In many ways, we can appreciate that the modern day genuine social intellectual—function/posture as to its relatively genuine sublimating—existentialising—decisionality critically ‘operates mostly in the wake of the social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating—existentialising—decisionality of dominion/statal—logic—{preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising—
as to the fact that the critical aftereffects of political, economic, social and mediatic strategic policy orientations reflected in socio-econo-political and legal decision-making associated with various crises whether decadal economic crises, media and information crises, political accountability, etc. are effectively related by the genuine social intellectual–function/posture but very much after the facts (often decades after the social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating–existentialising–decisionality of dominion/statal–logic⟨preconverging/shallow-supererogating-'human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-⟨discretely-implied-functionalism⟩⟩), and so as to the sublimating impotence of such genuine social intellectual–function/posture. Critically in this respect the very artifice available to present day democracy dominion/statal–logic⟨preconverging/shallow-supererogating-'human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-⟨discretely-implied-functionalism⟩⟩ involves the ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’, and thereafter it doesn’t matter in effect whether the human sovereign–function/posture comes to think otherwise and disapprovingly of the given decisions, as better still so long as this rather plays the role of a psychological-outleting that project a falls sense of
public accountability of poor or no effective resolutive course, this mechanism of ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’ can perpetuate itself as to a Machiavellianism underlying the dominion/statal–logic–⟨preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence–as-to-social-vestedness/normativity–⟨discretely-implied-functionalism⟩⟩ relation with the human sovereign–function/posture. Such a Machiavellianism riding-the-wave of the underpinning–suprasocial-construct existentialising–enframing/imprintedness–⟨as-to-historicity-tracing—enframed-conceptualisation with the cultivation of disingenuous analysis as to strategies of misanalysis (so-reflected by the ‘propounding and enframing in ad-hocness and false-orthodoxy of policy issues so-underlied with catchphrases like deficit, public spending, etc. as to an aversion to consistent and long-term analysis pointing out the underlying inconsistency’ highlighting effectively that the political disenfranchisement/swindling/corruption/dispossession purpose of such argumentations precede their ‘very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’ purpose as to Machiavellian instigated false public debates) to which human sovereign–function/postures gullibly get caught up in or which ultimately discourages public interest and participation or lead to protest votes; with such misanalysis typically characterised by false bothsidesism existentialising—enframing/imprintedness–⟨as-to-historicity-tracing—enframing/hyperrealisation/hyperreal-transposition⟩ reflex (bandied about as supposedly the very summum of democratic

Misanalysis as such speaks fundamentally of an issue of ontological-bad-faith/inauthenticity (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—de-mentating/structuring/paradigming—seeding/incipient–shallow supererogation, as-mentally-aestheticised—preconverging/dementing—qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory—shallowness or supererogatory—profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation). to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-
or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly
present/existent as to its ‘given implied totalising-entailing meaningfulness-and.99teleology55’
wherein for instance the social atrophying associated with the Great Depression rather elicited
statal supererogatory—progressivity extending into the postwar era of sociopolitical and
socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure
sense of the word and in many ways the technocracy developed and resourced in the postwar
years and the associated scientific and technical advancement especially in the face of the Cold
War in many ways speak to an underlying supererogatory—progressivity on which waves the
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial
complex potential sycophantic exploitation of such overall national supererogatory—progressivity
and further reflected as to the accruing of national technical and scientific dividends
incommensurably to private capitalistic actors. Furthermore, moments of national socio-
economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of
social-stake-contention-or-confliction’ have always been critically involved with recouping and
reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social
ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy.
retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic
model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that
purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-\textsuperscript{96}supererogation of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations
before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow—supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied by a basic level of supererogatory–progressivity. Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative
supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’.

Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity<&discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist,
and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascimento ontologising-depth of the full-potency of existence’ existentialising–decisionality). The so-construed notional–notional–deprocrypticism\(^\text{17}\) epistemicity conception of predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\(^\text{65}\)) as to the overall \(^6\)ontological-contiguity—of-the-human-institutionalisation-process\(^\text{67}\) provides the requisite basis for prospective human ontological-performance\(^\text{71}\)-<including-virtue-as-ontology> convergence towards ‘scality/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism\(^\text{17}\) registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct <amplituding/formative–epistemicity>totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold\(^\text{102}\) imbued secondnaturing’) technically equates to ‘supposed human-subpotency abstract self-determinative ontological-performance\(^\text{71}\)-<including-virtue-as-ontology> capacity as to the full-potency of existence’ so-implied with the protensive-consciousness ‘deepest phenomenological transcendental-point-of-departure handle as of the

In this regards, any registry-worldview/dimension as of its presencing—absolutising-identitive\textsuperscript{13}constitutedness\textsuperscript{79} is, more-or-less as of its relative-ontological-incompleteness\textsuperscript{88} ‘a usurpation of abstract purist ontologisation/ontological-veracity/aestheticisation-towards-ontology projected as of notional–deprocrypticism\textsuperscript{17}/<amplituding/formative>notional–preempting—disjointedness-as-of-83reference-of-thought’; so-reflected by all registry-worldviews/dimensions forward-facing constructiveness-of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as to social-stake-contention-or-confliction. notion of ‘the other’ as aetiolisation/ontological-escalation is much more than ‘magnanimity

‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness of reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity of reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-
This insight about virtue as lying with ontology has been implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 1930s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme in ontological-contiguity as of its totalising-self-referencing-syncretising/circularity/interiorising/akrasia-akrasia-drag prior relative-ontological-incompleteness reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity as implied by postmodern human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving
our ‘modern take attitude/mental-disposition/care–and–episteme vices-and-impediments. As
a further elucidation, prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness of reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking
away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation) which philosophically precedes his secondary thinking-proposition as reasoning-from-results/afterthought; such that budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger notional-discontiguity/epistemic-discontiguity—<shallow—supererogation—of—mentally—aestheticised—preconverging/dementing—qualia-schema> why intending to be of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is actually of an <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—aposteriorising/logicising/deriving/intelligising/measuring with prior positivism
aestheticised-postconverging/dialectical-thinking as of prospective relative-ontological-completeness reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth—or-conflatedness/transvaluative-rationalising/transepistemic/anamnestic-residuality/spirit-
drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising—
aestheticised-preconverging/dementing\textsuperscript{19}-qualia-schema> analysis, implied as of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising\textsuperscript{32}/circumscribing/delineating construct being the \textsuperscript{83}reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} but rather human-subpotency adjusting as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\textsuperscript{12}; with such adjusting being construed as of prospective relative-ontological-completeness\textsuperscript{87}. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought:relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{86}, implied as of de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\textsuperscript{14} with regards to the \textsuperscript{83}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} is an incrementalism\textsuperscript{50}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation in resetting-our-
psychoanalytic-disposition/prospective-grounding as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in conflatedness, such that this leads to constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation- ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ that our human <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness-of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity that our human <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating–ontological-contiguity of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology is essentially one of shifting attitude/mental-disposition/care–and–episteme by the successive institutionalisations for apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, even though beyond-the-consciousness-awareness–teleology–<in-existential-extrication-as-of-existential-unthought> human induced bias leads to a wholly immersed-and-engrossed focussing only at its given present institutionalisation’s reference-of-thought ‘present
attitude/mental-disposition/care–and–episteme⁵ as if other retrospective-and-prospective institutionalisations⁸³ reference-of-thought do not have their own attitude/mental-disposition/care–and–episteme⁵ as of their underlying relative-ontological-incompleteness⁸⁸ and relative-ontological-completeness⁸⁷ ⁸³ reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphoricity⁸⁶-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism⁸⁰ to the prospective postmodern man as of deprocrypticism¹⁷, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme⁵ migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-⁹⁹ teleology⁵⁵ as of prospective relative-ontological-completeness⁸⁷-of-⁸³ reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-⁹⁹ teleology⁵⁵ interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing⁴⁵. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions ⁸³ reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments attitude/mental-disposition/care–and–episteme⁵ from our present attitude/mental-disposition/care–and–episteme⁵, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme⁵ is what underlies the protensive-consciousness of deprocrypticism¹⁷, from which standpoint as of its ontological-completeness-of-⁸³ reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme⁵ migration’ can be undertaken, for retrospective and prospective attitude/mental-

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing), as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the notional–deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. In this regard, singularisation/epistemic-immanence/veridical-epistemic-determinism retrospectively and prospectively reflects the notional–conflatedness/confaltedness implied as of ontological-

(sublimating–referencing/registering/decisioning,—as-self-becoming/self-confoundedness/formative–supererogating—<in-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing>) arising from human limited-mentation-capacity-deepening; with relative completeness increasingly attained, by way of ‘reinvigorating as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning. Thus singularisation/epistemic-immanence/veridical-epistemic-determinism by its implied notional-conflatedness highlights that ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting of ‘human-subpotency ontological-performance—including-virtue-as-ontology> correspondence with the full-potency of existence in its coherence/contiguity’ as of implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, is effectively as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to singularisation/epistemic-immanence/veridical-epistemic-determinism. That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-
subpotency ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating 83reference-of-thought-devolving84’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
92singularisation47. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening52 of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating 83reference-of-thought-devolving84’. 92singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing45, points out that dissingularisation28/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance71-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness87 reflects that 92singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance71-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective 92singularisation/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance71-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening52 of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating 83reference-of-thought-devolving84’, and so reflected by the notion of dispensing-with-immediacy-for-relative-
ontological completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}. This reality of the need to construe of human-subpotency ontological-performance\textsuperscript{71}-\textless including-virtue-as-ontology\textgreater correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism over dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-mentating/structuring/paradigming singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc.

(Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{47} insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}
rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’>. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity\textsuperscript{38}, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} that determines science practice, and so in existential conflatedness\textsuperscript{12}. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in
undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, 
though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as 
science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many 
scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying 
gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the 
‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given 
orientation of study renders such manoeuvres intellectually void, and whatever their underlying 
‘covert goals’ and however genuine their authors are of intent. It is very much important in this 
regard that intellectuals, whether in the natural sciences or in the social and humanities, not be 
cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged 
intellectual ways and approaches for intellectual argumentation’, and not even if such approaches 
are media-driven, so because much that is central and critical to intellectualism is about exploring 
all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears 
notional-conflatedness\textsuperscript{12} singularisation/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance\textsuperscript{71-} <including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more 
often than not geared to ontologically-flawed dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism that tend to be absolutised in \textsuperscript{13}constitutedness of prior reasoning-from-results/afterthought mental-reflexes of <amplituding/formative>wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the—\textsuperscript{83}reference-of-thought—categorical-imperatives/axioms/registry—\textsuperscript{99}teleology\textsuperscript{8}}, and so failing to grasp that the very

As it is prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought of human-subpotency that brings about ‘better and better axiomatic teleological wholeness/nested-congruence of meaningfulness-and-teleology\textsuperscript{55}’ increasing human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality, and so from: existential-contextualising-contiguity\textsuperscript{38}-lowest-level-reification\textsuperscript{86} perceptivity-as-of-bad-omen with recurrent-utter-ininstitutionalisation, to existential-contextualising-contiguity\textsuperscript{38}-second-level-reification\textsuperscript{86} perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period with base-institutionalisation–ununiversalisation, to existential-contextualising-contiguity\textsuperscript{38}-third-level-reification\textsuperscript{86} perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor with universalisation–non-positivism/medievalism, to existential-contextualising-contiguity\textsuperscript{38}-fourth-level-reification\textsuperscript{86} perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation with positivism–procrypticism\textsuperscript{89}, and prospectively to existential-contextualising-contiguity\textsuperscript{38}-full-reification\textsuperscript{86} perceptivity-as-of-factoring-in-socioeconomic,-hermeneutically-education,-information,-environmental,-gender-

This insight about ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as of prospective relative-ontological-completeness\textsuperscript{87} of human-subpotency can be garnered with respect to any axiomatic-construct as the meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} representation of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality,\ and so not only with regards to the \textsuperscript{83}reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that at uninstitutionalised-threshold\textsuperscript{182}, human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86}’ suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’ for prospective institutionalisation as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-\textsuperscript{92}singularisation-as-verbatim-epistemic-determinism\textsuperscript{21} protracted-teleological-wholeness/nested-congruence-in-reflecting-the-\textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67},-so-construed-as-\textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism’; since this potential for such \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism is denaturing\textsuperscript{15} as of identitive\textsuperscript{13}constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} as-cloistered-within-the-same-\textsuperscript{83}reference-of-thought at its uninstitutionalised-threshold\textsuperscript{182}. We
prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86} at uninstitutionalised-threshold\textsuperscript{102} actually highlights that from a prospective perspective of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought our positivism–procrypticism\textsuperscript{88} registry-worldview/dimension is very much imbued with a flawed ontological-performance\textsuperscript{72}–<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology\textsuperscript{55} is coherent, failing to factor in that it is preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism at its uninstitutionalised-threshold\textsuperscript{88} as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{55} as of prospective depocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17}; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} which we necessarily relate to as if of ontological-completeness-of-reference-of-thought, and this further explains as reflected from their prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought the notional–procrypticism\textsuperscript{88}/notional–disjointedness of all registry-worldviews/dimensions as of their prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought denaturing\textsuperscript{15} meaningfulness-and-teleology\textsuperscript{55} as of their identitive-constitutedness-as–epistemic-totality\textsuperscript{36}–dereification-in-dissingularisation\textsuperscript{28}–as-flawed-epistemic-determinism\textsuperscript{48} as-cloistered-within-the-same-reference-of-thought. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86}’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity\textsuperscript{38}-reification\textsuperscript{86}, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88} mindset construal of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} that utterly overlooks the de-
mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional-procrypticism/notional-disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance-including-virtue-as-ontology as wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought preconverging-or-
dementing—apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance—including-virtue-as-ontology> as <amplituding/formative>wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology} in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing—apriorising-psychologism representation as temporal denaturing ontological-performance—including-virtue-as-ontology> of the prior institutionalisation perception-of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology about existential-contextualising-contiguity. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance—including-virtue-as-ontology> as <amplituding/formative>wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology} of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that surpersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-
cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60 –100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation/epistemic-immanence/veridical-epistemic-determinism ontological-performance correspondence with the full-potency of existence is a notion of teleology in notional–conflatedness as of ontological-normalcy/postconvergence (with fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising) and entailment–(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so as to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility–<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-

mentation-capacity and the correspondingly constraining consequences on its ontological-performance\textsuperscript{71}--including-virtue-as-ontology\textsuperscript{71}. Rather it is more candid to relate to the\textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of human limited-mentation-capacity-deepening\textsuperscript{52}, and so as of prospective intemporal secondnaturesd institutionalisation induced universal-transparency\textsuperscript{104}--\textsuperscript{transparency-of-totalising-entailing,-as-to-entailing--\textsuperscript{amplituding/formative–epistemicity}totalising--in-relative-ontological-completeness\textsuperscript{87}), deferential-formalisation-transference and habituation in positive-opportunism\textsuperscript{75}. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory--de-mentativity meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness\textsuperscript{87}--of\textsuperscript{83}reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{86} as of the developed disposition to register such implications as of their intemporal/longness-of-register-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} pertinence; as the notion of cossgenerational de-mentation--(supererogatory--ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}. Thus the metaphoricity\textsuperscript{56} exercise of transcendence-and-sublimity/sublimation/supererogatory--de-mentativity is not one of necessarily eliciting instant meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework\textsuperscript{72} for prospective universal positive-opportunism\textsuperscript{75}; as we can appreciate that in reality the possibility
of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation-as-veridical-epistemic-determinism\textsuperscript{21} protracted-teleological-wholeness/nested-congruence-in-reflecting-the\textsuperscript{-66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}, so-construed-as\textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity\textsuperscript{62}-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38}-in-reification\textsuperscript{86}’ as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-\textsuperscript{83}reference-of-thought, with regards to the construal of meaningfulness-and\textsuperscript{55}teleology as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and\textsuperscript{55}teleology varies as of underlying relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87}\textsuperscript{83}reference-of-thought; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—‘human\textsuperscript{amplituding/}formative–epistemicity\textsuperscript{totalising–purview-of-construal’}, the meaningfulness-and\textsuperscript{55}teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness\textsuperscript{88}-of\textsuperscript{83}reference-of-thought despite the existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness\textsuperscript{87}-of\textsuperscript{83}reference-of-thought. The fundamental implication here is that transcendental meaningfulness-and\textsuperscript{55}teleology is hardly construed in any presence registry-worldview/dimension \textsuperscript{83}reference-of-thought as of its rather prospective relative-
ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought\textsuperscript{33}; with the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity arising as of crossgenerational induced metaphoricity\textsuperscript{56}. de-mentative/structural/paradigmatic <amplituding/formative–epistemicity> causality—as-to-
projective-totalitative–implications, for explicating ontological-contiguity
of meaningfulness-and teleology as of the prospective relative-ontological-completeness reference-thought construed as maximalising-recomposuring for-relative-ontological-completeness—unenframed-conceptualisation over the prior relative-ontological-incompleteness reference-of-thought construed as incrementalism in-relative-ontological-incompleteness—enframed-conceptualisation; wherein the prospective relative-ontological-completeness reference-thought is in a reified overlooking/superseding of the prior relative-ontological-incompleteness reference-of-thought. In other words, reification is about apriorising-teleological resetting of <amplituding/formative–epistemicity> totalising/circumscribing/delineating meaningfulness-and teleology to the prospective relative-ontological-completeness reference-of-thought. Lacking such an insight about reification will induce an ontologically-flawed apriorising-teleological-elevation-in ontological-contiguity of the prior relative-ontological-incompleteness reference-of-thought which is in dereification and the corresponding ontologically-flawed apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity of the prospective relative-ontological-completeness reference-of-thought which is as of

This is because the lack of reification\textsuperscript{86} wrongly implies that the \textit{<amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}’-with-regards-to-prospective-apriorising-implications>)} \textsuperscript{83}reference-of-thought framework of registry-worldviews/dimensions are the absolute determinants of intemporal value reference, such that the \textit{<amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}’-with-regards-to-prospective-apriorising-implications>)} \textsuperscript{83}reference-of-thought framework of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism\textsuperscript{88} and deprocrypticism\textsuperscript{17}, are paradoxically-and-falsely equally the absolute determinants of intemporal value reference; whereas reification\textsuperscript{86} highlights that all the successive institutionalisations are as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, but of varying ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as of their prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought, as of human limited-mentation-capacity-deepening\textsuperscript{52}. Behind this possibility of ontologically-flawed dereification of human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is the fact that given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, ‘the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} \textit{<amplituding/formative–epistemicity>causality~as-to-}
sufficient reason for prospective human registry-worldview’s/dimension’s institutionalisation, but warrants a secondnaturing process of elicited and secondnatured positive-opportunism\textsuperscript{75} as of ontological-primemovers-totalitative-framework\textsuperscript{72} articulation of meaningfulness-and-teleology\textsuperscript{55} by skewing for universal-transparency\textsuperscript{184}—(transparency-of-totalising-entailing,-as-to-entailing—\langle amplituding/formative–epistemicity\rangle—totalising~in-relative-ontological-completeness\textsuperscript{87}) and social deferential-formalisation-transference. The implication here is that the social-construct has ever always been a threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold\textsuperscript{192}; wherein respectively there is positive-opportunism\textsuperscript{75} for prior institutionalisation and no positive-opportunism\textsuperscript{75} for prospective institutionalisation, explaining the developing reality of the various successive human registry-worldview’s/dimension’s institutionalisations, as of retrospective and prospective implications. This fundamentally points to a ‘human psychology of positive-opportunism\textsuperscript{75} as of prior-institutionalisation-reification\textsuperscript{86} and uninstitutionalised-threshold\textsuperscript{192}-dereification’, that points out that hitherto the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} has not been about ‘dimensionality-of-sublimating—\langle amplituding/formative\rangle—supererogatory-de-mentativeness/epistemic-growth-or-confoundedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation temporal individuations dispositions’ transformation into ‘dimensionality-of-sublimating—\langle amplituding/formative\rangle—supererogatory-de-mentativeness/epistemic-growth-or-confoundedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reflected as to ontological-good-faith/authenticity\textsuperscript{68} over ontological-bad-faith/inauthenticity\textsuperscript{63} elucidatin/reification\textsuperscript{86} of existential-contextualising-contiguity\textsuperscript{38}, but rather a constraining positive-opportunism\textsuperscript{75} secondnaturing to emancipating reference-of-

The basis for this ‘human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification’, is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance—<including-virtue-as-ontology> given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold’ as of ‘no positive-opportunism for prospective institutionalisation’ is a threshold at which there is a de-mentative/structural/paradigmatic lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of uninstitutionalised-

It is untenable to construe of the ultimate potential of human emancipation without the eliciting of
this more fundamentally authentic basis of human emancipation as of the overcoming of human limited-mentation-capacity temporal dynamics beyond just ‘the elicitation of positive-opportunism’ to existential constraining’; as implied by ontologically-uncompromised—referentialism singularity/epistemic-immanence/veridical-epistemic-determinism mirroring ontological-completeness-of-reference-of-thought of inherent existence as ‘ecstatic singularity’, very much unlike reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation—as-of-ontologically-compromised—categorising-or-qualifying-or-tendentious-or-impulsive implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of their given prior relative-ontological-incompleteness of-reference-of-thought that fail to mirror inherent existence as ‘ecstatic singularity’. The insight here about reification\(^{86}\) is that all their intemporal value references are rather as
subsumed in their ‘positivistic reification\(^{86}\) of meaningfulness-and-\(^{99}\)teleology\(^{55}\) as of their
prospective relative-ontological-completeness\textsuperscript{87} of reference of thought with the corresponding implications of human ‘prospective positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-performance\textsuperscript{71}’ as aetiolisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments\textsuperscript{105}. By that token they are effectively of the most intellectually-and-morally inclined persons of their society. Contrastively, the temporal value reference as of non-positivism/medievalism <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{55}, as of ‘nondescript/ignorable–void’ with regards to prospective-apriorising-implications>) mental-dispositions of persons like ‘honourable aristocrats’ simply reified to the universalisation–non-positivism/medievalism registry-worldview/dimension with its prior relative-ontological-incompleteness\textsuperscript{88} of reference of thought vices-and-impediments\textsuperscript{105}, while favourably looked upon as of non-positivism/medievalism society <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} from a prospective\textsuperscript{92} singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing\textsuperscript{15} meaningfulness-and-teleology\textsuperscript{55}, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology\textsuperscript{55} that there is and can exist is ontological as of prospective relative-ontological-completeness\textsuperscript{87}, such that any such implied meaning is only ontologically intelligible with its reification\textsuperscript{86} as of prospective relative-ontological-completeness\textsuperscript{87} of reference of thought, as so implied from\textsuperscript{92} singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology\textsuperscript{55}. With such charlatanism certainly knowing better but opting for denaturing\textsuperscript{25} conceptions of value reference as of \textless{}amplituding/formative\textgreater{} wooden-language—(imbued—averaging-of-thought—\textless{}as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99} teleology\textsuperscript{55} as of ‘nondescript/ignorable–void\textsuperscript{59}’ with-regards-to-prospective-apriorising-implications\textgreater{}) advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity\textsuperscript{63} raised herein by this author is a reflection of the reality that knowledge
as organic-knowledge is existentially all-committal by the mere fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with the possibility of denaturing\textsuperscript{25} as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework\textsuperscript{22} reflection of existential-contextualising-contiguity\textsuperscript{38}. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating\textsuperscript{24}—supererogatory—de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness\textsuperscript{88-of:\textsuperscript{83}}reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\textsuperscript{5} conception of knowledge’ that superseded and didn’t recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness\textsuperscript{87-of\textsuperscript{83}}reference-of-thought; and
in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode scholastic pedantry. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflicatedness’-of-notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness-of-reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness-of-reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendently projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’
of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100
years of existence reality of meaningfulness-and teleology. The intemporal ‘reifying choice-
and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation
is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning
with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and
certainly explaining why uninstitutionalised-threshold transcending has ever always been
conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency
existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of reference-of-thought for ontologically-veridical meaningfulness-and teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal
mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance\textsuperscript{74} \textless \textit{including-virtue-as-ontology} \textgreater \ manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing\textsuperscript{25} of the \textless \textit{amplituding/formative–epistemicity} \textgreater totalising–devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the \textless \textit{amplituding/formative–epistemicity} \textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drage\textsuperscript{33} backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism\textsuperscript{77}-slantedness, and its social cognisance and integration as conjugated-postlogism\textsuperscript{77} so-conjugating as of ignorance/affordability/opposition/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49} as of social psychopathy. In this latter case of contrasted reification\textsuperscript{86} and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—contrastive-reification\textsuperscript{86}-dissemination\textsuperscript{27}.and-dereification-dissemination\textsuperscript{27}-implications’ construed as the ‘variance/discrepancy of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’ as-of-prospective-relative-ontological-completeness\textsuperscript{87}-postconverging-or-dialectical-thinking\textsuperscript{28} apriorising-psychologism and as-of-prior-relative-ontological-incompleteness\textsuperscript{88}-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism respectively; it is only ontologically-veridical
difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-singularisation-as-veridical-epistemic-determinism\textsuperscript{21} from the projected ‘notional—\textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism’ of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness\textsuperscript{87}-postconverging-or-dialectical-thinking\textsuperscript{28}–apriorising-psychologism recognising this ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism variance/discrepancy of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’ that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity\textsuperscript{38} as implied by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of reifying intemporal/valid/postconverging-or-dialectical-thinking\textsuperscript{20} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness\textsuperscript{87} apriorising-teleological-elevation-in-ontological-contiguity and as of dereifying temporal-as-psychopathic-and-social-psychopathic/invalid/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments in prior relative-ontological-incompleteness\textsuperscript{88}–apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–shallow-\textsuperscript{96}supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> (psychopathic and social psychopathic), and so before aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{55} can even be then articulated as ontologically-veridical exclusively as of the intemporal/valid/postconverging-or-dialectical-thinking\textsuperscript{20} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument perspective or attitude/mental-disposition/care–and–episteme\textsuperscript{5}. Such a difference-conflatedness\textsuperscript{32}–as-of–epistem-totality\textsuperscript{36} is equally what reflects in the bigger scheme of things, at the reference-
of-thought-level, the reality of humankind as of the successive registry-worldviews/dimensions
humans psychological dispositions as per their corresponding
apriorising/axiomatising/referencing/intelligibility/setup/measuring instruments. In this regard, the ontological-contiguity—of-the-human-institutionalisation-process can be construed as human
singularisation/epistemic-immanence/veridical-epistemic-determinism; with the various prior registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> rather successively as lesser and lesser dereification-levels towards the notional–deprocripticism reification.
Consider in that with regards to ‘the very same physics <amplituding/formative-epistemicity>–totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, its reification as ‘apriorising-teleological resetting of <amplituding/formative-epistemicity>–totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-physics-axiomatic-construct’ implies that de-mentatively/structurally/paradigmatically ‘traditional classical mechanics axiomatic-construct’ is dereified as of its prior relative-
ontological-incompleteness\textsuperscript{88} to theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is rather reified as of its prospective relative-ontological-completeness\textsuperscript{87}; such that interestingly to construe, as of ontological-veridicality, the reality of ‘traditional classical mechanics axiomatic-construct’ requires rather assuming/departing-from an understanding of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as implied by the reifying theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in articulating ontologically-veridical difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}—in-singularisation-as-veridical-epistemic-determinism\textsuperscript{21} from this projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ as of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective or attitude/mental-disposition/care—and—episteme\textsuperscript{5} over ‘traditional classical mechanics axiomatic-construct’, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification—dissemination—derelification-dissemination—implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology’ as of prospective relative-ontological-completeness\textsuperscript{87} and as of prior relative-ontological-incompleteness\textsuperscript{88}. Note that on the imaginary supposition that no such prospectively projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology’, mental-dispositions in prior relative-ontological-incompleteness\textsuperscript{88} will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive\textsuperscript{13}—constitutedness-as—epistemic-totality—derelification-in-dissingularisation—as-flawed-epistemic-determinism as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity\textsuperscript{38} of ‘the very same physics—totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutiveness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism is in reality preconverging-or-dementing-apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procripticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procripticism–or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing-apriorising-psychologism at our prospective positivism–procripticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procripticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of their universalisation–non-positivism/medievalism uninstitutionalised-threshold), ontological-
veridicality is rather assumed/departs from an understanding of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as implied with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective deprocrypticism–or–preempting—disjointedness-as-of,\textsuperscript{43}reference-of-thought\textsuperscript{17} registry-worldview/dimension and not our positivism–procrypticism\textsuperscript{86}, in articulating ontologically-veridical difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singualarisation-as-veridical-epistemic-determinism\textsuperscript{21} from this projected ‘notional—\textsuperscript{92}singualarisation/epistemic-immanence/veridical-epistemic-determinism’ as of deprocrypticism–or–preempting—disjointedness-as-of,\textsuperscript{83}reference-of-thought\textsuperscript{17} perspective or attitude/mental-disposition/care–and–episteme\textsuperscript{5} over our positivism–procrypticism\textsuperscript{86}, so-implied as of their disseminative-notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–contrastive-reification\textsuperscript{86}–dissemination\textsuperscript{27}–and-dereification-dissemination\textsuperscript{27}–implications. But then just as the reflex mental state and attitude/mental-disposition/care–and–episteme\textsuperscript{5} in a universalisation–non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care–and–episteme\textsuperscript{5} of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness <amplituding/formative>wooden-language–(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}–as-of–‘nondescript/ignorable–void\textsuperscript{97}–with-regards-to-prospective-apriorising-implications>) reflex mental state and attitude/mental-disposition/care–and–episteme\textsuperscript{5} in our positivism–procrypticism\textsuperscript{86} that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care–and–episteme\textsuperscript{5} of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–
teleology\textsuperscript{55} as of prospective deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17} to arrive at ontological-veridicality that rather implies the dialectical–dementation of our positivism–procripticism\textsuperscript{80} at its uninstitutionalised-threshold\textsuperscript{192}; and as we falsely go on to construe existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification by adopting the positivism–procripticism\textsuperscript{88} dereifying perspective or attitude/mental-disposition/care–and–episteme\textsuperscript{5} in its prior relative-ontological-incompleteness\textsuperscript{88} in an exercise of ontologically-flawed identitive-as-'epistemic-totality\textsuperscript{36}’-dereification-indissingularisation\textsuperscript{28}–as-flawed-epistemic-determinism\textsuperscript{48}. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism\textsuperscript{77}-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification arise as of their temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing\textsuperscript{39}–apriorising-psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism\textsuperscript{77}-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}, so-disambiguated as of reference-of-thought-devolving\textsuperscript{84} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are
endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this
author that more critically manifestations of postlogism\textsuperscript{77}-slantedness across all the registry-
worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-
incompleteness\textsuperscript{88} of reference-of-thought, with transcendental implications that goes well
beyond the ad-hoc conception of manifestations of postlogism\textsuperscript{77}-slantedness but more broadly
conceive as of the destructuring/aetiologisation/ontological-escalation implications arising from
underlying relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} of
reference-of-thought with regards to human living-development–as-to-personality-
development, institutional-development–as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} underdevelopment issues. This underlying
relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} of
implications, for explicating,\textsuperscript{66} ontological-contiguity\textsuperscript{44} of analysis, as of difference-

The question can then be asked with regards to the capacity of such a positivism–procrypticism\textsuperscript{80} self-consciousness psychology to attend to living-development–as-to-personality-development, institutional-development–as-to-social-function-development, Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} underdevelopment issues/problems directly related to the lack of ‘futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} self-consciousness psychology that recognises-and-registers the prospective metaphoricity\textsuperscript{56} need as of human limited-mentation-capacity due to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’. This insight is in effect the futural rejoinder to the Foucauldian hermeneutics of the subject with respect to human prospective \textsuperscript{83}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity capacity; in the sense that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating–\textsuperscript{66}ontological-contiguity\textsuperscript{44} has always called upon a certain
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument development of the human subject itself as enabling-and-making-available the capacity for that human subject to
tackle the prospective issues of its world. In this regard, the question could be asked: what is the
capacity of the universalisation–non-positivism/medievalism mindset to tackle prospective issues
warranting a positivism self-consciousness psychology, and by extension what is the capacity of

Insightfully, this author further addresses the common criticism of postmodern-thought with regards to virtue, as of postmodern implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(^{47}\). De-mentatively/structurally/paradigmatically a registry-worldview’s/dimension’s reference-of-thought points fundamentally to its ‘underlying reference-of-thought–categorical-imperatives/axioms/registry–\(^{99}\)teleology–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\(^{99}\)teleology\(^{55}\) with regards to the latter’s ‘temporality\(^{98}\)-as-shortness-of-register-of–meaningfulness-and-\(^{99}\)teleology\(^{55}\) to intemporal-longness-of-register-of–meaningfulness-and-\(^{99}\)teleology\(^{55}\) ontological-performance\(^{71}\)-<including-virtue-as-ontology>’ as of notional-contiguity/epistemic-contiguity\(^{61}\)-<profound–\(^{96}\)supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking\(^{28}\)–qualia-schema>. Such that it is fundamentally the prior relative-ontological-incompleteness\(^{88}\)-of reference-of-thought that becomes the ‘lack-of-virtue or vice issue’, beyond just any associated incidental existential problems, as requiring aetiologisation/ontological-escalation as of the need for prospective relative-ontological-completeness\(^{87}\)-of reference-of-thought to address the myriad <amplituding/formative–

Consider in this regard the temporal ontological-performance\textsuperscript{71}–\textsuperscript{including-virtue-as-ontology} as of say a postlogism\textsuperscript{77}–slantedness or any other temporal or derived-temporal mental-disposition associated with vicious accusations-of-sorcery for instance in a non-positivistic as animistic or medieval social-setup. The fact that even an intemporally-inclined mental-disposition in that social-setup has an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification that is ‘mutually cognisant-and-integrative beyond-the-consciousness-awareness–\textsuperscript{99}teleology–\textsuperscript{in-existential-extrication-as-of-existential-unthought}>\textsuperscript{6}’ with notions-and-accusations-of-witchcraft itself as of their ‘underlying \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–\textsuperscript{99}teleology\textsuperscript{8},–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}’ presents an \textsuperscript{amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} issue that endemises notions-and-accusations-of-witchcraft in the vices-and-impediments\textsuperscript{105} of that given social-setup. It is the prospective notional-contiguity/epistemic-contiguity\textsuperscript{61}–\textsuperscript{profound–supererogation-of-mentally-aestheticised~postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema} as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as setting up the positivism ‘underlying \textsuperscript{83}reference-of-thought–categorical-

Basically when post-structuralists speak of ‘the other’ this translates into aetiolisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care–and–episteme\textsuperscript{5} event-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human <amplitudizing/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of ‘nondescript/ignorable–void\textsuperscript{97}-with-regards-to-prospective-apriorising-implications>) mental-dispositions as of ‘mutual temporal/shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} eliciting’ construed as ‘intemporal temporality\textsuperscript{98}’. Such tendencies are hardly of aetiolisation/ontological-escalation as their emphasis lies in existential-extrication-as-of-existential-unthought, rather than nonextricatory-existential-preempting-of-existential-unthought in enabling Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of ‘universal projection implications attitude/mental-disposition/care–and–episteme\textsuperscript{5} event-or-operant implications to all and sundry’; such that fundamentally, such <amplitudizing/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of ‘nondescript/ignorable–void\textsuperscript{97}-with-regards-to-prospective-apriorising-implications>) tendencies do not address de-mentatively/structurally/paradigmatically defining issues of a registry-worldview/dimension as of its vices-and-impediments\textsuperscript{105} like the comprehensive
implications of disjointedness-as-of-ref.\textsuperscript{83}reference-of-thought/procripticism\textsuperscript{88} with regards to our positivism–procripticism or say the comprehensive implications of non-positivism in a medieval or animistic social-setup. Prospective notional-contiguity/epistemic-contiguity\textsuperscript{61}<profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{28}–qualia-schema> thus effectively implies deneuterising\textsuperscript{16} ‘exteriorisation attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ of meaningfulness-and-ref.\textsuperscript{99}teleology\textsuperscript{55}–as-metaphoricity\textsuperscript{56} superseding/overriding the prior ref.\textsuperscript{83}reference-of-thought temporally neuterising\textsuperscript{57} ‘interiorisation attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ of meaningfulness-and-ref.\textsuperscript{99}teleology\textsuperscript{55}. This fundamentally speaks of a de-mentative/structural/paradigmatic conception of virtue-as-ontology transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87}–of-ref.\textsuperscript{83}reference-of-thought. This very much differs from <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} 66ontological-contiguity palliative virtue constructs as of variance of the very same ref.\textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–ref.\textsuperscript{99}teleology\textsuperscript{8},–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-ref.\textsuperscript{99}teleology\textsuperscript{55}, and thus implies temporally neuterising\textsuperscript{57} ‘interiorisation attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ of meaningfulness-and-ref.\textsuperscript{99}teleology\textsuperscript{55}. This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-ref.\textsuperscript{99}teleology\textsuperscript{55} in reflecting holographically–<conjugatively-and-transfusively> the 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}. Such an 66ontological-contiguity <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}
virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology\textsuperscript{55} existentialising—enframing/imprintedness-\textless as-to-historicity-tracing—iny-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> frameworks and temporal mandarinism/pedantry frameworks as of the given \textsuperscript{83}reference-of-thought, with these elements in need for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87} of \textsuperscript{83}reference-of-thought but paradoxically now defining the conception of virtue. The fact is our pretences and arguments of practice, as not critically pinned down to their ontological-veracity as of prospective relative-ontological-completeness\textsuperscript{87}, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought practices, and thus conceptualising virtue by \textless amplituding/formative–epistemicity\textgreater totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} while circumventing as of beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textless in-existential-extrication-as-of-existential-unthought\textgreater the vices-and-impediments\textsuperscript{185} of each registry-worldview/dimension in want of its ‘pure-ontology’ virtue resolution as of aetiologisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying de-mentative/structural/paradigmatic ontological implications about our ‘modern take attitude/mental-disposition/care–and–episteme\textsuperscript{57} reflected by the ‘postmodern deprocrypticism—or–preempting—disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{17} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{67} with regards to social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} existentialising—enframing/imprintedness-\textless as-to-historicity-tracing—iny-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}> frameworks and temporal mandarinism/pedantry frameworks, are no different
to say ‘non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme⁵’ overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology⁵⁵ existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⁴⁶> frameworks and temporal mandarinism/pedantry frameworks as reflected from ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme⁵’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness⁸⁷-by-reification⁸⁶/contemplative-distension⁴⁶, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness⁸⁷-of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought>⁶.

