Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science calls for a mutual sense
of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought
it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\(^{15}\) <amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\(^{19}\)—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—\(^{99}\)teleology—\(^{8}\)) stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure—\(<\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}\>^{45}\) right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification\(^{86}\) of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating\(^{24}\)—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness\(^{12}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation behind the ‘inventing’/‘creation’ of prior knowledge fades into secondnatured mechanical dispositions

At which point, the more decisive issue is recognising and assuming the reality of a fundamental apriorising/axiomatic/referencing intellectual break/schism/estrangement with such ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’, as so-implied across sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing^45 between non-universalising sophistry and prospective Socratic philosophers universalising^183-idealisation as well as in the case of medieval-pedantic dogmatism and prospective budding-positivism, and it is herein contended likewise with regards to our modern day intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-

As what becomes critical in such a context is no longer prospective knowledge-reification\textsuperscript{86} as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification\textsuperscript{86} as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflatedness\textsuperscript{12}/immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas
per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness teleology-in-existential-extrication-as-of-existential-unthought) as this only leads to a destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}–of-ontological-performance-including-virtue-as-ontology habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ inclinations that poorly appreciate existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising–renewing-realisation/re-perception/re-thought,-in-supperrogatory-epistemic-conflicatedness implications of transcendence-and-sublimity/sublimation/supperrogatory-de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the
public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence—<-in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness—<transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality> whether by mystifications-outside-existential-contextualising-contiguity—<-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism—thus-foiling/undermining-relative-ontological-completeness—<implications/conclusions/projections-of-prospective-knowledge-reification—in-a-dumbing-down-posturing—that-implies—that-the-present—is-unchangeable—as-of—presencing—absolutising-identitive—constitutedness, etymological-flouting—as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivety—that-such-stigmatising-representation—will-undermine/override-their-analyisable-ontological-veracity and an-approach-as-of-the-ordinary-egotistic-perspective—in-existential-extrication—that-absolutises-the-present—that-is-passed-as-knowledge-reification all undermining informed insight and the requisite human intellectual and emotional sacrifice for genuine knowledge-reification and prospective progress involving the authentic self and social transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then provides paradoxically the underlying meaningfulness-and—teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious de-mentative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as—

It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity\textsuperscript{63} on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity\textsuperscript{68}, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity\textsuperscript{68} or ontological-bad-faith/inauthenticity\textsuperscript{63} (beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}) as of underlying existential-contextualising-contiguity\textsuperscript{38} elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}- (sublimating–referencing/registering/decisioning,—as-self-becoming/self-confaltedness\textsuperscript{12}/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>\textsuperscript{2}) as to human-and-social—expectations/anticipations—metaphoricity\textsuperscript{56}—as-rede-mentating/restructuring/reparadigming—psychologism’\textsuperscript{89} as construed necessary herein and overriding naïve
apriorising/axiomatising/referencing as of presencing–absolutising-identitive–constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn’t fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification implications as of existential-reality’). We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity, the fact is this is rather the consequence of their universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s2 to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-
‘immanent-ontological-contiguity’ not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance.<including-virtue-as-ontology>. such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing meaningfulness-and-teleology as of existence’ not only out of good-intent or ontological-good-faith/authenticity but ontological-bad-faith/inauthenticity as well. (In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing meaningfulness-and-teleology pretense of being as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ is effectively central to all prospective institutionalisations in relative-ontological-completeness as reflected with the Socratic philosophers putting in question the apriorising/axiomatising/referencing of non-universalising sophists specifically with Socrates during his trial as to his highlighting of the inconsistencies of his accusers sophistic non-universalising apriorising arguments priorly for the notion of a mutual logical coherent engagement to arise in the very first place with Socrates rather purporting that such a possibility of mutual logical coherent engagement could only arise on the basis of his universalising apriorising arguments as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and budding-positivists equally putting into question the apriorising/axiomatising/referencing of non-positivising/non-rational-empiricists medieval-scholasticism pedants specifically as with Galileo’s implicit dismissal of any such pretence of logical coherence engagement in the face of what he could see positively through the telescope with respect to the ‘imaginary pedantic machinations’ of his interlocutors and so as to the prospective positivism/rational-empiricism apriorising/axiomatising/referencing as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation; as in fact the very notion of prospective institutionalisation is one of renewing reference-of-thought–and–reference-of-thought-devolving—meaningfulness-and-teleology apriorising/axiomatising/referencing prospectively as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, putting into question the

the appearance of Einsteinian physics in early 20th century prompting great excitement and
curiosity among physicists recasting the contributions of prior physicists, and then eliciting the

we are at the backend of human institutional-cumulation/institutional-recomposure—
historiality/ontological-eventfulness/ontological-aesthetic-tracing>, and so because in many
ways it is hardly the case that the priority is obsession with such intellectual emancipation rather
than obsession with institutional-being-and-craft muddlement. While the natural sciences are
‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s<amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology) with asceticism does exist as has existed throughout sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-confalatedness/immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproduciability—of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded
institutional presence of such avowedly teleologically-decadent—as-in-dimensionality-of-desublimating-lack-of—amplituding/formative>supererogatory—de-criticalness—epistemic-growth-or-conflatedness/rationale-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrow has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression-as-of-

Actually the projection of values including intellectual values in such <amplituding/formative—epistemicity>totalising—self-referencing-syncrletising/circularity/interiorising/akrasiac-drag—are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-unthought>—(given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory—de-criticalness and not the vagueness of impression—
We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising_idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfullness- and-teleology, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its dementative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its totalising-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an...

Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism–or–preempting—disjointedness-as-of$^{83}$reference-of-thought$^{37}$ protensive-consciousness induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and$^{99}$teleology$^{55}$ and so over our present procrypticism–or–disjointedness-as-of$^{83}$reference-of-thought$^{80}$ occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating$^{24}$—amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness$^{32}$/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as such reflects the successively induced originariness-parrhesia,—as—
abnormalcy/preconvergence” for the need for prospective originariness-parrhesia,—as— spontaneity-of-aestheticisation, to which the Self absconds (in <amplituding/formative— epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to limited-mentation-capacity implications) until the perceived induced notional—positive-opportunism from any such prospective originariness-parrhesia,—as—spontaneity-of— aestheticisation elicits the requisite human limited-mentation-capacity-deepening (involving prospective knowledge-reification and/or deferential-formalisation-transference) for prospective secondnatured institutionalisation as of renewed prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and—teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of— apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of—sublimating—supererogatory—de-mentativeness/epistemic-growth—or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit— drivenness—equalisation prospectively, disentangled from ‘prior knowledge-as-of-mechanical—knowledge predisposition and its developed temporal institutional self-serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely
feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

‘a traditional conception of causality as if human-subpotency is

regards we can appreciate how the very implications of say universal

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogationly predisposed human mind’ as of prelogism or prelogism-as-of-conviction,-as-to-profound-supererogation-(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction,-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition’), i.e.

Hence prelogism\textsuperscript{78} or prelogism-as-of-conviction,-as-to-profound-\textsuperscript{96}supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textsuperscript{96}supererogation\textsuperscript{53} can be well performed subsequently despite an initial failure or possible initial failures. Further, the dynamics of such a graduated human consciousness as of notional–conflatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} can be reinterpreted operantly as of ‘notional–referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-\textsuperscript{13}constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional–deprocrypticism\textsuperscript{17} referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-\textsuperscript{83}reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-\textsuperscript{13}constitutedness mental-

they still act as if of ‘notional–deprocrypticism’ referentialism—ontologically-uncompromised-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their
beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-

‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
levels’ their respective neuterising construed as of ‘their prior relative-ontological-
incompleteness reference-of-thought of meaningfulness-and—teleology’. neuterising thus refers to human attribution of meaningfulness-and—teleology as of human limited-
mentation-capacity misconstruing, with respect to existential social-stake-contention-or-
confliction possibilities, such that its reference-of-thought/de-
mentative/structural/paradigmatic—ontological-performance —<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,—as-of-its-
specific—constitutedness, and so-construed from the conflatedness of notional–deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion—reference-of-thought—<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow—supererogation>, that is secondnatured as of its prior relative-ontological-incompleteness reference-of-thought with the consequent implications of relatively defective meaningfulness-and—teleology ontological-
performance <including-virtue-as-ontology>. For instance, as of their relative-ontological-
incompleteness reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-
completeness reference-of-thought positivism interpretation may be that at a certain time
of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,—as-of-its-specific—constitutedness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing
protensive-consciousness, and such an ontologically-veridical evaluation of neuterising is construed as a deneuterising—referentialism reflecting-ontologically-veridical-‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism>-’-and-ontologically-flawed-‘preconverging-or-dementing—apriorising-psychologism/deassertion’ as of the various institutionalisations references-of-thought-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. The implication here being that neuterising can be disambiguated as of the fundamental human limited-mentation-capacity induced <amplituding/formative-epistemicity>totalising/circumscribing/delineating context—meaningfulness-and-teleology reference-of-thought-devolving—<including-virtue-as-ontology> misconstrual-as-neuterising, and so-construed as of referentialism as of the notional—conflatedness of notional—notional—deprocrypticism protensive-consciousness; thus gaining a superseding insight of the ontologically-flawed references-of-thought-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness fixations/hardening-construed-as-neuterising of the various relative-ontologically-incomplete institutionalisations as of their existential-contextualisation; as this deneuterising—referentialism reflecting-ontologically-veridical-‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism>-’-and-ontologically-flawed-‘preconverging-or-dementing—apriorising-psychologism/deassertion’ as from notional—deprocrypticism, disambiguates neuterising as an insight into the ontologically-veridical ‘underlying phenomenological dynamics of human limited-mentation-capacity’ that explains the how-and-why of such ontologically-flawed references-of-thought-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness fixations/hardening-construed-as-
neuterising associated with the various institutionalisations in prior relative-ontological-incompleteness of reference-of-thought. Insightfully and counterintuitively for elucidative construal, neuterising as of epistemic-abnormalcy/preconvergence of relative-ontological-incompleteness of reference-of-thought is rather ‘a derived-construction as deficient of ontological-normalcy/relative-ontological-completeness of reference-of-thought’, as it is the elucidation of ontological-normalcy/relative-ontological-completeness of reference-of-thought as truly reflecting intrinsic-reality/ontological-veridicality, whether we are aware of it as of postconverging-or-dialectical-thinking—apriorising-psychologism or unaware beyond-the-consciousness-awareness—teleology—in-existential-extrication-as-of-existential-unthought as of preconverging-or-dementing—apriorising-psychologism/deassertion, that reveals neuterising as of epistemic-abnormalcy/preconvergence of relative-ontological-incompleteness of reference-of-thought as it is construed in its ontological-veridicality as ‘a deficient derived-construction of ontological-normalcy/relative-ontological-completeness of reference-of-thought’. This insight equally explains why it is ‘through the deficient derived-construction of conflatedness’ that is construed the ontologically-veridical nature of distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing destructuring.

Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness—teleology—in-existential-extrication-as-of-existential-unthought dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as critical across all the registry-worldviews/dimensions construed as of de-mentation—(supererogatory—ontological—de-mentation—dualistic—de-mentation—stranding—or-attributive-dialectics). The ontological-veridicality of a ‘postconverging—or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as associated with ‘intemporal ontological-faith-notion—or-ontological-fideism—
existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{55} individuation without temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{55} individuations will simply fail to recognise the generation-and-upholding of neuterising\textsuperscript{57} and thus unable to reveal perversion-and-derived-perversion\textsuperscript{74} of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation; as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness <amplituding/formative>wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{55}-as-of-nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications} in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology\textsuperscript{55} without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology\textsuperscript{55} neuterising\textsuperscript{57} to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology\textsuperscript{55}, and this equally applies with regards to overcoming our ‘procrypticism—or–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology\textsuperscript{55} neuterising\textsuperscript{57} to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} Being and meaningfulness-and-teleology\textsuperscript{55}. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising\textsuperscript{57}, tendentious neuterising\textsuperscript{57} and impulsive neuterising\textsuperscript{57}, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing,
intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding-formative–epistemicity>–totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-confledness apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness of reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness of reference-of-thought, so-construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-
compromised-mediating,-as-of-their-respective-specific-\textsuperscript{13}constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-\textsuperscript{83}reference-of-thought of Being and meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} retrospectively to prospectively in reflecting holographically-\textltangle conjugatively-and-transfusively\textrgtangle the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by \textsuperscript{13}constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} of ‘traditional classical mechanics axiomatic-construct’ given its epistemic-abnormalcy/preconvergence\textsuperscript{39}/relative-ontological-incompleteness\textsuperscript{88}.of.\textsuperscript{83}reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness\textsuperscript{87}.of-\textsuperscript{83}reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness\textsuperscript{12} of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising\textsuperscript{32}—renewing-realisation/re-perception/re-thought as of maximalising-recomposuring\textsuperscript{54}.for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence\textsuperscript{30}/relative-ontological-incompleteness\textsuperscript{88}.of-\textsuperscript{83}reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-

their reflection of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that
ontologically-veridical meaningfulness is a construction or derived-construction as of inherent
intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it;
the insight here being that ‘relative completeness/profoundness of axiomatic-

is ontologically preeminent/critical for the notional perspective of ontological

divergence of individuals and societies ontological-performance⁷¹-<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s⁸³reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying⁹³reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation⁸³reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing⁴⁵> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring underlying the transcedence-and-sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically-<conjugatively-and-transfusively> the⁶⁶ontological-contiguity—of-the-human-institutionalisation-process⁶⁷. The fact is that all meaningfulness-and⁹⁹teleology⁵⁵ontological-performance⁷¹-<including-virtue-as-ontology>, whether teleologically-degraded or teleologically-elevated, implied as of within a given⁸³reference-of-thought are necessarily in⁶⁶ontological-contiguity, construed as of a difference-in-kind/difference-in-aposteriorising-or-logicising²² of the same <amplituding/formative—epistemicity>totalising/circumscribing/delineating⁸³reference-of-thought-devolving⁸⁴. With a difference-in-nature/difference-in-apriorising-or-axiomatising\^{23} construal there is a double-gesture of reification\^{86} as of implying more critically the inappropriateness of the centered–epistemic-totalisation/\^{83}reference-of-thought as of its underlying meaningfulness-and-\^{99}teleology\^{55} implied same/common/shared \^{83}reference-of-thought–categorical-imperatives/axioms/registry–\^{99}teleology\^{8}, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound–\^{96}supererogation\^{53} on the basis of the centered–epistemic-totalisation/\^{83}reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity–\^{61}–\^{\text{profound–\^{96}supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking\^{38}–qualia-schema}}, with its apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument reflection of existential-contextualising-contiguity–\^{38}–in-reification\^{86}/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-\^{99}teleology\^{55} centered–epistemic-totalisation/\^{83}reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to
the possibility of an apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument reflection of existential-contextualising-contiguity\textsuperscript{38} in reification\textsuperscript{86}/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity\textsuperscript{61}<profound-\textsuperscript{96}supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking\textsuperscript{20}—qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments\textsuperscript{105}. The same applies from a notional—deprocrypticism\textsuperscript{17} perspective with regards to a procrypticsm—or—disjointedness-as-of—reference-of-thought\textsuperscript{88} mental disposition as an argument seeming to articulate meaningfulness-and—teleology\textsuperscript{55} in the same disjointedness-as-of—reference-of-thought terms-as-axiomatic-construct by which the procrypticism—or—disjointedness-as-of—reference-of-thought\textsuperscript{83} arises in the first place is in circular <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as of the same centered—epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments\textsuperscript{105} as of that fundamental <amplituding/formative—epistemicity>totalising/circumscribing/delineating thought-devolving—as-of-instantiative-context—meaningfulness-and—teleology\textsuperscript{55} reference-of-centered—epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in seconndnaturiing such a prospective institutionalisation “reference-of-thought—devolving—teleological-de-mentating/structuring/paradigming—of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and—sublimity/sublimation/supererogatory—de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most
of the affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking\textsuperscript{28}–apriorising-psychologism> of prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought, or in degradation-as-of-failing-ontological-veridicality/uninstitutionalised-threshold\textsuperscript{102} as of the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism> of prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought; noting that the dialectical nature of the elevation and degradation so implied are inherently affirmed/unaffirmed respectively as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, wherein prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought elevation/institutionalisation is in soundness-or-ontological-good-faith/authenticity\textsuperscript{68}–of-reference-of-thought and prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought degradation/uninstitutionalised-threshold\textsuperscript{102} is in unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}–of-reference-of-thought. This reflects historiality/ontological-eventfulness/ontological-aesthetic-tracing as of its notional–conflatedness nature of ontological-performance including-virtue-as-ontology as anti-nihilistically grounded on ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as enabled by maximalising-recomposuring for-relative-ontological-completeness unenframed-conceptualisation. It points out that ontologically-veridical meaningfulness cannot be construed beyond-the-consciousness-awareness teleology in-existential-extrication-as-of-existential-unthought as of a soulless nihilistic teleology-for-the-attainment-of-temporality/human-mortal-whims as it simply brings an end to the transcendental potential for the human existential tale perpetuation; as the organic-knowledge behind the ‘invention’ of prospective institutionalisation necessarily has to take precedence in further driving the ontological-contiguity—of-the-human-institutionalisation-process over a conceptualisation as of denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology. Such an approach to transcendence-and-sublimity/sublimation/supererogatory–mentativity is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence-and-sublimity/sublimation/supererogatory–mentativity as being incremental to the prior registry-worldview's/dimension's reference-of-thought doesn't undermine/unshackle that prior reference-of-thought with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human<amplituding/formative–

Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supererogatory–de-mentativity notion as of the (given consciousness’s neuterising\(^{57}\)-induced)\(^{83}\)reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness of the prior registry-worldview’s/dimension’s \(^{83}\)reference-of-thought of meaningfulness-and-\(^{99}\)teleology\(^{55}\) which establishes its ‘grounded knowledge construct’, and so because of its denaturing\(^{15}\) of the prior institutionalisation’s \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry-\(^{99}\)teleology\(^{8}\) by way of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\) at the registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{402}\) inducing prior relative-ontological-incompleteness\(^{88}\)-of-\(^{83}\)reference-of-thought in need for prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms–as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness\(^{88}\)-of-\(^{83}\)reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought it more critically and organically points to the uninstitutionalised-threshold\(^{402}\) state of the present registry-worldview’s/dimension’s \(^{83}\)reference-of-thought at its uninstitutionalised-threshold\(^{402}\) with respect to the prospective institutionalisation state of the
habituated mental-projection perspective from the prospective institutionalisations of positivism or notional-deprocripticism\textsuperscript{17} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. Remarkably, such a maximalising-recomposuring\(^5\)—for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation behind the \(^6\)ontological-contiguity—of-the-human-institutionalisation-process\(^6\) enabling the human existential tale in successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^4\)> is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring\(^5\)—for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation mental-disposition in their
own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness—of-reference-of-thought-of same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring—unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity as of opened-construct-of–meaningfulness-and–teleology arise only by maximalising-recomposuring—unenframed-conceptualisation but presences in their <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/resentiment/closed-construct-of–meaningfulness-and-teleology-as-of-’nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>} consider maximalising-recomposuring—unenframed-conceptualisation as of exceptional-askance and unordinary due to their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically
decentered and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation necessary for human development and progress.

framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces
relatively poor ontological-performance—<including-virtue-as-ontology>. The central element
here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a
nombrilisticas <amplituding/formative—epistemicity>totalising—self-referencing—
syncretising/circularity/interiorising/akrasiatic-drag³³ approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as validated by ontological-primemovers-totalitative-framework⁷². At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organisical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory—de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as—mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity³⁸. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness⁸⁸—of—reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness⁸⁸ of the de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor
in human poor to perfect/near-perfect construal on the basis of conflatedness\textsuperscript{12} but rather suffers from \textsuperscript{13}constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness\textsuperscript{12} in line with existential-contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of.-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in \textsuperscript{13}constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising\textsuperscript{32}–devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied~‘prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity\textsuperscript{38}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of.-\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-
mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their 13 constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising 13 constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness12 as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity38’s-reifying/elucidating-of-prospective-relative-ontological-completeness87-as-of-83 reference-of-thought-devolving84-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-99 teleology55 conceptualisation as of our limited-mentation-capacity-deepening52 enabling our prospective relative-ontological-completeness87-as-of-83 reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising–devolved–purview–as–domain–of–construal–as–intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of conflatedness12. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative–epistemicity>totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking 'projective-insights'/epistemic-projection-in-conflatedness of-notional–deprocrypticism–prospective-sublimation) originary/event-of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-
totalitative-framework\textsuperscript{72} interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in \textsuperscript{13}constitutedness rather than striving to expand the transcendental-enabling/sublimating/supererogatory\textsubscript{72} de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory\textsubscript{72} de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory\textsubscript{72} de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsubscript{72} de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} nature and differences as well as their divergence in meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human
knowledge renewal as of maximalising-recomposing—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supercerogotory—de-mentativity ontological-prime movers-totalitative-framework renewal of a same <amplituding/formative–epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constittedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness—teleology—in-existential-extrication-as-of-existential-unthought’ that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s–reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought-devolving—as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. mentation-capacity can most pertinently accede to by maximalising-recomposuring—unenframed-conceptualisation driven by ontological-faith

insight explaining human limited-mentation-capacity flawed mental-disposition for 
\(^{13}\)constitutedness lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘\(^{83}\)reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective—\(^{96}\)supererogation—\(<\)as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’\>)

Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\) of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising\(^{57}\)-induced-or-deneuterising\(^{16}\)-induced)—\(^{83}\)reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating—

imbricatedness/threadedness/recomposuring , generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-
<as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s
imbricatedness/threadedness/recomposing; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construed as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness of reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construed of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, this points out that existence inherent superseding—one-ness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology is effectively as of a natural transcendental-enabling/sublimating/supererogatory-de-mentativity existential-contextualising-contiguity of all-ontologically-veridical-meaningfulness ‘in wait’ to be elucidated however imbricated/threaded/recompusured such an exercise, explaining why our knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of a given <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in conflatedness need to be as of a reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating/supererogatory–de-mentativity contextualising-contiguity-of-all-ontologically-veridical-meaningfulness. existential-For all the above elucidations
highlighting the ontological-veracity implications of \textsuperscript{12}constitutedness and conflatedness\textsuperscript{12}, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound-complete recomposuring of the very same \textlt{amplituding/formative–epistemicity}totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness\textsuperscript{88}–of–\textsuperscript{83}reference-of-thought/epistemic-abnormalcy/preconvergence\textsuperscript{30}/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness\textsuperscript{87}–of–\textsuperscript{83}reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{12}’ lies in the fact that the construal/conceptualisation of an epistemic-totalising\textsuperscript{32}–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology\textsuperscript{55} and the inherent ontological-veracity/intrinsicness of the \textlt{amplituding/formative–epistemicity}totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness\textsuperscript{99}teleology–\textlt{in–existential-extrication-as-of-existential-unthought}\textsuperscript{6} of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness\textsuperscript{87}–of–\textsuperscript{83}reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{12}. Since there is no direct correspondence between relative-ontological-incompleteness\textsuperscript{88}–of–\textsuperscript{83}reference-of-thought/epistemic-abnormalcy/preconvergence\textsuperscript{30}/destructuring with the inherent intrinseness of the \textlt{amplituding/formative–epistemicity}totalising–devolved–purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality
beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness—reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness—reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness—reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicsness of the <amplituding/formative-epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’—as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’—as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance—<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of
human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of \textsuperscript{13}constitutedness and as relatively-perfect/near-perfect/perfect conflatedness\textsuperscript{12}, construed as notional~conflatedness\textsuperscript{12} as of \textsuperscript{12}constitutedness-to-conflatedness\textsuperscript{12} of human limited-mentation-capacity. Insightfully, it highlights that \textsuperscript{13}constitutedness arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness\textsuperscript{12} arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’. Notional~conflatedness\textsuperscript{12}/\textsuperscript{13}constitutedness-to-conflatedness\textsuperscript{12} as such highlights an underlying historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} of the \textsuperscript{13}constitutedness-to-conflatedness\textsuperscript{12} dynamism of human limited-mentation-capacity with respect to human ontological-performance\textsuperscript{71}--<including-virtue-as-ontology>--as-of-its-broadest-implications amenable to human-subpotency/\textsuperscript{4}subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression-as-of-\textsuperscript{4}amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, in supererogatory~epistemic-conflatedness\textsuperscript{12}, and so whether as of natural ontology/natural sciences, social ontology/social sciences, aesthetics-as-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately human-subpotency effecting can only arise from the conflatedness\textsuperscript{12} of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its \textsuperscript{13}constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. In the bigger framework, human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} (I exist therefore existence is of transcendental-enabling/sublimating/superoerogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>) as of collective human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening\textsuperscript{52} implies that human knowledge-

that further expands human grasp of the given totalising-renewing-realisation/re-perception/re-thought totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness\textsuperscript{12}; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness\textsuperscript{12} that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,—as-of-their-specific\textsuperscript{13}constitutedness induced neuterising\textsuperscript{57} or prospectively notional–deprocrypticism\textsuperscript{17} referentialism—ontologically-uncompromised-mediating,—as-of-conflatedness\textsuperscript{12} meaningfulness-and—teleology\textsuperscript{55}. That is, the notional–deprocrypticism\textsuperscript{17}
protensive-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness\textsuperscript{12}, with no intermediating construct as of \textsuperscript{13}constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} meaningfulness-and-
\textsuperscript{99}teleology\textsuperscript{55}. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of \textsuperscript{13}constitutedness on conflatedness\textsuperscript{12} induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-
their-respective-specific-\textsuperscript{13}constitutedness meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional–deprocrypticism\textsuperscript{17} referentialism—ontologically-uncompromised-mediating,-as-of-
conflatedness\textsuperscript{12} as a notional conception in construing meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, while avoiding its ontologically-flawed \textsuperscript{13}constitutedness construals in terms–as-of-axiomatic-construct of the various neuterising\textsuperscript{57}. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-\textsuperscript{13}constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} is what is effectively and ontologically defining of issues of \textsuperscript{83}reference-of-thought of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} given that as of its ontologically veridical conflatedness\textsuperscript{12} it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening\textsuperscript{52} that is behind the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55},-and-longness-of-register-of–meaningfulness-and-
\textsuperscript{99}teleology\textsuperscript{55} as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normaley/relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought perspective
of notional–deprocrypticism17 ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness12 protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional–notional–deprocrypticism17 ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness12 protensive-consciousness sound conceptualisation perspective’.

