Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science calls for a mutual sense of
such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reproductive insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought
it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\textsuperscript{15} \textsuperscript{16} \textsuperscript{17} \textsuperscript{18} <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasia—drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology}\textsuperscript{19}—stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness>/ontological-aesthetic-tracing> right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification\textsuperscript{20} of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating\textsuperscript{21}—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation behind the ‘inventing’/‘creation’ of prior knowledge fades into secondnatured mechanical dispositions

This has developed in our present age of

the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought,
as to the relentless expansion of our modern merchandising mentality to which nothing resists;
and paradoxically, such a disposition hangs onto the ‘dereified as-deficient-reflexivity of our

media-driven imprimaturing increasingly usurping the role of genuine academic standard
production and ultimate validity hanging on the mere imprimatur. As what becomes critical in
such a context is no longer prospective knowledge-reification as the primary and essential
constraining worth but rather obsession with mere sway and influence even to the point of
undermining prospective knowledge-reification as supposed intellection is increasingly infused
with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and
pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-
or-confliction and hardly reflecting a discernment about the possibility for advancing human
progress) that apparently render human-subpotency/mortality bigger than existence-

⟨amplituding/formative–epistemicity⟩totalising—renewing-realisation/re-perception/re-
thought,—in—supererogatory—epistemic-conflatedness /immortality. But then human intellection
across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-(uninstitutionalised-threshold/presublimating-desublimating-decisionality)-of-ontological-performance -<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation -<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> inclinations that poorly appreciate existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness implications of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge
reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of-amplituding/formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation whether by mystifications-outside-existential-contextualising-contiguity-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness-implications/conclusions/projections-of-prospective-knowledge-reification-in-a-dumbing-down-posturing-that-implies-that-the-present-is-unchangeable-as-of-presencing-—absolutising-identitive-constitutedness, etymological-flouting-as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivety—that-such-stigmatising-representation-will-undermine/override-their-analysable-ontological-veracity and an-approach-as-of-the-ordinary-egotistic-perspective-in-existential-extrication-that-absolutises-the-present-that-is-passed-as-knowledge-reification all undermining informed insight and the requisite human intellectual and emotional sacrifice for genuine knowledge-reification and prospective progress involving the authentic self and social transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious dementative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-
potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-

reification but in the face of criticism rather consciously substitutes strategies of institutional
ascendency as of a strategy of influence by default imprimatur status rather than genuine
knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis
for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained
the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental
problem of arithmetic operation as of dialogical-equivalence but a fundamental question of
ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-
equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing
attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness.
Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an
inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other
evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to
equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity

We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s2 to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of
disparateness-of-conceptualisation-unforegrounding-disentailment-failing-to-reflect-
‘immanent-ontological-contiguity’ not only as of wrong ontological-conception out of good-
intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-
ormalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of
outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of
many such postmodern thinkers as Derrida and Foucault given the implications of human limited-
mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-

Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as to existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-⟨amplituding/formative-epistemicity⟩totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness implications. arises such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing as of meaninglessness-and-teleology as of existence’ not only out of good-intent or ontological-good-faith/authenticity but ontological-bad-faith/inauthenticity as well. than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification⟩/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-’reference-of-thought—

Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in-supercatagory—epistemic-conflatedness⟩/immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual
success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness;/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowning has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of—supererogatory—epistemic-conflatedness consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such supererogatory—epistemic-conflatedness consequences are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory—de-mentativity and

conception as from the non-universalising sophistry perspective had construed as decadent the
prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic
dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective
knowledge-reification requires that we supersede our emotional-involvement starting with the
very intellection striving for such prospective knowledge-reification. (In any case, ultimately
the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate
construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-
ontological-completeness<meaningfulness-and-teleology>’, and so in transvaluation; as for
instance, it can hardly be imagined that the ‘reference-of-thought of the non-
positivism/medievalism mindset as of its de-mentative/structural/paradigmatic
ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its

<amplituding/formative—epistemicity>totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a
positivism mindset, and it can fairly be contended that prospective issues of knowledge-
reification in modern day physics having to do with theory-of-everything conception arise
because of our inappropriately apt
supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of an occlusive-consciousness reference-of-thought requiring prospective notional–deprocripticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’ causality–as-to-projective-totalitative–implications, for-explicating-ontological-contiguity in conflatedness herein implied as ontological-primemovers-totalitative-framework involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ meaningfulness-and-teleology as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument mindset-as-of-prospective-deprocripticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocripticism-dissemination’), and we can better understand as such why underlying confliction arises with all registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity because these involve human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendent/transvaluating conception is universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs by the underlying fact that these are the very same human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligence <imbued-and ‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-

Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so over our present procrypticism–or–disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating —amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’.

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely
feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

adopt practices of inexactitude/tolerances as to the more critical issue of their prospective aporeticism-overcoming/unovercoming wherein for instance it is mostly in the last 30-or-so years that astronomy has arrived at a highly cogent scientific account of astronomical phenomena, in the medical domain because of the critical nature of any developments to human health and preservation of life even the most flimsy statistics are often portrayed as of relevance however the possibility for pseudo-analysis or later retraction, and generally in this respect science at its ‘breakthrough-level of scientific accounts’ is rather of relatively high inexactitude/tolerances as nascent scientific conceptions even within say the physics domain are contested, with the critical notion of science-inpractice rather being about ultimate aspiration to continually converge towards more and more exactifying/precisioning-of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> scientific accounts);¶ but then human limited-mentation-capacity-deepening as to aestheticisation–and–aestheticisation-towards-ontology necessarily priorly conforms to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation -<as-to-perspective-ontological-normalcy/postconvergence-implied-’prospective-aporetism-overcoming/unovercoming’> (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence--(implicated-‘nondescript/ignorable–void’–as-to-‘presencing—absolutising–

ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—and thereof the derived prospective living-development-as-to-personality-development and institutional-development—as-to-social-function-development, so-speaking to a dispensing-with-immediacy-for-relative-ontological-completeness—by-reification—/contemplative-distension—epistemic attitude, such that the philosophical nor the scientific cannot be construed as a self-serving conception (as can be so-construed in modern day psychology individual augmentation/enhancement notion in existential-extrication-as-of-existential-unthought) but rather ‘a self-development conception de-mentatively/structurally/paradigmatically construed in association with the development of a better world as to the selfless notional—asceticism implied’ (with a confusion as of individual augmentation/enhancement rather arising from a misconstrual of the Socratic philosophers and their successors like stoics and cynics emphasis on self-development as to the fact that their universalising-idealisation as to their given epoch implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporeticism associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporeticisms concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific
aporeticisms reflection of human historiality/ontological-eventfulness /ontological-aesthetic-tracing while avoiding an epistemically-flawed complex of presencing—absolutising-identitive-constitutedness; along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-reificationorientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation—<unforegrounding—disentailment,—failing-to-reflect—‘immanent—ontological-contiguity’ > cannot be transformed and construed as de-mentative/structural/paradigmatic issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical (failing to attend to prospective existential aporeticisms while construing the framework of human agreeability and agreeing as knowledge rather than the construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as the more fundamental purpose of the intellectual enterprise as to the reality of the fact that true knowledge has
ever always been about superseding human limited-mentation-capacity and not defining it as a point of reference however disagreeable the exercise), and in many ways this drawback is reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual way and academic practice of going about knowledge-reification\textsuperscript{86} that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity\textsuperscript{66} as to the proliferation of isms–conceptualisations without any ‘relative-ontological-completeness’\textsuperscript{87} entailing—as-to-totalising-contiguous/coherent–factuality-of-variability reflecting \textsuperscript{45}historiality/ontological-eventfulness\textsuperscript{46}/ontological-aesthetic-tracing’ as well as mere conceptual-patterning with no contiguous knowledge-reification\textsuperscript{86}—gesturing as to when for instance such notions as humanism and antihumanism, enlightenment and counter-enlightenment, etc. seem to imply that the latter conceptualisations are against humanity or enlightenment rather than being more profound conceptions of humanity and enlightenment over the former as shallow conceptions thus inducing blurriness\textsuperscript{7} of thought and in a further twisted relic/artifactual approach the very notion of postmodernism as of ‘postmodern-thought elucidation of ontologically-flawed desublimating\textsuperscript{46}historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ is paradoxically construed as postmodern condition as of the modern’s take prospective uninstitutionalised-threshold\textsuperscript{102} of procrypticism or disjointedness—as-of-reference-of-thought (as to an academically induced confusion equating
postmodern-thought with the analytical criticism of modern society’s metanarratives so-articulated by postmodern-thought more like qualifying budding-positivists critiques of the non-positivising medievalworld/medievalism as the modern condition) with all this contradictory pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation arising because of the precedence of institutional self-preservation over existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as we can easily appreciate that the lack of blurriness in many a natural science as to an untenable constraining of social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-＜amplituding/formative–epistemicity＞totalising~in-relative-ontological-completeness）will avert any such relic/artifactual approach to knowledge (say for instance construing modern genetics as a deeper conception of hereditary as anti-hereditary or say quantum physics as a deeper conception of physics as anti-physics along the lines of equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms–conceptualisations because of institutional pre-eminence over relative-ontological-completeness conception as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation），thus speaking of the requisite underlying ontological-good-faith/authenticity and ontological-bad-faith/inauthenticity insight (manifested beyond-the-consciousnessawareness-teleology＜in-existential-extrication-as-of-

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation-ly predisposed human mind’ as of prelogism or prelogism -as-of-conviction,-as-to-profound-supererogation-{existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at} so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction,-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation- (perverted-outcome-sought-precedesexistentially-veridical-logical-dueness) by its reference-of-thought- devolving-as-of-instantiative-context—meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition), i.e. meaning-as-form or

Insightfully, such a candidity/candour-capacity notional-deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology construed as most ontologically-veridical human psychical representation and so over our present positivism–procrypticism psychical representation, is effectively grounded on the notion that placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is ‘by itself inherently an utterly discreet and arbitrary construct’ but for the fact that every registry-worldview’s/dimension’s reference-of-thought has been habituated to its own as of its existentialism/full-depth-of-existential-implications meaningfulness-and-teleology and considers its own by reflex to be sanctimonious. But then the fact is the true sanctimony lies with intrinsic-reality/ontological-veridicality construed as of prospective relative-ontological-completeness-reference-of-thought as it so defines the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology veracity/ontological-pertinence as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-reference-of-thought-devolving-as-of-instantiative-context, as implied with the notion of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. Further, the dynamics of such a graduated human consciousness as of notional-confaltedness of notional-deprocrypticism can be reinterpreted operantly as of ‘notional-referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,—as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,—as-of-confaltedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness’ mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional~deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing –apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ levels’ their respective ‘neuterising construed as of ‘their prior relative-ontological-incompleteness’-of- reference-of-thought of ‘meaningfulness-and-teleology’’. neuterising thus refers to human attribution of ‘meaningfulness-and-teleology’ as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/dementative/structural/paradigmatic—ontological-performance’-<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness’, and so-construed from the conflatedness of notional~deprocrypticism; thus ‘neuterising is specifically ‘a contextually developed perversion-or-derived- perversion-of’ reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, that is secondnatured as of its prior relative-ontological-incompleteness’-of- reference-of-thought with the consequent implications of relatively defective ‘meaningfulness-and-teleology’ ontological-
performance <including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness of reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness of reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on one’s clothes and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism relative to the ‘utter and brute’ animistic interpretation as neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. This is a most elaborate articulation of neuterising but it equally applies where is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialialism arises as of notional–referentialism/notional–deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating, as-of-its-specific-constitutedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’, failing base-

‘<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,-

Basically ‘neuterising as so articulated is the conception of ‘the ontological-performance’—
dynamics of human limited-mentation-capacity’ that explains the how-and-why of such ontologically-flawed references-of-thought-devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness fixations/hardening-construed-as-

neuterising associated with the various institutionalisations in prior relative-ontological-incompleteness–of- reference-of-thought. Insightfully and counterintuitively for elucidative construal,  

as of preconverging-or-dementing–apriorising-psychologism/deassertion, that reveals 

neuterising as of epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness–of- reference-of-thought as it is construed in its ontological-veridicality as ‘a deficient derived-construction of ontological-normalcy/relative-ontological-completeness–of-

reference-of-thought’. This insight equally explains why it is ‘through the deficient derived-construction of conflatedness’ that is construed the ontologically-veridical nature of distractive-alignment-to–reference-of-thought–<of-apriorising/axiomatising/referencing> destructuring. 

Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of de-mentation–

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics). The ontological-veridicality of a ‘postconverging-or-dialectical-
thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-
dynamics’ as associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—

process as of difference-conflatedness as-to-totalitative-reification in-singularisation
-as-veridical-epistemic-determinism causality as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity
is one grounded as of de-mentation (supererogatory ontological–de-mentation-or-dialectical–de-mentation—
stranding-or-attributive-dialectics) on ‘decentering/pivoting around the uninstitutionalised-
threshold rule’ as a remaking of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-
awareness-teleology, pointing out that the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument has been superseded as of its revealed perversion-and-derived- perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation > and so as of the uninstitutionalised-threshold rule. This explains why at uninstitutionalised-threshold which are subject to ‘meaningfulness-and-teleology’
neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency -(transparency-of-totalising-entailing,-as-to-
entailing-causality as-totalising–in-relative-ontological-
completeness ) that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-
telescope’ thus enabling the ontological-normalcy/relative-ontological-
completeness -of- reference-of-thought of the prospective institutionalisation. It also explains
why naively implying at an uninstitutionalised-threshold\textsuperscript{10} that ‘the social\textsuperscript{10} universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is \textsuperscript{15} universally attributable as if humans had only the intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{9}\ individuation without temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{9}\ individuations will simply fail to recognise the generation-and-upholding of \textsuperscript{7}\ neuterising and thus unable to reveal perversion-and-derived-perversion-of—reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >; as it is naïve to think that while being at an uninstitutionalised-threshold\textsuperscript{2} like universalisation—non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness<amplituding/formative><wooden-language>{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology<as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology\textsuperscript{99} without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology\textsuperscript{99} neuterising’ to be able to then reveal, construe and uphold positivistic Being and ‘meaningfulness-and-teleology’, and this equally applies with regards to overcoming our procrypticism—or—disjointedness-as-of—reference-of-thought meaningfulness-and-teleology\textsuperscript{99} neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{99} as of prospective notional—deprocrypticism Being and meaningfulness-and-teleology\textsuperscript{99}. As a further elucidation, a comparison can be made between a
construct of ‘notional-referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness of reference-
of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness’—of—reference-of-thought, so-construed as their ‘neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as of their respective specific constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness—of—reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of—the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferriing-of-elucidation-outside-existential-contextualising-contiguity of ‘traditional classical mechanics axiomatic-construct’ given its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness—of—reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness—of—reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising ~renewing-realisation/re-perception/re-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that
‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought is construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness of reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/ reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory–de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-
notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying ‘reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview/’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfullness/ontological-aesthetic-tracing> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposing underlying the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity<of-the-human-institutionalisation-process. The fact is that all ‘meaningfulness-and-teleology<including-virtue-as-ontology>, whether teleologically-degraded or teleologically-elevated, implied as of within a given ‘reference-of-thought are necessarily in ontological-contiguity<of>, construed as of a difference-in-kind/difference-in-aposteriorising-or-logicising<of the same <amplituding/formative–epistemicity>totalising/circumscribing/delineating ‘reference-of-thought—devolving. sublimity/sublimation/supererogatory-de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from the notional-deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempting—disjointedness—as-of—reference-of-thought—as-to—formative—epistemicity>growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of temporal-to-intemporal-dispositions, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its (given consciousness’s neuterising-induced-or-deneuterising-induced) as reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue. Thus this is within the framework of the registry-worldview’s/dimension’s teleological-de-mentating/structuring/paradigming/teleological-possibilities; construed either in elevation-as-of-upholding-ontological-veridicality/institutionalisation as reference-of-thought—categorical-

The reference of thought—degraded-devolving-as-of-uninstitutionalised-threshold brings out in anticipation/projection/thrownness-disposition the overall fundamental elucidative contrast between the ‘degradation/uninstitutionalised-threshold unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought projection’ and the ‘elevation/institutionalisation soundness-or-ontological-good-faith/authenticity reference-of-thought projection’ at their respective reference-of-thought devolving-level of analysis; as can be elucidated contrastively between ‘recurrent-utter-uninstitutionalisation uninstitutionalisation and base-institutionalisation institutionalisation’, ‘base-institutionalisation–ununiversalisation uninstitutionalisation and universalisation institutionalisation’, ‘universalisation–non-positivism/medievalism uninstitutionalisation and positivism institutionalisation’ and prospectively ‘positivism–procripticism uninstitutionalisation and notional–deprocripticism institutionalisation’. Such an approach to transcendence-and-sublimity/sublimation/supererogatory–

on a false notion of ‘an intemporal temporality\textsuperscript{9}, naively passing for intemporality\textsuperscript{9}/longness as of intersubjective eliciting of temporality\textsuperscript{9}. Such notional–conflatedness\textsuperscript{12} for ontological-

In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought–categorical-imperatives/axioms/registry-teleology -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endeavouring unleashed as of a maximalising-recomposuring-for-relative-ontological-completeness—an-enframed-conceptualisation <amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought. This conceptualisation insight points out that prospective procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalisation associated with our positivism–procrypticism registry-worldview/dimension as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness–of–reference-of-thought is effectively the defective result of our positivism institutionalisation destructuring-threshold–(uninstitutionalised-threshold/Presublimating–desublimating–decisionality)–of–ontological-performance–<including-virtue-as-ontology> as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation–outside-existential-

This explains as of metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing–<perspective–ontological-normalcy/postconvergence>) why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-de-mentating/structuring/paradigming/teleological-possibilities as of (warped-or-preclusive-consciousness-neuterising-induced-) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of-reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold! This analysis
brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the prospective relative-ontological-completeness of reference-of-thought of the ⟨given consciousness’s neuterising-induced-or-deneuterising -induced⟩ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied-’prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of ‘meaningfulness-and-teleology’ as of ‘operant-or-incidenting-predicative-insights or logical-coherence’ and beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> by mental-reflex presupposes-and-assumes the ontological absoluteness/indubitability of its ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-

Such a transcendental engagement recurrently put into question in conflatedness the prior institutionalisation ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold by substituting it with the prospective institutionalisation ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-
insights or logical-coherence’ on that basis for its intradimensional grounded meaningfulness-and-teleology’, and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold”, and explaining why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation behind the ontological-contiguity”—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposure—<as-to—historiality/ontological-eventfulness”—ontological-aesthetic-tracing> is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>—analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness”—of-reference-of-thought of same <amplituding/formative—epistemicity>—totalising—devolved—purview—domain—of—construal—as—intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring—relative—ontological—

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human ‘meaningfulness-and-teleology’ is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation necessary for human development and progress. Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
disjointedness-as-of-reference-of-thought and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. This underlying notion of ‘notional–conflatedness/constitutedness–to-conflatedness construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primemovers-totalitative-framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces relatively poor ontological-performance—<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought’s-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among
humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-elicitng-of-prospective-supererogation”<as-to-perspective-ontological-normalcy/postconvergence-implied—’prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness: as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-
thought-devolving-as-of-instantiative-context is then the preceding and transformative element of ‘meaningfulness-and-teleology’ conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality-transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation’} originary/event–of-prospective-ontology-origination projection into existential-contextualising-contiguity ’s-
reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{17} of reference-of-thought\textsuperscript{12} devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness\textsuperscript{13}, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity construal highlights the ontological-contiguity\textsuperscript{6} of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework\textsuperscript{17} interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness\textsuperscript{3} rather than striving to expand the transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{3} existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions.
like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of ‘maximalising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology’—<in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional-deprocrypticism (protensive-consciousness deneuterising-induced)-reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; consciousness defined as of ‘notional totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation—or-existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—

The fundamental fact is that existence as of existential-contextualising-contiguity\textsuperscript{as-reifying/elucidating-of-prospective-relative-ontological-completeness}\textsuperscript{reference-of-thought-devolving-as-of-instantiative-context} is the absolute a priori of intrinsic-reality/superseding–oneness-of-ontology prior to any human derived knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, and hence existence as of existential-contextualising-contiguity\textsuperscript{as-reifying/elucidating-of-prospective-relative-ontological-completeness}\textsuperscript{reference-of-thought-devolving-as-of-instantiative-context} is the foundational absolute a priori any \textit{⟨given consciousness’s neuterising-induced-or-deneuterising -induced⟩–reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness constructs, by which our limited-mentation-capacity can most pertinently accede to by \textit{maximalising-recomposuring-for-relative-ontological-completeness}\textsuperscript{unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of ontological-normalcy/postconvergence insight. Thus existence—as-the-absolute-a-priori-of-conceptualisation-and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming} implies it is as of the entire ‘confledness\textsuperscript{as-for-human-construction-of-ontologically-veridical–meaningfulness-and-teleology}’ implied as of notional–deprocrypticism; this is notionally known as ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing. The implication here is that conceptualisations/construals not only of consciousness but virtue, aesthetics, episteme and nature together with their derived human notional \textit{amplituding/formative–}

notions/articulations/virtue implied as ‘meaningfulness-and-teleology’, is rather ensured by the
construal of existential-instantiations as of ‘maximising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness—of—reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of ‘meaningfulness-and-teleology’ mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, this points out that existence inherent superseding—oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology is effectively as of a natural transcendental-

This can be expanded upon as follows, the reason why relative-ontological-incompleteness reference-of-thought/epistemic-abnormealiy/preconvergence/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness reference-of-thought/ontological-normalcy/conflatedness’ lies in the fact that the construal/conceptualisation of an epistemic-totalising ~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological
correspondence between such human construed/conceptualised meaningfulness-and-teleology and the inherent ontological-veracity/intrinsicness of the <amplituding/totalising>-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existing-unthought> of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness.