The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ⁶⁶ontological-contiguity—of-the-human-institutionalisation-process⁶⁷ as of difference-conflatedness¹²-as-to-totalitative-reification⁸⁶-in-singularisation-as-veridical-epistemic-determinism¹¹ <amplituding/formative–epistemicity> causality–as-to-projective-totalitative-implications–for-explicating,⁶⁶ontological-contiguity⁴⁷ as of Being-development/ontological-

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold[102].
for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the very same non-positivism/medievalism in need for prospective positivism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing/imprintedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition frameworks and temporal mandarinism/pedantry frameworks; and, hence the ontologically-veridical paradox of the very de-mentating/structuring/paradigming implications of human limited-mentation-capacity-deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon’ constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\textsuperscript{52} implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness\textsuperscript{12} of notional~deprocrypticism.\textsuperscript{47} However, it is equally critical to grasp the double-gesture reification\textsuperscript{86} implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards\textsuperscript{92} singularisation.\textsuperscript{47}

Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care~and~episteme\textsuperscript{5} with respect to human social-stake-contention-or-confliction; with the adherence to the \textsuperscript{83}reference-of-thought~categorical-imperatives/axioms/registry-teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring~meaningfulness~and~teleology\textsuperscript{55} of such organic-knowledge construed in intemporality\textsuperscript{51} as supplanting~conviction~as~to~profound~supererogation~—~postconverging/dialectical-thinking~—~apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold~of~nonconviction~madeupness/bottomlining~as~to~shallow~supererogation~—~preconverging/dementing~—~apriorising-psychologism to such mere \textsuperscript{83}reference-of-thought~categorical-imperatives/axioms/registry~teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring~meaningfulness~and~teleology\textsuperscript{55}. The latter points to an inappropriate attitude/mental-disposition/care~and~episteme\textsuperscript{5} which is not beholden to the prospective institutionalisation but rather is of existential-extrication~as~of~existential-unthought relation with it. More concretely, consider the practice of serfdom in
Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme⁶ and organic-knowledge attitude/mental-disposition/care–and–episteme⁵. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme⁵ will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-encultured tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology⁵⁵ in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme⁵ as of its prior relative-ontological-incompleteness⁸⁻⁸⁻reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation⁴⁷ posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The
occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification\(^{86}\) in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-\(^{99}\)teleology\(^{55}\) to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-\(^{99}\)teleology\(^{55}\) as of any specific human society relative-ontological-incompleteness\(^{88}\)-of-\(^{83}\)reference-of-thought as fundamentally denaturing\(^{15}\), and likely to induce transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency\(^{104}\)-\(\langle\text{transparency-of-totalising-entailing-as-to-entailing-}<\text{amplituding-formative-epistemicity}>\text{totalising-in-relative-ontological-completeness}\rangle\). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-\(<\text{conjugatively-and-transfusively}>\text{the }6^{6}\text{ontological-contiguity—of-the-human-institutionalisation-process}\rangle\) as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-
as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme⁵, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme⁵ in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification⁸⁶ of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency¹⁰⁴-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness⁸⁷). Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
⁹²singularisation⁴⁷ that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme⁵. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold¹⁰² ⁸³reference-of-thought–categorical-imperatives/axioms/registry-⁹⁹teleology⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-⁹⁹teleology⁵⁵ as

In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event-or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–projective-insights”)’epistemic-projection-in-conflatedness–of-notional–deprocrypticism–prospective–
sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflicatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism<amplituding/formative-epistemicity>causality~as-to-projective-totalitative-implications,-for-explicating-as-of-difference-ontological-contiguity shows that there has always been beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of
social universal-transparency\textsuperscript{104}-\langle transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-completeness\textsuperscript{87}\rangle'. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought as underscoring medieval vices-and-impediments\textsuperscript{105} with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-\textsuperscript{83}reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-\langle conjugatively-and-transfusively\rangle the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics \langle amplituding/formative–epistemicity\rangle totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-
primemovers-totalitative-framework\textsuperscript{72}, and so divulged by existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textless amplituding/formative–epistemicity\textgreater totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\textsuperscript{12}; as prior human presencing—absolutising-identitive–constitutedness\textsuperscript{79} experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendent-al-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive–constitutedness\textsuperscript{79} enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs \textsuperscript{13} constitutedness, but rather it is by conflatedness\textsuperscript{12} with regards to ‘the very same physics \textless amplituding/formative–epistemicity\textgreater totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing\textsuperscript{68}–\textless perspective–ontological-normalcy/postconvergence\textgreater. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of–meaningfulness-and–teleology\textsuperscript{55} individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework\textsuperscript{72} tendential validation as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textless amplituding/formative–epistemicity\textgreater totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\textsuperscript{12}. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-notional-deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct.
involving necessarily the deliberateness as of Derridean freestyle différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-totalising–renewing–realisation/re-perception/re-thought, in–supererogatory–epistemic-conflededness so-implied as of ontology’s-directedness–as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking—apriorising-psychologism deference to the prescience of existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-totalising–renewing–realisation/re-perception/re-thought, in–supererogatory–epistemic-conflededness over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness–reference-of-thought over human
normativity/conventioning as of the latter’s prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought, and so by maximaliing-recomposuring <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism\textsuperscript{88}, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality\textsuperscript{98}–as-of-neuterisation\textsuperscript{88}/relative-ontological-incompleteness\textsuperscript{88}/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension \textsuperscript{83}reference-of-thought in prospective relative-ontological-completeness\textsuperscript{97}–of-axiomatic-construct-or-\textsuperscript{83}reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension \textsuperscript{83}reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{88}, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing, as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and
downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’’. Thus by its prospective relative-ontological-completeness\textsuperscript{87} of axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} comes into terms with both presencing—absolutising-identitive\textsuperscript{13} constitutedness\textsuperscript{79} and nonpresencing\textsuperscript{60} of perspective–ontological-normalcy/postconvergence on the basis of the prospective relative-ontological-completeness\textsuperscript{87}/ontological-contiguity of the latter over the prior relative-ontological-incompleteness\textsuperscript{88} of notional-discontiguity/epistemic-discontiguity\textsuperscript{62} of shallow\textsuperscript{96} supererogation of mentally-aestheticised—preconverging/dementing\textsuperscript{19}—qualia-schema of the former as of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality—amplituding/formative–epistemicity—totalising—purview-of-construal. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} but rather difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} between presencing—absolutising-identitive\textsuperscript{13} constitutedness\textsuperscript{79} and nonpresencing\textsuperscript{60} of perspective–ontological-normalcy/postconvergence. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness\textsuperscript{87} notional-contiguity/epistemic-contiguity\textsuperscript{61}’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology\textsuperscript{55} grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp base-
institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the
Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency\textsuperscript{104} (transparency-of-totalising-entailing,-as-to-entailing-\langle\textit{amplituding}-formative-epistemicity}\rangle totalising-in-relative-ontological-completeness\textsuperscript{87}\rangle)’ such charlatanism is exposed for what it really is, explaining the paniciness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation-\langle\textit{supererogatory}_-\textit{ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\rangle\textsuperscript{14} which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23}/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-\langle\textit{as-to-postconverging-or-dialectical-thinking}\rangle\textsuperscript{20}–apriorising-psychologism\rangle of the consciousness in \textit{ontological-contiguity}/relative-ontological-completeness\textsuperscript{87} of reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-\langle\textit{as-to-preconverging-or-dementing}\rangle\textsuperscript{19}–apriorising-psychologism\rangle of the consciousness of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–<\textit{shallow}-\textit{supererogation-of-mentally-aestheticised–preconverging/dementing}–\textit{qualia-schema}>/relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought as of maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}–unenframed-conceptualisation, and not incrementalism\textsuperscript{59}–in-relative-ontological-incompleteness\textsuperscript{88}–enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
“human<amplituding/formative–epistemicity>totalising~purview-of-construal”’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening52; overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology55 should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising22, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising23 as of prospective relative-ontological-completeness87-of-.83reference-of-thought bringing about transcendence-and-sUBLIMITY/sublimation/supErSupERrogatory—de-mentativity as of nonpresencing68.<perspective–ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay2 further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sUBLIMITYs that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness88 and prospective relative-ontological-completeness87, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising22 but rather a difference-in-nature/difference-in-apriorising-or-axiomatising23; with human-subpotency aligning towards the full potency of
existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/\textit{supererogatory—de-mentativity} of nonpresencing\textsuperscript{60}.\textless \text{perspective–ontological-normalcy/postconvergence}. In other words, human consciousness tends to be constraint to its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} mental-disposition as of presencing—absolutising-identitive\textsuperscript{13}constitutedness\textsuperscript{79}. But existence/ontology’s-directedness-as-Being as of nonpresencing\textsuperscript{60}.\textless \text{perspective–ontological-normalcy/postconvergence} is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/\textit{supererogatory—de-mentativity} as of ontological-prime movers-totalitative-framework\textsuperscript{72} validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} posture; such that humankind then overlooks presencing—absolutising-identitive\textsuperscript{13}constitutedness\textsuperscript{79} and re-
projects/re-anticipates nonpresencing\textsuperscript{68} \textless \text{perspective–ontological-normalcy/postconvergence} \textgreater
enabling human transcendence-and-sublimity/sublimation/supereogatory–de-mentativity.

Therefore, metaphoricity\textsuperscript{56} as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\textsuperscript{56} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. metaphoricity\textsuperscript{56} as such simply refers to signification adjunctiveness to ‘underlying \textless \text{amplituding/formative–epistemicity} \textgreater \text{totalising/circumscribing/delineating signifying-construct of language}’ as of both the meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} implications to the so-renewed ‘underlying \textless \text{amplituding/formative–epistemicity} \textgreater \text{totalising/circumscribing/delineating signifying-construct of language}’ and the specific adjunctive-metaphoricity\textsuperscript{56}-signification within such renewed ‘underlying \textless \text{amplituding/formative–epistemicity} \textgreater \text{totalising/circumscribing/delineating signifying-construct of language}’. metaphoricity\textsuperscript{56} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as an epistemic-totalising\textsuperscript{32}/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{56} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing\textsuperscript{68} \textless \text{perspective–ontological-normalcy/postconvergence} \textgreater by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework\textsuperscript{72}. Further, metaphoricity\textsuperscript{56} as such speaks of the evasiveness of all human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} at uninstitutionalised-threshold\textsuperscript{102} as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism possibilities relation to
of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing.<perspective–ontological-normaley/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism–or–disjointedness-as-of-uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just
our natural inclination for totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. Galileo could well had possibly recasted his implied positivism meaningfulness-and-\textsuperscript{69}teleology\textsuperscript{55} in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing\textsuperscript{68}–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} we entertain today. Likewise, as of such metaphoricity\textsuperscript{56} episteme, the meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} herein implied as of its essence cannot do without this hermeneutic/reprojective circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness\textsuperscript{12}; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2}. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification\textsuperscript{86} that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification\textsuperscript{86} reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring
for profundity and completeness. Such that this double-gesture reification\textsuperscript{86} of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity\textsuperscript{68}. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity\textsuperscript{63} critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification\textsuperscript{86} as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists
‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications), such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking-apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing–apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship.
with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality' is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness-of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplitudining/formative–epistemicity>totalising–in-relative-ontological-completeness)' with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured
immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity\textsuperscript{63} critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification\textsuperscript{86} of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-of–‘nondescript/ignorable–void\textsuperscript{59}’-with-regards-to-prospective-apriorising-implications>) ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity\textsuperscript{63} critics is much more than an issue about
postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—in-dimensionality-of-desublimating-lack-of—supererogatory—dementativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation—subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional—knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring— for-relative-ontological-completeness—oneframed-conceptualisation—dementating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought over a totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that
necessarily it speaks by its double-gesture reification\(^{86}\) of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective \(^{83}\) reference-of-thought ‘as of the prospective relative-ontological-completeness\(^{87}\)-of-axiomatic-construct-or-\(^{83}\) reference-of-thought of a better knowledge perspective\(^{83}\) reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness\(^{88}\) with regards to \(^{83}\) reference-of-thought and its derived meaningfulness-and-\(^{99}\) teleology\(^{55}\), with the implication that we need to a prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\) reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-\(^{99}\) teleology\(^{55}\). In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-\(^{99}\) teleology\(^{55}\), are made to have their internal-dialectics/différance as of nonpresencing\(^{68}\)-<perspective–ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into more profound and more complete meaningfulness-and-\(^{99}\) teleology\(^{55}\). For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness\(^{87}\); wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism–or–preempting—disjointedness-as-of-\(^{83}\) reference-of-thought\(^{17}\). Thus, for postmodern-thought the capacity to attain relative
ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting-as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation of our supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the congruent,-cogent-and-operant entailing framework of ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallowmindedness of
a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the 66 ontological-contiguity of the human institutionalisation-process as of Being-development/ontological-framework-expansion as to depth of ontologising-development-as-infrastructure-of meaningfulness and 99 teleology and so construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublation/superceratory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given 83 reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—transparency of totalising-entailing, as to-entailing—in-amplituding/formative—epistemicity—totalising—totalising—in-relative-ontological-completeness’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—as-of-meaningfulness arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of—
meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore
intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and de-mentating/structuring/paradigming of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism—procrypticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism—procrypticism disjointedness-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. as for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Such a dynamic cumulative remnant-and-co-opting premeaningfulness/preframing-<metaphoricity disposition—as-to-psyche-induced-psychologism-of-existential-stake> arises, as of the cumulative succession of prior ontologically-compromised-mediating consciousnesses covert-shallow-limited-mentation-capacity-as-uninstitutionaled-threshold-denaturing-as-of-circular-complexification with respect to the specific presence institutionalisation consciousness reference-of-thought at its uninstitutionalised-threshold.

Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-\langle\text{teleology}\textsuperscript{55}\rangle notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms–as-of-axiomatic-construct of ‘neuterising\textsuperscript{57} as of \langle\text{amplituding/formative–epistemicity}\rangle-totalising/circumscribing/delineating \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84} whether beyond-the-consciousness-awareness-\langle\text{teleology-<in-existential-extrication-as-of-existing-unthought>}\textsuperscript{6}\rangle, and so elucidated from the ontological-normalcy/relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought perspective of notional-deprocrypticism\textsuperscript{17} ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-\langle\text{teleology}\textsuperscript{55}\rangle as of notional–notional–deprocrypticism\textsuperscript{57} as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising\textsuperscript{16}—referentialism, in lieu of neuterising\textsuperscript{57}. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising\textsuperscript{57}, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of conflatedness\textsuperscript{12} or destructuring respectively. performance, all occurring as of the conjoined dynamism of conflatedness and
distractive-alignment-to. reference-of-thought-<of-
apriorising/axiomatising/referencing>. This overall disparateness-of-ontologically-construed-
social-reality dynamism is reflected in ‘ontologically-compromised-mediating,-as-of-their-
specific-constitutedness consciousnesses flawed conceptualisation perspectives’ as of their
neuterising: wherein recurrent-utter-uninstitutionalisation has the deepest reference-of-thought/de-
mentative/structural/paradigmatic as ‘impulsive—ontologically-compromised-
mediating,-as-of-its-specific-constitutedness consciousness flawed conceptualisation
perspective’ neuterising by its trepidatious-consciousness, while on the other extreme in
contrast notional~deprocrypticism rather has a reference-of-thought/de-
mentative/structural/paradigmatic notional~deprocrypticism ‘referentialism—ontologically-
uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound
conceptualisation perspective’ that by its reference-of-thought-devolving—
différance/internal-dialectics/difference-deferral’ grasp the ontologically-veridical ‘underlying
human limited-mentation-capacity dynamics of <amplitudding/formative–
epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving, and so
without being subject to any neuterising as is the case with all ‘ontologically-compromised-
mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation
perspectives’. Thus by its deneuterising—referentialism construed as of
historiality/ontological-eventfulness/ontological-aesthetic-tracing, notional~deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking—
psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’, and so superseding a
 naïve metaphysics-of-presence affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is achieved from the prospective notional-conflatedness of notional-notional-deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing.<Perspective—ontological-normalcy/postconvergence>. In other words the historial implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is attainable as of deneuterising, construed as equinominal/equivalent with deneuterising—referentialism as the notional-conflatedness of notional-notional-deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing. Ultimately, this sociohistorical disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying mental-disposition as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} rather defectively as of mechanical-knowledge construal in existential instantiations’, inducing prospective neuterising\textsuperscript{57}. This disparateness is increasingly closed-down all along in reflecting holographically-\textit{conjugatively-and-transfusively}> the \textit{ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}} from recurrent-utter-uninstitutionalisation to positivism–procripticism\textsuperscript{88}, with the underlying tenet for achieving futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} as of prospective notional-deprocripticism\textsuperscript{17} as preempting—disjointedness-as-of-reference-of-thought being a full and cogent reflection of ‘human construal of organic-knowledge’ with ‘the mental-disposition behind that construal of organic-knowledge for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} in existential instantiations’ thus resolving the open-ended-incompleteness/nonachievement-of-ontological-normalcy. Overall, such a notional-conflatedness\textsuperscript{12} reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> ‘performance-construct of candidity/candour-capacity’ can be garnered as of metaphysics-of-absence wherein across the successive registry-worldviews/dimensions a notional–notional-deprocripticism\textsuperscript{17} insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought that underlies reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as a wholly internal process of conflatedness\textsuperscript{12}, highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing\textsuperscript{15}-deprojections-indistressiveness-of-intemporal-projection, with the former in relative longness-of-register-of-meaningfulness-and-teleology\textsuperscript{55} and the latter in relative shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{55}/distressiveness’ that occurs at the individuation-level and is
reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This conceptualisation of candidity/candour-capacity associated with notional-deprocrypticism with regards to ‘de-mentation-(supererogatory-ontological-de-mentation-or-dialectical--de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} implications for \textsuperscript{83}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ is in effect a ‘more profound-and-comprehensive notion of différance construed rather with respect to the defining \textsuperscript{83}reference-of-thought of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought’ and can be qualified as ‘futural différance’ as of its suprastructural nature, and goes beyond the limits of a Derridean perspective of différance as ‘historial différance’ rather articulated from ‘presencing-as-prospective-relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought construing of past-as-prior-relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought in ad-hoc reassessing of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} of presencing-as-prospective as from its very own \textsuperscript{83}reference-of-thought in grasping alterations of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} going back from the past but not to the point of putting into question the presencing-as-prospective overall \textsuperscript{83}reference-of-thought in prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’; such that the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of ‘historial différance’ is rather obscure as beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} though ancillary as to the possibility of eventual cumulating of ‘historial différance’ realterations of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} enabling the beyond-the-consciousness-awareness possibility of subsequent presencing-as-prospective \textsuperscript{83}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Consider a metaphysics-of-absence elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. reference-of-thought of human meaningfulness-and\textsuperscript{89} teleology\textsuperscript{55}’ (rather than a naïve construal based on incrementalism\textsuperscript{56}—in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation as successive additions which will wrongly imply an improvement along the same ‘curve-of-prior-relative-ontological-incompleteness\textsuperscript{88}—of-
reference-of-thought of human meaningfulness-and\textsuperscript{89} teleology\textsuperscript{55}’) wherein going by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as \textsuperscript{83}reference-of-thought comparison, the implication is one of successive ‘transformative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ (successive transformative references-of-thought) undertaking respectively the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (as logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{96} supererogation\textsuperscript{53}) of the same inherent existential-reality but with ‘respective dramatic changes in the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements’ (as dramatic changes in meaningfulness-and\textsuperscript{89} teleology\textsuperscript{55} from the successive registry-worldviews/dimensions references-of-thought), together with an underlying recurrent postlogism\textsuperscript{77}—as-of-compulsing–nonconviction/madeupness/bottomlining—as-to-threshold-of-shallow\textsuperscript{96} supererogation\textsuperscript{10} issue with the successive registry-worldviews/dimensions references-of-thought as of their prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought (due to ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism\textsuperscript{58}—in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\textsuperscript{102}’); highlighting the notion of defectiveness in successive transformative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as corresponding
to perversion-and-derived-perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation>/postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} as of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness\textsuperscript{87,83}reference-of-thought), the historical transformation of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}) as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-\textsuperscript{99}teleology we’ll construe for instance of a non-positivism/medievalism mindset/\textsuperscript{83}reference-of-thought that doesn’t register positivistic meaningfulness \textsuperscript{83}reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-\textsuperscript{99}teleology as of priorly unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism by its positivism–procrypticism\textsuperscript{80} \textsuperscript{83}reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening\textsuperscript{52} construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening\textsuperscript{52} virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-
recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation.

Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-\textsuperscript{83}reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—

preconverging/dementing\textsuperscript{19}–apriorising-psychologism of the postlogism\textsuperscript{77}–and-conjugated-postlogism\textsuperscript{77} in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism relative-ontological-incompleteness\textsuperscript{88}-induced,–‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—

preconverging/dementing\textsuperscript{19}–apriorising-psychologism’ (given that sorcery doesn’t exist, going by the insight of positivistic prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought whereas the non-positivism/medievalism registry-worldview/dimension is ridden with a whole complexity of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism construct of notions-and-accusations-of-sorcery meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as its dementating/structuring/paradigming of circularity/recurrence/repetition/repeatability\textsuperscript{9} (perversion-and-derived-perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation>–as-to-uninstitutionalised-threshold\textsuperscript{102}-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing). This insight can equally be drawn prospectively in our positivism–procrypticism\textsuperscript{80} registry-worldview/dimension faced with its postlogism\textsuperscript{77}–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{18} like psychopathy and social psychopathy. This speaks of the very nature of all threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—
preconverging/dementing\textsuperscript{19}–apriorising-psychologism with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-threshold\textsuperscript{162} of ununiversalisation, non-positivism/medievalism and procrypticism\textsuperscript{80}) across all the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} wherein the prior/transcended/superseded registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} (as metaphysics-of-presence: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional–projective-perspective, it is ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} is that all registry-worldviews/dimensions \textsuperscript{83}reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supereoratory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of \textsuperscript{83}reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}–as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be
transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of reference-of-thought (or reducing relative-ontological-incompleteness-induced,-'threshold-of- nonconviction/madeupness/bottomlining-as-to-shallow--supererogation— preconverging/dementing—apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence) and goes on articulating meaningfulness-and-teleology even in the new existential transcendent/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating meaningfulness-and-teleology from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-

a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental
orientation will be geared to their traditional sense of meaning and living as absolutely defining,
but then the ‘center’ had moved from their world (from non-positivistic as base-
institutionalisation/animistic or medieval preconverging-or-dementing\textsuperscript{19}—apriorising-
psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{20}—
apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–
procrypticism\textsuperscript{80} relationship to its postlogism\textsuperscript{77} that includes psychopathy and social psychopathy
will apparently not make any sense to our present but then ontologically our present is now

sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity associated with intemporality\textsuperscript{51}/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework\textsuperscript{72} as it propounds the supersedingness/primacy/ascendancy of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework\textsuperscript{72} is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and de-mentating/structuring/paradigming meaningfulness-and-teleology\textsuperscript{55} in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{52}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{72} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-

supererogatory–epistemic-conflatedness\textsuperscript{32}. (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework\textsuperscript{72} of meaningfulness-and-teleology\textsuperscript{55} going by their limited-mentation-capacity-deepening\textsuperscript{52}). transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening\textsuperscript{52} implies more and more profound
reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-99teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s2 on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-99teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-99teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of
human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding-oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought\textsuperscript{6} to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as secondnaturing
institutionalisation percolation-channelling to elicit the necessary positive-opportunism\textsuperscript{75} for prospective institutionalisation as skewing (‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{14} de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{14} de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency--aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (and so as of ‘circular-complexification’/perpetual-reinstitutionalisation as a result of the same human-subpotency--aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions across all the successive 6\textsuperscript{6}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} registry-worldviews/dimensions). In the bigger scheme of things, as of the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflicatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} deneuterising\textsuperscript{16}—referentialism’ reflected by metaphysics-of-absence in the conception of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as of the transcendental implications in reflecting holographically-<conjugatively-and-transfusively> the 6\textsuperscript{6}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human
transcendence-and-sublimity/sublimation/suprerogatory-de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the notional-deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance<including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant
of meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{83} with regards to our positivism–procrypticism\textsuperscript{88}, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence for the conception of meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} naively construed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism\textsuperscript{88} registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{20}-‘projective-insights’/epistemic-projection-in-conflatedness\textsuperscript{12}-of-notional–deprocrypticism\textsuperscript{17}-prospective-sublimation)\textsuperscript{90} ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6})’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as
a prospective institutional percolation-channelling exercise as validated by ultimate ontological-
primemovers-totalitative-framework\textsuperscript{72} with subsequent corresponding formalisation and
secondnatururing. The point of this construal/conceptualisation is inevitably equally along the same
lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions–existentialism-form-factor that ‘human knowledge is
necessarily a secondnatururing construction’ and not an ‘intemporal-disposition construction’ as
the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, which is obviously false since we are temporal-to-intemporal
by our mental-disposition and our virtue with the notional–deprocrypticism\textsuperscript{17} registry-
worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this
and paradoxically be superseding in that respect by a pivoting/decentering psyche and
institutionalisation, and not an artificial projection that is not real and hence will be ineffective
and circular as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism. Thus human
knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal
while preempting of the temporal, and so beyond-the-consciousness-awareness\textsuperscript{99}teleology-<in-

[The notion of ‘beyond-the-consciousness-awareness\textsuperscript{99}teleology-<in-existentialextrication-as-
of-existential-unthought>\textsuperscript{6}’ as used herein goes beyond the notions of ‘consciously’ or
‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-
awareness\textsuperscript{99}teleology-<in-existential-extrication-as-of-existentual-unthought>\textsuperscript{6}’ speaks of the
mental state as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism by its relative-

uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold\(^\text{102}\)’) where the mental-disposition/mindset\(^{83}\)reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-\(^{99}\)teleology-\(<\text{in-existential-extrication-as-of-existential-unthought}>\)\(^{6}\) implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\(^{96}\)supererogation—preconverging/dementing\(^{19}\)–apriorising-psychologism at the uninstitutionalised-threshold\(^{102}\) of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-\(^{83}\)reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-\(^{99}\)teleology-\(<\text{in-existential-extrication-as-of-existential-unthought}>\)\(^{6}\). Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-
completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness\textsuperscript{99}teleology-\textless \textit{in-existential-extrication-as-of-existential-unthought}\textgreater \textsuperscript{6} as when eliciting ignorance (as of ‘lack of constraining social universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-\textless \textit{amplituding/formative–epistemicity}>totalising~in-relative-ontological-completeness\textsuperscript{87}) of the psychopath’s mental-disposition of postlogism\textsuperscript{77}-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness), and while construed as beyond-the-consciousness-awareness\textsuperscript{99}teleology-\textless \textit{in-existential-extrication-as-of-existential-unthought}\textgreater \textsuperscript{6} as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought, as it leads to ‘lack of constraining social universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-\textless \textit{amplituding/formative–epistemicity}>totalising~in-relative-ontological-completeness\textsuperscript{87}), associated with the successive uninstitutionalised-threshold\textsuperscript{102} states, the notion of ‘human beyond-the-consciousness-awareness\textsuperscript{99}teleology-\textless \textit{in-existential-extrication-as-of-existential-unthought}\textgreater \textsuperscript{6}’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments\textsuperscript{105} as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect-\textless \textit{as-Being-or-ontological-or-existential–defect}\textgreater \textsuperscript{85} inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism\textsuperscript{80}. Whereas the notion of human conscious vices-and-impediments\textsuperscript{105} as of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} of the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-
functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^1\)–defect-\(<\text{as-Being-or-ontological-or-existential–defect}\>\(^2\) as beyond-the-consciousness-awareness\(^3\)–teleology-\(<\text{in-existential-extrication-as-of-existential-unthought}\>\(^4\) of the registry-worldview/dimension uninstitutionalised-threshold\(^5\); as social universal-transparency\(^6\)–\(<\text{transparency-of-totalising-entailing, as-to-entailing} \langle \text{amplituding/formative–epistemicity}\rangle \text{totalising~in-relative-ontological-completeness}\>\(^7\) is a strong inherent deterrent of human temporality\(^8\)/shortness and enabler of human intemporality\(^9\)/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold\(^10\) of such knowledge-as-virtue arises the temporal-dispositions denaturing\(^11\) its \(<\text{reference-of-thought} \text{–categorical-imperatives/axioms/registry-teleology}\>\(^8\) for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This nature of ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^10\)–defect-\(<\text{as-Being-or-ontological-or-existential–defect}\>\(^2\) as induced beyond-the-consciousness-awareness-teleology-\(<\text{in-existential-extrication-as-of-existential-unthought}\>\(^6\) as of registry-worldview/dimension uninstitutionalised-threshold\(^10\) explains why fundamentally issues of \(<\text{reference-of-thought} \text{defect or perversion} \text{of-reference-of-thought} \text{–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow} \langle \text{supererogation}\rangle \) point more decisively/fundamentally as to their resolution as aetiology/ontological-escalation towards the need for ontological-completeness-of-\(<\text{reference-of-thought} \text{as to the successive registry-worldviews/dimensions institutionalisations-in-superseding-their-corresponding-uninstitutionalisation with regards to base-institutionalisation-superseding-recurrent-utter-uninstitutionalisation, universalisation-superseding-ununiversalisation, positivism-superseding-non-positivism/medievalism and prospectively deprocrypticism}\>\(^17\)–superseding-procrypticism\(^8\). Thus de-mentatively/structurally/paradigmatically, this is the supratransversality—apriorising/axiomatising/referencing associated with intemporality\(^5\)/longness and construed as
‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}’ since it is ‘not equable’ with the relative shallowness as temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{55} in intradimensional construal of meaningfulness-and-teleology\textsuperscript{55} but projects directly in grasping fundamentally the issue of relative-ontological-incompleteness-reference-of-thought and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/de-mentatively/structurally/paradigmatically as of aetiology-ontological-escalation a question of their relative-ontological-incompleteness-reference-of-thought as it endemises/enculturates such notions as its vices-and-impediments\textsuperscript{195} and the same approach applies to our state of positivism–procrysticism\textsuperscript{98} involving procrysticism–or–disjointedness-as-reference-of-thought-as-misappropriated–meaningfulness-and-teleology\textsuperscript{55} as it endemises/enculturates perversion-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness as vices-and-impediments\textsuperscript{195} requiring its preemption by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} as of prospective notional–deprocrysticism\textsuperscript{17} institutionalisation.]

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking-projective-insights/epistemic-projection-in-conflatedness-of-notional–deprocrysticism-prospective-sublimation)\textsuperscript{90} transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated
with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a more ontologically-completeness-of-
reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct
of the old \textsuperscript{83}reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought. \texttt{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview \textsuperscript{83}reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>, which may wrongly imply being out of the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the \texttt{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} mechanism by which re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{20}–‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12}–of-notional–deprocrypticism\textsuperscript{17}–prospective-sublimation)\textsuperscript{98} transcendential ideas (transcendential in terms–as-of-axiomatic-construct of putting in question the prior \texttt{<amplituding/formative–epistemicity>totalising/circumscribing/delineating \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}, beyond just novel ideas within the same \textsuperscript{83}reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, is coming from a point of habitation
with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting—conviction-as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising—psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own <amplituding-formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag which makes it unsurprising that even socially <amplituding-formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant—(as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought-devolving—as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive—constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation <amplituding-formative-epistemicity>totalising—renewing-realisation/re-perception/re-thought—as-utter-placeholder-setup-ontological-rescheduling—by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and—teleology) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or
Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-orizontal-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought’) that allows for ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ as to what the appropriateness-of-reference-of-thought-as-of-conflatedness (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) and the perversion-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation (defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) truly are, and the implications thereof with regards to meaningfulness-and-teleology (purposeful architectural aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements). Without the notion of ‘imbricatedness/threadedness/recomposuring as of

mentatively/structurally/paradigmatically upholding the perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-

The difference between postlogism\textsuperscript{77} (postlogism\textsuperscript{77}—as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\textsuperscript{96}supererogation\textsuperscript{10}—(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)) and prelogism\textsuperscript{78} (prelogism\textsuperscript{78}—as-of-conviction,-as-to-profound\textsuperscript{96}supererogation—(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at)) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion\textsuperscript{74}—of\textsuperscript{83}reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation> (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency\textsuperscript{184}—(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-
relative-ontological-completeness of psychopathy especially at adulthood). Now supposed to resolve a 'purposeful measurement' (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as $5+2$ and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{53}supererogation\textsuperscript{53}) is flawed since B is not committed due to its perversion\textsuperscript{74}of.\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{56}supererogation> (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing\textsuperscript{15} an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant\textsuperscript{93} to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose \textsuperscript{83}reference-of-thought is not perverted, such that A’s defect is a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{56}supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant\textsuperscript{93} while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant\textsuperscript{93} to them wherein lack of ‘social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding-formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\textsuperscript{87}) which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism\textsuperscript{77}, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability\textsuperscript{9} the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived-perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-\langle\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle\text{as-to-uninstitutionalised-threshold}\textsuperscript{102}-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B’s postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-supererogation and C, D, E and F relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ that is ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology to enable their conjugated-postlogism, where it is socially-functional-and-accordant to do so. It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing--amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how
prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound\textsuperscript{96}supererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\textsuperscript{96}supererogation\textsuperscript{19} and its protraction into conjugated-postlogism\textsuperscript{77}/social-psychopathy, postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism\textsuperscript{77}/psychopathy and conjugated-postlogism\textsuperscript{77}/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism\textsuperscript{77}/psychopathy and conjugated-postlogism\textsuperscript{77}/social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (even when other prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound\textsuperscript{96}supererogation minds do lack a social universal-transparency\textsuperscript{104} (transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemlicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of the veridical postlogism\textsuperscript{77}/psychopathy and conjugated-postlogism\textsuperscript{77}/social-psychopathy underlying phenomena of perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation> as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound\textsuperscript{96}supererogation minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any
specific individual’ including psychopathic or conjugated-postlogism\textsuperscript{77}, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism\textsuperscript{77} behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{10}’ at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vivious postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{10}’ as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{10}’ vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework\textsuperscript{72} faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-functioning-and-accordance with
mental-dispositions of temporal-dispositions in their conjugation to psychopathic postlogism\textsuperscript{77} as conjugated-postlogism\textsuperscript{77} since the induced-deception is fundamentally of \textsuperscript{83}reference-of-thought-elements/registry-elements (implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and \textsuperscript{99}teleology), with the conjugated-postlogism\textsuperscript{77} interlocutor as of \textsuperscript{83}reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{102}, even when they recognised the specific postlogism\textsuperscript{77}-set-of-narratives-and-acts and are rather inclined to contend on the basis of the same flawed and deceptively-induced \textsuperscript{83}reference-of-thought-elements/registry-elements (whether unconsciously as beyond-the-consciousness-awareness,\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} as conjugated-ignorance or by expediency as conjugated-affordability or consciously as conjugated-opportunism/conjugated-exacerbation/conjugated-social-chainism-or-social-discomfiture-or-negative-social-aggregation/conjugated-temporal-enculturation-or-temporal-endemisation, given the ‘lack of constraining social universal-transparency\textsuperscript{104} (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) without \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry,\textsuperscript{99}teleology-<for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and,\textsuperscript{99}teleology\textsuperscript{55} to the ontological implications of the appropriate existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of–\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context \textsuperscript{83}reference-of-thought-elements/registry-elements and thus explaining derived-perversion\textsuperscript{74}-of–\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow,\textsuperscript{96}supererogation> arises, in addition to the more fundamental issue of relative-ontological-incompleteness\textsuperscript{88}-of–\textsuperscript{83}reference-of-thought as of prospective procrypticism\textsuperscript{80} uninstitutionalisation. In other words, ‘psychopathic/postlogism\textsuperscript{77} and social-psychopathic/conjugated-postlogism\textsuperscript{77} vicious acts-
and/or-narratives’ as of perversion-and-derived-perversion\(^7\)-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
\(^{96}\)supererogation> take the form of mental ‘misconception of meaningfulness-and-virtue’ that such ‘postlogism\(^7\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\(^{96}\)supererogation\(^\text{10}\) vicious acts-and/or-narratives’ based on their systematic combination with ‘compensating directed pseudo-virtue acts-and/or-narratives’ directed to relevant significant others will enable the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism\(^7\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
\(^{96}\)supererogation\(^\text{10}\) vicious acts-and/or-narratives’ as of an association between the ‘postlogism\(^7\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
\(^{96}\)supererogation\(^\text{10}\) vicious acts-and/or-narratives’, and ‘compensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, wherein that compensating is not a trite equivalence but rather involves ‘high-proportionality of overcompensating directed pseudo-virtue acts-and/or-narratives’ relative to ‘specific or given postlogism\(^7\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\(^{96}\)supererogation\(^\text{10}\) vicious acts-and/or-narratives’ in order to enable the postlogism\(^7\)/psychopathic manifestation achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and subsequent sense of social allegiance with relevant significant others and then corresponding ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, whether relevant individuals and/or relevant social network, as overall ‘social investment’ that should allow its instigated ‘postlogism\(^7\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\(^{96}\)supererogation\(^\text{10}\) vicious
acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism-as-of-conviction,-as-to-profound-supererogation come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at
childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising-reference-of-thought-elements/apriorising-registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and 99teleology (which are actually outside existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) (failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism/psychopathy and conjugated-postlogism/social-psychopathy with respect to
ontologically-veridical meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} arises disjointedness-as-of-\textsuperscript{83}reference-of-thought; inherent in temporality\textsuperscript{98}/shortness and as of postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} mental-dispositions (shallowness-of-thought construed as of temporal-extricatory reasoning as well as incoherent and awkwardly implied universal projections, but which actually speaks of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} explaining why its ‘universal projection lip-servicing nature or inductive limitation fails the test of a true principle’, basically highlighting a dynamic \textsuperscript{83}reference-of-thought relationship with meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of poor performance of supposed intemporal-projection but actually in effect pseudointemporality\textsuperscript{51}–as-temporality\textsuperscript{98} and speaks, more specifically with regards to psychopathic/postlogic meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, rather as of relatively ‘mere-rhyming mental-disposition’ emphasising <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-\textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}) in ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism\textsuperscript{77} at an intuitive-level)’-falsely-projecting-profoundness-of-thought more like vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{84} with respect to ontologically-veridical meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} given psychopathic slantedness ‘deception-of-successively-shifting-or-non-cohering-narratives-and-acts/deception-by-concurrently-false-prespousing/false-presuming/false-premising-of-narratives/deception-by-concurrently-false-assumptive-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism’), over an intemporal/ontological profoundness-of-thought (as of the ‘intemporal synopsising-depth-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}/supratransversality—apriorising/axiomatising/referencing as-to-<amplituding/formative–epistemicity>totalising–social-context-construed-conflatedness\textsuperscript{12}’

[Consider the instance of an archetype illustration with respect to say a Socrates or Rousseau individuation ‘intemporal synopsising-depth-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}/supratransversality—apriorising/axiomatising/referencing as-to-<amplituding/formative–epistemicity>totalising~social-context-construed-conflatedness\textsuperscript{12}, ‘temporal-distractively-aligned synopsising-depth-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-shallowness-of-thought/subtransversality—apriorising/axiomatising/referencing in pseudointemporality\textsuperscript{52} lip-servicing will within the relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought of their respective epochs poorly grasp their respective ‘intemporal synopsising-depth-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}/supratransversality—apriorising/axiomatising/referencing as-to-<amplituding/formative–epistemicity>totalising~social-context-construed-conflatedness\textsuperscript{12}, and rather think as irrational

Likewise, for instance, it won’t be surprising that the ‘intemporal synopsising-depth-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}/supratransversality—apriorising/axiomatising/referencing as-to-<\textsuperscript{amplituding}/formative–epistemicity>totalising–social-context-construed-conflatedness\textsuperscript{12}’ of aetiolisation/ontological-escalation as implied in this write-up, in principle, is rather alien as of its purposefulness/ontological-aspiration (notwithstanding the debatableness of veracity/ontological-pertinence as all knowledge constructs must necessarily be opened to) to many ‘temporal-distractively-aligned synopsising-depth-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’–as-shallowness-of-thought/subtransversality—apriorising/axiomatising/referencing. This fundamentally arises due to the fact that prospective transcendence-and-sublimity/sublimation/superalgregory–de-mentativity arises as ‘an exercise of outward-facing prospective institutionalisation metaphysics-of-absence value-referencing’ relative to a ‘<\textsuperscript{amplituding}/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrsatic-drag\textsuperscript{33} inward facing uninstitutionalised-threshold\textsuperscript{102} value-referencing’.

Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism\textsuperscript{83}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking\textsuperscript{28}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘\langle\textit{amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-\textsuperscript{99}teleology\rangle’ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect
to the non-positivism/medievalism psyche/placeholder-setup/mentality/representation/mentation/consciousness-awareness. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing—psychologism—as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology））’ as implied by a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’, as from Recurrent-utter-uninstitutionalisation to Base-institutionalisation—ununiversalisation, to Universalisation—non-positivism/medievalism, to Positivism—procrypticism, and prospectively to deprocrypticism; as successively non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition—(as ‘base—constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) gives way to rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism, (as ‘first-

(This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemy/essences/medieval
registry-worldview/dimension certainly does have a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension 83reference-of-thought–categorical-imperatives/axioms/registry-teleology 8 as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism

mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening\textsuperscript{52}, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘\(<\text{amplituding/formative–epistemicity}\text{totalising–renewing-}\text{realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-}\text{apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-}\text{prospective–meaningfulness-and-}\text{\textsuperscript{99}teleology}\text{55})>\text{of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework}\textsuperscript{72} as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework\textsuperscript{72} that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-
scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag33 agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag33 of meaningfulness-and-teleology55 is often wrongly construed as ontological as of 83reference-of-thought–categorical-imperatives/axioms/registry-teleology,−for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-99teleology55.

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. This equally explains why the implied supratransversality—apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive–constitutedness\textsuperscript{79} consummated/forfeiting posture’ of intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}/ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} beyond-the-consciousness-awareness.\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}; such that, de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness.\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student

However at uninstitutionalised-threshold\(^{102}\), the notion of intemporality\(^{51}\)-asymmetric-subsumption-of-temporality\(^{98}\)/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry- teleology\(^{8}\) inclined beyond-the-consciousness-awareness-\(^{99}\)teleology-\(<\text{in-existential-extrication-as-of-existential-unthought}>\)\(^{6}\) to uphold meaningfulness-and-\(^{99}\)teleology\(^{55}\) as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought will certainly grasp the pertinence of intemporality\(^{51}\)-asymmetric-subsumption-of-temporality\(^{98}\)/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness\(^{12}\) aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcedentally-enabling-level–of-ontological-good-faith/authenticity\(^{68}\)/objectification/desubjectification-as-objectification-\(<\text{as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-}\)

suprastructuration, and prospectively the same human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor issues arise with respect to the possibility of our prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity to deprocrypticism\(^\text{17}\), as we perceive our ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing\(^\text{83}\)reference-of-thought/axiomatic-construct for predicative-insights’ as absolute failing to construe the all-encompassing redefining implications of projective-insights/postdication/deconstruction with respect to the possibility of an altogether new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing\(^\text{83}\)reference-of-thought/axiomatic-construct for predicative-insights’ (as preempting—disjointedness-as-of\(^\text{83}\)reference-of-thought, as-to-'amplituding/formative—epistemicity>growth-or-conflatedness\(^\text{12}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\(^\text{31}\)—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,\langle\text{as conflation}\(^\text{12}\) of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\rangle). So the challenge as of this aetiologisation/ontological-escalation as implying futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology\(^\text{55}\) as of prospective deprocrypticism\(^\text{17}\), is one of making conscious beyond the nombrilism/closed-structuring—of—meaningfulness-and—teleology\(^\text{55}\) within all registry-worldviews/dimensions just as ours inducing transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing\(^\text{161}\), that doesn’t tend to consciously recognise that prospective ontological-completeness-of—reference-of-thought imply in reflecting holographically—<conjugatively-and-transfusively> the
more decisive/salient notion as to human `objectively construed/analysed virtuous-dispositions or vices-and-impediments\textsuperscript{105}` even though individual `conscious choices` will tend to `simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments\textsuperscript{105} arising`; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is de-mentatively/structurally/paradigmatically susceptibility as a state of `in-wait as of prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought defective \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry\textsuperscript{99}teleology\textsuperscript{8} for the vices-and-impediments\textsuperscript{105} so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-\textsuperscript{6}. This explains why the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-\textsuperscript{6} as of human limited-mentation-capacity-deepening\textsuperscript{52} in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing \textsuperscript{83}reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of\textsuperscript{83}reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This equally explicates the empirical reality associated with the occurrence of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity crossgenerationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension

In order words, this situation highlights the universal issue across all registry-worldviews/dimensions underlying the notion of
positivism–procripticism and prospectively to deprocripticism. While for the temporal mental-disposition individuations the form-and-perception or derived-form-and-perception of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation whether upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously, expediently or consciously) is a sufficient basis so long as it is socially-functional-and-accordant such that the possibility of blurring or undermining existential-reality by ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism of reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ is just as valid, hence a failure to abstractly recognise intemporality/longness as of-existential-reality with the implication thereof as perversion-and-derived-perversion of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to the registry-worldview’s/dimension’s vices-and-impediments implied by its implied relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’. Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be de-mentatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of-reference-of-thought structured to
inherently supersede such vices-and-impediments\textsuperscript{405}, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocrypticism superseding positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{86}. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/supererogatory–de-mentativity over any temporal extricatory de-mentating/structuring/paradigming, however, the enculturation and mass thinking behind temporal extricatory de-mentating/structuring/paradigming. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendental/transdimensional/interdimension/maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation analysis as metaphysics-of-absence/postdication). apriorising/ axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning –as ‘wrongly-projected decontextualising-unimbricatedness/ unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing—apriorising-psychologism reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ –will rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-unthought in his asceticism the prospective intemporal over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature should warrant like actively pursuing for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective

This equally explain why the notion of human transcendental progress is relatively ‘re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking—projective-insights’/epistemic-projection-in-conflatedness—of-notional—deprocripticism—prospective-sublimation) driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturings such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing that had tended to fundamentally put into question their present with new de-mentating/structuring/paradigming shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining—as-to-shallow—supererogation—preconverging/dementing—apriorising-psychologism’, for instance psychopathy in positivism—procrypticism or notions of sorcery in universalisation—non-positivism/medievalism (wherein from the prospective point-of-reference respectively as notional—deprocripticism or positivism, it is in de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness—

which is effectively the de-mentative/structural/paradigmatic resolution of psychopathy and social psychopathy (besides palliative conceptualisations that can hardly make a dent on the comprehensively defined de-mentative/structural/paradigmatic phenomenon in terms–as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the de-mentative/structural/paradigmatic ontological resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct de-mentative/structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology55-as-of-‘nondescript/ignorable–void59’-with-regards-to-prospective-apriorising-implications⟩⟩ with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced,–‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—preconverging/dementing-apriorising-psychologism’ and accessorially its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’ of our procrypticism and accessorially its enculturating/endemising of psychopathy and social psychopathy. Thus suprastructurally (beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>) and as of the ontological-normalcy/postconvergence ontological-completeness-of-reference-of-thought perspective, ‘imbricatedness/threadedness/recomposing-as-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ implies a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing as ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation of

This existential-becoming-transitioning to notional–deprocrypticism\textsuperscript{17} as well as the overall existential-becoming-transitioning nature of existence/existential-reality is the validation of the notion of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflicatedness\textsuperscript{12}. perversion-and-derived-perversion’s-reference-of-thought’s-as-effectively-apriorising-in-

Such perversion’s-reference-of-thought’s-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow/supererogation’s/mental-devising-
representation-perversion has various shades of ‘temporal/shortness to intemporal/longness
depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as
follows with psychopathy at childhood (which at this point is relatively transparent to the critical
observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying
him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying
act’, then spills water on a chair and goes and tells dad Peter has spilled water on the chair, and
waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign
notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is
different even from ‘poor or bad supplanting–conviction-as-to-profound–supererogation—
postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism in that a child
who has a ‘poor or bad supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism–as-of-conviction–as-to-profound–supererogation (‘poor or bad supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving–as-of-instantiative-context. Lying as such is ‘an ad-hoc defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profund–supererogation of the registry-worldview’s/dimension’s–reference-of-thought–for-social-functioning-and-accordance that doesn’t speak of the true postlogism/psychopathic phenomenon which has to do with the perversion–reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation>,–and-not-of-logical-contention with regards to registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview as the psychopath perversion–reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation> speaks of ‘a circularity/recurrence/repetition/repeatability as enabled by social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ implying a ‘being or ontological or meaningfulness or existential defect’ which is poorly construed as ‘pathological lying at the level of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-
profound\textsuperscript{96} supererogation\textsuperscript{53} of supplanting–conviction-as-to-profound\textsuperscript{96} supererogation—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism or prelogic mental-reflex engagement’ rather than being construed as a mental and teleological disposition defect at the level of the \textsuperscript{83}reference-of-thought as of perversion\textsuperscript{74}–of-\textsuperscript{83}reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96} supererogation> construed as mental-unsoundness). In fact, besides ‘lying’ such poor characterisation of the psychopath extends to other notions like ‘bullying’, ‘manipulating’, ‘fooling’, etc. which are all in prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound\textsuperscript{96} supererogation–or-thinking notions though ‘poor or bad supplanting–conviction-as-to-profound\textsuperscript{96} supererogation—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism’s’ (‘poor or bad supplanting–conviction-as-to-profound\textsuperscript{96} supererogation—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism’–or-prelogism\textsuperscript{78} construed as wrong logical-processing–or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{96} supererogation or wrong operation of prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound\textsuperscript{96} supererogation but nonetheless prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound\textsuperscript{96} supererogation). Fundamentally, psychopathic slanting is particular in that it departs from a relation to the ‘empty-form-of-meaning–as-inherently-deterministic outside the framework of a veridical existential-contextualising-contiguity\textsuperscript{38}‘s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}–as-of-instantiative-context’ contrasted with ‘poor or bad supplanting–conviction-as-to-profound\textsuperscript{96} supererogation—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism’ which departs with a relation to ‘omitting or exaggerating within the framework of a veridical existential-contextualising-contiguity\textsuperscript{38}‘s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}–as-of-instantiative-context’. But while poor-or-bad prelogism\textsuperscript{78} may be what is perceived from a ‘normal’ social and supplanting–conviction-as-to-profound\textsuperscript{96} supererogation—postconverging/dialectical-
thinking apriorising-psychologism point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism or prelogism\textsuperscript{78}) in reality is
wrongly assuming a depth-of-postlogism\textsuperscript{77}-slantedness/insane integration. The psychopath being
postlogic—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-
dueness or pathologically/compulsively hollow-constituting--<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation> is not lying (or manipulating or bullying),
in fact the psychopath will prefer that normal supplanting–conviction-as-to-profund-
\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism minds think
it is lying (or any notion of a ‘poor or bad supplanting–conviction-as-to-profund-
\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism’ as it
wrongly elicits just a defect–of-logical-processing-or-logical-implicitation—supposedly-

least they will then wrongly realign prelogicly/(existentially-veridical-logical-dueness-precedes-

pertinence of its logic/logical-processing, i.e. engaging logical operating/processing and wrongly granting it supplanting–conviction-as-to-profound–supererogation–postconverging/dialectical-thinking–apriorising-psychologism (be it even ‘poor or bad supplanting–conviction-as-to-profound–supererogation–postconverging/dialectical-thinking–apriorising-psychologism’ as this will then wrongly imply its wrong or poor performance of logical-processing-or-logically-implicitation—supposedly-apriorising-in-conviction-as-to-profound–supererogation, rather than its hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>/vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledge/slanting of empty narratives that are flawed or non-existent as postlogism–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow–supererogation) thus wrongly involved in prelogism hence wrongly validating as real its ‘fundamental faulty-mentation-procedure-deception-or-urge’ which is its ‘apriorising–reference-of-thought-elements/apriorising–registry-elements, that in reality are out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought-devolving–as-of-instantiative-context’, of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (instead of examining in the very first place their relevance/pertinence or its soundness-or-ontological-good-faith/authenticity–of–reference-of-thought); in so doing, analysing its meaning as essence instead of analysing it as non-veridical hollow mimicking form or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledge or meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated or non-veridical hollow mimicking narratives. What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by
subknowledging\textsuperscript{64}-or-mimicking the non-veridical hollow-form of the meaning of other persons
supplanting-conviction-as-to-profound\textsuperscript{96}-supererogation—postconverging/dialectical-
thinking\textsuperscript{28}-apriorising-psychologism narratives which it perceives as ‘being blatantly
deterministic’ of the views and actions of the ‘normal prelogism\textsuperscript{78}-as-of-conviction,-as-to-
profound\textsuperscript{96}-supererogation mind’, i.e. the psychopath is 'narrating veridical emptiness/hollow
narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not
attach a depth of supplanting-conviction-as-to-profound\textsuperscript{96}-supererogation—
postconverging/dialectical-thinking\textsuperscript{28}-apriorising-psychologism on narratives but rather simply
‘the mere possibility of the hollow narratives being articulated, and then integrated by
interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-
postlogism/preconverging-or-dementing\textsuperscript{19}-integration mindset is one of relating to
meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather
than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one
g geared towards how to perform in interlocution rather than express a genuine sense of
supplanting-conviction-as-to-profound\textsuperscript{96}-supererogation—postconverging/dialectical-
thinking\textsuperscript{28}-apriorising-psychologism and hence the disposition for extrinsic-attribution by active
social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive
social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution
associated with transcendental-enabling/sublimating/supererogatory-de-mentativity, but rather
as a potent and active construct of social determinism which requires actually eliciting a sought
after outcome and not a notion of intrinsic existential/ontological inherence. This mental-
disposition is qualified as epistemic-decadence or postlogism\textsuperscript{77} and its derivation/ adoption by
temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\textsuperscript{77}. More
precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as
postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-supererogation\textsuperscript{10} and the notion of a lie which is prelogism-as-of-conviction-as-to-profound-supererogation (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{53}. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge\textsuperscript{41} associated with postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{10} with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant\textsuperscript{93}, since its manifestation is not universally transparent as ontologically decadent); due
to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity\(^{38}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought-devolving\(^{84}\)-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\(^{96}\)supererogation\(^{53}\) as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and \(^{99}\)teleology), with respect to construing meaningfulness as prelogism\(^{78}\)-as-of-conviction,-as-to-profound-\(^{96}\)supererogation, but instead construes meaningfulness as postlogism\(^{77}\)-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\(^{96}\)supererogation\(^{10}\) explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity\(^{38}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought-devolving\(^{84}\)-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity\(^{38}\)’s-reifying/elucidating-of-prospective-relative-
ontological-completeness\textsuperscript{87} of reference-of-thought-devolving\textsuperscript{84} of instantiative-context is wrongly implied about slanting, it has to do with prelogism\textsuperscript{78} as of conviction, as to profound supererogation mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87} of reference-of-thought-devolving\textsuperscript{84} of instantiative-context’, and this is the mechanism that induces conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{19}-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting-conviction-as to profound supererogation—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism\textsuperscript{78} as of conviction, as to profound supererogation alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting-conviction-as to profound supererogation—postconverging/dialectical-thinking\textsuperscript{28}—apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge\textsuperscript{42} due to psychopathic developmental failure to relate to meaningfulness as of prelogism\textsuperscript{78} as of conviction, as to profound supererogation with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with
respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, induces interlocutors prelogic supplanting—conviction-as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising-psychologism alignment to its postlogic compelling—nonconviction/madeupness/bottomlining—as-to-threshold-of-shallow—supererogation narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting—conviction-as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting—conviction-as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism/preconverging-or-dementing—integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing—apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound—supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-
bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought/preconverging-or-dementing\textsuperscript{19}–apriorising- 
psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-
good-faith/authenticity\textsuperscript{68}-of-reference-of-thought. Insightfully, it points out as well that the 
basis of the postlogism\textsuperscript{77}/psychopathic induced deception is not the psychopath itself (as it is 
commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the 
reasoning of the prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation interlocutor 
mental engagement reflex who ‘aligns in-conviction-as-to-profound-\textsuperscript{96}supererogation’ as it will 
‘normally do’ with other prelogic supplanting–conviction-as-to-profound-\textsuperscript{96}supererogation— 
postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism minds to a postlogism\textsuperscript{77}-as-of-
compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
\textsuperscript{96}supererogation\textsuperscript{18} mind, and then wrongly validates that the postlogism\textsuperscript{77}-as-of-compulsing– 
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{18} mind is 
in prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation. In order words, the operation 
of the psychopathic mind as of its incomplete mentation development (as inclined to induce a 
faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on 
prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation but rather as based on 
postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
\textsuperscript{96}supererogation\textsuperscript{18} with its personality development into adulthood on this basis, 
paradoxically leads to the prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation mind’s 
deception since the latter operates on the basis that everyone must be supplanting–conviction-as-
to-profound-\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism 
(be it ‘poor or bad supplanting–conviction-as-to-profound-\textsuperscript{96}supererogation— 
postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism’ at worst) and the notion of 
postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-\textsuperscript{96}supererogation\textsuperscript{18} doesn’t register naturally except where the personality development
of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism manifestation of the interlocutor by compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation manifestation of the psychopath cross-perception effect’ wherein the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor by its mental-reflex
is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutor reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity\textsuperscript{38}, while the psychopath view of the supplanting–conviction-as-to-profound-\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity\textsuperscript{38}. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity\textsuperscript{38} is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising~in-relative-ontological-completeness\textsuperscript{87}) of its acts, at adulthood psychopathy the lack of such universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising~in-relative-ontological-completeness\textsuperscript{87}) of the postlogism\textsuperscript{77}-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity\textsuperscript{38}, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely
implied existential-contextualising-contiguity\textsuperscript{38} disposition tends to be socially enculturated/endemised as of conjugated-postlogism\textsuperscript{77}. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–amplitudes–formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) with respect to intrinsic meaningfulness further elicits supplanting–conviction–as-to-profound\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faultymentation-procedure-deception as of circumstantiality. [This is more profoundly exposed in the conceptualisation in reflecting holographically-conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as it induces ‘socially-functional-and-accordant\textsuperscript{93} \textsuperscript{83}reference-of-thought as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; that can be elucidated by an existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}–as-of-instantiative-context analysis of ‘least-and-derived-temporal-operating-modalities-of-the\textsuperscript{43}reference-of-thought-as-of-incrementalism\textsuperscript{50}–in-relative-ontological-incompleteness\textsuperscript{88}–enframed-conceptualisation-inducing-the-uninstitutionalised–

With the attainment of registry-worldview/dimension institutionalisation by social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<(amplituding/formative–epistemicity)>totalising–in-relative-ontological-completeness⟩ we can very much uphold a secondnatured quasi-intemporal-disposition as ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to notional-deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure–⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing⟩ (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. ‘Human temporal uninstitutionalised-threshold mental-disposition’ refers to our fixation to the mere–

peculiar psychologisms/psychologism–constructs of meaningfulness in explaining the empirical–realities of the various anthropological societies mindsets/\textsuperscript{83}reference–of–thought/consciousness–awareness–\textsuperscript{99}teleology; whether as recurrent–utter–uninstitutionalisation psychologism, base–institutitionalisation–ununiversalisation psychologism, universalisation–non–positivism/medievalism psychologism, positivism–procrypticism\textsuperscript{80} psychologism, and prospectively notional–deprocrypticism\textsuperscript{17} psychologism equally qualified as suprastructuralism.
Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing’—apriorising-psychologism’ as of their relative-ontological-incompleteness of reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychology’s articulation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional~deprocrypticism as decentering and preconverging-or-dementing—apriorising-psychologism the positivism—procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening) a renewing of mindset’s-reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional~deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes
present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect> so construed in order to supersedes its de-mentative/structural/paradigmatic vices-and-impediments. Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real
in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and
undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence and metaphysics-of-absence ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable temporal-to-intemporal-dispositions nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for perpetuating-deprocrypticism\(^{17}\). Supposed there was no apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect (no perversion\(^{74}\)-of\(^{83}\)reference-of-thought\(^{<}\)-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\(^{96}\)supererogation\(>\)) with social universal-transparency\(^{104}\)-\(\langle\)transparency-of-totalising-entailing,\(\langle\)as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^{87}\)\(\rangle\) of the calculations to be done, it is fair to say ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ in this \(^{83}\)reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity\(^{68}\) but for failure in performance as defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\(^{96}\)supererogation\(^{53}\) of the registry-worldview’s/dimension’s–\(^{83}\)reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening\(^{52}\) with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency\(^{104}\)-\(\langle\)transparency-of-totalising-entailing,\(\langle\)as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^{87}\)\(\rangle\) required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold\(^{102}\) it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently
points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold’ mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the wooden-language-imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry–teleology (failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview’s-reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of ‘human temporal uninstitutionalised-threshold’ mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences

preconverging/dementing\textsuperscript{19}–apriorising-psychologism as of its uninstitutionalised-threshold\textsuperscript{102} pointing to an inclination for untranscendability and unde-mentability as of mechanical-knowledge \textit{(beyond-the-consciousness-awareness\textsuperscript{-99}teleology\textsuperscript{-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}}) but for the constraint of prospective social universal-transparency\textsuperscript{184}–\textit{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})}, and so in contrast to the same registry-worldview/dimension \textit{83}reference-of-thought–prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound\textsuperscript{-96}supererogation mental-disposition that reflects its ontologically-veridical meaningfulness-and\textsuperscript{-99}teleology\textsuperscript{55} as its institutionalisation which rather points to an inclination for transcendability and de-mentability as of organic-knowledge once it does conceptualise the veridicality of the uninstitutionalised-threshold\textsuperscript{102} as ontologically-flawed. Such construal of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{-96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism at uninstitutionalised-threshold\textsuperscript{102} is critical because then and in effect, the mental-reflex to ontologically validate these as of \textit{83}reference-of-thought–prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound\textsuperscript{-96}supererogation mental-disposition so-construed as of sound/existential-contextualising-contiguity\textsuperscript{38} logical-dueness is ontologically put into question given the perversion-and-derived-perversion\textsuperscript{74}–of-\textit{83}reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{-96}supererogation>. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity is projectable about the uninstitutionalised-threshold\textsuperscript{102}, and not as it is circularly construed within the uninstitutionalised-threshold\textsuperscript{102} frame as a construal of logical pertinence \textit{(logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{-96}supererogation\textsuperscript{53})}, but rather involving priorly the determination of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{-96}supererogation—
preconverging/dementing\textsuperscript{19}–apriorising-psychologism as these fail to reflect soundness-or-ontological-good-faith/authenticity\textsuperscript{68,83}reference-of-thought, that is, establishing whether or not there is perversion-and-derived-perversion\textsuperscript{74,83}reference-of-thought&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation&gt; in the first place before any implication of logical-dueness/logical-pertinence arises. Consider as of metaphysics-of-absence or ontological-normalcy/postconvergence analysis the case of notions-and-accusations-of-sorcery in a non-positivistic social-setup uninstitutionalised-threshold\textsuperscript{102} which is rather in want of positivistic meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}. Effectively establishing deconstructive ontological-veridicality implies recognising the overall registry-worldview’s/dimension’s relative-ontological-incompleteness\textsuperscript{88,83}reference-of-thought as superstitious/non-positivistic inclined, its postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} as acknowledging and contending about notions-and-accusations-of-sorcery (beyond-the-consciousness-awareness\textsuperscript{59}teleology-&lt;in-existential-extrication-as-of-existential-unthought&gt;\textsuperscript{6}) thus leading to perversion-and-derived-perversion\textsuperscript{74,83}reference-of-thought-&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation&gt;, with this succinctly reflecting the reality of temporal-dispositions as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism as of such non-positivism \textsuperscript{83}reference-of-thought uninstitutionalised-threshold\textsuperscript{102}. Such that it is not a logical exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{96}supererogation\textsuperscript{53}) that is in order which will rather be circular as fundamentally operating on false non-positivism registry-worldview’s/dimension’s institutionalisation \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry\textsuperscript{99}teleology\textsuperscript{8} of superstition but rather one of determination of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism as this
reflects postlogism\textsuperscript{77} denaturing\textsuperscript{15} and conjugated-postlogism\textsuperscript{77} derived-perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow>-\textsuperscript{66}supererogation> as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}, for-intemtemporal-preservation-entropy-or-contiguity–or–ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism\textsuperscript{77} and derived conjugated-postlogism\textsuperscript{77}, human \textsuperscript{83}reference-of-thought–prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound\textsuperscript{96}supererogation tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>-\textsuperscript{6}) given our relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\textsuperscript{102}. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute \textsuperscript{83}reference-of-thought–prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound\textsuperscript{96}supererogation has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and⟩\textsuperscript{99}teleology\textsuperscript{55} of all human institutions, and particularly where social universal-transparency\textsuperscript{104}-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-}
ontological-completeness is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness teleology-in-existential-extrication-as-of-existential-unthought de-convergence as of transversality-of-affirmative-and-unaﬀirmative,-disambiguated-apriorising/axiomatising/referencing. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of categorical-imperatives/axioms/registry-teleology in the first place to establish or not

The point being that meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of \textsuperscript{83}reference-of-thought–

This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold\textsuperscript{182} has to do with the possibility of attaining or not attaining social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}). Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism) with regards to \textsuperscript{83}reference-of-thought–prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. This imbued potency in social universal-
transparency\textsuperscript{184}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed \textsuperscript{83}reference-of-thought–prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound–supererogation to meaningfulness-and-teleology\textsuperscript{55} as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism\textsuperscript{77}–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-

supererogation\textsuperscript{96} mindset threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social universal-transparency\textsuperscript{184}–(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) such that it can induce threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—

preconverging/dementing\textsuperscript{19}–apriorising-psychologism rule) as of marginal social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness\textsuperscript{88}–of–\textsuperscript{83}reference-of-thought as social procrypticism–or–disjointedness-as-of–
is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism's derived threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—preconverging/dementing—apriorising-psychologism, and so overall, on the flawed mental-reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—preconverging/dementing—apriorising-psychologism is supposedly reference-of-thought—prelogism-as-of-conviction,—as-to-profound–supererogation (as to the lack of constraining social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness)). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—preconverging/dementing—apriorising-psychologism doesn’t socially take hold then, as such childhood postlogism persion—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation> hasn’t superseded the social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) in further inducing temporal-dispositions derived-perversion—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation>. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory dementating/structuring/paradigming, and not by ontological-veridicality insight as of de-
mentative/structural/paradigmatic causality-as-to-projective-totalitative-implications-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-totalising-in-relative-ontological-completeness) is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness-of-reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-
ontological-incompleteness\textsuperscript{88} of \textsuperscript{83}reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{87} of \textsuperscript{83}reference-of-thought had moved on to the new/prospective meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} which is now antipodal to his, hence his confliction with his circular-pervasiveness <amplituding/formative>wooden-language-(imbued—averaging-of-thought-&lt;as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} -as-of-'nondescript/ignorable–void\textsuperscript{59} -with-regards-to-prospective-apriorising-implications>) which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness <amplituding/formative>wooden-language-(imbued—averaging-of-thought-&lt;as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} -as-of-'nondescript/ignorable–void\textsuperscript{59} -with-regards-to-prospective-apriorising-implications>) when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-\textsuperscript{83}reference-of-thought with regards to meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} construal where Nunez’s ‘seeing of the environment’ \textsuperscript{83}reference-of-thought as of it prospective relative-ontological-completeness\textsuperscript{87} of axiomatic-construct-or-\textsuperscript{83}reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \textsuperscript{83}reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{88}. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior \textsuperscript{83}reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a <amplituding/formative>wooden-language-(imbued—averaging-of-thought-&lt;as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} -as-of-'nondescript/ignorable–void\textsuperscript{59} -with-regards-to-prospective-apriorising-implications>) that hardly entertains its own transcendability/de-mentability, and why transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing—of-epistemic/notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing—notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-
thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating

is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of de-mentation-
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics)\(^\text{14}\) with the prior ontologically construed as decentered and preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism as of distractive-alignment-to\(^\text{83}\)reference-of-thought-<of-apriorising/axiomatising/referencing>\(^\text{29}\), with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist \(^\text{83}\)reference-of-thought with their God of plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism\(^\text{17}\)) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective \(^\text{83}\)reference-of-thought (as the author in here with a supposed notional–deprocrypticism\(^\text{17}\) \(^\text{83}\)reference-of-thought construal as implying a prospective relative-ontological-completeness\(^\text{67}\)-of-\(^\text{83}\)reference-of-thought over our positivism–procrypticism\(^\text{88}\)), the fact is that any transcendental analysis is caught in two worlds as two different \(^\text{83}\)reference-of-thought in striving to explicate the ontological pre-eminence of the prospective \(^\text{83}\)reference-of-thought as of ontological-normalcy/’postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our \(^\text{83}\)reference-of-thought being construed as ‘preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism\(^\text{88}\) uninstitutionalisation as preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism and not thinking, within non-
positivism/medievalism uninstitutionalisation as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold\textsuperscript{192} will react when construed as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} as of prospective deprocripticism–or–preempting—disjointedness-as-of–\textsuperscript{83}reference-of-thought\textsuperscript{17} perspective as in disjointedness-as-of–\textsuperscript{83}reference-of-thought and rather in distractive-alignment-to–\textsuperscript{83}reference-of-thought–<of-apriorising/axiomatising/referencing>\textsuperscript{29} ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confiction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of \textsuperscript{83}reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of \textsuperscript{83}reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} as a shift of the curve-of-prospective-relative-ontological-completeness\textsuperscript{87}-of–\textsuperscript{83}reference-of-thought/axiomatic-construct and not a change in logic as a change along the same \textsuperscript{83}reference-of-thought/curve-of-prior-relative-ontological-
incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought/logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound\textsuperscript{96}supererogation\textsuperscript{53}. In other words, a truly direct notional–deprocrypticism\textsuperscript{17} ontological analysis will be a ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of our positivism–procrypticism\textsuperscript{88} as we by reflex ‘mentally break-in’/dement a non-positivistic \textsuperscript{83}reference-of-thought (as we don’t engage it on the basis of the non-positivistic \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} just as a notional–deprocrypticism\textsuperscript{17} analysis will not engage us on the basis of our procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought of non-positivism and procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88}). But then wholly carried out in both instances it will be off-putting to both prior \textsuperscript{83}reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought over prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally
associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness87-of-
reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism17 construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism80 uninstitutionalisation as procrypticism–or–disjointedness-as-of-

mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\textsuperscript{68}-of-reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as human limited-mentation-capacity-deepening\textsuperscript{52} retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion\textsuperscript{74}-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow>\textsuperscript{96} supererogation not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} involving human limited-mentation-capacity-deepening\textsuperscript{52}. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism\textsuperscript{80} disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness\textsuperscript{99} teleology<in-existential-
83reference-of-thought’ and thus wrongly implying our unde-mentability hence our untranscendability for a de-mentative/structural/paradigmatic 83reference-of-thought–categorical-imperatives/axioms/registry-99teleology8, -for-aposteriorising/logicising/deriving/intelli-gising/measuring–meaningfulness-and-99teleology55 of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness88-of-83reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-99teleology temporal/shortness-of-register-of–meaningfulness-and-99teleology55 projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments185 like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification86/ontological-prime-movers-totalitative-framework72 construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s 83reference-of-thought is inherently a metaphysics-of-presence construed as postconverging-or-dialectical-thinking28-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-99teleology8 soundness-or-ontological-good-faith/authenticity68-of-83reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative completeness-of-83reference-of-thought which rather construes it as a preconverging-or-dementing19-and-decentered-prior-
institutionalisation’s–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness\textsuperscript{68}-of-\textsuperscript{83}reference-of-thought and a prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing\textsuperscript{19} and decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought by the latter as a postconverging-or-dialectical-thinking\textsuperscript{28} and centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-\textsuperscript{83}reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought with respect to its prior relative-ontological-incompleteness\textsuperscript{68}-of-\textsuperscript{83}reference-of-thought. But since we have been habituated as of our existential formation within our ‹amplituding/formative› wooden-language-{imbued—averaging-of-thought-«as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications›} to be in logical-dueness for logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} by default and thus always contendingly relevant on the basis of sharing a mutual positivism \textsuperscript{83}reference-of-thought, we will hardly entertain though a notional–deprocrypticism\textsuperscript{17} cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-
as-to-profound^{53} supererogation^{53} and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness^{88} of^{83} reference-of-thought construed as disjointedness-as-of^{83} reference-of-thought. But then ironically such a unde-mentability posture could as well be adopted by a non-positivism/medievalism^{83} reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking^{20} and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-{99}teleology^{8} with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound^{53} supererogation^{53} valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic^{83} reference-of-thought–categorical-imperatives/axioms/registry-{99}teleology^{8}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-{99}teleology^{55} for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic^{53} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,-for-explicating-{66}ontological-contiguity^{44} of vices-and-impediments^{205} of our prior relative-ontological-incompleteness^{88} of^{83} reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence
as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language—{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}> start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional—deprocrypticism prospective relative-ontological-completeness—reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’—apriorising-psychologism of positivism—procrypticism meaningfullness-and—teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from notional—deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’—apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-
primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional–deprocrypticism or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ and not yet by social universal-transparency–⟨transparency-of-totalising-entailing,–as-to-entailing⟨amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness–of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation,
suggesting positivism in universalisation–non-positivism/medievalism and suggesting notional–deprocrypticism\textsuperscript{17} in positivism–procrypticism\textsuperscript{88} will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework\textsuperscript{72} and percolation-channelling involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposing behind the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as pertinent for notional–deprocrypticism\textsuperscript{17} ‘without in the very least entertaining’ the \textlt{amplituding/formative}wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}—as-of-‘nondescript/ignorable–void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications>)} mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> that has always been a drawback as of temporal extricatory de-mentating/structuring/paradigmating and parasitising/co-opting inclination subpar to the warranted ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting holographically--<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments\textsuperscript{105} as of the transcendental prospective positivism prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-
thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as intemporality-asymmetric-subsumption-of-temporality/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation-supererogatory—ontological—de-mentation—dialekical—de-mentation—stranding-or-attributive-dialectics by superseding the prior non-positivism prior relative-ontological-incompleteness reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness reference-of-thought
by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-framework\textsuperscript{22} in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-\textsuperscript{99}\textsubscript{in-existential-extrication-as-of-existential-unthought}\textsuperscript{6} and initiating the appropriate prospective social universal-transparency\textsuperscript{164}\textsubscript{(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{\langle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-completeness\textsuperscript{87}) that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset\textsuperscript{83}\textsubscript{reference-of-thought into a positivistic mindset\textsuperscript{83}\textsubscript{reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism\textsuperscript{88} prior relative-ontological-incompleteness\textsuperscript{88}\textsubscript{of-\textsuperscript{83}\textsubscript{reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of-\textsuperscript{83}\textsubscript{reference-of-thought\textsuperscript{89} from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} of our positivism–procrypticism\textsuperscript{88} that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness\textsuperscript{87}\textsubscript{of-\textsuperscript{83}\textsubscript{reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-\textsuperscript{83}\textsubscript{reference-of-thought’ and the enculturation/endemisation of the manifest postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} in our positivism–procrypticism\textsuperscript{88} as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism\textsuperscript{88} circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-\textsuperscript{83}\textsubscript{reference-of-thought’ of meaningfulness-and-

ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-notional-deprocrypticism-prospective-sublimation ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview’s/dimension’s threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing-apriorising-psychologism (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and preconverging-or-dementing-apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought-prelogism-as-of-conviction,-as-to-profound-supererogation (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. The fact is by mental-reflex we relate to social meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} by \textsuperscript{13}constitutedness as of elaboration-
as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existent-contextualising-contiguity which by habit or chance will often turn out to be as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context as of the institutionalisation ambits of the domain-of-concern preceding so-established/so-institutionalised by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought–categorical-imperatives/axioms/registry–teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposing—for-relative-ontological-completeness—unenframed-conceptualisation) of a reference-of-thought–categorical-imperatives/axioms/registry–teleology as of conflation that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that reference-of-thought–categorical-imperatives/axioms/registry–teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–teleology as of the social at uninstitutionalised-threshold involves a totalising-entailing/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency–aporia/undecidability/dilemma/ought-

metaphysics-of-presence disposition as of institutionalisation and thus wrongly implying
intemporal construal as of our secondnatured institutionalisation which while inconsequential
within the ambits institutionalisation is not ontologically-veridical at the institutionalisation
uninstitutionalised-threshold\textsuperscript{102} with the latter rather requiring a temporal-to-intemporal appraisal
as of metaphysics-of-absence as its \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry—\textsuperscript{99}teleology—\textsuperscript{8},-for—

The implication is that postlogism\textsuperscript{77}/psychopathy and other human temporal phenomena (and so,
across all registry-worldviews) which speak of uninstitutionalised-threshold\textsuperscript{102} are often
wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature
whereas the conflatedness\textsuperscript{12} requires ‘synopsising-depth of a human temporal-to-intemporal
nature’ and so by conflatedness\textsuperscript{12} to establish the uninstitutionalised-threshold\textsuperscript{102} \textsuperscript{83}reference-of-

capacity by imbricatedness/threadedness/recomposing to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all
uninstitutionalised-threshold\textsuperscript{102}, and so over the mental-reflex of assuming secondnatured
institutionalisation \textsuperscript{83}reference-of-thought/axiomatic-construct as elaboration-as-mere-

contextualising-contiguity\textsuperscript{38} (construed as letting our limited-mentation-capacity by
unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold\textsuperscript{102} which require their own new specific \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising–in-relative-ontological-completeness\textsuperscript{87}) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold\textsuperscript{102} situation which is necessarily beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textlangle in-existential-extrication-as-of-existential-unthought\textrangle\textsuperscript{6} and without social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising–in-relative-ontological-completeness\textsuperscript{87}) of the visitor. This example is exactly along the lines of the \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} needed for construing postlogism\textsuperscript{77}/psychopathy and conjugated-postlogism\textsuperscript{77} as of its social model at uninstitutionalised-threshold\textsuperscript{102}, and so by way of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation (the latter is what sets up
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposing existential-contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} which is what renders-operant/incidenting predicative-insights\textsuperscript{83}). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} on the basis of the established 83reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} before the institutionalisation of such a specific uninstitutionalised-threshold\textsuperscript{102} takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-orincidenting-predicative-insights’ of positivism–procrypticism\textsuperscript{80} that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism\textsuperscript{80} or ‘disjointedness-as-of\textsuperscript{83}reference-of-thought’-as-misappropriated–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} going by the visitor’s relative-ontological-incompleteness\textsuperscript{88}-of\textsuperscript{83}reference-of-thought as of positivism–procrypticism\textsuperscript{80}, while the explainer of the situation has factored in notional–deprocrypticism\textsuperscript{17} 83reference-of-thought–categorical-imperatives/axioms/registry-
teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–
and-\textsuperscript{99}teleology\textsuperscript{55} to preempt the induced procrypticism\textsuperscript{80} or ‘disjointedness-as-of-\textsuperscript{83}reference-of-
thought’-as-misappropriated–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} from the childhood psychopathy
slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar
decception again in its relation with the childhood psychopathy the visitor will now construe of
notional–deprocrypticism\textsuperscript{17} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-
\textsuperscript{99}teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–
and-\textsuperscript{99}teleology\textsuperscript{55} to preempt the slanted inducing of procrypticism\textsuperscript{80} or ‘disjointedness-as-of-
\textsuperscript{83}reference-of-thought’-as-misappropriated–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} and gives up on
positivism–procrypticism\textsuperscript{80} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-
\textsuperscript{99}teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–
and-\textsuperscript{99}teleology\textsuperscript{55} with respect to its relations with the childhood psychopathy. Thus at this
individuation-level uninstitutionalised-threshold\textsuperscript{102} with respect to the childhood psychopathy, a
new notional–deprocrypticism\textsuperscript{17} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-
\textsuperscript{99}teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–
and-\textsuperscript{99}teleology\textsuperscript{55} has superseded the prior positivism–procrypticism\textsuperscript{80} \textsuperscript{83}reference-of-thought–categorical-
imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–
and-\textsuperscript{99}teleology\textsuperscript{55}, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting
predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-
elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. This is equally implied at the
registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance
factoring in well more than just one incident of childhood psychopathy but rather the dynamic-
cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and
as of postlogism\textsuperscript{77}/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism\textsuperscript{77}/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49} as of habits and thinking patterns consequences as of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}) by formality dynamics; with the implication of lack of social universal-transparency\textsuperscript{104} (transparency-of-totalising-entailing,-as-to-entailing-\langle\,\text{amplitudind-formative-epistemicity}\rangle\textsuperscript{amplitudind-formative-epistemicity-totalising--in-relative-ontological-completeness}\textsuperscript{87}) as the manifestation is beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\langle\text{in-existential-extrication-as-of-existential-unthout}\rangle\textsuperscript{6} at this uninstitutionalised-threshold\textsuperscript{102}, together with the inherent human complex of non-transcendability and hence unde-mentability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion\textsuperscript{74}-(of-\textsuperscript{83}reference-of-thought-\langle\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-}\textsuperscript{96}supererogation\rangle). However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional–deprocrypticism\textsuperscript{17} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism\textsuperscript{80} or ‘disjointedness-as-of-\textsuperscript{83}reference-of-thought’-as-misappropriated–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} will meet with a mental-complex of \langle\,\text{amplitudind-formative-epistemicity}\rangle.
reference-of-thought perspective but it is more difficult to grasp from a notional–deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing–apriorising-psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness of non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism will more likely be taken-up-fully/habituated only crossgenerationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of
the prior non-positivism
reference-of-thought–categorical-imperatives/axioms/registry-teleology,
-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness
-and-teleology, highlighting that a postlogism like psychopathy in our positivism–procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness of reference-of-thought as beyond-the-consciousness-awareness–teleology–in-existential-extrication-as-of-existential-unthought and ‘lack of constraining social universal-transparency
of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness); such that implying that our prior positivism–procrypticism, as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,
-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness
-and-teleology, cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a notional–deprocrypticism, reference-of-thought–categorical-imperatives/axioms/registry-teleology,
-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, will be difficult to countenance but for a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold–as-Being-or-ontological-or-existential–defect. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be
disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism\textsuperscript{77} condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procyrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity\textsuperscript{61}–<profound,\textsuperscript{96}supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{28}–qualia-schema>-with superstitious claims in its meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective \textquote{logically-due prelogism\textsuperscript{78}–as-of-conviction,–as-to-profound,\textsuperscript{96}supererogation conflatedness\textsuperscript{12} as of positivism \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–\textsuperscript{99}teleology,–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}, going by their familiarisation with the childhood psychopathy \textquote{logically-undue postlogism\textsuperscript{77}–as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow–\textsuperscript{96}supererogation\textsuperscript{10} denaturing\textsuperscript{15} as of non-positivism \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–\textsuperscript{99}teleology,–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}, over the visiting stranger prior superstition believing \textquote{logically-undue conjugated-postlogism\textsuperscript{77}/conjugated–nonconviction/madeupness/bottomlining-as-to-shallow–\textsuperscript{96}supererogation derived-denaturing\textsuperscript{15} as of non-positivism \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–\textsuperscript{99}teleology,–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55},

It is effectively derived-denaturing¹⁵ that induces threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow⁻⁶⁶-supererogation— preconverging/dementing¹⁹–apriorising-psychologism as of uninstitutionalised-threshold⁴⁸², as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-⁹⁹-teleology⁵⁵ are in effect ontologically-speaking threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow⁻⁶⁶-supererogation— preconverging/dementing¹⁹–apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism⁷⁷ analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism⁷⁸-as-of-conviction,-as-to-profound⁻⁹⁶-supererogation conflatedness¹² as of positivism ⁸³-reference-of-thought–categorical-imperatives/axioms/registry-⁹⁹-teleology⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–and-⁹⁹-teleology⁵⁵ with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing, as the non-positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension is a

This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This insight equally explains the pertinence of understanding postlogism\textsuperscript{77}/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality–of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing\textsuperscript{103} disruptive nature on human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’ and with the de-mentating/structuring/paradigming relatively easily perceived at
childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism⁷⁷ in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism⁷⁷ individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism⁸³reference-of-thought–categorical-imperatives/axioms/registry⁹⁹teleology⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and⁹⁹teleology⁵⁵ and a conventioning positivism–procrypticism⁸⁰ as procrypticism⁸⁰ in lieu of an ontologically-veridical notional–deprocrypticism¹⁷ ⁸³reference-of-thought–categorical-imperatives/axioms/registry⁹⁹teleology⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and⁹⁹teleology⁵⁵. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism⁷⁷/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to⁸³reference-of-thought–<of-apriorising/axiomatising/referencing>²⁹ as undermining conflatedness¹² induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness⁸⁸–of–⁸³reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism⁷⁷ as conjugated-ignorance’ is rather inclined to wrongly
imply a ‘symmetrisation-of-3\textsuperscript{nd}-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed \textless\textsuperscript{amplituding/formative–epistemicity}\textgreater\textsuperscript{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{33} that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism\textsuperscript{78-as-of-conviction,}-as-to-profound-supererogation-of-3\textsuperscript{nd}-reference-of-thought’ is in an ‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness\textsuperscript{12} as of its asymmetrisation with respect to the visitor whose 3\textsuperscript{rd}-reference-of-thought ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{88}-of-3\textsuperscript{rd}-reference-of-thought as not factoring in the childhood psychopathy postlogism\textsuperscript{77-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation}\textsuperscript{10}-of-3\textsuperscript{rd}-reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-3\textsuperscript{rd}-reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a 3\textsuperscript{rd}-reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-3\textsuperscript{rd}-reference-of-thought prior to the notion of logical-dueness arising once soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-3\textsuperscript{rd}-reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation 3\textsuperscript{rd}-reference-of-thought/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity\textsuperscript{38’s-reifying/elucidating-of-prospective-relative-ontological-completeness}\textsuperscript{87}-of-3\textsuperscript{rd}-reference-of-thought-devolving\textsuperscript{84-as-of-instantiative-context as contextually-manifest

The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and\(^{99}\)teleology\(^{55}\) that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-

The point here is to highlight that ‘conflatedness\textsuperscript{12}’ doesn’t imply any symmetrisation of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} with regards to perversion-and-derived-perversion\textsuperscript{74}-of-

In this regard, metaphysics-of-absence as articulated herein by this author is rather about, ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence/Doppler-thinking as it disambiguates human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor meaningfulness-and-teleology<amplituding/formative—epistemicity>causality—as-to-projective-totalitative-implications,—for-explicating,—ontological-contiguity, as of historiality/ontological-eventfulness/ontological-aesthetic-tracing, For instance, the immediacy of intrinsic-reality/ontological-veridicality transcendental enabling in the natural sciences which is implicated in those fields by their ‘relatively high results-constraining-effectiveness nature’ provides metaphysics-of-absence insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising—which-as-of-perceived—social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism/psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon—in-the-overall-ecstatic-existence-supervening-

In other words such a social construction supposedly coherent ontological-commitment\(^{65}\) is inherently the more expansive, universal, decisive, objective and easier basis for critiquing its theorising-conceptualising-operation-lising narratives ‘in order to assess the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment\(^{65}\) as of the possibilities of easily transcendentally-enabling-level-of-ontological-good-faith/authenticity\(^{68}/\)objectification/desubjectification-as-objectification-<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism>\(^{109}\) myriad retrospective and prospective social contexts of analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment\(^{65}\) rather on the basis of any such specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflicatedness\(^{12}\)/incidental occurring as of its relatively poorly objectifiable-as-desubjectifiable/subjectified incidental social context for analysis. Consider similarly that an epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree thus inspiring/providing-insight-for his laws of motion supposedly coherent ontological-commitment\(^{65}\) for explaining mechanical phenomena. Certainly, the inherently more expansive, universal, decisive, objective and easy basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of his laws of
motion supposedly coherent ontological-commitment\textsuperscript{65} is the possibilities of easily transcendentally-enabling-level-of-ontological-good-faith/authenticity\textsuperscript{68}/objectification/desubjectification-as-objectification-<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism>\textsuperscript{100} myriad retrospective and prospective mechanical phenomena for analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the laws of motion supposedly coherent ontological-commitment\textsuperscript{65} on the basis of the specific epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree as of the latter relatively poorly objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity\textsuperscript{63} angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of many a natural sciences <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment\textsuperscript{65} is wrong, such an insight about the supposedly coherent ontological-commitment\textsuperscript{65}
being wholly construed as of its ‘very own veracity/ontological-pertinence as of any of its objectifiable contexts’ can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}\textendash self-referencing-syncretising-as-of-perceived\textendash social-stake-contention-or-confliction that permeates the study of the social as of its blurriness\textsuperscript{7}. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment\textsuperscript{65} as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}\textendash self-referencing-syncretising-as-of-perceived\textendash social-stake-contention-or-confliction, and so as of a knowledge-notionalisation exercise. In other words metaphysics-of-absence refers to any such projections, as of human imaginative capacity derived from our underlying ‘coherence/contiguity-of-superseding\textendash oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so construed as the enabler of insight or intuition or foresight as of embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{65} as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative\textendash epistemicity>causality\textendash as-to-projective-totalitative\textendash implications,\textendash for-explicating\textendash ontological-contiguity\textsuperscript{44} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency\textendash sublimating\textendash nascence; thus enabling human limited-mentation-capacity-deepening\textsuperscript{52} insights as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. We can further get a sense with respect to the implications of what is meant by \textsuperscript{83}reference-of-thought\textendash categorical-imperatives/axioms/registry\textsuperscript{99}teleology\textsuperscript{8},\textendash for-aposteriorising/logicising/deriving/intelligising/measuring\textendash meaningfulness-and-

(In fact, the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing⁴⁵> are the conjoined effect of all specific uninstitutionalised-threshold¹⁸² institutionalisation breakthroughs of ⁸³reference-of-thought–categorical-imperatives/axioms/registry-⁹⁹teleology⁸,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-⁹⁹teleology⁵⁵ construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the ‘emotional involvement’ in conflatedness¹² within the same positivism
registry-worldview of appraisal is way low compared to the high ‘emotional involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation\(^8\) reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation\(^8\) reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism\(^8\) and notional–deprocrypticism\(^17\) as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of ‘emotional involvement’ thus requiring rather a crossgenerational adjustment as conflatedness\(^12\) over the prior distractive-alignment-to\(^8\) reference-of-thought\(<\)of-apriorising/axiomatising/referencing\(>\)\(^29\). In conclusion, such a construal/conceptualisation as of notional–deprocrypticism\(^17\) \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-\(^9\) teleology\(^8\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\(^9\) teleology\(^55\) over our positivism–procrypticism\(^8\) \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-\(^9\) teleology\(^8\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\(^9\) teleology\(^55\) of our ‘lived social’ uninstitutionalised-threshold\(^18\) with respect to psychopathy and social psychopathy and procrypticism\(^8\) in general is a wholly new dramatically different depth of understanding, and from our present inclination of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^38\) within the positivism institutionalisation framework. Beyond the above contrastive individuation-level and registry-worldview/dimension-level of analysis with respect to the uptake of prospective \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-\(^9\) teleology\(^8\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\(^9\) teleology\(^55\), this social reality of varying social \(^8\) reference-of-thought–closeness-of-tethering–to–

In other words, a prospective registry-worldview/dimension institutionalisation meaningfulness-and-\textsuperscript{99} teleology\textsuperscript{55} in becoming the new \textsuperscript{83} reference-of-thought (over the prior registry-worldview’s/dimension’s \textsuperscript{83} reference-of-thought) with its supposedly grander intemporal-preservation-entropy-or-contiguity–or–ontological-preservation \textsuperscript{83} reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99} teleology\textsuperscript{8} as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driving/behind its construal, turns out to be a prospective institutionalisation ‘reset framework for human temporal-to-intemporal mental-dispositions’ respectively in \textsuperscript{83} reference-of-thought–looseness-of-tethering–to–prelogism\textsuperscript{78} as-of-conviction, as-to-profound\textsuperscript{96} supererogation and \textsuperscript{83} reference-of-thought–closeness-of-tethering–to–prelogism\textsuperscript{78} as-of-conviction, as-to-profound\textsuperscript{96} supererogation of the new \textsuperscript{83} reference-of-thought’; as facing/dealing anew with human temporal-to-intemporal mental-dispositions but this
time around doing the same thing as occurred with the prior institutionalisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology that was transcended/superseded to deliver the new registry-worldview/dimension, but now on the new registry-worldview’s/dimension’s institutionalisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology (with the difference as of a ‘relatively lower sensibility’ arising just because of the new registry-worldview/dimension prospective relative-ontological-completeness of reference-of-thought limiting/constraining on the possibilities of vices-and-impediments); implying an underlying ontological-contiguity of the reality of human temporal-to-intemporal mental-dispositions across all the registry-worldviews/dimensions. Thus while ‘ontologically superseding the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and prior ‘lack of constraining social universal-transparency of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) this does not imply apart from such institutionalisation-as-secondnaturing a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold as its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and ‘lack of constraining social universal-transparency of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) inducing anew the new reference-of-thought owns threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. This social dynamism (dynamic-cumulative-aftereffect) as of the new registry-worldview/dimension uninstitutionalised-threshold can be construed ontologically as arising out of a further temporal/shortness-of-register-of–meaningfulness-and distortedness of the new <amplituding/formative–
epistemicity>totalising/circumscribing/delineating \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} in the social extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}) ultimately extending to the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}) spheres of formal constructs distorting formal construal of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, and so to a point of equilibrium of the new registry-worldview/dimension between its institutionalised meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} and its uninstitutionalised-threshold\textsuperscript{102}'s threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow—\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}—apriorising-psychologism. The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology conflatedness\textsuperscript{12} for ontologically-veridical meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} and ‘human temporal-to-intemporal-dispositions condition’ of reception/distortion across the successive registry-worldviews/dimensions involving denaturing\textsuperscript{15} where there is ‘lack of constraining social universal-transparency\textsuperscript{104}—(transparency-of-totalising-entailing,—as-to-entailing—\textsuperscript{amplituding/formative—epistemicity}>totalising—in-relative-ontological-completeness\textsuperscript{87}). The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation \textsuperscript{83}reference-of-thought can thus be construed as of pure-ontology conflatedness\textsuperscript{12} for ontologically-veridical meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness teleology—<in-existential-extrication-as-of-existential-unthought> meaningfulness-and teleology and the prior ‘lack of constraining social universal-transparency (transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity> totalising—in-relative-ontological-completeness), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology conflatedness for prospective relative-ontological-completeness-of-reference-of-thought meaningfulness-and teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existent-realty for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wanes as the reality of human temporal-to-intemporal-dispositions nature sets in as it is related to at the uninstitutionalised-threshold by the registry-worldview’s/dimension’s least common denominator as <amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasia-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry teleology) for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold that is a drawback-to/undermines prospective-knowledge-and-institutional deferential-formalisation-transference as of prospective relative-ontological-completeness-of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework, and is rather oriented to sovereign extrication over
knowledge-reification at this uninstitutionalised-threshold as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since \(^8\) reference-of-thought–categorical-imperatives/axioms/registry–teleology\(^8\) are only ‘mechanistically’ constraining, lacking the organic-spirit or ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the \(^8\) reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of–meaningfulness-and-teleology. Thus such implied prospective \(^8\) reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasion gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective \(^8\) reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating superserogatory–de-mentativity ontological-primemovers-totalitative-framework construal for the notional–deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of notional–deprocrypticism and the ‘reality of a human condition of

This process is mirrored with the various conjugated-postlogism\textsuperscript{77}'s conscious or unconscious aligning to the psychopathic/postlogic postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{18} vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{94}. Thus effectively such a postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{18} process is rather very simplistic, and the deception arises actually from the prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation mental-states to be by mental-reflex in prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation thus inducing wrongful teleological elevation of the postlogism\textsuperscript{77}/psychopathic meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, which wouldn’t occur at childhood psychopathy. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold\textsuperscript{102} with respect to perceived–social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-deepening\textsuperscript{52}, truly reflect the inherent nature of ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’; and the deprocrypticism\textsuperscript{17}-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism–procrypticism\textsuperscript{88} registry-worldview/dimensions vices-and-impediments\textsuperscript{105} (just as with all previous transcendence-and-sublimity/sublimation/supergenerative/de-mentativity of ‘intemporal ontological-faith-notion–or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-

The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought and ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into
perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the 66ontological-contiguity—of-the-human-institutionalisation-process67 as of human limited-mentation-capacity-deepening52 leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporalilty51/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold102 mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold102, which choices when of intemporalilty52-drive solipsistic-choices are maximalising-recomposuring54-for-relative-ontological-completeness87—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-99teleology55 as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold102-facet, so-construed by metaphysics-of-absence, carries institutionalisation and uninstitutionalised-threshold102 implications with respect to the determination of ontologically-veridical meaningfulness-and-99teleology55 as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold102 implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality...
enabling/sublimating/supererogatory--dementativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing101. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory--dementativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology55 (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory--dementativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology55 as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory--dementativity), given the social non-positivism/medievalism uninstitutionalised-threshold102 non-scientific disposition, as beyond-the-consciousness-awareness--teleology<-in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory--dementativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition
that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold\textsuperscript{102} social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework\textsuperscript{72} and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}. In another respect, with regards to scientific meaningfulness-and-teleology\textsuperscript{55} and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold\textsuperscript{102} when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all
opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplitudine/formative>wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology⁵⁵-as-of-‘nondescript/ignorable–void⁵⁹-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness⁸⁷-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology⁵⁵ more and more to formal constructs while increasingly reducing the sphere of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⁵⁵} as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism⁸⁰ registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology⁵⁵ terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—
mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism\textsuperscript{77}/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <\textipa{amplituding}/\textipa{formative}>wooden-language-(imbu{\textipa{ed}}—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and,\textipa{99} teleology\textipa{55}–as-of–
‘nondescript/ignorable–void\textipa{59}–with-regards-to-prospective-apriorising-implications>) mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism\textsuperscript{77} phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence instead of assuming a ‘human temporal uninstitutionalised-threshold\textipa{82} mental-disposition’ of the social by prospective metaphysics-of-absence, since the construal of our postlogism\textsuperscript{77} as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional~projective-perspective, reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and,\textipa{99} teleology\textipa{55} as of prospective notional~deprocrypticism\textipa{17} registry-worldview’s/dimension’s \textipa{83}reference-of-thought. Insightfully, by metaphysics-of-absence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-
positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities and drives such that it is endemised/enculturated in various temporalities/shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications>) in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of
metaphysics-of-absence/postdication with reference-of-thought–categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought–categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding-as-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness-of-reference-of-thought, by ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-
incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} \textsuperscript{83}reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification\textsuperscript{86} perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification as of their prior relative-ontological-incompleteness\textsuperscript{88}–of-\textsuperscript{83}reference-of-thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86} as-seeking-a-cure as of its prospective relative-ontological-completeness\textsuperscript{87}–of-\textsuperscript{83}reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism\textsuperscript{88} registry-worldview/dimension as of its prior relative-ontological-incompleteness\textsuperscript{88}–of-\textsuperscript{83}reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity\textsuperscript{38}–reification\textsuperscript{86} as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity\textsuperscript{61}–<profound–\textsuperscript{96}supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence
rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the dementative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness\textsuperscript{87}\textsuperscript{-of-}\textsuperscript{83}reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{31};\ with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\textsuperscript{4} as of reasoning-through/messianic-reasoning contortion is rather in transversality-of-affirmative-and-unaffirmative-,disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} of the prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought and the contorted prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\textsuperscript{4} as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought but for the induced crossgenerational transcendental metaphoricity\textsuperscript{56} possibility, and the contortion is more of a token as of the metaphoricity\textsuperscript{56} possibility for prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness reference-of-thought full meaningfulness-and-teleology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity into the ordinariness of prior relative-ontological-incompleteness reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various

existential-contextualising-contiguity\textsuperscript{38}. We can imagine as of a non-positivistic social-setup \textsuperscript{83}reference-of-thought identitive-\textsuperscript{13}constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} \textlt;amplituding/formative–epistemicity\gtotalising/circumscribing/delineating meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold\textsuperscript{102}, much like as from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} perspective we can imagine the ‘candid existential expressiveness’ in our positivism–procrypticism\textsuperscript{88} that ‘integrates procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88} as-thinking’ as of its uninstitutionalised-threshold\textsuperscript{102}; and in both cases the ‘trace/ontological-aesthetic-tracing of ontological wholeness/nested-congruence’ as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} breaks down at the uninstitutionalised-threshold\textsuperscript{102} thus assuming a nondescriptor/ignorable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) identitive-\textsuperscript{13}constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} representation of the breakdown and going on in both cases to ‘overlook effectively as-if-thinking respectively’ the ontologically-veridical reality of ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism superstition’ and ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88}’. It is \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism in preempting any such dementative/structural/paradigmatic threshold construed as uninstitutionalised-threshold\textsuperscript{102} as implied by notional–notional–deprocrypticism\textsuperscript{17} that reflects ‘ontologically-veridical difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} as factoring in prior registry-worldviews/dimensions \textsuperscript{83}reference-of-thought prior

In other words, existential-contextualising-contiguity\textsuperscript{38} as reflecting existence—as-the-absolute-a-priori-of-conceptualisation—end—existence—as-sublimating-withdrawal,—eliciting-of-prospective—\textsuperscript{96}supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming’> isn’t halted at any given registry-worldview’s/dimension’s de-mentative/structural/paradigmatic limit/threshold-construed-as-mathesis/motif/thrownness-disposition for ontological conception, but rather reifies as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epismic-determinism as implied with ontologically-veridical difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{86}—in—\textsuperscript{92}singularisation—as-veridical-epistemic-determinism\textsuperscript{21} as of notional—deprocrypticism\textsuperscript{17}, with such \textsuperscript{92}singularisation/epistemic-immanence/veridical-epismic-determinism reflecting an historicity/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} of all such de-mentative/structural/paradigmatic limits/thresholds-construed-as-mathesis/motif/thrownness-disposition of \textsuperscript{83}reference-of-thought ontological conception. In effect, such a trace/ontological-aesthetic-tracing can be construed as a ‘creative metaphoricity\textsuperscript{56} tracing’ of human temporal-to-intemporal ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> of human meaningfulness-and—\textsuperscript{99}teleology\textsuperscript{55} as of the dynamics of ‘overall human Being-personality-growth and the implications for its living-personality-growth and institutional-personality-growth’ implied as of notional—notional—deprocrypticism\textsuperscript{17} ontologically-uncompromised—referentialism, as a fundamental hermeneutic/reprojective psychological science which as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-episticem-
determinism articulates-and-rearticulates such tracing/ontological-aesthetic-tracing as of comprehensive/totalising-entailing/nested-congruence conflatedness12 from a most profound existential-contextualising-contiguity38 knowledge-reification86 depth of notional-notional-deprocrypticism17 protracted-consciousness. Such a hermeneutic/reprojective psychology is necessarily cognisant and departs from a construal of the fundamental instigation of human knowledge and emancipation as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’, as establishing in the very first place the prospective relative-ontological-completeness87 reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for 83reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed meaninglessness-and-99teleology55 aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed meaninglessness-and-99teleology55 aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojective psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and.-teleology\textsuperscript{55} aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} is very much alien to our positivism–procrypticism\textsuperscript{80} cloistered-consciousness. In both instances the notion of prospective metaphoricity\textsuperscript{56} is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality\textsuperscript{36/83}reference-of-thought/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising/circularity conception of meaningfulness-and-teleology\textsuperscript{55}’ which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness\textsuperscript{87}! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative-implications,-for-explicating–ontological-contiguity\textsuperscript{44}’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness\textsuperscript{87} is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition,–as–
reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism\textsuperscript{17}. The fact is human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at its uninstitutionalised-threshold\textsuperscript{102} implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold\textsuperscript{102} ‘is not geared to adhere to abstract ontological-veridicality’ as it will operate its state of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of 92\textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness\textsuperscript{88} reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{17}; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness\textsuperscript{88-of-93}reference-of-thought meaningfulness-and-99\textsuperscript{99}teleology\textsuperscript{55} state is downright ontologically ridiculous and the manifestation of an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions \textsuperscript{83}reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given \textsuperscript{83}reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{88} as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-
epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained epistemic singularisation/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing apriorising-psychologism as of prospective postconverging-or-dialectical-thinking apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic/reprojective psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and—teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—shallow—supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema>; and so, as its essential meaningfulness-and—teleology is as of a solipsistic transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing reflection

But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human
Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking\textsuperscript{28}\textendash apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing\textsuperscript{19}\textendash apriorising-psychologism uninstitutionalised-threshold\textsuperscript{102} which it tends to represent as nondescript/ignorable\textendash void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}\textendash narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory\textendash de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory\textendash de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory\textendash de-mentativity as of the possibility of prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought.

Human supererogatory\textendash de-mentative constraint is fundamentally associated with poor universal-transparency\textsuperscript{184} (transparency-of-totalising-entailing\textendash as-to-entailing\textsuperscript{amplituding/formative\textendash epistemicity}totalising\textendash in-relative-ontological-completeness\textsuperscript{87}) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\textsuperscript{102}. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory\textendash de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of wooden-language-(imbued\textendash temporal\textendash mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}\textendash narratives\textendash of-the\textsuperscript{83}reference-of-thought\textendash categorical-imperatives/axioms/registry\textendash teleology\textsuperscript{99}) as of the prior institutionalisation’s \textsuperscript{83}reference-of-thought\textendash categorical-imperatives/axioms/registry\textendash teleology\textsuperscript{99} that stifle the transcendence-and-sublimity/sublimation/supererogatory\textendash de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-
ontological-completeness\textsuperscript{87} of \textsuperscript{83}reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior \textsuperscript{83}reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{88}, for resolving a given registry-worldview/dimension vices-and-impediments\textsuperscript{105}; this notion of human supererogatory\textsuperscript{14} de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{14} de-mentativity as implied by a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation\textsuperscript{14} (supererogatory\textsuperscript{14} ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14}, rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness\textsuperscript{88} and relative-ontological-completeness\textsuperscript{87} \textsuperscript{83}reference-of-thought <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating\textsuperscript{66}ontological-contiguity\textsuperscript{44}, and thus making the given presence \textsuperscript{83}reference-of-thought as our positivism–procrypticism\textsuperscript{80} ‘all-determinative of what can be construed as psychological emancipation’ as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} despite the fact of its prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and\textsuperscript{55}teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. The underlying issue here as well as of ontologically-veridical difference-conflatedness\textsuperscript{32}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} has to do with deficient human capacity for dispensing-with-immediacy-for-

In this regard as of lack of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} is the human temporal inclination to decontortion construed as a disposition to undermine ‘intemporal ontological-veracity as of universal existential import’ for the sake of ‘temporal narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory universal meaningfulness-and—teology\textsuperscript{55}, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} incrementalism\textsuperscript{58}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition by its
deterministic hanging onto prior relative-ontological-incompleteness\textsuperscript{80}-of-reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing of reifying existential-contextualising-contiguity\textsuperscript{38}, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency\textsuperscript{104}.〈transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{83}〉’. Such a human disposition to decontortion at uninstitutionalised-threshold\textsuperscript{102} arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology\textsuperscript{55} as it reflects existence’s coherence/contiguity as of singularisation/epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold\textsuperscript{102} where we are actually preconverging-or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and vague untransvaluated–temporal-intemporality\textsuperscript{53} gesturing. The ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}; wherein across the successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}>, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-prime movers-totalitative-framework\textsuperscript{72} in undermining the human
temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency\textsuperscript{104}\langle\textsuperscript{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}\textsuperscript{87}\rangle.

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness\textsuperscript{7} and emotional-involvement. In another respect the implications of flawed identitive\textsuperscript{13}-constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance\textsuperscript{71}\langle\textsuperscript{including-virtue-as-ontology}\rangle as of the effective productivity potential of human knowledge construction.

