Rather than the idea of resetting relations anew and overlooking, a true intellectual-and-moral elevation is instead achieved by a prospective institutionalisation secondnaturing process construing the inherent reality and derived-implications of ‘perversion-of-reference-of-thought<as-effectively-apriorising-innonconviction/madeupness/bottomlining-as-to-shallow-supererogation > for its superseding, which effectiveness skews (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity) to the veritable intemporal/longness-of-register-of-meaningfulness-and-teleology in deferential-formalisation-transference as of aetiologisation/ontological-escalation, as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct; and so construed suprastructurally as of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>-of-the-prior/transcended/superseded. The notion of ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ as being of true transcendence-and-sublimity/sublimation/supererogatory–de-mentativity can be further elucidated with regards to two remarkable historical developments which while inherently exceptional, to say the least, aren’t truly transcendental. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an
elaboration well within the psychical framework established by dimensionality-of-
sublimating sublimating forms and kinds of supererogatory de-mentatives and epistemic-growth-
or-conflatedness transvaluative rationalising transepistemicity anamnestic residuality spirit-
drivenness equalisation extended rationalism thinking proposition and scepticism exercise,
and Kantian meaningfulness and teleology is utterly comprehensible and intelligible to that
psyche/mentation, though in many ways it is a more profound elaboration of meaningfulness-
and teleology issues. So it is actually an apriorising axiomatising referencing intelligibility setup measuring instrument within the extended rationalism reference of thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising axiomatising referencing intelligibility setup measuring instrument ‘amplituding formative epistemicity totalising renewing realisation re-perception re-
thought as utter placeholder setup ontological rescheduling by a renewing of apriorising axiomatising referencing psychology as the new referencing basis of prospective meaningfulness and teleology’ as implied by a postconverging or dialectal-

ununiversalisation, to universalisation non positivism medievalism to Positivism procrypticism,
and prospectively to deprocrypticism; as successively non rules apriorising axiomatising

Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded
on the human existential existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemy/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity). But then it is
existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existentialexisting-contextualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existentialexisting-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating/supererogatory de-mentativity for new prospective relative-ontological-completeness–of-reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity,–as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing–psychologism,–as-impulsive-or-accidented-or-random-
mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology}’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-
scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity construction having to do with an <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) of meaningfulness-and-teleology\(^{99}\) is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{99}\),-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{99}\). Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic constitutedness\(^{13}\) is at best a sound palliative construct and naïve conceptual
patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology conflatedness\textsuperscript{12} as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger ‘transcendental-enabling/sublimating/supererogatory-de-mentativity positivism psyche-and-thereof-philosophy’ (construed rather as of an organic depth of ontological coherence/contiguity that is de-mentatively/structurally/paradigmatically transcendental-enabling/sublimating/supererogatory-de-mentativity continguously as from the deeper apriorising/axiomatising/referencing enabling/sublimating/supererogatory-de-mentativity of positivism ‘transcendental-psyche-and-thereof-philosophy’ and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualised/construed relations), and so as of its ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, ‘for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’. The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendentally-enabling-level–of-ontological-good-faith/authenticity-/objectification/desubjectification-as-objectification-<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
thereof-philosophy’ as herein implied by this hermeneutic/reprojective psychology suprastructuralism insight construed as of metaphysics-of-absence-(implicit-ed-epistemic-veracity-of-<perspective–ontological-normalcy/postconvergence>) as ‘postconverging—or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, not only with regards to the social sciences but also when it comes to the many instances of poor scientific studies thus enabling the decisive superseding of palliative construals and conceptual-patterning that can hardly be qualified as ontological. The underlying contention of both such a present ‘transcendental-enabling/sublimating/supererogatory-de-mentativity positivism psyche-and-thereof-philosophy’ and prospective ‘transcendental-enabling/sublimating/supererogatory-de-mentativity notional-deprocripticism psyche-and-thereof-philosophy’ as of their respective relative ontologically-veridical psychical background referencing as of conflatedness for knowledge/meaningfulness-and-teleology has to do with the bigger ontological-normalcy/postconvergence reality (of ontologically valid knowledge/meaningfulness-and-teleology) as of its notional-conflatedness/constitutedness-to-confalatedness as the de-mentative/structural/paradigmatic basis by which ‘ontological-deficiency (conceptually represented as subsuming of virtue-defect or vices-and-impediments ‘with virtue not truly differentiated from ontology’ but rather such a conceptual-differentiation being represented as of our notional <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag animate-existential-referencing/subjectification emotional-involvement implications)’ is construed fundamentally going by a registry-worldview’s/dimension’s reference-of-thought relative deficiency as prior relative-ontological-incompleteness-of-reference-of-thought (as its uninstitutionalised-threshold) thereby resolvable de-mentatively/structurally/paradigmatically by the prospective registry-worldview’s/dimension’s reference-of-thought prospective relative-ontological-
completeness of reference-of-thought; thus validating with regards to both reference-of-thought respectively as the ‘transcendental-enabling/sublimating/supererogatory—de-mentativity positivism psyche-and-thereof-philosophy’ and the ‘transcendental-enabling/sublimating/supererogatory—de-mentativity notional—deprocriptism psyche-and-thereof-philosophy’ their relative ontologically-veridical background referencing as of conflatedness as of ontological-normalcy/postconvergence. Since we can perfectly conceptualise with both reference-of-thought the articulation of coherent meaningfulness-and-teleology respectively in non-positivism terms—as-of-axiomatic-constructs and non-deprocriptism/procriptism terms—as-of-axiomatic-constructs, or rather in terms—as-of-axiomatic-construct that do not grasp de-mentatively/structurally/paradigmatically the respective reference-of-thought organic grounding as of underlying ontological-normalcy/postconvergence implications, and so beyond just a question of vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory—de-mentativity conceptualised/construed relations. This elucidation points out that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ‘must truly’ involve an de-mentation⟨supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics⟩ with the utter decentering of understanding itself by the prospective/transcending/superseding reference-of-thought over the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism of the prior/transcended/superseded at its uninstitutionalised-threshold as an epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling—⟨by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology⟩ eliciting a new apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of

However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality /ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought—categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality /ontological-asymmetrisation as of deconstruction/ontological-reconstituting—as-to-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing—psychologism of transcendentally-enabling-level—of-ontological-good-faith/authenticity/objectification/desubjectification—as-objectification<as-to-ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif—and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism> meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should
be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-reference-of-thought as beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>, they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-〈amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness⟩, that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘⟨amplituding/formative⟩ wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-dragnature/registry-worldview/dimension ⟩ notwithstanding its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; highlighting how across the successive registry-worldviews threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism arise, however, different the perception from ‘very-crude’ (with recurrent-utter-uninstitutionalisation) to ‘seemingly polished’ (with our positivism–procrypticism) depending on prospective relative-ontological-completeness-reference-of-thought. Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as notional~deprocrypticism institutionalisation implied suprastructuration over our positivism–procrypticism is rather not a beyond-the-consciousness-awareness-teleology\(^{-}<\) in-existential-extrication-as-of-existential-unthought> notion as of the present <amplituding/formative> wooden-language\(\langle\) imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^{-}<\) as-of-‘nondescript/ignoreable—void \(^{-}<\) with-regards-to-prospective-apriorising-implications\(>\) mental-disposition and mental-projection. Further, even more decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-dispositions or vices-and-impediments\textsuperscript{105} as arising mainly as of their conscious choices, de-mentatively/structurally/paradigmatically a registry-worldview/dimension prior relative-ontological-incompleteness\textsuperscript{9} -of- reference-of-thought as a beyond-the-consciousness-awareness-teleology \textless in-existential-extrication-as-of-existential-unthought\textgreater notion is the more decisive/salient notion as to human ‘objectively construed/analysed virtuous-dispositions or vices-and-impediments’ even though individual ‘conscious choices’ will tend to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments\textsuperscript{105} arising’; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is de-mentatively/structurally/paradigmatically susceptibility as a state of ‘in-wait as of prior relative-ontological-incompleteness\textsuperscript{9} -of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9} for the vices-and-impediments\textsuperscript{105} so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology \textless in-existential-extrication-as-of-existential-unthought\textgreater. This equally explicates the empirical reality associated with the occurrence of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity crosstemporally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/ reference-of-thought/axiomatic-construct for predicative-insights’ to take hold. Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning—as ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—

This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality/longness but for the disposition for maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing—apriorising-psychologism’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively ‘re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—‘projective-insights’/epistemic-projection-in-conflatedness—of-notional—deprocrypticism-prospective-sublimation)—driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturings such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing> that had tended to fundamentally put into question their present with new de-mentating/structuring/paradigming shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness—induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing—apriorising-psychologism’, for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation—

Obviously we can appreciate that without a positivistic outlook/ reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ‧—

For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism -as-of-conviction,-as-to-profound-supererogation (‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —postconverging/dialectical-thinking—apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought’s-devolving-as-of-instantiative-context. Lying as such is ‘an ad-hoc defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance that doesn’t speak of the true postlogism /psychopathic phenomenon which has to do with the ‘perversion-of- reference-of-

as the psychopath “perversion-of” reference-of-thought-<as-effectively-apriorising-in-

construed as mental-unsoundness). In fact, besides ‘lying’ such poor characterisation of the
psychopath extends to other notions like ‘bullying’, ‘manipulating’, ‘fooling’, etc. which are all
in prelogism “-as-of-conviction,-as-to-profound-supererogation”-or-thinking notions though
“poor or bad supplanting—conviction-as-to-profound-supererogation —

operation of prelogism “-as-of-conviction,-as-to-profound-supererogation” but nonetheless
prelogism “-as-of-conviction,-as-to-profound-supererogation”). Fundamentally, psychopathic
slanting is particular in that it departs from a relation to the ‘empty-form-of-meaning-as-
thinking –apriorising-psychologism as a state of ‘conscious, principled and uninstrumentalised supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking –apriorising-psychologism in veridical soundness-or-ontological-good-faith/authenticity-of-reference-of-thought as the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking –apriorising-psychologism mindset/reference-of-thought ontological-primemovers-totalitative-framework value-reference’. This is the fundamental fact that explains the evasiveness in grasping the psychopath in its motive and orientation as the psychopath’s actions can be as simple as a basic formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated-or-postlogism -formulaic slanting compulsion–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism) understanding of the effects on interlocutors of endearing, pleasing, laughter, etc. in inducing distraction, empathy, suspension-of-profound-reasoning or reference-of-thought teleological-degradation in relation to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism in undermining an prelogism-as-of-conviction,-as-to-profound-supererogation perspective which reference-of-thought is veridical. All the ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking –apriorising-psychologism’ terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a ‘deliberative prelogism-as-of-conviction,-as-to-profound-supererogation mental process’ with respect to its end purpose, and thus wrongly implying it is in ‘prelogism-as-of-conviction,-as-to-profound-supererogation’ with the wrong idea that its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought-elements/registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-

reference-of-thought, devolving-as-of-instantiative-context’, of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (instead of examining in the very first place their relevance/pertinence or its soundness-or-ontological-good-faith/authenticity-of-reference-of-thought); in so doing, analysing its meaning as essence instead of analysing it as non-veridical hollow mimicking form or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging or meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated or non-veridical hollow mimicking narratives. What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing—apriorising. That is to arrive at a sought-outcome by subknowledging—or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism—as-of-conviction—as-to-profound-supererogation—mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing—integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism and hence
the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoptio by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism -as-of- compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and the notion of a lie which is prelogism-as-of-conviction,-as-to-profound-supererogation (be it a ‘poor or bad supplanting-conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism’) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or
whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge\(^1\) associated with postlogism\(^7\)-as-of\(^8\) compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^9\) with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant\(^,\), since its manifestation is not \(^1\) universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-thought’s-devolving-as-of-instantiative-context, whereas the latter is exactly what validates \(^5\) logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^‘\), with respect to construing meaningfulness as prelogism-as-of-conviction-as-to-profound-supererogation\(^‘\), but instead construes meaningfulness as postlogism-as-of-compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^9\) explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity with regards to
inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-
successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow
falsehood narrative is followed by the projection of another hollow falsehood narrative on the
basis of the former as if the former was true, and the projection of another falsehood narrative
on the basis of the previous one as if the previous one was true, and so on. Thus slanting
doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-
contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-
reference-of-thought’s-devolving-as-of-instantiative-context as is the case when someone tells
a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-
contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-
completeness’-of-reference-of-thought’s-devolving-as-of-instantiative-context is wrongly
implied about slanting, it has to do with prelogism-as-of-conviction,-as-to-profound-
supererogation mind/mental-disposition ‘wrongly conjoining the succession of slanting
narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath
narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-
reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-
thought’s-devolving-as-of-instantiative-context’, and this is the mechanism that induces
conjugated-postlogism /preconverging-or-dementing-integration by some interlocutors of the
adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood
psychopathy where the mental-disposition is relatively universally-transparent what is
perceived and related to by supplanting–conviction-as-to-profound-supererogation —
postconverging/dialectical-thinking–apriorising-psychologism interlocutors is not a ‘coherent
whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-
effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-
states in wrong prelogism-as-of-conviction,-as-to-profound-supererogation alignment to
psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism —as-of-conviction,—as-to-profound-supererogation with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, induces interlocutors prelogic supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism alignment to its postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism /preconverging-or-dementing -integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant,
successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing—apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation ), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought/preconverging-or-dementing—apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity-reference-of-thought. Insightfully, it points out as well that the basis of the postlogism /psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism -as-of-conviction,-as-to-profound-supererogation interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation ’ as it will ‘normally do’ with other prelogic supplanting—conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism minds to a postlogism -as-of- compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind, and then wrongly validates that the postlogism -as-of- compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind is in prelogism -as-of-conviction,-as-to-profound-supererogation . In order words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on
prelogism-as-of-conviction,-as-to-profound-supererogation but rather as based on postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with its personality development into adulthood on this basis, paradoxically leads to the prelogism-as-of-conviction,-as-to-profound-supererogation mind’s deception since the latter operates on the basis that everyone must be of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (be it ‘poor or bad supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism’ at worst) and the notion of postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation doesn’t register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism
dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance -<including-virtue-as-ontology> of supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism manifestation of the interlocutor by compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation manifestation of the psychopath cross-perception effect’ wherein the supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutor reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity, while the psychopath view of the supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the
deliriousness effect from\textsuperscript{10} universal-transparency\textsuperscript{14}-(transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-completeness\rangle of its acts, at adulthood psychopathy the lack of such\textsuperscript{10} universal-transparency\textsuperscript{14}-(transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-completeness\rangle of the postlogism ~slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity\textsuperscript{38}, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism\textsuperscript{77}. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as the induced ‘lack of constraining social\textsuperscript{10} universal-transparency\textsuperscript{14}-(transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-completeness\rangle with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking—apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

But exactly for the purpose of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing (as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. ‘Human temporal uninstitutionalised-threshold mental-disposition’ refers to our fixation to the mere—categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought but failing/not-upholding—as-of-apriorising/axiomatising/referencing> prospective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence—(implicated-epistemic-veracity—of—nonpresencing—<perspective—ontological-normalcy/postconvergence>)/postdication as construed from the prospective registry-worldview/dimension institutionalisation reference-of-thought, and as revealed by this prospective institutionalisation existential-contextualising-contiguity—in-reification ’s-elucidation-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context. Fully understanding psychopathy which is the

procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity–of–reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutitonalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness–of–reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-
dementing—apriorising-psychologism the positivism–procrypticism registry-worldview
reference-of-thought will certainly imply an altogether different psychologism of
meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied
meaning of psychologism here has to fundamentally do with a psychology arising out of
ontological development in the construal of intrinsic-reality/ontological-veridicality
establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its
psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological
development in the construal of intrinsic-reality/ontological-veridicality arises (as of human
limited-mentation-capacity-deepening) a renewing of mindset/reference-of-thought of
meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct
occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading
to the successive registry-worldviews/dimensions reference-of-thought
psychologisms/psychologism-constructs, and implied prospectively as well with the
notional–deprocrypticism worldview/dimension reference-of-thought
psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct
takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that
construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s
reference-of-thought psychologism up to its own registry-worldview’s/dimension’s
reference-of-thought psychologism as of its more profound existential-contextualising-
contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness
reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating their
relative-ontological-incompleteness reference-of-thought-induced-virtuality-or-
ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance. Hence this
articulation of successive registry-worldviews/dimensions reference-of-thought
psychologisms up to the deprocrypticism, is an initiation into notional–deprocrypticism
underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such
idealism wherein the real as of its critical import to critical existence issues increasingly comes
to take presence as of its effectiveness. Such that as construed today, human history overall has
been an exercise in toning down the grander notion of idealism as of notions of the
supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or
superseding of such notions with an effectiveness-driven realism leading to a general and
increasing elevation of knowledge as the-human-and-social-emancipator, the present
ascendancy of philosophies increasingly concerned with the human realities of existence
(strongly so, lately with such movements as positivism, phenomenology, existentialism and
post-structuralism) and science in all its facets whether physical, biological or social, as well as
a human-centeredness of arts and culture. Rational-realism is grounded on this historic
empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the
premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-
primemovers-totalitative-framework’ that has accompanied human limited-mentation-
capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-
realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-
capacity-deepening that actually is behind all threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing–apriorising-psychologism of successive registry-
worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that
human emancipation and virtue has been and is fundamentally about buckling down and
undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the
name of idealism. Rational-realism pushes the grander notion of realism further by asking the
question, have all the idealisms as of the grander idealism been identified and superseded? It
comes to the conclusion that while that has been decisively the case with supernaturalism,
belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social
implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence--{(implicated-‘nondescript/ignorable–void ‘-as-to-
-presencing—absolutising-identitive-constitutedness )} and metaphysics-of-absence-
(implicated-epistemic-veracity-of-‘nonpresencing-<perspective–ontological-normalcy/postconvergence>)} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant[]. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith
-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of
rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument comparison can be used to reveal the ‘perpetually stable temporal-to-intemporal-dispositions nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-

But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness)} required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-

(As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising/self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—a-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) While the institutionalisation perspective tends to point to a commonness of reference-of-

to-shallow-supererogation — preconverging/dementing — apriorising-psychologism across all registry-worldviews/dimensions refers to the constituent temporal individuations mental-dispositions at a registry-worldview/dimension uninstitutionalised-threshold and points to their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism as of its uninstitutionalised-threshold pointing to an inclination for untranscendability and unde-mentability as of mechanical-knowledge (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existing-unthought> ) but for the constraint of prospective social universal-transparency — (transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity>totalising~in-relative-ontological-completeness), and so in contrast to the same registry-worldview/dimension reference-of-thought—prelogism -as-of-conviction,-as-to-profound-supererogation mental-disposition that reflects its ontologically-veridical meaningfulness-and-teleology as its institutionalisation which rather points to an inclination for transcendability and de-mentability as of organic-knowledge once it does conceptualise the veridicality of the uninstitutionalised-threshold as ontologically-flawed. Such construal of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism at uninstitutionalised-threshold is critical because then and in effect, the mental-reflex to ontologically validate these as of reference-of-thought—prelogism -as-of-conviction,-as-to-profound-supererogation mental-disposition so-construed as of sound/existential-contextualising-contiguity logical-dueness is ontologically put into question given the perversion-and-derived-perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity is projectable about the
uninstitutionalised-threshold\textsuperscript{02}, and not as it is circularly construed within the uninstitutionalised-threshold\textsuperscript{02} frame as a construal of logical pertinence (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96}), but rather involving priorly the determination of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}—apriorising-psychologism as these fail to reflect soundness-or-ontological-good-faith/authenticity -of- reference-of-thought, that is, establishing whether or not there is perversion-and-derived\textsuperscript{24} perversion-of\textsuperscript{27} reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > in the first place before any implication of logical-dueness/logical-pertinence arises. Consider as of metaphysics-of-absence-(implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) or ontological-normalcy/postconvergence analysis the case of notions-and-accusations-of-sorcery in a non-positivistic social-setup uninstitutionalised-threshold\textsuperscript{02} which is rather in want of positivistic meaningfulness-and-teleology\textsuperscript{99}. Effectively establishing deconstructive ontological-veridicality implies recognising the overall registry-worldview’s/dimension’s relative-ontological-incompleteness -of- reference-of-thought as superstitious/non-positivistic inclined, its postlogism\textsuperscript{77} and conjugated-postlogism\textsuperscript{77} as acknowledging and contending about notions-and-accusations-of-sorcery (beyond-the-consciousness-awareness-teleology\textsuperscript{77}<in-existential-extrication-as-of-existential-unthought>) thus leading to perversion-and-derived- perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, with this succinctly reflecting the reality of temporal-dispositions as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing\textsuperscript{19}—apriorising-psychologism as of such non-positivism\textsuperscript{77} reference-of-thought uninstitutionalised-threshold\textsuperscript{02}. Such that it is not a logical exercise (logical-
processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation”) that is in order which will rather be circular as fundamentally operating on false non-positivism registry-worldview’s/dimension’s institutionalisation of reference-of-thought—categorical-imperatives/axioms/registry-teleology of superstition but rather one of determination of temporal individuations threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing —apriorising-psychologism as this reflects postlogism denaturing and conjugated-postlogism derived-perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism—meaningfulness-and-teleology—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought—prelogism—as-of-conviction,—as-to-profound-supererogation tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) given our relative-ontological-incompleteness—reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought—prelogism—as-of-conviction,—as-to-profound-supererogation has to do with the abstract and uncompromising determination of
mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal de-mentating/structuring/paradigmning and further so with respect to increasing informality as in the extended-informality—(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology)—of all human institutions, and particularly where social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity)—totalising—in-relative-ontological-completeness— is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation—at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism—slantedness. This reality of our reference-of-thought-prelogism—as-of-conviction,—as-to-profound-supererogation—as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations threshold-of—nonconviction/madeupness/bottomlining—as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought-prelogism—as-of-conviction,—as-to-profound-supererogation— as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of—nonconviction/madeupness/bottomlining—as-to-shallow-supererogation— preconverging/dementing—apriorising-psychologism and reference-of-thought—prelogism— as-of-conviction,—as-to-profound-supererogation takes the form of temporal-to-intemporal
social interlocutors beyond-the-consciousness-awareness-teleology\textsuperscript{-<in-existential-extrication-as-of-existential-unthought>―de-convergence as of transversality-of-affirmative-and-unaffective–disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{19}}. Such a distinction particular at the uninstitutionalised-threshold\textsuperscript{102} is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the\textsuperscript{25} reference-of-thought as of \textsuperscript{25}reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived–perversion-of–reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >. This delineation is in line with the idea of human temporal (shortness-of-register-of–meaningfulness-and-teleology) to intemporal (longness-of-register-of–meaningfulness-and-teleology) individuations nature as implicitly recognised in the de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology\textsuperscript{99} construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of \textsuperscript{25}reference-of-thought–prelogism–as-of-conviction,-as-to-profound-supererogation as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold\textsuperscript{102}’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing —apriorising-psychologism mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing —apriorising-psychologism and reference-of-
thought–prelogism \textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} critically explains how the successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposured going by the fact that projective-insights about prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing\textsuperscript{119}—apriorising-psychologism as of prior relative-ontological-incompleteness\textsuperscript{89}-of-\textsuperscript{83}reference-of-thought is what needs to be superseded for prospective registry-worldview/dimension institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83}reference-of-thought effective \textsuperscript{81}reference-of-thought–prelogism \textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation (as operant construal) by social universal-transparency\textsuperscript{113}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) rendering the prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing \textsuperscript{119}—apriorising-psychologism (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold \textsuperscript{102} has to do with the possibility of attaining or not attaining social universal-transparency\textsuperscript{114}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ). Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing \textsuperscript{119}—apriorising-psychologism) with regards to \textsuperscript{81}reference-of-thought–prelogism \textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96}. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing \textsuperscript{119}—apriorising-psychologism within a prior registry-
worldview/dimension utterly disappears within the prospective registry-worldview/dimension
meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for
instance are not entertained in a positivism social-setup as the positivism/rational-empiricism
social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } knows
this to be non-veridical ontologically-speaking giving its prospective relative-ontological-
completeness -of- reference-of-thought. This imbibed potency in social universal-
transparency-{transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } across all registry-
worldviews/dimensions is what explains the possibility of social transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire
construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-
confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-
thought–prelogism -as-of-conviction,-as-to-profound-supererogation to meaningfulness-
and-teleology as of both the individual’s expectation and the social’s expectation such that
failure in this respect arises mostly surreptitiously since even the most disingenuous
individuation will want the social-construct to function well in order to ‘parasitise’ it, as a
failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even
such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant
will tend to advance, however dubious, a rationale that is meant to be socially functional.
Basically, the postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-
threshold-of-shallow-supererogation mindset threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing–apriorising-psychologism arises out of its temporal individuation’s
surreptitiousness (‘lack of constraining social universal-transparency-{transparency-of-
totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) such that it can induce threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism rule) as of marginal social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness of reference-of-thought as social procripticism—or—disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism’s derived threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism, and so overall, on the flawed mental-reflex that such protraction of threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism is supposedly reference-of-thought—prelogism as-of—conviction—as-to—profound—supererogation (as to the lack of constraining social universal-transparency ⟨transparency-of-totalising-entailing—as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing —apriorising-psychologism doesn’t socially take hold then, as such childhood postlogism perversion-of-reference-of-thought—as-effectively—apriorising—in—nonconviction/madeupness/bottomlining-as-to-shallow—
supererogation hasn’t superseded the social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) in further inducing temporal-dispositions derived- perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory dementating/structuring/paradigming, and not by ontological-veridicality insight as of dementative/structural/paradigmatic <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) is dementatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness of reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness of reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness of reference-of-thought induced distractive-alignment-to reference-of-thought<of-apriorising/axiomatising/referencing> and override any such sense of relative pure-ontology conflatedness as of prospective relative-
ontological-completeness -of- reference-of-thought conflatedness\textsuperscript{8}). So the transcendental \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{83} going by its prospective relative-ontological-completeness\textsuperscript{87}-of- reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{83}’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness \textsuperscript{88}-of- reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{87}-of- reference-of-thought had moved on to the new/prospective \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} which is now antipodal to his, hence his confliction with his circular-pervasiveness \textsuperscript{amplituding/ formative} wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of– \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{83}-as-of-‘nondescript/ignorable–void ‘)-with-regards-to-prospective-apriorising-implications>) which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness \textsuperscript{amplituding/ formative} wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of– \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{83}-as-of-‘nondescript/ignorable–void ‘)-with-regards-to-prospective-apriorising-implications>) when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of\textsuperscript{5}reference-of-thought with regards to \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} construal where Nunez’s ‘seeing of the environment’ \textsuperscript{5}reference-of-thought as of it prospective relative-ontological-completeness -of-axiomatic-
construct-or-\textsuperscript{2} reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \textsuperscript{1} reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{3}. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior \textsuperscript{4} reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a <\textit{amplituding-formative}> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) that hardly entertains its own transcendability/dec-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ \textsuperscript{5} reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their \textsuperscript{6} reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness \textsuperscript{7} of \textsuperscript{8} reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of \textsuperscript{9} reference-of-thought, speaking of their distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing>\textsuperscript{10} from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and
without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism–procrysticism as of its disjointedness-as-of reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-
threshold as of its ontologising-deficiency/relative-ontological-incompleteness-as-of-reference-of-thought; thus qualified as transcendence-and-sUBLIMITY/SUBLIMATION/SUPEREROGATORY—De-mentativity/Suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/reference-of-thought meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-as-of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring-
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty
is

that

‘no
given
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and
by reflex circularly undertakes predicative-insights from its
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and
it is only the long run crossgenerational habituation construed as of

de-mentation-
(supercerogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-
attributive-dialectics) with the prior ontologically construed as decentered and preconverging-
or-dementing—apriorising-psychologism as of distractive-alignment-to-
reference-of-thought-
<of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness
doesn’t exist just as the logical-dueness of the animist
reference-of-thought with their God of
plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-
satellite-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective ‘reference-of-thought (as the author in here with a supposed notional-deprocrypticism ‘reference-of-thought construal as implying a prospective relative-ontological-completeness -of- reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different ‘reference-of-thought in striving to explicate the ontological pre-eminence of the prospective ‘reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our ‘reference-of-thought being construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought perspective as in disjointedness-as-of- reference-of-thought and rather in distractive-
alignment-to-reference-of-thought! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of-meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought/logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly direct notional~deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology just as a notional~deprocrypticism analysis will not engage us on the basis of our procrypticism–or–disjointedness-as-of-reference-of-thought reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-
incompleteness of reference-of-thought of non-positivism and procrypticism or disjointedness as of reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness of reference-of-thought over prior relative-ontological-incompleteness of reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness of reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or-dementing–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage ‘meaningfulness-and-teleology’ in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness–reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived–perversion-of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > rather render such
notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misunderstanding based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought—

What is of relevance is a veridically uninhibited/decomplexified ‘understanding of how the ontological-contiguity—of-the-human-institutionalisation-process works and induces prospective institutionalisations’ as a ‘The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ and not a vague ‘impression-driven/good-naturedness/wishfulness construct’; and that virtue-as-

Otherwise, such a notion of forgiveness/overlooking/resetting with respect to perversion-and-derived-perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{17} shouldn’t be narrowly interpreted only with regards to our positivism registry-worldview/dimension in its \textless{amplituding/formative-epistemicity}\textgreater totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textless{amplituding/formative}\textgreater wooden-language\{imbued—averaging-of-thought\textless as-to-leveling/ressentiment/closed-construct-of\textless meaningfullness-and-teleology\textgreater as-of\' nondescript/ignorable–void \'with-regards-to-prospective-apriorising-implications\textgreater\} but should go back ironically to the very beginning at recurrent-utter-uninstitutionalisation to imply forgiveness/overlooking/resetting within it same \textless{amplituding/formative}\textgreater wooden-language\{imbued—averaging-of-thought\textless as-to-leveling/ressentiment/closed-construct-of\textless meaningfullness-and-teleology\textgreater as-of\‘ nondescript/ignorable–void \'with-regards-to-prospective-apriorising-implications\textgreater\} thus undermining the very notion in reflecting holographically\textless conjugatively-and-transfusively\textgreater the ontological-contiguity —of-the-human-institutionalisation-process as the very de-mentative/structural/paradigmatic essence of virtue-as-ontology by its \textsuperscript{83} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, for-aposteriorising/logicising/deriving/intelligising/measuring\textsuperscript{3} meaningfullness-and-teleology\textsuperscript{99} of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ as its leads to prospective registry-worldviews/dimensions of increasing prospective relative-ontological-completeness\textsuperscript{18} of reference-of-thought superseding successive de-mentative/structural/paradigmatic basis of vices-and-impediments\textsuperscript{109}; —as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism in recurrent-utter-uninstitutionalisation or failing \textsuperscript{103} universalisation-directed-rulemaking-over-non-rules—
limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness\(^1\)-of-\(^1\) reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening\(^2\) enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^3\)-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^9\) of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\(^7\)-of-\(^7\) reference-of-thought with no recognition of any such ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^5\) as human limited-mentation-capacity-deepening\(^7\) retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived\(^7\) perversion-of\(^7\) reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating
social \(\text{amplituding/formative–epistemicity}\) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^6\) with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically-\(\text{conjugatively-and-transfusively}\) the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^6\) involving human limited-mentation-capacity-deepening\(^6\). In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of-\(\text{reference-of-thought}\). In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology\(^6\)-\(\text{in-existential-extrication-as-of-existential-unthought}\) naïve perpetuation in \(\text{amplituding/formative–epistemicity}\) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^6\) of the fundamental vices-and-impediments\(^6\) with both uninstitutionalised-threshold\(^6\), thus explaining the fundamental dilemma of all institutional Establishments in their \(\text{amplituding/formative–wooden-language}\)-\(\text{imbued—averaging-of-thought}<\text{as-to-leveling/ressentiment/closed-construct-of—} \text{meaningfulness-and-teleology}\)-\(\text{as-of-'}\text{nondescript/ignorable–void'}\)-with-regards-to-prospective-apriorising-implications>\). Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by de-mentation-\(\text{supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\), which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology of notional-deprocripticism as of its prospective relative-ontological-completeness-of-reference-of-thought as ‘a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’, we are rather less apt to concur going by our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procripticism relative-ontological-incompleteness-of-reference-of-thought’ and thus wrongly implying our unde-mentability hence our untranscendability for a de-mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of–meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we
imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification /ontological-primes-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence–{implicated-nondescript/ignorable–void –as-to– presencing— absolutising-identitive-constitutedness } construed as postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity–of–reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence–{implicated-epistemic-veracity-of–nonpresencing-<perspective–ontological-normalcy/postconvergence>} construals/conceptualisations as implied by prospective relative completeness-of–reference-of-thought which rather construes it as a preconverging-or-dementing-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness–of–reference-of-thought and a prospective relative-ontological-completeness–of–reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing–and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought by the latter as a postconverging-or-dialectical-thinking–and-centered-prospective-institutionalisation’s–
valid by default. This point out that there is necessarily a central growth element of a de-
mentative/structural/paradigmatic reference-of-thought–categorical-
imperatives/axioms/registry-teleology–for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology–for
crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’
allowing for de-mentability and thus transcendability as enabling human virtue-as-
tonology/ontology. Further to the points made this far, talk of such a narrative as of such de-
mentative/structural/paradigmatic causality–as-to-
projective-totalitative–implications,-for-explicating-ontological-contiguity of vices-and-
impediments of our prior relative-ontological-incompleteness–of-
reference-of-thought that
does not focus on substantive critiquing/assessment of the arguments made but is rather geared
to imply beforehand that such arguments are impropriety, is actually nothing more than our
falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a
status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to
wrongly imply no such argumentation is admissible. This is often a choice deterrent of
institutional and eruditical Establishments of presence failing to recognise that more profound
human insights arise from Dionysian dispositions and not just a reflex of looking at the
presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the
mortals that we are and we can’t advance our mortal statuses as superseding inherent
reality/ontology, but we are rather bound to be much more substantive than that to avoid
‘human closure of meaningfulness-and-teleology’ which easily arises given our temporal-to-
intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-
referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is
such an articulation is not idle but rather the requisite fervour associated with many an
enlightening thought, however qualified as impropriety, as a <amplituding/formative> wooden-
language-〈imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications) start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional−deprocrypticism prospective relative-ontological-completeness of reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing−apriorising-psychologism of positivism−procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from notional−deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing−apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing−apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional−deprocrypticism reference-of-thought perspective or
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{12} procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology\textsuperscript{16}<in-existential-extrication-as-of-existing-unthought>\textsuperscript{9} and not yet by social\textsuperscript{10}universal-transparency\textsuperscript{10}–{transparency-of-totalising-entailing, as-to-entailing}<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{16}, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting notional–deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument
but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-prime-movers-totalitative-framework and percolation-channelling involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring behind the ontological-contiguity —of-the-human-institutionalisation-process as pertinent for notional-deprocrypticism ‘without in the very least entertaining’ the wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure—as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing> that has always been a drawback as of temporal extricatory de-mentating/structuring/paradigming and parasitising/co-opting inclination subpar to the warranted ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness—of—reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of—meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness—of—reference-of-thought, to-be-more-convincing-on-a-par-with—
other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as intemporalit/’-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness of reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness of reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness of reference-of-thought by ‘continuous habituation going by the latter’s ontological-prime-movers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency–(transparency-of-totalising-entailing, as-to-entailing totalising–in-relative-
ontological-completeness') that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of 'ontologically' and 'not palliatively' resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of-reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of 'meaningfulness-and-teleology' as conceptualising, articulating and preempting such disjointing/disparateness/disentailing 'meaningfulness-and-teleology' of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness-of-reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of 'disjointedness-as-of-reference-of-thought' and the enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing 'disjointedness-as-of-reference-of-thought' of 'meaningfulness-and-teleology', beyond-the-consciousness-awareness-teleology=in-existential-extrication-as-of-existential-unthought, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments of implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-
reference-of-thought. This explains how and why re-originarily-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-conflatedness’-‘of-notional–deprocrypticism-prospective-sublimation’) ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)} at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)} turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and preconverging-or-dementing –apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought–prelogism -as-of-conviction,-as-to-profound-supererogation (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. (As implied by this author the nature of human individuations accounts respectively for human intemporality/longness and human temporality/shortness as the ‘more fundamentally ontological-primemovers-totalitative-framework’ analysable operant agency of the human condition as of human knowledge-and-virtue or vices-and-impediments respectively as such individuations then accrue in varying degrees in individuals as of varying circumstances’; and so-construed respectively as of

As a general rule the reference-of-thought–closeness-of-tethering–to–prelogism\textsuperscript{74}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} implies a mental-disposition for intrinsic-attribution of meaningfulness-and-teleology\textsuperscript{9} involving an inclination for presuming and implying of meaningfulness-and-teleology\textsuperscript{55} as limited/constraint by existential-contextualising-contiguity\textsuperscript{84’s-reifying/elucidating-of-prospective-relative-ontological-completeness}\textsuperscript{97}-of-\textsuperscript{83}reference-of-thought–devolving-as-of-instantiative-context while the \textsuperscript{9}reference-of-thought–looseness-of-tethering–to–prelogism\textsuperscript{74}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} implies a mental-disposition for extrinsic-attribution of meaningfulness-and-teleology\textsuperscript{9} as caricaturing-hollow-staging-and-performance involving an inclination for falsely presuming and implying meaningfulness-and-teleology\textsuperscript{9} as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of the limits/constraints of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{97}-of-\textsuperscript{83}reference-of-thought–devolving-as-of-instantiative-context. The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by conflatedness to establish the uninstitutionalised-threshold —reference-of-thought—categorical-imperatives/axioms/registry-teleology , for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically...
effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold\(\text{\textsuperscript{102}}\) which require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-teleology\(\text{\textsuperscript{8}}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(\text{\textsuperscript{77}}\) which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(\text{\textsuperscript{102}}\). Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency\(\text{\textsuperscript{104}}\)-(transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative–epistemicity}\rangle\text{-totalising–in-relative-ontological-completeness}\(\text{\textsuperscript{87}}\)) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold\(\text{\textsuperscript{102}}\) situation which is necessarily beyond-the-consciousness-awareness-teleology\(\text{\textsuperscript{55}}\)-\langle in-existential-extrication-as-of-existential-unthought\rangle\(\text{\textsuperscript{6}}\) and without social universal-transparency\(\text{\textsuperscript{104}}\)-(transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative–epistemicity}\rangle\text{-totalising–in-relative-ontological-completeness}\(\text{\textsuperscript{87}}\)) of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(\text{\textsuperscript{8}}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(\text{\textsuperscript{77}}\) needed for construing postlogism /psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold\(\text{\textsuperscript{102}}\), and so by way of maximalising-recomposuring-for-relative-ontological-completeness\(\text{\textsuperscript{77}}\)—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity\(\text{\textsuperscript{102}}\)–
reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{17} of reference-of-thought\textsuperscript{1} devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{18} which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{18} on the basis of the established \textsuperscript{8}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9}. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology\textsuperscript{9} before the institutionalisation of such a specific uninstitutionalised-threshold\textsuperscript{19} takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{18}. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of reference-of-thought’-as-misappropriated–meaningfulness-and-teleology\textsuperscript{9} going by the visitor’s relative-ontological-incompleteness\textsuperscript{8} of reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness–
and-teleology to preempt the induced procreticism or ‘disjointedness-as-of’ reference-of-thought’-as-misappropriated– meaningfulness-and-teleology from the childhood psychopathy slantededness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocreticism reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology to preempt the slanted inducing of procreticism or ‘disjointedness-as-of’ reference-of-thought–as-misappropriated– meaningfulness-and-teleology and gives up on positivism–procreticism reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional–deprocreticism reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology has superseded the prior positivism–procreticism reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism psychopathic personalities development from childhood to adulthood together with the implications of
conjugated-postlogism\slash social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfitude-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality\{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to–\} meaningfulness-and-teleology\} by formality dynamics; with the implication of lack of social universal-transparency\{transparency-of-totalising-entailing-as-to-entailing\}<amplituding/formative– epistemicity>totalising–in-relative-ontological-completeness ) as the manifestation is beyond-the-consciousness-awareness-teleology\{in-existential-extrication-as-of-existential-unthought\} at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived- perversion-of– reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to- shallow-supererogation >. (Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the ‘lived social’ as of the aforementioned implied notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construing a storied-construct/ontologically-valid-narration driven by such postlogism/psychopathic associated vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging maturation/indirectness/spatialisation/credulity/craftiness induced narration-construed-as-instantiative-moulting involving childhood psychopathy to adulthood psychopathy development, and corresponding evolving of social relations as of dynamic-cumulative-aftereffect ‘disjointedness-as-of’ reference-of-thought’-misappropriated–meaningfulness-and-teleology involving compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as of psychopathic/postlogism–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as–prelogism-as-of-conviction,-as-to-profound-supererogation thus leading to caricaturing-hollow-staging-and-performance; and so construed as of ‘themes-driven underlying-agency-or-sous-agencement dynamics for narration-construed-as-instantiative-moulting’). accusation of sorcery is literally undermining itself but is seen as ontologically necessary for
the crossgenerational possibility of prospective transcendence-and-

isn’t an isolated individual but a member from a positivistic society bringing about a cultural

greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative

Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother.

It is effectively derived-denaturing\textsuperscript{15} that induces threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism as of uninstitutionalised-threshold\textsuperscript{22}, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology\textsuperscript{9} are in effect ontologically-speaking threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism\textsuperscript{78} as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} conflatedness\textsuperscript{2} as of positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{9}, with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought-as undermining conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-
Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism’ as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought’ but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism-as-of-conviction,-as-to-profound-supererogation-of-reference-of-thought’ is in an ‘intemporality’-asymmetric-subsumption-of-temporality'/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-of-reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-ontological-good-faith/authenticity-of-reference-of-thought prior to the notion of logical-dueness arising once soundness-or-ontological-good-faith/authenticity-of-reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation
reference-of-thought/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity as reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought as devolving-as-of-instantiative-context as contextually-manifest prospective relative-ontological-completeness of reference-of-thought in contrast to the visitor’s supposed reference-of-thought/axiomatic-construct which is non-existential/non-ontological as not-of-existential-contextualising-contiguity’s reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context as contextually-manifest prior relative-ontological-incompleteness of reference-of-thought. It is this fundamental fact that underlies the notion of ‘distractiveness or arrogation or usurpation or co-opting’ associated with the construal of the meaningfulness-and-teleology of temporal-dispositions perversion-and-derived perversion-of reference-of-thought as effectively-apriorising-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as threshold-of nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing apriorising-psychologism in relation to intemporal meaningfulness-and-teleology as ontological; as such symmetrisation and subsequent desymmetrisation will wrongfully lead to the reference-of-thought—categorical-imperatives/axioms/registry-teleology for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology of the visitor’s reference-of-thought so ontologically-destructured by the childhood psychopathy postlogism ‘dereifying act’ of spilling water on a chair and accusing another, thereby undermining ontological-veridicality where logic-as-of-prelogism as-of-conviction, as-to-profound-supererogation is wrongly assumed thus supposedly implying logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is now to be engaged on the basis of the visitor’s ontologically-destructured reference-of-

than just as of ‘destructuring’ but more completely and critically to avoid misconstrual rather as of
prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought. The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and-teleology\textsuperscript{99} that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{96} as of prospective notional–deprocrypticism over our positivism–procrypticism. The point here is to highlight that ‘conflatedness’\textsuperscript{12} doesn’t imply any symmetrisation of meaningfulness-and-teleology\textsuperscript{99} with regards to perversion-and-derived–perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} since the latter is de-mentatively/structurally/paradigmatically not logically-due for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter de-mentative/structural/paradigmatic reconstrual of meaningfulness-and-teleology\textsuperscript{99} as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications associated with perversion-and-derived–perversion-of–reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} ultimately falls to the grander issue of prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought as fundamentally endemising/enculturating such perversion-and-derived–perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} possibilities; such that an

disjointedness-as-of-reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating/supererogatory-de-mentativity veracity. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supererogatory-de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic-as-prelogism-as-of-conviction-as-to-profound-supererogation, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather reflected-as-of-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism/psychopathy phenomenon relatively
resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-complexification registry-worldview/dimension-level of more surreptitious adulthood pathological postlogism /psychopathy as the maturation/indirectness/spatialisation/credulity/craftiness induces ‘lack of constraining social universal-transparency\textsuperscript{10}-\{transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative–epistemicity}\textsuperscript{\textsuperscript{\textsuperscript{\textsuperscript{totalising~in-relative-ontological-completeness}}}}\}\} with consequent conjugated-postlogism \textsuperscript{7} ‘involving beyond-the-consciousness-awareness-teleology\textsuperscript{9}-\langle\text{in-existential-extrication-as-of-existential-unthought}\rangle dynamics further associated with a generalised social ‘lack of constraining social universal-transparency\textsuperscript{10}-\{transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative–epistemicity}\textsuperscript{\textsuperscript{\textsuperscript{\textsuperscript{totalising~in-relative-ontological-completeness}}}}\}\} reflected by the given registry-worldview’s/dimension’s prior relative-ontological-incompleteness\textsuperscript{18}-of-\{reference-of-thought\} thus reflecting the uninstitutionalised-threshold\textsuperscript{92} backdrop for the registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing –apriorising-psychologism. Along the same argument and with regards to the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising→self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism—psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflededness)/incidental occurring behind the inspired/insight-for-the social construction supposedly coherent ontological-commitment as of aetiology/ontological-escalation for universal retrospective to prospective understanding of postlogism—psychopathy and human social dynamics implications. is wrong, such an insight about the supposedly coherent ontological-commitment being wholly

construe/conceptualise social knowledge not only on the basis of the inherent

In this case, however the ‘emotional involvement’ in conflatedness within the same positivism registry-worldview of appraisal is way low compared to the high ‘emotional involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and notional–deprocrypticism as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of ‘emotional involvement’ thus requiring rather a crossgenerational adjustment as conflatedness over the prior distractive-alignment-to-reference-of-thought-of-

other words, a prospective registry-worldview/dimension institutionalisation ‘meaningfulness-

supererogation of the new reference-of-thought; as facing/dealing anew with human
temporal-to-intemporal mental-dispositions but this time around doing the same thing as
occurred with the prior institutionalisation reference-of-thought—categorical-
imperatives/axioms/registry-teleology that was transcended/superseded to deliver the new
registry-worldview/dimension, but now on the new registry-worldview’s/dimension’s

(with the difference as of a ‘relatively lower sensibility’ arising just because of the new
registry-worldview/dimension prospective relative-ontological-completeness—of—reference-
of-thought limiting/constraining on the possibilities of vices-and-impediments); implying an
underlying ontological-contiguity of the reality of human temporal-to-intemporal mental—
dispositions across all the registry-worldviews/dimensions. Thus while ‘ontologically superseding the prior beyond-the-consciousness-awareness-teleology\(^{99}\) -\(<\text{in-existential-extrication-as-of-existential-unthought}>\) and prior ‘lack of constraining social\(^{100}\) universal-transparency\(^{101}\) -\((\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity}>\text{totalising-in-relative-ontological-completeness} \)\) this does not imply apart from such institutionalisation-as-secondnaturings a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold\(^{102}\) as its beyond-the-consciousness-awareness-teleology\(^{99}\) -\(<\text{in-existential-extrication-as-of-existential-unthought}>\) and ‘lack of constraining social\(^{100}\) universal-transparency\(^{101}\) -\((\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity}>\text{totalising-in-relative-ontological-completeness} \)\) inducing anew the new \(^{103}\) reference-of-thought owns threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation — preconverging/dementing –apriorising-psychologism. This social dynamism (dynamic-cumulative-aftereffect) as of the new registry-worldview/dimension uninstitutionalised-threshold\(^{102}\) can be construed ontologically as arising out of a further temporal/shortness-of-register-of—meaningfulness-and-teleology\(^{99}\) distortedness of the new \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology}^{99}\) in the social extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\(^{99}\)\) ultimately extending to the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\(^{99}\)\) spheres of formal constructs distorting formal construal of meaninglessness-and-teleology\(^{99}\), and so to a point of equilibrium of the new registry-worldview/dimension between its institutionalised meaninglessness-and-teleology\(^{99}\) and its
uninstitutionalised-threshold’s threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology and ‘human temporal-to-intemporal-dispositions condition’ of reception/distortion across the successive registry-worldviews/dimensions involving denaturing where there is ‘lack of constraining social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness’). The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendent-ful-enabling/sublimating/superoerogatory–de-mentativity ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> and the prior ‘lack of constraining social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness’), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the
prospective institutionalisation \( ^8 \) reference-of-thought as of pure-ontology conflatedness \( ^9 \) for prospective relative-ontological-completeness \( ^7 \) of reference-of-thought \( ^5 \) meaningfulness-and-teleology \( ^6 \). But then in due course and at the uninstitutionalised-threshold \( ^2 \) of this prospective institutionalisation \( ^8 \) reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wanes as the reality of human temporal-to-intemporal-dispositions nature sets in as it is related to at the uninstitutionalised-threshold \( ^2 \) by the registry-worldview’s/dimension’s least common denominator as \( < \text{amplituding/formative}> \) wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology ) for social-functioning-and-accordance—as-of—social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold \( ^2 \) that is a drawback-to/undermines prospective-knowledge-and-institutional deferential-formalisation-transference as of prospective relative-ontological-completeness \( ^7 \)-of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-prime-movers-totalitative-framework \( ^7 \), and is rather oriented to sovereign extrication over knowledge-reification \( ^7 \) at this uninstitutionalised-threshold \( ^2 \) as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since \( ^7 \) reference-of-thought—categorical-imperatives/axioms/registry-teleology \( ^7 \) are only ‘mechanistically’ constraining, lacking the organic-spirit or ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold \( ^2 \) that in effect the technical constraints of the law
tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-prime-movers-totalitative-framework construal for the notional—deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of notional—deprocrypticism and the ‘reality of a human condition of temporal-dispositions distractive-alignment-to reference-of-thought—of-apriorising/axiomatising/referencing>, and so as of notional—conflicatedness /constitutedness —to-conflicatedness as historicity/ontological-eventfulness/ontological-aesthetic-tracing in articulating a (protensive-consciousness deneuterising -induced)- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, that is preemptive of a least-common-denominator-of-social-functioning-and-accordance-effecting to bare mechanical-knowledge as

induces a ‘human temporal uninstitutionalised-threshold’ mental-disposition’ temporality /shortness or shortness-of-register-of—meaningfulness-and-teleology drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold with respect to perceived–social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-deepening, truly reflect the inherent nature of 'human temporal uninstitutionalised-threshold mental-disposition'; and the deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism–procrypticism registry-worldview/dimensions vices-and-impediments (just as with all previous transcendence-and-sublimity/sublimation/supererogatory/de-mentativity of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism)^. <amplituding/formative–epistemicity>causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity, rather than a naïve metaphysics-of-presence—(implicated—nondescript/ignorable–void—as-to—presencing—absolutising-identitive-constitutedness) mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly
implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality /longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-/drive solipsistic-choices are maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold facet, so-construed by metaphysics-of-absence-(implicated-epistemic-veracity-of non-presencing-<perspective–ontological-normalcy/postconvergence>), carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—dementativity. Such metaphysics-of-absence-(implicated-epistemic-veracity-of non-presencing-<perspective–ontological-normalcy/postconvergence>) considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendent-
enabling/sublimating/supererogatory–de-mentativity'), like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic ‘meaningfulness-and-teleology’ (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific ‘meaningfulness-and-teleology’ as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition.
that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnature prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other
formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal amplituding/formative wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{8}—as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness -of- reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology ) as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms
on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\[^9\]-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-(imbued—averaging-of-thought<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—
‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) mental-
dispositions and projections’. Hence the construal of knowledge construct in such domains that
are spurious and blurry as with respect to postlogism”/psychopathy social implications should
as of precedence be about articulating the illuminating insight that ultimately allows for the
attainment of their own deferential-formalisation-transference based on ‘social consensus as of
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercereatory—de-mentativity by human intemporal mental-dispositions
and projections’, and undermining a social relations with regards to knowledge and virtue that
is based on ‘social consensus as of social-aggregation-enabling by human temporal
<amplitude/formative> wooden-language-(imbued—averaging-of-thought-<as-to-

‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) mental-
dispositions and projections’, and so in order to release the inherent virtue imbued in true
knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogism phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social
as of the present as metaphysics-of-presence--(implicit-to-nondescript/ignorable--void ’-as-to-
-presencing—absolutising-identitive-constitutedness) instead of assuming a ‘human temporal
uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-
absence-(implicit-to-epistemic-veracity-of nonpresencing--<perspective–ontological-
-normalcy/postconvergence>, since the construal of our postlogism” as of psychopathy and
social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, reflected from futural Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence—(implicit-epistemic-veracity-of-nonpresencing—<perspective—ontological-normalcy/postconvergence>) we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality—drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality—shortness shades ( ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism—procrypticism, as the <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>) in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of
of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’. Virtue is essentially about the intemporality-drive as maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence) /postdication with reference-of-thought—categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought—categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding—as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence) /postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness—reference-of-thought, by ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness —
unenframed-conceptualisation intemporality\textsuperscript{4}-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{7} that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity\textsuperscript{38} here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness\textsuperscript{8} and relative-ontological-completeness\textsuperscript{87} reference-of-thought and respectively as of their divergent non-positivists dereification\textsuperscript{5} perspective and positivist reification\textsuperscript{6} perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity\textsuperscript{38}–in-reification /dereification as of their prior relative-ontological-incompleteness\textsuperscript{8}–of–reference-of-thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity\textsuperscript{38}–in-reification as-seeking-a-cure as of its prospective relative-ontological-completeness\textsuperscript{87}–of–reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness\textsuperscript{8}–of–reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity\textsuperscript{38}–reification\textsuperscript{6} as of singularisation\textsuperscript{7}/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity\textsuperscript{6}–<<profound-suprerogation\textsuperscript{96}–

of-mentally-aestheticised-postconverging/dialectical-thinking of-qualia-schema in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter ‘meaningfulness-and-teleology’ as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of-reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing of the prior relative-ontological-incompleteness of-reference-of-thought and the contorted prospective relative-ontological-completeness of-reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness of-reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-
fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness\(^{87}\)-of- reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness\(^{87}\)-of- reference-of-thought but for the induced crossgenerational transcendental metaphoricity\(^{56}\) possibility, and the contortion is more of a token as of the metaphoricity\(^{56}\) possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness\(^{87}\)-of- reference-of-thought full meaningfulness-and-teleology\(^{19}\) implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity\(^{56}\) possibility for prospective relative-ontological-completeness\(^{87}\)-of- reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness\(^{87}\)-of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness\(^{87}\)-of- reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness–of-reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness–towards-ontological-completeness of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to-‘human <amplituding/formative–epistemicity>totalising–purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance’–<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ and construed as of ontologically-veridical difference-conflatedness–as-to-totalitative-reification—in-singularisation–as-veridical-epistemic-determinism; with the assertion by this author that there is no accidental human meaningfulness-and-teleology as all prior meaningfulness-and-teleology imply futural deferred traces of their prospectively more ontologically-complete constructs as of grander ‘ontological-faith-notion-or-ontological-
expressiveness’ are existentially veridical; and it is important to grasp that every registry-worldview/dimension is of a reference-of-thought apriorising/axiomatising/referencing/intelligibility setup/measuring instrument that by its reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation falsely implies that its meaningfulness-and-teleology is necessarily as of ‘identitive <amplituding/formative–epistemicity> totalising/circumscribing/delineating postconverging-or-dialectical-thinking’—apriorising-psychologism’ even at its uninstitutionalised-threshold where it is effectively preconverging-or-dementing—apriorising-psychologism as its reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation fails to induce an ontologically-veridical reifying trace/ontological-aesthetic-tracing of existential-contextualising-contiguity. We can imagine as of a non-positivistic social-setup reference-of-thought identitive-constitutedness— as—‘epistemic-totality’—dereification—in-dissingularisation—as-flawed-epistemic-determinism <amplituding/formative–epistemicity> totalising/circumscribing/delineating meaningfulness-and-teleology, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold, much like as from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism perspective we can imagine the ‘candid existential expressiveness’ in our positivism—procrypticism that ‘integrates procrypticism—or—disjointedness-as-of—reference-of-thought as-thinking’ as of its uninstitutionalised-threshold; and in both cases the ‘trace/ontological-aesthetic-tracing of ontological wholeness/nested-congruence’ as of existential-contextualising-contiguity knowledge-reification breaks down at the uninstitutionalised-threshold thus assuming a nondescript/ignorable—void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing—narratives) identitive-constitutedness— as—‘epistemic-totality’.

In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality/reference-of-thought/epistemic-totalising~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology’ which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-
ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism<amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity ’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. The fact is human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at its uninstitutionalised-threshold implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold ‘is not geared to adhere to abstract ontological-veridicality’ as it will operate its state of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of singularisation /epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism—or—preempting—
disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology state is downright ontologically ridiculous and the manifestation of an <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions-of-reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness of-dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking–apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing–apriorising-psychologism as of prospective postconverging-or-dialectical-thinking–apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation up to the

As of its inherent organic knowledge, such a hermeneutic/reprojective psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness\(^{13}\) consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology\(^9\) projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity'-<shallow-supererogation\(^{19}\)-of-mentally-aestheticised—preconverging/dementing\(^{19}\)—qualia-schema>; and so, as its essential meaningfulness-and-teleology\(^9\) is as of a solipsistic transversality-of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing\(^{11}\) reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^{19}\)<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity, on the same token that a natural scientist is in a transversality-of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing\(^{11}\) reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s\(^2\) on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s\(^2\) but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-

‘prospective-aporeticism-overcoming/unovercoming’ as of ontological-primemovers-
totalitative-framework. But then the human reality across all registry-worldviews/dimensions,
Isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its
uninstitutionalised-threshold and the corresponding superseding of this as of prospective
institutionalisation; as even the disposition to assume an intellectually enlightening mental-
disposition is existentially-invested and not necessarily a given. We can appreciate from our
positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but
then paradoxically from the beginning of times superstitious beliefs had pervaded all the
echelons of human societies whether as of true belief or opportunistically, and have only been
increasingly undermined with the advent of positivistic reasoning at the beginning of modern
times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed
reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’
of human ‘<amplitude-formative—epistemicity>totalising/circumscribing/delineating
meaningfulness-and-teleology/ reference-of-thought— devolving. Thus any given registry-
worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-
dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-
results/afterthought and very weakly constrained to represent itself as of its preconverging-or-
dementing—apriorising-psychologism uninstitutionalised-threshold which it tends to
represent as nondescript/ignorable—void (actually speaking of akrasiatic-drag-denatured-and-
preconverging-or-dementing—narratives), for the possibility of its prospective transcendence-
and-sublimity/sublimation/supererogatory—de-mentativity into prospective institutionalisation.
This reality is known as human ‘supererogatory—de-mentative constraint’ to prospective
institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as
of the possibility of prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought. Human supererogatory–de-mentative constraint is fundamentally associated with poor universal-transparency\textsuperscript{87} that is totalising–entailing–as-to-entailing–<amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness\textsuperscript{87} with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\textsuperscript{87}. This then fails to induce the necessary existential assurance for prospective transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative>\textsuperscript{3} wooden-language-\textsuperscript{86} (imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}) as of the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99} that stifle the transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought is actually ontologically transformative as of aetiologyisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{88}, for resolving a given registry-worldview/dimension vices-and-impediments\textsuperscript{105}; this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), rather than a second-guessing mented or

relative-ontological-completeness—by-reification/contemplative-distension is the human
temporal inclination to decontortion construed as a disposition to undermine ‘intemporal

universal meaningfulness-and-teleology’, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human

of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation/epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated—temporal-intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure—<as-to—historiality/ontological-eventfulness—ontological-aesthetic-tracing>, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency—{(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}). Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to
decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness -as-epistemic-totality -dereification -in-dissingularisation -as-flawed-epistemic-determinism as of dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance -<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness -as-epistemic-totality -dereification -in-dissingularisation -as-flawed-epistemic-determinism implied as of dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation /epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness -as-epistemic-totality -dereification -in-dissingularisation -as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation -<as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’ as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care-and–episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed ‘meaningfulness-and-teleology’. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness.
(sublimating-referencing/registering/decisioning—as-self-becoming/self-conflatedness /formative-supererogating<-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>) with respect to temporal-to-intemporal ontological-performance—which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogation—de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness—as-‘epistemic-totality’-dereification—in-dissingularisation—as-flawed-epistemic-determinism ^\textsuperscript{3} for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflatedness-as-to-totalitative-reification—in-singularisation-as-veridical-epistemic-determinism ^\textsuperscript{4} for-explicating-ontological-contiguity posture that is as of ecstatic-totalising-entailing/nested-congruence as with the latter. Such a conclusion can be
extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness\(^1\) nature outside existential-contextualising-contiguity\(^2\) whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative\(^7\)\) ontological-performance\(^7\) -\(\textit{<including-virtue-as-ontology>}\)’ as of its reifying conflatedness\(^12\) connotative nature reflecting the ontological-veracity/ontological-performance \(\textit{<including-virtue-as-ontology>}\) of human-subpotency epistemic/notional-projective-perspective\(^5\) meaningfulness-and-teleology\(^6\) articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment\(^7\) as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction exposing it to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\(\textit{<amplituding/formative-epistemicity>}\) totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\(^12\) epistemic/notional-projective-perspective of ontological-prime movers-totalitative-framework\(^12\) as of prospective relative-ontological-completeness\(^17\) \(\textit{<amplituding/formative-epistemicity>}\) causality–as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity \(\textit{<amplituding/formative-epistemicity>}\), and so-construed as of difference-conflatedness\(^1\) -as-to-totalitative-reification\(^9\)-in-singularisation\(^1\)-as-veridical-epistemic-determinism\(^21\) \(\textit{<amplituding/formative-epistemicity>}\) causality–as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity \(\textit{<amplituding/formative-epistemicity>}\); thus further articulating meaningfulness-and-teleology\(^9\) as from prior relative-ontological-incompleteness\(^9\) to prospective relative-ontological-completeness\(^7\), and so from the epistemic/notional perspective of existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\(\textit{<amplituding/formative-epistemicity>}\) totalising–renewing-realisation/re-perception/re-

This totalising-entailing insight is reflected in the Derridean deconstruction orientation with its obvious narratology implications pertinence to literary studies as of its conflatedness\textsuperscript{12} with existential-contextualising-contiguity\textsuperscript{38} in contrast to such a notion like language games when construed rather in constitutedness\textsuperscript{31}. This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment\textsuperscript{2} as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring–<as-to–
postconverging-or-dialectical-thinking\textsuperscript{10}–apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical \textsuperscript{4} meaningfulness-and-teleology\textsuperscript{9} that exists is about existential-contextualising-contiguity\textsuperscript{8} knowledge-reification\textsuperscript{5} as of ontological-prime-movers-totalitative-framework\textsuperscript{42} of supposedly coherent ontological-commitment\textsuperscript{45} implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, ‘speech activity’ discourse speaks of an supposedly coherent ontological-commitment\textsuperscript{45} as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{40} dementativity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of this articulated ontological-as-existential-commitment having to do with such social contextualisation’. Likewise the underlying notion of ontological-performance \textsuperscript{1}-<including-virtue-as-ontology> as herein articulated by this author is as difference-conflatedness\textsuperscript{12} as-to-totalitative-reification\textsuperscript{9} in-singularisation\textsuperscript{1}-as-veridical-epistemic-determinism\textsuperscript{21}<amplituding-formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{46} as from existence-potency–sublimating–nascence,-disclosed–from-prospective-epistemic-digression-as-of<amplituding-formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness as-to-

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications, for-explicating-ontological-contiguity\(^8\). This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment\(^1\) about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendency of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity\(^8\) knowledge-reification\(^6\) as of ontological-primemovers-totalitative-framework\(^7\)

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications, for-explicating-ontological-contiguity\(^8\), and goes on to naively deploy outside existential-contextualising-contiguity\(^8\) knowledge-reification such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness\(^1\) as ends in themselves, rather than construing logic as of the ‘inner working
coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment\textsuperscript{75} for knowledge elucidating/reifying which validation and falsifiability\textsuperscript{70} is rather a matter of ontological-primemovers-totalitative-framework\textsuperscript{92}. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability\textsuperscript{75} is ever always a matter of ontological-primemovers-totalitative-framework\textsuperscript{92}.