Since there is no direct correspondence between relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /deestructuring with the inherent intrinsicness of the <amplituding/totalising>-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existing-unthought> of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /deestructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /deestructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding>-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—
elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance’-<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance’-<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness\(^1\) and as relatively-perfect/near-perfect/perfect conflatedness\(^2\), construed as notional~conflatedness\(^2\) as of constitutedness\(^1\)-to-conflatedness\(^2\) of human limited-mentation-capacity. Insightfully, it highlights that constitutedness\(^1\) arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness\(^2\) arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately supererogatory—human-subpotency—effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent

notional-confinedness of notional-deprocrypticism equally supersedingly enlightens the idea of totalising-entailing which is often somewhat articulated as in the statement ‘the whole is greater than the sum of its parts’ but failing to specifically clarify that ‘limited-mentation-capacity constitutedness conceptualisation construes of an ‘ontologically-compromised-mediating,-as-of-its-specific-constitutedness that is relatively shoddy and incomplete’ and generates virtuality-or-ontologically-flawed-construal when it construes of parts and whole in a given <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality and so as a derived/unoriginary mental-reflex as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas limited-mentation-capacity conflatedness conceptualisation as of notional-deprocrypticism-as-preempting—disjointedness-as-of-reference-of-thought construes of a ‘non-mediating incisive as referentialism—ontologically-uncompromised-mediating,-as-of-confinedness profoundness/completeness’ by an incisive <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought that further expands human grasp of the given <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness; pointing out that the fundamental issue is how human limited-mentation-
capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness^{12} that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the ^8 reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness^{12} induced ^5 neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness^{12} ^5 meaningfulness-and-teleology^{99}. That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness^{12}, with no intermediating construct as of constitutedness^{11}, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness^{12} ^5 meaningfulness-and-teleology^{99}. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness^{11} on conflatedness^{12} induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness^{11} meaningfulness-and-teleology^{99}. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-
conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms-as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of meaningfulness-and-teleology-and-longness-of-register-of meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising, historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional–conflatedness of notional–deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-

ontological-contiguity — of the human institutionalisation-process7. This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—supererogatory—epistemic-confledness’. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an construct, including our positivism—procrystalsm registry-worldview/dimension, as this will falsely imply that our reference-of-thought is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Basically, existence as of prospective base-institutionalisation reference-of-thought is circularly-unintelligible-but-for-a-
transcendental construct as of human limited-mentation-capacity-deepening. Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness-of-reference-of-thought as of ontological-performance-including-virtue-as-ontology arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation-ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our amplituding-formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence–{(implicitied–nondescript/ignorable–void ‘as-to-presencing—absolutising-identitive-constitutedness’)’ what is existence/existential-possibilities not factoring Being conflatedness amplituding-formative–epistemicity-totalising–renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, and further in
contradiction to the notion of human <amplituding/FORMATIVE–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/SUPEREROGATORY–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance<including-virtue-as-ontology>). Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/SUPEREROGATORY–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/SUPEREROGATORY–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/AXIOMATISING/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/AXIOMATISING/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness<reference-of-thought> thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/AXIOMS/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-of–meaningfulness-and-teleology<on such renewed reference-of-thought–categorical-imperatives/AXIOMS/registry-teleology for meaningfulness-and-

In other words and as relevant with all other registry-worldviews/dimensions transcendental implications, base-institutionalisation meaningfulness-and-teleology cannot truly be-grounded-as-explained to recurrent-utter-uninstitutionalisation as this wrongly implies the latter’s reference-of-thought as of its categorial-imperatives/axioms/registry-teleology is a sound basis for construing the meaningfulness-and-teleology of base-institutionalisation inducing rather a circular-complexification of recurrent-utter-uninstitutionalisation reference-of-thought as it adopts by mental-reflex an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition rather than a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition and thus fails to fulfil the requisite referencing/registering/decisioning—of-its—reference-of-thought—rather-as-preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity/nihilistic as of de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), which is what allows for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to prospective base-institutionalisation reference-of-thought for crossgenerational renewal as of prospective relative-ontological-completeness—reference-of-thought of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising—purview—of—construal’; but rather such unground articulation is one rather eliciting prospective metaphoricity as of its implied prospective existential reference. transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implies that as of human<amplituding/formative—epistemicity>totalising—thrownness—in—existence (I exist

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology\(^9\) of theoretically perfect/sound ontological-performance\(^{-}\)-<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness\(^13\) as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness\(^{-}\)-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered-<amplituding-formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\(^9\) ontological-performance\(^{-}\)-<including-virtue-as-ontology> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(^67\) or notional–deprocrpticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness\(^13\), it perfectly grasps the implications to meaningfulness-and-teleology\(^9\) ontological-performance\(^{-}\)-<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology\(^9\) in relative deficient/flawed ontological-performance\(^{-}\)-<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology\(^9\) ontological-performance\(^{-}\)-<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology\(^9\) ontological-performance\(^{-}\)-<including-virtue-as-ontology> of the very same <amplituding-formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given reference-of-thought-as-of– reference-of-thought—devolving-teleological-de
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of \textit{meaningfulness-and-teleology} of ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness\textsuperscript{2} of less ontological-performance\textsuperscript{2}—<including-virtue-as-ontology> of ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, while with human limited-mentation-capacity-deepening\textsuperscript{2} the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs brings about a new ‘centered–epistemic-totalisation/circularity of \textit{meaningfulness-and-teleology} of ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander \textit{meaningfulness-and-teleology} ontological-performance\textsuperscript{2}—<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything.
However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance—<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—.
as of beyond-the-consciousness-awareness-teleology\^\textsuperscript{6} with the immediate-and-short-term as of self-referencing as the uninstitutionalised-threshold\^\textsuperscript{02} temporal individuations circular undermining of the prospective institutionalisation\^\textsuperscript{6} reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness\^\textsuperscript{24}-of-\textsuperscript{22} reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\^\textsuperscript{02} reference-of-thought which is in \(<amplituding/formative–epistemicity>totalising–self-referencing-

Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\^\textsuperscript{18} as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity\^\textsuperscript{12}-\(<shallow-

constitutedness\textsuperscript{13}, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening\textsuperscript{12} then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\textsuperscript{13} reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity\textsuperscript{13} as of conflatedness\textsuperscript{12}, and so as of the very same <amplitudding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology\textsuperscript{3} ontological-performance –<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to <reference-of-thought-as-of—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplitudding/formative–epistemicity>totalising–purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplitudding/formative–epistemicity>totalising–purview-of-construal’ or <amplitudding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being
any conception as of ‘meaningfulness-and-teleology’ of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance—<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration—as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology—
implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-
insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are
construed practically as formalisations which are mainly as such constructs of
faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’
for the sake of succinctness, clarity and fungibility; however, without the implication of any other
inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such
formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly
construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic
and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’. But then
it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of
mathematical formalisation. The fact is that mathematics have always been developed implicitly
or explicitly in association with or inspired from the context/existential-contextualising-
contiguity\textsuperscript{13} of other applied and transcendental-enabling/sublimating/supererogatory–de-
mentativity activities as of their axiomatic-constructs development and mathematics very own
existential-reality of developed axiomatic-constructs applicative orientation, including
developing together with heavily dependent mathematics domains like physics, engineering,
other applied sciences and statistical studies. This latter situation which is more real than
generally said and makes of mathematics ‘a <amplituding/formative–
epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than
the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if
not inspired as of existential-reality contextuality itself. Thus naively taking cue from the
formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of any discipline is bound to lead to
disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of
the existential domain in question have to be critically developed as of existential-contextualising-contiguity\[11] knowledge-reification\[12] for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-<in-transitive-conflatedness→—reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence> with regards to the ontological-contiguity\[13] of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\[14] (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal

In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory–de-mentativity of the physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory–de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory–de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory–de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve
formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory–de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension—reference-of-thought—as-of—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—

‘human-amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—reference-of-thought—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—reference-of-thought—reference-of-thought—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by

and conflatedness’, and further subsumed in the word candidity or candour-capacity. Such
‘suprastructural logic’ is even more damning about the naïve constitutedness construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naïvety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—as-in-singularisation-as-veridical-epistem-de determinism<amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity”. Being as of its implied notional–deprocrypticism’s conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague <amplituding/formative–epistemicity>totalising–self-referencing-

‘complete scientific archaeological depth’ for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity implications construed from notional–deprocrypticism perspective as historiality/ontological-eventfulness/ontological-aesthetic-tracing, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness as of intemporal-preservation-entropy–or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality–to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness causality–as-to-projective-totalitative–implications, for explicating-ontological-contiguity as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual

The further implication is that human ‘prior existential-reality insight as arising by conflatedness\(^3\) as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness\(^4\) upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically-\(\langle\text{conjugatively-and-transfusively}\rangle\) the ontological-contiguity\(^5\)—of-the-human-institutionalisation-process\(^6\) as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness\(^7\) as of successive opened-constructs-of—meaningfulness-and-teleology\(^8\) superseding \(\langle\text{amplituding/formative}\rangle\) wooden-language-(imbued—averaging-of-thought-\(\langle\text{as-to-leveling/ressentiment/closed-construct-of—}\rangle\) meaningfulness-and-teleology\(^9\)-as-of—‘nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications\rangle) and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology exercise we can’t as of soundness-or-ontological-good-faith/authenticity\(^10\) exculpate ourselves to then pretend ours is the registry-worldview/dimension \(\langle\text{amplituding/formative—epistemicity}\rangle\) totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, when the insight of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications as of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought avails, and so as the conflatedness\(^11\) upholding prospective coherence/contiguity of ontology’s-directedness-as-Being. Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation'-of-mentally-aestheticised–preconverging/dementing’–qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory–de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to– ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or
Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory/de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory/de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity<-shallow-supererogation--of-mentally-aestheticised-preconverging/dementing–qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance<-including-virtue-as-ontology>, as of the very same totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality involves taking cue from existence/existential-contextualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity <shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity <shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of meaningness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-

For instance, the successive registry-worldviews/dimensions institutionalisations conceptualisation of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{19} have arisen as secondnatured constructs that have substituted for their uninstitutionalised-threshold free-for-all \textsuperscript{<amplituding/formative>wooden-language–(imbued—averaging-of-thought–<as-to-}

framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating/supererogatory—de-mentativity practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling framework than as of an dimensionality-of-sublimating—amplituding/formative/supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ‘direct convincing’ at individuals-level underlying deferring to institutional and formal “meaningfulness-and-teleology” as of the need for profoundness and rigour that doesn’t avail in ordinary thought for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological “meaningfulness-and-teleology” could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness—as-of—reference-of-thought
constitutenedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness -of- reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness -of- reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational “meaningfulness-and-teleology” psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of “meaningfulness-and-teleology”, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity —of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness) avails with respect to social-
stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on 99meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of 99meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplitunding/formative–epistemicity>totalising–self-referencing-syncretising’ of 99meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as
human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs notwithstanding a seemingly self-referencing centered-epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-primemovers-totalitative-framework validation as to existence-potency–sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/transformative-epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness, as re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness’-

notional-deprocrypticism-prospective-sublimation), that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of—meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency — (transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-
ontological-completeness) about such metaphoricity\(^{16}\) instigative reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\(^{65}\) that is subject to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought,-in-}\text{supererogatory–epistemic-conflatedness}\) validatory ontological-primemovers-totalitative-framework\(^{72}\). As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment\(^{65}\) threshold of a social-setup meaningfulness-and-teleology\(^{99}\) allows for the possibility for prospective metaphoricity\(^{56}\) to reconstrue-and-redefine the social-setup meaningfulness-and-teleology\(^{99}\). Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology\(^{99}\) needs this supposedly coherent ontological-commitment\(^{65}\) in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology\(^{99}\) that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\(^{56}\) in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology\(^{99}\) is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework\(^{72}\) \(<\text{amplituding/formative–epistemicity}>\text{causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity}\) as of the social-setup given supposedly coherent ontological-commitment\(^{65}\). We can
consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflatedness epistemic/notional~projective-perspective of relative-ontological-completeness -of- reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of
existential investment’ of recurrent-utter-uninstitutionalisation prospective base-institutionalisation antinihilism ‘meaningfulness-and-teleology’ is basically nothing and worthless, likewise as of the temporal ‘mental and existential investment’ of base-institutionalisation–ununiversalisation prospective universalisation antinihilism ‘meaningfulness-and-teleology’ is basically nothing and worthless, same with universalisation–non-positivism/medievalism and prospective positivism, and equally so for positivism–procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective dep procuricism. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment–disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-
to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism—procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity—shallower-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> with their prospectively implied
mentativity and the ontological-contiguity—of-the-human-institutionalisation-process—possible given that it immanently enables the possibility of successive human prospective relative-ontological-completeness—of—reference-of-thought as of the successive registry-worldviews/dimensions institutionalisations. In other words, it is human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that ultimately ‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its uninstitutionalised-threshold for the possibility of a correspondence between human limited-mentation-capacity and the ‘inherent centered–epistemic-totalisation-as-existence’, as of Being orientation of pursuing-and-attaining ontological-completeness-of—reference-of-thought. It is only such a conflatedness perspective as of notional–deprocrypticism that can articulate a conceptualisation of meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology as of a notional–correspondence to existence/existential-possibilities, thus avoiding <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstrual as of constitutedness.

Insightfully with respect to human temporality/shortness including postlogism and conjugated-postlogism and as reflected by psychopathy and social psychopathy in our positivism–procrypticism, the conflatedness of notional–deprocrypticism points out that given human limited-mentation-capacity its ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’ as of institutionalisation, is subject at its uninstitutionalised-threshold to human temporality/shortness de-mentative/structural/paradigmatic denaturing

The overall implication here as implied by historiality/ontological-eventfulness/ontological-

meaningfulness-and-teleology as reflected as of the conflatedness of

<amplituding/formative-epistemicity>causality~as-to-projective-totalitative-implications,-
for-explicating-ontological-contiguity of prospective relative-ontological-completeness
reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-
contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of
reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic
teleological projection’ as in effect as of conflatedness this simply wrongly elevates
the intemporal/longness-of-register-of meaningfulness-and-teleology mental-disposition
elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality denaturing
of reference-of-thought–categorical-imperatives/axioms/registry-teleology beyond-the-
consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>
while the latter is upholding reference-of-thought–categorical-imperatives/axioms/registry-
teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.
Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting
the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ when
it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as
of a given institutionalisation with a common ontological–reference-of-thought’ wherein it is
then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such
a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is
a relative variance of ontological-completeness-of reference-of-thought as of the prospective
relative-ontological-completeness<reference-of-thought in intemporality/longness
entailing the prospective institutionalisation and the prior relative-ontological-incompleteness>
of reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or—disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supereoratory—de-mentativity as of conflatedness actually construes of more profound reference-of-thought—categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, and so as of differing references-of-thought in transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing ontological unintelligibility. neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to imply ‘equivalence of consideration’ without factoring prospective relative-ontological-completeness of reference-of-thought <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity of differentiated axiomatic/reference-of-thought teleological projection as of temporal teleologically-degraded-devolving-as-of-uninstitutionalised-threshold and
of prospective institutionalisation whereas inherent superseding existential reality unattached to its temporal limited mentation capacity mental disposition points to its degraded devolving at the uninstitutionalised threshold. Such a deneuterising binarity of storied ontologically flawed \( \langle \text{amplituding/formative–epistemicity}\rangle \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) -temporal mental dispositions and storied background of ontologically veridical inherent superseding existential reality unattached to such temporal mental dispositions portrays how a storied construct/ontologically valid narration can be articulated as of beyond the consciousness awareness teleology \( \langle \text{in-existential-extrication-as-of-existential-unthought}\rangle \) ‘emphasising exclusively that it is the construal of human temporality \( \langle \text{to-intemporality} \rangle \) limited mentation capacity transversal and cumulative implications’ that accounts for ontologically veridical human character and social formation dynamics as of both uninstitutionalised threshold representation and prospective institutionalisation representation. Such a storied construct/ontologically valid narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal to intemporal transversality of affirmative and unaffirmative, disambiguated apriorising axiomatising referencing of human limited mentation capacity in temporal constitutedness mental reflexes at presence reference of thought, and so reflected by the implied intemporal conflatedness of phenomenological transcendence and sublimity sublimation supererogatory de mentativity as of notional deprocrypticism. We can appreciate the metaphysics of absence (implicit epistemically veracity of nonpresencing \( \langle \text{perspective–ontological-normalcy/postconvergence}\rangle \) ) insight about such a deneuterising storied construct/ontologically valid narration from the fact that a non positivism medievalism or animistic social setup is ‘not committed in a \( \langle \text{amplituding/formative–epistemicity}\rangle \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \)’ to positivistic rational empiricism meaningfulness and teleology with regards to occurrences
mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historicity/ontological-eventfulness/ontological-aesthetic-tracing of conflatedness as of notional~deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a~meaningfulness-and-teleology~that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold and-its-assorted-and-conjugated-temporal~meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is always perceived as unnatural when mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied prior institutionalisation ‘projected reflex of entailing’ supplanting~conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism for meaningfulness-and-teleology’ while a social psychological reference is actually not ontologically-veridical as of human practical reality given lack of social universal-transparency—(transparency-of-totalising-entailing, as-to-entailing—totalising~in-relative-

Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology’ over just abstract universal propositions, when it comes to social-stake-contention-or-conflic tion social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits- and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of– meaningfulness-and-

Ultimately, the notion of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> given its psychoanalytic-unshackling as of prospective deprocryticism transcendence-and-sublimity/sublimation/supercortality—de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of "reference-of-thought—categorical-imperatives/axioms/registry-teleology" but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness of Being as implied as of "deprocryticism—or—preempting—disjointedness-as-of—reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of–meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting
of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-

Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/ reference-of-thought into a positivistic
mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an
accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be
incorrect and unsound to the approval of all in that social-setup, that outsider understanding

It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the de-mentative/structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism worldview). We can appreciate such metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>) insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion–or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced intemporality /longness behind the ‘inventing of
inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicus, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

explaining deferential-formalisation-transference as of institutional percolation-chanelling. This
point is central and critical to the very notion of society-as-social-construct, as society is caught
between the notion of sovereignty as-allowing-basic-level-of-{universal-individual-and-

subpar to a knowledge social determination as well as subpar to a sovereignty social
determination. This dilemma is unavoidable by the very implications of a society: every social-

aposteriorising/logicising/deriving/intelligising/measuring— meaningfulness-and-teleology
with regards to meeting a basic level of individuals and social existential-possibilities
expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’
within this articulated framework as enabled by ‘social {universal-transparency}-
(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—
epistemicity>totalising—in-relative-ontological-completeness )’. This articulation can be
elucidated more explicitly in cases of cultural diffusion between societies of differing
institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation
knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncrétising}\) prior to eventual prospective relative-ontological-completeness\(^1\)-of-\(\text{reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increaseing ‘social \(^{10}\text{universal-transparency}\)\(^{10}\)-\(\{\text{transparency-of-totalising-entailing, as-to-entailing-<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\}\)\) thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process\(^{67}\) as of difference-conflatedness\(^{12}\)-as-to-totalitative-reification\(^{67}\)-in-singularisation\(^{73}\)-as-veridical-epistemic-determinism \(\leftrightarrow<\text{amplituding/formative–epistemicity}>\text{causality–as-to-projective-totalitative–implications, for explicating-ontological-contiguity}^{66}\)’ associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\)\. However, all along this ontological-contiguity—of-the-human-institutionalisation-process\(^{67}\) a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of various pertinent social manifestations: –wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory de-mentativity in formal institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond
the underlying implied institutionalisation-level such a social-aggregation-enabling
hotchpotching opinionatedness culture tends to critically and decisively inform individual and
collective thought and action in a manner that is suboptimal to intemporality→as-ontology as of
the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongingly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of
upholding institutionalisation, including the tendency to degrade knowledge conceptualisations
into popular frameworks of knowledge appraisal thus subverting institutional deferential-
formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory→de-mentativity as to existence-potency→sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>→totalising→renewing-realisation/re-perception/re-thought,-in-

by an intellectual disposition akin to <amplituding/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification→akrasiatic-drag/denatured/preconverging-ordementing→narratives—of-the→reference-of-thought→categorical-imperatives/axioms/registry-teleology ),-for-

‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the
very paradox of human <amplituding/formative–epistemicity>→totalising→self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing meaningfulness-and-teleology’ value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation to presence, rather than as of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity—shallow-supererogation–qualia-schema>. However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion—to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, the insight about human <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of–meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism can crossgenerationally be induced for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory-de-
mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meanings-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—in-imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness )’. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity—<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-

destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance –<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-sub potency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at uninstitutionalised-threshold\textsuperscript{102} that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold\textsuperscript{102} by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness -of- reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold\textsuperscript{102} as of prior relative-ontological-incompleteness -of- reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in ontological-contiguity and ‘traditional classical mechanics axiomatic-construct’ of notional-discontiguity/epistemic-discontiguity\textsuperscript{119}–<shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema> but for the former’s enlightening the latter’s undefined-or-undecidable-threshold-of-ontological-veridicality. This insight reflects the reality of transcendence-and-sublimity/sublimation/sup ererogatory–de-mentativity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{120}—of-the-human-institutionalisation-process\textsuperscript{127} associated with Being-development/ontological-framework-
as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a
temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed
circular predisposition arises due to human temporal-dispositions as of Being underdevelopment
that tends to lead to the beyond-the-consciousness-awareness-teleology—in-existential-
extrication-as-of-existential-unthought denaturing of knowledge as mechanical-knowledge
and undermining organic-knowledge; wherein knowledge is related to as of existential-
extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-

disposition/care—episteme as of intemporality/longness behind ‘knowledge invention’ that
must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine
knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the
articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-
of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete
articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind
knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other
words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-

As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholding-protohumanity’—to—‘attain-sublimating-humanity’—as—to—existence-potency—sublimating—nascence,—disclosed—from—prospective—epistemic—digression—as—of—amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic—conflicatedness to supersede human temporality /shortness wooden-language (imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed-construct—of—meaningfulness—and—teleology—as—of—‘nondescript/ignorable—void’—with—regards—to—prospective—apriorising—implications>) to be able to achieve transcendence—and—sublimity/sublimation/supererogatory de-mentativity’, and so as of intemporality. With regards to living-as-of-human-personality-developing, we can
appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness\(^{15}\)/contemplative-distension\(^{16}\) as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness\(^{17}\)/contemplative-distension\(^{18}\) that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\(^{19}\)/contemplative-distension\(^{20}\) as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness\(^{21}\)/contemplative-distension\(^{22}\) is construed as the more profound attitude/mental-disposition/care–and–episteme\(^{23}\) for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness\(^{24}\)/contemplative-distension\(^{25}\)’, for achieving transcendence-and-sublimity/sublimation/supererogatory–de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\(^{26}\)/contemplative-distension\(^{27}\) so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-

The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Such an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care–and–episteme in detachment from amplituding/formative wooden-language,{imbuended—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of–nondescript/ignorable–void with-regards-to-prospective-apriorising-implications)} as we know that, everything being equal legitimately, it is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-as-dispensing-with-immediacy-for-relative-

framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> given the latter’s flawed de-
mentating/structuring/paradigming as of prior relative-ontological-incompleteness\(^9\)-of-reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory-de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^{10}\) exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-prinemovers-totalitative-framework ’, and so beyond institutional-being-and-craft and social-aggregation-enabling <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>). Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> denaturing\(^1\) of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^6\), and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness\(^7\)—unenframed-conceptualisation de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity\(^8\) practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism
basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought prior relative-ontological-incompleteness of reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness of reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing—perspective—ontological-normalcy/postconvergence. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care—and—episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental—

disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments
and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’
further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-
deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology<-<in-existential-extrication-as-of-existential-unthought>, the articulation of meaningness-and-teleology as of prospective maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness=enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresencing-<perspective–ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faih rather advancing such an incrementalism-in-relative-ontological-incompleteness=enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness=enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness=enframed-conceptualisation that in many ways could just as well validate amplituding/formative wooden-language{(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications)>} and untransvaluated—temporal-intemporality attitude/mental-disposition/care—
and–episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory–de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness—<as-to– historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness', thus enabling the
upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which
as of its transcendence-enabling nature brings about prospective human emancipation. While
genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and
scepticism framework as of prospective relative-ontological-completeness\(^\text{87}\), ontological-bad-
faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition
for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-

allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism.
Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-
relative-ontological-completeness\(^\text{87}\)-by-reification\(^\text{86}\)/contemplative-distension\(^\text{26}\), a perfidious
ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and

and untransvaluated–temporal-intemporal\(^\text{51}\) social-chainism as ‘developed thought’, thus
deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness\(^\text{87}\)-by-
reification\(^\text{86}\)/contemplative-distension\(^\text{26}\) intemporal detachment/backstep for transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. In this latter respect, and for the
possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory–de-

not inherently ontologically sacrosanct by the fact that these are the outcome of preceding

immediacy-for-relative-ontological-completeness\(^\text{87}\)-by-reification\(^\text{86}\)/contemplative-distension\(^\text{26}\),
and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-
institutionalisation social practices as of prospective relative-ontological-completeness\(^2\), ontological-bad-faith/inauthenticity\(^3\) ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness\(^{13}\) but of a poor conception outside the prospective relative-ontological-completeness\(^7\) behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology', are but denaturing and down the line equally undermines prospective relative-ontological-completeness\(^7\) for the further emancipation of human social practices. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality’

It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional–deprocrypticism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking – apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-as-to-preconverging-or-dementing –apriorising-psychologism> stranding dialectics. Such that in the final analysis, there is an underlying tendency of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology that decomposes-as-of-conflicatedness ‘human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology-as-of-existential-extrication-as-of-existential-unthought’ induced neuterising into the underlying limited-mentation-capacity manifestation disambiguation basis for their ontologically-veridical construal’, and so-construed from a notional-deprocrypticism ontological-normalcy/postconvergence epistemic/notional-projective-perspective. Thus for the protensive-consciousness as apriorising/axiomatising/referencing—re-originariness/re-origination as of referentialism—circumscribing-as-‘epistemic-totality’-or-delineating-as-‘epistemic-totality’ ‘existential—epistemic-totalisation-scheme-of—meaningfulness-and-teleology’ implied say as of post-structuralism factoring in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery; as of notional—deprocrypticism is as of deneuterising —referentialism. This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing> due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of ‘meaningfulness-and-teleology’ as of ‘their relative neutronising’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing> as enabling the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional-deprocrypticism/amplituding/formative/notional-preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human "meaningfulness-and-teleology" construed as of "historiality/ontological-eventfulness/ontological-aesthetic-tracing; as of the possibility of deneuterising". In the bigger scheme of things, as of the notional-conflatedness of notional-deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of "reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—as-to-conflatedness"-différance/internal-dialectics/difference-deferral and as implied as-of-the-construal-of-différance/internal-dialectics/difference-deferral-of—meaningfulness-and-teleology; and so with respect to the more ontologically-veridical reality of human conceptualisation of "meaningfulness-and-teleology" always from a position of limited-mentation-capacity as of prior relative-ontological-incompleteness-of-reference-of-thought, thus in need for its prior deepening so-captured in the 'human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional-conflatedness of notional-deprocrypticism différance/internal-dialectics/difference-deferral' as transcendence-and-sublimity/sublimation/supererogatory—dementativity-enabling, whereas such a human limited-mentation-capacity implication is naively ignored with logicism in its metaphysics-of-presence--(implicit-'nondescript/ignorable—void')—as-to—presencing—absolutising-identitive-constitutedness)/illusion-of-the-present/present-consciousness/mirage. Such a 'human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional-conflatedness of notional-deprocrypticism différance/internal-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ as of the variance of uninstitutionalised-threshold prior relative-ontological-incompleteness–reference-of-thought and prospective institutionalisation relative-ontological-completeness–reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory–dementativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity–reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity–reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency–(transparency-of-totalising-entailing–as-to-entailing<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ), an apparent episteme as of

is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of
witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of
an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what
passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge
and positivism/rational-empiricism knowledge vie for the interpretation of human and physical
nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put
into question as of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, antinihilism
and transcendental-enabling/sublimating/supererogatory—de-mentativity knowledge
perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become
inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically
loses its way as of its initial justification as safeguarding the prospective possibility of
enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its
institutional-being-and-craft uninstitutionalised-threshold actually de-
mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology—<in-
existential-extrication-as-of-existential-unthought> undermines the prospective possibility of
prospective enlightening human knowledge; and so, as increasingly the prior epistemic
disposition is one that overlooks prospective inherent transcendental-
abling/sublimating/supererogatory—de-mentativity of meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology> turning rather towards social-
aggregation-enabling implications as meaningfulness-and-teleology ontological-
performance—<including-virtue-as-ontology>, undermining the very notion of the intellectual
exercise as about developing/institutionalising the social and not kowtowing-to-it construed as
charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of—meaningfulness-and-teleology that prospectively construes of successive frameworks of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential—

preservation’. Thus the ontological effectiveness of such intemporal-projection as longness-of-
register-of–meaningfulness-and-teleology\textsuperscript{99} lies rather in undermining the existential possibility
of the successive uninstitutionalised-threshold\textsuperscript{103}/uninsitutionalisations as of bringing about
prospective relative-ontological-completeness\textsuperscript{99}-of–reference-of-thought driven by ontological-

temporality /shortness as of the given uninstitutionalised-threshold instigated from the prior

universalisation prospective relative-ontological-completeness -of- reference-of-thought
over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-
drivenness–equalisation exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions in their intemporality /longness or longness-of-register-of meaningfulness-and-teleology are as of a projected-or-anticipated conflatedness of social universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) for institutional and formal deferential-formalisation-transference as of percolation-channelling. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating —<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal deferential-formalisation-transference percolation-channelling to attain social approbation. It is such a ‘conflatedness’ structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling to attain social approbation’ that holds together in social universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not
necessarily perceived as any more pertinent for attaining social approbation than other temporal
meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation
meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of
universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in
universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for
attaining social approbation as of their conffatedness structuring/paradigmatic secondnatured
construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness-of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness-of-reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications) in a non-positivism social-setup than say projecting to prospective positivism registry-
worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious amplituding/formative wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) in the non-positivism social-setup. Ultimately, such a profound phenomenological amplituding/formative—epistemicity totalising—conflated—meaningfulness-and-teleology-as-of-notional—deprocriptism-reflected—historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance—<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human amplituding/formative—epistemicity totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance—<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider
in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance <including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71}<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology\textsuperscript{99} as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility
capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance–<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-
(implicated-epistemic-veracity-of-nonpresencing<-perspective-ontological-normalcy/postconvergence>) as of notional-deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence--(implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ) framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to ‘reference-of-thought/epistemic-totalisation level ‘ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness ””’reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise ”meaningfulness-and-teleology” failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to—”meaningfulness-and-teleology” all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

Put another way, consciousness as point-of-focus conflatedness\(^1\) of ‘meaningfulness-and-teleology\(^1\) is ‘operative of human-subpotency as of the coherence/contiguity-of-superseding–oneness-of-ontology-as-of-inherent-existence-coherence/contiguity’, so-implied with ‘explicited axiomatic-constructs’ construed as

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or ‘consciousness’s ontological-performance–<including-virtue-as-ontology> construed in amalgamation as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego
perspective, end up in constitutedness\textsuperscript{11} as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness\textsuperscript{12}. Rather existence—\textit{as-the-absolute-a-priori-of-conceptualisation-and-existence—\textit{as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”-\textit{as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’} is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with nothing else outside or preceding it’; as existence is an implied-axiomatic-construct-construed-as—\textit{reference-of-thought} as an implied-theory, with the ‘implied about existence’ arising as of a given/specific apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given human limited-mentation-capacity implied registry-worldview/dimension consciousness, such that ‘meaningfulness-and-teleology’ is as of existence’s implied axiomatic-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness-as-of-instantiative-context with no ‘meaningfulness-and-teleology’ construable outside it but for an epistemic-totalising\textsuperscript{12}—renewing-realisation/re-perception/re-thought of prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought’ as of human limited-mentation-capacity-deepening\textsuperscript{12} implied prospective registry-worldview/dimension consciousness and its corresponding existence’s the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ implied axiomatic-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness-as-of-instantiative-context, with no ‘meaningfulness-and-teleology’\textsuperscript{12} outside or preceding it. Thus conflatedness\textsuperscript{12} warrants that human-subpotency becoming is amalgamated as of existence as of the underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-

Such a conflatedness\textsuperscript{13} insight as of notional–deprocrypticism rather points out that soundness-or-ontological-good-faith/authenticity\textsuperscript{18} of \text{meaningfulness-and-teleology}\textsuperscript{99} ontological-performance\textsuperscript{-<including-virtue-as-ontology>} arises as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\text{meaningfulness-and-teleology}\textsuperscript{99} involving the ontological-contiguity\textsuperscript{16}—of-the-human-institutionalisation-process\textsuperscript{17} induced various consciousnesses up to the protensive-consciousness enabling transcendental centered–epistemic-totalisation, as of human limited-mentation-capacity-deepening\textsuperscript{21}. Actually, this author holds that the very fundamental handicapping issue to \text{meaningfulness-and-teleology}\textsuperscript{18} as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-}
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of that given determination reference-of-thought-categorical-imperatives/axioms/registry-teleology with the consequence that its constitutedness, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the conflatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness of existence as of prospective relative-ontological-completeness reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness, and this issue is recurrent-beyond- historiality/ontological-eventfulness/ontological-aesthetic-tracing-with-the-latter-only-a-bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening-limited-mentation-capacity,-as-limited-mentation-capacity-deepening due to inherent human temporality/shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus amplituding/formative-epistemicity-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance -<including-virtue-as-ontology>, so-derived as it
‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing ‘meaningfulness-and-teleology’ is always susceptible to the further deepening of human limited-mentation-capacity as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought such that prospective ‘meaningfulness-and-teleology’ arises out of the adjunction to this ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting ‘meaningfulness-and-teleology’. Thus language effectively reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human ‘meaningfulness-and-teleology’, as language is always a blending of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of ‘meaningfulness-and-teleology’ is always <amplituding/formative–epistemicity>totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’. Such centered-
coherent ontological-commitment as of ontological-primemovers-totalitative-framework for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality-as-to-'human-totalising-purview-of-construal'; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening adhocly produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness-of-reference-of-thought when conceptualising about such an ‘underlying totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity -signification so produced as reflected by ‘a transcendental syncretising-effecting ‘meaningfulness-and-teleology’’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater ‘meaningfulness-and-teleology’ totalising/circumscribing/delineating effect over the prior notion of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some
and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—in-singularisation-as-veridical-epistemic-determinism

induced ‘underlying \(<amplituding/formative–epistemicity>\) totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying \(<amplituding/formative–epistemicity>\) totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying \(<amplituding/formative–epistemicity>\) totalising/circumscribing/delineating signifying-construct
of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the \( <\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of
human personality development all along the various existential stages as of a notion of the
dynamics of social-construct existential situations/instances, stakes, institutions and processes
from childhood to adulthood’, notwithstanding the fact that the privileged social
centralisation of language is as of ‘language as the complete possibilities of language as of
an absolute present conception usually of a privileged end-institution purpose’. metaphoricity
is thus rather construed as of its overall conflatedness\(^{12}\) of full consciousness development as of Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-
and-teleology\(^{99}\) underlying human sublimation-inducing—textuality/hermeneutics/possibilities-
of-becoming-existential-interpretation/axiomatisation-of-existence\(^{99}\), beyond just mere
figurativeness but as of figurative projected implications of individuals and the collective-social
meaningfulness-and-teleology\(^{99}\) as of their peculiarity/differentiation to the entire
textual/hermeneutic/reprojective rhetorical-stylistic-semantic delivery, and as such
metaphoricity\(^{6}\) induces <amplituding/formative–epistemicity>totalising/circumscribing/delineating signification in producing, as of accreting-
substitutive-subsumption-as-futural-différance-freeplay\(^{2}\), ‘underlying <amplituding/formative–
epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and
together with its associated adjunctive-metaphoricity-significations. Overall, human explicit
and implicit signification as of language as articulated above is equally reflected in human
aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness\(^{12}\) reflecting syncretising-effecting superseding of human self-
referencing signifying-constructs as of the need to supersede the limited certitude as of human
limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its
theoretical possibility’ lies with such an adjunctive-metaphoricity-significations conflatedness\(^{12}\)
as of syncretising-effecting as ultimately converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed as différance in conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s amplituding/formative-epistemicity totalising–self-referencing-
‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness /relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplitudding/formative–epistemicty>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplitudding/formative–epistemicty>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional–knowledge involving the dynamic understanding of both its temporality /misconstrual and intemporality -as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising —referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality -as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such
accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting "historiality/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful "meaningfulness-and-teleology". Such a perspective should possibly usher in a 'suprastructural postmodernism in everything' including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity 'with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations', granted as of their beyond-the-consciousness-awareness-teleology"-"in-existential-extrication-as-of-existential-unthought"; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity/-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity/-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of—meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional—conflatedness of notional—deprocrypticism deneuterising —referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to dementative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that ‘meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘meaningfulness-and-teleology facet it is
then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence–
-as–prospective–ontology–origination–meaningfulness–and–teleology–facet. Thus, this author holds that such a ‘Derridean
quasi–transcendental–freeplay différance’ is fundamentally incomplete as of comparison with the
implied conflatedness of accreting–substitutive–subsumption–as–futural–différance–freeplay
which is truly transcendental. The former fails to factor in that human limited–mentation–capacity
has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with
regards to meaningfulness–and–teleology, and so as disambiguating presencing–
absolutising–identitive–constitutedness from nonpresencing–<perspective–ontological-normalcy/postconvergence>
by their respective
supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibility/setting/measuring/instrument, such that
unsuspectingly the ‘Derridean quasi–transcendental–freeplay différance’ not doing that rather
represents the presencing–absolutising–identitive–constitutedness as the common
perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference–in–
kind/difference–in–aposteriorising–or–logicising
between presencing–absolutising–identitive–constitutedness and nonpresencing–<perspective–ontological-normalcy/postconvergence>
(rather than difference–in–nature/difference–in–apriorising–or–axiomatising ), and so
contradictorily as if both are of the presencing
that nonpresencing–<perspective–ontological-normalcy/postconvergence> is wrongly–and–unsuspectingly given as of common presencing–absolutising–identitive–constitutedness, thus
inducing a relative ontologically–flawed quasi–transcendental freeplay as nonpresencing–

supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument which points to a prospective relative-ontological-completeness /ontological-contiguity as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective nonpresencing-<perspective–ontological-

note that the so-renewed ‘underlying <amplituding/formative–

together-with-quantum-mechanics—axiomatic-constructs as of transcendence-and-
sublimity/sublimation/superrogatory–de-mentativity, is not arbitrarily arising from any human-
subpotency ‘presencing—absolutising-identitive-constitutedness11 but is rather divulged-as-of-
relative-ontological-contiguity5 from existence-potency–sublimating–nascence,—disclosed-
from-prospective-epistemic-digression-as-of-amplituding/formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness by the fact of ‘human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality led projection/anticipation’ ultimate validation by ontological-primemovers-totalitative-framework. This ‘meaningfulness-and-teleology centered—epistemic-totalisation-inducing-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity metaphoricity thus perfectly satisfies the ‘foreboding concern for ontological-veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation —<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so implying human limited-mentation-capacity-deepening; and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the full conflatedness reflecting existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation —<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> in its nonpresencing—<perspective—ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay différance which is then in constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because ‘reasoning itself has
become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. So because at the point of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> and not make any determination priorly, even as of freplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness as validatable by ontological-primemovers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-
of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation. This insight about ontological-faith-notion-or-ontological-fideism — imbedded-underdetermination-of-apriorising/axiomatising/referencing — as-so-being-as-of-existential-reality further reveals that prospective non-presencing-<perspective-ontological-normalcy/postconvergence> implies prospective renewal of attitude/mental-disposition/care- and-episteme, as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring—<as-to-preconverging-or-dementing —apriorising-psychologism> respectively as of prospective relative-ontological-completeness of-axiomatic-construct-or—reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness—of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs
marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivismentowards-singularisation developments in physics since then, even though its meaninglessness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/superrorary–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance including-virtue-as-ontology; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/superrorary–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance including-virtue-as-
The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 19th and 18th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology’—<in-existential-extrication-as-of-existential-unthought>, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is
more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-synchretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of–meaningfulness-and-teleology’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness is such that in reality we are always tacitly aware of
the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a
delusion of the results of prior nonpresencing-<perspective-ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing–realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflicatedness relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness of reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional–deprocrypticism registry-worldviews/dimensions nonpresencing-<perspective-ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are
quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-
thought,-in-supererogatory~epistemic-confatedness/intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative—epistemic>totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-contruced perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence--{(implicitied-‘nondescript/ignorable–void’-as-to-presencing—absolutising-identitive-constitutedness}/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance—<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously
amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s
reference-of-thought as of its prospective relative-ontological-completeness’ reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s
reference-of-thought as of its prospective relative-ontological-incompleteness’ reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness’ reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism.

Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness’ reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-verbatim-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness’ reference-of-thought by
renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking projective-insights/epistemic-projection-in-conflatedness -of-notional-deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ thus implying rather a notional-deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation’ parameterisation/reparameterisation-(reflecting—a-supererogatory—decisionality-of-socioinstitutional-conceptions-as-to—‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality—numbing-traction-desublimation’)-as-so-operationalising—‘scalarisation-as-to-rescalarisation-as—re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care—and—episteme’ as of its procrypticism—or—disjointedness-as-of—reference-of-thought, instead of implying the
ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging-or-dementing –apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking—as–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation—(supererogatory ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/’constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/’constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/’constations’ as of human limited-mentation-capacity prospective relative-ontological-completeness—as-of-reference-of-thought <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,-

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention–or-confliction framework as of the lack of universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}.

ontological-completeness for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’

Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicus, Descartes, Galileo, Diderots, etc. as ‘meaningfulness-and-teleology’ of prospective relative-ontological-completeness -of-reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating–reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendentental knowledge. Rather human social-stake-
contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness’–‘of-notional–deprocrypticism-prospective-sublimation) originary/event ‘of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating –<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the
case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental ‘meaningfulness-and-teleology’ superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ de-mentating/structuring/paradigming of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as of successive prospective relative-ontological-completeness -of- reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-
stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness’-of- reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness’-of- reference-of-thought supersedes the prior relative-ontological-incompleteness’-of- reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-prime-movers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance’-<including-virtue-as-ontology> of any ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology’, -for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfullness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern
deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought
teleology –<in-existential-extrication-as-of-existential-unthought>-, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness –of– reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness –of– reference-of-thought, this induces constitutedness as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of– reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments attitude/mental-disposition/care–and–episteme, as of ‘deprocrypticism–or–preempting—disjointedness-as-of– reference-of-thought is rather a notional–conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of– reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness –of– reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of– reference-of-thought
‘skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme'; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought’ construed as of ‘deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought is thus in its potentiation the very summum for the

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This
radicalisation is grounded on the rational-realism postulate that humankind as of its limited-
mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all
along in reflecting holographically-<conjugatively-and-transfusively> the ontological-
contiguity—of-the-human-institutionalisation-process retrospectively and prospectively,
reflecting the reality that humankind is of both a temporal/shortness-of-register-of-

prospective relative-ontological-completeness reference-of-thought and
uninstitutionalised-threshold prior relative-ontological-incompleteness -of- reference-of-

it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporal at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-teleology towards intemporal-longness as of organic-
knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-

In this regard, the ontologically-veridical ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ with respect to our modern take reasoning-from-results/afterthought logocentric constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness-of-reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction—deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity.

It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking’–apriorising-psychologism’ as positivism/rational-empiricism thinking or notional–deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory–de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—including-virtue-as-ontology. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-

This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’.

In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-
purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of causality~as-to-projective-totalitative–implications, for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality~as-to-projective-totalitative–implications, for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special
interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human
development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But
this doesn’t cancel the fact that individuals throughout sublimating \textsuperscript{*}historiality/ontological-
eventfulness\textsuperscript{**}/ontological-aesthetic-tracing notwithstanding any disadvantaged ‘priorly implied-
and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of
human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence
of their social-construct value-construction as of its supposedly coherent ontological-
commitment\textsuperscript{\textdagger} to induce the transformation of the social-setup value-construction; such that at
various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-
construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that
all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended
critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether
of genuine or surreptitious justification. The more salient issue then for the knowledge-
reification\textsuperscript{\textdagger} of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’
narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection
as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our

The occlusiveness of our positivism/rational-empiricism social—value-construction as such from the prospective perspective of deprocripticism—or—preempting—disjointedness-as-of—reference-of-thought can be analysed—and—construed as imbued with occlusive collateral aspects of rather nondescript/ignoreable—void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured—deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived—limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility—or—akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—<including-virtue—as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold—(uninstitutionalised-threshold /*presublimating—desublimating—decisionality)—of-ontological-performance’—
consciousness, warped–self-consciousness, preclusive–self-consciousness, occlusive–self-consciousness and prospectively protensive–self-consciousness. Thus human limited-mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup of supposedly coherent ontological-commitment with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such universal-transparency—which is muted and where such universal-transparency—which is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,–as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation simply reflects the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of

We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative–epistemic>totalising~thrownness-in-existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’ <imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance <including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance <including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance <including-virtue-as-ontology>. In this regards, the broader and more profound
conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance (reflecting as of constructiveness-of-ontological-performance and destructuring-threshold–{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology and then ‘the individual dimensionality-of-sublimating —supererogatory –de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying

Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness\textsuperscript{87} as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity —

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological—veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human—subpotency knowledge—reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s2 rather than the existence—potency—sublimating—nascence,—disclosed—from-prospective-epistemic—digression—of—totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic—conflatedness—manifestation of 9.8 m/s2 and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness—of—conceptualisation—unforegrounding—disentailment,—failing—to—reflect—‘immanent—ontological—contiguity’. background/sense-of-things further require and accentuate their epiphenomenal manifestations
(which are beyond ordinary human-framework-of-experiential-existence) with the devising of
experimentations (as providing the prolongation for human interpretation capacity with respect
to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally
interpretable as ‘specifically aphoristic/cogent/pointed extensions of the underlying human
philosophical interpretative disposition for knowledge-reification’). It is important to grasp here
that mere experimentations, as often practised in many domains, that do not arise because of the
veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-
framework-of-experiential-existence but rather ‘on the vagueness and naivety that
experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the
sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive
and fulsome framework amenable to interpretation’ is the more critical basis for a profound
knowledge-reification interpretation than any such ad-hoc and simplistic experimentation
vagueness and naivety); and in many ways this explains experimental delusions in many domains

reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus
on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-
framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework

will, what is definitely central to knowledge-reification is that it is grounded on human
empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-

of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersed existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being dementatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human
institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will.

However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness" -(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating<-in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) \langle amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{66} in reflecting holographically\langle conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process ; going by the phronesis/practicality as of our positivism–procrysticism occlusiveness, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and
rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when
considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness-

type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlled by ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the ‘meaningfulness-and-teleology’ infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity’ implications of relative-ontological-incompleteness to relative-ontological-completeness is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-

Consider in this regards for instance as of the

vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing>–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness

This points to the reality that ‘human social-vestedness/normativity-discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness/relative-ontological-completeness—(sublimating–referencing/registering/decisioning,—as-self-becoming/self-

this equally applies with less starkly obvious situations having to do with human social

socially attendant situations in need for prospective knowledge-reification May; and so not as of a
falsely implied logical-dueness and logical engagement that wrongly validate the relative-
ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-
temporal-to-intemporal-dispositions–existentialism-form-factor (with the latter involving ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination’). Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity-implies-construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness’ in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’ and this is the very legitimation for any intellectualism purporting knowledge-reification. Ultimately, the very possibility for prospective knowledge-reification as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound to be undermined, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, in the interplay of human presencing—absolutising-identitive-constitutedness inclinations for vested postures and interests poorly appreciating ‘relative-ontological-incompleteness’/relative-ontological-completeness -(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflicatedness/formative–supererogating—in-projective/reprojective—aestheticising-re-motif–and—re-apriorising/re-axiomatising/re-referencing->) as to human-and-social–

Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory

The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality/shortness <amplituming/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment ). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-
transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications>}’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism>undermining of human dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension is effectively about discouraging the possibility for
requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology→<in-existential-extirication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in θ-presencing—absolutising-identitive-constitutedness as θ-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ); and in many ways this θ-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology out of its historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition social-vestedness/normativity-<discretely-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic/notional-projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening. Such social and institutional social-vestedness/normativity-<discretely-implied-functionalism> for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance’-<including-virtue-as-ontology> in a renewing originariness-parrhesia,—as—spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening rather invokes prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth—or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation for re-originariness/re-origination (and as ever always such
framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of presencing—absolutising-identitive-constitutedness—meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary
possibilities are already truncated as from prospective ontological-normalcy/postconvergence 
epistemic/notional-projective-perspective of re-originariness/re-origination as implied with prospective 
1 deprocrypticism—or preemption—disjointedness-as-of reference-of-thought.

Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness’—of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness—meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-
for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-originariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness—meaningfulness-and-teleology’ given historicity-tracing—presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ presencing—absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness of apriorising/axiomatising/referencing—conceptualisation as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression—amplituding/totalising—renewing—re-consciousness—supererogatory—epistemic-conflatedness'), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-vestedness/normativity—implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness—manifestation of human presencing—absolutising—

stifling/stalling of the full possibility of prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing. Desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition aestheticisation—and—aestheticisation-towards-ontology decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation (as construed from the prospective notional—deprocrypticism ontological-normalcy/postconvergence epistemic/notional—projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historicity/ontological-eventfulness/ontological-aesthetic-tracing purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective) of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing (which de-mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-originariness). Effectively, human decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). The idea of superseding the human registry-worldview’s/dimension’s institutionalisation decoherencing-structure—of—meaningfulness—

Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Effectively, historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as of its implied contrastive apriorising/axiomatising/referencing—psychologism of (relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity -<profound-supererogation -of-mentally-aestheticised—postconverging/dialectical-thinking —qualia-schema>), can be reflected historically with respect to say ‘an engrained traditional non-positivism/medievalism conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care—and—episteme implied by Galileo and further conceptually articulated by Descartes’ thinking proposition as to its mathesis universalis implications, such that it is as of a crossgenerational transformation/supererogatory—de-mentativeness that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing—psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) to grasp the full de-mentative/structural/paradigmatic implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with regards to the prospect of positivism/rational-empiricism aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and—teleology. Likewise, this insight can be extended in reflecting the historicity-tracing—in-

This reality is equally applicable to our state of positivism–procrypticism as to a disinclination to perceive its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity –<shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema>) as projected from prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing–psychologism to project of the <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity of prospective base-institutionalisation–ununiversalisation, just as the latter with prospective universalisation–non-positivism/medievalism, likewise the latter with prospective positivism–procrypticism, and likewise our positivism–procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of dimensionality-of-desublimating-lack-of –<amplituding/formative>supperogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity –<shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema>); as reflected in the fact that the

In this regards, we can appreciate that the Socratic philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency–sublimating–nascence, disclosed-from-prospectively-epistemic-digression-as-of-\(<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness\) undermining their respective gimmickiness-of-thought (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective) associated with sophists and medieval-scholastics then respectively defining the ‘thought/intellectual Establishment’, and that the possibility for such sublimating intellectualism as to its crude and unsavoury social discomfort implications is hardly a question of eliciting human temporality\/<shortness <amplituding/formative>wooden-language-{imbed—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\<as-of–nondescript/ignorable–void \'-with-regards-to-prospective-apriorising-implications}> as of moral and intellectual disenfranchisement/swindling/corruption/dispossession. In the bigger scheme of things dimensionality-of-sublimating—

In many ways, this dimensionality-of-desublimating-lack-of—supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation explains a poor inclination-or-capacity to effectively interpret the projected meaningfullness-and-teleology of many a past thinker as to presencing—absolutising-identitive-constitutedness institutional and social-vestedness/normativity—discretely-implied-functionalism amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that naively think that being at the backend in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with overall existence beholden frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,.in-
supererogatory–epistemic-conflatedness induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of-\textless{}amplituding/formative–epistemicity\textgreater{} totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-\textless{}unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’\textgreater{} tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification of desublimating implications of existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression-as-of-\textless{}amplituding/formative–epistemicity\textgreater{} totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness) as to the fact that the human mortal whim/discretion-
of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence de-mentative/structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} induced constraining reifying-and-empowering reflexivity undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existent-contextualising-contiguity without the defining ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’ foregrounding—entailment-{postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism in elucidating ontological-contiguity—<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’ as to the lack or poor predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity–<discretely-implied-functionalism> reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility–<imbued-and–‘hermeneutically/reprojectively-educing’–human-

Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to ‘relative-ontological-incompleteness/relative-ontological-completeness’ - (sublimating–referencing/registering/decisioning,—as-self-becoming/self-confatedness/formative–supererogating—in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social-expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ as to ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’); as the ontological inherently permeates all social and cultural frameworks so-reflected as of their underlying supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity when any of its given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading
failures associated with colonising or slaving or otherwise-exploitative-or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of ‘relative-ontological-incompleteness’/relative-ontological-completeness ⟨sublimating–registering/decisioning,–as-self-becoming/self-confoundedness/formative–supererogating–⟩ as to human-and-social–expectations/anticipations—metaphoricity—as-redem-mentating/restructuring/reparadigming–psychologism’ is irrelevant is rather a nuancing error that fails to assess/evaluate that the more critical issue had to do with ‘the appropriate emancipating attitude/mental-disposition/care–and–episteme ’ as effectively and paradoxically such a lack of nuancing can then lead to the interpretation that such historical failures should equally be the unavoidable expectation prospectively in analogous circumstances of socio-cultural disparity of societies, rather than interpreted to mean the prospective need for the requisite human knowledge-reifying and empowering reflexivity of appropriate human emancipating attitude/mental-disposition/care–and–episteme in the relationship between the state of relative-ontological-completeness and the state of relative-ontological-incompleteness. Such a wrong interpretation arises as to lack-of—⟨amplituding/formative–epistemicity⟩growth-or-confoundedness/transvalutative- rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness (reflecting mere reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation) that fails to make a nuance between on the one hand ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications as to the ‘human social–vestedness/normativity–⟨discretely-implied-functionalism⟩ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction presencing—

Incidentally, the ‘supposedly positivism/rational-empiricism formulaic/mechanical knowledge contenders’ as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-
positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies pointing to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition distortive-originariness/distortive-origination, rather than being fully assumed as marking positivism/rational-empiricism progress implied historiality/ontological-eventfulness/ontological-aesthetic-tracing originariness. supererogatory—epistemic-conflatedness. More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing’ was developed and
enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening as of relative-ontological-incompleteness to ‘relative-ontological-incompleteness/relative-ontological-completeness’ - (sublimating–registering/decisioning,–as-self-becoming/self-confoundedness /formative–supererogating<-in-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing>) as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming–psychologism as to <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Thus in many ways ‘the possibility for science to prospectively arise’ involved its very own dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension that projected of an underlying enculturated/constructed ‘scientific—apriorising/axiomatising/referencing–psychologism social-pragmatics-framing-of—predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment ’} at the very least (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally–collateralising-beholdening-protohumanity'-to-'attain-sublimating-humanity’-as-to-existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confaltedness to supersede human temporality /shortness <amplituding/formative>wooden-language-{imbued—averaging-of-

and--aestheticisation-towards-ontology well beyond our present contemplation of what is implied
by "meaningfulness-and-teleology", as in many ways the reality of our past and present
aestheticisation—and--aestheticisation-towards-ontology as "meaningfulness-and-teleology" has
‘paradoxically hugely been burdened with desublimating ‘historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the

this regards in many ways the ontological-contiguity—of-the-human-institutionalisation—
possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation capacity ‘to project in disseminative—selectivity-of-ontological-good-faith/authenticity—over—deselectivity-of-ontological-bad-faith/inauthenticity’ (as to the underlying human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance”—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity). This contrast is very much aligned with the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced presencing—absolutising-identitive-constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising / sublimating-thoughtfulness / historiality-or-ontological-eventfulness—or-ontological-aesthetic-tracing / prospective-ontological-projection / ideality as to prospective originariness-parrhesia, as—spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold as to dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-

Thus the reality of prospective human emancipation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(^\dagger\) rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment\(^\dagger\)’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’); and so critically as to the ‘presencing—absolutising-identitive-constitutedness human \(<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\)’ social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity|—
of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity potentiation’ when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility imbued-and-

But then such overcoming of ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’ still has to be effectively achieved as to the requisite human prospective development of protensive–self-consciousness in the face of the ever present manifestations of desublimating/gimmicky sophistry and eliciting of human temporality/shortness <amplituding/formative>wooden-language-

very forward-facedness of human consciousness as it defines human social-stake-contention-or-

Critically, an ‘underlying dumbing-down public intellection and media industry’ thrive on cultivating ‘a historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology9’ and is in many ways at the root source of the modern day democratic crisis of political and socio-economic disenfranchisement/swindling/corruption/dispossession, as it disenables/paralyses the possibility
for sublimating debates thus in many ways rendering the public decisionmaking process ‘a

aspiration as to their ‘ad-hoc and incoherent totalising/circumscribing/delineating implications supposedly non-ontological as
to non-metaphysical’ (with regards to conceptualising the social-construct prospective
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity value-
construction/value-aspiration), as associated particularly with ‘the specious usurpation of the overall social-construct’s intellectual–function/posture as to prospective transcendence-and-sUBLIMITY/ sublimation/supererogatory-de-mentativity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity-<discretely-implied-functionalism> constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of ‘de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes’, as the often sparing instantiating existential frames of day-to-day social, political and media landscapes decision-making/editorialising processes are poorly amenable naturally to such ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance’ and end up assuming social-vestedness/normativity-<discretely-implied-functionalism> defaulting postures with occasional clamours for equanimity/balance of the decision-making/editorialising processes quite often the niggling exceptions to entrenched and existentially-unthought reflex. Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing–of-reifying-and-empowering-intellectual-
by-reification /contemplative-distension\textsuperscript{28}, in many ways just as prior human scientific and
technological sublimation momentously induced \textsuperscript{47} historiality/ontological-
eventfulness\textsuperscript{29}/ontological-aesthetic-tracing inevitably required its accompanying social
sublimation (as the manifestations of failing social sublimation were in many ways the reason for
confictual and exploitative encounters associated with budding-positivism), and so as of the
contiguity of both human techno-scientific and social sublimations giving their mutually for-
human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective
science and technological development that seem to imply the requisite prospective sublimation
of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably
lead to conundrums of prospective science and technology development as to the very possibility
for developing the full human potential of science and technology as well as with respect to the
underdevelopment of the human as to its shiftiness-of-the-Self\textsuperscript{37} in the capacity to handle and
deal with prospective science and technology in such a manner that doesn’t imperil mankind’s

But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies-<in-transitive-conflatedness\textsuperscript{12}–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence> to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological

But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbued foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional–deprocrypticism of their respective inherent sublimating phenomenal/manifest-subpotencies<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> wherein for instance with the physics frame–of–ontological-contiguity succession of theories are developed aspiring cogently for ontological-contiguity of the whole physics epistemic-conception phenomenal/manifest-subpotency<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> as from say Galilean/Cartesian/Newtonian/Leibnizian physics to present day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity). Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-
deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ failure to directly grasp their very own <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of the ontological-performance’ -<including-virtue-as-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as to their pre-
eminence as of their ‘prospectively projected relative-ontological-completeness’/dimensionality-of-sublimating —<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-
rationalisering/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’. This
latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-
vestedness/normativity—<discretely-implied-functionalism>’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct
erinariness/commensicality and social-vestedness/normativity—<discretely-implied-

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflatedness ; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—
episteme (in this case reflecting sophistic/pedantic procrypticism—or—disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic philosophers and budding-positivists it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and notional—deprocrypticism the effective ‘world that exists to the majority people (as of ‘human temporal-to-intemporal-dispositions accordioning—(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,—as-to-the-redounding/waivering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance’—<including-virtue-as-ontology>) at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought to go on cynically eliciting <amplituding/formative>wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>) as of the latter. Ultimately, there is a ‘social underlying sublimating intellation proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellation as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellation by the prompting of their ‘social underlying sublimating intellation proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility
of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness’ knowledge that broadens the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and ‘procrypticism—or—disjointedness-as-of—reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness’ has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness’. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) as to an epistemically-decadent <amplituding/formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification)/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification /contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and ‘procrypticism—or—disjointedness-as-of—reference-of-thought respectively are intellectually-
and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more than <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity–<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected
implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness ) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness—amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag ) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before—aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ is reflected with regards to its prospectively implied epistemic-abnormalcy/preconvergence construed as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation epistemic-projection perspective. Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus speak to the fact that human prospective transcendence-and-sublimity/sublation/supererogatory-de-mentativity implied limited-mentation-capacity-deepening as to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension ) is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification /contemplative-distension imbued prospectively of both sublimating historiality/ontological-eventfulness /ontological-aesthetic-trace and desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition; as to prospective sublimating historicity/ontological-eventfulness /ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ prospective desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance -<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historicity/ontological-eventfulness /ontological-aesthetic-tracing’ and ‘a non-
scalarity/beholdingness-as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>
perspective (with regards to residual human ontological-deficiency implications as to relative
human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of
hihistoricity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’.
Uncontemplative-distension is thus rather the recognition that human dispensing-with-
immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension
doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-
normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-
completeness -by-reification'/contemplative-distension rather reflects the epistemic
perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of
existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of
existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just
relative-ontological-completeness ) underlying the overall existential dimensionality-of-
sublimating—a —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-

reflected as of notional—deprocrypticism. notional—deprocrypticism as such by its ontologically-
uncompromised nature ‘technically entails’: prospective human ontological-performance
—including-virtue-as-ontology> as to sublimating a historiality/ontological-
eventfulness /ontological-aesthetic-tracing as of ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’ in overcoming the desublimating ‘historicity-tracing—
in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-
scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in
presencing—absolutising-identitive-constitutedness\(^1\). Translated, this ‘scalarity/immanency of
existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-
scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’
underlying prospective human ontological-performance -<including-virtue-as-ontology> with
regards to human \(^5\)meaningfulness-and-teleology\(^9\) speaks to the fact that prospectively induced
human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity
appraisal for inducing further and concomitant human sublimation (and so because of the de-
mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening\(^7\) in
contrast to what will prevail in case of ‘absolute-mentation-capacity of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such
effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’
and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of
veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–
sublimation-{as-to-underlying-ontological-commitment \(\rangle\) is strongly prone to desublimating
historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-
subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in
presencing—absolutising-identitive-constitutedness\(^1\), while the former strongly constrained to
high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment \(\rangle\) is rather
relatively amenable to sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-
tracing as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’.
That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-