In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive\textsuperscript{13}-constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48} implied as of dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive\textsuperscript{13}-constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48}’ thus leading to a disposition that
considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} without the constraint of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation—\textasciitilde as to perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and—sublimity/sublimation/supererogatory—de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care—and—episteme\textsuperscript{5}. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification\textsuperscript{86} as simply projecting ‘the supposedly reifying atomising/taking-to-pieces
formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating–in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing) with respect to temporal-to-intemporal ontological-performance which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supereoratory–de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-

Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative ontological-performance as of its reifying conflatedness connotative nature reflecting the ontological-veracity/ontological-performance of human-subpotency epistemic/notional-projective-perspective meaningfulness- and teleology articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity-as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction exposing it to existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness epistemic/notional-projective-perspective of ontological-prime movers-totalitative-framework as of prospective relative-ontological-completeness causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, and so-construed as of difference-conflatedness-as-to-totalitative-reification singularisation-as-veridical-epistemic-determinism causality-as-to-projective-totalitative-

This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-ordialectical-thinking of apriorising/axiomatising/referencing/intelligibilitysetup/measuring-instrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework of supposedly coherent ontological-commitment implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. implications,-for-explicating-ontological-contiguity. Whereas the analytic tradition posture with ‘speech act’ gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) geared towards identitive-constitutedness-as-‘epistemic-totality’dereification-in-dissingularisation-as-flawed-epistemic-determinism, which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent ontological-commitment in want of existential-contextualising-contiguity knowledge-reification for knowledge as ontologically-veridical meaningfulness-and-teleology, as can be validated and falsified by ontological-primemovers-totalitative-framework <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendency of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and goes on to naively deploy outside existential-contextualising-contiguity knowledge-reification such logic
notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment for knowledge elucidating/reifying which validation and falsifiability is rather a matter of ontological-primemovers-totalitative-framework and causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of ontological-primemovers-totalitative-framework and causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Being and beings construed-as-of-ontology/apriorising/axiomatising/referencing in the conceptualising of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human totalising~purview-of-construal’ or any totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or any-issue-in-existence as knowledge, and so as of articulated axiomatic-constructs; is rather reflected either in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> when the conceptualising is in prospective relative-ontological-completeness or is reflected in unaffirmation/deprojection/de-assertion/undueness-invalidating-

towards antinihilistic undermining of sophistic/pedantic dispositions as of incrementalism50-in-
relative-ontological-incompleteness68—enframed-conceptualisation. With the very blurry nature
of the social, even with the best of intentions as when continental philosophers try to engage the
analytic tradition, the experience has often turned out poorly given the failure to explicitly
grasp/appreciate the conflicting implications of their differing knowledge commitments as of
supposedly coherent ontological-commitment65 implied ecstatic-totalising-entailing/nested-
congruence with the former and logical-commitment implied atomising/taking-to-pieces
formalisation with the latter; even as going by conceptual-patterning, it can be naively implied
that similar conceptual wordings imply similar knowledge commitments and operant
articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the
physics  <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly
coherent ontological-commitment65 about ‘axiomatic-construct construal of ecstatic-

<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-

coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-

that is relevant is their further existential-contextualising-contiguity38 knowledge-reification86 as
physics knowledge as of its ontological-veridical meaningfulness-and.99teleology55 as can be
validated and is falsifiable by ontological-primemovers-totalitative-framework72
<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-
explicating-ontological-contiguity. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficulty be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-
construct’ insight about supposedly coherent ontological-commitment\textsuperscript{65} articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment\textsuperscript{65} in producing knowledge as meaningfulness-and-teleology\textsuperscript{55}; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework\textsuperscript{72}, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of conflatedness\textsuperscript{12} than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-
inspired experience-and-interpretation from ‘general and normal day to day experience about
living itself’. The point here is to highlight that by its very given domain-of-study with respect to
overall existence, philosophical knowledge more profoundly makes a totalising-entailing
conflatedness\textsuperscript{12} demand on human living experience for the inspired construing of ‘the ecstatic
manifestation of existence and then human experience-and-interpretation of that ecstatic
manifestation of existence’ than other more specific domains-of-study for which ad-hoc and
focussed domain study methods are pervasively decisive for ontological pertinence. But then this
is more a question of ‘expanded onticising construal of existence as of <amplituding/formative–
epistemicity> totalising-devolved purviews of existence so-construed as subject-
matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such
<amplituding/formative–epistemicity> totalising-devolved–purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent
philosophical domain-of-study construal of ecstatic manifestation of existence but for their
‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence

This further points out that the traditional explicited \textsuperscript{13}constitutedness conception of the notion of cause-and-effect so-implied herein as ontological-primemovers-totalitative-framework\textsuperscript{72} is actually epistemically-impertinent and flawed; as this traditional conception tends beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} to imply unconnectedness-with/not-in-nested-

cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework72
arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches
and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-
veracity, such that such deployment when it undermines the ‘inherently nested-congruence of
the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or
<amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-
as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity. Rather any such science approaches and methodologies striving to
validate knowledge as meaningfulness-and-teleology55 by the supposedly coherent ontological-
commitment65 reflected by ontological-primemovers-totalitative-framework72 as to existence-
potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-
thought, in-supereorogatory–epistemic-conflicatedness12, is necessarily instigated as from a
philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-
onontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-
enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while
in many ways such an elucidation hardly needs to be explicited in many a natural science domain-
of study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-prime-movers-totalitative-framework as to existence-potency~sublimating~nascence, disclosed from prospective-epistemic-digression as of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, in supererogatory~epistemic-conflatedness, this unexplicit implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so construed as-the-enabler-of-insight-or-intuition-or-foresight as of embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of conflatedness; so implied as of their supposedly coherent ontological-commitment reflected by ontological-prime-movers-totalitative-framework as to existence-potency~sublimating~nascence, disclosed from prospective-epistemic-digression as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory~epistemic-conflatedness. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative–epistemicity>totalising–develved–purview-as-domain-of-construal–as–
intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the
philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the
implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidations outcomes as of ontological-primemovers-totalitative-framework\textsuperscript{72} will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoretisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework\textsuperscript{72} as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity\textsuperscript{38} knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing existentialising—enframing/imprintedness-as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-
transposition\textsuperscript{46}. Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating \textasciitilde\textasciitilde reference-of-thought-devolving\textsuperscript{94} foregrounding—entailment-(postconverging–narrowing-down~sublimation as to existence— as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation in reflecting \textasciitilde immanent-\textsuperscript{66}ontological-contiguity')—as-operative-notional-deprocrypticism\textsuperscript{43} that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional-deprocrypticism\textsuperscript{17} ontology as \textasciitilde true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and teleology\textsuperscript{55} holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including dementative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism\textsuperscript{80} ‘contingent-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding—entailment-(postconverging–narrowing-down~sublimation as to existence— as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation in reflecting \textasciitilde immanent-\textsuperscript{66}ontological-contiguity')—as-operative-notional-deprocrypticism\textsuperscript{43} of the given natural science domain-of-study’ with specialism more of a furtherance of such a foregrounding—entailment-(postconverging–narrowing-down~sublimation as to existence— as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation in reflecting \textasciitilde immanent-\textsuperscript{66}ontological-contiguity')—as-operative-
notional-deprocrypticism scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest-subpotency—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—

For instance, the internal-coherence/nested-congruence speaking of the underlying foregrounding—entailment-{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective,supertorval in reflecting \(\text{‘immanent-}^{66}\text{ontological-contiguity’}\)}—as-operative-notional–deprocrypticism\(^{63}\) implications articulated herein in reflecting holographically-<conjugatively-and-transfusively> the \(^{66}\text{ontological-contiguity—of-the-human-institutionalisation-process}\)\(^{67}\) can be garnered by the fact that all the knowledge-reification\(^{86}\) herein implied arises as of the very same underlying ‘objectifying cogent unifying process and gesturing’ as of ‘the <amplitudes/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-explicating-\(^{66}\text{ontological-contiguity}\)\(^{44}\) of relative-ontological-incompleteness\(^{88}\)/relative-ontological-completeness\(^{87}\) (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\(^{12}\)/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>)’, which is exactly what avails in the good practices of the natural sciences as driven by their ‘cogent-unifying-operant-dynamics’ whether with regards to say ‘objectifying chemical processes articulation’, ‘objectifying physical principles articulation’ or ‘objectifying biological processes articulations’, contrary to a practice of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-\(\text{‘immanent-}^{66}\text{ontological-contiguity’}\)> in many a social domain-of-study wherein supposedly reified knowledge ‘hardly has any underlying implied knowledge-reification process/gesturing for its derivation’ as ‘cogent-unifying-operant-dynamics’ such that these turn out to be poorly operant or non-operant with the conceptual-patterning gesturing of mere-referring-confused-with-explicating, mere-mentioning-confused-with-deriving and mere-conceptual-synonymising-
confused-for-knowledge-reification\textsuperscript{86}, such that the underlying ‘cogent-unifying-operant-dynamics’ of the supposed knowledge-reification\textsuperscript{86} is hardly operantly existent or is operantly non-existent. Bizarrely, the blurriness\textsuperscript{7} of the social seem to be misconstrued as implying knowledge-reification\textsuperscript{86} in the social should reflect such blurriness\textsuperscript{7}-as-of-disparateness rather than the ultimate objectifying foregrounding—entailment-\{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-\textsuperscript{66}ontological-contiguity’\},–as-operative-notional–deprocrypticism\textsuperscript{43}, and so by conjugating ‘relative-ontological-completeness\textsuperscript{87} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-\textsuperscript{66}ontological-contiguity\textsuperscript{44}’ together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification\textsuperscript{86} as of objectifying foregrounding—entailment-\{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-\textsuperscript{66}ontological-contiguity’\},–as-operative-notional–deprocrypticism\textsuperscript{43}, in order to elucidate the blurriness\textsuperscript{7}. Such that quite often as of institutional practice the notion of foregrounding—entailment-\{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-\textsuperscript{66}ontological-contiguity’\},–as-operative-notional–deprocrypticism\textsuperscript{43} is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as ‘merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation)’ in a naïve substitution of the idea that foregrounding—entailment-\{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-\textsuperscript{66}ontological-contiguity’\},–as-operative-notional–deprocrypticism\textsuperscript{43} truly speaks of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint elicited reframing/transforming/reconstrual underlying ‘cogent-unifying-operant-dynamics’ that ‘runs-through/deflates’ implied conceptualisations in elucidating their ontological-veracity by its capacity to ‘objectively deflate-all-conceptualisations as of operant <amplituating/formative–epistemicity> causality~as-to-projective-totalitative–implications, for explicating 66ontological-contiguity44 in existential-contextualising-contiguity38 conflatedness12’ as herein implied (involving prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation for veridical ontologisation/ontological-veracity/aestheticisation-towards-ontology), rather than vague contrasting-and-comparison of disparate conceptualisations poorly reflecting underlying existential-contextualising-contiguity38 conflatedness12; and further, such an insight of underlying ‘cogent-unifying-operant-dynamics’ as herein implied is often misconstrued as being monotonous (whereas such ‘supposedly monotonous process/gesturing of knowledge-reification86 reflecting inherent domains-of-study as of their given epistemic-conceptions phenomenal/manifest–subpotency<in-transitive-conflatedness12–reflexivity, in the full-potency-of-existence’s–sublimating–nascence> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility73<imbued-and–hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> takes the form of the process/gesturing of knowledge-reification86 in say physics with the ‘supposed monotony’ of differential equations on physical variables, in chemistry with the ‘supposed monotony’ of valence bonding explaining chemical reactions or in biology with the ‘supposed monotony’ of gene regulation rather ultimately central to all biological processes), with the false implication of construing that disparateness-of-conceptualisation<unforegrounding-disentailment,–failing-to-reflect–immanent 66ontological-contiguity’> is inherently convenient as of a mental-reflex oriented towards ordinary
human-subpotency ways-of-looking-at-things rather than adopting-the-intellectual-hat for reifying the former in a mental-reflex oriented towards existence-potency–sublimating–nascence–disclosed–from-prospective-epistemic-digression-as-of-human–subpotency ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity conflatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse
narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completenesss transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{87} and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{87} as of the \textless{amplituding/formative–epistemicity}\textgreater causality–as-to-projective-totalitative–implications,–for-explicating–ontological-contiguity\textsuperscript{44} of existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12}. It is thus not surprising that naive disparateness-of-conceptualisation-\textless{unforegrounding-disentailment,-failing-to-reflect–ontological-contiguity}> leads to subject-matters and studies whose supposed knowledge-reification\textsuperscript{86} tend to be most heavily dependent on ‘peering to a fault’ of the contingent-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment\textsuperscript{65} as validatable and falsifiable by ontological-primemovers-totalitative-framework\textsuperscript{72} as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confledness\textsuperscript{12} as it is critically the case in the good practices of the natural sciences. The implication here is that the modern positivist ‘identitive conception of meaningfulness-and-teleology\textsuperscript{55} as of ontologically-flawed identitive–constitutedness-as–‘epistemic-totality\textsuperscript{36}–dereification-in-dissingularisation\textsuperscript{28}–as-flawed–epistemic-determinism\textsuperscript{48} is basically caught up in its very own enframed
insights’/epistemic-projection-in-conflatedness\textsuperscript{12}/of-notional-deprocripticism\textsuperscript{17}/prospective-sublimation\textsuperscript{90} opened-construct-of—meaningfulness-and—teleology\textsuperscript{55} so-implied with respect to ‘the transcendental-signifier that is ecstatic-existence’, as so-reflected in existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12} for elucidating, deriving and knowledge-reification\textsuperscript{86} of concepts and conceptualisations as of \textlangle amplituding/formative-epistemicity\textrangle causality—as-to-projective-totalitative—implications,—for-explicating—ontological-contiguity\textsuperscript{44} of relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}.

(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness\textsuperscript{12}/formative—supererogating—\textlangle in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing\textrangle). This explains why postmodern-thought cannot truly be understood in terms—as-of-axiomatic-construct of naïve identitive positivistic modern thought because the meaningfulness-and—teleology\textsuperscript{55} of postmodern-thought only arise rather in the reification\textsuperscript{86} process/gesturing involving the displacement/decentering-of-the-human-subject implied as of its \textlangle amplituding/formative-epistemicity\textrangle causality—as-to-projective-totalitative—implications,—for-explicating—ontological-contiguity\textsuperscript{44} of relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}.

(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness\textsuperscript{12}/formative—supererogating—\textlangle in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing\textrangle) for elucidating, deriving and knowledge-reification\textsuperscript{86} of its concepts and conceptualisations; as naïve identitive positivistic modern thought in its \textlangle amplituding/formative-epistemicity\textrangle totalising—self-referencing—syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} very often and systematically rather construes of such postmodern concepts and conceptualisations substitutively in its predisposition of presencing—absolutising-identitive—constitutedness\textsuperscript{79} by its mere referring, mentioning and synonymising of postmodern concepts and conceptualisations thus undermining the inherent
postmodern-thought implied elucidation, derivation and knowledge-reification\textsuperscript{86} of concepts and conceptualisations, and as such identitive positivistic modern thought fundamentally fails to recognise and factor in the aforementioned postmodern-thought knowledge-reification\textsuperscript{86} process/gesturing as of \textlangle amplituding/formative–epistemicity\textrangle causality as-to-projective-totalitative–implications,–for-explicating\textsuperscript{66} ontological-contiguity\textsuperscript{44} of relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}–(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{32}/formative–supererogating–\textlangle in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing\textrangle). Such a recurrent ontologically-flawed predisposition is tantamount to say construing Newtonian physics in the absolute terms—as-of-axiomatic-construct of its concepts and conceptualisations of say space, time, force, etc. to then project this predisposition by mere referring, mentioning and synonymisation of these Newtonian physics concepts and conceptualisations as if of Einsteinian physics in the hope that this will enable the elucidation, derivation and knowledge-reification\textsuperscript{86} of Einsteinian physics, whereas the latter implies an utterly different reification\textsuperscript{86} process/gesturing for its specific physics elucidation, derivation and knowledge-reification\textsuperscript{86} as of its \textlangle amplituding/formative–epistemicity\textrangle causality as-to-projective-totalitative–implications,–for-explicating\textsuperscript{66} ontological-contiguity\textsuperscript{44} of relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}–(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{32}/formative–supererogating–\textlangle in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing\textrangle). It is rather the suprastructuralism/postmodernism reification\textsuperscript{86} process/gesturing as of \textlangle amplituding/formative–epistemicity\textrangle causality as-to-projective-totalitative–implications,–for-explicating\textsuperscript{66} ontological-contiguity\textsuperscript{44} of relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}–(sublimating–referencing/registering/decisioning,–as-self-becoming/self-

conceptions beyond their simplistic conceptual-patterning to reflect underlying ecstatic-existence, will tend to be construed from the relative-ontological-incompleteness perspective in presencing—absolutising-identitive-constitutedness as nominalistic rather than as of ‘foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operate-notional—deprocrypticism supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as from the relative-ontological-completeness perspective. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification of Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. In both cases, the <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating—ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness—(sublimating—referencing/registering/decisioning,—as-self-becoming/self—conflatedness/formative—supererogating,<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing>) implied displacement/decentering-of-the-human-subject points to different sense-of-conscious-representation-of—meaningfulness-and—teleology between the relative-ontological-incompleteness and relative-ontological-completeness such that the former is rather in pseudo-edginess/pseudo-incisiveness implying

A further naivety is the appreciation of postmodern knowledge-reification⁸⁶ process/gesturing arises as of a general misunderstanding of what is generally implied with regards to any given knowledge-reification⁸⁶ process/gesturing. As indicated before all subject-matters/domains-of-study effectively reflect existence’s overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligence⁷³,<imbued-and-
atomising/taking-to-pieces constitutedness is shown to be veridically rather as of existential-contextualising-contiguity conflatedness going by the successive relative-ontological-completeness physics conception of such notions as space, time, etc. in totalising/circumscribing/delineating development of successive theories say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same notions and derived-notions but with different implications. This totalising/circumscribing/delineating nature of all domains-of-study in existential-contextualising-contiguity conflatedness as of causality–as-to-projective-totalitative–implications,-for-explicating ontological-contiguity, speaks of the epistemic-veracity of the fact that ‘all knowledge is truly developed as of a hermeneutic/reprojective circle for relative-ontological-completeness’ that involves human limited-mentation-capacity-deepening. This hermeneutic/reprojective circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagagic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojective insight as of maximalising-recomposuring—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic/reprojective circle level of postmodern knowledge-reification’ no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic/reprojective circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojective circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from
ordinary/banal <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications} level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications} predisposition to incrementalism in-relative-ontological-incompleteness—enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojective circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a ‘<amplituding/formative—epistemicity> totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘<amplituding/formative—epistemicity> totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojective circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojective circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications} level of
knowledge conception, and implicated in its knowledge-reification\textsuperscript{86}–gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojective circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification\textsuperscript{86} priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojective circle of levels of understanding’ more or less very transparent, with regards to the blurriness\textsuperscript{7} of the social such a postmodern-thought ‘hermeneutic/reprojective circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying \textsuperscript{83}reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying \textsuperscript{83}reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework\textsuperscript{72} as of inherent existence/ontological implications, as fundamentally requiring contemplative reification\textsuperscript{86} arising with human limited-mentation-capacity-deepening\textsuperscript{52}, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation-\textless unfocussing-disentailment,-failing-to-reflect-‘immanent.\textsuperscript{64}ontological-contiguity’\textgreater but rather implying a

knowledge-reification\textsuperscript{86}, that are well beyond a disparateness-of-conceptualisation-
<unforegrounding-disentailment,-failing-to-reflect-‘immanent-\textsuperscript{66}ontological-contiguity’>
orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—
discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to
appreciate here that a history of postmodern-thought criticism driven by populism, media
operations, false intellectual engagement and ontological-bad-faith/inauthenticity\textsuperscript{63}, is
particularly telling not about postmodern thinkers knowledge-reification\textsuperscript{86} epistemic-veracity but
rather ‘the knowledge-reification\textsuperscript{86} epistemic-veracity of such critics who often pride themselves
on not understanding postmodern-thought then by a strange paradox have the knowledge to
produce a profound criticism of postmodern-thought which they supposedly do not understand’.

Even more critically, the question can be raised whether such critics profoundly appreciate the
overall human knowledge-reification\textsuperscript{86} process/gesturing as herein articulated, and whether this
very fact isn’t linked to the knowledge-reification\textsuperscript{86} methodological difficulties arising in many
social domains-of-study ‘assuming a disparateness-of-conceptualisation-
<unforegrounding-disentailment,-failing-to-reflect-‘immanent-\textsuperscript{66}ontological-contiguity’>
epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative
knowledge-reification\textsuperscript{86} passivity with regards to many a social issue ‘but for adventures into
social commentary divorced from genuine operant knowledge-reification\textsuperscript{86} implications’; and in
this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’
lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the
right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{87} and thereof the knowledge
for that given right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{87} as of projected
existential-contextualising-contiguity\textsuperscript{38} in conflatedness\textsuperscript{12}, an issue that has always been a
difficult knot throughout the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-
process\textsuperscript{67} but which inevitably has to be dealt with for the possibility of prospective human
registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the *amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity involved in knowledge-reification*, and is reflected in a lack of parrhesiastic and hermeneutic/reprojective insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing*, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist *wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and—teleology–as-of–nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications)>*) in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in conflatedness; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojective insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive–constitutedness-as–‘epistemic-totality–dereification-in-dissingularisation–as-flawed-epistemic-determinism* ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojective conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-
reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojective analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojective and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental-instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political
developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation that then feeds into prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific
limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-
reification—gesturing and organic implications’, just as we cannot simplistically interpret the
importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire
and aether on a naïve presencing—absolutising-identitive—constitutedness basis from the
vantage perspective of our modern positivism (as being at the receiving backend of the
institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-
eventfulness/ontological-aesthetic-tracing> in reflecting holographically—<conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process but
rather the more critical insight lies with its novel and transformative universalising—
classificatory knowledge-reification—gesturing as opening up the possibility for prospective
human reconceptualisation of science providing the backdrop from which modern science took
off from the medieval times to the present. Likewise, the transformative nature of budding-
positivism more than just as garnered from the precised narrative accounts about budding-
positivist thinkers, lies more profoundly with its meaningfulness-and—teleology infrastructure
impact on the developing enlightenment social developments and as this budding-positivism
metaphoricity—epistemic-ricochettingly/transepistemically brought about our
positivism/rational-empiricism modern society. The analyses of human becoming so-implied as
of parrhesiastic and hermeneutic/reprojective development is in of itself a pure science that is
epistemically-derivable as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-
implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-
insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific
accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic
and hermeneutic/reprojective insight actually informs about the ontological-pertinence of such
narrative accounts. In another respect, even with a most natural sense of parrhesia and
hermeneutic/reprojective insight, many a figure predispose to atomising/taking-to-pieces
analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/superroratory–de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/superroratory–de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a-lifespan-of-existence-implications projection as of a wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as of ‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>) is not de-mentated/structured/paradigmed to do! But then
the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency~sublimating~nascence? Insightfully, this fundamentally has to do with the contrastive implications in construing ontological-primemovers-totalitative-framework as of good-practice/epistemic-veracity and bad-practice/epistemic-impertinence for knowledge-reification; wherein objectifying foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism as good-practice/epistemic-veracity of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as of ‘cogent-unifying-operant-dynamics of primemovers’ so-construed veridically as ‘ontological-primemovers-totalitative-framework as of existential-contextualising-contiguity conflatedness’, whereas disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect-‘immanent-ontological-contiguity’> as bad-practice/epistemic-impertinence of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as ‘disjointing/disparateness/disentailing of primemovers’ so-construed wrongly as ‘ontological-primemovers-totalitative-framework in constitutedness outside existential-contextualising-contiguity’. Thus ‘disjointing/disparateness/disentailing of primemovers as disparate-contingent-disenvelopment-<unforegrounding-disentailment,—failing-to-reflect-‘immanent-ontological-contiguity’>’ basically undermines the veridical underlying ‘ontological-totalitative-framework
as of existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12}, and thus undermines aetiologisation/ontological-escalation predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65}). ‘disjointing/Disparateness/Disentailing of primemovers as disparateness-of-conceptualisation-\textlangle unforegrounding-disentailment,-failing-to-reflect-\textrangle ‘immanent-\textsuperscript{66}ontological-contiguity’> undermines the inherent ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12}, such that the supposed exercise of knowledge-reification\textsuperscript{86} ends up ‘losing the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} of axiomatic-constructs as reflective of existential-reality’; as of the flawed disjointing/disparateness/disentailing of overall inherent existential-reality supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness, and further reflected variously as temporal over-emphasising and/or underemphasising/ignoring of primemovers reflecting ‘ontological-totalitative-framework as of existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12}, and so due to ‘human-subpotency presencing—absolutising-identitive-constitutedness\textsuperscript{79} \textlangle amplituding/formative–epistemicity\rangle totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} as well as lack of prospective intemporal parrhesiastic aestheticisation for prospectively renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ thus undermining existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textlangle amplituding/formative–epistemicity\rangle totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic–conflatedness\textsuperscript{12} \textlangle amplituding/formative–epistemicity\rangle causality–as-to-projective-totalitative–implications,-for-explicating-\textsuperscript{66}ontological-contiguity\textsuperscript{44} of relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-\textlangle sublimating–referencing/registering/decisioning,–as-self-becoming/self-

many a social domain-of-study relatively undermines ‘good-practice/epistemic-veracity

taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parresia,–as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology55’), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’. For instance with regards to living-development–as-to-personality-development meaningfulness-and-teleology55, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology55’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness87-by-reification86/contemplative-distension26 in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness87-by-reification86/contemplative-distension26 as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of meaningfulness-and-teleology55 (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-
aestheticisation’) in existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12} involving ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-

This is so because ‘human <amplituding/formative–epistemicity>causality–as–to-projective-totalitative–implications,—for-explicating–\textsuperscript{66}ontological-contiguity\textsuperscript{44} purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{87} orientation’ supersedes any such human ‘institutional-development–as-to-social-function-development meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language’, in its existential-contextualising-

This basically explains the constantly developing nature of human ‘institutional-development–as-to-social-function-development meaningfulness-and teleology⁵⁵ outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness¹² conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-¹³ constitutedness⁷⁹ of—meaningfulness-and teleology⁵⁵ (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it is ‘human <amplituding/formative–epistemicity> causality~as-to-projective-totalititative–implications,-for-explicating ontological-contiguity⁴⁴ purposefulness-reflexivity for prospective relative-ontological-completeness⁸⁷ orientation’ implied as of maximalising-recomposuring⁵⁴-for-relative-ontological-completeness⁸⁷—unenframed-conceptualisation that fundamentally renders/makes human institutional-development–as-to-social-function-development meaningfulness-and teleology⁵⁵ outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness¹² conceptions’ to be
necessarily as of existential-contextualising-contiguity\textsuperscript{38} in conflatedness\textsuperscript{12} and not in \textsuperscript{13}constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. In another respect, ‘living-development–as-to-personality-development meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} aestheticisation’ is of ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to ‘institutional-development–as-to-social-function-development meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} aestheticisation’ that rather cumulatively holds-on-to and complexifies the culturally cumulated outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations from historically accrued ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ construed as of human institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}> such as with regards to any specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’. This will explain why the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of ‘institutional-development–as-to-social-function-development meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> of prior reproducibility—
mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation epistemic- ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance—<including-virtue-as-ontology> of prior reproducibility—

mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for such ‘institutional-development—as-to-social-function-development meaningfulness-and—teleology aestheticisation’ underlying ‘hermeneutic/reprojective reactualising as <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development—as-to-social-function-development meaningfulness-and—teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and—teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—‘hermeneutically/reprojectively—educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising—

Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive⁻¹³-constitutedness-as-‘epistemic-totality³⁶’-dereification-in-dissingularisation²⁸-as-flawed-epistemic-determinism⁴⁸ that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity³⁸ and then reifies-out conceptualisations as of difference-conflatedness²²-as-to-totalitative-reification⁸⁶-in-⁹²-singularisation-as-veridical-epistemic-determinism²¹. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation
frameworks of supposed reification\textsuperscript{86}/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very <amplituding/formative>wooden-language-(imbued—averaging-of-thought-\textless as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-of-'nondescript/ignorable–void\textsuperscript{59}'-with-regards-to-prospective-apriorising-implications\textgreater ) that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification\textsuperscript{86}/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity\textsuperscript{38} in a rather blurry social domain of study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity\textsuperscript{38} dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}/knowledge as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the
elucidation/reification\textsuperscript{86} of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework\textsuperscript{72}; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification\textsuperscript{86} as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework\textsuperscript{72} disposition rather than an orientation towards the ‘transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{108} or transversal-analysis-towards-validatory-selectivity-for-foregrounding—entailment—(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective–\textsuperscript{96}supererogation in reflecting ‘immanent–\textsuperscript{66}ontological-contiguity’),–as-operative-notional–deprocrypticism\textsuperscript{43} of conceptualisations-and-interpretations’ as constrained to ontological-primemovers-totalitative-framework\textsuperscript{72} which is what further reifies the body of knowledge by enabling existence as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to continually select the trace/ontological-aesthetic-tracing of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation disseminative insight, with unsound/superseded conceptualisations-and-interpretations being discarded thereafter. Concretely, we can easily appreciate the greater pertinence of a Foucauldian statement of relative truth as of ontologically-veridical difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21}, construable rather as a more precise theoretical, conceptual and operant notion of truth by its existential-contextualising-
contiguity\textsuperscript{38} knowledge-reifying <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating\textsuperscript{46}ontological-contiguity\textsuperscript{44} as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
\textsuperscript{92}singularisation\textsuperscript{47} as reflected with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existent-reality instigated 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-92singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating\textsuperscript{46}ontological-contiguity\textsuperscript{44} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-\textsuperscript{13}constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}-as-flawed-epistemic-determinism\textsuperscript{48}. Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79}, and displaces/decenters the human subject as of its presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of
naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on wooden-language—(imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness—and—teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) populist interpretations rather than elevating human ontological construal of the social domain-of-study! It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-of-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—and—episteme as of ontologically-veridical difference-confalatedness—as-to-totalititative-reification—in-singularisation-as-veridical-epistemic-determinism for existential-contextualising-contiguity knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existential-contextualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existential-contextualising-contiguity—and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation/epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity knowledge-reification by the implicated
immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{72} transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{--}de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{--}de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification\textsuperscript{86} of existential-contextualising-contiguity\textsuperscript{38} but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory\textsuperscript{--}de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{--}de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} \textsuperscript{<amplituding/formative\textendash epistemicity>}causality\textendash as-to-projective-totalitative\textendash implications\textsuperscript{,}for-explicating\textsuperscript{--}ontological-contiguity\textsuperscript{44}. Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicited creative process of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. This process is one of human limited-mentation-capacity-deepening\textsuperscript{52} as of ‘repeating/repetition of maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, inducing successive differences of ontological-performance\textsuperscript{71}\textsuperscript{<including-virtue-as-ontology>} of meaningfulness-and-teleology\textsuperscript{55} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality\textsuperscript{,}as-to\textsuperscript{--}‘human\textsuperscript{<amplituding/formative\textendash epistemicity>}totalising\textendash purview-of-construal’ with increasing
prospective relative-ontological-completeness reflected as of difference-confoundedness-as-to-totalitative-reification in singularisation-as-veridical-epistemic-determinism, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity reflected as of identitive-constitutedness-as-epistemic-totality. dereification-in-dissingularisation-as-flawed-epistemic-determinism; with repeating/repetition of maximalising-recomposuring for relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance including-virtue-as-ontology of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human-amplitunding-formative-epistemicity-totalising-purview-of-construal with increasing prospective relative-ontological-completeness rather reflected as of ontologically-veridical difference-confoundedness-as-to-totalitative-reification in singularisation-as-veridical-epistemic-determinism which implied singularisation/epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity/sublimation/supererogatory-dementativity which is 'concurrently formatted as formalisation'. Thus we know of the recurrent stories of 'mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise' as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics 'very often not well presented but essentially sublime', and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while 'exquisitely formalised in concurrence'. This reality of repeating/repetition of maximalising-recomposuring for relative-ontological-completeness—unenframed-conceptualisation for
existential-contextualising-contiguity\textsuperscript{38}, inducing successive differences of ontological-performance\textsuperscript{71}<including-virtue-as-ontology> of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of the very same immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness\textsuperscript{87} is very much obvious from the accounts of ‘successive partial contributions-and-failures’ that lead to major breakthroughs in the natural sciences as of the ‘very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’; with this ontologically-veridical difference-conflatedness\textsuperscript{12} as to totalitative-reification\textsuperscript{86} in,\textsuperscript{92} singularisation-as-veridical-epistemic-determinism\textsuperscript{21} ‘repeating/repetition of maximalising-recomposuring\textsuperscript{54} for relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, inducing successive differences of ontological-performance\textsuperscript{71}<including-virtue-as-ontology> of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of the very same immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness\textsuperscript{87} construed as occurring within the very same scientist, across scientists of the same interest-of-study in a generation, and across scientists of the same developing interest-of-study crossgenerationally as of the ‘very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. In this regard, we can appreciate that as of their differing ontological-performance\textsuperscript{71}<including-virtue-as-ontology> the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness\textsuperscript{87} is considered as postconverging-or-dialectical-thinking\textsuperscript{20} apriorising-psychologism, and striving to operate the classical-
mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing—apriorising-psychologism; even though both address the ‘very same physics <amplituding/formative-epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitivite-constitutedness-as-‘epistemic-totality—dereification-in-dissingularisation—as-flawed-epistemic-determinism implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor conflatedness of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied identitive–constitutedness-as–epistemic-totality–dereification-in-dissingularisation-as–flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by
striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity\(^{38}\). This failure in fully appreciating the import of ontologically-
veridical difference-confoundedness\(^{32}\)-as-to-totalitative-reification\(^{86}\)-in-
92-singularisation-as- 
veridical-epistemic-determinism\(^{21}\) ‘repeating/repetition of maximalising-recomposuring\(^{54}\)-for-

contextualising-contiguity\(^{38}\) knowledge-reification\(^{86}\), inducing successive differences of 
ontological-performance\(^{71}\)-<including-virtue-as-ontology> of meaningfulness-and-
99-teleology\(^{55}\) as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality.-as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing 
prospective relative-ontological-completeness\(^{87}\) as of implied 92-singularisation/epistemic-

contiguity\(^{44}\), as transcendence-and-sublimity/sublimation/supererogatory~de-mentativity only 
arise as of human expansion of its reifying grasp of existential-contextualising-contiguity\(^{38}\). 
Consider in this regard that the repeated maximalising-recomposuring\(^{54}\)-for-relative-ontological-
completeness\(^{87}\)—unenframed-conceptualisation articulation by this author on the theme of 
conceptual patterning here further complements as of further articulated reification\(^{86}\) of this very 
theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-
reification\(^{86}\) insight often goes missing with many a subscriber to the formalisation credo, as of 
reification\(^{86}\) along the three frames indicated above (as of same scholar interest-of-study, scholars 
of the same generation interest-of-study and scholars crossgenerationally developing interest-of-
study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, 
Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve 
conceptual patterning conception of knowledge; going by their profound association with earlier
scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} causality—as-to-projective-totalitative–implications,—for-explicating—ontological-contiguity\textsuperscript{44} of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising~purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, inducing successive differences of ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> of meaningfulness-and-teleology\textsuperscript{55} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative—epistemicity>totalising~purview-of-construal’ with
increasing prospective relative-ontological-completeness\textsuperscript{87}. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective deprocrypticism–or–preempting—disjointedness-as-of.\textsuperscript{83}reference-of-thought\textsuperscript{17} ontologically-verbatim difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21}. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity\textsuperscript{56} orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/poria ‘left it’ to existence as of ontological-prime movers-totalitative-framework\textsuperscript{72} as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-
and-sublimity/sublimation/supererogatory~de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism⁸⁰ human subject is rather undecentered’ relative to the prospective postmodern—notional–deprocrypticism¹⁷ self-conscious mindset we fail to truly appreciate the dementative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework⁷² as the veritable transcendental-signifier/transcendental-enabling/subliming/supererogatory~de-mentativity to ‘continually select’ postmodern—notional–deprocrypticism¹⁷ disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the dementative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective~supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied~prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity³⁸ knowledge-reification⁸⁶ for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. But then with regards
to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} here implies human displacement/decentering even though our temporal/shortness-of-register-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} of trite existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications,-for-explicating-\textsuperscript{66}ontological-contiguity\textsuperscript{44}, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism\textsuperscript{4} as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} is ever always a ‘conflatedness\textsuperscript{12} totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’; with such construal in reality rather very much as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrpticism–or–preempting—
disjointedness-as-of reference-of-thought conflatedness totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation/epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Unlike the constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence causality—as-to-projective-totalitative—implications,—for—explicating—ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising—purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the
wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of

92 singularisation/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their 13 constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity 38 knowledge-reification 46’ of existence— as-the-absolute-a-priori-of-conceptualisation— and—existence— as-sublimating-withdrawal,-eliciting-of-prospective- 96 supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied- ‘prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity. The naivety of implied 13 constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding-formative–epistemicity>totalising~purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness 12 in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence conflatedness 12 with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework 72 are naturally and ad-hocly dementated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence conflatedness 12 with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of
relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought towards ontologically-uncompromised—referentialism avails, effectively the construal of the social assumes the requisite reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation apriorising/axiomatising/referencing/intelligence/setup/measuring/instrument for wholeness/nested-congruence conceptualisation as of the conflatedness\textsuperscript{12} of ’prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism notional—depocrypticism\textsuperscript{17} apriorising/axiomatising/referencing/intelligence/setup/measuring/instrument’, as implied by the suprastructuralism conception herein in fully reflecting the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—’prospective-aporeticism-overcoming/unovercoming’>, and so over our present parsimony/disparateness of conceptualisations ‘reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation as-of-ontologically-compromised—categorising positivism—procrypticism\textsuperscript{88} apriorising/axiomatising/referencing/intelligence/setup/measuring/instrument’. Thus we can appreciate here that ultimately singularisation/epistemic-immanence/veridical-epistemic-determinism is not just artificially prompted but is rather the de-mentative/structural/paradigmatic consequence of the prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought apriorising/axiomatising/referencing/intelligence/setup/measuring/instrument attitude/mental-disposition/care—–and—episteme\textsuperscript{4}, ultimately as of prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17}. Our mental-disposition is caught up between its capacity to conceptualise as of singularisation/epistemic-immanence/veridical-
epistemic-determinism implied prospective relative-ontological-completeness\textsuperscript{87} conflatedness\textsuperscript{12} and dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism implied prior relative-ontological-incompleteness\textsuperscript{88} \textsuperscript{13}constitutedness; and basically intemporal ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> arises by drawing out the full <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,–for-explicating-\textsuperscript{66}ontological-contiguity\textsuperscript{44} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} exclusively as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism implied conflatedness\textsuperscript{12} prospective relative-ontological-completeness\textsuperscript{87} as it enables ‘ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> to be utterly as of predictable de-mientative/structural/paradigmatic internal-necessity/determinism so-construed as immanence-function-conflatedness\textsuperscript{12}’. Thus the inherent ecstatic singularity of existence carries intemporal ‘immanence-functions-conflatedness\textsuperscript{12} <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,–for-explicating-\textsuperscript{66}ontological-contiguity\textsuperscript{44}’ as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism conflatedness\textsuperscript{12}, while dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism \textsuperscript{13}constitutedness arises as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} ontological-construal defect when naively failing to convey the ‘immanence-function-conflatedness\textsuperscript{12} implication’ of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}–<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>. Thus naturalistic methodologies are only as pertinent as of their explaining of underlying background of the social as of physical and biological reality, but not as substitutive explanations as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}–<imbued-and–‘hermeneutically/reprojectively-educing’–