With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning, it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-prime-movers-totalitative-framework causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is
falsifiable by ontological-prime movers-totalitative-framework\(^{1}\) \(<\text{amplituding/}	ext{formative-epistemicity}>\text{causality~as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity}\(^{1}\). Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment\(^{1}\) as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity\(^1\) knowledge-reification\(^\text{1}\) constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability\(^\text{1}\) with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment\(^{1}\) ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its \(<\text{amplituding/}	ext{formative-epistemicity}>\text{totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag }\rangle\) presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then
human experience-and-interpretation of that ecstatic manifestation of existence’ that provides
the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-
construct’ insight about supposedly coherent ontological-commitment articulated as
‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not
mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead
reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of
explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-
complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct
construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions
like experimentation, testing, trials, case studies, observational studies, interview, data analysis,
content analysis, statistics and basically overall research orientations and research methods as
of their formal study implications are just focussed-and-contrasted extensions, with regards to
the general and normal day to day experience about living itself for the inspired construing of
‘the ecstatic manifestation of existence and then human experience-and-interpretation of that
ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-
commitment in producing knowledge as ‘meaningfulness-and-teleology’, such that critically,
appropriate philosophical phenomenal insight with regards to ‘the general and normal day to
day experience about living itself’ as of observational and articulated ontological-pertinence
sufficiency, and as supplemented with the grasp and engagement with other philosophical
works, speaks of veridical scientific insight and validity subject to ontological-primemovers-
totalitative-framework, and so because such well-inspired experience-and-interpretation from
‘general and normal day to day experience about living itself’ in the philosophical domain-of-
study is generally more ontologically profound and comprehensive as of conflatedness than
any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of <amplituding/formative–epistemicity>totalising–devolved-purviews-of-existence-so-construed-as-subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity /ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility/-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> as of supervening-conflatedness. Knowledge as meaningfulness-and-teleology, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework. Inherently, because human-subpotency supposedly coherent ontological-commitment is very much intimately linked with the ontological-performance
<including-virtue-as-ontology> of human as of prospective relative-ontological-completeness appraisal, it is always ever the case that as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^7\) the validation of knowledge as meaningfulness-and-teleology\(^9\) as of supposedly coherent ontological-commitment\(^5\) is equally as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality constructs; which construal is necessarily as of conflatedness with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–’human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality and relative-ontological-completeness\(^7\) as of human limited-mentation-capacity-deepening\(^2\), thus invalidating the epistemic-veracity of constitutedness\(^1\) of knowledge. The implication here is that the epistemic-veracity of knowledge as meaningfulness-and-teleology\(^9\) is rather as of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating construal as of existence’ with <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality rather ‘narrowing-construals of their specifically-implied human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^7\)-<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>, and hence of nested-congruence with existence’. This further points out that the traditional explicited constitutedness\(^1\) conception of the notion of cause-and-effect so-implied herein as ontological-primemovers-totalitative-framework\(^7\) is actually epistemically-impertinent and flawed; as this
enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/\text{formative}-\text{epistemicity}}\)\text{totalising~renewing-realisation/re-perception/re-thought},\text-in-supererogatory~\text{epistemic-conflatedness}\), this unexplicit implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of conflatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/\text{formative}-\text{epistemicity}}\)\text{totalising~renewing-realisation/re-perception/re-thought},\text-in-supererogatory~\text{epistemic-conflatedness}\). In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when
validation/desublimating-invalidation implications, beyond their conventioning-referencing existentialising—enframing/imprintedness<-as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>. Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating ‘<amplituding/formative–epistemicity> reference-of-thought-devolving foregrounding—entailment-(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’ ),–as-operative-notional–deprocrypticism’ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional–deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism ‘contingent-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding—entailment-(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’ ),–as-operative-notional–deprocrypticism of the given natural science domain-of-study’ with specialism more of a furtherance of such a foregrounding—entailment-(postconverging–

‘cogent-unifying-operant-dynamics’ such that these turn out to be poorly operant or non-operant with the conceptual-patterning gesturing of mere-referring-confused-with-explicating, mere-mentioning-confused-with-deriving and mere-conceptual-synonymising-confused-for-knowledge-reification, such that the underlying ‘cogent-unifying-operant-dynamics’ of the supposed knowledge-reification is hardly operantly existent or is operantly non-existent. Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the social should reflect such blurriness-as-of-disparateness rather than the ultimate objectifying for-explicating-ontological-contiguity together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment-{postconverging–narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},—as-operative-notional—deprocrypticism, and so by conjugating ‘relative-ontological-completeness’ <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment-{postconverging–narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’},—as-operative-notional—deprocrypticism, in order to elucidate the blurriness. central to all biological processes), with the false implication of construing that disparities-of-conceptualisation (unforegrounding-disentailment, failing-to-reflect-`immanent-ontological-contiguity`) is inherently convenient as of a mental-reflex oriented towards ordinary `<amplituding/formative>` wooden-language (imbued—averaging-of-thought `<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology>` `as-of—`nondescript/ignorable—void`-with-regards-to-prospective-apriorising-implications>) human-subpotency ways-of- looking-at-things rather than adopting-the-intellectual-hat for reifying the former in a mental-reflex oriented towards existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of- `<amplituding/formative—epistemicity>` totalising—renewing—realisation/re-perception/re-thought—in—supererogatory—epistemic-conflicatedness `<amplituding/formative—epistemicity>` causality `<as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity>` ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their `cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the `cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a `cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity `conflicatedness` that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in
many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold\[2]/presublimating–desublimating-decisionality)–of-ontological-performance\[1]-\<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendent-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\[7] and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\[8] as of the \<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of existential-contextualising-contiguity\[6] conflatedness\[12]. It is thus not surprising that naive disparateness-of-conceptualisation-\<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’\> leads to subject-matters and studies whose supposed knowledge-reification\[6] tend to be most heavily dependent on ‘peering to a fault’ of the contingent-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment\[5] as validatable and falsifiable by ontological-primemovers-totalitative-framework\[7] as to existence-potency–sublimating–nascent,-disclosed-from-prospective-epistemic-digression-as-of-\<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-superreroagatory–epistemic-conflededness as it is critically the case in the good practices of the

Such a recurrent ontologically-flawed predisposition is tantamount to say construing Newtonian physics in the absolute terms—as-of-axiomatic-construct of its concepts and conceptualisations of say space, time, force, etc. to then project this predisposition by mere referring, mentioning and synonymisation of these Newtonian physics concepts and conceptualisations as if of Einsteinian physics in the hope that this will enable the elucidation, derivation and knowledge-reification of Einsteinian physics, whereas the latter implies an utterly different reification process/gesturing for its specific physics elucidation, derivation and knowledge-reification as of its <amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications,-for-explicating-ontological-
relativistic’ since the latter do not assume a \( \text{presencing—absolutising-identitive-constitutedness} \) with concepts like truth, space, time, force, etc. and the latter rather perceive these as ontologically-flawed elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{13}\) as from the relative-ontological-completeness perspective which emphasises construing existential-reality as it manifests itself as of existential-contextualising-contiguity\(^{13}\) in conflatedness\(^{12}\); and likewise, the fact that existential-contextualising-contiguity\(^{13}\) in conflatedness\(^{12}\) ‘epistemically implies human limited-mentation-capacity-deepening\(^{12}\) for construing ontological-veracity’, thus ‘putting-in-question/deflating by difference-conflatedness\(^{12}\)-as-to-totalitative-reification-as-in-singularisation-as-veridical-epistemic-determinism’\(^{1}\) all \( \text{presencing—absolutising-identitive-constitutedness} \) traditional conceptions beyond their simplistic conceptual-patterning to reflect underlying ecstatic-existence, will tend to be construed from the relative-ontological-incompleteness perspective in \( \text{presencing—absolutising-identitive-constitutedness} \) as nominalistic rather than as of ‘\( \text{foregrounding—entailment—}\{\text{postconverging—narrowing-down—sublimation as to existence—}\) as-sublimating-withdrawal—eliciting-of-prospective-supererogation\(^{96}\) in reflecting ‘immanent-ontological-contiguity\(^{66}\}\), as-operative-notional—deprocrypticism supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ as from the relative-ontological-completeness\(^{87}\) perspective. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification of
Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. In both cases, the causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness – (sublimating–referencing/registering/decisioning,–as-self-becoming/self-confidedness/relative-ontological-incompleteness/relative-ontological-completeness) implied displacement/decentering-of-the-human-subject points to different sense-of-conscious-representation-of–meaningfulness-and-teleology between the relative-ontological-incompleteness and relative-ontological-completeness such that the former is rather in pseudo-edginess/pseudo-incisiveness implying the need for its unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–as-to-preconverging-or-dementing–apriorising-psychologism and cannot simply be projected as the latter which is what is rather truly and effectively of supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implying the need for its true and effective affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring–as-to-postconverging-or-dialectical-thinking–apriorising-psychologism. A further naivety is the appreciation of postmodern knowledge-reification process/gesturing arises as of a general misunderstanding of what is generally implied with regards to any given knowledge-reification process/gesturing. as of a hermeneutic/reprojective circle for relative-ontological-completeness\textsuperscript{17}’ that involves
human limited-mentation-capacity-deepening\textsuperscript{14}. This hermeneutic/reprojective circle
knowledge-reification\textsuperscript{16} process/gesturing is furthermore reflected in both human scholarly-and-
pedagogic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojective insight as of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic/reprojective circle level of postmodern knowledge-reification’ no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic/reprojective circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojective circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal wooden-language-⟨imbuéd—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology⟩as-of—’nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications⟩ level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a wooden-language-⟨imbuéd—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology⟩as-of—’nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications⟩ predisposition to incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojective circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation are meant to transmit a
‘<amplituding/formative–epistemicity>totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘<amplituding/formative–epistemicity>totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojective circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojective circle of knowledge-reification in its maximalising-recomposing for relative-ontological-completeness — unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications> level of knowledge conception, and implicated in its knowledge-reification—gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojective circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojective circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojective circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and thereof
derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparate-ness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> but rather implying a furtherance of the overall hermeneutic/reprojective exercise involved in the advancement of all human knowledge as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic/reprojective circle involving: the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst’s/philosopher’s baseline re-originary–
as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectal-thinking -‘projective-insights’/’epistemic-projection-in-conflatedness’-of-
notional–deprocrypticism-prospective-sublimation)- up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification ; and then the analyst’s/philosopher’s reflection on the shortfall in the ontological-performance -<including-virtue-as-ontology> of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-or-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity ’),–as-operative-notional–deprocrypticism with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity , is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification
process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-
reification\textsuperscript{86} methodological difficulties arising in many social domains-of-study ‘assuming a
disparateness-of-conceptualisation-\textless unforegrounding-disentailment,-failing-to-reflect-
‘immanent-ontological-contiguity\textgreater ’ epistemic-disposition that is in many ways poorly
constrained to existential-reality’ with the result of their relative knowledge-reification
passivity with regards to many a social issue ‘but for adventures into social commentary
divorced from genuine operant knowledge-reification implications’; and in this regards could
it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its
parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right
mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{87} and thereof the knowledge for
that given right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{87} as of projected
existential-contextualising-contiguity in conflatedness\textsuperscript{2}, an issue that has always been a
difficult knot throughout the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-
process\textsuperscript{67} but which inevitably has to be dealt with for the possibility of prospective human
registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a
postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that
poorly appreciates the \textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-
totalitative–implications,-for-explicating-ontological-contiguity involved in knowledge-
reification\textsuperscript{8}, and is reflected in a lack of parrhesiastic and hermeneutic/reprojective insight that
‘poorly grasp the philosophical analysis implications of the existential background/development
of becoming-as- historiality/ontological-eventfulness/ontological-aesthetic-tracing, as if
philosophy only started as of our present positivist era with a naivety that seems to imply that
all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern
positivist \textless amplituding/formative\textgreater wooden-language{imbued—averaging-of-thought-\textless as-to-

‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in conflatedness; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojective insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness—as-‘epistemic-totality’-dereification—in-dissingularisation—as-flawed-epistemic-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojective conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojective analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of
a critical exercise of *amplituding*-formative–epistemicy-totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojective and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental-instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the
comprehensive process of our modern democracy’ such that modern day crises of democratic
governance with regards to bad governance, institutional crisis, economic crisis or undesirable
wars are rather generally construed as arising from ‘failure or sophistry of expertise and
expertising-institutions’ in need of better expertising, and furthermore major political calamities
of the 20th century leading to totalitarian governments and their instigation of genocides arose
exactly due to misinformed populist democracy. Paradoxically, this insight validates the point
advanced herein that human meaningfulness-and-teleology is critically more than just its
mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness—equalisation that then feeds into prospective originariness-parrhesia,—as—
spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s
specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-
reification’—gesturing and organic implications’, just as we cannot simplistically interpret the
importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire
and aether on a naïve presencing—absolutising-identitive-constitutedness basis from the
vantage perspective of our modern positivism (as being at the receiving backend of the
institutional-cumulation/institutional-recomposure,<as-to- historiality/ontological-
eventfulness>/ontological-aesthetic-tracing> in reflecting holographically,<conjugatively-and-
transfusively> the ontological-contiguity—and-of-the-human-institutionalisation-process ) but
rather the more critical insight lies with its novel and transformative universalising-
classificatory knowledge-reification—gesturing as opening up the possibility for prospective
human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemically-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojective development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojective insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojective insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’.
The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as of a <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>} is not de-mentated/structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect—immanent-ontological-contiguity'> epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency~sublimating–nascence? Insightfully, this fundamentally has to do with the contrastive implications in construing ontological-
contextualising-contiguity\textsuperscript{8}, conflatedness\textsuperscript{1}, ‘the blurriness\textsuperscript{7} and remoteness of falsifiability\textsuperscript{9} and validation as of \textsuperscript{3} causality~as-to-projective-totalitative~implications,\textsuperscript{13} for-explicating-ontological-contiguity\textsuperscript{14} of conceptualisations’ in many a social domain-of-study relatively undermines ‘good-practice/epistemic-veracity selectiveness towards cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity\textsuperscript{18} conflatedness\textsuperscript{12}, as the latter is inclined to an institutional-disposition that construes of the unification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ \textsuperscript{66}> substitutively as merely ‘human-subpotency institutional-practice driven unification as of vague contrasting-and-comparison’ rather than as of ‘existence-potency~sublimating~nascence,- disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12} driven前置—entailment—(postconverging~narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{95} in reflecting ‘immanent-ontological-contiguity’ \textsuperscript{66} ),–as-operative-notional–deprocrypticism’. This equally explains this author emphasis that ontological-veridicality cannot be construed as the mutual-agreement as of human-subpotency but rather as of the constraining sublimating-over-desublimating implications of existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{2} on human-subpotency. spontaneity-of-aestheticisation re-stakes/puts-back-at-stake the reconstruing of existential-
reality despite the taxingness-of-originariness. This human aestheticisation process involves
inversely-varying-emphasis of originariness-parrhesia,–as–spontaneity-of-aestheticisation and
reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation
(so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to
‘existentially developing/becoming-as-of-social-integration-and-evolving relevant
"meaningfulness-and-teleology")", reflecting the ‘more and more profound enlarging-
framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’. For instance with regards to living-development–as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of meaningfulness-and-teleology (“high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving” as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’) in existential-contextualising-contiguity conflatedness involving ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-
as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojective reactualising as \(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought}\) long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojective reactualising as \(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought}\) that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, and that acquisition of a specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-
informing about ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—

as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-

important thus to grasp that ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ is rather established institutionally as
of the collective social human ‘complex sense of “meaningfulness-and-teleology”

phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-

this collective social human ‘complex sense of “meaningfulness-and-teleology”

This basically explains the constantly developing nature of human ‘institutional-development–as-to-social-function-development meaninglessness-and-teleology\textsuperscript{99} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{11} conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply \textsuperscript{7} presencing—absolutising-identitive-constitutedness -of- meaninglessness-and-teleology\textsuperscript{99} (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it is ‘human <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{17} orientation’ implied as of ‘maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation that fundamentally renders/makes human institutional-development–as-to-social-function-development meaninglessness-and-teleology\textsuperscript{99} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions’ to be necessarily as of existential-contextualising-contiguity\textsuperscript{18} in conflatedness\textsuperscript{2} and not in constitutedness\textsuperscript{3} as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{18}. This will explain for instance why as of the furtherance in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development—as-to-social-function-development’ ‘meaningfulness-and-teleology’ aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human ‘meaningfulness-and-teleology’ aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and-

The fact is that the possibility for prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory--de-mentativity is ever always underdetermined, as between prior reasoning-from-results/afterthought and prospective reasoning-through/messianic-reasoning is the ‘aporia of underdetermined madness’ that human

The manifest reality of human ontologisation/ontological-veracity/aestheticisation-towards-ontology is thus one that is ever sub-ontological—as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s—sublimating—nascence> as of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Thus ‘the possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is ever always a renewed parrhesiastic—de-mentating/structuring/paradigming’ that

This explains why the universalising–idealisation of Socratic philosophers, budding-positivists thought and herein as well suprastructuralism/postmodern-thought are all characterised in their knowledge-reification not by an articulation along the prior established reproducibility—mathesis/motif/thrownness-disposition,–as–reproductibility-of-aestheticisation but rather prospective existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness constraining parrhesiastic aestheticisation of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproductibility-of-aestheticisation, that in all three cases looks down upon the notion of human-subpotency sophistic/pedantic pretence of foregrounding—entailment–⟨postconverging–narrowing-down–sublimation as to existence—for sublimating-withdrawal,–eliciting-of-prospective-supererogation⟩ in reflecting ‘immanent-ontological-contiguity ’,–as-operative-notional–deprocrypticism that is no more than complexification of disparateness-of-conceptualisation–⟨unforegrounding–dissentailment,–failing-to-reflect–‘immanent-ontological-contiguity’⟩. furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author
laments a covert practice of an intellection that has been critical of postmodern-thought but in

Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of ancient sophists or medieval-scholastic pedants, as of naïve shallowminded incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation as of a poor sense of intemporality'/longness beyond earthly materialism. projective-totalitative-implications,-for-explicating-ontological-contiguity\(^6\) of human underlying relative-ontological-incompleteness\(^5\)/relative-ontological-completeness\(^1\) - (sublimating-referencing/registering/decisioning,-as-self-becoming/self-conflatedness\(^1\)/formative-supererogating-<projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>\) with respect to temporal-to-intemporal ontological-performance\(^7\)-<including-virtue-as-ontology> as from past to present to future with regards to existential-contextualising-contiguity\(^8\) knowledge-reification\(^9\). Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness as-'epistemic-totality'-dereification\(^8\)-in-dissingularisation as-flawed-epistemic-determinism\(^1\) that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity\(^8\) and then reifies-out conceptualisations as of difference-conflatedness -as-to-totalitative-reification-as-in-singularisation-as-veridical-epistemic-determinism\(^9\). The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification\(^6\)/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications>) that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural
reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology/knowledge as of existential-contextualising-contiguity knowledge-reification’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness-as-amplituding-formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-mental-dispositions-as-if-all-the-world-that-has-ever-existed-is-as-of-presencing-absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on amplituding/formative-wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications) populist interpretations rather than elevating human ontological construal of the social domain-of-study!

It is herein contended that existence—as-the-absolute-a-priori-of-
conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation”<as-to-perspective-ontological-normalcy/postconvergence-implied—
‘prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—and—episteme as of ontologically-veridical difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism for existential-contextualising-contiguity knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existential-contextualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existential-contextualising-contiguity—and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation'/epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity knowledge-reification by the implicated immediate-constraining ontological-primemovers-totalitative-framework transcendence-and-sublimity/sublimation/supererogatory—de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of
existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification knowledge-reification

with ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance —<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness ’ rather reflected as of ontologically-veridical difference-conflatedness—<as-to-totalitative-reification—in-singularisation>—as-veridical-epistemic-determinism which implied singularisation /epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity/sublimation/supererogatory—damentativity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise’ as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification’, inducing successive differences of ontological-performance —<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness ’ is very much obvious from the accounts of ‘successive partial contributions-and-failures’ that lead to major breakthroughs in
dereification-as-flawed-epistemic-determinism implied
dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor conflatedness’ of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in
existence’ as this can only lead to flawed conceptualisations, and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation and epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This failure in fully appreciating the import of ontologically-veridical difference-conflicatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-
relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{86}, inducing successive differences of ontological-performance\textsuperscript{71}\textsuperscript{<including-virtue-as-ontology>} of meaningfulness-and-teleology\textsuperscript{99} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness\textsuperscript{87}’ as of implied singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism has fundamental \textsuperscript{<amplituding/formative–epistemicity>}causality~as-to-projective-totalitative–implications, -for-explicating-ontological-contiguity\textsuperscript{66}, as transcendence-and-sublimity/sublimation/supererogatory~de-mentativity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity\textsuperscript{38}. Consider in this regard that the repeated \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification\textsuperscript{86} of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification\textsuperscript{86} insight often goes missing with many a subscriber to the formalisation credo, as of reification\textsuperscript{86} along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{85} perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the
‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity&knowledge-reification causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising~purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification’, inducing successive differences of ontological-performance -<including-virtue-as-ontology> of meaningfullness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation
and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks
of an assurance of ontological depth, in both instances as of their existential-contextualising-
contiguity\textsuperscript{18} knowledge-reification\textsuperscript{19}. Ultimately, and it is this author’s contention, the various
scholarly contributions to postmodern-thought can be understood as rather pointing to the de-
mentative/structural/paradigmatic disseminative implications of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–‘meaningfulness-and-teleology’ as of prospective \textsuperscript{20} depocrypticism–or–

conflatedness -as-to-totalitative-reification’-in-singularisation -as-veridical-epistemic-
determinism\textsuperscript{22}. We can equally appreciate that much of the disseminative rational-
empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and
specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative
metaphoricty\textsuperscript{23} orientation making the human subject thinking as of mathesis \textsuperscript{24} universals

adopted to resolve various human knowledge issues by subsequent thinkers in successive
generations as of human ontological-faith-notion-or-ontological-fideism—imbued-
derunderdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-

enabling/sublimating/supererogatory–de-mentativity to ‘continually select’ rational-
empiricism/positivism disseminative orientations for transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity, leading to our present refined
positivism/rational-empiricism conception! But then because our present ‘positivism–
procrypticism human subject is rather undecentered’ relative to the prospective postmodern—
notional-deprocrypticism self-conscious mindset we fail to truly appreciate the de-
mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the
prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-
framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to ‘continually select’ postmodern—
notional-deprocrypticism disseminative orientations for transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity, in the same vain that the ‘non-
positivism/medievalism undecentered human subject’ failed to truly appreciate the de-
mentative/structural/paradigmatic disseminative implications of prospective
positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning
predispositions and orientations arise because of poor appreciation/reference for judging
knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein
the constraining metrics of institutional setups including strangely enough also many such
tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals,
‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-
conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic
inclinations operate on the naivety that institutional processes are inherently reifying by their
mere infrastructure and deferential-formalisation-transference, and set up enframed constraints
that are in many ways self-defeating for the purpose of profound existential-contextualising-
contiguity knowledge-reification for transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity. But then with regards to the social
notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly
existential-contextualising-contiguity knowledge-reification here implies human
displacement/decentering even though our temporal/shortness-of-register-of meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite existential-contextualising-contiguity knowledge-reification causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a ‘conflatedness totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-crowding of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human totalising-purview-of-construal; with such construal in reality rather very much as of singularisation /epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought conflatedness totalising-entailing/nested-congruence suprastructuralism conception herein is
rather articulated as of singularisation /epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Unlike the constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of
singularisation/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity knowledge-reification’ of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—’prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity. The naivety of implied constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative—epistemicity>totalising~purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly de-mentated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence conflatedness with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence

Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of–reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of–reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the

If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstititious apriorising/ axiomatising/referencing/ intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness¹² with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional–deprocripticism immanence-function-conflatedness¹² as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of- reference-of-thought apriorising/ axiomatising/referencing/ intelligibilitysetup/measuringinstrument mindset of our positivism–procripticism mental-disposition with no pretence of such a positivism–procripticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of- reference-of-thought inclination. In other words, immanence-function-conflatedness¹² is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework¹² as of singularisation/epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness⁸⁸ meaningfulness-and-teleology⁹⁹ as if of prospective relative-ontological-completeness¹¹ apriorising/ axiomatising/referencing/ intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness¹¹ equally highlights knowledge as of its essential organic construct implications. As a constitutedness¹¹ predisposition tends to imagine that knowledge is basically
a cumulative exercise to an already soundly de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supercriticality–de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for
determinism causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity implied organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness reference-of-thought for objectifying/contending discursivity nothing more but flawed totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists
thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{13} in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{13}. This insight equally informs this author’s supplanting-conviction-as-to-profoud-supererogation—postconverging/dialectical-thinking\textsuperscript{13}—apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{13}, as well as existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{13} as of the disposition for advancing the metalevel transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{13} foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{16} in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework\textsuperscript{72} unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability -or-deferred-falsifiability\textsuperscript{40} and validation-or-deferred-validation as of existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{13} as implied by the articulation of ontological-good-faith/authenticity\textsuperscript{65} herein as of
reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme’s ‘implicitation of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity, knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity, knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language-(imbed—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) socially intelligible meaningfulness-and-teleology conceptualisation in totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality solipsistic intemporality /longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge
cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic dem-entating/structuring/paradigmng as of their ultimate existential-contextualising-contiguity as knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity as knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation /epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-function-confatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity as knowledge-reification’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity knowledge-reification are nothing more but amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-
withdrawal, eliciting of prospective supererogation, and institutionalised, such as to perspective ontological normalcy/postconvergence-implied ‘prospective-aporeticism-overcoming/unovercoming’, and predispositions may actually be dementatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources.

Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality.–as-to-‘human–amplituding/formative–epistemicity>totalising–purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness/relative-ontological-completeness.
(sublimating-referencing/registering/decisioning—as-self-becoming/self-conflatedness/formative-supererogating—projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality-of-affirmative-and-unaffirmative–disambiguated—motif-and-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-
totalitative-framework” between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness<amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, and so as of the de-mentative/structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective relative-ontological-completeness is inherently bound with its very own epistemic<amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In this
regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality

instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness -as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity ’ is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness <amplituding/formative–epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains
practically tend to get into amalgamation with the extended-informality as of its deficient "amplituding/formative" wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology>" as-of-"nondescript/ignorable—void "—with-regards-to-prospective-apriorising-implications>}

epipemic impertinence. Prospective notional–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness as-of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework-"amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity knowledge-
for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutualiy/equilibrium rather than a transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-
veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation —<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>.

Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the notional—deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>). With the <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity that the deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the notional—deprocrypticism reference-of-thought warrants a more originary/as-of-event

Consider the akrasia-susceptibility-or-akrasiatic-drag complex \textsuperscript{15}<amplituning/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ from a prospective positivism/rational-empiricism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards, with respect to ‘God of plane’ type of expression in an animistic/base-institutionalisation setup wherein their fundamental
transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing> with successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative causality~as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of de-mentation-(supererogatory—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its amplituding/formative—epistemicity-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical ‘meaningfulness-and-teleology’ implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus
intemporal ontological-performance \(<\text{including-virtue-as-ontology}>\) ever always warrants human prospective relative-ontological-completeness \(-\text{of- reference-of-thought for empowering and responsible meaningfulness-and-teleology}^{33}\) for transcendence-and-sublimity/sublimation/supernatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\(^8\) as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments\(^9\), and as the very possibility for prospective ontological-performance \(<\text{including-virtue-as-ontology}>\) arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\(^7\)\(<\text{including-virtue-as-ontology}>\) equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^3\) the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supernatory-de-mentativity could only arise as of prospective reasoning-through/sublimating-messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a

In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance—<including-virtue-as-ontology> as of human <amplituding/formative—epistemicity> totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism

perspective. In this regard, traditional psychology fails a theoretical-conceptual-operant
singularisation-as-veridical-epistemic-determinism-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity). This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness (with anamnesis so-construed as ‘dimensionality-of-sublimating’–amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition’) and not any presencing—absolutising-identitive-constitutedness as reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond
just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing—psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating–decisionality)—of-ontological-performance—including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflictedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirt-drivenness—equalisation insight for further human limited-mentation-capacity-deepening (as to ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-
of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework. <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications, for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating — <amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and phronesis existential-contextualising-contiguity in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—<as-to-existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression-as—of—<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness—as—to—the-ontological-normalcy/postconvergence-projective-perspective,—to—which—latter—human—subpotency-projectively-conflates—to—in-order—to—overcome—our—prospective—epistemic-abnormalcy/preconvergence as so reflected with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good—
naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—<as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic-conflicatedness—as—to—the—ontological—normalcy/postconvergence-projective-perspective,—to—which—latter—human—subpotency-projectively—conflates—to—in—order—to—overcome—our—prospective—epistemic—abnormalcy/preconvergence>, and that such a possibility lies in perpetual knowledge—reification disposition as of the—Good/understanding/knowledge—reification/ontological—primemovers—totalitative—framework. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising—idealisation but it can equally be said that it anticipates prospective positivism/rational—empiricism phronesis existential-contextualising—contiguity as it reconceptualises science, practical—virtue, rationality, etc. in superseding universalising—idealisation phronesis existential-contextualising—contiguity at the latter’s destructuring—threshold—(uninstitutionalised—threshold/presublimating—desublimating—decisionality)—of—ontological—performance—<including—virtue—as—ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference—conflicatedness—as—to—totalitative—reification—in—singularisation—as—veridical—epistemic—determinism—<amplituding/formative—epistemicity>causality—as—to—projective—totalitative—implications,—for—explicating—ontological—contiguity of phronesis existential-contextualising—contiguity. In concrete terms, we can contrastively construe of such akrasia—susceptibility—or—akrasia—drag complex '<amplituding/formative—epistemicity>totalising/circumscribing/delineating...

Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reasoning metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from a 'presenting—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective 'meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>–totalising–renewing–realisation/re-perception/re-thought–in-supererogatory–epistemic-conflatedness reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the
latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification\(^5\). In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity\(^6\) anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^9\). Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such
inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up
to free intellectuals to affirm themselves as to what they think society and human intellectual
potential can be, beyond the institutional constraints geared to such naïve conventioning-
referencing which seem to imply that as of its anti-knowledge posture it will determine the
limits of what can be human knowledge. Human history has systematically shown that despite

existentialism-form-factor there is an effective mechanism of human registry-

more critical problem for human emancipation arises as of the contending sophistries that
confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way
or the other, and that’s why at all stages of human history, the reasoning-through/messianic-
reasoning disposition has more critically focussed rather on calling out the prospective
institutionalisation perturbation of such sophistries; especially when these show no qualm in

this author is very much proud of the theoretical orientation taking herein as of a strictly

ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>- only human intemporal ontological-performance -<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance -<including-virtue-as-ontology> of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance -<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the
effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\textsuperscript{-<including-virtue-as-ontology>} in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling doesn’t substitute for the \textsuperscript{<amplituding/formative–epistemicity>}totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating \textsuperscript{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about seconndnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or \textsuperscript{<amplituding/formative>wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications>)} framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity idealisation, in the way that human idealisation is often wrongly construed and propounded. of metaphoricity herein as of ontology-driven ‘ontologically-hegemonising-narrative’
tonological-performance ‘<including-virtue-as-ontology>’, more than just a notion of mere

when misrepresenting the ontologically-veridical observations/remarks/‘constatations’ as of
ecstatic-totalising-entailing/nested-congruence of postmodern thinkers. Rather as construed
herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposing-

notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are
wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-
contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior de-mconcatuating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignoreable–void—with-regards-to-prospective-apriorising-implications>) human mindset processing’, but critically was an epistemic-ricocheting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignoreable–void—with-regards-to-prospective-apriorising-implications>) comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our totalising–thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of
our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> nonpresencing <perspective–ontological-normalcy/postconvergence> ricochetting that speaks of the dementative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <amplituding/formative> wooden-language {imbued—averaging-of-thought <as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality-of-affirmative-and-unaffirmative–disambiguated—‘motif-and-apriorising/axiomatising/referencing intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or <amplituding/formative> wooden-language {imbued—averaging-of-thought <as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation
involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation. Just as we can appreciate that in ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness′-of-axiomatic-construct-or- reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its dementative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as
knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/epistemic-projection-in-conflatedness 'of-notional–deprocrypticism-prospective-sublimation) thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework beyond-the-consciousness-awareness-teleology ≡<in-existential-extrication-as-of-existential-unthought>, as the supposedly coherent ontological-commitment of ‘self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so because in the long run transversality-of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing of temporal-to-intemporal–ontological-performance<-<including-virtue-as-ontology>-of-narratives is rather as of ontological-

grasp that a social-setup value construct lies somewhere between the possibility of its
conventioning-referencing and its presencing—absolutising-identitive-constitutedness

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{1}, when it comes to assessing
the possibility of prospective \textsuperscript{2}meaningfulness-and-teleology\textsuperscript{1} inducing of metaphoricity\textsuperscript{1}. It is
not necessarily the case that a society that doesn’t or poorly appreciate the implication of
science will value as of immediacy prospective Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-
and-teleology\textsuperscript{1} like the cultivation of science over its conventioning-referencing as a cultural
inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting
disposition towards the cultivation of science as in Europe and the Arabic world during the
medieval period, or even disparity in ontological progressiveness within the very same societies
at various epochs. Thus the assumption that any given society or period is absolutely
turned/committed to prospective Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{2}
including our modern period, is a flawed appraisal; as in many ways, beyond our
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional
functioning easily points out the pre-eminence of spurious institutional-being-and-craft
muddlement highlighting an uninstitutionalised-threshold\textsuperscript{102} as of the privileging of
conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology”, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity in our positivism–procrypticism; as it brings to the self-consciousness the reality that the implication of such a notional–deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness–as-to-totalitative-reification—in-singularisation–as-veridical-epistemic-determinism <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity warrants such intemporal relaying of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology beyond just conventioning-referencing; as the very possibility of successive registry-worldviews/dimensions as of prospective relative-ontological-completeness arises because such reasoning-through/messianic-reasoning can devalue their

Narratives as such are the very <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\) drive for human \(^{55}\) meaningfulness-and-teleology underlying language development, wherein ‘ontologically-hegemonising-narrative\(^9\) ontological-performance\(^7\)-<including-virtue-as-ontology\>’ as of its dispensing-with-immediacy-for-relative-ontological-completeness\(^9\) profoundness is as of singularisation\(^9\)/epistemic-immanence/veridical-epistemic-determinism and so over the temporal–ontological-performance -<including-virtue-as-ontology>-of-narratives as of dissingularisation\(^9\)/epistemic-nonimmanence/flawed-epistemic-determinism. It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold-presublimating-desublimating-decisionality)-of-ontological-performance—including-virtue-as-ontology to further advance its constructive/institutionalising/nascent-sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving
building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity —of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent—sublimating-decisionality and destructuring-threshold—{uninstitutionalised-threshold / presublimating—desublimating-decisionality}—of-ontological-performance—

<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology whether
with regards to the Socrates/Plato/Aristotle, Copernicus, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{71}–\langle\text{including-virtue-as-ontology}\rangle nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{88} human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness\textsuperscript{87} deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{90} temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of
science as of prospective relative-ontological-completeness\textsuperscript{17} positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification\textsuperscript{9}/contemplative-distension\textsuperscript{5} (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of\textlangle\amplituding/formative–epistemicity\textrangle\textsuperscript{12} totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{2} to supersede human temporality\textsuperscript{7}/shortness\textlangle\amplituding/formative\rangle wooden-language-(imbued—averaging-of-thought\textlangle\as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{99} -as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications\textrangle); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{1} human social-stake-contention-or-confliction as of its disjointedness-as-of-’reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\textsuperscript{1} notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality /longness and temporality\textsuperscript{9}/shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{1} -\langle\including-virtue-as-ontology\rangle. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness notional–deprocrypticism that we can appreciate more profoundly the \textsuperscript{10} universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism,
power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness notional–deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness/conceptual-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards
‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality
with respect to its social-stake-contention-or-confliction’ which opens it up to prospective
intemporal-as-ontological metaphoricity. It is by this token that the intemporal ontological-

more traditionally restricted personal development implications of the Greek interpretation as of
a universalising-idealisation self-consciousness but very much along the lines of Socratic

consciousness-awareness-teleology of-in-existential-extrication-as-of-existential-unthought cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and-teleology. Insightfully, it can be appreciated that the ontological-contiguity of-the-human-institutionalisation-process is one long process involving the undermining of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold with relative ‘equivalence/correspondence antiakrasiaic-attainment ontological-performance’ as of ontologically-hegemonising-narrative implied as of prospective ‘amplituding/formative-epistemicity>totalising-ratio-contiguity/ratiocontication-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening implications the destructuring-transitoriness-as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiaic-attainment ontological-performance’-including-virtue-as-ontology’. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-reference-of-thought destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively superseded by notional–deprocrypticism preempting—disjointedness-as-of-reference-of-thought ontologically-hegemonising-narrative thus rendering human ontological-performance <including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human amplituding/formative-epistemicity totalising-purview-of-construal’ as of prospective relative ‘equivalence/correspondence antiakrasiaic-attainment ontological-
performance\textsuperscript{71}-<including-virtue-as-ontology>’. This destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating–decisionality)~of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67} as to the destructuring implications at uninstitutionalised-threshold\textsuperscript{102} implied human-subpotency epistemic/notional–projective-perspective in dissingularisation\textsuperscript{12}/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-superceratory–epistemic-conflatedness\textsuperscript{12} epistemic/notional–projective-perspective in singularisation\textsuperscript{12}/epistemic-immanence/veridical-epistemic-determinism. This overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{71}-<imbued-and-'hermeneutically/rep projectile-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> of the social-construct as from the elucidation/reification\textsuperscript{86} as ‘destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating–decisionality)–of-ontological-performance’ -<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-threshold\textsuperscript{102} notionally/epistemically reflects the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-primemovers-totalitative-framework\(^2\) \(<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,~for-explicating-ontological-contiguity\>\(^4\) elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold \(^{102}\)/presublimating–desublimating–decisionality}–of-ontological-performance \(^{<including-virtue-as-ontology>}\) and as reflected at uninstitutionalised-threshold \(^{102}\). As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance \(^{<including-virtue-as-ontology>}\) destructuring-threshold-
(uninstitutionalised-threshold ~/presublimating–desublimating-decisionality~)~of-ontological-performance~<including-virtue-as-ontology>~and uninstitutionalised-threshold ~/presublimating–desublimating-decisionality~ , and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance~<including-virtue-as-ontology>~for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of~meaningfulness-and-teleology~. The implicited passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-(uninstitutionalised-threshold ~/presublimating–desublimating-decisionality~)~of-ontological-performance~<including-virtue-as-ontology>~need to be integrated into the very core of such seconddnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity —of-the-human-institutionalisation-process~; such that prospective social-construct constructiveness-of-ontological-performance~<including-virtue-as-ontology>~and institutionalisation is ever always a process of °maximalising-recomposuring-for-relative-ontological-completeness° —unenframed-conceptualisation to prospectively recapture the supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument° for prospective organic-knowledge lost in seconddnatured institutionalisation with the latter construed in temporality°/shortness often bound to induce °incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of poor

It is the possibility for the human mind to dement as of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ by its self-conscious <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence that de-mentatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic/notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in stigmatising terms—as-of-axiomatic-construct, the ontological-veracity from existence-potency–sublimating–nascent,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confiliatedness epistemic/notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness postconverging-or-dialectical-thinking—
like say Newton’s involvement with alchemy, and the idea of projecting to a prospective

In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness -dereification for <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of-
disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness\(^{56}\)/contemplative-distension\(^{56}\) accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness\(^{57}\) as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity\(^{58}\)—of-the-human-institutionalisation-process\(^{59}\) as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(^{60}\)meaningfulness-and-teleology\(^{61}\)’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory~de-

disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory\(-\)mentativity, and so beyond-the-consciousness-awareness-teleology\(^9\)-in-existential-extrication-as-of-existential-unthought\). In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity\(-\)<shallow-supererogation\)^9\>-of-mentally-aestheticised–preconverging/dementing –qualia-schema>’ rather than ‘apriorising-
teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought <amplituding/formative–epistemicity> totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding
thought,-in-supererogatory-epistemic-conflicatedness as of ontological-primemovers-totalitative-framework; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance’-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-awareness-teleology surreptitiously defining what can be thought or not thought. The fact is such implied underpinning—suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human ‘meaningfulness-and-teleology’, as the social knowledge-reification role must always be opened to ‘intemporal individualisation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality
parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-
unaccounted internally because (but from the existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supercerogatory-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional-deprocrypticism perspective) dementatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance’-<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing ‘meaningfulness-and-teleology’ and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with
greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) and underpinning–suprasocial-construct meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrypticism is equally subject to our <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>

reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying
reference-of-thought relative-ontological-incompleteness at destructuring-threshold-
(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-
performance-<including-virtue-as-ontology> which is the grander issue of aetiological/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-
positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective
deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought supersedes-and-
deflates the overall vices-and-impediments of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of- reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-

In this regard, we can more specifically appreciate the
central and transformative implications of the Socratic philosophers' universalising-idealisation as of the prospective universalisation registry-worldview/dimension 'social-construction of meaningfulness-and-teleology' as of social-stake-contention-or-confliction', wherein such prospective 'shiftiness-of-the-Self' as induced by the Socratic philosophers' universalising-idealisation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism inducing the secondnatured institutionalisation of the universalisation registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-meremathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’ brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance —<including-virtue-as-ontology> as manifested with the Socratic method for universal consistency and coherence, Plato’s ideas for universal consistency and coherence and Aristotle’s qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-of-the-Self’. This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

epistemic/notional–projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, do not override the pre-eminence of supposedly coherent ontological-commitment as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,-in-supererogatory–epistemic-confledness epistemic/notional–projective-perspective, in which case no human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,-in-supererogatory–epistemic-confledness over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal equally points out that the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or any
contextualising-contiguity conflatedness here is validated by the fact that ‘abstract scientific notions are not the point-of-departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity in causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity conflatedness to then reflect abstract scientific notions in existential-contextualising-contiguity knowledge-reification or depart from existential-contextualising-contiguity already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity knowledge-reification’. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology /knowledge as physics knowledge-reification. Rather we can better appreciate the occurrence of existential-contextualising-contiguity knowledge-reification as of causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity construal in the sense that our ordinary thought process itself is as of totalising/circumscribing/delineating existential-contextualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of totalising-renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity of such notions like space, time, force, etc. in causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity conflatedness to then articulate their
abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always epistemic-retotalising/re-totalising-entailing of ‘the very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity\(^\text{10}\) in conflatedness\(^\text{11}\) involving human limited-mentation-capacity-deepening\(^\text{52}\) hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness\(^\text{13}\). We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility\(^\text{38}\) in conflatedness\(^\text{12}\) in epistemic-conflatedness\(^\text{12}\) in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness\(^\text{14}\), as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existential-contextualising-contiguity\(^\text{38}\) in causalities-as-to-projective-totalitative–implications, for explicating-ontological-contiguity\(^\text{66}\) in epistemic-conflatedness\(^\text{12}\) to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—sublimating-withdrawal, eliciting-of-prospective-supererogation\(^\text{56}\) in reflecting ‘immanent-ontological-contiguity\(^\text{66}\)’, as-operative-notional–deprocrypticism orientations which drives their knowledge-reification–gesturing for unification as to ontological-contiguity\(^\text{67}\) as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’).

This underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity\textsuperscript{38} insight reflects ecstatic-existence’s supervening-conflatedness\textsuperscript{12} as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{73}–<imbued-and–‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>; wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like physics and the natural sciences generally are of a less elaborate existential-contextualising-contiguity\textsuperscript{38} conceptualisation nature in epistemic-conflatedness\textsuperscript{12} and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic constitutedness\textsuperscript{13} while inherently ‘less immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity\textsuperscript{38} conceptualisation nature in epistemic-conflatedness\textsuperscript{12} that speaks to the need for their appropriate totalising-entailing hermeneutic/reprojective depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening\textsuperscript{52} hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness\textsuperscript{13} for construing their veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing. transform human-reflexivity-in-ecstatic-existence so-construed as of human-subjective-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; wherein we can appreciate that the instigation of universalising-idealisation meaningfulness-and-teleology infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way
because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance—including-virtue-as-ontology arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance—including-virtue-as-ontology>

Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising—thrownness-in-existence<sup>4</sup> the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance<sup>7</sup>—<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising—thrownness-in-existence<sup>34</sup> induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness<sup>5</sup> possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the

apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought’–as-confalatedness—or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to present day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory de-mentating/structuring/paradigming relationship with ‘meaningfulness-and-teleology’ (undermining the implied ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language-{imbued—temporal–mere-form/virtualities/dereification}/akrasiat-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology} as deterministic thus subknowledging /mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most
critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remote ness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentationality and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) — maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising — self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their
epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising/syncretising-as-of-perceived-social-stake-contention-or-confliction. The point here is to highlight that where the need for “reappraisal of reference-of-thought” arises as for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as “reappraisals of references-of-thought” and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-
normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness⟩’ hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology -⟨in-existential-extrication-as-of-existential-unthought⟩. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect
a social construction wherein while prospective institutionalisation mental-disposition relates-
to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-
mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory de-
mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-
eminence arises only as of positive opportunity ontological-prime movers-totalitative-
framework induced untenability/internal-contradiction/internal-incoherence/institutional-
constraining in the middle to long run or crossgenerationally as intemporality -asymmetric-
subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness -of- reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiology/ontological-
escalation in notional-deprocrypticism conflatedness and so over procrypticism disjointedness-as-of- reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—
existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing notional-deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism’s conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought now being construed as preconverging-or-dementing-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology as denaturing.

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely
presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processsing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of reference-of-thought—categorical-imperatives/axioms/registry-teleology, of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation defines a registry-worldview’s/dimension’s uninstitutionalised-threshold; arising in ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations. This ontologically/intemporally represents the postlogic mindsets as preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-

Since the state of exhibiting a demonstrated perversion-OF reference-OF-thOUGHT-<as-effectively-apriorising-in-

dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-
presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-
reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview—reference-of-
thought—categorical-imperatives/axioms/registry-teleology—,for-intemporal-preservation-
entropy-or-contiguity—or—ontological-preservation doesn’t has the implied-profile-or-implied-
stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring posivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-
mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-
mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal
prelogism-as-of-conviction,-as-to-profound-supererogation mind ordinarily aligns to
meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp
the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as
of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing –apriorising-psychologism with respect to meaningfulness).
Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal
prelogism-as-of-conviction,-as-to-profound-supererogation mind to wrongly elevate
psychopathic ‘meaningfulness-and-teleology’ as of veridical ‘existential-contextualising-
contiguity’ rather than reflect the reality of its ‘formulaic ‘meaningfulness-and-teleology’’
which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So
when we talk about psychopathy we are talking about ‘perversion-of-reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation’> rather than logical defect (defect of logical operation/processing/contention).
This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought
and action. Meaning has two elementary aspects: ‘reference-of-thought or axioms or
categorical-imperatives (reflected-as-soundness-or-ontological-good-faith/authenticity –of-
reference-of-thought, by the prospective relative-ontological-completeness –of–reference-of-
thought and logic (logical-operation/processing/contention/implicitation-of-act-execution, and
so, ‘fundamentally and validatorily’ on the basis of sound ‘reference-of-thought–categorical-
imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation in the very first instance). Meaningfulness is thus essentially about the
‘operation of ‘reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-or-
ontological-good-faith/authenticity –of- reference-of-thought’, with logic/logical-processing
basically about the operation of reference-of-thought as rules as of ontological-coherence/superseding–oneness-of-ontology validated as of established ontological-veridicality/intrinsic-reality/existential-reality. Otherwise stated, meaning has ‘reference-of-thought’ reflecting its being/ontological/existential veridicality, and logic as an operation of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation–outside-existential-contextualising-contiguity based on the meaning’s implied ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’ valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete–reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity–of–reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete–reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity–of-
reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology—is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality’.

For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity-sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect> that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema>–as-of-epistemic-decadence in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’>) by the denaturing of the reference-of-thought or the soundness-or-ontological-good-faith/authenticity–of–reference-of-thought of meaning over which denaturing he tries to get interlocutors to operate/process logic; and ‘is not even contending and that he is the subject of prelogism–as-of-conviction,–as-to-profound-supererogation contention about his perversion–of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >/mental-perversion/unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought’. The above is the fundamental nature of psychopathy and ‘it should not be lost even more critically at the adulthood stage and the corollary of social psychopathy’ as increasingly prelogism–as-of-conviction,–as-to-profound-supererogation minds will tend to align to adult psychopaths and other postlogic teleological mindsets wrongfully as prelogic/conviction-as-to-profound-supererogation–or-candored/straightened/prelogism.

escalation or aetiologisation as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-locales’/aetiologisation/ontological-escalation. The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity–of-reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-
presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising-registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought as perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation do protract and an ignorant prelogism-as-of-conviction,-as-to-profound-supererogation mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s ‘denaturing’ postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts-with-successive-shifting-of-the-narratives-and-acts-foci-construed-as-deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism \(^8\)reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their \(^8\)reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^3\)), as their \(^8\)reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-\(^8\)reference-of-thought-as-of- incrementality-in-relative-ontological-incompleteness —

Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism
is the ‘retracing of their sets-of-narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibility-setup/measuring-instrument flaw, for instance), systematically the three other equations will be wrong whether by ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry-teleology-, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such reference-of-thought–categorical-imperatives/axioms/registry-teleology are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy–or-contiguity–or–ontological-preservation or ontological-normalcy/postconvergence to then articulate the necessary imbricatedness/threadedness/recomposuring as of existential-

This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existentional-contextualising-contiguity\textsuperscript{10} to be had/entertained nor any logical analysis but rather \textsuperscript{‘}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{27}—unenframed-conceptualisation invalidating that the implied-logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentionation-procedure-deception-or-urge of the ‘apriorising–reference-of-thought-
elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought’s-devolving-as-of-instantiative-context’). This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing—apriorising is actually about ‘denaturing’ postlogic-backtracking-<iterative-looping–set-of-dereifying-hollow-narratives-and-acts’>with–successive-shifting-of-the-narratives-and-acts-foci’-construed-as–deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism-as-of-conviction-as-to-profound-supererogation—logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—prelogism—basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is
critical that the stranger should not be taking young children in his house as it suspiciously
points to a molester (which is certainly a sound statement but rather being parasitised for a
perverse purpose of ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-
profound-supererogation→-or-prelogism→-basis’ towards sanctified-conventioning-social-
aggregation-enablers, as the statement, not to take young children into his house, is
sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if
this latter narrative is proven to be false (as it is another perversion-of- reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation > or mental-perversion demonstrable as above with it faulty-mentation-
procedure-deception-or-urge not being the logic itself, but in wrongly implying as
existentially real the ‘apriorising— reference-of-thought-elements/apriorising–registry-elements
(out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-
ontological-completeness→-of- reference-of-thought→ devolving-as-of-instantiative-context)’
of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,
assumptions, value-reference and teleology such that the mere fact of engaging logically with
it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-
or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-
deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with
respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be
seen as being prelogic supplanting–conviction-as-to-profound-supererogation —
postconverging/dialectical-thinking→apriorising-psychologism even if it is a perception of
‘poor or bad supplanting–conviction-as-to-profound-supererogation —
postconverging/dialectical-thinking→apriorising-psychologism’ since that will validate the
‘apriorising— reference-of-thought-elements/apriorising–registry-elements (out of existential-
contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-‘devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism’-as-of-conviction,-as-to-profound-supererogation re-engaging reflex’ wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > ‘preconverging-or-dementing’-apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of- reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism’-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism’, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>83 as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-
constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness’ unlike postlogism\textsuperscript{77} as prelogism\textsuperscript{78} which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (which is an unusual and rare social experience given that a psychopathic personality and postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> are an outrlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (due to the ‘lack of constraining social\textsuperscript{10} universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness⟩ as inducing vices-and-impediments\textsuperscript{10} which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> from some interlocutors with no more commitment given the inconsistency of the hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’\textsuperscript{76} as absolving/fleeting/escaping-reflex–logic\textsuperscript{7} in time speaking to the fundamental mental denaturing\textsuperscript{15} involved in postlogism\textsuperscript{77} in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and so for the shallowness of the postlogism\textsuperscript{77} in hollow-constituting-<as-
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> the extrinsic-attribution inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} mind is a prelogic/existential-contextualising-contiguity\textsuperscript{79}/conviction-as-to-profound-supererogation\textsuperscript{95} alignment (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) to the psychopath’s (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) postlogism\textsuperscript{77}-formulaic slanting compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{76} projection (distractive-alignment-to-\textsuperscript{reference-of-thought}<of-apriorising/axiomatising/referencing>\textsuperscript{75}) such that the former’s mind is rather in a hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> ‘conjoining looping narratives (of flawed-existential-elevation-of-\textsuperscript{reference-of-thought} and developing a supplanting-conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{77}–apriorising-psychologism or prelogism\textsuperscript{78} out of them), to the psychopath’s ‘denaturing\textsuperscript{76} postlogic-backtracking-<iterative-looping-\textsuperscript{set-of-dereifying-hollow-narratives-and-acts}>\textsuperscript{76}–with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism \textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath \textsuperscript{perversion-of-\textsuperscript{reference-of-thought}<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}> mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle
disposition known as postlogism\textsuperscript{77}-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere formulaic constrained/unconstrained
and-apriorising/axiomatising/referencing\textsuperscript{101} pedestals, and the intemporal-disposition transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{101} pedestal in their ontological-escalation/aetiologisation), enabling the \textsuperscript{14} de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) not as postconverging-or-dialectical-thinking\textsuperscript{94}–apriorising-psychologism–\textsuperscript{96}stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}–preconverging/dementing\textsuperscript{19}–apriorising-psychologism as so-being rather distractive to organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness\textsuperscript{12}–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology ’); to ultimately prevent its own ‘perceived social alienation’ by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a social-stake-contention-or-confliction de-mentating/structuring/paradigming. Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation\textsuperscript{96} mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism\textsuperscript{77} in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality\textsuperscript{99}/interest over intrinsic-veridicality’ whether in the form of
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness(bottomlining-as-to-shallow-supererogation)> or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrypticism/notional-disjointedness-as-of-reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold<2>perversion-of<reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness(bottomlining-as-to-shallow-supererogation)> of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>’ at ‘uninstitutionalised-threshold’ initiated by the psychopath’s postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and resolved suprastructurally by a deprocryptic mindset<reference-of-thought making reference to superseding deprocryptic
reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (just like an accusation of witchcraft in medieval society is not veridically/ontologically a ‘contention’ but rather a protracted manifestation’ of non-positivism/medieval registry-worldview/dimension perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by the dynamism of non-positivism/medieval mindset, resolved/structurally-rendered-inoperant suprastructurally by a positivistic mindset/reference-of-thought making reference to superseding positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology ). It should be noted that suprastructuring implies reflection about an utter and mentally dialectically-or-contendingly-out-of-phase; as of non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing-reference as-the-temporal-dispositions-are-dialectically-out-of-phase/dialectically-primitive as suprastructurally reflected by an ‘ordered construct from the intemporal/ontologising disposition’ (since the state of exhibiting/demonstrating perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> will annul temporal-dispositions pedestals/statures/presumptuousness as postconverging-or-dialectical-thinking apriorising-psychologism/logically contending, more like a medieval mind with a superstitious registry-worldview doesn’t has the stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism reference-of-thought—categorical-imperatives/axioms/registry-teleology in its supposed articulation of logic). Paradoxically, the normal prelogism—as-of-
mind is so attached by supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism–as-of-conviction,-as-to-profound-supererogation in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism’s//outcome-sought-precedes-logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’, contrasted to the psychopath’s compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or
compulsively-dementing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction,-as-to-profound-supererogation mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism (it has qualms/conscience) while the psychopath’s compulsion–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction,-as-to-profound-supererogation dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction,-as-to-profound-supererogation mind deterministic of other prelogism-as-of-conviction,-as-to-profound-supererogation minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallelisation of mere formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) with their corresponding prelogism-as-of-conviction,-as-to-profound-supererogation—or-intrinsic-attribution veridical-meaningfulness elements (which are subknowledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’ as
subknowledging ‡‘prelogism’-as-of-conviction,-as-to-profound-supererogation ‡
toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as subknowledging ‡‘prelogism’-as-of-conviction,-as-to-profound-supererogation ‡
suppositions”; ‘folie-raisonnante/non-veridical assumptions’ as subknowledging ‡‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex–logic’ as subknowledging ‘prelogism’-as-of-conviction,-as-to-profound-supererogation ‡ logical operation narratives’; inductive/contextual limitation as subknowledging ‡‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledging ‡‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledging ‡‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.’ as subknowledging ‡‘intrinsic-attribution of acts as inherently right or wrong’. On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ of postlogic compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing –apriorising-psychologism’ construed as ‘reverting deduction’ whereas ‘supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking—apriorising-psychologism deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ‘revert or postlogic compelling–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation

backtracking—iterative-looping—set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of- reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein
the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism/preconverging-or-dementing-integration and supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity/reification/superseding–oneness-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism-as-of-conviction,-as-to-profound-supererogation’ without factoring the ‘postlogism mere formulaic slanting compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mental-disposition’ of the postlogic/psychopathic and conjugated-postlogism/preconverging-or-dementing-integration mindsets/reference-of-thought. It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnable, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism-as-of-conviction,-as-to-profound-supererogation mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing postlogic-backtracking-<iterative-looping-<set-of-dereifying-hollow-narratives-and-acts’> with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and
completeness) of its slanted/postlogic narratives mental-disposition at childhood ‘gets lost’ socially at adulthood to many a supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism mind just getting acquainted but this is basically the same hollow-formulaic structure. This social loss-of-awareness of the social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—totalising—totalising—in-relative-ontological-completeness} as being of postlogism mere formulaic slanting compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation further elicits a ‘sense of temporality’ as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in many an acquainted or non-acquainted (ignorance) supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism minds to the psychopathic postlogism mere formulaic slanting compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation of preconverging-or-dementing—apriorising-psychologism narratives as if it was truly of supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism as to ontologically-veridical reality thus inducing the phenomenon of social-psychopathy threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism. Thus, a non-ignorant temporal pedestal mindset/ reference-of-thought whether affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation may find it in their temporal-self-interest to cynically elevate the psychopath’s postlogism — as-of — compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or
slantedness/threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing—apriorising-psychologism-or-mimicking-or-
subknowledging, when this is not socially universally transparent (at uninstitutionalised-
threshold). Further, the element of the need to be socially-functional-and-accordant first,
implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably
psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’
wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution
(praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis
for the targeting of another or others, further compounded by the fact that while so-called ‘rules
of sound logic’ abstractly permeate more or less effectively most of our formal setups, their
sociological pertinence is actually far from established, but for the fact that broad and large
general education diminishes social egregiousness in this respect, as specifically ‘reasoning by
significant others’ is actually the more common mental-disposition in the extended-informality-
(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–
meaningfulness-and-teleology) including the ‘informal spaces’ of formal setups, with the
result that this is a further factor that makes psychopathy poorly graspable as simply of
individual denaturing dynamics rather than of social denaturing dynamics, thus better
construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in
social rather than abstract terms’ depending on level of individuals intuition about the
underlying dynamism of the postlogism—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mental-
disposition (going by experience), and then their sense of abstraction or gullibility or
disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation.
(The implication here is that, for instance, it will be very naïve for an investigation involving a
psychopath without the investigators being extra-cautious with respect to the underlying social
aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)–but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism’-as-of-conviction,-as-to-profound-supererogation interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at the point of lack of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) about the psychopathic postlogism'/slantedness compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (and wherein there is no universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) about temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation), becomes ‘affordable’ (as it doesn’t think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds a temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives to copy it adhocly, as a successful way of going about one’s temporal-self-interest). There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism’-as-of-conviction,-as-to-profound-supererogation alignment to psychopath-
and/or-the-protracted-postlogism’ comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism’, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing—as-apriorising-psychologism. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing—as-apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding—as-of-apriorising/axiomatising/referencing>slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing—as-apriorising. But then in its child development psychology, this social negation is
rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-
<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in
postlogic-backtracking--< iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>—
absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘perverted-outcome-sought-
precedes-existentially-veridical-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-
formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-
subknowledging ’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge’
for postlogic slantedness’ in a given social space during its childhood to a state in which the
psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-
urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-
functional-and-accordant” state within any given social space as it develops into adulthood’. It
is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to
apparently sound supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking –apriorising-psychologism interlocutors, and so along five
factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking
narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives
which unsoundness-or-ontological-bad-faith/inauthenticity–of-reference-of-
thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes
its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and
obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner);
- SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social
spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking
narratives and comparing with the effective social reality context to establish whether the
narratives are sound); - CREDULITY (as with development from childhood to adulthood
psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-
profound-supererogation\textsuperscript{8}—postconverging/dialectical-thinking \textsuperscript{6}—apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting—conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking \textsuperscript{6}—apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing\textsuperscript{8}-apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing -apriorising, etc. once it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality\textsuperscript{8}-asymmetric-subsumption-of-temporality\textsuperscript{8}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism\textsuperscript{8}-slantedness is not socially\textsuperscript{8}-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{8}—preconverging/dementing –apriorising-psychologism or ‘uninstitutionalised-threshold\textsuperscript{8}’) of many an interlocutor; - CRAFTINESS (with increasingly
greater crude-to-polished threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation
— preconverging/dementing — apriorising-psychologism): Actually when it
comes to social-and-confliction-stakes, the psychopath being postlogism
— construes meaningfulness as a hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-
and-failing-intemporal-preservation> construct driven as an threshold-of–

expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as
determining of others/conviction-as-to-profound-supererogation interlocutors behaviours and
mental-dispositions; this is rather crude with the childhood-psychopath/cinglé such that it fails
to elicit supplanting—conviction-as-to-profound-supererogation — postconverging/dialectical-
thinking — apriorising-psychologism in others as the postlogic-effect is rather ‘delirious’ then
(as in the case of wetting a chair) but the postlogism at adulthood psychopathy becomes rather
polished/less-crude in its effect ‘with maturation/indirectness/spatialisation/credulity’ to the
point then of eliciting a prelogic/conviction-as-to-profound-supererogation mental-disposition
as conjugated-postlogism/preconverging-or-dementing integration (conjugated-ignorance,
conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of ’socially-perceived-value as of social-stake-contention-or-confliction’ context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way
can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-thought-devolving-as-of-instantiative-context, which is what validates ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation—as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology’), in the formation of a basic and normal prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) mindset’reference-of-thought’ inducing rather a postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation“.

And this fundamental faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction of its postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-suprerogation mindset/reference-of-thought then goes on to account for the developmental psychology of the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism failing/not-upholding-as-of-apriorising/axiomatising/referencing experiences at childhood and early adolescence to achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the prelogic supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism mindset/reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking–apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of
apriorising—reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) of temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an ‘induced-ring-of-gyges-effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the
institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the 'extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)', then 'a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogicly/in-conviction-as-to-profound-supererogation ) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social universal-transparency(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of its postlogism-slantedness
to many a supplanting-conviction-as-to-profound-supererogation —
postconverging/dialectical-thinking —apriorising-psychologism interlocutor as the
‘uninstitutionalised-threshold.’). Hence psychopathy when studied dynamically is rather
‘social psychopathy’. Psychopathy through this social dynamism effect equally influences
social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily
going towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding
rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-
of-register-of—meaningfulness-and-teleology) or temporal (shortness-of-register-of—
meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised
notion of social vices-and-impediments. The social psychopathy phenomenon (in describing
the underlying abstract nature of man before institutionalisation/intemporalisation;
institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition
by its purist and universal projection rules in an ‘ontological entrapment’ exercise to
undermine/override temporal-dispositions subknowledging /mimicking, by virtue of its
ontological-primemovers-totalitative-framework and overall medium to long term good to the
cross-section of human temporal interests) is equally associated with the notion of the stages of
human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/civilisation, in
an intemporal-preservation-entropy-or-contiguity—or—ontological-preservation exercise, from
an recurrent-utter-institutionalised animal through subsequent stages of
institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge-
(preconverging-or-dementing-as-if-of-sound-knowledge)/pervert intemporal categorical-
imperatives) starting with base-institutionalisation (initial sense of social rules/organisation),
universalisation, positivism and prospectively the future institutionalisation/intemporalisation
this author qualifies as notional—deprocrypticism (preempting procrypticism, so construed by
‘notional~deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking’-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of’reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false
‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that is). Hence ‘our homework’ is to articulate our very own perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing-apriorising-psychologism’, as-it-is-thus-in-wait-for-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-
normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-reference-of-thought-<apriorising/axiomatising/referencing> of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing –apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory~de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposing/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the
underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> de-mentating/structuring/paradigming, utilising the outcome of previous institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> effort. Hence dimensionality-of-sublimating — <amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalvative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation instigation recurrently inducing the institutionalisation/intemporalisation process (is not analagical but a contiguous notion by it intemporal-preservation-entropy-or-contiguity—or—ontological-preservation across institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing>) applies universally across space and time (beyond the institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-
aetiologisation/ontological-escalation) enabling the de-mentation-

psychologism mental-devising-representation’ by universalisation, non-

devising-representation’ by positivism, and prospectively, procrypticism ‘preconverging-or-
dementing—apriorising-psychologism mental-devising-representation’ by deprocrypticm. This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-
representation for implying intemporality\(^1\)-of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\(^9\), but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold\(^9\), transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\(^9\) put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology\(^9\) is then represented as preconverging-or-dementing\(^9\)-apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) and ontological-veridicality/ontological-contiguity\(^6\) of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective); with the ontologically-veridical/ontological-contiguity\(^6\) mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity\(^7\)-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema>-as-of-epistemic-decadence in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemperal-preservation> in postlogic-backtracking<-iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’\(^8\)-stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, beyond their
Hence we know of the following de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) de-mentated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism—or—disjointedness-as-of-reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-preconverging-or-dementing—apriorising-psychologism-or-subknowledging—perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—,—and—corresponding—totalising~self-referencing-syncretising’ relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of-reference-of-thought—as-effectively-apriorising-in-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation" as of the "reference-of-thought–categorical-imperatives/axioms/registry-
teleology",-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of
our registry-worldview/dimension (positivistic meaningfulness) as "procrypticism–or–
disjointedness-as-of- reference-of-thought. Noting as well that uninstitutionalised-threshold like
recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation,

registry-worldview, within the ambits of their the-Good/understanding/knowledge-

stranding from their prospective institutionalisation/intemporalisation represents them as
oblongated/decandored/dialectically-or-contendingly-out-of-phase/dialectically-primitive as the
transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This
when extrapolated will equally apply with our present positivism/procrypticism
uninstitutionalisation/unintemporalisation for futural Being-development/ontological-
meaningfulness-and-teleology as of prospective notional–deprocrypticism
institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with
our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-
syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-
thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-
perspective). This equally explains why uninstitutionalised-threshold equally carried a
complex about their registry-worldview/dimension and these complexes certainly sound
unintelligible to us given our vantage perspective at the backend of the institutional-
cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity<-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema> (undisambiguation as temporal-to-intemporal-dispositions are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘temporal-to-intemporal-dispositions disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation–supererogatory–ontological–de-mentation–dialectical–de-mentation—stranding—or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity<-shallow-supererogation–of-mentally-aestheticised-preconverging/dementing–qualia-schema>.
notional-deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supernovatory–de-mentativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing”-dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘postconverging-or-dialectical-thinking–apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this temporal-to-intemporal-dispositions nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency–⟨transparency-of-totalising-entailing,–as-to-entailing–⟨amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works
intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold\textsuperscript{102} for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-temporal-to-intemporal-dispositions–implications which is more than just reactionary to the possibility of temporality\textsuperscript{98}/shortness (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality\textsuperscript{51} as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) that takes abstract cognisance of temporality\textsuperscript{98}/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold\textsuperscript{102}) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism—by—preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{8}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, notional–deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking’–apriorising-psychologism—by—preconverging-or-dementing’–apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicytary deconstruction/ontological-reconstituting–as-to-confledness as dialectical transformation as-prospective ‘reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-confledness as dialectical transformation, as-prospective reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the institutionalisation/intemporalisation ideal (ontological-normalcy) culminating with deprocrypticism. The paradox of ontological-normalcy/postconvergence brought to bear with notional–deprocrypticism will imply ontologically/intemporally that a registry-worldview/dimension-and-as-of-all-successive-registry-worldviews/dimensions can be seen as being in ‘preconverging-or-dementing’–apriorising-psychologism hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> defect’ in need of ontological-normalcy/postconvergence-or-postdicytary deconstruction/ontological-reconstituting–as-to-confledness of the ‘preconverging-or-dementing’–apriorising-psychologism hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> defect’ in an existentialism/full-depth-of-existential-

reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism'/soundness-or-ontological-good-faith/authenticity’-of’ reference-of-thought is still relevant where there is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-faith/authenticity’-of’ reference-of-thought on the other hand implies being-or-ontological-or-existential-or—meaningfulness-and-teleology disposition as of supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. from postconverging/dialectical-thinking — apriorising-psychologism mental-devising-

postconverging/dialectical-thinking — apriorising-psychologism) either of sound

The postconverging/dialectical-thinking—apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect-of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation with respect to subsequent acts ‘of-similar-or-protracted-contextualisation’ by their performers always harken back to a reflex of ‘postconverging-or-dialectical-thinking—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>’ to imply the upholding of ‘ontological-reference/contending-reference’; and so, for the simple reason that the state of being in supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (whether the act is defective or not) implies a ‘mental-disposition’ of the performer to be intemporal/ontological, and the defect-of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation simply have to do with inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and not unsound-mental-disposition or perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (which in this latter case will speak of a mental-disposition to act as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism with regards to subsequent acts of similar context by their performers). Hence the postconverging/dialectical-thinking—apriorising-
psychologism mental-devising-representations of either sound logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect–of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity—of reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing—apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity—of reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect–of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism'/possibly-of-soundness-or-ontological-good-faith/authenticity—of reference-of-thought in contending (appropriateness-of reference-of-thought-as-of-confatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-\langle as \text{ ‘first-level presencing—absolutising-identitive-constitutedness’ }\rangle \text{ of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ )’ was set/given however skewed towards the dominance of say a leader or family/clanic group or priestly class
supererogation—preconverging/dementing—apriorising-psychologism) arising from the ‘cumulative effect’ of the various temporal-to-intemporal-dispositions individuations dispositions with respect to intradimensionally operant implications of perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as the various ‘temporal-dispositions individuations’ will, at that uninstitutionalised-threshold, betray ontologising/ontological-depth-of-analysis/intemporal-preservation by hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> at their specific temporal-dispositions individuations thresholds (postlogism—slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought—devolving ontological-performance—<including-virtue-as-ontology>) with the idea that ‘human intemporal-disposition individuation’ will rather be utterly emancipatory/transcendental by ‘ontologically-reconstituting’/deconstruction (and so, without any hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>—incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional—disjointedness-as-of—reference-of-thought allowed, in order to sync with the ‘postconvergence/preceding/superseding nature of intrinsic reality’ which ‘doesn’t recognise’ nor is involved in temporal-and-social-trading with the mortals that we are to establish ontological-reference and ontological-veridicality) instead of betraying ontologising/ontological-depth-of-analysis/intemporal-preservation thus inducing prospective institutionalisation/intemporalisation by positive-opportunism and the intemporal percolation-channelling of such emancipation/transcendence-and-sublimity/sublimation/supererogatory—dementativity. Thus for instance with regards to adult psychopathy and the induced social
psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold-{uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality}\textsuperscript{71}–of-ontological-performance\textsuperscript{71}–</include-virtue-as-ontology> ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold-{uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality}\textsuperscript{–of-ontological-performance\textsuperscript{71}–}<include-virtue-as-ontology> of postlogism\textsuperscript{1}–slantedness/\textsuperscript{49} ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,
so-disambiguated as of reference-of-thought-devolving ontological-performance<including-virtue-as-ontology> on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold of the registry-worldview/dimension (procripticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ preempting the said perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding
focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation dementating/structuring/paradigming, contrasted with a temporal extricatory dementating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> like accusations and notions of sorcery in a non-
positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness/unenframed-conceptualisation de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s recomposed-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional-deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking—psychology
or psychology-of-mentation-dynamics or natural-~psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-inperpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional~deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative unsound/ontologically-impertinent reference-of-thought status’, and so going by the inherent human-subpotency~aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same ‘human form-factor’ with their ‘snowballed differences’ arise solely due to limited-mentation-capacity-deepening involving institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing. Ontological-normalcy/postconvergence as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-normalcy/postconvergence (shifts-in-the-curve-of-human-grasp-of-one-onology/‘ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-

reference-of-thought-as-of-ontological-normalcy/postconvergence that preserves procrypticism (perversion-of- reference-of-thought-<as-effectively-apriorising-in-

Insightfully again with regards to ontological-normalcy/postconvergence and ontological-normalcy/postconvergence critical for a ‘postconverging-or-dialectical-

In the case of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism acts of-similar-or-protracted-contextualisation with regards to slantedness/compulsive-dementing (with an underlying element of physiological issue with regards to psychopathic personalities) and the derived social dynamisms of social psychopathy, such implied ‘deconstruction/ontological-reconstituting–as-to-conflatedness perpetuation of the hermeneutic/reprojective circle ‘dem- entation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding- or-attributive-dialectics) of reference-of-thought analysis’ is potentially beyond just ‘benign-and-specific-shallow-contexts-scale-of-implications’ but can be more profound involving institutions and individuals contextualisation as individuals-lives-and-institutional-lives-scale-of-implications and in the bigger scheme of things where such dynamics involve social dementating/structuring/paradigming effects on perceived meaningfulness and values in the overall social-setup it has a social-structure-scale-of-implications (specifically not only in
terms–as-of-axiomatic-construct of vices-and-impediments but also in undermining the enculturation of intellectual/emancipatory dispositions). Effectively, such a deconstruction/ontological-reconstituting–as-to-conflatedness perpetuation of the hermeneutic/reprojective circle ‘\(\text{de-mentation-}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought analysis’ (de-mentation-\(\text{supererogatory–ontological–de-mentation-or-dialectical–de-}

Typically, such an insight with regards to ‘compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ is obvious
and transparent with respect to the childhood psychopathy/cinglée mental-disposition, given
that an initial encounter often involves a natural ‘postconverging-or-dialectical-thinking’–

after some familiarisation we come to understand that the initial narratives are in fact

subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-

It should thus be noted that the preconverging-or-dementing–apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-to-conflatedness /deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as to preconverging-or-dementing–apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting–as-to-conflatedness /deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-
incompleteness\textsuperscript{−}of\ reference-of-thought\ defective\ reference-of-thought–categorical-imperatives/axioms/registry-teleology\ for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure\textsuperscript{−}as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojective circle exercise of ontological-reconstituting–as-to-conflatedness/deconstruction (of our temporal-to-intemporal-dispositions nature)’ how procrypticism (preconverging-or-dementing–apriorising-psychologism as to mere formulaic positivistic\ meaningfulness-and-teleology\ in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure\textsuperscript{−}as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing\ reference-of-thought and ontological-veridicality/ontological-contiguity\ as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, above and beyond the simple hollow-constituting\ of\ disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of
defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening induced institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of a same ‘human form-factor’, with regards to the reality of their temporal-to-intemporal-dispositions and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is attained by ‘keeping or aligning’ preconverging-or-dementing apriorising-psychologism (with no shifting by reflex into postconverging-or-dialectical-thinking–apriorising-psychologism) of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of the wrong ontological-references/contending-references of all established perversion-of- reference-of-thought-as-

A ‘postconverging-or-dialectical-thinking\textsuperscript{14}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{15} (as to ‘postconverging-or-dialectical-thinking\textsuperscript{16}–apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing\textsuperscript{17}–apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-or-dialectical-thinking\textsuperscript{18}–apriorising-psychologism’ or of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any presencing—absolutising-identitive-constitutedness\textsuperscript{20} distorted meaningfulness-and-teleology\textsuperscript{21}. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s
reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation—>) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework sound—reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in ontological-reconstituting—as-to-conflatedness/deconstruction); wherein no amount of ‘good-naturedness’ of any individuation based on the former (prior/transcended/superseded) reference-of-thought can fundamentally supersede its de-mentative/structural/paradigmatic vices-and-impediments, but for the ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring) into reference-of-thought of the latter (prospective/transcending/superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as transcendence-and-sublimity/sublimation/supercorogatory—de-mentativity. That is why there is no ontologically-veridical intradimensional resolution of issues and notions of sorcery for instance in a non-positivism/medievalism social-setup with any such pretence being nothing but a ‘temporal extricatory de-mentating/structuring/paradigming’ to satisfy temporal preservation’, but for implying a prospective need for a positivistic registry-worldview/dimension as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming in satisfying intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Likewise there is no intradimensional resolution of a phenomenon

Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)s as limited-mention-capacity-deepening has to do with the veracity/ontological-pertinence of our temporal-to-intemporal-dispositions as individuations of shortness-to-longness-of-register-of-meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mention-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-
constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) rather than the essence as intemporal-preservation-entropy-or-contiguity–or-ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (ontological-reconstituting–asto-confalatedness"). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/temporal-to-intemporal-dispositions inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating’—supererogatory–dementativeness/epistemic-growth-or-confalatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of–meaningfulness-and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of–meaningfulness-and-teleology–or-hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> individuations dispositions); with corresponding percolation-channelling facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over
‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating d...
(implicated-‘nondescript/ignoreable–void’-as-to-presencing—absolutising-identitive-constitutedness’) which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness-or-ontological-bad-faith/inaauthenticity reference-of-thought-defects (and not logical defect) of compulsive-slanting—preconverging-or-dementing-apriorising (psychopath) and the consequent derived—miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation; arising from the conjugation with the relative-ontological-incompleteness —induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing—apriorising-psychologism’ whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism. The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging—or-dementing—apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposing on the basis of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal "perversion-of-"reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation"> existential mental orientation to avoid postconverging-or-dialectical-thinking –apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the "meaningfulness-and-teleology" of a transcendent registry-worldview/dimension in terms–as-of-axiomatic-construct of the "reference-of-thought–categorical-imperatives/axioms/registry-teleology",-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory-de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the "reference-of-thought–categorical-imperatives/axioms/registry-teleology",-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of "reference-of-thought/soundness-or-ontological-good-faith/authenticity" -of- reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation
recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism—or—disjointedness-as-of reference-of-thought. The dynamism of social psychopathy and the perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> at ‘uninstitutionalised-threshold ‘) can be resumed as follows. Basically, the psychopath is involved in postlogic-backtracking<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts’> in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the de-mentionation (supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-

Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal

the principles so articulated can be applied in all incidental cases of social psychopathy
dynamism (with the intellectual responsibility of avoiding just an ad-hoc/circumstantial based

involves: (a) ‘registering’/de-mentation—ontological—de-mentation-ontological—de-mentation-or-