982
and-institutional framework’ that itself needs to be sublimating, and it is here as well that even
the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’
can be desublimated by an ontologically-impertinent ‘generalised background cultural,-
organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-
implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to
the overall social framework, the usurpation of the intellectual–function/posture arising as of
‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of
veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business
success and media-and-social influence (in desublimating ‘historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent
exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’
(as to the latter’s prospective sublimating historiality/ontological-eventfulness/ontological-
aesthetic-tracing). Critically such a ‘purist science/ontology epistemic-conception of
veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of
‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of
‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-
ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-
reflexivity-of-the-full-potency-of-existence’s~sublimating–nascence>; and so as to the relative
impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism>
epistemic-conception of veracity/truth’ (so-construed as from the ontological-
normalcy/postconvergence epistemic-projection perspective). This insight further informs
prospective notional~deprocrypticism appraisal of the ‘tight-and-entwined relationship between
the overall human ontological-commitment’ (across all registry-worldviews/dimensions) and
(corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-
underlying-ontological-commitment) (reflecting ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’). In this regards, the dem-mentative/structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordioning—(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance’—<including-virtue-as-ontology>) at uninstitutionalised-threshold as reflecting both desublimating ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition and sublimating ‘historiality/ontological-eventfulness'/ontological-aesthetic-tracing possibilities’, reflect the fact that the originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness for prospective knowledge-reification46 implying a projection out of a prior human registry-worldview’/dimension’s institutionalisation framework cannot be construed as of any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity49 on the basis of the prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly implying that there is an underlying absolute sound basis for human knowledge-reification52 as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity53, whereas in reality such grounds are recurrently rede-mentated/restructured/reparadigmed for relative-ontological-completeness57 as to re-motif—and—re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting); hence implying that prospective sublimating ‘historiality/ontological-eventfulness'/ontological-aesthetic-tracing at any uninstitutionalised-threshold55 is necessarily imbued with prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation ‘messianic-structure of intemporality’ and its derived deferential-formalisation-transference secondnaturining. We can appreciate in this regards that budding-positivists ‘meaningfulness-and-
teleology, however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatures apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’ but the fact is that such budding-positivism in its rede-mentating/restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our present positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Such a rede-mentating/restructuring/reparadigming for relative-ontological-completeness induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring equally applies with respect to prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards, just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that projected of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ by budding-positivists allowed for the enculturation of a human positivism/rational-empiricism social orientation with regards to the natural sciences (then more-or-less subsequent ‘aspirational sciences’) epistemic-conceptions phenomenal/manifest—subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence as to their implicated ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’ foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanen-
unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’ as to the latter’s implied procrypticism–or–disjointedness-as-of reference-of-thought). But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation–blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing–totalising–in-relative-ontological-completeness). What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation–as-to-underlying-ontological-commitment’) as critically enabling prospective sublimation’ so-implied as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supnerogatory–epistemic-conflatedness). The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-
consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation (as-to-underlying-ontological-commitment)’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation (as-to-underlying-ontological-commitment)’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology by eliciting presencing—absolutising-identitive-constitutedness sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-
equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment’) (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification’.

This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-
threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic-transversality-of-affirmative-and-unaffirmative,-disambiguating-apriorising/axiomatising/referencing is in transversality-of-affirmative-and-unaffirmative,-disambiguating-apriorising/axiomatising/referencing with the relative-ontological-incompleteness logical-basis/logic-transversality-of-affirmative-and-unaffirmative,-disambiguating-apriorising/axiomatising/referencing, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment). In this regards, it can be appreciated with respect to budding-positivism and\textsuperscript{77} universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the

Likewise, this insight about the requisite 'ontological-good-faith/authenticity' for organic-knowledge needs to be explicited with regards to the blurriness of 'meaningfulness-and-teleology' associated with today’s institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} with cynical, ridiculous and paradoxical pretenses of humility and sensibility/decorum that by that token (not unlike ancient sophistry and medieval-scholasticism) go on to induce 'existentially invalid condescension' as to their veridical desublimating-presencing—absolutising-identitive-constitutedness,<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ as of ontological-bad-faith/inauthenticity~de-mentating/structuring/paradigming-<seeding/incipient—shallow—supererogation,—as-mentally-aestheticised—preconverging/dementing—qualia-schema>. The blunt fact is that as explained above and clearly obvious with human living-development–as-to-personality-development and institutional-development–as-to-social-function-development the ordinariness of ‘meaningfulness-and-teleology’ is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as to a disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect—‘immanent-ontological-contiguity’> which pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation thrives on this lack of universal-transparency (transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—

The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—
enframing/imprintedness-<as-to-` historicity-tracing—<in-presencing—

development/ontological-framework-expansion—<as-to-depth-of-ontologising-development-as-

infrastructure-of—meaningfulness-and-teleology ), and in fact in many ways individuals

intersolipsistic actions in society implicitly recognise this reality even as the overall

underpinning—suprasocial-construct tends to be abstractly de-mentated/structured/paradigmed to

skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity

disposition’ (as for instance professional choices and callings made well beyond just a question

of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine

social intellectual—function/posture is to undermine this skewing towards ‘immediacy supposed

absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-

consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>;

positive-opportunism of living-development—<as-to-personality-development and institutional-

development—<as-to-social-function-development) and reconstrue human-subpotency aporeticism

in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’.
In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness, ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development—as-to-personality-development and institutional-development—as-to-social-function-development).

This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the
backbone for human value and ontological-veracity sublimation (as has always been the manifest
case for surpassing the uninstitutionalised-threshold\textsuperscript{92} of registry-worldviews/dimensions). The
fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as

The underlying insight here is that unlike the flawed mental-reflex associated with "presencing—absolutising-identitive-constitutedness" <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that de-mentatively/structurally/paradigmatically projects of a ‘neutrally/objectively sound human ontological-performance’-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising~thrownness-in-existence”, human <amplituding/formative–epistemicity>totalising~thrownness-in-existence as to human limited-mentation-capacity veridically implies that ‘existence is not beholdening to that human thrownness and the critical human teleological as to ontological-performance’-<including-virtue-as-ontology> issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence’. The implication here is that the ‘ontological-good-faith/authenticity ~de-mentating/structuring/paradigming-<seeding/incipient–profound –supererogation ,as-mentally-aestheticised~postconverging/dialectical-thinking –qualia-schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity which is only possibile as to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective-ontological-

Thus it is only the possibility of ‘ontological-good-faith/authenticity-de-mentating/structuring/paradigming-<seeding/incipient–profound-supererogation>,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualification-schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ that can thus allow human existential-discursivity—implicitly-sublimation-over-desublimation beyond naïve-presencing—absolutising-identitive-constitutedness-<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance-<including-virtue-as-ontology> cannot be neutrally be separated from human <amplituding/formative–epistemicity>totalising–thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance-<including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity-de-mentating/structuring/paradigming-<seeding/incipient–profound-supererogation>,-as-mentally-aestheticised-postconverging/dialectical-thinking–qualification-schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-

Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness\textsuperscript{7} avails rather than ontological-bad-faith/inauthenticity\textsuperscript{7} in upholding relative-ontological-incompleteness\textsuperscript{8} (given that immortality/existence-perspective as to intemporality\textsuperscript{7} cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing–apriorising-psychologism and not postconverging-or-dialectical-thinking\textsuperscript{7}–apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicit-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness\textsuperscript{7} as to dimensionality-of-sublimating—<amplituding/formative>supercategorical—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation takes precedence in defining human intellectual-and-moral ontological-performance\textsuperscript{7}-<including-virtue-as-ontology> and so as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation. This implied existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—dementating/structuring/paradigming—seeding/incipient—profound—supererogation’,-as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the premeaningfulness/preframing—metaphoricity—disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘dementatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance—including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative—epistemicity>totalising—thrownness-in-existence’. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the
social-setup’s relative-ontological-incompleteness specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given
<amplituding/formative–epistemicity>totalising–thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance—<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that dementatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—‘meaningfulness-and-teleology’, existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—de-mentating/structuring/paradigming—<seeding/incipient–profound—supererogation>,—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’, thus points to the primacy of ‘the very <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ of human discursivity as to the possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia,—as—spontaneity-of-aestheticisation
schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> implies that as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance'-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence, with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflededness /transvaluative-rationalising/transepiestemicity/anamnestic-residuality/spirit-drivenness–equalisation. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity —of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence—(implicit-ed-nondescript/ignoreable–void—as-to presencing—absolutising-identitive-constitutedness) <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag on the one hand and on the other hand difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to relative-ontological-completeness-as-amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination—<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness as-amplituding/formative—epistemicity—totalising—self-referencing—
equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism
social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall ‘meaningfulness-and-teleology’. But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness’—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving>. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaus, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the ‘noble savage’ and nature as speaking to an aporeticism that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn’t imply just killing animals at whim); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and
technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—
⟨as-to-underlying-ontological-commitment ⟩’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness—<as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification—contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with
meaningfulness-and-teleology’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct–of—meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct–of—meaningfulness-and-teleology’ instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—<including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) displayed in the public domain (caught-up/entrapped in

with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. Along the same line of intellectual appreciation of prospective sublimation implications as to the fact that nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness reference-of-thought-devolving ‘critically points to an overall nascent knowledge-reification—gesturing directly or indirectly prescient of a comprehensive sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension’; the possibility for ontology/science is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing construction’ (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest-subpotency—intransitive-conflatedness—reflexivity,-in-the-full-potency-of-existence’s—sublimating—nascence>) and so as to the subject-matter underlying existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—dementating/structuring/paradigmig—seeding/incipient—profound—supererogation—as—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ (and so as effectively reflected by the overall reference-of-thought and reference-of-thought—devolving/subject-matter relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing—of—predicative-effectivity—sublimation—{as-to-underlying-ontological-commitment}). In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-
worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency-<in-transitive-conflatedness-reflexivity-in-the-full-potency-of-existence’s-sublimating-nascence> (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>’. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human historical/ontological-eventfulness/ontological-aesthetic-tracing rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identitive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to- historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-
preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification—gesturing, the ultimate possibility for our positivism–procrypticism overcoming its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) lies with the prospective ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ imbuedforegrounding—entailment-

‘scalarisation-as-to-rescalarisation-as—re-ontologisation’ for prospective aestheticisation—and—
aestheticisation-towards-ontology/~meaningfulness-and-teleology can be understood in the sense that just as we can appreciate that if supposedly we are found in say an exclusively animistic social-setup with supposedly no possibility to rejoin a positivistic social-setup, while at the very least we appreciate that the material/technical capacity of a positivistic social-setup overall will enhance such an animistic social-setup as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the fact remains that our thrownness in the animistic social-setup requires at least a basic engagement tolerable to its before any pretense to a projection of positivistic (as can so be appreciated with the cultural diffusion encounters throughout human history). In this regards as to a decisively globalising world we can’t conceive that ours will be the human generation bereft of ‘profound diffusionary/non-diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human (as so construed as of dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation), as to the fact that overall human beholdening inclination (as to any defining overall relative-ontological-incompleteness—presublimation-construct–of—meaningfulness-and-teleology concerned mostly with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development in the priorly achieved Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology) rather tends to reconverge to shallow <amplituding/formative–epistemicity>totalising–thrownness-in-
calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance’ - <including-virtue-as-ontology> as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>’ (however their de-mentative/structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. Such a beholdening presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> skews the fundamental ontology question by its inherent amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity-discretely-implied-functionalism>. perplexing/passivising modern day scale of organisationally and institutionally de-
mentated/structured/paradigmed ‘meaningfulness-and-teleology’ as to the fact that modern day
organisational and institutional structure and purposes (by their social-stakes-contention-or-
confliction) in critical ways render the sovereign human increasingly more of a mere cog within
systems that as of their technical, bureaucratic and socially-defining ‘presencing—absolutising-
identitive-constitutedness’ existentialising—enframing/imprintedness-<as-to- historicity-
tracing—in-presencing—hyperrealisation/hyperreal-transposition> purposes are already in many
ways decisively de-mentatively/structurally/paradigmatically predefined as
imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in
surmountable/unovercomable frameworks as not subject to prospective aporeticism-
overcoming/unovercoming analysis, and thus increasingly undermining generalised-and-
representative human appreciation of deconstructive acuity and reappraisal (but for such
institutional and organisational predetermined distorted conception of paucity/deficiency as to
capacity-deepening) that underlies the notion of human de-mentation-
(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-
attributive-dialectics) as factoring in the implications of human limited-mentation-capacity (by a ‘psychological-disposition for supererogatory—unbeholding-confalatedness’

‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of presublimating intelligibility’ failing such a ‘relevant/appropriate subjecting-and-resubjecting of motif-as-to-aestheticisation-<imbued-projective-arbitrariness/waywardness> to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as underscored by the ‘effectively underlying human beholding—inch, apprehending—and-taming—drive or aestheticising—

meaningfulness-and-teleology\(^{19}\) infrastructure thus effectively superseding any such given
registry-worldview/dimension underpinning–suprasocial-construct prior conception of
ontologisation and value-construction’. Interestingly, this seedingly/incipiently fundamental
paradox of ‘prospective/nascent sublimating supererogatory–unbeholdening-conflatedness\(^{13}\)’
and ‘presublimating relic/artifactual–beholdening-constitutedness\(^{13}\)’ as to its perpetuative
encumberment of human intelligibility, correspondingly highlights the inherent disambiguation
of human meaningfulness-and-teleology\(^{99}\) ‘as of the seeding/incipient encumberment of its
momentous-unbeholdening–aestheticising-reflex with its merely-beholdening–aestheticising-
reflex’ (so-perpetuative as to human living-development–as-to-personality-development,
institutional-development–as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastucture-of–meaningfulness-and-teleology\(^{55}\)), as the more critical drawback to
overarching reframing of ‘human-decisionality–<as-to-play-of-valid/invalid-decisionality-
imbueld-sublimation/desublimation> omni-potential commensurability with inherent immanent-
existence’s sublimation-structure’/omnipotentiality. This insight can be translated by the fact that
nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations-
<blinded-to-their-relative-ontological-completeness\(^{87–83}\)-reference-of-thought–devolving>) as to
their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about
immanent-existence ‘beyond and unbeholdenig to any human merely-beholdening–
aestheticising-reflex of meaningfulness-and-teleology\(^{99}\)’, and so for instance in the sense that
human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-
mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-
manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation\(^{96}\)’ as to the inherent sublimating/emancipatory possibilities accruable
to all humans and societies as to their underlying ontological-commitment of 'meaningfulness-and-teleology'; so-reflecting the fact that overall human civilisation (notwithstanding any given societies/cultures of naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted—meritocracy/totalising—sovereign-appropportioning—of-human-ontological-performance—<including-virtue-as-ontology> ‘merely-beholdening—aestheticising-reflex of ‘meaningfulness-and-teleology’) could only be possible by the cumulating/recomposuring of all such ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’ manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’ more fundamentally speak to ‘overall human momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening—aestheticising-reflex of ‘meaningfulness-and-teleology’ of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure—<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the
civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory-unbeholdening-confiliatedness’/historiality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening-aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness’/historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of presublimating intelligibility’ of ‘merely-beholdening–aestheticising-reflex of ‘meaningfulness-and-teleology’ caught up in complexes of ‘naïve’ presencing—absolutising-identitive-constitutedness’ as to presencing-distorted–meritocracy/totalising–sovereign-approportioning—of-human-ontological-performance—<including-virtue-as-ontology>’ that end up inducing poor/distorted human understanding of the human). The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening-aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of ‘meaningfulness-and-teleology’, a ‘human psychological-disposition for supererogatory-unbeholdening-confiliatedness’/historiality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-

That is, the individual and social existentialising–decisionality is more readily defined by default in ‘behindening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism consequences of deferring to ‘universal-transparency’–⟨transparency-of-totalising-entailing, -as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness⟩ of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with the lack of such ‘universal-transparency’–⟨transparency-of-totalising-entailing, -as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness⟩ of sublimating–nascence’ as to when ‘blurriness in existentialising–decisionality’ arises inducing defaulting ‘behindening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness –presublimation-construct–of– meaningfulness-and-teleology desublimating–existentialising–decisionality). The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks–of–referencing/registering/decisioning of human meaningfulness-and-teleology of ‘blurriness in existentialising–decisionality’ as rather poorly amenable to profound ‘unbehindening sublimating–nascence ontologising-depth of the full-potency of existence’ as it is relatively the case in the natural sciences (and so beyond-the-consciousness-awareness-teleology–⟨in-existential-extrication-as-of-existential-unthought⟩); as to the fact
that existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation

more readily makes ‘desublimating nonsense’ of human existentialising–decisionality

failing ‘genuine knowledge-reification’ framework involving an immediate potent detour to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-

meaningfulness-and-teleology (so-enabled by poor direct/immediate potent constraining to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In this regards, many such social-and-institutional-frameworks-of—referencing/registering/decisioning can be construed as ‘frameworks of relatively shallow-ontologisation/subontologisation’ as to the existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ due to ‘blurriness in existentialising–decisionality’. It is herein contended that the most fundamental issue with regards to human prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-relative-ontological-completeness—reference-of-thought-
psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of ‘reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of ‘reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic ‘meaningfulness-and-teleology’ ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ with regards to sublimating–nascence teleological-inflection-(as-to-more-profound-nondisjointing–<amplituding/formative–epistemicity>totalising/circumscribing/delineating)’, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving> as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ in the sense that the technician and natural scientist are unconcerned with ‘any social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality imbueuent’ supposedly superseding existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation given that any such social and institutional pretense-of-sublimation cannot generate any inherent
technical and scientific sublimating–nascence (wherein if such social-and-institutional-

on earth to be considered as 7 m/s² for instance for one reason or another but for existence—as-
sublimating-withdrawal,-eliciting-of-prospective-supererogation⁷), rather the natural scientist
and technician will view such social-and-institutional-frameworks-of—
referencing/registering/decisioning existentialising–decisionality pretense-of-sublimation as the
very de-mentative/structural/paradigmatic undermining of the possibility of natural science and
technical development as to sublimating–nascence beyond just the specific instance but as to a
fundamentally underdeveloped social-and-institutional-frameworks-of—
referencing/registering/decisioning desublimating–existentialising–decisionality that must be
overridden (so that similar intellectual decadent pretense-of-sublimation should not arise) for the
prospective possibility for science and technical development sublimating–nascence to flourish;
and likewise it is herein contended that absolutising social-and-institutional-frameworks-of—
referencing/registering/decisioning existentialising–decisionality pre-eminence as to imprimatur
and the dynamics of imprimatur (with regards to ‘blurriness in existentialising–decisionality’
associated with social-and-institutional-frameworks-of—referencing/registering/decisioning) as
‘precedingly defining the possibility of prospective knowledge over inherent knowledge’ is itself
the very de-mentative/structural/paradigmatic desublimating undermining of the possibility of
veridical social and institutional prospective sublimation/emancipation as to sublimating–
nascence, and in that respect no mortal (including the one mortal making this articulation herein)
can pretend to a status bigger than existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation⁷ to then imply that genuine knowledge-reification⁸ cannot cross-
it/has-to-bow-to-it (for one reason or another), and in that regards the more profound knowledge-
reification⁸ as to the de-mentative/structural/paradigmatic upholding at all instances of the
possibility for prospective genuine knowledge-reification⁸ inducing sublimation/emancipation
as to sublimating–nascence is more than just the specific knowledge-reification –gesturing for sublimation but rather more critically overt articulation of the ‘veridical demential/structural/paradigmatic intellectual underdevelopment underlying any such a mortal claim’ as to the fact that no human can claim that 2+2 is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in prospective construction-of-the-Self) so-reflected in the fact that the underlying existentialising–frame of knowledge is the very requisite condition for eliciting the true ‘meaningfulness-and-teleology’ of any given specific knowledge-reification –gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising–decisionality specific knowledge-reification –gesturing for sublimating–nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness – reference-of-thought–devolving> where the underlying registry-worldview/dimension existentialising–frame of knowledge is of non-positivistic desublimating–existentialising–decisionality and is not addressed/dealt-with as the Galileos, Descartes, etc. understood with respect to non-positivising medieval-scholasticism desublimating–existentialising–decisionality or the universalising-idealisation Socratic-philosophers sublimating–existentialising–decisionality understood with respect to non-universalising ancient-sophists desublimating–existentialising–decisionality and in both instances as of their prospective registry-worldviews/dimensions implied incipient/seeding amplituding/formative–epistemicity totalising–thrownness-in-existence–imbued-projective-arbitrariness/waywardness—as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of–amplituding/formative–epistemicity totalising–conceptualisation’) as to sublimating–nascence epistemic-conflatedness as of projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing, and it is contended as well that the conceptualisation herein is rather
the more profound as to when its meaningfulness-and-teleology elucidates as to its deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought sublimating—existentialising—decisionality ‘the desublimating—existentialising—decisionality of such disjointing pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—⟨amplituding/formative—epistemicity⟩totalising~in-relative-ontological-completeness ⟩ underlying existentialising—frame of knowledge as to fundamental misanalysis’ as so-reflected also with ‘postmodern thinkers direct/indirect criticisms of presencing—absolutising-identitive-constitutedness’ as the sublimating—existentialising—decisionality predefining condition for their specific knowledge articulation to more profoundly be grasped/comprehended/realised), with human knowledge-construal being an altogether level playing field only driven as of the sublimating potential as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation (and in this regards theories and concepts cannot be articulated to imply that their subverting criticisms are rather personal/traditions attacks as is increasingly the case in todays institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—⟨amplituding/formative—epistemicity⟩totalising~in-relative-ontological-completeness ⟩ since the very first credo of the intellectual is for inherent knowledge above any given theories and concepts and traditions which are rather subordinate to the more profound purpose of the human knowledge-reification project as was so understood and propounded by such mid-twentieth century thinkers like Bertrand Russell, A.J. Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical
whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification’ as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’ rather than veridically ‘knowledge-reification’ as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so-reflected when mere methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Overall the social-construct itself is reflexive of this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as of its very underlying social-and-institutional-frameworks-of—referencing/registering/decisioning as to social-stake-contention-or-confliction wherein the ‘implicated sublimating–existentialising–decisionality’ underlying the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ associated with nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> (as reflected by the dedication/selflessness/disinterest/magnanimity underlying such existentialising–decisionality of sublimating–nascence as to existence—as-sublimating-