It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising57.

dementing and decentered to the prior institutionalisation’s categorical imperatives/axioms/registry-teleology and its alienation—as inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity nihilistic while construing prospective opened-construct-of-meaningfulness-and-teleology as postconverging-or-dialectical-thinking-and-centered-to-the-prospective-institutionalisation’s categorical imperatives/axioms/registry-teleology-relative-ontological-completeness-of-reference-of-thought-in-ontological-good-faith/authenticity, thus literally expanding human access to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—totalising—renewing—realisation/re-perception/re-thought,—in-superceragotary—epemic-confledness as to the existential possibilities that arise with successive institutional-cumulation/institutional-recomposure—as—to-historiality/ontological-eventfulness/ontological-aesthetic-tracing associated with the ontological-contiguity—of-the-human-institutionalisation-process. This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—totalising—renewing—realisation/re-perception/re-thought,—in-superceragotary—epemic-confledness. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/superceragotary—de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism—procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-
thought \textbf{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \textsuperscript{33} is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such \textbf{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \textsuperscript{33} highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness\textsuperscript{88}–of–\textsuperscript{83}reference-of-thought as of ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} about our positivism–procrypticism\textsuperscript{80} as it
being of intradimensional meniality-or-hyperbole and rather resolvable as of notional-deprocripticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-preservation’ what is existence/existential-possibilities not factoring Being conflatedness as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, and further in contradiction to the notion of human <amplitudizing/formative–epistemicity>totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance—<including-virtue-as-ontology>). Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance—<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing
prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that
allows for prospective relative-ontological-completeness of reference-of-thought thus
expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying
social scientists of their times who insist on the recurrence of the practices of the creed are ‘not

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology\textsuperscript{55} of theoretically perfect/sound ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening\textsuperscript{52} for successive prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness\textsuperscript{12} that prospectively ultimately grasps the centered--<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> in reflecting holographically--<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} or notional–deprocrypticism\textsuperscript{17}. Despite such a Derridean
decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition of constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71} of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology\textsuperscript{55} in relative deficient/flawed ontological-performance\textsuperscript{71}’ but rather as within a same horizon of meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71} of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ a centered–epistemic-totalisation is rather the circular meaningfulness-and-teleology\textsuperscript{55} representation of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’, as the said reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ is ‘supposedly always the systemic and indefinite resolution’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Now, the issue of a centered–epistemic-totalisation defect arises where the given reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ is ontologically-flawed/deficient as it will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology\textsuperscript{55} in relative deficient/flawed ontological-performance\textsuperscript{71}’ construed as of the
uninstitutionalised-threshold\textsuperscript{102} of a registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought-as-of-\textsuperscript{83}reference-of-thought—devolving-teleological-de-mentatingstructuring/paradigming—of-meaningfulness’. But then human limited-mentation-capacity-deepening\textsuperscript{52} achieving prospectively of an ultimately theoretically perfect/sound \textsuperscript{83}reference-of-thought-as-of-\textsuperscript{83}reference-of-thought—devolving-teleological-de-mentatingstructuring/paradigming—of-meaningfulness’ as of the full \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as notional—notional—deprocrypticism\textsuperscript{37} implies the circular ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away with as of ontological-completeness with the <amplituding/formative–epistemicity>totalising—renewing—realisation/re-perception/re-thought of the \textsuperscript{83}reference-of-thought—devolving-teleological-de-mentatingstructuring/paradigming—of-meaningfulness’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—
‘human<amplituding/formative–epistemicity>totalising—purview-of-construal’, with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and–teleology\textsuperscript{55} of ‘the very same physics <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as—intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness\textsuperscript{88} of less ontological-performance\textsuperscript{51}—<including-virtue-as-ontology> of ‘the very same physics <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as—intrinsic-reality/ontological-veridicality/existential-reality’, while with human
limited-mentation-capacity-deepening\textsuperscript{52} the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs brings about a new ‘centered–epistemic-totalisation/circularity of meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness\textsuperscript{87}—of-axiomatic-construct-or-\textsuperscript{83}reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} ontological-performance\textsuperscript{71}\textsuperscript{-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved—purview/as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance\textsuperscript{71}\textsuperscript{-<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human <amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given \textsuperscript{83}reference-of-thought, construed as ‘\textsuperscript{83}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} ontological-performance\textsuperscript{71}\textsuperscript{-<including-virtue-as-ontology> has been as of our positivism–procrypticism\textsuperscript{80} registry-worldview’s/dimension’s \textsuperscript{83}reference-of-thought-as-of-\textsuperscript{83}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ horizon and
such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différences as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différences is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différences is the notion of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness of reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency—transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—

\(^8^3\)reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\(^8^8\) as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity\(^6^2\)-<shallow-

\(^1^3\)constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening\(^5^2\) then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\(^8^8\) reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative \(^6^6\)ontological-contiguity as of conflatedness\(^1^2\), and so as of the very same <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening\(^5^2\) induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-\(^9^9\)teleology\(^5^5\) ontological-performance\(^7^1\)-<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to
\(^8^3\)reference-of-thought-as-of-\(^8^3\)reference-of-thought—devolving-teleological-de-

existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–

construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-
reality/ontological-veridicality,-as-to-'human<amplituding/formative–
epistemicity>totalising~purview-of-construal’ or <amplituding/formative–
epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the
‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-
nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the
same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-
constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being
any conception as of meaningfulness-and-teleology of supposed existential-implications
correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is
rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the
effective human limited-mentation-capacity supposed correspondence relation with existence—

constructs/theories/intersolipsistic-intercessory-notions/notional~referential
notions/articulations/virtue, with increasing ontological-performance including-virtue-as-
ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could
be perceived rather as a meta-conception or more like a technical practicality akin to say the
scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^38\), whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking\(^20\)-apriorising-psychologism> as of maximalising-recomposuring\(^54\)-for-relative-ontological-completeness\(^87\)—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory-de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity\(^38\) of other applied and transcendental-enabling/sublimating/supererogatory-de-
mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a \(<\text{amplituding-formative-epistemicity}>\) totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity\(^3\) knowledge-reification\(^6\) for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest—sub potency—\(<\text{in-transitive-conflatedness}^{12}-\text{reflexivity,}-\text{in-the-full-potency-of-existence’s—sublimating—nascence}>\) with regards to the
ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the

conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers,
Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory—de-mentativity of the
physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of—
construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic—
constructs with mathematics being accessory to the transcendental—
enabling/sublimating/supererogatory—de-mentativity. They didn’t just start to develop ‘patterns
of mathematical equations’ without the prior insight about the physics domain-of-study and what
to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative—epistemicity—totalising—purview—of—construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid-reference-of-thought—
devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\^{55}teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-\^{83}reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–notional–deprocrypticism\^{17} psychoanalytic-unshackling metaphysics-of-absence and conflatedness\^{32}, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve \(^{13}\) constitutedness construal of meaningfulness-and-\^{99}teleology\(^{55}\) that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated \(^{83}\)reference-of-thought, construed as ‘\(^{83}\)reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) that is unconsciously implied as of our positivism–procrypticism\(^{80}\) registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naïvely construed as of a given registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) of meaningfulness-and-\^{99}teleology\(^{55}\), and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and
captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification in-singularisation-as-veridical-epistemic-determinism. Being as of its implied notional-deprocrypticism’s conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology that carries the prospective transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Further, the fact is that it is rather axiomatic-
axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing\(^{19}\)–apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity\(^{66}\)–<shallow\(^{96}\)supererogation-of-mentally-aestheticised~preconverging/dementing\(^{19}\)–qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to \(^{83}\)reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory~de-mentativity implications as of human limited-mentation-capacity-deepening\(^{52}\), whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-\(^{99}\)teleology\(^{55}\) as knowledge which can only arise as of the ‘maximalising-recomposuring\(^{54}\)–for-relative-ontological-completeness\(^{87}\)–unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-
measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking apriorising-psychologism of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct. Such a logicism disposition is rather in constitutedness and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory-de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied ‘prospective-aporeticism-overcoming/unovercoming’). In the bigger scheme of things, this author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in the conception of meaningfulness-and-ontological-performance ontological-performance including-virtue-as-ontology as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reflected by metaphysics-of-absence is wholly sufficient as of human limited-mentation-capacity-deepening in accounting for ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflicatedness-as-to-totalitative-reification singularisation-as-veridical-epistemic-determinism causality—as-to-projective-totalitative-implications,-for-explicating ontological-contiguity of reference-of-thought with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to ‘human totalising-purview-of-construal’ This author phenomenological transcendental conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and
operant implications construing/conceptualising in reflecting holographically-
<conjugatively-
and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness as of human limited-mentation-capacity-deepening. Such that human phenomenological <amplituding-formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-
mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-
performance-<including-virtue-as-ontology>) is the ‘complete scientific archaeological depth’
for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity
implications construed from notional–notional–deprocrypticism perspective as
historiality/ontological-eventfulness/ontological-aesthetic-tracing, and consequently doesn’t
carry any external ideological implication but rather for the inherent ontological and Being
implications. Further as of such phenomenological transcendental conflatedness, there is no
issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-
epistemic-digression-as-of-<amplituding-formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought–in–supererogatory–epistemic-conflicatedness, but rather an
issue to humankind arising as of human-subpotency in the full-potency of existence with all the
problem of existence being the issue of humankind’s limited-mentation-capacity implications as
failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure–of–meaningfulness–and–teleology as of ontology’s–
directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so
construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness as of
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent
in existence that rather skews presence states towards the ‘ontological statistical-exception’ of
intemporality\textsuperscript{51}/longness over temporality\textsuperscript{98}/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality\textsuperscript{98}-to-intemporality\textsuperscript{51} were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness\textsuperscript{12} <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-	extsuperscript{66}ontological-contiguity\textsuperscript{44} as of maximalising-recomposing\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual\textsuperscript{13}constitutedness possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness\textsuperscript{12} as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness\textsuperscript{12} upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically—<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness\textsuperscript{12} as of successive opened-constructs-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} superseding <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}—as-of–‘nondescript/ignorable–void\textsuperscript{97}—with-regards-to-prospective-apriorising-implications>) and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} exercise we can’t as of soundness-or-ontological-good-faith/authenticity\textsuperscript{68} exculpate ourselves to then pretend ours is the registry-worldview/dimension \textsuperscript{83}reference-of-thought that is non-transcendable as of our
<amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, when the insight of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17} avails, and so as the conflatedness\textsuperscript{12} upholding prospective coherence/contiguity of ontology’s-directedness-as-Being. This further explains why there is need for corresponding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{55} with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be ‘thought through and effectively conceptualised’ with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{86}–in–singularisation-as-veridical-epistemic-determinism\textsuperscript{21} \textsuperscript{<amplituding/formative–epistemicity>}causality–as-to-projective-totalitative–implications,–for-explicating–ontological-contiguity\textsuperscript{44}’ is subject to epistemic-decadence as of beyond-the-consciousness-awareness–teleology–\textsuperscript{<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}}. Such ‘ontological statistical-exception’ of intemporality\textsuperscript{51}/longness as of ontology’s-directedness-as-Being permeates all existential processes including life itself. This explains why dimensionality-of-sublimating\textsuperscript{24} \textsuperscript{<amplituding/formative>}supererogatory–de-mentativenss/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition behind the ‘inventing’ of prior institutionalisation as of ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of—meaningfulness-and—teleology on <amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology) as of uninstitutionalised-threshold failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say 19th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and—teleology in sophist/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory—de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental—
enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening\textsuperscript{52} as of relatively profound and complete axiomatic-constructs/\textsuperscript{83}reference-of-thought in ontological-contiguity of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human\textsuperscript{amplitudes/formative–epistemicity}>totalising-purview-of-construal’ or \textsuperscript{amplitudes/formative–epistemicity}>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/\textsuperscript{83}reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}<-shallow-
\textsuperscript{96}supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, as of the very same <amplitudes/formative–epistemicity>
epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening\textsuperscript{62} of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative \textsuperscript{66}ontological-contiguity. The notion of axiomatic-construct in \textsuperscript{66}ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in \textsuperscript{66}ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its \textsuperscript{66}ontological-contiguity. \textsuperscript{66}ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/\textsuperscript{83}reference-of-thought of construal; which for instance renders the idea of general relativity in relatively \textsuperscript{66}ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–<shallow–\textsuperscript{96}supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–<shallow–\textsuperscript{96}supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. Firstly, this has to do with the successive institutionalisations reference-of-thought—devolving—teleological-de-mentating/structuring/paradigming—of-meaningfulness prospective relative-ontological-completeness\textsuperscript{87}—of-reference-of-thought due to human limited-mentation-capacity of projection-or-anticipation in grasping the ‘inherent centered—epistemic-totalisation-as-existence’. For instance, the successive registry-worldviews/dimensions institutionalisations conceptualisation of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} have arisen as secondnatured constructs that have substituted for their uninstitutionalised-threshold\textsuperscript{182} free-for-all \langle amplituding/formative⟩ wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}–as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications⟩ framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating/supererogatory–de-mentativity practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling framework than as of an dimensionality-of-sublimating\textsuperscript{24}—⟨amplituding/formative⟩ supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ‘direct convincing’ at individuals-level underlying deferring to institutional and formal meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of the need for profoundness and rigour that doesn’t avail in ordinary thought for transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-^69^teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness^88^-of-^83^reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness^88^-of-^83^reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the \(<\text{amplituding/formative–epistemicity}>\text{totalising~self-referringencing-syncretising/circularity/interiorising/akrasiatic-drag}^33\) of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness^87^-of-^83^reference-of-thought conflatedness^12 which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-^69^teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-^69^teleology, with transcendence-and-sublimity/sublimation/supererogatory—de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then \(^66\text{ontological-contiguity—of-the-human-institutionalisation-process}\) is an empirical fact,
and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory-de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism\textsuperscript{75} as of human \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{33} as social universal-transparency\textsuperscript{184}. (transparency-of-totalising-entailing,-as-to-entailing–\textit{<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}\textsuperscript{87}) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–asso-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very
own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of meaningfulness-and-teleology\textsuperscript{55} with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{55} within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology\textsuperscript{55} given their supposedly coherent ontological-commitment\textsuperscript{65} as of more profound ontological-
primemovers-totalitative-framework\textsuperscript{72} validation as to existence-potency–sublimating–nascence,−disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,−in-superrerogatory–epistemic-conflatedness\textsuperscript{12}, as re-originary–as-unenframed/unbeholdening/outlier-conceptualisation {(imbued-postconverging/dialectical-thinking\textsuperscript{28} ‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12}’-of-notional–deprocrypticism\textsuperscript{17}-prospective-sublimation)}\textsuperscript{90}, that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism\textsuperscript{75} by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing\textsuperscript{15} nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment\textsuperscript{65} is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-\textsuperscript{99}teleology−<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus
seem from within just one human generation perspective that the underlying human metaphoricity\textsuperscript{56} for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity\textsuperscript{56} as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency\textsuperscript{104}, (transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness\textsuperscript{87}) about such metaphoricity\textsuperscript{56} instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity\textsuperscript{56}, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\textsuperscript{65} that is subject to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confalatedness\textsuperscript{12} validatory ontological-prime movers-totalitative-framework\textsuperscript{72}. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment\textsuperscript{65} threshold of a social-setup meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} allows for the possibility for prospective metaphoricity\textsuperscript{56} to reconstrue-and-redefine the social-setup meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. Such prospective metaphoricity\textsuperscript{56} possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} needs this supposedly coherent ontological-commitment\textsuperscript{65} in other to affirm itself over any spontaneously arising disruptive meaningfulness-
and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness epistemic/notional–projective-perspective of relative-ontological-completeness of reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism
meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>} means that it doesn’t necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–‘notionally–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency–sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflicatedness to supersede human temporality/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>}), as of
formalisation-transference for institutionalisation and thus subsequent social percolation-channelling, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond the consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophisticated barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and- teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his

Likewise, this author’s critique of the spurious institutional-being-and-craft muddlement of our positivism–procrypticism\textsuperscript{88} with respect to its dementative/structural/paradigmatic implicated undermining of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

As of the conflatedness\textsuperscript{12} of notional—notional-deprocrypticism\textsuperscript{17} construal, what underlies the notion of human existential-extrication-as-of-existential-unthought is the idea that human existence is as of ‘human existential-extricating projection-or-anticipation about existence/existential-possibilities as of human limited-mentation-capacity construing \textsuperscript{83}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated \textsuperscript{83}reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology\textsuperscript{55} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue’, and transcendentally-complemented by ‘human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality projection-or-anticipation of this human prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought as of human existential-unthought’, and thus enabling an epistemic/notional possibility of correspondence of human implied meaningfulness-and-teleology\textsuperscript{55} with the achievement of
singularisation/epistemic-immanence/veridical-epistemic-determinism as of prospective notional–deprocrypticism\textsuperscript{17} ‘inherent centered–epistemic-totalisation-as-existence’. It is those elements of an epistemic/notional possibility of correspondence, as of the <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and onto, that together effectively make human transcendence-and-sublimity/sublimation/supererogatory–dementativity and the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} possible given that it immanently enables the possibility of successive human prospective relative-ontological-completeness\textsuperscript{87}.of-\textsuperscript{83}reference-of-thought as of the successive registry-worldviews/dimensions institutionalisations. In other words, it is human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that ultimately ‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its uninstitutionalised-threshold\textsuperscript{102} for the possibility of a correspondence between human limited-mentation-capacity and the ‘inherent centered–epistemic-totalisation-as-existence’, as of Being orientation of pursuing-and-attaining ontological-completeness-of-\textsuperscript{83}reference-of-thought. It is only such a conflatedness\textsuperscript{12} perspective as of notional–notional–deprocrypticism\textsuperscript{17} that can articulate a conceptualisation of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} ontological-performance\textsuperscript{71}–\textless including-virtue-as-ontology\textgreater as of a notional–correspondence to existence/existential-possibilities, thus avoiding \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} misconstrual as of \textsuperscript{13}constitutedness. Insightfully with respect to human temporality\textsuperscript{98}/shortness including postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} and as reflected by psychopathy and social psychopathy in our positivism–procrypticism\textsuperscript{89}, the conflatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} points out that given human limited-mentation-capacity its \textsuperscript{83}reference-of-thought—devolving-

by the various temporalities in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation—preconverging/dementing–apriorising-psychologism at its uninstitutionalised-threshold. This latter is only undermined driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of prospective human limited-mentation-capacity prospective relative-ontological-completeness-of-

Again, the latter institutionalisation’s meaningfulness-and-<amplituding/formative>teleology ontological-performance-<including-virtue-as-ontology> is equally vouched by transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality at its given uninstitutionalised-threshold, as its own reference-of-thought–categorical-imperatives/axioms/registry-<amplituding/formative>teleology can also be denaturing as of beyond-the-consciousness-awareness-<amplituding/formative>teleology–<in-existential-extrication-as-of-existential-unthought> as of their <amplituding/formative>wooden-language-(imbued—temporal—mere-

\textsuperscript{83} reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation, given the inherently confounding ontological-veridicality of human potent beyond-the-consciousness-awareness\textsuperscript{99}teleology<-in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. Broadly speaking thus, the <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating–ontological-contiguity\textsuperscript{44} of prospective relative-ontological-completeness\textsuperscript{87} of \textsuperscript{83} reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of \textsuperscript{83} reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ as in effect as of conflatedness\textsuperscript{12} this simply wrongly elevates temporal/shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} mental-dispositions teleologically-degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{102} and wrongly degrades the intemporal/longness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality denaturing\textsuperscript{15} of \textsuperscript{83} reference-of-thought–categorical-imperatives/axioms/registry-
\textsuperscript{99}teleology\textsuperscript{8} beyond-the-consciousness-awareness\textsuperscript{99}teleology<-in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} while the latter is upholding \textsuperscript{83} reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of \textsuperscript{83} reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-
\textsuperscript{83} reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-
implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness in tempora/longness entailng the uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of tempora/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medicinalism, and prospectively procrypticism—or—disjointedness-as-of-reference-of-thought with intempora/longness rather as respectively in base-institutionalisation, universalisation, positivm and prospectively deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of conflatedness actually construes of more profound reference-of-thought—categorical-imperatives/axioms registry—teleology that override the prior reference-of-thought—categorical-imperatives/axioms/registry—teleology as failing to uphold intemporal-preservation-entropy—or-contiguity—or—ontological-preservation’, and so as of differing references-of-thought in transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing ontological unintelligibility. neuterisation of analysis as
appreciate the metaphysics-of-absence insight about such a deneuterising\textsuperscript{16} storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a \textsubscript{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} to positivistic/rational-empiricism meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed \textsubscript{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold\textsuperscript{102} of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrypticism\textsuperscript{88} mental-disposition is construed in deneuterising\textsuperscript{16} from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} perspective ‘as not self-effacing as of its ontologically-flawed \textsubscript{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold\textsuperscript{102} of its procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{88} and the prospective institutionalisation of deprocrypticism\textsuperscript{17}’. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold\textsuperscript{102} and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising\textsuperscript{57} mental-reflex that by its
<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness as of notional–notional–deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness teleology-in-existential-extrication-as-of-existential-unthought. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historiality/ontological-eventfulness/ontological-aesthetic-tracing of conflatedness as of notional–deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a~meaningfulness-and teleology-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold and-its-assorted-and-conjugated-temporal~meaningfulness-and teleology such that transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity is always perceived as unnatural when, in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The implications of such human mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied prior institutionalisation ‘projected reflex of entailing–totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The

