Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

**Introduction**

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicable operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\textsuperscript{15} \texttt{amplituding/formative} wood-\texttt{language}-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}) stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-\texttt{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}} right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification\textsuperscript{86} of prospective human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating\textsuperscript{24}—\texttt{amplituding/formative} supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation behind the

thought, in supererogatory epistemic-confoundedness. This has developed in our present age of intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing, as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-deficient-reflexivity of our <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiac-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its <amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of–nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications); with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory epistemic-confoundedness/immortality. But then human intellection
across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\textsuperscript{63} becomes more important than an aspiration for genuine intellelction as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellelction’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\textsuperscript{63} (whether or not, beyond-the-consciousness-awareness-teleology\textsuperscript{99} \textlangle \textlangle in-existential-extrication-as-of-existential-unthought\textrangle\textsuperscript{6}) as this only leads to a destructuring-threshold\{uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality\}–of-ontological-performance\textsuperscript{71}–
\textlangle including-virtue-as-ontology\rangle\ habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\textsuperscript{63} rendering the supposedly empowering activity of knowledge-reification\textsuperscript{86} impotent as in many ways such denatured intellelction openly claims as of disparateness-of-conceptualisation-\langle unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity\textsuperscript{66} \rangle inclinations that poorly appreciate existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-\langle amplituding/formative–epistemicity\rangle\ totalising–renewing-realisation/re-perception/re-thought,–in-superoogatory–epistemic-conflatedness\textsuperscript{12} implications of transcendence–and-sublimity/sublimation\textlangle superoogatory–de-mentativity\rangle. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive
of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence—-in-dimensionality-of-desublimating-lack-of—anamnestic-residuality/spirit-drivenness—equalisation> whether by mystifications-outside-existential-contextualising-contiguity—a-dumbing-down-posturing-that-implies-that-the-present-is-unchangeable-as-of-presencing—absolutising-identitive-constitutedness, etymological-flouting-as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivety-that-such-stigmatising-representation-will-undermine/override-their-analysable-ontological-veracity and an-approach-as-of-the-ordinary-egotistic-perspective-in-existential-extrication-that-absolutises-the-present-that-is-passed-as-knowledge-reification all undermining informed insight and the requisite human intellectual and emotional sacrifice for genuine knowledge-reification and prospective progress involving the authentic self and social transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then provides paradoxically the underlying meaningfulness-and-teleology: infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious dementative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented
intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency–sublimating–nascence–disclosed–from-prospective–epistemic–digression–as–of–<amplituding–formative–epistemicity>–totalising–renewing–realisation/re-perception/re-thought, in–supererogatory–epistemic–conflatedness or the critical analysis of such knowledge-reification but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existent-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness–⟨in-projective/reprojective—aestheticising-re-motif–

This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance\textsuperscript{71}.-\textless including-virtue-as-ontology\textgreater and destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating-decisionality)\textgreater of-ontological-performance\textsuperscript{71}.-\textless including-virtue-as-ontology\textgreater. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence and sublimity/sublimation/supererogatory de-mentativity as to existence-potency~sublimating-nascence, disclosed from prospective epistemic digression as of supererogatory epistemic conflatedness¹² implications. realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness\textsuperscript{12} constraining,
can be contemplated as of such a rather impoverished conception of genuine intellection which
poorly recognises the pre-eminence of existence-potency—sublimating—nascence,—disclosed-

epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness\textsuperscript{12} over human-subpotency, notwithstanding the fact
that we are at the backend of human institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflicatedness/immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation, notwithstanding
the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification\textsuperscript{86} rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of\textsuperscript{85}—<amplituding-formative>supererogatory-de-

Actually the projection of values including intellectual values in such <amplituding-formative–epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiac-drag\textsuperscript{33} are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness\textsuperscript{87} since the very same conception of value when construed on the basis of relative-ontological-incompleteness\textsuperscript{88} may

We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its supererogatory-epistemicity-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a
positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification\textsuperscript{86} in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} as of an occlusive-consciousness reference-of-thought\textsuperscript{83} requiring prospective notional–deprocrypticism\textsuperscript{17} reference-of-thought\textsuperscript{83} de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’\textsuperscript{87} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{66}\textsuperscript{44} in conflatedness\textsuperscript{12}\textsuperscript{2} herein implied as ontological-prime-movers-totalitative-framework\textsuperscript{72} involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{87} meaningfulness-and-teleology\textsuperscript{99}\textsuperscript{55}’ as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism\textsuperscript{17}-dissemination\textsuperscript{27} and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism\textsuperscript{17}-dissemination\textsuperscript{27}), and we can better understand as such why underlying confliction arises with all registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity because these involve human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendental/transvaluating conception is universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs

Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology\(^{99}\) is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument\(^{3}\) to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/depожected; as to the possibility of the recovery of dimensionality-of-sublimating\(^{94}\)–<amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-confolatedness\(^{32}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirt-

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

The psychopath is in a state of compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or ‘compulsive-dementing’

it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and the notion of a lie which is prelogism-as-of-conviction, as-to-profound-supererogation

we ‘consistently’ have two sets of mental-dispositions having to do with the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence and metaphysics-of-absence representations

rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’)

wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic

‘social protraction of psychopathy across individuals and society’

The suspected psychosomatic basis for the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnable)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—

why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing-apriorising-psychologism with respect to one another (from the prospective perspectives) 

human ontological transcendent possibilities arise from human individualisations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument as to renewed logical-basis/logic—as-to—transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/apriorising/axiomatising/referencing’ 

our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality

the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies.

Uninstitutionalised-threshold is characterised by the ‘trace of disambiguated-mental-dispositions as temporal-to-intemporal-dispositions ontological-primemovers-totalitative-framework’.

Perpetuating the precedingness/supersedingness/ascendency over reference-of-thought and meaningfulness of the intemporal-disposition as ontological over the temporal-dispositions.

‘de-mentative/structural/paradigmatic registry-worldworldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect> that defines a registry-worldview/dimension as preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase with respect to intrinsic-reality/ontological-veridicality.

A reference-of-thought construal is simply as of a dynamic-cumulative-aftereffect conflation faced with incidental issues arising in various effective social contexts, the ‘ontological/intemporal de-mentating/structuring/paradigmatic approach’ is to have at hand a ‘universal cadre’ that conceptualises and is geared towards attending-to/resolving all such and other incidental issues as it is suprastructural to all such incidentals.

Human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor as such is ontologically a preceding and defining construct that provides insight on ‘existentialism/full-depth-of-existential-implications issues’ across all the institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>.

‘knowledge-notionalisation’ or knowledge construct not only based on intemporal idealisation but that also factors in how the temporalities will relate to meaning.

‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’).

A ‘refererential-as-natural’ conceptualisation of knowledge that consciously tautologically subsumes temporal-dispositions and intemporal-disposition.

bigger picture in this regards the institutionalised conception of
philosophy for instance is a distorted Western metaphysics-of-presence
notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation–aestheticisation-towards-ontology notion of overall human knowledge’ (as to any such non-Western social dynamics very own originariness-parrhesia,–as–spontaneity-of-aestheticisation inducing of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation as outcome/outfit/shell—construed-historically-as-of-the specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation) and furthermore such a misnomer as to its metaphysics-of-presence seem to supersede the more fundamental notion of human underlying ontological-commitment (as instigatively driving the human out of animality) as to the more pivotal/critical human-subpotency 'fatedness-of-sublimation-over-desublimation, to existence-potency–sublimating–nascence,–disclosed–from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflagredness (as reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—or-the-human-institutionalisation-process beyond any identitive conception as Western or non-Western or even differentiation internal to any such Western conception or non-Western conception), thus overlooking the dynamic underlying human constructive and cultural
The diffusionary process critically leading to various social setups dynamics of relative-ontological-completeness in renewing of human meaningfulness-and-teleology, human limited-mentation-capacity-deepening thus implies that ultimately the actual knowledge attitude is that of the creative generation, elucidation and exactifying/precisioning-of-sublimation-as-to-entailing-theoretical,-conceptual-and-operant-implications of human meaningfulness-and-teleology and so as to the requisite originariness-parrhesia—as-spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for-conceptualisation within the artistic framing, philosophical framing or scientific/ontological framing as to their respective aporeticism need for aestheticisation (generativity potential) and/or aestheticisationtowards-ontology (ontological-performance-including-virtue-as-ontology potential), and so as we can appreciate that even the artistic as to aestheticisation is much more than just mere patterning but ‘a projection of aestheticising depth’ that speaks of its specific generative, elucidative and exactifying/precisioning-of-sublimation-as-to-entailing-theoretical,-conceptual-and-operant-implications aspects as to specific human perception of artistic sublimation, and in this regards human limited-mentation-capacity-deepening needs to factor in that much of the institutional confusion associated with the artistic, philosophical and scientific speaks more of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal—

epistemically-flawed complex of presencing—absolutising-identitive-constitutedness\cite{79}, along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification\cite{86} orientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\cite{96} as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation in unforegrounding-disentailment,failing-to-reflect-‘immanent-ontological-contiguity’\cite{66} cannot be transformed and construed as de-mentative/structural/paradigmatic issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical (failing to attend to prospective existential aporeticisms while construing the framework of human agreeability and agreeing as knowledge rather than the construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\cite{96} as the more fundamental purpose of the intellectual enterprise as to the reality of the fact that true knowledge has ever always been about superseding human limited-mentation-capacity and not defining it as a point of reference however disagreeable the exercise), and in many ways this drawback is
reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual way and academic practice of going about knowledge-reification\textsuperscript{86} that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity\textsuperscript{66} as to the proliferation of isms–conceptualisations without any ‘relative-ontological-completeness\textsuperscript{87}.

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ as of prelogism or prelogism— as-of-conviction—as-to-profound-supererogation—(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal—as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism—as-of-conviction—as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its reference-of-thought—devolving—as-of-instantiative-context—meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition),
i.e. meaning-as-form or pathologically/compulsively hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism\textsuperscript{78} as-of-conviction, as-to-profound-supererogation\textsuperscript{96} minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation\textsuperscript{96}, whether thereafter the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} is rightly or wrongly assumed). Hence prelogism\textsuperscript{78} or prelogism\textsuperscript{78}-as-of-conviction, as-to-profound-supererogation\textsuperscript{96} is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought\textsuperscript{83} on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism\textsuperscript{77} or postlogism\textsuperscript{77}-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{1896} this essentially has to do not with an issue of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} but rather an issue of perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}, as logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} is on the basis of a sound reference-of-thought\textsuperscript{83} (non-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}) such that fundamentally ‘the notion of the dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-
supererogation\textsuperscript{96}\textsuperscript{53} is ontologically jeopardised by the inherent perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> as ‘first-order perversion, out of existential-contextualising-contiguity\textsuperscript{38}-s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context’, of apriorising–reference-of-thought\textsuperscript{83}-elements/apriorising–registry-elements which are denaturing\textsuperscript{15} of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99}. Further to this is the derived second-order level deception as of wrongly implied logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96}\textsuperscript{53} thereof, as of infinite deception possibilities from this faulty-mentation-procedure-deception-or-urge\textsuperscript{41} arising where the implied first-order perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> is wrongly acquiesced to as appropriateness-of-reference-of-thought\textsuperscript{83}-as-of-conflatedness\textsuperscript{12} thus wrongly implying that logical-dueness arises for logical engagement with interlocutors; and so in contrast to the infinite possibilities of sound logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96}\textsuperscript{53} from non-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}. Hence postlogism\textsuperscript{77} is actually a usurpation/arrogation of the prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} mentation reflex where social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of apriorising–reference-of-thought\textsuperscript{83}-elements/apriorising–registry-elements is not-available/obscured as of lack of insight on existential-contextualising-contiguity\textsuperscript{38}-s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context; with the result that with respect to the
reference-of-thought\textsuperscript{83}, postlogism\textsuperscript{77} ‘induces as of ontological-normalcy/postconvergence epistemic/notional-projective-perspective, a teleologically-degraded-as-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism differentiation of existential meaningfulness-and-teleology\textsuperscript{9955}’ unlike prelogism\textsuperscript{78} which ‘induces as of ontological-normalcy/postconvergence perspective, an elevated-as-sound-thinking differentiation of existential meaningfulness-and-teleology\textsuperscript{9955}’. The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge\textsuperscript{41} with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{19}-integration (due to psychopathic/postlogism\textsuperscript{77} induced social loss-of-awareness of the social universal-transparency\textsuperscript{384}–(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{87})) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49} in situations of social-stake-contention-or-confliction.

itself inherently an utterly discreet and arbitrary construct’ but for the fact that every registry-

with intrinsic-reality/ontological-veridicality construed as of prospective relative-ontological-

disposition behind the ‘inventing’ of prospective institutionalisation, it is effectively occurs spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness conflatedness\(^{12}\) as this inevitably leads to temporal concatenation to intemporality\(^{51}\), rather its import lies solely as of solipsistic intemporal projection drive given that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional-conflatedness\(^{12}\) of notional-notional-deprocrypticism\(^{17}\) can be reinterpreted operantly as of ‘notional-referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\(^{13}\) mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional-deprocrypticism\(^{17}\) referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\(^{12}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought\(^{83}\), and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-

While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional–deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-conflicatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing—apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness of-reference-of-thought of meaningfulness-and-teleology. neuterising thus refers to human attribution of meaningfulness-and-teleology as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/dementative/structural/paradigmatic—ontological-performance <including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating, as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional–deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion of-reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’, that is secondnatured as of its prior relative-ontological-incompleteness of-reference-of-thought with the
consequent implications of relatively defective meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71} 
<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness\textsuperscript{88} of-reference-of-thought\textsuperscript{83}, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology\textsuperscript{9955} relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology\textsuperscript{9955} neuterising\textsuperscript{57} that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism. This is a most elaborate articulation of neuterising\textsuperscript{57} but it equally applies where meaningfulness-and-teleology\textsuperscript{9955} is ‘just about miscued’ say between positivism–procrypticism\textsuperscript{80} and notional–deprocrypticism\textsuperscript{17} with the latter underlying the disjointedness-as-of-reference-of-thought\textsuperscript{83} of the former as it neuterising\textsuperscript{57}, for instance in the case of psychopathy and corresponding conjugated-postlogism\textsuperscript{77} as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism\textsuperscript{17}; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought\textsuperscript{83} deepest-level of neuterising\textsuperscript{57} is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness\textsuperscript{13}

mediating, as-of-conflatedness\textsuperscript{12} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as de-mentatively/structurally/paradigmatically preemtping—disjointedness-as-of-reference-of-thought\textsuperscript{83}, as-to-`\textless \textit{amplituding}/formative–epistemicity\textgreater \textgreater growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\textsuperscript{31}’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ and so by way of its more profound conflatedness\textsuperscript{12} as of \textless \textit{amplituding}/formative–epistemicity\textgreater \textgreater causality—as-to-projective-totalitative–implications, for-explicating-ontological-contiguity\textsuperscript{644}. The ontological-veridicality of a ‘postconverging-or-dialectical-thinking‘—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity⁶⁶—of-the-human-institutionalisation-process⁶⁷ as of difference-conflatedness¹²—as-to-totalitative-reification⁶⁶—in-singularisation⁹²—as-veridical-epistemic-determinism²¹ amatituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity⁶⁶⁴⁴, is one grounded as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)¹⁴ on ‘decentering/pivoting around the uninstitutionalised-threshold¹⁰² rule’ as a remaking of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology⁹⁹, pointing out that the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument has been superseded as of its revealed perversion-and-derived-perversion⁷⁴—of-reference-of-thought⁸³—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⁹⁶> and so as of the uninstitutionalised-threshold¹⁰² rule. This explains why at uninstitutionalised-threshold¹⁰² which are subject to ‘meaningfulness-and-teleology⁹⁹⁵⁵ neuterising⁵⁷’, prospective institutionalisation can only be achieved as of secondnatures constraining social universal-transparency¹⁸⁴—{transparency-of-totalising-entailing,—as-to-entailing—atmoshading/formative–epistemicity>totalising—in-relative-ontological-

It also explains why naively implying at an uninstitutionalised-threshold\textsuperscript{102} that ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} individuation without temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} individuations will simply fail to recognise the generation-and-upholding of neuterising\textsuperscript{57} and thus unable to reveal perversion-and-derived-perversion\textsuperscript{74} of reference-of-thought\textsuperscript{83} <as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>; as it is naïve to think that while being at an uninstitutionalised-threshold\textsuperscript{102} like universalisation—non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness <amplitude/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955} as of—‘nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications>) in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology\textsuperscript{9955} without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology\textsuperscript{9955} neuterising\textsuperscript{57}, to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology\textsuperscript{9955}, and this equally applies with regards to overcoming our ‘procrypticism—or—disjointedness-as-of-reference-of-thought\textsuperscript{8380} meaningfulness-and-teleology\textsuperscript{9955} neuterising\textsuperscript{57}, to attain futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising\(^57\), qualifying neuterising\(^57\), tendentious neuterising\(^57\) and impulsive neuterising\(^57\), and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness\(^87\)-of-reference-of-thought\(^83\) but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative–epistemicity>-totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence\(^39\)/relative-ontological-incompleteness\(^88\)-of-reference-of-thought\(^83\). Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness\(^12\)’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising\(^57\). This elucidation is to point out that reference-of-thought\(^83\) constructs in epistemic-abnormalcy/preconvergence\(^39\)/relative-ontological-incompleteness\(^88\)-of-reference-of-thought\(^83\) in the very first place cannot be the basis for articulating, as of their given constitutedness\(^13\), by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^38\) ontologically-veridical meaningfulness-and-teleology\(^9955\) ‘as if in
referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} restoration’ by a conflatedness\textsuperscript{12} as of ontological-normalcy/relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, so-construed as their neuterising\textsuperscript{57}, as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\textsuperscript{13} mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought\textsuperscript{83} of Being and meaningfulness-and-teleology\textsuperscript{9955} retrospectively to prospectively in reflecting holographically-\textless conjugatively-and-transfusively\textgreater the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by constitutedness\textsuperscript{13} by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{78} of ‘traditional classical mechanics axiomatic-construct’ given its epistemic-abnormalcy/preconvergence\textsuperscript{39}/relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness\textsuperscript{12} of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising\textsuperscript{52}—renewing-realisation/re-perception/re-thought as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-
conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of-reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory–de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential–
notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening\textsuperscript{52} successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought\textsuperscript{83} constructions of derived axiomatic-constructs of meaningfulness-and-teleology\textsuperscript{9955} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue; with the (given consciousness’s neuterising\textsuperscript{57}-induced-or-deneuterising\textsuperscript{16}-induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology\textsuperscript{9955} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology\textsuperscript{9955} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising\textsuperscript{57}-induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which is non-rules—apriorising/axiomatising/referencing–psychologism,–as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective
institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising\textsuperscript{57}-induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-

This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought\textsuperscript{83}—devolving-teleological-de-

With a difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} construal there is a double-gesture of reification\textsuperscript{86} as of implying more critically the inappropriateness of the centered—epistemic-totalisation/reference-of-thought\textsuperscript{83} as of its underlying meaningfulness-and-teleology\textsuperscript{955} implied same/common/shared reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction—as-to-profound-supererogation\textsuperscript{963} on the basis of the centered—epistemic-totalisation/reference-of-thought\textsuperscript{83} and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-
besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturing such a prospective institutionalisation ‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought’ construction of meaningfulness-and-teleology, as of the succession of registry-worldviews/dimensions from the notional–notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete ‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preemptsing—disjointedness-as-of-reference-of-thought,-as-to-‘<amplituding/formative–epistemicity>growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-driveness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of temporal-to-intemporal-dispositions, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its (given consciousness’s neuterising–induced-or-deneuterising–induced) as reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional

Such an approach to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as being incremental to the prior registry-worldview’s/dimension's reference-of-thought\textsuperscript{83} doesn't undermine/unshackle that prior reference-of-thought\textsuperscript{83} with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative-epistemicity>totalising–purview-of-construal’ as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative-epistemicity>totalising–purview-of-construal’ by the prospective registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> given its prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83}. Rather implying a grounded knowledge-construct commitment merely ‘circularly-complexifies’ the uninstitutionalised-threshold\textsuperscript{102} reference-of-thought\textsuperscript{83} as it adopts by mental-reflex an incrementalism\textsuperscript{58} in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation mental-disposition rather than a maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation mental-disposition and thus fails to fulfil the requisite <amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought referencing/registering/decisioning–of-its-reference-of-thought\textsuperscript{83}–rather-as-preconverging-or-dementing\textsuperscript{19} and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity\textsuperscript{63}/nihilistic as of de-mentation–(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—
stranding-or-attributive-dialectics\textsuperscript{14}, which is what allows for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to the prospective reference-of-thought\textsuperscript{83} for renewal; that is, this will rather bring about the <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of the prior reference-of-thought\textsuperscript{83} in ‘incremental circular-complexification’ and so beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-existentialextrication-as-of-existential-unthought>\textsuperscript{6} on a false notion of ‘an intemporal temporality\textsuperscript{98}, naively passing for intemporality\textsuperscript{51}/longness as of intersubjective eliciting of temporality\textsuperscript{98}. Such notional~conflatedness\textsuperscript{12} for ontological-performance\textsuperscript{71}<-including-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms~as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring~meaningfulness-and-teleology\textsuperscript{9955}. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endavouring unleashed as of a maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation <amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought.
This conceptualisation insight points out that prospective procrypticism–or–disjointedness-as-of-reference-of-thought\(^{380}\) uninstitutionalisation associated with our positivism–procrypticism\(^{80}\) registry-worldview/dimension as of its epistemic-abnormalcy/preconvergence\(^{39}\)/relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\) is effectively the defective result of our positivism institutionalisation destructuring-threshold-(uninstitutionalised-threshold\(^{102}/\)presublimating–desublimating-decisionality)–of-ontological-performance\(^{71}\)-<including-virtue-as-ontology> as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity\(^{78}\) of its reference-of-thought\(^{83}\)-categorical-imperatives/axioms/registry-teleology\(^{998}\) at the positivism–procrypticism\(^{80}\) uninstitutionalisation, wherein the prospective ‘procrypticism\(^{80}\) uninstitutionalisation’ arises as ‘\(<\text{amplituding–formative}>\text{wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing}^{19}\rightarrow \text{narratives—of-the-reference-of-thought}^{83}\text{-categorical-imperatives/axioms/registry-teleology}^{998}\) of positivism registry-worldview/dimension’, which then effectively generates the virtuality-or-ontologically-flawed-construal of procrypticism–or–disjointedness-as-of-reference-of-thought\(^{380}\) uninstitutionalisation construed as perversion-and-derived-perversion\(^{74}\)-of-reference-of-thought\(^{83}\)-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\)> of our positivism–procrypticism\(^{80}\) registry-worldview/dimension. It should be noted that, the ontologically-veridical reflection of procrypticism–or–disjointedness-as-of-reference-of-thought\(^{380}\) is rather construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of prospective notional–deprocrypticism\(^{17}\) registry-worldview/dimension perspective as ‘a constructed-deficiency of the profound/complete notional–deprocrypticism\(^{17}\) perspective’, with

This explains why our positivism–procrypticism\textsuperscript{80} so-construed from a notional–deprocrypticism\textsuperscript{17} perspective will be decentered and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism, just as our positivism in ontological-normalcy/relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} perspective construal of non-positivism/middleal reference-of-thought\textsuperscript{83} in epistemic-abnormalcy/preconvergence\textsuperscript{30}/relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} show the latter to be decentered and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism. As a further elaboration, the circularity and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigming/teleological-possibilities
established as of its reference-of-thought\textsuperscript{83}–and–reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}–meaningfulness-and-teleology\textsuperscript{9955} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-de-mentating/structuring/paradigming/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought\textsuperscript{83}–and–reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}–meaningfulness-and-teleology\textsuperscript{9955} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. This explains as of metaphysics-of-absence why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-de-mentating/structuring/paradigming/teleological-possibilities as of (warped-or-preclusive-consciousness neuterising\textsuperscript{57}-induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology\textsuperscript{9955} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold\textsuperscript{102} is in a state of circular-pervasiveness-of-'reference-of-thought\textsuperscript{83}—degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{102}'! We can get a projected sense of this as of metaphysics-of-absence in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology\textsuperscript{9955} nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, and falling back to construe/conceptualise meaningfulness-and-teleology\textsuperscript{9955} in non-positivistic animistic or medieval terms–as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought\textsuperscript{83}<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> as of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83}. This is clearly made obvious when ‘the very same motif of reasoning’ is construed as of metaphysics-of-absence implications (as to ontological-normalcy/postconvergence) say with respect to an animistic or medieval non-positivistic registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{96}\) — preconverging/dementing\(^{19}\) — apriorising-psychologism \(<\text{amplituding/formative}>\) wooden-language-\(<\text{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}>^{995}\text{—as-of—‘nondescript/ignorable—void}^{59}\text{—with-regards-to—prospective-apriorising-implications>}\) rather in social-aggregation-enabling, implying no possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity so-construed from a positivistic perspective of analysis in ontological-normalcy/relative-ontological-completeness\(^{87}\) — of-reference-of-thought\(^{83}\). Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supererogatory–de-mentativity notion as of the (given consciousness’s neuterising\textsuperscript{57}–induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} of meaningfulness-and-teleology\textsuperscript{9955} which establishes its ‘grounded knowledge construct’, and so because of its denaturing\textsuperscript{15} of the prior institutionalisation’s reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} by way of elaboration-as-meri-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} at the registry-worldview’s/dimension’s uninstitutionalised-

