-thought\textsuperscript{83}-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096} vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}\textlt; as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}\textgt, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism\textsuperscript{78}-as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096} vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising–reference-of-thought\textsuperscript{83}-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99} (which are actually outside existential-contextualising-contiguity\textsuperscript{38}’s-
reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653}. This underlying postlogism\textsuperscript{77}/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism\textsuperscript{77}/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1996} vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the \textlt{amplituding/formative} wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}–narratives—of-the-reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}) (failing/not-upholding-\textlt{as-of-apriorising/axiomatising/referencing} intemporal-preservation-entropy-or-contiguity–or-ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism\textsuperscript{77}/psychopathy and conjugated-postlogism\textsuperscript{77}/social-psychopathy with respect to ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} arises disjointedness-as-of-reference-of-thought\textsuperscript{83}; inherent in temporality\textsuperscript{98}/shortness and as of postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} mental-dispositions (shallowness-of-thought construed as of temporal-extricatory reasoning as well as incoherent and awkwardly implied universal projections, but

It captures the true notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as a maximalising-recomposing\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation involving utterly putting-into-question/reshuffling/remaking the human psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} in the very first instance, and on a second-level then imply eliciting the corresponding meaningfulness-and-teleology\textsuperscript{9955} for such renewed psyche as reference-of-thought\textsuperscript{83}. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking\textsuperscript{28}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘\textless amplituding/formative–epistemicity\textgreater totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology\textsuperscript{9955})’
(which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{99}\)). The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating\(^{94}\)\textless\textless amplituding/formative\textgreater\textgreater supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\(^{52}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology\(^{9955}\) is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of meaningfulness-and-teleology\(^{9955}\) issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought\(^{83}\) that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘\textless amplituding/formative–epistemicity\textgreater totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of- apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of- prospective–meaningfulness-and-teleology\(^{9955}\))’ as implied by a ‘postconverging-or-dialectical-thinking\(^{28}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, as from Recurrent-utter-uninstitutionalisation to Base-institutionalisation–ununiversalisation, to Universalisation–non-positivism/medievalism, to Positivism–procrypticism\(^{80}\), and prospectively to deprocrypticism\(^{17}\); as successively non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random-mental-disposition–(as ‘base-constitutedness\(^{13}\) of reference-of-thought\(^{83}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) gives way to
to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity—~as-limited-mentation-capacity-deepening\(^\text{52}\). (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existent-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought\(^\text{89}\) as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days,
with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ alchemic/essences/medieval registry-worldview/dimension certainly does have a name (transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). But then it is more the case that from an <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag posture holding only one registry-worldview/dimension reference-of-thought\(^83\)-categorical-imperatives/axioms/registry-teleology\(^998\) as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather a beyond-the-consciousness-awareness-teleology\(^99\)<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied herein as of limited-mentation-capacity-deepening\(^52\) with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising-purview-of-construal’ as superseding–oneness-of-ontology as an all-encompassing <amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology\(^955\), even though fundamentally enabled by developing human phenomenal-abstractiveness of presence as of <amplituding/formative-

‘trepidatious-consciousness’ with recurrent-utter-uninstitutionalisation,

‘protensive-consciousness’ with deprocrypticism17. Basically, Kant lacked a notion of metaphysics-of-absence (to overcome <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existing-reality-of-existence as it redefines meaningfulness-and-teleology9955 on the basis of human limited-mentation-capacity-deepening52 in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-
enabling/sublimating/supererogatory—de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory—de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} which tend to require constant heuristic adaptations to sync in contiguity with existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating/supererogatory—de-mentativity for new prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83}. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity,−as-limited-mentation-capacity—deepening\textsuperscript{52} as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—
apriorising/axiomatising/referencing–psychologism, as impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology)’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-
reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of meaningfulness-and-teleology\textsuperscript{9955} is often wrongly construed as ontological as of reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}. Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a
construct as basic constitutedness\textsuperscript{13} is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology conflatedness\textsuperscript{12} as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger ‘transcendental-enabling/sublimating/supererogatory–de-mentativity positivism psyche-and-thereof-philosophy’ (construed rather as of an organic depth of ontological coherence/contiguity that is de-mentatively/structurally/paradigmatically transcendental-enabling/sublimating/supererogatory–de-mentativity contiguously as from the deeper apriorising/axiomatising/referencing enabling/sublimating/supererogatory–de-mentativity of positivism ‘transcendental-psyche-and-thereof-philosophy’ and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualised/construed relations), and so as of its reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}.

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not <amplitudating/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} than truly ontological when examined closely such that the test of transcendentally-enabling-level–of-ontological-good-faith/authenticity\textsuperscript{68}/objectification/desubjectification-as-objectification-<as-to-ontological-faith-

when the implications of such notions are examined as of metaphysics-of-absence not only in terms of one registry-worldview’s/dimension’s meaningfulness-and-teleology\textsuperscript{9955} but two or more, say our present positivism reference-of-thought\textsuperscript{83} and retrospective non-positivism reference-of-thought\textsuperscript{83}, their ‘supposed ontological status’ turn out to be ridiculous <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, exposing their true nature as rather palliative constructs and conceptual patterning. However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought – categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness of-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness aetiology/ontology/escalation; so construed, as prospective relative-ontological-completeness of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification as to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to
the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought\textsuperscript{83} as beyond-the-consciousness-awareness-teleology\textsuperscript{99}＜in-existential-extrication-as-of-existential-unthought＞\textsuperscript{6} they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency\textsuperscript{104}＜transparency-of-totalising-entailing, as-to-entailing-＜amplituding-formative–epistemicity＞totalising-in-relative-ontological-completeness\textsuperscript{87}＞, that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘＜amplituding-formative＞wooden-language＜imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}＞ of prior/transcended/superseded registry-worldview/dimension’ notwithstanding its failing/not-upholding＜as-of-apriorising/axiomatising/referencing＞ intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; highlighting how across the successive registry-worldviews threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism arise, however, different the perception from ‘very-crude’ (with recurrent-utter-uninstitutionalisation) to ‘seemingly polished’ (with our positivism—procrypticism\textsuperscript{86}) depending on prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83}. This is to point out that at uninstitutionalised-threshold\textsuperscript{102} temporal-dispositions as of relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} do not necessarily acquiesce to intemporality\textsuperscript{51}—asymmetric-subsumption-of-temporality\textsuperscript{98} or asymmetrisation (as Z’s … looking down on A, B, C, D, E and F mental-dispositions

challenged by its very own level of relative-ontological-incompleteness$^{88}$-induced,-‘threshold-

It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism\(^7\) without undermining the registry-worldview’s/dimension’s reference-of-thought\(^8\) itself as implied by its state of relative-ontological-incompleteness\(^8\)-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\)—preconverging/dementing\(^10\)—apriorising-psychologism’, for instance psychopathy in positivism–procrypticism\(^8\) or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as notional–deprocrypticism\(^17\) or positivism, it is in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\(^14\) as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\)), given that this fundamental relative-ontological-incompleteness\(^8\)-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\)—preconverging/dementing\(^10\)—apriorising-psychologism’ of the given registry-worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, by its ‘contextualising-contiguity of existence-potency–sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ means it is de-mentatively/structurally/paradigmatically bound to enculturate/endemise its given postlogism\(^7\). Obviously we can appreciate that without a positivistic outlook/reference-of-thought\(^8\) there is no chance that a non-
positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. Likewise the procrypticism—or—disjointedness-as-of-reference-of-thought wherein the perversion—of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—\rangle from a psychopathic character is contextually likely to be engaged with (as ‘prelogism—as-of-conviction,—as-to-profound-supererogation re-engaging reflex’) and even exploited (whether unconsciously, expediently or consciously), implies a comprehensive de-mentative/structural/paradigmatic undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional-deprocrypticism which is effectively the de-mentative/structural/paradigmatic resolution of psychopathy and social psychopathy (besides palliative conceptualisations that can hardly make a dent on the comprehensively defined de-mentative/structural/paradigmatic phenomenon in terms—as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the de-mentative/structural/paradigmatic ontological resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct de-mentative/structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively
‘nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications)} with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced,–‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ and accessorily its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of proscripticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-
channelling to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness\textsuperscript{88}-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism’ of our procrypticism\textsuperscript{88} and accessorially its enculturating/endemising of psychopathy and social psychopathy. Thus suprastructurally (beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}) and as of the ontological-normalcy/postconvergence ontological-completeness-of-reference-of-thought\textsuperscript{83} perspective, ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}—as-of-instantiative-context as to existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of- apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very- ontologically-same-existential-reality’ implies a transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} as ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ by maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation of prospective reference-of-thought\textsuperscript{83} as supratransversality—apriorising/axiomatising/referencing (as of higher ontological-completeness-of-reference-of-thought\textsuperscript{83} reflected in operant individuation terms as ‘coherence in depth of maximalising-recomposuring\textsuperscript{54}—for-relative- ontological-completeness\textsuperscript{87}—unenframed-conceptualisation/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} construal of reference-of-thought\textsuperscript{83}) over the preconverging- or-dementing\textsuperscript{19}—apriorising-psychologism and dialectically/contendingly-out-of-phasing of the prior reference-of-thought\textsuperscript{83} as subtransversality—apriorising/axiomatising/referencing (as of lesser ontological-completeness-of-reference-of-thought\textsuperscript{83} with respect to perversion\textsuperscript{74}—of-reference-of-thought\textsuperscript{83}<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-

This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation\(^{96}\)–postconverging/dialectical-thinking\(^{28}\)–apriorising-psychologism’ or prelogism\(^{78}\) in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation\(^{96}\)–postconverging/dialectical-thinking\(^{28}\)–apriorising-psychologism’ or prelogism\(^{78}\) is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism\(^{78}\)-as-of-conviction,-as-to-profound-supererogation\(^{96}\) (‘poor or bad supplanting–conviction-as-to-profound-supererogation\(^{96}\) of infinite deception possibilities with respect to the infinite possibilities of ‘perfect logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{9653}\) on the false basis of the perversion-and-derived-perversion\(^{74}\)-of-reference-of-thought\(^{83}\)\(<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\(^{96}\)\>\).

But while poor-or-bad prelogism\textsuperscript{78} may be what is perceived from a ‘normal’ social and supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. The psychopath is in a state of compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1896} or ‘compulsive-dementing’ (not recognising/giving-up-on the sound operation/processing of logic as the basis for deriving essence of meaning but rather perceiving meaning as just a hollow mimicking form that determines how others will act, more like a projection of form, i.e. compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism’ terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a ‘deliberative prelogism\textsuperscript{78}—as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} mental process’ with respect to its end purpose, and thus wrongly implying it is in ‘prelogism\textsuperscript{78}—as-of-conviction,-as-to-profound-supererogation\textsuperscript{96}, with the wrong idea that its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought\textsuperscript{83}-elements/registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99} are existentially veridical. The psychopath is operating on the basis of ‘a last mimicking denaturing\textsuperscript{15} postlogism\textsuperscript{77}—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{76}-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating-supererogatory—de-mentativity’, and so to satisfy ‘a faulty-mentation-procedure-deception-or-urge\textsuperscript{41}; and so, one narrative iteration at a time. Now the faulty-mentation-procedure-deception-or-urge\textsuperscript{42} implying ‘a supplanting—conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism deliberativeness’ is coming from its interlocutor’s ‘prelogism\textsuperscript{78}—as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} mind’ itself which prelogically/in-conviction-as-to-profound-supererogation\textsuperscript{96} (as the prelogism\textsuperscript{78}, which is wrongly induced in distractive-alignment-to-reference-of-thought\textsuperscript{83}<of-apriorising/axiomatising/referencing>>\textsuperscript{29}, conjoins all the denaturing\textsuperscript{15} postlogism\textsuperscript{77}—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{76}-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-
dementing\textsuperscript{19}-apriorising. That is to arrive at a sought-outcome by subknowledging\textsuperscript{94}-or-
mimicking the non-veridical hollow-form of the meaning of other persons supplanting–
conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-
psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and
actions of the ‘normal prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} mind’, i.e.
the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about
arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–
conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-
psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing\textsuperscript{19}-integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation\textsuperscript{96)—postconverging/dialectical-thinking\textsuperscript{28—apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism\textsuperscript{77} and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\textsuperscript{77}. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism\textsuperscript{77—of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1896} and the notion of a lie which is prelogism\textsuperscript{28—as-of-conviction,-as-to-profound-supererogation\textsuperscript{96 (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation\textsuperscript{96—postconverging/dialectical-thinking\textsuperscript{28—apriorising-psychologism’) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought\textsuperscript{83}/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-
The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-
reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^99\), with respect to construing meaningfulness as prelogism\(^78\)-as-of-conviction,-as-to-profound-supererogation\(^96\), but instead construes meaningfulness as postlogism\(^77\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^1096\)

explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity\(^38\)'s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\)-devolving\(^84\)-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity\(^38\)'s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\)-devolving\(^84\)-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism\(^78\)-as-of-conviction,-as-to-profound-supererogation\(^96\) mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity\(^38\)'s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\)-devolving\(^84\)-as-of-instantiative-context’, and this is the mechanism that induces
conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{19}-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting-conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting-conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge\textsuperscript{42} due to psychopathic developmental failure to relate to meaningfulness as of prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting-conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism alignment to its postlogic compulsing—nonconviction/madeupness/bottomlining—as-to-threshold-of-shallow-supererogation\textsuperscript{1096} narratives whereas at childhood psychopathy interlocutors will not align in-prelogic
supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{19}-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought\textsuperscript{83}/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing- or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653}), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83}/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought\textsuperscript{83}. Insightfully, it points out as well that the basis of the postlogism\textsuperscript{77}/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation\textsuperscript{96}, as it will
‘normally do’ with other prelogic supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—
postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism minds to a postlogism\textsuperscript{77}–as-of-
compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation\textsuperscript{1096} mind, and then wrongly validates that the postlogism\textsuperscript{77}–as-of-compulsing–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096} mind is
in prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96}. In order words, the operation
of the psychopathic mind as of its incomplete mentation development (as inclined to induce a
faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on
prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} but rather as based on
postlogism\textsuperscript{77}–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-supererogation\textsuperscript{1096} with its personality development into adulthood on this basis,
paradoxically leads to the prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} mind’s deception since the latter operates on the basis that everyone must be supplanting–
conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-
psychologism (be it ‘poor or bad supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—
postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism’ at worst) and the notion of
postlogism\textsuperscript{77}–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-supererogation\textsuperscript{1096} doesn’t register naturally except where the personality development
of the childhood psychopathy into an adult psychopath is experienced closely, and the
adulthood psychopath mentation processes structure can be retraced to the delirious mentation
processes structure at childhood psychopathy when it is universally transparent as
maturation/indirectness/spatialisation/credulity/craftiness continually developed during its
personality development into adulthood psychopathy now enables it becoming socially-
functional-and-accordant\textsuperscript{93}. This induced deception does not however occur at childhood
psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as
the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance of supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism manifestation of the interlocutor by compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation manifestation of the psychopath cross-perception effect’ wherein the supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutor reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity, while the psychopath view of the supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-
psychologism interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-{amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of its acts, at adulthood psychopathy the lack of such universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-{amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of the postlogism-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity disposition tends to be socially enculturated/endemised as of conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-{amplituming/formative–
epistemicity>totalising~in-relative-ontological-completeness\(^87\)) with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation\(^96\)—postconverging/dialectical-thinking\(^28\)—apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\(^49\), which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

having to do with the uninstitutionalised-threshold\textsuperscript{182} of all registry-worldviews/dimensions; as of metaphysics-of-presence and metaphysics-of-absence representations. First, ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ within the scope of a registry-worldview’s/dimension’s institutionalisation reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as-not-failing/upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{52} by a re-equilibrating metaphysics-of-absence/postdication). Then, ‘human temporal uninstitutionalised-threshold\textsuperscript{182} mental-disposition’ construed either ‘as out of the scope of the registry-worldview’s/dimension’s institutionalisation reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ or ‘the registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{182} reference-of-thought\textsuperscript{83}, (as-failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘by projected <amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}–narratives—of-the-reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}) of the registry-worldview/dimension institutionalisation reference-of-thought\textsuperscript{83}, as of an ontological-normalcy/postconvergence epistemic/notional-projective-perspective) as so reflected from the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. 'decentering and dialectical~de-mentation of its reference-of-thought\textsuperscript{83}; which we can effectively acquiesce to as of the uninstitutionalised-threshold\textsuperscript{102} but will rather have a mental complex when this is implied prospectively to imply our uninstitutionalised-threshold\textsuperscript{102} as procrypticism\textsuperscript{80}, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold\textsuperscript{102} is implied. Thus this implied human ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity\textsuperscript{68}–of-reference-of-thought\textsuperscript{83}’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure\textsubscript{<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>}} peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought\textsuperscript{83}/consciousness-awareness-teleology\textsuperscript{99}; whether as recurrent-utter-uninstitutionalisation psychologism, base-instutitonalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism\textsuperscript{80} psychologism, and prospectively notional–deprocrypticism\textsuperscript{17} psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism’ as of their relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83}-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-
contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism\textsuperscript{17} as decentering and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism the positivism–procrypticism\textsuperscript{80} registry-worldview reference-of-thought\textsuperscript{83} will certainly imply an altogether different psychologism of meaningfulness-and-teleology\textsuperscript{9955} as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought\textsuperscript{83} of meaningfulness-and-teleology\textsuperscript{9955} with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening\textsuperscript{52}) a renewing of mindset/reference-of-thought\textsuperscript{83} of meaningfulness-and-teleology\textsuperscript{9955} with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} leading to the successive registry-worldviews/dimensions reference-of-thought\textsuperscript{83} psychologisms/psychologism-constructs, and implied prospectively as well with the notional–deprocrypticism\textsuperscript{17} worldview/dimension reference-of-thought\textsuperscript{83} psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} psychologism up to its own registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} psychologism as of its more profound existential-contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context in reflecting/perspectivating their relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}-induced-virtuality-or-ontologically-
flawed-construal-or-caricaturing-hollow-staging-and-performance. Hence this articulation of successive registry-worldviews/dimensions reference-of-thought\textsuperscript{83} psychologisms up to the deprocrypticism\textsuperscript{17}, is an initiation into notional–deprocrypticism\textsuperscript{17} psychologism as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its more profound existential-contextualising-contiguity\textsuperscript{88}\textsuperscript{s}-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84} as-of-instantiative-context in reflecting/perspectivating the relative-ontological-incompleteness\textsuperscript{88} of-reference-of-thought\textsuperscript{83}-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance of positivism–procrypticism\textsuperscript{99} and all the lower registry-worldviews/dimensions. Basically, this idea of ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ as metaphysics-of-absence points out that ontological analysis should rather be from the prospectively implied ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’, and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} registry-worldview reference-of-thought\textsuperscript{83} and not the present positivism–procrypticism\textsuperscript{80}, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought\textsuperscript{83} and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought\textsuperscript{83}; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{85}, so construed in order to supersedes its dementative/structural/paradigmatic vices-and-impediments\textsuperscript{105}. Structural/paradigmatically/dementatively, this idea extends to all issues implying metaphysics-of-absence ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’. This brings home the underlying notion of
rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to
critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework\textsuperscript{72},’ that has accompanied human limited-mentation-capacity-deepening\textsuperscript{52} in construing/conceptualising meaningfulness-and-teleology\textsuperscript{9955}. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening\textsuperscript{52} that actually is behind all threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism
that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence and metaphysics-of-absence ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} psychologism, notional–deprocrypticism\textsuperscript{17} psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant\textsuperscript{93}. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/suplererogatory–de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology\textsuperscript{9955} frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought\textsuperscript{83} in a non-positivistic social-setup should not be about elaborating meaning as of
positivistic meaningfulness-and-teleology\textsuperscript{995} to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought\textsuperscript{83} is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable temporal-to-intemporal-dispositions nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold\textsuperscript{1023}, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought\textsuperscript{83}–categorical-imperatives/axiomsregistry-teleology\textsuperscript{998},–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity\textsuperscript{38}′s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}–devolving\textsuperscript{84}–as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-

Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity\textsuperscript{68} but for failure in performance as defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96\textsuperscript{53}} of the registry-worldview’s/dimension’s–reference-of-thought\textsuperscript{83}–for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening\textsuperscript{52} with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency\textsuperscript{184}\textsuperscript{-}(transparency-of-totalising-entailing,-as-to-entailing-\textlangle amplituding/formative-epistemicity\textrangle totalising-in-relative-ontological-completeness\textsuperscript{87}) required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold\textsuperscript{102}, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ as of existential-contextualising-contiguity\textsuperscript{38}\textsuperscript{s}-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the \textlangle amplituding/formative\textrangle wooden-

Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought as-of-incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-