For instance, de-mentatively/structurally/paradigmatically the positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or the referencing/registering/decisioning of meaning in terms–as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/uttered, for instance, retrospectively the ‘god of plane’… type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist =reference-of-thought–categorical-imperatives/axioms/registry-teleology, and this will equally apply prospectively between notional–deprocrypticism and procrypticism as the procryptic mindset/ reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of- reference-of-thought=<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/ universal/transcendental/ maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-
mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of- reference-of-thought’ or temporal-accommodation de-

This way of hermeneutic/reprojective ‘ontological reasoning’ to arrive at ‘ intemporal-or-ontological meaning’ that is beyond any <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/self-

worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation’ above the <reference-of-thought– categorical-imperatives/axioms/registry-
teleology> devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as ‘perversion-of’ reference-
of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-

veridicality, thus requiring new recomposuring <reference-of-thought–categorical-
imperatives/axioms/registry-teleology> to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. deprocrypticism’s suprastructuralism involves ‘intemporality -asymmetric-subsumption-of-temporality ’,
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suprerogatory/de-mentativity existence-potency~sublimating-nascence, disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought, in-suprerogatory~epistemic-conflatedness so-construed as longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology; and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct carrying a virtue that supersedes the vices-and-impediments of the non-positivism/medievalism registry-worldview/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of conflation rather than constitutedness (notwithstanding the instances of the latter’s contingent approximating-
nature for conceptualisation/construal rather construed as "presencing—absolutising-identitive-constitutedness (*). constitutedness tends to fallaciously imply 'existence of things in existence' whereas conflation rightly implies 'things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology'; so because constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be 'effectively absolutely real and final' but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as 're-constitutedness of reference-of-thought' perpetually when aware of its deficiency. conflation takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening as of metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond <amplitude/formative>-wooden-language-{imbued—temporal—mere- form/virtualities/dereification—a'krasiatic-drag/denatured/preconverging-or-dementing— narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication. Thus, constitutedness will wrongly induce virtuality–or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation
consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a contingent resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness’ of axiomatic-construct/reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) that will then require another contingent resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness’ of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by constitutedness in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of
the inherent analysis and ‘meaningfulness-and-teleology’ construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology - <in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing - reflexive/entailing-teleology - differentiation-as-of-subtransversality—apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of ‘meaningfulness-and-teleology’ as of its ontological and virtue essence that is susceptible to defect as ‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ or derived-‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’; and as such, constitutedness will speak of subtransversality—apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘constitutedness’ and conjugated-constitutedness of ‘reference-of-thought’ including psychopathic slantedness constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening induced constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal
uninstitutionalised-threshold (since such a construal fully reflect the reality of a human temporal-to-intemporal reference-of-thought nature, with high ‘constitutedness’ and conjugated-constitutedness of reference-of-thought of temporal-dispositions reference-of-thought, much like the ‘conjugated-constitutedness’ of reference-of-thought of the other BODMAS characters to A’s fundamental postlogism -slantedness pathological condition/constitutedness as when insisting on upholding the <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology ) and not factoring in A’s underlying condition and defect as constitutedness, and so out of sync with the existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of- reference-of-thought- devolving-as-of-instantiative-context as the more fundamental a priori whose imbricatedness/threadedness/recomposuring reveals the fundamental defect of applying additionality reference-of-thought–categorical-imperatives/axioms/registry-teleology by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ). The resolution by imbricatedness/threadedness/recomposuring is most telling of the inherent nature of conflation which is conceptually associated with ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; as conflation speaks of a more profound relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing—<perspective–ontological-normalcy/postconvergence>)/postdication, and so
even when elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity is denaturing as exposed by existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiative-context, to further construe new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation factoring in the imbricatedness/threadness/recomposuring reflecting the existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiative-context. conflation, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiative-context, and so grasped as conflation emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Hence conflation will tend to avoid systemic defects of analysis associated with constitutedness requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. conflation is thus naturally inclined to induce ‘appropriate-existential-elevation-of reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking–differentiation-as-of-supratransversality—apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address
in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the

notion of a ‘Différence-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated temporal-to-intemporal-dispositions. Further, constitutedness and conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-ordialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of ‘meaningfulness-and-teleology’ not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness’—of—reference-of-thought—‘devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as

institutions and especially as influenced by the extended-informality-{susceptible-to-effecting-

the- reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness\textsuperscript{88}—

are critical relative to grasping and analysing human choice/notions relative to ‘reference-of-
thought–categorical-imperatives/axioms/registry-teleology \textsuperscript{99} of meaningful-frameworks. Other
implications have to do with human personality development psychology in relation to
meaningfulness extending to the construal/conceptualisation of language development as well
as aesthetics and virtue as reflecting holographically-<conjugatively-and-transfusively> the
ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}. In a further elaboration of
constitutedness\textsuperscript{12} and conflation\textsuperscript{12} with respect to psychologism, the reason why a
prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-
construct \textsuperscript{12} reference-of-thought psychologism has to do with the fact that every registry-
worldview/dimension has ‘its own specific constitutedness /conflation \textsuperscript{2} psychological
complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-
reality/ontological-veridicality are defined, and this is subpar to the
prospective/transcending/superseding registry-worldview/dimension knowledge-construct
\textsuperscript{2} reference-of-thought which thus needs its own corresponding psychologism for its

identitive-constitutedness’ as constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s ‘meaningfulness-and-teleology<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior constitutedness of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup ‘reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup<amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought- devolving-as-of-instantiative-context—meaningfulness-and-teleology as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of ‘<amplituding/formative–epistemicity>totalising–nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in—warped-consciousness’-enabling- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s—
reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{17} of reference-of-thought-‘devolving-as-of-instantiative-context’ (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of ‘meaningfulness-and-teleology’ orientation as we construe of arithmetic and mathematics in say a ‘universalisation or positivism registry-worldview/dimension Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of ‘meaningfulness-and-teleology’ \textsuperscript{18} <ampliting/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-‘devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of ‘meaningfulness-and-teleology’ like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in conflation\textsuperscript{12} or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of constitutedness\textsuperscript{13}), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework\textsuperscript{19} transcendental-enabling/sublimating/superceratory-de-mentativity and corresponding ‘meaningfulness-and-teleology’\textsuperscript{14}. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to ‘meaningfulness-and-teleology\textsuperscript{15} as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species?
Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology’ as arising and determined by its specific limited-mentation-capacity-as of relative constitutedness in relation to conflation construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of temporal-to-intemporal-dispositions further redefining the possibility of uninstitutionalised-threshold as
the threshold for failing/not-upholding the institutionalisation’s reference-of-thought-categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought–categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence–(implicated-nondescript/ignorable–void–as-to-presencing—absolutising-identitive-constitutedness), the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in excluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness–of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. reifying/elucidating-of-prospective-relative-ontological-completeness’’-of-’’reference-of-thought’’-devolving-as-of-instantiative-context, as conflation, of temporality—as-pseudointemporality-to-intemporality of human individuations as is the case with referentialism as of ontological-normalcy/postconvergence, as so implied by ‘notional–deprocrypticism’), under the positivistic ‘meaningfulness-and-teleology’ reference-of-thought as absolute value-judgment (not withstanding its prior relative-ontological-incompleteness-of- reference-of-thought as positivism–procrypticism); likewise, we’ll necessarily be suspect with regards to a corresponding approach where for instance the
meaningfulness and teleology as value judgment transforms psychological construal/psychologism. The best possible outcome in this regard is as of the construal of a contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it establishes prospective relative-ontological-completeness of reference-of-thought by social universal-transparency -(transparency-of-totalising-entailing, as-to-entailing <amplituding/formative–epistemicity> totalising in relative-ontological-completeness ) as of existential-contextualising-contiguity’s reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context. As setting up the relevant contingent psychology is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by successive registry-worldviews/dimensions construals/conceptualisations by their contingent prospective relative-ontological-completeness of reference-of-thought by social universal-transparency -(transparency-of-totalising-entailing, as-to-entailing <amplituding/formative–epistemicity> totalising in relative-ontological-completeness ) as of existential-contextualising-contiguity’s reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context (that is, ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’), and so successively across all registry-worldviews/dimensions, whether retrospectively or prospectively. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that.
mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposures as of human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening inducing the successive registry-worldviews/dimensions institutionalisations reference-of-thought with their own ‘specific institutionalisation/uninstitutionalised-threshold mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ as of their prospective relative-ontological-completeness reference-of-thought with respect to their social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought devolving-as-of-instantiative-context; with the implications being that social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought devolving-as-of-instantiative-context as of prospective relative-ontological-completeness reference-of-thought redefines prospective meaningfulness-and-teleology and the corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, implying an epistemic-totalising~renewing-realisation/re-perception/re-thought based on prospective maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation ultimately as of ‘notional~deprocrypticism’; as this consciously factors in the reality of the need of transcendence-and-sublimity/sublimation/supererogatory de-mentativity as decentering/pivoting with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and overall existential becoming. This validates
implications-for-explicating-ontological-contiguity\(^1\) of conflation\(^2\) as implied with referentialism as the underlying transcendental memetic suprastructural-meaningfulness fugue reflecting existential-reality will take an even more critical bearing with respect to notional-deprocrypticism psychologism as unlike the articulation as ‘presencing—absolutising-identitive-constitutedness\(^3\)’ (rather heuristically and beyond consciousness-awareness-teleology\(^4\)) in previous institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing,\(^5\) with notional-deprocrypticism conflation\(^6\) is rather bound to be perceived and construed as of the (recomposured)-consciousness-awareness-teleology\(^7\) in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of conflation (including ‘presencing—absolutising-identitive-constitutedness\(^1\)’) can be conceptualised across all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existential-contextualising-contiguity\(^8\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) as the prospective registry-worldview/dimension institutionalisation\(^9\) of reference-of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold\(^10\) reference-of-thought in its ‘constitutedness\(^11\) and conjugated-constitutedness\(^12\) of reference-of-thought’ with respect to the prospective registry-worldview/dimension institutionalisation\(^13\) reference-of-thought overall existential-contextualising-contiguity\(^14\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context of meaningfulness-and-teleology\(^15\); (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning
as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective conflation) supersede mythical supernatral/alchemic explanations psychologism (as of prior constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating/supererogatory-de-mentativity’; interestingly, highlighting how and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective institutionalisation is construed in transcendental-enabling/sublimating/supererogatory-de-mentativity terms as its strive for a prospective relative-ontological-completeness reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of conflation will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness and conjugated-constitutedness’ of reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘ presencing—absolutising-identitive-constitutedness’ when aware of defective constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation
and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; notional–deprocrypticism by its very transcendental essence comprehensively comes into grips with the constitutedness\textsuperscript{13} in positivism–procrypticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness\textsuperscript{11}’ but an overall comprehensive conflation\textsuperscript{1} insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procrypticism. conflation\textsuperscript{12} as of ontological-normalcy/postconvergence referentialism in superseding constitutedness\textsuperscript{1}, provides resolution as of 3 aspects of ‘meaningfulness-and-teleology\textsuperscript{99}’: firstly, with respect to temporal instigating as constitutedness\textsuperscript{13} like psychopathic-slantedness insane-fitment ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology\textsuperscript{99}’ in arrogation and its derivation with respect to temporal reprisings of such constitutedness\textsuperscript{13} as ‘conjugated-constitutedness\textsuperscript{13} of reference-of-thought’ associated with conjugated-postlogism\textsuperscript{7} temporal reprisings by construing/conceptualising such perversion-and-derived- perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> phenomenon, and re-establishing social\textsuperscript{103} universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{87}) that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the\textsuperscript{10} universal aetiologisation/ontological-escalation as of ontological-reconstituting–as-to-conflatedness\textsuperscript{12}; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation–⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{10} of ‘human temporal uninstitutionalised-threshold\textsuperscript{12} mental-disposition’
(speaking of uninstitutionalised-threshold as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’: and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence—(implicated-epistemic-veracity-of nonpresencing—<perspective–ontological-normalcy/postconvergence>), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ushering in notional—depocalyptic as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective
procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and de-mentation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of conflation as of centering and postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought implied with institutionalisations and constitutedness as of decentering and ontologically/preconverging-or-dementing–apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-of-reference-of-thought–devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism–procrypticism from a notional–deprocrypticism perspective, just as we’ll recognise for instance that a universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar
Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompletenessreference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation-
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought–devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset’s-reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology’s-reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework’ outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in
terms—as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> conjure up explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather
points to ‘validating ontological-primemovers-totalitative-framework’ outcomes as its mechanical-knowledge aspect but further requires a development of the discrelional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychology as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of ‘meaningfulness-and-teleology’ synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychology. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of ‘meaningfulness-and-teleology’ as of crossgenerational psychoanalytic-unshackling involving <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality aspect in preempting—disjointedness-as-of-‘reference-of-thought or upholding jointedness’, as de-
mentatively/structurally/paradigmatically transcending the overall vices-and-impediments of positivism–procrypticism registry-worldview/dimension. The further implication is that notional–deprocrypticism is rather construed as a perpetuating metaphysics-of-absence-(implicated-epistemic-veracity-of-‘nonpresencing-<perspective–ontological-
normalcy/postconvergence>)) which driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-
being-as-of-existential-reality can then enable that way the perpetual upholding of organic-
knowledge. This ‘mechanical-knowledge by organic-knowledge’ implication for conceptualising institutional-cumulation/institutional-recomposure-<as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing> is validated by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. This can be further expounded as follows in similar terms. The ontological-contiguity—of-the-human-
institutionalisation-process behind the institutional-cumulation/institutional-recomposure-<as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing> doesn’t only imply that the ontological-contiguity—of-the-human-institutionalisation-process is simplistically the result of ‘social-‘ universally-transparent-and-implicitly-formulated direct-constraining-construct’ successively as: non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random-mental-disposition in recurrent-utter-uninstitutionalisation,
‘rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’ in base-
institutionalisation–universalisation, ‘universalisation-directed-rulemaking-over-non-
from its ‘complementing grander social-—universally-non-transparent-thus-non-constraining-

as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, (beyond the
mere ‘mechanical-knowledge’ of ‘rulemaking-over-non-rules—
apriorising/axiomatising/referencing—psychologism’) as ‘organic-knowledge’, for
maximalising-recomposing-for-relative-ontological-completeness—unenframed-
conceptualisation (as intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposing-for-relative-ontological-completeness)—unenframed-conceptualisation de-
mentating/structuring/paradigming) leading by a dynamic-cumulative-aftereffect to the
subsequent prospective universalisation—non-positivism/medievalism as of the new ‘social-
universally-transparent-and-implicitly-formulated direct-constraining-construct’ of
universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—
psychologism’ as the new ‘mechanical-knowledge’ as well as implying the ‘complementing
grander social—universally-non-transparent-thus-non-constraining-element of ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of
intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, with both forming
the new ‘organic-knowledge’. The ontological-contiguity—of-the-human-institutionalisation-
process carries on this way right up to deprocrypticism, such that across the successive
institutionalisations apart from the intemporal-threshold of the registry-worldview’s/dimension’s—
reference-of-thought-for-social-functioning-and-accordance as explained above; with respect to temporal-thresholds of the registry-worldview’s/dimension’s—
reference-of-thought-for-social-functioning-and-accordance of the registry-
universally-transparent-and-implicitly-formulated direct-constraining-construct’ as mechanical-knowledge is construed as overlapping with the ‘complementing grander social-

ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’ as organic-
knowledge. The reality of ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality driven ontological-contiguity —of-the-human-institutionalisation-process points to the fact that the traditional construal of knowledge often tacitly as of intemporal/longness-of-register-of—meaningfulness-and-teleology is incomplete and rather speaks of ‘vague intellectual intemporal-romanticism’ and doesn’t fit with the reality of human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—
existentialism-form-factor as upheld by the mediocrity principle underlying a rational-realism perspective, and explains why articulating knowledge merely as ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the mere fact of human temporal/shortness-of-register-of—meaningfulness-and-teleology mental-disposition adhering rather to <amplitudes/formative> wooden-language-(imbued—temporal—mere-
form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—

implied by the mechanical-knowledge explaining the successive need for ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to overcome such distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-
romanticism, implicitly where highly pressing we tend to be obliged to recognised this
temporal-to-intemporal reality as implied in the way we go about developing many a social
formal construct. Thus notional–deprocrypticism knowledge as overlapping the mechanical
with the organic, as of the intemporal/longness-of-register-of–meaningfulness-and-teleology
mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality behind the mechanical-knowledge, is a further validation of the idea of
notionalisation/notional-conception/amplituding of knowledge which emphasises in principle
and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human
disposition in relating to mechanical-knowledge as of prospective possibilities for a better
preempting of temporality/shortness and skewing towards the intemporal/longness-of-register-
of–meaningfulness-and-teleology, and so as of organic-knowledge overlapping. Further, the
reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor means that human meaningfulness at all times is more of ‘a
mental-dispositions transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness
that wrongly implies no temporal-to-intemporal-dispositions mental-dispositions’, as any
commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of
social-functioning-and-accordance—as-of–social-stake-contention-or-confliction thresholds’,
with the implication that there is no point acting and relating with knowledge as if it is about a
solipsistic transformation into intemporality/longness but rather relating to it as a
secondnaturing exercise of skewing (‘intemporality’-asymmetric-subsumption-of-
temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality /longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality/shortness in their times). In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality-of-affirmative-and-unaffirmative–disambiguated-’motif-and-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of conflation in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. With regards to the interdimensional/transdimensional/transcendental ontological-contiguity—of-the-human-institutionalisation-process level, we can construe of conflation as of the <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-
thought,-as-to-‘<amplituding/formative–epistemicity>growth-or-conflatedness’/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism. Critically and interestingly with the last stage since our positivism–procrypticism registry-worldview/dimension is necessarily in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as with all ‘present-states’ of registry-worldviews/dimensions as construed from their backend perspectives in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, it would hardly be inclined to interpret such conflation referentialism technique of point-referencing (notional–deprocrypticism) that ‘decenters and dements it beforehand/as-of-a-priori’ on the basis of such ‘doppler-thinking’ based on contingent-ontologising-capacity driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ and thus rendering its meaningfulness-and-teleology—preconverging/dementing—apriorising-psychologism at the positivism–procrypticism uninstitutionalisation, while it ‘pointlessly strives to be centered and postconverging-or-dialectical-thinking—apriorising-psychologism by reflex’ by not recognising its uninstitutionalised-threshold or the procrypticism uninstitutionalisation reference-of-thought in disjointedness-as-of-reference-of-thought (as all ‘present-states’ of registry-worldviews/dimensions do by reflex), and thus rather involved in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
of meaning as of \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\). But then we know and can appreciate that all the prior registry-worldviews/dimensions were ‘decentered and preconverging-or-dementing’–apriorising-psychologism beforehand/as-of-a-priori’ going by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. This ‘anti-transcendence as anti-uninstitutionalised-threshold’ and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold-facet, but with such representation becoming critically ontologically untenable at the registry-worldview/dimension uninstitutionalised-threshold where ‘meaningfulness-and-teleology’ breaks into threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. With regards to individuation terms of human temporal-to-intemporal mental-dispositions (and in further articulation of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with respect to registry-worldviews/dimensions ‘present-states’ as of their \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) in \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\), conflation referentialism technique of point-referencing from the intemporal-projection/intemporality individuation point of point-

In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, involving postdication with postdiciary techniques and postdiciary mindset/reference-of-thought in reflection of the suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more like the positivistic registry-worldview is all about existential positivistic conceptualisations, positivistic techniques and basic positivistic mindset/reference-of-thought superseding existential alchemic conceptualisations, alchemic techniques and a basic alchemic mindset/reference-of-thought that defined the non-positivism/medievalism registry-worldview/dimension); involving ensuring intemporal-disposition organic-comprehension-thinking that upholds-and-is-the reference-of-thought for ontological-contiguity/ontological-veridicality, over threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism by temporal-dispositions meaningfulness hotchpotching disjointing/disparateness/disentailing’ as perverted-and-derived-perverted-reference-of-thought and induces notional-discontiguity/epistemic-discontiguity→<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema> as of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In the bigger
picture of human institutional transcendence-and-sublimity/sublimation/supercracy-de-
mentativity, this is very much in line with the transcending/superseding of human
uninstitutionalised-threshold\textsuperscript{02} ‘with increasing cumulation of placeholder-setup/mental-
devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{03} capacity’ that defined
the successive institutional-cumulation/institutional-recomposure-<as-to-
historiality/ontological-eventfulness\textsuperscript{04}/ontological-aesthetic-tracing> specificities as:
existential base-institutionalising with base-institutionalising techniques and base-
institutionalising mindset/ reference-of-thought (Base-institutionalisation); existential
universalising with universalising techniques and universalising mindset/ reference-of-
thought (\textsuperscript{103}universalisation); existential positivising/rational-empiricism with positivising
techniques and positivising mindset/ reference-of-thought (Positivism); and prospectively
‘existential ontologising’, and so beyond its conventioning ‘incrementalism-in-relative-
ontological-incompleteness\textsuperscript{05}—enframed-conceptualisation disjointedness-as-of\textsuperscript{06} reference-of-
thought as of temporal-accommodation of positivistic meaningfulness, as ‘existentially utter
postdicatory ontological-normalcy/prospective-transcendence-in-perpetually-upholding-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, with postdicatory
methods and techniques and an overall postdicatory mindset/ reference-of-thought
(deprocrypticism). Existential ontologising is effectively the human placeholder-setup/mental-
devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{09} aspiration towards a
fulsomed grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-
normalcy; all along the institutional-cumulation/institutional-recomposure-<as-to-
historiality/ontological-eventfulness\textsuperscript{04}/ontological-aesthetic-tracing> levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-
teleology\textsuperscript{09} capacity the preceding institutionalisation levels are more like successive compromises towards notional–deprocrypticism as ontological-normalcy/postconvergence
(prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). A critical distinction between notional–deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity\(^7\) thus overcoming the temporal-emananances-registries hotchpotching (<amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of--meaningfulness-and-teleology\(^8\)-as-of-

banality-of-thought dynamism, and specifically in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology \(^9\)) even though it is very much present in the formal sphere as well) and the \(^8\)incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and notional–disjointedness-as-of-reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity going from procrypticism, or the preconverging-or-dementing\(^{19}\)—apriorising-psychologism (perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\text{as to preconverging-or-dementing—apriorising-psychologism)}\) of positivistic \(^9\)meaningfulness-and-teleology \(^9\), to notional–deprocrypticism will involve a psychoanalytically preconverging-or-dementing—apriorising-psychologism deconstruction/ontological-reconstituting—as-to-conflatedness \(^2\) of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology \(^9\) wherein this is presently postconverging-or-dialectical-thinking\(^9\)—apriorising-

It should be noted that human uninstitutionalised-threshold refers to the point where a specific institutionalisation is failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation by a formulaic
recomposured-consciousness-awareness-teleology capacity in human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity that are enablers of the associated institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing: for base-institutionalisation the circumspection is one of contrastive uninstitutionalised-threshold institutionalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding institutionalisation; with universalisation the circumspection involves contrastive ununiversalisation–and–universalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding universalisation; with positivism the circumspection involves contrastive non-positivism/medieval/alchemic–and–positivism/rational-empiricism analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding positivism/rational-empiricism; and prospectively, for notional-deprocrypticism the circumspection will involve contrastive temporal-to-intemporal-dispositions analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism, respectively as the mental-devising-representation of postconverging-or-dialectical-thinking—apriorising-psychologism representation and preconverging-or-dementing—apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a
social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional–deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness/> ontological-aesthetic-tracing> meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/knowledge-reification/ontological-prime movers-totalitative-framework backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/> issues (issues arising from the tempering or false implying of the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental
ontological-preservation ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ as non-positivism/medievalism intemporally calls for positivism), - positivism institutionalisation/intemporalisation (prospectively, whose ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ as procrypticism intemporally calls for deprocrypticism), - and prospectively notional–deprocrypticism institutionalisation/intemporalisation (whose ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise that ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘temporal-to-intemporal-dispositions’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at
uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced-threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as amplituding/formative–epistemicity-totalising–renewing-realisation/re-perception/re-thought
of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the
psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-
framework of the world/intrinsic reality. Basically, we can say that human-
emanant/becoming-transcendence is the first level of human invention (incremental inventions
of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own
philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity to liberate themselves before secondnaturing/institutionalising for the new
possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos,
Newtons, Darwins… of the world, miraculously came up with positivism to
supersede/precede/override/utter medievalism, as they were of medieval stock but by
philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity could
project beyond the limits of non-positivism/medievalism even were they were still imbued with
remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually
critical)! Now what positive can come from psychopathy? From the intemporal perspective
NONE. Besides specific social consequences of psychopathy as the context of ‘socially-
perceived-value as of social-stake-contention-or-confliction’ moves from family,
neighbourhood, school, company, administration, business, criminality, etc. depending on the
development of the specific psychopath; by and large, ontologically and as reflected by the
organic-comprehension-thinking (organicism/intemporal-prioritisation-of-reference-of-
thought’–as-conflatedness’-or-ontological-reprojecting/longness-of-register-of-
meaningfulness-and-teleology’), the psychopath’s and other postlogic articulations have a
nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of
extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to–meaningfulness-and-teleology’) of society in general and social
institutions, as the postlogic/perversion-of-reference-of-thought-as-effectively-apriorising-

meaningfulness-and-teleology requires prospective base-institutionalisation—ununiversalisation which as of its inherently-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—state-in-relation-to—meaningfulness-and-teleology requires universalisation—non-positivism/medievalism which as of its inherently-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—state-in-relation-to—meaningfulness-and-teleology requires positivism—procrypticism as of its inherently-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—state-in-relation-to—meaningfulness-and-teleology, and prospectively positivism—procrypticism which as of its inherent disjointedness-as-of-reference-of-thought requires deprocrypticism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, with the idea that reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overriden by new reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism with regards to the preceding reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding—
reference-of-thought–categorical-imperatives/axioms/registry-teleology

for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human temporal-to-intemporal-dispositions as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue).

This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicism/’intemporal-prioritisation-of—reference-of-thought’–as-conflatedness—ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—to—preconverging/dementing—apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal
implications on human civilisation of postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism as to existential-contextualising-contiguity and by reflex will tend to see prelogic supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism narratives while the psychopath is of postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) and does has an covert vista (when the interlocutor is not forewarned/experienced about its nature) in wrongfully inducing a sense of supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism in the normal mind by compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation projective narrating (an insight that is easily picked up seeing the childhood psychopathy growing into an adolescent and an adult, as its more covert mental structure at adulthood can be retraced and associated to the awkwardness of expression at early life in understanding what the adult psychopath is up to), hence the reason a mind in search of
supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism (normal prelogism -as-of-conviction,-as-to-profound-supererogation mind) will speak of a pathological liar, by liar wrongly granting the psychopath a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism, be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking—apriorising-psychologism’, in the very first place, hence aligning integratively to the psychopath instead of aligning in transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’. It is rather a flaw in the prelogism-as-of-conviction,-as-to-profound-supererogation mind’s perception (prelogism or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism while the psychopath’s mental-disposition is formulaic slanting—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism in preconverging-or-dementing—apriorising-psychologism)! Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojective approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emanant projections of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of—reference-of-thought—devolving ontological-performance—<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition
(as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality -asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory(-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to ‘universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a temporal-to-intemporal-dispositions creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews ('intemporality'-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ (institutionalised, formalised and internalised). This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good
as longness-of-register-of–meaningfulness-and-teleology ) than temporal (shortness-of-register-of–meaningfulness-and-teleology ) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing temporal-to-intemporal-dispositions disambiguation with a de-mentation-
preconverging/dementing —apriorising-psychologism. Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a de-mentating/structuring/paradigming of the human present as modern into a de-mentating/structuring/paradigming of across-and-of-all-times! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposing
—ontological-eventfulness> or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposing from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency
survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity-or-ontological-preservation covers the concepts of temporal preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity-or-ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-preconverging-or-dementing-apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation across the
that their disposition is effectively intemporal and not temporal. de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), as to its corresponding notions of preconverging-or-dementing\textsuperscript{15}–apriorising-psychologism-＜stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase＞ and postconverging-or-dialectical-thinking\textsuperscript{16}–apriorising-psychologism-＜stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase＞, are central to transcendental psychoanalytic-unshackling and memetic-reordering. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of de-mentation-
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as of preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-
oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> notwithstanding their wrongly projected postconverging-or-dialectical-thinking\(^\circ\)–apriorising-psychologism-
<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology\(^\circ\) hence wrongly implying candored and straightness, whereas these are in effect <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^\circ\) iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing\(^\circ\)–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\(^\circ\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing\(^\circ\)–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\(^\circ\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the \(\text{de-mentation-}
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can
be calculating the sum \((5 \times 5)+5\) –5, and make the mistake to say \(5 \times 5 = 24\) but then overlook it
and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\).

This type of non-ontological thinking (a non-ontological thinking is also known as a
misanalysis or mishinking or misreasoning or mislogic or preconverging-or-dementing—we–
apriorising-psychologism−<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-

discontiguity/epistemic-discontiguity or <shallow-supererogation−of-mentally-
aestheticised−preconverging/dementing −qualia-schema>, as there is no veridical
meaningfulness that exists out of ontology or isn’t in ontological-contiguity) is highly
prevalent in the extended-informality−(susceptible-to-effecting-parsimony-as-of-shoddiness-
and-incompleteness-to–meaningfulness-and-teleology) of society as social-aggregation-
enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws,
institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition
constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man
that adjusts to reality. The de-mentation−(supererogatory−ontological–de-mentation-or-
dialectical–de-mentionation—stranding-or-attributive-dialectics),−in-a-contiguity-of-increasing-
ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively
demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought−<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> speaks of the real nature of its present and prospective narratives as
decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex
as well as for the sake of functioning we tend to represent by default such miscuing and
perversion-of-reference-of-thought−<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation meaning as
straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging /mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attribute-dialectics) ensure an affixing of temporal-dispositions perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation teleologic orientations denaturing to the corresponding temporal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > mindsets in their ontological-escalation/aetiologisation without letting for a disjunction/skipping into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding (‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology ,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation of a non-positivism/medievalism mindset/ reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/ reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/ reference-of-thought by way of de-
mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding–or-attributive-dialectics) from the intemporal positivistic mindset, and upholding such the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/ reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews in the th and early th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality /longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflectedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-
dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging’/mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold’, i.e. the reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). Ultimately and in the bigger picture, (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising) and entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and with regards to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-

is well beyond the idea of just a ‘de-mentative/structural/paradigmatic argumentation

(based-on-the—categorical-imperatives/axioms/registry-teleology—of-the-registry-

imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality / longness instead preserving prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness-and-teleology towards the ‘institutionalisation/intemporalisation percolation-channelling’ as secondnaturing of the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivistic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology. Rather the positivistic mindset/ reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectivenes and supersedingness/transcendence breaks
the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional’ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism when it is demonstrated that it is perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as perversion-of-the—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and rather syncretises in operating those same reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold. The reason for the human
‘transcendental/transdimensional/interdimensional’ maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology—ontology-preservation-entropy-or-contiguity—ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existent-depth-implications) personhoods-and-socialhood-formation and hence the complex when <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation, as-to-preconverging-or-dementing—apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding—<as-of-apriorising/axiomatising/referencing> its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness /ontological-aesthetic-tracing> ontological-contiguity—of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional—deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning
disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the “presencing—absolutising-identitive-constitutedness” consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as notional—deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity which involves de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by decandoring/oblongating (representation of perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) on the basis of the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor rationally, and ontologically represents the social-construct (as
validated by the ‘shifting relation of social conventioning and purist ontology’) as being in
effect ‘a highly cohesive de-mentating/structuring/paradigming’ at
institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation but ‘a poorly cohesive extricatory de-
mentating/structuring/paradigming’ at uninstitutionalised-threshold. The notion of the social-
construct as intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-
mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human
intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic
human nature due to a temporal-to-intemporal-dispositions human reality, and thus the need for
institutionalisation to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for
relative intrinsic-reality/ontological-veridicality/transcendental-enabling/sublimating/supercorory–de-mentativity) towards intemporality/intemporal-
preservation as human secondnaturing. This elucidation is vital in pointing out that the
teleology of rational-realism as notional–deprocrypticism (with teleology fundamentally
construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as
ontological (so-reflecting <amplituding/formative>disposedness–as-to-orientation/value-
construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment–as-
to-totalising-contiguous/coherent–factuality-of-variability)’ and so as to the specific human-
subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-
epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-
apriorising/re-axiomatising/re-referencing–conceptualisation>, is not to strive for the wrong
notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as
human dispositions are not congruent, as thus the idea of ontological-congruence of the
intemporal-disposition with temporal-dispositions will compromise intemporality\(^5\), and hence compromise ontology), but rather to aspire for a transversality-of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing\(^{101}\) of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human temporal-to-intemporal-dispositions at uninstitutionalised-threshold\(^{102}\)). That is, knowledge-notionalisation involving grasping and understanding both the ignorances/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-{preconverging-or-dementing\(^{19}\)-as-if-of-sound-knowledge}/mimick-and-syncretise at uninstitutionalised-threshold\(^{102}\) with the dialectical consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing\(^{101}\) and not nested-congruence to uphold intemporality\(^5\), and hence a complete ontology. To put it in other terms, for instance, transversality-of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing\(^{101}\) of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality-of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing\(^{102}\) among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is
transcendental-enabling/sublimating/supererogatory-de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory-de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of “reference-of-thought-devolving ontological-performance”<including-virtue-as-ontology>. * It should be noted that in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normalcy/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology/) do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development—as-to-social-function-development and living-development—as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology/). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms—as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory dementating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sublimity/sublimation/supererogatory/de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory/de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional~deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per temporal-to-intemporal-dispositions going by a de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology to longness-of-
register-of– meaningfulness-and-teleology\textsuperscript{1} with respect to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure-<as-to–historiality/ontological-eventfulness\textsuperscript{1}/ontological-aesthetic-tracing> process. ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘temporal-to-intemporal-dispositions accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal \textsuperscript{1}perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation /> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism\textsuperscript{2}-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought- devolving ontological-performance’-<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing\textsuperscript{1}–apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions \textsuperscript{1}perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation /> whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-

In this regard, the hermeneutic/reprojective exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojective design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojective insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as prospective reference-of-thought of renewing existentialism/full-depth-of-existential-implications of transdimensional-meaningfulness–

To further elucidate, the underlying idea of ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness-or-ontological-reprojecting (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional~projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without notional-discontiguity/epistemic-discontiguity<shallow-supererogation>–of-mentally-aestheticised–preconverging/dementing–qualia-schema>-as-of-epistemic-decadence in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-

Well’s country of the blind de-mentating/structuring/paradigming, for instance), or worst still in teleologically-degraded social situations that may be mobbish or genocidal, wherein by our illusion-of-the-present/present-consciousnessas<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag we apparently demonstrate such qualities but ontologically we aren’t veridically intemporal-preservational? And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism, with their evolving reference-of-thought–categorical-imperatives/axioms/registry-teleology wherein prospective meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>  The only answer that cuts it in all ways, is inevitably intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (mentation-capacity-wise, as longness-of-register-of-meaningfulness-over-shortness-of-register-of–meaningfulness-and-teleology, more than just an abstraction as it carries the notion of a contiguous existentialism/full-depth-of-existential-implications transdimensional-meaningfulness/memetic-refinement as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Even the idea of morality as being construed as of a sense of
morality is vague self-referencing, as it is rather virtue as of knowledge-construct/intersolipsistic-intercessory-notion/notional-referential-notion/articulation of superseding–oneness-of-ontology enabling the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{66}\)—of-the-human-institutionalisation-process\(^{67}\) of successive registry-worldviews/dimensions that is truly of ontological relevance. The idea of conceptualising morality out of such ontology-driven basis is more or less delusional however ‘good-natured’ when we consider that even a community of miscreants will have to construe of a semblance however perverted of moral conceptualisation that allows for individuals self-preservation and only of a degree of variance however big such a variance is perceived with supposed grander moral conceptualisations that do not factor in the de-mentative/structural/paradigmatic relation of virtue to ontology as of successive developing prospective relative-ontological-completeness -of- reference-of-thought. As semblances of virtue-constructs out of ‘sense of good-naturedness’ not factoring in the ‘unchangeable’ reality of human temporal/shortness-of-register-of—meaningfulness-and-teleology\(^{55}\) and intemporal/longness-of-register-of—meaningfulness-and-teleology\(^{99}\) mental-dispositions across all registry-worldviews will simply ‘out of goodnaturedness and naivety’ provide an ontologically-flawed deterministic framework that subject to temporal undermining by the adherence to the ‘<amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification\(^{86}\}/akrasiatic-drag/denatured/preconverging-or-dementing\(^{19}\)—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology—}\) of prior/transcended/superseded registry-worldview/dimension’ in subverting intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, pointing to the pertinence of analysing virtue and ontology contiguously as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality so-construed as organic-knowledge. The reason behind this conclusion is that in all registry-worldviews/dimensions apart from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, the "reference-of-thought ‘fundamentally carries an underlying defect of relative-ontological-incompleteness’ irrespective of the arising of a "reference-of-thought incidental issue as of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance in the very first place and so beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>, that makes it fundamentally ontologically unsound; and as highlighted before the non-positivism/medieval state of being superstitious and non-positivistic is an underlying foundational problem (as the registry-

This elucidation is important because an insightful storied-construct/ontologically-valid-narration with regards to psychopathy and social psychopathy and the overall relative-ontological-incompleteness-of-reference-of-thought as the underlying disjointedness-as-of-reference-of-thought of procrypticism relative to prospective ontological-completeness-of-reference-of-thought as notional–deprocrypticism will fundamentally be based on such contrastive mental-projections/psychologisms as of non-transcendental as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective and the primacy of transcendental perspective (inherently so because the state of prospective relative-ontological-completeness-of-reference-of-thought precedes and supersedes the state of prior relative-ontological-incompleteness-of-reference-of-thought by
intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold involving the subknowledging/mimicking-and-syncretising of the reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness known as procrypticism–or–disjointedness-as-of-reference-of-thought, calling prospectively for deprocrypticism. Without ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting disposition the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s
operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of- reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of- reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance $7(\sqrt{64}+3-1)-(6+4-2)\div2$. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-1=10$. For the second brackets, addition as $6+4=10$, then subtraction as $10-2=8$. The division operation then follows with the second brackets result as $8\div2=4$. Then the multiplication operation with the first brackets result as $7\times10=70$. Finally, comes the subtraction with $70-4=66$.
as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as \( \sqrt{64} = 8, 8+3=12, 12-1=11, \) for the first brackets, and \( 6+4=11, 11-2=9, \) for the second brackets. The division operation with the second brackets yields \( 9\div 2=4.5, \) and the multiplication operation with the first brackets yields \( 7\times 11=77. \) Finally, subtracting both brackets gives \( 77-4.5=72.5 \) as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity\(^{16} \) as of their relative-ontological-incompleteness\(^{16} \)-induced,- ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow–supererogation’— preconverging/dementing –apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective), as \(^{16} \)reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{16},-\)for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived- perversion-of- reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation -> as-of-unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought, as ontological-veridicality/ontological-contiguity\(^{16} \) of \(^{16} \)reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) precedes projected <amplituding/formative> wooden-language-\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing\}—

Thus the new categorical-imperatives/axiom/registry-teleology -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-
teleology, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation
which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger

In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of \langle \text{perversion-of-} \text{reference-of-thought-} < \text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} \rangle > \text{dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation dispositions by all the other characters (B, O, D, M and S). not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supernormal/overerogatory-de-mentativity with the present registry-worldview/dimension corresponding to the superseded perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought-categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic-as-to—transversality-of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing going beyond the reference-of-thought—categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence
(prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking’–apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing’–apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) behind the successive institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/<ontological-aesthetic-tracing>, wherein the dialectically transcending/superseding institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/<ontological-aesthetic-tracing> of relatively deeper limited-mentation-capacity-(as of relative conflation) is the shifted reference-of-thought (dialectically-in-phase) and is thus of ‘postconverging-or-dialectical-thinking’–apriorising-psychologism mental-devising-representation’ as it is in (postconvergence) ontological-veridicality/ontological-contiguity while the prior transcended/superseded institutional-cumulation/institutional-recomposure<-as-to-historiality/ontological-eventfulness/<ontological-aesthetic-tracing> of relatively shallow limited-mentation-capacity-(as of relative constitutedness) is no longer the reference-of-thought (dialectically-out-of-phase or dialectically-primitive) and is thus of ‘preconverging-or-dementing’–apriorising-psychologism mental-devising-representation’ as it is of notional-discontiguity/epistemic-discontiguity<-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>; thus transcendentally coming into grips with a shifting but more and more profound notion of reference-of-thought (in-phasing) and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-
normalcy/postconvergence. The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging-impulse/compulsive-dementing/postlogism\textsuperscript{7} in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex–logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<-iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’\textsuperscript{7}\textsuperscript{8} as absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowledging-impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute
condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant\(^1\), unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold\(^2\). Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^3\) thus effectively producing the wrong result \(72.5\) for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold\(^4\). The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new \(^5\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^6\), for intemporal-preservation-entropy–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from \(72.5\) to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing\(^7\)–reference/ontologically-veridical/ontological-contiguity\(^8\) registry-worldview/dimension) is known as \(\langle\text{de-mentation}\rangle\) (supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive-dialectics). Even though going by its illusion–of–the–present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold\(^9\) of ‘ontological-thinking (not preconverging–or–dementing –apriorising-psychologism–<stranded–as–rightfully–oblongated/decandored–and–dialectically–or–contendingly–out–of–phase> which is ontologically wrong, just as all <amplituding–formative–epistemicity>totalising–self–
referencing-syncretising/illusion-of-the-present/present-consciousness registry-worldviews/dimensions do at their uninstitutionalised-threshold. For instance, the recurrent-utter-uninstitutionalisation mindset/reference-of-thought doesn’t think of itself that way but rather as a nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology-as-of-notional–deprocrypticism-reflected- historiality/ontological-eventfulness /ontological-aesthetic-tracing with respect to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, and such a representation of its mentation is the invention/mental-devising-representation of the base-institutionalisation mindset by its better ontological-completeness-of-reference-of-thought, likewise with ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively with procrypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a preconverging-or-dementing–apriorising-psychologism mental-devising-representation of our perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to the denaturing of the reference-of-thought–categorical-imperatives/axioms/registry-teleology ,for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’/soundness-

or-dementing apriorising-psychologism and so in or absolving/fleeting/escaping-reflex-logic, from one set-of-postlogic-narratives to the other
and one set of interlocutors to the other, in line with its ‘short cut’ mental relation to
meaningfulness as extrinsic-attribution (the temporal eliciting of the temporality/shortness of
others is the sufficient basis for getting one’s way) as opposed to intrinsic-attribution wherein
the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its
pertinence and upholding. This subknowledging-impulse/compulsive-dementing disposition
points out that the actual and given meaningfulness being subknowledged/pervertedly-
represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-
faith/authenticity-of-reference-of-thought-wise) and logic-wise (the normal arithmetic
operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-
veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-
comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-
conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-
teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-
faith/authenticity-of-reference-of-thought-wise) and logic-wise striving for intemporal-
preservation-entropy-or-contiguity—or–ontological-preservation. It is the superseding and
intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and <amplituding/formative–epistemicity>–totalising–self-referencing-synecretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-><as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in 72.5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema’ rather than which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—as-apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging⁄-or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in  de-mentation–(supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics) at that uninstitutionalised-threshold . The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism⁄’intemporal-prioritisation-of- reference-of-thought’–as-conflicatedness⁄-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology ) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual
and virtue driven aetiology/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification⁹/ontological-prime mover-totalitative-framework¹² construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-temporal-to-intemporal-dispositions-with-consequential-positivistic-meaningfulness-perversion preconverging-or-dementing¹⁹—apriorising-psychologism, resolved by deprocrypticism. Comparatively, for instance, articulating new reference-of-thought—categorical-imperatives/axioms/registry-teleology¹⁰—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to resolve the uninstitutionalised-threshold⁰² from ⁷.⁵ to the ontologically-veridical, and so not only with regards to the specific but as a de-mentative/structural/paradigmatic institutionalisation/intemporalisation for perpetuating intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This pedestalled articulation points out that the organic-comprehension-thinking (organicism/'intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology⁰⁹) pedestal (ontological-veridicality/⁰ reference-of-thought) is transversal/transversality-of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing¹⁰¹ and not actually in logical-congruence with both the subknowledging—impulse/compulsive-dementing pedestal (ontological-decandence/non-ontological-reference/non-contending-reference—but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing¹⁹—apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing—reference) and the threshold-of—nonconviction/madeupness/bottomlining—as-to-shallow-supererogation⁰⁶—preconverging/dementing —apriorising-psychologism pedestal (epistemic-decandence/non-

preconverging-or-dementing–apriorising-psychologism (as their implied—logical-dueness-or-
scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and
teleology are all undue and pervertedly implied). So we then speak of an utter/
maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (not
incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation)
‘ordered construct’ of the meaningfulness of the intellectual aetiologisation/ontological-
escalation as the organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-
reference-of-thought’–as-conflicatedness -or-ontological-reprojecting/longness-of-register-of–
meaningfulness-and-teleology) pedestal reflecting/perspectivating/highlighting (reasoning-
through-and-not-reasoning-with) the registry/registry-worldview defects of both the
subknowlding -impulse pedestal and the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing –apriorising-psychologism pedestal. Ontologically-speaking, a
temporal naivety with regards to psychopath and its protraction as social psychopathy is that
going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards
‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis
for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-
attribute involving social-and-temporal-trading can have any bearing to the ontological-
veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations
often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand
blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-
speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a
‘sense of intemporality’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality /shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–meaningfulness-and-teleology nature. But that will still be temporality /shortness and the notion of an aetiologisation/ontological-escalation as of intemporality /longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/> with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-
chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicalism/"intemporal-prioritisation-of" reference-of-thought—"as-conflatedness"—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology ) pedestal, both in apriorising—registry and registry-worldview terms as it is reflected/perspectivated as de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, and has nothing to do with issues of defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional—deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-
positivism/medievalism societies are ontologically about subknowledging\textsuperscript{94} reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{94} as-of-unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{94} reference-of-thought/preconverging-or-dementing\textsuperscript{94} apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology–intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as present day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset\textsuperscript{94} reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging -impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging\textsuperscript{94} impulse/compulsive-dementing pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or universal.
across all times (postlogism-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of–nonconviction/madeuponness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism pedestal which is rather an extricatory de-mentating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing—an apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-‘reference-of-thought’–as-conflicatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology-, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-
mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/ reference-of-thought in organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’)/‘intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’–or-ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging-impulse/compulsive-dementing mindset/ reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal
mindset/reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural-~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-mentative/structural/paradigmatic <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging-impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing—apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing—apriorising-psychologismly striving to establish and examine whether the accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness -or-ontological-reprojecting/longness-of-register-of– meaningfulness-and-

In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing apriorising-psychologism as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically-or-contendingly-out-of-phase and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The reason for the above ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling is simple. ‘Intemporal-prioritisation-of reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-
conflatedness-or-ontological-reprojecting as longness-of-register-of-meaningfulness-and-teleology of notional–deprocripticism superseding the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

This conceptual de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of (superseded registry/registry-worldview-or-dimension) mental-devising-representation as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (preconverging-or-dementing–apriorising-psychologism) and (superseding registry/registry-worldview-or-dimension) mental-devising-representation as straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness-or-ontological-reprojecting with respect to circumventive/distractive-temporal-prioritisation-of–reference-of-thought as the former is ‘utter’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at /intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of–reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation as per percolation-channelling and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturing (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding). Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than ) whether it is failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised–preconverging/dementing–qualia-schema>) with respect to the notion of reference-of-thought–categorical-imperatives=axioms/registry-teleology , for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and so, especially when postlogic and integrating the hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of postlogism or postlogism as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation–(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness).

And critically, it should be noted that ‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness–or-ontological-reprojecting is about the-Good/understanding/knowledge-reification /ontological-prime-movers-totalitative-framework conceptualisation as registry-worldview/dimension defining, and not about good-naturedness/vague-temporal-impression-driven notions that may arise in circumstantial situations. This Arithmetic ontological-
contiguity comparison equally gives an insight on why temporal-to-intemporal-dispositions-pedestals-disambiguation is needed with 3 pedestals: organic-comprehension/intemporal-prioritisation-of-reference-of-thought—as-conflatedness-or-ontological-reprojecting pedestal for which the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontology supersedes perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (as prior intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology ) which are actually meant to represent it at uninstitutionalised-threshold, threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism pedestal for which reference-of-thought—categorical-imperatives/axioms/registry-teleology ,for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are wrongly related to as an end by themselves at uninstitutionalised-threshold, and postlogic-including-psychopathic/subknowledging—impulse/compulsive-dementing/vague-rhyming-or-copied-mimicry—or-formulaic-projection-or-projection-of-form—or-hollow-and-vague-vocalisation-or-subknowledging pedestal for which the hollow form of reference-of-thought—categorical-imperatives/axioms/registry-teleology ,for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of reference-of-thought and meaningfulness is a sound existential construct. That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional—projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation

In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a seconndnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold\textsuperscript{13} speaks of that apriorising–registry’s or registry-worldview’s/dimension’s reference-of-thought de-mentation\textsuperscript{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) preconverging-or-dementing –apriorising-psychologism-\textlangle stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textrangle (as it is ‘devoid of \textsuperscript{3} reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’) given its epistemic-

de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >,

de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity.
reification/superseding–oneness-of-ontology. This involves maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentionation—(supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding—or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness—of—reference-of-thought and relative-ontological-completeness—of—reference-of-thought. The implication is that soundness—or-ontological-good-faith/authenticity—of-reference-of-thought—of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing—apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentionation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentionation conceptualisation, on those very same
terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblengated/de canned-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness—deprocrypticism—or—preempting—disjointedness—as-of-reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) effectively will seem to place human (recomposuring)-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively <amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification}/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving de-mentating/structuring/paradigming), and with specific evolving percolation-channelling for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Fundamentally, without the possibility of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) de-mentability-of-the-human-psyche-for-

As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation \( \vdash \) reference-of-thought–categorical-imperatives/axioms/registry-teleology \( \ni \) is possible. This is because \( \text{de-mentation-} \langle \text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} \rangle \) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dements the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of-reference-of-thought but preconverging-or-dementing–apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold’ and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of-reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-

superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation[96]—preconverging/dementing[19]–apriorising-psychologism, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, subknowledging’-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging’-normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold[102]—defect-<as-Being-or-ontological-or-existential–defect> brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that carries the intuition of an uninstitutionalised-threshold[102], and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold[102]—
defect-<as-Being-or-ontological-or-existential–defect>’ term thereafter, we grasp that it is the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> (and not about defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-inconviction-as-to-profound-supererogation ) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation). Specifically, de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>/not-just-a-logical-processing-or-an-implicitation-of-act-execution-or-a-implicitation-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing–apriorising-psychologism’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the–’preconverging-or-
dementing\textsuperscript{7}—apriorising-psychologism of positivistic-meaningfulness) \textsuperscript{1} de-mentation-
(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) (with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{7} meaningfullness-and-teleology\textsuperscript{1} as of prospective deprocripticism). A similar articulation can be made with regards to each of the other deconstructing terms where \textsuperscript{1} de-mentation-
(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of- reference-of-thought’—as-conflatedness\textsuperscript{1}—or-ontological-reprojecting
reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\textsuperscript{2}—reference). Furthermore, by its de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), \textsuperscript{1} de-mentation-
(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) is the only notional term that operantly and deterministically projects the requisite psychoanalytic-unshackling/memetic-reordering/recomposuring/new-mentation with regards to the implied veridical existentialism/full-depth-of-existential-implications taking into account the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor hotchpotching wherein sound knowledge/virtue is pliable to temporal denaturing and corresponding conjugation/derivation thus the need for knowledge-notionalisation as a response to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor dilemma. The very central idea about procripticism and notional—deprocripticism (and for that matter the successive relative-ontological-completeness dialecticisms of the institutional-cumulation/institutional-recomposure—<as-to-
(supererogatory—ontological—de-mentation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics)) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distractive-temporal-prioritisation-of—reference-of-thought. That is de-mentionation{(supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory—de-mentionativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing> mindsets, notwithstanding the fact that the de-mentionation{(supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics) (of their reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrence-of-utter-uninstitutionalisation, base-institutionalisation—
ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrysticism and prospectively perpetuation-of-deprocrysticism) is as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procrypticism) and implying a prospective need for deprocrysticism. Postdication, when alluding to an de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing–apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of temporal-to-intemporal-dispositions, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought’ while the prospective/transcending/superseding registry-worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking –apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of-
reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising–registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩. Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-
teleology\textsuperscript{9} for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation dialectically implying an de-mentation—\{supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or-attributive-dialectics\} of transcended\textsuperscript{13} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9} for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in our present case, notional—deprocrypticism of \textsuperscript{8} procrypticism—or—disjointedness-as-of—reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments\textsuperscript{10} of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments\textsuperscript{10} of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and\textsuperscript{10} universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance \textsuperscript{7}\textless{including-virtue-as-ontology}> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately\textsuperscript{10} universalising and detached meaningfulness by percolation-channelling’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendency of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\textsuperscript{9}} would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity from procrypticism to notional–deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) may be to think, given our own illusion-of-the-present/present-consciousness as amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that such an analysis applies only to prior institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves; as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by
the way all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meet with some resistance or the other and thus a reason for transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality/longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality,
is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the
temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for
themselves; for the one to rather carry the mantle from one royal court to the other of affirming
the possibility of human emancipation (by which we are all percolatively benefiting from
today) or the other the mantle of a principled engagement and possibility of science starting
with an uncompromising supplanting–conviction-as-to-profound-supererogation —
postconverging/dialectical-thinking –apriorising-psychologism from observation that the earth
is not at the centre of the solar system, by which a culture of science came to be established.
And finally, how coherent are temporal meaningful frames built from such intemporal grand
principles but lived on temporal dispositions in extrication in contradiction to such
philosophies, and what is the very relevance of such temporal enculturation and endemisation
to present-day social and institutional failures in society? And what’s the role of ‘intellectual
irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness,
precedingly/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-
or-contiguity—or–ontological-preservation) is the reason for human registry-
worldview/dimension perversion-of reference-of-thought-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect at
uninstitutionalised-threshold; implying that ‘ontological-normalcy/postconvergence’ is
actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-
entropy-or-contiguity—or–ontological-preservation beyond the defective ‘intradimensional-
subknowledging -normalcy or reflex-normalcy’ which is rather an <amplituding/formative-
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
(illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of
prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity at its own
(limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously
and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrypticism—or—disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as deprocrypticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging—normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect as de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics as against the defective reflex-normalcy/intradimensional subknowledging—normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is more than just the instigating effect of the subknowledging—impulse/compulsive-dementing (psychopathic postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) but
harkens back to the notion of the intraregistry-worldview/dimension limited-mentation-capacity-deepening⁷/uninstitutionalised-threshold⁸ in the very first place. As this is the de-mentating/structuring/paradigmising disposition for the possibility of ‘perversion-of’ reference-of-thought→as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > requiring ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation. For instance, such perversion-of-reference-of-thought→as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as witchcraft in the non-positivism/medievalism registry-worldview/dimension is fundamentally implying de-mentatively/structurally/paradigmatically a need for the right human mentation-capacity as the prospective transcence-and-sublimity/sublimation/supererogatory-de-mentativity of a positivistic registry-worldview/dimension, and likewise de-mentatively/structurally/paradigmatically regarding procrypticism–or–disjointedness-as-of-reference-of-thought with notional–deprocrypticism (as the-Good/understanding/knowledge-reification⁹/ontological-primemovers-totalitative-framework and not good-natured/vague-impress construct). Ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation, beyond defective intradimensional-subknowledging⁶-normalcy/reflex-normalcy, points to factoring in temporal-to-intemporal-dispositions disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition→reference-of-thought→categorical-imperatives/axioms/registry-teleology¹⁰, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-

to what is the grander individual-and-social good as positive-opportunism”. For instance,

achieving base-institutionalisation requires that it should be brought to the collective-
consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-

uninstitutionalised for the grander individual-and-social good as positive-opportunism”. Once

this enters the collective-consciousness this leads to an inclination for a renewed

apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-
contendingly-out-of-phase>, as it is recurrently-uninstitutionalised, as the backdrop for the

straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-
worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness ontological-aesthetic-tracing> of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling as setup from positive-opportunism for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling (undermining <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}> or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness ontological-aesthetic-tracing>, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology); all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of—meaningfulness-and-teleology) over temporal-dispositions (shortness-of-register-of—meaningfulness-and-teleology) as percolation-channelling not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the amits of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality’-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory—de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework to construe knowledge and virtue conceptualisations as this is what proxies/syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag but are often defective by lack of universality, not ontologically-driven in terms–as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of—meaningfulness-and-teleology. In this light, the articulation of the ontological-veridicality/reference-of-thought of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor-pedestals-disambiguation of our mental-devising-representation in explication of our ‘mentation capacity limitations’ accounting for our perversion-of-reference-of-thought—vices-and-impediments peculiar to our own registry-worldview/dimension (procrypticism—or—disjointedness-as-of-reference-of-thought) or perversion-of-reference-of-thought—of positivistic meaningfulness, beyond our illusion-of-the-present/present-consciousness (just as non-positivism/medievalism ‘structurally-explains’ the peculiar vices-and-impediments and de-
mentative/structural/paradigmatic inhibitions to human emancipation requiring prospective positivism with its corresponding \textsuperscript{1} de- mentation-(supererogatory–ontological–de- mentation-or-dialectical–de- mentation—stranding-or-attributive-dialectics) as \textsuperscript{2} de- mentsion-(supererogatory–ontological–de- mentsion-or-dialectical–de- mentsion—stranding-or- attributive-dialectics)). The idea is not to assume an idling-temporal-disposition of stigmatising intradimensionally but rather an intemporal/ontological disposition (longness-of-register-of- meaningfulness-and-teleology\textsuperscript{3}), that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{4} as of prospective notional–deprocrypticism (wherein procrypticism is preconverging-or-dementing–apriorising-psychologism-\textsuperscript{5}<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it subknowledges-or-mimics/perverts-the-registry-of positivistic meaningfulness \textsuperscript{6}reference-of-thought–categorical-imperatives/axioms/registry-teleology \textsuperscript{7},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). The idea of limited-mentation-capacity-deepening\textsuperscript{8} (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) fundamentally implies that \textsuperscript{9}reference-of-thought–categorical-imperatives/axioms/registry-teleology \textsuperscript{10},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are limited at the uninstitutionalised-threshold\textsuperscript{11} of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy/postconvergence and thus need to be cumulated-upon (or rather more precisely be recomposured institutionally), wherein new reference-of-thought–categorical-
uninstitutionalised-threshold to its mental-devising-representation to enable the ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the collective-consciousness, and so as a knowledge-notionalisation. That is, a registry-worldview’s/dimension’s institutionalisation setup that perpetually acknowledges and accounts for human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor disambiguation before engaging either with logical contention in the case of issues of intemporal-disposition/ontological-disposition or with reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) manifestations of perversion-of-reference-of-thought-as-effectively-apriorising-in-nocnversion/madeupness/bottomlining-as-to-shallow-supreration > in the instance of issues of temporal-dispositions; bringing this conceptualisation to the collective-consciousness for the necessary psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that should enable the superseding/transcending of the enculturating/endemising vices-and-impediments together with the inhibiting effect on human emancipation potential associated with procrypticism. To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-as-of-apriorising/axiomatising/referencing ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere–\textsuperscript{e}categorical-imperatives/axioms/registry-teleology\textsuperscript{e}-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their \textsuperscript{e}reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{e},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such \textsuperscript{e}perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and subknowledging -impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism \textsuperscript{e}in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of \textsuperscript{e}perversion-of- reference-of-thought-<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as temporal-to-intemporal-dispositions individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of \textsuperscript{e}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{e},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this
regard, we may easily construe the fundamental defects of categorical-imperatives/axioms/registry-teleology -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing are analogous to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging-impulse/compulsive-dementing with A's additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology ,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/compulsive-dementing of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology ,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology ,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second
registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Ultimately, a notional–deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and subknowledging -impulse/compulsive-dementing with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold, for a supraструктурal resolution to human perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > disposition, enabling the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the collective-consciousness towards knowledge-notionalisation; as the recognition of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor-pedestals-disambiguation then allows for acknowledging, accounting for and the structural-superseding of our vices-and-impediments, thus enabling ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving the de-
mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) preconverging-or-dementing –apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of temporal-dispositions perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation >, as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) is the effective psychological tool for ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The implications for the science of psychology can thus be drawn out. The articulated notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. De-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) terms of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-
attributive-dialectics) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting-as-to-conflatedness as dialectical transformation as-prospective reference-of-thought de-mentation-supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/reference-of-thought of transdimensional-meaningfulness-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising ~self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) over reflex-normalcy or intradimensional-subknowledging’-normalcy. Ontological-normalcy/postconvergence

That is, a conventioning influenced-and-driven psychology tends to equate the conventional insights at one \textsuperscript{1} de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) dialectical moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposes to the dialectical evolution of \textsuperscript{1} reference-of-thought for a comprehensive, appropriate and veridical \textsuperscript{1} de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) exercise. Such \textsuperscript{1} reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for \textsuperscript{1} de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) exercise in reflection/perspectivation of psychological-representation/mental-devising-representation) are the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing as recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism preconverging-or-dementing–apriorising-psychologism, and prospectively (critical for a prospective conceptualisation of psychology) perpetuation-of-deprocrypticism. This explains why this memetism/transdimensional-meaningfulness/suprastructural-meaningfulness psychology is a ‘postconverging-or-dialectical-
thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy/postconvergence in successive ontological-normalcy/postconvergence/postdicatory ontological-reconstituting—as-to-conflatedness'/deconstruction of dialectical existentialisms/full-depths-of-existential-implications as ‘reference-of-thought, rather than intradimensional-subknowledging’/-normalcy or reflex-normalcy) for ‘de-mentation–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. preconverging-or-dementing’—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the dialectically-and-ontologically superseded/transcended/unsound registry registry-worldview-or-dimension, and postconverging-or-dialectical-thinking’—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the dialectically-and-ontologically-superseding/transcending/sound registry registry-worldview-or-dimension. This ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness/suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on
intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionised-threshold. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the conventioning–superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning–superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of present day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing–apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought. A dialectical ontological-reconstituting–as-to-conflatedness /deconstruction of reference-of-thought (recognising human limited-mentation-capacity-deepening and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-
eventfulness as articulated above is not only the basis for memetism/transdimensional-meaningfulness-suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of present day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as fundamentally the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the said registry-worldview/dimension are at a dead-end with a dementative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy de-mentating/structuring/paradigming with respect to positivistic chemistry de-mentating/structuring/paradigming, a flat-world de-mentating/structuring/paradigming with respect to a round world de-mentating/structuring/paradigming, a creationism de-mentating/structuring/paradigming with respect to an evolution de-mentating/structuring/paradigming, a universal humanity de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal de-mentating/structuring/paradigming, a science de-mentating/structuring/paradigming with
respect to a superstition de-mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in de-mentating/structuring/paradigming, prospectively. This brings forward fundamentally the limited-mentation-capacity-deepening/uninstitutionalised-threshold construct of our times (procrpticism) and the de-mentative/structural/paradigmatic implications specifically for such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ (as highlighted) over a relatively mented-psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-devising-representation processing exercise’; rather it is an intrinsic ontological-normalcy/postconvergence notion that doesn’t respond to human mental-devising-representation processing. The role of de-mentation-(supererogatory-ontological—de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as a mental-devising-representation mechanism that syncs with evolving ontological insight (insight about intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the capability as its mental-devising-representation of a registry-worldview/dimension (uninstitutionalised-threshold), which otherwise any <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag registry-worldview will overlook as it is a <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology>as-of-'nondescript/ignorable–void '-with-regards-to-prospective-apriorising-implications>) that is exclusively operant and deterministic only to its very own <reference-of-thought– categorical-imperatives/axioms/registry-teleology>, for-
intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recompose it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing/reference) for a new existentialism/full-depth-of-existental-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present de-mentating/structuring/paradigming. It is inevitable that emancipation
from such knowledge-deadends—de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a de-mentative/structural/paradigmatic–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or preconverging-or-dementing –apriorising-psychologism/subknowledging / perversion-of/ reference-of-thought:<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>> of positivistic meaningfulness) psyche as being ontologically-preconverging-or-dementing –apriorising-psychologism/dialectically-preconverging-or-dementing –apriorising-psychologism from futuratal Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology as of prospective notional~deprocrypticism as reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing -reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ has to do with the foundational nature of mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold ; much the same way like a positivistic world opened up from the (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of a non-positivism/medievalism registry-
worldview/dimension at its uninstitutionalised-threshold. To further elucidate the criticality as indicated of such a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). In other words, it overrides the mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in reflecting soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/apriorising–registry-soundness and unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (respectively postconverging-or-dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) is stranded to the ‘conventionalised institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ whether such a threshold is the ‘appropriate basis for reference-of-thought or not and subsequent ontological-veridicality/ontological-contiguity or not, as it is limited to what is the convention thus hollow-constituting–<as-
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> with the result that mented/stigmatic psychology is limited to hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> human intradimensional conventioning categorical-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> human intradimensional conventioning categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, with no prospective/transcending/superseding possibility. For instance, we can project insightfully that a mented/stigmatic mental-disposition in a non-positivism/medievalism setup in an impression-driven/good-naturedness/wishfulness disposition but hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>(failing/not-upholding-as-of-apriorising/axiomatising/referencing> categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) will raise an issue of say sorcery in terms—as-of-axiomatic-construct of who is the sorcerer or sorcerers among us, how should sorcery be stopped and prevented in the community, and not in a prospective positivistic de-mentating/structuring/paradigming that is more ontologically-veridical, putting in question the veracity/ontological-pertinence of the non-positivism/medievalism conventioning notion of sorcery, however ‘good-natured’/impression-driven, while raising the positivistic the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework of a positivising/rational-empiricism reference-of-thought. Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our present day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor insight about the requisite reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established reference-of-thought, and not just naïve assumptions whether on the basis of
popular axioms, vagueness and personal however well-meaning; with the idea of meaningfulness that goes beyond just a conventioning reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ that is ontologically-driven will go beyond an exercise of mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically involved in the de-mentation—hermeneutically/reprojectively-educing-human—meaningfulness-and-teleology—into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-reflecting ontological-reconstituting—as-to-conflatedness/deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and conflicts’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite de-mentative/structural/paradigmatic shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of constitutedness.
in lieu of conflatedness as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of de-mentation-⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure-⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing⟩ of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that de-mentation-⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ very much explains human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening.