It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold\textsuperscript{82} mental-dispositions of non-positivism/medievalism or procrypticism\textsuperscript{80} reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which will just induce their \texttt{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} mental-dispositions for non–transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional–deprocrypticism\textsuperscript{17} reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘\textless amplituding/formative—epistemicity\textgreater totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} of the (given consciousness’s neuterising\textsuperscript{57}-induced-or-deneuterising\textsuperscript{16}-induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}—\textless as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’\textgreater imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Remarkably, such a maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation behind the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} enabling the human existential tale in successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold\textsuperscript{102} and as of prospective institutionalisation with respect to maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation as the process enabling prospective relative-ontological-

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human
meaningfulness-and-teleology\textsuperscript{9955} is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation necessary for human development and progress. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} and progress requires ontologically-veridical as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-mentating/structuring/paradigmig ‘responses’ as of universal implications and not temporal extricatory de-mentating/structuring/paradigmig ‘reactions’ of mere circumstantial implications. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{97}—unenframed-conceptualisation de-mentating/structuring/paradigming; and so de-mentatively/structurally/paradigmatically as of the relationship between non-positivism and positivism as well as our procrypticism—or—disjointedness-as-of-reference-of-thought\textsuperscript{8380} and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional—deprocrypticism\textsuperscript{17} as preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83}. This underlying notion of ‘notional–conflatedness\textsuperscript{12}/constitutedness\textsuperscript{13}–to-conflatedness\textsuperscript{12} construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising\textsuperscript{32}–devolved–purview–as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{72} thus rather eliciting atomising/taking-to-pieces constitutedness\textsuperscript{13} that induces relatively poor ontological-performance\textsuperscript{72}.<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework\textsuperscript{72}. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness\textsuperscript{13} ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their
transcendental-enabling/sublimating/supererogatory-de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with
categorising/taxonomising dispositions in constitutedness\textsuperscript{13} that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising\textsuperscript{32}–devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation\textsuperscript{96}–<as-to-perspective-ontological-normalcy/postconvergence-implied–’prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}–devolving\textsuperscript{84}–as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness\textsuperscript{33} defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve
categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-contract of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party.
Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness\textsuperscript{12} in (re-originary–as-unenframed/unbeholdingen/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{20}–‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12}–of-notional–deprocrypticism\textsuperscript{17}–prospective-sublimation\textsuperscript{90}) originary/event-of-prospective-ontology-origination projection into existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}–devolving\textsuperscript{84}–as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness\textsuperscript{13}, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity\textsuperscript{66} of all knowledge as of their reference-of-thought\textsuperscript{83}/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework\textsuperscript{72} interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness\textsuperscript{13} rather than striving to expand the transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} existential-reality potential, and this easily leads to virtuality or ontologically-
flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} nature and differences as well as their divergence in meaningfulness-and-teleology\textsuperscript{9955} implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional–deprocrypticism\textsuperscript{17} (protensive-consciousness deneuterising\textsuperscript{16}-induced)-reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness analysis as of its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness\textsuperscript{13} wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{22} here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supерerogation\textsuperscript{96}<-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring ; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness\textsuperscript{53}. Of course, it is rather prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought\textsuperscript{83} that will imply deeper ontological-veracity of the same underlying purview for the construal of
meaningfulness-and-teleology\textsuperscript{955} mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} of existential-instantiations, this points out that existence inherent superseding–oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology\textsuperscript{955} is effectively as of a natural transcendental-enabling/sublimating/supererogatory–de-mentativity existential-contextualising-contiguity\textsuperscript{38} of all-ontologically-veridical-meaningfulness ‘in wait’ to be elucidated however imbricated/threaded/recomposured such an exercise, explaining why our knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of a given <amplituding/formative–epistemicity>–totalising–devolved–purview–as-domain-of-construal–as-intrinsic-reality/ontological-veridicality in conflatedness\textsuperscript{12} need to be as of a reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{995}, and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating/supererogatory–de-mentativity contextualising-contiguity-of-all-ontologically-veridical-meaningfulness existential–For all the above elucidations highlighting the ontological-veracity implications of constitutedness\textsuperscript{13} and conflatedness\textsuperscript{12}, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same <amplituding/formative–epistemicity>–totalising–devolved–

purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\)/epistemic-abnormalcy/preconvergence\(^{30}\)/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\)/ontological-normalcy/conflatedness\(^{32}\)’ lies in the fact that the construal/conceptualisation of an epistemic-totalising\(^{32}\)-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology\(^{9955}\) and the inherent ontological-veracity/intrinsicness of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\(^{99}\)-<in-existential-extrication-as-of-existential-unthought>\(^{6}\) of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\)/ontological-normalcy/conflatedness\(^{32}\). Since there is no direct correspondence between relative-ontological-incompleteness\(^{88}\)-of-reference-of-thought\(^{83}\)/epistemic-abnormalcy/preconvergence\(^{30}\)/destructuring with the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\(^{99}\)-<in-existential-extrication-as-of-existential-unthought>\(^{6}\) of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\)/ontological-normalcy/conflatedness\(^{32}\) which has such a direct
correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}/epistemic-abnormalcy/preconvergence\textsuperscript{30}/destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}/epistemic-abnormalcy/preconvergence\textsuperscript{30}/destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the \textit{<amplituding-formative-epistemicity>\textendash totalising\textendash devolved\textendash purview\textendash as\textendash domain\textendash of\textendash construal\textendash as\textendash intrinsic\textendash reality\textendash ontological\textendash veridicality}, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought\textsuperscript{83}―elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought\textsuperscript{83}―degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{102}’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77}. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance\textsuperscript{71}--\textit{<including-virtue-as-ontology>\textendash of\textendash the\textendash same\textendash underlying\textendash idea\textendash conceptualised\textendash as\textendash of\textendash its\textendash perfect/near-perfect/relatively-perfect\textendash ontological-performance\textsuperscript{71}--\textit{<including-virtue-as-ontology>\textendash as\textendash in-sync/corresponding\textendash with\textendash inherent\textendash intrinsic\textendash reality/ontological\textendash veridicality\textendash beyond\textendash the-consciousness-awareness-teleology\textsuperscript{99}--\textit{<in-existential-extrication\textendash as\textendash of\textendash existential\textendash unthought>\textsuperscript{6}} of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness\textsuperscript{13} and as relatively-perfect/near-perfect/perfect conflatedness\textsuperscript{12}, construed as notional~conflatedness\textsuperscript{12} as of constitutedness\textsuperscript{13} to-conflatedness\textsuperscript{12} of human limited-mentation-
capacity. Insightfully, it highlights that constitutedness\textsuperscript{13} arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness\textsuperscript{12} arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’. Notional–conflatedness\textsuperscript{12}/constitutedness\textsuperscript{13}–to-conflatedness\textsuperscript{12} as such highlights an underlying historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} of the constitutedness\textsuperscript{13}–to-conflatedness\textsuperscript{12} dynamism of human limited-mentation-capacity with respect to human ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>–as-of-its-broadest-implications amenable to human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of–<amplituding–formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supercategorically–epistemic-conflatedness\textsuperscript{12}, and so whether as of natural ontology/natural sciences, social ontology/social sciences, aesthetics-as-ontology, virtue-as-ontology, etc. of critical relevance is the notion of existence as of human-subpotency or human subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression–
Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately human-subpotency effecting can only arise from the conflatedness\(^{12}\) of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and-teleology\(^{9955}\) construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness\(^{13}\) conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the \textlt<amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness\textsuperscript{12}; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness\textsuperscript{12} that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought\textsuperscript{83} of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{13} induced neuterising\textsuperscript{57} or prospectively notional–deprocrypticism\textsuperscript{17} referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} meaningfulness-and-teleology\textsuperscript{9955}. That is, the notional–deprocrypticism\textsuperscript{17} protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness\textsuperscript{12}, with no intermediating construct as of constitutedness\textsuperscript{13}, thus achieves
ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} meaningfulness-and-teleology\textsuperscript{9955}. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness\textsuperscript{13} on conflatedness\textsuperscript{12} induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\textsuperscript{13} meaningfulness-and-teleology\textsuperscript{9955}. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional-deprocrypticism\textsuperscript{17} referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} as a notional conception in construing meaningfulness-and-teleology\textsuperscript{9955}, while avoiding its ontologically-flawed constitutedness\textsuperscript{13} construals in terms—as-of-axiomatic-construct of the various neuterising\textsuperscript{57}. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness\textsuperscript{13} towards ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} is what is effectively and ontologically defining of issues of reference-of-thought\textsuperscript{83} of meaningfulness-and-teleology\textsuperscript{9955} given that as of its ontologically veridical conflatedness\textsuperscript{12} it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening\textsuperscript{52} that is behind the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955}-and-longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} perspective of notional–deprocrypticism\textsuperscript{17} ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same
as of notional~notional~deprocrypticism\textsuperscript{17} ‘referentialism—ontologically-uncompromised-mediatings-as-of-conflatedness\textsuperscript{12} protensive-consciousness sound conceptualisation perspective’. It is the ‘notion of limited-mentation-capacity’ that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediatings-as-of-their-specific-constitutedness\textsuperscript{33} consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising\textsuperscript{57}. historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} as of the notional~conflatedness\textsuperscript{12} of notional~notional~deprocrypticism\textsuperscript{17} highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness\textsuperscript{1379}’ of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} as of the notional~conflatedness\textsuperscript{12} of notional~notional~deprocrypticism\textsuperscript{17} construct, wherein its \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} construes beyond-the-consciousness-awareness-teleology\textsuperscript{99}.\textless in-existential-extrication-as-of-existential-unthought\textgreater\textsuperscript{6} of its ‘projected-or-anticipated-grandest-existential-axiomatic-construct’ as the absolute framework of ontological-performance\textsuperscript{71}.\textless including-virtue-as-ontology\textgreater-as-of-its-broadest-implications and thus failing to factor in the implications on its ontological-performance\textsuperscript{71}.\textless including-virtue-as-ontology\textgreater of its prior relative-ontological-incompleteness\textsuperscript{84} of reference-of-thought\textsuperscript{83} as this induces \textless amplituding/formative\textgreater wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}) at its uninstitutionalised-threshold\textsuperscript{182}. Existential-extrication-as-of-existential-unthought thus
highlights the overall constitutedness\textsuperscript{13} of humankind’s access to existence given the ‘imbricatedness/threadedness/recomposuring as of iterating-of-existential-instantiations’, such that humankind’s axiomatic-construct/theory of existence/existential-reality/intrinsic-reality/ontological-veridicality as of its ‘projected-or-anticipated-grandest-existential-axiomatic-construct as reference-of-thought\textsuperscript{83}—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ is rather as of various successive relative constitutedness\textsuperscript{13} implied with the successive institutionalisations, and explains a natural human mental-disposition to nihilism as of each of such institutionalisation’s <amplituding/formative>wooden-language-{(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955} as-of—‘nondescript/ignoreable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications}>} at its uninstitutionalised-threshold\textsuperscript{102} in a mental-reflex aversion of an opened-construct-of—meaningfulness-and-teleology\textsuperscript{9955} behind the overall ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}. Existential-extrication-as-of-existential-unthought as of the notional–conflatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} equally implies a humankind (re-originary—as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking\textsuperscript{28}—‘projective-insights’/‘epistemic-projection-in–conflatedness\textsuperscript{12}—of-notional–deprocrypticism\textsuperscript{17}—prospective-sublimation)\textsuperscript{990} originary/event-of–prospective-ontology-origination and effective maximalising-recomposuring\textsuperscript{54}—for-relative–ontological-completeness\textsuperscript{87}—unenframed-conceptualisation capacity for inducing the requisite psychoanalytic-unshackling referencing/registering/decisioning–of-its-prior-relative–ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83}—rather-as-preconverging-or–dementing\textsuperscript{19} and –decentered-to-the-prior-institutionalisation’s–categorical–imperatives/axioms/registry–teleology\textsuperscript{998} and its alienation—as-inauthentic/poorly–objectified/poorly–desubjectified-as-objectified/ontological-bad-faith/inauthenticity\textsuperscript{63} nihilistic
while construing prospective opened-construct-of-meaningfulness-and-teleology\textsuperscript{30} as postconverging-or-dialectical-thinking\textsuperscript{30} and centered-to-the-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology\textsuperscript{99} relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} in-ontological-good-faith/authenticity\textsuperscript{68}, thus literally expanding human access to existence-potency~sublating~nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, -in-supererogatory–epistemic-conflatedness\textsuperscript{12} as to the existential possibilities that arise with successive institutional-cumulation/institutional-recompose<-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> associated with the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}. This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublating~nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, -in-supererogatory–epistemic-conflatedness\textsuperscript{12}. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} as an <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} construct, including our positivism–procrypticism\textsuperscript{80} registry-worldview/dimension, as this will falsely imply that our reference-of-thought\textsuperscript{83} <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} as of ontological-performance\textsuperscript{71}—arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation—ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation—non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} about our positivism—procrypticism\textsuperscript{80} as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional—deprocrypticism\textsuperscript{17} as preempting—disjointedness—as-of-reference-of-thought\textsuperscript{83} superseding projection/anticipation! Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} is of absolute ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for

This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology\(^{9955}\) in relative deficient/flawed ontological-performance\(^{71}\)-<including-virtue-as-ontology>’ since such a criticism is based on assuming only a same registry-worldview’/s/dimension’s reference-of-thought\(^{83}\), and so-construed mainly because such a Derridean conception construes of centered–epistemic-totalisation as only within one registry-worldview’/s/dimension’s reference-of-thought\(^{83}\)-as-of-‘reference-of-thought\(^{83}\)—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, failing to reflect the ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) as of notional–notional–deprocrypticism\(^{17}\) implied de-mentative/structural/paradigmatic shifts of reference-of-thought\(^{83}\)-as-of-‘reference-of-thought\(^{83}\)—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ overcome the limitation of ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology\(^{9955}\) in relative deficient/flawed ontological-performance\(^{71}\)-<including-virtue-as-ontology>’ within a same reference-of-thought\(^{83}\)-as-of-‘reference-of-thought\(^{83}\)—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ by way of the successive prospective relative-ontological-completeness\(^{87}\)-of-reference-of-thought\(^{83}\) as enabling successive prospective reference-of-thought\(^{83}\)-as-of-‘reference-of-thought\(^{83}\)—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ marked by the shift of ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology\(^{9955}\) inducing relatively less

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology\textsuperscript{9955} of theoretically perfect/sound ontological-performance\textsuperscript{71}--\textless including-virtue-as-ontology\textgreater’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness\textsuperscript{13} as failing to project of the transformational implications of human limited-mentation-capacity-deepening\textsuperscript{52} for successive prospective relative-ontological-completeness\textsuperscript{87}--of-reference-of-thought\textsuperscript{83} in bringing about successive registry-worldviews/dimensions as of conflatedness\textsuperscript{12} that prospectively ultimately grasps the centered--amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}--\textless including-virtue-as-ontology\textgreater in reflecting holographically--\textless conjugatively--and-transfusively\textgreater the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} or notional~deprocrypticism\textsuperscript{17}. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the
philosophical tradition constitutedness\textsuperscript{13}, it perfectly grasps the implications to meaningfulness-and-teleology\textsuperscript{9955} <including-virtue-as-ontology> of ‘centered-epistemic-totalisation as of circularity of meaningfulness-and-teleology\textsuperscript{9955} in relative deficient/flawed ontological-performance\textsuperscript{71} <including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71} <including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71} <including-virtue-as-ontology> of the very same <amplituding/formative-epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given reference-of-thought\textsuperscript{83} as-of-‘reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ a centered–epistemic-totalisation is rather the circular meaningfulness-and-teleology\textsuperscript{9955} representation of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising–purview-of-construal’, as the said reference-of-thought\textsuperscript{83} as-of-‘reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ is ‘supposedly always the systemic and indefinite resolution’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising–purview-of-construal’. Now, the issue of a centered–epistemic-totalisation defect arises where the given reference-of-thought\textsuperscript{83} as-of-‘reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ is ontologically-flawed/deficient as it will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology\textsuperscript{9955} in relative deficient/flawed ontological-performance\textsuperscript{71} <including-virtue-as-ontology>’ construed as of the uninstitutionalised-threshold\textsuperscript{102} of a registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83}
as-of-‘reference-of-thought$^{83}$—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’. But then human limited-mentation-capacity-deepening$^{52}$ achieving prospectively of an ultimately theoretically perfect/sound reference-of-thought$^{83}$-as-of-
 ‘reference-of-thought$^{83}$—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the full ontological-contiguity$^{66}$—of-the-human-institutionalisation-process$^{67}$ as notional–notional–deprocrypticism$^{17}$ implies the circular ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away with as of ontological-completeness with the $^{<}$amplituding/formative–epistemicity$>$totalising–renewing-realisation/re-perception/re-thought of the reference-of-thought$^{83}$-as-of-‘reference-of-thought$^{83}$—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to- ‘human$^{<}$amplituding/formative–epistemicity$>$totalising–purview-of-construal’, with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology$^{9955}$ of ‘the very same physics $^{<}$amplituding/formative–epistemicity$>$totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness$^{88}$ of less ontological-performance$^{71}$-$^{<}$including-virtue-as-ontology$>$ of ‘the very same physics $^{<}$amplituding/formative–epistemicity$>$totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, while with human limited-mentation-capacity-deepening$^{52}$ the theory-of-relativity-together-with-quantum-
mechanics—axiomatic-constructs brings about a new ‘centered–epistemic-totalisation/circularity of meaningfulness-and-teleology’ of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander meaningfulness-and-teleology ontological-performance.†<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance.†<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance.†<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean
decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural difféance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness\(^4\) in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay difféance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural difféance is the notion of \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag}\>^3\), as of beyond-the-consciousness-awareness-teleology\(^9\)<in-existential-extrication-as-of-existential-unthought>\(^6\), construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold\(^1\) temporal individuations circular undermining of the prospective institutionalisation reference-of-thought\(^8\)/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness\(^8\)-of-reference-of-thought\(^8\), as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\(^1\) reference-of-thought\(^8\) which is in \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag}\>^3\) with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought\(^8\); and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency\(^3\)<transparency-of-totalising-entailing,-as-to-entailing-<\text{amplituding/formative-}
epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{87}) as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} of the prospective institutionalisation’s reference-of-thought\textsuperscript{83}. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\textsuperscript{88} as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<shallow-supererogation\textsuperscript{96}-of-mentally-aestheticised~preconverging/dementing\textsuperscript{19}–qualia-schema> in constitutedness\textsuperscript{13}, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening\textsuperscript{52} then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\textsuperscript{88} reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity\textsuperscript{66} as of conflatedness\textsuperscript{12}, and so as of the very same <amplituding-formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening\textsuperscript{52} induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought\textsuperscript{83}-
as-of-‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicated axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation.—as-to-perspective-ontological-normalcy/postconvergence-implied–’prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, with increasing ontological-performance<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say
the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of
taxiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic
and by extension mathematics imply elaboration-as-mere-
e-xtrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity38, whereas axiomatic-constructs as reflecting ecstatic-existence/the-
nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-
validating-logicising/suitable-measuring/instrument-validating-measuring—<as-to-
postconverging-or-dialectical-thinking28—apriorising-psychologism> as of maximalising-
recomposuring54—for-relative-ontological-completeness87—unenframed-conceptualisation. But
then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective
conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their
philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-
ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-
enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and
mathematics are construed practically as formalisations which are mainly as such constructs of
faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’
for the sake of succinctness, clarity and fungibility; however, without the implication of any
other inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of such
formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly
construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of
logic and mathematics transcendental-enabling/sublimating/supererogatory—de-mentativity’.
But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an
exercise of mathematical formalisation. The fact is that mathematics have always been
developed implicitly or explicitly in association with or inspired from the context/existential-
contextualising-contiguity38 of other applied and transcendental-
enabling/sublimating/supererogatory-de-mentativity activities as of their axiomatic-constructs
development and mathematics very own existential-reality of developed axiomatic-constructs
applicative orientation, including developing together with heavily dependent mathematics
domains like physics, engineering, other applied sciences and statistical studies. This latter
situation which is more real than generally said and makes of mathematics ‘a
<amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and
more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers
and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking
cue from the formalisation of mathematics as if it will enable the inherent transcendental-
enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to
disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of
the existential domain in question have to be critically developed as of existential-
contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{66} for logic and mathematics to then be
relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly
mathematical proof’ (over and above any formal mathematical proof) is rather about
validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence
of existential phenomena/manifestations; even as such a mathematical demonstration is rather
so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for
all practical purposes mostly overlooked by mathematicians when involved in their
formalisation exercise including ‘formal proofs’ as to the fact that the existential
validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is
warranted for confirmation and this existential nominalism can easily lead to a reductionist
confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-
<in-transitive-conflatedness\textsuperscript{12}-reflexivity,-in-the-full-potency-of-existence’s–sublimating–
what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension-reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human-amplituding/formative-epistemicity>totalising-purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the
backdrop of an absolutely valid reference-of-thought\textsuperscript{83}—reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional—notional—deprocrypticism\textsuperscript{17} psychoanalytic-unshackling metaphysics-of-absence and conflatedness\textsuperscript{32}, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness\textsuperscript{33} construed of meaningfulness-and-teleology\textsuperscript{9955} that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought\textsuperscript{83}, construed as ‘reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} that is unconsciously implied as of our positivism—procrypticism\textsuperscript{99} registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of meaningfulness-and-teleology\textsuperscript{9955}, and
consciousness/mirage as metaphysics-of-presence. Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology\textsuperscript{9955} correspondence relation with an epistemic-totalising\textsuperscript{32}—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}.<including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework\textsuperscript{72}; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sUBLIMITY/sublimation/supererogatory—de-mentativity when prospective relative-ontological-completeness\textsuperscript{87}—of-axiomatic-construct-or-reference-of-thought\textsuperscript{83} avails prospectively with regards to their meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}.<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity\textsuperscript{66}; as axiomatic-construct/reference-of-thought\textsuperscript{83} in relative ontological-contiguity\textsuperscript{66} of <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality. An axiomatic-construct is in such relative ontological-contiguity\textsuperscript{66} by its conflatedness\textsuperscript{12} as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity. An ‘axiomatic-construct/reference-of-thought\textsuperscript{83} of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—shallow-supererogation\textsuperscript{96}—of-mentally-aestheticised—preconverging/dementing\textsuperscript{19}—qualia-schema> as of an epistemic-totalising\textsuperscript{32}—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ highlights two points of failure/as-
discontinuity of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>, having to do with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63} and by derivation the aposteriorising/logicising/deriving/intelligising/measuring; such that a more ontologically-complete ‘axiomatic-construct/reference-of-thought\textsuperscript{83} in relative ontological-continuity as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ exists rather beyond the scope of construal of meaningfulness-and-teleology\textsuperscript{9955} of the prior ‘axiomatic-construct/reference-of-thought\textsuperscript{83} of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<-shallow-supererogation\textsuperscript{96} of mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Thus the relationship between a prospective institutionalisation and the uninstitutionalised-threshold\textsuperscript{182} is one of relative ontological-contiguity\textsuperscript{66}–by–notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<-shallow-supererogation\textsuperscript{96} of mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> of their differing references-of-thought as of the very same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’; for instance, with regards to the relative ontological-contiguity\textsuperscript{66} of reference-of-thought\textsuperscript{83} implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<-shallow-supererogation\textsuperscript{96} of mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> of reference-of-thought\textsuperscript{83} implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–
epistemicity>totalising–purview-of-construal”, reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity\textsuperscript{66} and relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<shallow-supererogation\textsuperscript{96}-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought\textsuperscript{83}, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory–de-mentativity implications as of human limited-mentation-capacity-deepening\textsuperscript{52}, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology\textsuperscript{9955} as knowledge which can only

Such a logicism disposition is rather in constitutedness\(^{13}\) and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendent-enabled/sublimating/sublimation/supererogation\(^{96}\)-<as-to-perspective-ontological-normalcy/postconvergence-implied-