social and intellectual pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation (as it can be appreciated for instance that the lack of notional–self-distantiation/distantiation of contemplative existentialising-frame as to transversality-of-affirmative-and-unaffirmative, disambiguated-apriorising/axiomatising/referencing in a non-positivistic social-setup between prospective positivistic knowledge and prior non-positivistic knowledge is exactly what can enable pedantic dispositions to cultivate non-positivistic meaningfulness-and-teleology in such a social-setup), and critically in this regards it principally involves pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} as undermining the social-construct’s intellectually potent reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—’hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>. Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency—{transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} as to a de-mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating—existentialising—decisionality gesturing of attenuating/devaluing, blurring and
trivialising wherein there is ‘supposedly no totalising-entailing conception of meaningfulness-and-teleology’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ . Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—and thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks—referencing/registering/decisioning as of ‘blurriness in existentialising—decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human temporal-to-intemporal-dispositions as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought).
Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—\langle\text{amplituding/formative–epistemicity}\rangle{}\text{totalising—}\text{in-relative-ontological-completeness}\rangle{}\text{as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the }^{103}\text{universal-transparency}^{104}\text{—(transparency-of-totalising-entailing,—as-to-entailing—\langle\text{amplituding/formative–epistemicity}\rangle{}\text{totalising—}\text{in-relative-ontological-completeness}\rangle{)}\text{ of knowledge-reification’ (and so as to self-serving social-vestedness/normativity—\langle\text{discretely-implied-functionalism}\rangle{)}\text{ and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating }^{103}\text{universal-}
transparency of totalising entailment, as-to-entailing amplitudizing/formative epistemicity totalising–in-relative-ontological-completeness of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness–as-to–historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrödinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence, speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating–existentialising–decisionality as to existence—as-sublimating-withdrawal, elicitig-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning–of-sublimation–as-to-entailing-theoretical, conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as
emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification’ process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiological/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of human temporal-to-intemporal-dispositions) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relating-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-

human knowledge-reification especially (as speaking to prospective human destructuring-
threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-
ontological-performance—<including-virtue-as-ontology>) is inevitably infused with social-
and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-
driven motives of desublimating—existentialising—decisionality beyond just ‘a purported baseline
conception of neutral knowledge-reification’ with such frameworks projecting their

hyperrealisation/hyperreal-transposition> conception of the ‘overall possibility of human
existentialising—decisionality as to catchmenting-by-rejection’. In this respect, it is important to
grasp that knowledge-reification then desublimatingly becomes an issue of more than just
rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with
respect to existentialising—decisionality of prospective knowledge-reification, and this reality
given human temporal-to-intemporal-dispositions is reflected by an inherent human
‘referencing/registering/decisioning of shallow-supererogation—to—profound-
supererogation conception of social-stake-contention-or-confliction’ with respect to
prospective knowledge-reification. In many ways recent history of human thought has shown
that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest
politically-driven motives of desublimating—existentialising—decisionality going beyond just
neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of
scepticism and blurring underlied by cynical reframing of thought at later moments (which had
been related to sceptically and in blurriness at previous moments), and so as to shallow-
supererogation desublimating–existentialising–decisionality driven by mere institutional-
ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any
such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously
articulated as to the profound-supererogation motive of human sublimation beyond/and-not-
subjected-to the existentialising—enframing/imprintedness— Historicity-tracing—im-
presencing–hyperrealisation/hyperreal-transposition> of any shallow-supererogation social-
and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion
humans on planet Earth and as any party of interest of profound-supererogation may find useful
or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness
and derived secondnaturedness positive-opportunism’ required for human self-surpassing—
existentialism-form-factor, in-overcoming—‘notionally–collateralising-beholdening-
protohumanity’ to ‘attain-sublimating-humanity’ as-to-existence-potency—sublimating—

as of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-

when the messiah comes they still have to come (inevitably-so given prospective human

mentativeness/epistemic-growth-or-conflatedness / transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency–sublimating–nascence, disclosed–from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness^{12} in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process^{11}’ since it will always be caught-up in its ‘presencing—absolutising–identitive-constitutedness^{1} existentialising—enframing/imprintedness–<as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> as to its underlying presencing-distorted–meritocracy/totalising–sovereign-appropportioning—of-human-ontological-performance^{7}<including-virtue-as-ontology> desublimating–existentialising–decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating–existentialising–decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and the positive-opportunism arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–
meaningfulness-and-teleology implications) and in that regards the triteness of human pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and <amplituding/formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications> patently doesn’t count (given the latter associated temporal desublimating–existentialising–decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating–nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment). The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation vague proceduralism (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) as to the simple fact that human prospective destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> means that human meaningfulness-and-teleology is ever always caught up prospectively between intellectualism sublimating–existentialising–decisionality and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimating–existentialising–decisionality. This is the case given the requisite condition for the very basic human sublimating–existentialising–decisionality
conflatedness\textsuperscript{1}/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\textsuperscript{1}-equalisation of the said prospective sublimating knowledge-reification\textsuperscript{1}; as to imply that (say with regards to Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-\textsuperscript{1}\textsuperscript{1}meaningfulness-and-teleology\textsuperscript{2}) it is supposedly possible to understand the veracity of any specific positivistic\textsuperscript{2} meaningfulness-and-teleology\textsuperscript{2} while remaining of non-positivistic mindset, which inevitably induces a relative-ontological-incompleteness \textsuperscript{1}-presublimation-construct-of-\textsuperscript{1}\textsuperscript{1}meaningfulness-and-teleology\textsuperscript{2} desublimating-existentialising-decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification\textsuperscript{1} can be further elucidated along the same lines (with regards to living-development--as-to-personality-development and institutional-development--as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{1}). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct\textsuperscript{2} meaningfulness-and-teleology\textsuperscript{2} as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence\textsuperscript{2}, with the notion of ‘supposed genius’ serving as to human \textsuperscript{2}presencing—absolutising-identitive-constitutedness\textsuperscript{3}\textsuperscript{1} existentialising—enframing/imprintedness<as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> (beyond-the-consciousness-awareness-teleology\textsuperscript{5}-<in-existential-extrication-as-of-existential-unthought>) to render obscure the veracity of this epistemic-abnormalcy/preconvergence\textsuperscript{2} of the social-construct\textsuperscript{2} meaningfulness-and-teleology’ that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the
social-construct’s prospective dimensionality-of-sublimating — <amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating — <amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicated exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-teleology’ <-in-existential-extrication-as-of-existential-unthought>) about substituting a different and desublimating—existentialising—decisionality (whether of pedantic incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation or <amplituding/formative>wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology”—as-of—‘nondescript/ignorable—void”—with-regards-to-prospective-apriorising-implications>)) and particularly so in relatively blurry domains-of-study/domains-of-interest (as we can appreciate that such a ‘technically wrong’ presencing—absolutising-identitve-constitutedness existentialising—enframing/imprintedness—<as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> deficient notion of genius’ in spheres of inherently sublimating—nascence as to nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness”—reference-of-thought—devolving> is practically of ‘insignificant import though technical ontological-impertinence’ and so ‘as to their very knowledge-reification”—gesturing as determining sublimating—existentialising—decisionality’ since the immediate/direct potency as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation[6] will be highly challenging

As we can appreciate that more critically than any individual persons punctual existential ontological-performance —<including-virtue-as-ontology>/morality/ethics, etc. the vices-and-impediments manifested in any registry-worldview/dimension are more decisively explained by the given registry-worldview’s/dimension’s ‘destructuring-threshold—(uninstitutionalised-threshold /presublimating—desublimating-decisionality)—of-ontological-performance —<including-virtue-as-ontology>—of temporal-to-intemporal-dispositions’ (with the grandest deeds of ontological-performance —<including-virtue-as-ontology>/morality/ethics, etc. rather reflected in the transcendence-and-sublimity/sublimation/suberogatory—de-mentativity of any such destructuring-threshold—(uninstitutionalised-threshold /presublimating—desublimating-decisionality)—of-ontological-performance —<including-virtue-as-ontology>—as to prospective human ‘sublimating—referencing/registering/decisioning self-becoming/self-conflatedness /formative—supererogating—<in-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re—

In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality proned to ‘presencing—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness—as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification ’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification’—gesturing as determining sublimating–existentialising–decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-pain intelligibility -<imbued-and–hermeneutically/reprojectively-educing”–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein
existence as to its very panintelligibility\(^1\) — effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^2\). Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-sublimating–de-mentating/structuring/paradigming or existence-desublimating–de-mentating/structuring/paradigming elicitable respectively as from human ontological-good-faith/authenticity\(^3\) ~ de-mentating/structuring/paradigming—<seeding/incipient–profound ~ supererogation\(^4\), as-mentally-aestheticised–postconverging/dialectical-thinking ~ qualia-schema> or ontological-bad-faith/inauthenticity\(^5\) ~ de-mentating/structuring/paradigming—<seeding/incipient–shallow ~ supererogation\(^6\), as-mentally-aestheticised–preconverging/dementing ~ qualia-schema>. Such a veridical ontology (in relegating/doing-away-with/superseding the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is critically all about ‘a coherent totalising-entailing knowledge-reification—gesturing’ exposed to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supерerogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>; with such a coherent totalising-entailing knowledge-reification—gesturing accounting for overall knowledge ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing as to human limited-mentation-capacity-deepening’ imbued conceptivity/epistemic-reflexivity (so-reflected in the ‘momentousness-driven coherence of knowledge-reification—gesturing as to entailing—amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness’ so-associated with human limited-mentation-capacity-deepening’). It is important to note in this regards that ‘knowledge-reification—gesturing ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing’ is
the more profound conception of ontology and science (as to human dimensionality-of-

Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendancy and other dominance/vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of genuine knowledge, in ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’). In many ways this latterly identified manifestation of ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’, wherein political purpose supposedly supersedes human intellective potency is the very crème-de-la-crème de-mentative/structural/paradigmatic and defining basis for social-and-institutional-frameworks-of—referencing/registering/decisioning of desublimating–existentialising–decisionality as to ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to

This latter conceptualisation goes well beyond a point of just mere technical ontological-pertinence as to the fact that it operantly captures in a nutshell the prospectively requisite human aporeticism overcoming/unovercoming in upcoming years and decades, as to the capacity for the human to redefine humanity in the light of the societal and technological transformations of the past few decades and the resultant/developing geopolitical context. It is herein contended that the incapacity for such a collective reconstrual of humanity (as to ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence implied as to the very inherent knowledge-reification –gesturing as determining sublimating–existentialising–decisionality’) following the social and industrial transformation occurring by the end of the th century very much underlies the ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sUBLimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’’) which could only end up in the human-made calamities of the th centuries so-critically attributable to dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising–

of the genuine social intellectual–function/posture is supposedly justified across human history
on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all
societies even in many a premodern society when the traditional order of the day is put in question
with cultural diffusion as to when for instance witchdoctors carry covert misinformation

The fact remains that the genuine social intellectual–function/posture (even as to when it is undermined with punctual pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimatingly pandering to the powers of the day) remains the only human conduit to sublimating ontological-veracity that cannot be substituted but rather supererogated as to undermining such pedantic ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a dementative/structural/paradigmatic issue of intellectual irrelevance no less than punctual technical or scientific incompetence can be transformed into a de-mentative/structural/paradigmatic issue of technical or scientific irrelevance but rather requisite profound–supererogation over say pseudoscience and/or ‘distorted institutional science’ (as the fact is when it comes to social-stake-

In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic-(preconverging/shallow-supererogating-‘human-and-social–expectations/anticipations—de-

and so as to the fact that the democratic process ‘public-sovereignty—giving function/posture as
associated with the centrality of elections, voting and party politics’ is incomplete without an
adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a
genuine social intellectual—function/posture. In many ways the very idea of the ‘democratic
public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural
ascendancy over ‘the supposedly democratic platforming and stakeholding in defining the very
issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically
skewed media debates and socio-econo-political thought-makers/thought-making overtly
associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media
influence). Critically, in this context such skewed platforming and stakeholdering ends up
alienating supposed sovereign electors as to a platforming and stakeholdering process that
mediatically and politically take a self-contained course (as to dominance/vested-interest
defaulting issues that can be debated as to the underpinning—suprasocial-construct

increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true
policy solution) or decreasing participation in the democratic process, in many ways speaking to
the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-
in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact
that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). Such a Machiavellianism riding-the-wave of the underpinning–suprasocial-construct existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of the human sovereign–function/posture thrives on social and intellectual pedantic incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with the cultivation of disingenuous analysis as to strategies of misanalysis (so-reflected by the ‘propounding and enframing in ad-hocness and false-orthodoxy of policy issues so-underlied with catchphrases like deficit, public spending, etc. as to an aversion to consistent and long-term analysis pointing out the underlying inconsistency’ highlighting effectively that the political disenfranchisement/swindling/corruption/dispossession purpose of such argumentations precede their ‘very inherent knowledge-reification’—gesture as determining sublimating–existentialising–decisionality’ purpose as to Machiavellian instigated false public debates) to which human sovereign–function/postures gullibly get caught up in or which ultimately discourages public interest and participation or lead to protest votes; with such misanalysis typically characterised by false bothsidesism existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing— hyperrealisation/hyperreal-transposition> reflex (bandied about as supposedly the very summum of democratic impartiality) relation to any sublimating ‘meaningfulness-and-teleology’. Misanalysis as such speaks fundamentally of an issue of ontological-bad-faith/inauthenticity (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity ~de-mentating/structuring/paradigming-<seeding/incipient–shallow–supererogation ,-as-mentally- aestheticised~preconverging/dementing –qualia-schema> as the latter is nothing but a circular

Thus the genuine social intellectual–function/posture existentialising—frame is the social harbinger of ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ as of its perpetuation of nonpresencing<perspective—ontological-normalcy/postconvergence> projection (as to reference-of-thought—and reference-of-thought—devolving—meaningfulness-and-teleology) comprehensiveness of prospective sublimating–nascence’ so-underlied as of ‘the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality’), and so with regards to the fact that the reality of human limited-mentation-capacity warrants a human capacity for re-orginariness/re-origination.

the notion of prospective sublimation/desublimation as to the possibility for prospective knowledge-reification is inevitably bogged down to the <amplituding/formative-epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag of our modern ‘presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> inducing of subontologisation/subpotentiation) as so-reflected in a psychological-disposition to presublimating relic/artifactual–beholdening-constitutedness de-mentatively/structurally/paradigmatically bound to ‘historicity-tracing—in-presencing−hyperrealisation/hyperreal-transposition. This is exactly in contrast to the whole object of effective fundamental ontology as incipiently/seedingly central to Derridean deconstruction and Foucauldian genealogy (and as reflected with science-in-practice driven as of ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing conception and not naïve science-ideology ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition conception), as to foundational issues and point-of-departure of knowledge-reification—gesturing; wherein the Derridean quasi-transcendental and Foucauldian archaeology postures (as of human reifying-and-empowering conceptivity/epistemic-reflexivity in knowledge-reification) strive to supersede any social-vestedness/normativity inducing of subontologisation/subpotentiation in the ‘implicated conceptualisation of a foundational point-of-departure of knowledge-reification—gesturing’ and rather ‘implicit by their approach that human meaningfulness-and-teleology is as to its subjection to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in hermeneutically/reprojectively-educing sublimation-over-desublimation’ (as herein articulated as of the implications of human limited-mentation-capacity-deepening de-mentating/structuring/paradigming–out the ontological-contiguity—of-the-human-institutionalisation-process with regards to living-development—as-to-personality-development, institutional-development—as-to-social-function-development

This conceptivity/epistemic-reflexivity difference between 'human sublimating/desublimating—modalisation—<as-to-absolute-referencing—of—meaningfulness-and-teleology> upon inherent existence’s sublimating—nascence inducing of ontologisation/omnipotentiality’ and ‘human sublimating/desublimating—modalisation—<as-to-absolute-referencing—of—meaningfulness-and-teleology> vestedness/normativity—<discretely-implied-functionalism> upon inducing social-of subontologisation/subpotentiation’ can be compared in allegorical terms to say having a highway with poor signalling and construction bound to induce a given level of accidents (as to possibility of sublimation/desublimation), with the former rather construing of the inherent nature of the highway of foundational problematic aporeticism and the latter rather ignoring the inherent foundational problematic aporeticism nature of the highway and adopting extricatory stratagems for dealing with the highway in its given state with the implicated expectation of accidents; and in this respect deconstruction and genealogy analyses (and notional—deprocrypticism suprastructuralism analysis as expressed herein with regards to the ontological-contiguity—of-the-human-institutionalisation-process) as to ‘human sublimating/desublimating—modalisation—<as-to-absolute-referencing—of—meaningfulness-and-teleology> upon inherent existence’s sublimating—nascence inducing of ontologisation/omnipotentiality’ sublimating—existentialising-decisionality is bound to a knowledge-reification—gesturing for tackling the more foundational problematic aporeticism issues underlying say the present decadal economic crises, media and information crises, political accountability, etc., whereas 'human sublimating/desublimating—modalisation—<as-to-absolute-referencing—of—meaningfulness-and-teleology> vestedness/normativity—<discretely-implied-functionalism> upon inducing social-of subontologisation/subpotentiation’ supposedly of sublimating—existentialising-decisionality as implied not only with regards to overall social-and-

This is effectively what practically underlies the postmodernism notion of human overcoming of metaphysics-of-presence--⟨implicated-‘nondescript/ignorable–void ’-as-to–presencing—absolutising-identitive-constitutedness ⟩ as of ‘presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> inducing of subontologisation/subpotentialisation’ (in a psychological-disposition to presublimating relic/artifactual–beholdening-constitutedness de-mentatively/structurally/paradigmatically bound to ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition); with the further idea that an adorning use of abstract formulaicity of science, scientific methods, statistics and mathematics (as to totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation in failing to face up to foundational problematic aporeticism as required for fundamental ontology as to ‘the very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’), speaks to naïve science-ideology priorly driven by social-vestedness/normativity-