This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness\textsuperscript{12} with no conventioning complexes’! (As a reminder, the notion of intemporality\textsuperscript{51}/temporality\textsuperscript{98} is an ontological-as-of-being construct and the apparent references 1647
to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such
that it is important to grasp that all notions articulated herein are ontological, just as the notions

apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism meaningfulness-and-teleology\textsuperscript{9955} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism\textsuperscript{77} and derived conjugated-postlogism\textsuperscript{77}, human reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology\textsuperscript{99}–in-existential-extrication-as-of-existential-unthought\textsuperscript{6}) given our relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\textsuperscript{102}. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology\textsuperscript{9955}) of all human institutions, and particularly where social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{83}) is blurred and not forthcoming as logic tends out to be an issue of
making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation\textsuperscript{96}-at-the-other-moment in a circular reference-of-thought\textsuperscript{83}. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}) to postlogism\textsuperscript{77}-slantedness. This reality of our reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold\textsuperscript{102} and as associated with postlogism\textsuperscript{77} as conjugated-postlogism\textsuperscript{77} is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism and reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} de-convergence as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}. Such a distinction particular at the uninstitutionalised-threshold\textsuperscript{102} is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought\textsuperscript{83} as of reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} in the first place to establish or not perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}–<as-effectively-apriorising-
in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955}) to intemporal (longness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955}) individuations nature as implicitly recognised in the de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology\textsuperscript{9955} construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought\textsuperscript{83}—prologism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold\textsuperscript{102}’ the possibility of the ontological-veridicality of interlocutors threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism and reference-of-thought\textsuperscript{83}—prologism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} critically explains how the successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposured going by the fact that projective-insights about prior registry-worldview/dimension threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism as of prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} is what needs to be superseded for prospective registry-worldview/dimension institutionalisation prospective relative-ontological-
completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} effective reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} (as operant construal) by social universal-transparency\textsuperscript{184}–(transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) rendering the prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold\textsuperscript{182} has to do with the possibility of attaining or not attaining social universal-transparency\textsuperscript{184}–(transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}). Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism) with regards to reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96}. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology\textsuperscript{9955}, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency\textsuperscript{184}–(transparency-of-totalising-entailing,–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. This imbued potency in social universal-transparency\textsuperscript{184}–(transparency-of-totalising-entailing,–as-to-entailing–
amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^87\)) across
all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire
construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-
thought\(^83\)–prelogism\(^78\)-as-of-conviction-,as-to-profound-supererogation\(^96\) to meaningfulness-
and-teleology\(^99\) as of both the individual’s expectation and the social’s expectation such that
failure in this respect arises mostly surreptitiously since even the most disingenuous
individuation will want the social-construct to function well in order to ‘parasitise’ it, as a
failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even
such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant
will tend to advance, however dubious, a rationale that is meant to be socially functional.

reference-of-thought\textsuperscript{388} is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism\textsuperscript{77} for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism\textsuperscript{77} derived threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism, and so overall, on the flawed mental-reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism is supposedly reference-of-thought\textsuperscript{83}–prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound-supererogation\textsuperscript{96} (as to the lack of constraining social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,–as-to-entailing–\langle \text{amplituding/formative–epistemicity} \rangle \text{totalising–in-relative-ontological-completeness}\textsuperscript{87})). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism\textsuperscript{77} as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism doesn’t socially take hold then, as such childhood postlogism\textsuperscript{77} perversion\textsuperscript{74}–of-reference-of-thought\textsuperscript{83}–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> hasn’t superseded the social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,–as-to-entailing–\langle \text{amplituding/formative–epistemicity} \rangle \text{totalising–in-relative-ontological-completeness}\textsuperscript{87} in further inducing temporal-dispositions derived-perversion\textsuperscript{74}–of-reference-of-thought\textsuperscript{83}–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory dementating/structuring/paradigmimg, and not by ontological-veridicality insight as of de-
prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought\textsuperscript{83} before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought\textsuperscript{83} had moved on to the new/prospective meaningfulness-and-teleology\textsuperscript{9955} which is now antipodal to his, hence his confliction with his circular-pervasiveness <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{9955}-as-of-'nondescript/ignorable–void\textsuperscript{59} with regards-to-prospective-apriorising-implications>) which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{9955}-as-of-'nondescript/ignorable–void\textsuperscript{59} with regards-to-prospective-apriorising-implications>) when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought\textsuperscript{83} with regards to meaningfulness-and-teleology\textsuperscript{9955} construal where Nunez’s ‘seeing of the environment’ reference-of-thought\textsuperscript{83} as of it prospective relative-ontological-completeness\textsuperscript{87} of axiomatic-construct-or-reference-of-thought\textsuperscript{83} doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought\textsuperscript{83} as of its prior relative-ontological-incompleteness\textsuperscript{88}. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought\textsuperscript{83} as ‘feeling of the environment’ explaining why a registry-worldview is a <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{9955}-as-of-'nondescript/ignorable–void\textsuperscript{59} with regards-to-prospective-apriorising-implications>) that hardly entertains its own transcendability/de-
mentability, and why transcendence-and-sublimity/sublimation/superrerogatory—is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought, despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought."
notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising}/\text{circumscribing}/\text{delineating reference-of-thought}^{83}\)-devolving-as-of-instantiative-context—meaningfulness-and-teleology\(^{9955}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{9653}\) validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising}/\text{circumscribing}/\text{delineating reference-of-thought}^{83}\)-devolving-as-of-instantiative-context—meaningfulness-and-teleology\(^{9955}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising}/\text{circumscribing}/\text{delineating reference-of-thought}^{83}\)-devolving-as-of-instantiative-context—meaningfulness-and-teleology\(^{9955}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold\(^{482}\) as of its ontologising-deficiency/relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\), thus qualified as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{9653}\) validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/reference-of-thought\(^{83}\)

We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening\textsuperscript{52} as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought\textsuperscript{83} under which their respective predicative-insights construct their respective meaningfulness-and-teleology\textsuperscript{9955}, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different successive registry-worldviews/dimensions for meaningfulness-and-teleology\textsuperscript{9955}’), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\(^\text{14}\) with the prior ontologically construed as decentered and preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism as of distractive-alignment-to-reference-of-thought\(^\text{83}\)–<of-apriorising/axiomatising/referencing>\(^\text{29}\), with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought\(^\text{83}\) with their God of plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism\(^\text{17}\)) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought\(^\text{83}\) (as the author in here with a supposed notional–deprocrypticism\(^\text{17}\) reference-of-thought\(^\text{83}\) construal as implying a prospective relative-ontological-completeness\(^\text{87}\)-of-reference-of-thought\(^\text{83}\) over our positivism–procrypticism\(^\text{80}\)), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought\(^\text{83}\) in striving to explicate the ontological pre-emminence of the prospective reference-of-thought\(^\text{83}\) as of ontological-normalcy/'postconvergence, thus facing the dilemma that by
mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought⁸³ being construed as ‘preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism⁸⁰ uninstitutionalisation as preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold¹⁰² will react when construed as preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing¹⁹–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology⁹⁵⁵ as of prospective depcrypticism–or–preempting—disjointedness-as-of-reference-of-thought⁸³⁷ perspective as in disjointedness-as-of-reference-of-thought⁸³ and rather in distractive-alignment-to-reference-of-thought⁸³–<of-apriorising/axiomatising/referencing>²⁹ ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising³²–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought⁸³ is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought⁸³ implies a change of
perspective/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-of-meaningfulness-and-teleology\textsuperscript{9955} as a shift of the curve-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}/axiomatic-construct and not a change in logic as a change along the same reference-of-thought\textsuperscript{83}/curve-of-prior-relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}/logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653}. In other words, a truly direct notional~deprocrypticism\textsuperscript{17} ontological analysis will be a ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism of our positivism—procrypticism\textsuperscript{88} as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought\textsuperscript{83} (as we don’t engage it on the basis of the non-positivistic reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955} just as a notional~deprocrypticism\textsuperscript{17} analysis will not engage us on the basis of our procrypticism—or—disjointedness-as-of-reference-of-thought\textsuperscript{83} reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955}, and so in both cases as of the relative ontologising-deficiency:relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} of non-positivism and procrypticism—or—disjointedness-as-of-reference-of-thought\textsuperscript{83} reference-of-thought\textsuperscript{83} of non-positivism and procrypticism—or—disjointedness-as-of-reference-of-thought\textsuperscript{83} reference-of-thought\textsuperscript{83}). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought\textsuperscript{83}, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} over prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}’ took place historically (and so for instance, as of
the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology\(^{9955}\); considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism\(^{17}\) construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism\(^{80}\) uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought\(^{83}\) reference-of-thought\(^{83}\)-categorical-imperatives/axioms/registry-teleology\(^{998}\) failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism\(^{17}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism\(^{80}\) as preconverging-or-dementing\(^{19}\)–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology\(^{9955}\) in positivism–procrypticism\(^{80}\) terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought\(^{83}\). (More like a non-positivistic mindset/reference-of-thought\(^{83}\) insisting to contendingly engage a positivistic mindset/reference-of-thought\(^{83}\) but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought\(^{83}\) as of its prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-

Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{9653}\), issues of perversion-and-derived-perversion\(^{74}\)–of-reference-of-thought\(^{83}\)–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\) rather render such notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments\(^{185}\) as when so-construed as a <amplituding/formative>wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\(^{19}\)–narratives—of-the-reference-of-thought\(^{83}\)–categorical-imperatives/axioms/registry-teleology\(^{998}\)}
over-non-rules—apriorising/axiomatising/referencing—psychologism in procrypticism\textsuperscript{88}, and thus requiring respectively transcending/superseding to base-institutionalisation, universalisation, positivism and deprocrypticism\textsuperscript{17}. And by that same ‘ironic token’ the notion of grander human lives should not be construed as of the mental-disposition perpetuating the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} in an opened-construct-of–meaningfulness-and-teleology\textsuperscript{9955} allowing for reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ but rather \textit{<amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of–

In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived-perversion\textsuperscript{74}–of-reference-of-thought\textsuperscript{83}–<as-effectively-apriorising-in

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> is rather vague, as the more fundamental issue here is that human meaningfulness-and-teleology\textsuperscript{9955} as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}, and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism\textsuperscript{17} as of ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring and so allowed by de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness of-reference-of-thought with no recognition of any such ontological-contiguity–of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion–of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplitting/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity–of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised
mental state to have a positive psychology when its fundamental de-
mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—
apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology
construal/conceptualisation? And the same can be asked of us with regards to our positivism—
procrpticism\textsuperscript{80} disjointedness-as-of-reference-of-thought\textsuperscript{83}. In which case such vague
approaches will simply imply beyond-the-consciousness-awareness-teleology\textsuperscript{99}—in-existential-
extrication-as-of-existential-unthought\textsuperscript{6} naïve perpetuation in \textit{amplituding/formative—

Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} as of their prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} while our positivism registry-worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} is always of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as ‘a preconverging-or-dementing\textsuperscript{19}-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} positivism–procrypticism\textsuperscript{88} placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} as unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83}, from the ‘prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} of notional–deprocrypticism\textsuperscript{17} as of its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} as ‘a postconverging-or-dialectical-thinking\textsuperscript{28}-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} as soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought\textsuperscript{83}, we are rather less apt to concur going by our <\textit{amplituding}/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} reflex such that such notions as
forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> as of our relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}, and what we are doing then is ‘re-referencing from the same positivism–procrypticism\textsuperscript{88} relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} and thus wrongly implying our unde-mentability hence our untranscendability for a de-mentative/structural/paradigmatic reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology\textsuperscript{99} temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments\textsuperscript{105} like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} is inherently a
metaphysics-of-presence construed as postconverging-or-dialectical-thinking\textsuperscript{28}-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought\textsuperscript{83} that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought\textsuperscript{83} which rather construes it as a preconverging-or-dementing\textsuperscript{19}-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83}. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} and a prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, the former is priorly invalidated into a preconverging-or-dementing\textsuperscript{19}-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83} by the latter as a postconverging-or-dialectical-thinking\textsuperscript{28}-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought\textsuperscript{83}, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} with respect to its prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}. But since we have been habituated as of our existential formation within our <amplituding/formative>wooden-language⟨imbued—averaging-of-thought−⟩as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}−as-of−
‘nondescript/ignoreable–void’-with-regards-to-prospective-apriorising-implications> to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional–deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a unde-mentability posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry–teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared
to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of meaningfulness-and-teleology\textsuperscript{9955}, which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a \textlangle\textless amplituding/formative\textgreater\texttextlang{wooden-language}{\textlangle\textlangle imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}—as-of—nondescript/ignorable—void\textsuperscript{69—with-regards-to—prospective-apriorising-implications>\rangle} start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional–deprocrypticism\textsuperscript{17} prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism of positivism–procrypticism\textsuperscript{88} meaningfulness-and-teleology\textsuperscript{9955} at its procrypticism\textsuperscript{88} uninstitutionalisation as of disjointedness-as-of-reference-of-thought\textsuperscript{83} from notional–deprocrypticism\textsuperscript{17}

apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a
demonstration might be construed as of a simple paper plane demonstration of ontological-
primemovers-totalitative-framework\textsuperscript{72} principles or extraordinarily a flight from the flight deck
with explanation or more extensively articulating that things work by natural causes and effects
with no spirits inside them thus implying that a positivism-centered meaningfulness-and-

incidenting-predicative-insights of all the uninstitutionalised-threshold\textsuperscript{102} reference-of-thought\textsuperscript{83} with respect to the ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought\textsuperscript{83}. The bigger point being that by definition a reference-of-thought\textsuperscript{83} doesn’t fathom the nature and degree of its relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting notional–deprocrypticism\textsuperscript{17} in positivism–procrypticism\textsuperscript{80} will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework\textsuperscript{72} and percolation-channelling involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring behind the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as pertinent for notional–deprocrypticism\textsuperscript{17} ‘without in the very least entertaining’ the \textlangle amplituding/formative\rangle wooden-language\{imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}–as–of–‘nondescript/ignorable–void\textsuperscript{59}\}-with-regards-to-prospective-apriorising-implications\textrangle mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> that has always been a drawback as of temporal extricatory de-mentating/structuring/paradigming

Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments\textsuperscript{105} as of the transcendental prospective positivism prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercratory-de-mentativity as intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought\textsuperscript{83}, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior
relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} social referencing of meaningfulness-and-teleology\textsuperscript{9955} which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation\textsuperscript{14} (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} by ‘continuous habituation going by the latter’s ontological-prime-movers-totalitative-framework\textsuperscript{72} in the long run as superseding the prior beyond-the-consciousness-awareness-teleology\textsuperscript{79}-<in-existential-extrication-as-of-existential-unthought> and initiating the appropriate prospective social universal-transparency\textsuperscript{104}-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{87}> that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought\textsuperscript{83} into a positivistic mindset/reference-of-thought\textsuperscript{83} that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procripticism\textsuperscript{80} prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as of its circular-pervasiveness in countenancing of procripticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8388} from apriorising/axiomatising/referencing/intelligibility-setup/measuring-instrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology\textsuperscript{9955} as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-
teleology\textsuperscript{995} of our positivism–procrypticism\textsuperscript{80} that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-reference-of-thought\textsuperscript{83}’ and the enculturation/endemisation of the manifest postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} in our positivism–procrypticism\textsuperscript{80} as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism\textsuperscript{80} circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought\textsuperscript{83}’ of meaningfulness-and-teleology\textsuperscript{995}, beyond-the-consciousness-awareness-teleology\textsuperscript{99},<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments\textsuperscript{105} implications of postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} including psychopathy and social psychopathy arising given the relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} of our procrypticism\textsuperscript{80} as disjointedness-as-of-reference-of-thought\textsuperscript{83}. This explains how and why re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking\textsuperscript{28},‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{121}–of-notional–deprocrypticism\textsuperscript{17},prospective-sublimation⟩\textsuperscript{90} ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency\textsuperscript{104},⟨transparency-of-totalising-entailing, as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness\textsuperscript{87}⟩ at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency\textsuperscript{104}, ⟨transparency-of-totalising-entailing, as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness\textsuperscript{87}⟩ turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be
grasped that the comprehensiveness/dynamic-cumulative-affereffect of a registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism (as an operant construal) at its uninstitutionalised-threshold\textsuperscript{102} is what defines it as uninstitutionalised-threshold\textsuperscript{102} which is decentered and preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought\textsuperscript{83}—prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. The fact is by mental-reflex we relate to social meaningfulness-and-teleology\textsuperscript{9955} by constitutedness\textsuperscript{13} as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} which by habit or chance will often turn out to be as of existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context as of the institutionalisation ambits of the domain-of-concern precedingly so-established/so-institutionalised by maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} is not ontologically superseded as at uninstitutionalised-threshold\textsuperscript{102}. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold\textsuperscript{102}. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation) of a reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology \(^{9955}\) as of conflation\(^{12}\) that enables such a certitude at uninstitutionalised-threshold\(^{102}\) of an epistemic-totalising\(^{22}\)-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that reference-of-thought\(^{83}\)–categorical-imperatives/axioms/registry-teleology\(^{998}\),-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology \(^{9955}\) of the social at uninstitutionalised-threshold\(^{102}\) involves a totalising-entailing/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–
esternalism-form-factor but we fail to do this due to our \(<\text{amplituding} \text{/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag}\(^{33}\)
metaphysics-of-presence disposition as of institutionalisation and thus wrongly implying
intemporal construal as of our secondnatured institutionalisation which while inconsequential
within the ambits institutionalisation is not ontologically-veridical at the institutionalisation
uninstitutionalised-threshold\(^{102}\) with the latter rather requiring a temporal-to-intemporal
appraisal as of metaphysics-of-absence as its reference-of-thought\(^{83}\)–categorical-
imperatives/axioms/registry-teleology\(^{998}\),-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology \(^{9955}\).
The implication is that postlogism\(^{77}\)/psychopathy and other human temporal phenomena (and
so, across all registry-worldviews) which speak of uninstitutionalised-threshold\(^{102}\) are often
wrongfully construed on the basis of intemporal secondnatured institutionalisation human
nature whereas the conflatedness\(^{12}\) requires ‘synopsising-depth of a human temporal-to-
intemporal nature’ and so by conflatedness\(^{12}\) to establish the uninstitutionalised-threshold\(^{102}\)
reference-of-thought\(^{83}\)–categorical-imperatives/axioms/registry-teleology\(^{998}\),-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} rather as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold\textsuperscript{102}, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought\textsuperscript{83}/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existent-contextualising-contiguity\textsuperscript{38} (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold\textsuperscript{102} which require their own new specific reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existent-contextualising-contiguity\textsuperscript{38}. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold\textsuperscript{102} situation which is necessarily beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-
extrication-as-of-existential-unthought>⁶ and without social universal-transparency⁸⁴-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⁸⁷) of the visitor. This example is exactly along the lines of the reference-of-thought⁸³–categorical-imperatives/axioms/registry-teleology⁹⁹⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology⁹⁹⁵ needed for construing postlogism⁷⁷/psychopathy and conjugated-postlogism⁷⁷ as of its social model at uninstitutionalised-threshold¹⁴², and so by way of maximalising-recomposing⁵⁴-for-relative-ontological-completeness⁸⁷—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposing existential-contextualising-contiguity³⁸'s-reifying/elucidating-of-prospective-relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³-devolving⁸⁴-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity³⁸ which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity³⁸ on the basis of the established reference-of-thought⁸³–categorical-imperatives/axioms/registry-teleology⁹⁹⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology⁹⁹⁵. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology⁹⁹⁵ before the institutionalisation of such a specific uninstitutionalised-threshold¹⁴² takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-
elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism\textsuperscript{80} that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism\textsuperscript{80} or ‘disjointedness-as-of-reference-of-thought\textsuperscript{83}–as-misappropriated–meaningfulness-and-teleology\textsuperscript{9955} going by the visitor’s relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} as of positivism–procrypticism\textsuperscript{80}, while the explainer of the situation has factored in notional–deprocrypticism\textsuperscript{17} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}\textsuperscript{-},for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} to preempt the induced procrypticism\textsuperscript{80} or ‘disjointedness-as-of-reference-of-thought\textsuperscript{83}–as-misappropriated–meaningfulness-and-teleology\textsuperscript{9955} from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocrypticism\textsuperscript{17} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} to preempt the slanted inducing of procrypticism\textsuperscript{80} or ‘disjointedness-as-of-reference-of-thought\textsuperscript{83}–as-misappropriated–meaningfulness-and-teleology\textsuperscript{9955} and gives up on positivism–procrypticism\textsuperscript{80} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold\textsuperscript{102} with respect to the childhood psychopathy, a new notional–deprocrypticism\textsuperscript{17} reference-of-thought\textsuperscript{83}–categorical-
imperatives/axioms/registry-teleology\textsuperscript{998}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} has superseded the prior positivism–procrypticism\textsuperscript{80} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism\textsuperscript{77}/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism\textsuperscript{77}/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49} as of habits and thinking patterns consequences as of the extended-informality–(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology\textsuperscript{9955}) by formality dynamics; with the implication of lack of social universal-transparency\textsuperscript{384}–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{87}) as the manifestation is beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} at this uninstitutionalised-threshold\textsuperscript{182}, together with the inherent human complex of non-transcendability and hence unde-mentability across all the registry-
worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a
straightforward articulation going by the incidental situation of such an individuation-level