In the bigger scheme of things, this author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in the conception of meaningfulness-and-teleology\(^{9955}\) ontological-performance\(^{71}\>-<including-virtue-as-ontology> as of transcendence-and-sublimity/sublimation/supererogatory-dementativity reflected by metaphysics-of-absence is wholly sufficient as of human limited-mentation-capacity-deepening\(^{52}\) in accounting for ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) as of difference-conflatedness\(^{32}\)-as-to-totalitative-reification\(^{86}\)-insingularisation\(^{92}\)-as-veridical-epistemic-determinism\(^{21}\) <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\(^{64}\)^{4}\) as of relative ontological-contiguity\(^{66}\) of reference-of-thought\(^{83}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness\textsuperscript{12} as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality\textsuperscript{51}/longness over temporality\textsuperscript{98}/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality\textsuperscript{98}-to-intemporality\textsuperscript{51} were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness\textsuperscript{12} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644} as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual constitutedness\textsuperscript{13} possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness\textsuperscript{12} as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness\textsuperscript{12} upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness\textsuperscript{12} as of successive opened-constructs-of–meaningfulness-and-teleology\textsuperscript{9955} superseding <amplituding/formative>wooden-language–(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955} as-of–‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>) and from which Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology exercise we can’t as of soundness-or-ontological-good-faith/authenticity exculpate ourselves to then pretend ours is the registry-worldview/dimension reference-of-thought that is non-transcendable as of our totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, when the insight of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications as of deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought avails, and so as the conflatedness upholding prospective coherence/contiguity of ontology’s-directedness-as-Being. This further explains why there is need for corresponding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be ‘thought through and effectively conceptualised’ with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—in-singularisation-as-veridical-epistemic-determinism causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity is subject to epistemic-decadence as of beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>. Such ‘ontological statistical-exception’ of intemporality-longness as of ontology’s-directedness-as-Being permeates all existential processes including life itself. This explains why dimensionality-of-sublimating supererogatory-de-
mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-disposition behind the ‘inventing’ of prior institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of—meaningfulness-and-teleology on <amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry—teleology) as of uninstitutionalised-threshold failing intemporal—preservation-entropy—or-contiguity—ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say 19th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—reconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-
transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology\textsuperscript{9955} in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71.-}\langle including-virtue-as-ontology\rangle arises as an exercise of human limited-mentation-capacity-deepening\textsuperscript{52} as of relatively profound and complete axiomatic-constructs/reference-of-thought\textsuperscript{83} in ontological-contiguity\textsuperscript{66} of the-very-same-immanent-existence/intrinsic-reality/ontological-verbatim\textsuperscript{,-as-to-\textquote{human\langle amplituding/formative\texthyperscript{--}epistemicity\rangle totalising\texthyperscript{--}purview\texthyperscript{--}of\texthyperscript{--}construal\rangle} or \langle amplituding/formative\texthyperscript{--}epistemicity\rangle totalising\texthyperscript{--}devolved\texthyperscript{--}purview\texthyperscript{--}as\texthyperscript{--}domain\texthyperscript{--}of\texthyperscript{--}construal\texthyperscript{--}as-intrinsic-reality/ontological-verbatim\rangle! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought\textsuperscript{83} in ontological-contiguity\textsuperscript{66} can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62.-}\langle shallow-supererogation\textsuperscript{96} of mentally-
aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity\textsuperscript{66} of axiomatic-construct for grander human meaningfulness-and-teleology\textsuperscript{99,55} ontological-performance\textsuperscript{71},<including-virtue-as-ontology>, as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity\textsuperscript{38}/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening\textsuperscript{52} of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity\textsuperscript{66}. The notion of axiomatic-construct in ontological-contiguity\textsuperscript{66} arises out of its existential completeness and profundness, for instance the axiomatic-construct in ontological-contiguity\textsuperscript{66} as concept of a bicycle arises by the completeness and profundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity\textsuperscript{66}. ontological-contiguity\textsuperscript{66} rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought\textsuperscript{83} of construal; which for instance renders the idea of general relativity in relative ontological-contiguity\textsuperscript{66} and newtonian physics in relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62},<shallow-supererogation\textsuperscript{96}–of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative

highlights six issues with respect to meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}.<including-virtue-as-ontology> with regards to such implicitated-and-explicated reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue. Firstly, this has to do with the successive institutionalisations reference-of-thought\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} due to human limited-mentation-capacity of projection-or-anticipation in grasping the ‘inherent centered—epistemic-totalisation-as-existence’. Secondly, even within each of the successive given institutionalisations as of their given underlying specific rules there is a variance of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}.<including-virtue-as-ontology> among human individuations-as-mental-dispositions-manifested-by-individuals,—with-the-individual-construed-as-the-existential-receptacle-of-temporal-to-intemporal-possibilities-of-individuations as of intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} individuation that notionally upholds the given institutionalisation’s reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998} and as of temporality\textsuperscript{98}/shortness individuations that in its relative ‘<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}.<in-existential-extrication-as-of-existential-unthought> fails to uphold the given institutionalisation’s reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998} due to lack of social universal-transparency\textsuperscript{184}—(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{87}) in the social-stake-contention—or-confliction dynamism thus highlighting the registry-worldview/dimension

Sixthly, the resolution as of human limited-mentation-capacity-deepening\textsuperscript{52} is ultimately with the notional–notional–deprocrypticism\textsuperscript{17} protensive-consciousness as of its notional-contiguity/epistemic-contiguity\textsuperscript{61}-<profound-supererogation\textsuperscript{96}-of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema> superseding of transversality-of-affirmative-and-unaffirnative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} temporal-to-intemporal human limited-mentation-capacity implications. The latter highlights the recurrence of such ‘uninstitutionalised-threshold\textsuperscript{102} phenomena’ as \textlangle\textit{amplituding}/formative\textrangle wooden-language-(imbued—averaging-of-thought-\textlangle\textit{as-to-leveling}/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of–’nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications\textrangle) and institutionalised-being-and-craft. For instance, the successive registry-worldviews/dimensions institutionalisations conceptualisation of meaningfulness-and-teleology\textsuperscript{9955} have arisen as secondnatured constructs that have substituted for their uninstitutionalised-threshold\textsuperscript{102} free-for-all \textlangle\textit{amplituding}/formative\textrangle wooden-language-(imbued—averaging-of-thought-\textlangle\textit{as-to-leveling}/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of–’nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications\textrangle) framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, anthropologists are very much aware that the social diffusion of new
transcendental-enabling/sublimating/supererogatory—de-mentativity practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling framework than as of an dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ‘direct convincing’ at individuals-level underlying deferring to institutional and formal meaningfulness-and-teleology\textsuperscript{9955} as of the need for profoundness and rigour that doesn’t avail in ordinary thought for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology\textsuperscript{9955} could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} constitutedness\textsuperscript{13} as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} is a de-mentative/structural/paradigmatic deficiency inducing the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} conflatedness\textsuperscript{12} which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is inevitably and so across all
registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered—epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity conflictedly implying overriding the prior institutionalisation’s centered—epistemic-totalisation-facticity for the prospective institutionalisation’s centered—epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory-de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiac-drag as social universal-transparency (transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered—epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity elicited by cultural diffusion whether
with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-
mentatively/structurally/paradigmatically a framework where individuals are naturally involved
in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in
various ways the optimum as of perceived existential possibilities, and thus individuals and
social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-
facticity of meaningfulness-and-teleology\textsuperscript{9955} within their social-setup and are predisposed on
critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they
perceive as optimum existential possibilities, such that a social-setup is already involved
internally however restricted in its very own reinvention/circumventing/adaptation as of its very
own internal ‘self-referencing and syncretising-effecting construed as $<\text{amplituding/formative–}
epistemicity}>\text{totalising–self-referencing-syncretising}$’ of meaningfulness-and-teleology\textsuperscript{9955} with
regards to perceived social-stake-contention-or-confliction; and it is this element that enables
all human societies to have a minimal opening/overture/receptivity to each other, including at
the very extreme between an industrial age society and a hunter-gatherer society. Without such
a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as
$<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag}$\textsuperscript{33} human nature’, both internal social
transformation however lethargic and cultural diffusion will be basically impossible, and
$<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag}$\textsuperscript{33} induced transformation arises because
human perceived social-stake-contention-or-confliction drifts within-and-across social-setups
whether with regards to basic trading, curiosity, social competition and generally as of a
predisposition to achieve optimum existential possibilities. In this regard, the rapid
transformation implications of cultural diffusion arise because it makes relatively immediately
available to individuals and social groups a comprehensive set of options however limited the
nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs notwithstanding a seemingly self-referencing centered-epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{9955} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} given their supposedly coherent ontological-commitment\textsuperscript{65} as of more profound ontological-prime-movers-totalitative-framework\textsuperscript{72} validation as to existence-potency/sublminating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-amp;lt;amplituding/formative-epistemicity\gt totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness\textsuperscript{12}, as re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{28}-'projective-insights'/'epistemic-projection-in-conflatedness\textsuperscript{12}-of-notional-deprocrypticism\textsuperscript{17}-prospective-sublimation)\textsuperscript{98}, that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism\textsuperscript{75} by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing\textsuperscript{15} nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment\textsuperscript{65} is not actively contemplated socially but occurs latent and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology\textsuperscript{9955} as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}.&lt;in-existential-extrication-as-of-existential-unthought\gt with regards to
such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{995} social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998} with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity\textsuperscript{56} for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity\textsuperscript{56} as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency\textsuperscript{104}—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}} about such metaphoricity\textsuperscript{56} instigative reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility–of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity\textsuperscript{56}, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\textsuperscript{65} that is subject to existence-potency–sublimating–nascence,—disclosed-from-prospective-epistemic-digression-as-
of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness\textsuperscript{12} validatory ontological-primemovers-totalitative-framework\textsuperscript{72}. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment\textsuperscript{65} threshold of a social-setup meaningfulness-and-teleology\textsuperscript{9955} allows for the possibility for prospective metaphoricity\textsuperscript{56} to reconstrue-and-redefine the social-setup meaningfulness-and-teleology\textsuperscript{9955}. Such prospective metaphoricity\textsuperscript{56} possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology\textsuperscript{9955} needs this supposedly coherent ontological-commitment\textsuperscript{65} in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology\textsuperscript{9955} that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\textsuperscript{56} in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology\textsuperscript{9955} is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,,-for-explicating-ontological-contiguity\textsuperscript{6644} as of the social-setup given supposedly coherent ontological-commitment\textsuperscript{65}. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment\textsuperscript{65} respectively as of superstitious spiritualism meaningfulness-and-teleology\textsuperscript{9955} or scholasticism pedantic dogmatism meaningfulness-and-teleology\textsuperscript{9955}, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility
for prospective metaphoricity\textsuperscript{56} to demonstrably undermine the implied supposedly coherent ontological-commitment\textsuperscript{65} of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology\textsuperscript{9955}, and so as of the prospectively induced ontological-primemovers-totalitative-framework\textsuperscript{72} superseding meaningfulness-and-teleology\textsuperscript{9955} as from existence-potency–sublimating–nascent–disclosed–from-prospective-epistemic-digression-as-of–\texttt{amplituding/}

The abstract notion of antinihilism as implied by such prospective metaphoricity\textsuperscript{56} is not construed in human temporal terms—as-of-axiomatic-construct as a ‘living notion’ going by an \textless\textsuperscript{amplituding/formative—epistemicity}\textgreater totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} elicitation of value as of untransvaluated—temporal-intemporality\textsuperscript{51}. In this regard, as of the temporal ‘mental and existential investment’ of recurrent-utter-uninstitutionalisation prospective base-institutionalisation antinihilism meaningfulness-and-teleology\textsuperscript{9955} is basically nothing and worthless, likewise as of the temporal ‘mental and existential investment’ of base-institutionalisation—ununiversalisation prospective universalisation antinihilism meaningfulness-and-teleology\textsuperscript{9955} is basically nothing and worthless, same with universalisation—non-positivism/medievalism and prospective positivism, and equally so for positivism—procrypticism\textsuperscript{80} and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} as of prospective deprocrypticism\textsuperscript{17}. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of
<amplituding/formative–epistemicity>totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} untransvaluated–temporal–intemporality\textsuperscript{51}. Ultimately, prospective metaphoricity\textsuperscript{56} in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality\textsuperscript{51}/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment\textsuperscript{65}-disposition. More critically, such a conception of prospective metaphoricity\textsuperscript{56} cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology\textsuperscript{99}.<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} with respect to prospective metaphoricity\textsuperscript{56} as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} metaphoricity\textsuperscript{56} implications are necessarily spurious and associated with our positivism–procrypticism\textsuperscript{80} institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity\textsuperscript{56} implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-prime movers-totalitative-framework\textsuperscript{72}, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology\textsuperscript{9955} in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity\textsuperscript{56} that the latter elicits
contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks dementatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity\textsuperscript{62}.<shallow-supererogation\textsuperscript{96}.of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}.qualia-schema> with their prospectively implied metaphoricity\textsuperscript{56}; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of respectively non-universalising and non-positivism/medievalism dogma prior relative-ontological-incompleteness\textsuperscript{88}.of-reference-of-thought\textsuperscript{83} warranting their unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring.<as-to-preconverging–or-dementing\textsuperscript{19}.apriorising-psychologism> for the

Likewise, this author’s critique of the spurious institutional-being-and-craft muddlement of our positivism–procrypticism\(^{80}\) with respect to its dementative/structural/paradigmatic implicated undermining of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of prospective notional–deprocrypticism\(^{17}\) is not an idle exercise, and so as of such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument procrypticism–or–disjointedness-as-of-reference-of-thought\(^{8380}\) as of direct, indirect and devolving undermining of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\) as of prospective notional–deprocrypticism\(^{17}\) metaphoricity\(^{56}\) implications and so with respect to the social analysis implications of disjointedness-as-of-reference-of-thought\(^{83}\) associated phenomena as reflected in social-stake-contention-or-confliction issues including psychopathy and social psychopathy. As of the conflatedness\(^{12}\) of notional–notional–deprocrypticism\(^{17}\) construal, what underlies the notion of human existential-extrication-as-of-existential-untought is the idea that human existence is as of ‘human existential-extricating projection-or-anticipation about existence/existential-possibilities as of human limited-mentation-capacity construing ‘reference-of-thought\(^{83}\)—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of implicited-and-explicated

It is those elements of an epistemic/notional possibility of correspondence, as of the \textlangle amplituding/formative–epistemicity\textrangle totalising–thrownness-in-existence\textsuperscript{34} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and onto, that together effectively make human transcendence-and-sublimity/sublimation/supererogatory–dementativity and the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} possible given that it immanently enables the possibility of successive human prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} as of the successive registry-worldviews/dimensions institutionalisations. In other words, it is human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that ultimately ‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its uninstitutionalised-threshold\textsuperscript{102} for the possibility of a correspondence between human limited-mentation-capacity and the ‘inherent centered–epistemic-totalisation-as-existence’, as of Being orientation of pursuing-and-attaining ontological-completeness-of-reference-of-thought\textsuperscript{83}. It is
only such a conflatedness\textsuperscript{12} perspective as of notional–notional–deprocrypticism\textsuperscript{17} that can articulate a conceptualisation of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as of a notional–correspondence to existence/existential-possibilities, thus avoiding <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} misconstrual as of constitutedness\textsuperscript{13}.

Insightfully with respect to human temporality\textsuperscript{98}/shortness including postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} and as reflected by psychopathy and social psychopathy in our positivism–procrypticism\textsuperscript{88}, the conflatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} points out that given human limited-mentation-capacity its ‘reference-of-thought’\textsuperscript{83}—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of implicited-and-explicated reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’ as of institutionalisation, is subject at its uninstitutionalised-threshold\textsuperscript{182} to human temporality\textsuperscript{98}/shortness de-mentative/structural/paradigmatic denaturing\textsuperscript{15} (beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}) undermining meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> due to lack of social universal-transparency\textsuperscript{184}–{transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}). This arises because fundamentally as of notional–correspondence with existence, a registry-worldview’s/dimension’s institutionalisation in prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> is ultimately rather vouching of such a notional–correspondence with existence on the basis of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

This latter is only undermined driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of prospective human limited-mentation-capacity prospective relative-ontological-completeness\(^{87}\)—of-reference-of-thought\(^{83}\) \langle reference-of-thought\(^{83}\)—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of implicited-and-explicated reference-of-thought\(^{83}\)—categorical-imperatives/axioms/registry-teleology\(^{998}\),-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{9955}\) as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue’ construed as prospective institutionalisation, by its greater social

Again, the latter institutionalisation’s meaningfulness-and-teleology\textsuperscript{9955} ontological-

ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Hence the notional–deprocrypticism\textsuperscript{17} registry-worldview/dimension institutionalisation as notionally construed as in full fulfilment of transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as of human de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attribute-dialectics)\textsuperscript{14} contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}<including-virtue-as-ontology> that anticipates and accounts for human inherent intemporality\textsuperscript{51}/longness and temporality\textsuperscript{98}, purports to avoid wrong elevation of temporality\textsuperscript{98}/shortness in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism and wrong degradation of intemporality\textsuperscript{51}/longness in supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism implied reference-of-thought\textsuperscript{83}—elevated-devolving-as-of-prospective-institutionalisation, given the inherently confounding ontological-veridicality of human potent beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. Broadly speaking thus, the <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{6644} of prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of reference-of-thought\textsuperscript{83} putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ as in effect as of conflatedness\textsuperscript{12} this simply wrongly elevates temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} mental-dispositions teleologically-degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{182} and wrongly degrades the intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955}
mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality 
denaturing\textsuperscript{15} of reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} beyond-the-consciousness-awareness-teleology\textsuperscript{99}–in-existential-extrication-as-of-existential-unthought\textsuperscript{6} while the latter is upholding reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} for intemperal-preservation-entropy-or-contiguity–or-ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought\textsuperscript{83} putting the temporal-to-intemperal-dispositions as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought\textsuperscript{83} wherein it is then strictly a matter of logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9653} in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold\textsuperscript{102}, there is a relative variance of ontological-completeness-of-reference-of-thought\textsuperscript{83} as of the prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} in intemperality\textsuperscript{51}/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83} in temporality\textsuperscript{98}/shortness entailing the uninstitutionalised-threshold\textsuperscript{102}; thus implying a relative variance in such intemperal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{102} in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought\textsuperscript{83} putting the temporal-to-intemperal-dispositions as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold\textsuperscript{102} and the prospective institutionalisation; given the variance of temporality\textsuperscript{98}/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism–or–

This articulated delimitation of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{9955} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ within only a registry-worldview’s/dimension’s institutionalisation framework as of reference-of-thought\textsuperscript{83} is critical for an ontologically-complete profoundness/depth of ‘phenomenological departure in-its-overcoming-of-neuterisation\textsuperscript{58} reflected by metaphysics-of-absence as the ‘requisite conflatedness\textsuperscript{12} of understanding’, necessarily entailing transcendental implications for ontologically-veridical knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue; as we can appreciate the inherent reality that there isn’t ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{9955} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ between recurrent-utter-uninstitutionalisation and base-institutionalisation–ununiversalisation, between base-institutionalisation–ununiversalisation and universalisation–non-positivism/medievalism, between universalisation–non-positivism/medievalism and positivism–procrypticism\textsuperscript{80}, and prospectively between positivism–procrypticism\textsuperscript{80} and deprocrypticism! In this case such overcoming of neuterisation\textsuperscript{98} with reference to the variance of successive registry-worldviews/dimensions is rather conceived as deneuterising\textsuperscript{16} as of the variance in prospective relative-ontological-completeness\textsuperscript{87}–of–meaningfulness-and-teleology\textsuperscript{9955} disambiguation of uninstitutionalised-threshold\textsuperscript{102} and prospective institutionalisation, and so reflected as of historiality/ontological-eventfulness/ontological-

Such a deneuterising\textsuperscript{16} binarity of storied ontologically-flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}–temporal-mental-dispositions and storied background of ontologically-veridical-inherent-superseding-existential-reality-unattached-to-such-temporal-mental-dispositions portrays how a storied-construct/ontologically-valid-narration can be articulated as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}
‘emphasising exclusively that it is the construal of human temporality\textsuperscript{98} to intemporality\textsuperscript{51} limited-mentation-capacity transversal-and-cumulative-implications’ that accounts for ontologically-veridical human character-and-social-formation-dynamics as of both uninstitutionalised-threshold\textsuperscript{102} representation and prospective-institutionalisation representation. Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality-of-affirmative-and-unaffectiveme-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} of human limited-mentation-capacity in temporal constitutedness\textsuperscript{13} mental-reflexes at presence reference-of-thought\textsuperscript{83}, and so reflected by the implied intemporal conflatedness\textsuperscript{12} of phenomenological transcendence-and-sublimity/sublimation/supercogitarius de-mentativity as of notional-deprocrypticism\textsuperscript{37}. We can appreciate the metaphysics-of-absence insight about such a deneuterising\textsuperscript{16} storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} to positivistic/rational-empiricism meaningfulness-and-teleology\textsuperscript{9955} with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought\textsuperscript{83}. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} temporal-mental-dispositions as if always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold\textsuperscript{102} of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrypticism\textsuperscript{80} mental-disposition is construed in deneuterising\textsuperscript{16} from futural Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{995} as of prospective notional—deprocrypticism\textsuperscript{17} perspective ‘as not self-effacing as of its ontologically-flawed <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}—temporal—mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold\textsuperscript{102} of its procrypticism—or—disjointedness-as-of-reference-of-thought\textsuperscript{8380} and the prospective institutionalisation of deprocrypticism\textsuperscript{17}. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold\textsuperscript{102} and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising\textsuperscript{57} mental-reflex that by its <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} fails to attain such a conflatedness\textsuperscript{12} as of notional—notional—deprocrypticism\textsuperscript{17} deneuterising\textsuperscript{16} insight. Central and critical to achieving such a deneuterising\textsuperscript{16} analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology\textsuperscript{995} given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold\textsuperscript{102} is the notion of beyond-the-consciousness-awareness-teleology\textsuperscript{99}—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. It is exactly what renders a veridical ontological-escalation or aetiology of the human condition possible as the historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} of conflatedness\textsuperscript{12} as of notional—deprocrypticism\textsuperscript{17}. It is most critical because at any registry-worldview/dimension, human self-consciousness is a <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a—meaningfulness-and-teleology\textsuperscript{995}—that-is-intemporal
while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold\textsuperscript{102} and-its-assorted-and-conjugated-temporal–meaningfulness-and-teleology\textsuperscript{9955} such that transcendence-and-sublimity/sublimation/supplanting–de-mentativity is always perceived as unnatural when <\textit{amplituding}/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold\textsuperscript{102}-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The implications of such human <\textit{amplituding}/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-reflex as it overlooks human uninstitutionalised-threshold\textsuperscript{102} points to the reality that the implied prior institutionalisation ‘projected reflex of entailing-<\textit{amplituding}/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87} supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism for meaningfulness-and-teleology\textsuperscript{9955}’ while a social psychological reference is actually not ontologically-veridical as of human practical reality given lack of social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<\textit{amplituding}/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}). Such that with regards to social-stake-contention-or-confliction possibilities the social psychological reference as of wrongly implied prior institutionalisation ‘projected reflex of entailing-<\textit{amplituding}/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87} supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism for meaningfulness-and-teleology\textsuperscript{9955}’ is an abstract social constraint to human temporal mental-dispositions. In practicality such human temporal mental-dispositions involve ‘rationalising threads of part-conviction-as-to-profound-supererogation\textsuperscript{96}–or–part–nonconviction/madeupness/bottomlining–as-to-shallow-supererogation\textsuperscript{96} perception-and-relation to meaningfulness-and-teleology\textsuperscript{9955}, as

Effectively, such part-conviction-as-to-profound-suprerogation\(^9\)–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation\(^9\) with respect to pertinently-perceived social-stake-contention-or-confliction contexts arises due to (beyond-the-consciousness-awareness-teleology\(^9\)-<in-existential-extrication-as-of-existential-unthought>\(^6\))
constraint of human limited-mentation-capacity as of prospective human aporeticism such that this induces as of various existential-instantiations ‘ontologically-flawed meaningfulness-and-teleology<sup>⁹⁹⁵⁵</sup> ontological-performance<sup>⁷¹</sup>-<including-virtue-as-ontology>’, subpar to ontologically-veridical meaningfulness-and-teleology<sup>⁹⁹⁵⁵</sup> ontological-performance<sup>⁷¹</sup>-<including-virtue-as-ontology> as fundamentally underscored by the prospective institutionalisation. Thus this determines a consequential ‘dynamic beyond-the-consciousness-awareness-teleology<sup>⁹⁹</sup>-<in-existential-extrication-as-of-existential-unthought>’ limited-mentation-capacity constraint’ as reflected from a ‘notional–deprocrypticism<sup>¹⁷</sup>-referentialism-as-of-its-nonascriptivity backdrop-for-the-ontologically-veridical-construing’ of ‘temporal-to-intemporal individuations meaningfulness-and-teleology<sup>⁹⁹⁵⁵</sup> and actions of individuals and the collective-social as of their varying-existential-instantiations-mental-dispositions-ontological-performance<sup>⁷¹</sup>-<including-virtue-as-ontology> or their characterisations-as-of-varying-existential-instantiations’, as fundamentally underscored by the implied uninstitutionalised-threshold<sup>¹⁰²</sup> reference-of-thought<sup>⁴³</sup>, wherein such temporal thresholding neuterisation<sup>⁵⁸</sup> with regards to ontologically-veridical meaningfulness-and-teleology<sup>⁹⁹⁵⁵</sup> reflects Being-underdevelopment; and so from the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness<sup>¹²</sup> of notional–notional–deprocrypticism<sup>¹⁷</sup> deneuterising<sup>¹⁶</sup>—referentialism’ as of metaphysics-of-absence insight that ontology’s-directedness-as-Being lies with Base-institutionalisation institutionalisation over Recurrent-utter-uninstitutionalisation uninstitutionalisation <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>³³</sup>, it lies with Universalisation institutionalisation over Base-institutionalisation–ununiversalisation uninstitutionalisation <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>³³</sup>, it lies with Positivism institutionalisation over Universalisation–non-positivism/medievalism uninstitutionalisation
<amplituding/formative–epistemicity>/totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and it lies prospectively with notional–deprocrypticism\textsuperscript{17} institutionalisation over our Positivism–procrypticism\textsuperscript{80}.