Critically, the inherent relative ignorance/disenfranchisement of the human sovereign—function/posture in many ways renders blurry the differentiation of such a historiality/ontological-eventfulness/ontological-aesthetic-tracing and historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with respect to true knowledge-reification and overall social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating—existentialising—decisionality; as to the fact that ‘totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation’ and ‘profound—supererogation entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness sublimation’ can be easily passed for one another in a public debate critically fragile to pedantic disorientation even as in many ways the human sovereign—function/posture is very much conscious of the social-stake-contention-or-confliction aporeticism overcoming/unovercoming masked/avoided/ignored/deflated by such pedantic manipulation to which the genuine social intellectual—function/posture can effectively speak to. From the nonpresencing<perspective—ontological-normalcy/postconvergence> epistemic conception what fundamentally underlies this ‘human limited-mentation-capacity projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-referencing as of reference-of-thought conceptivity/epistemic-reflexivity (on the one hand) upon inherent existence’s sublimating—nascence (on the other hand)’ so-translated as ‘human sublimating/desublimating—modalisation—as-to-absolute-referencing—of—meaningfulness—and-teleology > upon inherent existence’s sublimating—nascence inducing of

as it enables ‘human sublimating/desublimating—modalisation-<as-to-absolute-referencing–of–meaningfulness-and-teleology/> upon inherent existence’s sublimating–nascence inducing of ontologisation/omnipotentiality’ to then go on to concretely resolve socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming and rather disenfranchisingly interceded by a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that is enabling de-mentatively/structurally/paradigmatically (whether by wrong/flawed analysis or cynical ontological-bad-faith/inauthenticity misanalysis) to ‘occlusive discrete inherence of sublimating/desublimating—modalisation-<as-to-absolute-referencing–of–meaningfulness-and-teleology > on the basis of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-discretely-implied-functionalism> inducing of subontologisation/subpotentiation’, especially-so as to an economically driven media landscape that can hardly discriminate between intellection and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and in many ways passes the latter for the former as-so associated with overall social banalisation-of-thought with foils/stooges of pop-intellectuals as the ‘greatest thinkers’ of our present intellectually shameful epoch). In this regards, it is critical to appreciate that the democratic process is a sovereignty-imbuing process and while this sovereignty-imbuing process is critical as the point-of-departure for socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming it is incomplete if it is merely construed/manipulated as to essentially sovereignty-giving without a cultured aspiration to grasp and operate as to prospective ontological-veridicality (as so-understood by the Socratic philosophers) just as our sovereignty over say our house doesn’t necessarily imply our technical competence with requisite house enhancements like electricity, plumbing, etc. even as our sovereignty is the point-of-departure for our independent/sovereign contemplating to undertake such house enhancement chores. This reality underlies the contention herein of the ‘overrated pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation of ‘meaningfulness-and-teleology’ as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it is a discursivity of subpotency as to human-subpotency which doesn’t necessarily subject/supersede existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as warranted for prospective sublimation/emancipation (even as human social-and-institutional-frameworks-of—referencing/registering/decisioning of existentialising—decisionality by reflex tend to absolutise human discursivity as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity—discretely-implied-functionalism); thus requiring appropriate nonpresencing—perspective—ontological-normalcy/postconvergence epistemic-projection (as to requisite human limited-mentation-capacity-deepening towards absolute-mentation-capacity, in projective reflection of ontologisation/omnipotentiality as to ontological-normalcy/postconvergence, as sought-after by the genuine social intellectual—function/posture involving its specifically cultivated arts/skills and time investment and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment and its consequent notional—self-distantiation/distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,—disambiguating-apriorising/axiomatising/referencing in superseding any underpinning—suprasocial-construct defaulting relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology desublimating—existentialising—decisionality (beyond the falsehoods and naiveties of bothsidesisms formulae of discursivity that confuses pedantism and intellection). Critically, this fundamental contrastive human relation to knowledge as to ‘the mere-formulaicity of mechanical-knowledge constrained to human-subpotency temporal inclinations’ and ‘organic-knowledge constrained to existence—as-sbulimating-withdrawal,-eliciting-of-prospective-supererogation’ (with regards to living-development—as-

the translation of the perspective ontological-normalcy/postconvergence of inherent existence as 
to an impasse/break between relative-ontological-incompleteness and relative-ontological-

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations—reference-of-thought-devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-preservation/self-constitutedness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality prone to presencing—absolutising-identitive-constitutedness). Thus the genuine social intellectual–function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality (however the remoteness to immediacy/punctual human social-stake-contention-or-confliction—presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—tracing—in-presencing–hyperrealisation/hyperreal-transposition>) as this is exactly what makes-available/keeps-open prospective human sublimating–nascence (as a requisite sublimation-over-desublimation function that is most important and cannot be allowed to be undermined by the immediacy-driven/nombrilistic positive-opportunism of presencing—absolutising-identitive-constitutedness social-vestedness/normativity—discretely-implied-functionalism>) and so especially in opening-up prospective registry-worldviews/dimensions as to human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and the positive-opportunism then arising with the corresponding living-development—as-to-personality-development and institutional-

Such a conception of supererogatory–human-subpotency–effecting is critically relevant in appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a modern day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source of the cultivation of institutional mediocrity’ as to ‘a cultural practice of public interestedness/profundity mediocrity and public accounting/decisioning mediocrity’ whereas the technicity/profundity of modern day training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite notional–self-distantiative contemplative profundity/technicity that inherent existence sublimating–nascence warrants to make available appropriate supererogatory–human-subpotency–effecting. This poor appreciation of profundity/technicity in public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/selfhelping/etc. knowledge being brought to their service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite epistemic-growth/discomfort/disquiet of the individual as to their ‘appropriate notional–self-distantiation for acquisition in epistemic-growth’, while at the same time ‘a pseudo-contrition as to awareness of relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses. Ultimately, technicity/profundity is inescapable for sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving> existentialising–decisionality or with the relative blurriness
of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisonality, and critically im many ways the cultivation of shallow technicity/profundity (as to poor epistemic-growth requiring appropriate notional~self-distantiation) in public spaces is not detached from public interestedness/profundity mediocrity and public accounting/decisioning mediocrity. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can be naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification’ so-underlying supererogatory—human-subpotency—effecting as to the formative-and-enabling formulative backdrop for sovereignty appraising meaningfulness-and-teleology technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of supererogatory—human-subpotency—effecting) is the sovereignty/independence giving possibility for epistemic-growth relation with knowledge (as to conscious awareness existentialising—decisionality implications even if complete understanding as of complete meaningfulness-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in the public spaces by such a capacity for notional~self-distantiation to cultivate epistemic-growth/discomfort/disquiet over a facility/convenience reflex). Human epistemic-stretching undergirded as of notional~self-distantiation/′distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,—disambiguated-apriorising/axiomatising/referencing’ imbuing historiality/ontological-

Thus beneath any supposedly underpinning—suprasocial-construct (reflected in the modern-day underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a more fundamental ‘nonpresencing—perspective—ontological-normalcy/postconvergence’ notion of supererogatory—progressivity’ (however the ‘shallow-supererogation’ of supererogatory—progressivity’) accounting for the possibility for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as in effect creatively permeating all such ‘underpinning—suprasocial-construct of “presencing—absolutising-identitive-constitutedness” existentialising—entailing”; and so (especially potent when such ‘nonpresencing—perspective—ontological-normalcy/postconvergence’ notion of supererogatory—progressivity’ is manifested as of profound—supererogation’ entailing—<amplituding/formative—epistemicity>totalising~in-relative-ontological-completeness as to dimensionality-of-sublimating—<amplituding/formative> supererogatory—de—

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity.
and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory-progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory-progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory-progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory-progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory-progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory-progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social
capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways
undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments
was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then
when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model, and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow–supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality–as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied by a basic level of supererogatory–progressivity. Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–
progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’.

Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to ‘presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>).

The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–
progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). the so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation (as-to-underlying-ontological-commitment) as to the overall ontological-contiguity—of-the-human-institutionalisation-process provides the requisite basis for prospective human ontological-performance <including-virtue-as-ontology> convergence towards ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the ’s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misinterpreted
as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipatory potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking –‘projective-insights’/epistemic-projection-in-conflatedness⟩-of-notional–deprocrypticism-prospective-sublimation⟩, and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity’-<profound-supererogation>-of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness–of–reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity-<profound-supererogation>-of-mentally-
aestheticised-postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness—of—reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding/formative–epistemicity>totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness—of—reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised-postconverging/dialectical-thinking—qualia—
schema> as of prospective relative-ontological-completeness\(^{1}\)-of-\(^{2}\)reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocriptism–or–preempting—disjointedness-as-of-\(^{2}\)reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^{2}\) for prospective notional-contiguity/epistemic-contiguity\(^{1}\)-<profound-supererogation\(^{1}\)-of-mentally-aestheticised–postconverging/dialectical-thinking\(^{1}\)-qualia-schema> as of prospective relative-ontological-completeness\(^{1}\)-of-\(^{2}\)reference-of-thought implied as of deprocriptism–or–preempting—disjointedness-as-of-\(^{2}\)reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(^{1}\) thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care–and–episteme’ vices-and-impediments\(^{1}\). As a further elucidation, prospective notional-contiguity/epistemic-contiguity\(^{1}\)-<profound-supererogation\(^{1}\)-of-mentally-aestheticised–postconverging/dialectical-thinking\(^{1}\)-qualia-schema> as of prospective relative-ontological-completeness\(^{1}\)-of-\(^{2}\)reference-of-thought actually points out that the uninstitutionalised-threshold\(^{2}\) is rather a point of de-mentation\(^{1}\)-<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics> which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold\(^{2}\) attitude/mental-disposition/care–and–episteme\(^{1}\). We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity\(^{1}\)-<shallow-supererogation\(^{1}\)-of-mentally-aestheticised–preconverging/dementing\(^{1}\)-qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity\(^{1}\)-<shallow-supererogation\(^{1}\)-of-
mentally-aestheticised–preconverging/dementing–qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically--<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-

In other words philosophical thought is all incipiently/seedingly about dimensionality-of-sublimating\(^ {\sim}\) — <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^ {\sim}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, and Heidegger’s issue should have actually been about future Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^ {\sim}\) just as Descartes issue in articulating budding-positivism/rational-empiricism (traditionally construed-as-rationalism) was not with setting up its \(^ {\sim}\)meaningfulness-and-teleology\(^ {\sim}\) in contention with prior non-

We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness—of—reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation—(supererogatory—ontological—de-mentation-or—dialectical—de-mentation—stranding—or—attributive-dialectics) construed herein as of prospective postmodern deprocrypticism—or—preempting—disjointedness—as—of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation—(supererogatory—ontological—de-mentation-or—dialectical—de-mentation—stranding—or—attributive-dialectics) implied as of prospective
positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument/attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness/equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-
construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency–sublimating–nascence,–disclosed–from–prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing–realisation/re–perception/re–thought,–in–supererogatory–epistemic–confimatedness of apriorising/axiomatising/referencing as of positivism, and so from the ‘presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; as we can effectively appreciate that the very mathesis \(^{103}\)universalis schema/disseminative metaphoricity \(^{5}\) engendering our positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity\(^{62}\)-<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing\(^{19}\)–qualia-schema> analysis, implied as of prospective relative-ontological-completeness\(^{87}\)-of- reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness\(^{87}\)-of- reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the \(^{83}\)reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflicatedness \(^{12}\); with such adjusting being construed as of prospective relative-ontological-completeness\(^{87}\). But then humankind as of its
developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness\(^{2}\) of reference-of-thought/relative-ontological-completeness\(^{3}\) of axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation\(\langle\text{supererogatory}\text{–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\rangle\) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology\(^{9}\) is an incrementalism-in-relative-ontological-incompleteness\(^{8}\) of already established psychoanalytic disposition rather than a maximalising-recomposing-for-relative-ontological-completeness\(^{7}\) unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of \(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising-renewing-realisation/re-perception/re-thought in conflatedness\(^{\ast}\), such that this leads to constitutedness\(^{11}\), when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation\(\langle\text{supererogatory}\text{–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\rangle\) that our human \(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness\(^{17}\) of reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity\(^{6}\) shallow-supererogation\(\langle\text{shallow-supererogation}\text{–of-mentally-aestheticised–preconverging/dementing–qualia-schema}\rangle\). singularisation/epistemic-immanence/veridical-epistemic-determinism by its implied
notional-conflicatedness highlights that ‘axiomatic-constructs as of <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting of ‘human-subpotency ontological-performance’-<including-virtue-as-ontology> correspondence with the full-potency of existence in its coherence/contiguity as of implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, is effectively as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to singularisation/epistemic-immanence/veridical-epistemic-determinism. That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’. singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing, points out that dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-
performance\textsuperscript{\textdagger}<-including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation\textsuperscript{/epistemic-immanence/veridical-epistemic-determinism} that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance\textsuperscript{-<including-virtue-as-ontology}> equivalence/correspondence with the full-potency-of-existence’s-sUBLImating-nascence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening\textsuperscript{\textdagger} of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-’devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification’/contemplative-distension\textsuperscript{\textdagger}. This reality of the need to construe of human-subpotency ontological-performance\textsuperscript{-<including-virtue-as-ontology}> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation\textsuperscript{/epistemic-immanence/veridical-epistemic-determinism} over dissingularisation\textsuperscript{/epistemic-nonimmanence/flawed-epistemic-determinism} has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation\textsuperscript{/epistemic-immanence/veridical-epistemic-determinism} manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation\textsuperscript{/epistemic-immanence/veridical-epistemic-determinism} as of whole living organisms, and likewise human meaningfulness itself is a dementating/structuring/paradigming singularisation\textsuperscript{/epistemic-immanence/veridical-epistemic-determinism} as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc.
(Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation / epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—with-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—with-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology
about science and it is rather the constraint for existential-contextualising-contiguity\(^1\) knowledge-reification\(^2\) that determines science practice, and so in existential conflatedness\(^3\).

Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional~conflatedness\(^4\) singularisation\(^5\)/epistemic-immanence/veridical-epistemic-
axiomatic teleological wholeness/nested-congruence or prospective relative-ontological-completeness\textsuperscript{12} of reference-of-thought. This fundamentally points out that at uninstitutionalised-threshold\textsuperscript{102}, human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existential-contextualising-
‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification’ can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity-in-reification’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness reflects the former’s prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-dementing—apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification’ at uninstitutionalised-threshold actually highlights that from a prospective perspective of prospective relative-ontological-completeness—of-reference-of-thought our positivism–procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance—<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology is coherent, failing to factor in that it is preconverging-or-dementing—apriorising-psychologism at its uninstitutionalised-threshold as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing—apriorising-psychologism by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness—of-reference-of-thought

institutionalisation framework of a registry-worldview/dimension human construal of its existential-contextualising-contiguity\(^1\) knowledge-reification\(^3\) is only as effective as of the institutionalisation ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,’ for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^1\) in universal-transparency\(^2\)–(transparency-of-totalising-entailing,-as-to-entailing-\(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\)), thus providing a ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\(^2\) about its existential-contextualising-contiguity\(^3\) knowledge-reification\(^4\). But then at uninstitutionalised-threshold\(^2\) where meaningfulness-and-teleology\(^2\) is denaturing\(^4\), this prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\(^2\) about existential-contextualising-contiguity\(^3\) gives a false certainty/assurance, such that human-subpotency existentially-constrained temporal ontological-performance\(^2\)–\(\langle\text{including-virtue-as-ontology}\rangle\text{wooden-language–(imbued–temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives–of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology}\) in usurpation of that ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\(^2\) about its existential-contextualising-contiguity\(^3\) knowledge-reification\(^4\) tend to be overlooked as of mental-reflex since existentially the bulk of meaningfulness-and-teleology\(^2\) within the given registry-worldview/dimension as of its institutionalisation conforms-to/complies-with its ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\(^2\) about existential-contextualising-contiguity\(^3\) knowledge-reification\(^4\), but with a shadowy uninstitutionalised-threshold\(^2\) always eloping to such institutionalisation conforming/complying as of prior relative-ontological-incompleteness–of–reference-of-thought, and as lack of universal-transparency\(^2\)–(transparency-of-totalising-entailing,-as-to-entailing-\(\langle\text{amplituding/formative–entailing–universal-transparency}\rangle\text{totalising–in-relative-ontological-completeness}\)).
epistemicity>totalising-in-relative-ontological-completeness) as to ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating ‘meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity-reification, and likewise with regards to a positivism/rational-empiricism manifestation of ‘procrypticism–or–disjointedness-as-of-reference-of-thought mindset construal of ‘meaningfulness-and-teleology’ that utterly overlooks the de-mentative/structural/paradigmatic ‘reference-of-thought denaturing implications of its prospective disjointedness of ‘meaningfulness-and-teleology’ out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional–procrypticism/notional–disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology> as
in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of ‘meaningfulness-and-teleology’ about existential-contextualising-contiguity’, now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of ‘meaningfulness-and-teleology’ about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>-preconverging-or-dementing –apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology> as <amplituding/formative>wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology } in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing –apriorising-psychologism representation as temporal denaturing ontological-performance-<including-virtue-as-ontology> of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of ‘meaningfulness-and-teleology’ about existential-contextualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposurer-as-to-

That is, grounding of \(<\)meaningfulness-and-teleology\(\) is certainly required, but as of transcendence-and-sublimity/sublimation/superradimentary-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\(\) for prospective relative-ontological-completeness\(\)—of-

This is ontologically critical to understand because the wrong mental-reflex conception of uninstitutionalised-threshold\textsuperscript{22} as mainly being as of ‘human intemporal secondnatured institutionalisation mental-disposition’ will wrongly imply a human nature that is only intemporal and so as of the secondnatured intemporality\textsuperscript{27}/longness of the prior institutionalisation. It is further critical to understand that while \(^10\) universal-transparency\(^10\)-\{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \} with associated nested-congruence and harmony is brought about as of prior institutional secondnaturing, this should not be naively expected at uninstitutionalised-threshold\(^10\) as we very much know that all uninstitutionalised-threshold\(^0\) are conflicted as of their framework of ‘recurring dimensionality-of-sublimating\(^9\)-<amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^12\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation temporal-to-intemporal’ for prospective institutionalisation prospective relative-ontological-completeness –of- reference-of-thought. Thus uninstitutionalised-threshold\(^0\), are necessarily imbued with varied temporal-to-intemporal transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing\(^0\) narratives as of the ‘lack of intemporal secondnatured institutionalisation induced \(^\circ\) universal-transparency\(^0\)-\{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \}, deferential-formalisation-transference and habituation in positive-opportunism\(^\prime\); since any uninstitutionalised-threshold\(^0\) ever always brings about human ‘recurring dimensionality-of-sublimating –<amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^12\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation temporal-to-intemporal’ but with this recurring as of human dimensionality-of-sublimating —

the existential-contextualising-contiguity knowledge-reification framework as of ontological-primemovers-totalitative-framework. The constraining implications of existential-contextualising-contiguity knowledge-reification as of human amplituding/formative-epistemicity totalising-thrownness-in-existence (I exist therefore existence is transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) means that it is wrong to construe the ontological-contiguity —of-the-human-institutionalisation-process as of a human temporal dimensionality-of-sublimating —<amplituding/formative> supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation transformation, and so fundamentally because of human limited-mentation-capacity and the correspondingly constraining consequences on its ontological-performance —<including-virtue-as-ontology>. Rather it is more candid to relate to the ontological-contiguity —of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening, and so as of prospective intemporal seconddnatured institutionalisation induced universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative-epistemicity> totalising—in-relative-ontological-completeness ), deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness of reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of—meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation-
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying "meaningfulness-and-teleology". Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not one of necessarily eliciting instant "meaningfulness-and-teleology" universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-to-totalitative-reification–in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process, so-construed-as-singularisation /epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification as of singularisation /epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the construal of ‘meaningfulness-and-teleology’ as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of ‘meaningfulness-and-teleology’ varies as of underlying relative-ontological-incompleteness and relative-
ontological-completeness$^7$ of reference-of-thought; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

meaningfulness-and-teleology$^9$ of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness$^{10}$-of-reference-of-thought despite the existential-contextualising-contiguity$^6$ knowledge-reification$^6$ ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness -of- reference-of-thought.