This operantly defines procrypticism–or–disjointedness-as-of\textsuperscript{83} reference-of-thought\textsuperscript{88} as beyond just the construal of new supposedly intemporal \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry\textsuperscript{99} teleology\textsuperscript{8} of the prospective institutionalisation to preempt the temporally denaturing\textsuperscript{15} \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry\textsuperscript{99} teleology\textsuperscript{8} of the prior institutionalisation, but rather the deneuterising\textsuperscript{16} construal of the very ‘limited-mentation-capacity as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions–existentialism-form-factor as the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-6 constraining dynamism’ behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place; conceptualised henceforth as the very reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the notional–deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional–deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-6 is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human
phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation and temporal/shortness-of-register-of-meaningfulness-and-teleology individuations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance,<including-virtue-as-ontology>. Ultimately, the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> given its psychoanalytic-unshackling as of prospective deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought–categorical-imperatives/axioms/registry but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness of Being as implied as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and—teleology\(^{55}\) mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) temporal mental-dispositions as of beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-unthought—\(^{6}\) are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the giveninstitutionalisation’s uninstitutionalised-threshold\(^{82}\) in temporal/shortness-of-register-of—meaningfulness-and—teleology\(^{55}\) terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the \(^{66}\)ontological-contiguity—of-the-human-institutionalisation-process\(^{67}\) arises exactly to ensure deferential-formalisation-transference secondnaturings of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness\(^{88}\)-induced—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow—\(^{96}\)supererogation—

It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/\textsuperscript{83}reference-of-thought into a positivistic mindset/\textsuperscript{83}reference-of-thought that is ontologically-speaking to be construed as the dementative/structural/paradigmatic resolution of the vices-and-impediments\textsuperscript{105} arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism\textsuperscript{88} worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional–deprocrypticism\textsuperscript{17} worldview). We can appreciate such metaphysics-of-absence insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as
so-being-as-of-existential-reality induced intemporal/longness-of-register-of-meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding-formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required
for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{55}teleology\textsuperscript{55} with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments\textsuperscript{385} of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{55}teleology\textsuperscript{55}, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor wherein institutionalising \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8} are always subject at uninstitutionalised-threshold\textsuperscript{182} to their denaturing\textsuperscript{15} as of their \textless amplituding/formative\textgreater wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-\textsuperscript{43}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}), as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Hence Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation wherein the abstract intemporal/longness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the
requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of 

appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social as improper and unqualified. This was to avoid a circularity of undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and

99teleology55. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by
‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications⟩ but rather ontological-pertinence, and the point in reflecting holographically-⟨conjugatively-and-transfusively⟩ the 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as knowledge-led is to harness ontological-pertinence and not ⟨amplituding/formative⟩wooden-language-(imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-⁹⁹teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications⟩, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalititative-framework\textsuperscript{72}-overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance\textsuperscript{72}-⟨including-virtue-as-ontology⟩-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-⁹⁹teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-⁹⁹teleology\textsuperscript{55} with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency\textsuperscript{284}-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–
epistemicity>totalising~in-relative-ontological-completeness”). This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency (transparency-of-totalising-entailing-as-to-entailing<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness)’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification singularisation-as-veridical-epistemic-determinism causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of various pertinent social manifestations: –wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of
temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory de-mentativity in formal institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory de-mentativity as to existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-＜amplituding/formative–epistemicity＞totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to ＜amplituding/formative＞wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-referance-of-thought–categorical-imperatives/axioms/registry—teletology),–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and—teletology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-
so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective
‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the
very paradox of human <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} means that the human sovereign psyche is
one that is geared to construe of ‘presence as all-encompassing meaningfulness-and-
teleology\textsuperscript{55} value construct’ such that the transcendental implications of knowledge by mental-reflex are
construed as of incrementalism\textsuperscript{59}—enframed-conceptualisation to presence, rather than as of
<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of presence construed as
of prospective relative \textsuperscript{66}ontological-contiguity over prior/transcended/superseded relative

aestheticised–preconverging/dementing\textsuperscript{15}—qualia-schema>. However despite this knowledge and
sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-
to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55},
the insight about human <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as of self-referencing and syncretising-
effecting intemporal implications means that the requisite intemporal/longness-of-register-of–
meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} psychoanalytic-unshackling positive-opportunism\textsuperscript{75} can
crossgenerationally be induced for Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}
despite the inherent circular distractiveness of temporality\textsuperscript{98}, and ultimately so as enabled by
‘social universal-transparency\textsuperscript{104}—(transparency-of-totalising-entailing, as-to-entailing–
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})’ . The
above analysis point out that transcendental knowledge in particular involves more than just
knowledge as a grounded construct but as well an understanding of how such knowledge is
instigated in society as part and parcel of the knowledge construed as organic-knowledge; given
that the social-construct-as-society is not necessarily of immediate receptivity and is of a
suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—de-
mentativity implications that are not priorly as of grounded constructs of knowledge. This will
explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-
99teleology\textsuperscript{55} constructs of knowledge wasn’t enough in undermining medieval mental-
dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots,
etc., were not vague actions but informed by an intuition about the nature of human society and
how it develops given the inherently untransformable human-subpotency—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions—existentialism-form-factor as of human limited-mentation-
capacity. Thus in reflecting holographically-\langle conjugatively-and-transfusively\rangle the \textsuperscript{66}ontological-
contiguity—of-the-human-institutionalisation-process\textsuperscript{67}, crucially the issue of ontological-
veracity is only half the problem of knowledge, with the other half being the grasp of the
underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency\textsuperscript{104}—
\langle transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–
epistemicity⟩totalising–in-relative-ontological-completeness\textsuperscript{87}⟩’. As it is the latter that induces
that social positive-opportunism\textsuperscript{75} for deferential-formalisation-transference and institutional
percolation-channelling, as of social deferential attribution of power for the beneficial effect of
knowledge as empowering various institutional domains. Further, as implying the superseding of
entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in
destabilising the underlying existential \textsuperscript{83}reference-of-thought, transcendental knowledge is of a
circular but consistent exercise of \langle amplituding/formative–epistemicity⟩totalising–renewing-
realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it
is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-
discontiguity<sup>62</sup>-<shallow>-supererogation-of-mentally-aestheticised-preconverging/dementing<sup>19</sup>-qualia-schema> reference-of-thought and introducing the prospective<sup>66</sup>ontological-contiguity reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding-/formative–epistemicity>totalising–purview-of-construal’. Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective<sup>66</sup>ontological-contiguity is more than just a reification<sup>86</sup> gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring<as-to-postconverging-or-dialectical-thinking<sup>20</sup>-apriorising-psychologism> but extends to encompass a de-assertion/preconverging-or-dementing<sup>19</sup>-apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring<as-to-preconverging-or-dementing<sup>19</sup>-apriorising-psychologism> of ‘traditional classical mechanics axiomatic-construct’, at the threshold where it supersedes ‘traditional classical mechanics axiomatic-construct’, as being of notional-discontiguity/epistemic-discontiguity<sup>62</sup>-<shallow>-supererogation-of-mentally-aestheticised-preconverging/dementing<sup>19</sup>-qualia-schema> when analysed as of ‘traditional classical mechanics axiomatic-construct’, and so with regards to ‘the very same physics <amplituding-/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’.

The ontological veridicality here is that such ‘double-gesture reification<sup>86</sup> as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring<as-to-postconverging-or-dialectical-thinking<sup>20</sup>-apriorising-psychologism> together with the prior axiomatic de-assertion/preconverging-or-dementing<sup>19</sup>-apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring<as-to-

reification<sup>86</sup> gesturing of axiomatic-constructs as of the very same <formative–epistemicity>totalising–devolved—purview/domain-of-

registry-worldview/dimension <reference-of-thought as of the positivistic/rational-empiricism
meaningfulness-and-teleology<sup>55</sup> mindset as well as its distance rather with respect to physical
reality, such a transcending reification<sup>86</sup> gesturing as of the grandest axiomatic-constructs having
to do with consciousness with regards to the ‘very <reference-of-thought itself’ wherein the
prospective <ontological-contiguity<sup>33</sup>reference-of-thought as deprocrypticism—or-
preempting—disjointedness-as-of<sup>33</sup>reference-of-thought implies a transcending reification<sup>86</sup>

<reference-of-thought de-asserts/denies our positivism–procrypticism<sup>88</sup> registry-
worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation\textsuperscript{58} of notional–deprocrypticism\textsuperscript{17} by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold–(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–\textless{}including-virtue-as-ontology\textgreater{} with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint–imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at uninstitutionalised-threshold\textsuperscript{102} that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold\textsuperscript{102} by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness\textsuperscript{87}–of-reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold\textsuperscript{102} as of prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in \textsuperscript{66}ontological-contiguity and ‘traditional classical mechanics axiomatic-construct’ of notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–\textless{}shallow-supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema\textgreater{} but for the former’s enlightening the latter’s undefined-or-undecidable-threshold-of-ontological-veridicality. This insight reflects the reality of transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically-
teleology, wherein uninstitutionalised-threshold mental-reflexes of
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in their incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existentia-contextualising-contiguity tend to perpetuate the representation of prospective institutionalisation as nondescript/ignoreable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) in an ontologically-flawed dereification gesturing of neuterisation, rather than maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought implied as of prospective institutionalisation’s deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which is ‘ontologically flawed and wanting’ but rather is as of a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation intemporal-projection transcendental-enabling/sublimating/supererogatory-de-mentativity for prospective institutionalisation relative to such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism

Such a temporal/shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in...
the former, such that by and large it is mostly a crossgenerational transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity that fully brings about the adaptation of the
induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-
as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a
circular predisposition arises due to human temporal-dispositions as of Being underdevelopment
that tends to lead to the beyond-the-consciousness-awareness teleology denaturing denaturing of knowledge as mechanical-knowledge
and undermining organic-knowledge; wherein knowledge is related to as of existential-
extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-
opportunism engenders at best’ with little or no cognisance that there is an attitude/mental-
disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’
that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine
knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the
articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-
of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete
articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In
other words, we can’t seriously contemplate a profound positivistic knowledge engagement with
a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the
appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as
otherwise all such positivism/rational-empiricism articulations and explaining will be
reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter
teleologically-degraded prior relative-ontological-incompleteness

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring—
for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation
dementating/structuring/paradigming and not temporal extricatory
dementating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t
have any inherent meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as we can appreciate from a
positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-
setup as of the latter’s attitude/mental-disposition/care–and–episteme\textsuperscript{5} underlying its
meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} thus requiring the latter’s prior apriorising-teleological-
elevation-in-\textsuperscript{66}ontological-contiguity to a positivism/rational-empiricism attitude/mental-
disposition/care–and–episteme\textsuperscript{5} ‘for the notion of the mutual contemplation of Newtonian
physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–
episteme\textsuperscript{5} with respect to human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, as it is what underlies
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given
registry-worldview’s/dimension’s institutionalisation \textsuperscript{83}reference-of-thought. attitude/mental-
disposition/care–and–episteme\textsuperscript{5} as such carries a registry-worldview’s/dimension’s ‘underlying
sense of end-\textsuperscript{99}teleology/end-purposefulness’ and thereof its operative-construct and implicative-
construct with regards to meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. It further implies a ‘the human
toddling potential’ for living-as-of-human-personality-developing, social-projection-
institutional-orientations and Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}; with
the ‘human toddling potential’ implying the human potential to develop from a relative-
ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–
episteme\textsuperscript{5} with respect to living-as-of-human-personality-developing, social-projection-
institutional-orientations and Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. This
‘human toddling potential’ is what enables notional-discontiguity/epistemic-discontiguity\textsuperscript{62}-

For instance, with respect to coming across and living say in an early hunter-gather society with
its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffective,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101}’ as of the attitude/mental-disposition/care–and–episteme\textsuperscript{5} of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textlangle in-existential-extrication-as-of-existent-unthought\textrangle\textsuperscript{6} as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given \textsuperscript{83}reference-of-thought, say in our positivism/rational-empiricism \textsuperscript{83}reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme\textsuperscript{5}, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme\textsuperscript{5} with living-as-of-human-personality-developing. attitude/mental-disposition/care–and–episteme\textsuperscript{5} as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme\textsuperscript{5} as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor,-in-overcoming–‘notionally–collateralising-beholdening-protohumanity’–to–‘attain-sublimating-humanity’–as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textlangle amplituding/formative–epistemicity\textrangle-totalising–renewing-realisation/re-perception/re-thought,-in-superrerogatory–epistemic-conflatedness\textsuperscript{12} to supersede human temporality\textsuperscript{98}/shortness \textlangle amplituding/formative\textrangle wooden-language-{imbued—averaging-of-thought-\textlangle as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and,\textsuperscript{99}teleology\textsuperscript{55} as-of-...

With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme\textsuperscript{5} that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} is construed as the more profound attitude/mental-disposition/care–and–episteme\textsuperscript{5} for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme\textsuperscript{5} of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme\textsuperscript{5} dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}’, for achieving transcendence-and-sublimity/sublimation/supererogatory–de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in
the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care—and—episteme\textsuperscript{5} dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in—\textsuperscript{92}singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating—\textsuperscript{66}ontological-contiguity\textsuperscript{44} with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—\textsuperscript{99}teleology, beyond-the-consciousness-awareness—\textsuperscript{99}teleology—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, implying specifically a nonextricatory-existential-preempting-of-existential-unthought attitude/mental-disposition/care—and—episteme\textsuperscript{4} as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}-of—reference-of-thought-by-reification\textsuperscript{86}/contemplative-distension thus transcendentally enabling the successive registry-worldview’s/dimension’s ontological-possibilities construed as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}—for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-mentating/structuring/paradigmimg; with such dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}-of—reference-of-thought-by-reification\textsuperscript{86}/contemplative-distension construed as rejection of existential-
extrication-as-of-existential-unthought attitude/mental-disposition/care–and–episteme\textsuperscript{5} which will imply a stalling in reflecting holographically-\textless conjugatively-and-transfusively\textgreater{} the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} at the given registry-worldview/dimension, and so-construed as temporal extricatory de-mentating/structuring/paradigming. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme\textsuperscript{5} contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme\textsuperscript{5} can pertinently be defined as the ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguating-apriorising/axiomatising/referencing\textsuperscript{101}’ inducing a given specific nonpresencing\textsuperscript{69}-\textless perspective–ontological-normalcy/postconvergence\textgreater{} outcome with regards to prospective relative-ontological-completeness\textsuperscript{87}-or-incompleteness-of-\textsuperscript{83}reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} associated with that attitude/mental-disposition/care–and–episteme\textsuperscript{5}. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. shat leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity—<profound-supererogation-of-mentally—
aestheticised–postconverging/dialectical-thinking\textsuperscript{28}–qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\textsuperscript{62}–shallow\textsuperscript{96}supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> given the latter’s flawed dementating/structuring/paradigming as of prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating\textsuperscript{supererogatory}–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{101} exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework\textsuperscript{72}’, and so beyond institutional-being-and-craft and social-aggregation-enabling <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology-as-of–'nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>). Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} denaturing\textsuperscript{15} of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating\textsuperscript{supererogatory}–de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring\textsuperscript{54}–for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation dementating/structuring/paradigming to overlook them and imply intellectual-and-moral-

to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness teleology—in-existential-extrication-as-of-existential-unthought prior relative-ontological-incompleteness of reference-of-thought construes of ‘implied grounding of meaningfulness-and teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness of reference-of-thought construes of ‘implied grounding of meaningfulness-and teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing perspective—ontological-normalcy/postconvergence. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care—and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework
of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme\textsuperscript{5} superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme\textsuperscript{5} but then at its uninstitutionalised-threshold\textsuperscript{102} (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} but then at its uninstitutionalised-threshold\textsuperscript{102} (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} Scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/apriorising/apriorising/apriorising/apriorising/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument\textsuperscript{3}, as so reflected in their mutually beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. In addition, the
disruptive uninstitutionalised-threshold\textsuperscript{102} contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsubscript{<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}} institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} attitude/mental-disposition/care–and–episteme\textsuperscript{5}. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflatedness\textsuperscript{12} of deprocripticism–or–preempting—disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{17} protensive-consciousness? ontological-bad-faith/inauthenticity\textsuperscript{63} as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold\textsuperscript{102} of the possibility of intellectually induced social universal-transparency\textsuperscript{184}–(transparency-of-totalising-entailing,-as-to-entailing-\textsubscript{<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}}); for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textsubscript{<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}} undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in\textsuperscript{66}ontological-contiguity of social \textsubscript{<amplituding/formative>wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}–as-of–‘nondescript/ignorable–void\textsuperscript{59}–with-regards-to-prospective-apriorising-implications>\textsuperscript{)}} and untransvaluated–temporal-intemporality\textsuperscript{51} social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity\textsuperscript{63} contentions; by its deflating of the conception of ontologically-veridical meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of human mortals contentions in transversality-of-affirmative-and-unaffirmative,-disambiguated–
apriorising/axiomatising/referencing, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresencing.<perspective–ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faih rather advancing such an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate <amplituding/formative>wooden-language—(imbued—
averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications⟩ and untransvaluated–temporal-intemporality attitude/mental-disposition/care–and–episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic pedantry/mandarinism that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory–de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturung for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of
the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness\(^8\), thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness\(^8\), ontological-bad-faith/inauthenticity\(^6\) scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness\(^8\) <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for– explicating–ontological-contiguity\(^4\) and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness\(^8\)-by-reification\(^8\)/contemplative-distension\(^2\), a perfidious ontological-bad-faith/inauthenticity\(^6\) scepticism involves eliciting a sense of immediacy and temporality\(^9\)/shortness as of <amplituding/formative>wooden-language-⟨imbued—averaging–thought→<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and–teleology\(^5\)-as-of–‘nondescript/ignorable–void\(^5\)–with-regards-to-prospective-apriorising-implications⟩⟩ and untransvaluated–temporal-intemporality\(^5\) social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness\(^8\)-by-reification\(^8\)/contemplative-distension\(^2\) intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness\(^8\) as of preceding intemporal dispensing-with-
immediacy-for-relative-ontological-completeness\textsuperscript{87} by reification\textsuperscript{86} and contemplative-distension\textsuperscript{26}, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\textsuperscript{87}. ontological-bad-faith/inauthenticity\textsuperscript{63} ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-\textsuperscript{13} constitutedness\textsuperscript{79} but of a poor conception outside the prospective relative-ontological-completeness\textsuperscript{87} behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-\textsuperscript{99} teleology\textsuperscript{55}, are but denaturing\textsuperscript{15} and down the line equally undermines prospective relative-ontological-completeness\textsuperscript{87} for the further emancipation of human social practices. Thus the successive reasoning-from-results/afterthought outcomes as the logocentric constructs of the successive registry-worldviews/dimensions arrive at their successive \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-

But then, ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ can always be ‘reinvigorated as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought overriding prior reasoning-from-results/afterthought now in prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought at such uninstitutionalised-threshold\textsuperscript{102}; and so, in a renewing apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument instigation as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme\textsuperscript{5} implicitation for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness.
and-teleology, which is construed as more fully articulating the notion of ontological-good-faith/authenticity. This practical conceptualisation of ontological-good-faith/authenticity as of its method is further critical because however well elicited, even reasoning-from-results/afterthought constructs still need their good ontological-performance in practice, and given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, there is always room for human denaturing temporality of such reasoning-from-results/afterthought constructs induced by reasoning-through/messianic-reasoning; pointing to the fact that ultimately the underlying ‘sanctity of knowledge’ arises from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of such ontological-good-faith/authenticity based intemporal organic-knowledge that is wary of the denaturing that can arise as of temporal mechanical-knowledge that ‘dispenses with the originary/as-of-event spirit of reasoning-through/messianic-reasoning’ and adopts a mere pedantic relating with the reference-of-thought–categorical-imperatives/axioms/registry,-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Finally as a further analysis, Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is by a rather surreptitious manner undermined by what this author qualifies as ‘subterfuges of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’ which are rather as of ideology; ideology in the sense that these are ‘commitments’ ready to ‘forego the pre-eminence of knowledge construed as of its ontological-veracity’ which is the only assurance of optimum construct of knowledge for human emancipation. Ideology as such takes the form of either ‘ideology denaturing\textsuperscript{15}’ of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} or ‘reactive fear of ideology denaturing\textsuperscript{15}’ of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}. In both instances what is lost is Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} itself, such that besides temporal/shortness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} interests undermining natural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, natural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is perceived as a risk that will foster ‘ideology denaturing\textsuperscript{15}’ of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}.
or ‘reactive fear of ideology denaturing\textsuperscript{25} of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} itself losing out. These subterfuges are behind the awkward, unnatural and clobbered nature of human development for the past two centuries as civilisation is construed and developed in ‘an undertone reaction/anticipation of threat’ rather than natural as of human communion. Thus ‘subterfuges of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’ arise as of the suboptimality of human intemporality\textsuperscript{53}/longness which suffers from human apprehensiveness of humans, thus undermining the notion of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{89}—unenframed-conceptualisation de-mentating/structuring/paradigmning. This underlying human mental-disposition arises as of the successive human as trepidatious/warped/preclusive/occlusive-consciousness in neuterising\textsuperscript{57}; as such neuterising\textsuperscript{57} is the outcrop of human limited-mentation-capacity. In other words neuterising\textsuperscript{57} can effectively be ‘decomposed-as-from-a-conflatedness\textsuperscript{12}-perspective into the ontologically-veridical underlying limited-mentation-capacity manifestation’ as of social-stake-contention-or-confliction <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and so construed from the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness\textsuperscript{12} of notional–notional–deprocrypticism\textsuperscript{17} deneuterising\textsuperscript{16}—referentialism’. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality\textsuperscript{36} with recurrent-utter-uninstitutionalisation) circumscribing-as-‘epistemic-totality\textsuperscript{36}-or-delineating-as-‘epistemic-totality\textsuperscript{36}’ existential–epistemic-totalisation-scheme-of–meaningfulness-and-99\textsuperscript{teleology}\textsuperscript{55} speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract \textsuperscript{83}reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{95}’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract \textsuperscript{83}reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional–notional–deprocrypticism\textsuperscript{17} deneuterising\textsuperscript{16}, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-\textless as-to-postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism\textgreater and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-\textless as-to-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism\textgreater stranding dialectics. For instance, reflecting in an early hunter-gatherer society the ‘candid existential expressiveness’ of how one is suffering from bad omen on the backdrop of its ‘recurrent-utter-uninstitutionalisation totalising/circumscribing/delineating <amplituding/formative–epistemicity>\textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}—différance/internal-dialectics/difference-deferral’ construed as