This operantly defines procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8388} as beyond just the construal of new supposedly intemporal reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} of the prospective institutionalisation to preempt the temporally denaturing\textsuperscript{15} reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} of the prior institutionalisation, but rather the deneuterising\textsuperscript{16} construal of the very ‘limited-mentation-capacity as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as the beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} constraining dynamism’ behind the denaturing\textsuperscript{15} of reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} in the very first place; conceptualised henceforth as the very reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the notional–deprocrypticism\textsuperscript{17} registry-worldview/dimension institutionalisation as of its implied notional–deprocrypticism\textsuperscript{17}. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation\textsuperscript{96}–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} perception-and-relation to meaningfulness-and-teleology\textsuperscript{9955} over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation\textsuperscript{96}–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation and temporal/shortness-of-register-of-meaningfulness-and-teleology individuations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology. Ultimately, the notion of beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> given its psychoanalytic-unshackling as of prospective deprocryticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of
temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{99} but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness\textsuperscript{12} of Being as implied as of deproscriptivism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317}. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{5} are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold\textsuperscript{482} in temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} terms-as-of-
axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought\textsuperscript{83} into a positivistic mindset/reference-of-thought\textsuperscript{83}, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness\textsuperscript{88}-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism’ is in a state of \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of a medieval worldview will grasp that that unique demonstration of medieval-postlogism\textsuperscript{77}/perversion\textsuperscript{74}–of-reference-of-thought\textsuperscript{83}–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation\textsuperscript{96}> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation\textsuperscript{9653} as ‘prelogic supplanting–conviction-as-to-profound-suprerogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought\textsuperscript{83}, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments\textsuperscript{105} potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the
crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought\textsuperscript{83} into a positivistic mindset/reference-of-thought\textsuperscript{83} that is ontologically-speaking to be construed as the de-mentative/structural/paradigmatic resolution of the vices-and-impediments\textsuperscript{105} arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism\textsuperscript{88} worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} worldview). We can appreciate such metaphysics-of-absence insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced intemporality\textsuperscript{51}/longness behind the ‘inventing of the base-institutionalisation culturally diffused knowledge’ for an optimum accrual of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} of recurrent-utter-uninstitutionalisation; that is, based on base-institutionalisation’s ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’ enabling the superseding of recurrent-utter-uninstitutionalisation vices-and-impediments\textsuperscript{105} as of its ‘non-rules—apriorising/axiomatising/referencing–psychologism,–as-impulsive-or-accidented-or-random-mental-disposition’. Such conceptualisation extends to all registry-worldviews/dimensions prospective institutionalisation including our positivism–procrypticism\textsuperscript{88} prospective transcendental emancipation to deprocrypticism\textsuperscript{17}. Underlying Being-development/ontological-
effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955}; as we can appreciate that despite the positivistic inclinations of the Copernicus, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory-de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory-de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955} with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments\textsuperscript{185} of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955}, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor wherein institutionalising reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} are always subject at uninstitutionalised-threshold\textsuperscript{182} to their denaturing\textsuperscript{15} as of their

Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology⁹⁹⁵⁵ given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology⁹⁹⁵⁵ behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of amplituding/formative> wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology⁹⁹⁵⁵-as-of—nondescript/ignorable—void⁹⁹1—with-regards-to-prospective-apriorising-implications>’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social amplituding/formative> wooden-language-{imbued—
equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought\textsuperscript{83}-categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology\textsuperscript{995} with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-
completeness\textsuperscript{87})' thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}—in-singularisation\textsuperscript{92}—as-veridical-epistemic-determinism\textsuperscript{21} amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity\textsuperscript{6644} associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955}. However, all along this ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} as of various pertinent social manifestations: —wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory—de-mentativity in formal institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality\textsuperscript{51}—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; —wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge

and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, the insight about human \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} psychoanalytic-unshackling positive-opportunism\textsuperscript{75} can crossgenerationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} despite the inherent circular distractiveness of temporality\textsuperscript{98}, and ultimately so as enabled by ‘social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing–as-to-entailing\textless amplituding/formative–epistemicity\textgreater totalising–in-relative-ontological-completeness\textsuperscript{87})’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory-de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology\textsuperscript{9955} constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicus, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency\textsuperscript{104}—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness}\textsuperscript{87}’). As it is the latter that induces that social positive-opportunism\textsuperscript{75} for deferential-formalisation-transference and institutional percolation-channelling, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought\textsuperscript{83}, transcendental knowledge is of a circular but consistent exercise of<br><amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—<shallow-supererogation\textsuperscript{96}—of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}—qualia-schema> reference-of-thought\textsuperscript{83} and introducing the prospective ontological-contiguity\textsuperscript{66} reference-of-thought\textsuperscript{83} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to– ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective ontological-contiguity\textsuperscript{66} is more than just a reification\textsuperscript{86} gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking\textsuperscript{28}—apriorising-psychologism> but extends to encompass a de-assertion/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/unaffectation/deprojection/de-assertion/dueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—<as-to—

The ontological veridicality here is that such ‘double-gesture reification\textsuperscript{86} as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking\textsuperscript{26}–apriorising-psychologism> together with the prior axiomatic de-assertion/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism>’ implied as of the nonpresencing\textsuperscript{68}–<perspective–ontological-normalcy/postconvergence> induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not to be construed as an incrementalism\textsuperscript{50}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} of the superseded presencing—absolutising-identitive-constitutedness\textsuperscript{1379}, but is rather a maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation in subsuming ‘the very same physics \texttt{<amplituding/}formative–epistemicity\texttt{>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existentia

meaningfulness-and-teleology\textsuperscript{9955} mindset as well as its distance rather with respect to physical
reality, such a transcending reification\textsuperscript{86} gesturing as of the grandest axiomatic-constructs
having to do with consciousness with regards to the ‘very reference-of-thought\textsuperscript{83} itself’ wherein
the prospective ontological-contiguity\textsuperscript{66} reference-of-thought\textsuperscript{83} as deprocrypticism–or–
preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} implies a transcending reification\textsuperscript{86}
gesturing that not only affirms notional–deprocrypticism\textsuperscript{17} prospective registry-

convert into a circular neuterisation\textsuperscript{58} of notional–deprocrypticism\textsuperscript{17} by a mental-complex
avoiding such emotional discomfort and sense of existential ego undermining as is the case
with all destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-

their prospective institutionalisations. This explains why it is not a fundamental contradiction as of
human-subpotency–aporia/undecidability/dilemma/ought-
determinacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–
estentialism-form-factor at uninstitutionalised-threshold\textsuperscript{102} that the positivistic/rational-
empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were
met with counteracting reactionary views, and as it further elicits ontologically-flawed
‘uninstitutionalised-threshold\textsuperscript{102} by prospective institutionalisation dialogical-equivalence’. This
can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in ontological-contiguity and ‘traditional classical mechanics axiomatic-construct’ of notional-discontiguity/epistemic-discontiguity.<shallow-supererogation> but for the former’s enlightening the latter’s undefined-or-undecidable-threshold-of-ontological-veridicality. This insight reflects the reality of transcendence-and-sublimity/sublimation in reflecting holographically-the ontological-contiguity—of-the-human-institutionalisation-process associated with Being-development/ontological-framework expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, wherein uninstitutionalised-threshold mental-reflexes of <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising in their incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity tend to perpetuate the representation of prospective institutionalisation as nondescript/ignorable—void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) in an ontologically-flawed
reasoning’ and so from the moment of the event-construed-as-the-prospective-ontology-origination\textsuperscript{37} of deprocrypticism\textsuperscript{17}, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event-construed-as-the-prospective-ontology-origination\textsuperscript{37} of positivism, etc., across the successive institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}; and so as of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<shallow-supererogation\textsuperscript{96}-of-mentally-aestheticised-preconverging/dementing\textsuperscript{19}-qualia-schema> of the uninstitutionalised-threshold\textsuperscript{62} and the prospective institutionalisation. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology\textsuperscript{99} <in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} denaturing\textsuperscript{15} of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism\textsuperscript{75} it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of intemporality\textsuperscript{51}/longness behind
‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness—of-reference-of-thought—meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism—or—preempting—disjointedness—as-of-reference-of-thought relative to our positivism—procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism—procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme as otherwise such knowledge will be teleologically-degraded in circular positivism—procrypticism disjointedness-as-of-reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness—of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our <amplituding/formative—

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming and not temporal extricatory de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given
registry-worldview’s/dimension’s institutionalisation reference-of-thought\textsuperscript{83}. attitude/mental-disposition/care–and–episteme\textsuperscript{5} as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology\textsuperscript{99}/end-purposefulness’ and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology\textsuperscript{9955}. It further implies a ‘the human toddling potential’ for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}; with the ‘human toddling potential’ implying the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5} with respect to living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}. This ‘human toddler potential’ is what enables notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–<shallow-supererogation\textsuperscript{96}-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> induced psychoanalytic-unshackling for grounding meaningfulness-and-teleology\textsuperscript{9955} prospectively as of the prospective relative-ontological-completeness\textsuperscript{87} of nonpresencing\textsuperscript{68}–<perspective–ontological-normalcy/postconvergence>. The attitude/mental-disposition/care–and–episteme\textsuperscript{5} structure is what fundamentally determines mental-states in their ‘projection/anticipation of the coherence/contiguity-of-superseding–oneness-of-ontology-as-of-inherent-existence-coherence/contiguity’ whether with respect to any individual within any registry-worldview/dimension as well as the registry-worldview’s/dimension’s overall reference-of-thought\textsuperscript{83}, as of its specific reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}.

Thus an attitude/mental-disposition/care–and–episteme\textsuperscript{5} can pertinently be defined as the
‘assumed-and-unflinching apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101},
inducing a given specific nonpresencing\textsuperscript{60} \textsubscript{-}perspective–ontological-normalcy/postconvergence\textsuperscript{-} outcome with regards to prospective relative-ontological-completeness\textsuperscript{87}-or-incompleteness-of-reference-of-thought\textsuperscript{83} as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology\textsuperscript{9955} associated with that attitude/mental-disposition/care–and–episteme\textsuperscript{5}; and so, whether such a framework is a reference-of-thought\textsuperscript{83} as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought\textsuperscript{83} like a social projection <amplitudding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}, as of the attitude/mental-disposition/care–and–episteme\textsuperscript{5} of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology\textsuperscript{99} \textsubscript{-}in-existential-extrication-as-of-existent-unthought\textsuperscript{>6} as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought\textsuperscript{83}, say in our positivism/rational-empiricism reference-of-thought\textsuperscript{83} we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme\textsuperscript{5}, and further at the individual level as of changing
attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally–collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as—to—existence—potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression—as—of—<amplituding/formative—epistemicity>—totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness to supersede human temporality/shortness <amplituding/formative>—wooden-language—(imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—<as—to—teleology—as—of—‘nondescript/ignorable—void—with—regards—to—prospective—apriorising—implications>) to be able to achieve transcendence—sublimity/sublimation/supererogatory—de—mentativity’, and so as of intemporality. With regards to living—as—of—human—personality—developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing—with—immediacy—for—relative—ontological-completeness by—reification/contemplative—distension as of its more direct focus on instant—sensations—<as—to—carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing—with—immediacy—for—relative—ontological—completeness by—reification/contemplative—distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing—with—immediacy—for—relative—ontological—completeness by—reification/contemplative—distension as for instance the
notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} is construed as the more profound attitude/mental-disposition/care–and–episteme\textsuperscript{5} for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme\textsuperscript{5} of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme\textsuperscript{5} dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}, for achieving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme\textsuperscript{5} dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative-epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6444}, with Being-
of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\(^5\) in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness\(^8\)–of-reference-of-thought\(^83\) registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme\(^5\) can pertinently be defined as the ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,–disambiguated-apriorising/axiomatising/referencing\(^{101}\) inducing a given specific nonpresencing\(^6\)-<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness\(^87\)-or-incompleteness-of-reference-of-thought\(^83\) as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology\(^9\) associated with that attitude/mental-disposition/care–and–episteme\(^5\). It can be construed with regards to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as a de-mentative/structural/paradigmatic adjunctive-metaphoricity\(^5\)-signification inducing-and-upholding a prospective ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct as <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\(^83\)-devolving\(^8\). In other words, a registry-worldview’s/dimension’s reference-of-thought\(^83\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly apprehended decisively by its given attitude/mental-disposition/care–and–episteme\(^5\) as of the ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,–disambiguated-apriorising/axiomatising/referencing\(^{101}\). This insight is critical as for instance with appreciating what is implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–
appropriate attitude/mental-disposition/care–and–episteme\textsuperscript{5} ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}, required for the correspondingly required meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>. Basically, attitude/mental-disposition/care–and–episteme\textsuperscript{5} is simply a reflection of level of deneuterising\textsuperscript{16}—referentialism as of the notional–conflatedness\textsuperscript{12} of notional–deprocrypticism\textsuperscript{17}. Ultimately for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, ‘the human toddlering potential’ or the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5}, can only arise by notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–<shallow-supererogation\textsuperscript{96}–of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> induced psychoanalytic-unshackling as of relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5} ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}, over relative-ontologically-flawed attitude/mental-disposition/care–and–episteme\textsuperscript{5}, with the latter necessarily having to ascend to the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5} for the former’s implied meaningfulness-and-teleology\textsuperscript{9955} as of its ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> to avail, and so in reflecting the ‘incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}–<as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’>\textsuperscript{'}; as we can appreciate this with regards to existence’s relative validation of the positivism/rational-empiricism ‘perceptivity-as-of-full-
disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’
interpretation over recurrent-utter-uninstitutionalisation’s ‘bad omen’ interpretation. Such an
‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing has ultimately nothing to do with the deliberate willing
of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. As we
can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-
completeness-by-reification/contemplative-distension as of a child’s living-as-of-human-
personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–
apisteme will poorly face optimum living of adult life or where such was the case about all
human children then the human species will be no more culturally unique than any other
animal. Again, as of human social-projection-institutional-orientations we know that subject-
matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-
meaningfulness-and-teleology-as-of-'nondescript/ignorable–void-with-regards-to-

is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-

so dispensing-with-immediacy-for-relative-ontological-completeness-by-

{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–

possibilities. Likewise, the dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} of a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} over a relative-ontologically-flawed attitude/mental-disposition/care–and–episteme\textsuperscript{5} is implied for prospective reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory–dementativity, as of overall human existential and technical emancipation. Basically, while attitude/mental-disposition/care–and–episteme\textsuperscript{5} implied with regards to both living-as-of-human-personality-developing and social-projection-institutional-orientations arises as of secondnaturing institutionalisation. However, attitude/mental-disposition/care–and–episteme\textsuperscript{5} specific instigating of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} is (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{28}–'projective-insights’/‘epistemic-projection-in-conflicatedness\textsuperscript{52}–of-notional–deprocrypticism\textsuperscript{17}–prospective-sublimation)\textsuperscript{98}) originary/event-of-prospective-ontology-origination as of humanity level intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation dementating/structuring/paradigmimg; inducing thereof social institutionalisation secondnaturing by way of deferential-formalisation-transference and percolation-channelling. Inherently, the very grounding of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} attitude/mental-disposition/care–and–episteme\textsuperscript{5} is beyond presencing—absolutising-identitive-

This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme\textsuperscript{\ref{not:ont Ngo 5}} underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme\textsuperscript{\ref{not:ont Ngo 5}} of a given institutionalisation’s reference-of-thought\textsuperscript{\ref{not:ont Ngo 83}} as of prospective relative-ontological-completeness\textsuperscript{\ref{not:ont Ngo 87}}-of-axiomatic-construct-or-reference-of-thought\textsuperscript{\ref{not:ont Ngo 83}} and thus its corresponding meaningfulness-and-teleology\textsuperscript{\ref{not:ont Ngo 9955}}, and the other doesn’t as of prior relative-ontological-incompleteness\textsuperscript{\ref{not:ont Ngo 88}}. This further explains why epistemic-breaks/epistemic-resetting
arise with the successive prospective institutionalisations in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5} of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology\textsuperscript{9955}, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework\textsuperscript{72} induced positive-opportunism\textsuperscript{75} as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology\textsuperscript{9955} while averting its denaturing\textsuperscript{15} by wrongly implying notional-contiguity/epistemic-contiguity\textsuperscript{61}—<profound-supererogation\textsuperscript{96}—of-mentally-aestheticised—postconverging/dialectical-thinking\textsuperscript{29}—qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—<shallow-supererogation\textsuperscript{96}—of-mentally-aestheticised—preconverging/dementing\textsuperscript{19}—qualia-schema> given the latter’s flawed de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83}. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory—de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} exercise
in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totallative-framework\textsuperscript{72}, and so beyond institutional-being-and-craft and social-aggregation-enabling $<\text{amplituding/formative}>$ wooden-language-(imbued—averaging-of-thought-$<\text{as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology}$\textsuperscript{9955)-as-of-$<\text{nondescript/ignorable–void}$\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>). Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}-\textasciitilde\textasciitilde-in-existential-extrication-as-of-existential-unthought\textsuperscript{6} denaturing\textsuperscript{15} of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955}, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity\textsuperscript{63} practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing\textsuperscript{15} predisposition. This is critically the case with registry-worldview/dimension reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology\textsuperscript{99}-\textasciitilde\textasciitilde-in-existential-extrication-as-of-existential-unthought\textsuperscript{6} prior relative-ontological-incompleteness\textsuperscript{88}-of-
reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’, in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’, in terms—as-of-axiomatic-construct of prospective nonpresencing.<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘dementatively/structurally/paradigmatically conflicted’, with prospective transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing ontological-prime movers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care—and—episteme’ are dementatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care—and—episteme reference-of-thought supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care—and—episteme reference-of-thought)
supererogatory~ acuity/perspicacity/astuteness/edginess/incisiveness~ of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument³) scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing¹⁰¹; as so reflected in their mutually beyond-the-consciousness-awareness-teleology⁹⁹.<in-existential-extrication-as-of-existential-unthought>⁶. This is equally reflected with regards to the prospective transcendence-and-sUBLIMITY/SUBLIMATION/Supererogatory~ De-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness¹³⁷⁹ attitude/mental-disposition/care—and—episteme⁵ as of its social-stake-contention-or-confliction while the very notion of perceiving highly the meaningfulness-and-teleology⁹⁹⁵⁵ within a prior institutionalisation framework is one that is necessarily apprehensive and shallowminded to the notion of a prospectively undermining prospective nonpresencing⁶⁹.<perspective—ontological-normalcy/postconvergence> sublimity/sUBLIMATION/Supererogatory~ De-mentativity episteme transcendence-and-attitude/mental-disposition/care—and—reference-of-thought⁸³ Supererogatory~ acuity/perspicacity/astuteness/edginess/incisiveness~ of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument³. In addition, the disruptive uninstitutionalised-threshold¹⁸² contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology⁹⁹.<in-existential-extrication-as-of-existential-unthought>⁶ institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sUBLIMITY/SUBLIMATION/Supererogatory~ De-mentativity meaningfulness-and-teleology⁹⁹⁵⁵ attitude/mental-disposition/care—and—episteme⁵. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-
notionalisation required as of the notional–conflicatedness\textsuperscript{12} of deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83}\textsuperscript{17} protensive-consciousness? ontological-bad-faith/inauthenticity\textsuperscript{63} as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold\textsuperscript{182} of the possibility of intellectually induced social universal-transparency\textsuperscript{184}–{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}}; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturin for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{66} of social <amplituding/formative>wooden-language-(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{995}–as-of–‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>) and untransvaluated–temporal-intemporality\textsuperscript{51} social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity\textsuperscript{63} contentions; by its deflating of the conception of ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955} as of human mortals contentions in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181}, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity\textsuperscript{63} as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, the articulation of meaningfulness-and-teleology\textsuperscript{9955} as of
prospective maximalising-recomposing—a for-relative-ontological-completeness—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresenting—perspective—ontological-normalcy/postconvergence of existence/intrinsic-reality/ontological-verbatim; with such intellectual-bad-faith rather advancing such an incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate—amplituding-formative—wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications> and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic pedantry/mandarinism that usurps the very notion of scepticism in incrementalism—in-relative-ontological—
incompleteness\textsuperscript{88}—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme\textsuperscript{5} usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}> implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme\textsuperscript{5} of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness\textsuperscript{87} of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening\textsuperscript{52}. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness\textsuperscript{87}, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness\textsuperscript{87}, ontological-bad-faith/inauthenticity\textsuperscript{63} scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-
ontological-completeness\textsuperscript{87} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications–for-explicating-ontological-contiguity\textsuperscript{6444} and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy–for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}, a perfidious ontological-bad-faith/inauthenticity\textsuperscript{63} scepticism involves eliciting a sense of immediacy and temporality\textsuperscript{98}/shortness as of <amplituding/formative> wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct–of–meaningfulness-and-teleology\textsuperscript{9955}–as-of–‘nondescript/ignorable–void\textsuperscript{93}–with-regards-to-prospective-apriorising-implications>) and untransvaluated–temporal-intemporality\textsuperscript{51} social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy–for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness\textsuperscript{87} as of preceding intemporal dispensing-with-immediacy–for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\textsuperscript{87}. ontological-bad-faith/inauthenticity\textsuperscript{63} ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness\textsuperscript{379} but of a poor conception outside the prospective relative-ontological-completeness\textsuperscript{87} behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework–

Essentially and constructively, all intellectualism as of their intemporal job description as emancipative is to relay in uninhibited/decomplexified terms—as-of-axiomatic-construct the blunt reality of the social as this is the very attitude/mental-disposition/care—and—episteme\(^{5}\) that empowers prospective social emancipation however socially unconvenient it may sound; and so beyond habitudated <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\). The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human

ontological-primemovers-totalitative-framework\textsuperscript{72} is as of intemporal solipsistic and intersolipsistic internalisation, construed as more fully articulating the notion of ontological-good-faith/authenticity\textsuperscript{68}, in reflecting such uninstitutionalised-threshold\textsuperscript{102} impracticable reasoning-from-results/afterthought attitude/mental-disposition/care–and–episteme\textsuperscript{5} explicitation of ontological-primemovers-totalitative-framework\textsuperscript{72} procedure of transversal-contention-for-determination-of-veridical-meaningfulness. The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality is rather about a ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’, but that reasoning-through/messianic-reasoning added transcendence-and-sublimity/sublimation/supererogatory–de-mentativity prospectively comes out short with the prospective reasoning-from-results/afterthought outcome, and so because of human limited-mentation-capacity at any moment. Thus human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven reasoning-through/messianic-reasoning holds the prospect for an ever renewal of reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} as of prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} undermining institutional-anchoring and logocentric complexes/denials/pedantry (in incrementalism\textsuperscript{58}–in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation) of such prospective transcendental possibilities. Such prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transformation for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{9955} is the reflection of a reality of human mental regeneration potential that speaks of the continuity of humankind as of the same relative-emancipatory potential as pertinently reflected with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of ‘intemporal

It should be noted as well that the afore is focused on the abstract reference-of-thought\textsuperscript{83}/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existentia

For instance, reflecting in an early hunter-gatherer society the ‘candid existential expressiveness’ of how one is suffering from bad omen on the backdrop of its ‘recurrent-utter-uninstitutionalisation totalising/circumscribing/delineating <amplituding/formative–epistemicity>reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}—différance/internal-dialectics/difference-deferral’ construed as disambiguation its uninstitutionalised-threshold\textsuperscript{102} meaningfulness-and-teleology\textsuperscript{995}. The uninstitutionalised-threshold\textsuperscript{102} as such, as of the reference-of-thought\textsuperscript{83} beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>,\textsuperscript{6} is the basis for determining both intemporal as well as temporal ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> specifically as of postlogism\textsuperscript{77}–slantedness/ignorance/affordability/opportunism/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}, so-disambiguated as of reference-of-thought\textsuperscript{83}–devolving\textsuperscript{84} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>. Insightfully, the foregoing points out that human meaningfulness-and-teleology is a metaphority of social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective that is fundamentally already an epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human-amplituding/formative—epistemicity-totalising—purview-of-construal’ with the shifts in human meaningfulness-and-teleology induced by human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness-of-reference-of-thought, such that human meaningfulness-and-teleology is not absolutely identitive but shifting as of <amplituding/formative—epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving—différance/internal-dialectics/difference-deferral, given that human limited-mentation-capacity-deepening is in a constant <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought of meaningfulness-and-teleology, with the implication that the ontological-performance-including-virtue-as-ontology of human meaningfulness-and-teleology as to sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence is fundamentally construable as of the developing scope of ‘the respective relative neuterising towards prospective deneuterising—referentialism. Such that in the final analysis, there is an underlying tendency of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of meaningfulness-and-teleology\textsuperscript{9955} as of ‘their relative neuterising\textsuperscript{57}’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of

The notion of beyond-the-consciousness-awareness-teleology\textsuperscript{99-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} also highlights theoretically why the Husserlian epoché or bracketing method construed as eidetic reduction is ontologically-flawed by its constitutedness\textsuperscript{13} as it naively imply circumscribing-as-‘epistemic-totality\textsuperscript{36}/delineating-as-‘epistemic-totality\textsuperscript{36}, meaningfulness-and-teleology\textsuperscript{9955} for its essence in presence, rather than the fact that presence reference-of-thought\textsuperscript{83} as ‘metaphysics-of-presence is de-mentatively/structurally/paradigmatically an ontologically-flawed bracketing or epoché as of ontological-normalcy/postconvergence, and is representing metaphysics-of-absence implications as nondescript/ignorable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19-narratives})’ when it comes to presence uninstitutionalised-threshold\textsuperscript{102} reference-of-thought\textsuperscript{83} in its relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62-<shallow-supererogation\textsuperscript{96-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19–qualia-schema>/relative-ontological-incompleteness\textsuperscript{88-of-reference-of-thought}\textsuperscript{83} for meaningfulness-and-ontology ontological-performance\textsuperscript{71-<including-virtue-as-ontology>, as well as ignoring prospective institutionalisation implications construed as of ontological-normalcy/postconvergence. Such an eidetic reduction is circularly constraint in <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} at its given registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} without factoring in the phenomenological implications of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-