The fundamental implication here is that transcendental ‘meaningfulness-and-teleology$^9$ is hardly construed in any presence registry-worldview/dimension -of-reference-of-thought as of its rather prospective relative-ontological-completeness -of-reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness$^{10}$-of-reference-of-thought <$amplituding/formative–epistemicity$^2$totalising-self-referencing-

This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology\( ^\text{99} \) that there is and can exist is ontological as of prospective relative-ontological-completeness\( ^\text{87} \), such that any such implied meaning is only ontologically intelligible with its reification\( ^\text{55} \) as of prospective relative-ontological-completeness\( ^\text{50} \)-of-reference-of-thought, as so implied from singularisation\( ^\text{137} \)/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology\( ^\text{99} \). This points out that as of its very own \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\), a registry-worldview/dimension\( ^\text{83} \) reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness\( ^\text{50} \)-of-reference-of-thought reification\( ^\text{66} \) of meaningfulness-and-teleology\( ^\text{99} \), as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\( ^\text{99} \) as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. relative-ontological-incompleteness’ is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold-{uninstitutionalised-threshold}-/presublimating–desublimating-decisionality}–of-ontological-performance}→<including-virtue-as-ontology}. As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing--<amplituding/formative–epistemicity>}totalising~in-relative-ontological-completeness}. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications}) advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-
conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness/of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness/of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness/of-reference-of-thought with the
latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness –of-reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-
veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slanchedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-including-virtue-as-ontology of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-including-virtue-as-ontology manifestation of psychopathy and social psychopathy which is de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising~devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology; with the fundamental implication that there are thus divergent
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness\textsuperscript{67} apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{66} and as of dereifying temporal-as-psychopathic-and-social-psychopathic/invalid/preconverging-or-dementing\textsuperscript{68}–apriorising-psychologism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments in prior relative-ontological-incompleteness\textsuperscript{69}–apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity \textsuperscript{96}–shallow-supererogation of-mentally-aestheticised–preconverging/dementing–qualia-schema> (psychopathic and social psychopathic), and so before aposteriorising/logicising/deriving/intelligising/measuring meaninglessness-and-teleology\textsuperscript{97} can even be then articulated as ontologically-veridical exclusively as of the intemporal/valid/postconverging-or-dialectical-thinking apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument perspective or attitude/mental-disposition/care–and–episteme. Such a difference-conflatedness-as-of epistemic-totality is equally what reflects in the bigger scheme of things, at the reference-of-thought-level, the reality of humankind as of the successive registry-worldviews/dimensions humans psychological dispositions as per their corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments. In this regard, the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67} can be construed as human limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reification\textsuperscript{59} as ‘apriorising-teleological resetting of <amplituding/formative–epistemicity>totalising/circumscribing/delineating meaninglessness-and-teleology\textsuperscript{99} as of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaninglessness-and-teleology\textsuperscript{99} as of prospective deprocrypticism-as-ontological-completeness-of reference-of-thought’, construed as of

Consider in that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existentia}\textsuperscript{reality’, its reification\textsuperscript{11} as ‘apriorising-teleological resetting of <amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{99} to the prospective relative-ontological-completeness’-of-physics-axiomatic-construct’ implies that de-mentatively/structurally/paradigmatically ‘traditional classical mechanics axiomatic-construct’ is dereified as of its prior relative-ontological-incompleteness\textsuperscript{88} to theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is rather reified as of its prospective relative-ontological-completeness\textsuperscript{87}; such that interestingly to construe, as of ontological-veridicality, the reality of ‘traditional classical mechanics axiomatic-construct’ requires rather assuming/departing-from an understanding of existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86} as implied by the reifying theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in articulating ontologically-veridical difference-conflatedness’-as-to-totalitative-reification’-in-singularisation\textsuperscript{99}-as-veridical-epistemic-determinism\textsuperscript{11} from this projected ‘notional—singularisation’/epistemic-immanence/veridical-epistemic-determinism’ as of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective or attitude/mental-disposition/care—and—episteme over ‘traditional classical mechanics axiomatic-

Note that on the imaginary supposition that no such prospectively projected ‘notional—singularisation’/epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology’, mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive-constitutedness—as—‘epistemic-totality’—dereification—in-dissingularisation—as-flawed-epistemic-determinism as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity of ‘the very same physics <amplitudining/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness—as—‘epistemic-totality’—dereification—in-dissingularisation—as-flawed-epistemic-determinism is in reality preconverging-or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism—procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or—disjointedness-as-of—reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism—procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as—
infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of—reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation—non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of their universalisation—non-positivism/medievalism uninstitutionalised-threshold), ontological-veridicality is rather assumed/departs from an understanding of existential-contextualising-contiguity knowledge-reification as implied with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension and not our positivism—procrypticism, in articulating ontologically-veridical difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism from this projected ‘notional—singularisation’/epistemic-immanence/veridical-epistemic-determinism as of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought perspective or attitude/mental-disposition/care—and—episteme over our positivism—procrypticism, so—implied as of their disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-

But then just as the reflex mental state and attitude/mental-disposition/care–and–episteme\textsuperscript{5} in a universalisation–non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care–and–episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness \textlangle\textlangle amplituding/formative\textrangle\rangle\textlangle wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>\rangle reflex mental state and attitude/mental-disposition/care–and–episteme in our positivism–procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care–and–episteme of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical–de-mentation of our positivism–procrypticism at its uninstitutionalised-threshold\textsuperscript{102}; and as we falsely go on to construe existential-contextualising-contiguity\textsuperscript{38}–in-reification\textsuperscript{86}/dereification\textsuperscript{86} by adopting the positivism–procrypticism dereifying perspective or attitude/mental-disposition/care–and–episteme in its prior relative-ontological-incompleteness\textsuperscript{88} in an exercise of ontologically-flawed identitive-constitutedness\textsuperscript{13}–as–‘epistemic-totality’–dereification\textsuperscript{86}-in-dissingularisation -as-flawed-epistemic-determinism\textsuperscript{48}. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism\textsuperscript{103} slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity –in-reification\textsuperscript{86}/dereification as of the

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so

Thus the ‘field of conception’/notional~conception/notion of virtue-as-ontology covers way
more than its articulation within a same registry-worldview’s/dimension’s
<amplituding/formative–epistemicity>totalising~self-referencing-

development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology need to be drawn beyond a cloistered-
consciousness as of retrospective and prospective transcendental illuminating implications. In
this regard, a postmodern suprastructuralism philosophical stance with regards to virtue-as-
ontology very much aware of the transcendental ontological sublimating-over-desublimating
frameworks; and, hence the ontologically-veridical paradox of the very de-mentating/structuring/paradigming implications of human limited-mentation-capacity-deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon’ constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional-as-conflatedness of
notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axiomsregistry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold–nonconviction/madeupness/bottomlining–as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism to such mere reference–categorical-imperatives/axiomsregistry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic–
opportunist-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue
development and making relative conclusions’ but rather orientate to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<amplitudizing/formative–epistemicity>totalising~in-relative-ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for
instance in a position of strength that we are too violent, disorganise, etc. and thus morally
inferior, and that our best interests was just to take our cue from them. Here as well, the
postmodern double-gesture reification\textsuperscript{10} of virtue will project that we do have the potential for
further development, and that to be ourselves we cannot be utterly alienated from ourselves like
robots in our relationship with them, and that our curiosity and openness will correspondingly
bring about our functional moral equivalence with universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplitudding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{87}). Further arguing that if they are truly more advanced than us, then
that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the
human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-
singularisation\textsuperscript{97} that will necessarily subscribe to recognising ‘the other’ that we are to them; as
insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-
veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5}. Claims of such grander
aetiologisation/ontological-escalation as implying dehumanising interpretations are
ontologically-flawed as such claims are rather surreptitiously based on prior registry-
worldview/dimension uninstitutionalised-threshold\textsuperscript{92} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} as

other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or
ontological escalation implies a ‘universal projection implications attitude/mental-
disposition/care–and–episteme event –or-operant to all and sundry’. Finally, the naivety when
facing such anti-constructivism and anti-relativism arguments is to think that these are always
about fair and objective intellectual disagreements; but then the history of many such criticisms
has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplitude-formative-epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–projective-insights/epistemic-projection-in-conflatedness–of-notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought—
‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of social universal-transparency–{transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of—reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of—meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—
axiomatic-constructs construed as \( \text{presencing—absolutising-identitive-constitutedness} \)
enabling the obtention of any such conclusions from the given classical-mechanics—axiomaticconstructs constitutedness \( \), but rather it is by conflatedness \( \) with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of \( \text{nonpresencing-<perspective–ontological-normalcy/postconvergence>}. \) Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of–meaningfulness-and-teleology\( ^9 \) individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework\( ^9 \) tendential validation as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing—realisation/re-perception/re-thought,—in-supererogatory~epistemic-conflatedness. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our \( ^9 \) neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening\( ^2 \) analysis; and insightfully, as reflected in the underlying conflatedness\( ^1 \) of accreting-substitutive-subsumption-as-futural-différance-freeplay\( ^2 \), sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological \( ^9 \) neuterising with
deneuterising — referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional—deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-
or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, in supererogatory~epistemic-conflatedness so implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism deference to the prescience of existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, in supererogatory~epistemic-conflatedness over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness-of reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness-of-reference-of-thought, and so by maxamalising-recomposuring <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by
their successively-given mechanical-knowledge in temporality\(^{9}\)-as-of-neuterisation \(^{10}\)/relative-ontological-incompleteness \(^{11}\)/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension \(^{12}\)/reference-of-thought in prospective relative-ontological-completeness \(^{13}\)-of-axiomatic-construct-or-\(^{14}\)/reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension \(^{15}\)/reference-of-thought in prior relative-ontological-incompleteness\(^{16}\), even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social \(^{10}\)/universal-transparency \(^{11}\)-\(^{12}\)(transparency-of-totalising-entailing,-as-to-entailing-\(^{13}\)-amplituding/formative–epistemicity\(^{14}\)-totalising-in-relative-ontological-completeness\(^{15}\)’). But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\(^{16}\)-of-axiomatic-construct-or-\(^{17}\)/reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both \(^{18}\)/presencing—absolutising-identitive-constitutedness\(^{19}\) and \(^{20}\)/nonpresencing-\(^{21}\)-\(^{22}\)<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\(^{23}\)/ontological-contiguity\(^{24}\) of the latter over the prior relative-ontological-incompleteness \(^{25}\) of notional-discontiguity/epistemic-discontiguity\(^{26}\)-
<shallow-supererogation> of the former as of the very same immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human
amplituding/formative–epistemicity> totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness’ notion-contiguity/epistemic-contiguity construed as its apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’;

As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness }’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than
subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différence consciousness development is the notion of “de-

‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising as of prospective relative-ontological-completeness\(^\text{\textsuperscript{22}}\) of reference-of-thought bringing about transcendence-and-sublimity/sublimation/suberogatory-de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-diffèreance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay diffèreance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimity\(\text{s}\) that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness\(^\text{\textsuperscript{88}}\) and prospective relative-ontological-completeness\(^\text{\textsuperscript{87}}\), with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising\(^\text{\textsuperscript{23}}\); with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising\(^\text{\textsuperscript{23}}\) bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/suberogatory-de-mentativity of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In other words, human consciousness
tends to be constraint to its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\), and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^2\) mental-disposition as of presencing—absolutising-identitive-constitutedness\(^1\). But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\), and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as of ontological-primemovers-totalitative-framework\(^7\) validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence--{implicated-’nondescript/ignorable–void ‘-as-to-\(^7\) presencing—absolutising-identitive-constitutedness\(^1\)} of any given <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\) from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^2\) posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness\(^1\) and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Therefore, metaphoricity\(^5\) as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\(^5\) is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. metaphoricity\(^5\) as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–
epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the
meaningfulness-and-teleology implications to the so-renewed ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct
of language’ and the specific adjunctive-metaphoricity-signification within such renewed
‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating
signifying-construct of language’. metaphoricity is very much a mirroring of existential
‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-
referencing’ meaningfulness-and-teleology as an epistemic-totalising/circular construal’.
This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated
existentially with syncretising-effecting as mirrored in metaphoricity arises because of human
limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
mentation-capacity as of growing certitude from the opening up of nonpresencing-
<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation
ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-
totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human
meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out
herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-

of human limited-mentation-capacity implications. The implications of this reality as of
metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their
specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as
relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-

such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for \texttt{amplituding/formative–epistemicity/totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag}. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the \texttt{nonpresencing–or–withdrawal–or–metaphysics-of-absence–(implicated–...

meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity
episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojective circle
phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the
blind men striving to determine what an elephant is, but with each one saying authentically what
the find in front of them in developing the relevant specific imageries and overall imagery of
what an elephant is. This in itself is a milestone in theorisation, and as an overall conception
postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven
intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently
driven at its core by ideology but rather ontological-good-faith/authenticity. As such it
effectively achieves a more potent construal of the human condition and knowledge especially as
it is ‘driven by such transversality-of-affirmative-and-unaffirmative,-disambiguated-
apriorising/axiomatising/referencing cumulative authenticities that augment the possibilities of
human limited-mentation-capacity’ thus going a long way to open up new and coherent thought
possibilities as of its grander and overall conception and spirit. Interestingly, what is central about
the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-
insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought
construction: as failing to grasp/recognise the implied double-gesture reification as of its
transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not
appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such
‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists
‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful
literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve
uninsightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the
entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic
that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique,
a notion that is especially abused within a media background. Such
'flatmindedness'/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–‘meaningfulness-and-teleology’⟩-as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing—apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with ‘meaningfulness-and-teleology’ while the latter is an existential-extrication/temporal/non-ontological relationship with ‘meaningfulness-and-teleology’, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’ in reflecting holographically-⟨conjugatively-and-transfusively⟩ the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal–
intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness—of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity—reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency—⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness⟩’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off
any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>) ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immersed from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this
author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional-knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation dementating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-⟨implicit-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a ⟨amplituding/formative–epistemicity⟩ totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our
prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness of reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-perspective-ontological-normalcy/postconvergence for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human
ontological-reconstituting–as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating — <amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument ) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallowmindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-
dialectics/différance is what explains the ontological-contiguity\(^{67}\) —of-the-human-institutionalisation-process\(^{67}\) as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{66}\) and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given\(^{67}\) reference-of-thought specific
neuterising as well as the ultimate deneuterising\(^{16}\) —referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity\(^{3}\) is equally elicited by ‘lack of social universal-transparency\(^{12}\) —(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness )’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension\(^{83}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework\(^{72}\) transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its
reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic reference-of-
thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’
was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their
positivistic and all other positivistic knowledge conceptualisations as of its prior relative-
onological-incompleteness™-of- reference-of-thought (and were thus more fundamentally

conflatedness™ imbued in postmodern-thought address more than just constitutedness™
implications of knowledge construction as articulated herein but equally points critically to
intellectually decadent institutional dispositions and practices where imprimatur and the
dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic
pertinence for knowledge constructions undermining the possibilities of breakthroughs given that
the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a
back seat, with intellectual postures increasingly defended with non-intellectualism obsession of
ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the
form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are
little common stakes for breakthroughs but rather the stakes are increasingly of institutions
academic visibility and tenure with emphasis on likeminded networks and forums driven
increasingly by influence than carefree universal intellectual curiosity. Furthermore
intellectualism has increasingly been surreptitiously mingling-and-yielding to social and
economic interests undermining its obligation for enabling social clairvoyance, with a resultant
sense of socioeconomic and socio-political impotence as such a blurriness™ is increasingly
undermining the relevance of intellectualism in its public discourse and enlightenment mission.
Ultimately, the epistemic and de-mentating/structuring/paradigming of academic institutional
setups are not dissociated from the effective possibility for transcendental-

of the uninstitutionalised-threshold in its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> collapses it. Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology’ notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms–as-of-axiomatic-construct of ‘neuterising as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–‘devolving’ whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, and so elucidated from the ontological-normalcy/relative-ontological-completeness-of reference-of-thought perspective of notional~deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology as of notional~deprocrypticm referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness protensive-consciousness sound conceptualisation perspective as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising referentialism, in lieu of neutronising. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neutronising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-
sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional—conflatedness of notional—deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing—perspective—ontological-normalcy/postconvergence. In other words the historical implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions <amplituding/formative—epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is attainable as of deneuterising, construed as equinominal/equivalent with deneuterising—referentialism as the notional—conflatedness of notional—deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing. Ultimately, this sociohistorical disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying mental-disposition as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology rather defectively as of mechanical-knowledge construal in existential instantiations’, inducing prospective neuterising. This disparateness is increasingly
closed-down all along in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^7\) from recurrent-utter-uninstitutionalisation to positivism–procrypticism, with the underlying tenet for achieving futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^8\) as of prospective notional–deprocrypticism as preempting—disjointedness-as-of—reference-of-thought being a full and cogent reflection of ‘human construal of organic-knowledge’ with ‘the mental-disposition behind that construal of organic-knowledge for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^9\) in existential instantiations’ thus resolving the open-ended-incompleteness/nonachievement-of-ontological-normalcy. Overall, such a notional–conflicatedness\(^7\) reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance\(^7\)–<including-virtue-as-ontology> ‘performance-construct of candidity/candour-capacity’ can be garnered as of metaphysics-of-absence-{implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>} wherein across the successive registry-worldviews/dimensions a notional–deprocrypticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness’-of—reference-of-thought that underlies reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance\(^7\)–<including-virtue-as-ontology> as a wholly internal process of conflatedness\(^8\), highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing\(^1\)-deprojections-indistractiveness-of-intemporal-projection, with the former in relative longness-of-register-of—meaningfulness-and-teleology\(^8\) and the latter in relative shortness-of-register-of—meaningfulness-and-teleology\(^8\)/distractiveness’ that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation
inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This conceptualisation of candidity/candour-capacity associated with notional-deprocrypticism with regards to ‘de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) implications for reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ is in effect a ‘more profound-and-comprehensive notion of différance construed rather with respect to the defining reference-of-thought of meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought’ and can be qualified as ‘futural différance’ as of its suprastructural nature, and goes beyond the limits of a Derridean perspective of différance as ‘historial différance’ rather articulated from ‘presencing-as-prospective-relative-ontological-completeness-of-reference-of-thought construing of past-as-prior-relative-ontological-incompleteness-of-reference-of-thought in ad-hoc reassessing of meaningfulness-and-teleology of presencing-as-prospective as from its very own reference-of-thought in grasping alterations of meaningfulness-and-teleology going back from the past but not to the point of putting into question the presencing-as-prospective overall reference-of-thought in prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; such that the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of ‘historial différance’ is rather obscure as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought though ancillary as to the possibility of eventual cumulating of ‘historial différance’ realterations of meaningfulness-and-teleology enabling the beyond-the-consciousness-awareness possibility of subsequent presencing-as-prospective reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-threshold of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity —of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence—{(implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness’}): illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional~projective-perspective, it is ‘preconverging-or-dementing—apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory–dementativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative>wooden-language{(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology”—as-of—‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications}>).

However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-
worldviews/dimensions references-of-thought to be transcended/superseded with human limited-
mentation-capacity-deepening expansion of ontological-depth as increasing ontological-
completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-
induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation’—preconverging/dementing –apriorising-psychologism’). Existential closure
of meaningfulness as conventioning induces psychically a registry-worldview/dimension
‘exclusive representing’ of itself as ‘can-dored and straight’ with respect to ‘meaningfulness-
and-teleology’ whereas its transcending/superseding by the prospective registry-
worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with
respect to more profound prospective/transcending/superseding ‘meaningfulness-and-
teleology’. A further example will be say ‘the God of plane’ type of articulation wherein such a
base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-
positivistic as medieval) is psychically ‘can-dored and straight’ with itself in
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiated-drag) (its metaphysics-of-presence--(implicated-
‘nondescript/ignorable–void’-as-to-‘presencing—absolutising-identitive-constitutedness))
and goes on articulating ‘meaningfulness-and-teleology’ even in the new existential
transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-
prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension.
Given such a state of <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiated-drag, the notion of generating ‘meaningfulness-
and-teleology’ from the ontological-normalcy/postconvergence epistemic/notional–projective-
perspective priorly implies a requisite psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring, and so by ‘maximalising-recomposuring-for-relative-
ontological-completeness’—unenframed-conceptualisation. While excluding any exercise of
elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity since the latter is only appropriate in the instance of prospective relative-ontological-completeness-of-reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness-induced-threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology (‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existent-reality construed as of increasing human limited-mentation-capacity-deepening in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’) with respect to the base-institutionalisation (animistic) registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect. Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing—apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking—apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism—procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now...
decentered as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing—apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative–epistemicity>totalising–self-referencing- 
syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of–meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–
meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity associated with intemporality /longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-
primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-
naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being
that ontological-primemovers-totalitative-framework is much more than a notion associated
with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but
is a central heuristic drive in defining and de-mentating/structuring/paradigming
meaningfulness-and-teleology in all prior registry-worldviews as well however relatively
inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening, as
institutionalising ontological-primemovers-totalitative-framework successively induce more
and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-
potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-
potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-
<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-
thought,-in supererogatory–epistemic-conflatedness . (Consider the case with ancient Egyptians
and even ancient Greeks where their relations with their deities were closely related to the fortune
they expected on an empirical basis whether with respect to such occurrences like droughts,
warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-
totalitative-framework of meaningfulness-and-teleology going by their limited-mentation-
capacity-deepening ). transcendence-and-sublimity/sublimation/supererogatory-de-mentativity
and transcendental-enabling/sublimating/supererogatory-de-mentativity as so construed is more
than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that
human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to ‘meaningfulness-and-teleology’ as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s2 on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendent-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendent-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of ‘meaningfulness-and-teleology’ as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the ‘meaningfulness-and-teleology’ itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of
their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology\(<\text{in-existential-extrication-as-of-existential-unthought}\>\) to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality
registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the notional—deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative—epistemicity>totalising—self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{c} ontological-performance -\langle including-virtue-as-ontology\rangle, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology\textsuperscript{c} as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence–\langle implicitied-epistemic-veracity-of-nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle \rangle for the conception of meaningfulness-and-teleology\textsuperscript{c} ontological-performance -\langle including-virtue-as-ontology\rangle is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\textsuperscript{c} -\langle in-existential-extrication-as-of-existential-unthought\rangle naively construed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{c} mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{c} ontological-performance -\langle including-virtue-as-ontology\rangle, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–\langle imbued-postconverging/dialectical-thinking \textsuperscript{c} ‘projective-insights’/‘epistemic-projection-in-conflicatedness ‘-of-notional–deprocrypticism-prospective-sUBLIMATION\rangle ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology\textsuperscript{c} -\langle in-existential-extrication-as-of-existential-unthought\rangle’ weren’t fundamentally a ‘direct convincing’ of
humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory-defentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-ndeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation—preconverging/dementing—apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology—is-in-existential-extrication-as-of-existential-unthought.

[The notion of ‘beyond-the-consciousness-awareness-teleology—is-in-existential-extrication-as-of-existential-unthought’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology—is-in-existential-extrication-as-of-existential-unthought’ speaks of the