Such a ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdicatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure-⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing⟩ has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology’, and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought
past and future, with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-conflicatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-conflicatedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> of prior registry-worldview mindset/reference-of-thought (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of ‘de-mentation—supererogatory—ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology—driving mechanism. Considering that deconstruction as ‘ontological-reconstituting–as-to-conflicatedness’ necessarily implies not one but two dialectically opposed registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existent-unthought>—of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of "de-mentation—supererogatory—ontological–de-mentation—or-dialectical–de-mentation—
stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and the preconverging-or-dementing–apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirageas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/reference-of-thought is increasingly set to ‘relate to its institutionalised secondnated construct as being our very own individuals essential dimensionality-of-sublimating—<amplituding/formative>spererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and not a secondnated construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive). Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>’ projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirageas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as ‘metaphysics-of-presence–(implicated-
Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting–as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the reference-of-thought and meaningfulness of the seemingly reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given reference-of-thought and projecting the appropriate reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected reference-of-thought. This is akin to the idea of a positivistic mindset/ reference-of-thought articulating chemistry rules and principles to an alchemic mindset/ reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/ reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/ reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of de-mention-(supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics) with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for
instance the fact that notions of superstition are false had to be consciously brought up to the
attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/ reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a notional—deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-worldview/dimension) of ‘striving to avert preconverging-or-dementing—apriorising-psychologism mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve a <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-

retrospective, present and prospective institutionalisations in reflecting holographically-

institutionalisation-process\(^{17}\) points-of-reference, with the truer nature and representation of
human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-
construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally
the construction of psychology needs to be priorly subjected to ‘a becoming that defines
psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-
to-conflatedness\(^{17}\) of that existential becoming’. Is our understanding of psychology notionally
complete when we can’t seem to understand what happens in apparently mentally sound minds
partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides
and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words,
in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the
psychology science (before even worrying about the abnormal)? Further isn’t it possible to
make the contribution of present day psychology more complete in constructing a more
thorough and dynamic understanding of mentation/psyche in relation to individual-social-
humanity aspiration, where psychology evolves in a complete existentialism cadre. In other
words, so placed in a becoming/existential cadre, is psychology not meant rather than just
encapsulating what the human psyche/mentation is all about as if it is a set and determinate
construct (strangely enough inadvertently and often mirroring schemes of social classification,
and hence of social power relations) equally involve in articulating aspiratory models for
human mentation/psyche? And such a de-mentating/structuring/paradigming shift with regards
to present day mented/stigmatic psychology can actually be implied by prospective ontological-
normalcy/postconvergence as notional–deprocrypticism (involving ‘ontologically-
reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation by ‘overriding failing/not-upholding-<as-of-

aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions–existentialism-form-factor, a ‘postconverging-or-

representations of all registry-worldviews/dimensions both as implied and driven by
ontological-veridicality by way of ontological-reconstituting–as-to-
conflatedness/deconstruction and point out their peculiar mented/stigmatic specificities in
their hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-
intemporal-preservation> involving with all mented/stigmatic mental-devising-representations a
circular preconverging-or-dementing -temporal-manifestation (subontologisation (in-a-social-
dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing,
disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-
association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-
endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger
picture, actually the fact is that the various institutionalisations/institutional-
cumulation/institutional-recomposure–<as-to- historiality/ontological-
eventfulness/ontological-aesthetic-tracing> are actually the levels at which their specific
quality (whether as base-institutionalisation, universalisation, positivism and prospectively
deprocrypticism) actively and comprehensively define and characterise each of the
institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-of-existential-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered attainment of positivism, and effectively by a prospective insight, proto-notional–deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were actually very thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their de-mentating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexity of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the-Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-formative-epistemicity-totalising-in-relative-ontological-
completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of a temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emmanently/becomingly adhere to intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal notions and virtues (as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) without institutionalisation design or conceptualisation! This is an unspoken recognition of the inherent reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation conceptualisation of the-Good (positivistic ontological-primemovers-totalitative-framework). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of
living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of—meaningfulness-and-teleology”) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and specialisms, that are always ferociously, blindly and without further justification upheld by regulation and law and/or newer legitimately made regulation and law even against popular whim given their ‘inherent assuredness to preserve the intemporal construct in a furtherance of intemporal-preservation percolation-channelling. Prospectively, notional–deprocrypticism institutionalisation will imply a superseding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as new-mentation and further extension of formalisation as ‘deferential-formalisation-transference’ of ‘deprocryptic formalisation’ into the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology } implying a greater underlying demystification of positivism/rational-empiricism manifestation of “procrypticism–or–disjointedness-as-of- reference-of-thought reasoning by way of the ontological-contiguity (as from prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought notional-contiguity/epistemic-contiguity”-<profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>) with respect to the veridicality of human temporal-to-intemporal individuations dispositions nature that explains the nature of the positivism–procrypticism registry-worldview notional-discontiguity/epistemic-discontiguity—<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> as we become more consciously insightful, preemptive and superseding of ‘perversion-of–reference-of-thought-
<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivism–procrypticism meaningfulness-and-teleology with its social-construct implications; and this insight prospectively defines the conceptualisation of the present positivism–procrypticism registry-worldview/dimension vices-and-impediments as the backdrop for the notional–deprocrypticism de-mentating/structuring/paradigming shift. But this equally as with all institutionalisations imply bringing to the collective consciousness a dialectically preconverging-or-dementing–apriorising-psychologism mental-devising-representation of the present procrypticism registry-worldview/dimension (which is prior) from the prospective registry-worldview/dimension (deprocrypticism) as the new reference-of-thought, which will seem unintelligible to the prior even though it is actually more real suprastructurally and in ontological-normalcy/postconvergence, just as our representation of medievalism though more ontologically-veridical will seem unintelligible/existentially-suprastructural to a medieval mindset/reference-of-thought in its closed mental-devising-representation of intrinsic-reality. Central to the notion of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as the ‘veridical reference-of-thought’ articulation of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over the positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought notional-discontiguity/epistemic-discontiguity—<shallow-supererogation> of mentally-aestheticised–preconverging/dementing–qualia-schema> as of its perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and so in a prospective de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation (ontology) supersedes intradimensional-subknowledging -normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue reference because to start with all conventioning institutionalisations are de-mentatively/structurally/paradigmatically in want of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity whether as recurrent-utter-institutionalised, ununiversalisation, non-positivism/medievalism or procrypticism in a prospective insight. Conventioning as such could only prospectively reflect ‘sound reference-of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; the holy grail of the notional–deprocrypticism institutionalisation ideal. But actually a conventioning construct in contrast to attaining such a prospect of ‘utter-purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-value-reference-denominator for that conventioning construct, and the latter is thus the ‘effective meaningfulness-or-value-reference’ of the said conventioning construct notwithstanding any grander ontological meaningfulness-or-value-reference striving for utter-purism-of-ontology. The implication here is effectively that grander ontological and philosophical meaningfulness-or-value-references are no more pertinent in a conventioning construct than its least acceptable meaningfulness-or-value-reference-denominator but for discrectional or prestige basis of discrectional and disparate recognition, out of discretionary formalisation in inducing the secondnaturing and internalisation for that recognition. This insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-references of intellectual grounding (purism-of-ontology), it is important to grasp that the social
integration of meaningfulness-and-value-references in a conventioning construct is effectively a 
least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it 
is by an effective utilisation of the institutionalisation percolation-channelling mechanism that 
such ‘purism-of-ontology’, by it’s the-Good, can stand out in bringing to bear its human and 
social emancipation potential. In the same token, thus it is equally important to grasp that 
primacy of meaningfulness-or-value-reference orientations in conventioning constructs do not 
necessarily has to do with a primacy of ontological-veridicality pertinence especially where it is 
not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-
mentativity but by social-aggregation-enabling, notwithstanding that such a conventioning 
construct may be seen as the social reference of grander meaningfulness-and-value-references 
in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-
value-reference play-out notion and not an-utter-purism-of-ontology-reference notion. Thus the

It should be noted that an intemporal or ontological or longness-of-register-of-meaningfulness-and-teleology resolution to perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in any registry-worldview/dimension is well beyond the notion of resolving just an underlying causative subknowledging-impulse/compulsive-dementing (condition from say a physiological cause), like psychopathy in the positivistic registry-worldview/dimension or a sorcerer accuser in a medieval registry-worldview/dimension. That may explain the initiation of a loss of intemporal social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ) arising from postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance which is then at the base of a registry-worldview’s/dimension’s uninstitutionalised-threshold (which is overall the de-mentative/structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a ‘deferential-formalisation-transference’/skewed (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) institutionalisation setup, whether at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation incrementalism-in-relative-ontological-incompleteness—inframed-conceptualisation and notional—disjointedness, as it is up to us to
proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-
way (as reference-of-thought–categorical-imperatives/axioms/registry-teleology) to naively imply that reality will and should comply, as failing/not-upholding-<as-of-
apriorising/axiomatising/referencing> reference-of-thought–categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-ends and the need for de-mentating/structuring/paradigming shifts. transcended/superseded registry-worldview/dimension is no longer a dialectically-in-phase reference-of-thought but of dialectically-out-of-phase meaningfulness-and-teleology perversion-of reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to its preconverging-or-dementing apriorising-psychologism. This process basically explains ontologically why and how humans from the very beginning to today are the same as it fundamentally grasps the dynamism of institutional-cumulation/institutional-recomposure as-astro- historiality/ontological-eventfulness /ontological-aesthetic-tracing/memetic-reordering/psychoanalytic-reorientation that elucidates our human contiguous anthropological-continuity or anthropopsychology. Further, in the practical elucidation of social issues having to do with an issue of perversion-of reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation like psychopathy-and-social-psychopathy, it points out that the critical point is to understand what meaningful apriorising-registry is the veridical reference-of-thought as reflected/perspectivated by soundness-or-ontological-good-faith/authenticity-of reference-of-thought/candoring-and-dialectically-or-contendingly-in-phase and what is rather non-ontological-and-non-contending-referencing thus ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing apriorising-psychologism and hence preconverging-or-dementing apriorising-psychologism as reflected/perspectivated by mental-slantedness/decandoring-and-dialectically-or-contendingly-out-of-phase; and so in an underlying conceptual framework of ontology as an ideal that pulls the social towards the intemporal and the real nature of the social rather as a conventioning construct that while susceptible to ontological/intemporal influence is equally the milieu of temporal drawbacks that need to be critically undermined including with knowledge-notionalisation involving not only the study of the ideal but understanding how temporal-dispositions arise and work to better
skew/deferential-formalisation-transference for intemporality/ontology as institutionalisation/intemporalisation together with differentiating between good-naturedness which is rather impression-driven, vague and might actually be precarious by its meaningful disposition to extrinsic-attribution and associated "perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation" and the-Good which is about understanding in ontological-primemovers-totalitative-framework how reality is/how things work to deliver virtue and hence is the basis for formalisations, and actually the ‘deferential-formalisation-transference’ has been the process by which throughout human history, increasingly segments of social thinking (present-day subject-matters) are taken out of common hotchpotching and undisambiguated temporal-to-intemporal-dispositions in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) to be given ‘formal deferential status’ to ensure the supersedingness and internalisation of intemporal-disposition inclination to ontological-veridicality. This ‘de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) insight brings up another definition of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process relating human mental-devising-representation with the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality, wherein we can imagine ‘an initial state for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of base-de-mentation and imagine a completed state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-de-mentation-as-to-perspective-ontological-normalcy/postcovergence’, with the underlying mental-devising-representation/(recomposure)-consciousness-awareness-teleology taking/institutionalising/intemporalising the abstract human mind from base-de-mentation to non-de-mentation-as-to-perspective-ontological-normalcy/postcovergence; involving at
successive uninstitutionalised-threshold of the institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing>, social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } of perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation }, internal-contradictions induced from ontological-primemovers-totalitative-framework inoperance, de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} divulging prospectively perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity /nihilistic as of temporality, with corresponding formalisation and internalisation as values. While this process had occurred priorly rather beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> from base-institutionalisation, universalisation and up to positivism, it will possibly be more driven as-of-consciousness-awareness-teleology when it comes to attaining notional–deprocrypticism as the latter registry-worldview/dimension is actually weaker than the preceding registry-worldviews/dimensions in eliciting a positive-opportunism and will more strongly depend on percolation-channelling of intemporality/longness to be realised. preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as to
suprastructural proxying of intrinsic-reality), beyond the deficient mental-devising-representation intradimensional representation of meaningfulness-and-teleology. The storying/narrating technique for relating preconverging-or-dementing apriorising-psychologism will involve projecting suprastructurally and in perspective ontological-normalcy/postconvergence in the transcending superseding registry-worldview/dimension for ‘ontological-reference meaningfulness as the intemporal-disposition’ (in ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting organic-comprehension-thinking), while representing temporal-dispositions as rather in the transcended superseded registry-worldview/dimension (preconverging-or-dementing apriorising-psychologism) meaningfulness-and-teleology which is not-of-ontological-reference, and in the place of the temporal-dispositions (in-circumventive/distractive-temporal-prioritisation-of-reference-of-thought threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing apriorising-psychologisms) imply their preconverging-or-dementing apriorising-psychologism stranded as rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase; just as all prospective/transcending/superseding registry-worldviews/dimensions mentally-represent-and-relate-with their prior/transcended/superseded registry-worldviews/dimensions, even though all such transcended superseded registry-worldviews/dimensions as to their amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatidrag naturally resist such representation by the prospective/transcending/superseding registry-worldviews/dimensions. Noting as well that teleologically, the transcending superseding and the transcended superseded are in transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing. That is, the two ‘reason pass each other’ (wherein the transcending superseding is organic-comprehension-thinking while the transcended is in
threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

involved in ‘reasoning-through/over’ and not ‘reasoning-with’ the transcended/superseded (this
explains why transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is ‘a

not ‘a first-naturing transformation process’), just as a positivistic mindset/reference-of-

imposes crossgenerationally the dominant as transcending/superseding meaningfulness over the 
dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading 
in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries 
is suprastructural and ontological-normaley/postconvergence and doesn’t adjust to the mortals, 
that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding 
compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying 
reference-of-thought to intrinsic-reality, to start with. Such an insight can be garnered as, for 
instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s², but with ‘the 
social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading 
idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘de-mentation-

corresponding as to their <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as reflected with all registry-worldviews/dimensions (preconverging-or-dementing–apriorising-psychologism) uninstitutionalised-threshold, that suprastructurally and in perspective ontological-normalcy/postconvergence defines any specific registry-worldview/dimension dialectical-primitivity whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism–or–disjointedness-as-of reference-of-thought. The bigger point is that fundamentally it is impossible to conjugate/inflect/protract intemporality /longness out of demonstrated temporality /shortness (notional-discontiguity/epistemic-discontiguity–<<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing –qualia-schema>>) as then one is just in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence-and-sublimity/sublimation/supererogatory–dementativity or is non-transcendable (hence unde-mentable/still-of-postconverging-or-dialectical-thinking–apriorising-psychologism) when in fact it is preconverging-or-dmenting–apriorising-psychologism/subknowledging/registry-perverting-in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This latter idea is actually the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex of all prior/transcended/superseded registry-worldviews/dimensions with respect to the suggestion of prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate from our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure—as-to–historiality/ontological-eventfulness /ontological-aesthetic-tracing>.
process to be rather not true with prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity though we’ll in turn obviously act by reflex in <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with respect to the suggestion of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity undermining our registry-worldview’s/dimension’s categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/utterion to apprehend intrinsic-reality, over incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought which is more about ‘transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework as all-determinant); with reasoning-through/utterion generally implied in formal constructs and settings as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework settings while informal constructs and settings tend more to incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is that formal constructs and settings emphasise ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting in longness-of-register-of-meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of-reference-of-thought in shortness-of-
register-of– meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of temporal-to-intemporal-dispositions. ‘Intemporal-prioritisation-of- reference-of-thought’–as-conflatedness–or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of- reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/ reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness–or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of- reference-of-thought concerning psychopathic and its social psychopathic collorary (perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) in wrongly implying that a notional–deprocrypticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of- reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness–or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infallibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by
circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}> perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy/postconvergence in contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging -normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reference of ontological-contiguity but for naively and wrongly implying good-natured qualities as being ontological (rather than the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation validated by ontological-contiguity or a ratio-conguity notion), and since the ontological-contiguity—of-the-human-institutionalisation-process shows that ‘good-naturedness’, without the-
Good/understanding/knowledge-reification\(^7\)/ontological-prime movers-totalitative-framework\(^2\) as of ontological-contiguity\(^6\), fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophets (working rather more assertively on supernatural de-mentating/structuring/paradigming) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/ontological-prime movers-totalitative-framework\(^7\)/ontological-contiguity\(^6\) they actually aspired for ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness’-or-ontological-reprojecting, that is, they were prioritising and focussing on that which establishes \(^{10}\)universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-(as-of-relatively-more-profound-construal-of-existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^2\)-of- reference-of-thought\(^7\)-devolving-as-of-instantiative-context) the golden mean into ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness’-or-ontological-reprojecting but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, \(^{10}\)universalisation, positivism and prospectively notional-deprocrypticism which are of transcendental nature as ‘shaping the human psyche’ and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather non-transcendental and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms–as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social
emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting will be skewed (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory-de-mentativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally (as to the fact that it is on this basis that human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> has been self-perpetuating in explicating the ontological-contiguity—of-the-human-institutionalisation-process). Such an insight can further be expanded thus, it is critical to note that the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> are developments of human mentation capacity in grasping its ‘internal ontological-reconstituting—as-to-conflatedness/deconstruction intermediating environment’ and the external environment. The former refers to the teleological devised representation of the relationship with the external
suprastructural and ontological-normalcy/postconvergence intrinsic-reality, explaining the institutionalisations as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, as reflected/perspectivated by their organic-comprehension-thinking. This contrasts with the defective good-natured construct as impression-driven and intradimensionally-tied and all so apt to existentially fail ontological-normalcy/prospective-transcendence-in-perpetually-failing-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as it is rather tied to and proxies, by mere-form, with intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology –for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation irrespective of whether these are failing/not-upholding–as-of-apriorising/axiomatising/referencing–intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; and thus as the corresponding de-mentation–(supercryptic–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ mental-devising-representation as preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, explaining the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect>, reflected in terms–as-of-axiomatic-construct of registry-teleology -mentation, behind this mental-devising-representation of the registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism as reflected/perspectivated by their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supercryptic—preconverging/dementing–apriorising-psychologism. preconverging/dementing —apriorising-psychologism with regards to depth of issues arising from deductive narratives, life episodes, life schemes, general existential being dispositions and specific existentialism/full-existential-depth-implications about the registry-worldview/dimension. * In the bigger scheme of things, anthropopsychology as the anthropological-continuity as implied by intemporal-preservation-entropy-or-contiguity—or—ontological-preservation relation to reality as ontological-normalcy/postconvergence in precedingness points out that at registry-worldview/dimension-level ontology as the transcending dimension is veridically an utter organicalism (organic-comprehension-thinking) over mechanicalism (threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing —apriorising-psychologism which is the transcended dimension). Further, such utter organicalism (organic-comprehension-thinking) in implying registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity takes stock of human perversion-of-reference-of-thought—in-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in full dispositional capacity (as such manifestation in dispositional perversion-of- reference-of-thought—in-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > fullness in particular highlights a highly compromised and teleologically-degraded social-construct validating such
utter organicalism even if it seem counterintuitive to the transcended registry-worldview’s/dimension’s illusion-of-the-present perception. * So it is important to understand with regards to psychopathy and social psychopathy that the level of profoundness of its manifestation and consequences is directly related to the level of the associated ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ compromised and degradation of the social construct!) - the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework temporal-to-intemporal-dispositions disambiguation (straightness-to-slantedness/candored-to-decandored) human ontological-primemovers-totalitative-framework disposition which is ontological correct as contrasted to an ontologically wrong impression-driven/good-naturedness/wishfulness conceptualisation which wrongly references as human ontological-primemovers-totalitative-framework just an intemporal-disposition universally among all humans (straightness/candored only), at uninstitutionalised-threshold; while the latter will tend to be ontologically impertinent and wrong as it doesn’t account for temporal-dispositions and is hence not capable like the the-Good conceptualisation, working with what veridically is, to anticipate and preempt subknowldging/mimicking as <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to achieve veridical ontological/intemporal virtue. - ‘Disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ (speaking-abstractly-to-metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation/a-deterministic-and-predicative-‘being-construal’ as contrasted to just an ‘act construal’) to reflect by stranding (as decandored/oblongated) to represent the ‘existential being ontological-primemovers-totalitative-framework’ in an ontological entrapment of institutionalisation/intemporalisation percolation-channelling at the uninstitutionalised-threshold. - Institutional recomposuring implying that the fundamental issue of the-

And all these, as temporal-to-intemporal-dispositions disambiguation conceptualisation of perverse/low teleologies to higher teleologies. This equally explains the reason for de-mentation—(supererogatory—ontological–de-mentation–or-dialectical–de-mentation—stranding–or-attributive-dialectics) including with regards to registry-worldview/dimension stranding where the veridicality of the ontological-primemovers-totalitative-framework narratives is shown to be of perverse/low teleology ontologically speaking). The ‘ontological-primemovers-totalitative-framework–retracing (for temporal-to-intemporal-dispositions disambiguation) scheme’ is equally critical in other respects. It rightfully prevents the ontological mental-devising-representation from being flipped from formulaic slanting compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism narratives in preconverging–dementing–apriorising-psychologism and wrongly represented parasitically/co-optingly as prelogic/conviction-as-to-profound-supererogation—or-ontologically-veridical narratives to be contended with rather than being rightfully reflected/perspectivated (in-reasoning-through-and-not-reasoning-with) as manifestations of unsoundness-or-ontological-bad-faith/inauthenticity.

Thirdly, the ‘ontological-primemovers-totalitative-framework -retracing (for temporal-to-intemporal-dispositions disambiguation) scheme’ equally prevents the relaying of the postlogism\textsuperscript{77} in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as of formulaic–compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{96} initiated from the psychopath to its interlocutors, to wrongly imply that the veridicality of its interlocutors narratives induced postlogically as of preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism then wrongly become as of postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism, and as this conjugates/inflects (in-mimicking-protraction) with the temporal-dispositions of \textsuperscript{49}ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and inducing miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising/temporal-enculturation-rationalising-or-temporal-endemisation. Finally, the ‘ontological-primemovers-totalitative-framework\textsuperscript{77}-retracing (for temporal-to-intemporal-dispositions-pedestals-disambiguation) as ‘reference-of-thought-scheme’ allows for the possibility of a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) both psychopathic postlogic subknowledging–impulse/compulsive-dementing (notional-
worldview’s/dimension’s uninstitutionalised-threshold. Of course, this is more like a ‘notional template’ in a ‘dynamics of benign implications to grave existentialism/full-existential-depth-implications’ articulated over a functional social-construct which however ‘endemises psychopathy and social psychopathy rather at the uninstitutionalised-threshold of the positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of perversion-of reference-of-thought.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> known as procrypticism preconverging-or-dementing–apriorising-psychologism, requiring futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation/intemporalisation (for the furtherance of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-contiguity/ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology), and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-primemovers-totalitative-framework demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for
instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendent by its construct and the implied registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as metaphysics-of-presence--(implicated-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness’), of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same
argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-
bad-faith/inauthenticity\textsuperscript{4}. One could argue in the logic of those times, the serfs were doing
great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well.

Fourthly, it is obvious that if and where what is factored in is only the folksy ‘human lifespan
extricatory punctuality/immediacy of depth-of-thought’ perspectives of individuals
existentialism/full-depth-of-existential-implications of shallowness of scale and time, without
the requisite philosophical depth requiring a profound appreciation, understanding and insights
from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which
easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such
a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark
of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that
transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology

of the
\textsuperscript{-<amplituding/formative–epistemicity>totalising–self-referencing-

such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may
hardly appreciate the difference between the outcome of a mindset/ reference-of-thought as a
secondnaturedness and internalisation construct across successive institutionalisations with
their requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring
induced from intemporal-disposition individuation disposition, and correspondingly
differentiate between being so-institutionalised with a secondnatured and internalisation
mindset/reference-of-thought and the intemporal–individuation disposition that will equally be responsible out of mere intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials. This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and creative application of the de-mentation-(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of mental-devising-

geratory-de-mentativity occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social-stake-contention-or-confliction behind the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring history but a ‘consciously directed’ abstract understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendence-and-sublimity/sublimation/supero-
geratory-de-mentativity like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation-channelling. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation. It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions, and so as to nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ epistemicity. (By ontological meaning is implied intemporal/veridical/purism/operant-construct/predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical-compromised/non-
Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method herein qualified as ‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of ‘point-referencing’ notions and concepts in a contiguously dynamic, evolving and ontological-reconstituting–as-to-conflatedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation (herein underlied by conceptivity/epistemic-reflexivity as to human limited-mentation-capacity-deepening).
This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on ‘the organic dynamics of understanding’ wherein a child for instance doesn’t necessarily grasp outright the fullness of concepts-of-meanings but rather the ‘relevant dynamic contextualisation of meanings’ ensuring a strongly operant and ‘wealthy’ relationship with meaning in the social context. ‘Intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’ with respect to uninstitutionalised-threshold of registry-worldviews/dimensions, can be construed as follows: Supposed all humanity across space and time that ever existed was just ‘one human temporal-to-intemporal individuation’, the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism, and prospectively to deprocrypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp notional–deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism as convergent concepts towards notional–deprocrypticism (as ‘longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, as induced by maximal-as-intemporal-operating-modality-of- reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with notional–deprocrypticism thus implying a ‘full-cycle ontological-contiguity’—of-the-human-
institutionalisation-process undermining of subknowledging/mimicking/emancipating

uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed
as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-deepening
to handle the requisite transcendence-and-sublimity/sublimation/supererogatory-de-mentativity even if from the very start the human doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on the successive challenges of base-institutionalising, then universalising, then positivising, and finally with notional–deprocrypticism absolute ontological-contiguity by undermining ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology-in-arrogation’ (longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology). It should be noted that the issue of procrypticism had always been present at all times of human existence but the natural priority going by human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) was first to have a base-institutionalisation institutionalisation, universalisation institutionalisation, positivism institutionalisation before prospectively notional–deprocrypticism institutionalisation; more precisely, previous psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring are indirectly (skewing towards) addressing base-institutionalisation, universalisation, positivism and deprocrypticism, up to the point of the respective institutionalisation/intemporalisation-recomposure where the reference-of-thought-as-the-registry-worldview is directly addressed. This thus explains ontological-normalcy/postconvergence across human mental-devising-representation as changes to accommodate intrinsic reality by psychoanalytic-unshackling/memetic-reordering/institutional-
recomposurings of successive illusions-of-the-present/present-consciousnesses/epistemic-totalising~self-referencing-syncretising/mirage at these successive institutionalisation/intemporalisation levels including the positivisms–procripticisms institutionalisation/intemporalisation, towards intrinsic-reality/ontological-veridicality; that has and will never change, and by way of the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework inducing of social universal-transparency~(transparency-of-totalising-entailing->amplituding-formative–epistemicity>totalising~in-relative-ontological-completeness) and internal logical coherence/contradiction this then validates the need for human psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In the bigger scheme of things, it points to the fact that ontologically for the full potential of human science, this should be ‘rising from this fundamental philosophical depth/profoundingness of thought’ to then transversally address the issues it raises while projecting prospectively. A further insight can be grasped regarding the relationship between psychopathy, anthropopsychology/the-anthropological-continuity, veridicality (intrinsic reality/ontological representation), non-veridical reality (illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as metaphysics-of-presence~(implicated~'nondescript/ignorable–void~as-to-presencing—absolutising-identitive-constitutedness)), human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, and registry-worldviews/dimensions (of institutionalisation/intemporalisation, universalisation, positivism, and prospectively deprocrypticisms). Psychopathy points to the psychopath’s postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> but postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is equally socially conceptualised. postlogism in hollow-constituting<as-disjointed-misappropriation-of-
the medieval mindset/reference-of-thought (which is subknowledging/miming) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its reference-of-thought/categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the notional–deprocrypticism registry-worldviews/dimensions).

In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to reference-of-thought’ is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms–as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool* whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-primemovers-totalitative-framework. For instance, while the traditional reflex of the human mental-devising-representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its ontological-primemovers-totalitative-framework, thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our
and the rest of humanity complied to the formalisms that ensue, by virtue of their proxying-to-intrinsic-reality and the positive-opportunism that led to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (towards human formalisation and internalisation)! As registry-worldview/dimension defects or denaturing^{15} are responsible for the vices-and-impediments^{10} of the said registry-worldview/dimension; noting that the fundamental construction is a ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ conceptualisation making reference to ontological-primemovers-totalitative-framework and not a vague ‘impression/good-naturedness/wishfulness conceptualisation’ making reference to the banal <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) as may illusionary be projected intradimensionally/intra-registry-worldview (the latter being represented as oblongated non-veridical narratives by the prospective intemporal-disposition-worldview)! The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’. For instance, no non-positivism/medieval mindset is ‘good-natured/vague by the registry-worldview/dimension impression’ enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address ‘the-Good/understanding’ of a positivistic mindset which will resolve or structurally-rendered-inoperant the problems of superstition and witchcraft as the former will always make reference to the defective/perverted reference-of-thought—categorical-imperatives/axioms/registry-teleology of non-positivism/medievalism no matter how ‘good-natured/impression-driven’ it is. The same applies with procrypticism and deprocrypticism. No procrypticism (preconverging-or-dementing—apriorising-psychologism) mindset as of impression-driven/good-naturedness/wishfulness has the requisite ‘the-
Good/understanding/knowledge-reification™/ontological-primemovers-totalitative-framework™ construct’ insight to resolve/structurally-rendered-inoperant the issues of the vices-and-impediments of procrysticism as it is the deprocrystic mindset of ‘the-Good/understanding/knowledge-construct’ that is the virtue that carries the sound registry-worldview/axiomatic-construct/categorical-imperatives to be able to do this. - the-Good is an intemporal/ontological articulation referencing intemporality/longness in a contiguous emanance of ‘transcendental/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ and corresponding derived reference-of-thought–categorical-imperatives/axioms/registry-teleology™; and is imbued with the ‘memetic reordering contiguity’ of institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> (base-institutionalisation-to-universalisation-to-positivism-to-deprocrysticism, and thereafter). The-Good/understanding/knowledge-reification™/ontological-primemovers-totalitative-framework™ is notionally more of ‘a capacity and scientific construct’ (high or low mentation-capacity) rather than a ‘stigmatising construct’ (positive or negative impressions). - ‘Good-naturedness’ is a temporal articulation that wrongly references (distractively) for temporality-sake registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology™ priorly-and-over ‘transcending/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’; and is imbued with the memetic notional-discontiguity/epistemic-discontiguity<shallow-supererogation/of-mentally-aestheticised–preconverging/dementing –qualia-schema> that undermines institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing>. Good-naturedness is notionally more of a ‘stigmatising construct’ (positive or negative stigmatising) rather than ‘a capacity and scientific construct’ (high or low mentation-capacity). - Virtue (retrospectively to prospectively) is not
determined by ‘good-naturedness’/impression-driven construal/conceptualisation of meaning but rather by the-Good/understanding/knowledge-reification ontological-primemovers-totalitative-framework construal/conceptualisation of meaning as validated by ontological-primemovers-totalitative-framework (the emanant/becoming ontological-normalcy/postconvergence determinant of veridicality/the-quality-of-being-emanantly-real). The-Good/understanding/knowledge-reification ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) as per veridicality demonstrated by ontological-primemovers-totalitative-framework is the complete and sufficient elaborative framework for conceptualising virtue! Such ontological-primemovers-totalitative-framework is rather tangentially the purview of increasing realism of the institutional-cumulation/institutional-recomposure-eventfulness ontological-aesthetic-tracing as it is contiguous with ‘human transcending across shifting virtue de-mentating/structuring/paradigming for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring); going from recurrent-utter-uninstitutionalisation (impulsive-or-accidented-or-haphazard-or-random mental-disposition), base-institutionalisation (mythologies de-mentating/structuring/paradigming, which is of <amplituding/formative–epistemicity>totalising~nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in–warped-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context and represents virtue in terms–as-of-axiomatic-construct of allegiance/subservience transience), universalisation (mystical-principles de-mentating/structuring/paradigming, which is of <amplituding/formative–

conceptualisation on veridicality established by ontological-primemovers-totalitative-framework validation. The overarching and defining notion is that each registry-worldview/dimension is only capable of the virtue reflected by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In other words, ‘a registry-worldview/dimension defective reference-of-thought–categorical-imperatives/axioms/registry-teleology’ as of its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing ‘apriorising-psychologism’ is responsible for the vices-and-impediments of that registry-worldview’s/dimension’s reference-of-thought’; and, requiring prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preemption of such perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. Thus dementatively/structurally/paradigmatically it is the prospective registry-worldview/dimension which is always the ‘prospective virtue potential’ for the prior/superseded registry-worldview/dimension. Basically, base-institutionalisation enabled the virtuous resolution of vices-and-impediments of the state of recurrent-utter-uninstitutionalisation, and likewise with universalisation and ununiversalisation, positivism and non-positivism/medievalism, and prospectively, notional~deprocrypticism and procrypticism–or–disjointedness-as-of-reference-of-thought. In the present world, we no longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the
inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners. Basically, human ‘supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking—apriorising-psychologism deductive reasoning’ as prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation and hence virtue; that is, so long as it is adhered to properly.

However, this is not the case on two grounds. It is critical to distinguish a defect in improper processing/operating of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism which is rather construed as a singular/ad-hoc ‘implicitation-of-act-execution defect’ and can be then qualified as a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’; it being nonetheless a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism as it holds the teleological aim of ‘intemporal preservation with a principled adherence to supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ even though it delivered an inappropriate/poor-or-bad logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. On the other hand, a defect of postlogism /psychopathy compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates on the ‘parasitising/co-opting’ basis that intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology are mere formulaic determinants of human thought and action and is the basis for perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. Such a defect is
‘registry-worldview’s/dimension’s-uninstitutionalised-threshold <as-Being-or-ontological-or-existential–defect> as it rather holds the teleological aim of ‘temporal preservation/undermining-of-intemporal-preservation without a principled adherence to prelogism-as-of-conviction,-as-to-profound-supererogation’ and thus speaks to the disposition to act likewise technically in a large or infinite number of cases (syncretising). It should be noted that temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) are in-of-themselves act defects and not being defects. However, such temporal-dispositions are registry-worldview’s/dimension’s-uninstitutionalised-threshold <as-Being-or-ontological-or-existential–defect> when these relay postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of formulaic slanting compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism (whether of the psychopath or not) inducing narratives that are slanted/preconverging-or-dementing—apriorising-psychologism/dialectically-or-contendingly-out-of-phase/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated as in perversion-of-reference-of-thought—<as-effectively-apriorising-innonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and not-of-logical-contention; due to the miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and temporal-enculturation/temporal-endemisation (occurring at the specific temporal-dispositions). For instance, going by the BODMAS equation highlighted before, the mere operation of arithmetic without factoring in A’s condition/subknowledging—impulse/compulsive-slanting—
preconverging-or-dementing\textsuperscript{19}-apriorising as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation additionality with 1 leads to a systematic failure that is ontological and not a mere act defect, and defines an uninstitutionalised-threshold\textsuperscript{102}. It should be noted that at all uninstitutionalised-threshold\textsuperscript{102}, it is de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that enables the mental-reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with)-representation of the registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect-as-Being-or-ontological-or-existential–defect\textsuperscript{23} as perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{20} in construing unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought (preconverging-or-dementing–apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) from whence an exercise of ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring with new reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{22}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation initiates a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Ontologically, the mental-devising-representation of such perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{20} is as strands-of-perverting-temporal-dispositions, involving oblongating/decandoring/distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing\textsuperscript{20}, that defines the dialectical-out-of-phasing (whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and, in the prospective representation, of procrypticism) as perversion-of-reference-of-thought-as-

Reality being blunt/incisive as it is rather preceding/superseding and ontological-

bluntness/incisiveness doesn’t leave room for discretionary judgments about ‘good-

nated'/impression-driven conceptualisations of virtue and virtuous judgment within the overarching framework of such the-Good/understanding/knowledge-reification\textsuperscript{72}/ontological-primemovers-totalitative-framework\textsuperscript{72} reality determinism, and such impressions can only pass for an illusion-of-the-present/present-consciousness mirage and/or $<\text{amplituding/formative-epistemicity}>$totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{72} (attempting to operate logic in a superseding registry-worldview on the basis of the $<\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}>$,\textsuperscript{72},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a superseded registry-worldview; for instance, God of plane type of statement in say an animistic society that comes in contact with foreigners and a plane). The second reason is that we can garner insight on prior/superseded institutionalisations and understand that the vices-and-impediments\textsuperscript{105} are actually cross-sectional to the registry-worldviews/dimensions as of beyond-the-consciousness-awareness-teleology\textsuperscript{72}$<\text{in-existential-extrication-as-of-existential-unthought}>$ and it is intemporal philosophical development that goes on to liberate/enlighten/moult-out ‘actors of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ who in turn then shine the light across society, i.e. institutionalisation/intemporalisation by skewing (‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality’\textsuperscript{51}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference for the supersedingness of the intemporal-disposition over temporal-dispositions for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal
whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation’/temporal-to-intemporal-dispositions), rather than a transcendental understanding of the-Good, i.e. knowledge/virtue-as-institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness>/ontological-aesthetic-tracing>-for-intemporal-preservation. This points to the fact that necessarily the de-mentative/structural/paradigmatic virtue construct (knowledge-driven) of recurrent-utter-uninstitutionalisation is base-institutionalisation, ununiversalisation is universalisation, non-positivism/medievalism is positivism, and prospectively, that of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought is deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought; and so as a veridical and contiguous deterministic-and-operant psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, that knows no discretion! There are ‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous de-mentative/structural/paradigmatic construct, analysed from the perspective of an ontological-veridicality establishing ontological-primemovers-totalitative-framework: (i) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) which is effectively ontologically operant. (ii) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation which has poor operance due to ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’, though prelogism—as-of-conviction,—as-to-profound-supererogation nonetheless. incongruence due to the nonreality of initiating narratives or propositions, and subsequent de-
mentative/structural/paradigmatic contiguity of narratives and propositions thereafter from such
initial miscues and/or intermittent miscues. For instance, supposed going by the example where
a psychopath had wrongly accused someone of being a paedophile (not in terms—as-of-

interlocutor was to go on to in-conviction-as-to-profound-supererogation relay these
distortions with other interlocutors, we will talk of a ‘miscue’, and where other meaning
grounded fundamentally on this miscue were to develop, we talk of ‘logical-drag’, further
where comprehensive generation of social meaningfulness were to arise out of this, we talk of
‘unconscionability-drag’, and finally sub-par/formulaic-association/temporal/alibi conventoning-rationalising refers to the temporal mental-disposition to use conventoning thinking as alibi for temporal-motivated dispositions (over the inherent sense of ontological meaningfulness). Actually, strands-of-perverting-temporal-dispositions are the characteristic backdrop mental-devising-representations of superseded/transcended registry-worldviews/dimensions when we think from an ontological perspective of the soundness-or-ontological-good-faith/authenticity -of- reference-of-thought projection/representation that captures the meaningful framework of a registry-worldview teleology\(^1\) whether regarding a society at its ununiversalisation whether as recurrent-utter-uninstitutionalisation, ununiversalisation, and medieval/non-positivisitic, and prospectively, we can garnered such strands-of-perverting-temporal-dispositions with respect to procrypticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology\(^2\) as of prospective notional–deprocrypticism institutionalisation. Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as we institutionally skew/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with a better grasp of reality and ontological-primemovers-totalitative-framework\(^3\). Memetic-reordering (psychoanalytic-unshackling) inducing institutionalised skewing (‘intemporality’-asymmetric-subsumption-of-temporality\(^4\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference towards intemporal-disposition involves: articulating a social \(^5\)universal-transparency\(^6\)–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^7\) of perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-

Memetic-reordering (psychoanalytic-unshackling) is thus the central notion of a new and comprehensive human psychology wherein the human psyche is more of a ‘mental devising tool’ involving candoring/prelogism \(^{1/2}\)/organic-comprehension-thinking and decandoring/distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> /threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{\prime\prime}\)—preconverging/dementing –apriorising-psychologism. the social construct) and operates by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >/mental-perversions to establish unsoundness-or-ontological-bad-faith/inauthenticity-of reference-of-thought and as this conjugates temporally with ignorance–affordability–opportunism–exacerbation—social-chainism/negative-social-aggregation–temporal enculturation/endemisation, and the need for new and superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. These fundamental human mental-devising-representation or apriorising–registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to categorical-imperatives/axioms/registry-teleology for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-threshold where there is divergence in reference-of-thought construed meaningfulness-and-teleology construed as transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing. At uninstitutionalised-threshold, given the veridicality of human emanace as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought–categorical-imperatives/axioms/registry-teleology in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-primemovers-totalitative-framework veridicality and carries a positive-opportunism that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting
(reasoning-through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation-channelling in the medium to long-run. It is only after such uninstitutionalised-threshold\(^1\) is superseded/dominated/preceded/overridden/uttered by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturing as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology\(^2\) that establishes the substantive/existential-contextualising-contiguity\(^3\) (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors’ articulations. Thus the basis for Rational-Realism as the initial institutionalisation/intemporalisation recomposure orientation that goes beyond just articulating "reference-of-thought→categorical-imperatives/axioms/registry-teleology→for-intemporal-preservation but involves anticipating human temporal-to-intemporal-dispositions in preempting the "persion-of→reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation" of prior/superseded registry-worldview’s "reference-of-thought→categorical-imperatives/axioms/registry-teleology→for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation; as rational-realism take stock of the fundamental reality across all institutional-cumulation/institutional-recomposure<as-to- historiability/ontological-eventfulness/ontological-aesthetic-tracing> of human temporal-to-intemporal-dispositions and doesn’t just assume the wrong notion of just an intemporal-disposition with the "persion-of→reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation" result that temporal-dispositions induced manifestations are not accounted for, anticipated and preempted beforehand/as-of-a-priori to prevent their "persion-of→reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > of reference-of-
thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation at their uninstitutionalised-threshold thus ensuring ontological contiguity. So with rational-realism the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation comes around as the ‘full-cycle/dynamic recomposuring’ that specifically anticipates and preempt priorly/ahead in its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation the notion of temporal-dispositions to dement/subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge)/mimick-and-syncretise (rather than subsequently as a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). This raises two dilemma with respect to the conceptualisation of virtue as rational-realism implies that at the procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold, we have to register/acknowledge priorly our inclination to subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge) positivistic registry-worldview’s/dimension’s institutionalisation to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion/preconverging-or-dementing–apriorising-psychologism by temporal-dispositions: (i) <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside (as being in denial of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect)
arises where a registry-worldview returns to its same reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that have been shown to be subknowledge-{preconverging-or-dementing-as-if-of-sound-knowledge}/perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion at the uninstitutionalised-threshold, and hence remains candored/integratively-aligned; contrasted with the instance of the adoption of a new registry-worldview’s (superseding the uninstitutionalised-threshold) reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preemption of the afore perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> registry-worldview. This latter instance involves de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} or Coring (in reflection/perspectivation and acknowledgment of perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) with corresponding decandoring/distractive-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing> and is what enables memetic-reordering/psychoanalytic-unshackling whereas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside at best induces ‘memetic-inching/psychoanalytic-realigning’ which are not of an immediate transcending nature. (ii) Conventioning metaphoricity involving in a continuum on one side ontologising rationalising though ontological-veridicality is not the sufficient reason for the social acceptance of rightness for rightness sake (as explained previously) and on the other side intemporality /ontology distractive sub-par/formulaic-association/temporal/alibi
prospective-institutionalisation’ as of intemporality, and so on, circularly with the ontological-contiguity—of-the-human-institutionalisation-process.) (ii) limited memetic-reordering/psychoanalytic-unshackling mentation-capacity (in devising reference-of-thought–categorical-imperatives/axioms/registry-teleology) for the intemporal-disposition as it skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superaugatory–dementativity) towards institutionalisation/intemporalisation (iii) temporal-dispositions for perversion-of reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > at uninstitutionalised-threshold (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing –apriorising-psychologism eliciting slanting/miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi as to temporal-dispositions elicited act defects of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) Hence intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation, construed as ‘postconvergence memetic recomposuring’; recomposure is defined as ‘ontological-representation/ontological-memetism of intrinsic-meaningfulness (whether implying, on the one hand, an integrative/candor/organic-comprehension-thinking alignment or on the other hand, a distractive/decantered alignment as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism) towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (as validated by veridicality/ontological-prime movers-totalitative-framework). This definition explains the succession of the
recomposuring of institutionalisations with the notion that where intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is lost at a registry-worldview’s/dimension’s uninstitutionalised-threshold, a prospective registry-worldview/dimension is implied/recomposured that will ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and undermines notional-discontiguity/epistemic-discontiguity of–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing—qualia-schema>/epistemic-totalising —self-referring-syncretising/setting-aside by appropriate stranding/coring representation (–of-perverting-temporal-dispositions) as the backdrop for the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology. That is, ‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence once it is shown that it subknowledges-or-mimics (as perversion-of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >) its reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold, even though this from the temporal-dispositions mindset/–reference-of-thought is always an unpalatable proposition. But then the state of being in a transcended registry-worldview/dimension (as in our present positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, at their uninstitutionalised-threshold; and so, going back to the recurrent-utter-institutionalised early
men who left the caves and trees, thus any denial of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as articulated above is an argument which incoherence emanantly imply ‘we should go back to the caves and trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had transcended up to our very own registry-worldview/dimension, and beyond, prospectively. Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), as the ‘base de-mentative/structural/paradigmatic decandored/distractive-alignment-to-reference-of-thought-as-of-apriorising/axiomatising/referencing> perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect reflex’ (not a straightness/candor/organic-comprehension-thinking/prelogism reflex), and de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) rather points to ‘a (lack of) the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reflection/perspectivation’ (hence a veridical ontological-primemovers-totalitative-framework as operant and deterministic, and not an impression-driven/good-naturedness/wishfulness nor a veridically logically-disjointed/discretionary reflection/perspectivation). Stranding is thus articulated as slanting/miscuing/disjointed-logic/logical-drug/unconscionability-drug/subpar-conventioning-rationalising conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism as of the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect– (induced from temporal-dispositions threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing –apriorising-psychologism as to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). The memetic-reordering is in recomposuring, at the uninstitutionalised-threshold as the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism of (registry-worldview) apriorising—registry elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (i.e. reference-of-thought—categorical-imperatives/axioms/registry-teleology) towards the transcending registry-worldview’s implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (categorical-imperatives/axioms/registry-teleology) for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, in re-institutionalising the uninstitutionalised-threshold. There is no reason for de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding—as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold, as its threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism provides the dynamic association for psychopathic/postlogic subknowledging/mimicking impulse leading to the vices-and—impediments of the registry-worldview/dimension from an intemporal/ontological perspective; and ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation veridicality (as ontological-primemovers-totalitative-framework) is the drive that resolves lack of human mentation-capacity for intemporal—
preservation-entropy-or-contiguity—or–ontological-preservation (at uninstitutionalised-threshold) by stranding-backdrop-for-transcendence and then recomposuring prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology. The example highlighted on page provides an excellent ‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding–as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold... To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human subknowledging caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to reference-of-thought–as-effectively-apriorising/axiomatising/referencing of mental-devising-representation as to its unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought arising from the perversion-and-derived–perversion-of reference-of-thought–as-effectively-apriorising–
in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, and the articulation of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) reflecting the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as intrinsic reality. In practical terms, human/social VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal-disposition philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge-(preconverging-or-dementing -as-if-of-sound-knowledge) intemporal \(^9\)reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^9\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering). It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a \(^{10}\)universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves \(^{10}\)universal projection to grasp \(^{10}\)universal principles and is not meant to ‘equivocate and idle’ with \(^{10}\)perversion-of-\(^{10}\)reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-
appropriate recomposured reference-of-thought–categorical-imperatives/axioms/registry-teleology registry-worldview/registry-teleology/registry-teleology; involving rather a crossgenerational collapsing/overriding of the temporal/preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension that is defective as of perversion-of–reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the first place), and so with transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing of temporal-dispositions and the intemporal-disposition, as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of–reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstititious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human ‘dimensionality-of-sublimating—amplituding-formative—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation

Rather it is a secondnatured/ontological-contiguity—of-the-human-institutionalisation-process as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-worldviews/dimensions arising out of human institutional-cumulation/institutional-recomposition—historiality/ontological-eventfulness/ontological-aesthetic-tracing—of the human-capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly directed to the transformative of activities while taking for granted much of the bestowed knowledge heritage. Hence we can’t overrate the ‘dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation disposition’ development of the cross-section/averageness/banality of solipsistic human thought to wrongly imply human dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation disposition is inherently intemporal, for the possibilities of human progress (due to the veridicality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at the uninstitutionalised-threshold across all levels of institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing—‘a lost cause’ which will never be changed with the result that temporal-dispositions will always dement (perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> inducing registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect<as-Being-or-ontological-or-existential—defect>/unsoundness-or-ontological-bad-

Basically, such a representation of organicalism and mechanicalism can be storied or narrated as follows: Supposed going by the case highlighted where a psychopath met a stranger talking about another stranger as molesting children; the so accused stranger was actually a guardian of the child assuming various responsibilities that come with it (this represents the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) depth of meaning), the psychopath fully aware of this none the less proffered such hollow mimicking narratives to the other stranger who aligned in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologismly/prelogically to the psychopath but is veridically now in effect the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism by ignorance, and goes on to miscue by articulating that the accused stranger should be reported to the police or any other relevant organisation, and possibly does that. Further still, this miscuing comes to develop into disjointed-logic, logical-drag, unconscionability-drag, temporal-dispositions

It should be noted that however ‘good-natured an individual’ in that worldview the basic knowledge defect of that worldview as non-empirical/superstitious defines the disposition of any such individual, as they adhere to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, to commit vices-and-impediments associated with non-positivism/medievalism, since virtue actually lies in the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework of being empirical/non-superstitious/positivistic. That’s equally the problem you have with procrypticism or perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a positivistic registry-worldview as the virtue lies in the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as involving psychopathic preconverging-or-dementing–apriorising-psychologism postlogism in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and its corollary as social psychopathy involving conjugating/inflecting/deriving preconverging-or-dementing–

ontological-primemovers-totalitative-framework\(^2\). It is bluntly speaking a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise involving the skewing
(‘intemporality\(^1\)-asymmetric-subsumption-of-temporality\(^*\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, to ‘pedestally

Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully, human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor speak of ‘the-real-nature-of-man’ that can be skewed with institutional recomposuring/memetic-reordering/psychoanalytic-unshackling towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a specific ‘institutionalisation/secondnaturing level’ which is in ‘existential immediacy’ this may seem to indicate that we are talking about ‘different species’ with ‘different ontological determinants’, which is naïve and false. The anthropopsychological approach to psychology is analogical to
the development of physics which is not only on the basis of what is immediately at the conscious operational level of physicists but equally projecting into a physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm (particle physics) in other to place the subject on a comprehensively sound footing. Central to such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the social domain is the idea of temporal-to-intemporal-dispositions and institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing>. On another note, it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans, so that the intellectual exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so doing undermine its work by naively projecting universal intemporality/longness and failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to articulate a realism that takes account of temporal mental-dispositions (knowledge-notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempts by transversality-of-affirmative-and-unaffirmative–disambiguated–'motif-and-apriorising/axiomatising/referencing to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing). It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. intemporality /longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to reality-referencing and the ontology pedestal) while temporality /shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals’. In fact, why good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality
/longness and temporality/shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of—meaningfulness-and-teleology (intemporality) and shortness-of-register-of—meaningfulness-and-teleology (temporality). That is, with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar ‘socially-perceived-value as of social-stake-contention-or-confliction’ setup across space and time; while temporal minds under the same notion (intemporality-temporality) conceptually assume lower and lower shades ‘in mentation-capacity terms’ of such an intemporal universal-depth concept articulation stressing in lieu of ‘all humans’ various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-primemovers-totalitative-framework in the notion of intemporality-temporality that doesn’t need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms—as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of—meaningfulness-and-teleology and longness-of-register-of—meaningfulness-and-teleology as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended/superseded reference-of-thought rather than the prospective/transcending/superseding reference-of-thought; since shortness-of-register-of—meaningfulness-and-teleology and longness-of-register-of—meaningfulness—
of temporality/shortness in its various shades, but rather with intemporal purpose and intent, and an ultimate quest for validation only as an ontological-prime movers-totalitative-framework conceptualisation will be qualified as ‘longness-of-thought’; and it strives to achieve a prospective de-mentative/structural/paradigmatic existential registry-worldview/dimension conceptualisation of transcendence-and-sublimity/sublimation/supraerogatory-de-mentativity wherein aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the underlying drive. The non-implication of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling) with temporality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and-social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatised as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocrypticism-over-procrypticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together
with the furthering of social/specie development). The use of ‘human mental-dispositions/individuations’ as of temporal-to-intemporal-dispositions herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human temporal-to-intemporal-dispositions mental-dispositions/individuation potential possibilities that can incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of temporal-to-intemporal-dispositions s, and hence the possibility of ontological-primemovers-totalitative-framework or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations). By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal).

The intemporal and temporal-dispositions-registries individuations-pedestals imply and point to the underlying ontological-primemovers-totalitative-framework basis of ‘the specific temporal-disposition meaningfulness-and-teleology’. Further, by psychopathic or other postlogic subknowledging/mimicking-and-mimicking-protraction, the ‘temporal-dispositions individuations-pedestals’ wrongly conjugate/inflect/protract their apriorising—registry-elements (implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,

preservation-entropy-or-contiguity–or–ontological-preservation. Unconscionability-drag (from
an ontological/intemporal reference) also points to the fact that at any institutional registry-
worldview/dimension, there can be two mental alignments; whether the apriorising–registry is
at the institutionalised/intemporalised threshold of meaning (existentially-veridical-logical-
dueness-precedes-logical-outcome-arrived-at) or at the uninstitutionalised-threshold of
meaning involving <perversion-of-reference-of-thought-as-effectively-apriorising-in-
onconviction/madeupness/bottomlining-as-to-shallow-supererogation > requiring distractive-
alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing, and in the latter case the reflex to be integratively aligned is lost across all the temporal-dispositions of the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation dimension, and what is called for with the unconscionability-drag is a distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing which will explain a dialectically-or-contendingly-out-of-phase or dialectically-primitive alignment by oblongating/decandoring/downgrading. *, i.e. Remember ‘mental-devising-representation’ is a devising construct of preceding/superseding abstract reality/veridicality (postconvergence) as the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by ontological-primemovers-totalitative-framework ! In the bigger scheme of things, ‘unconscionability-drag’ as a notion points to ‘ontological abstraction and mental-devising-representation of reality/veridicality defect’ whether dealing with psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or temporal-dispositions conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation s or simply plain temporal-dispositions ‘defective mental-devising-representation of ontological reality/veridicality’. The notion of ‘unconscionability-drag’ thus extends to all mental-devising-representation of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of all registry-worldviews/dimensions with respect to the prospective transcendental as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation registry-worldview/dimension, which is the point of ontological referencing (point-referencing). The reason why the ‘study of
the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing
the two elements of ontological meaning (reference-of-thought and logic); with reference-of-
thought being hitherto undisambiguated in the social construction of meaning, thus leading to a
‘lack of constraining social universal-transparency\textsuperscript{103}-(transparency-of-totalising-entailing,-

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the
ontological social construction of meaning as it is fully aligned or ‘in ratio alignment’ to ‘an

Of course, this is just a most basic demonstration as ideally one can imagine a creative storied narrative should articulate the phenomenon to its utmost evolving complexities –a storying construal involving an underlying-and-superseding intemporal/ontologising emanant ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness as of ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism’ for ‘postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation longness-of-register-of–’meaningfulness-and-teleology’ as of notional–deprocrypticism teleology’ putting into perspective ‘temporal emanant conjugations/inflections shortness-of-register-of–’meaningfulness-and-teleology’ as of procrypticism teleologies’. For instance, the storying construal ‘ontological/intemporal
meaningfulness-and-teleology" over shortness-of-register-of—meaningfulness-and-teleology construed as deprocrypticising/preempting—disjointedness-as-of-reference-of-thought’ (noting that the latter institutionalisation/intemporalisation contains the sublimating—nascence of the previous institutionalisations up to its own threshold of institutionalisation/intemporalisation, with notional—deprocrypticism being organically imbued with all the prior/superseded institutionalisations); all these, pointing to ‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise: (i) Psychopath narrative teleology*: an adult psychopath meets a stranger and speaks to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children (ii) temporal-dispositions narratives teleologies: a stranger not knowing the other stranger aligning prelogically to the psychopath’s narrative will have a ‘conjugated/inflected/derived/mimicked/in-protracion-to-psychopathic-preconverging-or-dementing—apriorising-psychologism ignorance-temporal-disposition defect’ if it articulated the following narrative: (a) Such a person should not be allowed to roam the streets and should be interned. A ‘conjugated/inflected/derived/mimicked/in-protracion-to-psychopathic-preconverging-or-dementing—apriorising-psychologism affordability-temporal-disposition defect’ will arise if another interlocutor knowing the accused for not truly being a child molester but because of expediency with respect to the psychopath articulates the following narrative: (b) the guy is actually a bad person and they will not be surprise that he is a child molester. A ‘conjugated/inflected/derived/mimicked/in-protracion-to-psychopathic-preconverging-or-dementing—apriorising-psychologism opportunism-temporal-disposition defect’ will arise if a different interlocutor knowing truly that the accused is not a child molester but for a favour or sense-of-favour they owe to the psychopath articulates the following narrative: (c) this guy has been going around molesting young children for quite a while now. A
‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing –apriorising-psychologism exacerbation-temporal-disposition defect’ will arise where another interlocutor knowing the truth about the whole thing, thinks they can have an advantage by acting likewise as the psychopath and articulates the following narrative (d) they had actually witnessed the accused shoplifting. A ‘conjugated/inflected/derived/mimicked/in-
protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism social-
discomfiture/(social-chainism/negative-social-aggregation)-temporal-disposition defect’ will arise where (e) such narratives are purposefully and consistently relayed in the social sphere based on ignorances, affordabilities, opportunisms and exacerbations, and individuals come to make it a reference for their relation with the accused. And finally, a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing –apriorising-psychologism temporal-enculturation (temporal-endemisation)-
temporal-disposition defect’ arises where (f) individuals come to learn that by having the appropriate social relations and social support network they can then initiate such narratives if they were to have competing 'socially-perceived-value as of social-stake-contention-or-confliction' situations with others, and not only that it also includes individuals passively accepting and giving up on the principle of the intemporality /longness and intrinsicness of meaning. It is important to distinguish all the above ‘temporal instances conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing –apriorising-psychologism of the psychopath’s postlogism ‘-slantedness in hollow-

With temporal-perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation” (mental-perversion), the interlocutor deliberately (or naively in the case of ignorance) doesn’t project intemporally (i.e. projects in terms–as-of-axiomatic-construct of shortness-of-register-of–meaningfulness-and-teleology or immediate-temporal-interest and not a universal ontological sense of meaning), comparatively more like a student guessing that the answer of a math question is say 5 ‘artificially’ operates an equation to yield 5 as answer. Whereas with ‘a defect of logical operation/processing/contention’ (which is not the case here), an interlocutor perfectly projects intemporally (i.e. projects in terms–as-of-axiomatic-construct of longness-of-register-of–meaningfulness-and-teleology or a universal ontological sense of meaning) but poorly operates/processes the logic adhocly. This latter case unlike the former doesn’t imply registry-worldview’s/dimension’s-uninstitutionalised-threshold —defect—<as-Being-or-ontological-or-existential–defect> but rather ‘an adhoc defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance whereas the former is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold —defect—<as-Being-or-ontological-or-existential–defect> that speaks to the unprincipled-or-derived-unprincipled disposition of the interlocutor’s individuation that is, with respect to an infinite number of cases in the same situation (i.e. comparatively the disposition to go about answering math questions by figuring out their answers then ‘artificially’ trying to work out

manifestations of registry/mental defect or denaturing and are the subject of intemporal/ontological contention from the intemporal-disposition, more like at the registry-worldview/dimension defect level medievalism categorical-imperatives/axioms being superseded and undermined with respect to positivism categorical-imperatives/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Very much counterintuitively with regards to ‘unconscionability-drag’, the transcendental requirement for a ‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought– categorical-imperatives/axioms/registry-teleology is rather ‘unfathomable’ for the prior <amplituding/formative> wooden-language- ⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ of the so-called ‘perversion-of’ reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > dimension’; this applies with regards to recurrent-utter-uninstitutionalisation and base-institutionalisation, ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively for upcoming times, procrypticism and deprocrypticism. The explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-worldview/dimension are formed by the memetic-ordering/psychoanalytic-construction at that registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms–as-of-axiomatic-construct of reference-of-thought and logic)’ to the individuals and so right up to their subconscious mind. But then a prospective transcendental memetic-reordering/psychoanalytic-unshackling is placing such a prior memetic-order/psychoanalytic-construction of their existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation in jeopardy, and it is only the ontological-primemovers-totalitative-
framework social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness } of the prospective intemporal dimension inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining with corresponding percolation-channelling impact from the prospective registry-worldview/dimension on the overall social-construct over a generation or two or more that allows for any such ‘habituation’ to a prospective registry-worldview’s/dimension’s transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity with its new recomposing reference-of-thought–categorical-imperatives/axioms/registry-teleology. This will explain the difficulty of medieval minds (including institutions like the church) over centuries to come to terms with positivism and scientism such that the positivistic psychoanalytic-unshackling/memetic-reordering/institutional-recomposing is still ongoing. Counterintuitively, every successive institutionalisation/intemporalisation registry-worldview/dimension naively thinks it being at the backend of the ‘institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing⟩ process’ means it is beyond transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity as it doesn’t project of itself as being superseded by a prospective registry-worldview with its new recomposing reference-of-thought–categorical-imperatives/axioms/registry-teleology (as of supplanting–conviction-as-to-profound-supercerogation—postconverging/dialectical-thinking–apriorising-psychologism) at the point where the former starts perversion-of-reference-of-thought-⟨as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation⟩ its own reference-of-thought–categorical-imperatives/axioms/registry-teleology, and does not tend to represent itself as oblongated/decandored/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing—apriorising-psychologism from a prospective dimension perspective in the sense that the decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase insight we think of non-positivism/medievalism with corresponding phenomena like superstitions, witch-hunts, etc. has never been the way they represented themselves as they are candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase in their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present mental-devising-representation of themselves. Rather it is the more profound grasp of reality from positivism that initiates that decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase mental-devising-representation of non-positivism/medievalism in the positivistic mind, and this is the case as well with all other dialectic institutionalisations across the institutional-cumulation/institutional-recomposure-<as-astro-historiality/ontological-eventfulness/ontological-aesthetic-tracing>/anthropological-continuity/anthropopsychology. The reason for making the above point is that we will most possibly as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present act likewise when it is time to imply our own decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase procrypticism—or–disjointedness-as-of-reference-of-thought mental-devising-representation of our reference-of-thought–categorical-imperatives/axioms/registry-teleology with respect to a prospectively candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase notional–deprocrypticism new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology that is revealed by the ‘unconscionability-drag’ disambiguation of our temporal-dispositions-perversion associated with perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-

(iii) For deprocrypticism, ‘temporal-to-intemporal-dispositions ontological-escalation/aetiologisation’ teleology: will involve identifying, defining, characterising, qualifying and articulating the aetiology of this individuation perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > dynamism endemic in the social-construct and prospective categorical-imperatives/axiomatic-construct for its preemption, more like a positive mind will do with respect to a non-positivism/medievalism social-construct reference-of-thought. (Though interestingly it is important to grasp that such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity actually takes the natural form of a ‘crossgenerational medium to long-term psychoanalytic-drag’ and not ‘instantaneous utter transformation’ towards ontological-completeness-ofreference-of-thought, even such an ‘instantaneous utter transformation conceptualisation’ is equally a necessary knowledge exercise as the social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} constraining that allows for a ‘crossgenerational medium to long-term psychoanalytic-drag’): (a) articulating a social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of the registry-worldview-perversions, (b) generating ontological-prime-movers-totalitative-framework untenability/internal-contradiction/internal-incoherence/institutional-constraining in the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview (c) referencing/registering/decisioning or stranding the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > perversion-of-
<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>, as the prospective institutionalisation is rather about a registry-worldview/registry, and not logical, transformation as a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; with the notion that any such wrongly implied rejoining as logical articulation is rather <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry/registry-worldview reflex-defect in want of ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. For instance, in the case mentioned before with regards to B (Brackets), where B was to stick with the same temporal-dispositions individuation disposition that delivered the wrong results with respect to subsequent equations of a similar context (uninstitutionalised-threshold) this will be epistemic-decadence, as conjugated/inflected/derived from A’s defective condition which is in epistemic-decadence, and the both A and B are of notional-discontiguity/epistemic-discontiguity –<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> defining the registry-worldview/dimension apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect. This implies de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of B to such perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation:> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) is the effective backdrop for ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and this is rather crossgenerational in nature (rather than instant intragenerational registry/registry-worldview transformation) as personhoods-and-socialhood-formation are rather grounded on the superseded/transcended/unsound reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The above analysis shows that soundness-or-ontological-good-faith/authenticity -of- reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). Unconscionability-drag (from an ontological/intemporal reference) ensures the disambiguation of registries so that the psychopath’s and temporal-dispositions are not elevated to the intemporal level which then allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect being in terms–as-of-axiomatic-construct of the apriorising–registry-elements, implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of the registries, i.e. rather the unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought or the dialectically-or-contendingly-out-of-phase meaningful construct). Unconscionability-drag (from an ontological/intemporal reference) is thus central to resolving the rational-realism de-mentating/structuring/paradigming as it accounts for the defect of temporal-dispositions teleologies of meaning (shortness-of-register–of–meaningfulness-and-teleology) while projecting intemporally/ontologically. The notion of ‘unconscionability-drag’ also explain how and why banal temporal-dispositions are not readily ‘integrative of psychopathic postlogism–slantedness as conjugated-
postlogism /preconverging-or-dementing-integration’ (hence no distractive-alignment-to-
reference-of-thought<-of-apriorising/axiomatising/referencing>) to the childhood and early
adolescent psychopaths but come to develop a ‘mental-unconsciousness’ (unconscionability) to
be ‘integrative of psychopathic postlogism’-slantedness’ during the stage of late adolescence
and adult psychopath. Antipodal to the idea of ‘unconscionability-drag’ is the idea of
‘conventioning’/social-temporal-thresholding. ‘Unconscionability-drag’ points to an abstract
but more veridical ontological construct of the ‘social construction of meaning’ that is
ontological-normalcy/postconvergence, based on intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation by using categorical-imperatives of the prospective
superseding/transcendental registry-worldview/dimension whether such a representation is
aligned or not with the society’s collective-social-psyche or present-consciousness. (For
instance, we can generate an unconscionability-drag of a medieval society on the basis of a
positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic
mental-dispositions of individuations in such a society. While such a representation, with its
corresponding subknowledging/mimicking, is ontologically more accurate about such a
society, however, the collective-social-psyche/present-consciousness of individuations in the
said society will not recognise any such decandored/oblongated/logical-incongruence-or-
transversality/dialectically-or-contendingly-out-of-phase representation of themselves, rather
the medieval society will represent itself as candored/straight/integratively-
aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-
temporal-thresholding representation of the social construction of meaning’).
Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction
of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from
superseding/transcendental categorical-imperatives preserving intemporality) is not
necessarily the deterministic basis for human social adherence to it. Transcended and
ontological meaningfulness of reality (contrary to conventioning/social-temporal-thresholding meaningfulness of reality which is rather towards <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/temporality’-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to ‘prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation-channelling’ of ‘any social construction of meaning’ for there to be collective institutionalised social adherence (and by the relative positive-opportunism75 elicited). Institutionalisation/Intemporalisation percolation-channelling are the institutionalised relays for human survival-and-flourishing-teleology39, whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocrypticism, such that abstractions that will normally hardly be socially integrated going just by averaging human temporal-to-intemporal nature, can actually come from re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking’-‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation⟩ intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation-channelling are for institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing> beyond just the consciousness appraisal of temporal-dispositions. Institutionalisation/Intemporalisation percolation-channelling imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over ‘social-and-temporal-trading’ and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied positive-opportunism75 for human survival-and-flourishing imbued in institutionalisation/intemporalisation percolation-channelling. This implies that an exercise in
institutionalisation/intemporisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality de-mentating/structuring/paradigming (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather ‘conventionalised from institutionalisation/intemporisation (secondnatured), and has not evolved as of dimensionality-of-sublimating’ —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection; as it may be inclined to make references to temporal ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology ’—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are preconverging-or-dementing’—apriorising-psychologism/of-perverted-registry/subknowledging /mimicking—and—epistemic-totalising ~self-referencing—syncretising-these. This brings forth the idea of ‘ordered construct’ between the intemporal firstnature/intemporal (organic-comprehension-thinking as to intemporal supplanting—conviction-as-to-profound-supererogation —postconverging/dialectical-thinking”—apriorising-psychologism) and temporal-and-poorly-secondnatured/institutionalised (threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing”—apriorising-psychologism, in relation to transcending meaning. Such ordered construct ensures precedence of the former as it skews (‘intemporality’—asymmetric-subsumption-of-temporality”’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) solipsistically towards intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while the latter skews (‘intemporality —asymmetric-subsumption-of-temporality’’, for relative intrinsic—
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) for temporal preservation. Anecdotally, moral philosophy as dimensionality-of-sublimating—amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (organic-comprehension-thinking) creates law/legal-conventions but then questions of justice cannot be attended to by populist-social-construct (threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism) since only a developed sense of moral philosophy as dimensionality-of-sublimating—amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (organic-comprehension-thinking) ensures sound jurisprudence as a human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation dementating/structuring/paradigming rather than a temporal extricatory dementating/structuring/paradigming. ‘Prior or circumstantial social integration gatekeeping construals or institutionalisation/intemporalisation percolation-channelling’ that can enable the superseding of conventioning in the social integration of ontological veridicality include existing percolation-channelling of formalisms/officialdom which have naturally been instituted to allow for the supersedingness of intemporal/ontological constructs and intemporal-disposition s. For instance, formal institutions selectivity mechanisms; and where the latter fail or are fallacious, basic positive-opportunism wherein the ontologising construct elicits positive-opportunism for the undermining of defective conventioning/social-temporal-thresholding constructs/categorical-imperatives of meaning (for instance, a natural causes disease conception leading to more cures such that positive-opportunism then undermines a
superstitious-driven disease theory which leads to more pain and deaths). The big idea here is
that, it is naïve philosophically to operate mainly on the basis of ‘ontological rightness of
transcendence-and-sublimity/sublimation/supererogatory~de-mentativity’ with respect to a
species whose construct is structured to be temporal (shortness-of-register-of—meaningfulness-
and-teleology) to intemporal (longness-of-register-of—meaningfulness-and-teleology) requiring skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative
intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory~de-mentativity)/deferential-formalisation-transference to
the latter. And any such ‘ontological transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity by mere rightness’ has never been
acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never
took off even though it was ontologically right (as the medieval conventioning/social-temporal-
thresholding construct and strongly ingrained social dispositions). It is the generated
untenability/internal-contradiction/internal-incoherence/institutional-constraining together with
positive-opportunism coming from sailors sailing around the world on this idea to seek for
spices and create wealth that constrained/institutionalised the medieval world into such an
ontological transformation/transcendence-and-sublimity/sublimation/supererogatory~de-
mentativity. Part and parcel of ontological transformation/transcendence is the existential
cynicism to grasp the human sense of internal contradictions and positive-opportunism to
introduce and uphold these by the mechanism known as institutionalisation/intemporalisation.
Regarding futural Being-development/ontological-framework-expansion—as-to-depth-of-

supererogation > dynamics of procrysticism’ are by themselves a sufficient basis for the direct and immediate social integration of notional~deprocrysticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence-and-sublimity/sublimation/supererogation/de-mentativity wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolation-channelling for intemporal transcendence-and-sublimity/sublimation/supererogation/de-mentativity. However, it should be noted that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective temporality/shortness undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism/slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the intemporal meaning), and on the other hand, how prospective intemporality/longness is regenerated to supersede/transcend such perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and bring about new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Organic-comprehension-thinking (as to supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism) as highlighted above contrasts with threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing –apriorising-psychologism which is rather temporal-driven (whether ignorance at best, slantedness/psychopathy, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Organic-comprehension-thinking (organicalism/*intemporal-prioritisation-of- reference-of-thought’–as-conflatedness ‘-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology”), being intemporal-driven, with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity points to the fact that the articulation of meaning referenced/registered/decisioned differently in two registry-worldviews/dimensions, the perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as retrospective and transcendental as prospective, is/should be wholly referenced/registered/decisioned intemporally from the superseding transcendence-and-sublimity/sublimation/supererogatory–de-mentativity that upholds intemporal-preservation-entropy-or-contiguity—or–ontological-preservation; as the ‘intemporal mind’ can’t go after the value reference of both registry-worldviews/dimensions since transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is about ‘subverting’ perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation” > by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. For instance, the non-positivism/medievalism value references of aristocracy/class are contrarian to positivistic value references for the possibility of equal opportunities; and the intemporal projecting positivistic mind in medieval times has no business trying to appear ‘great and wonderful’ with respect to ‘conventioned’ value reference of aristocracy/class in the medieval world even though it is the dominant and encultured collective mental-disposition. Likewise, such logic will apply regarding notional–deprocrypticism and procrypticism requiring a reasoning that goes beyond the
involving temporality\textsuperscript{1}, ‘mental triteness’ and ‘gullibility’ with respect to, in the case of psychopathy, insane/slantedness integration as social psychopathy; and more generally, ‘lack of intemporal-disposition philosophical depth’, i.e. lack of spontaneous dimensionality-of-sublimating\textsuperscript{2}—\textless{amplituding/formative}\textgreater{}supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inclination (the-guy-who-spontaneously-stands-out-against-say-a-genocide or the milgram-experiment-guy-who-sticks-with-what-is-reality-rather-than-going-with-the-flow, etc.) not to be confused with secondnaturing/institutionalisation, and as a consequence an inclination to compromise intemporality\textsuperscript{3}/longness as ‘conventioning (social-temporal-thresholding) of meaning’ rather than ‘ontologising (intemporal-uncompromising) of meaning’. Overall threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{4}—preconverging/dementing –apriorising-psychologism points to the fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal consequences whether regarding defective enculturation or defective social ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires ‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise of undermining conventioning at uninstitutionalised-threshold\textsuperscript{5} (due to the inescapable veridicality of human individuation temporal/shortness-to-intemporal/longness which inevitably induces \textsuperscript{7}perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{6} > at uninstitutionalised-threshold\textsuperscript{8}); deconventioning as such skews (‘intemporality\textsuperscript{9}-asymmetric-subsumption-of-temporality\textsuperscript{10}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. An essential element underlying the psychopathic and
other postlogic relationship with meaning has to do with the nature of attachment to meaning. A
postlogic mind doesn’t view meaning articulations as ‘inherently sanctuous’ and thus is
inclined to produce mechanically whatever deductions that may engage an interlocutor in-
prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-
thinking —apriorising-psychologismly/prelogicly even if these are hollow mimicking non-
veridical narratives, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-
projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-
mere-illogical-possibility-of-it-being-formulaically-narrated). On the other hand, prelogism-as-of-conviction,-as-to-profound-supererogation—or-thinking imply more of an organic
alignment view of meaningful articulations as ‘inherently sanctuous’, i.e. ‘existential-
contextualising-contiguity/meaningful-projection-of-intrinsicness’. Going by these two facts,
the postlogic and psychopathic mindset/reference-of-thought is readily inclined to call upon a
broad base of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-
form-or-hollow-and-vague-vocalisation-or-subknowledging narratives (meaning-by-the-mere-
illogical-possibility-of-it-being-formulaically-narrated) whereas the prelogic/conviction-as-to-
profound-supererogation mindset/reference-of-thought is inclined to call upon just the
narratives it sincerely thinks are relevant/due and intrinsically real. So it is critical not to
confuse the over-articulation of postlogic narratives (vague mechanical stylising-of-locution)
with an organic depth-of-thought or profundness, given that these involve postlogism-slantedness, disjointed-logic, miscuing, inventions and platitudes from the postlogic mindset,
requiring decandoring/oblongating/distractive-alignment-to-reference-of-thought<of-

Worst still such vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging tend to be integrated at uninstitutionalised-threshold of conventioning/social-temporal-thresholds. Without a sense of ‘rational-realism’ (the veridicality of meaning involving not only the logical processing/operation of narratives but preceding temporal-to-intemporal-dispositions disambiguation, i.e. in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), by prelogism as-of-conviction,-as-to-profound-supererogation reflex, prelogic/conviction-as-to-profound-supererogation and postlogism -formulaic slanting narratives as to threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism will be analysed at the same pedestal towards construing veridicality/intrinsic-reality. threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity as to fundamentally undermine procrypticism—or-disjoinedness-as-of-reference-of-thought and bring about deprocrypticism, and so crossgenerationally, and not instant argumentation convincing intradimensionally in a registry-worldview/dimension that is defective or perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the first place). Ontology being the intemporal-disposition, the exercise of ‘directing convincing’ to temporal-dispositions is inherently unwarranted and is rather <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards the ‘institutionalisation/intemporalisation percolation-channelling’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. By ‘uninstitutionalised-threshold’ (where there is no ‘intemporal social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as well as no temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation’) is meant, the possibilities of human dispositions and acts beyond frameworks that have not been institutionalised; manifesting as (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring universalisation), and to the recurrent-utter-institutionalised
priorising–registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation). Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifices (institutions with their formal rules) by the skewing (‘intemporality -asymmetric-subsumption-of-temporality ’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of our collective thought process in the medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt temporal dispositions. This explains why modern man (positivistic registry-worldview) is apparently more evolved/developed than he/she should normally be compared to previous generations (recurrent-utter-uninstitutionalised men, ununiversalised men, non-positivism/medievalism men, and prospectively, how he/she will be superseded by the depocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is different from the others. The difference is the cumulated ‘software’ or institutionalisations and formalisations that have been internalised into modern man. Anthropologists know that if you were to take a newly born child from a society like those that do not have contact with the modern world, and raise the child in a modern family, there is no different outcome on average as with any other child bred in the modern world. So our faith in virtue is not in our inherent excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation that has cumulated, and insightfully, which creative template we will prospectively develop!