The further insight here is that, such a most ontologically-complete profoundness/depth of ‘phenomenological transcendental-point-of-departure handle in-its-overcoming-of-neuterisation\textsuperscript{58} reflected by metaphysics-of-absence for the construal of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue points to a fundamental epistemic-break/epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{9955} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative–epistemicity>totalising–purview-of-construal’” as of the variance of uninstitutionalised-threshold\textsuperscript{102} prior relative-ontological-incompleteness\textsuperscript{88}—of-reference-of-thought\textsuperscript{83} and prospective institutionalisation relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83}. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} necessarily explains the ‘mutually
transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing\textsuperscript{101} unintelligibility’ of the Galileos, Newtons, Diderots
episteme articulating prospective positivising/rational-empiricism meaningfulness-and-
teleology\textsuperscript{9955} and the Establishment scholasticism medieval dogmatic episteme. The implication
here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory-
dementativity as of reference-of-thought\textsuperscript{83} is by itself tied up to a prospective epistemic
disruption, construed as of soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-
thought\textsuperscript{83}, beyond just grounded knowledge as of the prior episteme which is rather construed
as of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought\textsuperscript{83}. Such
transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-
notions/articulations/virtue to the full-potency of existence, and in the human
construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’
is not any involved humans as knowledge agents but inherent existential-reality itself, with any
such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to
existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to
existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-
recurrent credibility as of their knowledge methods and approaches’ with respect to social
universal-transparency\textsuperscript{104}.\langle\text{transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness}\textsuperscript{87}\rangle, an
apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-
teleology\textsuperscript{9955} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality,-as-to-'human<amplituding/formative-epistemicity>totalising~purview-of-
construal’’ arises as of institutional-being-and-craft. But then, where transcendental
implications as of prospective institutionalisation prospective relative-ontological-
completeness\textsuperscript{87} of reference of thought\textsuperscript{83} point to more profound reference of thought\textsuperscript{83} for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\textsuperscript{63} between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{9955} with regards to the very same immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human <amplituding/formative–epistemicity> totalising–purview-of-construal’’ with respect to social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing, as to entailing <amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness\textsuperscript{87}); and so more than just as of beyond-the-consciousness-awareness-teleology\textsuperscript{99} <in existential-extrication-as-of-existential-unthought>\textsuperscript{6}, but further because as of human-subpotency–aporia/undecidability/dilemma/ought–indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity> totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of human-subpotency–aporia/undecidability/dilemma/ought–indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods
of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology9955, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold82 actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology99.<in-existential-extrication-as-of-existential-unthought>6 undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology9955 ontological-performance71.<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology9955 ontological-performance71.<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-
going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{64}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9955} that prospectively construes of successive frameworks of ‘reference-of-thought\textsuperscript{83}—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated reference-of-thought\textsuperscript{83}—categorical-imperatives/axioms/registry-teleology\textsuperscript{998},-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9955} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue’ as of the specific institutionalisation, to ensure that human meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> will remain intemporal-as-ontological as of their reference-of-thought\textsuperscript{83}—categorical-

Thus the ontological effectiveness of such intemporal-projection as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9955} lies rather in undermining the existential possibility of the successive uninstitutionalised-threshold\textsuperscript{102}/uninstitutionalisations as of bringing about prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} driven by ontological-faith-notion-or-ontoligical-fideism thus inducing social universal-transparency\textsuperscript{104}. (transparency-of-totalising-entailing,–as-to-entailing–\textless amplituding/formative–epistemicity\textgreater totalising–in-relative-ontological-completeness\textsuperscript{87}) which renders untenable temporality\textsuperscript{98/shortness} as of the given uninstitutionalised-threshold\textsuperscript{102} instigated from the prior institutionalisation’s reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998} denaturing\textsuperscript{15}; as implied with base-institutionalisation prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} over recurrent-utter-uninstitutionalisation, universalisation prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} over universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism\textsuperscript{17} prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} over positivism–procrypticism\textsuperscript{90}. Such that we can garner that it is a
positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} social universal-transparency\textsuperscript{104} (transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness\textsuperscript{87} that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality\textsuperscript{98}. Likewise, prospectively it is a notional–deprocrypticism\textsuperscript{17} registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83} social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness\textsuperscript{87}) that can render it untenable for procrypticism\textsuperscript{80} temporal mental-dispositions to elicit procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{83}\textsuperscript{88} implied temporality\textsuperscript{98}. Thus aetiologisation/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as overcoming temporality\textsuperscript{98}/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness\textsuperscript{87} of-reference-of-thought\textsuperscript{83}. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold\textsuperscript{102} mental-dispositions imply that at the uninstitutionalised-threshold\textsuperscript{102} prospective institutionalisation knowledge as transcendentally-enabling/sublimating/supererogatory–de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating\textsuperscript{24}–\langle amplituding/formative\rangle supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise engaging with intemporal-as-ontological meaningfulness-and-teleology\textsuperscript{99\textsuperscript{5}}. Such prospective intemporal-as-ontological meaningfulness-and-teleology\textsuperscript{99\textsuperscript{5}} is not necessarily perceived at the
uninstitutionalised-threshold\textsuperscript{102} as any more pertinent for attaining social approbation than other
temporal meaningfulness-and-teleology\textsuperscript{9955} as of the said uninstitutionalised-threshold\textsuperscript{102}. This
point out that maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—
unenframed-conceptualisation mental-dispositions in their intemporality\textsuperscript{51}/longness or
longness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} are as of a projected-or-anticipated
conflatedness\textsuperscript{12} of social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing-, as-to-
entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-
completeness\textsuperscript{87}) for institutional and formal deferential-formalisation-transference as of
percolation-channelling. That is at the uninstitutionalised-threshold\textsuperscript{102} such intemporal-as-
ontological meaningfulness-and-teleology\textsuperscript{9955} is pragmatically expounded socially not in terms
of its inherent dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory-de-

which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct
of positive-opportunism\textsuperscript{75} as of institutional and formal deferential-formalisation-transference
percolation-channelling to attain social approbation. It is such a ‘conflatedness\textsuperscript{12}
structuring/paradigmatic secondnatured construct of positive-opportunism\textsuperscript{75} of institutional and
formal deferential-formalisation-transference as of percolation-channelling to attain social
approbation’ that holds together in social universal-transparency\textsuperscript{104}-(transparency-of-totalising-
entailing-, as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-
ontological-completeness\textsuperscript{87}) temporal-to-intemporal solipsistic mental-dispositions as of a given
secondnatured institutionalisation. Out of such a conflatedness\textsuperscript{12} structuring/paradigmatic
secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology\textsuperscript{9955} is not
necessarily perceived as any more pertinent for attaining social approbation than other temporal
meaningfulness-and-teleology\textsuperscript{9955}. In other words, the ideal articulation of base-
institutionalisation meaningfulness-and-teleology\textsuperscript{9955} in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism\textsuperscript{17} in positivism–procrypticism\textsuperscript{88}; are only pertinent for attaining social approbation as of their conflatedness\textsuperscript{12} structuring/paradigmatic secondnatured construct of positive-opportunism\textsuperscript{75} of institutional and formal deferential–formalisation-transference as of percolation-channelling. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness\textsuperscript{13} to engage a registry-worldview/dimension at its uninstitutionalised-threshold\textsuperscript{102} rather by an incrementalism\textsuperscript{58}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83} or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold\textsuperscript{102} a more complex but ontologically-veridical maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} or superseding metaphysical framework of contention as of conflatedness\textsuperscript{12}. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology\textsuperscript{9955} with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/resentment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of–‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>) in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology\textsuperscript{9955} and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the
defective superstitious <amplitudin/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{9955}-as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications}>) in the non-positivism social-setup. Ultimately, such a profound phenomenological <amplitudin/formative–epistemicity>totalising~conflated–meaningfulness-and-teleology\textsuperscript{9955}-as-of-notional–deprocrypticism\textsuperscript{17}–reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human <amplitudin/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplitudin/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with
hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} construal as implied with notional–notional–deprocrypticism\textsuperscript{17} as preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83} and so be able to keep their head up from drowning in human \textit{<amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34}} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human \textit{<amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34}} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71}–<including-virtue-as-
ontology> implies the need for a sound perpetuating construct of universal projection as intemporal-or-longness-of-register-of-meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimes presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-formative–epistemicity-totalising—in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility
capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the \(<\text{amplituding-formative-epistemicity}>\text{totalising-thrownness-in-existence}\) (I exist therefore existence is of transcendental-enabling/sublimating/superrgatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(<\text{including-virtue-as-ontology}\>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides \(<\text{amplituding-formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence
as of notional–notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-perceiving/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied here is with regards to reference-of-thought83/epistemic-totalisation level ‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to–‘human–amplituding/formative–epistemicity>totalising–purview-of-construal’ in epistemic-conflatedness12 as of underlying relative-ontological-incompleteness88 and relative-ontological-completeness87 reference-of-thought83. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory–de-mentativity rather as of ‘phenomenal-abtractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology9955 failing to factor in that ‘existential phenomenal-abtractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to–meaningfulness-and-teleology9955 all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology9955 to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is
consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology\(^{9955}\) in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening\(^{52}\) arising in further conflatedness\(^{12}\) as of human maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation in an exercise of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, and so as of a retrospective to prospective insight. Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a conflatedness\(^{12}\) and so construed from the perspective of <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology\(^{9955}\)-as-of-notional–deprocrypticism\(^{17}\)-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\), actually ended up inducing constitutedness\(^{13}\) in striving to construe meaningfulness-and-teleology\(^{9955}\) vaguely from phenomenal-abstractiveness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\). Consciousness as the enabling point-of-focus for ‘human-subpotency existential meaningfulness-and-teleology\(^{9955}\) ontological-peformance’ as of maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation induced apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights is actually the conflatedness\(^{12}\) point-of-focus that registers-as-of–meaningfulness-and-teleology\(^{9955}\) all human phenomenal-abstractiveness whether as derived from sense organs like eyes construed specifically as sight ontological-performance\(^{71}\)-<including-virtue-as-ontology>, the ear construed specifically as hearing ontological-

Put another way, consciousness as point-of-focus conflatedness\textsuperscript{12} of meaningfulness-and-teleology\textsuperscript{9955} is ‘operative of human-subpotency as of the coherence/contiguity-of-superseding–oneness-of-ontology-as-of-inherent-existence-coherence/contiguity’, so-implied with ‘explicited axiomatic-constructs’ construed as concepts/notions and ‘implicit axiomatic-constructs’ construed as intuitions/insights/foresights, and so correspondingly as of the explicited-focusing and
implicated-coherencing/contiguity as of a supposed living-being reflection of existential-instantiations and contextualisations in forming knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue; thus explaining by this ‘explicit-focused and implicated-coherencing/contiguity existential dynamics for producing knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’, the constitutedness\textsuperscript{13} of the Kantian understanding of concepts and intuitions as being mutually dependent for meaningfulness-and-teleology\textsuperscript{9955} articulation. In other words, constitutedness\textsuperscript{13} tend to fallaciously imply existence-in-existence or existence-of-things-in-existence whereas conflatedness\textsuperscript{12} rightly implies becoming-in-existence-rather-as-subsumed-in-existence or things-becoming-in-existence-rather-as-subsumed-in-existence as of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{65} as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{6644} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or ‘consciousness’s ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> construed in amalgamation as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’’. This notion of conflatedness\textsuperscript{12} construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness\textsuperscript{13} as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness\textsuperscript{13}. Rather existence—as-the-absolute-a-
incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}; as such a role is simply undertaken by conflatedness\textsuperscript{12} as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} and is rather construed then as of such prospective underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{65} as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{6644} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for appropriate meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}<-<including-virtue-as-ontology>. Such a conflatedness\textsuperscript{12} insight as of notional–notional–deprocrypticism\textsuperscript{17} rather points out that soundness-or-ontological-good-faith/authenticity\textsuperscript{68} of meaningfulness-and-teleology\textsuperscript{9955} ontological-performance\textsuperscript{71}<-<including-virtue-as-ontology> arises as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} involving the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} induced various consciousnesses up to the protensive-consciousness enabling transcendental centered–epistemic-totalisation, as of human limited-mentation-capacity-deepening\textsuperscript{52}. Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-teleology\textsuperscript{9955} as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation <amplituding/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology\textsuperscript{9955} reference-of-carries-and-reflects all the depth/profundness of existence/existential-possibilities’, thus not allowing for the
possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought\textsuperscript{83} determination; such reference-of-thought\textsuperscript{83} determination being affixed rather in constitutedness\textsuperscript{13} as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought\textsuperscript{83} such as ‘non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation’ not cognisant of the conflatedness\textsuperscript{12} possibility of prospective base-institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of base-institutionalisation–ununiversalisation’ not cognisant of the conflatedness\textsuperscript{12} possibility of prospective universalisation prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, ‘universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of universalisation–non-positivist/medievalism’ not cognisant of the conflatedness\textsuperscript{12} possibility of prospective positivism prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, and in our case ‘positivist/empiricism-based-universalisation-directed-rulemaking-over-non-rules— apriorising/axiomatising/referencing–psychologism of positivism–procrypticism\textsuperscript{89},’ not cognisant of the conflatedness\textsuperscript{12} possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955} as of prospective notional–deprocrypticism\textsuperscript{17} prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. Such that it thus construes as absolutely reflecting existence/existential-possibilities by operations of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} on the basis of that given determination reference-of-thought\textsuperscript{83}–
categorical-imperatives/axioms/registry-teleology\textsuperscript{998} with the consequence that its constitutedness\textsuperscript{13}, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the conflatedness\textsuperscript{12} of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought\textsuperscript{83}; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness\textsuperscript{12} of existence as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}, with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity\textsuperscript{66} and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness\textsuperscript{13}, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}-with-the-latter-only-a-bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening–limited-mentation-capacity,-as-as-limited-mentation-capacity-deepening\textsuperscript{52} due to inherent human temporality\textsuperscript{98}/shortness and intemporality\textsuperscript{51}/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} as of the notional–conflatedness\textsuperscript{12} of notional–notional–deprocrypsiticism\textsuperscript{17} behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold\textsuperscript{102} mental-dispositions. As highlighted before: consciousness is the point-of-focus <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology\textsuperscript{995}-as-of-notional–deprocrypsiticism\textsuperscript{17}-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, so-derived as it solipsistically constructs-and-reconstructs underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-
coherence/contiguity, and so construed as the enabler of insight or intuition or foresight as of embodied-consciousness’ (so enabled by underlying supposedly coherent ontological-commitment\textsuperscript{65} as of ontological-prime movers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity> causality as to projective-totalitative–implications, for explicating-ontological-contiguity\textsuperscript{6644} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and developing meaningfulness-and-teleology\textsuperscript{9955} as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the conflatedness\textsuperscript{32} of existential-instantiations successions as it construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicited and implicitied/intuited as of a living-being <amplituding/formative–epistemicity> totalising–conflated–meaningfulness-and-teleology\textsuperscript{9955} in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscore the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as of language development which is the ‘signifying mirroring’ of human meaningfulness-and-teleology\textsuperscript{9955}. The implication here is that meaningfulness-and-teleology\textsuperscript{9955} as of ‘existential self-referencing’ and ‘existential syncretising-effecting’ construed as <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} corresponds to language as of its ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct’ and its ‘metaphoricity\textsuperscript{56}’; in reflecting how human social-stake-contention-or-confliction induces human transcendence-as-of-full-transcendental-potential underlying knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-
intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications–for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality–as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening adhocly produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness of-reference-of-thought when conceptualising about such an ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity-signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’; and so as
of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <amplituding/formative-epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind
the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant \(<\text{amplituding/formative-epistemicity}>\) totalising/circumscribing/delineating construct of meaningfulness-and-teleology\(^{955}\). Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\(^{95}\) as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology\(^{955}\) as not self-referentially covered by the ‘underlying \(<\text{amplituding/formative-epistemicity}>\) totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity\(^{56}\)-significations to that prior ‘underlying \(<\text{amplituding/formative-epistemicity}>\) totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology\(^{955}\) and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-\(\text{<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}>\) is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freplay\(^{8}\) construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) as of difference-conflatedness\(^{12}\)-as-to-totalitative-reification\(^{86}\)-in-singularisation\(^{92}\)-as-veridical-epistemic-determinism\(^{21}\) \(<\text{amplituding/formative-epistemicity}>\) causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity\(^{6644}\) différance’, with regards to ‘human
species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{95} as of existential-stakes migration’, and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-dialectic in existential-contextualising-contiguity\textsuperscript{38}/Derridean-différance/Sartrean-existence-precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening\textsuperscript{52}. Such adjunctive-metaphoricity\textsuperscript{56}-significations conflatedness\textsuperscript{12} \textsuperscript{<amplituding/formative–epistemicity>}causality−as-to-projective-totalitative−implications,−for-explicating-ontological-contiguity\textsuperscript{6644} mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity\textsuperscript{56}-significations conflatedness\textsuperscript{12} induced ‘underlying \textsuperscript{<amplituding/formative–epistemicity>}totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\textsuperscript{56}-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying \textsuperscript{<amplituding/formative–epistemicity>}totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity\textsuperscript{56} where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful
utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along
existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. metaphoricity\textsuperscript{56} is thus rather construed as of its overall conflatedness\textsuperscript{12} <amplituding-formative-epistemicity>-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6644} of full consciousness development as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955} underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{95}, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology\textsuperscript{9955} as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective rhetorical-stylistic-semantic delivery, and as such metaphoricity\textsuperscript{56} induces <amplituding-formative-epistemicity>-totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2}, ‘underlying <amplituding-formative-epistemicity>-totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity\textsuperscript{56}-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity\textsuperscript{56}-
significations conflatedness\textsuperscript{12} reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity\textsuperscript{66}-significations conflatedness\textsuperscript{12} as of syncretising-effecting as ultimately converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{337} and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différence-freeplay\textsuperscript{2} construed as différence in conflatedness\textsuperscript{32}\textsuperscript{2} associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différence-freeplay\textsuperscript{2} as underlying human limited-mentation-capacity induced différence highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-
complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–to-totalitative-reification\textsuperscript{86}–insingularisation\textsuperscript{92}–as-veridical-epistemic-determinism\textsuperscript{21} \textit{amplituding/formative–epistemicity} causality–as-to-projective-totalitative–implications.–for-explicating-ontological-contiguity\textsuperscript{66}\textsuperscript{44} as successive transcendental outcomes, so reflected by the historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}; this doesn’t reflect an inherent diffèreance operant phenomenological process reality. Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} as of transversality-of-affirmative-and-unaffirmative–disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} of various temporal-to-intemporal perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider
in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\) as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{2}\) is not only about the successive \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^{33}\)\) as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’\(^{7}\) as of their prospective relative-ontological-completeness\(^{87}\)/relative-ontological-contiguity\(^{66}\) as axiomatic-constructs of ‘the very same physics \(<\text{amplituding/formative-epistemicity}>\text{totalising-devolved-purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality}\), but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^{33}\)\) construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\) of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality\(^{98}\)/misconstrual and intemporality\(^{51}\)-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{2}\) involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising\(^{16}\)—referentialism and thus beyond neuterising\(^{57}\), reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising\(^{23}\) of the uninstitutionalised-threshold\(^{402}\) and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality\(^{51}\)-as-ontology but involves grasping this together with the implications of temporality\(^{98}\), and so because of the
circular existential implications of human limited-mentation-capacity. Hence language can be
more pertinently construed ontologically as of the social dynamics of existential
meaningfulness-and-teleology$^{9955}$ signification than just as of just an outcome privileged
institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc
and phenomenologically uninsightful as of the many existential implications behind
comprehending language. Thus human privileged social and institutional end-purpose
perspective/framing/reference/horizon tend to be in constitutedness$^{13}$. Further such accreting-
 substitutive-subsumption-as-futural-différerence-freeplay$^2$ is the existentially veridical and
effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing$^{45}$
transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as
of existentially insightful meaningfulness-and-teleology$^{9955}$. Such a perspective should possibly
usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations
for breaking out of currently perceived subject-matter doldrums as implied with postmodern
social sciences, postmodern humanities, postmodern art, postmodern science, postmodern
mathematics and postmodern physics, and so notwithstanding a history of post-structuralism
critiques of ontological-bad-faith/inauthenticity$^{63}$ ‘with moronic incantations that fail the mark
of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of
their beyond-the-consciousness-awareness-teleology$^{99}$<in-existential-extrication-as-of-
existential-unthought>;$^6$; as such a statement is not gratuitous given the mere fact that where
knowledge-as-of-organic-knowledge as of human intemporality$^{51}$/longness doesn’t take its due
place, it is occupied by ignorance as of human temporality$^{98}$/shortness with consequent
nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-
just as the adjunctive-metaphoricity$^{56}$-signification instigation of positivistic rationality as a
potent construct took the form of a centered–epistemic-totalisation permeating all aspects and
subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity\textsuperscript{56}-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness\textsuperscript{12} of notional~notional~deprocrypticism\textsuperscript{17} deneuterising\textsuperscript{16}—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différerance-freeplay\textsuperscript{2} and is the maximal ontologically veridical articulation of conflatedness\textsuperscript{12} that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity\textsuperscript{66} or difference-of-kind’ disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness\textsuperscript{1379} privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. While the ‘Derridean quasi-transcendental-freeplay différerance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness\textsuperscript{12}, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différerance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différerance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}
implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’, as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative-epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing—or—withdrawal—or—metaphysics-of-absence—or—transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-constitutedness and nonpresencing (rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so
transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity\(^{62}\)-shallow-supererogation\(^{96}\)-mentally-aestheticised-preconverging/dementing\(^{19}\)-qualia-schema> between the two as of their distinct \(\text{supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-}
\text{apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument}\(^{3}\). Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{2}\) is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-