However, we can still get a sense of such de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644} from a retrospective registry-worldview/dimension perspective like postlogism\textsuperscript{77} in a non-positivistic social-setup as of our prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} perspective but it is more difficult to grasp from a notional–deprocrypticism\textsuperscript{17} prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} as it effectively has
greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of synergetising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. This new positivism reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} will more likely be taken-up-fully/habituated only crossgenerationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of the prior non-positivism reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}, highlighting that a postlogism\textsuperscript{77} like psychopathy in our positivism–procrypticism\textsuperscript{80} or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} as beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} and ‘lack of constraining social universal-transparency\textsuperscript{104}–{transparency-of-totalising- entail- ing, as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}}; such that implying that our prior positivism–procrypticism\textsuperscript{80}, as of its reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will be difficult to countenance but for a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbeliefed in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrypticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity–<profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>–with superstitious claims in its meaningfulness-and-teleology. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism–as-of-conviction–as-to-profound-supererogation conflatedness as of positivism reference-of
thought$^{83}$–categorical-imperatives/axioms/registry-teleology$^{998}$, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology$^{9955}$, going by their familiarisation with the childhood psychopathy ‘logically-undue postlogism$^{77}$-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation$^{1096}$ denaturing$^{15}$ as of non-positivism reference-of-thought$^{83}$–categorical-imperatives/axioms/registry-teleology$^{998}$, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology$^{9955}$, over the visiting stranger prior superstition believing ‘logically-undue conjugated-postlogism$^{77}$/conjugated–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation$^{96}$ derived-denaturing$^{15}$ as of non-positivism reference-of-thought$^{83}$–categorical-imperatives/axioms/registry-teleology$^{998}$, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology$^{9955}$, with both latter logically reference-of-thought$^{83}$ construed as of distractive-alignment-to-reference-of-thought$^{83}$<of-apriorising/axiomatising/referencing>$^{29}$ or lacking-an-ontologically-veridical-reference-of-thought$^{83}$ due to their derived-denaturing$^{15}$ which as of dynamic-cumulative-aftereffect/aftereffect at registry-worldview/dimension-level of analysis is the very ontologically-central notion of every registry-worldview/dimension uninstitutionalised-threshold$^{1082}$ which should thus be always construed as being in distractive-alignment-to-reference-of-thought$^{83}$<of-apriorising/axiomatising/referencing>$^{29}$ with respect to its prospective institutionalisation. It is effectively derived-denaturing$^{15}$ that induces threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation$^{96}$— preconverging/dementing$^{19}$–apriorising-psychologism as of uninstitutionalised-threshold$^{1082}$, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology$^{9955}$ are in effect ontologically-speaking threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation$^{96}$—
preconverging/dementing\textsuperscript{10}–apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism\textsuperscript{77} analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} conflatedness\textsuperscript{12} as of positivism reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}, \textit{with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as the non-positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension in relation to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} registry-worldview/dimension is a \textit{<amplituding/formative>wooden-language-(<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable–void\textsuperscript{69}-with-regards-to-prospective-apriorising-implications>) just as our positivism–procrypticism\textsuperscript{88} registry-worldview/dimension in relation to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} registry-worldview/dimension is a \textit{<amplituding/formative>wooden-language-(<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable–void\textsuperscript{69}-with-regards-to-prospective-apriorising-implications>)}, in that as with all registry-worldviews/dimensions both do not contemplate of their transcendability and thus de-mentability, and keep on relapsing into their respective non-positivism and
procrypticism\textsuperscript{88} reference-of-thought\textsuperscript{83–categorical-imperatives/axioms/registry-teleology}\textsuperscript{998}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} in lieu of the respective prospective positivism and notional–deprocrypticism\textsuperscript{17} reference-of-thought\textsuperscript{83–categorical-imperatives/axioms/registry-teleology}\textsuperscript{998}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} as of prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This insight equally explains the pertinence of understanding postlogism\textsuperscript{77}/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality-of-affirmative-and-unaffirmative–disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} disruptive nature on human meaningfulness-and-teleology\textsuperscript{9955}, and with the de-mentating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism\textsuperscript{77} in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{77} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought\textsuperscript{83–categorical-imperatives/axioms/registry-teleology}\textsuperscript{998}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}
and a conventioning positivism–procripticism\textsuperscript{80} as procripticism\textsuperscript{80} in lieu of an ontologically-veridical notional–deprocripticism\textsuperscript{17} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{77}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought\textsuperscript{83}<-of-apriorising/axiomatising/referencing>\textsuperscript{29} as undermining conflatedness\textsuperscript{12} induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism\textsuperscript{77} as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought\textsuperscript{83} but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96}-of-reference-of-thought\textsuperscript{83}’ is in an ‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness\textsuperscript{12} as of its asymmetrisation with respect to
the visitor whose reference-of-thought\textsuperscript{83} ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as not factoring in the childhood psychopathy postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096}-of-reference-of-thought\textsuperscript{83} which is ‘pathologically ontologically destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83} and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a reference-of-thought\textsuperscript{83}/axiomatic-construct is fundamentally construed as of its soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought\textsuperscript{83} prior to the notion of logical-dueness arising once soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought\textsuperscript{83} is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought\textsuperscript{83}/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context as contextually-manifest prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} in contrast to the visitor’s ‘supposed reference-of-thought\textsuperscript{83}/axiomatic-construct’ which is non-existential/non-ontological as not-of-existential-contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context as contextually-manifest prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}. It is this fundamental fact that underlies the notion of ‘distractiveness or arrogation or usurpation or co-opting’ associated with the construal of the meaningfulness-and-teleology\textsuperscript{9955} of temporal-dispositions perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> as threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—
preconverging/dementing\textsuperscript{10}—apriorising-psychologism in relation to intemporal meaningfulness-and-teleology\textsuperscript{9955} as ontological; as such symmetrisation and subsequent desymmetrisation will wrongfully lead to the reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955} of the visitor’s reference-of-thought\textsuperscript{83} so ontologically-destructured by the childhood psychopathy postlogism\textsuperscript{77} ‘dereifying act’ of spilling water on a chair and accusing another, thereby undermining ontological-veridicality where logic-as-of-prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} is wrongly assumed thus supposedly implying logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction—as-to-profound-supererogation\textsuperscript{96}\textsuperscript{53} is now to be engaged on the basis of the visitor’s ontologically-destructured reference-of-thought\textsuperscript{83}/axiomatic-construct rather than implying the reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955} of the explainer of the situation reference-of-thought\textsuperscript{83}/axiomatic-construct as soundness-or-ontological-good-faith/authenticity\textsuperscript{68}—of-reference-of-thought\textsuperscript{83} and the visitors and childhood psychopathy ‘reference-of-thought\textsuperscript{83}—degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{82}, unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}—of-reference-of-thought\textsuperscript{83}. The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} lies entirely/exclusively/supersedingly on the reference-of-thought\textsuperscript{83}/axiomatic-construct/curve-of-prospective-relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} of the explainer of the situation while the logical-dueness of the visitor’s ‘supposed but rather non-existential/non-ontological reference-of-thought\textsuperscript{83}/axiomatic-construct/curve-of-prior-relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} doesn’t even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology\textsuperscript{9955} is operantly qualified as of ‘distractiveness’/distractive-alignment/dismissal-
as-being-in-arrogation and so more aptly as distractive-alignment-to-reference-of-thought\textsuperscript{83-<of-apriorising/axiomatising/referencing>\textsuperscript{29}}. Distractiveness as it implies that in such a context, ontological-veridicality is construed exclusively as of intemporal prelogism\textsuperscript{78-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} reference-of-thought\textsuperscript{83} conflatedness\textsuperscript{12} denning any implied symmetrising of meaningfulness-and-teleology\textsuperscript{9955} from temporal-dispositions in perversion-and-derived-perversion\textsuperscript{74-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> as their logical-dueness doesn’t arise in the very first place, hence the reason why perversion-and-derived-perversion\textsuperscript{74-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> is construed more than just as of ‘destructuring’ but more completely and critically to avoid misconstrual rather as of distractive-alignment-to-reference-of-thought\textsuperscript{83-<of-apriorising/axiomatising/referencing>\textsuperscript{29}}; to point out that temporal-dispositions perversion-and-derived-perversion\textsuperscript{74-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> haven’t got any ‘existentially/ontologically transcendental-enabling/sublimating/supererogatory-de-mentativity reference-of-thought\textsuperscript{83} given that they are in arrogation/usurpation/co-opting but rather the reality of their perversion-and-derived-perversion\textsuperscript{74-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> is construed operantly as of temporal postlogism\textsuperscript{77-as-of-compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1096}-and-conjugated-postlogism\textsuperscript{77} ‘exercise of distracting from’ the intemporal prelogism\textsuperscript{78-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} reference-of-thought\textsuperscript{83} as of conflatedness\textsuperscript{12}, and so construed as distractive-alignment-to-reference-of-thought\textsuperscript{83-<of-apriorising/axiomatising/referencing>\textsuperscript{29}}. That is, a ‘temporality\textsuperscript{98} distracting from

In other words, prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} is ‘precedingly/supersedingly dementatively/structurally/paradigmatically cogent and comprehensive framework of meaningfulness-and-teleology\textsuperscript{9955}', such that any arising temporal disruption of meaningfulness-and-teleology\textsuperscript{9955} ‘has nothing to do with constituting meaningfulness-and-teleology\textsuperscript{9955} as of the temporal disruption prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}, but rather meaningfulness-and-teleology\textsuperscript{9955} is reconstrued as dementating/structuring/paradigming from the very prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} itself. Consider the case of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{81}-<as-effectively-apriorising-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> as of relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} and intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. One cannot depart from both ‘the state of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-

The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and-teleology\textsuperscript{9955} that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} over our positivism–procrypticism\textsuperscript{80}. The point here is to highlight that ‘conflatedness\textsuperscript{12}’ doesn’t imply any symmetrisation of meaningfulness-and-teleology\textsuperscript{9955} with regards to perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83} as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> since the latter is de-mentatively/structurally/paradigmatically not logically-due for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter de-

We can appreciate that the childhood psychopathy ‘dereifying act’ of spilling water on a chair is a distractiveness-drive with no existentially/ontologically veridical reference-of-thought\textsuperscript{83} which when wrongly implied as valid prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} reference-of-thought\textsuperscript{83}/axiomatic-construct leads to its reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955} wrongly transforming the issue into one of logic-as-of-prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} thus supposedly implying logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} by wrongly enabling logical-dueness to arise instead of an issue of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83} implying its dismissal as distractive-alignment-to-reference-of-thought\textsuperscript{83}-<of-apriorising/axiomatising/referencing>\textsuperscript{29} ; and this flaw extends into the visitor’s conjugated-postlogism\textsuperscript{77} as conjugated-ignorance given its relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} as of positivism—procrypticism\textsuperscript{88} disjointedness-as-of-reference-of-thought\textsuperscript{83} which is cognisant-and-integrative as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86}/dereification of the childhood psychopathy slantedness, and so as a derived-distractiveness-drive with no

notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-

tends to be falsely implied in situations of postlogism\textsuperscript{77}/psychopathy and conjugated-

back to the fundamental issue of perversion-and-derived-perversion\textsuperscript{74}—of-reference-of-

Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology\textsuperscript{9955} as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism\textsuperscript{77}/psychopathy phenomenon relatively resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-complexification registry-worldview/dimension-level of more surreptitious adulthood pathological postlogism\textsuperscript{77}/psychopathy as the maturation/indirectness/spatialisation/credulity/craftiness induces ‘lack of constraining social universal-transparency\textsuperscript{104}—(transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{87}) with consequent conjugated-postlogism\textsuperscript{77} ‘involving beyond-the-consciousness-awareness-teleology\textsuperscript{99}—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} dynamics further associated with a generalised social ‘lack of constraining social universal-transparency\textsuperscript{104}—(transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{87}) reflected by the given registry-worldview’s/dimension’s prior relative-ontological-incompleteness\textsuperscript{88} of-reference-of-thought\textsuperscript{83} thus reflecting the uninstitutionalised-threshold\textsuperscript{182} backdrop for the registry-worldview’s/dimension’s threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism. In other words,
social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is de-

Hence in the bigger picture explaining why the successive registry-worldviews/dimensions are construed as of diminishing–human-epistemic-abnormalcy/diminishing–preconvergence towards ontological-normalcy/postconvergence. As such conflatedness\textsuperscript{12} is the underlying drive of a human hermeneutic/reprojective psychology as of an ontologically-driven developing psyche as ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-ointment-dynamics or natural–psychological-dynamics’ construed as of notional–conflatedness\textsuperscript{12}/constitutedness\textsuperscript{13}-to-conflatedness\textsuperscript{12} from constitutedness\textsuperscript{13}/recurrent-utter-uninstitutionalisation, first-level–presencing—absolutising-identitive-constitutedness\textsuperscript{1379} of base-institutionalisation–ununiversalisation, second-level–presencing—absolutising-identitive-constitutedness\textsuperscript{1379} of universalisation–non-positivism/medievalism, third-level–presencing—absolutising-identitive-constitutedness\textsuperscript{1379} of positivism–procrypticism\textsuperscript{80}, and full-notional–conflatedness\textsuperscript{12}/deprocrypticism\textsuperscript{17}. For instance, the immediacy of intrinsic-reality/ontological-veridicality transcendental enabling in the natural sciences which is implicated in those fields by their ‘relatively high results-constraining-effectiveness nature’ provides metaphysics-of-absence insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction bound to disrupt thought and analysis in the social as of its ‘relatively low results-constraining-effectiveness nature’. Along the same argument and with regards to the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism/psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflicatedness)/incidental occurring behind the inspired/insight-for-the social construction supposedly coherent ontological-commitment as of aetiologisation/ontological-escalation for universal retrospective to prospective understanding of postlogism/psychopathy and human social dynamics implications. In other words such a social construction supposedly coherent ontological-commitment is inherently the more expansive, universal, decisive, objective and easier basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the dementative/structural/paradigmatic universal implications arrived-at of the social construction

Consider similarly that an epiphenomenal/incidental occurrence of an apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree thus inspiring/providing-insight-for his laws of motion supposedly coherent ontological-commitment\textsuperscript{65} for explaining mechanical phenomena. Certainly, the inherently more expansive, universal, decisive, objective and easy basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of his laws of motion supposedly coherent ontological-commitment\textsuperscript{65} is the possibilities of easily transcendentally-enabling-level–of-ontological-good-faith/authenticity\textsuperscript{68}/objectification/desubjectification-as-objectification–<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism>\textsuperscript{100} myriad retrospective and prospective mechanical phenomena for analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic
universal implications arrived-at of the laws of motion supposedly coherent ontological-commitment on the basis of the specific epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree as of the latter relatively poorly objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of many a natural sciences <amplituding-formative-epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment is wrong, such an insight about the supposedly coherent ontological-commitment being wholly construed as of its ‘very own veracity/ontological-pertinence as of any of its objectifiable contexts’ can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction that permeates the study of the social as of its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the
natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction, and so as of a knowledge-notionalisation exercise. In other words metaphysics-of-absence refers to any such projections, as of human imaginative capacity derived from our underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and existense/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency~sublimating~nascence; thus enabling human limited-mentation-capacity-deepening insights as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-operant-or-incidenting-predicative-insights. We can further get a sense with respect to the implications of what is meant by reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, relative to the construal/conceptualisation from the middle of the last century in the biological domain as of its specific uninstitutionalised-threshold then over which the DNA-based genetics reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology was developed which induced an altogether new dramatically different but ontologically-veridical imagery/picture of the nature of biology at that uninstitutionalised-
threshold that then became a new specific institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology thereafter amenable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity such that the prior non DNA-based construal/conceptualisation (as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology) with respect to that now DNA-based genetics specific institutionalised <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of biology cannot longer be upheld, and this is so in the bigger picture as a contributory conflatedness within the same positivism registry-worldview institutionalisation. (In fact, the institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> are the conjoined effect of all specific uninstitutionalised-threshold institutionalisation breakthroughs of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the ‘emotional involvement’ in conflatedness within the same positivism registry-worldview of appraisal is way low compared to the high ‘emotional involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and notional–deprocrypticism as in this latter instance such a
supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism speaks in the bigger picture of a social reality across all registry-worldviews/dimensions that tends to ‘destructure any registry-worldview/dimension institutionalisation meaningfulness-and-teleology\textsuperscript{9955}’ by an ‘ontological degradation effect’ having to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and in so doing inducing threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism as uninstitutionalised-threshold\textsuperscript{102}. In other words, a prospective registry-worldview/dimension institutionalisation meaningfulness-and-teleology\textsuperscript{9955} in becoming the new reference-of-thought\textsuperscript{83} (over the prior registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}) with its supposedly grander intemporal-preservation-entropy-or-contiguity—or–ontological-preservation reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998} as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driving/behind its construal, turns out to be a prospective institutionalisation ‘reset framework for human temporal-to-intemporal mental-dispositions’ respectively in reference-of-thought\textsuperscript{83}—looseness-of-tethering—to–prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} and reference-of-thought\textsuperscript{83}—closeness-of-tethering—to–prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{96} of the new reference-of-thought\textsuperscript{83}’; as facing/dealing anew with human temporal-to-intemporal mental-dispositions but this time around doing the same thing as occurred with the prior institutionalisation reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998} that was transcended/superseded to deliver the new registry-worldview/dimension, but now on the new registry-worldview’s/dimension’s institutionalisation reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998} (with the difference as of a ‘relatively lower
sensibility’ arising just because of the new registry-worldview/dimension prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} limiting/constraining on the possibilities of vices-and-impediments\textsuperscript{105}); implying an underlying ontological-contiguity\textsuperscript{66} of the reality of human temporal-to-intemporal mental-dispositions across all the registry-worldviews/dimensions. Thus while ‘ontologically superseding the prior beyond-the-consciousness-awareness-teleology\textsuperscript{99}--\langle$\text{in-existence-extrication-as-of-existence-unthought}$\rangle\textsuperscript{6}$ and prior ‘lack of constraining social universal-transparency\textsuperscript{104}--\langle$\text{transparency-of-totalising-entailing-as-to-entailing-}$<\text{amplituding/formative-epistemicity}$\textsuperscript{totalising-in-relative-ontological-completeness}\textsuperscript{87}\rangle$ this does not imply apart from such institutionalisation-as-secondnaturing a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold\textsuperscript{102} as its beyond-the-consciousness-awareness-teleology\textsuperscript{99}--\langle$\text{in-existence-extrication-as-of-existence-unthought}$\rangle\textsuperscript{6}$ and ‘lack of constraining social universal-transparency\textsuperscript{104}--\langle$\text{transparency-of-totalising-entailing-as-to-entailing-}$<\text{amplituding/formative-epistemicity}$\textsuperscript{totalising-in-relative-ontological-completeness}\textsuperscript{87}\rangle$ inducing anew the new reference-of-thought\textsuperscript{83} owns threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}--apriorising-psychologism. This social dynamism (dynamic-cumulative-aftereffect) as of the new registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{102} can be construed ontologically as arising out of a further temporal/shortness-of-register-of--meaningfulness-and-teleology\textsuperscript{9955} distortedness of the new $<\text{amplituding/formative-epistemicity}$\textsuperscript{totalising/circumscribing/delineating reference-of-thought\textsuperscript{83}--devolving\textsuperscript{84}--as-of-instantiative-context——meaningfulness-and-teleology\textsuperscript{9955}} in the social extended-informality--(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to--meaningfulness-and-teleology\textsuperscript{9955}) ultimately extending to the extended-informality--(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to--meaningfulness-and-teleology\textsuperscript{9955}) spheres
of formal constructs distorting formal construal of meaningfulness-and-teleology\textsuperscript{9955}, and so to a point of equilibrium of the new registry-worldview/dimension between its institutionalised meaningfulness-and-teleology\textsuperscript{9955} and its uninstitutionalised-threshold\textsuperscript{1024}’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—
preconverging/dementing\textsuperscript{19}–apriorising-psychologism. The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology conflatedness\textsuperscript{12} for ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} and ‘human temporal-to-intemporal-dispositions condition’ of reception/distortion across the successive registry-worldviews/dimensions involving denaturing\textsuperscript{15} where there is ‘lack of constraining social universal-transparency\textsuperscript{104}–{(transparency-of-totalising-entailing,-as-to-entailing–\textless amplituding/formative–epistemicity\textgreater totalising–in-relative-ontological-completeness\textsuperscript{87})}. The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought\textsuperscript{83} can thus be construed as of pure-ontology conflatedness\textsuperscript{12} for ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955}, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suprerogatory–de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} (as it supersedes the prior beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textless in-existential-extrication-as-of-existential-unthought\textgreater\textsuperscript{6} meaningfulness-and-teleology\textsuperscript{9955} and the prior ‘lack of constraining social universal-transparency\textsuperscript{104}–{(transparency-of-totalising-entailing,-as-to-entailing–\textless amplituding/formative–epistemicity\textgreater totalising–in-relative-

This is the social-setup of the prospective institutionalisation reference-of-thought⁸³ as of pure-ontology conflatedness¹² for prospective relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³ meaningfulness-and-teleology⁹⁹⁵⁵. But then in due course and at the uninstitutionalised-threshold¹⁰² of this prospective institutionalisation reference-of-thought⁸³, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) wanes as the reality of human temporal-to-intemporal-dispositions nature sets in as it is related to at the uninstitutionalised-threshold¹⁰² by the registry-worldview’s/dimension’s least common denominator as <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing¹⁹—narratives—of-the-reference-of-thought⁸³—categorical-imperatives/axioms/registry-teleology⁹⁹⁸} for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold¹⁰² that is a drawback-to/undermines prospective-knowledge-and-institutional deferential-formalisation-transference as of prospective relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³ intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework⁷², and is rather oriented to sovereign extrication over knowledge-reification⁸⁶ at this uninstitutionalised-threshold¹⁰² as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since reference-of-thought⁸³—categorical-imperatives/axioms/registry-teleology⁹⁹⁸ are only ‘mechanistically’ constraining, lacking the organic-spirit or ontological-faith-notion-or-ontological-fideism—
imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold\textsuperscript{102} that in effect
the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think
that a ‘sense of rightness’ is all that matters before the law, and this extends to human
meaningful and organisational principles in general. Such that temporal-dispositions fulfilment
of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining
and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—
imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality of the emanant-kind that-had-driven the reference-of-thought\textsuperscript{83} construal in
the first place’ distort in due course organic meaningfulness-and-teleology\textsuperscript{9955}, as of temporal
mental-dispositions of shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955}. Thus such
implied prospective reference-of-thought\textsuperscript{83}, social organisations and institutions as organic
meaningfulness-and-teleology\textsuperscript{9955} then tend to develop ‘subcultural reorientations’ that are
‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities
of the social and institutions) original organic-knowledge conceptualisation as of the implied
prospective reference-of-thought\textsuperscript{83} social and institutions meaningfulness-and-teleology\textsuperscript{9955}.
Thus for an ontological-veridicality/intrinsic-reality transcendental-

critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology\textsuperscript{9955}