Incidentally institutionalisation and formalisation ensures that we take the best form of human individuation thinking/capacity potential and constrain society and individuals to that individuation thinking/capacity potential, and inherently so, by the overall positive-
opportunism to the cross-section of the species since it better grasp intrinsic reality and its virtues! Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality), and this author notionally interpret solipsism as the deepest sense of existence and meaning available to an individual in its spontaneous emanation or becoming, and as it projects itself ‘purely and universally’. It is a firstnature/intemporal construct beyond and ‘inventing the possibility’ of secondnatured institutionalisation, and places all humans at all times at the same pedestal of virtuous and ontological appraisal, as it is about our ‘transcendental valour’ irrespective of the level of institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness>/ontological-aesthetic-tracing> at which we are. It contrasts with institutionalisation/intemporalisation which is ‘a negotiated and secondnatured or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction’. Institutionalisation/intemporalisation as such, by way of positive-opportunism and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed (‘intemporality’-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which is upheld by formalisation and internalisation. By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 100 AD might be worlds apart, but the intrinsic nature of reality never
changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the Good/understanding/knowledge-reification\textsuperscript{7}/ontological-primemovers-totalitative-framework\textsuperscript{7} for ontological-primemovers-totalitative-framework\textsuperscript{7} and thus a better grasp of the world; hence proxying mentation-capacity level as the various institutional-cumulation/institutional-recomposure-<as-to-\textsuperscript{4}historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing>\textsuperscript{7}. That idea that intrinsic reality is preceding/superseding is known as ‘postconvergence’ (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of ontological-primemovers-totalitative-framework\textsuperscript{7} is known is the human psyche (whether by candoring/straightness/prelogism\textsuperscript{8} when pertinent or decandoring/slantedness/distractive-alignment-to-\textsuperscript{8} reference-of-thought-<of-apriorising/axiomatising/referencing>\textsuperscript{8} when impertinent), intrinsic reality never gives in (that’s why we are mortals and our hope is to always give-in to intrinsic reality for the possibilities of the future). This latter point is important as by reflex an epistemic-totalising\textsuperscript{3}-self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} its registry-worldview/categorical-imperatives (setting-aside of perversion-and-derived-perversion-reference-of-thought) rather than psychoanalytically-unshackling/memetic-reordering (coring and superseding the perversion-and-derived-perversion-reference-of-thought) for prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. By ‘intemporal transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{9} as from ontological-normalcy/postconvergence’ is meant ontological-normalcy/postconvergence–meaningfulness-
and-teleology as so articulated above is ontologically veridical but that does not necessarily imply the metaphysical framework temporal mental-dispositions will recognise that (i.e. there is no ontological-contiguity between registry-worldviews references-of-thought as this falsely implies ‘no temporal-to-intemporal disambiguation, i.e. equivalence of references-of-thought/no-alienative-hierarchisation, whereas what is warranted is ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling’); and that it is transversality-of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing of such constructed veridicality in its ontological-primemovers-totalitative-framework determinism and operance that will undermine other possible ‘temporal perverted-transversality-of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–meaning’ by rendering them untenable/internal-contradiction and inoperant (not a ‘convincing’ at the philosophical or emanance level, rather a ‘constraining’ at the institutionalisation/intemporalisation secondnaturising level out of ontological-primemovers-totalitative-framework); noting that ‘temporal perverted-transversality-of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism meaning’ imply temporal existentialising-frame meaningfulness-and-teleology cannot-be-referenced/registered/decisioned as-of/having the same ‘reference-of-thought/registry of the intemporal-disposition which is ontological, and is thus rather preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase’, i.e. in distractive-alignment-to-reference-of-thought–of-apriorising/axiomatising/referencing, (and so all along the apriorising–registry-elements: implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,
assumptions, value-reference and teleology of the mental-devising-representation from the intemporal-disposition/ontological perspective. Ontology being of the intemporal-disposition, the exercise of ‘directing logical convincing’ to temporal-dispositions is inherently unwarranted and is rather amplituding/formative–epistemicity totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards ontological-prime movers-totalitative-framework which induces the positive-opportunism and untenability/internal-contradiction/internal-incoherence/institutional-constraining for its supersedingness in the ‘institutionalisation/intemporalisation percolation-channelling’, the latter being utterly impersonal (law, officialdoms and subject matter formalisms) and allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. This is underlying transcendental-enabling/sublimating/superrogatory-de-mentativity notion while often obscured in the social amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality due to their ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal validation but impose themselves because natural truths inherently supersede human egotistic or amplituding/formative–epistemicity totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag opinionatedness! Postconvergence, in the bigger scheme of things, implies that knowledge has to do with the development of our ‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern is about ‘us’; in the appropriateness of the registries we
make of intrinsic-reality across retrospective-and-prospective history or rather shifting
dialectical moments of relative-ontological-completeness! The articulation of reality, registry-
worldviews/dimensions, mental strands (perverted or not), and other constructs of ontological-
primemovers-totalitative-framework is ‘at-a-superseding-pedestal and incisive/blunt’ by the
very nature of ontological-normalcy/postconvergence reality. For instance, supposed a society
with a non-positivism/medievalism belief system attributes the cause of a disease to say
witchcraft, that doesn’t stop the reality of bacteria causing the disease even if such a
representation of reality isn’t in the present-consciousness/illusion-of-the-present of that
society. Such an ontological conceptualisation of reality equally applies in our times where it
can be demonstrated prospectively that our mental-devising-representation of meaning
regarding a phenomenon is out of kilter, and reality won’t stop to accommodate us or our
banality of thought. Thus the conceptualisation of reality is rather articulated at this depth-of-
thought whether it accommodates our present-consciousness/illusion-of-the-present or not
(reality personality), and operates by an ordered construct based on ontological-primemovers-
totalitative-framework and not a disposition of averageness/banality/popularity/extrinsic-
attrition-of-thought recurrent in uninstitutionalised-threshold in the extended-informality-
{susceptible-to-effecting-parsonomy-as-of-shoddiness-and-incompleteness-to—
meaningfulness-and-teleology}, allowing for the possibility of transcendental meaning,
institutionalisation/intemporalisation (skewing (‘intemporal’-asymmetric-subsumption-of-
temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory—de-mentativity) for intemporal domination) and human
progress; given human temporal/shortness-to-intemporal/longness dispositions. Such an
articulation of reality introduces the concept of ‘reasoning-through/utterion’ over
‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and
notional–disjointedness’. Reasoning-through/utterion refers to the uncompromising and non-
negotiable nature of reality with respect to the meaningful frames of mortal creatures that we are as reality doesn’t adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-through/utterion then implies that meaning is articulated exclusively in terms—as-of-axiomatic-construct of ontological-primemovers-totalitative-framework and anything else is defined, whether to be candored or to be decandored, at that ordered construct point-of-reference or point-referencing. Reason is thus ontologically a ‘reasoning-through’ as allowed through in a ‘pure, organic and intemporally uncompromising state’ by reality ontological-primemovers-totalitative-framework ‘at-a-superseding-pedestal and incisively/bluntly’. incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought refer to the human reflex to average minds or make reference to extrinsic elements rather than meaning by its inherence as can be predicated effectively, and involves ‘reasoning with’, as it introduces ‘temporal and social trading’ elements over or clouding or compromising inherent intemporal veridicality. incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought as such is patently wrong; as can be perceived from point-referencing superseding registry-worldviews/dimensions such that the ontological representation of the veridicality is different from the different perspectives of an recurrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding deprocryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising—registry point-referencing threshold’, and implying rather the need for our

Fundamentally, incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought in human thinking as indicated above with the various institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> is superseded by reasoning-through/utterion; in transversality-of-affirmative-and-unaffirmative–disambiguated-motif-and-apriorising/axiomatising/referencing101 at-a-superseding-pedestal, and represented as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation — preconverging/dementing—apriorising-psychologism as oblongated/decandored or failing-intemporal-preservation-or-misappropriation-of-meaningfulness or transversality-of-affirmative-and-unaffirmative–disambiguated-motif-and-apriorising/axiomatising/referencing101, given the fact that this reflects apriorising–registry defect and not logical defect. More precisely, how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? This fundamentally has to do with our dimensionality-of-sublimating—amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection irrespective of the uninstitutionalised-threshold, and calls for PEDESTALLED CONSTRUAL or PEDESTALLED DISAMBIGUATION to skew/deferential-formalisation-transference meaning towards the intemporal/longness disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation,
institutionalisation/intemporalisation. Pedestalled construal/pedestalled disambiguation thus involves at a given uninstitutionalised-threshold translating the ‘apparently prelogism-as-of-conviction,-as-to-profound-supererogation’ or prelogic teleological finality of a temporal-disposition into its veridical preconverging-or-dementing-apriorising-psychologism as postlogic perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation teleological finality, and so successively in reflecting the notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> of temporal-dispositions registries (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as rather referenced/registered/decisioned from the prospective intemporal-disposition in postconverging-or-dialectical-thinking-apriorising-psychologism to reconstrue new recomposuring-reference-of-thought-categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation while superseding the prior registry-worldview/dimension as backdrop of temporal perversion of the prior reference-of-thought-categorical-imperatives/axioms/registry-teleology. Technically, pedestalled construal/pedestalled disambiguation should involve reflecting/perspectivating/highlighting from the intemporal-disposition pedestal teleology finality/questioning mental-profundness (deep candor) the relative longness/shortness-of-teleology of temporal-dispositions teleologies finalities/questioning mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which is the psychopath’s insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology finalities/questioning (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled construal/pedestalled disambiguation points to the fact that the social representation of meaning is transversal/logically incongruent at uninstitutionalised-threshold\(^2\) as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of ‘questioning depth-of-thought’ and ‘strands of depth-of-meaningfulness’ to reflect effective meaningful representation from the intemporal-disposition point-of-reference). Where meaning is not articulated within an institutionalised/intemporalised framework, the idea of logical-congruence (a common reference of meaning in terms—as-of-axiomatic-construct of \^reference-of-thought and logic) should be avoided due to perversion-of reference-of-thought—\^as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^7\>) whether psychopathic or not, and pedestalled construal/pedestalled disambiguation is then required using distractive-alignment-to reference-of-thought—\^of-apriorising/axiomatising/referencing\(^9\) to establish the ontological pre-eminence of the intemporal-disposition. Instances of perversion-and-derived perversion-of reference-of-thought—\^as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^7\>) rather point to uninstitutionalised-threshold\(^2\), whether retrospectively or prospectively, as there is wrong equivalence of temporal-to-intemporal-dispositions in the articulation of meaning; instead of the pedestalled supersedingness of the intemporal-disposition as it is all about intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (superseding various shades of temporal preservations). Otherwise, perversion-of reference-of-thought—\^as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^7\>) induces a ‘free for all’ false equivalence wrongly construed as of intemporality /longness (rather than the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—

For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor \(^{10}\) universal rules (mob situations as well as social psychopathic situations will
fall under such an interpretation as well). (2) Pedestalling (‘intemporal-prioritisation-of-
reference-of-thought’–as-conflicatedness—or-ontological-reprojecting pedestalling) articulates
the relative grandor and virtuous consequence of the pedestalled supersedingness of the
intemporal-disposition by its intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation that then leads to society’s temporal-to-intemporal cross-sectional ‘dimensionality-of-sublimating’—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness>/transvaluative-rationalising/transepistemicity/anamnestic-

with regards to a superstition/belief system/religion, essences/universal-notions, positivist

involving a posture (institutionalised disposition) of the sort ‘the-say-that or it-is-said-that’ as
‘dimensionality-of-sublimating’—<amplituding/formative>supererogatory—de-

‘the Bible says that’, ‘it is said that one should not set foot in that forest as it will bring bad
luck’, etc. This ‘the-say-that/it-is-said-that’ ‘dimensionality-of-sublimating—
<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-
conflicatedness>/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

institutionalisation/intemporalisation has been happening across human history; whether
deerence from personalised/animists beliefs to philosophical, religious and other social belief
systems, deference from haphazard application of social rules to universal notions, laws and
principles, deference from spirit-and-mystical-driven notions of nature and various alchemies to
a modern scientific construct system. Hence the very place of the averageness/banality-of-
human-thought-and-meaning in history has been for it to defer to superseding intemporal-disposition construal by ‘intemporal-prioritisation-of- reference-of-thought’–as-confledness-or-ontological-reprojecting pedealling. There is no such thing as allowing thought-and-meaning to the whims of masses thinking but rather deference to ‘reality/veridicality predicating constructs’; as enabled abstractly and existentially by the human individuation intemporal-emanant-registry in superseding human individuations temporal-dispositions. ‘Intemporal-prioritisation-of- reference-of-thought’–as-confledness-or-ontological-reprojecting pedealling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and hence the precedence of higher intemporal teleologies over low temporal teleologies of reference-of-thought and meaningfulness; and that subpar dementating/structuring/paradigming of reference-of-thought and meaningfulness not for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation but rather as perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of subpar reference-of-thought–categorical-imperatives/axioms/registry-teleology, of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as uninstitutionalised-threshold is ‘perverted reference-of-thought and meaningfulness’ (<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasic-drag ), and is ontologically-preconverging-or-dementing–apriorising-psychologism (dialectically-preconverging-or-dementing–apriorising-psychologism) whether from a superseding/transcending registry/registry-worldview reference-of-thought/veridical-thinking-reference-over-preconverging-or-dementing–reference that is retrospective (like base-institutionalisation over recurrent-utter-uninstitutionalisation), present (like positivism over
non-positivism/medievalism) or prospective (like notional-deprocrypticism over procrypticism/the-'preconverging-or-dementing’—apriorising-psychologism-of-the-positivistic-registry-worldview-or-dimension-categorical-imperatives-or-axioms-or-registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). ‘Intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting pedestalling underlines the fundamental nature of institutionalisation/intemporalisation not as a temporal-dispositions-to intemporal-disposition transformation (not emanance transformance) but rather ‘a positive-opportunism’ constraining construct’ involving ‘intemporal-disposition deferential-formalisation-transference’ (such that just as jurisprudentialism is dismissive of whatever we’ll like to think of it in our social-and-temporal-trading context about the law which is rather articulated as a formal conceptualisation and constraint to be internalised as a universal construct to avoid its ‘downgrading’ by mobbish or other temporal social inclinations, likewise with many a subject-matter domain). In the same vain, the outcrop of an organic-comprehension-thinking ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting conceptualisation of notional-deprocrypticism over procrypticism can only be construed within a formal institutionalised articulation not opened to ‘temporal/ordinary disposition contention’ as is the case with subject-matter constructs, but rather an institutionalised percolation-channelling exercise, so as to avoid temporal-dispositions denaturing as is the case with all formal constructs, which rather strive to uphold the intemporal/longness-of-register-or-depth-of-meaningfulness teleology while relying on principled methods. Prospectively, the intellectual exercise involved in articulating procrypticism-notional-deprocrypticism and psychopathy and its corollary social psychopathy, will have to imply a ‘dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

For the big picture, this point to the fact that institutional-cumulation/institutional-recomposure-<as-to-‘historiality/ontological-
eventfulness /ontological-aesthetic-tracing>/anthropological-continuity/anthropopsychology is only possible for one reason, a continuity in the intemporal-disposition institutionalisation/intemporalisation (with ‘dimensionality-of-sublimating — <amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluation-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection induced deference’) of the cross-section of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Where, and if, intemporal-disposition was to possibly end or be upended (either because of lack of further human intemporal-disposition mentation-capacity for higher levels-of-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, in the dynamism of individual potential, i.e. the solipsistic disposition of individuals’ individuations to assume "universal projection of longness-of-thought-and-meaning, or social-construct potential, i.e. where grander institutionalisation/intemporalisation is not confused and implied on the naivety that the institutionalised social-construct is of intemporal-disposition rather than a temporal-to-intemporal-dispositions construct requiring ‘transcending any perversion-of’ reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”> of the <amplituding/formative> wooden-language—(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—“meaningfulness-and-teleology”“-as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>)), then ‘human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and civilisation will stall’ (of course, such an insight is purely from an ontological point-of-reference, and not a temporal <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness point-of-reference)! (3) The
establishment of institutionalisation/intemporalisation involves necessarily ‘delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling processes’ to uphold it thereafter with formalisms and officialdom surrounding it with respect to temporal-dispositions perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation s and corruption dispositions. For instance, the institutionalisation/intemporalisation of ‘scientific chemistry’ comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the meaningful frame, on the justification that they explain and account more about the material world than any other alternative. This justification goes on to make them formalism and officialdom percolation-channelling to the extended-informality-susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology such that over time alchemic and superstitious conceptualisations of material meaning are effectively destroyed while equally seeing to it that pseudo-scientism is kept at bay. ‘Delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling processes’, because such a pedestalled supersedingness is only as valid as to when it is the grandest construal of material meaning until, and if, it is shown not to be the case. A further and nonetheless important reason for such delegation is the relative superficiality generally associated with averageness/banality-of-thought dimensionality-of-sublimating—amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection construal of meaning, and not to speak of its discomposure to the convolutedness often required in articulating and grasping intemporal meaning as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming. Besides, this raises other issues related to a more or less
temporal take of an ontological/intemporal enterprise with regards to articulations that are meant to have universal import (import of metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation across space and time) rather than for the sake of any particular circumstantial/temporal take/extricatory-situation in whichever locale, that is, an extricatory de-mentating/structuring/paradigming. A failure to grasp the intellectual-analyst posture rather as a proxying-of-intrinsic-reality-as-ontology as per ontological-primesmovers-totalitative-framework validation and that there-is-no-discretionary-construal-of-ontology/ontological-reality since intrinsic reality is superseding of all mortals including the intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping such an intrinsic-reality is a proxying one superseded by the ontological-primesmovers-totalitative-framework of reality ‘which in no way depends on any notion of the intellectual-analyst’s choice/luxury’ (as the intellectual-analyst might actually have by another individuation chose not an intemporal/ontological projection but a temporal posture ‘in moral/intellectual equivalence with temporal mental projections’ with nefarious temporal consequences). Basically, there is nothing like an intemporal temporality/shortness whereby there is any intemporality/longness in accommodating human temporality. Likewise, supposedly the intellectual-analyst was to come short in its intemporal projection or other universal values by temporal manipulation, it is very naïve to ‘reason and projecting temporally’ that eliciting such ‘an inductive-limitation (the-paradox-of-a-universal-rule-that-doesn’t-apply-universally-but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset/reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally,
temporal-dispositions as eliciting temporal vices-and-impediments are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal preservation as ontological veridicality with the potential for a grander human good’ on the basis of ‘universal implications’; as inevitably, ontologically, the resolution of ontological/being perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defects (and as per their manifestation and conjugation as postlogism slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought–devolving ontological-performance–<including-virtue-as-ontology>) are as prospective registry-worldviews/dimensions constructs that supersede the prior/superseded registry-worldview’s/dimension’s perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (uninstitutionalisation de-mentatively/structurally/paradigmatically superseded/resolved/rendered-inoperant by base-institutionalisation, ununiversalisation by universalisation, non-positivism/medievalism by positivism, and prospectively procrypticism–or–disjointedness-as-of–reference-of-thought by deprocrypticism). Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won’t mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn’t have the choice/luxury of deciding from his insight that evolution
doesn’t exist in placating any temporal mortals or Galileo doesn’t have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their ‘aggrandised mortality’. The blunt/incisive reality is that they being in that position to affirm intemporality /ontology/intrinsic-reality-as-providing-future-/universal-possibilities-for-the-human-species are the ‘very tip of the possibility of human civilisation’ and their moral/intellectual posture is to ‘bluntly look down’ to the ‘little mortal creatures of temporality’ and ‘shepherd the sheepishness-of-the-species’ to grander civilisational grounds. It is an ontological ‘moral and intellectual responsibility and privilege’, actually, to be in any such position, going by the eudaemonic-contemplation which is what ‘effectively grants existential moral and intellectual superiority’ and not naïve temporality/shortness accommodating conventioning constructs about any such pretence which is nothing more than temporal/the-mortals’ perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing—apriorising-psychologism; as any such is not the intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional-deprocrypticism (to thwart procrypticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal individuation as such projects in an ‘abstract eternality’ which is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Temporal-dispositions may not need to understand as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present for the pertinence of intrinsic reality to be established as it is preceding in ontological-normalcy/postconvergence, anyway, that is why it is ‘a registry-worldview’s/dimension’s
prospective institutionalisation/intemporalisation secondnaturing exercise’, and ‘not human
temporal-dispositions transformation exercise’ into intemporality\^! Ultimately, like all
institutionalisation/intemporalisation construct, there is a ‘dimensionality-of-sublimating —

It is very naïve to think that psychopathy as a social phenomenon is limited in scope to contexts where psychopaths are involved rather than involving a much wider social basis to explain how the positivistic registry-worldview/dimension integrates, enculturates and endemises it as ‘social psychopathy’. the temporal-dispositions involves simply conjugating/inflecting the underlying ‘(as dialectically-or-contendingly-out-of-phase or hollow-mimicking) insane/slantedness fitment’ of the postlogic mind of the psychopath to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. In the bigger scheme of things, the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained with the concept of unconscionability-drag) as ‘it enables mental-devising-representation contiguity in recomposuring’ across all institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing>. The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposuring how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. The insight we
can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as ‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness

Thereafter, the ontological exercise is about having ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘an ontologically-veridical abstract and infallible referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on the one hand, candoring/prelogism/organic-comprehension-thinking ontologising, or on the other hand, decandoring/distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>/threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism, even as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implies a continually-evasive/ephemeral social world dynamics but that is graspable in referential terms. This allows for a truly universal and dynamic psychological science (and sound foundation for grasping ‘the veridicality of meaning’). The tools for such an ontological entrapment is basically about ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications ‘transdimensional-meaningfulness/memetic refinements’ as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-confoundedness as dialectical transformation as prospective reference-of-thought involving fundamentally the organic harnessing of the notions of candoring/prelogism, dialectically-or-contendingly-in-phase, organic-comprehension-thinking, prelogism-as-of-conviction, as-to-profound-supererogation on the one hand and on the other hand decandoring, distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>, dialectically-or-contendingly-out-of-phase, non-ontological-reference, non-contending-reference-but-

Postdication (as an abstract and infallible referencing/correction-tool) allows for the ‘ontological liberation of human mental-devising-representation (of meaning) from any present (recomposured)-consciousness-awareness-teleology’ (whether in the bigger scheme of reference of specific consciousness-awareness-teleologies like recurrent-utter-uninstitutionalisation–base-institutionalisation, ununiversalisation-universalisation, non-positivism/medievalism-positivism, and prospectively procrypticism-deprocrypticism) as ‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated (recomposured)-consciousness-awareness-teleology’ (given that these consciousness-awareness-teleologies are the recomposured outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-deepening’) but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/utter understanding by the very nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness
inherent in any (recomposured)-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension. Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as de-mentation-
(supercreryogory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) hermeneutically/reprojectively-educing-human—meaningfulness-and-teleology —into-the-existentialism-becoming of personhoods-and-socialhood-formation (existential-storying-in-contiguity). An analogical case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology. However, the bigger picture is that if prior/superseded institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing have effectively occurred and so, counterintuitively to their natural (recomposured)-consciousness-awareness-teleologies, as anticipated by postdication right up to our present positivistic institutionalisation/intemporalisation owns (recomposured)-consciousness-awareness-teleology; there isn’t any particular ontological reason for intemporal/ontological meaning not to be construed in ontological-normalcy/postconvergence (postdication) as more veridically/ontologically real, beyond and counterintuitively to the positivistic mind’s temporal (recomposured)-consciousness-awareness-teleology (even if it is unintelligible/existentially-suprastructural to it). Such counter-intuitiveness arises because a prospective transcendental psychoanalytic-unshackling/memetic-reordering/institutional-recomposing implied by postdication places the prior psychoanalytic-unshackling/memetic-reordering/institutional-recomposing (in this case positivistic institutionalisation/intemporalisation) existentialism/full-existential-depth-implications personhoods-and-socialhood-formation in
where a positivist mind might see a forest as a subject of scientific inquiry/understanding, a non-positivist/medieval mindset/reference-of-thought might rather see a mentally unconscious man going into the ‘evil forest’. Such ‘existential parochial perspectives’ will arise anyway from procrypticism viewed from deprocrypticism, though of a different nature than the example expressed above. In that sense, the deprocryptic mind might actually seem ridiculous in the procryptic registry-worldview/dimension but ‘there should be no temptation to want to appear great or adjust in such a perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perspective but rather to make it irrelevant’ otherwise the deprocryptic mind compromises the essence of its purpose, just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise its positivist stance’ by trying ‘to be wonderful’ in a non-positivism/medievalism perspective that is rather ‘in want of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’; as it is exactly because the temporal non-positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, requiring that such an intellectual analyst be of presencing—absolutising-identitive-constitutedness consummated/forfeiting posture in transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-worldview/dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (procrypticism) to avoid dividing its
meaningful-referencing instead of taking it prospectively (deprocryptism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the de-mentative/structural/paradigmatic conceptual limits (uninstitutionalised-threshold) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then arises is that it doesn’t carries the meaningfulness sought for transcendentally. On the other hand, transdimensional/transcendental meaningfulness-and-teleology is precedingness/supersedingness/ascendency accruing as ‘existential psychoanalytic ontological form (in full blossoming of the transcending dimension)’ beyond the superseded intradimensional de-mentative/structural/paradigmatic conception limits (uninstitutionalised-threshold) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension (which itself had been the outcome of a preceding existential psychoanalytic ontological form). Memetism as to suprastructural meaningfulness-and-teleology will refer to the projective conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-
worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation); highlighting as ontologically wrong any relation to intradimensional meaningfulness as (intemporally/ontologically)-sanctuous-by-reflex (as this wrongly undermines the de-mentionation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) of temporal-dispositions-postlogic-backtracking-<iterative-looping–set-of-dereifying-hollow-narratives-and Acts’>–subknowledgeing /mimicking-set-of-narratives, and wrongly leads to their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising-as-straight/candored’ at that registry-worldview’s/dimension’s uninstitutionalised-threshold requiring prospective memetic-reordering. (As a side note, this will explain while ‘referentialism’ in contrast to ‘categorisation’ is the appropriate knowledge-cadre for such a more or less deconstructive articulation in ontological-normalcy/postconvergence and suprastructural, as is the case with this paper, by the fact of the need for a requisite ‘habituation-into and repeatability-from-different-textual-meaningfulness-perspectives’ that is necessary to get-to-and-grasp not only an explanation but critically as well the requisite psychoanalytic-state of a construed existential psychoanalytic ontological form, in full blossoming of the transcending dimension, as ontological meaningfulness.) Finally, it is just a matter of fact going by the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> process that human cross-sectional mentation-capacity in relation to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is limited given ‘perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’>, as virtue is rather extended by successive re-institutionalisation in transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-
apriorising/axiomatising/referencing\textsuperscript{103} (not nested-congruence) by the intemporal-disposition intemporalisation skewing (‘intemporality\textsuperscript{-asymmetric-subsumption-of-temporality’}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{-de-mentativity) as deferential-formalisation-transference, going from base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Such a ‘postconvergence referentialism’ skewed (‘intemporality\textsuperscript{-asymmetric-subsumption-of-temporality’}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{-de-mentativity) hermeneutic-circle goes beyond a traditional hermeneutics exercise of subjective interpretation and rather arrives at an exercise in ‘\textsuperscript{103}universal objective (ontological-primumovers-totalitative-framework\textsuperscript{2})’ ontological explanation’ as it emphasises transversally/incongruently ‘the recomposuring precedingness/supersedingness/ascendency of abstract ontological-normalcy/postconvergence referentialism notion of reality’ in referencing meaningfulness apriorising–registry (whether candored / integratively-aligned / straightness / dialectically-or-contendingly-in-phase or decandored / transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{103} / dialectically-or-contendingly-out-of-phase colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation), and so, as coming from an intemporal-disposition/ontological skewed (‘intemporality\textsuperscript{-asymmetric-subsumption-of-temporality’}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{-de-mentativity) point-of-referencing. It further holds a promise that goes beyond our notions of reference-of-thought and meaningfulness (as rather intradimensional or a registry-worldview constructs), and arrives at the grander notion of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which grasp should enable greater human transcendental possibilities. Of course, ontologically (i.e. ‘the-
Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how
do our development and institutionalisation/intemporalisation of true knowledge ‘save us from
potent-temporality’ and its vices-and-impediments \( ^{15} \) with respect to ‘socially-perceived-value
as of social-stake-contention-or-confliction’, rather than how do we over-idealise ourselves and
thus fail to be preemptive (as the ‘human cross-sectional mental equilibrium disposition’, at any
successive transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity/institutionalisation in the ‘human essential temporal-to-intemporal-dispositions
equilibrium nature which is ontologically true’, under-accounts for ‘temporal-nature which is
not ontologically true’, and over-accounts for ‘intemporality /longness nature which is equally
not ontologically true’ –the insight for this is that institutionalisation/intemporalisation is a
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring tool, it doesn’t
transform temporal-dispositions which is the exclusive purview of individual sense of
dimensionality-of-sublimating \( ^{1} \) \( \rightarrow \) \( ^{<amplituding/formative>} \) supererogatory-de-
mentativeness/epistemic-growth-or-conflatedness /transvalutative-
rationaising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation and by its
very nature is ‘beyond a philosophical transformation exercise’ as the latter exercise is mainly
to ‘construct articulations for secondnaturing’ at best (articulate new
institutionalisation/intemporalisation deterministic-and-operant possibilities for skewing

reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
mentativity)/deferential-formalisation-transference towards intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation), hence the need to refer analytically to human
temporal-to-intemporal-dispositions s as of the circularity/recurrence/repetition/repeatability/

recomposing-for-relative-ontological-completeness—unenframed-conceptualisation highlighting the uninstitutionalised-threshold and not analytically implying by reflex solely on the basis of a human intemporal-disposition mental-disposition); and prospectively, do our part of the ‘transcendental homework’ that has brought the human species this far taking cue from retrospective transcendence-and-sublimity/sublimation/supererrogatory-de-mentativity. By extension this explains how the notion of ‘knowledge problem’ is to be apprehended transcendentally/transdimensionally/interdimensionally (as a contiguous intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as ‘social problem/questioning’ is an ‘intradimensional focus’ around logical operation/processing/contention based on the ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with the temporal defect of possible denaturing of such ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. However, ontological-normalcy/postconvergence (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge problem as ‘social problem/questioning’ on the ‘intemporal-preservation-entropy’ itself-and-beyond-any-set–categorical-imperatives/axioms/registry-teleology–implying-it (and by extension accounting for incompleteness of human mental/brain mentation-capacity which is the reason of the institutional-cumulation/institutional-recomposure–as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing> process) to define ‘social problem/questioning’ as implying a ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation recomposing/memetic-reordering/psychoanalytic-unshackling to
enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when at the
uninstitutionalised-threshold of the registry-worldview/dimension (the contiguous referential
exercise of recomposuring/memetic-reordering/psychoanalytic-unshackling to perpetually
enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is known as
‘postdication’, a term that is in contrast with ‘predication’ which is based on ‘constitutive
categorisation elaboration on an intradimensionally affixed reference-of-thought–categorical-
imperatives/axioms/registry-teleology whereas postdication refers to a

recomposuring/memetic-reordering/psychoanalytic-unshackling ontological-reconstituting–as-to-conflicatedness /deconstruction); involving avoiding making an intemporal-disposition representation (with the implication of a purely logical operation/processing/contention) instead
of a temporal-to-intemporal-dispositions representation (with the implication of temporal-to-
temporal-dispositions disambiguation before logical operation/processing/contention; as
apriorising–registry disambiguation, into the intemporal-disposition and conjugating temporal-
dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,
allowing for contextualisation in articulating the contrast of the intemporal-disposition’s
organic-comprehension-thinking (organicalism/intemporal-prioritisation-of reference-of-
thought–as-conflicatedness or-ontological-reprojecting/longness-of-register-of–
meaningfulness-and-teleology) and temporal-dispositions threshold-of–nonconviction/madeupness/bottomlining-as to-shallow-supererogation —
preconverging/dementing—apriorising-psychologism –involving slanting by psychopath,
miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par-or-formulaic-
association-or-temporal-or-alibi conventioning-rationalising –with temporal-dispositions in varied shades of temporal conjugation/inflection to psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as ontological-primemovers-totalitative-framework dispositions; thus enabling the stifling (undermining the ontological-veridicality) of temporal-dispositions and skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-dementativity), by way of institutionalisation/intemporalisation percolation-channelling, towards the supersedingness of the intemporal-disposition for institutionalisation’s/intemporalisation’s intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Thus the ontological veridicality of the registry-worldview’s/dimension’s perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation at it uninstitutionalised-threshold is articulated, with contention then being about reflecting/perspectivating/highlighting and aetiologising/ontologising this, even if it is intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this regard, the development of positivism from non-positivism/medievalism). It should be noted then that the de-mentating/structuring/paradigming is an intemporal/ontological projection referencing de-mentating/structuring/paradigming beyond-and-the-non-implication of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) with the intradimensional ‘consciousness-awareness frame-of–social-stake-contention-or-confliction’ of the temporal/preconverging-or-dementing–apriorising-psychologism dimension, more like the positivist ontological biology and medicine de-mentating/structuring/paradigming is beyond/supersedes-and-is-a-non-implication of an equivalence with the ‘consciousness-awareness frame-of–social-stake-contention-or-confliction’ of say non-positivism/medievalism temporal value dispositions with
respect to the notion of disease, that is, it’s point is to define an altogether different and superseding meaningful frame or de-mentating/structuring/paradigming and is not involved in an idle exercise of elevating and articulating its meaning in terms–as-of-axiomatic-construct of and implying an equivalence with non-positivism/medievalism meaningfulness. That is equally the relation between a transcending notional–deprocrypticism registry-worldview and the transcended procrypticism worldview. Postdication as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (postconvergence), as an ontological-reconstituting–as-to-conflicatedness psychoanalytically/memetically/meaningfully allows for a purist (candored/decandored) ontological grasp/predication of the veridicality of any institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing (retrospectively to prospectively); avoiding the defect of intradimensional-referencing of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and consequently a superseded/transcended registry/registry-worldview-or-dimension as preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase undermining ontological veridicality. This transcendental insight is in line with the idea of low teleologies or temporal concerns in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation — preconverging/dementing–apriorising-psychologism, and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicism/’intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness -or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology), and ontologically long in an intemporal/species-possibilities/abstract-eternity-of-being-mental-projection/eudaemonic-contemplation), and
their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/characteral-disposition whether of low or higher teleology\(^9\); hence any such ‘storied/articulated’ absolutely specific-individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of individuation aetiologies’, though all such storied/narrated specific individuation aetiologies represent the full possibilities of any and all individuals ‘as receptacles of individuation aetiologies’). By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a profound-supererogation disposition that is beyond just one institutionalised/intemporalised registry-worldview/dimension\(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) but abstractly and supererogatorily across all transcendental retrospective-and-prospective institutionalisation/intemporalisation registry-worldviews/dimensions as so-reflected by dimensionality-of-sublimating\(\ulcorner\)–amplituding/formative\(\urcorner\)supererogatory–dem- mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation); with the implication that the highest teleologies of Base-institutionalisation (as percolation-channelling undermining of recurrent-utter-uninstitutionalisation and its vices-and-impediments\(^9\)) – equivocates as of profound-supererogation\(^6\) to the highest teleologies of universalisation (as percolation-channelling undermining of ununiversalisation and its vices-and-impediments\(^5\)) – equivocates as of profound-supererogation\(^6\) to the highest teleologies of Positivism (as percolation-channelling undermining of non-positivism/medievalism and its vices-and-impediments\(^5\)) –and prospectively, equivocates as of profound-supererogation\(^6\) to the highest teleologies of notional~deprocrypticism (as percolation-channelling undermining of
procrypticism—or-disjointedness-as-of-reference-of-thought and its vices-and-impediments\(^\text{19}\). It should thus be noted as such that ‘higher teleologies’ are ‘equivalences of existential’ (in terms–as-of-axiomatic-construct of temporal-to-intemporal-dispositions), and not equivalences of institutionalisation/intemporalisation levels. That is, being in a transcended institutionalised/intemporalised registry-worldview/dimension (internalisation and formalisation induced as a secondnature) doesn’t equivocate as highest teleologies to the existential projection that ‘had the vision’ in the prior/superseded subknowledging /mimicking/untranscended registry-worldview/dimension (‘with-no-elicited-positive-opportunism /much-more-likely-temporal-negative-disincentive’ and ‘out-of-the-blue’) to articulate-and-uphold-for-percolation-channelling the prospect of the transcended-registry-worldview/dimension-with-its-prospective-universal-virtue-over-the-vices-and-impediments-of-the-prior-registry-worldview/dimension even as it seem unintelligible/existentially-suprastructural to the prior/superseded untranscended/preconverging-or-dementing—apriorising-psychologism registry-worldview/dimension. So in terms–as-of-axiomatic-construct of ‘higher teleologies’ (emphasising the existential intemporal-disposition as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an institutionalised/intemporalised positivistic world doesn’t necessarily equivocate us to the Galileos, Descarteses, Newtons, Leibnizes, Rousseaux, Darwins … behind the articulation-and-upholding-for-percolation-channelling of a positivistic registry-worldview/dimension (even though together with them we all may recognise and operate within a positivistic world). That is, the ‘existential profound-supererogating that enables the articulation-and-upholding-for-percolation-channelling of a transcending registry-worldview/dimension as to dimensionality-of-sublimating—amplituding/formative supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-
residuality/spirit-drivenness–equalisation’ is the higher teleology\(^{101}\) ‘over the mere-institutionalised-being-and-craft’ in such a transcended registry-worldview/dimension. And why is this distinction critical? Because prospective (intemporality\(^{51}\)) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation necessarily calls upon the (intemporal)-kind that articulated-and-upheld-for-percolation-channelling the superseding institutionalisation/intemporalisation/transcendence; and the condition of mere-institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn’t speak of a disposition to prospectively articulate-and-uphold-for-percolation-channelling an intemporally requisite prospective registry-worldview/dimension institutionalisation/intemporalisation that is intemporally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for ‘human registries-disambiguation at uninstitutionalised-threshold\(^{102}\)’, and as being temporal-to-intemporal-dispositions. The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemporal virtue as civilisational over temporal vices-and-impediments\(^{105}\) (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing (‘intemporality-asymmetric-subsumption-of-temporality\(^{98}\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/memetic-reordering with respect to the base physical animal selectivity process (genetics) of the human species generational succession. On other issues of pertinence in the
bigger scheme of things: (i) Meaningfulness of temporal-to-intemporal-dispositions as to ‘existential idealism/success’ as these define mental orientations or registry-worldview teleological-dispositions. Going by the human ‘institutional-cumulation/institutional-recomposurer-as-to-‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing’ process involving variously candored/straightness/prelogism and decandored/oblongated/distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> mental-devising-representation of registry-worldviews dependent on which registry-worldview is considered ‘perversion-of’ reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’> or transcendental/superseding; in any given registry-worldview’s social context, the notion of ‘existential idealism/success’ is averagely viewed invariably as ‘living to the ‘opportunistic ideals or conventioning/social-temporal-thresholding’ of the inherent registry-worldview’ irrespective of whether it is ‘perversion-of’ reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’> or transcending/superseding, and not necessarily by its veracity/ontological-pertinence. But then given that what allows for the institutional-cumulation/institutional-recomposition-<as-to-‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing>-

process transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to take us from an uninstitutionalised animal to now a positivistic one and prospectively a deprocryptic one; it is difficult to contemplate ‘existential success/idealism’ from a knowledge/ontological perspective (in contrast to a temporal <amplituding/formative> wooden-language-<imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—‘meaningfulness-and-teleology-as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications> perspective) without identifying that intemporal-disposition in contrast to temporal mental-dispositions is what is ‘truly existential success’ as the intemporal-disposition
is very much what allows for human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and subsequent institutionalisation/intemporalisation, much as the distilling process allows for the lightness of hydrocarbons, ‘where lightness is virtue’. Basically, it can be said that without the human quality of the ‘aetiologisation/ontological-escalation individuation of the intemporal’ we’ll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the ‘percolative impact’ of the ‘firstnature/intemporal’ (which is not readily available to the immediacy/shortness-of-register-of—meaningfulness-and-teleology of minds of temporal-dispositions). For instance, men did not ‘by magic’ develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding ‘psychoanalytic liberation’ that allowed for such a development induced by philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profundamente applicative enough’ and more or less cultic (available more or less to a priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolation-channelling effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was outlying without scale and time and the sufficient lack of chaos and war). holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-

such a philosophical-driven conceptualisation of human meaning and corresponding
psychoanalytic-unshackling, percolation-channelling into an overall relaying defining the
human anthropological-continuity or anthropopsychology or institutional-
cumulation/institutional-recomposure-<as-to- historiality/ontological-

philosophical-conceptualisation of mythologies (of superstitious causations with respect to
human and existential destiny/teleology—‘inducing a human psychoanalytic-unshackling or
registry-worldview memetic-reordering’ which has the merit of introducing comprehensive
social institutionalisation/intemporalisation suprastructurally based around such mythologies
(underlying suprastructurally the creation of superstitious practices, religions and belief
systems, and practically ‘institutionalised living’ whether with respect to nature or among
humans); - a human-philosophical-conceptualisation of mystical-principles (a system of the
appropriate relations humans need to have with such superstitious causations with respect to
human and existential destiny/teleology—’renewing the human psychoanalytic-unshackling or

ontological-primemovers-totalitative-framework\(^2\) conceptualisation over ontologically-flawed-intemporal-construction-with-the-drawback-of-temporal-dispositions-’preconverging-or-dementing’–apriorising-psychologism underlying the suprastructural and practical introduction of notional–deprocrypticism postconverging-or-dialectical-thinking\(^2\)–apriorising-psychologism rules/principles (postconvergence referentialism entropy of institutionalisation/intemporalisation). The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from the superstitious/religion, universal-notions/essences, principles-rationalism/positivist-idealism and then rational-realism as of notional–deprocrypticism is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain its world, but then realises across institutional-cumulation/institutional-recomposure-<as-to-\(^2\)historiality/ontological-eventfulness\(^2\)/ontological-aesthetic-tracing> that successive introduction of more and more ‘realistic’ conceptualisations enable a grander ontological-primemovers-totalitative-framework\(^2\) and grasp of its world. Further, what differentiates principles-rationalism/positivist-idealism and rational-realism as of notional–deprocrypticism is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the disambiguation of dispositions in meaning construal and subsequent logical operation/processing/contention at reference-of-thought (on the basis that human dispositions are temporal-to-intemporal/shortness-to-longness; with human registers/registry-teleologies involving subknowledging\(^2\)-impulse/compulsive-dementing/slantedness/psychopath, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). notional–deprocrypticism is particular, as imbued/recomposuring with the other institutionalisations and across all the successive institutional-cumulation/institutional-recompose—historiality/ontological-eventfulness /ontological-aesthetic-tracing>, in that it addresses the fundamental issue of perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect by recognising the reality of human temporal-to-intemporal-dispositions in principle and preempting this in principle in its operant conceptualisation, i.e. in principle the deprocryptic reflex is not to simply operate/process logic, it anticipates the verification of soundness of apriorising–registry to establish that this isn’t subknowledging-impulse/compulsive-dementing/slanted/psychopathy as well as the

phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full-existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity should be similar to say a literary work like Things Fall Apart by Chinua Achebe even though the latter is rather more about cultural-diffusion-from-Western-philosophical-transcendence which positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity integration into the society’s institutionalisation/intemporalisation percolation-channelling undermines-psychoanalytically/psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring the society’s existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation allowing for positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. But then unlike Things Fall Apart, such a perpetuation-of-notional-deprocripticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity being not a cultural-diffusion-from-another-society’s-philosophical-transcendence but rather a universal-human-intradimensional-philosophical-transcendence can be creatively devised as being in substitution to an ‘abstract cultural-diffusion-from-another-society’s-philosophical-transcendence transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, for an in-depth insight. However, the latter storying will have to be more deterministic, operant and of aesthetic applicability, unlike just a simple literary work, with strong existentialism/full-existential-depth-implications insights with respect to percolation-channelling effects as predication/deferred-predication and application/deferred-application to human and social issues based on temporal-to-intemporal-dispositions conceptual articulation as ontological-primemovers-totalitative-framework about the ‘abstract nature of man’. This will involve

reference and teleology\(^{\text{102}}\) reflection/perspectivation of the two prior pedestals in ontological-escalation as a registry-worldview/dimension defect at this uninstitutionalised-threshold\(^{\text{20}}\) as backdrop for ‘postconverging-or-dialectical-thinking\(^{\text{73}}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the construal of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{\text{99}}\) as of prospective notional–deprocrypticism reference-of-thought\(^{\text{83}}\) categorical-imperatives/axioms/registry-teleology\(^{\text{99}}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preempting procrypticism, so construed by ‘notional–deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\(^{\text{20}}\)-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’. And so, based on the fundamental psychological de-mentating/structuring/paradigming of ‘mental-devising-representation devising’ giving-in to veridicality/intrinsic-reality when shown to be perversion-of-reference-of-thought\(^{\text{83}}\)–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{\text{96}}\). This fundamental psychological de-mentating/structuring/paradigming operates by way of candoring/prelogism \(^{\text{20}}\)/dialectically-or-contendingly-in-phase or in preconverging-or-dementing\(^{\text{83}}\)–apriorising-psychologism/decandoring/distractive-alignment-to–reference-of-thought\(^{\text{83}}\)–of-apriorising/axiomatising/referencing> \(^{\text{20}}\)/dialectically-or-contendingly-out-of-phase to represent registry-worldview/dimension ontological-veridicality ‘as thinking’ or perversion-of-reference-of-thought\(^{\text{83}}\)–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{\text{96}}\) ‘as preconverging-or-dementing\(^{\text{83}}\)–apriorising-psychologism’ respectively, as is implied in all the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from recurrence-of-utter-
uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism, and prospectively perpetuation-of-deprocrypticism. This serves to provide the perspective/reflection to the present positivistic mindset/reference-of-thought explaining while the ‘seemingly unlikely preconverging-or-dementing –apriorising-psychologism mental-devising-representation of its mind’ at its uninstiituionalised/unintemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ‘procryptism–or–disjointedness-as-of– reference-of-thought so reflected/perspectivated from notional–deprocrypticism is more veridical than its illusion-of-the-present/present-consciousnessas mental ‘postconverging-or-dialectical-thinking”–apriorising-psychologism’ representation. In the bigger scheme of things, such a ‘creative existentialism (full-existential-depth-implications) storying construal’ on perpetuation-of-notional–deprocrypticism re-elaborated to a ‘creative existentialism (full-existential-depth-implications) storying construal’ of all the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity provides an even more profound and emanant-insight understanding of the anthropological continuity/anthropopsychology and the proper place of the present positivistic mind in the bigger scheme, and what is prospectively implied, as a perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). Another ontological element of the perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct. Prior/superseded transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from recurrent-utter-uninstitutionalisation
being the strongest in its positive-opportunism as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of: ‘organising rules/principles’/base-institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where such organising/rules/principles/laws are constantly being remade competitively with respect to survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation-channelling for intemporal transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is a highly-diffusionary-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-social intemporal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the ambits of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these institutionalisations transcendence-and-sublimity/sublimation/supererogatory–de-mentativity can elicit, in effect, a
grander sense of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming rather than a temporal extricatory de-mentating/structuring/paradigming in their cross-section of the social-construct. However, it will probably be more facile for such a cross-section of the social-construct to be strongly disposed to adopt an extricatory/temporality de-mentating/structuring/paradigming rather than intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming regarding the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of ‘temporal-to-intemporal-dispositions accountability as intemporality–skewing (‘intemporality–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) rules/principles’ or notional–deprocrypticism with regards to their temporal direct/immediate survival opportunism statistically to individuals on the cross-section of the social-construct. An intemporal disposition as ontological projecting that may elicit a sense of positive-opportunism for survival itself with base-institutionalisation will not necessarily have the same adherence effect on the cross-section of the social-construct when it comes to a transcendance-and-sublimity/sublimation/supererogatory–de-mentativity which temporal directness/immediacy for ‘individuals sense of survival-and-flourishing’ is not so obvious but for its abstract ontological veridicality and abstract intemporal transformation implications as is the case with deprocrypticism; but is rendered possible because of the relatively ‘strong preset institutionalisation/intemporalisation percolation-channelling for transcendance-and-
sublimity/sublimation/supererogatory~de-mentativity’ (on the basis of its untenability/internal-contradiction/internal-incoherence/institutional-constraining generation capacity); more like it would be fair to say that many an abstract and boring scientific efforts do not necessarily appeal temporarily but for the strongly preset institutionalisation/intemporalisation percolation-channelling for their social integration. Basically, with transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as temporal directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolation-channelling for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity) in assuring prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity strengthens. To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. That is, transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive). To the extent that transcendence-and-sublimity/sublimation/supererogatory~de-mentativity highlights critically that it is what is the best enabler for survival-and-flourishing then it is a force of social transformation. Equally, an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with regards to human temporal practicality, by mere ontological-veridicality be a basis for its social integration, if the insight that it provides a grander survival-and-flourishing scheme isn’t immediately palpable. As in this case human temporal practicality disposition is perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-threshold. But then with an increasing cerebral grasp of our nature and our surrounding world rather than just
passive endurers of nature-in-action, we can fairly anticipate and supersede intellectually our human temporal practicality dispositions, in this case with regards to deprocrypticism, and attain prospective knowledge-and-virtue generally. Meaning (defined previously as what defines/predicates value, thought and action) is actually a referential memetic construct in the referential exercise of the entropic preservation of preceding-intemporality/intrinsic-reality as validated by ontological-prime-movers-totalitative-framework. This leads in the instance of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation to the notion of ‘memetic-corruption or psychoanalytic-misrepresentation of categorical-imperatives/axioms/registry-teleology’; requiring a referential ‘memetic reordering/psychoanalytic-unshackling’ for the entropic preservation of intemporality/intrinsic-reality as validated by ontological-prime-movers-totalitative-framework. The referential memetism as suprastructural-meaningfulness implying that meaning is in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-reality) and it is grounded on its validation/veridicality by its ontological-prime-movers-totalitative-framework in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candored, and then mentally-oblongated/decandored with respect to new/superseding soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold whether from recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-
positivism/medievalism to positivistic, and prospectively procrpticism to deprocrpticism. More than just an exercise of grasping the possibilities of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, it is critical that for future transcendence-and-sublimity/sublimation/supererogatory–de-mentativity we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of mortals’ (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity that enabled its world, the positive worldview from non-positivism/medievalism, but has been rather ‘institutionalised and secondnatured there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential idealism/success’ must be the exclusive purview of the aetiological individuation of the intemporal-disposition whose organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology/universal projection/intemporality keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional–deprocrpticism (to thwart procrpticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract eternality’ that is what allows for the intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. In the bigger scheme of things, all the vices-and-impediments of successive registry-worldviews can be directly ascribed as corresponding perversion-of-referenc-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of temporal-dispositions at the registry-worldviews uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent an recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as subknowledging/mimicking/perverting positivistic meaningfulness) those of procrypticism. Virtue is plainly and simply about the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct with corresponding virtuous consequences of knowledge or lack-of-knowledge thereof). It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendental possibilities, otherwise we syncretise and preserve and articulate our temporality/shortness as being intemporal! (ii) ‘Intellectual solipsistic/emanant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing and subknowledging’ with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of
human/social progress de-mentating/structuring/paradigming. While intellectual ontological/intemporal meaningfulness may strive to articulate a universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism-slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not impression/good-naturedness/wishfulness vagueness) the supersedingness of the intemporal-disposition-worldview (as ontological and upholding virtue in the medium to long perspective) over the cross-section of human mental temporal-to-intemporal-dispositions s, i.e. secondnaturing as formalisation and internalisation. For instance, if men were of an intemporal-disposition we will only need ‘moral philosophy’ and ‘no law’ as the institutionalising principle of the law is a tacit recognition that realistically we need ‘dominating/superseding artifices’ or ‘institutions and their rules and narratives’ whether the human subjects have a grasp of the ‘philosophical’ universal end purpose or not). This is the attitude that preserves the virtue inherent in the intemporal conceptualisation of meaning and ‘not any temporal romantic idealism’ which only leads to perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in particular in the
‘extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology’)’ (informal settings) where the constraining social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative—epistemicity-totalising-in-relative-ontological-completeness) (usually introduced in formal settings) is not available. Hence intellectual responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism. This involves avoiding the naivety of articulating meaning only in the sense of the intemporal ideal but including a constraining and temporal-to-intemporal-dispositions-disambiguating realism that upholds/preserves intemporality/longness and stifles temporal-dispositions perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation inclinations. Such an approach is known as the ‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances’/temporal-dispositions to knowledge/intemporality which then allows for scrutinising and preempting ‘the ignorances’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct). ‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically
engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturings and internalisation. ‘Intemporal and temporal disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional meaningfulness for instance respectively as notional–deprocripticism and as procrypticism (‘perversion-of’ reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation > of positivistic meaningfulness), just as there is mutual unintelligibility between positivism and non-positivism/medievalism meaningfulness. This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews share the same ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); wherein it is transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing that plays out to enable the utter superseding/transcendence of the intemporal-disposition or prospective memetism or prospective/transcendental superseding registry-worldview/dimension over the prior/transcended/superseded intradimensional meaningfulness. For the simple reason that
intrinsic-reality being preceding as ontological-normalcy/postconvergence it won’t let the positivistic mindset/\textsuperscript{83} reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology\textsuperscript{83} of the mortals that we are, in the sense that a cholera epidemic that was to occur say in \textsuperscript{100} b.c. Will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; thus naivety will be to strive to syncretise in temporal-and-social-trading our discomfort/unpalatability in construing intrinsic-reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/\textsuperscript{83} reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with ‘reasoning-through/utterion’ with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism (where the non-positivism/medievalism registry-worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-Good/understanding/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling mechanism. This ontological insight (transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{101} that plays out to enable the utter prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-
worldview/dimension as notional–deprocrypticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter superseded/transcended as of ‘reasoning-through/utterion’ and represented as preconverging-or-dementing^{-19}–apriorising-psychologism in line with the preceding ontological-normalcy/postconvergence nature of intrinsic-reality/ontology, likewise with the idea that notional–deprocrypticism validation will arise from the untenability/internal-contradiction/internal-incoherence/institutional-constraining of procrypticism as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism takes hold in the the-Good/understanding/knowledge-reification^{\#}/ontological-primemovers-totalitative-framework^{72} institutionalisation percolation-channelling mechanism. So deterministically and operantly, without any discretion allowed, from the intemporal/ontological perspective, it is a crossgenerational collapsing/overriding-and-superseding of temporal-dispositions and a registry-worldview/dimension-intradimensional-meaningfulness that is ^{73}perversion-of-\textgreater \text{reference-of-thought}-<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}>\text{ construed in transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing}^{101} involving reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the ^{102}de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the backdrop of new ^{3}reference-of-thought–categorical-imperatives/axioms/registry-teleology^{99},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enables prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus technically, preconverging-or-dementing^{19}–apriorising-psychologism arises simply by a shift of
reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be more intemporally-preservational); with the preconverging-or-dementing—apriorising-psychologism reflected/perspectivated in the mental-devising-representation fully implied by the new transcending/superseding reference-of-thought (of postconverging/dialectical-thinking—apriorising-psychologism) about the prior transcended/superseded reference-of-thought (and so, beyond the latter’s registry-worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated ontological-impertinence as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> and go on to be of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag this now shown-to-be-wrong reference-of-thought). preconverging-or-dementing—apriorising-psychologism as such is easily and spontaneously reflected of a prior/superseded/transcended registry-worldview/dimension like for instance a positivistic registry-worldview/dimension mental-devising-representation reflecting the preconverging-or-dementing—apriorising-psychologism of a medieval registry-worldview/dimension. But then this is because the positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension personhoods-and-socialhood-formation has to deal with. However, implying similarly the preconverging-or-dementing—apriorising-psychologism of the positivistic registry-worldview/dimension from its intradimensional perspective where its own reference-of-thought is superseded/transcended by a prospective reference-of-thought as notional~deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-
consciousness/epistemic-totalising~self-referencing-syncretising/mirage that its personhoods- and-socialhood-formation has to deal with, lead to the positivistic registry-worldview/dimension by reflex setting-aside/ignoring the prospective and veridical\textsuperscript{\circ} reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity\textsuperscript{\circ}, and go on to self-reference-syncretise its transcended/superseded reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/reference-of-thought will likely shift the reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A’s illness, the mental-devising-representation of the positivistic mindset/reference-of-thought will be that A is preconverging-or-dementing\textsuperscript{\circ}–apriorising-psychologism and that a germ and biological functioning theory of the human body is the reference-of-thought for A’s disease. But then intradimensionally, A and B and their society of personhoods-and-socialhood-formation and existentialism/full-depth-of-existential-implications that are non-positivism/medievalism will tend to harken back to reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{\circ},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that uphold the prior/transcended/superseded reference-of-thought that admits to notions-and-accusations-of-sorcery. The effective anthropological and dialectical evidence (mostly from diffusional transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{\circ}–de-mentativity given the relative abruptness of cultural diffusions compared to an intra-society philosophical transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{\circ}–de-mentativity which is rather slow in the making) shows that it is the crossgenerational habituation by <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag into \textsuperscript{\circ}reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension (in this instance the positivistic registry-worldview/dimension) that will
logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation effect; as successive circular postlogic-backtracking-/iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’—preconverging-or-dementing—apriorising-psychologism constructs, and not as may wrongly be reflected by the natural reflex to be prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism, as supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (existential-contextualising-contiguity/meaningful-projection-of-intrinsicness/authentic-vocalisation/prelogism) constructs. And likewise, it is a crossgenerational habituation of notional–deprocrypticism reference-of-thought and reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that will ultimately lead to a shift in reference-of-thought and the correspondingly more profound and grander notional–deprocrypticism ontological-veridicality/ontological-contiguity thereof. Another validation for the preconverging-or-dementing—apriorising-psychologism mental-devising-representation of retrospective/transcended/superseded registry-worldviews/dimensions has to do with the implications of the notions of impression-driven/good-naturedness/wishfulness and the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework with respect to the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/ontology/ontological-veridicality. A prospective/transcending/superseding registry-worldview the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework mental-devising-representation of a retrospective/transcended/superseded impression-driven/good-naturedness/wishfulness construct is always a preconverging-or-dementing—apriorising-psychologism construct, and so across all institutionalisations indicating that the ontological-normalcy/postconvergence and
relaying is not within the ambits of good-naturedness constructs but rather the-Good as a continuous refinement of ontological-primemovers-totalitative-framework that ensures re-institutionalisation/re-intemporalisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when ontological-primemovers-totalitative-framework so reveals it. Thus supposed an individual shows good-naturedness following the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalised registry-worldview/dimension that warrants that one simply gets one’s way no matter the situation even if it means committing murder to have some food for oneself and close ones; a good-natured quality that is highly rated for survival in a recurrent-utter-uninstitutionalised setup. That is perfectly within the good-naturedness ambits of a survival-driven registry-worldview/dimension but prospectively it is the creativeness of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that carries the virtuous and ontological insight to grasp that a registry-worldview’s/dimension’s institutionalisation as base-institutionalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism will provide a grander virtuous and ontological outcome for humans, and not a good-naturedness inclination which is stuck at the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of recurrent-utter-uninstitutionalisation. This same fundamental dilemma arises with all other institutionalisations. For instance, the procrypticism inclination to stick to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a positivistic registry-worldview/dimension viewed as deterministic
by projected <amplituding/formative> wooden-language-\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing\}—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology as-to-how-others-act-in-hollow-constituting—\{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\} requiring the-Good/understanding/knowledge-reification^7/ontological-primemovers-totalitative-framework\^2 appreciation that an ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascent, disclosed-from-prospective-epistemic-digression-as-of—\{amplituding/formative—epistemicity\} totalising—renewing-realisation/re-perception/re-thought,—in-supercerogatory—epistemic-conflicatedness\^2 indicating such a perversion-of reference-of-thought\{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation\} implies a prospective/transcending/superseding registry-worldview’s/dimension’s new—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to ensure intemporal-preservation as deprocrypticism. Thus it is the-Good/understanding/knowledge-reification^7/ontological-primemovers-totalitative-framework\^2 that carries the mantle of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and not good-naturedness/vague-impression drive which temporal-mimicking (unconscious or conscious) shouldn’t be confused with preserving ontology and virtue. Thus the basic reason for this counter-intuition about the veridical nature of good-naturedness construct is that it is intradimensionally \{amplituding/formative—epistemicity\} totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\^3 with the wrong implications of inherently representing the reference-of-thought—categorical-imperatives/axioms/registry-teleology\^3, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the registry-worldview/dimension as absolute intrinsic-reality/ontology without any factoring of
intrinsic-reality/ontology ontological-normalcy/postconvergence and suprastructural nature as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework does. This fundamentally explains why all prior/transcended/superseded registry-worldview’s/dimension’s present-consciousness/illusion-of-the-present/epistemic-totalising ~self-referring-syncretising/mirage are necessarily preconverging-or-dementing—apriorising-psychologism from the mental-devising-representation of the prospective/transcending/superseding registry-worldview/dimension in the requisite ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise that enables the existentialism (full-depth-of-existential-implications) deconstructed/“ontologically-reconstituted” becoming of the prospective/transcending/superseding registry-worldview/dimension. The bigger insight here has to do with the ontological-normalcy/postconvergence nature of intrinsic-reality. Intrinsic-reality/ontological-veridicality is already given and what is required to access it absolutely is not the notion of ‘any hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> initiative/effort’ from the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of a reference/registrying/registry-worldview/dimension that is necessarily sub-par to intrinsic-reality/ontology (this is the central idea that fundamentally explains how perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing—apriorising-psychologism arise, due to sub-par reference-of-thought—categorical-imperatives/axioms/registry-teleology in misconstruing ontological-normalcy/postconvergence reflection of intrinsic-reality, and so by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-
association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect); but rather the notion of a ‘requisite and grander and grander sense of the-Good/understanding/knowledge-reification’/ontological-prime movers-totalitative-framework illuminating reflecting/perspectivating/highlighting (which is ‘more or less ontologically-reconstituting/deconstructional’, in the sense that in the bigger scheme to absolutely grasp intrinsic-reality/ontology in cumulation/recomposuring from recurrent-utter-institutionalisation-to-deprocrypticism, reference-of-thought–categorical-imperatives/axioms/registry-teleology , for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> are, strictly speaking, of a more-and-more-precise-heuristic-nature in their strive to grasp intrinsic-reality/ontology as-we-predicate-better-and-more-about-the-world, notwithstanding the fact that a registry-worldview/dimension acts more-or-less-in-utter-trust to its given reference-of-thought–categorical-imperatives/axioms/registry-teleology , for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation mainly for the compromising sake of ‘effective functioning’, and so at one dialectical moment till a better one arises at another dialectical moment, as a transcending/superseding reference/registry/registry-worldview/dimension) that simply ‘open-up’/‘throw-up’/‘reveal’ in ontological-normalcy/postconvergence successive existentialisms/full-depths-of-existential-implications of the notion of what is meant by intrinsic-reality; more precisely and effectively, as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as (prospective) transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument or (prospective) existentialism/full-depth-of-existential-implications, i.e. the overall enterprise is about

Thus this insight in transcendental analysis is that by its very nature in that it puts into question ways, assumptions and traditions of thought and practices, the possibility of truly profound insights that go well beyond more or less platitudes and inevitably requires taking stock of the full-depth-of-existential-implications/existentialism of transcendental-meaningfulness—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, given the need to boldly overcome intellectual dead-ends and introduce de-mentating/structuring/paradigming shifts often with inconvenient and unpalatable implications to the given registry-
worldview/dimension personhoods-and-socialhood-formation. It requires more than just a sense of professional and technical craft but often more critically a profound sense of intemporal/firstnature emanant commitment, an attribute that is by definition of dimensionality-of-sublimating—supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection nature and hardly just secondnatured, in thriving for an abstract sense of the intemporal beyond just functioning within the ambits of given reference-of-thought—categorical-imperatives/axioms/registry-teleology with their intemporal preservation limitations as well as their corrupting nature as distractive/circumventive—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Within all registry-worldviews as institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing, there is a convergence that ensures intemporal-preservation-entropy-or-contiguity—or—ontological-preservation by selecting as appropriate the ‘relatively ontologically/intemporally veridical’ among myriad possibilities and contradictions of human reference-of-thought and meaningfulness, turning away from human shallow-limited-mentation-capacity/shortness-of-register-of—meaningfulness-and-teleology/temporality-potency/perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (wherein ‘ontological/intemporal reference-of-thought and meaningfulness’ is wrongly re-conjugated with the temporal-dispositions teleologies/dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, inducing corresponding denaturing of the ‘ontological/intemporal reference-of-thought and meaningfulness’ by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag,
unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect) towards profound-limited-mentation-capacity/longness-of-register-of-meaningfulness/intemporality-potency/registry-soundness which is behind the generation of ‘ontological/intemporal reference-of-thought and meaningfulness’ and the institutionalisation/intemporalisation process. This convergent selectivity is perpetually directed by ‘the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework’ (not to be confused with good-naturedness/impression-drive) towards the validation of intemporality -potency and the dismissal of temporality-potency, and so in dialectical succession of registry-worldviews as the successive/snowballing institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing>. Thus establishing a human approximating/proxying/aligning relationship with the ‘potency of intrinsic-reality/ontological-veridicality (ontological-normalcy) which is a coherent oneness’ that can very much be anticipated as ontological-normalcy/postconvergence. In this regard, it should be reiterated that ‘registry (categorical-imperatives/axioms/registry-teleology) establishes reference-of-thought, and acts as the basis for and defines the operation of logic or logical processing’, and it is notionally all about registry-soundness (reflected as soundness of thought) when we are of supplanting-conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism or perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconvictionemadeupness/bottomlining-as-to-shallow-supererogation when we are of threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism as with the hollow and formulaic narratives slanted by psychopath and mimicked by temporal-dispositions (beyond-the-