The uninstitutionalised-threshold\textsuperscript{182} as such, as of the \textsuperscript{83}reference-of-thought beyond-the-consciousness-awareness,\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, is the basis for determining both intemporal as well as temporal ontological-performance\textsuperscript{71}<including-virtue-as-ontology> specifically as of postlogism\textsuperscript{77}-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\textsuperscript{49}, so-disambiguated as of \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84} ontological-performance\textsuperscript{71}<including-virtue-as-ontology>. The notion of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} also highlights theoretically why the Husserlian epoché or bracketing method construed as eidetic reduction is ontologically-flawed by its \textsuperscript{13} constitutedness as it naively imply circumscribing-as—‘epistemic-totality\textsuperscript{36}/delineating-as—‘epistemic-totality\textsuperscript{36}’ meaningfulness-and—teleology\textsuperscript{99} for its essence in presence, rather than the fact that presence reference-of-thought as ‘metaphysics-of-presence is de-mentatively/structurally/paradigmatically an ontologically-flawed bracketing or epoché as of ontological-normalcy/postconvergence, and is representing metaphysics-of-absence implications as nondescript/ignorable–void\textsuperscript{59} (actually speaking of akrasiatic-drag-denatured—and-preconverging-or-dementing\textsuperscript{19}—narratives)’ when it comes to presence uninstitutionalised-threshold\textsuperscript{102} reference-of-thought in its relative notional-discontiguity/epistemic-discontiguity\textsuperscript{62}—<shallow—supererogation-of-mentally-aestheticised—preconverging/dementing\textsuperscript{19}–qualia-schema>/relative-ontological-incompleteness\textsuperscript{88}—of—reference-of-thought for meaningfulness-and-ontology ontological-performance\textsuperscript{71}—<including-virtue-as-ontology>, as well as ignoring prospective institutionalisation implications construed as of ontological-normalcy/postconvergence. Such an eidetic reduction is circularly constraint in <amplituding/formative–epistemicity> totalising—self—

For instance, such epistemic-break/epistemic-resetting associated with the overall \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} necessarily explains the ‘mutually transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\textsuperscript{103} unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-99teleology\textsuperscript{55} and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory-dementativity as of\textsuperscript{83}reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity\textsuperscript{68}-of-\textsuperscript{83}reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{63}-of-\textsuperscript{83}reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\textsuperscript{384}-(transparency-of-totalising-entailing,-as-to-entailing-\textlangle\textsuperscript{amplitudining/formative–epistemicity}\textrangle-totalising–in-relative-ontological-completeness\textsuperscript{87}), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and,\textsuperscript{99}teleology\textsuperscript{55} with regards

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness of reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ with respect to social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness); and so more than just as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ across the entire social spectrum as of notional~episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness teleology undermine the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology ontological-performance including-virtue-as-ontology turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance including-virtue-as-ontology, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived
from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality\textsuperscript{98}/shortness or intemporality\textsuperscript{51}; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} that prospectively construes of successive frameworks of \textsuperscript{83}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of implicited-and-explicated \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry–\textsuperscript{99}teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-

Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought social universal-transparency\textsuperscript{104}. (transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness\textsuperscript{87}) that makes it untenable for non-positivism/medieval implied temporality\textsuperscript{98}. Likewise, prospectively it is a notional–deprocrypticism\textsuperscript{17} registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought social universal-transparency\textsuperscript{104}. (transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness\textsuperscript{87}) that can render it untenable for procrypticism\textsuperscript{80} temporal mental-dispositions to elicit procrypticism–or–disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{80} implied temporality\textsuperscript{98}. Thus etiologyisation/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as overcoming temporality\textsuperscript{98}/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold\textsuperscript{102} mental-dispositions imply that at the uninstitutionalised-threshold\textsuperscript{102} prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory-de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating\textsuperscript{24}–\langle amplituding/formative\rangle supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{32}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise engaging with intemporal-as-ontological meaningfulness-and-
Such prospective intemporal-as-ontological meaningfulness-and-temporality is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-temporality as of the said uninstitutionalised-threshold. This point out that maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of-meaningfulness-and-temporality are as of a projected-or-anticipated conflatedness of social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-) for institutional and formal deferential-formalisation-transference as of percolation-channelling. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-temporality is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating—supererogatory-dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal deferential-formalisation-transference percolation-channelling to attain social approbation. It is such a ‘conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling to attain social approbation’ that holds together in social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-) temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-temporality is not necessarily perceived as any more pertinent for attaining social approbation than other temporal
meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocription in positivism–procription; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness-of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness-of-reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications>) in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-
accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious wooden-language- (imbued—averaging-of-thought- <as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-99 teleology55-as-of-‘nondescript/ignorable–void69’.with-regards-to-prospective-apriorising-implications>) in the non-positivism social-setup. Ultimately, such a profound phenomenological <amplituding/formative–epistemicity>totalising~conflated–meaningfulness-and-99 teleology55-as-of-notional–depocrypticism17-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing45 ontological-performance71-<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human <amplituding/formative–epistemicity>totalising~thrownness-in-existence34 (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance71-<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag33 that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi
party leaving 2 years later with hardly any critical influence on the party and is universally
condemned today. Consider as well that many an intellectual or public figure today actively or
passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere
with a corresponding social indifference and mental shut-off. These profound considerations
highlight the contemplative depth to which the social thinker needs to get to in order to truly be
engaged in a transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-
primemovers-totalitative-framework construal as implied with notional–notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human amplituding/formative–epistemicity totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human amplituding/formative–epistemicity totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71-}<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of universal projection as intemporal\textsuperscript{51}-or-longness-of-register-of-meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimes presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87} thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s \textsuperscript{13}constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility
capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-
\({99_{teleology}}\) but was caught up in the \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–thrownness-in-existence}\) (I exist therefore existence is of transcendental-enabling/sublimating/supercerogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-\({99_{teleology}}\) in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional–notional–deprocrypticism
perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-perceiving/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities.

Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a conflatedness and so construed from the perspective of <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology—as-of-notional–deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing actually ended up inducing constitutedness in striving to construe meaningfulness-and-teleology vaguely from phenomenal-abstractiveness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Put another way, consciousness as point-of-focus conflatedness\textsuperscript{32} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is ‘operative of human-subpotency as of the coherence/contiguity-of-superseding–oneness-of-ontology-as-of-inherent-existence-coherence/contiguity’, so-implied with ‘explicated axiomatic-constructs’ construed as concepts/notions and ‘implicated axiomatic-constructs’ construed as intuitions/insights/foresights, and so correspondingly as of the explicated-focusing and
implicated-coherencing/contiguity as of a supposed living-being reflection of existential-instantiations and contextualisations in forming knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue; thus explaining by this ‘explicated-focusing and implicated-coherencing/contiguity existential dynamics for producing knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’, the 13 constitutedness of the Kantian understanding of concepts and intuitions as being mutually dependent for meaningfulness and teleology articulation. In other words, 13 constitutedness tend to fallaciously imply existence-in-existence or existence-of-things-in-existence whereas conflatedness rightly implies becoming-in-existence-rather-as-subsumed-in-existence or things-becoming-in-existence-rather-as-subsumed-in-existence as of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-prime-movers-totalitative-framework causality as to projective-totalitative-implications, for explicating ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or ‘consciousness’s ontological-performance construed in amalgamation as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human-totalising-purview-of-construal’. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in 13 constitutedness as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing 13 constitutedness. Such a conflatedness\textsuperscript{12} insight as of notional~notional~deprocrypticism\textsuperscript{17} rather points out that soundness-or-ontological-good-faith/authenticity\textsuperscript{68} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> arises as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} involving the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} induced various consciousnesses up to the protensive-consciousness enabling transcendental centered–epistemic-totalisation, as of human limited-mentation-capacity-deepening\textsuperscript{52}. Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation <amplituding/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} reference-of-carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of
existential-instantiations outside any such \textsuperscript{83}\textsuperscript{reference-of-thought} determination; such \textsuperscript{83}\textsuperscript{reference-of-thought} determination being affixed rather in \textsuperscript{13}\textsuperscript{constitutedness} as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \textsuperscript{83}\textsuperscript{reference-of-thought} such as ‘non-rules—apriorising/axiomatising/referencing—psychologism, as impulsive-or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation’ not cognisant of the conflatedness\textsuperscript{12} possibility of prospective base-institutionalisation prospective relative-ontological-completeness\textsuperscript{87-of-83}\textsuperscript{reference-of-thought}, ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of base-institutionalisation—ununiversalisation’ not cognisant of the conflatedness\textsuperscript{12} possibility of prospective universalisation prospective relative-ontological-completeness\textsuperscript{87-of-83}\textsuperscript{reference-of-thought}, ‘universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of universalisation—non-positivism/medievalism’ not cognisant of the conflatedness\textsuperscript{12} possibility of prospective positivism prospective relative-ontological-completeness\textsuperscript{87-of-83}\textsuperscript{reference-of-thought}, and in our case ‘positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of positivism—procrysticism\textsuperscript{88}’ not cognisant of the conflatedness\textsuperscript{12} possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—\textsuperscript{99}teleology\textsuperscript{55} as of prospective notional—deprocrysticism\textsuperscript{17} prospective relative-ontological-completeness\textsuperscript{87-of-83}\textsuperscript{reference-of-thought}. Such that it thus construes as absolutely reflecting existence/existential-possibilities by operations of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} on the basis of that given determination \textsuperscript{83}\textsuperscript{reference-of-thought—categorical-imperatives/axioms/registry—\textsuperscript{99}teleology\textsuperscript{8} with the consequence that its
constitutedness, since it doesn’t allow for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the conflatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness of existence as of prospective relative-ontological-completeness-with-any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing-with-the-latter-only-a-bi-manifestation-of-the-reccurence,-as-psychically-recurrent as of human shallow-to-deepening—limited-mentation-capacity,—as-limited-mentation-capacity-deepening due to inherent human temporality/shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional—conflatedness of notional—notional—deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus <amplituding/formative—epistemicity>totalising—conflated—meaningfulness-and—teleology—as-of-notional—deprocrypticism—reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the ontological-performance—<including-virtue-as-ontology>, so-derived as it solipsistically constructs-and-reconstructs underlying ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-
of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework as of ontological-primemovers-totalitative-framework causality as to projective-totalitative-implications, for explicating ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and developing meaningfulness-and-teleology as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the conflatedness of existential-instantiations successions as it construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicated and implicit/intuited as of a living-being in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscores the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as of language development which is the ‘signifying mirroring’ of human meaningfulness-and-teleology. The implication here is that meaningfulness-and-teleology as of ‘existential self-referencing’ and ‘existential syncretising-effecting’ construed as corresponds to language as of its ‘underlying signifying-construct’ and its ‘metaphoricity’; in reflecting how human social-stake-contention-or-confliction induces human transcendence-as-of-full-transcendental-potential underlying knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. Consciousness, and as reflected by the signifying mirroring of meaningfulness-and-teleology that is language, is thus a point-of-focusing axiomatic reference-of-thought devolving-construal disposition for meaningfulness-and-
such that prospective meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} arises out of the adjunction to this ‘underlying \textsuperscript{amplituding/formative–epistemicity}totalising\textsuperscript{2} renewing\textsuperscript{2} realisation\textsuperscript{2} re-perception\textsuperscript{2} re-thought

Thus language effectively reflects the \textsuperscript{amplituding/formative–epistemicity}totalising\textsuperscript{-}self\textsuperscript{-}referencing\textsuperscript{-}syncretising\textsuperscript{-}circularity\textsuperscript{-}interiorising\textsuperscript{-}akrasiatic\textsuperscript{33} drag of reality of human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, as language is always a blending of the ‘underlying \textsuperscript{amplituding/formative–epistemicity}totalising\textsuperscript{2} circumscribing\textsuperscript{2} delineating

It is interesting to grasp here that a signifying-construct as signification of ‘the self\textsuperscript{-}referencing of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}’ is always \textsuperscript{amplituding/formative–epistemicity}totalising\textsuperscript{2} circumscribing\textsuperscript{2} delineating and is effectively signifying a \textsuperscript{83}reference\textsuperscript{-}of\textsuperscript{-}thought as of ‘\textsuperscript{83}reference\textsuperscript{-}of\textsuperscript{-}thought—devolving\textsuperscript{-}teleological\textsuperscript{-}dementating\textsuperscript{-}structuring\textsuperscript{-}paradigming\textsuperscript{-}of\textsuperscript{-}meaningfulness’. signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is as of a ‘coherence\textsuperscript{-}contiguity\textsuperscript{-}of\textsuperscript{-}superseding\textsuperscript{-}oneness\textsuperscript{-}of\textsuperscript{-}ontology\textsuperscript{-}implied\textsuperscript{-}as\textsuperscript{-}of\textsuperscript{-}inherent\textsuperscript{-}existence\textsuperscript{-}coherence\textsuperscript{-}contiguity\textsuperscript{-}, and so\textsuperscript{-}constructed\textsuperscript{-}as\textsuperscript{-}the\textsuperscript{-}enabler\textsuperscript{-}of\textsuperscript{-}insight\textsuperscript{-}or\textsuperscript{-}intuition\textsuperscript{-}or\textsuperscript{-}foresight\textsuperscript{-}as\textsuperscript{-}of\textsuperscript{-}embodied\textsuperscript{-}consciousness’ (so\textsuperscript{-}enabled by underlying supposedly coherent ontological\textsuperscript{-}commitment\textsuperscript{65} as of ontological\textsuperscript{-}primemovers\textsuperscript{-}totalitative\textsuperscript{-}framework\textsuperscript{72} \textsuperscript{amplituding/formative–epistemicity}causality\textsuperscript{-}as\textsuperscript{-}to\textsuperscript{-}projective\textsuperscript{-}totalitative\textsuperscript{-}implications\textsuperscript{-}, for\textsuperscript{-}explicating\textsuperscript{66} ontological\textsuperscript{-}contiguity\textsuperscript{64} and not any notion of vague innateness besides
existentially inherent human-subpotency potential to manifest as human for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality-as-to-human-totalising-purview-of-construal'; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening ad hocely produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness of-reference-of-thought when conceptualising about such an ‘underlying totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity-signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity\textsuperscript{56}-significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity\textsuperscript{56}-significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity\textsuperscript{56}-significations to which other adjunctive-metaphoricity\textsuperscript{56}-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, its adjunctive-metaphoricity\textsuperscript{56}-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity\textsuperscript{56} as its very own ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-
metaphoricity\textsuperscript{56}-significations conflatedness\textsuperscript{12} <amplituding/formative–epistemicity> causality~as-to-projective-totalitative~implications,~for-explicating\textsuperscript{66} ontological-contiguity\textsuperscript{44} mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity\textsuperscript{56}-significations conflatedness\textsuperscript{12} induced ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\textsuperscript{56}-significations in ‘significations accreting-substitutive-subsumption-as-futural-différence-freeplay\textsuperscript{2} construed here as the phenomenology of human language acquisition différence’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity\textsuperscript{56} where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an
‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding-formative-epistemic>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of
an absolute present conception usually of a privileged end-institution purpose’. metaphoricity is thus rather construed as of its overall conflatedness of full consciousness development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective rhetorical-stylistic-semantic delivery, and as such metaphoricity induces totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay, ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed
as différance in conflatedness\textsuperscript{12} associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historicity/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/ Formative-epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional–knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond neuterising reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective
should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-as-of-existential-unthought; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity–signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity–signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness of notional–notional–deprocrypticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-
freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing—or—withdrawal—or—metaphysics-of-absence—or—transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of
comparison with the implied conflatedness\textsuperscript{12} of accreting-substitutive-subsumption-as-futural-différence-freeplay\textsuperscript{2} which is truly transcendentental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology\textsuperscript{55}, and so as disambiguating presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} from nonpresencing\textsuperscript{60-}<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3}, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différence’ not doing that rather represents the presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} between presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} and nonpresencing\textsuperscript{60-}<perspective–ontological-normalcy/postconvergence> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23}), and so contradictorily as if both are of the presencing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3}. With the reality that nonpresencing\textsuperscript{60-}<perspective–ontological-normalcy/postconvergence> is wrongly-and-unsuspectingly given as of common presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79}, thus inducing a relative ontologically-flawed quasi-transcendental freeplay as nonpresencing\textsuperscript{60-}<perspective–ontological-normalcy/postconvergence> is rather in notional-discontiguity/epistemic-discontiguity\textsuperscript{62-}<shallow–\textsuperscript{96}supererogation-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema> when analysed as of presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79}. Consider in this regard ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior relative-ontological-incompleteness\(^8\) being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness\(^8\) of-axiomatic-construct-or-\(^8\) reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating meaningfulness-and-\(^9\) teleology\(^5\) of ‘the very same physics <amplituding/formative–epistemicity> totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of ‘traditional classical mechanics axiomatic-construct’ construed as presencing—absolutising-identitive-\(^1\) constitutedness\(^7\) makes the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs construed as nonpresencing\(^6\) <perspective–ontological-normalcy/postconvergence> to wrongly be of notional-contiguity/epistemic-contiguity\(^6\) <profound-\(^9\) supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking\(^2\)–qua-sigma-schema> with the ‘traditional classical mechanics axiomatic-construct’ presencing—absolutising-identitive-\(^1\) constitutedness\(^7\). Consider in this regard that the ‘Derridean quasi-transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity\(^6\) <shallow-\(^9\) supererogation-of-mentally-aestheticised–preconverging/dementing\(^1\)–qua-schema> between the two as of their distinct supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument\(^3\). Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay\(^2\) is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with
other seminal scientists subsequent contributions that ultimately led to ‘the very same physics\textsuperscript{653}\textsuperscript{<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ transencence-and-sublimity/sublimation/superrgatory–de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing\textsuperscript{60}.\textsuperscript{<perspective–ontological-normalcy/postconvergence>} In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79} since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is construed as of the prospective nonpresencing\textsuperscript{60}.\textsuperscript{<perspective–ontological-normalcy/postconvergence>}

\textit{superrgatory–acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument}\textsuperscript{3} which points to a prospective relative-ontological-completeness\textsuperscript{87/66}ontological-contiguity as of the very same \textsuperscript{<amplituding/formative–epistemicity>totalising–devolved—purview—as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}; even though it is the first step towards such a futural différance transcendence-and-sublimity/sublimation/superrgatory–de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} as of the transcendental implications of prospective nonpresencing\textsuperscript{60}.\textsuperscript{<perspective–ontological-normalcy/postconvergence>} in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{23} arrived at by human limited-mentation-capacity-deepening\textsuperscript{52} as of de-mentation–(superrgatory–ontological–de-mentation-or-dialectical–de-mentation—stranding–or-attributive–dialectics)\textsuperscript{14} involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Insightfully, we can grasp that the Derridean freplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-

apriorising/axiomatising/referencing depth of reasoning and perspective which is pushed to its
brink in projection/anticipation(expectancy. The fact is ontological-faith-notion-or-ontological-
fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-
as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38}. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism\textsuperscript{58} mindset. The question can thus be asked is there more profound meaningfulness-and-teleology\textsuperscript{55} beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation-and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>\textsuperscript{96}? It is herein that we get into the realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)\textsuperscript{14} inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, under sufficient constraint of existence/existential-reality-its own its absolute a priori status, as reflected by ontological-primemovers-totalitative-framework\textsuperscript{72}/contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} established existential–epistemic-totalisation-of–meaningfulness-and-teleology\textsuperscript{55}, as of a reconstrual of reference-of-thought and devolving-axiomatic-constructs implications, and so as of maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation. This insight about ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality further reveals that prospective nonpresencing\textsuperscript{60}<perspective–ontological-normalcy/postconvergence> implies prospective renewal of attitude/mental-disposition/care–
and–episteme, as of de-mention–ontological–de-mention–dialectical–de-mention–stranding–attributive–dialectics which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring–as-to-postconverging–dialectical-thinking–apriorising-psychologism and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–as-to-preconverging–apriorising-psychologism respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or–reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics–amplituding/formative–epistemicity–totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics–axiomatic-constructs maximalising-recomposuring–for-relative-ontological-completeness–unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics–axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards singularisation developments in physics since then, even though its meaningfulness-and–teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-
disposition/care-and-episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care-and-episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care-and-episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care-and-episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care-and-episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance-including-virtue-as-ontology; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care-and-episteme of dual-language/split-mentality as of <amplituding/formative-epistemicity>totalising-thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care-and-episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much
aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of\textsuperscript{83} reference-of-thought\textsuperscript{17} apriorising/ axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\textsuperscript{5} as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and—episteme\textsuperscript{5} renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/ axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology-as-in-existential-extrication-as-of-existential- unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology\textsuperscript{55} is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and—episteme\textsuperscript{5} for more profound-and-complete meaningfulness-and-teleology\textsuperscript{55}. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a \textsuperscript{83}reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—a xiomatic-constructs within the positivism/rational-empiricism \textsuperscript{83}reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the
phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought <-amplituding/formative–epistemicity>totalising-self-referencing-syneretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of–meaningfulness-and-teleology as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing<-perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-

transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, implied as of
intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. This explains why
ontology’s-directedness-as-Being is the direction of meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} grounding
as always prospective as of prospective relative-ontological-completeness\textsuperscript{87}-of–\textsuperscript{83}reference-of-
thought; and so, as of the successive base-institutionalisation, universalisation, positivism and
notional–deprocrypticism\textsuperscript{17} registry-worldviews/dimensions nonpresencing\textsuperscript{68}–<\textit{perspective–
ontological-normalcy/postconvergence}> respectively as successive meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55} grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–
ununiversalisation, universalisation–non-positivism/medievalism, and positivism–
procrypticism\textsuperscript{80} presencing—absolutising-identitive–\textsuperscript{13}constitutedness\textsuperscript{79}. Interestingly we can
appreciate that the attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of relevant existential
issues of all the prior registry-worldviews/dimensions \textsuperscript{83}reference-of-thought are wanting-as-
relatively-ontologically-flawed from our positivism–procrypticism\textsuperscript{80} as prospective
perspective/framing/reference/horizon of meaningfulness-and–\textsuperscript{99}teleology\textsuperscript{55}. However, we are
hard-pressed to concede that from futural Being-development/ontological-framework-
\textsuperscript{99}teleology\textsuperscript{55} as of prospective deprocrypticism–or–preempting—disjointedness-as-of-
\textsuperscript{83}reference-of-thought\textsuperscript{17} as of its prospective relative-ontological-completeness\textsuperscript{87}-of–\textsuperscript{83}reference-
of-thought, our positivism–procrypticism\textsuperscript{80} is wanting-as-relatively-ontologically-flawed; as by
reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior nonpresencing\textsuperscript{68} \textless{}perspective-ontological-normalcy/postconvergence\textgreater{} even at its uninstitutionalised-threshold\textsuperscript{102} despite its notional-discontiguity/epistemic-discontiguity\textsuperscript{62} \textless{}shallow-\textsuperscript{96}supererogation-of-mentally-aestheticised-preconverging/dementing\textsuperscript{19}–qualia-schema\textgreater{} with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising\textsuperscript{57} as it fails to construe of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} projectively as of prospective existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-\textless{}amplituding/formative–epistemicity\textgreater{}totalising–renewing-realisation/re-perception/re-thought,—in–supererogatory–epistemic-confledness\textsuperscript{32} relative-ontological-completeness\textsuperscript{87} of apriorising/axiomatising/referencing. The implied maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation notion also underscores the postmodern conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{47} with regards to any \textless{}amplituding/formative–epistemicity\textgreater{}totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, as fundamentally driven as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-\textless{}amplituding/formative–epistemicity\textgreater{}totalising–renewing-realisation/re-perception/re-thought,—in–supererogatory–epistemic-confledness\textsuperscript{32} as so validatable by their ontological-primemovers-totalitative-framework\textsuperscript{72}. Hence it is ‘more real in its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{47} understood as a double-gesture reification\textsuperscript{86} for prospective relative-ontological-completeness\textsuperscript{87}–of-axiomatic-construct-or-reference-of-thought’ by its maximalising-recomposuring\textsuperscript{54} for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-\textless{}amplituding/formative–