The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold\textsuperscript{182} mental-disposition’ even in our own positivism reference-of-thought\textsuperscript{83} registry-worldview. It is fair to say the statement made before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-
perversion\textsuperscript{74} of-reference-of-thought\textsuperscript{83} <as-effectively-apriorising-in-

relevant even in our positivistic registry-worldview wherein ‘lack of constraining social universal-transparency\(^{104}\) (transparency-of-totalising-entailing,-as-to-entailing-\(<\text{amplituding/formative-epistemicity}>\text{totalising-}\)in-relative-ontological-completeness\(^{87}\)) induces a ‘human temporal uninstitutionalised-threshold\(^{102}\) mental-disposition’ temporality\(^{98}\)/shortness or shortness-of-register-of—meaningfulness-and-teleology\(^{9955}\) drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold\(^{102}\) with respect to perceived—social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-deepening\(^{52}\), truly reflect the inherent nature of 'human temporal uninstitutionalised-threshold\(^{102}\) mental-disposition'; and the deprocrypticism\(^{17}\)-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism—procrypticism\(^{88}\) registry-worldview/dimensions vices-and-impediments\(^{105}\) (just as with all previous transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) as of difference-conflatedness\(^{32}\)-as-to-totalitative-reification\(^{86}\)-in-singularisation\(^{92}\)-as-veridical-epistemic-determinism\(^{21}\) \(<\text{amplituding/formative-epistemicity}>\text{causality-}\)as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\(^{6644}\), rather than a naïve metaphysics-of-presence mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’/dimension’s institutionalisation mental-disposition’ registry-worldview’/dimension’s reference-of-thought\(^{83}\) and ‘human temporal uninstitutionalised-threshold\(^{102}\) mental-disposition’ registry-worldview’/dimension’s reference-of-thought\(^{83}\), as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations
as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold-facet, so-construed by metaphysics-of-absence, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like
deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology\textsuperscript{9955} (as ‘moult’ firstnature/intertemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology\textsuperscript{9955} as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold\textsuperscript{102} non-scientific disposition, as beyond-the-consciousness-awareness-teleology\textsuperscript{99}. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology\textsuperscript{9955} in the
uninstitutionalised-threshold\textsuperscript{102} social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework\textsuperscript{72} and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}. In another respect, with regards to scientific meaningfulness-and-teleology\textsuperscript{9955} and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold\textsuperscript{102} when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all
opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative>wooden-language-{imbuend—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}⁹⁹⁵⁵ as-of—‘nondescript/ignoreble—void⁹⁷—with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³ increasingly defer domains of meaningfulness-and-teleology⁹⁹⁵⁵ more and more to formal constructs while increasingly reducing the sphere of the extended-informality—{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness—to—meaningfulness-and-teleology}⁹⁹⁵⁵ as of its free-for-all nature. The bigger point being that even in our positivism–procrepticism⁸⁰ registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology⁹⁹⁵⁵ terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituising/formative>wooden-language-{imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology9955-as-of-
‘nondescript/ignorable—void59—with-regards-to-prospective-apriorising-implications>}—mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituising/formative>wooden-language-{imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology9955-as-of-
‘nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>’ mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism\textsuperscript{77}/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable–void\textsuperscript{99}-with-regards-to-prospective-apriorising-implications>’ mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism\textsuperscript{77} phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence instead of assuming a ‘human temporal Uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ of the social by prospective metaphysics-of-absence, since the construal of our postlogism\textsuperscript{77} as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}. Insightfully, by metaphysics-of-absence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the
non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality\(^5\)-drive whereas in fact it is one of human uninstitutionalised-threshold\(^6\) of temporalities-drives such that it is endemised/enculturated in various temporality\(^7\)/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfitter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\(^8\)) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought\(^9\). The same applies with psychopathy in our positivism–procrypticism\(^10\), as the <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^11\)-as-of—nondescript/ignorable—void\(^12\)-with-regards-to-prospective-apriorising-implications>) in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\(^13\)-for-relative-ontological-completeness\(^14\)—unenframed-conceptualisation de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism\(^15\) registry-worldview/dimension vices-and-impediments\(^16\)! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of
being at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} of institutional-cumulation/institutional-recomposures<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation—ununiversalisation equates that striving for positivism to supersede universalisation—non-positivism/medievalism equates that striving for notional—deprocrypticism\textsuperscript{17} to supersede positivism—procrypticism\textsuperscript{88}, as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposures<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought\textsuperscript{83} modalities of the same perpetual temporalities-drives and intemporality\textsuperscript{51}-drive (given human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor), respectively as ‘least-and-derived-temporal-operating-modalities—of-the-reference-of-thought\textsuperscript{83}—as-of-incrementalism\textsuperscript{50}—in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\textsuperscript{182}, and ‘maximal-as-intemporal-operating-modality—of-reference-of-thought\textsuperscript{83}—as-of-maximalling-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation—as-inducing-the-prospective-institutionalisation’. Virtue is essentially about the intemporality\textsuperscript{51}-drive as maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human
limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence/postdication with reference-of-thought—categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought—categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness—of-reference-of-thought, by ‘intemporal-prioritisation-of-reference-of-thought—as-conflatedness—ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring—unenframed-conceptualisation intemporality—drive to supersede the non-positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the
non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness⁸⁸ and relative-ontological-completeness⁹⁷ reference-of-thought⁹³ and respectively as of their divergent non-positivists dereification perspective and positivist reification⁸⁶ perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity³⁸-in-reification⁶⁄dereification as of their prior relative-ontological-incompleteness⁸⁸-of-reference-of-thought⁸³, contrasted with the positivist naturalist conception of existential-contextualising-contiguity³⁸-in-reification⁶⁄as-seeking-a-cure as of its prospective relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³, and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrysticism⁸⁸ registry-worldview/dimension as of its prior relative-ontological-incompleteness⁸⁸-of-reference-of-thought⁸³, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity³⁸-reification⁶⁄as of singularisation⁹²/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity⁶¹-<profound-supererogation⁹⁶-of-mentally-aestheticised–postconverging/dialectical-thinking²⁰–qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology⁹⁵⁵ as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with
transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\), and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in
\(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^{33}\); with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\(^{4}\) as of reasoning-through/messianic-reasoning contortion is rather in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) of the prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) and the contorted prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\(^{4}\) as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) ever always fails to accompany prospective state of prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) but for the induced
crossgenerational transcendental metaphoricity\textsuperscript{56} possibility, and the contortion is more of a token as of the metaphoricity\textsuperscript{56} possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity\textsuperscript{56} that is ‘beyond the prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} full meaningfulness-and-teleology\textsuperscript{9955} implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity\textsuperscript{56} possibility for prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}; as transcendent instigation can’t be of ordinary inclination at one moment and at another moment of transcendent inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism\textsuperscript{4} as of contortive metaphoricity\textsuperscript{56} gesturing for prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism\textsuperscript{4} rather as of reasoning-through/messianic-reasoning asceticism\textsuperscript{4}, different from asceticism\textsuperscript{4} as reasoning-from-results/afterthought or institutional
reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation fails to induce an ontologically-veridical reifying trace/ontological-aesthetic-tracing of existential-contextualising-contiguity\textsuperscript{38}. We can imagine as of a non-positivistic social-setup reference-of-thought\textsuperscript{83} identitive-constitutedness\textsuperscript{13} as ‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28} as flawed-epistemic-determinism\textsuperscript{48} <amplituding/formative-epistemicity> totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{9955}, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold\textsuperscript{102}, much like as from futural Being-development/ontological-framework-expansion as to-depth-of-ontologising-development-as-infrastructure-of- meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional--deprocrypticism\textsuperscript{17} perspective we can imagine the ‘candid existential expressiveness’ in our positivism--procrypticism\textsuperscript{88} that ‘integrates procrypticism--or--disjointedness-as-of-reference-of-thought\textsuperscript{8380} as-thinking’ as of its uninstitutionalised-threshold\textsuperscript{102}; and in both cases the ‘trace/ontological-aesthetic-tracing of ontological wholeness/nested-congruence’ as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} breaks down at the uninstitutionalised-threshold\textsuperscript{102} thus assuming a nondescript/ignorable--void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) identitive-constitutedness\textsuperscript{13} as ‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28} as flawed-epistemic-determinism\textsuperscript{48} representation of the breakdown and going on in both cases to ‘overlook effectively as-if-thinking respectively’ the ontologically-veridical reality of ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism superstition’ and ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8380}’. It is singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism in preempting any such de-mentative/structural/paradigmatic threshold construed as uninstitutionalised-threshold\textsuperscript{102} as implied by notional–notional–deprocrypticism\textsuperscript{17} that reflects ‘ontologically-veridical

In effect, such a trace/ontological-aesthetic-tracing can be construed as 
a ‘creative metaphoricity\textsuperscript{56} tracing’ of human temporal-to-intemporal ontological-
performance\textsuperscript{71}<-including-virtue-as-ontology> of human meaningfulness-and-teleology\textsuperscript{9955} as of the dynamics of ‘overall human Being-personality-growth and the implications for its living-
personality-growth and institutional-personality-growth’ implied as of
notional–notional–deprocrypticism\textsuperscript{17} ontologically-uncompromised—referentialism, as a fundamental hermeneutic/reprojective psychological science which as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism articulates-and-rearticulates such tracing/ontological-aesthetic-tracing as of comprehensive/totalising-entailing/nested-congruence conflatedness\textsuperscript{\textcircled{12}} from a most profound existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} depth of notional–notional–deprocrypticism\textsuperscript{17} protracted-consciousness. Such a hermeneutic/reprojective psychology is necessarily cognisant and departs from a construal of the fundamental instigation of human knowledge and emancipation as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’, as establishing in the very first place the prospective relative-ontological-completeness\textsuperscript{87} reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation for reference-of-thought\textsuperscript{83} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed meaningfulness-and-teleology\textsuperscript{9955} aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology\textsuperscript{9955} aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojective psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as

reality parrhesiastic askesis-or-acumen as of reasoning-through/ messianic-reasoning’ articulation of prospective ontologically-uncompromised—referentialism notional—deprocrypticism¹⁷ reference-of-thought⁸³ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology⁹⁵⁵ aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology⁹⁵⁵ as of prospective notional—deprocrypticism¹⁷ is very much alien to our positivism—procrypticism⁸⁹ cloistered-consciousness. In both instances the notion of prospective metaphoricity⁵⁶ is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality³⁶/reference-of-thought⁸³/epistemic-totalising³²—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology⁹⁵⁵, which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness⁸⁷! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being—as-of-existing-reality instigated ontological-contiguity⁶⁶—of-the-human-institutionalisation-process⁶⁷ as of difference-conflatedness¹²—as-to-totalitative-reification⁸⁶—in-singularisation⁹²—as-veridical-epistemic-determinism²¹ <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity⁶⁶⁴⁴ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness⁸⁷ is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,—as—
reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism\textsuperscript{17}. The fact is human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at its uninstitutionalised-threshold\textsuperscript{102} implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold\textsuperscript{102} ‘is not geared to adhere to abstract ontological-veridicality’ as it will operate its state of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness\textsuperscript{88} reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism—or—preempting—disjointedness—as—of-reference-of-thought\textsuperscript{8327}; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} meaningfulness-and-teleology\textsuperscript{9955} state is downright ontologically ridiculous and the manifestation of an \texttt{<amplitudining/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} naivety. We can appreciate that the
psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought\textsuperscript{83} is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought\textsuperscript{83} in prior relative-ontological-incompleteness\textsuperscript{88} as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness\textsuperscript{88} registry-worldviews/dimensions superegoic vices-and-impediments\textsuperscript{105}, wherein postconverging-or-dialectical-thinking\textsuperscript{28}–apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold\textsuperscript{102} is construed as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as of prospective postconverging-or-dialectical-thinking\textsuperscript{28}–apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism\textsuperscript{17}. As of its inherent organic knowledge, such a hermeneutic/reprojective psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identititive-constitutedness\textsuperscript{1379} consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-
teleological-degradation-in-notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<-\textless \text{shallow-supererogation}\textsuperscript{96}<-\textless \text{of-mentally-aestheticised-preconverging/dementing}\textsuperscript{19}<-\textless \text{qualia-schema}>; and so, as its essential meaningfulness-and-teleology\textsuperscript{9955} is as of a solipsistic transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181} reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}<-\textless \text{as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’}> in its ecstatic singularity, on the same token that a natural scientist is in a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181} reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s\textsuperscript{2} on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s\textsuperscript{2} but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}<-\textless \text{as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’}> as of ontological-primemovers-totalititative-framework\textsuperscript{72}. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold\textsuperscript{182} and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the
echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology9955'/reference-of-thought83-devolving84. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking28—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing19—apriorising-psychologism uninstitutionalised-threshold102 which it tends to represent as nondescript/ignorable—void59 (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing19—narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory—de—mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory—de—mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de—mentativity as of the possibility of prospective relative-ontological-completeness87—of-reference-of-thought83. Human supererogatory—de—mentative constraint is fundamentally associated with poor universal-transparency104—(transparency-of-totalising-entailing,—as—to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness87) with respect to social-stake-contention—or—confliction at uninstitutionalised-threshold102. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory—de—mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative>wooden-language-(imbued—temporal—mere—form/virtualities/dereification/akrasiatic-drug/denatured/preconverging—or—dementing19—narratives—of—the-reference-of-thought83—

Thus as of the more critical insight that prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought\(^{83}\) in prior relative-ontological-incompleteness\(^{88}\), for resolving a given registry-worldview/dimension vices-and-impediments\(^{105}\); this notion of human supererogatory-de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied by a ‘postconverging-or-dialectical-thinking\(^{28}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\(^{14}\), rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness\(^{88}\) and relative-ontological-completeness\(^{87}\) reference-of-thought\(^{83}\) <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^{644}\), and thus making the given presence reference-of-thought\(^{83}\) as our positivism–procrypticism\(^{80}\)-all-determinative of what can be construed as psychological emancipation’ as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) despite the fact of its prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
reasoning-through/messianic-reasoning contortion. Decontortion as of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag^{33} incrementalism^{50}–in-relative-ontological-incompleteness^{88}—enframed-conceptualisation is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness^{88}–of-reference-of-thought^{83} reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing of reifying existential-contextualising-contiguity^{38}, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency^{104}–(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness^{87})’. Such a human disposition to decontortion at uninstitutionalised-threshold^{102} arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology^{9955} as it reflects existence’s coherence/contiguity as of singularisation^{92}/epistemic-immanence/veridical-epistemic-determinism. But then such a decontortoning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold^{102} where we are actually preconverging-or-dementing^{19}–apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag^{33} and vague untransvaluated–temporal-intemporality^{51} gesturing. The ontological-contiguity^{66}—of-the-human-institutionalisation-process^{67} can thus be construed as one of increasingly undermining the human subject temporal
decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}; wherein across the successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework\textsuperscript{72} in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency\textsuperscript{104}-\{transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative-epistemicity\rangle totalising--in-relative-ontological-completeness\textsuperscript{87}\}.

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness\textsuperscript{7} and emotional-involvement. In another respect the implications of flawed identitive-constitutedness\textsuperscript{13}-as--‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance\textsuperscript{71}.-\{including-virtue-as-ontology\} as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology\textsuperscript{9955} in naïve
naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness\textsuperscript{13} as ‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28} as flawed-epistemic-determinism\textsuperscript{48} implied as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness\textsuperscript{13} as ‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28} as flawed-epistemic-determinism\textsuperscript{48} thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} without the constraint of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\textsuperscript{96}—<as—to—perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care—and—episteme\textsuperscript{5}. Such an
approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding/superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology.

Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness (sublimating-referencing/registering/decisioning—as-self-becoming/self-conflatedness/formative-supererogating—in-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing) with respect to temporal-to-intemporal ontological-performance including virtue-as-ontology which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways
by its mere denotative/connotative constitutedness\textsuperscript{13} nature just an implied existentially
decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with
respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-

This totalising-entailing insight is reflected in the Derridean deconstruction orientation with its
obvious narratology implications pertinence to literary studies as of its conflatedness12 with
existential-contextualising-contiguity\textsuperscript{38} in contrast to such a notion like language games when construed rather in constitutedness\textsuperscript{13}. This difference of conceptualising comes down to the atomising/taking-to-pieces flaw reflex of constituting-towards-‘epistemic-totality\textsuperscript{36} implied as of ontologically-flawed identitive-constitutedness\textsuperscript{13}-as-‘epistemic-totality\textsuperscript{36}-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} as against the ecstatic-totalising-entailing/nested-congruence disposition for reifying-‘epistemic-totality\textsuperscript{36}-for-completeness implied as of ontologically-veridical difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21}; wherein the conflatedness\textsuperscript{12} mental-reflex is involved in construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism\textsuperscript{17}-dissemination\textsuperscript{27} and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism\textsuperscript{17}-dissemination\textsuperscript{27} for completeness as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism/postdication projected conflatedness\textsuperscript{12} (as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism and dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism <amplituding/formative-epistemicity> causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6444} of ‘supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} with regards to human limited-mentation-capacity-deepening\textsuperscript{52} as prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ which speaks of the recurrent edging towards completion of ontological-performance\textsuperscript{71}<<including-virtue-as-ontology> of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of

This specific deficiency of the analytic tradition as so-reflect ed in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as of ontological-prime movers-totalitative-framework <amplituding/formative-epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity of supposedly coherent ontological-commitment implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, ‘speech activity’ discourse speaks of an supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as expressed above (with regards to the social contextualisation beyond just speech for the
possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of this articulated ontological-as-existential-commitment having to do with such social contextualisation’. Likewise the underlying notion of ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> as herein articulated by this author is as difference-conflatedness\textsuperscript{12}<-as-to-totalitative-reification\textsuperscript{86}<-in-singularisation\textsuperscript{92}<-as-veridical-epistemic-determinism\textsuperscript{21}<-amplituding/formative-epistemicity>-causality<-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{644} as from existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative-epistemicity>-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness\textsuperscript{12}<-as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment\textsuperscript{65} about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’; articulating knowledge as ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} as of the existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}<-amplituding/formative-epistemicity>-causality<-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{644} of human underlying relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-(sublimating-referencing/registering/decisioning,-as-self-becoming/self-conflatedness\textsuperscript{12}/formative-supererogating<-in-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing>). This underlying notion of ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity elucidating/reifying subject-matters and
sciences, unlike approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject \textsuperscript{<amplituding/formative–epistemicity>}causality–as-to-projective-totalitative–implications,.-for-explicating-ontological-contiguity\textsuperscript{6644}. Whereas the analytic tradition posture as with ‘speech act’ gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}) geared towards identitive-constitutedness\textsuperscript{13}-as-‘epistemic-totality\textsuperscript{361}-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48}, which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent ontological-commitment\textsuperscript{65} in want of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} for knowledge as ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955}, as can be validated and falsified by ontological-prime-movers-totalitative-framework\textsuperscript{72} \textsuperscript{<amplituding/formative–epistemicity>}causality–as-to-projective-totalitative–implications,.-for-explicating-ontological-contiguity\textsuperscript{6644}. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment\textsuperscript{65} about ‘axiomatic-construct construal of
ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendancy of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644}, and goes on to naively deploy outside existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness\textsuperscript{13} as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment\textsuperscript{65} for knowledge elucidating/reifying which validation and falsifiability\textsuperscript{40} is rather a matter of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644}. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability\textsuperscript{40} is ever always a matter of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644}. Being and beings construed-as-of-ontology/apriorising/axiomatising/referencing in the conceptualising of the-very-same-immanent-existence/intrinsic-reality/ontological-

With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment\textsuperscript{65} implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning, it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics \textsuperscript{amplituding/formative—epistemicity}totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-
commitment65 about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existential-contextualising-contiguity38 knowledge-reification86 as of ontological-primemovers-totalitative-framework72 <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment65, and all the physics that is relevant is their further existential-contextualising-contiguity38 knowledge-reification86 as physics knowledge as of its ontological-veridical meaningfulness-and-teleology9955 as can be validated and is falsifiable by ontological-primemovers-totalitative-framework72 <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment65 as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity38 knowledge-reification86 constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability40 with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment65 ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficulty be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag33 presumption; which strangely
enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment\textsuperscript{65} articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicated/implicit coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that
ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology, such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded ontising construal of existence as of totalising-devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘ontising specifisms of existence’s ecstatic
manifestation’; as so-implied as of overall existence metaphoricity\textsuperscript{56}/ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}. ‘imbued-and-hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> as of supervening-conflatedness\textsuperscript{12}. Knowledge as meaningfulness-and-teleology\textsuperscript{9955}, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment\textsuperscript{65} as reflected by ontological-primemovers-totalitative-framework\textsuperscript{72}. Inherently, because human-subpotency supposedly coherent ontological-commitment\textsuperscript{65} is very much intimately linked with the ontological-performance\textsuperscript{71}. <including-virtue-as-ontology> of human as of prospective relative-ontological-completeness\textsuperscript{87} appraisal, it is always ever the case that as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{84} the validation of knowledge as meaningfulness-and-teleology\textsuperscript{9955} as of supposedly coherent ontological-commitment\textsuperscript{65} is equally as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality constructs; which construal is necessarily as of conflatedness\textsuperscript{12} with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality and relative-ontological-completeness\textsuperscript{87} as of human limited-mentation-capacity-deepening\textsuperscript{52}, thus invalidating the epistemic-veracity of constitutedness\textsuperscript{13} of knowledge. The implication here is that the epistemic-veracity of knowledge as meaningfulness-and-teleology\textsuperscript{9955} is rather as of the ‘<amplituding/formative–

This further points out that the traditional explicited constitutedness\(^{13}\) conception of the notion of cause-and-effect so-implied herein as ontological-primemovers-totalitative-framework\(^{72}\) is actually epistemically-impertinent and flawed; as this traditional conception tends beyond-the-consciousness-awareness-teleology\(^{99}<\text{in-existential-extrication-as-of-existential-unthought}>^6\) to imply unconnectedness-with/not-in-nested-congruence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<\text{amplituding/\textit{formative-\textit{epistemicity}}}>\text{totalising-purview-of-construal’ or

This constitutedness\(^{13}\) nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework\(^{72}\) arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the ‘inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<\text{amplituding/\textit{formative-\textit{epistemicity}}}>\text{totalising-purview-of-construal’ or
<\text{amplituding/\textit{formative-\textit{epistemicity}}}>\text{totalising-devolved-purviews-as-domains-of-construal-
as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness, this un-explicited implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected
in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity\(^{38}\) as of conflatedness\(^{12}\), so-implied as of their supposedly coherent ontological-commitment\(^{65}\) reflected by ontological-primemovers-totalitative-framework\(^{72}\) as to existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-

Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from
whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity\(^{38}\) conflatedness\(^{12}\) that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold\(^{102}\)/presublimating–desublimating-decisionality)–of-ontological-performance\(^{71}\)-<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendent-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\(^{87}\) and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\(^{87}\) as of the <amplituding/formative-epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^{6644}\) of existential-contextualising-contiguity\(^{38}\) conflatedness\(^{12}\). It is thus not surprising that naive disparateness-of-conceptualisation--<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-

In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing
them as of simplistic conceptual-patterning by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification of Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. In both cases, the causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating<-in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) implied displacement/decentering-of-the-human-subject points to different sense-of-conscious-representation-of–meaningfulness-and-teleology between the relative-ontological-incompleteness and relative-ontological-completeness such that the former is rather in pseudo-edginess/pseudo-incisiveness implying the need for its unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring<-as-to-preconverging-or-dementing–apriorising-psychologism> and cannot simply be projected as the latter which is what is rather truly and effectively of supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuring-instrument implying the need for its true and effective affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring<-as-to-postconverging-or-dialectical-thinking–apriorising-psychologism>. A further naivety is the appreciation of postmodern knowledge-reification.
process/gesturing arises as of a general misunderstanding of what is generally implied with regards to any given knowledge-reification<sup>86</sup> process/gesturing. This <ampituding/formative–epistemicity>totalising/circumscribing/delineating nature of all domains-of-study in existential-contextualising-contiguity<sup>38</sup> conflatedness<sup>12</sup> as of <ampituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity<sup>644</sup>, speaks of the epistemic-veracity of the fact that ‘all knowledge is truly developed as of a hermeneutic/reprojective circle for relative-ontological-
completeness\textsuperscript{87}, that involves human limited-mentation-capacity-deepening\textsuperscript{52}. This hermeneutic/reprojective circle knowledge-reification\textsuperscript{86} process/gesturing is furthermore reflected in both human scholarly-and-pedagagic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojective insight as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification\textsuperscript{86} process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification\textsuperscript{86} process/gesturing at its ‘appropriate hermeneutic/reprojective circle level of postmodern knowledge-reification\textsuperscript{86}’ no different from say top-level physicists and natural scientists articulating their knowledge-reification\textsuperscript{86} process/gesturing at their ‘appropriate hermeneutic/reprojective circle level of top-level physics/natural-science knowledge-reification\textsuperscript{86}’. In both instances, the knowledge-reification\textsuperscript{86} process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojective circle levels of knowledge-reification\textsuperscript{86}’. Such a supposed scholar or student cannot depart from ordinary/banal \textlangle amplituding/formative\rangle wooden-language-\textlangle imbuied—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995} as-of-‘nondescript/ignoreable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>\textrangle level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification\textsuperscript{86} process/gesturing should be directly and fully graspsable to it as of a \textlangle amplituding/formative\rangle wooden-language-\textlangle imbuied—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995} as-of-‘nondescript/ignoreable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>\textrangle predisposition to incrementalism\textsuperscript{58}–in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojective circle
levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation are meant to transmit a ‘\textless \text{amplituding/formative–epistemicity}\textgreater \text{totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity}’ and that ‘\textless \text{amplituding/formative–epistemicity}\textgreater \text{totalising/comprehensive organic-attitude-to-knowledge}’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojective circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojective circle of knowledge-reification\textsuperscript{86} in its maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification\textsuperscript{86} process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal \textless \text{amplituding/formative}\textgreater wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>) level of knowledge conception, and implicit in its knowledge-reification\textsuperscript{86}–gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojective circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification\textsuperscript{86} priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojective circle of levels of understanding’ more or less very transparent, with regards to the blurriness\textsuperscript{7} of the social such a postmodern-thought ‘hermeneutic/reprojective circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the
engendering/parrhesiastic-aestheticisation of underlying reference-of-thought\textsuperscript{83} reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought\textsuperscript{83} reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalititative-framework\textsuperscript{72} as of inherent existence/ontological implications, as fundamentally requiring contemplative reification\textsuperscript{86} arising with human limited-mentation-capacity-deepening\textsuperscript{52}, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation—<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{66}'> but rather implying a furtherance of the overall hermeneutic/reprojective exercise involved in the advancement of all human knowledge as of <amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification\textsuperscript{86} is a hermeneutic/reprojective circle involving: the analyst’s/philosopher’s baseline re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{28},‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12}’-of-notional~deprocrypticism\textsuperscript{17},-prospective-sublimation)\textsuperscript{98} up-to-date knowledge-reification\textsuperscript{86} process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general
ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking₂⁰-‘projective-insights’/‘epistemic-projection-in-conflatedness’²¹–of-notional–deprocrypticism²⁷–prospective-sublimation)⁹⁸ up-to-date knowledge-reification⁸⁶ process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification⁸⁶, and then the analyst’s/philosopher’s reflection on the shortfall in the ontological-performance⁷¹–<including-virtue-as-ontology> of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-or-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability⁴⁰ as of inherent existence/ontological implications thus amenable to foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⁹⁶ in reflecting ‘immanent-ontological-contiguity’⁶⁶),–as-operative-notional–deprocrypticism⁴³ with other so-constructed knowledge-reification⁸⁶, that are well beyond a disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’⁶⁶–> orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity⁶³, is particularly telling not about postmodern thinkers knowledge-reification⁸⁶ epistemic-veracity but rather ‘the knowledge-reification⁸⁶ epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought
which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-
‘immanent-ontological-contiguity66,> epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification66 implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity38 in conflatedness12, an issue that has always been a difficult knot throughout the ontological-contiguity66—of-the-human-institutionalisation-process67 but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <amplitunding-formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity644 involved in knowledge-reification66, and is reflected in a lack of parrhesiastic and hermeneutic/reprojective insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing45, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern
positivist wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{99} as-of—nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications>) in its given reference-of-thought\textsuperscript{82} reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity\textsuperscript{38} in conflatedness\textsuperscript{12}; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojective insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness\textsuperscript{12}—as—‘epistemic-totality\textsuperscript{36}—dereification-in-dissingularisation\textsuperscript{28}—as—flawed—epistemic-determinism\textsuperscript{48} ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naive insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojective conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification\textsuperscript{86} process/gesturing and thus be able to understand how such knowledge-reification\textsuperscript{86} process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojective analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity\textsuperscript{38} in conflatedness\textsuperscript{12} and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic
retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding-formative-epistemic-totalising-renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojective and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental-instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic
philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation that then feeds into prospective originariness-parrhesia—as—spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification—gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposition—<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process but
rather the more critical insight lies with its novel and transformative universalising\textsuperscript{83}-
classificatory knowledge-reification\textsuperscript{86}—gesturing as opening up the possibility for prospective
human reconceptualisation of science providing the backdrop from which modern science took
off from the medieval times to the present. Likewise, the transformative nature of budding-
positivism more than just as garnered from the precised narrative accounts about budding-
positivist thinkers, lies more profoundly with its meaningfulness-and-teleology\textsuperscript{9955}
infrastucture impact on the developing enlightenment social developments and as this budding-
positivism metaphoricity\textsuperscript{56} epistemic-ricochetingly/transepistemically brought about our
positivism/rational-empiricism modern society. The analyses of human becoming so-implied as
of parrhesiastic and hermeneutic/reprojective development is in of itself a pure science that is
epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-
implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-
insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific
accuracy of narrative accounts of traditional philosophical figures and besides such
parrhesiastic and hermeneutic/reprojective insight actually informs about the ontological-
pertinence of such narrative accounts. In another respect, even with a most natural sense of
parrhesia and hermeneutic/reprojective insight, many a figure predispose to atomising/taking-
to-pieces analysis, including founders of this orientation and other of its leading figures, have
ultimately come to realise its relative underlying platitude with respect to prospective human
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity such that a prevailing
notion has developed within as to imply philosophy doesn’t necessarily involve a
transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft
predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—
as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic
implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that
does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a-lifespan-of-existence-implications projection as of a <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>} is not de-mentated/structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency—sublimating—nascence?

While in many a natural science ‘the high-and-immediate subjection to existential/experimental falsifiability\textsuperscript{48} and validation as of <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity\textsuperscript{6644} of conceptualisations’ acts as a strong constraining effect in relatively undermining ‘disjointing/disparateness/disentailing of primemovers’ and rather encouraging ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-

manifest outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-
aestheticisation’. For instance with regards to living-development-as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproductibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development-as-to-personality-development human aestheticisation of meaningfulness-and-teleology (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproductibility-of-aestheticisation’) in existential-contextualising-contiguity conflatedness involving ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able
intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, and that acquisition of a specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-

This is so because \textquoteleft human <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6444} purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{87} orientation\textquoteright supersedes any such human \textquoteleft institutional-development–as-to-social-function-development meaningfulness-and-teleology\textsuperscript{9955} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language\textquoteright, in its existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12} (even as the latter had been precedently contributive to that purposefulness-reflexivity) such that such a human \textquoteleft institutional-development–as-to-social-function-development meaningfulness-and-teleology\textsuperscript{9955} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language\textquoteright is more critically a passive ready-at-hand conception that is epistemically/notionally ever always critical only in existential-
contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12} as it is adapted to ‘human <amplituding/formative-epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644} purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{87} orientation’. This basically explains the constantly developing nature of human ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology\textsuperscript{9955} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness\textsuperscript{1379}–of–meaningfulness-and-teleology\textsuperscript{9955} (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it is ‘human <amplituding/formative-epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644} purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{87} orientation’ implied as of maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation that fundamentally renders/makes human institutional-development–as-to-social-function-development meaningfulness-and-teleology\textsuperscript{9955} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions’ to be necessarily as of existential-contextualising-contiguity\textsuperscript{38} in conflatedness\textsuperscript{12} and not in constitutedness\textsuperscript{13} as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. In another respect, ‘living-development–as-to-personality-development meaningfulness-and-teleology\textsuperscript{9955} aestheticisation’ is of ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with regards to human
childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to ‘institutional-development–as-to-social-function-development meaningness-and-teleology\textsuperscript{9955} aestheticisation’ that rather cumulatively holds-on-to and complexifies the culturally cumulated outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations from historically accrued ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ construed as of human institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> such as with regards to any specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’. This will explain why the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of ‘institutional-development–as-to-social-function-development meaningness-and-teleology\textsuperscript{9955} aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation epistemic-ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly \textsuperscript{1844}

This will explain for instance why as of the furtherance in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\), the ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology\(^{955}\) aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology\(^{955}\) aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^{73}\)-<imbued-and—‘hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—re-apriorising/re-axiomatising/re-referencing—conceptualisation>, reflected in human underlying supposedly coherent ontological-commitment\(^{66}\), is ultimately potentiated/ontologisable as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-

This fundamental originariness and secondnaturedness conundrum in reflecting holographically-\textit{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} is reflected by the fact that the human Self is ever always in disseminative constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-the-Self\textsuperscript{91} as of ‘a subpar existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\textsuperscript{12}/human-subpotency disposition to construe as of full existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\textsuperscript{12} at its uninstitutionalised-threshold\textsuperscript{102}, its prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so in obfuscation and pedantry. In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification⁸⁶—gesturing/process as of disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity⁶⁶’> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification⁸⁶—gesturing/process articulated herein. It should be noted here as well that it is human limited-mentation-capacity-deepening\textsuperscript{52} as of relative-ontological-completeness\textsuperscript{87} as of <amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ that underlies the <amplituding/formative-epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{66,44} of ontologically-veridical difference-conflicatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in-singularisation\textsuperscript{92}–as-veridical-epistemic-determinism\textsuperscript{21} over ontologically-flawed identitive-constitutedness\textsuperscript{13}–as–‘epistemic-totality\textsuperscript{36}’–dereification-in-dissingularisation\textsuperscript{28}–as-flawed-epistemic-determinism\textsuperscript{48}. In another respect this author’s re-elaboration of postmodern difference conception, as of
ontologically-veridical difference-conflatedness as-to-totalitative-reification in-singularisation as-veridical-epistemic-determinism contends that this effectively captures-and-reflects the evolving reality of existential-contextualising-contiguity knowledge-reification of human meaningfulness-and-teleology, and so over analytic atomising/taking-to-pieces formalisation approach as of identitive-constitutedness as-‘epistemic-totality dereification-in-dissingularisation as-flawed-epistemic-determinism that goes on to analyse as if all the analysis that has ever been is as of presencing—absolutising-identitive-constitutedness while ignoring the <amplituding/formative–epistemicity> causality-as-to-projective-totalitative–implications, for-explicating-ontological-contiguity of human underlying relative-ontological-incompleteness/relative-ontological-completeness (sublimating–referencing/registering/decisioning, as-self-becoming/self-conflatedness/formative–supererogating<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) with respect to temporal-to-intemporal ontological-performance<including-virtue-as-ontology> as from past to present to future with regards to existential-contextualising-contiguity knowledge-reification. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness as-‘epistemic-totality dereification-in-dissingularisation as-flawed-epistemic-determinism that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness as-to-totalitative-reification in-singularisation as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation
frameworks of supposed reification\textsuperscript{86}/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very &lt;amplituding/formative&gt;wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}-as-of-'nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications&gt;) that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification\textsuperscript{86}/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity\textsuperscript{38} in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity\textsuperscript{38} dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology\textsuperscript{9955}/knowledge as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further
expanding on the elucidation/reification\textsuperscript{86} of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework\textsuperscript{72}; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sUBLIMITY/sublimation/supererogatory-de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification\textsuperscript{86} as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework\textsuperscript{72} disposition rather than an orientation towards the ‘transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} or transversal-analysis-towards-validatory-selectivity-for-foregrounding—entailment-(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} in reflecting ‘immanent-ontological-contiguity\textsuperscript{66}'),–as-operative-notional–deprocrypticism\textsuperscript{43} of conceptualisations-and-interpretations’ as constrained to ontological-primemovers-totalitative-framework\textsuperscript{72} which is what further reifies the body of knowledge by enabling existence as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to continually select the trace/ontological-aesthetic-tracing of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation disseminative insight, with unsound/superseded conceptualisations-and-interpretations being discarded thereafter. Concretely, we can easily appreciate the greater pertinence of a Foucauldian statement of relative truth as of ontologically-veridical difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21}, construable rather as a more precise theoretical, conceptual and operant notion of truth by its existential-
contextualising-contiguity as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as reflected with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity as of the human-institutionalisation-process as of difference-conflatedness as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness as-‘epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness as of the world that has ever existed is as of presencing—absolutising-identitive-constitutedness, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and
nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on wooden-language-(imbued—averaging-of-thought—\textless \text{as-to-}

‘prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—\text{and—episteme}^{5} as of ontologically-veridical difference-conflatedness^{12}-as-to-totalitative-reification^{86}-\text{in-singularisation}^{92}-\text{as-veridical-epistemic-determinism}^{21} for existential-contextualising-contiguity^{38} knowledge-reification^{86} of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existential-contextualising-contiguity^{38} from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification^{86} as of existential-contextualising-contiguity^{38} –and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation^{92}/epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity^{38} elucidation/reification^{86} rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are
already naturally constraint to existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} by the implicit immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{72} transcendence-and-sublimity/sublimation/supererogatory-de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification\textsuperscript{86} of existential-contextualising-contiguity\textsuperscript{38} but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} \textlangle amplituding/formative-epistemicity\rangle\textgreater causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6644}. Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicit creative process of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. This process is one of human limited-mentation-capacity-deepening\textsuperscript{52} as of ‘repeating/repetition of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, inducing successive differences of ontological-performance\textsuperscript{71}.-\textlangle including-virtue-as-ontology\rangle of meaningfulness-and-teleology\textsuperscript{9955} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness\(^87\) rather reflected as of ontologically-veridical difference-conflatedness\(^12\)-as-to-totalitative-reification\(^86\)-in-singularisation\(^92\)-as-veridical-epistemic-determinism\(^21\) which implied singularisation\(^92\)/epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity/sublimation/supererogatory-dementativity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity\(^38\) guise’ as of the insight of their existential-contextualising-contiguity\(^38\) knowledge-reification\(^86\) of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity\(^38\) initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity\(^38\) insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-

In this regard, we can appreciate that as of their differing ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> the threshold where the theory-of-relativity—together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness\textsuperscript{87} is considered as
postconverging-or-dialectical-thinking—apriorising-psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing—apriorising-psychologism; even though both address the ‘very same physics <amplitudizing/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness—‘epistemic-totality’—dereification-in-dissingularisation—flawed-epistemic-determinism implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor conflatedness’ of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be
veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation, as-to-perspective-ontological-normality/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’ as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness as—‘epistemic-totality—dereification-indissingularisation-as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection.
and appreciation for grasping the existential-contextualising-contiguity\(^{38}\) reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\). This failure in fully appreciating the import of ontologically-veridical difference-conflatedness\(^{12}\)-as-to-totalitative-reification\(^{86}\)-in-singularisation\(^{92}\)-as-veridical-epistemic-determinism\(^{21}\) ‘repeating/repetition of maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation for existential-contextualising-contiguity\(^{38}\) knowledge-reification\(^{86}\), inducing successive differences of ontological-performance\(^{71}\)-<including-virtue-as-ontology> of meaningfulness-and-teleology\(^{9995}\) as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness\(^{87}\), as of implied singularisation\(^{92}\)/epistemic-immanence/veridical-epistemic-determinism has fundamental <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\(^{6644}\), as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity\(^{38}\). Consider in this regard that the repeated maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification\(^{86}\) of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification\(^{86}\) insight often goes missing with many a subscriber to the formalisation credo, as of reification\(^{86}\) along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like
Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity\(^{38}\) knowledge-reification\(^{86}\) perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity\(^{38}\) knowledge-reification\(^{86}\) causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\(^{66}\) of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human’ knowledge-reification\(^{86}\) totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation for existential-contextualising-contiguity\(^{38}\) knowledge-reification\(^{86}\), inducing successive differences
of ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> of meaningfulness-and-
teleology\textsuperscript{9955} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-
as-to-‘human<amplitude-formative-epistemicity>totalising-purview-of-construal’ with
increasing prospective relative-ontological-completeness\textsuperscript{87}. This is especially the case where
such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as
existential reality. This orientation and rearticulating exercise by postmodern-thought speaks
rather of an assurance that they are on a solid ontological pathway just as physicists orientation
and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks
of an assurance of ontological depth, in both instances as of their existential-contextualising-
contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. Ultimately, and it is this author’s contention, the various
scholarly contributions to postmodern-thought can be understood as rather pointing to the de-
mentative/structural/paradigmatic disseminative implications of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-tteleology\textsuperscript{9955} as of prospective deprocrypticism–or–
preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} ontologically-veridical difference-
conflicatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in-singularisation\textsuperscript{92}–as-veridical-epistemic-
determinism\textsuperscript{21}. We can equally appreciate that much of the disseminative rational-
empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and
specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative
metaphoricity\textsuperscript{56} orientation making the human subject thinking as of mathesis universalis
conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and
adopted to resolve various human knowledge issues by subsequent thinkers in successive
generations as of human ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-
reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia
‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism’ human subject is rather undecentered’ relative to the prospective postmodern—notional–deprocrypticism self-conscious mindset we fail to truly appreciate the dementative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to ‘continually select’ postmodern—notional–deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the dementative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their
mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} here implies human displacement/decentering even though our temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology\textsuperscript{9955}. This further speaks to the fact that human knowledge is much more than distantly/remote abstracted conceptions of meaningfulness-and-teleology\textsuperscript{9955} of trite existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} \textless amplituding/formative–epistemicity\textgreater causality–as-to-projective-totalitative-implications,–for-explicating-ontological-contiguity\textsuperscript{6644}, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic asksesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism\textsuperscript{4} as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} is ever always a ‘conflatedness\textsuperscript{12} totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology\textsuperscript{9955} as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’; with such construal in reality rather very much as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-

epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83}\textsuperscript{17} conflatedness\textsuperscript{12} totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Unlike the constitutedness\textsuperscript{33} rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness\textsuperscript{12} totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative-epistemicity>causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{6644} with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to—‘human<amplituding/formative-epistemicity>totalising~purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural
or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation⁹²/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their constitutedness¹³ token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity⁴⁸ knowledge-reification⁸⁶’ of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation⁹⁶-<as-to-perspective-ontological-normalcy/postconvergence-implied—“prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity. The naivety of implied constitutedness¹³ in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness¹² in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence conflatedness¹² with existence as of its ecstatic
singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-prime movers-totalitative-framework\textsuperscript{72} are naturally and ad-hocly dementated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence conflatedness\textsuperscript{12} with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of ‘conflatedness\textsuperscript{12} with existence as of its ecstatic singularity’ given its inherent blurriness\textsuperscript{7}, \textlangle amplituding/formative–epistemicity\rangle totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and emotional-involvement, in order to then achieve parallel level of ontological-prime movers-totalitative-framework\textsuperscript{72} knowledge conception as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism. In effect this ontological difficulty fundamentally has to do with the inherent difficulty of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87} by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{96} (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising beholding–protohumanity’-to-‘attain-sublimating–humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textlangle amplituding/formative–epistemicity\rangle totalising–renewing–realisation/re-perception/re-thought,–in-supercragatory–epistemic–conflatedness\textsuperscript{12} to supersede human temporality\textsuperscript{98}/shortness \textlangle amplituding/formative\rangle wooden-language-{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{99} as-of-‘nondescript/ignorable–void\textsuperscript{69} -with-regards-to-prospective-apriorising-implications>))}\textrangle constroed as ‘dispensing-with-shallow-mathesis/motif/thrownness-disposition’-for-relative-ontological-completeness\textsuperscript{87} by-reification\textsuperscript{86}; with human self-consciousness rather prone to its given reference-of-thought\textsuperscript{83} reproducibility—mathesis/motif/thrownness-disposition,–as–