Intradimensionally within a registry-worldview like positivism, this could be construed as there
is no basis for a mindset/reference-of-thought advocating for scientific medicine as practised in hospitals to ‘logically convince’ another mindset/reference-of-thought advocating rather for traditional medicine (involving a mix of herbalism, incantations, spirits, etc.) that the former is more ontologically-veridical on purely logical terms (as the traditional medicine interlocutor operates logic according to the apriorising-registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology behind its traditional medicine meaningful-frame while the scientific medicine interlocutor operates logic according to the apriorising-registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology of a positivistic meaningful-frame), and it is purely the ontological-primemovers-totalitative-framework fact in that by and large more patients survive/get-cured by going to hospitals which then collapses the traditional medicine interlocutor’s reference-of-thought in the middle to long-run to impose the scientific medicine interlocutor’s reference-of-thought as a common one, and it is only when this common reference arises that the ‘notion of agreement-disagreement’ with regards to logical processing is now relevant, and it is irrelevant and non-applicable before that. This latter point can be seen in context in the example priorly highlighted at the beginning: For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right in abstract terms but does the apriorising–registry apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology (by simply implying their ‘static or abstract non-veridical/vacuous state of essence-of-meaningfulness’ over suprastructuring construal-(as-of-‘perversion-and-derived-‘perversion-of-‘reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’>–as-to-uninstitutionalised-threshold–self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing’-and-‘corresponding-ontological-reconstituting–as-to-conflatedness’–of-veridical–reference-of-thought-as-prospective-institutionalisation/supratransversality—apriorising/axiomatising/referencing’) delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity–reification /superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation insight of essence-of-meaningfulness) which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference
(the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology(10) (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge(11) but none to do with logic, but everything to do with the denaturing(9) of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought! So with the psychopath, you don’t watch the logic, you watch out for the apriorising-registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought do protract and an ignorant prelogism-as-of-conviction,-as-to-profound-supererogation mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogic (outcome precedes logical process) non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts’. The insight here is that without having at hand a ‘Différance-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, –of-meaningfulness’ technique which is able to disambiguate the underlying existential reality of the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with regards to the various interlocutors, whether unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought and preconverging-or-dementing –apriorising-psychologism as slanted/psychopathic/postlogic interlocutor as well as the various (conjugated-postlogism) temporal-dispositions as derived-slanted ‘ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation interlocutors or soundness-or-ontological-good-faith/authenticity-of-reference-of-thought and ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ intemporal-disposition interlocutor, the natural human reflex when a contestation arises is to be supplanting–

difference among individuals with regards to the existential/contextual inclination to preserve-intemporality or fail-intemporality as social-stake-contention-or-confliction arise varying with regards to the implications of graver and graver temporal consequences (wherein as an archetype elucidation for instance, Socrates or Galileo will strive to keep on preserving intemporality /longness even when the conventional social-stake-contention-or-confliction threaten as they view the perpetuation of the ideas and principles they stood for were more critical for human posterity, but again ‘a sense of intemporality’ may vary from an intellectual nature where for instance an ordinary person may spontaneously save from drowning or defend another or others at risk to themselves, etc., implying that individuals ‘solipsistic or secondnatured philosophies’ with respect to the acuteness of social-stake-contention-or-confliction is more critical in determining their dispositions to preserve-intemporality or fail-intemporality as shortness-of-register-of meaningfulness-and-teleology to longness-of-register-of meaningfulness-and-teleology, and equally explaining why institutionalisation/intemporalisation is possible, as the framework/social-construct wherein social-stake-contention-or-confliction arise can be construed/designed to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards and encourage the intemporal-disposition to preserve-intemporality over failing-intemporality /temporal-dispositions of postlogism-slantedness (postlogism-as-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation,–instigation-at-a-given-registry-worldview/dimension, that is instigative to the turning of the prospective ‘temporal defect–of logical-processing-or-logical-implicitation—supposedly-apriorising-in-

reference-of-thought/prospective-registry-worldview established in the middle to long run construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), which then voids the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology as ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In many ways issues of perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> are rather with respect to ‘a-country-of-the-blind-scenario’, so to speak; wherein perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> necessarily imply a dialectical situation between two ontological-references with the one being prior/transcended/superseded and the other prospective/transcending/superseding. It is important to grasp that going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, the ontological-contiguity—of-the-human-institutionalisation-process where this is skewed (‘intemporality”—asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendentenable/sublimating/supererogatory—de-mentativity) by deferential-formalisation-transference towards the intemporal (intemporalisation) is actually an artifice (artificial conceptualisation) that is habituated for its relative positive-opportunism with regards to the cross-section of human interest in the middle to long run construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). However, no institutionalisation construct, going by its implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity alienating ‘present as
prior/transcended/superseded ontological-reference conceptualisation’ for ‘future as prospective/transcending/superseding ontological-reference conceptualisation’, has ever been acquiesced to socially without resistance even in instance induced by diffusion involving the power dominance of one cultural entity over another, with such resistance being at least in the short-term of a covert nature and of a \(<\text{amplituding–formative–epistemicity}>\text{totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag}\) nature as well. Resistance is even stronger where transcendental institutionalisation is implied within a same cultural entity. Thus it might just be the case that the more or less itinerating clanic or tribal groups of early humans were the perfect model for a sort of complementary diffusion of transcendentalism that quickly enabled a hominid to achieve the core assets for its perpetuation of civilisation as complex meaningfulness enabled by language and culture. Insightfully as well the possibility of positivism/rational-realism arising in Western Europe was greater by this same mechanism of complementary diffusion of transcendentalism given the mutually feeding diffusionary dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and this author thinks that applies to us as of the positivism–procrypticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective
ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction on the basis of common/same/shared registry-worldview of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, however, at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and so at the threshold between recurrent-utter-uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, non-positivism/medievalism and positivism, and prospectively procrypticism and deprocrypticism. The implication is that naturally all prospective institutionalisations by their implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity are ‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that their intemporal valor is inestimable (at least when we are looking retrospectively in appreciating that a positivistic outlook should supersede a non-positivism/medievalism outlook, and in the case where we are not uninhibited/decomplexified to equally construe that prospectively as a notional–deprocrypticism outlook should supersede a procrypticism outlook). This insight equally highlights that institutionalisation/intemporalisation is implied with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and is critical for would-be emancipation-inducing intemporal individuations in grasping the whys and hows of social reaction to transcendental
conceptualisation going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, how temporal ‘resistance’ is superseded, the mechanism of percolation-channelling and how transcendental ideas are taken up over time and induce untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the middle to long run construed as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The fact is that while the social-construct is by and large a conceptualisation that determines individuals possibilities, the reality is equally that the social-construct does has ‘powerful channels’ that enable individuals to drastically redefined what is the social. The individual, it is often ignored, is an abstract-atomic-social-construct, as in the individual is priorly implied in the social, beyond just in terms–as-of-axiomatic-construct of social aggregation in implying a meaningfulness and value-reference construct relationship to the abstract summative social. Such insight on the nature of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will certainly highlight why the Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect contributing in transforming medieval European societies mindsets into a positive worldview by cynically putting together all the positive knowledge they could muster and disseminating it throughout Europe, and so over the forces of obscurity of the days who understood the implications of such a venture. The fact here as well as with all issues of perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”> (by the prior relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing ‘—apriorising-psychologism’, as-it-is-thus–‘in-wait’–for- perversion-of-reference-of-thought<-as-effectively-apriorising-in-

is that there was obviously no mutually common/same \(^{-2}\)reference-of-thought between the
Encyclopédistes as positivists and many in the medieval establishment as non-positivists for
any mutually intelligible logical exercise. But rather it was a case of transversality-of-
affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing\(^{13}\) wherein the ontological-primemovers-totalitative-
framework of positivistic meaningfulness over non-positivism/medievalism ontologically
imposed the positivistic \(^{-1}\)reference-of-thought, as the former elicits untenability/internal-
contradiction/internal-incoherence/institutional-constraining in the latter as well as its relative
positive-opportunism \(^{-1}\) from its relative ontological effectiveeness such that it ends up being
secondnatured further by percolation-channelling. Insightfully, in an intellectual
conceptualisation exercise which, though conceptually contiguous, and while not necessarily
implying similar dramatisation, in addition to its relatively diffuse implications in the sense of
the contention being rather about human-mentation-capacity-furtherance and the fact that as a
latter institutionalisation it is apparently less dramatic, at least as of its apparent negative social
consequence given it is so focussed on human individuations as atomic-level point-of-departure
of transformation but rather finding its radicalness more in the boldly implied
décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence–(implicated-epistemic-

emancipation of the positive/procryptic human, and as with all other institutionalisations, it is
thus not an issue that notional~deprocrypticism meets in the short-term and temporary with
‘resistance’ or rather criticism (possibly by and large more in terms–as-of-axiomatic-construct
of intellectual agreement/disagreement, as obviously every notion seriously contemplated about
is); such that focus should be relatively more about construing veracity/ontological-pertinence and percolation-channelling thereof, as an objectively engaged intellectual/emancipatory exercise. - As the above circularity/recurrence/repetition/repeatability (of temporal-dispositions acting-recurrently-in-temporal-preservation …) is the basis for the registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{10} \)–defect\( ^{10} \)-<as-Being-or-ontological-or-existential–defect>\( ^{10} \) reflected/perspectivated as the \( ^{74} \)perversion-of\( ^{74} \) reference-of-thought\( ^{74} \)-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\( ^{83} \)\> <amplituding/formative> wooden-language\( ^{83} \)-〈imbued—averaging-of-thought\( ^{83} \)-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\( ^{99} \)-as-of\( ^{99} \)‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications〉 of a given dialectically-out-of-phase/dialectically-primitive registry-worldview in its ‘dynamic-cumulative-aftereffect of subontologisation’ as the subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect; superseded/resolved not by logical-processing but as apriorising–registry (reference-of-thought) perversion, by the ontological-primemovers-totalitative-framework\( ^{72} \) of the prospective apriorising–registry as it elicits by its positive-opportunism\( ^{75} \) its untenability/internal-contradiction/internal-incoherence/institutional-constraining with respect to the prior one, going by ontological-normalcy/postconvergence. representation/mentation/consciousness-awareness-teleology of a dialectically-out-of-phase/dialectically-primitive registry-worldview as preconverging-or-dementing—apriorising-psychologism. Rather, from ontological-normalcy/postconvergence insight, this points to human limited-mentation-capacity-deepening at that registry-worldview/dimension-level or registry-worldview/dimension as the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism (or uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation), which is ‘in wait’ to be revealed by the registry-worldview’s/dimension’s corresponding postlogism perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation instigation at that registry-worldview/dimension-level or registry-worldview/dimension. For instance, the corresponding postlogism perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation instigation in non-positivism/medievalism instigating say of notions of sorcery and accusations of the type while effective in inducing perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in a non-positivism/medievalism setup will not be effective in a positivistic social-setup, as the non-positivism/medievalism condition of being superstitious and non-empirical is by itself a condition ‘in wait’ for accusations and notions of sorcery to arise and be endemised/enculturated. Likewise, from ontological-normalcy/postconvergence insight, with regards to our positivistic registry-worldview reflected/perspectivated as being dialectically-out-of-phase/dialectically-primitive as procrypticism at its human limited-mentation-capacity-deepening registry-worldview/dimension-level as the threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

Insightfully again, going by the first example, it might (wrongly) be argued, by human ‘temporal extricatory de-mentating/structuring/paradigming’, that notions-and-accusations-of-sorcery in a non-positivism/medievalism setup should imply that any such accused should equally ‘make-up’ accusations in their own defence to neutralise and possibly defend their own interests. But such a stance is a temporal extricatory de-mentating/structuring/paradigming that faces human temporality/shortness with human temporality. Intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming will garner the insight that humanity-at-large at all such non-positivism/medievalism setups is rather in need (as the resolution) of a renewed institutionalisation prospectively as the positivistic registry-worldview based on rational-empiricism as the de-mentating/structuring/paradigming for superseding the vices-and-impediments that the enculturation/endemisation of the notions-and-accusations-of-sorcery speak of inherently, together with the social-structural implications and derivations arising, with regards to the non-positivism/medievalism registry-worldview. The vocation of the intemporal-disposition (intemporality/ontological-construct/longness-of-register-of—meaningfulness-and-teleology ) is not-to-come-to-and-construe meaningfulness-and-teleology at a same pedestal as a temporal-dispositions extricatory de-mentating/structuring/paradigming, and this invariably means that its on-occasion/incidental insight about temporal-dispositions defects
(temporality[^1]) is ‘necessarily escalated ontologically at a humanity-at-large scale of

The critical thing however is that at these uninstitutionalised thresholds, without the postlogic effects including psychopathic, the corresponding requisite human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will be more straightforward, direct and definite from the prior preconverging-or-dementing –apriorising-psychologism to the prospective ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’ as temporal-dispositions are less predisposed to temporal-preservation-as-pseudointemporality\textsuperscript{71}-preservation once social \textsuperscript{107}universal-transparency\textsuperscript{104}–⟨transparency-of-totalising-entailing,-as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-

This straightforwardness, directness and definitiveness is fundamentally undermined by the iterability/iteration nature (of ontologically-veridical-meaningfulness-and-ontological-reference) induced by the postlogic hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> distorting effect including psychopathic which renders establishing social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, or registry-worldview-perversion together with the untenability/internal-contradiction/internal-incoherence/institutional-constraining of such perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to other temporal-dispositions rather obscure, and further so as conjugated-postlogism mental-dispositions equally assume a distortional purposefulness with respect to ontologically-veridical-meaningfulness of their own. preconverging/dementing –apriorising-psychologism’ social constructions of meaningfulness that are veridically-unreal. These derived-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing –apriorising-psychologism’ social constructions of meaningfulness are in effect reflecting the registry-worldview/dimension uninstitutionalised-threshold requiring corresponding prospective institutionalisations/intemporalisations (whether-consciously-or-unconsciously-and-so-beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> -manifestation intradimensionally); and it is important to grasp that uninstitutionalised-threshold (however nefarious the consequences from an ontological-normalcy/postconvergence appreciation) are as critical and defining in their existentialism/full-depth-of-existential-implications just as institutionalisations, to fully appreciate the very nature of transcendence-and-sublimity/sublimation/supererogatory–dementativity as the most important thing/purposefulness of humanity-at-large. But then, our human intemporal-disposition responsible for the institutionalisation/intemporalisation process is equally inclined to focus-the-mind-more-thoroughly when dealing with phenomena that undermine ontological-veridicality and so specifically with the undermining of soundness of reference-of-thought, and so across the various institutional-cumulation/institutional-recomposure<-as-to-<historiality/ontological-eventfulness>/ontological-aesthetic-tracing>. It is more likely that in this regard, more likely than not perversion-of- reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomena as postlogic effect including psychopathic may actually have
been a boost for more rapid human registry-worldview’s/dimension’s institutionalisation/intemporalisation as our intemporal-disposition going by its own intemporal preservational individuation disposition (in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is rather prone to apprehend and deal with "perversion-of" reference-of-thought,<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation" issue at the humanity-at-large scale for the need of human registry-worldview’s/dimension’s institutionalisation as secondnaturing given that with human limited-mentation-capacity-deepening it is naïve to operate on the basis of a ‘human transformation on the wrong dependence of our intemporal-disposition as firstnatureness’, thus the reason why we institutionalise as secondnaturing taking cognisance of the reality of our temporal-to-intemporal individuations dispositions. Just as implied elsewhere in this paper, the skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
mentativity) (from shortness-of-register-of–meaningfulness-and-teleology to longness-of-register-of–meaningfulness-and-teleology) of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the trascendental construct of human virtue, and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recomposure/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as well. Seemingly, such a temporal approach will more or less be more effective in preempting the ‘incidental resolution of temporal-preservation-as-pseudointemporality’-preservation’ (with respect to themselves in their specific locale) associated with the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag,
and resolved by deferential-formalisation-transference of the intemporal-disposition approach as institutionalisation/intemporalisation. It is only such an intemporal approach that suprastructurally (beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existent-unthought>-of-temporal-dispositions) allows for the requisite base-institutionalising of recurrent-utter-uninstitutionalisation, universalisation of ununiversalisation, positivising/rational-empiricism of non-positivism/medievalism, and prospectively deprocrypticising/preempting—disjointedness-as-of-reference-of-thought of procrypticism—or—disjointedness-as-of-reference-of-thought. The fact has always been that throughout the various institutionalisations this human intemporal-disposition individuation disposition has always been an indispensable re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking—projective-insights/epistemic-projection-in-confledness—of-notional—deprocrypticism-prospective-sublimation) (as longness-of-register-of-meaningfulness-and-teleology) with respect to human social-stake-contention-or-confliction-and-confliction and the reason for its conceptualisations to be construed as institutionalisation-as-virtue even though going by temporal-dispositions inclinations, ‘such abstract projection basically would hardly make sense’. The fact is that this intemporal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic/reprojective orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and more precisely psychopathy and social psychopathy in the social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic maximalising-recomposuring-for-
relative-ontological-completeness — unenframed-conceptualisation disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’ going by its customary perception), since it doesn’t accommodate temporal/incremental/‘disjointedness-as-of—reference-of-thought’ ways of thinking and instead strives for a universal implications depth-of-thought. Basically, on the same token the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation of formal constructs is all about construing human transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of human health. The reason for this deferential-formalisation-transference disposition is simple, as formal constructs ‘reason’ on the basis of intemporality /utter-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing – apriorising-psychologism’ of ordinary day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly universalising, poorly insightful, and with elevated subjectivity (not only with regards to facts but with the purported reference-of-thought as well as the apriorising–reference-of-thought-elements/apriorising–registry-elements which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), and so beforehand/as-of-a-priori even without the instigating effect of any perversion-of-reference-of-thought¬‐as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suppererogation like postlogism /psychopathy; such that such temporal/incremental/disjointedness-as-of-reference-of-thought reasoning is best left for inconsequential and trite matters of day to day living, as validated by the processes and procedures of our formal institutions however approximate in their success given the pervasiveness of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) even in formal setups, with its susceptibility to undermine or overlook ‘formal effectiveness’ (which can sometimes be naively construed as weakness of formalism rather than insufficiently effective formalism or extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) disruption of formal effectiveness).

Abstractly maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation meaningfulness carries an intemporal/longness-of-register-of-meaningfulness-and-teleology and universal coherence that incremental meaningfulness doesn’t, and thus maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation is actually the drive for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-
incompleteness — enframed-conceptualisation tends to operate as if at any one instance human meaningfulness is absolutely set (and so rather as a mere form) and thus incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation is non-transcendental, and so with reference to the underlying intemporal / longness (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) that ontological development from 'shallow limited-mentation-capacity—(as of relative constitutedness) to deeper limited-mentation-capacity—(as of relative conflation)'/relative-ontological-completeness'/diminishing—human-epistemic-abnormalcy/diminishing—preconvergence elicits, and in lieu it is rather of a temporality / shortness reflex mental-disposition such that correspondingly developed reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is related to in virtuality-or-ontologically-flawed-construal (being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference) terms, whether unconsciously (ignorance), expediently (affordability) or consciously. Thus as mental-disposition, incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation across all registry-worldviews involves teleological-decadence—in-dimensionality-of-desublimating-lack-of —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> at the uninstitutionalised-threshold, speaking fundamentally of the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor and underlining the de-mentation—(supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or-attributive-dialectics) of reference-of-thought threshold’ with respect to reference-of-thought mental representations between intemporal / longness as candored-supratransversality—apriorising/axiomatising/referencing
and temporality\(^*/\)shortness as decandored-subtransversality—apriorising/axiomatising/referencing. incrementalism-in-relative-ontological-incompleteness\(^*/\)—enframed-conceptualisation wrongly construes meaningfulness (both ontology and virtue perspectives) as rather a process of additionality over the prior reference-of-thought whereas in reality (from the insight that our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^*/\) develops from shallow limited-mentation-capacity—(as of relative constitutedness \(^*/\)) to deeper limited-mentation-capacity—(as of relative conflation \(^*/\)) by way of the \(\text{de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’} \) meaningfulness-and-teleology\(^*/\) develops rather as a maximalising-recomposuring-for-relative-ontological-completeness\(^*/\)—unenframed-conceptualisation process of recomposuring towards a deeper superseding–oneness-of-ontology, with recomposuring reflecting that human progress is rather an ontological-contiguity—of-the-human-institutionalisation-process \(^*/\) (as secondnaturing/institutional-design defined by skewing (‘intemporality\(^*/\)-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) as deferential-formalisation-transference by the intemporal-disposition/longness-of-register-of–meaningfulness-and-teleology\(^*/\) and critically without the transformation of the reality of human individuation dispositions as temporal (shortness-of-register-of–meaningfulness-and-teleology )—to–intemporal (longness-of-register-of–meaningfulness-and-teleology ) as of human existential-form-factor. Thus the implication is that the ontological-contiguity—of-the-human-institutionalisation-process \(^*/\) succumbs to uninstitutionalised-threshold due to the dynamic-cumulative-aftereffect of human temporality/temporal-dispositions as of shortness-of-register-of–meaningfulness-and-teleology in inducing uninstitutionalised-threshold which can only further be de-mentatively/structurally/paradigmatically resolved by
maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{37}—unenframed-conceptualisation recomposre as transcendent-enabling/sublimating/supererogatory-dementativity. Basically, \textsuperscript{56}incrementalism-in-relative-ontological-incompleteness\textsuperscript{38}—enframed-conceptualisation relation to meaningfulness as ‘a comprehensive additionality exercise’ thus fails to account for human temporality/temporal-dispositions as ‘not transformed’ and will tend at uninstitutionalised-threshold\textsuperscript{102} towards the perversion/derived-perversion of the institutionalisation reference-of-thought or reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{49}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (whether unconsciously, expeditiously or consciously), involving flawed-existential-elevation-of\textsuperscript{57}reference-of-thought\textsuperscript{3}. This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} grasp of the same intrinsic-reality-as-ontological-veridicality in construing meaningfulness-and-teleology/teleological-differentiation involving rather a ‘continuous maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{32}—unenframed-conceptualisation exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity\textsuperscript{1} (as of relative conflation\textsuperscript{1}) arising from the overall and specific accumulated human experiential possibilities of being on earth. Thus human progress as maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{17}—unenframed-conceptualisation is a change of human <amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling{(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology\textsuperscript{99}}

Furthermore, the precedingness nature of ontological-normalcy/postconvergence with respect to human existential-reference/existential-tautologisation pivoting to ontology/ontological-veridicality speaks of a ‘decentering’ to the prospective ontological-construct that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation effectively enables by placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology\textsuperscript{1} rescheduling (as it perpetually recomposure to the intemporal as the relative absolute in value and ontology) over incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation which wrongly falls back to the relatively limited-mentation-capacity-deepening\textsuperscript{2} of the temporal presencing-as-if-definitely-set in wrongly construing it as the relative absolute reference-of-thought. Insightfully with respect to the notion of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for example) in effectively construing optimal prevention of criminality in society as a de-mentative/structural/paradigmatic construct that more vitally shapes human action and its ‘effective enforcement’ is actually a minor portion of the de-mentative/structural/paradigmatic construct of law over lawlessness; as it carries an inherent intemporality\textsuperscript{3}/longness that is further summonable in improving the law with human ‘shallow limited-mentation-capacity-{as of relative constitutedness}’ to deeper limited-mentation-capacity-{as of relative conflation} reconstrual/reconceptualisation’. Like all formal constructs it wouldn’t rely on incremental-dispositions or temporal-accommodation of \textlangle\textlangle amplituding/formative\rangle \textlangle imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{5} as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>\textrangle\textrangle that may lead to temporal mobbish dispositions, the fundamental point being that that element of ‘abstraction-of-thought/principled-thought’ is decisive as with all knowledge constructs. Rather the limit of such intemporal thinking is not the \textlangle\textlangle amplituding/formative\rangle \textlangle imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{6} as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>\textrangle but
operates and is based in effect on intemporal projection-of-thought in an intersolipsistic relation to intrinsic-reality/ontology/ontological-veridicality on the validity of the intercession of ontological-primemovers-totalitative-framework implied predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment ) and by extension the intercession of formal/conventioning rules as institutionalisation arising in validation of the former, and their corresponding percolation-channelling in deferential-formalisation-transference. The notion of intersolipsism is actually the notional validation of the solipsistic argument as it frames the question in the right manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism question, which by so doing naively and wrongly implies that ‘individuals precede and/or are in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than the idea of becoming solipsistically in existence which subsumes their individuality and projecting of the same about others in an intersolipsistic recognition arising from individuals’ own solipsistic insights of predication-and-projection as so-reflected as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, since it priorly implies existential emanance-or-becoming validated by ontological-primemovers-totalitative-framework about a superseding–oneness-of-ontology as the intercessory basis for mutual-solipsism/intersolipsism. This author equally conceptualise of a difference between solipsism and subjectivity in that solipsism is rather purely ontological as it implies notionally the individual’s perspective in existential becoming as of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-
supererogatory–epistemic-conflatedness (however effective-as-solipsistically-intemporal or ineffective-as-solipsistically-temporal such perspectival performance), whereas subjectivity refers to our animate-existential-referencing-as-subjectification which is not necessarily oriented to the ontological appropriateness/veridicality of that reference but rather is a notional construal of the reality of ‘human condition of perceived ontological appropriateness/veridicality’ irrespective of whether it can be said of such perception as being objectively right or wrong going by inherent ontological-veridicality. So solipsism speaks of the human projection in notionally construing ontological veridicality/appropriateness notwithstanding the perspectival effectiveness or ineffectiveness of such a construal as of solipsistic-temporality to solipsistic-intemporality and as such solipsism as of solipsistic-intemporality is the drive behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Whereas subjectivity speaks notionally of a human condition orientation with respect to perceived ontological veridicality/appropriateness no matter whether right or wrong. This possibility of distinguishing an inherently ontological foundation of existential meaning different from an ontological as human epistemic-conception reflexivity of perceived existential meaning is central to a notional–deprocrypticism mindset in enabling the most elaborate transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism construal since necessarily intrinsic-reality/ontological-veridicality is inherently tautologuous, and ‘human capacity to grasp the possibilities of referential relations to inherent existential tautology as of human animate-existential-referencing/subjectification’ in conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of
notional-knowledge. Supposed for instance a child comes to learn the rules of addition for all
types of number additions such that the child understands the addition principle, but then there
is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate
2+2 as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into
existence alone in an intersolipsistic relationship with others interceded with ontological-
primemovers-totalitative-framework\(^2\) inducing projective-insights and predicative-insights)
will become a self-made revolutionary and question the teacher indicating the correct answer to
2+2 as being 4; depending equally on its notional sense of intemporal-projection/longness-of-
register-of- meaningfulness-and-teleology\(^9\) relative to temporality /shortness-of-register-of-
meaningfulness-and-teleology\(^9\) as to the child’s underlying ‘conception of the ontological-
good-faith/authenticity\(^6\)–de-mentating/structuring/paradigming-<seeding/incipient–profound\(^*\)–
supererogation\(^9\),-as-mentally-aestheticised–postconverging/dialectical-thinking –qualia-
schema>’, further explaining in the bigger picture why \(^5\) maximalising-recomposuring-for-
relative-ontological-completeness\(^7\)—unenframed-conceptualisation pursuits, apparently
unnecessary from a temporal interest point of view, are intemporal-solipsistically undertaken.
Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might
be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of
the ordinary as with respect to its construal of all other meaning including other additions, the
child’s knowledge and learning has always been about confirming any such meaning by its
notional sense-of-solipsism as of superseding–oneness-of-ontology; but this particular solution
for the addition rather becomes outlying for the child because despite the ‘social affirming’ of
2+2 as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of
superseding–oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic
confirmation as 2+2=4! Thus this points out that our interrelationship to meaningfulness is most
authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in
each of us to access intrinsic meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-construct/intersolipsistic-intercessory-notion/notional–referential-notion/articulation (enabled obviously by language as well as any human meaning relaying medium like signs, whether active or passive or implied or direct)’. By extension, our consciousness-awareness-teleology as of a solipsistic epistemic/notional–construct is equally the result of our animate-existential-referencing/subjectification as of our existential underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns-and-accrues projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’, and existentially so as of our ‘social framework of intersolipsistic deambulation’. So there is no medium for intersolipsism but for

This will equally explain why in the rare cases reported in the media of infants abandoned and adopted by animals like dogs and monkeys, such infants often tend to adopt behaviours of the animals as of ‘mutual solipsism or intersolipsism of reference to underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework as <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), as the capacity for the infant to act and behave like a human effectively requires its personality development in a mutual solipsism or intersolipsism of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled

However, without a solipsistic notion of construal of intrinsic-reality/ontological-veridicality as of inherent intrinsic-reality/ontological-veridicality, and so beyond subjectivity and intersubjectivity, arising as of purely ‘solipsistic-and-intersolipsistic insights in referencing underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment 02 as of ontological-prime movers-totalitative-framework 03,<amplituding/formative–epistemicity>causality~as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) as a potential capacity in all individuals, then the construal of intrinsic-reality/ontological-veridicality will tend to actually be defined whether beyond-the-consciousness-awareness-teleology 04,<in-existential-extrication-as-of-existential-unthought> as implied by subjectivity and intersubjectivity as a ‘construct of human condition of construal of intrinsic-reality/ontological-veridicality as supposedly knowledge’, with the consequence that humankind construal of intrinsic-reality/ontological-veridicality is naively-and-wrongly interpreted as superseding ‘inherent intrinsic-reality/ontological-veridicality’ at registry-worldviews/dimensions uninstitutionalised-threshold 02 (which is obviously fallacious, as it is ‘the possibility of humankind being subjected to the meaningfulness-and-teleological implications of further solipsistic-and-intersolipsistic elucidations in referencing underlying ‘coherence/contiguity-of-

The further implication is that by a retrospective and prospective analysis the possibility of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, usually initiated as a re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{57}–‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation)\textsuperscript{90} solipsistic-and-intersolipsistic activity in referencing of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework\textsuperscript{72} <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{66} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), will largely be jeopardised since the ‘putting-into-question’ as a solipsistic exercise with the possibility of getting at the very core of what is ‘further divulge-able’ by intrinsic-reality/ontological-veridicality, is largely compromised by a subjectivity and intersubjectivity <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignoreable—void—'with-regards-to-prospective-apriorising-implications>—mental-disposition. This distinction between subjectivity and intersubjectivity as referencing human condition of construal of intrinsic-reality/ontological-veridicality from solipsism and intersolipsism as referencing human effective/ineffective construal of intrinsic-reality/ontological-veridicality, is actually important because (while less critical to elucidate this in the natural sciences given the immediacy of constraint from intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity hence implicated), the implications for its comprehensive and conscious understanding in the social world (for conceptualising knowledge while superseding human temporality/shortness as ignorances, so-construed as ‘knowledge-notionalisation’) is decisive as it requires both an understanding of ‘the human condition in its construal/relation to intrinsic-reality/ontological-veridicality’ and ‘understanding of inherent intrinsic-reality/ontological-veridicality’; and so, as a prerequisite for the organic-knowledge necessary for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as of prospective notional—deprocrypticism registry-worldview institutionalisation. For instance, the concepts of constitutedness, first-level presencing—absolutising-identitive-constitutedness, second-level presencing—absolutising-identitive-constitutedness, third-level presencing—absolutising-identitive-constitutedness and conflatedness of temporal-to-intemporal individuations as of reference-of-thought—prelogism—as-of-conviction—as-to-profound-supererogation to threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism so-articulated previously as of ‘notional—conflatedness/constitutedness—to-conflatedness perspectivation of ontologically-veridical dynamic-cumulative-aftereffect/aftereffect’ in enabling a storied-
construct/ontologically-valid-narration aetiologisation/ontological-escalation insight, can only be properly construed as of such a disambiguation in conceptualising not only inherent intrinsic-reality/ontological-veridicality but equally the human temporal-to-intemporal conditions/states of perception/relation with intrinsic-reality/ontological-veridicality. This is fundamentally so because ‘inherent existential-reality/intrinsic-reality/ontological-veridicality is already what it is as given whether humankind knows about it or not’ but rather the point of human knowledge is an emancipatory exercise involving the need to decenter/pivot and supersede our animate-existential-referencing/subjectification as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human condition to derive knowledge-and-virtue, and so as human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflatedness). Solipsism as such is truly the foundational notion of all phenomenological conceptualisations and derivation of value and meaningfulness as intersolipsistic teleological constructs from a transversal-and/or-common perceived existential-reference/existential-tautologisation and derived-representations of existential-reference/existential-tautologisation. It is what allows for the possibility of human construal of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory–de-mentativity to supersede social-aggregation-enabling as a knowledge and virtue construct. The implication being that there is a contiguity in solipsistic insight as simplistically elucidative in the relatively more simpler experimental framework of natural phenomenon studied by the natural sciences (which practice is categorisation-driven, more like elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity but then with a high risk of inducing virtualities thus explaining the continually reshaping/re-categorisation/re-optimising of experimental content when the virtualities come to be seen as unreal or deficient or suboptimal, and so more critically with the practitioner’s experience tend to be driven heuristically actually as of presencing—absolutising-identititive-constitutedness or conflatedness) but such solipsistic insight extends to the more convoluted social phenomenon studied by the social sciences, as well as the phenomenal convoluted equally inherent in scientific domains like quantum-mechanics, as herein contemplated should ideally be understood as of referentialism implied ontological-normalcy/postconvergence epistemic-projection perspective, more like maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation from the most profound of conceptualisation which is intemporality/longness or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, as of inherent superseding-oneness-of-ontology, and so on the basis of the absolute a priori, ‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality, construed as of increasing human limited-mentation-capacity-deepening in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’, in the staggered elucidation of less and less profound but critical conceptualisations as undertaken in this hermeneutic/reprojective design. Furthermore, solipsism will equally explain why human meaningfulness-and-teleology is developed rather by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of the same superseding—oneness-of-ontology as of our limited-mentation-
capacity-deepening\textsuperscript{22} (whereby successive generations take a shot at the superseding–oneness-of-ontology that is existence like Ancient Civilisations like Greece establishing that matter is made up of water, fire, air, earth and ether critically establishing the psyche of matter as composed of basic elements and successive recomposurings right up to our modern day quantum-mechanics recomposing as of \textsuperscript{45}historiality/ontological-eventfulness\textsuperscript{57}/ontological-aesthetic-tracing), rather than it erroneously being construed as an incremental exercise; as it is only incremental in the literal sense but in the ‘operant sense’ it is an exercise of \textsuperscript{54}maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{37}—unenframed-conceptualisation as of transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{103} overall reconstruing/reconceptualising rather than just incrementing. This insight is important for critical thought and analysis as oftentimes it is naively assumed that prospective knowledge is to be simply obtained by ‘additioning’ or ‘cumulating’ to prior works rather than the more pertinent insight of \textsuperscript{<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of a same superseding–oneness-of-ontology that is existence. On the same token, this tautological insight about the precedingness of existence can be extended to the notion of nothingness with nothingness rather existing in existence as there is no nothingness or for that matter anything out of existence which is ‘conceptually’ emanation-as-to-the-all-defining-ontological-prime movers-totalitative-framework\textsuperscript{17}–intercession, with nothingness rather the ‘conceptual devising of the metaphysics-of-absence–{implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>} of existence’ with existence conceptually construed in metaphysics-of-presence–{implicated–‘nondescript/ignorable–void’–as-to–presencing—absolutising-identitive-constitutedness}; but then with existence being its very own metaphysics-of-presence–{implicated–‘nondescript/ignorable–void’–as-to–presencing—absolutising-identitive-constitutedness}, the mutual equivalence of both

‘shallow limited-mentation-capacity-{as of relative constitutedness} to deeper limited-

‘conceptual devices’ are reformulations arising from ‘grander/transcendental insights’ about the
same question but implying a radical transformation of ontological/meaningful
conceptualisation of the human mind and human teleology. The idea is that ‘intrinsic-
reality/ontology is not changed’ but rather it is ‘human <amplituding/formative–
that is changed’. Technically, the implication is that existence/being cannot be thought outside of human thought/limited-mentation-capacity); as a conclusion driven by the insight that human thought/limited-mentation-capacity in construing existence/being implies human meaningfulness-and-teleology is necessarily of ontological-primemovers-totalitative-framework or contingent. However the disavowal rather than renewal/deconstruction/ontological-reconstituting—as-to-conflatedness of human thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of meaningfulness-and-teleology’ as the alternate logical outcome, but then with this latter construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation is a human growth activity and not an absolutely achieved activity’, besides abandoning the notion of human existentialism/thrownness/facticity behind human strife itself thus contradictorily undermining again the assumption of such an alternate logical outcome as itself a ‘contemplated strife’ construed as arising only by the implication of such existentialism/thrownness/facticity, and further failing to factor in that deepening human thought/limited-mentation-capacity increasingly narrows the framework of human existential contingency/ontological-primemovers-totalitative-framework ‘enabling human existential development as less and less a question of fate’ on the basis of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-

Thus the bigger issue is not existence/being in itself as it is given, whatever it is that is given. Rather the bigger issue of concern is our human thought/limited-mentation-capacity in apprehending existence/being as of our ontological-primemovers-totalitative-framework /contingent reconstruals/reconceptualisations of existence/being as of human deepening thought/limited-mentation-capacity so enabled by our capacity for de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) behind the successive institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness>/ontological-aesthetic-tracing> narrowing the framework of human existential contingency, with the further possibility of prospective <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as notional–deprocrypticism as of ontological-normalcy/postconvergence. Such maximalist intemporal projection reasoning doesn’t entertain banal ordinary logic (that is all too readily incremental, ‘disjointedness-as-of- reference-of-thought’ and temporally-preservational-as-pseudointemporality -preservation) of the sort: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. The intemporal reasoning maximalist approach (non-incremental, non-‘disjointedness-as-of- reference-of-thought’ and striving for the ontologically-utter) that permeates many a formalised construct does not entertain meaningfulness within the sphere of temporal-and-social-trading and is rather transcendental inherently, as it simply supersedes and skews (‘intemporality’–asymmetric-subsumption-of-temporality’’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) meaningfulness-and-teleology towards
the universal/intemporal as of implication. In other words, maximalising-recomposuring-for-relative-ontological-completeness —enunframed-conceptualisation is construed as of the apparently least possibly perceived constraining context in order to truly affirm the universalism of rules or any ontological-constructs; as the test of incrimination with respect to the above apparently least possibly perceived constraining specific crimes contexts is effectively what validates the universalism for all other contexts of such specific crimes.

Actually the paradox is that, no transcendentally implied construct is effectively a ‘grounded knowledge-construct commitment’ inherently as it inevitably and fundamentally puts into question the underlying intrinsic-reality/ontological-veridicality transcendental enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-

On the basis of such hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> circularity, one may perfectly argue that any of the institutionalisations are just as good so long as people are relatively satisfied but such an argument is never made of lower/prior institutionalisations with the implications that its elicitation within a registry-worldview as present is nothing more but an act of ‘ontological-bad-faith/inauthenticity’ , but then a maximalising-recomposing-for-relative-ontological-completeness—inunframed-conceptualisation approach is one that doesn’t reason in temporal-accommodation but provides the opportunity for prospective institutional possibilities. maximalising-recomposing-for-relative-ontological-completeness—inunframed-conceptualisation was what was in the minds of the Copernicuses, Galileos, Rousseaux, Darwins and the enlightenment Encyclopédistes led by Denis Diderot in cynically vouching for the possibilities of the future of positivism over a non-positivism/medievalism worldview. Such that vague arguments of the type we’ve been living well without such ideas are nothing but avowals of temporal-dispositions poor grasp of
how their present institutionalisation came about and future institutionalisation possibilities; since we can project that all humans in recurrent-utter-uninstitutionalisation were recurrent-utter-institutionalised, all humans in ununiversalisation were ununiversalised, all humans in medieval non-positivism were non-positivistic, and by extention (but for the complexes arising from our metaphysics-of-presence--{(implicit)-'nondescript/ignorable–void 'as-to-presencing—absolutising-identitive-constitutedness‘)}) all humans in our ‘procrypticism—or—disjointedness-as-of-reference-of-thought are procryptic and it is no use turning around to our fellow mortals to do social-aggregation-enabling; with the more critical issue being what is the ontological-contiguity—of-the-human-institutionalisation-process implication as from the prospective epistemic-projection perspective! Such temporal-dispositions are characteristically draggy across all registry-worldviews/dimensions explaining why all transcendence-and-sublimity/sublimation/supererogatory~de-mentativity meet with temporal resistance going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor which take the form of subontologisation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect). - As the ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation <amplituding/formative> wooden-language-{imbued—averaging-of-thought--<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>‘) disposition tends to wrongly define the ‘reference-of-thought of a given prior/transcended/superseded registry-worldview as the absolute framework of ‘postconverging-or-dialectical-thinking—apriorising-psychologism’, and so by reflex, as if the successive prior institutional-cumulation/institutional-recomposure-<as-to-

<amplituding/formative—epistemicity>totalising—self-referencing-

However, contrary to the ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation <amplituding/formative> wooden-language–(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>’ disposition, it is only solipsism-of-thought by its emphasis on intrinsicness (I come to reality alone solipsism) that has the requisite and socially-uncompromised backdrop for construing ontologically-veridical-meaningfulness, that is, ‘at such uninstitutionalised-threshold requiring prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity’, by the possibility for its adherence to ontological-normalcy/postconvergence, and hence the requisite transcendental limited-mentation-capacity-deepening to put the prior/transcended/superseded into question (including and priorly, the transcendental emancipator own’s mentation) for the prospective/transcending/superseding reference-of-thought; and so, with the notion that the prior/transcended/superseded is preconverging-or-dementing –apriorising-psychologism as dialectically-out-of-phase/dialectically-primitive, with no place for its ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ which is no more than its ‘internal myth/metaphysics’ that has nothing to do with
ontological-veridicality/ontological-contiguity. As such, solipsism enables the requisite ‘moulting’ of human limited-mentation-capacity-deepening of temporal-to-intemporal-dispositions to allow for successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity; and as a social conceptualisation operates as ‘a relation of intersolipsistic mindsets in transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing led by the preceding/superseding intercession of intrinsic-reality/ontological-veridicality as validated by ontological-primemovers-totalitative-framework. (Noting that beyond this point of solipsistic contemplation is the end of ontology, as of ontological-primemovers-totalitative-framework /contingent-projective-and-predicative-validation, and metaphysics arises though metaphysical constructs tend to harken back towards ontology in trying to explain the metaphysical-as-of-existential thus explaining the blurring that often arises between metaphysics and ontology as there is hardly any metaphysical construct that doesn’t strive to be existentially relevant as of the present, thus carrying ontological implications of conceptualisation whether it is demonstrably ontologically-veridical or not; and this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity—of-the-human-institutionalisation-process which is rather about ‘successions of metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) insights as the successive transcendental-enabling/sublimating/supererogatory–de-mentativity rules in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process yielding in-lockstep the successively more ontologically profound metaphysics-of-presence--(implicit-’nondescript/ignorable–void’–as-to- presencing—absolutising-identitive-constitutedness) construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the notional–deprocrypticism.
registry-worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure-ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions such that all supposed present ontologies are metaphysical constructs as of their non-elucidations. Hence even science itself despite its positive perspective is a metaphysical construct.) Hence, from a maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation insight, the amplituding-formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of ‘incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—‘meaningfulness-and-teleology”—as-of—’nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}>’ disposition is rather the prior/transcended/superseded ‘reference-of-thought to be construed as preconverging-or-dementing”—apriorising-psychologism and dialectically-out-of-phase/dialectically-primitive with respect to a prospective/transcending/superseding ‘reference-of-thought that is ‘postconverging-or-dialectical-thinking”—apriorising-psychologism’ as dialectically-in-phase. - As informing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor is the idea that the notion in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity”—of-the-human-institutionalisation-process accounting for the institutional-cumulation/institutional-recomposure—<as-to—historiality/ontological-eventfulness”/ontological-aesthetic-tracing>) as ‘the-

reveal the ‘alteration of the same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ as temporal-dispositions alterity/alteration. Insightfully, it is this grasp of the uninstitutionalised-threshold (including associated postlogism-and-conjugated-postlogism-of-temporal-dispositions) in the existential-flux of ontologically-veridical in circularity/recurrence/repetition/repeatability of same-terms-of-expressions (seemingly-same-implied-meaningfulness) alternating with ontologically-non-veridical alterity/alterations of same-terms-of-expressions (seemingly-same-implied-meaningfulness), as Différance, that is critical in defining temporal-to-intemporal-dispositions disambiguated teleological-differentiations. It is the dynamic-extension of this Différance-suprastructurally-disambiguated-mental-dispositions-meaningfulness-as-the-various-temporal-to-intemporal-dispositions in ‘dynamic-cumulative-aftereffect of subontologisation’ (as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) at the-individuations level to registry-worldview level and the-transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation level that explains the ‘alterating iterability dynamism’ at these three levels; whether at the-individuations level involving the hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation alteration’ by temporal-dispositions as slanted-and-formulaic postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>/ of meaningfulness of the postlogic disposition or ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ of the slanted-and-formulaic perverted meaningfulness as the conjugated-postlogic disposition, meted with the ‘ontological-reconstituting–as-to-conflatedness/deconstruction compensating-alteration or realteration of meaningfulness’ of the intemporal-disposition), as the basis of the

In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of subontologisation’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-mentation-procedure-deception/’urge’/entitlement-folie of postlogism–slantedness effect) or progressive alterity/alterations which could be regular (like an exacerbation or opportunism
interlocutors in conjugated-postlogism ) or regressive alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism ). The notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and the intemporal-disposition compensation-alterity/alteration by ‘ontological-reconstituting–as-to-conflatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-threshold), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of an dimensionality-of-sublimating —<amplituding-formative>supererogatory–de-mentativenseness/epistemic-growth-or-conflatedness’/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise but rather institutionalisation/intemporalisation or secondnaturing, which is about ‘skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativety)/constraining towards’ the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to enable the given prospective institutionalisation. Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emanance’ but actually the result/effect of human limited-mentation-capacity-deepening coming-into-grips with intrinsic-reality as existence-emanance, and so in the succession of institutionalisations. The implication of this iterability (due to temporality -preservational-alterity/alterations in distraction/circumvention of intemporality -preservation-iteration for construct of

intemporal/ontologically-veridical meaningfulness) is that all issues of "perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation" (as opposed to issues of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation), can only be construed as implying 'a perpetual construct for upholding intemporality-in-preservational-compensation-alerity/alteration over temporality—in-preservational-distorting-alerity/alterations' hence validating the notion of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as ontological-normalcy/postconvergence; and that the 'illusion-of-definitiveness-of-ontological-construal-on-the-basis-of-an-intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-temporal-to-intemporal-dispositions' is wrong, as this simply allows for temporality-in-preservational-alerity/alterations to 'hollow-constitute' at that supposed 'intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-temporal-to-intemporal-dispositions'. And just as we grasp this notion of 'the-upholding-of-intemporal/ontologically-veridical-meaningfulness' at the-interdimension level where the registry-worldviews/dimensions are intemporally 'ontologically-reconstituted'/deconstructed, only to be temporally ‘hollow-constituted’ requiring prospective intemporal ‘ontological-reconstituting—as-to-conflatedness’/deconstruction explaining the successive institutional-cumulation/institutional-recompose—<as-to-‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing>, rather than going by the wrong idea of an ‘illusion-of-definitiveness-of-ontological-construal-on-the-basis-of-an-intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-temporal-to-intemporal-dispositions’, likewise at registry-worldview level, 'Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology' ensures that (by factoring in the distraction/circumvention of

The implication being that the intemporal-disposition ontological-reference of meaningfulness is suprastructural (beyond-the-consciousness-awareness-teleology\(^{79} \)-<in-existential-extrication-as-of-existential-unthought>) of the postlogism\(^{77} \)-and-conjugated-postlogism which is in preconverging-or-dementing\(^{-}\)-integration-of-temporal-dispositions (which explains the latter subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect).

Ultimately the philosophical pessimism of many a philosopher stems from this confusion about the achievement of human emancipation and virtue, in naively construing that such an achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-construct-of-meaningfulness for the upholding of the intemporal construct of ontologically-veridical-meaningfulness’ as implied by the intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation as of ontological-normalcy/postconvergence. Strangely enough, this idea can be derived from the contrastive implications of metaphysics-of-presence--(implicit-'nondescript/ignoreable–void ’-as-to-’ presencing—absolutising-identitive-constitutedness )
(with its illusion-of-the-present/present-consciousness/mirage/epistemic-totalising self-referring-syncretising) and metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) as postdication (suprastructuring transcendental-insight-projection-capacities). Ontologically speaking, the institutional-cumulation/institutional-recomposure-<as-to-’ historiality/ontological-eventfulness’/ontological-aesthetic-tracing> in their evolving de-mentation- (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) registry/registry-worldview/ontological-reference dialecticisms as at one moment ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’ and at another preconverging-or-dementing’–apriorising-psychologism are effectively a reflection of the reality of a dynamic dialectics of ‘metaphysics-of-presence--(implicit- ‘nondescript/ignoreable–void ’-as-to-’ presencing—absolutising-identitive-constitutedness )’ and ‘metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>’)’ retracing of ontologically-veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology retrospectively, presently and prospectively, going by a human shallow limited-mentation-capacity-<as of relative constitutedness’> to deeper limited-mentation-capacity-<as of relative conflation’> institutionalisation/intemporalisation process. Such an insight points out that a non-positivism/medievalism ‘metaphysics-of-presence--(implicit-‘nondescript/ignoreable–void ’-as-to-’ presencing—absolutising-identitive-constitutedness ’)’ will ‘wrongly be contending’ on the basis of a non-positivism/medievalism reference-of-thought with regards to issues of sorcery and so and so, instead of the requisite ‘metaphysics-of-absence-(implicit-
ontological-normalcy/postconvergence⟩’ as postdication. Paradoxically, postdication (as metaphysics-of-absence-(implicit-epistemic-veracity-of-non-presencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩) highlights that ontological-normalcy/postconvergence is rather conceptualised more effectively with the present-considered-as-being-in-epistemic-abnormalcy/preconvergence-⟨perspective–preconverging-or-dementing–apriorising-psychologism–reference-of-thought⟩-and-hence-suprastructurable by ‘metaphysics-of-absence-(implicit-epistemic-veracity-of-non-presencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩’-perspective-(‘postconverging-or-dialectical-thinking–apriorising-psychologism’–reference-of-thought) which is then actually prospective (to-resolve-the epistemic-abnormalcy/preconvergence); and not ‘metaphysics-of-presence–(implicit–nondescript/ignorable–void–as-to-presencing—absolutising-identitive-constitutedness’)’ conceptualisation which ‘wrong pretence of being in ontological-normalcy’ is actually stifling the prospective orientation by its illusion-of-the-present/present-consciousness/mirage as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This posture is validated by the decreasing epistemic-abnormalcy/preconvergence nature of the successive institutional-cumulation/institutional-recomposure-⟨as-to–historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing> from retrospective to present to prospective, whereby there is decreasing epistemic-abnormalcy/preconvergence as the institutionalisation/intemporalisation process veers towards ontological-normalcy/postconvergence (from recurrent-utter-uninstitutionalisation to base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism).

A human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation in individuals purporting prospective emancipation comes from and are from the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality /longness is a ‘potential construct of orientation’ as implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) and it is only a devised institutionalisation construct as secondnaturing that achieves that potential-construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no notional~deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are ‘moulting’ their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the
effective institutionalisation is what is really and effectively attained. - As the notion of ‘dynamic-cumulative-aftereffect of ontology and subontologisation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving intersubjective valuation). Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as an ontology-driven <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in–’protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-’reference-of-thought–devolving-as-of-instantiative-context conceptualisation); but rather a ‘psychology of qualifications’ as is equally the case with social psychology. The author as previously implied with the notion of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ perceives the need for defining human psychology from a transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification–as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
‘placeholder-setup’ as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is accordingly rescheduled psychoanalytically (‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), validating and explaining why our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology has been developing all along from the mindset/ reference-of-thought of an recurrent-utter-institutionalised, base-institutionalised, universalised and positivised, with the implication that the latter’s mindset/ reference-of-thought is not beyond prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity where such prospectively more profound ontology is demonstrated to imply a renewal of human reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor induced dynamism of shallow limited-mentation-capacity—(as of relative constitutedness ) to deeper limited-mentation-capacity—(as of relative conflation ). In fact, psychoanalysis is actually a natural existential human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology process with the difference that such comprehensively conceptually-directed constructs as is implied with notional—deprocrypticism with respect to the present positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and parcel of the human psychoanalytic experience with regards to passive to conceptually-directed constructs of human teleological projection, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (prospective) as a placeholder-
effectuation, is not technically achieved as may naively/counterintuitively be implied by construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (from the present) but rather, on the basis of ‘prospective reference-of-thought transcendental insights’, it correspondingly implies ‘construing the present as metaphysics-of-present as the transcended/superseded/prior placeholder-setup/mental-devising-representation/mentation’ to be represented as ‘preconverging-or-dementing–apriorising-psychologism reference-of-thought’, and so implied by the ‘prospective reference-of-thought transcendental insights’, such that the prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought’ is naturally implied as being the new and prospective suprastructuring, (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>) of the ‘old present’/retrospective as prior. That is it is critical to grasp that de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and preconverging-or-dementing–apriorising-psychologism is never about generating a prospective ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ (with respect to the present as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’), but such de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather about decentering and preconverging-or-dementing–apriorising-psychologism/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the present as preconverging-or-dementing–apriorising-psychologism which becomes ‘old-present’/retrospective as prior’
and dialectically ushering contrastively from that backdrop a new and prospective ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’. This is actually about maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior reference-of-thought as veridical. maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation being about optimally rescheduling the ‘placeholder-setup’ (as placeholder-setup/mental-devising-representation/mentation) with regards to ontologically-veridical-meaningfulness, on the ontological backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought-devolving-as-of-instantiative-context. This involves a pointedness-of-prospective reference-of-thought which maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation then ‘upholds in contiguity’ the ‘trace of disambiguated-mental-dispositions-and-meaningfulness implied by intemporal/conviction-as-to-profound-supererogation mental-dispositions, postlogism/psychopathic mental-dispositions and conjugated-postlogism/preconverging-or-dementing-integration mental-dispositions’ as universal and aetiological ontological-primum-totalitative-framework construct, (while equally reflecting the flaws induced in misrepresenting ontological-references arising from elaborative elucidation), on the backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation. As maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation achieves this by not letting non-

That is, by transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is meant dispose to construe the ontological resolution of registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—As-Being-or-ontological-or-existential—defect—transcendentally/transdimensionally/interdimensionally, as needing a prospective registry-worldview/dimension; for instance, capable of putting in question medieval intradimensional superstition in the first place supersedingly/transcendentally by implying the need for positivising rather than a usual temporalities-drives reciprocity of superstitious contentions or capable of putting into question positivism—procrypticism postlogic—postlogism—and-conjugated-postlogism in the first place supersedingly/transcendentally by implying the need for notional—deprocrypticism rather than temporalities-drives reciprocal equivalence of procrypticism—or—disjointedness—as—of—reference—of—thought. Further the notion of deeper superseding—oneness-of-ontology conceptualisation and shallow superseding—oneness-of-ontology conceptualisation, central to a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, can be demonstrated as follows: supposed A had the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting—as—disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogically-enculturated, and supposed some other interlocutors, not only by ignorance but

A rule of thumb with maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation will be to void the wrongly implied existentialist-as-ontologically-veridical-meaningfulness by perceiving the reference-of-thought of postlogic/psychopathic and conjugated-postlogism/preconverging-or-dementing—integration mental-dispositions as purely non-veridical/vacuous hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>. Effectively, reality/existence/being as becoming is actually an ‘unwinding elucidation’ model construct. However, since meaningfulness involves an interceding placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as reference-of-thought in relation to intrinsic-reality/ontology and given our limited-mentation-capacity-deepening, there thus tend to develop a mix-up of our representation (with unsound/vacuous/denaturing hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of reference-of-thought–categorical-imperatives/axioms/registry-teleology ) when reflecting/perspectivating ontologically-veridical existential reality, such that there is a rule of recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity -reification /superseding–oneness-of-ontology defined by the uninstitutionalised-threshold which arises dementatively/structurally/paradigmatically and accounts for vices-and-impediments. A ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ will actually be about a novel construal of the social as ‘metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>}’/postdication of the individual as ‘metaphysics-of-presence--{implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ’}’, with the implication that the concepts and conceptualisations of the individual of the current ‘psychology of qualification and qualification schemes’ are actually and effectively construed by the ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as of a postconvergent/ontological-normalcy/postconvergence cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their metaphysics-of-absence-{implicated-epistemic-veracity-of-
nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩/postdication (as the existential social) articulation. Insightfully, a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ rather mobilises maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as is necessarily the case with all metaphysics-of-absence-⟨implicated-epistemic-veracity-of–nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩/postdication conceptualisations (which must avert the mix-up induced by the illusion-of-the-present/present-consciousness/mirageas amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as metaphysics-of-presence–⟨implicated-‘nondescript/ignorable–void ’–as-to–presencing—absolutising-identitive-constitutedness ⟩ in ontologising/ontological-conceptualising. This thus validates and operates on the fundamental assumption that the individual-as-of-its-temporal-to-intemporal-individuation-potency is an abstract-atomic-social-construct capable-of-and-as-the-basis-for-both-social-effectuation-and-institutionalisation/intemporalisation. What is then qualified as social phenomenon is determined and effectively deconstructible/ontologically-reconstitutable from the inherent dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; and in construing/conceptualising the ‘transcendence and skewing (‘intemporality’–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/deferential-formalisation-transference’ of meaningfulness-(and-value) towards the intemporal-disposition (ontologisation/ontological-veracity/aestheticisation-towards-ontology – tautologically construed as ontology-in-the-advancement-of-intemporality—or institutionalisation or intemporalisation) of that abstract-atomic-social-construct or individual-
registry-worldview’s/dimension’s ontological/being-construal-defect as unsound reference-of-thought of meaningfulness and the positive-opportunism thereof for prospective institutionalisation transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity and leading to the registry-worldview’s/dimension’s uninstitutionalised-threshold endemised/enculturated temporal-preservation-as-pseudointemporality preservation. This aspect of postlogism and conjugated-postlogism preconverging-or-dementing-integration temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation is thus the more salient construal for the de-endemisation/de-enculturation of ontological/being-construal-defect as unsound reference-of-thought of meaningfulness, as defined by recurrence and ‘non-transient transcendency’ at the uninstitutionalised-threshold; (in contrast with either a state of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supercerogation that doesn’t speak of ‘recurrence of perversion/unsoundness of reference-of-thought’ or an ‘abstract’ state of inherent uninstitutionalised-threshold but which is ‘transiently transcendable’ as it is not in temporal-preservation-as-pseudointemporality-preservation instigated by postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supercerogation). Thus it is the condition of ‘recurrence’ and ‘non-transience’ transcendency arising from postlogism and conjugated-postlogism preconverging-or-dementing-integration that is ontologically relevant for ontological-reconstituting–as-to-conflatedness/deconstruction for prospective transcendency (as it conceptually defines the successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrpticism), and it basically encapsulates the phenomenality of preconverging/dementing–apriorising-psychologism mental-devising-representation of postlogism and temporal-dispositions-conjugated-postlogism so-construed as threshold-of–nonconviction/madeupness/bottomlining-as-to-
dementing\(^1\)--apriorising-psychologism and postconverging-or-dialectical-thinking\(^2\)--apriorising-psychologism as implied from a renewed human mentation transcendental insights (in reflexivity) about intrinsic-reality/ontological-veridicality. Threshold-of--nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^3\)—preconverging/dementing\(^1\)--apriorising-psychologism implies that at registry-worldview’s/dimension’s uninstitutionalised-threshold\(^4\) at which they are prospectively reflected/perspectivated as being in epistemic-abnormalcy/preconvergence (as shallow superseding–oneness-of-ontology construal/conceptualisation) with respect to ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as deeper superseding–oneness-of-ontology construal/conceptualisation), correspondingly the ontological-veridicality of human dispositions is construed as requiring a temporal-to-intemporal-dispositions disambiguation of \(^{5}\)reference-of-thought (rather than naively, an assumption of \(^{10}\)universal human intemporal-disposition as reflected/perspectivated within a functional institutionalised registry-worldview existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing– hyperrealisation/hyperreal-transposition>’), with the implication that the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ are actually of disambiguated temporal-to-intemporal-dispositions \(^{6}\)reference-of-thought and meaningfulness. This broadly sums up the importance of elucidating the threshold-of--nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^3\)—preconverging/dementing\(^1\)--apriorising-psychologism when it comes to registry-worldviews/dimensions construed as to their uninstitutionalised-threshold\(^4\) as being in epistemic-abnormalcy/preconvergence\(^4\), as it enables the conceptual articulation of meaningfulness that the ‘perspective of a functionally institutionalised registry-worldview/dimension existentialising—enframing/imprintedness-<as-to- historicity-tracing—
such an axiom of ‘a universal human intemporal-disposition’ is only surreptitiously implied, as a necessary ‘functional pseudo-conceptualisation’ which functionally assumes intemporality /longness to avoid the cumbrous need for disambiguating reference-of-thought of meaningfulness into temporal-to-intemporal-dispositions (at any singular instances) ‘within established institutionalised registry-worldview/dimension’ but virtue cannot be assumed beyond the uninstitutionalised-threshold\(^2\); that is, virtue is de-mentatively/structurally/paradigmatically the result of intemporalisation-as-institutionalisation secondnaturing, for instance, we can broadly argue that the positivistic registry-worldview/dimension implies more or less a ‘universal positivistic intemporality’ as a functional pseudo-conceptualisation of intemporality\(^1\)/longness ‘as people do not act medieval by and large’ but at our uninstitutionalised-threshold\(^0\), wherein \(^1\)procrypticism–or–disjointedness-as-of-reference-of-thought arises our positivistic registry-worldview/dimension can only be qualified as of temporal-to-intemporal-dispositions since the requisite intemporalisation-as-institutionalisation as \(^1\)deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought secondnaturing is wanting), but virtue should rather be construed as the superseding/transcendental institutionalisation/intemporalisation design/conceptualisation that by inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism\(^7\) in the short run and secondnaturing in the long run enables the prospective registry-worldview/dimension institutionalisation; it is this focus on institutionalisation/intemporalisation that is effectively institutionalisation-as-virtue given that in the succession of human institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing>, no institutionalisation effectively transforms human temporal-to-intemporal-dispositions nature into an absolutely intemporal-disposition nature, but rather reduces human epistemic-abnormalcy/preconvergence towards ontological-
normalcy/postconvergence as deeper and deeper superseding–oneness-of-ontology construal/conceptualisations. The bigger point being that it is by effectively grasping that any human intemporal-disposition individuations that can ‘spontaneously’ arise in whatever concern there is should be directed/skewed (‘intemporality’-asymmetric-subsumption-of-temporality”), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) (as deferential-formalisation-transference of meaningfulness) for institutionalisation/intemporalisation-as-virtue for secondnaturing, and not a wrong implication of functionally grounding virtue on human ‘temporal disposition’ which will inevitably bring about temporal-and-social-trading with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. The fact is that our institutional and organisational constructs at their very core, unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our temporal-to-intemporal-dispositions), however, the notion of ‘consciously-spoken’ as herein highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring required in fully assuming the reference-of-thought of any prospective registry-worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply ‘a new psychological orientation as positivistic’ that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, ‘<amplituding/formative–epistemicity>totalising
rationalism’ by Descartes based on methodical thinking, universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/reference-of-thought as a de-mentative/structural/paradigmatic shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposure-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing> process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton’s involvement with alchemy, for instance. This point to the critical importance of the psychological state of the mind for the very possibility of prospective ontologically-veridical transcendence-and-superoogatory—de-mentativity to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moult itself’ (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) towards a more profound construal/conceptualisation as of that superseding—oneness-of-ontology, however strongly we might naively believe in our ideas in any given epoch as of its metaphysics-of-presence—(implicated—‘nondescript/ignorable—void’—as-to—presencing—absolutising-identitive-constitutedness). Thus metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>) notion of threshold-of—nonconviction/madeupness/bottomlining—as-to—shallow-superoeration — preconverging/dementing—apriorising-psychologism (substituting, to induce ‘a preconverging—or-dementing—apriorising-psychologism mentation reflex’ in sync with the ontological perspective, over the same notion as subontologisation as metaphysics-of-presence—(implicated—‘nondescript/ignorable—void’—as-to—presencing—absolutising-identitive-
constitutedness\(^1\) which rather wrongly induces ‘a postconverging-or-dialectical-thinking\(^2\)—apriorising-psychologism mentation reflex’ out of sync with the ontological perspective, thus is subject to \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage}\) effectively arises from a maximalist construct in grasping the salience of a transcending/utter conceptualisation that mirrors the uncompromising nature of intrinsic-reality/ontology over \(^5\text{incrementalism-in-relative-ontological-incompleteness}\(^6\)—enframed-conceptualisation notional–procrypticism or notional–disjointedness-as-of-reference-of-thought as the natural intradimensional summative temporal mental-disposition (which speaks as a registry-worldview/dimension relative-ontological-incompleteness\(^8\)—induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\)—preconverging/dementing –apriorising-psychologism’\(^1\), as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\)> or-temporal-preservation-as-pseudointemporality\(^7\)-preservation, and the need for ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), which \(^9\text{incrementalism-in-relative-ontological-incompleteness}\(^6\)—enframed-conceptualisation notional–procrypticism or notional–disjointedness-as-of-reference-of-thought however represents the enculturation/endemisation that is defining of given registry-worldview’s/dimension’s uninstitutionalised-threshold\(^\#\). In other words, without a \(^7\text{maximalising-recomposing-for-relative-ontological-completeness}\(^8\)—unenframed-conceptualisation disposition no prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will be possible, as base-institutionalisation is the ultimate \(^7\text{maximalising-recomposing-for-relative-ontological-completeness}\(^8\)—unenframed-conceptualisation construct over a summative mental-disposition of \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-}
referencing-syncretising/circularity/interiorising/akrasiatic-drag in recurrent-utter-uninstitutionalisation enabling the latter’s transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, likewise universalisation is the ultimate ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation construct over a summative mental-disposition of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in ununiversalisation enabling the latter’s transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, so too with positivism over non-positivism, and prospectively notional–deprocrypticism over procrypticism/as-the- perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–of-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology. An ‘existential-decontextualised-transposition (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism defect) of ontology/ontologically-veridical-meaningfulness/intemporality conceptualisation’ is equally critical, along with the implied psychological uninhibitedness/décomplexing for a prospective registry-worldview/dimension as deprocrypticism, with respect to the central concept of ‘knowledge-notionalisation’ wherein understanding is much more than about grasping the ideals but equally preemptively construing the possibilities of ‘the ignorances’/temporal-dispositions as part and parcel of knowledge construct, not for an idle temporal motive, but to better skew (‘intemporality–asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) for institutionalisation/intemporalisation-as-virtue, as a specific necessity for a notional–deprocrypticism registry-worldview/dimension preempting—disjointedness-as-of-reference-of-thought,—as-to—<amplituding/formative–epistemicity>growth-or-
conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as deprocrypticism. Ultimately the purpose of ‘maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as an intemporal conceptualisation of transcendental implication should be of ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ and is not for the sake of ‘immediate intelligibility’ within a given uninstitutionalised registry-worldview/dimension in want for a prospective corresponding institutionalisation registry-worldview/dimension, as such a purpose will wrongly and paradoxically imply that the logical-dueness/logical-pertinence of the uninstitutionalised-threshold is sound as its reference-of-thought is prospectively defective (for instance a positivistic implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity cannot be logically intelligible to a medieval setup that harkens back to medieval reference-of-thought—categorical-imperatives/axioms/registry-teleology for its logic, i.e. ‘Issue of articulating chemistry rules and principles for the evaluation of an alchemist not logically cognisant of chemistry rules and principles, in the very first place’), but rather it is a middle to long run construed as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) instigation of prospective registry-worldview/dimension institutionalisation reference-of-thought as of a ‘postconverging-or-dialectical-thinking—psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (though we can mostly grasp such an insight not from instances of ‘natural intra-society transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’ since this takes a longer time to occur and is relatively obscure, but transcendence-and-sublimity/sublimation/supererogatory—de-
mentativity by cultural diffusion associated with conquests where the dominant is at a more advanced stage of institutionalisation or in the rare cases where it is the reverse like Ancient Egypt or Ancient Greece, with the dominated actually relatively dominating or in parity with the dominant culturally as of divergent aspects). The implication here is that transcendental maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{97}—unenframed-conceptualisation is rather grounded on a relatively intemporal-and-deeper existential-reference-of-meaningfulness with the positive-opportunism of the prospective institutionalisation ontological-primemovers-totalitative-framework\textsuperscript{5} over its corresponding uninstitutionalised-threshold\textsuperscript{02} to put in question the latter’s reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{99} for the ones of the prospective institutionalisation, and it is only after that the notion of mutual logical intelligibility arises (it is only after the alchemist ‘psychoanalytically-unshackle’ into a positivistic-inclined mindset/reference-of-thought with respect to appreciating notion of natural cause-and-effect and experimentation as well that the notion of mutual intelligibility of chemistry rules and principles makes sense, until then there cannot be much of intelligibility without such a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise from the perspective of the prospective chemist). That explain why maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{97}—unenframed-conceptualisation construct are meant to be detached and totalisingly-entailing so as to act as a backdrop for prospective institutionalisation, and not to necessarily make sense in terms–as-of-axiomatic-construct of ‘the now temporal mental-disposition reference-of-though’ which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. In the bigger scheme of things, it is inevitable that suprastructuring (the conceptualisation that renders de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-
mentativity/transdimensional/interdimensional construct; as it perpetually upholds ontological-veridicality by its ‘existential-reality’ (not non-veridical/vacuous hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) on the basis of, first and critically, the validity of the ‘reference-of-thought so-reflected as soundness-or-ontological-good-faith/authenticity–of–reference-of-thought if valid and unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought if invalid (before even recognising whether the ‘implicitation-of-notion-of-agreement-or-disagreement’ or ‘of logical-processing’ arises) to determine the ‘postconverging-or-dialectical-thinking–apriorising-psychologism and dialectically-in-phase’ over the ‘preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase/dialectically-primitive’. It is critical to grasp that the notion of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow
supererogation\(^a\)--preconverging/dementing--apriorising-psychologism is rather of conceptual metaphysics-of-absence--(implicated-epistemic-veracity-of--nonpresencing--<perspective--ontological-normalcy/postconvergence>) (meant to ensure a natural \(^b\)maximalising-recomposuring-for-relative-ontological-completeness\(^c\)--unenframed-conceptualisation to avoid mix-up of \(^d\)reference-of-thought) with such a mix-up arising from the <amplituding/formative--epistemicity>totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (whether wittingly or unwittingly) induced subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) so-construed as metaphysics-of-presence--(implicated-'nondescript/ignorable--void 'as-to-\(^e\)presencing—absolutising-identitive-constitutedness\(^f\)). So both notions are conceptually the same but implying different approaches with respect to the temporal undermining of ontological-veridicality; with subontologisation referencing/biased within the contextual perspective of institutionalised registry-worldview/dimension, with existential-decontextualised-transposition referencing/biased within the contextual perspective of uninstitutionalised registry-worldview/dimension, thus the latter enabling an appropriate disambiguation of temporal-to-intemporal-dispositions with respect to ontologically-veridical \(^g\)reference-of-thought, and by extension it is the concept of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing--apriorising-psychologism that is appropriate in all instances of implied uninstitutionalised registry-worldviews/dimensions as metaphysics-of-absence--(implicated-epistemic-veracity-of--nonpresencing--<perspective--ontological-normalcy/postconvergence>) perspective since it avoids the <amplituding/formative--epistemicity>totalising--self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage that is inevitable when reasoning by a metaphysics-of-presence--(implicated-'nondescript/ignorable--void 'as-to- presencing—absolutising-identitive-
constitutedness\(^1\) induced subontologisation. Besides even within the intradimension contextual perspective of institutionalised registry-worldview/dimension, it is equally the best approach with respect to the construal/conceptualisation of the instigating of postlogism\(^{-}\)as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^6\) hollow-constituting\(-\)as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\> mental-disposition that will induce temporal-preservation-as-pseudointemporality\-preservation in temporal-dispositions as conjugated-postlogism\/^/preconverging-or-dementing\(^5\)-integration (by hollow-constituting\(-\)as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\> on the \(^2\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) of the priorly institutionalised registry-worldview/dimension) and by so doing reflecting the uninstitutionalised registry-worldview/dimension. That is an construal/conceptualisation approach that construes the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^7\) as of diminishing–human-epistemic-abnormalcy/diminishing–preconvergence. Effectively, such a highlight of how human secondnaturing within institutionalised construct implies a pseudo-conceptual universal human intemporal-disposition as metaphysics-of-presence–\(\langle\)implicated-'nondescript/ignorable-void-'-as-to-presencing—absolutising-identitive-constitutedness\(\rangle\) in contrast to a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions highlight at uninstitutionalised construct as metaphysics-of-absence–\(\langle\)implicated-epistemic-veracity-of- nonpresencing–\(\langle\)perspective–ontological-normalcy/postconvergence\(\rangle\) is effectively the unspoken psychoanalytic conceptualisation which needs to ‘be referenced/registered/decisioned–as-consciously-recognised’ as the backdrop for superseding into deprocrypticism. Such a psychoanalytic insight about the ‘dynamic-cumulative-aftereffect of subontologisation’ grasps how
postlogism instigates the temporal-preservation-as-pseudointemporality\textsuperscript{-}preservation inclination of temporal-dispositions that enculturates/endemises the various uninstitutionalised-threshold\textsuperscript{2} even though the state as dynamic-cumulative-aftereffect of temporal-dispositions is in ‘ontological-incompleteness-of-\textsuperscript{7}reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance-so-construed-by-prospective-\textsuperscript{5}reference-of-thought, as-it-is-thus-‘in-wait’-for-\textsuperscript{7}perversion-of-\textsuperscript{5}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{2}>, \textsuperscript{5}–or-temporal-preservation-as-pseudointemporality\textsuperscript{-}preservation, with respect to ontological-normalcy’ by ‘undermining social\textsuperscript{10}universal-transparency\textsuperscript{10}→(transparency-of-totalising-entailing,--as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) for ontological-veridicality’; wherein the postlogic mental-disposition is recursive in eliciting temporal-preservation, the conjugated exacerbatory/opportunistic mental-dispositions are progressive in upholding temporal-preservation-as-pseudointemporality\textsuperscript{-}preservation and the conjugated ignorance/affordable mental-dispositions as largely summative of the dynamic-cumulative-aftereffect, are geared towards upholding or undermining temporal-preservation-as-pseudointemporality\textsuperscript{-}preservation by supplanting—conviction-as-to-profound-supererogation\textsuperscript{9}—postconverging/dialectical-thinking—apriorising-psychologism inclination whether naively conjugating to postlogism\textsuperscript{7} as misconstrual or good supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism when the untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism\textsuperscript{5} of ontological-veridicality is established from an intemporal-disposition, in which latter case as being largely summative of the dynamic-cumulative-aftereffect it leads to the collapsing of postlogism\textsuperscript{7} mental-disposition recursiveness and exacerbatory/opportunistic mental-dispositions progressiveness with respect
to temporal-preservation, and thus orienting towards intemporal-preservation/intemporalisation and the possibility for prospective institutionalisation, itself subjectable to temporal-preservation-as-pseudointemporality\(^1\)-preservation at its uninstitutionalised-threshold \(^2\). Thus this is the underlying dimensionality-of-sublimating\(^3\)—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness\(^4\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation in the psychoanalytic dynamism of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor across all the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness\(^5\)/ontological-aesthetic-tracing> as of human shallow-to-deepening—limited-mentation-capacity,—as-limited-mentation-capacity-deepening\(^6\) explaining the alternation of prospective institutionalisation (as ontologically-reconstituting) and uninstitutionalised-threshold \(^7\) (in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> with regards to the \(^8\)reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^9\) of the prior institutionalisation) which need to be brought to the collective consciousness appraisal for the necessary psychological uninhibitedness/décomplexing enabling prospective deprocrypticism. * Ultimately, an ‘ontological-reconstituting—as-to-conflatedness /deconstruction articulation’ (beyond just conceptualisations as in this paper) for more thorough insights reflective of a ‘suprastructural construal of any given state of uninstitutionalised-threshold\(^10\) from prospective institutionalisation point-of-reference, such as can be retrospectively implied of non-positivism/medievalism from positivism or prospectively implied of procrypticism from deprocrypticism’, will more profoundly involve a ‘storied-construct/ontologically-valid-narration of comprehensive intuitive insight’ grounded on: the construal of temporal-
drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as deprocrypticism. Insightfully, ontological-normalcy/postconvergence establishes beyond human limited-mentation-capacity-deepening that there is a potent and overall oneness/contiguity of ontologically-veridical meaningfulness which transverses and supersedes all other conceptualisations of reference-of-thought and meaningfulness (which are therefore approximates) by mere ‘ontological-consistency’ whether with regards to virtue conceptualisation (as highlighted with the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) or second-level ontological constructs as is the case with subject matters conceptualisations. Ultimately, the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding—oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of—meaningfulness-and-teleology) for human-mastery-of-reality or knowledge, as inherently implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipatory ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition
individuation within the recurrent-utter-uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) as a de-mentating/structuring/paradigming for superseding the vices-and-impediments inherent to recurrent-utter-uninstitutionalisation is a necessity-for-its-own-and-by-extension-the-registry-worldview’s/dimension’s ‘moulting’ in the middle to long run construed as of de-mentation—(supererogatory—ontological—to-dialectical—stranding-or-attributive-dialectics) into a base-institutionalisation registry-worldview. Such solipsistic insight is the effective ‘transcendental virtue conceptualisation’ that drives ontological-normalcy/postconvergence across all the successive institutionalisations and by that token coincides with ontology as a necessary ontological development driver in an animal of shallow limited-mentation-capacity—(as of relative constitutedness) to deeper limited-mentation-capacity—(as of relative conflation). This analysis is very much in line with the notion of virtue as a referentialism-phenomenal-abstractiveness-of-presencing-in—‘protensive-consciousness’—enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness’s—reference-of-thought—devolving-as-of-instantiative-context construal, representing virtue ‘contiguously’ in terms—as-of-axiomatic-construct of human limited-mentation-capacity-deepening of shortness-to-longness-of-register-of—meaningfulness-and-teleology in the intransience of ontological-normalcy/postconvergence (from shallow superseding—oneness-of-ontology to deeper superseding—oneness-of-ontology). This ontology-driving nature of virtue characteristic of human-subpotency—aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—
externalism-form-factor points out that it is rather such intemporality/longness solipsistic
‘transcendental virtue projection’ that enables the superseding of the uninstitutionalised-
threshold of the various registry-worldviews/dimensions as institutional-
cumulation/institutional-recomposure-as-to-historiality/ontological-
eventfulness/ontological-aesthetic-tracing. In other words, it is the necessary ‘transcendental
virtue projection’ for a prospective registry-worldview superseding the vices-and-
impediments of the prior registry-worldview that enables the ontological possibilities for such
prospective registry-worldview to even arise existentially; as the temporally-inclined recurrent-
utter-institutionalised individuation is non-cognisant of any such thing as base-
institutionalisation and the ontological possibilities availing to it, likewise with the temporally-
inclined ununiversalised individuation with respect to universalisation and its ontological
possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to
the positivistic and its ontological possibilities, and prospectively the temporally-inclined
procrypticism individuation with respect to notional-deprocrypticism and its ontological
possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A
question that arises will be how can a society deliver an Einstein or a Bohr respectively that will
articulate the theory-of-relativity or quantum-mechanics without it having the necessary
institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual
mindset/reference-of-thought and associated other contributing mindsets) that allows for the
possibility of such discoveries? In other words what was the possibility for the theory-of-
relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather
improbable. As a side note, such an insight equally attends to such a debate we currently
entertain with respect to coming into contact with an advanced alien civilisation. A
transcendental virtue conceptualisation will hold that in the very first place such a civilisation
won’t be able to exist without the necessary virtue construct (as successions of metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-perspective-ontological-normalcy/postconvergence>) insights yielding in-lockstep the successively more ontologically profound metaphysics-of-presence-(implicit-'nondescript/ignorable-void'-as-to-presencing—absolutising-identitive-constitutedness) as implied by ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a medieval age, for instance, going by the mere human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms—as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) by enabling ‘solipsistic moulting’ (as ‘intemporal-disposition individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
preservation whether by recurrence registry-worldview’s/dimension’s-uninstitutionalised-threshold (whether beyond-the-consciousness-awareness-teleology -in-existent-extrication-as-of-existent-unthought), as may arise with postlogism-and-conjugated-postlogism, with the effective consequence of ‘temporal-to-intemporal-disambiguated-mental-dispositions’ wherein the hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of temporal-dispositions are reflected/perspectivated as rather in temporal-preservation-as-pseudointemporality-preservation ‘amplituding/formative–epistemicity-totalising–self-referencing-syncretising’, with their meaningfulness ontologically being suprastructured (as perverted beyond their consciousness-awareness-teleology) by the intemporal-disposition in construing the ontological-primemovers-totalitative-framework as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology. This disambiguated-mental-dispositions as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology develops, with changing contextualisation, at the registry-worldview/dimension or intradimensional level as the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect), and is equally characteristic across registry-worldviews; with the implication that this is an attribute of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. That is, the uninstitutionalised-threshold is characterised by the
‘trace of disambiguated-mental-dispositions as temporal-to-intemporal-dispositions ontological-primemovers-totalitative-framework’. It is mainly a ‘Diffèreance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ that can establish the ontological-veridicality-of-meaningfulness precisely by disambiguating the effective ontological-references of the various temporal-to-intemporal-dispositions individuations, and so not only at an instant or act or specific circumstance or context (which is rather an act construal and not a being/ontological construal) but projectively in their retrospective-to-present-to-prospective existentialism-deambulation/meandering which provides the full insight of temporal-to-intemporal-dispositions individuations mental-dispositions/meaningful-references/ontological-references/contending-references as ontological-entrainment. Such a being/ontological-basis, as described above, of a ‘Diffèreance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ is in line with and further elucidates the ‘Diffèreance-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’, of-meaningfulness’ technique. Going respectively by the Sartrean and Derridean principles for establishing ontologically-veridical-meaningfulness, that is, ‘existence precedes/defines essence’ or ‘there is nothing outside the text’ in evaluating ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with respect to their veridical-ontological-reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation in various instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity–reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. ontological-completeness — unenframed-conceptualisation basis of meaningfulness on the ground that successive-instances-of-'existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by "maximalising-recomposing-for-relative-ontological-completeness" — unenframed-conceptualisation requires their subjection to ‘ontological-reconstituting—as-to-conflatedness’/deconstruction to establish the existential context of reality thus establishing ontologically-veridical-meaningfulness. On the other hand, the postlogic/psychopathic disposition (and by extension temporal-dispositions conjugated-postlogism/preconverging-or-dementing -integration dispositions) adhere to an elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity basis of meaningfulness on the ground that plausibly construing a false-premising to an existential-context-of-reference-narrative ‘provides licence’ to then (‘recursively’ in concurrence –in the case of the postlogic/psychopathic character, progressively –in the case of a conjugated-exacerbatory and conjugated-opportunism characters, and regressively –in the case of a conjugated-ignorance and conjugated-affordability characters) comprehensively articulate any possible existentially-unreal-and-abstract-narratives (on the basis of a conceptualisation of mere hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> static-or-abstract non-veridical/vacuous-state of essence-of-meaningfulness’ with respect to ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology and hence failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) by exploiting the plausibility derived from the concurrently-false-premising existential-context-of-reference-narrative. So the latter disposition, and so particularly with the postlogic/psychopathic mindset, is to induce or generate or exploit any plausible existential-context-of-reference-narrative to then unleash slanted-and-formulaic
hollow existentially-unreal-and-abstract narratives by concurrently-false-premising on the plausible existential-context-of-reference-narrative. In other words, the postlogic/psychopathic individuation character gets that there is a human mental-reflex to grasp ontologically-veridical-meaningfulness on ‘static-or-abstract non-veridical/vacuous-state (abstract \^\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}^\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}^\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}) of essence-of-meaningfulness terms, so long as their existential basis is established, including and critically for its purpose, where it is so deceptively implied’, to artificially or opportunistically construe a plausible existential-context-of-reference-narrative which then ‘provides licence’ to articulate existentially-unreal-and-abstract-narratives in hollow-constituting<as-disjoined-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> concurrently-false-premising on the initial plausible existential-context-of-reference-narrative, with the idea that that human mental-reflex will by reflex naively-and-wrongly imply the existential/contextualisation ontological-verbatim verity of its generated slanted-and-formulaic hollow existentially-unreal-and-abstract-narratives; and so, in terms–as-of-axiomatic-construct of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’−of− reference-of-thought−devolving-as-of-instantiative-context’ as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as highlighted priorly. This preconverging-or-dementing—apriorising-psychologism is in contrast with a postconverging-or-dialectical-thinking—apriorising-psychologism (when the latter is of inappropriate/bad or appropriate/good supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism) which is always inclined to ensure that the succession-of-narratives it propounds are tied to successive-instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-