doesn’t even bother contemplating about by its incrementalism56-in-relative-ontological-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity38 as of existence’s presencing—absolutising-identitive-
constitutedness79. This social knowledge human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation47 insight translate the reality that
‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue
that they are departing, as of their reference-of-thought, from a less real position to evaluate a
more real position; more like the irony of trying to evaluate the theory-of-relativity-together-
with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical
mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve
misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-
constructivism-towards-singularisation47. For instance, the theory-of-relativity-together-with-
quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions
like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the
macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity
as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness88-of-
reference-of-thought. It is human limited-mentation-capacity-deepening52 as of prospective
relative-ontological-completeness reference-of-thought as subsequently assuming as more real the notion of 'space-time', 'considering the ether as unreal', 'considering that the laws of physics are different at atomic scale from the macroscale', etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency~sublimating-nascence, disclosed-from-prospective-epistemic-digression-as-of totalising-renewing-realisation/re-perception/re-thought, in supererogatory—epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency~sublimating—nascence, disclosed-from-prospective-epistemic-digression-as-of totalising—renewing-realisation/re-perception/re-thought, in supererogatory—epistemic-conflatedness is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency~sublimating—nascence, disclosed-from-prospective-epistemic-digression-as-of totalising—renewing-realisation/re-perception/re-thought, in supererogatory—epistemic-conflatedness intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards singularisation as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains—whatever-it-is—ultimately. The
postmodern insight here is rather that what is relevant to humankind is human-subpotency
development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the
notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-
towards-\textsuperscript{92}singularisation\textsuperscript{47} has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-
emancipatory-relativism-driven-recomposuring-constructivism-towards-\textsuperscript{92}singularisation\textsuperscript{47} of human limited-mentation-capacity which needs to be deepened before humankind embarks on

the task of ‘conceptualising meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-\textsuperscript{92}singularisation\textsuperscript{47} that led to human limited-mentation-capacity-deepening\textsuperscript{52}. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness\textsuperscript{87}—of—axiomatic-construct-or—reference-of-thought that brings about greater objectivity, as reflected in the 66ontological-contiguity—of—the—human-institutionalisation-process\textsuperscript{67} behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—\textsuperscript{99}teleology\textsuperscript{55}. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative—epistemicity>totalising—self—referencing-
syncretising/circularity/interiorising/akramatic—drag\textsuperscript{33}, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and—\textsuperscript{99}teleology\textsuperscript{55}; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper
prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance including-virtue-as-ontology. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards singularisation paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies
and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness\textsuperscript{88}-of-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbuued-ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}) and thus has to be decentered-as-preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-\textsuperscript{92}singularisation\textsuperscript{47} as of human-subpotency existential-contextualising-contiguity\textsuperscript{38} conflatedness\textsuperscript{12}, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness<-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}> necessarily subject to ontological-bad-
faith/inauthenticity\textsuperscript{63} as of the modern’s take prospective uninstitutionalised-threshold\textsuperscript{82} of procrypticism\textsuperscript{80} or disjointedness—as-of—reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness\textsuperscript{87} re-originary—as-unenframed/unbeholding/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking\textsuperscript{20}—‘projective-insights’/’epistemic-projection-in-conflatedness\textsuperscript{32}—of-notional—deprocrypticism\textsuperscript{17}—prospective-sublimation)\textsuperscript{90} appraisal of human narratives as to dimensionality-of-sublimating\textsuperscript{24}—〈amplituding/formative〉supererogatory—dementativeness/epistemic-growth-or-conflatedness\textsuperscript{32}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ thus implying rather a notional—deprocrypticism\textsuperscript{17} institutionalisation ‘unenframed/unbeholding/bechancing—supererogation parameterisation/reparameterisation—(reflecting—a supererogatory—decisionality-of-socioinstitutional-conceptions—as-to—‘their—nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality—numbing-traction—desublimation’)—as-so-operationalising—‘scalarisation—as-to-rescalarisation-as—re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care—and—episteme\textsuperscript{5} as of its procrypticism—or—disjointedness-as-of—reference-of-thought\textsuperscript{80}, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought\textsuperscript{17} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\textsuperscript{5} which prospectively represents the modern as preconverging—or—dementing\textsuperscript{19}—apriorising—psychologism while the postmodern is postconverging—or—dialectical-thinking\textsuperscript{28}—apriorising—psychologism; as the point of assertion of postmodern-thought
as deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-mentation-capacity prospective relative-ontological-completeness-of-reference-of-thought <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for—explicating—ontological-contiguity; wherein for instance, for the recurrent-utter-uninstitutionalisation reference-of-thought ill-health is as of an existential-contextualising-contiguity-lowest-level-reification perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the ‘hitherto ontologically-flawed postmodern deprocrypticism—or—preempting—disjointedness-as-of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in its relation with modernity wrongfully implied that it seeks the validation of modernity, and so as ridiculously as implying that budding-positivism/rational-empiricism should have sought for its validation from medieval-scholasticism. In both cases, the fundamental issue once universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) avails as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness, as herein implied originarily/as-of-event with the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, is mostly about dismissing the prior relative-ontological-incompleteness-as-of-reference-of-thought as when a critique of notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency-(transparency-of-totalising-}
entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⁸⁷) as of overall underlying human ontological-commitment⁶⁵ as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-⁹⁶supererogation for relative-ontological-completeness⁸⁷; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-⁸³reference-of-thought¹⁷

ontological-primemovers-totalitative-framework\textsuperscript{72}. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} of prospective relative-ontological-completeness\textsuperscript{83} of reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}'. Such ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\textsuperscript{102} as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry\textsuperscript{99}teleology\textsuperscript{8}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of its \textit{amplituding/formative–epistemicity} totalising/circumscribing/delineating \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84}. However, at its uninstitutionalised-threshold\textsuperscript{102} the prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry\textsuperscript{99}teleology\textsuperscript{8}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} of the prospective institutionalisation’s \textit{amplituding/formative–epistemicity} totalising/circumscribing/delineating \textsuperscript{83}reference-of-thought-devolving\textsuperscript{84} will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold\textsuperscript{102}, and so as of mutually beyond-the-consciousness-awareness-\textsuperscript{99}teleology\textsuperscript{6}. This has to do with the fact
that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses,
etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism\textsuperscript{75} that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking\textsuperscript{28}–‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12}–of-notional–deprocrypticism\textsuperscript{17}–prospective-sublimation)\textsuperscript{90}) originary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{72}’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-
formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ de-mentating/structuring/paradigming of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as of successive prospective relative-ontological-completeness reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-
relative-effectiveness’ that as of its prospective relative-ontological-completeness⁸⁷-of-
⁸³reference-of-thought supersedes the prior relative-ontological-incompleteness⁸⁸-of-⁸³reference-
of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism
scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework⁷²’
ontologically-flawed knowledge can be legitimately overlooked where such knowledge is
implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference
to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus
social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of
positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to
perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be
poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions
with regards to truly upholding the science ethos in many situations with regards to the ideal
operation and promotion of scientific research; and so, as of human temporal-to-intemporal
ontological-performance⁷¹-<including-virtue-as-ontology> of any ‘⁸³reference-of-thought–
categorical-imperatives/axioms/registry-⁹⁹teleology⁸,-for-
Already, postmodern interpretations have increasingly been much more relevant practically to
many subject-matter domains and activities, with even greater potential for transformative
implications if fully acted upon. Furthermore, the ‘prospective/new postmodern
deprocrypticism–or–preempting—disjointedness-as-of-⁸³reference-of-thought¹⁷
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme⁵’ warrants that postmodern-thought hitherto articulated beyond-
the-consciousness-awareness-⁹⁹teleology-<in-existential-extrication-as-of-existential-

disposition/care–and–episteme⁵’, need to be translated-as-reconceptualised into its very own
thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’s crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is rather a notional~conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought are rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism—

subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation⁴⁷ is so with regards to the inherent ontological sublimating human possibility in
existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human
potential, and so as emphasised and reflected with regards to the need for human limited-
mentation-capacity-deepening⁵⁲. We can garner insight about how we tend to misconstrue any
attitude/mental-disposition/care–and–episteme⁵ that is different from our own ‘present
attitude/mental-disposition/care–and–episteme⁵’, whether it is a ‘prior/old/superseded
attitude/mental-disposition/care–and–episteme⁵’ or a ‘prospective/new/superseding
attitude/mental-disposition/care–and–episteme⁵’. For instance, in the previous articulation of the
existential-contextualising-contiguity³⁸-lowest-level-reification⁸⁶ perceptivity-as-of-bad-omen
with ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care–and–episteme⁵’
given its ‘non-rules—apriorising/axiomatising/referencing–psychologism,–as-impulsive-or-
accidented-or-random-mental-disposition’, the reality is that our mental-devising-representation
still remains in our ‘present positivism–procrypticism⁸⁸ attitude/mental-disposition/care–and–
episteme⁵’ as of its ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-
exclusive-cause-and-effect-conceptualisation’, and only ‘adhocly-and-scantily identifies’ the
‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care–and–episteme⁵’ as it is
wholly immersed-and-engrossed in its ‘positivism/rational-empiricism attitude/mental-
disposition/care–and–episteme⁵ for the construal of meaningfulness-and-⁹⁹teleology⁵⁵’; which it
‘skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering
down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on
the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
which apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–
episteme of wholly immersed-and-engrossed meaningfulness-and-teleology. The point
being made here is that our natural inclination is never meant to truly-and-comprehensively
reflect any prior/old/superseded or prospective/new/superseding attitude/mental-
disposition/care–and–episteme by itself but rather in any such exercise always apriorises the
‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other
attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is
adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-
as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present
attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between
two cultures of prospective relative-ontological-completeness-and-incompleteness-of-
reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-
teleology between the cultures, since their natural inclination is to both apriorise ‘their own
present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other
culture attitude/mental-disposition/care–and–episteme as of their respectively
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present
attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent
cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by
attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand
that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-
of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’.
implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-\textsuperscript{99} teleology\textsuperscript{55} as of their given neuterising\textsuperscript{57} as-of-prior-relative-ontologicl-incompleteness-of-\textsuperscript{81} reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ or deneuterising\textsuperscript{16} as-of-prospective-relative-ontological-completeness\textsuperscript{87} of-\textsuperscript{83} reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme\textsuperscript{5}’, whilst the ‘present attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ is then rather adhocly-and-scantily identified now as either deneuterising\textsuperscript{16} if it in relation to the prior/old/superseded or neuterising\textsuperscript{57} if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme\textsuperscript{5} means ‘to be or exist as of the given registry-worldview/dimension \textsuperscript{83} reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme\textsuperscript{5}’.

‘Postmodern deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{83} reference-of-thought\textsuperscript{17} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ construed as of deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{83} reference-of-thought\textsuperscript{17} is thus in its potentiation the very summum for the ‘conception of human-subpotency existential scope’ implied as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99} teleology\textsuperscript{55}. In reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99} teleology\textsuperscript{55},
successive institutionalisations reflect ‘successive and changing conceptions of human-subpotency existential scope’, and so from recurrent-utter-uninstitutionalisation as ‘the most supernatural/mythical/idolised conception of human-subpotency existential scope’ to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Effectively, ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought implied notional~deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-
contiguity—of-the-human-institutionalisation-process\textsuperscript{67} retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} and intemportal/longness-of-register-of-meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} nature at uninstitutionalised-threshold\textsuperscript{102}, as of prospective institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought and uninstitutionalised-threshold\textsuperscript{102} prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care–and–episteme\textsuperscript{57}, which poorly appreciates the continuity implied by ‘intemportal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{86}-in-
singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating–66ontological-contiguity\textsuperscript{44} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} and is rather caught up, beyond-the-consciousness-awareness,\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83}reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold\textsuperscript{102} which then implies its failure to apriorise the notion of a human temporal-to-intemtemporal nature at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{102}. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-
results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme⁵’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag³³ untransvaluated–temporal-intemporality⁵¹ at its ontologically-Verdical uninstitutionalised-threshold¹⁸², as it doesn’t even and fails to recognise any such uninstitutionalised-threshold¹⁸² pointing to its prior relative-ontological-incompleteness⁸⁸-of-⁸³reference-of-thought. Thus, the manifestations of temporality⁹⁸/shortness at its unrecognised ontologically-Verdical uninstitutionalised-threshold¹⁸² are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-⁹⁹teleology⁵⁵ posture in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag³³, rather than a recognition of it prior relative-ontological-incompleteness⁸⁸-of-⁸³reference-of-thought, implying recognising its uninstitutionalised-threshold¹⁸² with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-⁹⁹teleology⁵⁵ towards intemporality⁵¹/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediacrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, the ‘postmodern depocrypticism–or–preempting—disjointedness-as-of-⁸³reference-of-thought¹⁷
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness reference-of-thought; and so beyond just <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and–teleology as of procrypticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and–teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation-
attributive-dialectics\textsuperscript{14} of attitude/mental-disposition/care–and–episteme\textsuperscript{5} can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5} which from our modern take attitude/mental-disposition/care–and–episteme\textsuperscript{5} we rather construe as vague scholastic pedantic dogmatism with regards to budding-positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5}. Ultimately, a notional–deprocrypticism\textsuperscript{17} coherent ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{83}reference-of-thought\textsuperscript{17} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ is one that comes into terms–as-of-axiomatic-construct in conceiving of the implied prospective need for deneuterising\textsuperscript{16}—referentialism. The fact is any registry-worldview/dimension as of its ‘present attitude/mental-disposition/care–and–episteme\textsuperscript{5}’ is dementatively/structurally/paradigmatically oblivious-to and does-not-reflect its very own prospective relative-ontological-completeness\textsuperscript{87}–of-\textsuperscript{83}reference-of-thought as the underlying basis of its own specific-level induced vices-and-impediments\textsuperscript{105}, and is rather palliative as of its selecting, triaging, mutually-concurring-and-accommodating and power-relations driven

The question can actually be asked, as of prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought of the notional-discontiguity/epistemic-discontiguity\(^ {62}\)<shallow>^96supererogation-of-mentally-aestheticised-preconverging/dementing\(^{19}\)-qualia-schema> of this ‘made-up’ normativity supposed\(^ {66}\)ontological-contiguity, whether such a prior relative-ontological-incompleteness\(^ {88}\)-of-\(^{83}\)reference-of-thought as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^ {33}\) is actually as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\(^ {99}\)teleology\(^ {55}\) at its uninstitutionalised-threshold\(^ {102}\), and in a position, on the basis of such palliation, to address the actual fundamental grounding of its vices-and-impediments\(^ {105}\); which in reality are actually ontologically addressable/resolvable as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness\(^ {12}\) so-implied as of prospective relative-ontological-completeness\(^{87}\)-of-\(^{83}\)reference-of-thought. in order to reflect ontologically-veridical signification as of existence. And intuitively from our
infrastructure-of—meaningfulness-and—teleology. Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is ‘appropriate prospective institutionalisation secondnaturing metaphoricity’. Consider in this regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantry as of its reasoning-from-results/afterthought logocentric constitutedness. Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing—perspective—ontological-normalcy/postconvergence; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-

reasoning-from-results/afterthought logocentric constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness of reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/superrrogatory–de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive—constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms–as-of-axiomatic-construct, but rather is of
‘presencing—absolutising-identitive\textsuperscript{13} constitutedness\textsuperscript{79} consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity\textsuperscript{56} for the destruction-deconstruction of the modern take for prospective postmodern-notional-deprocrypticism\textsuperscript{17} institutionalisation as of prospectiveBeing-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology\textsuperscript{55}. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme\textsuperscript{5} is ontologically validated as of its prospective relative-ontological-completeness\textsuperscript{87-of—reference-of-thought}, divulging the <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} vagueness and futility of the pretences and judgments of the destructuring-threshold—(uninstitutionalised-threshold\textsuperscript{182}/presublimating—desublimating-decisionality)—of-ontological-performance\textsuperscript{71—}<including-virtue-as-ontology> . We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity\textsuperscript{56} for prospective institutionalisation as of prospective ontological-prime movers-totalitative-framework\textsuperscript{72} and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity\textsuperscript{56} reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative—epistemicity> totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity\textsuperscript{56} rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{86} organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and—teleology\textsuperscript{55}, which in its prospective relative-ontological-completeness\textsuperscript{87—}
of-reference-of-thought is ‘a dimensionality-of-sublimating—supererogatory—de-mentativity/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inventing’ of the prospective notion of ‘thinking/postconverging-ordialectical-thinking—apriorising-psychologism’ as positivism/rational-empiricism thinking or notional—deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care—and—episteme of medievalism—non-positivism or positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory—de-mentativity prospective institutionalisation attitude/mental-disposition/care—and—episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus the direct implication of reasoning-through/messianic-reasoning is that it can only call upon ‘a kindred sense of things’, as of dimensionality-of-sublimating—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation contemplation that can surpass/overcome temporal nihilistic wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology—as-of—‘nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications)—as of a protracted-consciousness cognisant of the prospective ontological-performance and human emancipation implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology. These induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,–as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective\textsuperscript{96}supererogation and so as of prospective projection as implied with the \textsuperscript{66}ontological-
contiguity—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-failing-to-reflect-immanent-ontological-contiguity notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing to conceive of the ontological-veracity in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—amplituding/formative supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to difference-conflatedness—as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism causality—as-to-projective-totalitative—implications,—for-explicating—ontological-contiguity44 successiveness of registry-worldviews/dimensions, with the result that Kantian implied transcendental idealism is veridically ‘phenomenal-abstractiveness within the very same intelligible rational-empiricism/positivism registry-worldview/dimension reference-of-thought’ (as the true reality of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather one of de-mentation—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics involving ‘human mental-disposition successive
monoteisms/Slave/Dehierarchising/Commoner value-construct as of the very same universalising\textsuperscript{103}-idealisation’ speaking rather more of revaluation than transvaluation. It is this underlying misconception that induces subsequent philosophical misinterpretations of notions like <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}-as-of–‘nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>}, ressentiment and leveling failing to appreciate that these are ontologically-driven as of underlying relative-ontological-completeness\textsuperscript{87} knowledge-reification\textsuperscript{86} basis of such conceptualisations arising as to the need for prospective emancipatory inspiration of prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation inducing human limited-mentation-capacity-deepening\textsuperscript{52}. Thus <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}-as-of–‘nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>} is herein rather construed as <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}-as-of–‘nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications>} or ontological-bad-faith/inauthenticity\textsuperscript{63} with respect to ‘mechanical practice’ of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. In this regards, we can appreciate that all human meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem
inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising\textsuperscript{193}-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to <$\text{amplituding/formative>}$<wooden-language-(imbued—averaging-of-thought-<$\text{as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and–teleology}$<as-of-'nondescript/ignorable–void$^{59}$-with-regards-to-prospective-apriorising-implications>)$>); pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation transformation

It is thus not odd that as of human emotional-involvement implications, Socratic philosophers universalising\textsuperscript{103}-idealisation and budding-positivists projected meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} infrastructure rather met initially with the antipathy of their underpinning-suprasocial-construct and <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}’-with-regards-to-prospective-apriorising-implications>} and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive\textsuperscript{13}constitutedness\textsuperscript{79} ontologically-flawed disparateness-of-conceptualisation–unforegrounding-disentailment,-failing-to-reflect–‘immanent–ontological-contiguity’> whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising\textsuperscript{103}-idealisation meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and
likewise Western enlightenment effectively arose as of the induced meaningfulness-and-
99teleology infrastructure of budding-positivists, with perverted consequences like annihilation
of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-
flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-
99teleology infrastructure as so-construed in their core societies in Europe with respect to the
ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the
idea of human value-construction is ever always caught up between on the one hand human
limited-mentation-capacity to come to terms with ‘transvaluation as <amplituding/formative–

contiguity in reflecting holographically<conjugatively-and-transfusively> the ontological-

conflatedness-as-to-totalitative-reification in singularisation-as-veridical-epistemic-

construction as of a <amplituding/formative> wooden-language-(imbued—averaging-of-

constitutedness of—meaningfulness-and—teleology and so whether as of trepidatious
(recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation),
preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–
procrypticism) implications’. This discrepancy (between the human capacity to achieve
transvaluation and effective social–value-construction narrative as of any given registry-
worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-trans fusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding/formative-
comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at
various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusiveness warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional~notional~deprocrypticism or notional~preempting~disjointedness-as-of~reference-of-thought appropriate foregrounding~entailment~postconverging~narrowing-down~sublimation as to existence~as-sublimating-withdrawal~eliciting-of-prospective~supererogation in reflecting ‘immanent~ontological-contiguity’~as-operative-notional~deprocrypticism; and so as the disparateness-of-conceptualisation~unforegrounding~disentailment~failing-to-reflect~‘immanent~ontological-contiguity’ of our rational-empiricism/positivism occlusiveness in its wooden-language~imbued~averaging-of-thought~as-to-leveling/ressentiment/closed-construct-of~meaningfulness-and~as-of~‘nondescript/ignorable–void’~with-regards-to-prospective-apriorising-implications) tend to rather reflect our totalising~self-referencing~syneretising/circularity/interiorising/akrasiatic-drag. The occlusiveness of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism~or~preempting~disjointedness-as-of~reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-
empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance (including-virtue-as-ontology)/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-(including-virtue-as-ontology) dynamics of temporal-to-intemporal-dispositions’ ). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition—as–reproducibility-of-aestheticisation inducing its deficient ontological-performance thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the

Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive\textsuperscript{12}constitutedness\textsuperscript{79} as of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation simply reflects the ⟨\textit{amplituding/formative–epistemicity}\rangle totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of foregrounding—entailment-(postconverging-narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional–deprocrypticism\textsuperscript{43} lies with the-Good/understanding/knowledge-reification\textsuperscript{86}ontological-prime movers-totalitative-framework\textsuperscript{72} as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-

Basically, as highlighted above such a transvaluation knowledge-reification of social–value-construction reflects the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment; pointing to the ontological-veracity of a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’. This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness ontologically-flawed de-mentating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporetic-ism-overcoming/unovercoming’ so-reflected as of <amplituding/formative>formative–epistemicity>totalisingly~preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such
causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans. This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’; and so, as it applies to human knowledge-reification within existence as this defines human ontological-performance reflected as of constructiveness-of-ontological-performance and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human
sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-
accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis,
the reality of human ontological-performance (reflected as of constructiveness-of-ontological-performance
and destructuring-threshold (uninstitutionalised-threshold/presublimating–desublimating-
decisionality)~of-ontological-performance) towards the effective articulation of human sovereignty and free-will is actually one that involves, with
respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall
and underlying social-setup conception of knowledge-reification and empowerment from such
knowledge-reification as enabling the framework of living-development–as-to-personality-
development, institutional-development–as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology and then ‘the individual dimensionality-of-

or-conflectedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation mental-disposition and expression’ within the former (and it is the latter
that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy
and independence of human disposedness’, while naively ignoring/overlooking the underlying
‘superseding existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-

epistemicity>totalisingly~preceding-and-redefining-existential-contextualising-contiguity
implications upon human sovereignty and free-will’). Interestingly, such a broader conception of
the manifestation of human sovereignty and free-will will recognise that the overall human
<including-virtue-as-ontology> of social–value-construction so-construed as destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}~of-ontological-performance, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment that gives the teleological orientation of human meaningfulness-and-teleology in reflecting holographically~<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, as it then exposes human meaningfulness-and-teleology as of human limited-mentation-capacity-deepening to the prospective constraint to be as supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-supererogatory—de-mentativity when its any given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening. Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating <amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to difference-conflatedness-as-to-totalitative–reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications,-for-explicating ontological-contiguity in reflecting both destructuring-threshold-{uninstitutionalised-

philosophical interpretative disposition for knowledge-reification\(^{86}\). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification\(^ {86}\) interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification\(^ {86}\) is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\(^ {12}\)–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence\(^ {30}\)> from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness\(^ {12}\) as of human <amplituding/formative–epistemicity>totalising–thrownness-in-

We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression-as-of-

A further twist to such a poor
conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional
performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-\textsubscript{(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{12}/formative–supererogating–in-projective/reprojective—aestheticising-re-motif–}}
causality—as-to-projective-totalitative—implications,—for-explicating—ontological-contiguity in reflecting holographically—conjugatively-and-transfusively—the ontological-contiguity—of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism—prochristicism occlusiveness, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for
creditable and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’!

Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain.

Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-
human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness\textsuperscript{88}, reflecting a human-causative-construction conception in conflatedness\textsuperscript{12}/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional–projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in \textsuperscript{13}constitutedness as of any given presencing—absolutising-identitive–\textsuperscript{13}constitutedness\textsuperscript{79} apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness\textsuperscript{88}. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive–\textsuperscript{13}constitutedness\textsuperscript{79} conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}– (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{12}/formative–supererogating–\textless in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing\textgreater ) as to human-and-social– expectations/anticipations—metaphoricity\textsuperscript{56}–as-rede-mentating/restructuring/reparadigming–psychologism’\textsuperscript{89} that effectively and empirically underline sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity\textsuperscript{38} as to the underlying supposedly coherent ontological-commitment\textsuperscript{65} in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity–\textless discretely-implied-functionalism\textgreater implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity\textsuperscript{38} implications of relative-ontological-incompleteness\textsuperscript{88} to relative-ontological-completeness\textsuperscript{87}. But then such
pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about
human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness/relative-ontological-completeness -(sublimating-referencing/registering/decisioning-as-self-becoming/self-conflatedness/formative-supererogating-in-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing) as to human-and-social-expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the presencing—absolutising-identitive—constitutedness notion of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human
being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing apriorising-psychologism of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing apriorising-psychologism of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-
arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive false sense of logical-dueness as of ‘relative-ontological-incompleteness/relative-ontological-completeness-⟨sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative–supererogating-<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>⟩ as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-
grabbing/appropriating/usurpary/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness\textsuperscript{87} perspective supererogatory–acuity/perspicacity/astuteness/edininess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} in unaffirmation/deprojection/de-assertion/unduedness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–<as-to-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification\textsuperscript{86} as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpary/arrogating implications construed as ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification\textsuperscript{86}; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness\textsuperscript{88} apriorising/axiomatising/referencing of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness\textsuperscript{87}, but rather as of the relative-ontological-completeness\textsuperscript{87} perspective supererogatory–acuity/perspicacity/astuteness/edininess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} in
unaffirmation/deprojection/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing\textsuperscript{19}--apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening\textsuperscript{52} possibilities of relative-ontological-completeness\textsuperscript{87} analysis over the absolutising of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness\textsuperscript{79} and not subject to prospective ‘relative-ontological-incompleteness\textsuperscript{88}/relative-ontological-completeness\textsuperscript{87}-(sublimating–referencing/registering/decisioning,–as-self-

limited as to the already globalised world warranting our very own prospective reinvention/recreation) but for effective human effectuation. Humanity is thus intimately tied to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor ‘relative-ontological-incompleteness\(^{89}\)/relative-ontological-completeness\(^{87}\)’ (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\(^{12}\)/formative–supererogating–\(<\text{in-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing}>\) as to human-and-social–expectations/anticipations—metaphoricity\(^{56}\)–as-rede-mentating/restructuring/reparadigming–psychologism’\(^{89}\) of dimensionality-of-sublimating\(^{24}\)—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^{12}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to the fact that the ultimate attainment of humanity as from Hegelian proto-humanity has ever always been as of originariness-parrhesia,–as–spontaneity-of-aestheticisation as reflected by the fact that our mere reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation is rather ‘a positive-opportunism\(^{75}\) exploitation that poorly projects humanity prospectively as to an existential-extrication-as-of-existential-unthought and notionally-collateralising posturing that is unwary of its relative-ontological-incompleteness\(^{88}\) to then aspire for prospective relative-ontological-completeness\(^{87}\)’ and all the prospective humanity that can arise is ever always as of originariness-parrhesia,–as–spontaneity-of-aestheticisation that goes after that relative-ontological-completeness\(^{87}\), as to the fact that the possibility for humanity to arise is ever always tied down with the possibility for the human to address human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Humanity as a dynamic construct speaks to dimensionality-of-sublimating\(^{24}\)—
any human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; as so-reflected with the susceptibility to variedly teleologically-degraded ontological-performance in a ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance—including-virtue-as-ontology—at the destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—including-virtue-as-ontology’ that ends up ‘reconstruing any implied originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation in its very own terms as to the effectively manifest dynamics of institutional and social relations, constraints and performances’ that as of varying implicated stakes are not ‘necessarily absolutely tied-down’ to the abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation even as such framework-for-idealising/transcending/sublimating is clearly or abstrusely the reference of social and institutional deferential-formalisation-transference. Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory theoretical-and-practicable-projected-outcome in many ways is naïve and incomplete as to when it is ‘wrongly predicated on a conception of the social and institutional as merely a passive framework of exquisite integration of abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ failing to factor in the dynamics of social-and-institutional-dissipative-integration of any such abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness—
and-its-institutionalisation as to a ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\)-including-virtue-as-ontology at the destructuring-threshold-\(<\text{uninstitutionalised-threshold}^{102}/\text{presublimating–desublimating-decisionality}>\)-of-ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\)’. Ultimately, with respect to social-stake-contention-or-confliction the effectively practised meaningfulness-and-its-institutionalisation while guided/constraint/structured by such originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation theoretical-and-practicable-projected-outcome elicited positive-opportunism\(^{75}\), generalised human behaviour to various extends actually becomes operatively and anticipatively aware by itself (as reflected by its covertly uttered \(<\text{amplituding/formative}>\text{wooden-language}-\(<\text{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing}^{19}\)-narratives—of-the-\(^{83}\text{reference-of-thought—categorical-imperatives/axioms/registry—}\text{teleology}^{8}\) that varyingly betray/reconstrues-of the originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation) of this possibility of discrepancy/sundering from originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation (not only as to undermining the former conceptual completeness but evolving with the contextual immediacy perceived underlying aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint) with respect to social-stake-contention-or-confliction, and as generalised human behaviour varyingly assume existentially constraint pragmatic inclinations and temporal-to-intemporal-dispositions as of varying thresholds of constructiveness-of-ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) and destructuring-threshold-\(<\text{uninstitutionalised-threshold}^{182}/\text{presublimating–desublimating-decisionality}>\)-of-ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) in relating with
such originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. This points to the need to assume a notional construal cognisant and integrating the de-mentative/structural/paradigmatic implications of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as the ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance’~including-virtue-as-ontology~including-virtue-as-ontology at the destructuring-threshold~uninstitutionalised-threshold/presublimating—desublimating—decisionality)~of-ontological-performance~including-virtue-as-ontology’ speaks to the susceptibility of the destructuring-threshold~uninstitutionalised-threshold/presublimating—desublimating—decisionality)~of-ontological-performance~including-virtue-as-ontology (addressed as of originariness-parrhesia,—as—spontaneity-of-aestheticisation) to teleologically-degraded ontological-performance~including-virtue-as-ontology and more profoundly so specifically with enculturated/endemised postlogism and conjugated-postlogism social and institutional manifestations, and with regards to many social-stake-contention-or-confliction circumstances of poor social and institutional accountability. Basically, the bigger point here is that however the socially transformative implications as of prior originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation and beyond the elicited positive-opportunism underlying deferential-formalisation-transference, there is much more involved in overall social and institutional meaningfulness-and teleology as to the ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance’~including-virtue-as-ontology at destructuring-threshold~uninstitutionalised-threshold/presublimating—desublimating—decisionality)~of-ontological-performance~including-virtue-as-ontology’. Thus, there is a direct relation between human-subpotency and existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of–\textsuperscript{<amplituding/formative\textsuperscript{epistemicity}>totalising–renewing–realisation/re-perception/re-thought, in supерерогоргий–epistemic-conflatedness\textsuperscript{⟩} (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance\textsuperscript{71}.\textsuperscript{<including-virtue-as-ontology>–correspondence-with-the-full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}, by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology\textsuperscript{55} but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}.\textsuperscript{<imbued-and–hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of
reflexivity is the very structure in reflecting holographically-conjugatively-transfusively>the ontological-contiguity-of-the-human-institutionalisation-process\[^{67}\], however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\[^{55}\]. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered(decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating\[^{24}\]<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\[^{12}\]/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation given the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with such human dimensionality-of-sublimating\[^{24}\]<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\[^{12}\]/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation speaking of true humanity projection for prospective secondnaturing
institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality/shortness wooden-language{(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications)}> is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a
predilection for eliciting the idea that ‘human temporality\textsuperscript{98}/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}—as-of–
‘nondescript/ignoreable–void\textsuperscript{99}—with-regards-to-prospective-apriorising-implications>}’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening\textsuperscript{52}). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{97}—by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55}), de-mentatively/structurally/paradigmatically marks all human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the
uninstitutionalised-threshold\textsuperscript{102} attendant framework of lack of social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87})-or-understanding-of-ontological-prime movers-totalitative-framework\textsuperscript{72}-of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as to the possibility for genuine human reification\textsuperscript{86} and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12}) is effectively what underlies human institutional paralysis and social-vestedness/normativity-<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the
challenge of contemplatively articulating meaningfulness-and-teleology\textsuperscript{55} capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology-\textsuperscript{99}teleology-\textsuperscript{55}in-existential-extrication-as-of-existential-unthought\textsuperscript{6}) is predicated upon and drags along the shiftiness-of-the-Self\textsuperscript{91} as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness\textsuperscript{79} as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{55}); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} relevant to deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17}. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46} is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-
epistemic/notional-projective-perspective re-originariness/re-origination of human limited-
mentation-capacity-deepening\textsuperscript{52}. Such social and institutional social-vestedness/normativity-
<discretely-implied-functionalism> for instance like in many ways the practice in modern day
scholarship (especially when poorly constrained to existence-potency–sublimating–nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in-

human-subpotency temporality\textsuperscript{98}/shortness; wherein ‘invested’ institutional and
theoretical/conceptual postures take on an essence all of their own, and so independently and
overlooking the precedence of existential-reality for the possibility for prospective sublimation

material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing
remoteness/alooofness and alienation of the generalised human subject from such
material/equipment/accoutrement sublimation captured under abstract institutional frameworks
of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be
attended-to and accommodated/unaccommodated by the lopsided

institutionally bureaucratising and deterministic frameworks that now dem-
mentatively/structurally/paradigmatically determine the possibilities of human consciousness
sublimation as to their abstracted defining conception of human stake-contention-or-confliction
(as of living-development–as-to-personality-development, institutional-development–as-to-
social-function-development and Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{55})
such that the generalised human subject re-originariness/re-origination sublimation imaginary
possibilities are already truncated as from prospective ontological-normalcy/postconvergence
epistemic/notional–projective-perspective of re-originariness/re-origination as implied with
prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought\textsuperscript{17}.
Today, many agile initiatives allowing more or less for the expression of the human subject
imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many
ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are
suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology’
given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness
meaningfulness-and-teleology the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-
teleology-<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orgininariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness-of—
meaningfulness-and-55teleology\textsuperscript{55} given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}\textsuperscript{7} that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and—59teleology—\textsuperscript{55}—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—\textsuperscript{<discretely-implied-functionalism>} implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’

procrypticism\textsuperscript{80} aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-
teleology\textsuperscript{55}. This is reflected in the projected underlying ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> divergent relation between historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46} (as constrained to human taxingness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation) and prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45}. historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46} as implied at all uninstitutionalised-threshold\textsuperscript{182} is what underlies the notionally-collateralising inclination of human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as of any given registry-worldview/dimension in relative-ontological-incompleteness\textsuperscript{88}; speaking in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-

Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology\(^{55}\) in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology\(^{55}\) construal? This limitativeness of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\) is fundamentally an issue of human psychological entrapment ‘defining naivities and complexes’ as to human shiftiness-of-the-Self\(^{91}\) as of its presencing—absolutising-identitive-constitutedness\(^{79}\) (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’\(^{67}\)). Human presencing—absolutising-identitive-constitutedness\(^{79}\) as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(^{46}\) is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology\(^{55}\) to be instigated (as to human limited-mentation-

Such that, prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought (with respect to obviating of prior desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition imbued ontological-performance—including-virtue-as-ontology>) implies the superseding of the ontological-veracity of such presencing—absolutising-identitive constitutedness human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness—and—teleology—in-cumulation/recomposuring (and so with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness—and—teleology), as to the fact that these end up overtly or covertly drawing their inherent justification on the basis of their inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-vestedness/normativity—discretely-implied-functionalism> rather than any relevant underlying supposedly coherent ontological-commitment as their social-vestedness/normativity—discretely-implied-functionalism> increasingly become dépassé (prospectively ontologically-invalid), thus rather stifling the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension and thus marring prospective historicality/ontological-eventfulness/ontological-aesthetic-tracing. Actually, the notion of hyperreality—as-to-its-simulacrum implications highlighted by postmodern-thought is more profoundly manifested in
tracing—in-presencing—hyperrealisation/hyperreal-transposition as of its implied contrastive apriorising/axiomatising/referencing—psychologism of (relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity—shallow—supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema) and apriorising/axiomatising/referencing—psychologism of (relative-ontological-completeness in prospective notional-contiguity/epistemic-contiguity—profound—supererogation-of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema), can be reflected historically with respect to say ‘an engrained traditional non-positivism/medievalism conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care—and—episteme implied by Galileo and further conceptually articulated by Descartes’ thinking proposition as to its mathesis universalis implications, such that it is as of a crossgenerational transformation—de-mentativeness that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing—psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) to grasp the full de-mentative/structural/paradigmatic implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with regards to the prospect of positivism/rational-empiricism aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and—teleology. Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising—idealisation attitude/mental-disposition/care—and—episteme implied by the Socratic philosophers as to its
apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) induced crossgenerational transformation. In both instances it speaks to an underlying apriorising/axiomatising/referencing–psychologism ‘wanting of human consciousness sublimation’ to effectively come to terms with ‘manifest existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought, in–supererogatory–epistemic-conflatedness\(^1\) in epistemic conflation\(^2\), thus inducing its notional-discontiguity/epistemic-discontiguity\(^6\)-<shallow, \(^9\)supererogation-of-mentally-aestheticised–preconverging/dementing\(^3\)–qualia-schema> as to the fact that notional-contiguity/epistemic-contiguity\(^6\)-<profound, \(^9\)supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking\(^2\)–qualia-schema> is now implied prospectively as of prospective relative-ontological-completeness\(^8\) as from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective. Thus in the bigger picture, Baudrillard’s conception of hyperreality (as implied with respect to our present lopsided technological as of lopsided material/equipment/accoutrement sublimation) speaks to the underlying apriorising/axiomatising/referencing–psychologism ‘wanting of human consciousness sublimation’ as to its capacity to sublimate beyond our positivism–proscripticism\(^8\) historicity-tracing—–in-presencing–hyperrealisation/hyperreal-transposition\(^4\) of aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and–teleology\(^5\),

In this regards, we can appreciate that the Socratic philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of–\textit{amplituding/formative–epistemicity}\textit{totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness}\textsuperscript{12}) undermining their respective gimmickiness-of-thought (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective) associated with sophists and medieval-scholastics then respectively defining the ‘thought/intellectual Establishment’, and that the possibility for such sublimating intellectualism as to its crude and unsavoury social discomfort implications is hardly a question of eliciting human temporality\textsuperscript{98/shortness}–\textit{wooden-language}–\textit{imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and–teleology–as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications}> as of moral and intellectual disenfranchisement/swindling/corruption/dispossession. In the bigger scheme of things dimensionality-of-sublimating\textsuperscript{24–}\textit{supererogatory–de-mentativeness/epistemic-growth-or-conflatedness}\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation warrants that the prospective projection of any human meaningfulness-and–teleology\textsuperscript{55} as transcendental-enabling/sublimating/supererogatory–de-mentativity should be articulated in such a way as to imply that all human meaningfulness-and–teleology\textsuperscript{55} should
assume the same disposition as to the possibility of enabling the sublimation in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}; such that ‘supposed reifying’ meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective effectively comes out as epistemically-decadent and in ontological-bad-faith/inauthenticity\textsuperscript{63}, as to the fact that in the face of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, if no human minds projected not of nonextricatory-existential-preempting-of-existential-unthought (eliciting the possibility for the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}) but rather existential-extrication-as-of-existential-unthought (undermining the possibility for the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}) in recurrent-utter-uninstitutionalisation, in base-institutionalisation–ununiversalisation, in universalisation–non-positivism/medievalism and prospectively in our positivism–procrypticism\textsuperscript{88}, then the dementative/structural/paradigmatic possibilities in reflecting holographically-<conjugatively-and-transfusively> the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} wouldn’t be possibile. Such meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective as to dimensionality-of-desublimating-lack-of\textsuperscript{25}—\textsuperscript{amplituding/formative}supererogatory—dementativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation rather speaks of a parasitising conception of intellection that warrants that by some miracle the possibility of human sublimation induced as of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} should arise, for that sublimation to be then parasitised with gimmickiness-of-thought as to social-stake-contention-or-confliction eliciting of human temporality\textsuperscript{98}/shortness <amplituding/formative>wooden-

In many ways, this dimensionality-of-desublimating—lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation explains a poor inclination-or-capacity to effectively interpret the projected meaningfulness-and—teleology of many a past thinker as to presencing—absolutising-identitive—constitutedness institutional and social-vestedness/normativity—<discretely-implied-functionalism> <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that naively think that being at the backend in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with overall existence beholden frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency—sublimating—nascence,—disclosed-from—prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of—existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation—
transference justification as often in the social not the least bothered about the overall cogency of
projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency~sublimating–nascence,disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought—in supererogatory–epistemic-confledness), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation=<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-over-desublimating implications of existence-potency~sublimating–nascence,disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought—in supererogatory–epistemic-confledness) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence de-mentative/structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) induced constraining reifying-and-empowering reflexivity undermining human-subpotency totalisingly-disentailing—
discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supped knowledge-reification\(^{86}\) as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\) without the defining ‘amplituding/formative-epistemicity\(\langle\)totalising/circumscribing/delineating existential-contextualising-contiguity\(^{38}\) foregrounding—entailment—\(\langle\)postconverging—narrowing-down—sublimation as to existence—\(\langle\)sublimating-withdrawal, eliciting-of-prospective—\(\langle\)supererogation in reflecting ‘immanent-ontological-contiguity\(\rangle\), as-operative-notional—deprocrypticism\(^{43}\) in elucidating ontological-contiguity—\(<\)as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional—projective-perspective\(\rangle\)’ as to the lack or poor predicative-effectivity—sublimation—\(\langle\)as-to-underlying-ontological-commitment\(^{65}\)\rangle induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity—\(<\)discretely-implied-functionalism\(\rangle\) reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification\(^{86}\) implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^{73}\)—\(<\)imbued-and—‘hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—\(\langle\)re-apriorising/re-axiomatising/re-referencing—conceptualisation\(\rangle\) to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflatedness\(^{12}\). Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities
and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to ‘relative-ontological-incompleteness\(^{88}\)/relative-ontological-completeness\(^{87}\) (sublimating–referencing-registering/decisioning,–as-self-becoming/self-conflatedness\(^{12}\)/formative–supererogating–<in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing\(>\)) as to human-and-social–expectations/anticipations—metaphoricity\(^{56}\)–as-rede-mentating/restructuring/reparadigming–psychologism’\(^{89}\) as to ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards\(^{92}\)singularisation\(^{47}\)’; as the ontological inherently permeates all social and cultural frameworks so-reflected as of their underlying supposedly coherent ontological-commitment\(^{65}\) thus inducing the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity when any of its given meaningfulness-and-teleology\(^{55}\) is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening\(^{52}\). of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their scholastic pedantry (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening as of relative-ontological-incompleteness to ‘relative-ontological-

Thus it is such an ideological conception of science and knowledge-reification on the latter basis (as of prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>Χειλικατηρική) that ultimately translates into the ‘methodological, epistemic, institutional and social sagging of human knowledge-reification’ reflected abstractly in crises of methodology, epistemicity and scholarship as well as derived human institutional and social crises as to underlying meaningfulness-and-teleology infrastructure; and critically so with regards to our own positivism/rational-empiricism manifestation of procrpticism—or–disjointedness-as-of-reference-of-thought relevant-level of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that has to be addressed. In another respect, given the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension involved in true human
consciousness sublimation, dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism, as ‘the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ that brings about sublimation needs to be construed as to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism elicits parallel competing meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension inducing sublimation as of the secondnaturizing institutionalisation exercise. In many ways the underpinning—suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning—suprasocial-construct in its projection of social-stake-

Ultimately, the notional—deprocrypticism registry-worldview/dimension construed as the

<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation effectively projects the possibility of boundless human aestheticisation—and—aestheticisation-towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and—teleology, as in many ways the reality of our past and present aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and—teleology has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—disinhibited-mental-aestheticising as of originariness-parrhesia,—as—spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity—of-the-human-institutionalisation-process possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating—
<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation capacity ‘to project in disseminative—selectivity-of-ontological-good—
faith/authenticity over deselectivity of ontological bad faith/inauthenticity (as to the underlying human ontological faith notion or ontological fideism—imbued underdetermination of apriorising axiomatising referencing as so being as of existential reality ‘seeding promise of human subpotency ontological performance’ including virtue as ontology equivalence correspondence with the full potency of existence’s sublimating nascence as of its coherence contiguity). It is important to grasp here that such a construal of deprocrypticism or preempting disjointedness as of reference of thought highlighting the prospective implications in reflecting holographically conjugatively and transfusively the ontological contiguity of the human institutionalisation process as of the specific human subpotency as to overall reifying empowering reflexivity of ecstatic existence as panintelligibility imbued and hermeneutically reprojectively educating human subpotency epistemic perspective of projective reprojective aestheticising re motif and re apriorising re axiomatising re referencing conceptualisation (as to underlying human construction of the Self) is not a metaphysical ideological advocacy, no more than say the universalising idealisation philosophers nor the budding positivists were involved in any metaphysical ideological advocacy, but rather just as modern day science such a conception speaks to the inherent ontological implications as to human knowledge reification and corresponding empowering reflexivity as to human subpotency implied human potential (as implied in the differentiation between postmodern ontological reconstituting deconstruction genealogy that exposes itself and is phronetically practically encrusted embedded inlaid with inherent existence as to its underlying ontological claim sublimating validation desublimating invalidation, and say a Hegelian dialectics and its derived dialectics like Marxism wherein aspiration ideology takes a leap above parts with and is not utterly submitted to inherent existence ontological implications). Such a notional deprocrypticism conceptualisation of ‘boundless human aestheticisation and—
aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). It speaks to a metaphoricity\textsuperscript{56} potentiation imbued in humankind defined by ‘human lack-of-capacity/capacity for dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}’ as this relates to existential-extrication-as-of-existential-unthought/nonextricatory-existential-preempting-of-existential-unthought. In this regards, human growth (with regards to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}) is ever always about ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’. Insightfully, the \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} is a reflection of the fact that any given defining human contemplative moment (given registry-worldview/dimension) is marked by the ‘disseminative ontological selectivity/deselectivity play’ of ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up