<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean
quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences
with respect to presencing—absolutising-identitive-constitutedness\(^{1379}\) since it is reflected with
the Glas experimental project, but it fails to recognise the possibility of a futural différance

normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> in its nonpresencing\[^{68}\] as perspective-ontological-normalcy/postconvergence, and so beyond just a Derridean freestyle différance which is then in constitutedness\[^{13}\] as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Insightfully, we can grasp that the Derridean freestyle différance becomes as of constitutedness\[^{13}\] because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freestyle to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\[^{96}\] as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. So because at the point of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-sigrifer of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\[^{96}\] as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> and not make any determination priorly, even as of freestyle. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\[^{96}\] as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing
reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding-formative-epistemicity>totalising-renewing-realisation/re-perception/re-
thought-, in supererogatory-epistemic-conflatedness as validatable by ontological-
primemovers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-
fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-
of-existential-reality as ‘hunch’ is a transversality-of-affirmative-and-unaffirmative-
disambiguated-apriorising/axiomatising/referencing depth of reasoning and perspective
which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-
supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is
more than just imagination which rather comes prior to and is exhausted-and-superseded-by-
reasoning. Such a lack of prior certitude explains why transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity ‘are not really reasoned-out’ but rather
discovered-as-divulged by existence, with the human-subpotency concern being one of
adopting the right attitude/mental-disposition/care—and—episteme that allows existence-as-full-
potency to come up with the divulgation. Ontological-faith-notion-or-ontological-fideism—
imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality as such is equally the basis for implying a correspondence theory of human
thought and reality, as not really arising as of any instantative absolute correspondence but
rather as of the ‘promise of prospective human ontological-completeness-of-reference-of-
thought implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-
reality as of nonpresencing\textsuperscript{68} in continually opening-up ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human-amplituding/formative–epistemicity>totalising–purview-of-construal’, and so-reflected in the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}. It should be noted that reasoning-as-intelligibility rather harkens back to a given ‘registry-worldview’s/dimension’s reference-of-thought\textsuperscript{83} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} established existential–epistemic-totalisation-of–meaningfulness-and-teleology\textsuperscript{9955}, to which it tends to be engaged with in an incrementalism\textsuperscript{58}—in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation reflex as of elaboration–as-mere-extrapolating/constituting/abstracting/deducing/inferring–of-elucidation–outside-existential-contextualising-contiguity\textsuperscript{38}. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism\textsuperscript{88} mindset. The question can thus be asked is there more profound meaningfulness–and–teleology\textsuperscript{9955} beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori–of-conceptualisation–and–existence—as-sublimating-withdrawal,–eliciting–of-prospective–supererogation\textsuperscript{96}.<as-to–perspective–ontological-normalcy/postconvergence–implied–‘prospective–aporeticism–overcoming/unovercoming’>? It is herein that we get into the realm of ontological-faith-notion–or–ontological–fideism—imbued-underdetermination–of-apriorising/axiomatising/referencing–as-so–being–as–of–existential-reality as of de–mentation–(supererogatory–ontological–de–mentation–or–dialectical–de–mentation—stranding–or–attributive–dialectics)\textsuperscript{14} inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words,
under sufficient constraint of existence/existential-reality-itself given its absolute a priori status, as reflected by ontological-primemovers-totalitative-framework\textsuperscript{72}/contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’\textquotesingle s/dimension\textquotesingle s reference-of-thought\textsuperscript{83} \textless amplituding/formative-epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} established existential–epistemic-totalisation-of–meaningfulness-and-teleology\textsuperscript{9955}, as of a reconstrual of reference-of-thought\textsuperscript{83} and devolving-axiomatic-constructs implications, and so as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation. This insight about ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality further reveals that prospective nonpresencing\textsuperscript{68}–\textless perspective–ontological-normalcy/postconvergence\textgreater implies prospective renewal of attitude/mental-disposition/care–and–episteme\textsuperscript{5}, as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring–\textless as-to-postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism\textgreater and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–\textless as-to-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism\textgreater respectively as of prospective relative-ontological-completeness\textsuperscript{87}–of-axiomatic-construct-or-reference-of-thought\textsuperscript{83} and prior relative-ontological-incompleteness\textsuperscript{88}. In this regard we can imagine as of \textquoteleft the very same physics \textless amplituding/formative–epistemicity\textgreater totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality\textquoteright, the strange feeling upon physicists wedded to \textquoteleft traditional classical mechanics axiomatic-construct\textquoteright with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-
constructs maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} developments in physics since then, even though its meaningfulness-and-teleology\textsuperscript{9955} remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme\textsuperscript{5} from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme\textsuperscript{5} implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought\textsuperscript{83} transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme\textsuperscript{5} transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology\textsuperscript{99}-'in-existential-extrication-as-of-existential-unthought'>\textsuperscript{6}. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme\textsuperscript{5} renewal manifestation as of the social collective
evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance\(^{71}\)-<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care—and—episteme\(^{5}\) of dual-language/split-mentality as of <amplituding/formative—epistemicity>totalising—thrownness-in-existence\(^{34}\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^{71}\)-<including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care—and—episteme\(^{5}\) of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought\(^{3317}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\(^{5}\) as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and—episteme\(^{5}\) renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as
of underlying human beyond-the-consciousness-awareness-teleology<in-existential-
extrication-as-of-existential-unthought>, that reflects a human tacit awareness that the
 grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given
moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–
episteme for more profound-and-complete meaningfulness-and-teleology. While such an
inclination is more forthcoming as of less profound-and-perceived personal existential
implications with regards to the axiomatic-constructs within a reference-of-thought as
articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically
implied at the phenomenological depth of reference-of-thought
transcendental conceptualisation this turns out to be much more difficult to countenance given individuals
‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a
given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
established existential–epistemic-totalisation-of–meaningfulness-and-teleology, as well as
the ‘psychological comfort’ habituated at the given neuterising. But then every registry-
worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology
as of full/complete human consciousness implications as implied by its protensive-
consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-
consciousness-awareness-teleology⁹⁹-<in-existential-extrication-as-of-existential-unthought>⁶ arising as of human prior relative-ontological-incompleteness⁸⁸-of-reference-of-thought⁸³. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness¹² implication with respect to existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness¹² is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing⁶⁰-<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness¹² relative-ontological-completeness⁸⁷ of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness⁸⁷-of-axiomatic-construct-or-reference-of-thought⁸³ <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity⁶⁶⁴⁴ for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or-ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology⁹⁹⁵⁵ grounding as always prospective as of prospective relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³; and so, as of the successive base-institutionalisation, universalisation, positivism and notional-deprocrypticism¹⁷ registry-worldviews/dimensions nonpresencing⁶⁸-
respectively as successive meaningfulness-and-teleology\textsuperscript{9955} grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation-non-positivism/medievalism, and positivism–procrypticism\textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{1379}. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought\textsuperscript{83} are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism\textsuperscript{80} as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{9955}. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} as of its prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}, our positivism–procrypticism\textsuperscript{80} is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior nonpresencing\textsuperscript{68–}<perspective–ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold\textsuperscript{102} despite its notional-discontiguity/epistemic-discontiguity\textsuperscript{62–}<shallow-supererogation\textsuperscript{96}–of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising\textsuperscript{57} as it fails to construe of meaningfulness-and-teleology\textsuperscript{9955} projectively as of prospective existence-potency–sublimating–nascence–disclosed–from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, in–supererogatory–epistemic-conflicatedness\textsuperscript{12} relative-ontological-completeness\textsuperscript{87} of apriorising/axiomatising/referencing. The implied maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation notion also underscores the
postmodern conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} with regards to any <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, as fundamentally driven as to existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supercerogatory-epistemic-conflatedness\textsuperscript{32} as so validatable by their ontological-primemovers-totalitative-framework\textsuperscript{72}. Hence it is ‘more real in its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} understood as a double-gesture reification\textsuperscript{86} for prospective relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct-or-reference-of-thought\textsuperscript{83} by its maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation as to existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supercerogatory-epistemic-conflatedness\textsuperscript{32} than any other prior non-constructed meaningfulness-and-teleology\textsuperscript{9955} simply because of the profoundness of its phenomenological depth of projection/anticipation in the quest for ontological-primemovers-totalitative-framework\textsuperscript{72} validation, which ordinary <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955} as-of-‘nondescript/ignorable–void\textsuperscript{159}–with-regards-to-prospective-apriorising-implications>) doesn’t even bother contemplating about by its incrementalism\textsuperscript{50} in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} as of existence’s presencing—absolutising-identitive-constitutedness\textsuperscript{1379}. This social knowledge human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation⁹²⁴⁷ insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought⁸³, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation⁹²⁴⁷. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness⁸⁸-of-reference-of-thought⁸³. It is human limited-mentation-capacity-deepening⁵² as of prospective relative-ontological-completeness⁸⁷-of-reference-of-thought⁸³ as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation⁹²⁴⁷ exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework⁷² by existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression—as-of-<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought—in—supererogatory—epistemic-conflatedness¹²; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening⁵²
for human emancipation. Thus implying existence-potency~sublimating~nascence,-disclosed-

whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation\textsuperscript{9247} as of human limited-mentation-
capacity-deepening\textsuperscript{52} bringing about a more profound and complete grounding for human
construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The
postmodern insight here is rather that what is relevant to humankind is human-subpotency
development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the
notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-
towards-singularisation\textsuperscript{9247} has nothing to do with the inherent nature of existence/intrinsic-
reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-
emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247}, of
human limited-mentation-capacity which needs to be deepened before humankind embarks on
the task of ‘conceptualising meaningfulness-and-teleology\textsuperscript{9955} that increasingly reflects
existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more
objective meaningfulness-and-teleology\textsuperscript{9955}, as we cannot argue that the theory-of-relativity-
together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-
mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-
driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} that led to human limited-mentation-capacity-deepening\textsuperscript{52}. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct-or-reference-of-thought\textsuperscript{83} that brings about greater objectivity, as reflected in the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} behind Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{9955}. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal \textls{\textless amplitude/formative–epistemicity\textgreater }totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology\textsuperscript{9955}; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology\textsuperscript{9955}. This paradox for human knowledge, as implied with the postmodern double-gesture reification\textsuperscript{86}, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} limited-mentation-capacity-deepening\textsuperscript{52} to see it. This fundamentally underlies the idea of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/‘reference-of-thought’—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness of-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness of-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism
over the modern take as prospectively decentered-as-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-verification-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83} by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{24,7} as of human-subpotency existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12,4}, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}> necessarily subject to ontological-bad-faith/inauthenticity\textsuperscript{63} as of the modern’s take prospective uninstitutionalised-threshold\textsuperscript{48,2} of procrypticism\textsuperscript{80} or disjointedness—as-of-reference-of-thought\textsuperscript{83} in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness\textsuperscript{87} re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{28}–‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12,1}–of-notional–deprocrypticism\textsuperscript{17}–prospective-sublimation)\textsuperscript{90} appraisal of human narratives as to dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ thus implying rather a notional–deprocrypticism\textsuperscript{17} institutionalisation

dialectical-thinking apriorising-psychologism; as the point of assertion of postmodern-
thought as deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is
actually a point of prospective de-mentation—(supererogatory–ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the
fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of
constructivism, relativism and deconstruction are rather ontologically-veridical
observations/remarks/‘constatations’ about the conception of social reality from their authentic
analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise
constructivism, relativism and deconstruction beyond their implied ontologically-veridical
observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with
the implications that their stances are open-ended and receptive to the elucidative justifications
for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the
constructivism, relativism and deconstruction manifestation/conception of social reality. Thus
the ontologically affirmatory position adopted herein as of the prospective ‘postmodern
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme⁵, is mostly about dismissing the prior relative-ontological-incompleteness⁸⁸-of-reference-of-thought⁸³ as when a critique of notional-discontiguity/epistemic-discontiguity⁶²—<shallow-supererogation⁹⁶-of-mentally-aestheticised–preconverging/dementing¹⁹—qualia-schema> exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology⁹⁹—<in-existential-extrication-as-of-existential-unthought>⁶. Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency¹⁰⁴—{transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness⁸⁷} as of overall underlying human ontological-commitment⁶⁵ as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation⁹⁶ for relative-ontological-completeness⁸⁷; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought⁸³¹⁷ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme⁵’ to articulate its full-fledged discourse as of universal-transparency¹⁰⁴—{transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness⁸⁷} as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted
representation of postmodern-thought. The reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\textsuperscript{51}, at the uninstitutionalised-threshold\textsuperscript{102}, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72} is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold\textsuperscript{102} cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}'. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72} of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology\textsuperscript{9955} of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}'. Such ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72} was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\textsuperscript{102} as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-
primemovers-totalitative-framework\textsuperscript{72,*} is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}. However, at its uninstitutionalised-threshold\textsuperscript{102} the prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72,*} as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84} will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold\textsuperscript{102}, and so as of mutually beyond-the-consciousness-awareness-teleology\textsuperscript{99}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness\textsuperscript{87}. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72,*} as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955} of

its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought<sup>83</sup>-devolving<sup>84</sup>, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold<sup>102</sup> as external/prospective reference-of-thought<sup>83</sup>–categorical-imperatives/axioms/registry-teleology<sup>998</sup>, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology<sup>9955</sup> of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought<sup>83</sup>-devolving<sup>84</sup>, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework<sup>72</sup>’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism<sup>75</sup> that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking<sup>28</sup>–projective-insights’/epistemic-projection-in-conflatedness<sup>12</sup>–of-notional–deprocrypticism<sup>17</sup>–prospective-sublimation<sup>98</sup>) originary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words,
human dimensionality-of-sublimating\textsuperscript{24}—\langle\textit{amplituding/formative}\rangle supererogatory—de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology\textsuperscript{9955} superseding uninstitutionalised-threshold\textsuperscript{982} do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ de-mentating/structuring/paradigming of ‘reference-of-thought’\textsuperscript{83—}}
categorical-imperatives/axioms/registry-teleology\textsuperscript{998}, for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9955}, as of successive prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83}. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-prime movers-totalitative-framework\textsuperscript{72}’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-prime movers-totalitative-framework\textsuperscript{72}’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} supersedes the prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought\textsuperscript{83}, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-prime movers-totalitative-framework\textsuperscript{72}, ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination
turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance⁷¹-<including-virtue-as-ontology> of any ‘reference-of-thought⁸³–categorical-imperatives/axioms/registry-teleology⁹⁹,,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology⁹⁹⁵⁵,'. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought⁸³¹⁷ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme⁵’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology⁹⁹-<in-existential-extrication-as-of-existential-unthought>⁶ in terms—as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme⁵’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought⁸³¹⁷ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme⁵’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme⁵, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme⁵ organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care–and–episteme⁵. In this regard, attitude/mental-disposition/care–and–episteme⁵ is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{317} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\textsuperscript{5} should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83} requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating—as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\textsuperscript{5}’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{9247} as of human existential-contextualising-contiguity\textsuperscript{38}; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}> necessarily subject to ontological-bad-faith/inauthenticity\textsuperscript{63} as of the modern’s take prospective uninstitutionalised-threshold\textsuperscript{102} of procrypticism\textsuperscript{90} or disjointedness—as-of-reference-of-thought\textsuperscript{83} in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness\textsuperscript{87} re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—{imbued-}

The ‘postmodern deprocrypticism—or—preempting—disjointedness—as—of-reference—of—thought⁸³¹⁷ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme⁵’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern—thought as to human—subject—emancipatory—relativism—driven—recomposuring—constructivism—towards—singularisation⁹²⁴⁷ is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human—subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited—mentation—capacity—deepening⁵². We can garner insight about how we tend to misconstrue any attitude/mental-disposition/care—and—episteme⁵ that is different from our own ‘present attitude/mental-disposition/care—and—episteme⁵’, whether it is a ‘prior/old/superseded attitude/mental-disposition/care—and—episteme⁵’, or a ‘prospective/new/superseding attitude/mental-disposition/care—and—episteme⁵’. For instance, in the previous articulation of the existential-contextualising-contiguity³⁸—lowest-level-reification⁸⁶ perceptivity—as—of—bad—
attitude/mental-disposition/care–and–episteme\textsuperscript{5} referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness\textsuperscript{87}-and-incompleteness-of-reference-of-thought\textsuperscript{83} doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology\textsuperscript{9955} between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme\textsuperscript{5}; and so, as the framework of any subsequent cultural diffusion metaphoricity\textsuperscript{56}. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme\textsuperscript{5}, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme\textsuperscript{5} as ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181},’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology\textsuperscript{9955},’ as of their given neuterising\textsuperscript{57}-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought\textsuperscript{83} if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme\textsuperscript{5},’ or deneuterising\textsuperscript{16}-as-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought\textsuperscript{83} if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme\textsuperscript{5},’ whilst the ‘present attitude/mental-disposition/care–and–episteme\textsuperscript{5},’ is then rather adhocly-and-scantily identified now as either deneuterising\textsuperscript{16} if it in relation to the prior/old/superseded or neuterising\textsuperscript{57} if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of
attitude/mental-disposition/care–and–episteme⁵ means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought⁸³¹⁷ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme⁵’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme⁵’.

This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of-meaningfulness-and-teleology and intemporal/longness-of-register-of-meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation prospective relative-ontological-completeness and uninstitutionalised-threshold prior relative-ontological-incompleteness. This departs from the ‘modern take attitude/mental-disposition/care—and—episteme’, which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-
so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66} of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{32} as-to-totalitative-reification\textsuperscript{86} insingularisation\textsuperscript{92} as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative-epistemicity> causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6444} as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} and is rather caught up, beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-existential-extrication-as-of-existential-uthought>\textsuperscript{6}, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness\textsuperscript{88} of-reference-of-thought\textsuperscript{83}, such that the latter is construed as not having its own uninstitutionalised-threshold\textsuperscript{102} which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{102}. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative-epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} untransvaluated–temporal-intemporal\textsuperscript{51} at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{102}, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold\textsuperscript{102} pointing to its prior relative-ontological-incompleteness\textsuperscript{88} of-reference-of-thought\textsuperscript{83}. Thus, the manifestations of temporality\textsuperscript{98}/shortness at its unrecognised ontologically-veridical
uninstitutionalised-threshold\textsuperscript{102} are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{9955} posture in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, rather than a recognition of it prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought\textsuperscript{83}, implying recognising its uninstitutionalised-threshold\textsuperscript{102} with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-teleology\textsuperscript{9955} towards intemporality\textsuperscript{51}/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-verbatimness–as-to–human<amplituding/formative–epistemicity>totalising–purview-of-construal’, the ‘postmodern deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold\textsuperscript{102} is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality\textsuperscript{98}/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought\textsuperscript{83}; and so beyond just <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–
episteme$^5$ very much inclined to aberrational/oddities conceptioning of such temporality$^{98}$/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme$^5$’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality$^{98}$/shortness as of the vices-and-impediments$^{105}$ at its uninstitutionalised-threshold$^{102}$. So because its <$\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}^{33}$ is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology$^{9955}$ as of procrypticism–or–disjointedness-as-of-reference-of-thought$^{8380}$ from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness$^{97}$-of-reference-of-thought$^{83}$ postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology$^{9955}$ of value-construct and value-reference at the procrypticism$^{80}$ uninstitutionalisation. Such prospective change as of de-mentation–{$\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}}^{14}$ of attitude/mental-disposition/care–and–episteme$^5$ can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument attitude/mental-disposition/care–and–episteme$^5$ which from our modern take attitude/mental-disposition/care–and–episteme$^5$ we rather construe as vague scholastic pedantic dogmatism with regards to budding-positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism.

This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing—

<perspective—ontological-normalcy/postconvergence>; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the
‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology\textsuperscript{9955} weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism—or—preempting—disjoinedness-as-of-reference-of-thought\textsuperscript{8317} prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought\textsuperscript{83}. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied meaningfulness-and-teleology\textsuperscript{9955}, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness\textsuperscript{1379} consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity\textsuperscript{56} of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955}. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjoinedness-as-of-reference-of-thought\textsuperscript{8317} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\textsuperscript{5}’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness\textsuperscript{1379} consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity\textsuperscript{56} for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism\textsuperscript{17} institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955}. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme\textsuperscript{5} is ontologically
validated as of its prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought\textsuperscript{83}, divulging the \textit{amplituding/formative--epistemicity\textsubscript{totalising--self-referring}

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory--de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity\textsuperscript{56} for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework\textsuperscript{72} and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity\textsuperscript{56} reinvigoration as of the overall renewal of ‘the very same physics \textit{amplituding/formative--epistemicity\textsubscript{totalising--devolved---purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’}. It should be noted that such metaphoricity\textsuperscript{56} rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{86} organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology\textsuperscript{9955}, which in its prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought\textsuperscript{83} is ‘a dimensionality-of-sublimating\textsuperscript{24}—

These induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} and so as of prospective projection as implied with the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity\textsuperscript{68}. In this regards, we can appreciate that all human meaningfulness-and-teleology\textsuperscript{9955} arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance\textsuperscript{71}-⟨including-virtue-as-ontology⟩. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the
ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-\textsuperscript{995}-as-of-‘nondescript/ignorable–void\textsuperscript{99}-with-regards-to-prospective-apriorising-implications>)\rangle); pointing to the centrality of originariness-parrhesia,—as–spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-

specifically had to face up respectively with the value-construct conception of their

universalising\textsuperscript{103}-idealisation meaningfulness-and-teleology\textsuperscript{9955} infrastructure of the Socratic
philosophers and their successors as providing the appropriate meaningfulness-and-
teleology\textsuperscript{9955} infrastructure for the Roman Empire and subsequent religio-political
developments unlike the case with say Ancient Egypt and Persia whose non-universalising
sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their
technical advancement, and likewise Western enlightenment effectively arose as of the induced
meaningfulness-and-teleology\textsuperscript{9955} infrastructure of budding-positivists, with perverted
consequences like annihilation of Native Indians in the New World and the Transatlantic
slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology\textsuperscript{9955} infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as \langle\text{amplituding/formative-epistemicity}\rangle causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{6644} in reflecting holographically-\langle\text{conjugatively-and-transfusively}\rangle the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} anamnesis as of difference-conflicatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21} underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a \langle\text{amplituding/formative}\rangle wooden-language-\langle\text{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}\textsuperscript{9955}-as-of—nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications\rangle\textsuperscript{732}} in reflecting holographically-\langle\text{conjugatively-and-transfusively}\rangle the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} anamnesis as of difference-conflicatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation\textsuperscript{92}-as-veridical-epistemic-determinism\textsuperscript{21} underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a \langle\text{amplituding/formative-epistemicity}\rangle totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness\textsuperscript{1379}-of—meaningfulness-and-teleology\textsuperscript{9955} and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism\textsuperscript{89}) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose
perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment\textsuperscript{65} and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplifying/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{66,44} comparison to the overall social and
virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity,

as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for-recurring-wealth-accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness

is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing

notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment
to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-
justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusiveness warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional–notional–deprocrypticism or appropriate foregrounding—entailment (postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation—<unforegrounding—disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’> of our rational-empiricism/positivism occlusiveness in its wooden-language (imbued—averaging-of-thought—<as-to-leveling/resentiment/closed-construct-of—meaningfulness-and-teleology as-of—‘nondescript/ignorable—void —with-regards-to-prospective-apriorising-implications>) tend to rather reflect our <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag.

The occlusiveness of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable—void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-
veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and excluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drug complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance—including-virtue-as-ontology> dynamics of temporal-to-intemporal-dispositions’). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation inducing its deficient ontological-performance—including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} is critically of dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemic/anamnestic-residuality/sprit-drivenness–equalisation psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} to supersede human temporality\textsuperscript{98}/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{99} as-of-‘nondescript/ignorable–void\textsuperscript{59} -with-regards-to-prospective-apriorising-implications>}) as of successive human construction-of-the-Self as from based animality to trepidatious–self-consciousness, warped–self-consciousness, preclusive–self-consciousness, occlusive–self-consciousness and prospectively protensive–self-consciousness. Thus human limited-mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup universal-transparency\textsuperscript{104}–{transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completteness\textsuperscript{87}) of supposedly coherent ontological-commitment\textsuperscript{65} with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such universal-transparency\textsuperscript{104}–{transparency-of-totalising-
<amplitudin̄g/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness as to the ontological-normalcy/postconvergence-projective-perspective, to which latter human-subpotency-projectively-conflates to in order to overcome our prospective-epistemic-abnormalcy/preconvergence required prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension construction-of-
the-Self (as of notional-deprocrypticism protensive–self-consciousness over our procrypticism–or–disjointedness-as-of-reference-of-thought occlusive–self-consciousness social–value-construction induced dilemmas). Basically, as highlighted above such a transvaluation knowledge-reification of social–value-construction reflects the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness registry-worldview’s/dimension’s–reference-of-thought for-social-functioning-and-accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment, pointing to the ontological-veracity of a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’. This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness’ ontologically-flawed de-mentating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> so-reflected as of <amplituding/formative>formative–epistemicity>totalisingly–preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence
of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought\textsuperscript{83}-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human \textless amplituding/formative–epistemicity\textgreater totalising–thrownness-in-existence\textsuperscript{34} as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}-\textless imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation\textgreater ’; and so, as it applies to human knowledge-reification\textsuperscript{86} and empowerment from such knowledge-reification\textsuperscript{86} within existence as this defines human ontological-performance\textsuperscript{71}-\textless including-virtue-as-ontology\textgreater reflected as of constructiveness-of-ontological-performance\textsuperscript{71}-\textless including-virtue-as-ontology\textgreater and destructuring-threshold-{uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{71}-\textless including-virtue-as-ontology\textgreater. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human \textless amplituding/formative–epistemicity\textgreater totalising–thrownness-in-existence\textsuperscript{34} is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} within which the notion of human sovereignty and free-will then arises in the very first place; such that
in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance (reflected as of constructiveness-of-ontological-performance and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance.) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and then ‘the individual dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sUBLImating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporetic-ism-overcoming/unovercoming’> reflected in <amplituding/formative>formative–epistemicity>totalisingly–preceding-and-redefining-existent-contextualising-contiguity implications upon human sovereignty and free-will’

eventfulness/ontological-aesthetic-tracing\textsuperscript{45}, even as of poor ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> of social–value-construction so-construed as destructuring-threshold–(uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating-decisionality)—of-ontological-performance\textsuperscript{71}—<including-virtue-as-ontology>, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment\textsuperscript{65}, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment\textsuperscript{65} that gives the teleological orientation of human meaningfulness-and-teleology\textsuperscript{9955} in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, as it then exposes human meaningfulness-and-teleology\textsuperscript{9955} as of human limited-mentation-capacity-deepening\textsuperscript{52} to the prospective constraint to be as supposedly coherent ontological-commitment\textsuperscript{65} thus inducing the possibility for prospective transcendence-and-sublimity/sublimation/suberogatory-de-mentativity when its any given meaningfulness-and-teleology\textsuperscript{9955} is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening\textsuperscript{52}. Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness\textsuperscript{87} as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} dimensionality–of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory-de-mentativity/epistemic-growth-or-conflatedness\textsuperscript{12}/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–insingularisation\textsuperscript{92}–as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-explicating-ontological–

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s2 rather than the existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-

psychologism\textsuperscript{89} is of high notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–shallow-supererogation\textsuperscript{96}–of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> explaining the unintelligibility of the explanation of epiphenomena as contrasted crossgenerationally with various superstitious beliefs in the past compared with modern day science epiphenomenal explanations (for instance with the appraisal of ‘health epiphenomena of existence’ as of historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} ranging from perceptivity-as-of-bad-omen, perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period, perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-socioeconomic,-hermeneutically-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of ‘overall existence phenomenal appraisal of meaningfulness-and-teleology\textsuperscript{9955}, as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness\textsuperscript{12}) appraisal of meaningfulness-and-teleology\textsuperscript{9955}, especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the
natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification\(^8\)’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification\(^8\) interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’.

However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification\(^8\) is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—<as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness\(^\text{12}\)—as-to-the-ontological-normalcy/postconvergence-projective-perspective,—to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence\(^\text{3}\)> from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the
ontological-veracity that human sovereignty and free-will can only be construed in conflation$^{12}$ as of human <$amplitude\text{-}formative\text{-}epistemicity>$totalising\text{-}thrownness-in-existence$^{34}$ revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness$^{1379}$ as wrongly implying human sovereignty and free-will supersedes existence-potency\text{-}sublimating\text{-}nascence,\text{-}disclosed\text{-}from\text{-}prospective\text{-}epistemic\text{-}digression-as-of-<$amplitude\text{-}formative\text{-}epistemicity>$totalising\text{-}renewing\text{-}realisation/re-perception/re-thought,\text{-}in\text{-}supererogatory\text{-}epistemic\text{-}conflatedness$^{12}$ rather than the epistemic-veracity of difference-conflatedness$^{12}$-as\text{-}to\text{-}totalitative\text{-}reification$^{86}$-in\text{-}singularisation$^{92}$-as\text{-}veridical-epistemic-determinism$^{21}$ <$amplitude\text{-}formative\text{-}epistemicity>$causality\text{-}as\text{-}to\text{-}projective-totalitative\text{-}implications\text{-}for\text{-}explicating\text{-}ontological\text{-}contiguity$^{6644}$ of human meaningfulness\text{-}and\text{-}teleology$^{9955}$. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness$^{1379}$ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency\text{-}sublimating\text{-}nascence,\text{-}disclosed\text{-}from\text{-}prospective\text{-}epistemic\text{-}digression-as-of-<$amplitude\text{-}formative\text{-}epistemicity>$totalising\text{-}renewing\text{-}realisation/re-perception/re-thought,\text{-}in\text{-}supererogatory\text{-}epistemic\text{-}conflatedness$^{12}$ to manifest itself in determining ontological\text{-}primemovers\text{-}totalitative\text{-}framework$^{72}$; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening$^{62}$ implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity$^{38}$ knowledge\text{-}reification$^{86}$ rather than ‘any implied notion that naively supersede existence—as-the-absolute\text{-}a\text{-}priori\text{-}of\text{-}conceptualisation\text{-}and\text{-}existence—as\text{-}sublimating\text{-}withdrawal,-
eliciting-of-prospective-supererogation\textsuperscript{96}<as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'>’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so
especially as the idea of human sovereignty and free-will increasingly becomes abstracted and
diffused in the overall social-construct and its institutions as so-associated with ‘the protraction
of political and institutional performance, evaluation and accountability’ as reflective of human
sovereignty and free-will. However, with regards to the latter as of social protraction of political
and institutional action, the possibility of protracted human sovereignty and free-will while
indirect comes to be increasingly associated with the sense of ‘equanimity/balance of
institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy
frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as
garnered ‘politically from the equanimity/balance of competing policies and politics as from
polling and/or polls trends’ and ‘professionally with the equanimity/balance of
mainstream/conventional complementary professional policy-recommendations and
professional practices’. The question about the effectiveness of such implied
equanimity/balance as reflecting of human sovereignty and free-will is often raised critically
with regards to political and institutional performance particularly during crises. In many ways,
the systemic interrelatedness of large institutions as to their complementary end purposes and
practices, renders such an assessment of implied equanimity/balance rather de-
mentative/structural/paradigmatic to the overall politico-institutional system itself; and
particularly so as in many ways the possibility of readjustment is much more practically
instigated politically especially as with public institutions the individual manifestation of
sovereign choice is much more rigidly tied to political action unlike the relative ability for
direct disengagement from private entities. However, the fundamental fact that human
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans
sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond
transvaluation implications as of the broader overall ‘expected equity of all individuals for
social–value-construction’ in relative-ontological-incompleteness/relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating—in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing) <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, going by the phronesis/practicality as of our positivism–procrypticism occlusiveness, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as
increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public
opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party
politics narrative entrapment, has been turning to protest voting as an expression of political
disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately
tied down to human limited-mentation-capacity-deepening\textsuperscript{52} as to the ‘relative-ontological-
incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}.

implied with ontological-primemovers-totalitative-framework\textsuperscript{72} conflating towards the inherent ontological-normaley/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness\textsuperscript{87} in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness\textsuperscript{88}, reflecting a human-causative-construction conception in conflatedness\textsuperscript{12}/projective-conflicting apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional–projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness\textsuperscript{13} as of any given presencing—absolutising-identitive-constitutedness\textsuperscript{1379} apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness\textsuperscript{88}. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-(sublimating~referring/registering/decisioning,~as-self-becoming/self-conflicatedness\textsuperscript{12}/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—metaphoricity\textsuperscript{56}—as-rede-mentating/restructuring/reparadigming—psychologism\textsuperscript{89} that effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity\textsuperscript{38} as to the underlying supposedly coherent ontological-commitment\textsuperscript{65} in wrongly implying that human sovereignty and free-will is rather
veridically underlied by ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity\textsuperscript{38} implications of relative-ontological-incompleteness\textsuperscript{88} to relative-ontological-completeness\textsuperscript{87}. But then such pretence of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification\textsuperscript{86} implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology\textsuperscript{9955} infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity\textsuperscript{38} implications of relative-ontological-incompleteness\textsuperscript{88} to relative-ontological-completeness\textsuperscript{87}’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity\textsuperscript{38} which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-

The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology⁹⁵⁵ (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity³⁸ thus subject to analysis as of ‘relative-ontological-incompleteness⁸⁸/relative-ontological-completeness⁸⁷-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness¹²/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif– and–re-apriorising/re-axiomatising/re-referencing>–) as to human-and-social– expectations/anticipations—metaphoricity⁵⁶–as-rede-mentating/restructuring/reparadigming– psychologism⁸⁹ as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness⁸⁷. Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness¹³⁷⁹ notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism>
implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing

not truly escape the ontological prism as of existence being the absolute a priori, and rather

psychologism" may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism-&gt; implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective on supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument in unaffirmation/deprojection/de-assertion/dueness-invalidating-logicising/unsuitable-measuring/instrument-invalidating-measuring-&lt;as-to-preconverging-or-dementing–apriorising-psychologism&gt;. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism-&gt; implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism-&gt; implied contract/political-
arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness\(^87\), but rather as of the relative-ontological-completeness\(^87\) perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument\(^3\) in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing\(^19\)–apriorising-psychologism> of such implied ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening\(^52\) possibilities of relative-ontological-completeness\(^87\) analysis over the absolutising of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation.
Thus any such pretence that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} and not subject to prospective ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-(sublimating–registering/decisioning,–as-self-becoming/self-confledness\textsuperscript{12}/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—metaphoricity\textsuperscript{56}–as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{89} with regards to an animal of limited-mentation-capacity requiring its prospective limited-mentation-capacity-deepening\textsuperscript{52} (and thus paradoxically in want of its very own ‘prospective<amplituding/formative–epistemicity>growth-or-confledness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\textsuperscript{31} magnanimity induced originariness-parrhesia,–as-spontaneity-of-aestheticisation’ as to cohere with ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of,<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–supererogatory–epistemic-confledness\textsuperscript{12}–as-to-the-ontological-normalcy/postconvergence-projective-perspective,–to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence\textsuperscript{30}) is effectively bound not to be able to address the very central/critical implications to prospective knowledge-reification\textsuperscript{86} of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (with the latter involving ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-

Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity-\langle\text{discretely-implied-functionalism}\rangle implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness\textsuperscript{87} in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness\textsuperscript{88}’ and this is the very legitimation for any intellectualism purporting knowledge-reification\textsuperscript{86}. Ultimately, the very possibility for prospective knowledge-reification\textsuperscript{86} as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound to be undermined, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, in the interplay of human presencing—absolutising-identitive-constitutedness\textsuperscript{1379} inclinations for vested postures and interests poorly appreciating ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}–\langle\text{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{12}/formative–supererogating–\langle\text{in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing}\rangle\rangle as to human-and-social–expectations/anticipations—metaphoricity\textsuperscript{56}–as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{89} in contrast to dimensionality-of-sublimating\textsuperscript{24}—

undermining the former conceptual completeness but evolving with the contextual immediacy perceived underlying aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint) with respect to social-stake-contention-or-confliction, and as generalised human behaviour varyingly assume existentially constraint pragmatic inclinations and temporal-to-intemporal-dispositions as of varying thresholds of constructiveness-of-ontological-performance\(^71\)-\(<\text{including-virtue-as-ontology}>\) and destructuring-threshold-\((\text{uninstitutionalised-threshold}^{182}/\text{presublimating–desublimating-decisionality})\)-of-ontological-performance\(^72\)-\(<\text{including-virtue-as-ontology}>\) in relating with such originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. Thus, there is a direct relation between human-subpotency and existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituming/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness<sup>12</sup> (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance<sup>71</sup>-<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness<sup>82</sup>-by-reification<sup>86</sup>/contemplative-distension<sup>36</sup> in its construction-of-
the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology⁹⁹⁵⁵ but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility⁷³,<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively>the ontological-contiguity⁵⁶—of-the-human-institutionalisation-process⁶⁷, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology⁹⁹⁵⁵. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-

want for secondnatured knowledge and institutionalisation, and so as to the former human
limited-mentation-capacity-deepening\textsuperscript{52} (as to the specifically cultivated arts/skills and time
investment, and on the intimation that the implied deferential-formalisation-transference is so-
validated as of the supposedly coherent ontological-commitment\textsuperscript{65}). In the bigger picture, this
speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality/shortness <amplitudes/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling—resentment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void—with-regards-to—prospective—apriorising—implications>}’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness—and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism> undermining of
human dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{36} is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955}), de-mentatively/structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold\textsuperscript{102} attendant framework of lack of social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-\textlt<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness\textsuperscript{87}–or-understanding-of-ontological-primemovers-totalitative-framework\textsuperscript{72}–of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as to the possibility for genuine human reification\textsuperscript{86} and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textlt<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12}) is effectively what underlies human institutional paralysis and social-vestedness/normativity-\textlt<discretely-implied-functionalism> as well as the
possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); and in
many ways this historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^46\) has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^45\) relevant to deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\(^83\). Such historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^46\) is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^46\) override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^46\) thus foregoes the construal of human meaningfulness-and-teleology\(^99\) as a construct of re-originariness/re-origination of meaningfulness-and-teleology\(^99\) as to human limited-mentation-capacity-deepening\(^52\) so-implied from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective as to maximalising-recomposuring\(^54\)–for-relative-ontological-completeness\(^87\)—unenframed-conceptualisation and rather adopts the temporality\(^98\)/shortness comfort as of incrementalism\(^50\)–in-relative-ontological-incompleteness\(^88\)—enframed-conceptualisation hanging on to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^46\) presencing—absolutising-identititive-constitutedness\(^13\) notional framework of human stake-contention-or-confliction. historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^46\) thus involves a \langle amplituding/formative–epistemicity\rangle totalising/circumscribing/delineating conception of social-vestedness/normativity-\langle discretely-implied-functionalism\rangle as to an underlying human

presencing—absolutising-identitive-constitutedness\textsuperscript{1379} becomes a psychological entrapment of
an overwhelming presence hardly capable of profound re-originariness/re-origination but for its
thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955}) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooiness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness\textsuperscript{1379}-of—meaningfulness-and-teleology\textsuperscript{9955} given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-
such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional-projective-perspective of re-originariness/re-origination as implied with prospective deprocripticism—or-preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317}. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness\textsuperscript{1379}-of—meaningfulness-and-teleology\textsuperscript{9955} given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}\ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{87} meaningfulness-and-teleology\textsuperscript{9955} the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology\textsuperscript{99}-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology
as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness by-reification /contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition that passivises and blanks thus undermining/stifling the possibility for prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs of—meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness of apriorising/axiomatising/referencing—conceptualisation as to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression—of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-

Desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} imbued psychological entrapment arises inherently because of the taxingness-of-originariness as to the fact that: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation, with regards to human limited-mentation-capacity—
deepening as of its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation. But then existence is not beholden to any such human reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation residuality that induces human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation stifling/stalling of the full possibility of prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing. Desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition aestheticisation—and—aestheticisation-towards-ontology decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as construed from the prospective notional—deprocrypticism ontological-normalcy/postconvergence epistemic/notional—projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historicity/ontological-eventfulness/ontological-aesthetic-tracing purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective) of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing (which de-mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-originariness). Effectively, human decoherencing-structure—of—

entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self\textsuperscript{91} as of its presencing—absolutising-identitive-constitutedness\textsuperscript{1379} (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally-collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness\textsuperscript{1379} as the very seeding disposition for historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology\textsuperscript{9955} to be instigated (as to human limited-mentation-capacity-deepening\textsuperscript{52} before any construable human panoramic-sublimating-criticality outcome of meaningfulness-and-teleology\textsuperscript{9955}) has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation—and—aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance\textsuperscript{71}—<including-virtue-as-ontology>’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming—frames-as-from-living,—institutionalising,—and—Being-ontologising/infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—temporal-to-intemporal-dispositions—existentialism-form-factor’ (with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9955} in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human—institutionalisation-process\textsuperscript{67} successive registry-worldviews/dimensions). From the

positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism (as of
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) to grasp the full

Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising\textsuperscript{103}-idealisation attitude/mental-disposition/care—and—episteme\textsuperscript{5} implied by the Socratic philosophers as to its apriorising/axiomatising/referencing—psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) induced crossgenerational transformation. In both instances it speaks to an underlying apriorising/axiomatising/referencing—psychologism ‘wanting of human consciousness sublimation’ to effectively come to terms with ‘manifest existence-potency~sublimating—nascence,—disclosed—from-prospective-epistemic-digression-as-of:<amplituding/formative—epistemicity>totalising~renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness\textsuperscript{32} in epistemic conflation\textsuperscript{12}, thus inducing its notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—<shallow-supererogation\textsuperscript{96}—mentally-aestheticised—preconverging/dementing\textsuperscript{19}—qualia-schema> as to the fact that notional-contiguity/epistemic-contiguity\textsuperscript{61}—<profound-supererogation\textsuperscript{96}—mentally-aestheticised—postconverging/dialectical-thinking\textsuperscript{20}—qualia-schema> is now implied prospectively as of prospective relative-ontological-completeness\textsuperscript{87} as from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective. The implication here is that the overcoming of any historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is intimately tied to human limited-mentation-capacity-deepening as to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring so-implied as its prospective construction-of-the-Self as of its dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/conceptual-distension. assume the same disposition as to the possibility of enabling the sublimation in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^66\)—of-the-human-
institutionalisation-process\(^67\); such that ‘supposed reifying’ meaningfulness-and-teleology\(^9955\) in
existential-extrication-as-of-existential-unthought as of human-subpotency epistemic
perspective effectively comes out as epistemically-decadent and in ontological-bad-
faith/inauthenticity\(^63\), as to the fact that in the face of human-subpotency—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, if no
human minds projected not of nonextricatory-existential-preempting-of-existential-unthought
(eliciting the possibility for the ontological-contiguity\(^66\)—of-the-human-institutionalisation-
process\(^67\)) but rather existential-extrication-as-of-existential-unthought (undermining the
possibility for the ontological-contiguity\(^66\)—of-the-human-institutionalisation-process\(^67\)) in
recurrent-utter-uninstitutionalisation, in base-institutionalisation-ununiversalisation, in universalisation-non-positivism/medievalism and prospectively in our positivism-procrypticism\textsuperscript{80}, then the de-mentative/structural/paradigmatic possibilities in reflecting holographically-\textsuperscript{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} wouldn’t be possible. Such meaningfulness-and-teleology\textsuperscript{9955} in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective as to dimensionality-of-desublimating-lack-of\textsuperscript{25}—\textsuperscript{<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality} rather speaks of a parasitising conception of intellection that warrants that by some miracle the possibility of human sublimation induced as of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} should arise, for that sublimation to be then parasitised with gimmickiness-of-thought as to social-stake-contention-or-confliction eliciting of human temporality\textsuperscript{98}/shortness \textsuperscript{<amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{9955} as-of—‘nondescript/ignorable—void\textsuperscript{99}—with-regards-to-prospective-apriorising-implications>}). In many ways, this dimensionality-of-desublimating-lack-of\textsuperscript{25}—\textsuperscript{<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality} explains a poor inclination-or-capacity to effectively interpret the projected meaningfulness-and-teleology\textsuperscript{9955} of many a past thinker as to presencing—absolutising-identitive-constitutedness\textsuperscript{1379} institutional and social-vestedness/normativity-\textsuperscript{<discretely-implied-functionalism>} \textsuperscript{<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} that naively think that being
at the backend in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with overall existence beholden frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency~sublimating~nascence,—disclosed—from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>—totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic-conflatedness) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly—disentailing—discretion/whim—of—thought as to poor deferential—formalisation—transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential—extraction—as—of—existential—unthought as of human—subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential—formalisation—transference role quickly gives to prospective possibilities of sublimating knowledge—reification wherein for instance in the physics domain—of—study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency~sublimating~nascence,—disclosed—from-prospective-epistemic-digression—as—of<amplituding/formative—epistemicity>—totalising—renewing—realisation/re—perception/re—thought,—in—
supererogatory–epistemic-conflicatedness\textsuperscript{12}), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{66}> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification\textsuperscript{86} sublimating-over-desublimating implications of existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflicatedness\textsuperscript{12}) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence de-mentative/structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65}) induced constraining reifying-and-empowering reflexivity undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification\textsuperscript{86} as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} without the defining ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity\textsuperscript{38} foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—assublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} in reflecting ‘immanent-ontological-contiguity\textsuperscript{66}>,–as-operative-notional–deprocrypticism\textsuperscript{43} in elucidating ontological-contiguity\textsuperscript{66}<-as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’ as to the lack or poor predicative-effectivity–
sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65}) induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity-\langle discretely-implied-functionalism\rangle reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification\textsuperscript{86} implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}-\langle imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation\rangle to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflatedness\textsuperscript{12}. Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification\textsuperscript{86} and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-

such a lack of nuancing can then lead to the interpretation that such historical failures should

Incidentally, the ‘supposedly positivism/rational-empiricism formulaic/mechanical knowledge contenders’ as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies pointing to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46} distortive-originariness/distortive-origination, rather than being fully assumed as marking positivism/rational-empiricism progress implied historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} originariness. reification\(^86\) the implications of science-ideology are ultimately social and institutional as to the
implications of human emancipation; and so in the sense that contrary to what is generally
thought, science itself as for-human-studies is the very first-level of social science as of the
epistemic implications it projects upon society and social meaningfulness-and-teleology\(^9955\), and
critically so because in reality budding-positivists were actually the very first modern social
scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the
budding natural science they advanced’ like a heliocentric world or rational-empiricism driven
natural science basis of analysis (as to satisfy their mere natural science curiosity given that in
many ways some of the notions where previously advanced in different forms), but they were
rather critically engaged in a social posturing to epistemically reconstrue the society and social
meaningfulness-and-teleology\(^9955\) in those scientific terms and the future elaboration and
development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their scholastic pedantry (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening as of relative-ontological-incompleteness to ‘relative-ontological-incompleteness:relative-ontological-completeness’-{sublimating-registering/decisioning,—as-self-becoming/self-conflatedness/formative–supererogating—in-projective/reprojective—aestheticising-re-motif—and—apriorising/re-axiomatising/re-referencing} as to human-and-social—expectations/anticipations—metaphoricity—as-re-de-mentating/restructuring/reparadigming—psychologism as to <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity. Thus in many ways ‘the possibility for science to prospectively arise’ involved its very own dispensing-with-immediacy—for-relative-ontological-completeness-by-reification/contemplative-distension that projected of an underlying enculturated/constructed
just an exercise of mere methods/methodologies/approaches reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of prior-apriorising/axiomatising/referencing—dialogical-equivalence—<as-superseded-logical-basis>^82_.

Thus it is such an ideological conception of science and knowledge-reification^86 on the latter basis (as of prior-apriorising/axiomatising/referencing—dialogical-equivalence—<as-superseded-logical-basis>^82) that ultimately translates into the ‘methodological, epistemic, institutional and social sagging of human knowledge-reification^86′ reflected abstractly in crises of methodology, epistemicity and scholarship as well as derived human institutional and social crises as to underlying meaningfulness-and-teleology^955 infrastructure; and critically so with regards to our own positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought^8380 relevant-level of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—temporal-to-intemporal-dispositions—existentialism-form-factor that has to be addressed. In another respect, given the requisite dispensing-with-immediacy-for-relative-ontological-completeness^87-by-reification^86/contemplative-distension^26 involved in true human consciousness sublimation, dimensionality-of-sublimating^26—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness^12/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism^75, as ‘the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-ontological-completeness^87-by-reification^86/contemplative-distension^26′ that brings about sublimation needs to be construed as to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism^75 elicits parallel competing
meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of dimensionality-of-desublimating-lack-of — supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inducing sublimation as of the secondnaturing institutionalisation exercise. In many ways the underpinning—suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating — supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning—suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with dimensionality-of-sublimating — supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning—suprasocial-construct framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is our modern day presencing—absolutising-identitive-constitutedness politically clouded historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition underpinning—suprasocial-construct
anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—disinhibited-mental-aestheticising as of originariness-parrhesia,—as—spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation capacity ‘to project in disseminative—selectivity-of-ontological-good-faith/authenticity—over—deselectivity-of-ontological-bad-faith/inauthenticity (as to the underlying human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence—as-of-its-coherence/contiguity). It is important to grasp here that such a construal of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought highlighting the prospective implications in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility. ‘Imbued-and-

Such a notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation—aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentiative-paradox of human-subpotency—
directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising / sublimating-thoughtfulness / historiality-or-ontological-eventfulness-or-ontological-aesthetic-tracing / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold of lack-of-<amplituding/formative—epistemicity> growth-or-conflatedness12/transvaluative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness31 / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition46 / social-vestedness-or-normativity / positive-opportunism75-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity66—of-the-human-institutionalisation-process67 rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment65, (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative
capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’); and so critically as to the presencing—absolutising-identitive-constitutedness human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity potentiation’ when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> (underlying human construction-of-the-Self) the human prospective capacity to serenely come to terms with ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ as so induced by the latter’s existentially constraining implications of ontological-veracity, is not necessarily forever bound to be as of the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-
process so-constrained existentially on the basis of human supposedly coherent ontological-commitment\textsuperscript{65} that undermines the possibility for such prospective notional–deprocrypticism\textsuperscript{17} conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ (as to the potential for a full human psychological uninhibitedness/decomplexification in superseding the ‘underlying human formative decoherencing-structure—of–meaningfulness-and-teleology\textsuperscript{9955}-for-institutionalisation’). But then such overcoming of ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’ still has to be effectively achieved as to the requisite human prospective development of protensive–self-consciousness in the face of the ever present manifestations of desublimating/gimmicky sophistry and eliciting of human temporality\textsuperscript{98/shortness} <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}-as-of–nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>} as to incrementalism\textsuperscript{58-in-relative-ontological-incompleteness}—enframed-conceptualisation and so over the requisite maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation. The very forward-facedness of human consciousness as it defines human social-stake-contention-or-confliction is in many ways architectonically deterministic and defining (as it projects postconverging/dialectical-thinking\textsuperscript{29–qualia-schema over preconverging/dementing\textsuperscript{19–qualia-schema}), with regards to the de-mentative/structural/paradigmatic circular recurrence of ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes); as to the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment\textsuperscript{65} (as of the potentiative

possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness αμπλίτουντιφορμιβι-επιστημικότητας totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up ‘destructively dehumanising’ the various ‘the other’). It is interesting to appreciate that given the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment\(^{65}\))’ induced by budding-positivists (associated with their persecution), the stage was set for the foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{96}\) in reflecting ‘immanent-ontological-contiguity\(^{66}\)’,—as-operative-notional—deprocrypticism\(^{43}\) of such a theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs prospective-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseding-logical-basis>\(^{81}\) as to the tight-and-entwined relationship between the overall human ontological-commitment\(^{65}\) (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment\(^{65}\)) as the critical enablers for the possibility of prospective transcendental meaningfulness-and-teleology\(^{9955}\), without eliciting (as was the case with the Galileos/Descartes, etc. in the face of the medieval-scholastics pedantic dogmatism Establishment) ‘the breadth of human temporal-to-intemporal-dispositions not de-mentatively/structurally/paradigmatically a competent intellectual-and-moral framework for instigating prospective human sublimation’ as to the sophistic/pedantic possibility for inducing human temporality\(^{98}\)/shortness <amplitude/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^{9955}\)as-of—’nondescript/ignorable—void\(^{99}\)—with-regards-to-prospective-apriorising-implications>} with regards to prospective social-stake-contention-or-confliction. Interestingly as well, we can appreciate the more or less socially enculturated disposition in our positivism/rational-empiricism registry-worldview/dimension (with regards to the ‘profoundly sublimating natural sciences’) of human appreciation of the ‘messianic-structure of

In contrast this author is critical of the notion that disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity\textsuperscript{66}’> subject to totalisingly-disentailing—discretion/whim-of-thought associated with presencing—absolutising-identitive-constitutedness\textsuperscript{1379} conception of knowledge-reification\textsuperscript{86} as of ‘supposed knowledge-reification\textsuperscript{86}’ framework of human-subpotency determination as to a temporal mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—

Critically, the possibility of such a physics dialogical-equivalence for instance is fundamentally enabled by such foregrounding—entailment—{postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity},—as-operative-notional—deprocrypticism of physics: and where say for instance proponents of classical-mechanics—axiomatic-constructs became involved in ‘the muddling/pedantising of methods/methodologies/approaches as to prior-apriorising/axiomatising/referencing—dialogical-equivalence—<as-superseded-logical-basis>, as to their presencing—absolutising-identitive-constitutedness conception of knowledge-reification, then in many ways proponents of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ‘would rather point out the transversality-of-affirmative-and-
predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as critically enabling prospective sublimation. In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) associated with the physical sciences and generally ‘much of the basic/fundamental and disinterested natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing’ is either indirectly or directly undermined with social-vestedness/normativity-<discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with wooden-language- (imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) over existence-potency-sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-totalising–renewing-realisation/re-perception/re-thought,-in-
This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionality> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} in reflecting ‘immanent-ontological-contiguity\textsuperscript{66}>,–as-operative-notional–deprocrypticism\textsuperscript{43} imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}> that are not necessarily subject to phenomenal/manifest existence’s foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} in reflecting ‘immanent-ontological-contiguity\textsuperscript{66}>,–as-operative-notional–deprocrypticism\textsuperscript{43}’; and so peculiarily implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest–subpotencies-<in-transitive-conflatedness\textsuperscript{12}–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies-<in-transitive-conflatedness\textsuperscript{12}–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated
contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’ with the ‘supposedly profound phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity—discretely-implied-functionalism> disparateness—of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—’immanent-ontological-contiguity>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—as—of—amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness—sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity—of—the—human—institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any
‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{66} as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{66} of physics, chemistry, biological, genetic theories as to the ontological-contiguity\textsuperscript{66} imbued foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation\textsuperscript{96} in reflecting ‘immanent-ontological-contiguity\textsuperscript{66}),–as-operative-notional–deprocrypticism\textsuperscript{43} of their respective inherent sublimating phenomenal/manifest–subpotencies<in-transitive-conflatedness\textsuperscript{12}–reflexivity,–in-the-full-potency–of–existence’s–sublimating–nascence> wherein for instance with the physics frame–of–ontological-contiguity\textsuperscript{66} succession of theories are developed aspiring cogently for ontological-contiguity\textsuperscript{66} of the whole physics epistemic-conception phenomenal/manifest–subpotency<in-transitive-conflatedness\textsuperscript{12}–reflexivity,–in-the-full-potency–of–existence’s–sublimating–nascence> as from say Galilean/Cartesian/Newtonian/Leibnizian physics to present day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity\textsuperscript{66}. In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly-disentailing—discretion/whim-of-thought (if truly of science/ontology as to ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{66}) but should rather go on to effectively explain away the entire social and socio-psychological phenomenal/manifest–subpotencies<in-transitive-conflatedness\textsuperscript{12}–reflexivity,–in-the-full-potency–of–existence’s–sublimating–nascence> as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising–
development-as-infrastructure-of-meaningfulness-and-teleology, and so comprehensively articulating human organisational and institutional driven/potent sociocultural, economic, political, legal, etc. manifestations on such biological/neurological and evolutionary substitutive/reductionist basis of supposed sublimation as to their ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’ foregrounding—entailment—{postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’—as-operative-notional—deprocrypticism in elucidating ontological-contiguity—<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional—projective-perspective’}. The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating necessitation frame—of—ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) work paradoxically only by impliciting the reality of the ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating necessitation frame—of—ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest—subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in
phenomenal/manifest-sub potency–<in-transitive-conf latedness–reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence>). The consequence of such vague disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity$^{66}$> as to failing ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity$^{66}$’ (as implied as of the requisite ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity$^{38}$ foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation$^{96}$ in reflecting ‘immanent-ontological-contiguity$^{66}$),–as-operative-notional–deprocrypticism$^{43}$ in elucidating ontological-contiguity$^{66}$–as-from-prospective-ontological-normalcy/postconvergence–epistemic/notional–projective-perspective>’), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification$^{86}$ sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity$^{66}$’ sublimating implications and consequences).
Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, and thus in many ways further undermine/distract-from the social ‘<amplituding/’formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity, conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification’ privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/’formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflicatedness) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a
‘perpetual off-balance act associated with human limited-mentation-capacity-deepening\(^{52}\) speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence\(^{38}\) despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness\(^{1379}\) as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness\(^{1379}\) failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag\(^{33}\), even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily involves such a requisite psychoanalytic-unshackling.memetic-reordering/institutional-recomposuring).

In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology\(^{9955}\) across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness\(^{1379}\) as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) of the ontological-performance\(^{71}\)-<including-virtue-as-ontology> of human temporal-to-intemporal-dispositions narratives’: and so as to human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-[amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-

dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and notional–deprocrypticism\textsuperscript{17} the effective ‘world that exists to the majority people (as of ‘human temporal-to-intemporal-dispositions accordioning–(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,–as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology>) at uninstitutionalised-threshold\textsuperscript{482} as reflecting both desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46} and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{8288} to go on cynically eliciting <amplituding/formative>wooden-language–(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9955}–as-of–‘nondescript/ignorable–void\textsuperscript{89}–with-regards-to-prospective-apriorising-implications>) as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness\textsuperscript{1379}’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness\textsuperscript{87} knowledge that broaden-the-latitude-of-human-collective-
consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or–disjointedness-as-of-reference-of-thought\textsuperscript{8388} respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness\textsuperscript{87} has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness\textsuperscript{87}. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness\textsuperscript{88} arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) as to an epistemically-decadent \textsuperscript{\textless}amplituding-formative\textgreater{} wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drug/denatured/preconverging-or-dementing\textsuperscript{19}– narratives—of-the-reference-of-thought\textsuperscript{83}–categorical-imperatives/axioms/registry-teleology\textsuperscript{998}); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} out of concern about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or–disjointedness-as-of-reference-of-thought\textsuperscript{8388} respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and
deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought\textsuperscript{317} respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification\textsuperscript{86} is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in-superrerogatory–epistemic-conflatedness\textsuperscript{32} and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification\textsuperscript{86} exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification\textsuperscript{86} implications and pretending otherwise as to ‘virtual wisds’ is nothing more tha <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying
speak to the fact that human prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied limited-mentation-capacity-deepening\(^{52}\) (as to dispensing-with-immediacy-for-relative-ontological-completeness\(^{87}\)-by-reification\(^{86}\)/contemplative-distension\(^{26}\)) is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness\(^{87}\)-by-reification\(^{86}\)/contemplative-distension\(^{26}\) imbedded prospectively of both sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace and desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\); as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ prospective desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\) as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening\(^{52}\) (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness\(^{87}\)), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance\(^{71}\)-<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\)” and ‘a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-

perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness$^8$-by-reification$^6$/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness$^8$-by-reification$^6$/contemplative-distension$^2$ rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness$^8$) underlying the overall existential dimensionality-of-sublimating$^2$—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness$^{12}$/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as the inherent ontological-good-faith/authenticity$^{68}$—de-mentating/structuring/paradigming—<seeding/incipient—profound$^6$-supererogation$^9$, as-mentally-aestheticised—postconverging/dialectical-thinking$^{28}$—qualia-schema> effectively reflected as of notional—deprocripticism$^1$. notional—deprocripticism$^1$ as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance$^{71}$—<including-virtue-as-ontology> as to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing$^{45}$ as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition$^4$ of ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness\(^{1379}\). Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance\(^{71}\)-<including-virtue-as-ontology> with regards to human meaningfulness-and-teleology\(^{9955}\) speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening\(^{52}\) in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\(^{65}\)) is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\) of ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness\(^{1379}\), while the former strongly constrained to high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\(^{65}\)) is rather relatively amenable to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\) as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to
be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural-,organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—→in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\)) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing\(^{45}\)). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s–sublimating–nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective notional~deprocrypticism\(^{17}\) appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment\(^{65}\) (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-〈as-to-underlying-ontological-commitment\(^{65}\)〉 (reflecting
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’). In this regards, the de-mentative/structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordioning—(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,—as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance71.--<including-virtue-as-ontology>) at uninstitutionalised-threshold102 as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition46 and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing45 possibilities’, reflect the fact that the originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness for prospective knowledge-reification86 implying a projection out of a prior human registry-worldview’s/dimension’s institutionalisation framework cannot be construed as of any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity38 on the basis of the prior institutionalisation secondary secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly implying that there is an underlying absolute sound basis for human knowledge-reification86 as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity38, whereas in reality such grounds are recurrently rede-mentated/restructured/reparadigmed for relative-ontological-completeness87 as to re-motif—and—re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting); hence implying that prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing45 at any uninstitutionalised-threshold102 is necessarily imbued with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation ‘messianic-structure of intemporality51’ and its derived deferential-formalisation-transference
secondnaturing. We can appreciate in this regards that budding-positivists meaningfulness-and-teleology\textsuperscript{9955} however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} but the fact is that such budding-positivism in its rede-mentating/restructuring/reparadigming for relative-ontological-completeness\textsuperscript{87} rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our present day positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Such a rede-mentating/restructuring/reparadigming for relative-ontological-completeness\textsuperscript{87} induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring equally applies with respect to prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{8317} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards, just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} that projected of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65})’ by budding-positivists allowed for the enculturation of a human positivism/rational-empiricism social orientation with regards to the natural sciences (then more-or-less subsequent ‘aspirational sciences’) epistemic-conceptions phenomenal/manifest-subpotencies\textsuperscript{<in-transitive-conflatedness\textsuperscript{12}—reflexivity,-in-the-full-potency-of-existence’s—sublimating—nascence> as to their implicated ‘<amplituding/formative—epistemicty>totalising/circumscribing/delineating existential-contextualising-contiguity\textsuperscript{38} foregrounding—entailment{(postconverging—narrowing-down—sublimation as to existence—as-
disjointedness-as-of-reference-of-thought$^{8317}$ sublimation over procrypticism—or-disjointedness-as-of-reference-of-thought$^{8388}$ desublimation, thus prospectively inducing a strongly enculturated predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment$^{65}$) constraining of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought$^{8317}$ meaningfulness-and-teleology$^{9955}$, (and so overriding disparate-ness-of-conceptualisation—<unforegrounding-disentailment—failing-to-reflect—‘immanent-ontological-contiguity$^{66}$> as to the latter’s implied procrypticism—or—disjointedness-as-of-reference-of-thought$^{8388}$). But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold$^{102}$ is a fertile spot for sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft intellectual-muddlement—{blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness$^{87}$}. What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutisingidentitive-constitutedness$^{1379}$ <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag$^{33}$; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification$^{96}$ is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment$^{65}$ (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment$^{65}$) as critically enabling prospective sublimation’ so-implied as to existence-potency—sublating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/rethought—in—supererogatory—epistemic-conflicatedness$^{12}$. The strategic problem faced by the
Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology\textsuperscript{99} \textless \text{in-existential-extrication-as-of-existential-unthought}\textsuperscript{6}) is how to exploit the fact that there is no ‘universalising\textsuperscript{103}-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment\textsuperscript{65})’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment\textsuperscript{65})’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers universalising\textsuperscript{103}-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology\textsuperscript{9955} by eliciting presencing—absolutising-identitive-constitutedness\textsuperscript{1379} sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology\textsuperscript{9955} respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness\textsuperscript{1379} \textless \text{amplituding/formative—epistemicity}totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-
reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness  existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at muddling promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation—(as-to-underlying-ontological-commitment’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in-supererogatory—epistemic-conflatedness allowing for prospective Socratic philosophers universalising—idealisation and budding-positivism as to

This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional—deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’ as so-induced by notional—asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought
inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnatureing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold\(^{102}\) and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{9955}\)) which rather requires instigative notional-asceticism\(^4\) reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnatureing of positivism/rational-empricism was the notional-asceticism\(^4\) reasoning-through/messianic-reasoning instigative detour to positivism/rational-empricism dementative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation\(^{96}\) (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness\(^{87}\) logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\)> is in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) with the relative-ontological-incompleteness\(^{88}\) logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\)>}, it is only the

In other words, genuinely projected knowledge as of ontological-good-faith/authenticity\textsuperscript{68}—de-mentating/structuring/paradigming—<seeding/incipient–profound\textsuperscript{69}—supererogation\textsuperscript{96}, as-mentally-aestheticised—postconverging/dialectical-thinking\textsuperscript{28}—qualia-schema> is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity\textsuperscript{68}—de-mentating/structuring/paradigming—<seeding/incipient–profound\textsuperscript{69}—supererogation\textsuperscript{96}, as-mentally-aestheticised—postconverging/dialectical-thinking\textsuperscript{28}—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ as of veridical existential relationship/signature as organic-knowledge. In this respect with regards to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage

Part and parcel of the genuine social intellectual—function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\(^{99}\)-in-existential-extrication-as-of-existential-unthought>\(^6\) positive-opportunism\(^{75}\) of living-development—as-to-personality-development and
institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness\textsuperscript{1379} ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness\textsuperscript{1379} mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology\textsuperscript{9955} infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology\textsuperscript{9955} (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9955} but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and dementated/structured/paradigmed ‘immediacy supposed absolute sublimating value and
ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests, as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of social-vestedness/normativity—discretely-implied-functionalism> and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historiality/ontological-eventfulness/ontological-aesthetic-tracing) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite de-mentative/structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity of the human-institutionalisation-process while superseding ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ disposition of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition subontologising

It is for the sake of preserving the full possibilities of prospective human value and ontological-veracity sublimation beyond presencing—absolutising-identitive-constitutedness\textsuperscript{1379} existentialising—enframing/imprintedness\textsuperscript{<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}>} that the genuine social intellectual—function/posture must ever always remain independent and not be usurped by dominance/vested-interest actors and sycophantic-sophistry. The implication here is that the ‘ontological-good-faith/authenticity\(^{68}\)-de-mentating/structuring/paradigming–<seeding/incipient–profound\(^{59}\)-supererogation\(^{96}\),-as-

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could
bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening
to human appreciation of the existential implications of the notion and science behind the
asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable

they will effectively adopt ‘ontological-good-faith/authenticity\textsuperscript{68}—de-
mentating/structuring/paradigming—<seeding/incipient—profound\textsuperscript{69}—supererogation\textsuperscript{96},—as-

condescension—<of-apriorising/axiomatising/referencing—psychologism>’ with regards to the
human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’ state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative-epistemicity>totalising~thrownness-in-existence but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicitation-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicitation-sublimation-over-desublimation superseding pretenses of mere methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicitation-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-
conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation takes precedence in defining human intellectual-and-moral ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}. This <amplituding/formative-epistemicity>totalising~throwness-in-existence\textsuperscript{34} implied existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\textsuperscript{68}—dementating/structuring/paradigming–seeding/incipient–profound\textsuperscript{69}.supererogation\textsuperscript{96},-as-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema> existential-condescension–<of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the premeaningfulness/preframing–<metaphoricity\textsuperscript{56}–disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology\textsuperscript{9955} veridically arises. Thus existential-discursivity—implicated-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative-epistemicity>totalising~throwness-in-existence\textsuperscript{34}. This insight puts into perspective our presencing—absolutising-identitive-constitutedness\textsuperscript{379} conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness\textsuperscript{87} (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial
science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness⁸⁷ aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness⁸⁸ specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence¹³⁴*, is not of neutrally/objectively sound ontological-performance²⁴-*<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative–epistemicity>totalising–thrownness-in-existence¹³⁴ and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness⁸⁷ as to overall existential dimensionality–of-sublimating²⁴—<amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness¹²/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and–teleology⁹⁵⁵, existential-discursivity—implicated-sublimation–over–desublimation as to ‘ontological-good-faith/authenticity⁶⁸–de-mentating/structuring/paradigming–<seeding/incipient–profound⁶⁹–supererogation⁹⁶,–as-mentally-aestheticised–postconverging/dialectical-thinking²⁸–qualia-schema> existential-condescension–<of-apriorising/axiomatising/referencing–psychologism>‘, thus points to the
primacy of ‘the very supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness projection as to overall existential dimensionality of sublimating—<amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} of human discursivity as to the possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. The bigger point here is that prospective human sublimation underlying prospective knowledge-reification\textsuperscript{86} in relative-ontological-completeness\textsuperscript{87} cannot be engaged with any given registry-worldview/dimension in relative-ontological-incompleteness\textsuperscript{88} as if the latter is of a ‘neutrally/objectively sound human ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34}’ with regards to the fact that human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} is already engaged in existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\textsuperscript{68}—de-mentatingstructuring/paradigming—<seeding/incipient—profound\textsuperscript{69}—supererogation\textsuperscript{96},—as—mentally-aestheticised—postconverging/dialectical-thinking\textsuperscript{28}—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ (and so very much countering the deceptive eliciting in desublimation of <amplituding/formative>wooden-language—{imbued—affecting—of—thought—<as—to—leveling/ressentiment/closed-construct—of—meaningfulness-and—teleology\textsuperscript{955}—as—of—‘nondescript/ignorable—void\textsuperscript{69}—with—regards—to—prospective-apriorising-implications>}) by dominance/ vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness\textsuperscript{1379} self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation\textsuperscript{96} is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity\textsuperscript{66}, as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} so-associated with human limited—

This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence as to presencing—absolutising-identitive-constitutedness\textsuperscript{1379} \textlangle amplituding/formative–epistemicity\rangle totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} on the one hand and on the other hand difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in-singularisation\textsuperscript{92}–as-verifyical-epistemic-determinism\textsuperscript{21} as to relative-ontological-completeness\textsuperscript{87} \textlangle amplituding/formative–epistemicity\rangle causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{644} is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity\textsuperscript{66}–of-the-human-institutionalisation-process\textsuperscript{67} This is so fundamentally because of human teleology\textsuperscript{99} speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting \textlangle amplituding/formative\rangle disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising) and \textlangle amplituding/formative\rangle entailment–(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening\textsuperscript{52} underlying the ontological-contiguity\textsuperscript{66}–of-the-human-institutionalisation-process\textsuperscript{67}) such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness\textsuperscript{1379} given apriorising/ axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness\textsuperscript{88} de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness\textsuperscript{87} sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination–<so–construed–as–to–ontological-normalcy/postconvergence-perspective-scalarising-construal–
of-existence> perspective of deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17} which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness\textsuperscript{139} <amplituding/formative–epistemic>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of its apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument—for–conceptualisation. The so-implied notional–notional–deprocrypticism\textsuperscript{17} as such points out that the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} is rather associated with a ‘directly relevant trace of prospective human effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} but that, as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness\textsuperscript{139} construals/conceptualisations, that ‘directly relevant trace of prospective human effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96} is rather ‘beholdening wrongly upon the overall relative-ontological-incompleteness\textsuperscript{88}—presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9955} such that a contrasting assessment rather highlights the ‘entangling/enmeshing of effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> and overall relative-ontological-incompleteness\textsuperscript{88}—presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9955} induced desublimating of the effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>’ as to the concreteness/concretism/existentialising—enframing/imprintedness–<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}>—of-human-ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> of overall prospective sublimation. Human
sublimation as such in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\(^66\)—of-the-human-institutionalisation-process\(^67\) is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism\(^75\) social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology\(^9955\). But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness\(^87\) and ‘immaterial/social overall relative-ontological-incompleteness\(^88\)—presublimation-construct—of—meaningfulness-and-teleology\(^9955\) instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness\(^87\)—reference-of-thought\(^83\)—devolving\(^84\)>’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness\(^88\)—presublimation-construct—of—meaningfulness-and-teleology\(^9955\) of their epoch wanting, explaining for instance Rousseau’s appreciation of the ‘noble savage’ and nature as speaking to an aporeticism that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn’t imply just killing animals at whim); thus speaking of the prospectively requisite
immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\textsuperscript{87} and the immaterial/social overall relative-ontological-incompleteness\textsuperscript{88–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9955}} of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65})’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness\textsuperscript{87} weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\textsuperscript{88–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9955}} value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}>, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism\textsuperscript{75} driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}} immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possiblities of sublimation. In
many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ gimmickiness/desublimation relation with meaningfulness-and-teleology of our positivism—procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origin—of—notional—deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded—to-their-relative-ontological-completeness—reference-of-thought—devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—including-virtue-as-ontology reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/ vested-interest actors and sycophantic-sophistry

social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather
than a political process meant to serve them as so reflected with an enculturated media political
narrative hardly/poorly making room for direct individual and social sovereign aspirations as
centrally defining with the consequence that substance is increasingly overwhelmed by a
political characters portrayal of the political debate with political actors then effectively turning
over rather towards the levers of their potential power which is paradoxically not
necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-
and-projection in the public domain but rather surreptitious/private closed-circles of effective
direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term
consequences of public policies recurrently ‘default for dominance/vested-interest actors’).

Even in the purely intellectual sense, modern day scientific advancements and achievements
have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory
mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences
accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-
constitutedness\textsuperscript{1379} epistemic conception of science that in many cases poorly reflects upon
effective scientific practices and craft as it poorly appreciates the dynamics of the overall
human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-
towards-ontology underlying the overall ontological-contiguity\textsuperscript{66}—of-the-human-
institutionalisation-process\textsuperscript{67}, so-reflected from such science-ideology poor appreciation of the
implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}

In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness\(^87\) registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency-<in-transitive-conflatedness\(^{12}\)—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> (but for issues of epistemic limitation inherent to human limited-mentation-capacity). The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\(^{46}\)>’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\(^{46}\)>’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard,
relic/artifactual conception of veridical human historicity/ontological-eventfulness/ontological-aesthetic-tracing rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identitive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ to usher in the possibility of their very own seconddnatured institutionalisation unclouded knowledge-reification—gesturing, the ultimate possibility for our positivism—procrypticism

This comprehensive elucidation highlights that human sublimation is not inherently haphazard as the wrong perception of haphazardness arises as from the varying presencing—absolutising-identitive-constitutedness\textsuperscript{1379} epistemic-projection perspectives whereas from a comprehensive notional–notional–deprocrypticism\textsuperscript{17} epistemic-projection perspective in ontological-normalcy/postconvergence human sublimation is rather wrongly apparently haphazard because of human limited-mentation-capacity epistemic-projection perspectives of apprehension of prospective sublimation with ‘the ontological-veracity of notional–notional–deprocrypticism\textsuperscript{17} epistemic-projection perspective associated with comprehensive human limited-mentation-capacity-deepening\textsuperscript{52} rather reflecting the overall ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} de-mentative/structural/paradigmatic coherence of human sublimation as of successive reference-of-thought\textsuperscript{83}–and–reference-of-thought\textsuperscript{83}-devolving\textsuperscript{84}–meaningfulness-and-teleology\textsuperscript{9955} comprehensiveness of prospective sublimating–nascence’. In this regards as to a decisively globalising world we can’t conceive that ours will be the human generation bereft of ‘profound diffusionary/non-diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’ given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human meaningfulness-and-teleology (as so-construed as of dimensionality-of-sublimating—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-

Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being
institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. Such a beholding presencing—absolutising-identitive-constitutedness\textsuperscript{1379} existentialising—enframing/imprintedness\textsuperscript{<-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}\textsuperscript{46}> skews the fundamental ontology question by its inherent <amplituding/formative—epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity-<discretely-implied-functionalism>. This latter issue is the ultimate challenge to prospective notional—deprocrypticism\textsuperscript{17} institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation\textsuperscript{96} parameterisation/reparameterisation—{reflecting-a—supererogatory—decisionality-of-socioinstitutional-conceptions-as-to—‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality—numbing-traction—desublimation’)-as-so-operationalising—‘scalarisation-as-to-rescalarisation-as—re-ontologisation’ for prospective aestheticisation— and—aestheticisation-towards-ontology/meaningfulness-and—teleology\textsuperscript{9955}; as of the paradox that a social-setup as to its <amplituding/formative—epistemicity>totalising—thrownness-in-existence\textsuperscript{34} is so pragmatically self-focussed that its aestheticisation and hence aestheticisation-towards-ontology dynamic-potential as to existence— as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\textsuperscript{96} is narrowed/limited/constricted however its level of development (explaining the decisiveness/criticality of cultural diffusion imbued originariness-parrhesia,—as—spontaneity-of—aestheticisation in re-ontologisation accompanying human institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological—aesthetic-tracing\textsuperscript{45}> as can be appreciated throughout human history). This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices
arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised *amplituding-formative-epistemicity* totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture; and this very much explains the double epistemic orientation to notional-deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation’ parameterisation/reparameterisation (reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’) as-so-operationalising-‘scalarisation-as-to-rescalarisation-as-re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology as highlighted above (as to the need to feed our *amplituding-formative-epistemicity* totalising–thrownness-in-existence decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). In this regards, all such ontologisation/re-ontologisation potential for human meaningfulness-and-teleology is de-mentatively/structurally/paradigmatically ever inducible as of human formativeness-as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism-of–meaningfulness-and-teleology, as to the underlying human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (given human limited-mentation-capacity implications on human ontological-performance—including-virtue-as-ontology) reflected in such formativeness (going by its given aestheticisation–and–aestheticisation-towards-ontology of the cultivated/beholdening-construct-of–meaningfulness-and-teleology, ultimately-construed-as-habit/practice/belief/culture) and thereof the ontologically-valid/ontologically-invalid beholdingen implications arising from the cultivated/beholdening-construct-of–meaningfulness-