In this regard, immanence-function-conflatedness\textsuperscript{12} rather reflects ‘the ontological-normalcy/postconvergence disposition as of ontological-completeness-of-reference-of-thought\textsuperscript{83} notional–deprocrypticism\textsuperscript{17} point-of-departure/perspective as of its protensive self-consciousness’ that fulfils-and-assumes meaningfulness-and-teleology\textsuperscript{955} as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism going by its full comprehension of existence’s ecstatic singularity immanence <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity\textsuperscript{6644}, hence overcoming our positivism–procrypticism\textsuperscript{80} <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-reflex in constitutedness\textsuperscript{13} that induces dissingularisation\textsuperscript{78}/epistemic-nonimmanence/flawed-epistemic-determinism; and so, as of immanence-function-

Basically, immanence-function-conflatedness\textsuperscript{12} speaks of the counterintuitive mental-reflex for drawing out the full <amplituding-formative–epistemicity>causality–as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity\textsuperscript{644} for ‘creative understanding’/insight as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, going by existence’s ecstatic singularity as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}−<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>. This immanence-
function-conflatedness\textsuperscript{12} insight is effectively what marks prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83} as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism\textsuperscript{80} self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity <amplituding/formative-epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644} of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed constitutedness\textsuperscript{13}’ or ‘we are as potently immanent as of our virtuous conflatedness\textsuperscript{12}’. Immanence-function-conflatedness\textsuperscript{12} points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness\textsuperscript{87} and prior relative-ontological-incompleteness\textsuperscript{88} is fundamentally flawed as of constitutedness\textsuperscript{13}, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness\textsuperscript{12} of prospective relative-ontological-completeness\textsuperscript{87} over prior relative-ontological-incompleteness\textsuperscript{88} construed as immanence-function-conflatedness\textsuperscript{12}. Thus metaphoricity\textsuperscript{56} of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness\textsuperscript{12} reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism\textsuperscript{17} immanence-function-conflatedness\textsuperscript{12} overriding the meaningfulness-and-teleology\textsuperscript{9955} of procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8388} mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism\textsuperscript{17} mindset, as the latter reflects the underlying positivism–procrypticism\textsuperscript{80} mental-disposition mindset with regards to existential desublimation
manifestations of disjointedness-as-of-reference-of-thought\textsuperscript{83}. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology\textsuperscript{9955} aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness\textsuperscript{12} implying that all the meaningfulness-and-teleology\textsuperscript{9955} is necessarily as of the prospective relative-ontological-completeness\textsuperscript{87} over the prior relative-ontological-incompleteness\textsuperscript{88}, respectively as of positivism and deprocrypticism\textsuperscript{17}. If by anticipation we do know immanently that a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness\textsuperscript{12} with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional-deprocrypticism\textsuperscript{17} immanence-function-conflatedness\textsuperscript{12} as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought\textsuperscript{83} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism\textsuperscript{80} mental-disposition with no pretence of such a positivism–procrypticism\textsuperscript{80} ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought\textsuperscript{83} inclination. In other words, immanence-function-conflatedness\textsuperscript{12} is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework\textsuperscript{72} as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-
mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness\(^8\) meaningfulness-and-teleology\(^9\) as if of prospective relative-ontological-completeness\(^8\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-confoundedness\(^1\) equally highlights knowledge as of its essential organic construct implications. As a constitutedness\(^1\) predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/superoerothy-de-mentativity as of prospective relative-ontological-completeness\(^8\)-of-reference-of-thought\(^3\). Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its
superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) is an appropriate framework for prospectively implied reference-of-thought\(^{83}\) knowledge acquisition. Likewise, it is herein contended that similarly a notional~deprocrypticism\(^{17}\) contortion reifying gesture necessarily questioning our positivism–procrypticism\(^{80}\) disjointedness-as-of-reference-of-thought\(^{83}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\(^{8317}\) transcendence-and-sublimity/sublimation\(\text{supererogatory~de~mentativity.}\) The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness\(^{12}\), likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflatedness\(^{12}\), universalisation–non-positivism/medievalism fails as of prospective positivism immanence-function-conflatedness\(^{12}\), and prospectively positivism–procrypticism\(^{89}\) fails in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of prospective notional~deprocrypticism\(^{17}\) immanence-
function-conflatedness; so-implied as of singularisation/epistemic-immanence/veridical-epistemic-determinism reflection of existence’s ecstatic singularity. Hence ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness/as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity implied organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness-reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness-of-reference-of-thought for objectifying/contending discursivity nothing more but flawed <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that
many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\textsuperscript{40}-or-deferring-falsifiability\textsuperscript{40} and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. This insight equally informs this author’s supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, as well as existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of the disposition for advancing the metalevel transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} in reflecting ‘immanent-ontological-contiguity\textsuperscript{66}’),–as-operative-notional–deprocrypticism\textsuperscript{43} of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—
textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as of existential-contextualising-contiguity knowledge-reification as implied by the articulation of ontological-good-faith/authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care—and—episteme ‘implication of ontological-primemovers-totalitative-framework, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—
‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications\rangle\) socially intelligible meaningfulness-and-teleology\textsuperscript{9955} conceptualisation in \langle\textsuperscript{ampli}\textsuperscript{t}tising/formative-epistemicity\rangle-totalising–self-referencing-syncretising/circularity/interiorising/akrasiative-drag\textsuperscript{33}.

metaphoricity\textsuperscript{56} as such ironises on social intellectual nihilism as it is bent on undermining any temporality\textsuperscript{98}/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality solipsistic intemporality\textsuperscript{51}/longness parrhesiastic askance, and as of immanence-function-conflatedness\textsuperscript{12} ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality\textsuperscript{51} manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought\textsuperscript{83}’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism\textsuperscript{80} social-setup to perceive our positivism–procrypticism\textsuperscript{80} humanistic knowledge system as absolute; it is immanence-function-conflatedness\textsuperscript{12} by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-
thought\textsuperscript{83}. With such immanence-function-conflatedness\textsuperscript{12} insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism\textsuperscript{90} are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic de-mentating/structuring/paradigming as of their ultimate existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism\textsuperscript{17}; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism–procrypticism\textsuperscript{80}. Thus, if immanence-function-conflatedness\textsuperscript{12} reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}’ that is its preeminent epistemic and
methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} are nothing more but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}–<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>, and institutionalised, such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so
existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-amplituding/formative-epistemicity>totalising–purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness^88/relative-ontological-completeness^87- (sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness^12/$formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing^73). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity^38 knowledge-reification^86 for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought^8317; and justified by the fact that if previous generations had to undergo their psychoanalytic-
unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence–function–conflatedness analytical implications equally arise as of the ‘countervailing transversality-of-affirmative-and-inaffirmative,-disambiguated-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-totalitative-framework between ‘existence/existentia-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so construed as prospective institutionalisation dissemination, as this transversality-of-affirmative-and-inaffirmative,-disambiguated-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity, and so as of the de-mentative/structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective relative-ontological-completeness is inherently bound with its very own epistemic <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal
disseminative human epistemic articulations at relative uninstitutionalised-threshold\(^1\) and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity transversally induced ontological-primemovers-totalitative-framework\(^2\) selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In this regard and at the general epistemic level of reference-of-thought\(^3\)-devolving\(^4\), we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\(^5\)—of-the-human-institutionalisation-process\(^6\) as of difference-conflectedness\(^7\)-as-to-totalitative-reification\(^8\)-in-singularisation\(^9\)-as-veridical-epistemic-determinism\(^10\) \(<\text{amplituding}/\text{formative–epistemicity}>\text{causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity}\)\(^{6,4,4}\) is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness\(^11\) \(<\text{amplituding}/\text{formative–epistemicity}>\text{causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity}\)\(^{6,4,4}\) induced from ontological-primemovers-totalitative-framework\(^2\). Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^6\) which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-
formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient \textit{amplitude/formative} wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications>) epistemic impertinence. Prospective notional–notional–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity determinant selector as of the deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to
the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{6644} capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} for transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity. Such a notional–deprocripticism\textsuperscript{17} epistemic-veracity implication is pertinent because blurriness\textsuperscript{7} and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework\textsuperscript{72}, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework\textsuperscript{72} as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative–epistemicity> totalising–devolved–purview–as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of
obvious muddlement as well as ontological-bad-faith/inauthenticity\textsuperscript{63} with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability\textsuperscript{48} and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity\textsuperscript{66} of observations, conceptualisations and predictions, in their conflatedness\textsuperscript{12} totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness\textsuperscript{87} with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}.<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of their critical operant implications and unmuddled conceptions. Furthermore, the notional-deprocrypticism\textsuperscript{17} epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}—as-of—‘nondescript/ignorable—void\textsuperscript{691}—with-regards-to-prospective-apriorising-implications>}. With the <amplituding/formative-epistemicity>causality—<as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity\textsuperscript{6644} that the deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} extended-informality requires an organic-
knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the notional-deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-confatedness insight, of most critical importance and decisiveness as dementatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional-deprocrypticism meaningfullness-and-teleology is the need for a notional-deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions
have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supernegatory-epistemic-conflatedness absolutising epistemic reference, specifically as so-construed from our positivism-procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of our <amplituding/formative-epistemicity>totalising—thrownness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance—<including-virtue-as-ontology>. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-shiftiness-or-the-Self/ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance—<including-virtue-as-ontology> as by its <amplituding/formative-

It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human
akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self91/ontological-
fracturing/desublimation/gimmickiness complex’ that raises-the-charge-that-and-reflects-the
notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is de-

institutionalisation–ununiversalisation will likewise fail as of universalisation mental-
disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism
mental-disposition, and prospectively our positivism–procrypticism80 will likewise fail as of
notional–deprocrypticism17 mental-disposition. This element of the dynamic evolution of the
human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-
susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self91/ontological-
fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that
doesn’t register our own positivism–procrypticism80 prior relative-ontological-

normalcy/postconvergence/referentialism notional–notional–deprocrypticism17 perspective of
analysis as of singularisation92/epistemic-immanence/veridical-epistemic-determinism. We can
perceive the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating
preconverging/dementing19–qualia-schema’ associated with akrasia-susceptibility-or-akrasiatic-
drag complex only from the perspective of prospective relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\), and so as of the latter’s difference-conflatedness\(^12\)-as-to-totalitative-reification\(^86\)-in-singularisation\(^92\)-as-veridical-epistemic-determinism\(^21\) as from the ontological-conguity of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, as it reflects-and-contemplates of the uninstitutionalised-threshold\(^102\) of the prior relative-ontological-incompleteness\(^88\)-of-reference-of-thought\(^83\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, whereas the prior relative-ontological-incompleteness\(^88\)-reference-of-thought\(^83\) mental-disposition reflects its uninstitutionalised-threshold\(^102\) as a nondescript/ignoreable–void\(^59\) (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\(^19\)-narratives) of notional-discontiguity/epistemic-discontiguity\(^62\)-\(<\)shallow-supererogation\(^96\)-of-mentally-aestheticised–preconverging/dementing\(^19\)–qualia-schema> by ‘resetting its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is flawed at its uninstitutionalised-threshold\(^102\), thus taking a flawed posture of identitive-constitutedness\(^13\)-as-‘epistemic-totality\(^36\)’-dereification-in-dissingularisation\(^28\)-as-flawed-epistemic-determinism\(^48\) of notional-discontiguity/epistemic-discontiguity\(^62\)-\(<\)shallow-supererogation\(^96\)-of-mentally-aestheticised–preconverging/dementing\(^19\)–qualia-schema>. Such akrasia-susceptibility-or-akrasiatic-drag complex ‘\(<\)amplituding/formative-epistemicity>totalising/circumscribing/delineating preconverging/dementing\(^19\)-qualia-schema’ is reflected as of the ‘\(<\)amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^33\) of the prior relative-ontological-incompleteness\(^88\)-reference-of-thought\(^83\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as mathesis/motif/thrownness-disposition-at-its-uninstitutionalised-threshold\(^102\)’. Consider the akrasia-susceptibility-or-akrasiatic-drag complex ‘\(<\)amplituding/formative–
epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ from a prospective positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards, with respect to ‘God of plane’ type of expression in an animistic/base-institutionalisation setup wherein their fundamental apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychology is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued/devolved in the animistic/base-institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought\textsuperscript{83} psychology of meaningfulness-and-teleology\textsuperscript{9955} in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} with its uninstitutionalised-threshold\textsuperscript{192} as a nondescript/ignoreable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) whereas such a representation as a nondescript/ignoreable–void\textsuperscript{59} wouldn’t be recognised from the positivism/rational-empiricism perspective as of its prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought\textsuperscript{83}. Likewise, as of prospective insight, the nondescript/ignoreable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) we imply as of our positivism–procrypticism\textsuperscript{80} disjointedness-as-of-reference-of-thought\textsuperscript{83} is certainly prospectively contemplatable in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} reflection of our akasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ of positivism–procrypticism\textsuperscript{80} disjointedness-as-of-reference-of-thought\textsuperscript{83} in ‘<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as of difference-conflectedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21} from the notional--deprocrypticism\textsuperscript{17} ontological-contiguity\textsuperscript{66}, whereas from our positivism--procrypticism\textsuperscript{80} perspective we’ll tend to a ‘resetting of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ of positivism--procrypticism\textsuperscript{80} in ontological-disconguity as of identitive-constitutedness\textsuperscript{13}-as-'epistemic-totality\textsuperscript{36}--dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48}. This expansion of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is rather as of the perspective of existence-potency--sublimating--nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising--renewing-realisation/re-perception/re-thought,-in-supercerogatory--epistemic-conflictedness\textsuperscript{72} as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism <amplituding/formative>notional--preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83}/notional--notional--deprocrypticism\textsuperscript{17} and not as of ontologically-compromised human-subpotency epistemic/notional--projective-perspective; and is articulated more completely to reflect ontological-performance\textsuperscript{71}--<including-virtue-as-ontology> as of the the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construal/conceptualisation with respect to prospective relative-ontological-completeness\textsuperscript{87} <amplituding/formative--epistemicity>causality--as-to-projective-totalitative--implications,-for-explicating-ontological-contiguity\textsuperscript{644} in accounting for human differences of ontological-performance\textsuperscript{71}--<including-virtue-as-ontology>. It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness\textsuperscript{13}-as-'epistemic-totality\textsuperscript{36}--dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48}. Thus the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’
refers to the mental dispositional state of de-mentative/structural/paradigmatic rationalised-closedness-of-ontological-performance\(^{71}\)\(<\text{including-virtue-as-ontology}\>\)-of-the-self ‘as bound to define-and-shape any given registry-worldview’s/dimension’s specific ontological-performance\(^{71}\)\(<\text{including-virtue-as-ontology}\>\>-and-\text{vices-and-impediments}^{105}\). Rather an ontologically-veridical construction-of-the-Self is necessarily in conflatedness\(^{12}\) as of the intemporal absolutising epistemic reference of existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/formative–epistemicity}>\>\text{totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confinedness}^{32}\) constrainious-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and construed as of difference-confinedness\(^{12}\)-as-to-totalitative-reification\(^{86}\)-in-singularisation\(^{92}\)-as-veridical-epistemic-determinism\(^{21}\). Such a confinedness\(^{12}\) construction-of-the-Self is one that is de-mentatively/structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/formative–epistemicity}>\>\text{totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confinedness}^{32}\), as it construes of human-subpotency reference-of-thought\(^{83}\) given level of ontological-veridicality-commitment/aetiolgisation/ontological-escalation/otherliness implications; and so as devolingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential referencing/registering/decisioning, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social meaningfulness-and-teleology\(^{99}^{55}\) as of the \(<\text{amplituding/formative–epistemicity}>\>\text{causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity}^{6644}\) of living-development–as-to-personality-development, institutional-development–as-to-social-function-
development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^9\). Thus fundamentally the \(<\text{amplituding/formative–epistemicity}>\text{causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity}\(^6\)\(^4\)\(^4\) and orientations underlying construction-of-the-Self as of a notional–deprocrypticism\(^1\)\(^7\) conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^4\)\(^5\)> with successive registry-worldviews/dimensions human-subpotency reference-of-thought\(^8\)\(^3\) induced recurrently from the instigative <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\(^6\)\(^4\)\(^4\) of dementation–(<supererogatory–ontological–dementation-or-dialectical–de-mentation—stranding-or-attributive-dialectics>)\(^1\)\(^4\). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\(^9\)\(^1\)/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and adjust to it by stopping such an
epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} implies
a displacement/decentering-of-the-human-subject with its emancipation arising as of its
submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is
falsifiable and can be validated by ontological-prime-movers-totalititative-framework\textsuperscript{72}. Thus
intemporal ontological-performance\textsuperscript{71} \textless including-virtue-as-ontology \textgreater ever always warrants
human prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} for
empowering and responsible meaningfulness-and-teleology\textsuperscript{9955} for transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-
drag complex further implies that the very state of unwariness with respect to prior relative-
ontological-incompleteness\textsuperscript{88} as of a nihilistic disposition is de-
mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its
vices-and-impediments\textsuperscript{105}, and as the very possibility for prospective ontological-
performance\textsuperscript{71} \textless including-virtue-as-ontology \textgreater arises as of the intemporal ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-

prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}⁹⁵⁵—as-of—‘nondescript/ignorable—void⁹⁹—with-regards-to-prospective-apriorising-implications}>? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance⁷¹—<including-virtue-as-ontology> as of human <amplituding/formative—epistemicity>totalising—thrownness-in-existence²⁴ induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness⁸⁷ possibilities. it is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self⁹¹/ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity⁶⁶—as-of-the-human-institutionalisation-process⁶⁷ as of difference-conflatedness¹²—as-to-totalitative-reification⁸⁶—in-singularisation⁹²—as-veridical-epistemic-determinism¹¹ <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity⁶⁴⁴—as it cogently-and-fluidly as of ecstatic-totalising-entailing/nested-congruence
ahistorically-and-aculturally reflects-and-accounts-for the transitioning ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} development of the human species psyche. This insight equally specifically underlies the psychoanalytic ontological-veracity of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’ as it reflects the basic human psychological nature across all ages and times, so appraised as from the Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construal/conceptualisation with respect to prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} <amplituding/formative-epistemicity> causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6644} in accounting for human differences of ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> across the successive registry-worldviews/dimensions reference-of-thought\textsuperscript{83}-level of ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as well as the temporal-to-intemporal differences of ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as of each registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-level, rather than flawed impression-driven/good-naturedness/wishfulness conceptualisation as of inherent identitive essences flawed accounting of human differences. this idea of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’ fundamentally harkens back to the notion of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating–nascence—as-of-its-coherence/contiguity’; wherein successive prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} generate de-mentative/structural/paradigmatic existential implications as of ‘successive specific less-and-

The psychoanalytic pertinence of human akrasia-susceptibility-or-akrasiatic-drag complex, so-implied as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’, is hinted at even by traditional psychology but rather indirectly as of its ontologically-flawed perspective as of human-subpotency <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} when it recognises that we do fall short of intemporal ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>, but strangely enough hardly has there been articulated any conception about this obviously fundamental de-mentating/structuring/paradigming ontologically-veridical implication of human-subpotency psyche limitation/compensative complex as from the perspective of existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12}/intrinsic-reality/ontological-veridicality which is exactly what is ontologically pertinent, and so out of our presencing—absolutising-identitive-constitutedness\textsuperscript{1379} <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} inclination. Thus, human akrasia-susceptibility-or-akrasiatic-drag complex is rather construed here as of the prior relative-ontological-incompleteness\textsuperscript{88} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{644} in the shiftiness-of-the-Self\textsuperscript{91} as of living, institutional and Being ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> arising as of human temporality\textsuperscript{98}; wherein ‘human-subpotency temporality\textsuperscript{98}/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> by its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic

In this regard, traditional psychology fails a theoretical-conceptual-operant accounting for the changing construction-of-the-Self, as reflected by the fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigating recurrent shot for prospective relative-ontological-completeness\textsuperscript{87} as reasoning-through/messianic-reasoning enabling in reflecting holographically-\textnormal{conjugatively-and-transfusively} the ontological-contiguity\textsuperscript{66} of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12} as-to-totalitative-reification\textsuperscript{86} in-singularisation\textsuperscript{92} as-veridical-epistemic-determinism\textsuperscript{21} \textnormal{amplituding/formative-epistemicity} causality~as-to-projective-totalitative-implications, for explicating-ontological-contiguity\textsuperscript{6644} brings about successively weaker degenerative constitutedness\textsuperscript{13} ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{93} ontological-fracturing/desublimation/gimmickiness complex’, with increasing ontological-performance\textsuperscript{71} as of the successive registry-worldviews/dimensions reference-of-thought\textsuperscript{83}. This reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human—institutionalisation-process\textsuperscript{67} very much explains the statement ‘I know that I know nothing’ made by Socrates reflecting his conception of anamnesis, as the state of human limited—mentation-capacity implies that it is foolhardy to articulate in presencing—absolutising—identitive—constitutedness\textsuperscript{1379} terms meaningfulness-and—teleology\textsuperscript{9955} as of absolutising reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of—aestheticisation but rather ‘the anamnesis of meaningfulness-and—teleology\textsuperscript{9955} reflects prospective originariness—parrhesia,–as—spontaneity-of—aestheticisation as of recurrent transepistemic renewing of reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of—
aestheticisation’ (and so, in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process dimensionality-of-sublimating <amplituding/formative>supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluitive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative-epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity). This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewingREALISATION/re-perception/re-thought,—in-supерerogatory—epistemic-conflatedness (with anamnesis so-construed as 'dimensionality-of-sublimating <amplituding/formative>supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluitive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-disposition’) and not any presencing—absolutising-identitive-constitutedness as reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-

The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising\(^{103}\)-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising\(^{103}\)-idealisation apriorising/axiomatising/referencing—psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold-(uninstitutionalised-threshold\(^{102}\)/presublimating—desublimating-decisionality)—of-ontological-performance\(^{71}\)-<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification\(^{86}\) as of the transepistemic implications of human limited-mentation-capacity-deepening\(^{52}\). Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising\(^{103}\)-idealisation meaningfulness-and-teleology\(^{9955}\) infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity\(^{38}\) and thus allows prospective dimensionality-of-sublimating\(^{24}\)—
<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation insight for further human limited-mentation-capacity-deepening\textsuperscript{52} (as to ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{65} as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications, for-explicating-ontological-contiguity\textsuperscript{66} and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification\textsuperscript{86} projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification\textsuperscript{86}, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and phronesis existential-contextualising-contiguity\textsuperscript{38} in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications<as-to-existence-potency–sublimating–nascent,–disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought, in supererogatory epistemic-conflatedness\textsuperscript{12} as to the ontological-normalcy/postconvergence-projective-perspective, to which latter human-subpotency-

In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic philosophers universalising\textsuperscript{103}-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12}–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence\textsuperscript{38}>, and that such a possibility lies in perpetual knowledge-reification\textsuperscript{86} disposition as of the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72}. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising\textsuperscript{103}-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity\textsuperscript{38} as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising\textsuperscript{103}-idealisation phronesis existential-contextualising-contiguity\textsuperscript{38} at the latter’s destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-

The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from a presencing–absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively
as of the full existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression as of <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of
any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—a poria/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of <amplituding/formative>wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology995-as-of-'nondescript/ignorable–void99>-with-regards-to-prospective-apriorising-implications>) dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology\(^9\)-<in-existential-extrication-as-of-existential-unthought>\(^6\) only human intemporal ontological-performance\(^7\)-<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance\(^7\)-<including-virtue-as-ontology> of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing\(^15\) of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or
institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) is inherent, the underlying dem-entative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling doesn’t substitute for the \(<\text{amplituding/formative–epistemicity}>\) totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating\(^{24}\)–\(<\text{amplituding/formative}>\) supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^{12}\)/transvalutive-rationalising/transepipticity/anamnestic-residuality/spirit-drivenness–equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or \(<\text{amplituding/formative}>\) wooden-language\({}\text{-imbued}\--\text{-averaging-of-thought-}\text{-as-to-leveling/ressentiment/closed-construct-of-}\text{-meaningfulness-and-teleology}\(^{9555}\)\text{-as-of-`}\text{nondescript/ignorable–void}\(^{59}\)\text{-with-regards-to-prospective-apriorising-implications}>\) framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity idealisation, in the way that human idealisation is often wrongly construed and propounded. All the human idealisation that exists is as of effective individuals and institutional intemporal individuation projection for prospective \(<\text{amplituding/formative–epistemicity}>\) totalising–renewing-realisation/re-perception/re-thought of what they as of reasoning-through/messianic-reasoning idealise as from their underlying baseline registry-worldview/dimension reference-of-thought\(^{83}\) and the subsequent secondnatured institutionalisation of its given intemporal ontological-

But any given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension meaningfulness-and-teleology\textsuperscript{9955} as well as the fact that human perceived social-stake-contention-or-confliction interests drift within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities, implies that any such registry-worldview/dimension social-setup has basic de-mentating/structuring/paradigming supposedly coherent ontological-commitment\textsuperscript{65} for its effective functioning which lays it prospectively exposed to metaphoricity\textsuperscript{56} as of prospective ontological-prinemovers-totalitative-framework\textsuperscript{72} as from prospective existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding–formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,–in-supercerogatory–epistemic-conflatedness\textsuperscript{12} epistemic/notional–projective-perspective; as such a registry-worldview/dimension would difficultly renege, as of contradictory and incoherent implications, on such critical prospective ontological-veracity implications of such prospective relative-ontological-completeness\textsuperscript{87} of meaningfulness-and-teleology\textsuperscript{9955}. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying <amplituding–formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, as of potentially the same ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment\textsuperscript{65} but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment\textsuperscript{65} as of its ‘self-assuredness-of-
ontological-good-faith/authenticity\textsuperscript{68}—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction' which is then enabling for the critical metaphoricity\textsuperscript{56} of prospective meaningfulness-and-teleology\textsuperscript{9955} ontological-veracity implications of ontological-primemovers-totalitative-framework\textsuperscript{72} as of prospective relative-ontological-completeness\textsuperscript{87}. In other words, as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181} of human metaphoricity\textsuperscript{56} of temporal-to-intemporal—ontological-performance\textsuperscript{71}—<including-virtue-as-ontology>—of-narratives, we know that the ontological-primemovers-totalitative-framework\textsuperscript{72} that underlies existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression-as-of-

This is exactly why the overall ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}—in-singularisation\textsuperscript{92}—as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity\textsuperscript{644}—ultimately has a direction as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, notwithstanding de-mentative/structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordionning—(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,—as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing—imbued-ontological-performance\textsuperscript{71}—<including-virtue-as-ontology>) at uninstitutionalised-

We can appreciate both with regards to the social fabric as well as the natural sciences this common basis of supposedly coherent ontological-commitment\textsuperscript{65} from a long-term perspective, in the sense that technical and scientific progress associated with the industrial revolution ‘could hardly be socially reneged’ not only in Western Europe but with respect to its diffusion throughout the world, and so because the supposedly coherent ontological-commitment\textsuperscript{65} of human societies conventioning as of their ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ render themselves exposed to the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of the prospective relative-ontological-completeness\textsuperscript{87} as projected by the industrial revolution underlying technical and scientific knowledge manifesting as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of—\textless amplituding/formative—epistemicity\textgreater totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-confledness\textsuperscript{32} selection/skewing of ontological-primemovers—totalitative-framework\textsuperscript{72} \textless amplituding/formative—epistemicity\textgreater causality—as-to-projective—totalitative—implications,—for-explicating-ontological-contiguity\textsuperscript{644} and so because these project beyond subjectivity-of-truth—as-of-human-subpotency as implied by the universal objectivity as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—as-of—\textless amplituding/formative—epistemicity\textgreater totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-confledness\textsuperscript{32} of the underlying sciences and their applications. It is this insight as of ‘existence-potency—sublimating—nascence,—disclosed-from—prospective-epistemic-digression-as-of—\textless amplituding/formative—epistemicity\textgreater totalising—renewing—realisation/re-perception/re-thought,—in—
supererogatory–epistemic-conflatedness\textsuperscript{32} selection/skewing of ontological-primemovers-totalitative-framework\textsuperscript{72} \textlangle amplituding/formative–epistemicity\textrangle causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{644}, that animates the elucidation of metaphoricity\textsuperscript{56} herein as of ontology-driven ‘ontologically-hegemonising-narrative\textsuperscript{70} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>’, more than just a notion of mere subjective human-subpotency epistemic/notional–projective-perspective narratives; and so, as underlined by human limited-mentation-capacity-deepening\textsuperscript{52} inducing prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} \textlangle amplituding/formative–epistemicity\textrangle causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{644}. This ontology-driven assessment of intemporality\textsuperscript{51}/longness metaphoricity\textsuperscript{56} perspective rejects the often wrongly made critique of relative-for-the-mere-sake-of-relative-disparateness by atomising/taking-to-pieces identitive-constitutedness\textsuperscript{13}–as–‘epistemic-totality\textsuperscript{36}–dereification-in-dissingularisation\textsuperscript{28}–as-flawed-epistemic-determinism\textsuperscript{48} critiques when misrepresenting the ontologically-veridical observations/remarks/‘constatations’ as of ecstatic-totalising-entailing/nested-congruence of postmodern thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{92}\textsuperscript{47} as of the \textlangle amplituding/formative–epistemicity\textrangle causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{644} of prospective relative-ontological-completeness\textsuperscript{87}, and so-construed as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in-singularisation\textsuperscript{92}–as-veridical-epistemic-determinism\textsuperscript{21} perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening\textsuperscript{52}; and this notion of relative truth is reflected in their works/research-programmes that undermine our \textlangle amplituding/formative–epistemicity\textrangle totalising–self-referencing-

Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating\textsuperscript{supererogatory} de-mentativity with regards to truth as it enables transcendence-and-sublimity/sublimation\textsuperscript{supererogatory} de-mentativity then is existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in\textsuperscript{supererogatory}–epistemic-conflatedness\textsuperscript{12} as of its ontological-primemowers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{644} selecting/skewing for ontological-pertinence within the underlying human metaphoricity\textsuperscript{56} scheme of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflicatedness\textsuperscript{12} as-to-totalitative-reification\textsuperscript{86} in-singularisation\textsuperscript{92} as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{644}, and not just mere human subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity\textsuperscript{56} of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology\textsuperscript{9955} transmission/spreading perspective, the supposedly coherent ontological-commitment\textsuperscript{65} so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68} as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity\textsuperscript{56} of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained
politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity\textsuperscript{56} constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology\textsuperscript{9955} to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology\textsuperscript{9955} for say a suprasocial or <amplituding/formative>wooden-language-\{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955} as-of—‘nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications>\} human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology\textsuperscript{99}-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity\textsuperscript{56} as of a self-consciously instigated prior suprasocial or <amplituding/formative>wooden-language-\{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955} as-of—‘nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications>\} comprehensive sense of prospective metaphoricity\textsuperscript{56}. This points to a more comprehensive reality of human epistemic-veracity arising as of our <amplituding/formative—epistemicity>totalising—thrownness-in-existence\textsuperscript{34} with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability\textsuperscript{48} implications as of ontological-primemovers-totalitative-framework\textsuperscript{72}, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is
in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology\textsuperscript{99} <in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} nonpresencing\textsuperscript{68} <perspective–ontological-normalcy/postconvergence> ricocheting that speaks of the dementative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness\textsuperscript{87} appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <amplituding/formative>wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995} -as-of-‘nondescript/ignorable–void\textsuperscript{69} -with-regards-to-prospective-apriorising-implications>) presencing—absolutising-identitive-constitutedness\textsuperscript{1379} mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity\textsuperscript{56} implications of operant prospective intemporal individuation transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. pedantry. Just as we can appreciate that in ‘the very same physics <amplituding/formative-epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existentialexistential-reality’ as of prospective relative-ontological-completeness\(^87\)-of-axiomatic-construct-or-reference-of-thought\(^83\), the epistemic-veracity as implied in succession from Copenicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricocheting prospective nonpresencing\(^68\)-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic meaningfulness-and-teleology\(^9955\) as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework\(^72\) validation-and-falsifiability\(^48\). Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective meaningfulness-and-teleology\(^9955\) as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness\(^1379\) epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology\(^9955\) as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability\(^48\). Thus metaphoricity\(^56\) as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology\(^9955\) as knowledge, even though this can be relevant as of a shared prospective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-
originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-

common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates,
Plato, Aristotle and their schools with their universalisation projection or the Descartes,
Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather
beyond such shared prospective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
meaningfulness-and-teleology that is instigative, metaphoricity is critically about the
prospective ricocheting de-mentating/structuring/paradigming implications for inducing such
prospective meaningfulness-and-teleology implications on the fabric of the social as an
epistemic-totality framework beyond-the-consciousness-awareness-teleology <in-
existential-extrication-as-of-existential-unthought>, as the supposedly coherent ontological-
commitment of ‘self-assuredness-of-ontological-good-faith/authenticity as-being-as-of-
existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup
exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so
because in the long run transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing101 of temporal-to-intemporal–ontological-performance <including-virtue-as-ontology>–of-narratives is rather as of ontological-primemovers-
totalitative-framework selecting/skewing-towards intemporality/ontological-veracity as to

thought, in supererogatory–epistemic-conflatedness as-to-ontologically-uncompromised-
ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness\textsuperscript{1379} Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, when it comes to assessing the possibility of prospective meaningfulness-and-teleology\textsuperscript{9955} inducing of metaphoricity\textsuperscript{56}. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} including our modern period, is a flawed appraisal; as in many ways, beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold\textsuperscript{402} as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of prospective notional–deprocrypticism\(^{17}\) metaphoricity\(^{56}\) in our positivism–procrypticism\(^{88}\); as its brings to the self-consciousness the reality that the implication of such a notional–deprocrypticism\(^{17}\) articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold\(^{102}\); it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) as of difference-conflatedness\(^{12}\)–as-to-totalitative-reification\(^{86}\)–in-singularisation\(^{92}\)–as-veridical-epistemic-determinism\(^{21}\) \(<\text{amplituding/formative-epistemicity}>\text{causality–as-to-projective-totalitative–implications},\text{-for-explicating-ontological-contiguity}\(^{644}\)\) warrants such intemporal relaying of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) beyond just conventioning-referencing; as the very possibility of successive registry-worldviews/dimensions as of prospective relative-ontological-completeness\(^{87}\) arises because such reasoning-through/messianic-reasoning can devalue their presencing—absolutising-identitive-constitutedness\(^{1379}\) conventioning-referencing to value prospective possibility for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as explained above with Socrates/Plato/Aristotle with their schools Being-

since every registry-worldview/dimension social-construct is involved in a constructive (as of
its institutionalising disposition) and destructuring (as of its disposition at its
uninstitutionalised-threshold relationship with ontological-veracity, this is exactly what
inevitably validates the articulation of ontological-veracity/ontological-veridicality as more
completely involving the displacement/decentering-of-the-human-subject priorly as implied
with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-
discourse narrative in reflecting the need to undermine human destructuring-threshold
(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-
performance<including-virtue-as-ontology> to further advance its
constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming
underlying logocentrism as of prospective relative-ontological-completeness implications;
reflecting the fact that human knowledge is more completely a two-fold process involving
building the right mindset-as-of-prospective-relative-ontological-completeness and thus the
knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as
of projected conflatedness\textsuperscript{12}. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative constitutedness\textsuperscript{33} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness\textsuperscript{88} on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold–(uninstitutionalised-threshold\textsuperscript{482}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}.

\textless including-virtue-as-ontology\textgreater nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective deprocrypticism\textsuperscript{17}, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology\textsuperscript{9955} whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-
reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-
(uninstitutionalised-threshold\textsuperscript{162}/presublimating–desublimating-decisionality)--of-ontological-
performance\textsuperscript{71}–<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-
of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism\textsuperscript{88} prior relative-ontological-incompleteness\textsuperscript{88} human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought\textsuperscript{82}, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness\textsuperscript{87} deprocrypticism\textsuperscript{17}; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{88} temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\textsuperscript{87} positivism, as a result of the failure of dispensing-with-immediacy-
for-relative-ontological-completeness\textsuperscript{87} by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{76} (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally–collateralising-beholdingen-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-superceratory–epistemic-conflatedness\textsuperscript{12} to supersede human temporality\textsuperscript{98}/shortness <amplituding/formative>wooden-language-(imbued—averaging-of-thought<<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955} as-of-’nondescript/ignorable–void\textsuperscript{69}—with-regards-to-prospective-apriorising-implications>));

which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism\textsuperscript{80} prior relative-ontological-incompleteness\textsuperscript{88} human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought\textsuperscript{83} but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\textsuperscript{87} notional–deprocrypticism\textsuperscript{17} rather subsumes all such binary opposition conceptions basically into the binarity of intemporality\textsuperscript{51}/longness and temporality\textsuperscript{98}/shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{87} notional–deprocrypticism\textsuperscript{17} that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-
completeness\textsuperscript{87} notional-deprocrypticism\textsuperscript{17} herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247}; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{87} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its
usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold\textsuperscript{192}/presublimating–desublimating-decisionality}~of-ontological-performance\textsuperscript{71}.<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity\textsuperscript{86} epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}–as-of-‘nondescript/ignorable–void\textsuperscript{59}’–with-regards-to-prospective-apriorising-implications}> framework. Human akrasia-susceptibility-or-akrasiatic-drag complex is rather reflected operantly and pertinently as of

term ‘antiakrasiatic’ also along the same lines is further meant to emphasise the underlying idea
that akrasia is a ‘notion of lack’ which ‘anti disposition’ as of relative-ontological-completeness\textsuperscript{87} is then about superseding the lack, and such relative-ontological-incompleteness\textsuperscript{88} is superseded rather as of

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality\textsuperscript{98}/shortness and intemporality\textsuperscript{51}/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. accusation-of-sorcery in a non-positivism social-setting social-stake-contention-or-confliction, with the construal of such purportedly constructiveness disposition of ‘equivalence/correspondence antiakrasiatonic-aspiration ontological-performance’\textsuperscript{71}<including-virtue-as-ontology>’ as of positivism ontologically-hegemonising-narrative\textsuperscript{70} not necessarily telling from within the perspective of the non-positivism human-subpotency social-stake-contention-or-confliction narratives, but for the implied prospective metaphoricity\textsuperscript{56} as prospective ontologically-hegemonising-narrative\textsuperscript{70} of positivism. Insightfully, such an ontological-normalcy/postconvergence destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{42}/presublimating–desublimating–decisionality)~of-ontological-performance\textsuperscript{71}<including-virtue-as-ontology> analysis insight is more like a projective contrast as with the case of the BODMAS characters deficient apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{644} operation of Arithmetic construed as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism in epistemic- abnormalcy/preconvergence\textsuperscript{38} and with regards to our normally conceived apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{644} for the operation of Arithmetic as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism in ontological-normalcy. Basically, such an ontological-normalcy/postconvergence destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating–decisionality)~of-ontological- performance\textsuperscript{71}<including-virtue-as-ontology> analysis speaks of the reality of human de- mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding–or-attributive-dialectics)\textsuperscript{14} insights; and the appreciation of the latter as to the
highlights the ‘transitive nature’ of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-threshold\textsuperscript{102} in reflecting holographically-\textit{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} with respect to destructuring at all uninstitutionalised-threshold\textsuperscript{102}; as so-implied by de-mentation-(\textit{supererogatory}—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14}. The comprehensive social susceptibility to destructuring-transitoriness\textsuperscript{18}—as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative\textsuperscript{70}. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance\textsuperscript{71}\textit{<including-virtue-as-ontology>}’ arises because of destructuring-transitoriness\textsuperscript{18}—as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating—desublimating-decisionality)—of-ontological-performance\textsuperscript{71}\textit{<including-virtue-as-ontology>} parasitism \textit{<amplituding—formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{33}, as beyond-the-consciousness-awareness-teleology\textsuperscript{99}\textit{<in-existential-extrication-as-of-existential-unthought>}\textsuperscript{6} this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance\textsuperscript{71}\textit{<including-virtue-as-ontology>’}, and is further reflected in a social dynamics of dual overt and covert implicated interpretations of social phenomennality arising as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}\textit{<in-existential-extrication-as-of-existential-unthought>}\textsuperscript{6} cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and-teleology\textsuperscript{9955}. Insightfully, it can be appreciated that the ontological-
contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} is one long process involving the undermining of destructuring-transitoriness\textsuperscript{18}—of-deratiocination/deratiocontiguity at uninstitutionalised-threshold\textsuperscript{102} with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>’ as of ontologically-hegemonising-narrative\textsuperscript{70} implied as of prospective ‘<amplituding-formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening\textsuperscript{52} implications the destructuring-transitoriness\textsuperscript{18}—of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative\textsuperscript{70} implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>’. We can similarly project of the same with respect to our positivism–procrypticism\textsuperscript{80} disjointedness-as-of-reference-of-thought\textsuperscript{83} destructuring-transitoriness\textsuperscript{18}—of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold\textsuperscript{102} as to be prospectively superseded by notional–deprocrypticism\textsuperscript{17} preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83} ontologically-hegemonising-narrative\textsuperscript{70} thus rendering human ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding-formative–epistemicity>totalising–purview-of-construal’ as of prospective relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>’. This destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> analysis effectively points to the fact that human
akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity$^{66}$—of-the-human-institutionalisation-process$^{67}$ as to the destructuring implications at uninstitutionalised-threshold$^{182}$ implied human-subpotency epistemic/notional-projective-perspective in dissingularisation$^{28}$/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding-formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness$^{12}$ epistemic/notional-projective-perspective in singularisation$^{29}$/epistemic-immanence/veridical-epistemic-determinism. This overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility$^{73}$—<imbued-and—‘hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation> of the social-construct as from the elucidation/reification$^{86}$ as ‘destructuring-threshold—{uninstitutionalised-threshold$^{182}$/presublimating—desublimating—decisionality}—of-ontological-performance$^{71}$—<including—virtue—as-ontology> analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance$^{71}$—<including—virtue—as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-threshold$^{182}$ notionally/epistemically reflects the ontological-contiguity$^{66}$—of-the-human-institutionalisation-process$^{67}$; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-primemovers-totalitative-framework\textsuperscript{72} \langle\textit{amplituding-formative-epistemicity}\rangle causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6644} elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicit passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-\langle\textit{uninstitutionalised-threshold}\textsuperscript{102}/\textit{presublimating–desublimating-decisionality}\rangle~~of-ontological-performance\textsuperscript{71}-\langle\textit{including-virtue-as-ontology}\rangle and as reflected at uninstitutionalised-threshold\textsuperscript{102}. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{71}-\langle\textit{including-virtue-as-ontology}\rangle destructuring-threshold-\langle\textit{uninstitutionalised-threshold}\textsuperscript{102}/\textit{presublimating–desublimating-decisionality}\rangle~~of-ontological-performance\textsuperscript{71}-\langle\textit{including-virtue-as-ontology}\rangle and uninstitutionalised-threshold\textsuperscript{102}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-
ontological-performance$^{71}$-<including-virtue-as-ontology> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology$^{9955}$. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-(uninstitutionalised-threshold$^{182}$/presublimating–desublimating-decisionality)–of-ontological-performance$^{71}$-<including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity$^{66}$—of-the-human-institutionalisation-process$^{67}$; such that prospective social-construct constructiveness-of-ontological-performance$^{71}$-<including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposing$^{54}$-for-relative-ontological-completeness$^{87}$—unenframed-conceptualisation to prospectively recapture the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument$^{3}$ for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality$^{98}$/shortness often bound to induce incrementalism$^{98}$-in-relative-ontological-incompleteness$^{88}$—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity$^{66}$—of-the-human-institutionalisation-process$^{67}$, the
universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\(^{19}\)–qualia-schema’ and constructiveness as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\(^{20}\)–qualia-schema’ inherently elicits from the human-subpotency epistemic/notional-projective-perspective reflected as of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\(^{19}\)–qualia-schema’ in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\), a sense of temporal social-stake-contention-or-confliction existential-investment ushering in the furthering of temporality\(^{49}\)/shortness as of untransvaluated–temporal-intemporality\(^{53}\) inclination and accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological teleologically-elevated projection reflected as from existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\(^{32}\) epistemic/notional-projective-perspective for aetiolagisation/ontological-escalation such temporal-dispositions are rather unwarranted and irrelevant since such aetiolagisation/ontological-escalation is rather geared towards the prospective relative-ontological-completeness\(^{87}\) implied social-stake-contention-or-confliction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation dementating/structuring/paradigming and not the prior relative-ontological-incompleteness\(^{88}\) social-stake-contention-or-confliction in extricatory/temporal dementating/structuring/paradigming; and candidly so to the extent that the intemporal-as-ontological dispensing-with-immediacy-for-relative-ontological-completeness\(^{87}\)-by-

We can appreciate in this regards that the intemporal projection as of base—institutionalisation implies an incisive/edgy apriorising—teleological—elevation—in—ontological—contiguity\textsuperscript{66} beyond recurrent—utter—uninstitutionalisation social—stake—contention—or—confliction as of its ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}—qualia-schema’ in <amplituding/formative–epistemicity>totalising~self—referencing—syncretising/circularity—interiorising/akrasiotic—drag\textsuperscript{33}, and likewise with the intemporal projection as of universalisation over base—institutionalisation—ununiversalisation, positivism over universalisation—non—positivism/medievalism and prospectively notional—deprocrypticism\textsuperscript{17} over positivism—procrypticism\textsuperscript{80}. In this regards, the notion of preconverging—or—dementing\textsuperscript{19}—apriorising—psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}—qualia-schema’ of prior relative-ontological— incompleteness\textsuperscript{88} is
tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism as reflected as of ‘<amplituding/\textit{formative–epistemicity}>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<\textit{conjugatively-and-transfusively}> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<amplituding/\textit{formative–epistemicity}>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ by its self-conscious <amplituding/\textit{formative–epistemicity}>totalising–renewing-realisation/re-perception/re-thought as of its <amplituding/\textit{formative–epistemicity}>totalising–thrownness-in-existence\textsuperscript{84} that de-mentatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject.