This contrast is very much aligned with the \textit{ontological-contiguity—of-the-human-institutionalisation-process}\textsuperscript{66} dimensionality-of-sublimating\textsuperscript{24}–\textit{amplituding/formative} supererogatory–de-mentativeness/epistemic-growth-or-

That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced presencing—absolutising-identitive—constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising/sublimating-thoughtfulness/historiality-or-ontological-eventfulness-or-ontological-aesthetic-tracing/prospective-ontological-projection/ideality as to prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold of lack-of—\(<\text{amplituding/formative—epistemicity}\>\) growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness/ desublimating-or-gimmickiness-unthoughtfulness/historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition/social-vestedness-or-normativity/positive-opportunism-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically—\(<\text{conjugatively-and-transfusively}>\) the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing

collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition for prospective possibilities of historiality/ontological-eventfulness/ontological-aesthetic-tracing, the human mind is psychologically entrapped in mental-reflexes of presencing—absolutising-identitive-constitutedness as to the elicited wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-nondescript/ignorable-void—with-regards-to-prospective-apriorising-implications). At the root of this undermining of prospective ‘requisite human dimensionality-of-sublimating—supererogatory—de-mentativity/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ is the social dilution/enfeeblement of value-construction/value-aspiration as to their ‘ad-hoc and incoherent totalising/circumscribing/delineating implications supposedly non-ontological as to non-metaphysical’ (with regards to conceptualising the social-construct prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity value-construction/value-aspiration), as associated particularly with ‘the specious usurpation of the overall social-construct’s intellectual—function/posture as to prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity—<discretely-implied-functionalism> constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing (thus implicitly upholding the notion that the social
is non-ontological as non-metaphysical); especially given that the equanimity/balance for 
upholding democratic sovereignty is in effect achievable only as of ‘de-
mentative/structural/paradigmatic <amplituding/formative–
epistemicity>=totalising/circumscribing/delineating operant considerations for 
equanimitiy/balance with regards to the social, political and media landscapes decision-
making/editorialising processes’, as the often sparing instantiating existential frames of day-to-
day social, political and media landscapes decision-making/editorialising processes are poorly 
 amenable naturally to such ‘<amplituding/formative–
epistemicity>=totalising/circumscribing/delineating operant considerations for 
equanimitiy/balance’ and end up assuming social-vestedness/normativity-<discretely-implied-
functionalism> defaulting postures with occasional clamours for equanimity/balance of the 
decision-making/editorialising processes quite often the niggling exceptions to entrenched and 
existentially-unthought reflex. Such that beyond ‘gimmickiness/desublimation frameworks of 
aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of 
aestheticisation-towards-ontology with respect to prospective human emancipation) becomes 
capitalistically-captured-at-the-exclusion/denaturing55-of-reifying-and-empowering-intellectual-
reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-

the social-construct in present day democracies. But then more than just the more consciously

This existential-extrication-as-of-existential-unthought as to dimensionality-of-desublimating-lack-of\(^{26}\)—\(<\text{amplituding/formative}>\text{supererogatory}\>\) de-mentativeness/epistemic-growth-or-
conflatedness\textsuperscript{12}/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation very much reflects the fact that all presencing—absolutising-identititive-constitutedness\textsuperscript{79} are effectively manifestations of underlying ontological-bad-faith/inauthenticity\textsuperscript{63} with regards to their prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and–teleology\textsuperscript{55}; as all such presencing—absolutising-identitive-constitutedness\textsuperscript{79} fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. Similarly with respect to the ‘requisite human dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ dispensing-with-immediacy–for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility
for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human temporal-to-intemporal-dispositions accordioning-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>) at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity/sublimation/supererogatory—de-mentativity possibilities critically lies in appreciating the enabling ‘prospective predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) constraining that prospectively transforms human ontological-performance capacity’ as of the ‘elucidative foregrounding—entailment-(postconverging–narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective—supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. The bigger point here (as of the ‘elucidative foregrounding—entailment-(postconverging–narrowing-down—sublimation as to existence—as-sublimating—
withdrawal, eliciting of prospective supererogation in reflecting ‘immanent ontological contiguity’), as-operative-notional deprocrypticism in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process lies with the fact that the ‘social-construct amplituding/formative epistemicity totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold imbued secondnatured reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’ (that is, as to any specific registry-worldview/dimension given thrownness-disposition) effectively precedes and defines as ontologically-flawed any notion of a ‘supposed human-subpotency abstract self-determinative ontological-performance including-virtue-as-ontology capacity as to the full-potency of existence’ (as wrongly upheld by presencing—absolutising-identitive constitutedness postures that fail to appreciate the succession of projective stances of ‘human reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation’ as from recurrent-utter-uninstitutionalisation right up to prospective deprocrypticism but for the ontological-veracity of ‘prospective predicative-effectivity sublimation—(as-to-underlying-ontological-commitment) constraining that prospectively transforms human ontological-performance including-virtue-as-ontology capacity’ as to induced prospective sublimation; and so as ‘reflecting the ontological-performance of the reference-of-thought-devolving in formativeness as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism of meaningfulness-and teleology of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing (with regards to ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming—frames—as-from-living,-

In this regards, ‘human instigated meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology capacity’ (so-construed as from the ontological-normalcy/postconvergence epistemic projective-perspective) is rather practically ‘a <amplituding/formative—epistemicity>totalising/circumscribing/delineating signposting exercise’ operating on the overall basis of the ‘social-construct <amplituding/formative—epistemicity>totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold imbued secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ when it comes to social-stake-contention-or-confliction, and so overriding all presencing—absolutising-identitive—constitutedness ontologically-flawed representation of such ‘human instigated meaningfulness-and teleology ontological-performance—including-virtue-as-ontology capacity’ as of a ‘supposed human-subpotency abstract self-determinative ontological-performance—including-virtue-as-ontology capacity as to the full-potency of existence’. This reflects the reality that the transcendental meaningfulness-and teleology of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought respectively are effectively only marginally integratable respectively to prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of reference-of-thought (as to crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so only as the former induce their ‘prospective predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment) constraining that prospectively transforms human ontological-performance—including-virtue-as-ontology>
capacity’; thus reflecting the tight-and-entwined relationship between the overall human ontological-commitment\(^65\) (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation–\(\langle \text{as-to-underlying-ontological-commitment}\rangle\) as the critical enablers for the possibility of prospective transcendental meaningfulness-and-\(^99\)teleology\(^55\). Such an insight divulges the underlying dementative/structural/paradigmatic possibility that arise for sophistic/pedantic dispositions across all registry-worldviews/dimensions as to the prior ‘social-construct \(<\text{amplituding-formative–epistemicity}>\text{totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold}\rangle\) imbed secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’ \(<\text{amplituding-formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag}\rangle\) of human meaningfulness-and-\(^99\)teleology\(^55\) when not subjected to ‘prospective predicative-effectivity–sublimation–\(\langle \text{as-to-underlying-ontological-commitment}\rangle\) constraining that prospectively transforms human ontological-performance\(^71\)-\(<\text{including-virtue-as-ontology}>\) capacity’. Critically, deprocrypticism—or—preempting—disjointedness-as-of-\(^83\)reference-of-thought\(^17\) as converging to the ‘supposed human-subpotency abstract self-determinative ontological-performance\(^71\)-\(<\text{including-virtue-as-ontology}>\) capacity as to the full-potency of existence’ effectively implies the converging of prior ‘social-construct \(<\text{amplituding-formative–epistemicity}>\text{totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold}\rangle\) imbed secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’ towards deprocrypticism\(^17\)’s ‘prospective predicative-effectivity–sublimation–\(\langle \text{as-to-underlying-ontological-commitment}\rangle\) constraining that prospectively transforms human ontological-performance\(^71\)-\(<\text{including-virtue-as-ontology}>\) capacity’. Such a ‘notional–deprocrypticism\(^17\)
as to the full-potency of existence’ in their presencing—absolutising-identitive-
constitutedness\(^79\)) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or-preempting—disjointedness-as-of-\(^{83}\)reference-of-thought\(^{17}\) respectively. This insight points to the fundamental deficiency of all frameworks supposedly involved in articulating human prospective transcendence-and-sublimating meaningfulness-and\(^{99}\)teleology\(^{55}\) whereas there are as of presencing—absolutising-identitive-\(^{13}\)constitutedness\(^79\) prior-apriorising/axiomatising/referencing–dialogical-equivalence-\(<\text{as-superseded-logical-basis}>\)\(^{82}\); as to the fact that with regards to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/formative–epistemicity}>\)totalising–renewing-realisation/re-perception/re-thought,\(-\text{in}\)-supererogatory–epistemic-conflatedness\(^{32}\), the ‘supposed human-subpotaency abstract self-determinative ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) capacity as to the full-potency of existence’ (as reflected by its given reproducibility—mathesis/motif/thrownness-disposition,\(-\text{as–reproducibility-of-aestheticisation}) is prospectively underdetermined for articulating prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity meaningfulness-and\(^{99}\)teleology\(^{55}\). Thus the ‘supposed human-subpotaency abstract self-determinative ontological-performance\(^{71}\)-\(<\text{including-virtue-as-ontology}>\) capacity as to the full-potency of existence’ can only be construed in terms of notional–notional–deprocrypticism\(^{17}\) imbued dimensionality-of-sublimating\(^{24}\)-\(<\text{amplituding/formative}>\)supererogatory–dementativeness/epistemic-growth-or-conflatedness\(^{32}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (so-construed as from the ontological-normalcy/postconvergence epistemic projective-perspective) ‘as it resolves human underdetermination for articulating prospective transcendence-and-

This speaks to the fact that human dialogical-equivalence framing doesn’t supersede prospective sublimating existence’s necessitating implications and consequences, at which point existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} manifests ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ with regards to the possibility of prospective human phenomenal/manifest sublimation and desublimation in existence; as the proponents of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ‘cannot produce any magical logical-congruence implication as of the prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>\textsuperscript{82} of the proponents of classical-mechanics—axiomatic-constructs’ but for the prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis>\textsuperscript{81} of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism\textsuperscript{43} of physics implied tight-and-entwined relationship between the overall human ontological-commitment\textsuperscript{65} (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65}) as critically enabling prospective sublimation. In effect, such a controversy of ontological-bad-
faith/inauthenticity\textsuperscript{63} never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65})’ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65}) associated with the physical sciences and generally ‘much of the basic/fundamental and disinterested natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment\textsuperscript{65})’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification\textsuperscript{86} issues as to prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{65}’ is either indirectly or directly undermined with social-vestedness/normativity-<discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with \textlt{amplituding/formative} wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-\textsuperscript{83}reference-of-thought—categorical-imperatives/axioms/registry-\textsuperscript{99}teleology\textsuperscript{8}) over existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-\textlt{amplituding/formative—epistemicity} totalising—renewing—realisation/re-perception/re-thought,—in-supercerogatory—epistemic-conflatedness\textsuperscript{12}. This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-
implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding—entailment-{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},–as-operative-notional–deprocrypticism imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s foregrounding—entailment-{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},–as-operative-notional–deprocrypticism; and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest–subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicited contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest–subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>’ with the ‘supposedly profound
phenomenal/manifest~subpotencies-<in-transitive-conflatedness^{12}–reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence>‘ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity-<discretely-implied-functionalism> disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect–immanent^{66}ontological-contiguity’; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supercerogatory-epistemic-conflatedness^{12} sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the^{66}ontological-contiguity—of-the-human-institutionalisation-process^{67}. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest~subpotencies-<in-transitive-conflatedness^{12}–reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence> to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest~subpotencies-<in-transitive-conflatedness^{12}–reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence>‘ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of^{66}ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of^{66}ontological-

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating necessitation frame—of—\textsuperscript{66}ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness—\textsuperscript{99}teleology—<in-existential-extrication-as-of-existential-unthought\textsuperscript{6}) work paradoxically only by impliciting the reality of the ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating necessitation frame—of—\textsuperscript{66}ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest—subpotencies—<in-transitive-conflatedness\textsuperscript{42}—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame—of—\textsuperscript{66}ontological-contiguity, and so as of vague disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—‘immanent—\textsuperscript{66}ontological-contiguity’>. Such flawed and surreptitious representation that

contiguity’ (as implied as of the requisite ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity38 foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation in reflecting ‘immanent-ontological-contiguity’)—as-operative-notional—deprocrypticism43 in elucidating ontological-contiguity—<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional—projective-perspective>’), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame—of—ontological-contiguity’ sublimating implications and consequences).

Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation—<unforegrounding—disentailment,—failing-to-reflect—immanent—ontological-contiguity’> as to elaboration-as—mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity38, and thus in many ways further undermine/distract-from
the social ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in–supererogatory–epistemic-conflatedness) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive–constitutedness as being of ‘absolute epistemic-normalcy’; and it is because of this
latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaningfulness-and—teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing of the ontological-performance of human temporal-to-intemporal-dispositions narratives’: and so as to human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as—of—totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-confoundedness (in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of—the-human-institutionalisation-process), of human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as—of—existential-reality as to the disseminative—selectivity-of-ontological-good-faith/authenticity—over—
even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity-<discretely-implied-functionalism>’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness.\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} are vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-\textsuperscript{66}ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with
intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-⟨amplituding/formative-epistemicity⟩totalising-in-relative-ontological-completeness⁸⁷) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of-⟨amplituding/formative-epistemicity⟩totalising–renewing-realisation/re-perception/re-thought, in supererogatory epistemic-confalatedness¹²; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness⁷ of meaningfulness-and teleology⁵⁵ in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating⁻⁴⁻<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confalatedness¹²/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ontological-good-faith/authenticity⁶⁸–de-mentating/structuring/paradigming-⟨seeding/incipient–profound⁶⁹–supererogation,–as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema⟩) to sophistic/pedantic <amplituding/formative>wooden-language-{imbued—temporal–mere–

hyperrealisation/hyperreal-transposition\textsuperscript{46} and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of.\textsuperscript{83}reference-of-thought\textsuperscript{88} to go on cynically eliciting <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and.\textsuperscript{59}teleology\textsuperscript{55}-as-of-‘nondescript/ignorable–void\textsuperscript{59}-with-regards-to-prospective-apriorising-implications⟩ as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-\textsuperscript{13}constitutedness\textsuperscript{79}’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness\textsuperscript{87} knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of.\textsuperscript{83}reference-of-thought\textsuperscript{88} respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of.\textsuperscript{83}reference-of-thought\textsuperscript{77} value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact
that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) as to an epistemically-decadent wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology; and so as to the fact that the magnanimity of dispensing-with-immediacy-forrelative-ontological-completeness-by-reification/contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and depocalypticism—or—preempting—disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as
reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisddoms’ is nothing more tham <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatc-drag. Hence basically the overall differentiation between purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness) is ‘the scalar conception that enables prospective
human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness\textsuperscript{79} <amplituding/formative–epistemicity> totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring\textsuperscript{54}-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ is reflected with regards to its prospectively implied epistemic-abnormalcy/preconvergence\textsuperscript{58} construed as of incrementalism\textsuperscript{56}-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation epistemic-projection perspective. Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus speak to the fact that human prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied limited-mentation-capacity-deepening\textsuperscript{52} (as to dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26}) is actually induced as from human uncomemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}-by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} imbued prospectively of both sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace and desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}; as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-
<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-
possibility-for-the-later-ontologisation>’ prospective desublimating historicity-tracing—in-
presencing–hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-
mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance
<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historicity/ontological-eventfulness/ontological-aesthetic-tracing and ‘a non-
scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>
perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-
immediacy-for-relative-ontological-completeness/reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness/reification/contemplative-distension rather reflects the epistemic
perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’; with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spiritedrivenness—equalisation as the inherent ontological-good-faith/authenticity of de-mentating/structuring/paradigming—<seeding/incipient—profound supererogation—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> effectively reflected as of notional—deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance—<including-virtue-as-ontology> as to sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating historicity-tracing— in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholding—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive—constitutedness. Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholding—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance—with regards to human meaningfulness-and—teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-
mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment65⟩ is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition46 of ‘human-subpotency non-scalarity/beholdening-⟨as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation⟩’ in presencing—absolutising-identitive-13-constitutedness79, while the former strongly constrained to high predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment65⟩ is rather relatively amenable to sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing45 as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation- and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition46) as superseding social intellection itself as an inherent
exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’
(as to the latter’s prospective sublimating historality/ontological-eventfulness/ontological-
aesthetic-tracing⁴⁵). Critically such a ‘purist science/ontology epistemic-conception of
veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of
’supposedly veridical ontological justifications/grounds’ but which on closer examination as of
‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-
onontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-
reflexivity-of-the-full-potency-of-existence’s-sublimating–nascence>; and so as to the relative
impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism>
epistemic-conception of veracity/truth’ (so-construed as from the ontological-
normality/postconvergence epistemic-projection perspective). This insight further informs
prospective notional–deprocrypticism¹⁷ appraisal of the ‘tight-and-entwined relationship
between the overall human ontological-commitment⁶⁵ (across all registry-
worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-
effectivity–sublimation-{as-to-underlying-ontological-commitment⁶⁵} (reflecting
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’). In this regards,

On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification⁸⁶ is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment⁶⁵ (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment⁶⁵) as critically enabling prospective sublimation’ so-implied as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-totalising-formative–epistemicity totalising-in-relative-ontological-completeness⁸⁷. The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought>⁶) is how to exploit the fact that there is no ‘universalising⁸³-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment⁶⁵)’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment⁶⁵)’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers universalising⁸³-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-⁹⁹teleology⁵⁵ by
eliciting presencing—absolutising-identitive-constitutedness sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness- and teleology respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at muddling promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—

This point out that the successive relative-ontological-completeness\(^8\) as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism\(^{17}\) respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human \(^8\)reference-of-thought (as grandest axiomatic-construct level)

Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional-asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturizing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology) which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturting of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunum that is decisively responsible for
destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness\(^{87}\) logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) is in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\) with the relative-ontological-incompleteness\(^{88}\) logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{101}\)>; it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-\(^{96}\)supererogation that affirmatively upholds the relative-ontological-completeness\(^{87}\) over the relative-ontological-incompleteness\(^{88}\) (as to their supposedly coherent ontological-commitment\(^{65}\)). as explained above and clearly obvious with human living-development–as-to-personality-

with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-

methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given

underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in
absolute terms whereas in reality there are veridically relative subontologisation of ontology as
metaphysics-of-presence’; and it is here that the genuine social intellectual–function/posture
comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of
human ontological-performance–<including-virtue-as-ontology> for the possibility for its
prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-
or-guilding-or-amplifying–scalarisation–as-to-existence—as-sublimating-withdrawal,–
eliciting-of-prospective-supererogation>, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity,<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology—as-in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation-profundity–de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly de-mentated/structured/paradigmed to
skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology as of existential-unthought positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive—constitutedness ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive—constitutedness mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development—as-infrastructure-of—meaningfulness-and—teleology but is equally reflected in a poor-spirited bland conception of human living-development—as-to-personality-development and institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive—constitutedness end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive—constitutedness existentialising—enframing/imprintedness—discretely-implied-functionalism> of social-vestedness/normativity and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historicity—ontological-eventfulness/ontological-aesthetic-tracing) that goes beyond presencing—absolutising-identitive—constitutedness and generate the requisite de-mentative/structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding
disposition of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-\(13\) constitutedness\(79\) existentialising—enframing/imprintedness—\(\text{as-to-historicity-tracing—}\)in-presencing—hyperrealisation/hyperreal-transposition\(46\) subontologising palliative terms that as to their specifically defined ‘human social-vestedness/normativity—\(\text{as-to-discretely-implied-functionalism}\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ are very much integrative of collateral aspects as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by dulling the social-construct’s conscience in this way rather distracts from the realisation and contemplation of the full possibilities for profound de-mentative/structural/paradigmatic transformation of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. The subtle manifestation of the social implications of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness–\(99\) teleology—\(\text{in-existential-extrication-as-of-existential-unthought}\)\(6\) positive-opportunism\(75\) of living-development—\(\text{as-to-personality-development and institutional-development–as-to-social-function-development}\) with regards to our positivism–procrypticism\(88\) registry-worldview/dimension can be appreciated in present day sycophantic-sophistry and intellectual-muddlement—(blurring/undermining-of-prospective-totalising-entailing—\(\text{as-to-entailing—}\)amplituding/formative–epistemicity\()\text{totalising—}\)in-relative-ontological-completeness\(87\)), media-driven disenfranchising narrative existentialising—enframing/imprintedness—\(\text{as-to-historicity-tracing—}\)in-presencing—hyperrealisation/hyperreal-

human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34} as to human limited-mentation-capacity veridically implies that ‘existence is not beholding to that human thrownness and the critical human teleological as to ontological-performance\textsuperscript{71}.<including-virtue-as-ontology> issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence’. The
implication here is that the ‘ontological-good-faith/authenticity-de-mentating/structuring/paradigming-seeding/incipient–profound-supererogation,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> existential-condescension-of-apriorising/axiomatising/referencing–psychologism’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming> with regards to human formativeness-as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>of–meaningfulness-and-teleology. Thus it is only the possibility of ‘ontological-good-faith/authenticity-de-mentating/structuring/paradigming-seeding/incipient–profound-supererogation,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> existential-condescension-of-apriorising/axiomatising/referencing–psychologism’ that can thus allow human existential-discursivity—implicit-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness-amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance—including-virtue-as-ontology) cannot be neutrally be separated from human-amplituding/formative–epistemicity>totalising–thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance—including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a
‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity⁶⁸–de-mentating/structuring/paradigming-<seeding/incipient–profound⁶⁹–supererogation, as-mentally-aestheticised–postconverging/dialectical-thinking²⁸–qualia-schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness⁸⁸ doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance⁷¹–<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence³⁴ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment⁶⁵) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive–constitutedness⁷⁹ articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity³⁸. In other words, our intellectual-and-moral responsibility is already engaged as to our amplituding/formative–epistemicity totalising~thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating—amplituding/formative supererogatory~de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spiritedrivenness—equality. is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its 66ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall 66ontological-contiguity—of-the-human-institutionalisation-process67 so-associated with human limited-mentation-capacity-deepening52). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence as to presencing—absolutising-identitive-13constitutedness79 〈amplituding/formative-epistemicity〉totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag333 on the one hand and on the other hand difference-conflatedness12-as-to-totalitative-reification86-in-92singularisation-as-veridical-epistemic-determinism21 as to relative-ontological-completeness87 〈amplituding/formative-epistemicity〉causality-as-to-projective-totalitative-implications,-for-explicating-66ontological-contiguity44, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the 66ontological-contiguity—of-the-human-institutionalisation-process67. This is so fundamentally because of human 99teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting 〈amplituding/formative〉disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and 〈amplituding/formative〉entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening52 underlying the 66ontological-contiguity—of-the-human-institutionalisation-process67); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-13constitutedness79 given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-

Human sublimation as such in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(^67\) is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism\(^75\) social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-\(^9\)teleology\(^55\). But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness\(^87\) and ‘inmaterial/social overall relative-ontological-incompleteness\(^88\)–presublimation-construct–of–meaningfulness-and-\(^9\)teleology\(^55\) instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness\(^87\)–
\(^83\)reference-of-thought-devolving\(^84\)\>\(^7\). In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness\(^88\)–presublimation-construct–of–meaningfulness-and-\(^9\)teleology\(^55\) of their epoch wanting, explaining for instance Rousseau’s appreciation of the ‘noble savage’ and nature as speaking to an aporeticism that
recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn’t imply just killing animals at whim); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and—teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and—teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-
opportunism driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/comemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology of our positivism—procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination—<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal—of—existence> of notional—notional—deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and—teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness—and—teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving—>’ that goes on as of presencing—absolutising-identitive-
constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the present day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in
the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itsel precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enкультурated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\(^{46}\)>’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—

In this regard, relic/artifactual conception of veridical human historicity/ontological-eventfulness/ontological-aesthetic-tracing rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identitive—constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices).