Thus unlike in a case of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation †) in a same or different circumstance, is invalidated when dealing with •perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as registry-
worldview’s/dimension’s-uninstitutionalised-threshold (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing wherein the superseding (and ontologically-veridical) reference-of-thought can only construe of the superseded (and ontologically unsound) as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to transcend into the superseding reference-of-thought in the very first instance, before any ontologically-veridical pretence to mutual contention. Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about,...) In the bigger perspective with regards to the institutionalisation of notional–deprocrypticism for instance, it is such an existentialism construal from a transcendental intemporal reference-of-thought over temporal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that allows for the superseding of vices-and-impediments as prospective registry-worldview/dimension structural-resolution of positivism–procrypticism preconverging-or-dementing–apriorising-psychologism. It should be noted that as earlier articulated, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation dementating/structuring/paradigming (in contrast to a temporal extricatory dementating/structuring/paradigming) can only be transcendental as superseding (by implying an altogether different reference-of-thought as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’), and not incremental/disjointedness-as-of-reference-of-thought’
(wrongly operating on the same temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect<as-Being-or-ontological-or-existential–defect> reference-of-thought which is actually preconverging-or-dementing–apriorising-psychologism/oblongated and dialectically/contendingly-out-of-phase). Taking the previously articulated case of sorcery in a non-positivism/medievalism setup, it has no ontological structural-resolution by reciprocity of sorcery accusations on the same reference-of-thought terms but rather by the transcendental undermining of such non-positivism/medievalism mindset/ reference-of-thought with an altogether superseding positivistic reference-of-thought that is in transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing with a non-positivism/medievalism ontological-reference (registry-worldview). Even though, inevitably (and as in the ‘present as-present-consciousness’ of all registry-worldviews with regards to their own corresponding perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena), there is bound to be more or less a dumb-and-dumb effect of summative social acquiescence to a superstitious mindset/reference-of-thought in a non-positivism/medievalism setup, that will in the short term temporal perspective be a drawback to such a transcendental projection of positivistic mental-disposition, and likewise there will inevitably be more or less be a dumb-and-dumb effect of summative social discontentment where a transcendental notional~deprocrypticism mental-disposition is implied in a procrypticism setup. This shows that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, in all registry-worldviews/dimensions the more or less summative mindset/reference-of-thought is bound to be incremental/disjointedness-as-of-reference-of-thought’ and not transcending such that would-be emancipating individuation’s projection (that is, if ontologically pertinent) is necessarily the middle to long run construed as of de-
mentation−(supererogatory−ontological−de-mentation-or-dialectical−de-mentation—stranding-or-attributive-dialectics) percolation-channelling for the necessary ‘postconverging-or-dialectical-thinking’−psychology or psychology-of-mentation-dynamics or natural−psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring accompanying such prospective transcendental institutionalisation. That is, by transcendence-and-sublimity/sublimation/supererogatory−de-mentativity is meant dispose to construe the ontological resolution of an intradimensional ontological/being-construal-defect transcendentally/transdimensionally/interdimensionally; for instance, capable of putting in question non-positivism/medievalism intradimensional superstition as of the registry-worldview defect in the first place supersedingly/transcendentally rather than a usual attendant/incidental reciprocity of superstitious contentions or capable of putting into question procrypticism/perversion-of-positivistic-meaningfulness with its corresponding postlogism−and-conjugated-postlogism of psychopathy and social psychopathy as of the registry-worldview in the very first place supersedingly/transcendentally rather than a temporally reciprocal equivalence. Basically, such an intemporal-disposition/ontologically-veridical transcendental disposition storied-construct/ontologically-valid-narration will be of imbricatedness/threadedness/recomposuring as existential-tracing of ontologically-veridical-meaningfulness reflecting temporal-dispositions rather in ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised individuation has no place for the ‘transcendental rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-(as′first-level-presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded
ununiversalised individuation (in base-institutionalisation) has no place for the ‘transcendental rules of universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the subontologisation moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthily life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is de-mentatively/structurally/paradigmatically responsible for present reference-of-thought to project to the de-mentative/structural/paradigmatic need of prospective transcence-and-sublimity/sublimation/supererogatory de-mentativity. This further points out that with regards to ‘metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing-<perspective-ontological-normalcy/postconvergence>)’ projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising~self-referencing-syncretising), across all registry-worldviews from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mention/consciousness-awareness-teleology works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the
(positivistic) uninstitutionalised-threshold of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold

while the prospective registry-worldview/dimension implying a new reference-of-thought that dementatively/structurally/paradigmatically resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold

mindset/reference-of-thought will rather be construed as decentered and preconverging-or-dementing–apriorising-psychologism, unintelligible/existentially-suprastructured with respect to ‘our positivism–procrypticism terms of meaningfulness’ that is, at the (deprocrypticism) uninstitutionalised-threshold in order to effectively and adequately reflect the requisite metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normality/postconvergence>) necessary to act as the referenced/registered/decisioned–psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as-uninstitutionalised-threshold-suprastructuring de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that is the mechanism of a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective institutionalisation. This latter notion is important as with all psychoanalysis whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential–defect> is central to superseding it, and so the idea of implying preconverging-or-dementing–apriorising-psychologism/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not carry the poorer connotations of temporal/banal mental-dispositions, but rather it is technically a necessary and useful ontological conceptualisation in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring from our shallow limited-
mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation). Thus psychoanalysis is actually in effect an existentialism process of human skewing towards intemporal-disposition as we construe meaningfulness and value-referencing, and so beyond the Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’ conceptualisation of psychology we know of when we talk of psychoanalysis in the subject matter of psychology, but rather construed as a natural ontologically-driven ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ behind human secondnaturing across the successive institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As a side note though, it is important to grasp that the registry-worldviews as the institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing> are actually broad categorisations and that actually human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality/ontologically-veridical-meaningfulness varies (though not varying in terms–as-of-axiomatic-construct of the central defining conceptualisation of each registry-worldview/dimension) within each registry-worldview/dimension from its early to later spectrum, given human more or less passive continuous psychoanalytic readjustment to ‘ontological experience’. For instance, there is certainly a marked difference in scope and depth between the positivistic construct in the th century with its nature in the late 20th and early 21st century. Further to the two elucidations made of postlogism /psychopathic and conjugated-postlogism /preconverging-or-dementing- integration distortion/perversion of essence-of-meaningfulness that go on to endemise psychopathy and social psychopath with reference to with the ‘Différance-disambiguation-of-

preconverging/dementing—apriorising-psychologism individuation characters, and supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism individuation characters. Basically the ontological-veridicality of meaningfulness is construed in ‘non-veridical/vacuous’ terms of reference-of-thought—categorical-imperatives/axioms/registry-teleology ‘supposedly’ in intemporal-preservation-entropy-or-contiguity—or-ontological-preservation and this ‘supposedly-ness’ is only validated if ‘existentially real’ as ontologically-veridical. However there is an ‘existentialist-shortfall’ of the human supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mind with
respect to assuring the ‘existential-reality’ in the face of ‘non-veridical/vacuous terms of reference-of-thought–categorical-imperatives/axioms/registry-teleology’. This ‘existentialist-shortfall’ has to do with the fact that it will be ‘a waste of too much mental energy’ to be verifying in detail the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’–reference-of-thought–devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology—of every interlocutor, and so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and can be undermined and usurped, but it is standard as it ‘saves mental energy and time’. This ‘existentialist-shortfall’ is relatively inconsequential where interlocutors are mutually of prelogism–as-of-conviction,–as-to-profound-supererogation or existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’–reference-of-thought–devolving-as-of-instantiative-context and even better when mutually of good supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking–apriorising-psychologism (than when one or the other is of ‘poor or bad supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking–apriorising-psychologism’ even though the latter is relatively circumspect and ad-hoc in its misrepresentation of reality, and so its consequence with respect to the ‘existentialist-shortfall’ is rather limited as defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance rather than registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect> associated with postlogism , whether
pathological/psychopathic or enculturated, and conjugated-postlogism"). However, with the psychopathic/postlogic and social psychopathic case where compulsing-
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness is the underlying principle as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging, this ‘existentialist-shortfall’ is highly consequential as it is the basis of the induced registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect>; by wrongly and so comprehensively implying the ‘existential-reality’ of ‘non-veridical/vacuous <amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—&categorical-imperatives/axioms/registry-teleology } articulated in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or otherwise by the rather non-veridical/vacuous implied meaningfulness and reference-of-thought or otherwise by the non-veridical/vacuous implied meaningfulness and reference-of-thought based on inductive limitation nature or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In other words meaningfulness and reference-of-thought is only veridical as an ‘ontologically-veridical construct’ validated in the construal of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity—reification /superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-

The human ‘existentialist-shortfall’ with respect to ontologically-veridical meaningfulness and its reference-of-thought thus allows for an overall existential/being framework/cadre of ‘non-veridical/vacuous distortion/perversion’ of meaningfulness in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> induced from postlogism/psychopathic and temporal-dispositions-conjugated-postlogism which is wrongly projected as of the recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity/-reification/superseding-oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation as ontologically-veridical-meaningfulness, and particularly so as the postlogism/psychopathic disposition is basically recursive (recursive denaturing alteration of the essence-of-meaningfulness and so ‘pathologically iterative’, in the form of hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> ‘denaturing postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity’ as non-veridical and dialectically/contendingly out-of-phase, based on absolving/fleeting/escaping-reflex–logic and extrinsic-attribution with respect to successive sets of interlocutors, and as conjugated-postlogism/mental-dispositions equally assume a purposefulness of their own (that must be factored-in when analysing psychopathic/postlogic and social-psychopathic situations), and conjugated-postlogism/preconverging-or-dementing-integration dispositions are either progressive (with conjugated-opportunistic/conjugated-exacerbation) or regressive (with conjugated-ignorance/conjugated-

It is critical to understand this underlying thread of concurrently-false-premising by its compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism instigation as a ‘false-sense-of-good-to-poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ postlogism and conjugated-postlogism/preconverging-or-dementing-integration in psychopathic and social psychopathic situations. Thus unlike in the instance of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential–defect (with regards to both postlogism and conjugated-postlogism); with the
implication that there can’t be mutual contention but rather transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing wherein the superseding (and sound) reference-of-thought can only construe of the superseded (and non-veridical) as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to transcend into the superseding reference-of-thought in the very first instance before any ontologically-verbical pretence to mutual contention. The nature of how ‘concurrently-false-premising-of-meaning thread/tracing’ arises can equally conspicuously be understood at childhood psychopath situation wherein the childhood psychopathy blatantly attempts to initiate a dereifying narrative like in the case of spilling water on a chair highlighted before to which if concurred to by the interlocutor will be the basis for the child to assume apparently normal logical contentions but fundamentally based on this distorted deceptive high-point of concurrently-false-premising as of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. It is basically the same process with an adult psychopath but for the fact of the highly opaque nature of adult psychopath mental-disposition unlike a child psychopath, and as previously explained is ‘maturated’ in its theme on issues that are rather of serious import, ‘spatialising’ (to confound by not acting postlogically/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness within the same spatialisation of relevant social interlocutors, which may raise the hollow nature of its narratives from cross-examination), being ‘indirect’ (by increasingly appearing neutral and unmotivated unlike at childhood), increasingly ‘credulous’ (by effective eliciting of social threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as to
subontologisation miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-conventioning-rationalising/temporal-enculturation where its ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context)’ as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology are all false) and ‘crafty’ (with increasingly greater staging and performance: as the psychopath perceives instances of rebuttal of its postlogism not essentially in terms—as-of-axiomatic-construct of the rightness or wrongness of the postlogic acts in its personality development into adulthood, as a prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mental-disposition will, but rather in terms—as-of-axiomatic-construct of its failure in performing the postlogic acts well with the idea of how to further confound/muddle hence the reason it is recursive as absolving/fleeting/escaping-reflex—logic to the point of faking remorsefulness or acting as a victim as long as fundamentally its ‘interlocutor is in a prelogism—as-of-conviction,—as-to-profound-supererogation relation to its postlogism—formulaic slanting compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or perverted-outcome-sought-precedes-existentially-veridical-logical-dueness mental-disposition’ in order for the interlocutor to go on to conjoin the psychopath’s postlogic-backtracking—<iterative-looping—set-of-dereifying-hollow-narratives-and-acts>.

Paradoxically, the basis of the adult psychopath ‘concurrently-false-premising-of-meaningful thread/tracing’ is the disposition of a supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mindset/ reference-of-thought to be open-minded in wrongly granting supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism (be it ‘good
development-as-infrastructure-of—meaningfulness-and-teleology— as of prospective deprocrypticism, in contrast to a ‘wrongly misconstrued universal human intemporal-disposition nature’ (which is rather a ‘functional construal/conceptualisation’ arising from intemporalisation/institutionalisation within an institutionalised registry-worldview/dimension as secondnatured but not beyond its uninstitutionalised-threshold) as it will fail to account and register for the ontological/being-construal-defect of the present as procrypticism which should enable superseding for the prospective transcendent institutionalisation secondnatureing as deprocrypticism. This explains how a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ gives ontological-anchoring for a Derridean metaphysics-of-presence— ⟨implicit—nondescript/ignorable—void—as-to—presencing—absolutising-identitive-constitutedness ⟩ (due to human limited-mentation-capacity-deepening) propped up by a metaphysics-of-absence— ⟨implicit—epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence> ⟩ (rather as human projection in ‘making-up for’ its limited-mentation-capacity-deepening, and so beyond a Derridean pessimism, ‘making-up for’ with the abstract and infallible ontological-normalcy/postconvergence referencing/correction-tool as postdication, which upholds intemporal-preservation-entropy-or-contiguity—or—ontological-preservation), to paradoxically transcend and supersede towards deeper ontological-veridicality/intrinsic-reality, as so enabled by the dialecticism of ‘de-mentation—superceratory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or-attributive-dialectics’ of reference-of-thought’ in construing the reference-of-thought and meaningfulness of ‘the prospective’ (of a more intemporal-potency as it further deepens the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing –apriorising-psychologism over ‘the prior’ in the strive for ontological-normalcy/postconvergence (potency of intrinsic-reality/ontological-veridicality) along with disambiguating human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as the pathway towards intrinsicness/essence, reality, truth and virtue. Such a ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ is rather about the ontological-veridicality of reference-of-thought. It should not be confused with the more familiar issue involving existentially veridical logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and this doesn’t put-into-question the soundness/appropriateness or unsoundness/inappropriateness of reference-of-thought. Thus unlike in the instance of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) in a same or different circumstance, is invalidated when dealing with perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect<as-Being-or-ontological-orexistential–defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality-of-affirmative-and-inaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing wherein the superseding (and sound) reference-of-thought can only construe of the superseded (and unsound) as preconverging-or-dementing–apriorising-psychologism/unsoundness-or
temporality/shortness and temporal reference-of-thought and meaningfulness. Critically, the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology implications are utterly different between such a familiar logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ as the latter calls upon de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) in setting up two dialectical reference-of-thought, wherein the one as prior/present/transcended/superseded is preconverging-or-dementing—apriorising-psychologism and the other as prospective/transcending/superseding is postconverging-or-dialectical-thinking—apriorising-psychologism. In other words, ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ is dealing with perversion-and-derived-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (at the uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism) is all about articulating the ‘dialectically-in-phase reference’ (which is relatively sound ontologically/intemporally) over the ‘dialectically-out-of-phase or dialectically-primitive reference’ (which is relatively unsound ontologically/intemporally). In registry-worldview terms of temporal-to-intemporal-dispositions ‘dynamic-cumulative-aftereffect of subontologisation’, this establishes ontological precedence/supersedingness/ascendency. The grander insight and answer to the elusive Derridean conundrum is that the full causality—as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of a ‘Différance-
disambiguation-of-ontologically-veridical—meaningfulness-and-teleology” renders our presencing-as-positivistic meaningful-reference/anchoring-of-meaning/registry/axiomatic-construct/ontological-reference/contending-reference/registry-worldview ‘dialectically-out-of-phase or dialectically-primitive’ as preconverging-or-dementing—apriorising-psychologism to a prospective-as-deprocryptic reference-of-thought, which is ‘dialectically-in-phase’ as postconverging-or-dialectical-thinking—apriorising-psychologism. The latter (as with all relative postconverging-or-dialectical-thinking—apriorising-psychologism references) can only be ‘habituated’ over the former, and so ‘by virtue of its more profound intemporality-potency’ validated by its greater ontological-primemovers-totalitative-framework in the middle to long-run with respect to the dialectically corresponding prior meaningful-reference/anchoring-of-meaning/registry/axiomatic-construct/ontological-reference/contending-reference/registry-worldview. For instance, there is no logical-basis for a positivistic mindset/reference-of-thought to convince a non-positivism/medievalism mindset/reference-of-thought that it reference-of-thought is better but for the fact that its better ontological-primemovers-totalitative-framework will in the middle to long-run be ontologically untenable thus ‘collapsing’ the non-positivism/medievalism mindset/reference-of-thought; and so reflecting ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism’ so-underlining existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-

the relative ascendancy of divergent reference-of-thought (not to be confused with ‘logical-

thus highlighting the notion that it is the veridicality of the prospective reference-of-thought

A further implication is that going by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) that is behind the institutional-cumulation/institutional-recomposure-<as-to- historiality/ontological-eventfulness\textsuperscript{2}/ontological-aesthetic-tracing\textsuperscript{3}> involving the skewing (‘intemporality’/-asymmetric-subsumption-of-temporality\textsuperscript{3}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory–de-mentativity) of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (as human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-

It also points out that the exercise of institutionalisation/intemporalisation is not an exercise of human emanance transformation from temporal-dispositions to intemporal-disposition (as we wrongly imply by intuition) but a registry-worldview’s/dimension’s institutionalisation or secondnaturing exercise, explaining why we are continually the same species from utter-institutionalisation to prospectively deprocrypticism. This point can be demonstrated by the fact that when a prospective/transcending/superseding registry-worldview is institutionalised, our same temporality/shortness as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor will now rather conjugate temporarily as shortness-of-register-of-meaningfulness-and-teleology or perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation (conjugated: postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought–devolving ontological-performance—including-virtue-as-ontology) to the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at the new institutionalisation’s uninstitutionalised-threshold, and thus eliciting the need for prospective intemporalisation/institutionalisation. by institutionalisation with respect to social-stake-contention-or-confliction is always bound to elicit two classes of human mental-dispositions with respect to it whether as a temporal extricatory de-mentating/structuring/paradigming or as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming, and knowledge-notionalisation is grounded on addressing meaningfulness insightfully in these two respects. The veridical insight to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor lies in the fact that the cross-section of humankind at any institutionalisation is institutionalised at its socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation or uninstitutionalised-threshold or threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism; as basically intemporality/longness is a pathway from base-institutionalisation to universalisation to positivism and prospectively notional–deprocrypticism as the fulfilment of ontological-normalcy/postconvergence potency, and any pretence at a positivistic registry-worldview to be non-transcendable (in terms–as-of-axiomatic-construct of ‘‘Différence-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’’) is untenable as the same could be implied at base-institutionalisation and universalisation, which obviously we won’t recognise and acquiesce to, implying the temporal-difficulty of dealing with the transcendental implications in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process often lead to ontological-bad-faith/inauthenticity as human-subpotency–aporia/undecidability/dilemma/ought-

The grander insight being that ‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’ that just induces ‘vain-temporality’ passing for intemporality ’), and just as previous institutionalisations prospered, due to increasing realism, because they did away with deities and spirits in recognising that human potential lies in what humans can do themselves, and strived even more by doing away with essences in recognising that understanding effectively what happens in the world is what gives power and effectiveness over nature, a further extension of rational-realism is to do away with the ‘false feel good’ naivety of construing man by reflex in intemporal terms (not recognising or rather taking full cognisance of the implications that we have temporal-to-intemporal-dispositions as shortness-to-longness-of-register-of—meaningfulness-and-teleology or perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation—> teleologies) which failure only leads to unrealistically grounded reference-of-thought and meaningfulness (characterised by the readiness to overlook vices-and-impediments of our registry-worldview/dimension as side notes rather than the idea that these point to our deficiencies and ‘that these are actually the necessary pathway for superseding/transcending’ for prospective de-mentating/structuring/paradigming, just as preceding registry-worldviews had to deal with their de-mentating/structuring/paradigming that led up to our positivistic registry-worldview) and aspiring for the intemporal while factoring in the temporal. In a further elaboration, there is no pathway for prospective base-institutionalisation without a recognition of recurrence-of-utter-uninstitutionalisation for its superseding, no pathway for prospective universalisation without a recognition of perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation—>,—of-base—

The conceptualisation of ‘knowledge-notionalisation’ is rather based on the fundamental notion of a superseding–oneness-of-ontology with respect to knowledge-and-virtue conceptualisation such that so-construed it is rather a ‘referential-as-natural’ conceptualisation of knowledge that consciously tautologically subsumes temporal-dispositions and intemporal-disposition (as opposed to our present ‘categories-as-artificial’ conceptualisation of knowledge often predisposed to overlook the temporal, and critically so, with respect to understanding the social as of the human condition together with inherent ontological-veridicality in naively assuming the intemporal/longness-of-register-of—meaningfulness-and-teleology by reflex focussed mostly on inherent ontological-veridicality, and whose artificially-demarcated subject-matters and hierarchical relationship with the first-order-ontology/philosophy is by itself a de-mentative/structural/paradigmatic shortcoming with respect to our understanding possibilities, given that our artificial subject-matter categories-schemes do not precede nor define intrinsic-reality as ‘knowledge-in-its-oneness-and-entirety’), and is postconvergent in its ontological-tautologisation/existential-reference conceptualisation of reality in a unison of second-order-ontologies with the first-order-ontology/philosophy wherein second-order subject-matters aren’t discontinuously hollowed out from the first-order-ontology but rather their inter-relational and hierarchical relationship with the first-order-ontology (philosophy) is subsumptive with the latter as
superseding–oneness-of-ontology and the place for elucidating epistemic disagreement (with the practical desire for an appropriate proportion of subject-matter experts directly studying and understanding the first-order-ontology/philosophy elucidations and the possibilities implied for their subject-matters), and as the first-order-ontology/philosophy furthermore is the ‘abstractly inventing conceptualising construct that construes the requisite overhanging knowledge psychical-orientation/psyche’, as the fact is it was a philosophical orientation whether explicit with Descartes’s ‘I think therefore I am’ establishing the positivistic mindset/ reference-of-thought/consciousness-awareness-teleology so excellently, with the later requalification of Hume, Kant and others of that same mindset/ reference-of-thought/consciousness-awareness-teleology and actually ‘in complement to it’ than truly criticisms (which is often philosophically misconstrued, as Descartes’s ‘thinking proposition’ is so profound that it is the very ‘transparent pillar or social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness ⟩ for the tenability of the supposed critiques of rationalism, which are actually in complement to it, by latter philosophers, and it is rather the failure to compare what the ‘thinking proposition’ implies with respect to the prior as the core-medieval mindset/ reference-of-thought/consciousness-awareness-teleology of essences, alchemies and superstition as an altogether different ⟨amplituding/formative–epistemicity⟩totalising–renewing-realisation/re-perception/re-thought of human mindset/ reference-of-thought/consciousness-awareness-teleology, together with the naïve predisposition for categorisation of knowledge in artificial human categories undermining the ‘natural referentialism ontological-normalcy/postconvergence nature of knowledge’ that is at the basis of misapprehending the complementing as criticisms, as in fact these will actually be better construed as Extended Rationalism –rationalism, empiricism, subjectivism, realism, idealism, phenomenology, as the fact is none of the latter claims to be ‘irrational’) or less-

and later essences were being put into question by ‘an increasing realism insight’ of an intrinsic-reality that is ontologically given and in ontological-normalcy/postconvergence with respect to us, with the implication that it is our psyche that ‘gives-in’ to intrinsic-reality and not the other way around. - As central to an overall Suprastructuralism conceptualisation that subsumes all the transcendental concepts highlighted with regards to grasping ontology/ontologically-veridical-meaningfulness/intrinsic-reality, and corresponding perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to ushering in the requisite preempting—disjointedness-as-of-reference-of-thought,—as-to—amplituding/formative–epistemicity>growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism that should define and conceptualise the notional—deprocrypticism registry-worldview/dimension (as the effective attainment of ontological-normalcy), is the idea of a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’. Basically, a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ (in defining individual, summative intradimensional and transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation—meaningfulness reference-of-thought), renders suprastructuralism and associated transcendental concepts comprehensively operant (as well as rendering ontologically-pertinent a storied-construct/ontologically-valid-narration enabling a more profound intuitive elucidation of the
as the given subject-matter in a full-blossoming unison of second-order ontology with first-order ontology. Insightfully, superseding–oneness-of-ontology points out that human ascription of knowledge into various categories as science, humanities, arts, etc. is actually an unnatural differentiation that has to do with arbitrary human categorisation out of practicalities of division of labour and organisation, while equally leading to confusions. Actually knowledge as a whole imply the two basic elements: its conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge conceptualisation and causal effectiveness can successively be construed in three respects; specific, intermediary and general, with all aspects of conceptualisations being notionally philosophical as providing meaningful insights while all aspects of causal effectiveness provide confirmatory and predicative-insights to meaningful insights. (Interesting it is important to note that empiricism speaks of the possibility of knowledge revelation by the inherent nature of the subject-matter and not an abstract approach as often naively construed; with the implication that empiricism can be construed as deriving from a confirmatory analysis of a mere insight, observation or experiment depending on the inherent nature of the said subject-matter, so long as this then allows for ontological-primemovers-totalitative-framework.) Thus notionally speaking all human knowledge is philosophical knowledge as being about meaningful insights. For practicalities, the general basis for establishing conceptual pertinence as of the more general abstract notions of knowledge is attributed to the philosophical disciplines (involving philosophy and the philosophies of subject-matters including sciences, and its extension in the humanities and social sciences) even though in further practical terms such construal will be punctually undertaken as well when relevant to specific disciplines of immediate cause-and-
effect construals/conceptualisations. This equally practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic), the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation –logical-coherence –causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasising or overemphasising doesn’t speak of a change of ontological-veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of ‘meaningfulness-and-teleology’ but naively purported to be answered wholly as of a second-order ontology terms. Broadly speaking philosophy as the first-order ontology (acting as a cog) has been more about providing the overall scope for meaningful insights and the broader conceptual background for other subject-matters while
science and other second-order ontology disciplines (as the wheel that meets the ground) draws on a sound and broad philosophical conceptual background to articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round. The reality is that if science was the best method to answer philosophical questions as of its subject-matter, then it would have already taken over from philosophy as practised and the reverse holds true as well, as in reality it is all about human practical organisation in construing a superseding–oneness-of-ontology while dealing with our given limited-mentation-capacity-deepening. The fact is science is de-mentatively/structurally/paradigmatically bound to construe causal effectiveness as of the inherent nature of its domains of reality and philosophy is fundamentally conceptualising by its very nature and providing the broad conceptual background for all human knowledge with the implication that without such conceptualisation the historical insight for the need and upholding of the sciences and scientific method wouldn’t have come about while equally defining the limits of what science can achieve. Insightfully and beyond their practical differentiations, with all knowledge actually being conceptually philosophical, a lot of science is actually a sort of impromptu and punctual heuristic philosophy at sciences subject-matter level. So it is rather critical here to distinguish between a human denotative and segmenting exercise (as not determining inherent reality) which is conventioned knowledge and the inherent connotation of the reality of knowledge as the superseding knowledge ontology inherent structure. In that sense, one often misconstrued notion with respect to notional philosophy is that it is not as successful as the sciences, which is a naïve conceptualisation as the very idea of such notional philosophy is its conceptualising irrigation of second-order ontology with the more immediate and ontological-primemovers-totalitative-framework success being not only a success of the
second-order ontology but a percolated success of notional philosophy as of its historical development of human conceptualisation in inducing the second-order-ontologies and irrigating them with meaningful-insights, whether we talk about the sciences, jurisprudence and law, ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of philosophy as mainly about great philosophical thinkers is incomplete as we equally need to understand the ‘organic-knowledge’ as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of other thinkers as they were developing second-order ontologies, and analyse such thoughts in philosophical terms and make these part and parcel of philosophy without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and now’.) ‘Notional philosophy’ as articulated above is the very profundity behind the human
'social framework of intersolipsistic deambulation') imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today’s second-order ontologies, as inventing the overall knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human <amplituding-formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical <amplituding-formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of a prospective mindset/reference-of-thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn’t recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-

That is the most important work of all human jobs whether it is done as of institutionally secondnatured construed technical/professional philosophy or not, as secondnatured institutionalisation by itself doesn’t guarantee such a requisite dimensionality-of-sublimating — supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection even though the latter does ensue in any case as of notional philosophy. Such ‘dimensionality-of-sublimating — supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection notional philosophical dispositions’ upholding an opened-construct-of—meaningfulness-and-teleology to enable prospective institutionalisation as assumed by the Socrates, Aristotles, Avicennas, Mansa-Musas, Zheng-Hes, Buddhas, Copernicuses, Galileos, Rousseaux, Diderots, Darwins, etc. as ‘inventing’—‘creating’—‘upholding’—new-intellection—de-mentating/structuring/paradigming—of—societies, are the ‘most social of human acts’ as keeping up by renewing—apriorising/axiomatising/referencing of prospective conflatedness as of ontological-normalcy/postconvergence behind the possibility of prolonging the human existential tale for prospective civilisation, and so not on the same pedestal with ‘nombrilistic presences of registry-worldviews/dimensions in their
totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' as temporal-dispositions’ as wooden-language⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology⟩-as-of—‘nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications⟩) blithe to such retrospective-and-thus-prospective insight by their temporal extricatory de-mentating/structuring/paradigmig in distractive-alignment-to-reference-of-thought-⟨of-apriorising/axiomatising/referencing⟩ as of epistemic-abnormalcy/preconvergence. This is enabled by the tautological/referential/existential-reference nature of intrinsic-reality/ontology/existence allowing for ‘predication or predictive-insight’ and ‘postdication or projective-insights’, the latter very much attached with the arts and aesthetic forms but hardly hitherto associated with the predicting of the former like in scientific constructions, though such postdication-as-predictive can possibly be enabled as ‘metaphysics-of-absence-⟨implicitied-epistemic-veracity-of—nonpresencing-⟨perspective—ontological-normalcy/postconvergence⟩⟩ conceptualisations’ in domains concerned with predication as introduced (besides the ‘projective intemporal-preservation-contiguity/referential analysis’ of this author in this paper taking cognisance of metaphysics-of-absence-⟨implicitied-epistemic-veracity-of—nonpresencing-⟨perspective—ontological-normalcy/postconvergence⟩⟩ as the need to supersede our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage) in the form of conceptualisations based on ‘creative-spaces-of-metaphors’ (or for that matter the jargon as can reasonably be expected of the thoroughness of all inherently analytical subject matter especially in this case by the highly exploratory nature of such analysis, as such writing are not ‘story writings’ nor should the artificial excuse in the case of core post-structural writings like quoting Einstein in saying that good science is associated with beautiful equation as obviously just as $E=MC^2$ is beautiful but the underlying physics is a
head-scratcher one can equally say ‘there is nothing outside the text’ is a beautiful statement but
don’t expect the underlying Derridean deconstruction and implications to be child’s play, nor
should the fact that the meaningfulness of the social ‘being closer to us emotionally’ compared
to the natural sciences that this should preclude its analysis if and when we are temporally
uncomfortable with it, as that is part and parcel of our human development as our forerunners
had taken their responsibilities about that to usher in our positivistic registry-
worldview/dimension and we can’t exclude ourselves from prospective transcendence-and-
sublimity/sublimation/sublimation/supererogatory—de-mentativity), which ultimate knowledge-credential is
not in the ‘metaphors themselves’, as misunderstood by naïve critics, since these are just a
‘conceptualisation detour’ with respect to apprehending a fleeting-perception of reality but
rather ‘as-of-the-implied-or-derived-elucidation’ which is the actual ‘product of ontological
import’, by such thinkers as Deleuze, Guattari, Lacan, Rory, Derrida and others, and so, as
pertinent and as so-validated by ontological-primemovers-totalitative-framework and insight.

Central to such ‘ontological-tautologisation/existential-reference conceptual-scheme’ is the idea
of superseding–oneness-of-ontology, as obviously there can’t be any predication-and-
postdication without a ‘sole ontology’ with a ‘sole intrinsic ontologically-veridical-
meaningfulness’ (otherwise meaningfulness will be chaotic-and-meaningless), not to be
confused with human constantly evasive meaningful grasp of intrinsic-reality/ontology having
to do with our relative-ontological-incompleteness—induced,–‘threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing –apriorising-psychologism’ due to our limited-mentation-capacity-
deepening, with such a conceptual scheme thus enabling aetiologisation/ontological-
escalation. However, with our human limited-mentation-capacity-deepening, we are actually
involved in a ‘developmental notional–teleology of ontology’ construed as coherent shallow
superseding–oneness-of-ontology to coherent deeper superseding–oneness-of-ontology in
preconverging-or-dementing \textsuperscript{1}–apriorising-psychologism ushering in a new present registry-worldview of less relative-ontological-incompleteness \textsuperscript{2}–induced,‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ — preconverging/dementing \textsuperscript{1}–apriorising-psychologism’, as-it-is-thus–‘in-wait’–for–perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation'>,–or-temporal-preservation-as-pseudointemporality\textsuperscript{1}–preservation, which is transcending/superseding as ‘postconverging-or-dialectical-thinking \textsuperscript{1}–apriorising-psychologism’, and at the ‘individuation-level of conceptualisation of knowledge’ construed as predisposed to either hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>' and ‘ontologically-reconstituting (upholding-intemporal-preservation)' as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\textsuperscript{1}–reification\textsuperscript{1}/superseding–oneness-of-ontology by \textsuperscript{5}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{1}—unenframed-conceptualisation of ontology/ontologically-veridical-meaningfulness/intrinsic-reality. Secondly, with respect to the psychological/psychoanalytical basis of meaningfulness representation (placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology\textsuperscript{2}), with regards to the fact that the ‘reflex supplanting–conviction-as-to-profound-supererogation\textsuperscript{6}—postconverging/dialectical-thinking–apriorising-psychologism mental-disposition’ is a ‘purely abstract construct’ of reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9} representation of meaningfulness but then without ‘existential reality validation’ is wrong (particularly beyond the scope of a registry-worldview’s institutionalisation \textsuperscript{3}reference-of-thought where intemporal\textsuperscript{1}//longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9} has been more or less secondnatured, at its uninstitutionalised-threshold \textsuperscript{1} as this fails to reflect the fact that the

<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> conjoining-looping-set-of-narratives interlocutor, being deceptive by their mental-dispositions (recursively with postlogic/psychopathic, progressively with exacerbation/opportunism and regressively with ignorance/affordability). However, we can ascertain the true motive and ontological-veridicality of the 3 types of interlocutors by the ‘trace of their dots as separate narratives’ in revealing their true mental-dispositions and motives, as of the circularity/recurrence/repetition/repeatability as of existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity -reification/superseding–oneness-of-ontology quickly reveals that however coherent and sound each separate narrative of the postlogic/psychopathic/postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> interlocutor or conjugated-postlogic/conjoining-looping-set-of-narratives interlocutor (particularly as recursive and progressive), the ‘perception-together-in-succession or as-a-trace’ of their ‘expressed dots as separate narratives’ reveals ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation that shines the light on the fundamental driver/ontological-primemovers-totalitative-framework of the postlogs/psychopathic and conjugated-postlogism interlocutors as well as the reality of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—orpreconverging/dementing–apriorising-psychologism whereas the same exercise with supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor will show a coherence of the trace-of-dots-as-narratives and actually in the case where a supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism interlocutor is actually the target of such postlogism’slantedness inducing ‘faulty-mentation-procedure-deception-or-urge’ about the latter, that trace-of-dots-as-
narratives from the supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking –apriorising-psychologism and the postlogic/psychopathic and/or conjugated-postlogic interlocutors will reveal the ontological nature of the ‘faulty-mentation-procedure-deception-or-urge’.

The reason why ‘separate dots as separate narratives’ lead to postlogic and conjugated-postlogic faulty-mentation-procedure-deception-or-urge is that their extrapolation is actually an extrapolation of ‘perversion-of-reference-of-thought;<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ of ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness as if supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking –apriorising-psychologism’ whereas retracing of the mental-disposition foregoes elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of separate dots as separate narratives, and thus is existentially involved in construing the reality to the point of revealing ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation in the trace-of-successive-dots-as-(hollow)-narratives that shines the light on the fundamental driver/ontological-primemovers-totalitative-framework of the postlogic and/or conjugated-postlogic interlocutor as well as the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of its narratives. That’s why spatialisation, indirectness and craftiness are critical to postlogic and conjugated-postlogic mental-dispositions so as to evade their prospective interlocutors ‘putting one and one together’ as will arise in an existentially veridical context and so that their interlocutors should rather undertake elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of the purely abstract meaning as seemingly
sound separate dots as separate narratives but which are non-existentially real, rather than existentially trace the successive dots as separate narratives. This is what enables the establishment, as of the circularity/recurrence/repetition/repeatability as of existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology, at the relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’-threshold (as-it-is-thus ‘in-wait’ for ‘perversion-of-reference-of-thought’<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, or-temporal-preservation-as-pseudointemporality-preservation), defining the typical threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism psyche of successive uninstitutionalised-threshold (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existent-unthought> manifestation intradimensionally, and so-construed from the perspective of their corresponding superseding/transcending/prospective institutionalisations) as recurrent-utter-uninstitutionalisation preconverging-or-dementing—psyche, ununiversalisation preconverging-or-dementing—psyche, non-positivism/medievalism preconverging-or-dementing—psyche and our uninstitutionalised-threshold as procrypticism–or–disjointedness-as-of-reference-of-thought preconverging-or-dementing—psyche. This equally reflect how the childhood psychopathy psyche is preconverging-or-dementing—apriorising-psychologismly perceived though at childhood temporal-dispositions-conjugated-postlogism/preconverging-or-dementing—integration to psychopathy is not significant as its perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is still universally transparent as delirious and thus it doesn’t elicit temporal-preservation by conjugated-
postlogism /preconverging-or-dementing -integration, since it is not spatialising, maturating, and being sufficiently indirect, credulous and crafty to be non-transparent by its motives and acts. Ultimately, this highlights generally that at relative-ontological-incompleteness\(^\circ\)-induced,-

regards to postlogism\(^\circ\) and conjugated-postlogic\(^\circ\), it is always about ‘falsely and

parasitically/co-optingly’ staking a claim to the ‘reference-of-thought in order to wrongly elicit
its implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,
assumptions, value-reference and teleology\(^\circ\) to a prospective interlocutor, and so recursively
(psychopathic/postlogic-character), progressively (conjugated-exacerbation and conjugated-
opportunism characters) and regressively (conjugated-ignorance and conjugated-affordability characters). Generally, this insight harkens back to the previous elucidation with regards to the BODMAS characters where the pure arithmetic operation as a deductive/inferring/extrapolation exercise is no longer valid when the fundamental axiom is breached due to a pathological condition, and with the ‘lack of constraining social universal-transparency ~(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) resulting in other temporal characters, beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>, operating arithmetic as if the condition never existed; and thus there is a need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness representation, this further confirms the fact that temporality/shortness (shortness-of-register-of–meaningfulness-and-teleology) and intemporality /longness (longness-of-register-of–meaningfulness-and-teleology) are both basically the same notion of intemporality, but with temporal-dispositions ( ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) being rather in various grades of poor execution of intemporality /longness (longness-of-register-of–meaningfulness-and-teleology) but that in so doing such temporal-dispositions of individuation ‘falsely retaining their teleology /purposefulness’ as if of intemporal-disposition leading to their ‘pseudointemporality’ (and so with respect to their apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), inducing de-mentative/structural/paradigmatic registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-
reference conceptual-scheme’. The notion of temporality/shortness as actually ‘pseudointemporal’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality/shortness is much more than morality as derived from intemporal/longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporalities’ of such individuations induces ‘notional-disjointedness-as-of- reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation (at individuation-level as relative-ontological-incompleteness-induced, -threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism’, as-it-is-thus-‘in-wait’-for- perversion-of-reference-of-thought<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >,—or-temporal-
preservation-as-pseudointemporal—preservation, which when taken into preservation, as temporal-preservation, is rather in pseudointemporal, while with respect to a traditional conceptualisation it is wrongly ‘vaguely imbued with a dispositional-drive-as-teleology’ as
city, as wicked… etc. Now, the consequences of pseudointemporal individuations (postlogism\textsuperscript{-slantedness, postlogism\textsuperscript{2}}-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought- devolving ontological-performance’-<including-virtue-as-ontology>) are reflected developmentally in the social fabric which is a ‘framework of social-stake-contention-or-confliction’ as the transference, in dynamic-cumulative-aftereffect, of such pseudointemporal individuations into ‘individual
personalities dispositions and social dispositions’ induces correspondingly subontologisation in ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation (at individuation-level relative-ontological-incompleteness -induced-, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’— preconverging/dementing –apriorising-psychologism’, as-it-is-thus-‘in-wait’-for- perversion-of reference-of-thought-<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, –or-temporal- preservation-as-pseudointemporality-preservation, on ‘social ontologically-veridical-meaningfulness’ and is the basis, in dynamic-cumulative-aftereffect, of given registry-worldviews/dimensions vices-and-impediments, and how these can be superseded/transcended, because the reality is that humans have transcended retrospectively to the present and there is no particular reason to think that there can’t be prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Such a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ will further highlight in contrast to the present ‘psychology of qualification/qualification-schemes’ that human psychology is actually much more of a becoming dynamic construct, rather than static, which wholly readjusts to human deepening grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective, present and prospective development; that collectively-and-inclusively-individuals-and-their-social-constructs do have latitude for the choices they make in existence more than and beyond the limits of personality traits and social character, and further that the human mind is ‘not irresponsible’ with respect to given personalities dispositions
(whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a ‘psychology of qualifications/qualification-schemes’ induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—an-of-the-human-institutionalisation-process, human secondnaturing is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled ‘an animal in many ways’ to emancipate itself developmentally across epochs such that the ‘insightful depth’ of such a developmental understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as it recognises that (and explains why) the mental-disposition/consciousness-awareness-teleology of a recurrent-utter-institutionalised mindset/reference-of-thought varies from that of a based-institutionalised/ununiversalised mindset, the latter from that of a universalised/non-positivistic-or-medieval mindset, the latter from that of a positivistic/procrypticism mindset/reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional--deprocrypticism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein de-mentation- (supererogatory—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-
attributive-dialectics) is the central concept for such a succession of human ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ renewal retrospectively, presently and prospectively, with ontological-normalcy/postconvergence teleology being the central determinant driving and defining human psychology construed by its metaphysics-of-absence-{implicated-epistemic-veracity-of-\textless nonpresencing—\langle perspective–ontological-normalcy/postconvergence\rangle} as diminishing–human-epistemic-abnormalcy/diminishing–preconvergence. Interestingly, psycho-ontological-tautologisation/psycho-existential-reference as a human disposition for correspondence/equalisation/squaring-off with existence/intrinsic-reality/ontology, as of subpotency-to-full-potency as qualified by recomposuring from shallow limited-mentation-capacity-{as of relative constitutedness } to deeper limited-mentation-capacity-{as of relative conflation }, speaks of the mind as an abstract ‘teleologically imbricated tautologisation/existential-reference’ (‘teleologically imbricated tautologisation/existential-reference’ implying: striving for ontological-normalcy/postconvergence, in-lockstep/intertwining of success-and-pseudosuccess/failure as institutionalisation-and-pseudo-institutionalisation/uninstitutionalised-threshold\textsuperscript{\textendash}), as the teleological driving-seat of the body validating dualism as ‘imbricated dualism’; the human mind being rather ‘an abstract imbricated transcendable/maximalisable placeholder-setup-of-tautologisation/placeholder-setup-of-existential-reference for prospective ontological-normalcy/postconvergence superseding the human body, as entailing human existence’. This points out that the potency for ontological-normalcy/postconvergence is tautologically inherent in our being construct, and that abstract tautologisation/existential-reference as human teleology\textsuperscript{\textendash}is the mind as ‘human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-}

implying existence—in—existence which is nothing but ‘virtuality—or—Being—construal as abstract-
construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ (wherein the disposition to ‘constitute/abstract/extrapolate/deduce/infer essence-of-meaning is wrongly preceding/defining or even superseding existential reality’ rather than the Sartrean reality of ‘existence or existential reality preceding/defining essence’), so actually ‘existence is rather a contextualising-contiguity of existence-potency~sublimating~nascence,~disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality that supersedes the elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’", when so-construed from our ‘limited-mentation-capacity as of our relative-ontological-incompleteness-induced,~‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing—apriorising-psychologism”. existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context as to existence-potency~sublimating~nascence,~disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality in sync with existence ‘speaks of threaded-or-intertwined subsumed referencing of all in existence’ beyond just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity", thus validating philosophically such approaches in physics as string-theory concepts lending support to the string phenomenology approach. This conceptually implies that the ‘all-in-one/oneness’ (of ontology) implied of existence supersedes our elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity conceptualisations, and while these are ‘mental tools of analysis’ we have in grasping knowledge, as elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\[10\] these are rather ‘sub-par to the full grasp of existential reality’ (given that our limited-mentation-capacity-deepening\[2\] as of our relative-ontological-incompleteness\[10\]-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ —preconverging/dementing\[10\]—apriorising-psychologism’, will often fail to reference the underlying being-construal/existential-reference/existential-tautologisation ‘for a contextualising-contiguity of existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality that syncs with existential reality’. For instance say in the case of the BODMAS characters highlighted before, where the other characters ignore the given pathological condition in simply operating arithmetic rules, however, the inherence of existential reality will not be superseded simply by such elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\[10\] of arithmetic rules in protraction as ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’, as such arithmetic rules of extrapolating/constituting/abstracting/deducing/inferring will have to be adjusted-in-a-‘threadedness/imbricatedness/recomposuring’ like subtracting 1 to A’s results to sync with the existential reality implications of A’s pathological condition of wrongly adding 1 to the correct result of arithmetic operations), and as metaphysics-of-presence--\{implicited-‘nondescript/ignorable–void’–as-to–‘presencing—absolutising-identitive-constitutedness\} (i.e. ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ ) metaphysics-of-absence--\{implicited-epistemic-veracity-of-‘nonpresencing-<perspective–ontological-normalcy/postconvergence>\} is rather the ontological-normalcy/postconvergence correction-tool of postdication, as-of projective-insights
for predication, which is equally construed as ontological-reconstituting—as-to-conflatedness /deconstruction (i.e. implying ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s—of—reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’). This is more of a simplistic though conceptually correct demonstration, and the implications to meaningfulness can be much more elaborate and as explained further below, with the notion of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as ontologically-veridical only as abstract-construal (such as the abstract arithmetic operations) but its wrong ontological derivation in lieu of being-construal/existential-reference/existential-tautologisation is ontologically wrong/non-veridical as it leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ (wherein the elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity in protraction of the abstract arithmetic operations wrongly overlooks existential-reality as of being-construal/existential-reference/existential-tautologisation given by the existential pathological condition), instead of ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s—of—reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-
ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ as the ontological-veridicality of being-construal/existential-reference/existential-tautologisation (which in the face of the ‘existential pathological condition’ as being-construal/existential-reference/existential-tautologisation upholds existential-reality by way of imbricatedness/threadedness/recomposing by subtracting 1 from A’s result to existentially account for its pathological condition). It is thus not a coincidence that a Deleuzian approach and string phenomenology approaches intuitively develop the same insight about the need for ‘creative-spaces-of-expression/metaphors’ to be able to conceptualise by projective-insights on topics that critically highlight this more fundamental nature of existential reality as a contextualising-contiguity of existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality so-construed from the perspective of our limited-mentation-capacity-deepening as of our relative-ontological-incompleteness -induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing —apriorising-psychologism’, in order to avoid elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity inducing ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. It is important to grasp here that elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity are not ontologically wrong concepts in themselves as of abstract-construal but are ontologically wrong when implied in lieu of being-construal/existential-reference/existential-tautologisation as this leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existent-refernece’. Philosophically, this critically brings up the reality of how the ontological-veridicality of an ‘abstract-construal’
imbricatedness/threadedness/recomposuring gets deeper the deeper the being-
construal/existential-reference/existential-tautologisation. The elaboration-as-mere-

Critically important to grasp is that the notion of reference-of-thought is rather a ‘being-contrual’/existential-reference/existential-tautologisation that implies ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect’, and should not mistakenly be confused with the notion of an abstract-construal since this is ontologically non-veridical as it will lead to virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference; as reference-of-thought as being-construal/existential-reference/existential-tautologisation makes reference to the comprehensive implications existentially with respect to mental-dispositions along the apriorising—registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, and involving the potency of both consciousness-awareness-teleology’s representations and implications, for instance, the difference of the reference-of-thought as an alchemist and a chemist is much more than just an on-occasion/incidental difference (difference in abstract-construal) with respect to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of meaning but carries derived being-construal/existential-reference/existential-tautologisation differences with respect to their consciousness-awareness-
teleologies and registry-worldviews/dimensions causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. In fact, ontological-reconstituting–as-to-conflatedness /deconstruction which always refers rather to the issue of reference-of-thought is actually of ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’ s-reifying/elucidating-of-prospective-relative-ontological-completeness’s–reference-of-thought–devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect’ nature and it is about implying a prospective reference-of-thought, rather than just a différance (differentiation) as within the same prior/given reference-of-thought as of a basic abstract-construal. This is one of the reasons for its misapprehension as it implies an overall change in the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’ into question, contrary to the traditional analytical expectation of selective-or-limited critique/contestation usually of a non-transcendental nature. Insightfully, the overall relation of deconstruction as ontological-reconstituting–as-to-conflatedness to the existential framework of ontological-veridicality should further allay the confusion. Deconstruction is actually tautological with respect to intrinsic reality/ontological-veridicality because it is always about the same existential reality being dealt with by improving human limited-mentation-capacity-deepening as shallow–limited-mentation-capacity to deeper–limited-mentation-capacity ontological-reconstituting–as-to-conflatedness; generating differing consciousness-awareness-teleology outcomes of the same existential reality whether talking of deconstruction at the registry-worldview/dimension or intradimensional level or individuation-level. Since it is always about the same existential reality, in effect the readjustment for intrinsic-

exercise construed as of ‘presencing—absolutising-identitive-constitutedness’ or more consummately as conflation\[1\]/conflatedness\[2\]. This presencing—absolutising-identitive-constitutedness\[3\] and conflatedness\[4\] compensation mechanism, given our limited-mentation-capacity for the construal/conceptualisation of intrinsic-reality/ontological-veridicality/ontology, equally clarifies why maximalising-recomposuring-for-relative-ontological-completeness\[5\]—unenframed-conceptualisation (as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) takes precedence over elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\[6\] (as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality). With regards to logic and by extension mathematics, this equally points out that logic as well as mathematics (and for that matter all other knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue like time, space, virtue, historiality/ontological-eventfulness/ontological-aesthetic-tracing, instantaneity, cogency, methodology, etc.) are abstract constructs that underscore the underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\[7\] as of ontological-prime movers-totalitative-framework\[8\] <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\[9\] and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation by ‘presencing—absolutising-identitive-constitutedness’ or conflatedness ‘intuitively-assign projected-and-
human). Thus implying that ontology-as-of-existence is ‘potently-and-cogently superseding’ and knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue are subsumed derivations as of the superseding conflatedness of ontological/existential-implications; with such ontological/existential-implications construed operantly as of a given deepening/shallow level of human limited-mentation-capacity as human-subpotency existential-extrication-as-of-existent-unthought, construed rather as of the implied given registry-worldview’s/dimension’s reference-of-thought (given consciousness’s neuterising-induced-or-deneuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, thus reflecting the registry-worldview’s/dimension’s reference-of-thought ontological-performance—including-virtue-as-ontology as of its historiality/ontological-eventfulness/ontological-aesthetic-tracing as so-analysed as from notional–deprocrypticism! (It is important in this regard to distinguish what is implied by ‘incidenting’ not to be confused with ‘instantiation’, as incidenting implies an ‘abstract construction’ of the implication of logic or any ‘knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’ that may or may not be of existential-instantiation, whereas instantiation refers actually to ‘actual existential instance’. It is critical to uphold this distinction with respect to the existentially contingent nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all ‘intersolipsistic-intercessory-notions/notional–referential-notions’/knowledge including our grasp of logic or mathematics. As ‘abstractly-speaking’ there is no absolute certitude that in say a million years from now ‘a given as of yet unelucidated notion’, as a further
imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the
‘existential-instantiations’ validity of knowledge-constructs/theories/intersolipsistic-
intercessory-notions/notional~referential-notions/articulations/virtue including logic and
mathematics as we know of them today. Such distinction as of more immediate concern is to
point out the subsuming precedence of existence as of its inherent intrinsicness beyond-and-
over human construal/conceptualisation of ‘meaningfulness-and-teleology’ about it as at best
the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation
of existence’; noting here as well for coherence sake that such a statement cannot be made
about existence itself as the absolute a priori, simply because any arising existential-
instantiations no matter the strangeness or abnormality to what is traditionally thought or
expected however imbricated/threaded/recomposured or unimbricated/unthreaded/unrecomposured is of the inherently valid scope of existence itself as
of its superseding–oneness-of-ontology and precedence, thus meaningful.) Logic and
mathematics (and any such knowledge-constructs/theories/intersolipsistic-intercessory-

The latter at best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-study where the positive or negative sanctioning by ontological-primemovers-totalitative-framework of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is not immediately perceptible but rather remote like in the human sciences and to some extent as well with some studies in the natural sciences (where for instance the overall cogency of the whole experimental framework relative to the conclusions advanced of many a research study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or statistical methodological analysis was to be introduced with regards to the underlying articulation herein and based say on an ‘arbitrary historicality/ontological-eventfulness’/ontological-aesthetic-tracing grounded methodology on
the basis of just vague impression’ it will rather be conceptual patterning. What is required is an underlying 
reference-of-thought–categorical-imperatives/axioms/registry-teleology”,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology (as implied by this author herein, as of ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>}); Doppler-thinking as it elicits human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity ’). The contention being that studies and research that do not develop their conceptual formulations validly and succinctly as the underlying framework of the <amplituding/formative–epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but simply expect to dangle/associate methodologies including statistical and mathematical analyses are rather involved in vague conceptual patterning as of reference-of-though constitutedness”. This insight is critical with respect to the validity of interpretations and conclusions in many experimental and study frameworks in the social sciences often ‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’ to which the implications of statistical and mathematical methodologies and analyses are naively brought to bear. This further speaks in the bigger scheme of things, of the need for the articulation of what will be a ‘fully intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity constraining social science’ as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview psychologism should fully enable (rather as an

This ‘aetiologisation/ontological-escalation storied-construct/ontologically-valid-narration conceptualisation’ can be extended ‘correspondingly as of positivism, universalisation and base-institutionalisation imbricatedness/threadedness/recomposuring referential-depth-or-existential-reference-or-

The fact is all constructs as transcending or implying transcendence-and-sublimity/sublimation/supererogatory—de-mentativity are always by definition in confliction with the constructs being transcended. The reason is rather straightforward as there is a ‘mental/psychoanalytic investment’ behind the construal of meaningfulness in a given way within a registry-worldview’s/dimension’s reference-of-thought defining its ontological-capacity with respect to inherent intrinsic-reality/superseding—oneness-of-ontology. A registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect> on the other hand having to do with defect of reference-of-thought needs a more fundamental transformation as a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the reference-of-thought, and so a decentering of meaningfulness; the <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity being more like what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”—preconverging/dementing—apriorising-psychologism’ is in a state of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism perversions—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting—conviction-as-to-profound-supererogation”—postconverging/dialectical-thinking—apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further
its conjugated-postlogism\(^7\) at the uninstitutionalised-threshold\(^2\) of positivism–procrypticism as well as providing a revealing overall understanding of the human uninstitutionalised-threshold\(^5\)-by-ontological-contiguity —of-the-human-institutionalisation-process\(^7\) with notional–deprocrypticism prospective institutionalisation\(^4\) <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity\(^6\), which are then the-entire-reconceptualised-problem as of aetiologisation/ontological-escalation’ as the prospective relative-ontological-completeness\(^1\)-of-reference-of-thought; just as an apple falling on Newton’s head under a tree is simply ‘pointing to an altogether deeper underlying human non-positivistic relative-ontological-incompleteness\(^5\)-of-reference-of-thought issue which is then the-entire-reconceptualised-problem as of the aetiologisation/ontological-escalation in producing the science/laws of physics and equally inspiring other such similar positivistic ontological-primemovers-totalitative-framework\(^7\) approaches in human conceptualising of the natural world as the prospective relative-ontological-completeness -of-reference-of-thought. Hence contrary to what we may think from our <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective the mere fact of relative-ontological-incompleteness\(^5\)-of-reference-of-thought is de-mentatively/structurally/paradigmatically associated with a perversion-or-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > by the very inherent nature of ontology/intrinsic-reality as preceding/superseding our \(^1\) reference-of-thought conceptualisation as of its shallow limited-mentation-capacity such that where our \(^1\) reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance \(^<\)including-virtue-as-ontology\(^>\) of \(^1\) reference-of-thought conceptualisation’ is deficient we are in perversion-or-derived-perversion at that threshold, wherein the threshold defect \(^1\) reference-of-thought/de-

discordance, construed as the paradox of transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity’. In other words, if the former had a grasp
of its state ‘as to its prior relative-ontological-incompleteness-of-reference-of-thought’ with the
transcendental de-mentative/structural/paradigmatic causality-as-to-projective-totalitativé-implications,-for-explicating-ontological-
contiguity arising thereof it would have paradoxically transcended, thus explaining the
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of a
crossgenerational exercise and why such implied transcendental meaningfulness-and-
teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in
terms of the prior reference-of-thought. This further explains ‘the socially conflicted nature of
all implied transcendental constructs’ whether with prophesying metaphysico-theological
constructs of early times reflected in non-universal and universal creeds up to our
metaphysico-ontological worldviews implied transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity, and so as of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
temporal-to-intemporal-dispositions–existentialism-form-factor; but then humankind has
always been called upon to show itself capable of surperseding/surpassément for prospective
possibilities to avail. This is exactly what underlies the notion of de-mentation–
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) in that relative-ontological-incompleteness-of-reference-of-thought ‘is
not a logical issue/problem’ but ‘a Being/existential/ontological/axiomatic-construct problem’
with its de-mentative/structural/paradigmatic implied vices-and-impediments, as it is rather
an issue of uninstitutionalised-threshold as of recurrent-utter-uninstitutionalisation
uninstitutionalisation requiring base-institutionalisation institutionalisation, ununiversalisation
eventfulness ontological-aesthetic-tracing towards prospective notional-deprocrypticism’. Thus this further explains the very thorny difficulty of dealing with psychopathy and social psychopathy, because more than just an individuation phenotype and incidental/on-occasion phenomenon, it speaks of a registry-worldview’s/dimension’s our dimension, relative-ontological-incompleteness-induced, threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-superegression—preconverging/dementing—apriorising-psychologism as procrypticism—or-disjointedness-as-of reference-of-thought in endemising/enculturating it, thus in need of notional-deprocrypticism as preempting—disjointedness-as-of reference-of-thought as an overall de-mentative/structural/paradigmatic resolution to the vices-and-impediments of our positivism-procrypticism registry-worldview/dimension. That is, with acts of perversion-and-derived—perversion-of reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-superegression > ‘it is vague to consider just arriving at ontological-veridicality/intrinsic-reality construal of such acts as of the paradox of their universally implied prior relative-ontological-incompleteness—of—reference-of-thought’ with the latter by itself becoming the grander problematic, more like the relative non-positivism/medievalism relative-ontological-incompleteness—of—reference-of-thought itself is the grander problematic with respect to the endemisation/enculturation of notions-and-accusations-of-sorcery acts/occurrences, and so more than just an act or acts of notions-and-accusations-of-sorcery construed as perversion-and-derived—perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-superegression>, as revealing of the grander framework of vices-and-impediments inherent to the relative non-positivism/medievalism relative-ontological-incompleteness—of—reference-of-thought. Rather it is about articulating the ontological-completeness-of-reference-of-thought as ‘Being correction’ as of base-institutionalisation institutionalisation over recurrent-utter-uninstitutionalisation uninstitutionalisation,
universalisation institutionalisation over ununiversalisation uninstitutionalisation, positivism institutionalisation over non-positivism/medievalism uninstitutionalisation, and prospectively notional–deprocrypticism institutionalisation over our procrypticism uninstitutionalisation. Obviously a traditional approach of analysis of psychopathy (as so construed from this papers totalising-entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery were individuals will equally be wary of non-positivism/medievalism perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and will equally be inclined to palliation regarding notions-and-accusations-of-sorcery depending on circumstances; though obviously the ontologically de-mentative/structural/paradigmatic resolution in both instances is with respect to the necessary ontological-completeness-of-reference-of-thought in overcoming totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by prior/transcended/superseded non-positivistic or procryptic categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with prospective/transcending/superseding positivistic or notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. So perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> has always been recurrent in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process because institutionalisation is not
emanance transformation of temporal-dispositions as shortness-of-register-of-
meaningfulness-and-teleology\(^9\) into the intemporal-disposition as longness-of-register-of-
meaningfulness-and-teleology\(^9\) but designed to skew (‘intemporality’-asymmetric-
subsumption-of-temporality\(^9\)’, for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity) towards the intemporal-
disposition, such that where institutionalisation reaches its design limits given human limited-
mentation-capacity-deepening , the possibility for pversion-of- reference-of-thought-<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

uninstitutionalised-threshold \(^2\) in want for prospective institutionalisation as the ontologically-
veridical de-mentative/structural/paradigmatic resolution. When that insight avails (a Derridean

The disambiguation of transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing into a ‘supratransversality—apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology’ over a ‘subtransversality—apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology’ can equally be understood by comparison with the notion of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as ‘reference-of-thought of meaningfulness-and-teleology’, as there can’t be common reference-of-thought of contention (mutually intelligible aposteriorising/logicising/deriving/intelligising/measuring as mutually intelligible ‘meaningfulness-and-teleology’) between a flawed apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument (subtransversality—apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology, as preconverging-or-dementing–apriorising-psychologism from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) and a correctly functioning apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument (supratransversality—apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology, as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’ from ontological-normalcy/postconvergence epistemic/notional–projective-perspective). It is the idea of the ontological-primemovers-totalitative-framework of the latter over the former that will existentially/ontologically impose the latter, and not common/mutual logical-processing as logic is then ‘a lower, inappropriate and inherently defective level of
meaningfulness-and-teleology processing’ in relation to ‘appropriateness-of-reference-of-thought-as-of-conflatedness processing’ (just as there can’t be logical intelligibility between a non-positivistic/medieval mindset/reference-of-thought of ‘meaningfulness-and-teleology’ with a positivistic one); by its ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining as the correct apriorising/axiomatising/referencing/intelligence/setup/measuring instrument functioning (the appropriateness-of-reference-of-thought-as-of-conflatedness) in the middle to long run construed as of de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). This process can be qualified as the ‘blunt act of existence over the human temporal egotistic/self-referential complex to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/superseding ontological-veridicality/intrinsic-reality/reference-of-thought’, and is the actual basis for all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective institutionalisations since the successive institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing do not arise because of the reality of a ‘human intemporal-emanance philosophical acquiescence’ but rather by ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of existential reality as a constraint for the secondnaturings of institutionalisation, without transforming the underlying reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor individuations. That is while the implied aposteriorising/logicising/deriving/intelligence/measure—purpose—of-obtained-measurements (implied ‘meaningfulness-and-teleology’) imply speaking the same language but the existential/ontological/being realities are utterly different with the correct apriorising/axiomatising/referencing/intelligence/setup/measuring instrument—producing-
measurements (supratransversality—apriorising/axiomatising/referencing) being real and the
defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (being
unreal as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation—preconverging/dementing—apriorising-psychologism), without mutual
intelligibility of logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation but for the effectiveness/ontological-primemovers-
totalitative-framework of the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements (supratransversality—apriorising/axiomatising/referencing) appropriateness-of-
reference-of-thought-as-of-conflatedness that collapses the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (subtransversality—apriorising/axiomatising/referencing) perversion-of reference-of-
thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation>, as of the consequences in a comparative use of both apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument after a while (crossgenerationally). Thus issues of defect of reference-of-thought (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect issues) cannot be resolved by mutually intelligible logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (mutually intelligible measuring), but rather by the superseding supratransversality—apriorising/axiomatising/referencing reference-of-thought (as-of correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) in intemporal/longness projection for aetiologisation/ontological-escalation over
the subtransversality—apriorising/axiomatising/referencing reference-of-thought (as-of
defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) of
temporal extricatory de-mentating/structuring/paradigming incidental construal in wrong equivalence to the supratransversality—apriorising/axiomatising/referencing reference-of-thought. This equally validates the notion of transversality-of-affirmative-and-unaffirmative-disambiguated motif-and-apriorising/axiomatising/referencing as logical-incongruence of appropriateness-of-reference-of-thought-as-of-conflatedness and perversion-and-derived-perversion-of-reference-of-thought as effectively apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. This is de-mentatively/structurally/paradigmatically the most elevated construct for the production of human knowledge as transcendental knowledge and as implied in its dissemination along formal constructs based on a de-mentating/structuring/paradigming for skewing (intemporality-asymmetric-subsumption-of-temporality, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) towards intemporality, and not wrongly averaging of human thought in equivalence as logical-congruence of temporality/shortness and intempolity/longness-of-meaningfulness, such that knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as to ‘intrinsic-reality/ontological-veridicality transcendental enabling’ that allows what is intemporal as of mental-disposition to be effective by ontological-primemovers-totalitative-framework as of ontological and virtue constructs, and be imposed as knowledge. Thus it is critical to understand that the exercise of reconstituting ontological veridicality is a wholly maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-

This fundamental structure of the denaturing nature of postlogism and conjugated-postlogism/preconverging-or-dementing-integration can be demonstrated with the blatantly obvious case of the childhood-psychopath even though the denaturing of its mental-disposition is relatively socially-universally-transparent (enabling an understanding-of-ontological-primemovers-totalitative-framework-of-the-underlying-phenomenon). In the case were in a ‘dereifying act’ water is spilled on a chair, and a visiting stranger (as-of-pseudointemporality by ignorance) not aware of the mental-disposition of the childhood-psychopath coming into the scene after the event and sitting unknowingly on the soaked sofa, and was to frown and remonstrate against or possibly smack the innocent brother, such a stranger is in ignorance-conjugated-postlogism or conjugated-ignorance as its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ — preconverging/dementing—apriorising-psychologism—led it to align in-prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologismly (as-of-pseudointemporality) to the childhood-psychopath’s postlogic
narrative, and so in ‘ignorance-temporal-preservation-as-pseudointemporality-preservation’, that it was the brother that spilled the water on the chair on purpose (noting that even at this level, for all practical purpose the visiting stranger’s meaningfulness is ‘supposedly in prelogism-as-of-conviction-as-to-profound-supererogation (as-of-pseudointemporality)’ but is rather effectively ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ with respect to the ‘denaturing postlogic-backtracking-<iterative-looping-set-of-dereifying-hollow-narratives-and-acts>-with-successive-shifting-of-the-narratives-and-acts-foci-construed-as-deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercorogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase, of the childhood-psychopath’s meaningfulness is effectively in conjugated-postlogism and has ‘joined the childhood-psychopath in threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism and is preconverging-or-dementing—apriorising-psychologism and dialectically-out-of-phase’ with respect to ontologically-veridical existential-reality as construed from ontological-normalcy/postconvergence, and further it state of ignorance speaks of its relative-ontological-incompleteness-induced—‘threshold-of-—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ as procrypticism—or-disjointedness-as-of-reference-of-thought which can’t be overlooked for aetiologisation/ontological-escalation conceptualisation by the fact that the visiting stranger or more precisely an individuation of the type expressed by the visiting stranger (as-of-pseudointemporality by ignorance) might act the same way he acted in ‘metaphorically-a-million-and-one-instances-and-locales’ as aetiologisation/ontological-escalation, and this particular example symbolises why virtue is a ‘The-Good/understanding/knowledge-
reification\textsuperscript{30}"ontological-primemovers-totalitative-framework\textsuperscript{31} construct' and not 'impression-driven/good-naturedness/wishfulness construct' as reality is above all 'effectivity' by its manifestation. But then given the relative social\textsuperscript{72}universal-transparency\textsuperscript{73}-(transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness \textsuperscript{87}) at this childhood stage, it is more likely that the whole situation will be explained to the visiting stranger (as-of-pseudointemporality\textsuperscript{51}) and will assume mostly an incidental/on-occasion conjugated-postlogism\textsuperscript{77} effect in the contingent social space. The fact is at this childhood stage conjugated-postlogism\textsuperscript{77} will tend to be incidental and mostly arise as ignorance-conjugated-postlogism\textsuperscript{77}. (Such a construal can further be articulated not only in the case of ignorance as ignorance-conjugated-postlogism\textsuperscript{77} but equally as the child-psychopath develops into adulthood and is less and less socially-dysfuntional and social\textsuperscript{11}universal-transparency\textsuperscript{76}-(transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness \textsuperscript{87}) of the postlogism\textsuperscript{77} is lost socially with its maturation/spatialisation/indirectness/credulity/craftiness, giving rise to the conjugated-postlogism\textsuperscript{77} cases of conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation by temporal-dispositions where the effect is ‘more than just benign and incidental/on-occasional with dramatic social consequences and as there is further eliciting of enculturated postlogism\textsuperscript{77} as social psychopathy, however ad-hoc and opportunistic’. uninstitutionalised-threshold at institutionalisations’ uninstitutionalised-threshold. Basically, from a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation insight, the supratransversality—apriorising/axiomatising/referencing contends about the perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of the subtransversality—apriorising/axiomatising/referencing which is in protracted-pseudointemporality; more like a deprocrypticism, positivism, universalisation or base-institutionalisation supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) contending correspondingly about the perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of the procrypticism, non-positivism/medievalism, ununiversalisation or recurrent-utter-uninstitutionalisation subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality). The implication here is that from a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, just as a positivistic supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) will imply a deeper intellectual-and-moral ontological construct (in a projection of a positivistic worldview where the mental-dispositions and conventioning in a non-positivism/medievalism setup are construed as prospectively questionable) of non-equivalence over that projected by a non-positivism/medievalism subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality) as a ‘distractive looping-alignment-of-narratives’ in distraction to the former, with the positivistic supratransversality—apriorising/axiomatising/referencing rather a maximalising/transcendental firmament for obtruding the subtransversality—apriorising/axiomatising/referencing as of its ‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

Such a supratransversality—apriorising/axiomatising/referencing over subtransversality—apriorising/axiomatising/referencing insight can transcendentally be grasped in the archetype characters of say a Socrates or Rousseau. Wherein within their respective registry-worldviews/dimensions setups, their maximalising/transcendental mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning—as ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation — preconverging/dementing”’—apriorising-psychologism ‘reference-of-thought’ in shallowness—

This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporal /longness but for the disposition for maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Hence such intemporality /longness as maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation needs its formative–epistemicity totalising–renewing-realisation/re-perception/re-thought in inducing
secondnatured institutionalisation given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations as to the-ontological-contiguity—is ‘not a human emanance/seeding/incipient—transformation-as-to-Derridean-messianicity—wherein-even-when-the-messiah-as-intemporal-drive-comes-they-still-have-to-come of temporal-dispositions/shortness-of-register-of—meaningfulness-and-teleology into the intemporal-disposition/longness-of-register-of—meaningfulness-and-teleology (not about firstnaturedness of human dimensionality-of-sublimating—<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) but rather is solely a positive-opportunism secondnaturing to supersede the uninstitutionalised-threshold divulged as to its relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’. The implication is that acting as-of-a—‘secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought’ for the requisite prospective unenframed-conceptualisation, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not ‘intemporal as of—universal-and-abstractive originariness—parrhesia,—as—spontaneity-of-aestheticisation nature’ but is rather in ‘<amplituding/formative—epistemicity>totalising—self-referencing—syncretising’ illusion-of-the-present/present-consciousness/mirage as metaphysics-of—presence—{implicated—‘nondescript/ignorable—void ’—as—to—presencing—absolutising—identitive—constitutedness}. Thus institutionalisation secondnaturedness is challenged by its very own level of relative-
ontological-incompleteness\textsuperscript{88}-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{10}—preconverging/dementing – apriorising-psychologism’ marking its uninstitutionalised-threshold \textsuperscript{22} whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism and procrypticism in need for a renewed institutionalisation respectively as base-institutionalisation, \textsuperscript{10} universalisation, positivism and prospectively deprocrypticism. Thus it is generally not surprising that the transcendental firstorderontologyontologicalconstrual by an ascetic intemporalprioritisingmaximalisingrecomposuringforrelativeontologicalcompleteness —unenframedconceptualisation Socrates will be passed by the ordinarinessearthliness of thought in that institutionalisedbeingandcraft setup as vague while upholding its shallow notion of value with the true worth and value of such implied transcendenceandsublimitysublimationsupererogatoryde mentativity grasped, at least expediently, mostly in the prospective institutionalisedbeingandcraft setup it ushers, the same

But then mental-dispositions that come to intemporal notions by expediency cannot truly have the pretence of engaging such on the basis of shallow temporal extricatory de-mentating/structuring/paradigming as of institutionalised-being-and-craft setup whose temporal-dispositions terms are alien to the intemporal disposition required for transcendental/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation first-order-ontology/ontological-construal required for ‘creating/inventing’ the prospective institutionalised-being-and-craft setup! That failed test of understanding the transcendental/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation not in a prospective appreciation, but rather possibly as of retrospective appreciation and expediency, speaks of the social-construct as more of a secondnatured institutionalised-construct rather than an intemporal-disposition construal, and therefore assertive pretences that naively imply the latter should necessarily be suspect of their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing —apriorising-psychologism without the corresponding demonstration of the requisite salient philosophical insight of intemporal/ontological/social/species/universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation de-
mentating/structuring/paradigming (that goes beyond subontologisation as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect); and the fundamental issue that will then arise in that instance is one of ‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism, and that is paradoxically our virtue, not a wrong or false idealism (which metaphorically ends up hiding things under the table beyond the analysis required for their understanding and resolution)! It equally speaks of the ‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters (or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least afford to be of normal trade, as it starts with a commitment of the mind (rather like modern day religion) rather than just a normal craft, and further requiring the central quality of transcendentally-enabling-level-of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism of thought, postures and teleology above anything else (not even the value of institutional recognition as Socrates, Rousseau, Sartre and others intuitively understood, necessarily so, since it is what is of a priori definition and can’t be compromised in institutional-constructs-and-setups)! The blunt fact here is that, with respect to social-stake-contention-or-confliction within a given registry-worldview, the everyday wooden-language- (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable-void 'with-regards-to-prospective-apriorising-implications') or banality-of-thought doesn’t necessarily as of

Inevitably an aetiologisation/ontological-escalation construct is rather about intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming which is necessarily antipodal to the everyday temporal extricatory de-mentating/structuring/paradigming mental-disposition, ontologically justifying ‘subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities)/suprastraversality ‘point-of-departure-of-construal of reference-of-thought technique of distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>’ given its applicative pertinence and validation to the ontologically-veridical but counterintuitive notion of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism underlying all uninstitutionalised-threshold, and so beyond their consciousness-awareness-teleologies; with the implication that (from a ‘maximising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation ontological-normalcy/postconvergence epistemic/notional-projective-perspective) the subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities) is ‘unprofound’—or-of-a-non-transcendental/extricatory/impostoring disjointing/disparateness/disentailing-of-narratives-implied-intellectual-and-moral-disposition while the supratransversality—apriorising/axiomatising/referencing (as-of-non-

We would possibly appreciate this argument from a retrospective insight of how the retrospective institutionalisations came about to the present, but it will certainly be alienating to think the same of our present in those transcended terms from a prospective transcending reference, even though the ontological insight points in that direction. This ‘subtransversality-by-supratransversality technique of transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing’ is further rendered operant as the teleological structure of the storied-construct/ontologically-valid-narration aetiolisation/ontological-escalation based on the underlying principle involved in the example of the visiting stranger (as-of-pseudointemporality) or generally the BODMAS characters. This underlying principle is one of ‘decentering’ wherein apparently the visiting stranger (as-of-pseudointemporality) was of ‘sound registry-(reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought)’ in its circumstantial/existential relationship with meaningfulness but it turned out that its ‘ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance-so-construed-by-prospective-reference-of-thought’ (as lacking notional-deprocrypticism from an ontological-normalcy/postconvergence epistemic/notional-projective-perspective) arising from its ‘procrypticism-or-disjointedness-as-of-reference-of-thought (as social universal-transparency)-(transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-epistemicity>totalising-in-relative-ontological-completeness) about the child-psychopath’s postlogism wasn’t available to it) implied an existential-reality of imbricatedness/threadedness/recomposuring that ‘decentered’ (by maximalising-recomposing-for-relative-ontological-completeness)—unenframed-conceptualisation) its meaningfulness as of threshold-of-

Thematically (with regards to ‘associated-themes-and-social-contexts’/thematic) psychopathy as postlogism interlocks with temporal-dispositions (instigating social psychopathy in 'socially-perceived-value as of social-stake-contention-or-confliction situations') as temporal-dispositions are already preset/in-wait as of prior relative-ontological-incompleteness\textsuperscript{8}—reference-of-thought defective \textsuperscript{8}—reference-of-thought—categorical-imperatives/axioms/registry-teleology for its induced conjugated-postlogism\textsuperscript{7} by inherent relative-ontological-incompleteness\textsuperscript{8}—induced,—'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”—preconverging/dementing –apriorising-psychologism’ (notional~procrypticism, i.e. the corresponding uninstitutionalised-threshold ), such that the postlogism dynamism in its social protraction reflects a threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”—preconverging/dementing –apriorising-psychologism as of temporality /non–transcendence-and-sublimity/sublimation/supererogatory/de-mentativity/incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation in corresponding conjugated-postlogism’s of temporal-dispositions with the protracting effect of ‘significant others basis of logic’, as subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities). Such that grasping and superseding of psychopathy and social psychopathy ontologically requires 'avoiding to construe the generality/averaging of the social-construct as being of the sound/appropriate ontological cadre/framework' but rather ontologically adopting deferential-formalisation-transference (as all formal constructions whether the law, subject-matters, formal institutions, etc. have always been conceived) to
'abstractly reference prospective institutionalising as a secondnaturing that is of universal implications/aetiologisation/ontological-escalation for all times and all humans' by factoring-in the requisite supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism as of transcendental-projection/intemporal-preserving/ maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation construct that transcends/supersedes subtransversality — apriorising/axiomatising/referencing (as-of-pseudointemporalities), as supratransversality — apriorising/axiomatising/referencing (as-of-non-pseudointemporalities). Such a technique for articulating supratransversality — apriorising/axiomatising/referencing (as-of-non-pseudointemporalities) in aetiologisation/ontological-escalation with respect to ‘associated-themes-and-social-contexts’/thematic as deferential-formalisation-transference involves ‘construing supratransversality — apriorising/axiomatising/referencing (as-of-non-pseudointemporalities) over subtransversality — apriorising/axiomatising/referencing (as-of-pseudointemporalities)’ wherein the differentiated-conjugated-postlogism s are construed as interlocking with postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> (as the conjugated-postlogism s conjoin to and elevate postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>) in the ‘associated-themes-and-social-contexts’/thematic framework/cadre. The fact is this thematic construal is further compounded by the varying tone-as-temperament associated with psychopathy and social psychopathy wherein the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism of postlogism, conjugated-postlogism or temporal-dispositions means that it is ‘ontologically wrong to be engaged solely on the basis of a supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism tone as temperament’; as the ‘consciously
eluding/circumventing’ psychopathy as postlogism’s mental-disposition adopts various ‘hollow tones as temperaments’ on the basis of its perceived position of weakness/disadvantage or strength/advantage, with implications on soundness of ‘reference-of-thought, whether acting (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing—apriorising-psychologism) by ‘imploring, contesting, affirming, condescending, rebelling or self-victimising’ depending on what it perceives as advancing its postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) at one moment or the other, and this mental-disposition is naively (where ignorant-conjugated-postlogism”) or consciously adopted by conjugated-postlogism’s mental-dispositions particularly when exacerbatory or opportunistic. This ‘contrastive intellectual-and-moral tone-as-temperament and thematic teleological constructs of subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities) in relation to supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality’) is central in articulating a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation that further elucidates the conceptualisations herein. The conceptual background for this tone-as-temperament and thematic teleological conceptualisation (for the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation) lies in the notion that human construal of meaningfulness/memetism defines and structures its teleology/teleological-differentiation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations whether in ‘temporal-to-intemporal-dispositions individuation terms’ and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendentally/transimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects
will fundamentally be predisposed to a defining teleology / teleological-differentiation of animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology / teleological-differentiation, and likewise a meaningfulness/memetism that is mostly secular-inclined will be predisposed to the defining teleology / teleological-differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining temporal-to-intemporal-dispositions of individuals action intradimensionally (and as recurrently affirmed by the ontological-contiguity — of-the-human-institutionalisation-process across all the registry-worldviews/dimensions, giving rise to prospective institutionalisations and uninstitutionalised-threshold), this establishes that there is a deterministic existential-tautologisation/existential-reference of human-subpotency — aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint — imbued-temporal-to-intemporal-dispositions—existentialism-form-factor mental-dispositions with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ highlighting a teleology / teleological-differentiation at the individuation-level in a continuum from pseudointemporality (involving the ‘faulty-mentation-procedure-deception-or-urge’ of postlogism — slantedness and the derived-by-conjoining temporal-accommodation-of-this— perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—> as conjugated-postlogism’s/preconverging-or-dementing—integration, grounded on ‘extrinsic-attribution involving inducing sociologically significant others basis of meaning and logic’) as it induces the uninstitutionalised-threshold — to — non-pseudointemporality (of intemporal mental-disposition inclined to account for

Existence/existential-reality is thus a teleological-contiguity/oneness-of-teleology ‘with teleological-discretion being defined only by epistemic choice/differentiation’, as epistemically-situated chosen/differentiated meaningfulness (as to ontology/ontological-veridicality which is epistemically/notionally a contiguity construed-as ontological-contiguity /superseding–oneness-of-ontology), defines and structures teleology /teleological-differentiation in its derivation as ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought- devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-or-dialectical-thinking reference-of-thought in relative-ontological-completeness as depth-of-thought’). Beyond, the individuation-level and the intradimensional perspectives, at the
thought’ of an uninstitutionalised-threshold (like non-positivism/medievalism) to ‘center’ the corresponding and prospective institutionalisation (like positivism) reference-of-thought, and ultimately reflects/perspectivates/highlights/decenters the uninstitutionalised-threshold as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism, from the perspective of the succeeding institutionalisation/centered. Thus, decentering is what divulges all the uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism by maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation, while ‘centering’ divulges all the institutionalisations as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism; and so with their ontological possibilities and limits as well as corresponding ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ or registry-worldview/dimension orienting/pivoting/decentering psyches (by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), reference-of-thought and teleologies/teleological-differentiations. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mentation-capacity-deepening with corresponding recomposuring of ontological import) that is being implied given the ontological-normalcy/postconvergence nature of transcendental text doesn’t concede to a human temporal complex of its established metaphysics-of-presence—(implicated-*nondescript/ignorable–void*–as-to-*presencing—
absolutising-identitive-constitutedness) conventioning/traditional-ways of understanding as superseding but rather superseded, and having to cave in’. In other words the aporetic nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-unshackle, construed in interdimensional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity terms as akin to a positivistic laden text articulated in a non-positivism/medievalism setup implying a necessary psychoanalytic-unshackling as requiring the pivoting/decentering of the reader for its understanding as it is more than an explanation in the terms of the old as non-positivism/medievalism “meaningfulness-and-teleology” but more critically an invitation into the new as of a positivising/rational-empirical mindset/reference-of-thought “meaningfulness-and-teleology”; having to do fundamentally with the human mind complex and reflex of failing/not-upholding-as-of-apriorising/axiomatising/referencing> to acquiesce to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and so all across the various institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing> in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, even though it will readily acquiesce from a standpoint of retrospectively implied construal of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Such a pivoting/decentering of understanding itself is what is implied by ‘projective-insights’/postdication/metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing-perspective–ontological-normalcy/postconvergence}; further explaining the underlying notion of suprastructuralism as the ability to construe/conceptualise meaningfulness across different ontological-completeness-of-reference-of-thought perspective whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation,
universalisation–non-positivism/medievalism, our present positivism–procrypticism or futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, with the necessary de-mentation–(supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics) involved in such a pivoting/decentering as psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. Suprastructuralism as such will also explain the underlying logic of Bruno Latour’s famous criticism of the notion that scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with the organisation of an official ceremony in full honours in celebration of Ramses II corpse and the discovery, as being an entanglement of references-of-thought between the modern frame-of-reference/collective-consciousness-awareness-teleology and the Ancient Egypt pharaonic era frame-of-reference/collective-consciousness-awareness-teleology (a mix-up that must not occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its very own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of understanding the past and projecting to the future); as if it were ‘possible and desired’ that the modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such highlights the ‘mental complex of all present mindsets as metaphysics-of-presence–(implicited–nondescript/ignorable–void ’-as-to-’-presencing—absolutising-identitive-constitutedness’)’, and going by ‘projective-insights’/postdication/metaphysics-of-absence–(implicited-epistemic-verity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>) is equally what can enable our own prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in grasping a more profound intrinsic-reality/ontological-veridicality as notional–deprocrypticism which is deeper than our present
positivism–procrysticism registry-worldview\(^\text{3}\) reference-of-thought. As implied in this paper, the implication of pivoting/decentering for understanding itself is that our metaphysics-of-presence--(implicated–‘nondescript/ignorable–void’–as-to– ‘presencing—absolutising-identitive-constitutedness’) traditional/conventioning “reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\text{7}\) is put into question, and the notion of understanding itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic/reprojective design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation also construed as ontological-normalcy/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation constituting elaboration) to retain its cross-referencing coherence of prospective meaningfulness. The recognition for the need to disambiguate human mental-dispositions as of temporal-to-intemporal is not an exception here as all our formalisations implicitly operate on this basis as deferential-formalisation-transference, tacitly confirming its veracity/ontological-pertinence. It should be noted that the representation of registry-worldview’s/dimension’s uninstitutionalised-threshold\(^\text{32}\) as of ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”—preconverging/dementing —apriorising-psychologism’ based on their respective relative-ontological-incompleteness\(^\text{86}\)-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”—preconverging/dementing —apriorising-psychologism’ while most ontologically-veridical from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective, such a suprastructural-meaningfulness/memetism is

for such ‘parasitism/parasitising/co-opting-meaningfulness’ by parasitising/co-opting

meaningfulness-and-teleology\textsuperscript{99}, and so as intemporal-

This is the intemporal-disposition individuation decentering mechanism with respect to ontology/ontologically-veridical-meaningfulness in a dynamic-cumulative-aftereffect at the registry-worldview/dimension or intradimensional level that brings about prospective institutionalisations by rescheduling the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) with respect to construed prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) explaining why we are able and do transcend; or else as in all prior registry-worldviews, the pseudointemporality\(^8\) logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity\(^8\) that construes of the present (by its \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding<-as-of-apriorising/axiomatising/referencing> to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental/\(^7\) maximalising-recomposuring-for-relative-ontological-completeness\(^7\)— unenframed-conceptualisation as longness-of-register-of-meaningfulness/intemporality\(^7\) that accounts for the becoming from all the priors to the present to the prospective registry-worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of \(^8\) universal import with temporal extricatory dementating/structuring/paradigming contentions (more like metaphorically an apple falling on
Newton’s head and his projection of this in grasping the universal implications of the laws of motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be ‘temporally’ undermining in one way or the other). Critically, it isn’t idle idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution, universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-unshackled/mimetically-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that notional–deprocrypticism (by its deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression–rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality) is an inherent meaningfulness that is perfectly construable within just a positivism–procrypticism mental-disposition and the latter’s many compromised assumptions as articulated in this paper, as notional–deprocrypticism is priorly implying futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psyche/mindset. This equally raises the fundamental issue with post-structuralism, does it fully make sense in a ‘modern mindset’ of reference or reference-of-thought or rather it is implying priorly a prospective ‘postmodern mindset’ of
continuing ‘moulting’ of its proponents and corresponding social construct, as intrinsic-reality
doesn’t adjust its inherent meaningfulness to us but rather humans need to achieve a given
psychical development to have-access-to or be-able-to-register the knowledge construct of the
more profound existential-reference/existenttal-tautologisation to intrinsic-reality/ontological-
veridicality that that psychical development allows for, in meaningfulness-and-teleological
terms. This is rather a difficult task as it implies \[\text{de-mentation-(supererogatory–ontological–}
\text{de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\] of \[\text{reference-}
of-thought’ behind the psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring, and no registry-worldview/dimension sees itself as de-mentable prospectively,
as being decentered for a prospective centering, even where it acquiesces to the notion
retrospectively up to its own institutionalisation; pointing that ontological-
ormalcy/postconvergence is the genuine perspective for construing the dynamism of
knowledge-and-virtue or \[\text{meaningfulness-and-teleology}^\text{99}\]. The fundamental point of a
knowledge construct (which is necessarily tautological as intrinsic-reality/ontology is already
given) is rather an exercise of ‘human <amplituding/formative–

aetiologicalisation/ontological-escalation in ‘grasping the uninstitutionalised-threshold’ reflecting procrypticism involving postlogism and conjugated-postlogism, the knowledge construct will assume this same fundamental goal of ‘human \(<\text{amplituding/formative--epistemicity}>\text{totalising--renewing-realisation/re-perception/re-thought-as-utter-placeholder--setup-ontological-rescheduling-}\langle\text{by-a-renewing-of-apriorising/axiomatising/referencing--psychologism-as-the-new-referencing-basis-of-prospective--}\langle\text{meaningfulness-and-teleology}\rangle\rangle\) as subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\(<\text{amplituding/formative--epistemicity}>\text{totalising--renewing-realisation/re-perception/re-thought,-in-}\text{supererogatory--epistemic-conflectedness}\rangle\). Pivoting/decentering as such for transcendence-and-sublimity/sublimation/supererogatory--de-mentativity at the individuation-level speaks of intemporal-disposition maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation value and disposition re-ontologising terms even though for temporal-dispositions value and disposition conventioning terms this may sound unintelligible. Such a transcendental/intemporal pivoting/decentering necessarily construed from the prospective institutionalisation (whether base-institutionalisation, universalisation, positivism or deprocrypticism, as ontological-normalcy/postconvergence epistemic/notional--projective-perspective), of temporal-dispositions individuations in uninstitutionalised-threshold (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism) as being of ‘mental anarchy’ (mentarchy) which ‘speaks of a defining state of ontologically-defective meaningfulness-and-teleology, arising from lack of common (lack of an ordered construct of deferential-formalisation-transference) ontologically-veridical reference-of-thought, wherein both temporal-dispositions in various shades and the intemporal-disposition are socially-perceived as meaningfully-and-teleologically
mentativity as intemporal `reference-of-thought (thus implying a mental-representation-devising/mentation/placeholde-setup of the ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as ontologically preconverging-or-dementing–apriorising-psychologism from the perspective of the transcendental-enabling/sublimating/supererogatory-de-mentativity as ontologically thinking). Insightfully, for a storied-construct/ontologically-valid-narration aetiolagisation/ontological-escalation, such a ‘dynamic-cumulative-aftereffect of individuation/intradimensional/transcendental-or-transdimensional-or-interdimensional levels of conceptualisation’ ontologically validates ‘a deterministically teleological-differentiated storied-construct/ontologically-valid-narration’ of projectable/predictable-relative-existential-implications of the various ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-dispositions incremental/shortness-disposition-relative-finitudes’ and ‘maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporal-disposition superseding/longness-disposition-to-finitude’; finitude being the full-depth-of-existential-implications/existentialism arising when acting (as-being/as-existing) with regards to one’s prior relative-ontological-incompleteness/relative-ontological-completeness—(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating—<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) of `reference-of-thought. As a side note, such a notion of mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of `reference-of-thought associated with human languages from ancient ones to modern ones (as of the registry-worldview/dimension-levels of the corresponding societies), facilitating the deciphering and understanding of ancient languages, as well as the reconceptualisation of
meaningfulness-and-teleology across history, which conceptual exercise tends to be rather biased towards a modern perspective metaphysics-of-presence--(implicated-
nondescript/ignoreable–void ’-as-to-’ presencing——absolutising-identitive-constitutedness ).

Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to take cognisance of the very peculiar nature of the social world (in contrast to the natural world) that makes the social ‘susceptible to incorrect understanding and analysis’ particularly at a practical and operant level by the fact that it is highly emotionally-involved/politically-driven especially so with disturbing issues, and this is further compounded by the ‘blurriness and distance of ontological-prime-movers-totalitative-framework / intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’, and finally from a transcendental/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation perspective human mental-disposition with regards to the social can be poorly ontological with unconscious, expedient or conscious emphasis on significant others basis of logic as well as wooden-language—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology ’-as-of-
nondescript/ignoreable–void ’-with-regards-to-prospective-apriorising-implications)> mental-dispositions (social-aggregation-enablers) undermining the solipsistic relationship with intrinsic-reality required for veracity/ontological-pertinence (transcendental-enabling/sublimating/supererogatory—de-mentativity). In this regard, it will actually be naïve to assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all that is necessary in achieving effectiveness. With the weaknesses highlighted above with regards to grasping the social, it is important that such veracity/ontological-pertinence is effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’ driven by social-aggregation-enabling, wherein for instance the transcendental-
enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake, etc.). The ‘blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory—de-mentativity’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/‘interested’/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French post-structuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be countenanceable in the promptness of effectiveness driven natural science of ontological-primemovers-totalitative-framework, for instance, holding that Einstein’s theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating/supererogatory—de-mentativity-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—de-mentativity’ with the transcendental-enabling/sublimating/supererogatory—de-mentativity-of-intrinsic-social-reality ontological-primemovers-totalitative-framework. This weakness actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as driven by postlogism—construed-as-

respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and
regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-
narration aetiology/ontological-escalation will need to demonstrate veracity/ontological-
pertinence of the conceptualisations highlighted in this paper not purely by themselves as
transcendental-enabling/sublimating/supererogatory de-mentativity of intrinsic-social-reality
but rather such conceptualisation in a supratransversality—apriorising/axiomatising/referencing
should be over-and-face-off a subtransversality—apriorising/axiomatising/referencing of
temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory de-mentativity’ such as
perverted use of notions of differentness, infamy, status, significant-others basis of logic,

implying an equivalence between universal/intemporal sense of purpose with
extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-
called principle that is not articulated as a universal construct but targeted, avowing its reality
as fake), etc., and this is the realistic developing social contextualisation within which
psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler
mechanism is what brings about social-chainism/social-discomfiture/negative-social-
aggregation as well as the temporal-endemisation/temporal-enculturation of psychopathy and
social psychopathy by eliciting of differentness, infamy, status, significant-others basis of logic,

Ontologically, thus the construal/conceptualisation of the Social de-mentating/structuring/paradigming is necessarily a construct that harkens to the intemporal-projection enabling the thoughtfulness as the imbued intemporal-preservation consciousness-awareness-teleology\textsuperscript{9} with the corresponding meaningfulness-and-teleology\textsuperscript{9} as ontological-contiguity\textsuperscript{6}—of-the-human-institutionalisation-process\textsuperscript{7}/institutional-design inducing the ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation enabling the development and endemisation/enculturation from recurrent-utter-uninstitutionalisation (non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random-mental-disposition) of base-institutionalisation (rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup, universalisation (universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup, positivism (positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup and prospectively notional~deprocrypticism (preempting—disjointedness-as-of-reference-of-thought, as-to\textsuperscript{11}<amplituding/formative–epistemicity>growth-or-conflatedness\textsuperscript{17}>/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup. The implication being that the Social is much more than aggregativity (social-aggregation) wherein a mental-disposition of ‘overt aggregative social disposition’ that conceives that a social-setup
for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are simply ‘perceptively-and-formulaicallly deterministic’ for ‘its purpose of temporal extricatory dementating/structuring/paradigming relating with the reference—categorical-imperatives/axioms/registry-teleology (as perversion-and-derived—perversion-of—reference—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow—supererogation >)’ that undermines the imbued intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the social-setup ‘is not ontologically social’ (as aggregativity construals and mental-dispositions about social relations of extricatory temporal-dispositions are perfectly construable as of varying covert to overt ‘reference—degraded-devolving—as-of-uninstitutionalised-threshold’). Likewise a mental-disposition of ‘overt non-aggregative social disposition’ conceiving the social-setup reference—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ‘as of inherent essence and to be upheld and maximalisingly recomposured’ (as appropriateness-of—reference—as-of—conflatedness ) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather the opportunity for transcendental construal of our potential for intemporality. Paradoxically and across all registry-worldviews this has always imply sociologically that uninstitutionalised-threshold are in a transversality-of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing of these two divergent mental-dispositions with respect to meaningfulness-and-teleology whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity or conceptualisation in
aggregativity/social-aggregation as of \textit{amplituding/formative} wooden-language-\{imbued—averaging-of-thought-\textit{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-}\textit{as-of—nondescript/ignorable–void—}\textit{with-regards-to-prospective-apriorising-implications}\} driven by social-aggregation-enabling, explaining the underlying confliction implied by any prospective institutionalisation as transcendental. This insight can be grasped from ontological-normalcy/postconvergence epistemic/notional~projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of—meaningfulness-and-teleology’ in a non-positivism/medievalism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing anchoring for prospective positivistic institutionalisation construed ‘reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology’ mindset of such a ‘social ontology insight about prospective positivism’ (as ‘maximalising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) may lead to its very own circumspection with the registry-worldview’s/dimension’s ‘meaningfulness-and-teleology’ and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued ‘meaningfulness-and-teleology’’ with respect to the prospective as the positivistic registry-worldview/dimension and the prior as the non-positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of ‘meaningfulness-and-teleology’. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue (in lieu of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) in its \textit{amplituding/formative–epistemicity} totalising–ratio-

opportunity for prospective de-mentative/structural/paradigmatic human flourishing, with the
underlying fact being that inherently such a personality type rather as of a solipsistic-
intemporality ‘individuation disposition, by its contemplative reappraisal, is exactly what can
provide the opportunity for such transcendental possibilities (when we come to grasp that the
true profoundness of knowledge is more than just ‘mechanical as something construed
soullessly’ without a more complete appreciation of knowledge as ‘organic as something
construed with a profound sense of intemporal projection philosophy as to profound-
supererogation’ with the idea that the type of knowledge construed as of first order transcendental-enabling/sublimating/supererogatory—de-mentativity is not based on an ordinary notion of ‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of intemporal philosophical projection and more than just a ‘product’ for a materiality purpose but a driven sense of human emancipation). In fact, this equally points to a major flaw of the inherently implied value judgement in a lot of what passes for social sciences today explaining the vagueness, platitude and emptiness of little or no relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity implication as an

<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circular exercise, wherein the unabated recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension

‘nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications}> ideas should be the basis for construing its social science! In fact, technically Newton might be the most inclined person for social engagement but then will he as of intemporal projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology —<in-existential-extrication-as-of-existential-unthought> ‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/menteded psychology of the present, as of any ‘present registry-worldview/dimension’, with value references related to as absolute without or poorly factoring in that the animal that is the human is rather a becoming animal in constant psychological development of its limited-mentation-
capacity with respect to social universal-transparency\(^{103}\)universal-transparency\(^{103}\)-\(\langle\text{transparency-of-totalising-entailing, as-to-entailing-\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\rangle\) as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of- reference-of-thought- devolving-as-of-instantiative-context as of ontological-completeness-of- reference-of-thought; as determining its value reference and defining its underlying placeholder-setup\(\text{mental-devising-representation/mentation/consciousness-awareness-teleology}\), and hardly addressing such a more fundamental question as implied by ‘postconverging-or-dialectical-thinking\(^{20}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on a social relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an \(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) construal but identify objective reality by its naturally constraining ontological-primemovers-totalitative-framework\(^{72}\), as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-enabling/sublimating/supererogatory–de-mentativity basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and inventions given that their transcendental-enabling/sublimating/supererogatory–de-mentativity as of a positivism outlook psychologism of the world had taken place both in philosophical and
practical scientific terms with the Descartes, Hobbes’s, Kants, Copernicuses, Galileos, Newtons, of the past. Whereas a lot of present day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism insight, wherein positivism–procrypticism is decentered and notional–deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author’s or anyone’s chosen but rather that the test for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-supererogatory de-mentativity set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence-and-sublimity/sublimation/supererogatory de-mentativity in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness –of- reference-of-thought–devolving-as-of-instantiative-context, induced by prospective relative-ontological-completeness’s–reference-of-thought is what counts as true knowledge beyond the blurriness -in-reflecting-and/or-coming-to-terms-with-implied-transcendence that often tends to arise with all institutionalisations institutionalised-being-and-craft erudition! More fundamentally, as previously highlighted with the mediocrity principle of science as it applies to humankind as well (as the notion of metaphysics-of-absence–(implicit–epistemic-veracity-of–nonpresencing–(perspective–ontological-
‘based on reasoning in terms–as-of-axiomatic-construct of cumulating institutionalisations’).

Such a construal/conceptualisation of ‘institutionalisation as of uninstitutionalised-threshold’ will explain why with regards to ‘all the successive institutionalisations formal constructs’ as of their respective ‘comprehensive abstract setups of deferential-formalisation-transference institutionalised meaningfulness-and-teleology’, there is a tendency associated with their corresponding extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to meaningfulness-and-teleology) wherein there is ‘parallel construed extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to meaningfulness-and-teleology) meaningfulness-and-teleology-as-of-a-relatively-poor-institutionalising-inclination’ of a subpar and occasionally of a superseding practical applicative bearing/effectiveness over the supposedly formal construct. By and large, this will often arise within the scope of blurry institutional setups not construed for operant effectiveness. Strangely enough we do actually tend to elicit such extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to meaningfulness-and-teleology) construal as more determinant when the principles of formal constructs are rearticulated operantly in extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to meaningfulness-and-teleology) meaningfulness-and-teleology-as-of-a-relatively-poor-institutionalising-inclination terms; and often contributing to institutional inefficiencies and failures of all sorts whether with respect to mismanagement, misappropriation, incompetence, etc. from a modern perspective of analysis. Further, the fact is such extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to meaningfulness-and-teleology) effect can be more than just about the operant effect but equally protracted as ‘designed-formalisation-ineffectiveness’ in ensuring the ascendency of extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to meaningfulness-and-teleology)

utterly unfounded as a first-order faulty-mentation-procedure-deception-or-urge potentially enabling an infinite possibility of second-order level deception if re-engaged as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. Where the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation -or-prelogism ’-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation -or-prelogism’-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a supplanting-conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism mind). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,

Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being of prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism even if it is a perception of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ (and not to be seen as being of postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation) since that will validate the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question and imply the denaturing of reference-of-thought as perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology and thus to wrongly re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation turning the issue into one of ‘notion of agreement or disagreement’ instead of construing a perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > ‘preconverging-or-dementing–apriorising-psychologism manifestation’ implying and requiring intellectual-and-moral-inequivalence/non-correspondence in transversality-of-affirmative-and-unaffirmative–

As with all prospective institutionalisations, a human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation individuals, purporting (by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation) prospective emancipation come from and are of the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality /longness is a ‘potential construct of orientation’ as implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) and it is only a devised institutionalisation construct that achieves that potential-construct-of-orientation and not any implied inherent emanance intrinsicalness (though the meaningfulness as articulated as such, and as the meaningfulness in this entire paper, is rather of an intemporal register validation and not of any temporal register validation, since an authentic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is what underlies transcendence-and-supererogatory-de-mentativity as a ‘deeper limited-mentation-capacity-(as of relative conflation’) existential-tautologisation/existential-reference pivot/decenter to reconstrue/reconceptualise meaningfulness-and-teleology; more like a jurisprudential maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation contention for rehabilitation is not of the same meaningful-framework as a temporal mental-disposition of illicitness for shifty expectation of rehabilitation which it should necessarily anticipate and preempt). By that token there is no base-institutionalised individuation in recurrent-utter-uninstitutionalisation, no universalised individuation in ununiversalisation, no positivistic individuation in non-positivism/medievalism, and
prospectively no notional-deprocrypticism individuation in procrypticism; as at best such emancipating intemporal individuation are ‘mouling’ and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. The notion of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism as defining the registry-worldviews/dimensions uninstitutionalised-threshold is rather a most real idea from an ontological-normalcy/postconvergence epistemic/notional-projective-perspective wherein we can very much fathom out that the successive relative-ontological-incompleteness—induced,— ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism’ as the successively reducing-ontological-abnormalities of recurrent-utter-uninstitutionalisation uninstitutionalisation, ununiversalisation uninstitutionalisation, non-positivism/medievalism uninstitutionalisation and procrypticism uninstitutionalisation effectively speaks of their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism as the respective uninstitutionalised-threshold with respect to the superseding–oneness-of-ontology which as existential-reality isn’t changed but rather the respective cumulating/recomposuring uninstitutionalised-threshold are due to ‘changes in human meaningfulness and the teleological implications thereof’ confirming by extension that the reality of their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism is veridical or a most real idea with implications on psychical-orientations/mindsets as structured by the ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. However apparently logical this idea, it is an altogether

This threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism conceptualisation of ‘the social as at its uninstitutionalised-threshold threshold’ wherein the representation as ‘being in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism’ is more real (from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective) than the actual placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect of conscious mindsets within the given uninstitutionalised-threshold registry-worldview/dimension (as the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism insight is suprastructural to it or beyond-its-consciousness-awareness-teleology); is an ontological validation of Derridean hauntology/hantologie conceptualisation of the social in cinematographic terms of meaningfulness (and will seem very much akin, from an ontological perspective, to the central notion of ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the superseding referential conceptualisation of ontology and inherently imbued with ontological-reconstituting–as-to-conflatedness as a centering/decentering mechanism’ as implied in this paper, though hauntology/hantologie is not quite articulated in such more precise ontological terms but imbricatedness/threadedness/recomposuring notion of existential-reality in there can be
to do with the psychical orientation (as underdeveloped) of its critiques as well as the requisite effort required to further develop, elucidate and focus it; and in this regard why there have been many serious and constructive criticisms of post-structuralism as required for any subject-matter, most of the ‘popular criticisms’ levied against post-structuralism fail to past the test of intellectual criticism and have mostly been populist and media-driven attacks, gaining traction by social trending than genuine intellectual validity. The most popular being an initiative on an unrecognised social science journal which by that mere token disqualifies the so-called criticism but has turned out to be the most populist ploy by all accounts for condemning post-structuralism. Furthermore and critically, the intellectual exercise as with all institutional processes operate fundamentally on a basis of mutual trust. However the methodologies, theories and concepts, what can be articulated as new knowledge is not necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the overall peer review process is to channel potentially admissible and debatable knowledge towards further elucidation in the overall scheme of establishing overall human knowledge as of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer review though that point tends to be a ‘highly political point nowadays’ as of the increasing bean-counting institutional reflex of funding implications and sometimes at the detriment of novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals
approval and extends with the continual critiquing of knowledge whether dominant or outlying. Ultimately, the more fundamental test in such a negotiated process is a strive for consistency and validatory clues with no guarantees of effectiveness but for the overall consistency, as of the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might equally be argued that peer-reviewing and by extension all epistemological and their corresponding methodological activities are not natural knowledge activities as of inherent pure-ontology in of itself but derived activities as of human norms, practices and policies for establishing thresholds that then enable articulated qualifications as of pure-ontology; in other words, any such epistemological and methodological activity is irrelevant if pure-ontology can be arrived at without it. Consider for instance that mathematicians hardly make use of experimental designs or that many secret research by corporations and government aren’t peer reviewed, at least not publicly. Besides at a more fundamental level the question can be asked what are the metaphysics-of-absence-(implicit-epistemic-veracity-of-nonn-presencing-perspective-ontological-normalcy/postconvergence) implications of knowledge epistemology, methodologies and peering as to the weightier construal of the successive human ontological developments involving increasing prospective relative-ontological-completeness-of-reference-of-thought associated with the overall institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity-of-the-human-institutionalisation-process, beyond just an intra-positivism registry-worldview/dimension illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/mirage conceptualisation of knowledge epistemology, methodologies and peering naively articulated-and-implied-as-universally applicable, à la Kantian positivism registry-worldview/dimension amplituding/formative-epistemicity-totalising-intervalist-as-categorising-phenomenal-abstractiveness-of-presence
however remarkable, to all registry-worldviews/dimensions particularly since such a conceptualisation doesn’t factor in ‘transcendental implications’ as de-mentatively/structurally/paradigmatically overthrowing/fazing-out/collapsing the uninstitutionalised-threshold of meaningfulness-and-teleology of the prior/old registry-worldview’s/dimension’s reference-of-thought as a decentering subsumption; along the same line as the medieval ‘dogmatic scholastics’ insisting that the now established positivism registry-worldview/dimension knowledge constructs, which were then transcendental, should conform to their ‘institutionalised dogmatic scholasticism methods and processes of reviewing’. By extension the question can be asked whether beyond our ‘amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag institutionalised positivism conceptualisation of meaningfulness-and-teleology whether such is truly in a ‘requisite contemplative-and-Being position as of the prospective transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism’ of ‘evaluating a construct of prospective transcendence-and-sublimity/sublimation/supercritical—de-mentativity’ as herein implied about futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective notional–deprocrpticism registry-worldview/dimension meaningfulness-and-teleology which paradoxically de-mentatively/structurally/paradigmatically entails overthrowing/fazing-out/collapsing the positivism–procrpticism meaningfulness-and-teleology at its uninstitutionalised-threshold as a decentering subsumption; when we factor that such a contemplation-and-Being as from a positivism–procrpticism meaningfulness-and-teleology is being called upon to
evaluate as to ‘a meaningfulness-and-teleology world beyond its ordinary contemplation’ with the mental tools for such a prospective projection mostly of abstract projective contemplation for grasping the prospective organic-knowledge implied, and so beyond an ordinary evaluation within an implied same reference-of-thought. It should be noted here that the more pertinent quality for such implied transcendentalism as of its implied organic-knowledge beyond just a mechanical construct is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality explaining the disparate nature of the development of human knowledge. This author as previously articulated points out that there is a more profound basis for how and why new/prospective knowledge whether outlying or main stream is socially integrated in driving ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism —amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity—across all the institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing> as the very human-subpotency—aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor implying that human registry-worldview’s/dimension’s have institutionalisation-threshold and uninstitutionalised-threshold broken only in the medium to long-run beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> ‘by a power relations dynamics de-mentatively/structurally/paradigmatically ingrained in the social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—

Basically the transcendental as (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness’ -‘of-notional–deprocrypticism-prospective-sublimation’) originary/event -of-prospective-ontology-origination to a knowledge and its knowledge system however remote the origination, in the very first place, speaks of the notion of <amplituding/formative–epistemicity>-totalising–renewing-realisation/re-perception/re-thought associated with ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ behind any retrospective or prospective registry-worldview’s/dimension’s reference-of-thought validation-conceptualisation.epistemological relationship to knowledge/ontological-construal. Ultimately, the very transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic <amplituding/formative–
epistemicity>causality~as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposing nature of transcendence-and-sUBLImity/sublimation/sUPerordinate-de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior registry-worldview’s/dimension’s reference-of-thought not factoring its prior relative-ontological-incompleteness-of-reference-of-thought. But this is simply valid on the fact that a more profound axiomatic-construct on a given domain of reality as of prospective relative-ontological-completeness-of-reference-of-thought is of intemporal-or-ontological prioritisation as of its conflatedness relative to a less profound axiomatic-construct on that same given domain of reality as of prior relative-ontological-incompleteness-of-reference-of-thought as of its constitutedness, as the latter is rather in shortness-of-register-meaningfulness-and-teleology/distractiveness to the former as of reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance—including-virtue-as-ontology>. Consider for instance Einstein’s theory-of-relativity and Newton’s laws of motion with respect to the same given physics domain-of-study reality, wherein the former’s prospective relative-ontological-completeness-of-reference-of-thought over the latter implies the former’s utter ‘ontological-resetting’ in the conceptualisation of that given physics domain-of-study reality as of transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing with the latter; as henceforth the logical-dueness of the latter doesn’t even arise but rather as it maybe subsumed/implied/is-non-contradictory as of the former or for educational insights purposes! Of course, this comparison differs from a construal of postlogism and conjugated-postlogism associated perversion-and-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-
involves the prospective reference-of-thought rather ‘registering-and-reflecting a beyond-the-consciousness-awareness-teleology’-in-existential-extrication-as-of-existential-unthought>
meaningfulness-and-teleology as of organic-knowledge Being correction’ of the prior reference-of-thought, such that the prior reference-of-thought logical-dueness doesn’t even arise as the prospective reference-of-thought is the relatively complete ‘ontological-resetting’ in an ‘organic effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology’ over the prior reference-of-thought ‘effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology’; just as the introduction of chemistry science carries an organic effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology over a non-positivism/medievalism alchemic material construal. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. A second weakness of many critiques is by naively misrepresenting post-structural meaningfulness, and going on to criticise this. For instance, such arguments about post-structuralism as a theory that has no worldview are not made by poststructuralists who in their transcendentally-enabling-level—of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism> have been rather questioning openly what the reality of the meaningfulness they construct
implies, as a basis for further intellectual development. This explains the convoluted responses of say Derrida because that is the intrinsic-reality insight at hand, and the issue is rather how to further develop. This will be tantamount to criticising early quantum physics for contending that the fundamental particles are rather like waves and evasive without yet establishing an advanced basis of the science. Knowledge is not an exercise of one set of individuals arguing against another nor is it a popularity contest but rather it is all about finding out what constitutes intrinsic-reality as it permits ontological-primemovers-totalitative-framework; intrinsic-reality being the superseding transcendental enabler, and not any humans no matter their statuses. A third weakness has been by relating to poststructuralists as if they have got to get all their ideas right on by the instant, as if the theoretical framework isn’t in development like all theoretical frameworks (by the same token imagine all the unanswered questions that underlie quantum physics for over half a century that are still being elucidated, for instance, string theory which is so highly speculative but is still credibly a basis for research and analysis). The purpose of a theoretical framework is not to provide an immediate answer for everything but rather to provide a framework for constant critical development of ideas. Otherwise, it will be best to develop a correlational construct that may statistically be coherent with many arguments at any given point in time but is of little predicative or projective value because it hasn’t got a profundity as a genuine theoretical construct which may actually be mostly incoherent with many arguments at its earlier stage but provides a wealthy framework for the continuous articulation of ideas and resolutions, and this is actually the point of a theory in the very first place. It is thus no accident that many other disciplines have found post-structuralism as a relatively ideal tool for invoking much needed insight. A fourth criticism has to do with the ‘political nature’ of human affairs obviously, and even the intellectual is not beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been the case throughout human history) and further so in a social domain that is not immediately amenable
to predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment) as with the natural domain even though the latter equally faces similar issues but to a lesser extent. When we come to reflect that the leading poststructuralist of his time had an entire school, rather than focusing on developing research criticisms of his work and other poststructuralists (which would have been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think that intellectualism and ideas occur in an absolute neutral environment particularly when of socially-perceived disturbing implications. While it is generally recognised that knowledge is determined on its own merits as an interest-free principle, the fact is in the real world of ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and extra-intellectual meaningfulness becomes fair game. Fifthly, the argument of unintelligibility of post-structural meaning is outright ridiculous with respect to the exegetical aims of its authors, and no less so as expecting advanced chemistry, biology and physics writing to be popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-transference permeating all subject-matters and disciplines, which speaks to the idea that the ‘ordinariness of thought’ is not the sound basis for construing issues raised in terms–as-of-axiomatic-construct of profoundness of contemplation. The ontological-contiguity of-the-human-institutionalisation-process by its deferential-formalisation-transference is an exercise of shrinking the melee of common sense wherein spheres previously opened for common opinionatedness are shoved away as ‘deferred to’ specialisms whether institutional or subject-matters by the mere effectiveness, with ‘informed common and individual opinions’ being the panache for the expression of sovereignty whether about the polity or individual choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that there is a common sense social science is a falsehood no more than there is no common sense
natural science, and intellectuals are irresponsible when peddling the notion that readers shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness and rather expect that they should be able to satisfactorily engage at the same intellectual level ("reference-of-thought) involving advanced studies and research on the basis of ordinariness of thought. This should not be confused with a popularising exercise meant to stir popular interest like popular science, though in fact there is no truly popular science for that matter but serious/candid science. Such a confusion can hardly arise in the natural sciences because of the ‘promptness of ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ in constraining veracity/ontological-pertinence of thought by the immediate effectiveness of studies, discoveries and inventions wherein a flaw thought proposition will be proven wrong by its ontological ineffectiveness with relatively little concern for third-party convincing over the transcendental-enabling/sublimating/supererogatory—de-mentativity that is existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness/ and distance of ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ in the social sciences allows for propositions to crop up that are hardly constrained by immediate effectiveness of studies, discoveries and inventions, such that such propositions will often border on popular thinking or the political (technically) or a concern priorly driven with garnering support and agreement, rather than of genuine intellectual strife for ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. In this regard, the central tenet of poststructuralists with respect to their pursuit has been transcendentally-enabling-level—of-ontological-good-faith/authenticity /objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
with respect to their reflections, studies and research at all cost, even at the cost of many poststructuralists not recognising explicitly that they are poststructuralists or not recognising similarities in their works with other poststructuralists, so because fundamentally they can only vouch for their authentic reflections and analyses without a ‘surreptitious pretence’ for such amalgamation which will undermine their ontological-good-faith/authenticity with regards to conceptualising intrinsic-reality/ontological-veridicality, with the idea that the notion of a commonness of their ideas and as a movement will take care of itself if they are truly articulating an intrinsic-reality/ontological-veridicality that reflects that commonness; more like the Indian story of blind men who came across an elephant and each one sincerely/authentically said what their capacity enabled them to say, no more no less, with the idea that if what they say is of-the-reality of an elephant, that notion will take care of itself but their first posture is to say authentically what is in front of them. This speaks of the essential nature of all sciences wherein the researcher considers the most determinant element to be not itself or other humans (who are together mortals; mortal because they/humans don’t really invent any rules of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or utilise them as ‘supposed inventions’ –and the scientist is all about a validation by intrinsic-reality/ontological-veridicality-as-the-transcendental-enabling/sublimating/superserogatory-de-mentativity in contrast to a mental-disposition of social-aggregation-enabler where the emphasis is naively about convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-veridicality transcendental enabler thus leading to subontologisation in-a-social-dynamism-of-meaningfulness-misappropriation, rather than the supersedingness/precedingness of intrinsic-reality/ontological-veridicality transcendental enabler) but the superseding transcendental-enabling/sublimating/superserogatory-de-mentativity which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by
effectiveness of ontological-primemovers-totalitative-framework\textsuperscript{2} and projection; with the latter wholly the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘sovereignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the transcendental-enabling/sublimating/supererogatory-de-mentativity whatever the jargon required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating/supererogatory-de-mentativity of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of ontological-primemovers-totalitative-framework\textsuperscript{2} ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Sixth, thus the idea of deferential-
formalisation-transference behind formal predicates of institutions and subject-matter specialisms is all about construing meaningfulness in a depth-of-thought (intemporality) that is not available to ordinariness of thought, wherein there is a disambiguating of the supratransversality—apriorising/axiomatising/referencing as a construct of formalised reference-of-thought that is of intemporal-projection/longness-of-register-of-meaningfulness/totalisising-entailing/maximising/transcendental over the subtransversality—apriorising/axiomatising/referencing informal reference-of-thought as melee of common sense of temporality/non-totalisising-entailing/non-maximising/non-transcendental constructions.

The idea is that such a disambiguating is a necessity going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor requiring skewing ('intemporality'-asymmetric-subsumption-of-temporality, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity) towards the intemporal/longness-of-register-of–meaningfulness-and-teleology as the ontological construct that institutionalises (intemporalisations). Hence such a skewing ('intemporality'-asymmetric-subsumption-of-temporality, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity) in the ontological-contiguity—of-the-human-institutionalisation-process of shrinking the melee of common sense involves developing institutional and subject-matter specialisms as supratransversality—apriorising/axiomatising/referencing narratives (for instance, the developing sciences and institutional specialisms) that induce corresponding untenability/internal-contradiction/internal-incoherence/institutional-constraining by effectiveness on the subtransversality—apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that…, physicists say that…, etc. and not a common sense posture of the sort I
think that..., thus relegating the melee of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness. Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality—apriorising/axiomatising/referencing intellectual criticism but raising subtransversality—apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted above. The fact is the melee of common sense as subtransversality—apriorising/axiomatising/referencing hasn’t got the requisite intemporality/longness in terms—as-of-axiomatic-construct of universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper’s purported construct for aetiologisation/ontological-escalation in grasping the phenomenon of postlogism in general and the general background human science conceptualisation; together with its exposure for falsifiability/validation from subsequent critical analyses). Such that there will tend to be ‘confusion of reference-of-thought’ where such subtransversality—apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than ‘to defer’, or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As our melee of common sense defers when it comes to the natural sciences, it defers when it comes to the legal science, it shouldn’t expect otherwise but to defer when it comes to rigorous post-structural and
other social science constructions however their approximations, and so as the best construction potential of human meaningfulness and teleological possibilities. On that same token the notion of validation of supratransversality—apriorising/axiomatising/referencing with respect to subtransversality—apriorising/axiomatising/referencing is not one of contending/argumentative validation at a same contending pedestal but rather as a validation of the supratransversality—apriorising/axiomatising/referencing reference-of-thought as intellectually-and-morally institutionalising and not implying its equivalence with subtransversality—apriorising/axiomatising/referencing melee of common sense reference-of-thought, wherein for instance a consistent demonstration of a chemistry science (as supratransversality—apriorising/axiomatising/referencing) effectiveness earns chemistry science the deferential-formalisation-transference of no longer being engaged at a same contending pedestal as the melee of common sense with respect to human social contention about material constitution in order to avoid the circular drawback of constantly making arguments in wooden-language-(imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-
nondescript/ignorable–void -with-regards-to-prospective-apriorising-implications>) terms–as-of-axiomatic-construct, such that social deference is now institutionalised as ‘chemists say that/it is said in chemistry that’ rather than a social melee of common sense equivalence of ‘chemists think that but I also think that going by my common sense’. This argumentation is not idle as the social sciences as ‘being closest to human conscious sense of sovereignty’ tend to be most affected by such fallacies as highlighted that should be superseded by all knowledge whether natural or social-construct, and while such notion are often intuitively grasped with other formalisms whether institutional, legal or in the natural sciences subject-matter specialisms, for the social sciences there is a need to actively bring this notion to the consciousness-awareness-teleology in order to circumvent such nature of knowledge fallacies
with regards to an emotionally charged domain that is the social. This equally explain why the studies of the social are easiest prone to ontological-bad-faith/inauthenticity\textsuperscript{\textsection}, whether beyond-the-consciousness-awareness-teleology\textsuperscript{\textsection}-\textsuperscript{\textsection}-in-existential-extrication-as-of-existential-unthought\textsuperscript{\textsection}, as even where contending intellectual postures are of relative elevated formal knowledge de-mentating/structuring/paradigming, it is quite easy for a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{\textsection}-as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) mentality in order to advance one intellectual posture, and so as intellectual politics rather than genuine intellectualism. Seventh, as advanced by this author the ontological-normalcy/postconvergence of intrinsic-reality as reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{\textsection}—of-the-human-institutionalisation-process\textsuperscript{\textsection} validates and restores the notion of essential meaningfulness (the notion of a center—be it conceptualised as an ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’—of—reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’) to post-structural thought as its scholars had rather previously mostly focussed on disambiguating/clarifying the certitude/lack-of-certitude of human meaningfulness and thought. Even then the practical application and conceptualisation of post-structural meaningfulness has always been one that has tended to restore a sense of re-equilibrium with respect to perceived vested interest and skewed power relations whether with regards to its articulation in feminist studies, postcolonial studies, power relations in social
settings with regards to appropriate deliverance and more responsive public services, etc. as post-structuralism has often been a framework giving weaker and subjected meaningful frames public voice. Thus the so-called ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of post-structuralism’ has been in real and practical world terms more a question of abstract reconstructive thinking since such practical applications have tended to be effective further highlighting the need rather for more decentering contemplations. Besides, post-structuralism practical emphasis has mostly been methodical rather than dogmatic. In the bigger scheme of things, this author further highlights that post-structuralism by implying ‘decentering’ is implying transcendence-and-sUBLimity/sublimation/supererogatory-de-mentativity or an ‘existential-reference/existential-tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of analysis/knowledge-construct has moved to the prospective/transcendental/superseding reference-of-thought putting into question the now-and-present way of thinking as prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract articulation of principles is of existential-tautologisation/existential-reference neutrally. For instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining ‘meaningfulness-and-teleology’ from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-
completeness of reference-of-thought-deepening devolving-as-of-instantiative-context due to human limited-mentation-capacity-deepening as 'shallow limited-mentation-capacity to deeper limited-mentation-capacity-(as of relative conflation development) effectively heralds post-ideology as ideas and notions are validated/invalidated by their demonstrated ontological-veracity/ontological-pertinence. In order words the supposed ontological-terms of notions and ideas are the basis for their analysis as ontologically-pertinent or impertinent, and so more than just perfunctory analyses constrained by the limiting framework of institutionalised-being-and-craft constructs and setups but at an existentialism/full-depth-of-existential-implications level highlighting the precedingness/supersedingness/ascendency of ontologically-driven analysis over 'habits', 'conventions' and rights-of-precedence/entitlement fallacies. Post-structuralism as such should posit to remedy and supersede the inherent 'conceptual hyperbole' imbibed in the often 'poorly-ontological, non-ontological or metaphysical constructions permeating ideologies' and projected as worldviews, to 'restore existential veracity/ontological-pertinence as the central notion behind worldview construction and representation’, and so beyond just 'present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and anthropological depth with respect to human mentation, meaningfulness and institutional-development–as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies
including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting–as-to-conflatedness/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor and a social world is inherently hampered by a blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superoerogatory–de-mentativity’. Thus approaching a scientific study of the Social on the same operational basis as that of the natural world is necessarily deficient as the latter’s immediacy of concurrent ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superoerogatory–de-mentativity as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the ‘very strength’ of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is this author opinion, is not strong

It must be said that the notion of transcendental enabler with regards to the Social today is rather relatively weak such that critically a lot of the basis for the social sciences today is influenced rather by practice, authority, and more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>, rather than truly ontological-prime-movers-totalitative-framework deterministic ontological ‘projected constructs’. Consequently despite the projected candour, the study of the social is inevitably permeated with ‘intellectual-ontological-bad-faith/inauthenticity’ (unconsciously or consciously), and by this is meant it will be naïve to think that all issues of intellectual disagreements with respect to the study of the social are necessarily in purely logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant constraining of the natural world can do to thinking by mere ontological-prime-movers-totalitative-framework under the rational-empiricism de-mentating/structuring/paradigming is often weakly possible with the Social particularly where there is perceived interest to act otherwise. This is particularly the case with regards to the undermining of social criticism and especially post-structuralism with the intellectual standards of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by ‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> abused as objective bases of intellectual criticism get discarded easily for highly subjective ones); and this author equally holds that a ‘fully emancipated social science’ will only prevail with the requisite pivoting/decentering of understanding as
deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, which should enable the attainment of a suprastructural/beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>—level of social thought involving notional–deprocrypticism as preempting—disjointedness-as-of- reference-of-thought. More like in many ways the level of thought in the natural sciences is wholly divorced from our consciousness-awareness-teleology and is fully transcendental-enabling/sublimating/supererogatory–de-mentativity by confirmatory existence/intrinsic-reality/ontological-veridicality with little or no social-aggregation-enabling but say for human organisational issues and wrong preconceptions induced by social-aggregation-enabling. This arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently strong transcendental-enabling/sublimating/supererogatory–de-mentativity. While in the natural and mathematical sciences the subject-matter by itself is highly transcendental-enabling/sublimating/supererogatory–de-mentativity this is not the case with the subject-matter of the social due to its high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction requiring rather a further strengthening of ontologising rules as of knowledge-notionalisation and utter-ontologising-recomposuring (notional–deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-reference-of-thought) beyond the present just positivistic/rational-empiricism striving social science bringing together profound insight with causal effectiveness. This doesn’t necessarily imply a naïve mimicry of the experimental approach as is often the case it can be argued as prevalent in the psychological sciences, and even in the natural sciences there is need for thorough insight when experimenting like say much of quantum physics is often based on
elaborate abstractness of thought that is merely validated by critical confirmatory experiments. In fact, this author will contend that the overall ‘insightful empirical’ conceptualisation of this paper is actually more profound than catches the eye in a naïve empirical sense that cannot see beyond our positivistic registry-worldview to recognise human successive transcendental states like recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires insight and it is more than just a matter of obtaining results because an experiment has been made which is certainly simplistic as the very existential state of things when disambiguated is actually a more profound notion of experiment. It is interesting to note that this argument on the specific basis of (conscious or unconscious) ontological-bad-faith/inauthenticity for the requisite condition of a ‘fully emancipated social science’ is more than just of circumstantial and idle implication but is rather construed as a de-mentative/structural/paradigmatic notion much like saying it is impossible to have a fully emancipated science in a transitory non-positivism/medievalism to positivistic social-setup still emphasising essences and supranatural causations over a transcendental-enabling/sublimating/supererogatory–de-mentativity of rational-empiricism/positivising based knowledge of intrinsic-reality, as transcendental-enabling/sublimating/supererogatory–de-mentativity positivistic contentions will still be undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity -<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> in the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of reference-of-thought/axiomatic-construct. Likewise, the positivism–procrypticism meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> of social-aggregation-enabling with respect to its social reality subject-matter as of its spurious/remote nature, for a more profound transcendental-
enabling/sublimating/de-mentativity (unlike the relative case with the physical reality subject-matter as immediate) as required for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only credible logic this author can think of is that post-structuralism as one of the major critical theories given its potential ontological vigour has been seen as a threat with a deliberate covert non-intellectual effort to stifle it and limit its influence often having to do with misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one of the central issue with regards to post-structural thinking with respect to other intellectual postures has had to do with the unusually high level of accusations of its proponents of misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather ‘a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis’. Consider in this case one media-driven and popularised argument that Karl Rove ‘we make our own reality’ quote during the Bush mandate, is due to post-structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes-rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical
applications of post-structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity ’ of ‘parodying’ of poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in ontological-good-faith/authenticity.

Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding cure for diseases. This is no more different with post-structural thought which is not a metaphysical/ideological advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the
political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science issues but political economy issues that require a criticism with respect to social choice about the political economy, but this has been usurped uncritically as if of a natural economic allocation mechanism (a falsehood). This author makes this latter point on the belief that knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of speculative thinking allowed to this author in this paper, it is such a proposition together with the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism since the '80s arises out of such (it is herein contended) ‘intellectual triteness’ by such critics particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual standards they have been able to show elsewhere, together with the notion that these have tended to be unusually media driven in inducing a populist effect. Imagination will point to the idea that something much more ‘cynical and non-intellectual’ must be at work but passing for legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment more or less grasping the true implications of a non-medieval positivistic thinking on the whole intellectual, belief system and social-construct, and cynically upholding notions they knew better to be wrong but for their overall sense of preservation of their present and their present interests. This impression can be extended as well with respect to the idea of the social implications of postlogism-/as-of- compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as of its ontological-resolution (aetilogisation/ontological-escalation) in all the successive registry-worldviews given human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. As we can grasp that an aetiologisation/ontological-escalation as resolution for non-positivism/medievalism world postlogism\textsuperscript{7} which is more than just palliative/incidental-in-its-implication with regards to a specific instance or specific instances of notions-and-accusations-of-sorcery for instance, but rather construing the whole non-positivism/medievalism registry-worldview/dimension relative-ontological-incompleteness\textsuperscript{8}—induced,—‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{9}—preconverging/dementing —apriorising-psychologism’ (as of metaphorically-a-million-and-one-instances-and-locales as enabling the possibility of the phenomenon of notions-and-accusations-of-sorcery and other vices-and-impediments\textsuperscript{10} of the state of non-positivism/medievalism and thus requiring de-mentatively/structurally/paradigmatically and comprehensively a positivistic ontological-completeness-of—\textsuperscript{11}reference-of-thought will de-mentatively/structurally/paradigmatically elicit a non-positivism/medievalism world sense of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{12} preservation’ that wouldn’t necessarily construe the social manifestations of notions-and-accusations-of-sorcery with their associated vices-and-impediments\textsuperscript{13} as abstractly and ontologically unwarranted\textsuperscript{14} universally (which we know was actually the case, with the ‘establishment’ idea being that the masses didn’t need to know about such ‘positivistic stuff’ even if such stuff was ontologically-veridical), to ensure its ‘temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{15} preservation’. Likewise an articulation as of aetiologisation/ontological-escalation (ontological-resolution) that is more than just palliative/incidental-in-its-implication with respect to the notion of psychopathy and social psychopathy with regards to a specific instance or specific instances of psychopathy and social psychopathy but by pointing to the bigger picture to the procrypticism registry-worldview’s/dimension’s disjointedness-as-of- reference-of-thought relative-ontological-
incompleteness\(^\text{\textsuperscript{88}}\)-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ — preconverging/dementing\(^\text{\textsuperscript{19}}\) — apriorising-psychologism’ (as enabling the possibility of the phenomenon of psychopathy and social psychopathy as of metaphorically-a-million-and-one-instances-and-locales as well as other vices-and-impediments\(^\text{\textsuperscript{105}}\) of procrypticism de-mentatively/structurally/paradigmatically and comprehensively requiring a notional—deprocrypticism ontological-completeness-of-reference-of-thought will de-mentatively/structurally/paradigmatically elicit a human procrypticism sense of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology\(^\text{\textsuperscript{99}}\) preservation’ that wouldn’t necessarily construe the social manifestations of psychopathy and social psychopathy with their associated vices-and-impediments\(^\text{\textsuperscript{105}}\) as abstractly and ontologically unwarranted \(^{\text{\textsuperscript{103}}}\) universally and such an approach may just be off-putting with regards to the prospective implication for the need for notional—deprocrypticism ontological-completeness-of-reference-of-thought (as intemporal/longness-of-register-of—meaningfulness-and-teleology\(^{\text{\textsuperscript{99}}\}) undermining of procrypticism relative-ontological-incompleteness\(^{\text{\textsuperscript{88}}\})-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ — preconverging/dementing — apriorising-psychologism’ (as the temporal/shortness-of-register-of—meaningfulness-and-teleology\(^{\text{\textsuperscript{99}}\}). Such an articulation equally extends to the idea that notions overlooking vices-and-impediments\(^\text{\textsuperscript{105}}\) associated with psychopathy and equally wrongly implying its associated virtue in the procrypticism registry-worldview are just as of ‘temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ — preconverging/dementing — apriorising-psychologism’ like the disposition to overlook vices-and-impediments\(^\text{\textsuperscript{105}}\) associated with notions-and-accusations-of-sorcery and equally implying the associated virtue in a non-positivism/medievalism setup; and so, as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—
existentialism-form-factor due to their respective relative-ontological-incompleteness\(^\text{18}\) - induced, \(\text{‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’}\) — preconverging/dementing \(\text{‘apriorising-psychologism’}\) with respect to their respective perversion-and-derived \(\text{‘perversion-of-reference-of-thought’}\) \(\text{<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >}\) phenomena. Thus in all registry-worldviews \(\text{‘reference-of-thought, postlogism’}\) \(\text{as-of-}\) compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^\text{19}\) once it is \‘as of socially-functional-and-accordant’\) (beyond the case at childhood where it is accompanied by overt delirium and social \(\text{10}\) universal-transparency\(^\text{20}\) (transparency-of-totalising-entailing, as-to-entailing <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness \(\text{)}\) of the defect) as at adulthood, the postlogism \‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology\(^\text{21}\) in arrogation tends to extend as conjugated-postlogism \‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology\(^\text{22}\) in arrogation involving the temporal elicitation of derived \‘perversion-of-reference-of-thought’ \(\text{<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >}\), and it is thus naïve to construe postlogism\(^\text{23}\) without such a corresponding differentiation of social analysis in the construing/conceptualisation of ontological-veridicality. Now the criticism of populism-driven critiques of post-structuralism is not raised idly, as an exercise that purports to articulate such breadth and depth of novel ideas as this paper does necessarily requires that the authorship effectively assume the profile and presumption that the implied knowledge construct warrants (which obviously every truly intellectual spirit will appreciate for what it is, if not agree with the arguments). Such an articulation is driven by the idea that knowledge as a transcendence-enabling construct is more than just about its craftiness/technique but part and parcel of the intellectual exercise is to articulate
meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced with the evasive nature of quantum theory the physicists never said reality is wrong since it is difficult to understand, likewise it is naïve to imply that the reality reflected by poststructuralism is wrong because it doesn’t quite fit into our ordinary everyday way of thinking (that is exactly the point, our ordinary everyday way of thinking is in want of its further development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-unshackled)!