Unlike our naïve human-subpotency epistemic/notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their ‘<amplituding/\textit{formative–epistemicity}>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/\textit{formative–epistemicity}>totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness\textsuperscript{12} epistemic/notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness\textsuperscript{87} postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism reflected as of ‘<amplituding/\textit{formative–epistemicity}>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring possibility of prior relative-ontological-incompleteness\textsuperscript{88} preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247}’, and implying an obligation for any given registry-worldview/dimension to maximise this human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ with respect to prospective base-institutionalisation ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism\textsuperscript{80} with respect to prospective deprocrypticism\textsuperscript{17}. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} are just as equally relatively enmeshed in many ways with their reference-of-thought\textsuperscript{83} old psychology ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective
‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness\textsuperscript{1399} positivism–procrypticism\textsuperscript{80} disposition is all-encompassing as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} when we construe of ourselves as ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism as of their constructiveness-of-ontological-performance\textsuperscript{71}<-<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ at their relative-ontological-completeness\textsuperscript{87} and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as of their destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}<-<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ at their relative-ontological-incompleteness\textsuperscript{88}, we equally manifest the same and so-perceived from the prospective relative-ontological-completeness\textsuperscript{87} of deprocryptism—or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317}. The critical point here has to do with the fact that beyond the ‘contingent-ontologies—as-of-conventioning-referencing’ of successive registry-worldviews/dimensions, in their <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995}–as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications> as of their ontologically-flawed identitive-constitutedness\textsuperscript{13}–as–‘epistemic-

This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology<sub>99</sub>-<in-existential-extrication-as-of-existential-unthought> rather turns out to be denaturing<sub>15</sub> and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism<sup>80</sup> contingent-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development—as-to-social-function-development and living-development—as-to-personality-development, more critically point to the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity<sup>66</sup>—of-the-human-institutionalisation-process<sup>67</sup> ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology<sup>9955</sup> as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Ultimately, human de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955},. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event prospective postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification\textsuperscript{86} of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism\textsuperscript{88} contingent-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will rather be ‘a more candid face-up with our procrypticism—or–disjointedness-as-of-reference-of-thought\textsuperscript{8388}, as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} institutional-being-and-craft, muddlement and other
intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–\textlangle including-virtue-as-ontology\textrangle cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing de-mentating/structuring/paradigmging based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation was relayed by other budding-positivists, and so over the destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–\textlangle including-virtue-as-ontology\textrangle of traditional medieval no-trouble disposition to perceive and take comfort in traditional scholasticism reasoning-from-results/afterthought pedantry as if critical reification\textsuperscript{86} will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism\textsuperscript{50}–in-relative-ontological-incompleteness\textsuperscript{88}–enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in-supererogatory–epistemic-conflatedness\textsuperscript{32} level for human emancipation as of maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}–unenframed-conceptualisation; and
this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/superroratory-de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/superroratory-de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation-(superroratory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)\(^{14}\) implied prospective postconverging-or-dialectical-thinking\(^{20}\)—apriorising-psychologism and prior preconverging-or-dementing\(^{19}\)—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology\(^{9955}\) is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness\(^{88}\)/relative-ontological-completeness\(^{87}\)- (sublimating~referencing/registering/decisioning,—as-self-becoming/self-

react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness by-reification by-reification /contemplative-distension which is ‘never always the easiest of notion’ for human
disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—asso-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness\(^{88}\)-dereification for <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\(^{9955}\)-as-of–‘nondescript/ignoreable–void\(^{69}\)-with-regards-to-prospective-apriorising-implications>} disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so beyond-the-consciousness-awareness-teleology\(^{99}\)-<in-existential-extrication-as-of-existential-unthought>\(^6\). In all such instances as was realised by universalising\(^{103}\)-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity\(^{62}\)-<shallow-supererogation\(^{96}\)-of-mentally-aestheticised–preconverging/dementing\(^{19}\)–qualia-schema’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity\(^{66}\) to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness\(^{87}\) as of the underlying registry-worldview/dimension reference-of-
thought<sup>83</sup> <i>amplituding/formative–epistemicity>totalising–devolved-apriorising-rule; as there
can be no genuine contention between a universalising<sup>103</sup>-idealisation mindset and a
sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a
positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for
the mere sake of preserving and avoiding the denaturing<sup>15</sup> of the universalising<sup>103</sup>-idealisation
meaningfulness-and-teleology<sup>9955</sup> or positivising/rational-empiricism meaningfulness-and-teleology<sup>9955</sup>. This is more critically the case as the fact is the possibility for prospective human
emancipation is exactly the most difficult thing for humankind to countenance, and that is
exactly why the successive uninstitutionalised-threshold<sup>102</sup> arise in the first place; and the
sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its
temporal social-stake-contention-or-confliction has always been addressed not by a faulty
pretence of mutually objectifying intellection between genuine intellectualism and sophistry,
which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt
parrhesiastic disavowal of such sophisticated/pedantic treachery/muddlement/acting-out for what it
essentially is; as with the universalising<sup>103</sup>-idealisation philosophers not wasting their time in
pretence of engaging the sophists—ideal-type-or-individuation of ad-
hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists
dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-
equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology<sup>9955</sup>
as of a given registry-worldview/dimension is grounded on the same
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding
the existential-instantiation soundness or unsoundness of its devolving
aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of
dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite
our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-
notional-discontiguity/epistemic-discontiguity<sup>62</sup>-<shallow-supererogation<sup>96</sup>-of-mentally-aestheticised-preconverging/dementing<sup>19</sup>-qualia-schema>’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity<sup>62</sup>-<shallow-supererogation<sup>96</sup>-of-mentally-aestheticised-preconverging/dementing<sup>19</sup>-qualia-schema>’ closed <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>33</sup> in prior relative-ontological-incompleteness<sup>88</sup> which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness<sup>87</sup>. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance<sup>21</sup>-<including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology<sup>9955</sup> as of ontological-veracity is about the ‘reasoning-through transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing<sup>101</sup> of contentions for the determination of existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness<sup>32</sup> as of ontological-primemovers-totalitative-framework<sup>72</sup> <amplituding/formative-epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity<sup>6644</sup>; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity
or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance’ equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. The secondnaturally institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-awareness-teleology.<in-existential-extrication-as-of-existential-unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning–suprasocial-constructs are mainly secondnaturally whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to ‘intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-
teleology\textsuperscript{9955}; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism\textsuperscript{88} underpinning–suprasocial-construct rather as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317}. We can appreciate in this regards that the universalising\textsuperscript{103}-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but
<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confLATEDness\textsuperscript{32} as-to-ontologically-uncompromised-ontological-
normalcy/postconvergence/referentialism notional–deprocrypticism\textsuperscript{17} perspective) de-
mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see
of its defective ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as it surreptitiously
implies that it is absolute beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existenceal-
extrication-as-of-existential-unthought>\textsuperscript{67}. The fact is, it is this possibility of the
universalising\textsuperscript{103}-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists
putting into question their conventioning-referencing meaningfulness-and-teleology\textsuperscript{9955} and
value that allows for prospective institutionalisation to arise as of universalising\textsuperscript{103}-idealisation
and positivism/rational-empiricism respectively. In this regards, it is important to grasp that
what is peculiar about the successive registry-worldviews/dimensions is the sense that these as
of their immediacy disposition are very much cognisant of the Being-development/ontological-
meaningfulness-and-teleology\textsuperscript{9955} leading to the establishment of their given registry-
worldviews/dimensions over which their conventioning-referencing is setup but then tend to
fail to construe of their prospective possibility of Being-development/ontological-framework-
exansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-
teleology\textsuperscript{9955}; and in this regards, we can appreciate that the pre-Socratic world very much
construed of critical ontological insights that went into their various conventioning-referencing
like say the Ancient Egyptians with their conventioning-referencing mobilising ontological
insights much more obviously with the building of pyramids, the Persians mobilising their
ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with
greater technical and knowledge potential, it was the smaller and rustic Greece and specifically
Athens that contemplated of prospective Being-development/ontological-framework-
exansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-
teleology\textsuperscript{9955} with the emergence of universalising\textsuperscript{103}-idealisation over ancient mythologies and
cultism, likewise the medieval Europe scholasticism was the height of this universalising\textsuperscript{183} idealisation as of its establishment and religious conventioning-referencing but it took budding positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{995}, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{995}, that in many ways just as the manifestation of postlogism\textsuperscript{77} slantededness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall \textit{<amplituding/\textit{formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995}-as-of-`}nondescript/\textit{ignorable–\textit{void}\textsuperscript{69}-with-regards-to-prospective-apriorising-implications/>}) \textit{and underpinning–suprasocial-construct meaningfulness-and-teleology\textsuperscript{995} integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrypticism\textsuperscript{88} is equally subject to our \textit{<amplituding/\textit{formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995}-as-of-`}nondescript/\textit{ignorable–\textit{void}\textsuperscript{69}-with-regards-to-prospective-apriorising-implications/>}) \textit{and underpinning–suprasocial-construct underlying disjointedness-as-of-reference-of-thought\textsuperscript{83} muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold\textsuperscript{182}, and in both instances insightfully point to underlying reference-of-thought\textsuperscript{83} relative-

<including-virtue-as-ontology> which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments¹⁰⁵ of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought⁸³¹⁷ supersedes-and-deflates the overall vices-and-impediments⁹⁰⁵ of our positivism/rational-empiricism manifestation of procrypticism—or–disjointedness-as-of-reference-of-thought⁸³⁸⁰ underlying the devolving social manifestation of psychopathy and social psychopathy. Ultimately, Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} points to the fundamental dialecticism of human meaningfulness-and-
teleology\textsuperscript{9955}; as to the fact that the human is that which is in <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} as of recurrent-utter-uninstitutionalisation <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} by its reference-of-thought\textsuperscript{83} apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument but then is warranted to ontologically-complete itself successively as of base-institutionalisation, universalisation, positivism and prospectively notional–deprocrypticism\textsuperscript{17} apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. The human then is what is warranted to reconstrue Rousseauian perfectibility out of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} flawed constructiveness-of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as of its destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating–decisionality)–of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>, as it can’t pretend to avoid this purposefulness as it is, as of its any presencing—absolutising-identitive-constitutedness\textsuperscript{1379} state, the outcome of such purposefulness as relayed with the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955}’. This coherently explains the inevitability of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}; as when the organic-knowledge avails it is much more than just an idea of choice but rather an obligation as of the implied inherently antiakrasiatic disposition that can’t afford to overlook as if lacking the organic-knowledge for degrading into <amplituding/formative–epistemicity>totalising–self-

In this regard, we can more specifically appreciate the central and transformative implications of the Socratic philosophers universalising—idealisation as of the prospective universalisation registry-worldview/dimension ‘social-construction of meaningfulness-and-teleology’ as of social-stake-contention-or-confliction’,
wherein such prospective ‘shiftiness-of-the-Self’ as induced by the Socratic philosophers universalising-idealisation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism inducing the seconndnatured institutionalisation of the universalisation registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’ brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance—including-virtue-as-ontology> as manifested with the Socratic method for universal consistency and coherence, Plato’s ideas for universal consistency and coherence and Aristotle’s qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-of-the-Self’. This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called—of ‘universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—of—meaningfulness-and-teleology’, that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset; as of the knowledge reifying capacity-and-

ontological-incompleteness\textsuperscript{88} and the prospective possibility of ontologically-veridical grander unifying scientific explanation of the natural world. Such causality-as-to-projective-totalitative-implications, for explicating-ontological-contiguity\textsuperscript{6644} construal points out that disparateness of meaningfulness-and-teleology\textsuperscript{9955} as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness\textsuperscript{88} cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness\textsuperscript{87} perspective’ given that all human meaningfulness-and-teleology\textsuperscript{9955} are of supposedly coherent ontological-commitment\textsuperscript{65} as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}--as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn’t override the notion of inherent ontological-veridicality as to existence-potency-sublimating-nascence, disclosed from prospective-epistemic-digression-as-of-<amplituding/epistemicity> totalising--renewing-realisation/re-perception/re-thought, in supererogatory--epistemic-conflatedness\textsuperscript{12} epistemic/notional--projective-perspective wherein modern society in relative-ontological-completeness\textsuperscript{87} attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation\textsuperscript{9247}, do not override the pre-eminence of supposedly coherent ontological-commitment\textsuperscript{65} as to existence-potency-sublimating-nascence, disclosed from prospective-epistemic-digression-as-of-<amplituding/epistemicity> totalising--renewing-realisation/re-perception/re-thought, in-
supererogatory–epistemic-confatedness in which case no human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-confatedness over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophisticatedly usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a
<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications, for-explicating-ontological-contiguity construal equally points out that the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to–
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or any
intrinsic-reality/ontological-veridicality does not imply the de-mentative/structural/paradigmatic change of existence-as-of-existential-contextualising-contiguity but rather that change is the outcome of human limited-mentation-capacity-deepening maximalising-recomposuring for-relative-ontological-completeness—

The conflatenedness\textsuperscript{12} of existential-contextualising-contiguity\textsuperscript{38} in the natural sciences is often poorly perceived inherently because
of their subject-matter/domain-of-study implicated nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’; such that it is often wrongly construed in atomising/taking-to-pieces constitutedness\textsuperscript{13} as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} but with little consequence since such an atomising/taking-to-pieces constitutedness\textsuperscript{13} is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} scientists generally adopt a conflatenedness\textsuperscript{12} of existential-contextualising-contiguity\textsuperscript{38} posture. The reality of existential-contextualising-contiguity\textsuperscript{38} conflatenedness\textsuperscript{12} here is validated by the fact that ‘abstract scientific notions are not the point-of-departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity\textsuperscript{38} in <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{6644} conflatenedness\textsuperscript{12} to then reflect abstract scientific notions in existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} or depart from existential-contextualising-contiguity\textsuperscript{38} already reified abstract scientific notions to then reflect further abstract scientific notions in
existential-contextualising-contiguity⁸⁸ knowledge-reification⁸⁶. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology⁹⁵⁵/knowledge as physics knowledge-reification⁸⁶. Rather we can better appreciate the occurrence of existential-contextualising-contiguity⁸⁸ knowledge-reification⁸⁶ as of <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity⁶⁶⁴⁴ construal in the sense that our ordinary thought process itself is as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity⁸⁸ construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces constitutedness¹³ even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally <amplituding/formative–epistemicity>totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity⁸⁸ of such notions like space, time, force, etc. in <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity⁶⁶⁴⁴ conflatedness¹² to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always epistemic-retotalising/re-totalising-entailing of ‘the very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity⁸⁸ in conflatedness¹² involving human limited-mentation-capacity-deepening⁵² hermeneutics in avoiding-and-superseding any
presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility—effusing/ecstatic—inlining nature of existential-contextualising-contiguity in epistemic-conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existential-contextualising-contiguity in \(<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications, for-explicating-ontological-contiguity in epistemic-conflatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment—postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’ as—as-operative-notional—depocrypticism orientations which drives their knowledge-reification—gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility—effusing/ecstatic—inlining nature of existential-contextualising-contiguity in supervening-conflatedness thus rendering its methodology more explicitly totalising-entailing and teleological even as it is often naively and wrongly construed as ‘a relatively weaker natural science’ from a naïve epistemic constitutedness perspective. idealisation meaningfulness-and-teleology infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-
consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} (as the relative-ontological-incompleteness\textsuperscript{88} in the latter case renders it as an ‘ought indeterminacy’ while the relative-
ontological-completeness\textsuperscript{87} in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness\textsuperscript{87} inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} in deflating human vices-and-impediments\textsuperscript{105}, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness\textsuperscript{87}. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\textsuperscript{88} as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments\textsuperscript{105}, and as the very possibility for prospective ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative>wooden-language-(imbued—averaging-of-thought--<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology⁹⁵⁵—as-of—
‘nondescript/ignorable—void⁶⁹—with-regards-to-prospective-apriorising-implications>)}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance⁷¹--<including-virtue-as-ontology> as of human <amplituding/formative—
epistemicity>totalising—thrownness-in-existence⁸⁴ induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis—or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness⁸⁷ possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments¹⁰⁵ as of ‘self-conscious drive’ cannot be
qualified to be of natural determinism implications when unmasked. Reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility

The non-positivistic animistic or medieval social setup as of its incrementalism\(^{50}\)–in-relative-ontological-incompleteness\(^{88}\)–enframed-conceptualisation disposition coming into grips with the positivistic interlocutor’s purpose will probably construe it as most contemptuous by its construal of existential-contextualising-contiguity\(^{38}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)–of-reference-of-thought\(^{83}\)–devolving\(^{84}\)–as-of-instantiative-context (whether as of its rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,\(\langle\text{as ‘first-level presencing—absolutising-identitive-constitutedness}\(^{1379}\) of reference-of-thought}^{83}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) of base-institutionalisation/animism or as of its universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,\(\langle\text{as ‘second-level presencing—absolutising-identitive-constitutedness}\(^{1379}\) of reference-of-thought}^{83}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) of universalisation–non-positivism/medievalism), though we know from an ontological-

Likewise, this ontological-normalcy/postconvergence insight can equally be projected of our ‘positivism–procrypticism\textsuperscript{89} registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}, from ‘futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}; wherein notional–deprocrypticism\textsuperscript{17} existential-contextualising-contiguity\textsuperscript{38}\’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context as of its ‘deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83}\textsuperscript{17} as of preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83},-as-to—\langle amplituding/formative—epistemicity\rangle growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\textsuperscript{31}—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is the virtuous-ontological resolution of the positivism–procrypticism\textsuperscript{89} registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} de-mentative/structural/paradigmatic vices-and-impediments\textsuperscript{105}, as it further contendingly implies a prospective decentering and dialectical—de-mentation
reflection/perspectivation of positivism–procrypticism. We can imagine that futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism inclined agent given its ‘intemporal-prioritisation-of-reference-of-thought–as-conflatedness–or-ontological-reprojecting can effectively forego the normally construed positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation as projected <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or-ontological-preservation as of ‘valued-viability’ to expend on a ‘so-construed most important work’ that can be done in a positivism–procrypticism registry-worldview/dimension, as of prospective institutionalisation into notional–deprocrypticism (more like an archaeologist might don on dirty clothing and dig their hands in mud and rubbish ‘like an animal’ to find out about the treasures that are human histories); and by that equally implying prospectively the decentering and dialectical–de-mentation of positivism–procrypticism <amplituding/formative>wooden-language-{imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology as-of–nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications}. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation ‘of
positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional-projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955}-as-of-'nondescript/ignorable–void\textsuperscript{591}-with-regards-to-prospective-apriorising-implications>) denaturing\textsuperscript{15} of meaningfulness-and-teleology\textsuperscript{9955} so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism\textsuperscript{80}, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism\textsuperscript{17}; as going by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought\textsuperscript{83}–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposing) as from recurrent-utter-uninstitutionalisation to
present day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as
transcendental meaningfulness-and-teleology involves psychical and institutional recomposing of high contrariety implications to human temporality shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional-deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring) maximalising–recomposuring\textsuperscript{54} for relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought, in contrast to a naïve incrementalism\textsuperscript{56} in relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought\textsuperscript{83} of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought\textsuperscript{83} established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}—self-referencing–syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}—self-referencing–syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought\textsuperscript{83}’ arises as for prospective transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that all