What is misjudged by many naturalistic methodologies with regards to the social is the fact that the very reality as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility <⁷³≥<imbuéd-and-

epistemicity→causality→as-to-projective-totalitative→implications→for-explicating→ontological-contiguity of singularisation/epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed constitutedness’ or ‘we are as potently immanent as of our virtuous conflatedness’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the notional-deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and teleology of procrypticism–or–disjointedness-as-of reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional-deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by

anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness\(^{12}\) with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional–deprocrypticism\(^{17}\) immanence-function-conflatedness\(^{12}\) as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of\(^{83}\)reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism\(^{80}\) mental-disposition with no pretence of such a positivism–procrypticism\(^{80}\) ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of\(^{83}\)reference-of-thought inclination. In other words, immanence-function-conflatedness\(^{12}\) is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework\(^{72}\) as of \(^{92}\)singularisation/epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness\(^{88}\) meaningfulness-and-\(^{90}\)teleology\(^{55}\) as if of prospective relative-ontological-completeness\(^{87}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness\(^{12}\) equally highlights knowledge as of its essential organic construct implications. As a \(^{33}\)constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly de-mentated/structured/paradigmed mindset, but
nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness of reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument of a prior relative-ontological-incompleteness of reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein
contended that similarly a notional-deprocrypticism\textsuperscript{17} contortion reifying gesture necessarily questioning our positivism–procrypticism\textsuperscript{80} disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and imp\textsuperscript{55} teleology\textsuperscript{55} as of prospective deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought\textsuperscript{17} transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness\textsuperscript{12}, likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflatedness\textsuperscript{12}, universalisation–non-positivism/medievialism fails as of prospective positivism immanence-function-conflatedness\textsuperscript{12}, and prospectively positivism–procrypticism\textsuperscript{80} fails in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and imp\textsuperscript{55} teleology\textsuperscript{55} as of prospective notional-deprocrypticism\textsuperscript{17} immanence-function-conflatedness\textsuperscript{12}; so-implied as of \textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism reflection of existence’s ecstatic singularity. Hence ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in \textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} as amplituding/formative–epistemicity causality–as-to-projective-totalitative–
implications, for explicating ontological-contiguity implied organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness, with the pretence of prior relative-ontological-incompleteness of reference-of-thought for objectifying/contending discursivity nothing more but flawed with the pretence of prior relative-ontological-incompleteness of reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness of reference-of-thought for objectifying/contending discursivity nothing more but flawed <amplituding/formative–epistemicity>totalising~self-referencing~syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, <amplituding/formative–epistemicity>totalising~self-referencing~syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a 'construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicited orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their
thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. This insight equally informs this author’s supplanting–conviction-as-to-profound\textsuperscript{96} supererogation—postconverging/dialectical-thinking\textsuperscript{28} apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, as well as existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of the disposition for advancing the metalevel transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181} foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective\textsuperscript{96} supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism\textsuperscript{43} of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{95}’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework\textsuperscript{72} unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability\textsuperscript{48} or-deferred-falsifiability\textsuperscript{40} and validation-or-deferred-validation as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as implied by the articulation of ontological-good-faith/authenticity\textsuperscript{68} herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme\textsuperscript{5} ‘implicitation of ontological-primemovers-totalitative-
framework\textsuperscript{22}, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity\textsuperscript{63} criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, and thus an immanence-function-conflicatedness\textsuperscript{12} insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold\textsuperscript{102}, human existential-investment as of its temporality\textsuperscript{98}/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity\textsuperscript{56} beyond <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology\textsuperscript{55}—as-of—‘nondescript/ignorable—void\textsuperscript{59}—with-regards-to-prospective-apriorising-implications>) socially intelligible meaningfulness-and—teleology\textsuperscript{55} conceptualisation in <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. metaphoricity\textsuperscript{56} as such ironises on social intellectual nihilism as it is bent on undermining any temporality\textsuperscript{98}/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality\textsuperscript{61}/longness parrhesiastic askance, and as of immanence-function-conflicatedness\textsuperscript{12} ‘highlights and keeps wide-opened the prospect’ for prospective authentic.
intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality\textsuperscript{51} manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation\textsuperscript{83}reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procryptoicism\textsuperscript{80} social-setup to perceive our positivism–procryptoicism\textsuperscript{80} humanistic knowledge system as absolute; it is immanence-function-conflatedness\textsuperscript{12} by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions \textsuperscript{83}reference-of-thought. With such immanence-function-conflatedness\textsuperscript{12} insight, the epistemic and methodological pretences as of our humanistic positivism–procryptoicism\textsuperscript{80} are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-
programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic de-mentating/structuring/paradigming as of their ultimate existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic\textsuperscript{92}singularisation/epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism\textsuperscript{17}; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism–procrypticism\textsuperscript{80}. Thus, if immanence-function-conflatedness\textsuperscript{12} reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} are nothing more but \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-\textless as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’\textgreater, and institutionalised, such \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} predispositions may actually be de-
mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge
and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more
seriously so where the possibility of varied research-programme choices are difficultly
entertainable without institutional backing for research needing major funding and/or resources.
Finally, the research-programme epistemic model attends to the social as of the reality of human
emotional-involvement by its extensiveness. Consider that many a transformative natural science
idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses
as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo
heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at
the beginning of the last century with relativity and quantum mechanics hardly eliciting any social
sensitivities, rather as of the disarming effect on conventioning simply on the basis of their
matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much
lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that
if the present was all that great then its very transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so
existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social
‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-
existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–
epistemicity>totalising–purview-of-construal’ but with contrastive underlying relative-
ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}–
(sublimating–referencing/registering/decisioning,–as-self-becoming/self-
conflatedness\textsuperscript{12}/formative–supererogating–<in-projective/reprojective—aestheticising-re-motif–
and–re-apriorising/re-axiomatising/re-referencing>). It is quite absurd to think that the possibility
of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-totalitative-framework between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative
institutionalisation so-construed as prospective institutionalisation dissemination as this transversality-of-affirmative-and-unaffirmative-disambiguated-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocripticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness as of the de-mentative/structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism as of the decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity transversally induced ontological-prime movers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic
social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated 66 ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness as-to-totalitative-reification in singularisation-as-veridical-epistemic-determinism

<amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications, for explicating ontological-contiguity 44 is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness 87 <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications, for explicating ontological-contiguity 44 induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing 66 ontological-contiguity—of-the-human-institutionalisation-process 67 which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology as of ‘nondescript/ignorable—void’ with regards-to-prospective-apriorising-implications>}

epistemic impertinence. Prospective notional~notional~deprocrypticism\textsuperscript{17} necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness\textsuperscript{87} of\textsuperscript{83}reference-of-thought associated ontological-primemovers-totalitative-framework\textsuperscript{72}, with the implication that our positivism–procrypticism\textsuperscript{99} uninstitutionalised-threshold\textsuperscript{102} epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of\textsuperscript{83}reference-of-thought uninstitutionalised-threshold\textsuperscript{102} and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional~deprocrypticism\textsuperscript{17} disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of\textsuperscript{83}reference-of-thought\textsuperscript{17} disseminative research-programme coherence and \textsuperscript{66}ontological-contiguity. The idea being that the notional~deprocrypticism\textsuperscript{17} epistemic-veracity as of such disseminative research-programme coherence and \textsuperscript{66}ontological-contiguity equally imply an underlying falsifiability\textsuperscript{48}–or-deferred-falsifiability\textsuperscript{48} and validation–or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework\textsuperscript{72} \textsuperscript{<amplituding/formative–epistemicity>}causality–as-to-projective-totalitative–implications,–for-explicating–\textsuperscript{66}ontological-contiguity\textsuperscript{44} capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Such a notional~deprocrypticism\textsuperscript{17} epistemic-veracity implication is pertinent because blurriness\textsuperscript{7} and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-
totalitative-framework\textsuperscript{22}, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework\textsuperscript{22} as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{181} constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity\textsuperscript{63} with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability\textsuperscript{49} and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied \textsuperscript{66}ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness\textsuperscript{12} totalising-entailing/nested-congruence or how these conflate as of prospective
relative-ontological-completeness\textsuperscript{87} with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’\. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of their critical operant implications and unmuddled conceptions. Furthermore, the notional—deprocrypticism\textsuperscript{17} epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality \langle\text{amplituding/formative}\text{wooden-language—}\langle\text{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct—}\langle\text{meaningfulness-and—}\langle\text{teleology}\text{as-of—‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}\rangle\rangle\text{. With the}\langle\text{amplituding/formative—epistemicity}\text{causality—as-to-projective-totalitative—implications,—for—explicating}\text{ontological-contiguity}^{44}\text{ that the deprocrypticism—or—preempting—disjointedness—as-of—reference-of-thought}^{17}\text{ extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism\textsuperscript{75} sense-of-things. This is critical because the notional—deprocrypticism\textsuperscript{17} \text{reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating—<amplituding/formative—supererogatory—de—mentativeness/epistemic—growth—or—conflatedness\textsuperscript{22}/transvaluative—rationalising/transepistemicity/anamnestic—residuality/spirit—drivenness—equalisation ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being—as-of-existential—}\text{.}

reality parrhesiastic asksis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism\textsuperscript{17}-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness\textsuperscript{12} insight, of most critical importance and decisiveness as de-mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{55} as of prospective notional—deprocrypticism\textsuperscript{17} meaningfulness-and-teleology\textsuperscript{55} is the need for a notional—deprocrypticism\textsuperscript{17} reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency~sublimating—nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-suprerogatory–epistemic-conflatedness\textsuperscript{12} absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism\textsuperscript{98} registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein “the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence\textsuperscript{39}” considering the necessarily decontorting human-
of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of universalisation mental-disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procripticism will likewise fail as of notional–deprocripticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procripticism prior relative-ontological-incompleteness of reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional–notional–deprocripticism perspective of analysis as of singularisation/epistemic-immanence/veridical-epistemic-determinism. We can perceive the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ associated with akrasia-susceptibility-or-akrasiatic-drag complex only from the perspective of prospective relative-ontological-completeness of reference-of-thought, and so as of the latter’s difference-conflatedness as to totalitative-reification in singularisation-as-veridical-epistemic-determinism as from the ontological-conguity of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, as it reflects-and-contemplates of the uninstitutionalised-threshold of the prior relative-ontological-incompleteness of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, whereas the prior relative-ontological-incompleteness of reference-of-thought mental-disposition reflects its uninstitutionalised-threshold as a nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) of notional-discontiguity/epistemic-discontiguity.<shallow-supererogation-of-mentally-
aestheticised-preconverging/dementing\textsuperscript{19}–qualia-schema> by ‘resetting its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is flawed at its uninstitutionalised-threshold\textsuperscript{102}’ thus taking a flawed posture of identitive-\textsuperscript{13}constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28}–as-flawed-epistemic-determinism\textsuperscript{48} of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–shallow\textsuperscript{,96}supererogation-of-mentally-aestheticised-preconverging/dementing\textsuperscript{19}–qualia-schema>. Such akrasia-susceptibility-or-akrasiac-drag complex ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ is reflected as of the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} of the prior relative-ontological-incompleteness\textsuperscript{88,83}reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as mathesis/motif/thrownness-disposition-at-its-uninstitutionalised-threshold\textsuperscript{102}’. Consider the akrasia-susceptibility-or-akrasiac-drag complex ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ from a prospective positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards, with respect to ‘God of plane’ type of expression in an animistic/base-institutionalisation setup wherein their fundamental apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychology is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued/devolved in the animistic/base-institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \textsuperscript{83}reference-of-thought psychology of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33}
with its uninstitutionalised-threshold\textsuperscript{102} as a nondescript/ignorable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) whereas such a representation as a nondescript/ignorable–void\textsuperscript{59} wouldn’t be recognised from the positivism/rational-empiricism perspective as of its prospective relative-ontological-completeless\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. Likewise, as of prospective insight, the nondescript/ignorable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) we imply as of our positivism–procrypticism\textsuperscript{80} disjointedness-as-of-\textsuperscript{83}reference-of-thought in the positivism–procrypticism\textsuperscript{80} disjointedness-as-of-\textsuperscript{83}reference-of-thought is certainly prospectively contemplatable in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} reflection of our akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ of positivism–procrypticism\textsuperscript{80} disjointedness-as-of-\textsuperscript{83}reference-of-thought in ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} from the notional–deprocrypticism\textsuperscript{17} \textsuperscript{66}ontological-contiguity, whereas from our positivism–procrypticism\textsuperscript{80} perspective we’ll tend to a ‘resetting of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ of positivism–procrypticism\textsuperscript{80} in ontological-disconguity as of identitive-\textsuperscript{13}constitutedness-as–‘epistemic-totality\textsuperscript{367}–dereification-in-dissingularisation\textsuperscript{28}–as-flawed-epistemic-determinism\textsuperscript{48}. This expansion of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is rather as of the perspective of existence-potency–sublimating–nascente,–disclosed–from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-
supererogatory—epistemic-conflatedness\textsuperscript{12} as to ontologically-uncompromised ontological-normalcy/postconvergence/referentialism \textsuperscript{<amplituding/formative>notional–preempting—disjointedness-as-of\textsuperscript{,49}reference-of-thought/notional–notional–deprocrypticism\textsuperscript{17} and not as of ontologically-compromised human-subpotency epistemic/notional–projective-perspective; and is articulated more completely to reflect ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> as of the the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construal/conceptualisation with respect to prospective relative-ontological-completeness\textsuperscript{87} \textsuperscript{<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,—for-explicating–}\textsuperscript{66}ontological-contiguity\textsuperscript{44} in accounting for human differences of ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>. It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive–\textsuperscript{13}constitutedness–as–’epistemic-totality\textsuperscript{36}’–dereification-in-dissingularisation\textsuperscript{28}–as–flawed-epistemic-determinism\textsuperscript{48}. Thus the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’ refers to the mental dispositional state of de-mentative/structural/paradigmatic rationalised-closedness-of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>–of-the-self ‘as bound to define-and-shape any given registry-worldview’s/dimension’s specific ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>–and-vice-and-impediments\textsuperscript{105}’. Rather an ontologically-veridical construction-of-the-Self is necessarily in conflatedness\textsuperscript{12} as of the intemporal absolutising epistemic reference of existence-potency–sublimating–nascence,—disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in–
supererogatory–epistemic-conflatedness\textsuperscript{12} constrainous-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and construed as of difference-conflatedness\textsuperscript{12}–as-to–
totalitative-reification\textsuperscript{86}-in-singularisation-as-veridical-epistemic-determinism\textsuperscript{21}. Such a conflatedness\textsuperscript{12} construction-of-the-Self is one that is de-mentatively/structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-\textsuperscript{amplituding/}formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-confoundedness\textsuperscript{12}, as it construes of human-subpotency\textsuperscript{83}reference-of-thought given level of ontological-veridicality-commitment/aetiolgisation/ontological-escalation/otherliness implications; and so as devolvingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential referencing/registering/decisioning, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social meaningfulness-and-teleology\textsuperscript{55} as of the \textsuperscript{amplituding/}formative–epistemicity>causality–as-to-projective-totalitative–implications–for-explicating–ontological-contiguity\textsuperscript{44} of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55}. Thus fundamentally the \textsuperscript{amplituding/}formative–epistemicity>causality–as-to-projective-totalitative–implications–for-explicating–ontological-contiguity\textsuperscript{44} and orientations underlying construction-of-the-Self as of a notional–deprocrypticism\textsuperscript{17} conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} with successive registry-worldviews/dimensions human-subpotency\textsuperscript{83}reference-of-thought induced recurrently from the instigative \textsuperscript{amplituding/}formative–epistemicity>causality–as-to-projective-totalitative–implications–for-explicating–ontological-contiguity\textsuperscript{44} of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-
mentation—stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\(^{91}\)ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its \(<amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\), and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-\(^{99}\)teleology\(^{55}\) implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework\(^{72}\). Thus intemporal ontological-performance\(^{71}\)-<including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought for empowering and responsible meaningfulness-and-\(^{99}\)teleology\(^{55}\) for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\(^{88}\) as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its
vices-and-impediments\textsuperscript{405}, and as the very possibility for prospective ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising~thrownness-in-existence\textsuperscript{34} the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{55}teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications> )? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising~thrownness-in-existence\textsuperscript{34} induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}―as-to-totalitative-reification\textsuperscript{46}―in\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications,-for-explicating\textsuperscript{66}ontological-contiguity\textsuperscript{44} as it cogently-and-fluidly as of ecstatic-totalising-entailing/nested-congruence ahistorically-and-aculturally reflects-and-accounts-for the transitioning ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} development of the human species psyche. This insight equally specifically underlies the psychoanalytic ontological-veracity of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’ as it reflects the basic human psychological nature across all ages and times, so appraised as from the-Good/understanding/knowledge-reification\textsuperscript{46}/ontological-primemovers-totalitative-framework\textsuperscript{72} construal/conceptualisation with respect to prospective relative-ontological-completeness\textsuperscript{87}―of-reference-of-thought \textsuperscript{83}reference-of-thought <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications,-for-explicating\textsuperscript{66}ontological-contiguity\textsuperscript{44} in accounting for human differences of ontological-performance\textsuperscript{71}<including-virtue-as-ontology> across the successive registry-worldviews/dimensions \textsuperscript{83}reference-of-thought-level of ontological-performance\textsuperscript{71}<including-virtue-as-ontology> as well as the temporal-to-intemporal differences of ontological-

Basically, construction-of-the-Self is herein construed rather as: ‘the self, as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} metaphoricity\textsuperscript{56}, as of its evolving-and-devolving constraining \textsuperscript{83}reference-of-thought pitting its axiomatic de-mentating/structuring/paradigming apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument correspondingly with existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,-in-superceragory–epistemic-conflatedness\textsuperscript{12}/intrinsic-reality/ontological-veridicality, as so-entertainable/permissible by its given registry-

This reality in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} very much explains the statement ‘I know that I know nothing’ made by Socrates reflecting his conception of anamnesis, as the state of human limited-mentation-capacity implies that it is foolhardy to articulate in presencing—absolutising-identitive\textsuperscript{13}-constitutedness\textsuperscript{79} terms meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of absolutising reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather ‘the anamnesis of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} reflects prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation as of recurrent transepistemic renewing of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ (and so, in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}.in-singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-explicating–\textsuperscript{66}ontological-contiguity\textsuperscript{44}). This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought.–in-
supererogatory—epistemic-conflatedness\textsuperscript{12} (with anamnesis so-construed as ‘dimensionality-of-

\textsuperscript{13}constitutedness\textsuperscript{79} as reproducibility—mathesis/motif/thrownness-disposition,—as—
reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation
of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the
one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis
of the specific universalising\textsuperscript{103}-idealisation phronetic/practicality situations as to its defining

of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-

momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things
in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically
instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and
Plato were more engaged with establishing overall philosophical insight beyond just their
universalising\textsuperscript{103}-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,—
as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association
of anamnesis with mythical recollection was caught up in the universalising\textsuperscript{103}-idealisation

relevant in all registry-worldviews/dimensions as of the example articulated as well herein by
this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules

sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising

\begin{quote}
<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification\textsuperscript{86} as of the transepistemic implications of human limited-mentation-capacity-deepening\textsuperscript{52}. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising\textsuperscript{103}–idealisation meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity\textsuperscript{38} and thus allows prospective dimensionality-of-sublimating\textsuperscript{24}–<amplituding/formative>soperogatory–dementativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative–rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation insight for further human limited-mentation-capacity-deepening\textsuperscript{52} (as to ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{65} as of ontological-primemovers-totalitative-framework\textsuperscript{72} \begin{quote}<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating–ontological-contiguity\textsuperscript{44} and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification\textsuperscript{86} projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense
that human knowledge-reification\textsuperscript{86}, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness—equality and phronesis existential-contextualising-contiguity\textsuperscript{38} in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—as-to-existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought, in supererogatory—epistemic-conflatedness\textsuperscript{12}—as-to-the-ontological-normalcy/postconvergence-projective-perspective, to which latter human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence\textsuperscript{30}> as so reflected with prospective originariness-parrhesia, as spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic philosophers universalising\textsuperscript{103}—idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—as-to-existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought, in supererogatory—epistemic-conflatedness\textsuperscript{12}—as-to-the-ontological-normalcy/postconvergence-projective-perspective, to which latter human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence\textsuperscript{30}>, and that such a possibility lies in perpetual knowledge-
reification\textsuperscript{86} disposition as of the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72}. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising\textsuperscript{103}-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity\textsuperscript{38} as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising\textsuperscript{103}-idealisation phronesis existential-contextualising-contiguity\textsuperscript{38} at the latter’s destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{103}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{72}.<including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}.in-as-singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating–ontological-contiguity\textsuperscript{44} of phronesis existential-contextualising-contiguity\textsuperscript{38}. In many ways, akrasia-susceptibility-or-akrasiatic-drag complex is simply a validation of the fundamental de-mentating/structuring/paradigming of the human psyche as it is caught up between dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{44} of prior relative-ontological-incompleteness\textsuperscript{88} of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and singularisation/epistemic-immanence/veridical-epistemic-determinism <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating ontological-contiguity\textsuperscript{44} of prospective relative-ontological-completeness\textsuperscript{87} of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{66} inducing human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. This explains why prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is actually reflected by the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity\textsuperscript{56}, and not incisively about dialogical-equivalence level of contemplation induced transcendence-and-sublimity/sublimation/supererogatory~de-mentativity even as such a dialogical conception arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument say with Socrates/Plato/Aristotle with their schools Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{55} common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness\textsuperscript{87}s but as of unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-&as-to-preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism> devaluing their presencing—absolutising-identitive-constitutedness conventioning-referencing as of sophistry apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prior relative-ontological-incompleteness\textsuperscript{88} or as with budding-positivists Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology\textsuperscript{55} common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness\textsuperscript{87}s but as of unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-

Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup
supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology as of prospective notional—deprocriptism—transcendence-and-sublimity/sublimation/supererogatory—dementativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic-conflatedness—reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed
to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-9⁰teleology⁵⁵.

Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the
prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications) dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflatedness supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is de-mentatively/structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation–ununiversalisation ontological-fracturing, universalisation–non-positivism-mediievalism ontological-fracturing, positivism–procrypticism88 ontological-fracturing towards futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism ontological-normalcy/postconvergence; as of the implications of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance<-including-virtue-as-

Ontological-fracturing as such is a reflection of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness 59 teleology—<in-existential-extrication-as-of-existential-unthought> 6 only human intemporal ontological-performance 71 —<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance 71 —<including-virtue-as-ontology> of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing 15 of such idealisations with regards to their more profound
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling doesn’t substitute for the <amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or <amplituding/formative> wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{55} as-of-‘nondescript/ignorable–void\textsuperscript{99}’-with-regards-to-prospective-apriorising-implications> framework that ‘invents’ and accounts for prospective social transcendence-and-
sublimity/sublimation/supernormal—de-mentativity idealisation, in the way that human idealisation is often wrongly construed and propounded. All the human idealisation that exists is as of effective individuals and institutional intemporal individuation projection for prospective amplituding/formative—epistemicity totalising—renewing—realisation/re-perception/re-thought of what they as of reasoning-through/messianic-reasoning idealise as from their underlying baseline registry-worldview/dimension 83—reference-of-thought and the subsequent secondnatured institutionalisation of its given intemporal ontological-performance 71—<including—virtue—as-ontology>; and so, beyond the naivety of construing a given registry-worldview/dimension reasoning-from-results/afterthought as a suprasocial or amplituding/formative—wooden-language—(imbued—averaging-of-thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—and—teleology—55—as—of—‘nondescript/ignorable—void’—with—regards—to—prospective—apriorising—implications>) absolutising epistemic reference of ontological-veracity for prospective transcendence—and—sublimity/sublimation/supernormal—de-mentativity idealisation. apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity idealisation as of their prospective reasoning-through/messianic-reasoning highlight that the traditional reasoning-from-results/afterthought construct is construed: - for the Platonic idea transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity as of sophistry, - for the Cartesian cogito transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity as of scholasticism pedantry, and prospectively for notional–deprocrypticism transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity as of spurious institutional-being-and-craft muddlement. Effectively, human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor implies that metaphoricity why tending ultimately towards intemporality, is effectively of both intemporal/longness-of-register-of–meaningfulness-and-teleology and temporal/shortness-of-register-of–meaningfulness-and-teleology manifestations. But any given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension meaningfulness-and-teleology as well as the fact that human perceived social-stake-contention-or-confliction interests drift within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities, implies that any such registry-worldview/dimension social-setup has basic de-mentating/structuring/paradigming supposedly coherent ontological-commitment for its effective functioning which lays it prospectively exposed to metaphoricity as of prospective ontological-primemovers-totalitative-framework as from prospective existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of–totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness epistemic/notional–projective-perspective; as such a registry-worldview/dimension would difficultly renege, as of contradictory and incoherent implications, on such critical prospective ontological-veracity implications of such prospective relative-ontological-completeness of meaningfulness-and-teleology. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.
as of potentially the same ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment\textsuperscript{65} but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment\textsuperscript{65} as of its ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which is then enabling for the critical metaphoricity\textsuperscript{56} of prospective meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} ontological-veracity implications of ontological-primemovers-totalitative-framework\textsuperscript{72} as of prospective relative-ontological-completeness\textsuperscript{87}. In other words, as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} of human metaphoricity\textsuperscript{56} of temporal-to-intemporal–ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>-of-narratives, we know that the ontological-primemovers-totalitative-framework\textsuperscript{72} that underlies existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness\textsuperscript{12} sublimating-validation/desublimating-invalidation implications of ontological-veracity is bound in the long run to select/skew-toward the intemporal/ontological over the temporal, whether as of internal cultural transformation or cultural diffusion. This is exactly why the overall ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating–\textsuperscript{66}ontological-

We can appreciate both with regards to the social fabric as well as the natural sciences this common basis of supposedly coherent ontological-commitment\textsuperscript{65} from a long-term perspective, in the sense that technical and scientific progress associated with the industrial revolution ‘could hardly be socially reneged’ not only in Western Europe but with respect to its diffusion throughout the world, and so because the supposedly coherent ontological-commitment\textsuperscript{65} of human societies conventioning as of their ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ render themselves exposed to the transcendence-and-sublimity/sublimation/relative-ontological-completeness\textsuperscript{87} as projected by the industrial revolution underlying technical and scientific knowledge manifesting as to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflicatedness\textsuperscript{12} selection/skewing of ontological-prime movers—totalitative-framework\textsuperscript{72} <amplituding/formative—epistemicity>causality—as-to-projective—totalitative—implications,—for-explicating—ontological-contiguity\textsuperscript{44} and so because these project beyond subjectivity-of-truth-as-of-human-subpotency as implied by the universal objectivity as
difference-confinedness\textsuperscript{12-as-to-totalitative-reification}\textsuperscript{86-in-singularisation-as-veridical-epistemic-determinism}\textsuperscript{21} perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening\textsuperscript{52}; and this notion of relative truth is reflected in their works/research-programmes that undermine our <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} constituttedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-in-dissingularisation\textsuperscript{28-as-flawed-epistemic-determinism}\textsuperscript{48} perspective. Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity with regards to truth as it enables transcendence-and-sublimity/sublimation/supererogatory-de-mentativity then is existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, in supererogatory-epistemic-confinedness\textsuperscript{12} as of its ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating,\textsuperscript{66}ontological-contiguity\textsuperscript{44} selecting/skewing for ontological-pertinence within the underlying human metaphoricity\textsuperscript{56} scheme of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-confinedness\textsuperscript{12-as-to-totalitative-reification}\textsuperscript{86-in-singularisation-as-veridical-epistemic-determinism}\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating,\textsuperscript{66}ontological-contiguity\textsuperscript{44}, and not just mere human subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity\textsuperscript{56} of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually
be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness- and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity-as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) human mindset processing’, but critically was an epistemic-ricocheting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity of a self-consciously instigated prior suprasocial or wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) comprehensive sense of prospective metaphoricity’. epistemicity>totalising~thrownness-in-existence\textsuperscript{34} with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability\textsuperscript{40} implications as of ontological-prime movers-totalitative-framework\textsuperscript{72}, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness\textsuperscript{99}teleology\textless in-existential-extrication-as-of-existent-unthought\textgreater \textsuperscript{6} nonpresencing\textsuperscript{68}\textless perspective\textemdash ontological-normalcy/postconvergence\textgreater ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness\textsuperscript{87} appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or \textless amplituding/\textemdash formative\textgreater wooden-language\textless imbued\textemdash averaging-of-thought\textemdash as-to-leveling/ressentiment/closed-construct-of\textemdash meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}\textless as-of\textemdash 'nondescript/ignorable–void\textsuperscript{59}.\textless with-regards-to-prospective-apriorising-implications\textgreater \textgreater \textless presencing\textemdash absolutising-identitive\textsuperscript{13}constitutedness\textsuperscript{79} mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity\textsuperscript{56} implications of operant prospective intemporal individuation transversality-of-affirmative-and-unaffective\textemdash disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} intemporal projection as of ontological-faith-notion-or-ontological-fideism\textemdash imbued-underdetermination-of-apriorising/axiomatising/referencing\textemdash as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of scholasticism pedantry. Just as we can appreciate that in ‘the very same physics <amplitu

epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-
reality/ontological-veridicality/existenti

al-reality’ as of prospective relative-ontological-
completeness\textsuperscript{87}-of-axiomatic-construct-or\textsuperscript{83}-reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective nonpresencing\textsuperscript{60}–<perspective–ontological-
ormalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-
mentative/structural/paradigmatic meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-
of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework\textsuperscript{72} validation-and-
falsifiability\textsuperscript{40}. Naivety will be the pretence of constraining the possibility for transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity as of prospective meaningfulness-and-
\textsuperscript{99}teleology\textsuperscript{55} as knowledge on a vague notion of any presencing—absolutising-identitive-
\textsuperscript{13}constitutedness\textsuperscript{79} epistemic-veracity that at the very least doesn’t rise to projectively
contemplate and appraise of such prospective meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability\textsuperscript{48}. Thus metaphoricity\textsuperscript{56} as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as say the commonality of such metaphoricity\textsuperscript{56} inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-\{imbued-postconverging/dialectical-thinking\textsuperscript{48}-'projective-insights'/'epistemic-projection-in-conflatedness\textsuperscript{32}-of-notional–deprocrypticism\textsuperscript{17}-prospective-sublimation\textsuperscript{98} thinkers sharing a common emancipatory metaphoricity\textsuperscript{56} mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} that is instigative, metaphoricity\textsuperscript{56} is critically about the prospective ricochetting de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} implications on the fabric of the social as an epistemic-totality\textsuperscript{36} framework beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textless in-existential-extrication-as-of-existential-unthought\textgreater , as the supposedly coherent ontological-commitment\textsuperscript{65} of ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{68}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity\textsuperscript{56}. This is so because in the long run transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{108} of temporal-to-intemporal–ontological-performance\textsuperscript{71}--
<including-virtue-as-ontology>-of-narratives is rather as of ontological-primemovers-
totalititative-framework selecting/skewing-towards intemporality/ontological-veracity as to
existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-
of-the-amplituding-formative-epistemic-totalising-renewing-realisation-re-perception-re-
thought-in-supererogatory-epistemic-conflatedness as to ontologically-uncompromised-
ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-
setup value construct lies somewhere between the possibility of its conventioning-referencing
and its presencing-absolutising-identitive constitutedness Being-development/ontological-
framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-
meaningfulness-and-teleology, when it comes to assessing the possibility of prospective
meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that
a society that doesn’t or poorly appreciate the implication of science will value as of immediacy
prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology like the cultivation of
science over its conventioning-referencing as a cultural inclination or metaphysical
predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation
of science as in Europe and the Arabic world during the medieval period, or even disparity in
ontological progressiveness within the very same societies at various epochs. Thus the
assumption that any given society or period is absolutely turned/committed to prospective Being-
development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology including our modern period, is a flawed
appraisal; as in many ways, beyond our amplituding-formative-epistemic-totalising-self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at
institutional functioning easily points out the pre-eminence of spurious institutional-being-and-
craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of
conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional-deprocripticism metaphoricity in our positivism–procripticism; as its brings to the self-consciousness the reality that the implication of such a notional-deprocripticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity warrants such intemporal relaying of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology beyond just conventioning-referencing; as the very possibility of successive registry-worldviews/dimensions as of prospective relative-ontological-completeness arises because such reasoning-through/messianic-reasoning can devalue their

Unsuspectingly, the reality of projected narratives as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor across the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing45> is rather regular and stable as of the dynamics of temporal-to-intemporal–ontological-performance71-<including-virtue-as-ontology>-of-narratives, and so as of their respectively poor to profound dispensing-with-immediacy-for-relative-ontological-

constructive/institutionalising/nascent–sublimating-decisionality construal of ontological-veracity is validated by the idea that even the most assured critique in the ontological-veracity of their ideas when this elicits the uninstitutionalised-threshold cannot just articulate them as if the social-construct is ‘purely/absolutely receptive-as-constructive/institutionalising/nascent–sublimating-decisionality to ontological-veracity’ but need to implicitly recognise the social-construct predisposition to destructure such meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and so in order by its dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension to strategically articulate such meaningfulness-and-teleology going by the possibility of the social-construct as of its potential constructive/institutionalising/nascent–sublimating-decisionality significant otherness to tolerate it in the immediacy, even as the social-construct is rather predisposed in the immediacy to destructure at this uninstitutionalised-threshold as of its registry-worldview/dimension de-mentative/structural/paradigmatic ‘human akraasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. From the foregoing, while the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ opens it up to prospective intemporal-as-ontological-metaphoricity, it is rather ‘naïve to construe of social-stake-contention-or-confliction in any social-setup as absolutely about ontological-veracity’ giving a social-construct predisposition to destructure meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold; with any such superseding ontological-veracity at the social-setup uninstitutionalised-threshold rather beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.
as base-institutionalisation implied meaningfulness-and-\textsuperscript{55} teleology\textsuperscript{55} is beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsuperscript{56} of recurrent-utter-uninstitutionalisation, that of universalisation is beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsuperscript{56} of base-institutionalisation–ununiversalisation, that of positivism is beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsuperscript{56} of universalisation–non-positivism/medievalism, and prospectively that of deprocrystalism is beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsuperscript{56} of positivism–procrystalism\textsuperscript{88}; and so because any given registry-worldview/dimension de-mentative/structural/paradigmatic ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{91}/ontological-fracturing/desublimation/gimmickiness complex’ defines the social-construct institutionalisation threshold perceived intemporal meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of its reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation\textsuperscript{83} reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} but then is equally amenable to <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-\textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}} failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation manifesting at \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-level as of postlogism\textsuperscript{77}-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}, and so-disambiguated as of \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-level difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–\textsuperscript{92}singularisation-as-veridical-epistemic–

The ultimate point here being that critically the notion of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity more often than not occur as ‘reasoning-through/messianic-reasoning projection-beyond-the-presencing-human-self-consciousness-as-reinventing-prospective-nonpresencing\textsuperscript{68}<-perspective-ontological-normalcy/postconvergence>-human-self-consciousness’ rather than as it can wrongly be implied with ‘reasoning-from-results/afterthought postures as of presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} self-consciousness mastery and direction’ which are rather ontologically-flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. In this regards, ontological-veracity as of a perpetual predisposition for prospective relative-ontological-completeness\textsuperscript{87} is ensured by supposedly coherent ontological-commitment\textsuperscript{65} to undermine the social-construct predisposition to destructure meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold\textsuperscript{90}, and enable the construal of prospective ontological-veracity by ‘ontologically-hegemonising-narrative\textsuperscript{78} ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>', as of ontologically-veridical difference-conflatedness\textsuperscript{12} as-to-totalitative-reification\textsuperscript{86} in\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21}, over ‘individual whim/impulsion narratives ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>', ‘<amplituding/formative>wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as-of-‘nondescript/ignorable–void\textsuperscript{59}’-with-regards-to-prospective-apriorising-implications>) narratives ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>’ and ‘suprasocial narratives ontological-performance\textsuperscript{71}<-including-virtue-as-ontology>’ in their various flawed identitive-\textsuperscript{13}constitutedness-as-‘epistemic-totality\textsuperscript{36}’-dereification-indissingularisation\textsuperscript{28} as-flawed-epistemic-determinism\textsuperscript{48} postures. It is this possibility of narratives recombination as of formative and enculturating implications as well as the criss-crossing of formal and informal spheres/settings differing temporal-to-intemporal value-references that renders even totalisingly-entailing/ontologising/institutionalising narratives susceptible to recombination with temporal–ontological-performance\textsuperscript{71}-\textsuperscript{including-virtue-as-ontology}-of-narratives, thus leading to their possible ontological denaturing\textsuperscript{15} as of uninstitutionalised-

much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative \textsuperscript{13}\textsuperscript{constitutedness} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness\textsuperscript{88} on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold–(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective deprocrypticism\textsuperscript{17}, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-
nature is effectively what underlies in ontologically neutral/objective terms—as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms—as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—‘notionally–collateralising—

which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism\textsuperscript{88} prior relative-ontological-incompleteness\textsuperscript{88} human social-stake-contention-or-confliction as of its disjointedness-as-of–reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\textsuperscript{87} notional~deprocrypticism\textsuperscript{17} rather subsumes all such binary opposition conceptions basically into the binarity of intemporality\textsuperscript{51}/longness and temporality\textsuperscript{98}/shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{87} notional~deprocrypticism\textsuperscript{17} that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{87} notional~deprocrypticism\textsuperscript{17} herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards–\textsuperscript{92}singularisation\textsuperscript{87}; with the implied knowledge emancipation rather
construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{87} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-
decisionality and destructuring-threshold—(uninstitutionalised-threshold\textsuperscript{182}/presublimating–desublimating-decisionality)—of-ontological-performance\textsuperscript{71}—<including-virtue-as-ontology>

unification of knowledge and virtue, with a deliberate adherence to the derivation ‘akrasiatic’ rather than the traditional derivations ‘acratic’ or ‘akratic’ to mark such a break, and further the term ‘antiakrasiatic’ also along the same lines is further meant to emphasise the underlying idea that akrasia is a ‘notion of lack’ which ‘anti disposition’ as of relative-ontological-completeness is then about superseding the lack, and such relative-ontological-incompleteness is superseded rather as of supererogatory–acuity/perspicacity/astuteness/edginess/insiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity–of-the-human-institutionalisation-process <amplituding/formative–epistemic> causality–as-to-projective-totalitative–implications, for-explicating, of human limited-mentation-capacity-deepening that goes well beyond a ‘golden mean’/moderation/temperance, etc. behaviour interpretation as implied with ‘enkrateia’ which, as explained and further elaborated elsewhere herein, doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework reference of ontological-contiguity but for naively and wrongly implying good-natured qualities as being ontological; and such ‘antiakrasiate disposition’ is more critically reflected as of underlying human ‘intemporal-as-ontologically-veridical/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning parrhesiastic seeding-promise of prospective meaningfulness-and-teleology as equivalence/correspondence antiakrasiatic-aspiration ontological-performance with the ‘akrasiatic disposition’ construed as of ‘temporal/sophistic-as-ontologically-flawed/ontological-bad-faith/inauthenticity reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation

We can further appreciate that all the successive registry-worldviews/dimensions \textsuperscript{83}reference-of-thought are marked at their \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-level by temporal-to-intemporal ontological-performance\textsuperscript{71}.\textsuperscript{-}<including-virtue-as-ontology> speaking of differing ontological-performance\textsuperscript{72}.\textsuperscript{-}<including-virtue-as-ontology>-including-virtue-as-ontology of intemporal and disambiguated temporal ontologically-flawed antiakrasiac-disposition as of postlogism\textsuperscript{77}-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49} reflecting \textsuperscript{99}teleology\textsuperscript{8}.\textsuperscript{\textlangle}amplituding/formative\textrangle wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiac-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-\textsuperscript{83}reference-of-thought—categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}\textrangle. This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiac-disposition as of the social epistemic-totality\textsuperscript{36} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{64}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{97}. Further and of much more profound reification\textsuperscript{86} implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiac-disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}.\textsuperscript{-}<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiac-

The destructuring-threshold\(^{-}\)(uninstitutionalised-threshold\(^{102}\)/presublimating–desublimating–decisionality) of ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) analysis is highly abstracted from
such an ontological-normalcy/postconvergence epistemic/notional-projective-perspective (so-understood as of ontological-normalcy/postconvergence/Doppler-thinking perspective of analysis). It reflects the abstract development of human-subpotency ‘dynamic phenomenal-abstractiveness possibilities in their psychodynamic operant conflatedness\textsuperscript{12} with the social epistemic-totality\textsuperscript{36} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; This psychodynamic operant conflatedness\textsuperscript{12} reflects human-subpotency ‘constructiveness-of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>/institutionalisation/nascent–sublimating-decisionality—by—destructuring-threshold-{uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality}~of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> metaphorising vacillating-conception of the social epistemic-totality\textsuperscript{36} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; as can veridically be construed from existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\textsuperscript{12} epistemic perspective as of ontological-normalcy/postconvergence with respect to assessing ‘equivalence/correspondence antiakrasiation-aspiration ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>--. This destructuring-threshold-{uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality}~of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> analysis further highlights the ‘transitive nature’ of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-threshold\textsuperscript{102} in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} with respect to destructuring at all uninstitutionalised-threshold\textsuperscript{102}; as so-implied by de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\textsuperscript{14}. The comprehensive social susceptibility to destructuring-transitoriness\textsuperscript{18}–as-of-deratiocination/deratiocontiguity as the defining element of the social-
construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ arises because of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance parasitism <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as beyond-the-consciousness-awareness-teleology <in-existentiel-extrication-as-of-existential-unthought> this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’, and is further reflected in a social dynamics of dual overt and covert implicited interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology <in-existentiel-extrication-as-of-existential-unthought> cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and teleology. Insightfully, it can be appreciated that the ontological-contiguity—of-the-human-institutionalisation-process is one long process involving the undermining of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’ as of ontologically-hegemonising-narrative implied as of prospective ‘<amplituding/formative–epistemicity> totalising–ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-
mentation-capacity-deepening\textsuperscript{52} implications the destructuring-transitoriness\textsuperscript{18} as of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative\textsuperscript{70} implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasia-attainment ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>’. We can similarly project of the same with respect to our positivism–procrypticism\textsuperscript{80} disjointedness-as-of-\textsuperscript{83} reference-of-thought destructuring-transitoriness\textsuperscript{18} as of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold\textsuperscript{102} as to be prospectively superseded by notional–deprocrypticism\textsuperscript{17} preempting—disjointedness-as-of-\textsuperscript{83} reference-of-thought ontologically-hegemonising-narrative\textsuperscript{70} thus rendering human ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ as of prospective relative ‘equivalence/correspondence antiakrasia-attainment ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>’.
This destructuring-threshold{(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasia-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically–<conjugatively-and-transfusively> the \textsuperscript{66} ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as to the destructuring implications at uninstitutionalised-threshold\textsuperscript{102} implied human-subpotency epistemic/notional–projective-perspective in dissingularisation\textsuperscript{28}/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-

This overall reifying–and–empowering–reflexivity–of–ecstatic-existence–as–panintelligibility\textsuperscript{73}–<imbued–and–‘hermeneutically/reprojectively–educing’–human–subpotency–epistemic–perspective–of–projective/reprojective—aestheticising–re–motif–and–re–apriorising/re–axiomatising/re–referencing–conceptualisation> of the social–construct as from the elucidation/reification\textsuperscript{86} as ‘destructuring–threshold–(uninstitutionalised–threshold\textsuperscript{102}/presublimating–desublimating–decisionality)–of–ontological–performance\textsuperscript{72}–<including–virtue–as–ontology> analysis’ is rather notionally/epistemically reflective of the social–construct constructiveness–of–ontological–performance\textsuperscript{91}–<including–virtue–as–ontology>, as such an antiakrasiatic analysis of uninstitutionalised–threshold\textsuperscript{102} notionally/epistemically reflects the \textsuperscript{66}ontological–contiguity—of–the–human–institutionalisation–process\textsuperscript{67}; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject–matters elicits in the former high emotional involvement whereas the latter as of its direct ontological–primemovers–totalitative–framework\textsuperscript{72} <amplituding/formative–epistemicity>causality–as–to–projective–totalitative–implications,–for–explicating–\textsuperscript{66}ontological–contiguity\textsuperscript{44} elicits low emotional–involvement, but for the case where with regards to high and conflicting human social–stake–contention–or–confliction even the natural domain is not immuned
from high emotional-involvement as with the climate change issue for instance. The point being
made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism
that human progress happens anyway, but then such naïve criticism only recounts the fact of
human progress while failing to be reifying and is actually dereifying when by its ‘implicited
passivity implications for prospective human progress’ it fails to account for how human progress
occurs in the very first place or even whether there is any underlying process for its occurrence
or non-occurrence. Actually, human progress occurs because of effective human constructive
disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-
threshold\textsuperscript{[102]}/presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{[71]}-
\textless including-virtue-as-ontology\textgreater and as reflected at uninstitutionalised-threshold\textsuperscript{[102]}. As the
Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently
metaphorising societies didn’t progress on the basis that human progress occurs anyway but
because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{[71]}-
\textless including-virtue-as-ontology\textgreater destructuring-threshold-{uninstitutionalised-
threshold\textsuperscript{[102]}/presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{[71]}-
\textless including-virtue-as-ontology\textgreater and uninstitutionalised-threshold\textsuperscript{[102]}, and it is this difficult task of
crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-
performance\textsuperscript{[71]}-\textless including-virtue-as-ontology\textgreater for human living-development–as-to-personality-
development, institutional-development–as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-\textsuperscript{[99]}teleology\textsuperscript{[55]}. The implicited passivity behind such
reflections that human progress occurs anyway again highlights why the intemporal mental-
dispositions behind the superseding of destructuring-threshold-{uninstitutionalised-

\textless including-virtue-as-ontology\textgreater need to be integrated into the very core of such secondnatured
formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance—including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation to prospectively recapture the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ and constructiveness as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ inherently elicits from the human-subpotency epistemic/notional—projective-perspective reflected as of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ in <amplituding/formative—

We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in\textsuperscript{66}ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘\textless amplituding/formative–epistemicity\textgreater totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ in

In this regards, the notion of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as reflected as of ‘\textless amplituding/formative–epistemicity\textgreater totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ of prior relative-ontological-incompleteness\textsuperscript{88} is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism as reflected as of ‘\textless amplituding/formative–epistemicity\textgreater totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-\textless conjugatively-and-transfusively\textgreater the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘\textless amplituding/formative–

the possibility of all human prospective transcendence-and-

this is effectively reflected in all cases of human transcendence-and-

psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-or-dementing—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness/relative-ontological-completeness—(sublimating—referencing/registering/decisioning—as-self-becoming/self-conflatedness/formative—supererogating—in-projective/reprojective—aestheticising-re-motif—and—apriorising/re-axiomatising/re-referencing) of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology is thus of lower to higher ontological-veracity/ontological-performance—including-virtue-as-ontology> as of relative-ontological-completeness. Further as of human <amplituding/formative—epistemicity>totalising—thrownness-in-existence with human meaningfulness-and-teleology rather undertaken on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—human<amplituding/formative—epistemicity>totalising—purview-of-construal’ and thereof devolving as of existence-as-of-existential-instantiations, the implication is that human meaningfulness-and-teleology is thus ‘a-given—<amplituding/formative—epistemicity>totalising—thrownness-in-existence construct

react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation
and its implications is alien to the sophists since all that counts is the immediate now and its
temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-
mentation-capacity in inducing prospectively relative-ontological-completeness\(^87\) as of the
weaknesses associated in all human transcendence-and-
sublimity/sublimation/supererogatory—in-mentativity is held by the sophists against any such
reasoning-through/messianic-reasoning for transcendence-and-
sublimity/sublimation/supererogatory—in-mentativity. Inherently, while the intemporal
projection coherence of reasoning-through/messianic-reasoning spans the \(^66\)ontological-
contiguity—of-the-human-institutionalisation-process\(^67\) as the ‘true-ontology—as-of-Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-\(^99\)\text{teleology\(^55\)}, what is peculiar about sophistry is that the
whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other
registry-worldviews/dimensions are just other ones and have nothing to say about the present one
as of an overall human tale, as the threat of rationalising the implications of such a human
existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction
temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}/by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} which is ‘never always the easiest of notion’ for human \textlangle amplituding/formative\rangle wooden-language-(imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\text党和-teleology\textsuperscript{55}/as-of-‘nondescript/ignorable–void\textsuperscript{59}/with-regards-to-prospective-apriorising-implications\rangle disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness\textsuperscript{88}/dereification for \textlangle amplituding/formative\rangle wooden-language-(imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\text党和-teleology\textsuperscript{55}/as-of-‘nondescript/ignorable–void\textsuperscript{59}/with-regards-to-prospective-apriorising-implications\rangle disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so beyond-the-consciousness-awareness-\text党和-teleology-\langle in-existential-extrication-as-of-existential-unthought\rangle. In all such instances as was realised by universalising\textsuperscript{103}-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence and
intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought <amplituding/formative–epistemicity>totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretense of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists
dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity closed in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is about the
‘reasoning-through transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}’ of contentions for the determination of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating\textsuperscript{-66}ontological-contiguity\textsuperscript{44}; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification\textsuperscript{86} role and as beyond-the-consciousness-awareness,\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} surreptitiously defining what can be thought or not thought. The fact is such implied underpinning–suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} in prior relative-ontological-incompleteness\textsuperscript{88} with respect to social-stake-contention-or-confliction and are thus not the
absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to ‘intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology'; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-

<amplituding/formative–epistemicity>totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional–deprocrypticism\textsuperscript{17} perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-\textit{\textsuperscript{99}teleology}-<\textit{\textsuperscript{99}in-existential-extrication-as-of-existential-unthought}>\textsuperscript{6}. The fact is, it is this possibility of the universalising\textsuperscript{193}-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-\textit{\textsuperscript{99}teleology}\textsuperscript{55} and value that allows for prospective institutionalisation to arise as of universalising\textsuperscript{193}-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textit{\textsuperscript{99}teleology}\textsuperscript{55} leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textit{\textsuperscript{99}teleology}\textsuperscript{55}; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing
like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion—
as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology—as-of—‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>— and underpinning—suprasocial-construct meaningfulness-and—teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social

underpinning–suprasocial-construct underlying disjointedness-as-of\textsuperscript{83}reference-of-thought

which is the grander issue of aetiologisation/ontological-escalation as to the fact that
fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the
vices-and-impediments\textsuperscript{105} of non-positivism as of animism or medievalism and thereof their
devolving associated manifestations of non-positivism and specific superstitious nature as well
as the idea that prospective deprocrypticism–or–preempting—disjointedness-as-of\textsuperscript{83}reference-
of-thought\textsuperscript{17} supersedes-and-deflates the overall vices-and-impediments\textsuperscript{105} of our
positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-
\textsuperscript{83}reference-of-thought\textsuperscript{80} underlying the devolving social manifestation of psychopathy and social
psychopathy. Thus the practice of construing absolutely the <amplituding/formative–

apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument of any given
registry-worldview/dimension in relative-ontological-incompleteness\textsuperscript{88} like our positivism–
procrypticism\textsuperscript{80} speaks of a loss of ontology as ‘true-ontology—as-of-Being-

conventioning-referencing. In this regards, we can appreciate that our own projection of
animistic or medieval could just as well be considered in ontological-normalcy/postconvergence and that what is emancipatory of the human condition is the reification of psychological traits as of its totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology despite the supposed deficiency of its given meaninglessness-and-teleology in relative-ontological-incompleteness, thus failing to grasp that the more decisive transformation of the human subject is the displacement/decentering-of-the-human-subject as of construction-of-the-Self in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process underlined as of human limited-mentation-capacity-deepening antiakrasiatic disposition since this is effectively what de-mentatively/structurally/paradigmatically by the induced ontological-performance enabling the superseding-and-deflating of the overall individual and social vices-and-impediments arising as of the relative-ontological-incompleteness of successive registry-worldviews/dimensions; and wherein our conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing turns out to be rather skewed towards our positivism–procrypticism with the implication of history considered mainly as of succession of postconverging-or-dialectical-thinking–apriorising-psychologism representations inducing a loss of authentic-and-profound contemplative human projection both retrospectively and prospectively, as can be more pertinently be derived as of historiality/ontological-eventfulness/ontological-aesthetic-tracing ontologically-hegemonising-narrative implications reflecting the dynamics of human postconverging-or-dialectical-thinking–apriorising-psychologism representation and preconverging-or-dementing–apriorising-psychologism representation as of human de-mentation-

Such
causality as to projective-totalitative-implications, for explicating ontological-contiguity construal points out that disparateness of meaningfulness- and teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective’ given that all human meaningfulness-and teleology are of supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn’t override the notion of inherent ontological-veridicality as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of epistemic/notional–projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards singularisation, do not override the pre-eminence of supposedly coherent ontological-commitment as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of epistemic/notional–projective-perspective, in which case no human transcendence-and-sublimity/sublimation–de-mentativity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of
their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of><amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-

The conflatedness\textsuperscript{12} of existential-contextualising-contiguity\textsuperscript{38} in the natural sciences is often poorly perceived inherently because of their subject-matter/domain-of-study implicated nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’; such that it is often wrongly construed in atomising/taking-to-pieces\textsuperscript{13} constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} but with little consequence since such an atomising/taking-to-pieces\textsuperscript{13} constitutedness is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsuperscript{<in-existential-extrication-as-of-existential-unthought>}\textsuperscript{6} scientists generally adopt a conflatedness\textsuperscript{12} of existential-contextualising-contiguity\textsuperscript{38} posture. The reality of existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12} here is validated by the fact that ‘abstract scientific notions are not the point-of-departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity\textsuperscript{38} in <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-\textsuperscript{66}ontological-contiguity\textsuperscript{44} conflatedness\textsuperscript{12} to then reflect abstract scientific notions in existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} or depart from existential-contextualising-contiguity\textsuperscript{38} already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}/knowledge as physics knowledge-reification\textsuperscript{86}. Rather we can better appreciate the occurrence of existential-contextualising-
contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as of \textless amplituding/formative\textendash epistemicity\textgreater causality\textendash as-to-projective-totalitative\textendash implications\textendash,\textendash for-explicating\textsuperscript{46} ontological-contiguity\textsuperscript{44} construal in the sense that our ordinary thought process itself is as of \textless amplituding/formative\textendash epistemicity\textgreater totalising/circumscribing/delineating existential-contextualising-contiguity\textsuperscript{38} construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces \textsuperscript{13} constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally \textless amplituding/formative\textendash epistemicity\textgreater totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of \textless amplituding/formative\textendash epistemicity\textgreater totalising\textendash renewing\textendash realisation/re-perception/re-thought of existential-contextualising-contiguity\textsuperscript{38} of such notions like space, time, force, etc. in \textless amplituding/formative\textendash epistemicity\textgreater causality\textendash as-to-projective-totalitative\textendash implications\textendash,\textendash for-explicating\textsuperscript{46} ontological-contiguity\textsuperscript{44} conflatedness\textsuperscript{12} to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always epistemic\textendash retotalising/re-totalising\textendash entailing of ‘the very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity\textsuperscript{38} in conflatedness\textsuperscript{12} involving human limited-mentation-capacity-deepening\textsuperscript{52} hermeneutics in avoiding-and-superseding any presencing\textendash absolutilising-identitive-\textsuperscript{13} constitutedness\textsuperscript{79}. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility\textsuperscript{73}—effusing/ecstatic\textendash inlining nature of existential-contextualising-contiguity\textsuperscript{38} in epistemic-conflatedness\textsuperscript{12} in their domains-of-study’ implies that their knowledge-reification\textsuperscript{86} should increasingly be explicitly totalising\textendash entailing/nested-

absolutising-identitive-constitutedness, as even the natural sciences are implicitly
epistemically totalising-entailing by the mere fact of the ‘precedence of existential-

their knowledge-reification–gesturing for unification as to ontological-contiguity as not just

domains-of-study like physics and the natural sciences generally are of a less elaborate
existential-contextualising-contiguity\textsuperscript{38} conceptualisation nature in epistemic-conflatedness\textsuperscript{12} and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic 13constitutedness while inherently ‘less immediate epistemically constrained to ontological-primemovers-totalitative-framework\textsuperscript{72}’ domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity\textsuperscript{38} conceptualisation nature in epistemic-conflatedness\textsuperscript{12} that speaks to the need for their appropriate totalising-entailing hermeneutic/reprojective depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening\textsuperscript{52} hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-13constitutedness\textsuperscript{79} for construing their veridical historicity/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. In many ways the natural sciences by the immediate constraining of their ontological-primemovers-totalitative-framework\textsuperscript{72} implicitly avoid atomising/taking-to-pieces 13constitutedness but the misunderstanding that their knowledge-reification\textsuperscript{86}—gesturing is effectively as of atomising/taking-to-pieces 13constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification\textsuperscript{86} and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. It is herein contended that this poor self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is the de-mentatively/structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains are turned into technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’

syncretising/circularity/interiorising/akrasiatic-drag because of ‘failure to draw
potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism.
implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arising as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—of-also-being-as-of-existential-reality parrhesiastic asksis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence’s-sublimating–nascent-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity> totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications)>? In this
regard, the anti-nihilist stance implies that the very first notion of human ontological-performance\textsuperscript{72} including virtue as ontology as of human amplituding/formative-epistemicity\textsuperscript{34} totalising\textsuperscript{34} thrownness in existence\textsuperscript{34} induced anxiety lies in the fact that as of intemporal ontological-faith-notion or ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness\textsuperscript{87} possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments\textsuperscript{86} as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional–projective-perspective. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-\textlt{reference-of-thought’–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to present day positivism–procrypticism\textsuperscript{89} and prospectively deprocrypticism\textsuperscript{17}; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory de-mentating/structuring/paradigming relationship with meaningfulness-and-\textlt{teleology} (undermining the implied \textlt{reference-of-thought–categorical-imperatives/axioms/registry-teleology},-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the \textlt{amplituding/formative} \textlt{wooden-language-} (\textlt{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-} \textlt{reference-of-thought–categorical-imperatives/axioms/registry-teleology})
as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaninglessness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory–mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory–mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually
transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the \(^{83}\)reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism\(^{17}\) knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism\(^{50}\)-in-relative-ontological-incompleteness\(^{88}\)—enframed-conceptualisation naivety, as if a given institutionalised \(^{83}\)reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry–teleology\(^{8}\) with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism\(^{50}\)-in-relative-ontological-incompleteness\(^{88}\)—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the \(^{83}\)reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \(^{83}\)reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of
apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of \textsuperscript{83}reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding\textsuperscript{<as-of-apriorising/axiomatising/referencing>} to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of \textsuperscript{83}reference-of-thought that enabled it to be as of the present \textsuperscript{83}reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the \textsuperscript{83}reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness\textsuperscript{88}of-\textsuperscript{83}reference-of-thought. Hence it is rather ontological-completeness-of-\textsuperscript{83}reference-of-thought that is the viable construing
reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow supererogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency, whose transparency-of-totalising-entailing-as-to-entailing amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness–teleology–in-existential-extrication-as-of-existential-unthought. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness.
and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness—reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiolisation/ontological-escalation in notional–deprocrypticism conflatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social
psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiology/ontology-escalation conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-reference-of-thought for inducing notional~deprocripticism over procripticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism’s conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness-reference-of-thought now being construed as preconverging-or-dementing-and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology as denaturing.]

preservation-entropy-or-contiguity—or—ontological-preservation doesn’t have the implied-profile-
or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend
about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring
positivistic mental-disposition). This technique of mentally grasping the psychopath and other
postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-
mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-
mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal
prelogism-as-of-conviction,-as-to-profound-supererogation mind ordinarily aligns to
meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp
the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as
of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing—apriorising-psychologism with respect to meaningfulness).
Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction,-as-to-profound-supererogation mind to wrongly elevate psychopathic
meaningfulness-and—teleology as of veridical ‘existential-contextualising-contiguity’ rather
than reflect the reality of its ‘formulaic meaningfulness-and—teleology’ which is ‘meaning-by-
the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about
psychopathy we are talking about perversion—reference-of-thought—madeupness/bottomlining-as-to-shallow-supererogation— rather
than logical defect (defect of logical operation/processing/contention). This distinction is critical.
Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two
elementary aspects: reference-of-thought or axioms or categorical-imperatives (reflected-as-
soundness-or-ontological-good-faith/authenticity—of—reference-of-thought, by the prospective
relative-ontological-completeness of reference-of-thought and logic (logical-
operation/processing/contention/implicitation-of-act-execution, and so, ‘fundamentally and

Meaningfulness is thus essentially about the ‘operation of \(^8\text{reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-or-ontological-good-faith/authenticity}^{68}\text{-of-}^8\text{reference-of-thought’}, with logic/logical-processing basically about the operation of \(^8\text{reference-of-thought as rules as of ontological-coherence/superseding–oneness-of-ontology validated as of established ontological-veridicality/intrinsic-reality/existential-reality. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–}^8\text{reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–}^8\text{reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature,
presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faultymentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally processoperate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality’.

For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness as of its unsound-reference-of-thought/unsoundness-or-
ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought-\textsuperscript{83} and then reflect the reference-of-thought or registry-teleology of John as perversion\textsuperscript{74}-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of-logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{53} of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}-defect-as-Being-or-ontological-or-existential–defect that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity\textsuperscript{62}-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema-as-of-epistemic-decadence in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-\textsuperscript{76}) by the denaturing\textsuperscript{15} of the reference-of-thought or the soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-reference-of-thought of meaning over which denaturing\textsuperscript{15} he tries to get interlocutors to operate/process logic; and ‘is not even contending and that he is the subject of prelogism-as-of-conviction-as-to-profound-supererogation contention about his perversion\textsuperscript{74}-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-
enabling/sublimating/supererogatory de-mentativity) for intemporalisation/institutionalisation over the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing, and enabling ontological-escalation or aetiologicalisation as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-locales’/aetiologicalisation/ontological-escalation. The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of
faulty-mentation-procedure-deception-or-urge\textsuperscript{41} but none to do with logic, but everything to do with the denaturing\textsuperscript{15} of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing\textsuperscript{19}-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the \textsuperscript{83}reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought as perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> do protract and an ignorant prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-\textsuperscript{96}supererogation\textsuperscript{10} non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or conjoining-looping-set-of-narratives\textsuperscript{31} as-of-cohering-logic-reflex to the psychopath’s ‘denaturing\textsuperscript{15} postlogic-backtracking-<\textit{iterative-looping-`set-of-dereifying-hollow-narratives-and-acts’}>\textsuperscript{76}-with-`successive-shifting-of-the-narratives-and-acts-foci’-construed-as-`deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards `social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/\textit{supererogatory-de-mentativity}’ as non-veridical and dialectically/contendingly out-of-phase. It should be noted that both psychopathic postlogism⁷⁷ and conjugated-postlogism⁷⁷ cases of unsoundness-or-ontological-bad-faith/inauthenticity⁶²-of-⁸³reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-⁸³reference-of-thought-as-of-incrementalism⁵⁸—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold¹⁰²’, involve ‘disjointedness-as-of-⁸³reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting-<as-

The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism ⁸³reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their ⁸³reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their ⁸³reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability⁹, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and
social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the–reference-of-thought-as-of-incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold (as-procrypticism), thus equally implying a <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument flaw, for instance), systematically the three other equations will be wrong whether by (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such reference-of-thought–categorical-imperatives/axioms/registry–teleology are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy–or–ontological-preservation or ontological-normalcy/postconvergence to then
articulate the necessary ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity\(^{38}\)'s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)-of\(^{83}\)reference-of-thought-devolving\(^{84}\)-as-of-instantiative-context as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ over naïve elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (as of <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\(^{19}\)–narratives—of-the\(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry\(^{99}\)teleology\(^{8}\)) that is only pertinent when it is of the existential existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality. It is important thus to know that since the defect of psychopathy and its derivation as social psychopathy has nothing to do with logical-processing but everything to do with perversion\(^{74}\)-of\(^{83}\)reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\(^{96}\)supererogation>/perversion-of-axiomatic-construct and the false ‘apriorising—\(^{83}\)reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity\(^{38}\)'s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)-of\(^{83}\)reference-of-thought-devolving\(^{84}\)-as-of-instantiative-context)’ which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and \(^{99}\)teleology, it is simply maximalising-recomposuring\(^{54}\)-for-relative-ontological-completeness\(^{87}\)—unenframed-conceptualisation that is ontologically called for to invalidate the psychopathic ‘implied falsehood’ by invalidating the ‘apriorising—\(^{83}\)reference-of-thought-elements/apriorising–registry-

This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existentia-contextualising-contiguity\textsuperscript{38} to be had/entertained nor any logical analysis but rather maximalising-recomposuring for-relative-ontological-completeness—unenframed-conceptualisation invalidating that the implied-logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-\textsuperscript{99}teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-
mentation-procedure-deception-or-urge of the ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context)’. This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing-apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping-’set-of-dereifying-hollow-narratives-and-acts’>—with-’successive-shifting-of-the-narratives-and-acts-foci’-construed-as-’deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting—conviction-as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedureShortcut’ to the normal process of prelogism—as-of-conviction,—as-to-profound—supererogation logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound—supererogation—prelogism—basis’. For instance, by saying (in a different social spatial location where the
interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing' postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking’ since that will validate the ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out
of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism-as-of-conviction,-as-to-profound-supererogation re-engaging reflex’ wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ‘preconverging-or-dementing-apriorising-psychologism/unsoundness-ontological-bad-faith/inauthenticity-reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting-as-
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness’ unlike postlogism\textsuperscript{77} as prelogism\textsuperscript{78} which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (which is an unusual and rare social experience given that a psychopathic personality and postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (due to the ‘lack of constraining social universal-transparency\textsuperscript{104}⟨\text{transparency-of-totalising-entailing,-as-to-entailing-<amplitude/\text{formative–epistemicity}>totalising~in-relative-ontological-completeness}\rangle\textsuperscript{87} as inducing vices-and-impediments\textsuperscript{185} which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> from some interlocutors with no more commitment given the inconsistency of the hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{76} as absolving/fleeting/escaping-reflex–logic\textsuperscript{1}, in time speaking to the fundamental mental denaturing\textsuperscript{15} involved in postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and so for the shallowness of the postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-
permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity perversion\textsuperscript{74-of\textsuperscript{83}-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}-supererogation>} thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound\textsuperscript{96}-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere formulaic constrained/unconstrained perception and relation to meaningfulness-and\textsuperscript{99}-teleology\textsuperscript{55}’ (vague-rhyming-or-copied-mimicry-or-formulaic-
projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{94} fault-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting–conviction-as-to-profound-\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism contentions’ not in the ‘essence/conviction-as-to-profound-\textsuperscript{96}supererogation sense’ but rather as ‘formulaic mental alienation schemes’ wherein perverted-outcome-sought-precedes-existentially-veridical-logical-dueness (in order words the developmental psychology of the psychopath is actually to perceive supplanting–conviction-as-to-profound-\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism meaning as formulaic-schemes/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated, to which it responds in kind), and so is in transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} to prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation, and strives to ‘square off as perversion\textsuperscript{74}–of-\textsuperscript{83}reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> at uninstitutionalised-threshold\textsuperscript{102} involving organic-comprehension-thinking (‘intemporal-prioritisation-of-\textsuperscript{83}reference-of-thought’–as-conflatedness\textsuperscript{12}–or-ontological-reprojecting) being circumvented/distracted by threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism in an epistemic-totalising\textsuperscript{32}–self-referencing-syncretising; and so, in transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} along 3-pedestals (psychopath’s slantedness/compulsive-dementing transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} pedestal, temporal-dispositions transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{102} pedestals, and the intemporal-disposition transversality-

\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19—apriorising-psychologism} as so-being rather
distinctive to organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-
\textsuperscript{83}reference-of-thought’–as-conflatedness\textsuperscript{12—ontological-reprojecting/longness-of-register-of–}
meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’); to ultimately prevent its own ‘perceived social alienation’ by
inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a
social-stake-contention-or-confliction de-mentating/structuring/paradigming. Critically, it
should be understood that passive or suggestive alienation is actually the summum of the
possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral
narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-
temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-
preconverging-or-dementing\textsuperscript{19—apriorising-psychologism}’ is not really ontologically-speaking a
prelogic/conviction-as-to-profound-\textsuperscript{96}supererogation mental state but rather technically a
‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two
stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an
ignorant of psychopathic postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-
of-meaningfulness-and-failing-intemporal-preservation> to which the interlocutor aligns
prelogically and then miscues, and then secondly (in addition), as ‘committed-by-
temporality\textsuperscript{98}/interest over intrinsic-veridicality’ whether in the form of
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion\(^74\)-of-\(^83\)reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\(^96\)supererogation> or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional-procrypticism\(^88\)/notional-disjointedness-as-of-\(^83\)reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold\(^102\) perversion\(^74\)-of-\(^83\)reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\(^96\)supererogation> of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-\(^83\)reference-of-thought-as-apriorising/axiomatising/referencing’ at ‘uninstitutionalised-threshold\(^102\)’ initiated by the psychopath’s postlogism\(^77\) in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and resolved suprastructurally by a deprocryptic mindset\(^83\)reference-of-thought making reference to superseding deprocryptic \(^83\)reference-of-thought–categorical-imperatives/axioms/registry-\(^99\)teleology,\(^8\)-for-intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation (just like an accusation of witchcraft in medieval society is not veridically/ontologically a ‘contention’ but rather a ‘protracted manifestation’ of non-positivism/medieval registry-worldview/dimension perversion\(^7\)-of-\(^8\)-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\(^9\)supererogation> by the dynamism of non-positivism/medieval mindset, resolved/structurally-rendered-inoperant suprastructurally by a positivistic mindset\(^8\)-reference-of-thought making reference to superseding positivistic \(^8\)-reference-of-thought–categorical-imperatives/axioms/registry-\(^9\)teleology\(^8\)). It should be noted that suprastructuring implies reflection about an utter and mentally dialectically-or-contendingly-out-of-phase; as of non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing\(^1\)–apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing\(^1\)-reference as-the-temporal-dispositions-are-dialectically-out-of-phase/dialectically-primitive as suprastructurally reflected by an ‘ordered construct from the intemporal/ontologising disposition’ (since the state of exhibiting/demonstrating perversion\(^7\)-of-\(^8\)-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\(^9\)supererogation> will annul temporal-dispositions pedestals/statures/presumptuousness as postconverging-or-dialectical-thinking\(^2\)–apriorising-psychologism/'logically contending’, more like a medieval mind with a superstitious registry-worldview doesn’t has the stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism \(^8\)-reference-of-thought–categorical-imperatives/axioms/registry-\(^9\)teleology\(^8\) in its supposed articulation of logic). Paradoxically, the normal prelogism\(^7\)-as-of-conviction,-as-to-profound-\(^9\)supererogation mind is so attached by supplanting–conviction-as-to-profound-\(^9\)supererogation—postconverging/dialectical-thinking\(^2\)–apriorising-psychologism reflex or prelogic-reflex-
admittance-reflex or in-phase-reflex to the notion of the essence of supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism-as-of-conviction-as-to-profound-supererogation in their apriorising-registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising-registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism’s//outcome-sought-precedes-logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’, contrasted to the psychopath’s compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or compulsively-dementing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction-as-to-profound-supererogation mind even when acting temporally/badly has
a hard time escaping from supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism (it has qualms/conscience) while the psychopath’s compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow–supererogation is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction,-as-to-profound–supererogation dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction,-as-to-profound–supererogation mind deterministic of other prelogism-as-of-conviction,-as-to-profound–supererogation minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallelisation of mere formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) with their corresponding prelogism-as-of-conviction,-as-to-profound–supererogation-or-intrinsic-attribution veridical-meaningfulness elements (which are subknowledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’ as subknowledging ‘prelogism-as-of-conviction,-as-to-profound–supererogation toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as
subknowledging$^{94}$ ‘prelogism$^{78}$-as-of-conviction,-as-to-profound$^{96}$supererogation suppositions’; ‘folie-raisonnante/non-veridical assumptions’ as subknowledging$^{94}$ ‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex–logic$^1$’ as subknowledging$^{94}$ ‘prelogism$^{78}$-as-of-conviction,-as-to-profound$^{96}$supererogation logical operation narratives’; inductive/contextual limitation as subknowledging$^{94}$ ‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledging$^{94}$ ‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledging$^{94}$ ‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.’ as subknowledging$^{94}$ ‘intrinsic-attribution of acts as inherently right or wrong’. On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging$^{94}$ of postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow$^{96}$supererogation$^{18}$ as to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow$^{96}$supererogation—preconverging/dementing$^{19}$–apriorising-psychologism’ construed as ‘reverting deduction’ whereas ‘supplanting–conviction-as-to-profound$^{96}$supererogation—postconverging/dialectical-thinking$^{28}$–apriorising-psychologism deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging$^{94}$ ‘revert or postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow$^{96}$supererogation$^{18}$ backtracking—iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a consciously
active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset\textsuperscript{83} reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{94}). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism\textsuperscript{77} in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’\textsuperscript{42} (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{94}), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{19} integration and supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism mental-dispositions) is
existentially-traced as of the circularity/recurrence/repetition/repeatability\textsuperscript{9} as to existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\textsuperscript{38} reification\textsuperscript{86}/superseding–oneness-of-ontology\textsuperscript{39} to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound–supererogation’ without factoring the ‘postlogism\textsuperscript{77} mere formulaic slanting compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow–supererogation\textsuperscript{18} mental-disposition’ of the postlogic/psychopathic and conjugated-postlogism\textsuperscript{77}/preconverging-or-dementing\textsuperscript{19}–integration mindsets/\textsuperscript{83}reference-of-thought. It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnante, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound–supererogation mental-alignment or in-phasing or prelogism\textsuperscript{78} to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing\textsuperscript{15} postlogic-backtracking–<iterative-looping–set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{76}– with–‘successive-shifting-of-the-narratives-and-acts-foci’–construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supereorogatory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supereorogatory–de-mentativity’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to–\textsuperscript{83}reference-of-thought–<of-apriorising/axiomatising/referencing>\textsuperscript{29} before reflecting/perspectivating/highlighting

Further, the element of the need to be socially-functional-and-accordant\textsuperscript{93} first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein...
the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-

99teleology\textsuperscript{55}) including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspsable as simply of individual denaturing\textsuperscript{15} dynamics rather than of social denaturing\textsuperscript{15} dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism\textsuperscript{77}-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-