Thus inherently ‘human temporal-to-intemporal-dispositions accordioning-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>), as to living-development–as-to-personality-development is de-mentatively/structurally/paradigmatically reflected in the overall \textsuperscript{66}ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} (as of successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}) is rather by the narrowing-down selectivity and secondnaturing of the intemporal-disposition at the utter exclusion of temporal-dispositions (that is, until the prospective destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)—of-ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> reflect human temporal-to-intemporal-dispositions in want for the same narrowing-down selection of the intemporal-disposition as to ‘human <amplituding/formative–epistemicity>totalising~thrownness-in-existence\textsuperscript{34},-imbued-projective-arbitrariness/waywardness-(as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of–’<amplituding/formative–epistemicity>totalising~conceptualisation’) (speaking of varying temporal-to-intemporal human ontological-performance\textsuperscript{71}–<including-virtue-as-ontology>) fundamental subjection to prospective existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation for intemporal-disposition selectivity in reflection of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{28}–‘projective-insights’/‘epistemic-projection-in-conflatedness\textsuperscript{12}–of-notional–deprocripticism\textsuperscript{17}–prospective-sublimation)\textsuperscript{90}. This thus implies that human social-
induced meaningfulness-and-teleology across the successive registry-worldviews/dimensions (as associated with psychopathy in our positivism–procrypticism registry-worldview/dimension); wherein the possibility for the specifically given registry-worldview/dimension induced postlogism and social-postlogism is fundamentally possible only as of the specific registry-worldview/dimension destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-

Such that the manifested postlogism-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) is directly related to the presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning disposedness-{as-to-orientation/value-construct/valuation–and–derived-parameterising} to be cognisant-and-integrative in prelogism-as-of-conviction,-as-to-profound-supererogation (construed as if of postconverging-or-dialectical-thinking–apriorising-psychologism) of the same meaningfulness-and-teleology articulated as of postlogism manifestation (articulated rather as preconverging-or-dementing–apriorising-psychologism) thus inducing the conjugated-postlogism; and so as to the fact that for instance a postlogism manifestation grounded in a social-setup as of say an animistic social-setup cognisant-and-integrative of notions-and-accusations-of-sorcery in prelogism-as-of-conviction,-as-to-profound-supererogation (as if of postconverging-or-dialectical-thinking–apriorising-psychologism) is susceptible to the postlogism of notions-and-accusations-of-sorcery meaningfulness-and-teleology (articulated rather as preconverging-or-dementing–

Thus the idea of ‘prelogism\(^7^8\)-as-of-conviction,-as-to-profound-\(^9^6\)supererogation cognisance-and-integration in presublimation \(^8^3\)reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning \(<\text{amplituding/} \text{formative}>\) disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising)’ speaks to the fact that more fundamentally postlogism\(^7^7\) and social-postlogism\(^7^7\) implications are ontologically escalating beyond just any particular/specific existential manifestation of postlogism\(^7^7\) and that inherently a presublimating \(^8^3\)reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning is rather de-mentatively/structurally/paradigmatically an ontological-deficiency paradoxically in-wait for its manifest postlogism\(^7^7\) and social-postlogism\(^7^7\) and such a presublimating \(^8^3\)reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning as to its cognisance-and-integration of postlogism\(^7^7\) is the more ontologically profound conceptualisation as to systemic aetiologisation/ontological-escalation implications of social pervasiveness of postlogism\(^7^7\) and conjugated-postlogism\(^7^7\). Ultimately as from the technical ontological-veracity of originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional-deprocrypticism\(^1^7\), disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent,\(^6^6\)ontological-contiguity’> insight (as to the mix-up/muddling of presublimating \(^8^3\)reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning and prospective nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness\(^8^7\)-\(^8^3\)reference-of-thought-devolving\(^8^4\)> ) projects an incrementalism\(^5^0\)-in-relative-ontological-incompleteness\(^8^8\)—enframed-conceptualisation that ‘undermines ontological-veracity as of maximalising-recomposuring\(^5^4\)-for-relative-ontological-completeness\(^8^7\)—

The psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation, is de-mentatively/structurally/paradigmatically already validating the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation as paradoxically valid for all instances of aposteriorising/logicising/deriving/intelligising/measuring warranting positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–

Interestingly, this seedingly/incipiently fundamental paradox of ‘prospective/nascent sublimating supererogation–unbeholdening-conflatedness’ and ‘presublimating relic/artifactual–beholdening-constitutedness’ as to its perpetuative encumberment of human intelligibility, correspondingly highlights the inherent disambiguation of human meaningfulness-and-teleology’s ‘as of the seeding/incipient encumberment of its momentous-unbeholdening–aestheticising-reflex with its merely-beholdening–aestheticising-reflex’ (so-perpetuative as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology), as the more critical drawback to overarching reframing of ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality. This insight can be translated by the fact that nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving>) as to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence ‘beyond and unbeholdening to any human merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology’, and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of meaningfulness-and-teleology; so-reflecting the fact that overall human civilisation (notwithstanding any

In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing45> (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising183 societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human

The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment\textsuperscript{65} of meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55}, a ‘human psychological-disposition for supererogatory-unbeholding-conflatedness\textsuperscript{12}
historiality/ontological-eventfulness/ontological-aesthetic-tracing\textsuperscript{45} of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. This overall insight is particularly salient in the sense that the ‘human

That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism consequences of deferring to ‘universal-transparency\textsuperscript{104}.(transparency-of-totalising-entailing,-as-to-entailing-\textlangle\textit{amplituding}/formative–epistemicity\textrangle\textit{totalising–in-relative-ontological-completeness}\textsuperscript{87}) of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective\textsuperscript{96}supererogation) with the lack of such ‘universal-transparency\textsuperscript{104}.(transparency-of-totalising-entailing,-as-to-entailing-\textlangle\textit{amplituding}/formative–epistemicity\textrangle\textit{totalising–in-relative-ontological-completeness}\textsuperscript{87}) of sublimating–nascence’ as to when ‘blurriness\textsuperscript{7} in existentialising–decisionality’ arises inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness\textsuperscript{88}–presublimation-construct–of–meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} desublimating–existentialising–decisionality). The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human meaningfulness-and\textsuperscript{99}teleology\textsuperscript{55} of ‘blurriness\textsuperscript{7} in existentialising–decisionality’ as rather poorly amenable to profound ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ as it is relatively the case in the natural sciences (and so beyond-the-consciousness-awareness\textsuperscript{99}teleology-\textlt{in-existential-extrication-as-of-existential-unthought}\textrangle\textsuperscript{6}); as to the fact that existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective\textsuperscript{96}supererogation-\textlangle\textit{as-to-perspective-ontological-}

instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions

construct wherein positivistic technical and material nascent-sublimations can relatively be easily
appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more
profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-
frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and—
teology reflecting a positivising referencing/registry/decisioning is more problematically
conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-
positivistic presencing—absolutising-identitive—constitutedness existentialising–decisionality
psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–

psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in

worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation induced psychologism of 83reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation psychologism of 83reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology55 ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-96supererogation with regards to sublimating–nascence teleological-inflection-⟨as-to-more-profound-nondisjointing–<amplituding/formative–epistemicity>totalising/circumscribing/delineating⟩’, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations-⟨blinded-to-their-relative-ontological-completeness87–83reference-of-thought-devolving84⟩ as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-96supererogation’ in the sense that the technician and natural scientist are unconcerned with ‘any social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality imbuement’ supposedly superseding existence—as-sublimating-withdrawal,-eliciting-of-prospective-96supererogation given that any such social and institutional pretense-of-sublimation cannot generate any inherent technical and scientific sublimating–nascence (wherein if such social-and-institutional-frameworks-of—referencing/registering/decisioning pretense-of-sublimation warrants gravity

very de-mentative/structural/paradigmatic undermining of the possibility of natural science and

‘precedingly defining the possibility of prospective knowledge over inherent knowledge’ is itself
the very de-mentative/structural/paradigmatic desublimating undermining of the possibility of

can pretend to a status bigger than existence—as-sublimating-withdrawal,-eliciting-of-

ignorance/ineptitude/incompetence often does not naturally arise with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness⁷ in existentialising-decisionality’ and thus must be actively implied in social knowledge conceptualisation as to ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing¹⁰¹’ not as utterly doing away with human sovereignty but rather as explicitly projecting the notion of appropriate-and-coherent human sovereignty deferential-formalisation-transfererence ‘in relation to prospective knowledge as of human specialisation-and-focussing, time-investment as well as effectively manifestable sublimation’ and so with regards to human limited-mentation-capacity implied requisite expediency for profound human ontological-performance⁷¹¬<including-virtue-as-ontology> associated with human intemporal individuations firstnatured instigation of prospective sublimation and subsequent human positive-opportunism⁷⁵ secondnatured institutionalisation). This lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing¹⁰¹’ as arising at destructuring-threshold-(uninstitutionalised-threshold¹⁰²/presublimating–desublimating-decisionality)~of-ontological-performance⁷¹¬<including-virtue-as-ontology> is the very element particularly acted upon by social and intellectual pedantry as to incrementalism⁵⁸—in-relative-ontological-incompleteness⁸⁸—enframed-conceptualisation (as it can be appreciated for instance that the lack of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing¹⁰¹’ in a non-positivistic social-setup between prospective positivistic knowledge and prior non-positivistic knowledge is exactly what can enable pedantic dispositions to cultivate non-positivistic meaningfulness-and-⁹⁹teleology⁵⁵ in such a social-setup), and critically in this regards it principally involves intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-
entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^87\) as undermining the social-construct’s intellectually potent reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^73\)-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation\(>\). Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily muddling when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency\(^104\)-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^87\)) as to a de-mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity\(^63\) in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of meaningfulness-and-\(^99\)teleology\(^55\)’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-\(^96\)supererogation. Critically the ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness\(^87\>– reference-of-thought-devolving\(^84\)> is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-\(^96\)supererogation thus relatively undermining such ‘beholding as sovereignising–imbued-subontologisation/subpotentialisation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness\(^7\) in existentialising–
decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness’, wherein blurriness’ is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification86 rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification86–gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human temporal-to-intemporal-dispositions as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness–teleology–<in-existential-extrication-as-of-existential-unthought>6). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of intellectual-muddlement-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness87) as part and parcel of prospective knowledge-reification86 as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency104–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness87) of knowledge-reification86’ (and so as to self-serving social-vestedness/normativity–<discretely-
implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification\textsuperscript{86} for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness\textsuperscript{7} in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency\textsuperscript{184}-(transparency-of-totalising-entailing,–as-to-entailing–\langle\text{amplituding–formative–epistemicity}\rangle-totalising~in-relative-ontological-completeness\textsuperscript{87}) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness-\langle-as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\textsuperscript{46}\rangle as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of
sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence, speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating–existentialising–decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness\textsuperscript{7} of the social which can effectively be brought to exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification\textsuperscript{86} process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of human temporal-to-intemporal-dispositions) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to
prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes
of prospective knowledge-reification\(^8^6\) is about prospective social-stake-contention-or-
confliction and not prior social-stake-contention-or-confliction (as for instance prospective
positivistic meaningfulness-and-\(^9^9\)teleology\(^5^5\) is not developed to go about articulating/relating-

to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human temporal-to-intemporal-dispositions is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally–collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence-potency—sublimating—

It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency→sublimating→nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness\textsuperscript{12} in reflecting holographically→<conjugatively-and-transfusively> the 66ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} since it will always be caught-up in its presencing—absolutisingidentitive→constitutedness\textsuperscript{79} existentialising—enframing/imprintedness→as-to-historicity-tracing—in-presencing→hyperrealisation/hyperreal-transposition\textsuperscript{46} as to its underlying presencing-distorted—meritocracy,totalising—sovereign-appropportioning—of-human-ontological-performance\textsuperscript{71}→<including-virtue-as-ontology> desublimating→existentialising—decisionality. In other words ‘the legislation for human prospective sublimation’ (as to
sublimating–existentialising–decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and the positive-opportunism arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implications) and in that regards the triteness of human pedantry in incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation and \(<\text{amplituding/formative}>\text{wooden-language-} (\text{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications>})\)

patently doesn’t count (given the latter associated temporal desublimating–existentialising–decisionality in existential-extrication-as-of-existential-unthought that fails aetiologicalisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating–nascence engages human ontological-commitment\(^{\text{65}}\) as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity\(^{\text{68}}\)–as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment\(^{\text{65}}\)).

The fact is the intellectual exercise is more acutely/incisively about identifying the relevant
aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantry vague proceduralism (beyond-the-consciousness-awareness-\textsuperscript{99}teleology-\textlangle in-existential-extrication-as-of-existential-unthought\textrangle\textsuperscript{6} as to the simple fact that human prospective destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating–decisionality)-\textlangle of-ontological-performance\textrangle\textsuperscript{71}-\textlangle including-virtue-as-ontology\textrangle means that human meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} is ever always caught up prospectively between intellectualism sublimating–existentialising–decisionality and pedantry desublimating–existentialising–decisionality. This is the case given the requisite condition for the very basic human sublimating–existentialising–decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-\textsuperscript{96}supererogation-\textlangle as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’\textrangle (reflecting the ever always present challenge for intellectualism over pedantry); so-underscored by the ever always present challenge for human dimensionality-of-sublimating\textsuperscript{24}—\textlangle amplituding/formative\textrangle supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to requisite epistemic-conflatedness\textsuperscript{12} implied projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing induced ‘projective-insights for predicative-insight’. implications), is reflected in the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification (on the basis of desublimating prior apriorising/axiomatising/referencing—psychologism in epistemic-abnormalcy/preconvergence)
missing to grasp the underlying dimensionality-of-sublimating—
<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equation of the said prospective sublimating knowledge-reification; as to imply that (say with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and—teleology) it is supposedly possible to understand the veracity of any specific positivistic meaningfulness-and—teleology while remaining of non-positivistic mindset, which inevitably induces a relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and—teleology
desublimating—existentialising—decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development—as-to-personality-development and institutional-development—as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that
the social-construct meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence\textsuperscript{30}, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive\textsuperscript{-13}constitutedness\textsuperscript{79} existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}> (beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence\textsuperscript{30} of the social-construct meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicated exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-\textsuperscript{99}teleology-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}) about substituting a different and desublimating—existentialising—decisionality (whether of pedantic incrementalism\textsuperscript{58} in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation or <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-\textsuperscript{99}teleology\textsuperscript{55} as-of—‘nondescript/ignorable–void\textsuperscript{99}’—with-regards-to-prospective-apriorising-implications>) and particularly so in relatively blurry domains-of-study/domains-of-interest (as we can appreciate that such a ‘technically wrong presencing—absolutising-identitive-

In both elucidations of ‘distantiation of contemplative existentialising–frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and—teleology and living-development—as-to-personality-development and institutional-development—as-to-social-function-development), and so overriding any beyond-the-consciousness-awareness—teleology—in-existential-extrication—as-of-existential-unthought, the blunt fact of the matter is that the very dementative/structural/paradigmatic possibility of human ontological-performance—including-virtue-as-ontology is ‘more veridically construed as of nonpresencing—<perspective—

This critical pure-ontology analysis point out that meaningfulness-and-\textsuperscript{69}teleology\textsuperscript{55} cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification\textsuperscript{86} ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity\textsuperscript{63}—dementating/structuring/paradigming-\textless seeding/incipient—shallow\textsuperscript{64}—supererogation,-as-mentally-aestheticised—preconverging/dementing\textsuperscript{64}—qualia-schema\textgreater{} as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory—shallowness or supererogatory—profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality proned to presencing—absolutising-identitive\textsuperscript{13}constitutedness\textsuperscript{79} existentialising—enframing/imprintedness—\textless as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{46}\textgreater{} needs to be critically brought to the consciousness-awareness-\textsuperscript{59}teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sUBLIMATION as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{86}), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of
the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification—gesturing as determining sublimating—existentialising—decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}−<imbued-and-‘hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility\textsuperscript{73}—effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation. Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-sublimating—de-mentating/structuring/paradigming or existence-desublimating—de-mentating/structuring/paradigming elicitable respectively as from human ontological-good-faith/authenticity\textsuperscript{68}—de-mentating/structuring/paradigming—<seeding/incipient–profound\textsuperscript{69}−\textsuperscript{96}supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking\textsuperscript{20}—qualia-schema> or ontological-bad-faith/inauthenticity\textsuperscript{63}—de-mentating/structuring/paradigming—<seeding/incipient–shallow\textsuperscript{64}−\textsuperscript{96}supererogation,—as-mentally-aestheticised—preconverging/dementing\textsuperscript{19}—qualia-schema>. Critically, human existence-desublimating—de-mentating/structuring/paradigming—by—existence-sublimating—de-

Rather human sublimation so-reflected in human ontological-performance\(^7\) (including-virtue-as-ontology) rather points to an ‘overall interceding human-and-social–expectations/anticipations—metaphoricity\(^5\)/as-rede-mentating/restructuring/reparadigming–psychologism existentialising—framing/imprinting–<as-to-prospective–historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^4\)) of ordered human firstnatureness–deferentialism-imbuing and secondnaturedness–deferentialism-deriving as of underlying human ontological-commitment\(^6\) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation’, with ‘mere discrete individuals relevant ontological-performance\(^7\)
<including-virtue-as-ontology>’ being about acting upon this ‘overall interceding human-and-social–expectations/anticipations—metaphoricity \(^{56}\) as re-de-mentating/restructuring/reparadigming–psychologism existentialising—framing/imprinting—<as-to-prospective–historiality/ontological-eventfulness/ontological-aesthetic-tracing \(^{45}\)> of ordered human firstnatureness–deferentialism-imbuing and secondnaturedness–deferentialism-deriving as of underlying human ontological-commitment \(^{65}\) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation’ whether in firstnatureness–deferentialism-imbuing capacity or appropriate secondnaturedness–deferentialism-deriving capacity (as so-reflecting human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as to the disseminative—selectivity-of-ontological-good-faith/authenticity \(^{68}\)–over–deselectivity-of-ontological-bad-faith/inauthenticity \(^{63}\)). This points out why human knowledge is veridically a race-to-the-top-exercise/millipede-movement as to the very givenness of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation–<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> that is not subjected to human-subpotency; as to the fact that it is only a human limited-mentation-capacity maximalising-recomposuring \(^{54}\) for relative–ontological-completeness \(^{87}\) —unenframed-conceptualisation relation with existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation that can induce sublimation-over-desublimation. Such a veridical ontology (in relegating/doing-away-with/superseding the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is critically all about ‘a coherent totalising-entailing knowledge-reification \(^{86}\)–gesturing’ exposed to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation–<as-to-perspective-ontological-normalcy/postconvergence-implied–

imbued conceptivity/epistemic-reflexivity (so-reflected in the ‘momentousness-driven coherence
of knowledge-reification\(^6\)-gesturing as to entailing-<amplituding/formative–

limited-mentation-capacity-deepening\(^5\)). It is important to note in this regards that ‘knowledge-
reification\(^6\)-gesturing historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^4\)’ is
the more profound conception of ontology and science (as to human dimensionality-of-
sublimating\(^2\)—<amplituding/formative–

that supersedes mere-manipulable formulaicity’ driving ontology and science across their
punctual developments from past to present and into the future (underlined by human
‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness\(^4\)/formative–

This elucidation is important in the sense that pedantic science-ideology is driven by a conception
of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,–
as–reproducibility-of-aestheticisation that poorly appreciates the profound\(^6\)supererogation in
the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and

‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied

precedence over inherent prospective knowledge-reification\(^6\)’), with this shallow–
supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identititive-

with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as muddling of genuine knowledge, in ‘temporal beholdening as sovereignising–imbued-

In other words, the global political and geopolitical dynamics itself (so-associated with derived economic and social dominance/vested-interest) is de-mentatively/structurally/paradigmatically instigative of a ‘surreptitious-and-flawed claim in desublimating–existentialising–decisionality upon human genuine social intellectual–

<including-virtue-as-ontology>. This latter conceptualisation goes well beyond a point of just mere technical ontological-pertinence as to the fact that it operantly captures in a nutshell the prospectively requisite human aporeticism overcoming/unovercoming in upcoming years and decades, as to the capacity for the human to redefine humanity in the light of the societal and technological transformations of the past few decades and the resultant/developing geopolitical context. It is herein contended that the incapacity for such a collective reconstrual of humanity (as to ‘intemporal unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality’) following the social and industrial transformation
occurring by the end of the 19th century very much underlies the ‘temporal beholdening as
sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as
to desublimating–existentialising–decisionality supposedly taking precedence over inherent
prospective knowledge-reification)’ which could only end up in the human-made calamities of
the 20th centuries so-critically attributable to dominion/statal–logic–(preconverging/shallow-

Ancient Athenian political decadence associated with the Socratic philosophers aspiration for

Such a varying relation between the possibility for profound-supererogation inducible as from genuine social intellectual–function/posture and dominion/statal–logic-{preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>}) in many ways across human history is intimately tied to ‘perceived urgency in social mood’ whether as to a mood of enlightening-renewal or hegemonic-ascendency. It is no wonder that periods following heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a genuine social intellectual–function/posture obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very genuine social intellectual–function/posture (as to its abstract notional/epistemic possibilities for prospective sublimation/emancipation so-undermined by dominion/statal–logic-{preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>}) tend to be paradoxically reconstrued (on the basis of dominion/statal–logic-{preconverging/shallow-supererogating-

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness basis for such supposedly ontological insight so-critically provided by the veridical genuine social
undermining such pedantic incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a de-mentative/structural/paradigmatic issue of intellectual irrelevance no less than punctual technical or scientific incompetence can be transformed into a de-mentative/structural/paradigmatic issue of technical or scientific irrelevance but rather requisite profound—supererogation over say pseudoscience and/or ‘distorted institutional science’ (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification tends to be notionally/epistemically caught up between a sublimation and desublimation/gimmickiness de-mentating/structuring/paradigming’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.); and in many ways dominion/statal–logic—⟨preconverging/shallow–supererogating—‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming—psychologism’–as-to-its-specific–collateralising-beholdening—⟨whether–trepidatious-or-warped-or-preclusive-or-occlusive⟩–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social–vestedness/normativity—⟨discretely-implied-functionalism⟩⟩ pursuit of such vague argumentations for subverting the genuine social intellectual–function/posture is rather all about the ruthless adoption of a perambulatory course for institutional and political ascendency rather than a question of genuine preoccupation as to the requisite dispensing—with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension associated with veridically profound genuine social intellectual–function/posture and its sublimating implications of ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full—

In our modern day context, the very essential ‘public-sovereignty—giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal—logic—(preconverging/shallow-supererogating—human-and-social—expectations/anticipations—dementating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising—beholdening—whether—trepidatious—or-warped—or-preclusive—or-occlusive—and—its—consociated-dominance/vested-interest-subontologising-skewed-influence—as-to-social—vestedness/normativity—<discretely-implied-functionalism>) subverting the sublimating—existentialising—decisionality of the genuine social intellectual—function/posture; and so as to the fact that the democratic process ‘public-sovereignty—giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual—function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention—or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning—suprasocial-construct existentialising—enframing/imprintedness—<as-to-historicity-tracing—in-presencing—