96supererogation\textsuperscript{18} mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing--<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{87})-but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound-

think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds a
temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively
exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives to
copy it adhocly, as a successful way of going about one’s temporal-self-interest). There is equally
a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial
prelogism\textsuperscript{78}-as-of-conviction, as-to-profound-\textsuperscript{96}supererogation alignment to psychopath-and/or-
the-protracted-postlogism\textsuperscript{77}’ comes to override the issue of ‘intrinsic rightness’ leading to what
is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn
(because individuals find ‘apparent social success and conventioning/social-temporal-
thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of
social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the
temporal prelogic/conviction-as-to-profound-\textsuperscript{96}supererogation minds pedestals that
endemise/enculturate this process thus becoming conjugated-postlogism\textsuperscript{77}, is known as
‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing–apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing–apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting in postlogic-backtracking–iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’–absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogic slantedness’ in a given social space during
its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge\textsuperscript{41} for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant\textsuperscript{93} state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-sup ererogation—postconverging/dialectical-thinking\textsuperscript{28–apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{62–of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge\textsuperscript{41}, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-sup ererogation—postconverging/dialectical-thinking\textsuperscript{28–apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-sup ererogation—postconverging/dialectical-thinking\textsuperscript{28–apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing\textsuperscript{19–apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-
dementing\textsuperscript{19}-apriorising, etc. once it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credibility-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism\textsuperscript{77}-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing\textsuperscript{19—apriorising-psychologism or ‘uninstitutionalised-threshold\textsuperscript{102}’) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing\textsuperscript{19—apriorising-psychologism): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism\textsuperscript{77—as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow—supererogation\textsuperscript{18} construes meaningfulness as a hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> construct driven as an threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing\textsuperscript{19—apriorising-psychologism exercise (with respect to same-terms-of-
expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as determining of others/conviction-as-to-profound—supererogation interlocutors behaviours and mental-dispositions; this is rather crude with the childhood-psychopath/cinglé such that it fails to elicit supplanting—conviction-as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising-psychologism in others as the postlogic-effect is rather ‘delirious’ then (as in the case of wetting a chair) but the postlogism at adulthood psychopathy becomes rather polished/less-crude in its effect ‘with maturation/indirectness/spatialisation/credulity’ to the point then of eliciting a prelogic/conviction-as-to-profound—supererogation mental-disposition as conjugated-postlogism/preconverging-or-dementing—integration (conjugated-ignorance, conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation) which is hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> with respect to the meaningfulness of reference-of-thought—categorical-imperatives/axioms/registry—teleology from the threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing—apriorising-psychologism. The psychopath perceives instances of rebuttal of its postlogism not essentially in terms—as-of-axiomatic-construct of the rightness or wrongness of the postlogic acts as a prelogic supplanting—conviction—as-to-profound—supererogation—postconverging/dialectical-thinking—apriorising-psychologism mental-disposition will but rather in terms—as-of-axiomatic-construct of not delivering well and failing/not-upholding—as-of-apriorising/axiomatising/referencing> in its compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow—supererogation postlogic narratives with the idea of how to further confound/muddle hence the reason it is recursive (postlogic-backtracking—iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex—logic to the point of faking remorsefulness or being a victim as long as fundamentally it ‘succeeds in placing its interlocutor
in a prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound\textsuperscript{96}-supererogation relation to its compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\textsuperscript{96}-supererogation\textsuperscript{19} or postlogism\textsuperscript{77} mental-disposition’ in order for the former to conjoin to its postlogic-backtracking-\texttt{<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{76}}). So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of ‘socially-perceived-value as of social-stake-contention-or-confliction’ context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–\texttt{<reference-of-thought-elements/apriorising–registry-elements>\textsuperscript{83}}; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for
a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic\(^1\) and the deliriousness/delirious-effect/cingle-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge\(^41\) points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity\(^{38}\)’s- reifying/elucidating-of-prospective-relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought-devolving\(^{84}\)-as-of-instantiative-context, which is what validates logical-processing-or- logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound\(^{96}\)supererogation\(^53\) as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and \(^{99}\)teleology), in the formation of a basic and normal prelogic supplanting–conviction-as-to-profound-\(^{96}\)supererogation—postconverging/dialectical-thinking\(^{28}\)–apriorising-psychologism (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) mindset\(^{83}\)reference-of-thought’ inducing rather a postlogic compulsing– nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow\(^{96}\)supererogation\(^19\) mindset\(^{83}\)reference-of-thought as it relates to meaningfulness as a faulty-mentation-procedure-deception-or-urge\(^41\) relative to social-stake-contention-or-confliction’ (explaining its absolving/fleeting/escaping-reflex–logic\(^1\) mental-disposition); rather than as of the ‘requisite existentially veridical logical-dueness (of apriorising–\(^{83}\)reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’ associated with a prelogic supplanting–conviction-as-to-profound\(^{96}\)supererogation— postconverging/dialectical-thinking\(^{28}\)–apriorising-psychologism mindset\(^{83}\)reference-of-thought. And this fundamental faulty-mentation-procedure-deception-or-urge\(^41\) relative to social-stake-
contention-or-confliction of its postlogic compuling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow–supererogation\textsuperscript{10} mindset/\textsuperscript{20}reference-of-thought then goes on to account for the developmental psychology of the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism\textsuperscript{17} failing/not-upholding-as-of-apriorising/axiomatising/referencing experiences at childhood and early adolescence to achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the prelogic supplanting–conviction-as-to-profound–supererogation–postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism mindset/\textsuperscript{20}reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound–supererogation–postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising–\textsuperscript{20}reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound–supererogation–postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality\textsuperscript{98}/shortness (when there is no social universal-transparency\textsuperscript{284}–(transparency-of-totalising-entailing,–as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) of our acts at ‘uninstitutionalised-threshold\textsuperscript{102}’ thus there is not ‘intemporal social universal-transparency\textsuperscript{284}–
(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness87) of temporal-to-intemporal-
dispositions disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an
‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ derived from the
psychopath’s initiated postlogism77 in hollow-constituting-<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to
'socially-perceived-value as of social-stake-contention-or-confliction' humans do
solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold102’,
from the temporal-dispositions of slantedness (the psychopath),
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation49. These poor
solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with
institutionalisation/intemporalisation and formalisations with corresponding internalisation of
values or secondnaturing. However, at circumstances where the
institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the
‘extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to–meaningfulness-and-99teleology55)’, then ‘a induced-ring-of-gyges-
effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-
so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is
strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but
rather wrongly integrated prelogically/in-conviction-as-to-profound-96supererogation) will often
perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-
thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-
reality dynamism’ in the social-construct such that others will find it to their temporal self-interest
to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in
society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’

to many a supplanting–conviction-as-to-profound−\textsuperscript{96}supererogation—postconverging/dialectical-
thinking\textsuperscript{28}–apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold\textsuperscript{102}’).
Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy
through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-
threshold\textsuperscript{102}’ human learned behaviour is primarily geared towards what is ‘perceived as
succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for
rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-
teleology\textsuperscript{55}) or temporal (shortness-of-register-of–meaningfulness-and\textsuperscript{99}–teleology\textsuperscript{55}), hence its
relation to sociopathy which is a more generalised notion of social vices-and-impediments\textsuperscript{195}.
The social psychopathy phenomenon (in describing the underlying abstract nature of man before
institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging\(^{94}\)/mimicking, by virtue of its ontological-primemovers-totalitative-framework\(^{72}\) and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/superrerogatory–dementativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge-(preconverging-or-dementing\(^{19}\)-as-if-of-sound-knowledge)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional–deprocrypticism\(^{17}\) (preempting procrypticism\(^{80}\), so construed by ‘notional–deprocrypticism\(^{17}\) ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\(^{28}\)-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’). That is, psychopathy as postlogism\(^{77}\) is associated with temporal-dispositions in their ‘perversion\(^{94}\)-of-\(^{83}\)reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow.-\(^{96}\)supererogation> (as prior intemporal \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry-\(^{99}\)teleology\(^{8}\)) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\(^{94}\) of the \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry-\(^{99}\)teleology\(^{8}\) behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation re-institutionalisation of prospective \(^8\)reference-of-thought–categorical-imperatives/axioms/registry–teleology\(^8\). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion\(^74\)-of-\(^8\)reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation\(^96\) caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-affirmative-and-unaffirmative–disambiguated-apriorising/axiomatising/referencing\(^1\) as from ontological-normalcy/postconvergence). Thus \(^8\)reference-of-thought–categorical-imperatives/axioms/registry–teleology\(^8\) are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging\(^4\)/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-\(^8\)reference-of-thought–of-apriorising/axiomatising/referencing\(^2\) of mental-devising-representation and the articulation of new \(^8\)reference-of-thought–categorical-imperatives/axioms/registry–teleology\(^8\)–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversion\(^74\)-of-\(^8\)reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation\(^96\) include: - RECURRENT-UTTER-UNINSTITUTIONALISATION (base perversion\(^74\)-of-\(^8\)reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–
holographically-<conjugatively-and-transfusively> the 66ontological-contiguity—of-the-human-institutionalisation-process67, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing45> transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality51-asymmetric-subsumption-of-temporality98’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojective psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing45>’ with us being inherently
exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion\textsuperscript{74}-of\textsuperscript{83}reference-of-thought-\textlt<as-effectively-apriorising-in-

preservation-as-pseudointemporality\textsuperscript{51}-preservation, with respect to ontological-
normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold\textsuperscript{102}’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-\textsuperscript{83}reference-of-
 thought-\textlt<of-apriorising/axiomatising/referencing>\textsuperscript{29} of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism\textsuperscript{80} preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism\textsuperscript{17}’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recompose’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recompose stresses the peculiarity of the transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity/memetic-reordering wherein, for instance
with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> de-mentating/structuring/paradigming, utilising the outcome of previous institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> effort. Hence dimensionality-of-sublimating—<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation instigation recurrently inducing the institutionalisation/intemporalisation process (is not analogical but a contiguous notion by it intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing45> ) applies universally across space and time (beyond the institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocripticism17. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing45> analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology55 reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold102, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s (recomposed)-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening52, at its uninstitutionalised-threshold102 involving-organic-comprehension-thinking in contrast with threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation— preconverging/dementing19–apriorising-psychologism; in transversality-of-affirmative-and-
dementing\textsuperscript{19}–apriorising-psychologism mental-devising-representation’ by base-institutionalisation, ununiversalisation ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism mental-devising-representation’ by universalisation, non-positivism/medievalism ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism mental-devising-representation’ by positivism, and prospectively, procrypticism\textsuperscript{88} ‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism mental-devising-representation’ by deprocrypticm. This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality\textsuperscript{51}–of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-\textsuperscript{99}teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{102}, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-\textsuperscript{99}teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-\textsuperscript{99}teleology is then represented as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14}. Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-\textsuperscript{99}teleology and ontological-veridicality/\textsuperscript{66}ontological-contiguity of \textsuperscript{83}reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective); with the ontologically-veridical/\textsuperscript{66}ontological-contiguity mental-devising-
representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}-<shallow>\textsuperscript{96}supererogation-of-mentally-aesthetised-preconverging/dementing\textsuperscript{19}–qualia-schema>-as-of-epistemic-decadence in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion\textsuperscript{74}-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow supererogation, beyond their <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present. Hence we know of the following stranded registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, nonpositivism/medievalism and prospectively procrypticism–or–disjointedness-as-of-reference-of-thought\textsuperscript{80} (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{8}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments\textsuperscript{195} of the prior (uninstitutionalised-threshold\textsuperscript{102}) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism\textsuperscript{17}. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recompose-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45> process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently–preconverging-or-dementing\textsuperscript{19}–
apriorising-psychologism-or-subknowledging\(^94\)-or-perversion\(^74\)-of-\(^83\)reference-of-thought-\(<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-}
\(^{96}\)supererogation}>\), and-corresponding-\(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising’ relation to meaningfulness}\). (ii) for Universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion\(^74\)-of-\(^83\)reference-of-thought-\(<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-}\(^{96}\)supererogation}>\) of base-institutional meaningfulness). (iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding non-positivism/medievalism (as perversion\(^74\)-of-\(^83\)reference-of-thought-\(<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-}\(^{96}\)supererogation}>\) of universalistic meaningfulness). (iv) for Rational-Realism (deprocrypticism\(^17\)), it prospectively has to do with ‘temporal-to-intemporal-dispositions accountability/intemporality\(^51\)-skewing (‘intemporality\(^51\)-asymmetric-subsumption-of-temporality\(^98\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) rules/principles’ as ‘a memetic ontological entrapment’ for superseding procrypticism\(^88\) (as the perversion\(^74\)-of-\(^83\)reference-of-thought-\(<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-}\(^{96}\)supererogation}>\) of positivistic meaningfulness). Thus in the bigger scheme of things, just as a contrastive dialectical insight (from our present vantage position of the positivism backend of the institutional-cumulation/institutional-recomposure-\(<\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}\(^{45}\)>\) process), will strongly highlight by ‘de-mentation\(\langle\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\rangle\)\(^{14}\) of \(^{83}\)reference-of-thought’, recurrent-utter-uninstitutionalisation, ununiversalisation and non-positivism/medievalism as non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-
perspectivated as in perversion\textsuperscript{74} of reference-of-thought\textsuperscript{83} as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96} supererogation\textsuperscript{96} and-not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective de-mentation\textsuperscript{14} of our perversion\textsuperscript{74} of reference-of-thought\textsuperscript{83} as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96} supererogation\textsuperscript{96} as of the reference-of-thought\textsuperscript{83} categorical-imperatives/axioms/registry\textsuperscript{99} teleology\textsuperscript{8}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procrypticism–or–disjonctedness-as-of reference-of-thought\textsuperscript{80}. Noting as well that uninstitutionalised-threshold\textsuperscript{102} like recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications de-mentating/structuring/paradigming as we do in our positivistic/procrypticism\textsuperscript{88} registry-worldview, within the ambi of their the-Good/understanding/knowledge-reification\textsuperscript{86} ontological-primemovers-totalitative-framework\textsuperscript{72} conceptualisation. But then their stranding from their prospective institutionalisation/intemporalisation represents them as oblongated/decandored/dialectically-or-contendingly-out-of-phase/dialectically-primitive as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism\textsuperscript{88} uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and\textsuperscript{99} teleology\textsuperscript{55} as of prospective notional~deprocrypticism\textsuperscript{17} institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our
illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-
syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-
thought (from ontological-normalcy/postconvergence epistemic/notional-projective-
perspective). This equally explains why uninstitutionalised-threshold equally carried a
complex about their registry-worldview/dimension and these complexes certainly sound
unintelligible to us given our vantage perspective at the backend of the institutional-
cumulation/institutional-recompose-as-to-historiality/ontological-eventfulness/ontological-
aesthetic-tracing process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-
discontiguity<br/>&lt;shallow-supero-ration-of-mentally-
aestheticised-preconverging/dementing–qualia-schema&gt; (undisambiguation as temporal-to-intemporal-dispositions are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness-as-of reference-of-thought uninstitutionalised-threshold.
The very specific nature of the depocryptic transcendence-and-sublimity/sublimation/supero-rayatory–de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘temporal-to-intemporal-dispositions disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-
teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation
which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-
of-thought. It involves de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–
de-mentation—stranding-or-attributive-dialectics)—temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity—<shallow—supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema>. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superego–de-mentativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing—dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—postconverging-or-dialectical-thinking—apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this temporal-to-intemporal-dispositions nature of
notional-deprocrypticism\textsuperscript{97} institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency\textsuperscript{\textsuperscript{104}}-(transparency-of-totalising-entailing,-as-to-entailing-\langle\textsuperscript{amplituding}/formative–epistemicity\rangle-totalising--in-relative-ontological-completeness\textsuperscript{87}) of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}--\langle\textsuperscript{shallow-supererogation-of-mentally-aestheticised–preconverging/dementing--qualia-schema}\rangle of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and–teleology\textsuperscript{55}) which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of temporal-to-intemporal-dispositions individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold\textsuperscript{102} across the successive institutional-cumulation/institutional-recomposure-\langle\textsuperscript{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}\rangle by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shaller-human-
mentation-capacity to limited-but-deeper-human-mentionation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/subsorogatory–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrpticism, and prospectively highest with deprocrpticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-temporal-to-intemporal-dispositions–implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of–meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of–meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking–apriorising-psychologism—by—preconverging-or-dementing–apriorising-psychologism

The paradox of ontological-normalcy/postconvergence brought to bear with notional–deprocrypticism\(^1\) will imply ontologically/intemporally that a registry-worldview/dimension-and-as-of-all-successive-registry-worldviews/dimensions can be seen as being in ‘preconverging-or-dementing\(^1\)–apriorising-psychologism hollow-constituting–<as-disjointed-misappropriation-of-

Insightfully, it implies the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} illumination driven institutionalisation over an impression-driven/good-naturedness/wishfulness conceptualisation as the-Good sticks by essence to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and reinvents \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–teleology\textsuperscript{8},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for prospective/transcending/superseding registry-worldview to comply with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when the prior one fails, while the latter sticks by form to \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–teleology\textsuperscript{8},-for-intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation whether this fails intemporal-preservation-entropy-or-contiguity-or-ontological-preservation or not. The conceptualisation of reference-of-thought-categorical-imperatives/axioms/registry-teleology refers to the same deconstructed/ontological-reconstituting-as-to-conflicatedness notion; axioms emphasises and hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology (short for the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing meaningfulness-and-teleology. The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology, and is capable of ontological-reconstituting-as-to-conflicatedness/deconstruction involving de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with corresponding de-mentation-(supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics) hermeneutically/reprojectively-educing-human-meaningfulness-and-teleology into-the-existentialism-becoming of personhoods-and-socialhood-formation. This explains human transcendental capacity and sublimation as well as human perversion-referring-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and desublimation. More precisely, perversion-referring-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing-apriorising-psychologism mental-devising-representation implies registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-as-Being-or-ontological-or-existential-defect>(reflecting ‘defects threshold-of—
nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—

Fundamentally perversion—reference-of-thought—has to do with the defect of the reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity (which is rather a logical-process/implicitation-of-act-execution defect and which implies an ‘implicitation-of-notion-of-agreement-or-disagreement’), as can be reflected as from ontological-normalcy/postconvergence. A reference-of-thought speaks of the fundamental appropriateness/soundness-or-ontological-good-faith/authenticity—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation irrespective of their appropriate or inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound—supererogation with respect to ontological-contiguity/ontological-veridicality, and implying sound reference-of-thought further emphasises appropriate incidental logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound—supererogation in producing the right outcome. Hence a registry-worldview/dimension defect is one of systematic defect of reference-of-
psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} but rather because of failure of \textsuperscript{83}reference-of-thought as of perversion-and-derived-perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking\textsuperscript{20}-apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-\textsuperscript{83}reference-of-thought is still relevant where there is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} (like calculating the answer of an arithmetic operation wrongly) so long as the \textsuperscript{83}reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-\textsuperscript{83}reference-of-thought on the other hand implies being-or-ontological-or-existential-or—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} disposition as of supplanting—conviction-as-to-profound-\textsuperscript{96}supererogation—postconverging/dialectical-thinking\textsuperscript{20}-apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} and at worst defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53}) and so in effective prelogism\textsuperscript{78} wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. In fact every registry-worldview/dimension has its socially-betraying-threshold-of-ontologising-depth-of-analysis (and the idea of questioning beyond it is hardly entertained, whether beyond-the-consciousness-awareness\textsuperscript{99} teleology-in-existential-extrication-as-of-existential-unthought\textsuperscript{6}) which existentially explains the registry-worldview/dimension limits or relative-ontological-incompleteness\textsuperscript{88} induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96} supererogation—preconverging/dementing\textsuperscript{19}—apriorising-psychologism’ with respect to ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) in its specific grasp of (postconvergence) ontological-veridicality/ontological-contiguity on the one hand, and on the other hand is the reason for the more profound/deeper socially-betraying-threshold-of-ontologising-depth-of-analysis of the prospective/transcending/superseding registry-worldview/dimension which is rather in ‘a suprastructural transcendental-meaningfulness conceptualisation with respect to the prior/transcended/superseded registry-worldview/dimension’, as it is construed suprastructurally beyond the prior/transcended/superseded registry-worldview/dimension mental-devising-representation given the less veridical reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of its ‘temporal conventioning compromise’ determined by its shallower socially-betraying-threshold-of-ontologising-depth-of-analysis. Thus we know basically that the successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing involved the following intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis with respect to their social-stake-contention-or-conflicion specific to each registry-worldview/dimension defining its ‘inherent institutionalisation and snowballed recomposuring’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor: for the mentation of recurrentutter-uninstitutionalisation basically ‘trepidatious reasoning as non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition-(as ‘base constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) as socially-betraying-threshold-of-ontologising-depth-of-analysis; for the mentation at base-institutionalisation–ununiversalisation basically ‘non-universalising warped rulemaking-over-

The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’
aesthetic-tracing are at their given institutionalisation levels on the basis of a memetic/ suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding-<as-of-apriorising/ axiomatising/referencing> intradimensional ontologising/intemporal-preservation’.

Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘preconverging-or-dementing–apriorising-psychologism phenomenon’ like psychopathy and social psychopathy (with respect to procrysticism or perversion reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation> of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations dispositions wherein intradimensionally, the ‘socially-betraying-threshold-of-ontologising-depth-of-analysis’ (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation—preconverging/dementing–apriorising-psychologism) is rather an overall registry-worldview/dimension perversion reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow–supererogation> aftereffect rather as an indirect comprehensive socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-
mentativity. Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{162}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> ‘as of the positivism–procrypticism\textsuperscript{89} registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–\textsuperscript{96}supererogation–preconverging/dementing\textsuperscript{19}–apriorising-psychologism in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism\textsuperscript{17}; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{162}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> of postlogism\textsuperscript{77}–slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold of the registry-worldview/dimension (procrypticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of 'a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct' preempting the said perversion of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it 'becomes existentially in a dynamism of conventioning and ontology'. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by
their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⁸⁷ as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental⁹⁰teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring⁵⁴—for-relative-ontological-completeness⁸⁷—unenframed-conceptualisation de-mentating/structuring/paradigming, contrasted with a temporal extricatory de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion⁷⁴-of-
⁸³reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-
as-to-shallow-supero-ration> like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s recomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the
finality of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (postconvergence) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional-deprocripticism as having ‘sound reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procripticism which is then correspondingly devoid of reference-of-thought, and so going by the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same form-factor since their ‘snowballed differences’ arise solely due to ‘the deepening of limited-mentation-capacity-deepening’. Ontological-normalcy/postconvergence as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness-reference-of-thought-as-of-ontological-normalcy/postconvergence (shifts-in-the-curve-of-human-grasp-of-one-ontology/’ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-veridicality/ontological-completeness’ as the institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> on the other axis or
dialecticisms-of-an-imperfect-human-grasping-of-‘ontological-reference-of-veridicality’-which-mastery-improves-dialectically) which rather implies defects of perversion\textsuperscript{74} of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> or unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63} of reference-of-thought of corresponding prior/transcended/superseded registry-worldviews/dimensions implying a voiding of their \textsuperscript{93}reference-of-thought as ontologically-veridical as these become the subject of contention and aetiologisation/ontological-escalation from the corresponding prospective/transcending/superseding registry-worldviews/dimension which is then the ontologically-veridical \textsuperscript{93}reference-of-thought. It should be noted that a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} of the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-functioning-and-accordance (unlike a perversion\textsuperscript{74} of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation>) implies movement-along-the-same-curve-of-prior-relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought of a given registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought whether as an inappropriate/poor-or-bad or appropriate/good or any other variation of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} , and doesn’t fundamentally voids the ‘sound \textsuperscript{93}reference-of-thought status’ with regards to the possibility of an appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} in another instance. This insight is critical because the defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} of the registry-worldview’s/dimension’s–\textsuperscript{83}reference-of-thought-for-social-functioning-and-accordance will often be implied with regards to an issue and resolution of perversion\textsuperscript{74} of reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> which rather speaks to a defect ‘revoking the sound \textsuperscript{83}reference-of-thought status’ construed as perversion-and-derived-perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> speaking of registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect-<as-Being-or-ontological-or-existential–defect>-\textsuperscript{85}. For instance, there is no intradimensional resolution of sorcery accusations and notions of sorcery as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{89}—unenframed-conceptualisation de-mentating/structuring/paradigming within a non-positivism/medievalism world, as what is required is a shift-in-the-curve-of-prior-relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought-as-of-ontological-normalcy/postconvergence to imply a prospective transcending/superseding positivistic registry-worldview/dimension as the resolution wherein positivising/rational-empiricism takes pride of place as \textsuperscript{83}reference-of-thought of meaningfulness. This applies with all perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation>s in all institutionalisations as the \textsuperscript{83}reference-of-thought is what gives registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview status which is voided in the instance of perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> with such perversion\textsuperscript{74}-of-\textsuperscript{83}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> defining that registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{102} as it then becomes, by way of ‘de-mentation\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of \textsuperscript{83}reference-of-thought’, the subject of contention and

In the case of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow—supererogation—preconverging/dementing—apriorising-psychologism acts of-similar-or-protracted-contextualisation with regards to slantedness/compulsive-dementing (with an underlying element of physiological issue with regards to psychopathic personalities) and the derived social dynamisms of social psychopathy, such implied ‘deconstruction/ontological-reconstituting—as-to-conflatedness perpetuation of the hermeneutic/reprojective circle ‘de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding—or-attributive-dialectics) of reference-of-thought analysis’ is potentially beyond just ‘benign-and-specific-shallow-contexts-scale-of-implications’ but can be more profound involving institutions and individuals contextualisation as individuals-lives-and-institutional-lives-scale-of-implications and in the bigger scheme of things where such dynamics involve social dementating/structuring/paradigming effects on perceived meaningfulness and values in the overall social-setup it has a social-structure-scale-of-implications (specifically not only in terms—as-of-axiomatic-construct of vices-and-impediments but also in undermining the enculturation of intellectual/emancipatory dispositions). very first instance) while the state of supplanting–conviction-as-to-profound-\textsuperscript{96}supererogation—
postconverging/dialectical-thinking\textsuperscript{28}–apriorising-psychologism implies a ‘postconverging-or-dialectical-thinking\textsuperscript{28}–apriorising-psychologism’/soundness-or-ontological-good-
faith/authenticity\textsuperscript{68}–of-\textsuperscript{83}reference-of-thought mental-devising-representation implying a
veridical reference-of-thought with respect to interlocution (in the very first instance), and enabling the second instance of engaging in terms–as-of-axiomatic-construct of logical pertinence to establish (postconvergence) ontological-veridicality/ontological-contiguity. Typically, such an insight with regards to compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow–supererogation is obvious and transparent with respect to the childhood psychopathy/cinglée mental-disposition, given that an initial encounter often involves a natural ‘postconverging-or-dialectical-thinking–apriorising-psychologism reflex’ by the interlocutor with respect to their initial narratives but after some familiarisation we come to understand that the initial narratives are in fact preconverging-or-dementing–apriorising-psychologism and thus our expectation of the subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-representation as a ‘preconverging-or-dementing–apriorising-psychologism reflex’. This preconverging-or-dementing–apriorising-psychologism veridicality explains both the childhood and adult psychopath disposition for absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic-attribution wherein the mental-disposition is to move postlogicly/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging and not an articulation of supplanting–conviction-as-to-profound–supererogation—postconverging/dialectical-thinking–apriorising-psychologism or existential-contextualising-contiguity principle of reification, be it by adhering to the mere hollow form of principles and narratives in existential-decontextualisation as being deterministic of others inclinations and actions. Intrinsic-reality in its ontological-normalcy/postconvergence indicates that effectively the conjugating/inflecting/deriving/mimicking/in-protraction-to-psychopathic-preconverging-or-
dementing\textsuperscript{19}–apriorising-psychologism (which is often the case with the adult-psychopathic preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism) whether unconscious (ignorance) or conscious (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) effectively underlies an ontologically valid mental-devising-representation reflex as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}–of\textsuperscript{83}reference-of-thought of such protracting threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow\textsuperscript{96}supererogation—preconverging/dementing\textsuperscript{19}–apriorising-psychologism. In the bigger scheme of things, it equally explains our mental-devising-representation preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}–of\textsuperscript{83}reference-of-thought underlying reflex with respect to prior/transcended/superseded registry-worldviews/dimensions and ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{68}–of\textsuperscript{83}reference-of-thought mental-devising-representation underlying reflex with respect to prospective/transcending/superseding registry-worldviews/dimensions. preceding/superseding to any hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of shallow limited-mentation-capacity-(as of relative 13 constitutedness), will elicit a same defect disposition thus the need to fundamentally undermine 83 reference-of-thought of the registry-worldview/dimension at that uninstitutionalised-threshold 102 that endemises/enculturates the ontological-or-existential-defect due to its socially-betraying-threshold-of-ontologising-depth-of-analysis. It should thus be noted that the preconverging-or-dementing 19–apriorising-psychologism of 83 reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-to-conflatedness 12 /deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion 74 –of-83 reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow 96 supererogation> as to preconverging-or-dementing 19–apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting–as-to-conflatedness 12 /deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness 88–of-83 reference-of-thought defective 83 reference-of-thought–categorical-imperatives/axioms/registry–99 teleology 8 for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism 80 is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-
cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>\(^{45}\), as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojective circle exercise of ontological-reconstituting–as-to-conflatedness\(^{12}\)/deconstruction (of our temporal-to-intemporal-dispositions nature)’ how procrypticism\(^{80}\) (preconverging-or-dementing\(^{19}\)–apriorising-psychologism as to mere formulaic positivistic meaningfulness-and-\(^{99}\)teleology\(^{55}\)) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>\(^{45}\) and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness\(^{12}\)/deconstruction (which is the critical subsuming mechanism for re-establishing \(^{83}\)reference-of-thought and ontological-veridicality/\(^{66}\)ontological-contiguity as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, above and beyond the simple hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of defective \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry-\(^{99}\)teleology\(^{8}\)–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-
mentation/mental-devising representation are ‘kept or aligned’ as ‘ontologically-reconstituting’-or-prelogic-or-logical-process-precedes-outcome-or-conviction-as-to-profound-supererogation, as in ontological-reconstituting–as-to-conflatedness/deconstruction of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with sound reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness–teleology (as to ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing–apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ or of preconverging-or-dementing–apriorising-psychologism as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any presencing—absolutising-identitive–constitutedness distorted meaningfulness-and–teleology. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework sound reference-of-thought–categorical-imperatives/axioms/registry–teleology,–for-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in ontological-reconstituting–as-to-conflatedness\textsuperscript{12}/deconstruction); wherein no amount of ‘good-naturedness’ of any individuation based on the former (prior/transcended/superseded) \textsuperscript{83}reference-of-thought can fundamentally supersede its de-mentative/structural/paradigmatic vices-and-impediments\textsuperscript{185}, but for the ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring) into \textsuperscript{83}reference-of-thought of the latter (prospective/transcending/superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. That is why there is no ontologically-veridical intradimensional resolution of issues and notions of sorcery for instance in a non-positivism/medievalism social-setup with any such pretence being nothing but a ‘temporal extricatory de-mentating/structuring/paradigming’ to satisfy temporal preservation’, but for implying a prospective need for a positivistic registry-worldview/dimension as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-mentating/structuring/paradigming in satisfying intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise there is no intradimensional resolution of a phenomenon like psychopathy and its social corollary in a procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88} registry-worldview/dimension (the perversion\textsuperscript{74}–of-\textsuperscript{83}reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-\textsuperscript{96}supererogation> as to preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of positivistic meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with a hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> postlogism\textsuperscript{77}–or-perverted-outcome-

transformation but rather institutionalisation/intemperalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of—meaningfulness-and—teleology individuation dispositions by artifice/institutionalisation/intemperalisation come to constrain—or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of—meaningfulness-and—teleology—or-hollow-constituting—as-disjointed-misappropriation-of—meaningfulness-and-failing-intemperal-preservation> individuations dispositions); with corresponding percolation-channelling facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism gets weaker with grander institutionalisations/intemperalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to—reference-of-thought—of-apriorising/axiomatising/referencing—decandoring with three de-

Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal ontological implication of social psychopathy dynamism across the human species (across space-and-time)/the-social/ontological—de-mentating/structuring/paradigming is drawn so that the principles so articulated can be applied in all incidental cases of social psychopathy dynamism (with the intellectual responsibility of avoiding just an ad-hoc/circumstantial based analysis and never elevating such poor rationalisations into an ontology, i.e. avoid the extrication de-mentating/structuring/paradigming). of meaning in terms–as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/uttered, for instance, retrospectively the ‘god of plane’… type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist *reference-of-thought–categorical-imperatives/axioms/registry*-teology, and this will equally apply prospectively between notional–deprocrypticism and procrypticism as the procryptic mindset-*reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion–of-*reference-of-thought-*effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximising-recomposing–for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-*reference-of-thought’ or temporal-accommodation de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct). This way of hermeneutic/reprojective ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any <amplitude/totalising/illusion-of-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the
inherent nature of existential-reality’ is central to the notional–deprocrypticism\textsuperscript{17} registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the \textsuperscript{8}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{8} devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion\textsuperscript{74} of \textsuperscript{8}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
\textsuperscript{96}supererogation> in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring \textsuperscript{8}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’.

deprocrypticism\textsuperscript{17}’s suprastructuralism involves ‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{98}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-
supererogatory–epistemic-confalatedness\textsuperscript{12} so-construed as longness-of-register-of-meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} over shortness-of-register-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}; and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification\textsuperscript{86}/ontological-primemovers-totalitative-framework\textsuperscript{72} construct carrying a virtue that
supersedes the vices-and-impediments\textsuperscript{195} of the non-positivism/medievalism registry-worldview/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing\textsuperscript{15} of \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–\textsuperscript{99}teleology\textsuperscript{8} as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a \textsuperscript{83}reference-of-thought (characteristic of deprocrypticism\textsuperscript{17}) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of conflation\textsuperscript{12} rather than \textsuperscript{13}constitutedness (notwithstanding the instances of the latter’s contingent approximating-nature for conceptualisation/construal construed as presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79}). \textsuperscript{13}constitutedness tend to fallaciously imply ‘existence of things in existence’ whereas conflation\textsuperscript{12} rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because \textsuperscript{13}constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening\textsuperscript{52} this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-\textsuperscript{13}constitutedness of \textsuperscript{83}reference-of-thought’ perpetually when aware of its deficiency. conflation\textsuperscript{12} takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening\textsuperscript{52} as of metaphysics-of-absence, and as implied by the notion of
intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that goes beyond <amplituding/formative>wooden-language-{imbued—temporal—mere-
form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—
narratives—of-the-\textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8})
which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{52} by a re-equilibrating metaphysics-of-absence/postdication. Thus, \textsuperscript{13}constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-
construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by \textsuperscript{13}constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a contingent resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-\textsuperscript{13}constitutedness of axiomatic-construct/\textsuperscript{83}reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}) that will then require another contingent resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-\textsuperscript{13}constitutedness of \textsuperscript{83}reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79}’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening\textsuperscript{52} construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-

The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening\textsuperscript{52} induced \textsuperscript{13}constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ (since such a construal fully reflect the reality of a human temporal-to-intemporal \textsuperscript{83}reference-of-thought nature, with high \textsuperscript{13}constitutedness and conjugated-\textsuperscript{13}constitutedness of \textsuperscript{83}reference-of-thought’ of temporal-dispositions \textsuperscript{83}reference-of-thought, much like the ‘conjugated-\textsuperscript{13}constitutedness of \textsuperscript{83}reference-of-thought’ of the other BODMAS characters to A’s fundamental postlogism\textsuperscript{77}-slantedness pathological condition/\textsuperscript{13}constitutedness as when insisting on upholding the <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-\textsuperscript{83}reference-of-thought—categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}) and not factoring in A’s underlying condition and defect as \textsuperscript{13}constitutedness, and so out of sync with the existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context as the more fundamental a priori whose imbricatedness/threadedness/recomposing reveals the fundamental defect of applying additionality \textsuperscript{83}reference-of-thought—categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-
outside-existential-contextualising-contiguity\textsuperscript{38}). The resolution by imbricatedness/threadedness/recomposuring is most telling of the inherent nature of conflation\textsuperscript{12} which is conceptually associated with ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; as conflation\textsuperscript{12} speaks of a more profound relation in the construal/conceptualisation of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of its ontological and virtue essence that is susceptible to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{52} by a re-equilibrating metaphysics-of-absence/postdication, and so even when elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} is denaturing\textsuperscript{15} as exposed by existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context, to further construe new \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation factoring in the imbricatedness/threadness/recomposuring reflecting the existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context. conflation\textsuperscript{12}, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening\textsuperscript{52}) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity\textsuperscript{38}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context,
and so grasped as conflation\textsuperscript{12} emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence conflation\textsuperscript{12} will tend to avoid systemic defects of analysis associated with \textsuperscript{13}constitutedness requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive—\textsuperscript{13}constitutedness\textsuperscript{79}’. conflation\textsuperscript{12} is thus naturally inclined to induce ‘appropriate-existential-elevation-of—reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\textsuperscript{20}-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology\textsuperscript{55}’ as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry—teleology\textsuperscript{8},—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical \textsuperscript{83}reference-of-thought’, underlined by the disambiguated temporal-to-intemporal-dispositions. Further, \textsuperscript{13}constitutedness and conflation\textsuperscript{12}, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening\textsuperscript{52} come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-or-dialectical-thinking\textsuperscript{20}—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and
constitutedness and conflation with respect to psychologism, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct reference-of-thought psychologism has to do with the fact that every registry-worldview/dimension has its own specific constitutedness/conflation psychological complex reflex mechanism wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology, achieved by ‘presencing—absolutising-identitive-constitutedness’ as constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior constitutedness of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup <amplituding/formative–
epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of ‘<amplituding/formative–epistemicity>totalising–nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-'warped-consciousness'-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’ (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of meaningfulness-and-teleology orientation as we construe of arithmetic and mathematics in say a universalisation or positivism registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in conflation or rather ‘presencing—absolutising-identitive-constitutedness as recurrent re-categorisation/re-adaptation/re-classification of constitutedness), refers to the underlying human reflex mental scheme of a given registry-
worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework\textsuperscript{72} transcendental-enabling/sublimating/supererogatory-de-mentativity and corresponding meaningfulness-and-teleology\textsuperscript{55}. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology\textsuperscript{55} as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-⟨as of relative constitutedness in relation to conflation\textsuperscript{12}\rangle construal/conceptualisation as soundness-or-ontological-good-faith/authenticity\textsuperscript{68} of reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening\textsuperscript{52}, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening\textsuperscript{52} determining its prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought, as enabled by the
‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure–<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of temporal-to-intemporal-dispositions further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry–teleology and the possibility of prospective institutionalisation as renewing reference-of-thought–categorical-imperatives/axioms/registry–teleology for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness–teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness–of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘contingent ontologising-
